Notes to Consolidated Portfolio of Investments

(Unaudited)

(a) Definitions

Unrestricted securities (indicated by ±) are freely marketable securities having readily available market quotations. All other securities are **restricted securities**, which are subject to one or more restriction on resale and are not freely marketable. At December 31, 2009, restricted securities represented approximately **96.4%** of the value of the consolidated investment portfolio.

Notes to Consolidated Portfolio of Investments
(continued)

(b) Investment Valuation Policy

Our investments are carried at fair value in accordance with the Investment Company Act of 1940 (the “1940 Act”) and FASB Accounting Standards Codification™ (ASC) Topic 820, *Fair Value Measurements and Disclosures*. In accordance with the 1940 Act, unrestricted minority-owned publicly traded securities, for which the market quotations are readily available, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date; and restricted publicly traded securities and other privately held securities are valued as determined in good faith by our Board of Directors.

We adopted FASB ASC Topic 820 on April 1, 2008 (see footnote 3 in “Notes to Consolidated Financial Statements,” page 13). ASC Topic 820 provides a framework for measuring the fair value of assets and liabilities along with guidance regarding a fair value hierarchy, which prioritizes information used to measure fair value and the effect of fair value measurements on earnings and provides for enhanced disclosures determined by the level within the hierarchy of information used for valuation. ASC Topic 820 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value but does not expand the use of fair value in any new circumstances.

ASC Topic 820 defines fair value in terms of the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the “exit price”) and excludes transaction costs. Under ASC Topic 820, the fair value measurement also assumes that the transaction to sell an asset occurs in the principal market for the asset or, in the absence of a principal market, the most advantageous market for the asset. The principal market is the market in which the reporting entity would sell or transfer the asset with the greatest volume and level of activity for the asset. In determining the principal market for an asset or liability under ASC, it is assumed that the reporting entity has access to the market as of the measurement date.

(c) Valuation Methodologies

Debt Securities are generally valued on the basis of the price the security would command in order to provide a yield-to-maturity equivalent to the present yield of comparable debt instruments of similar quality. Issuers whose debt securities are judged to be of poor quality and doubtful collectability may instead be valued by assigning major percentage discounts commensurate with the quality of such debt securities. Debt securities may also be valued based on the resulting value from the sale of the business at the estimated fair market value.

Partnership Interests, Preferred Equity and Common Equity including unrestricted marketable securities, which are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date, and restricted marketable securities for which there is a public market, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date adjusted in good faith by our Board of Directors if they deem a discount or premium would be likely or obtainable upon a sale or transfer of our interest. For those without a principal market, the Board of Directors considers the financial condition and operating results of the issuer; the long-term potential of the business of the issuer; the market for and recent sales prices of the issuer’s securities; the values of similar securities issued by companies in similar businesses; the proportion of the issuer’s securities owned by the Company; protective put analysis based on the Black-Scholes option pricing model; the nature and duration of resale restrictions; and the nature of any rights enabling the Company to require the issuer to register restricted securities under applicable securities laws. In determining the fair value of restricted securities, the Board of Directors considers the inherent value of such securities without regard to the restrictive feature and adjusts for any diminution in value resulting from restrictions on resale. Investments, in certain entities that calculate net asset value per share (or its equivalent) and for which fair market value is not readily determinable, are valued using the net asset value per share (or its equivalent, such as member units or ownership interest in partners’ capital to which a proportionate share

of net assets is attributed) of the investment.

(continued)

Equity Warrants are valued on the basis of accepted formulas derived from empirical studies which define the market value of a warrant in relation to the market price of its common stock. These formulas measure the “option value” of a warrant as well as its “exercise value” (the amount, if any, by which the value of the stock exceeds the exercise price of the warrant). In applying such formulas, the market price of the stock is usually discounted to reflect the fact that the stock is restricted and the calculated value of the warrant itself may be discounted (if deemed appropriate) to reflect its restrictive nature. Generally, the option value is excluded if the formula indicates (i) the warrant expires within six months, (ii) the market price of the stock (discounted) is less than one-half of the exercise price of the warrant, or (iii) the market price of the stock (discounted) is more than two times the amount of the exercise price of the warrant.

Notes to Consolidated Financial Statements

(Unaudited)

1. The Company

Capital Southwest Corporation (“CSC” or the “Company”) was organized as a Texas corporation on April 19, 1961. Until September 1969, we operated as a licensee under the Small Business Investment Act of 1958. At that time, we transferred to our wholly-owned subsidiary, Capital Southwest Venture Corporation (“CSVC”) certain assets and our license as a small business investment company (“SBIC”). CSVC is a closed-end, non-diversified investment company of the management type registered under the Investment Company Act of 1940 (the “1940 Act”). Prior to March 30, 1988, we were registered as a closed-end, non-diversified investment company under the 1940 Act. On that date, we elected to become a business development company subject to the provisions of the 1940 Act, as amended by the Small Business Incentive Act of 1980. Because we wholly own CSVC, the portfolios of both entities are referred to collectively as “our,” “we” and “us.” Capital Southwest Management Company (“CSMC”), a wholly-owned subsidiary of CSC, is the management company for CSC and CSVC. CSMC generally incurs all normal operating and administrative expenses, including but not limited to salaries and related benefits, rent, equipment and other administrative costs required for its day-to-day operations.

Our portfolio is a composite of companies in which we have major interests as well as a number of developing companies and marketable securities of established publicly-owned companies. We make available significant managerial assistance to the companies in which we invest and believe that providing material assistance to such investee companies is critical to their business development activities. When appropriate CSMC receives a monthly fixed fee for their management services provided to the portfolio companies.

2. Unaudited Interim Consolidated Financial Statements

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for investment companies. Under rules and regulations applicable to investment companies, we are precluded from consolidating any entity other than another investment company. An exception to this general principle occurs if the investment company has an investment in an operating company that provides services to the investment company. Our consolidated financial statements include our management company.

The financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 6 of Regulation S-X. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K for the year ended March 31, 2009, as filed with the Securities and Exchange Commission (SEC). Certain information and footnotes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted, although we believe that the disclosures are adequate for a fair presentation. The information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the results of operations for the interim periods.

3. Summary of Significant Accounting Policies

Accounting Standards Codification The Financial Accounting Standards Board's (FASB) Accounting Standards Codification™ (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's officially recognized source of authoritative U.S. generally accepted accounting principles (GAAP) applicable to all public and non-public non-governmental entities, superseding existing FASB, American Institute of Certified Public Accountants (AICPA), Emerging Issues Task Forces (EITF) and related literature. Rules and interpretive releases of the SEC under the authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All other accounting literature is considered non-authoritative. The switch to ASC affects the way companies refer to U.S. GAAP in financial statements and accounting policies. Citing particular content in the ASC involves specifying the unique numeric path to the content through the Topic, Subtopic, Section and Paragraph structure.

Fair Value Measurements The Company adopted FASB ASC Topic 820 on April 1, 2008. ASC Topic 820 (1) creates a single definition of fair value, (2) establishes a framework for measuring fair value, and (3) expands disclosure requirements about items measured at fair value.

The Statement applies to both items recognized and reported at fair value in the financial statements and items disclosed at fair value in the notes to the financial statements. The Statement does not change existing accounting rules governing what can or what must be recognized and reported at fair value in the Company's financial statements, or disclosed at fair value in the Company's notes to the financial statements. Additionally, ASC Topic 820 does not eliminate practicability exceptions that exist in accounting pronouncements amended by this Statement when measuring fair value.

Prior to ASC Topic 820, certain measurements of fair value were based on the price that would be paid to acquire an asset, or received to assume a liability (an entry price). FASB ASC Topic 820 clarifies the definition of fair value as the price that would be received from the sale of an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (that is, an exit price). The exit price is based on the amount that the holder of the asset or liability would receive or need to pay in an actual transaction (or in a hypothetical transaction if an actual transaction does not exist) at the measurement date. In some circumstances, the entry and exit price may be the same; however, they are conceptually different.

Fair value is generally determined based on quoted market prices in the active markets for identical assets or liabilities. If quoted market prices are not available, the Company uses valuation techniques that place greater reliance on observable inputs and less reliance on unobservable inputs. In measuring fair value, the Company may make adjustments for risks and uncertainties, if a market participant would include such an adjustment in its pricing.

(continued)

Cash and Cash Equivalents Cash equivalents include all highly liquid investments with an original maturity of three months or less. We maintain cash and cash equivalents at several financial institutions, which at times may not be federally insured or may exceed federally insured limits. We have not experienced any losses in such accounts and believe we are not exposed to any significant credit risks on such accounts.

Segment Information The Company operates and manages its business in a singular segment. As an investment company, the Company invests in portfolio companies in various industries and geographic areas as presented in the portfolio of investments.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Federal Income Taxes CSC and CSVC intend to comply with the requirements of the Internal Revenue Code (IRC) necessary to qualify as regulated investment companies (RICs). By meeting these requirements, they will not be subject to corporate federal income taxes on ordinary income distributed to shareholders. The Company's policy is to retain and pay the 35% corporate tax on realized long-term capital gains. For investment companies that qualify as RICs under the IRC, federal income taxes payable on security gains that the company elects to retain are accrued only on the last day of the tax year, December 31. As discussed in detail in *Note 5 – Income Taxes*, a provision for taxes on long-term capital gains deemed distributed to shareholders in the amount of \$814,503 was recorded for our tax year ended December 31, 2009.

CSMC, a wholly owned subsidiary of CSC, is not a RIC and is required to pay taxes at the current corporate rate.

Deferred Taxes The Company sponsors a qualified defined benefit pension plan which covers its employees and employees of certain of its controlled affiliates. Deferred taxes related to the qualified defined benefit pension plan are recorded as incurred.

Stock-Based Compensation The Company recognizes compensation cost over the straight-line method for all share-based payments granted on or after that date and for all awards granted to employees prior to April 1, 2006 that remain unvested on that date. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options.

Defined Pension Benefits and Other Postretirement Plans The Company is required to, as an employer that sponsors one or more postretirement defined benefit plan(s), (i) recognize the funded status of postretirement defined benefit plans – measured as the difference between the fair value of plan assets and the benefit obligations – in its balance sheet; (ii) recognize changes in the funded status of postretirement defined benefit plans in shareholder's equity in the year in which the changes occur; and (iii) measure postretirement defined benefit plan assets and obligations as of the date of the employer's fiscal year-end. The Company presently uses March 31 as the measurement date for all of its postretirement defined benefit plans.

(continued)

4. Investments

The Company fair values its investments in accordance with GAAP as determined in good faith by our Board of Directors. When available, we base the fair value of our investments on directly observable market prices or on market data derived for comparable assets. For all other investments, inputs used to measure fair value reflect management's best estimate of assumptions that would be used by market participants in pricing the investments in a hypothetical transaction.

The levels of fair value inputs used to measure our investments are characterized in accordance with the fair value hierarchy established by ASC Topic 820, "*Fair Value Measurements and Disclosures*". Where inputs for an asset or liability fall in more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. We use judgment and consider factors specific to the investment in determining the significance of an input to a fair value measurement. While management believes our valuation methodologies are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. The three levels of the fair value hierarchy and investments that fall into each of the levels are described below:

- *Level 1*: Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. We use Level 1 inputs for publicly traded unrestricted securities. Such investments are valued at the closing price for listed securities and at the lower of the closing bid price or the closing sale price for over-the-counter (NASDAQ) securities on the valuation date.
- *Level 2*: Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in non-active markets, quoted prices for similar instruments in active markets and similar data. We did not value any of our investments using level 2 inputs as of December 31, 2009.
- *Level 3*: Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the company's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available. We use Level 3 inputs for measuring the fair value of substantially all of our investments. See "Notes to Portfolio of Investments" (c) on page 11 for the investment policy used to determine the fair value of these investments.

The following fair value hierarchy table sets forth our investment portfolio by level as of December 31, 2009 (in millions):

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

	Fair Value Measurements at Reporting Date Using			
	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	
	Total	(Level 1)	(Level 2)	(Level 3)
Debt	\$ 14.7	\$ -	\$ -	\$ 14.7
Partnership Interests	8.5	-	-	8.5
Preferred Equity	33.6	-	-	33.6
Common Equity	389.9	16.0	-	373.9
Total Investments	\$446.7	\$16.0	\$ -	\$430.7

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

Notes to Consolidated Financial Statements

(continued)

The following table provides a summary of changes in the fair value of investment assets and liabilities measured using Level 3 inputs during the three months ended December 31, 2009 (in millions):

	Fair Value 9/30/2009	Net Unrealized Appreciation (Depreciation)	Net New Investments (Divestitures)	Fair Value 12/31/2009
Debt	\$13.2	\$1.0	\$0.6	\$14.7
Partnership Interest	8.6	(0.1)	-	8.5
Preferred Equity	31.9	1.7	-	33.6
Common Equity	370.7	3.2	-	373.9
Total Investments	\$424.4	\$5.7	\$0.6	\$430.7

The following table provides a summary of changes in the fair value of investment assets and liabilities measured using Level 3 inputs during the nine months ended December 31, 2009 (in millions):

	Fair Value 3/31/2009	Net Unrealized Appreciation (Depreciation)	Net New Investments (Divestitures)	Conversion of Security from Debt to Equity	Fair Value 12/31/2009
Debt	\$8.3	\$6.0	\$1.8	\$(1.3)	\$14.7
Partnership Interest	6.7	(0.2)	2.0	-	8.5
Preferred Equity	16.4	7.7	8.2	1.3	33.6
Common Equity	351.4	24.7	(2.3)	-	373.9
Total Investments	\$382.8	\$38.2	\$9.7	\$-	\$430.7

The total unrealized gains (losses) for the three and nine month periods ended December 31, 2009 included in earnings that related to assets still held at December 31, 2009 were \$5,714,505 and \$38,208,870, respectively

5. Income Taxes

We operate to qualify as a RIC under Subchapter M of the IRC. In order to qualify as a RIC, we must annually distribute at least 90% of our taxable ordinary income, based on our tax year, to our shareholders in a timely manner. Ordinary income includes net short-term capital gains but excludes net long-term capital gains. A RIC is not subject to federal income tax on the portion of its ordinary income and long-term capital gains that are distributed to its shareholders, including “deemed distributions” discussed below. As permitted by the Code, a RIC can designate dividends paid in the subsequent tax year as dividends of current year ordinary income and net long-term gains if those dividends are both declared by the extended due date of the RIC’s federal income tax return and paid to shareholders by the last day of the subsequent tax year. We have distributed or intend to distribute sufficient dividends to eliminate taxable income for our completed tax years. If we fail to satisfy the 90% distribution requirement or otherwise fail to qualify as a RIC in any tax year, we would be subject to tax in such year on all of our taxable income, regardless of whether we made any distributions to our shareholders. Additionally, we are also subject to a nondeductible federal excise tax of 4% if we do not distribute at least 98% of our investment company ordinary

taxable income before the end of our tax year. We have a calendar tax year end of December 31. For the tax years ended December 31, 2009 and 2008, CSC and CSVC qualified to be taxed as RICs. We intend to meet the applicable qualifications to be taxed as a RIC in future years. Management feels it is probable that we will maintain our RIC status for a period longer than one year. However, either company's ability to meet certain portfolio diversification requirements of RICs in future years may not be controllable by such company.

(continued)

A RIC may elect to retain its long-term capital gains by designating them as a “deemed distribution” to its shareholders and paying a federal tax of 35% on the long-term capital gains for the benefit of its shareholders. Shareholders would then report their share of the retained capital gains on their income tax returns as if it had been received and report a tax credit for the tax paid on their behalf by the RIC. Shareholders then add the amount of the “deemed distribution,” net of such tax, to the basis of their shares.

As permitted by the Internal Revenue Code, a RIC can designate dividends paid in the subsequent tax year as dividends of the current year ordinary taxable income and long-term capital gains if those dividends are both declared by extended due date of the RIC’s federal income tax return and paid to shareholders by the last day of the subsequent tax year. For tax years ended December 31, 2009 and 2008, we declared and paid ordinary dividends in the amount of \$2,993,310 and \$12,256,745, respectively.

As a RIC, we are also subject to a nondeductible federal excise tax of 4% if we do not distribute at least 98% of our investment company ordinary taxable income before the end of our tax year. For the tax years ended December 31, 2009 and 2008, we distributed 100% of our investment company ordinary taxable income. Therefore, we have made no tax provisions for income taxes on ordinary taxable income for the tax years ended December 31, 2009 and 2008.

For the tax year ended December 31, 2009, we have estimated net long-term capital gains of \$2,327,150 for tax purposes and \$1,682,616 for book purposes, which we elected to retain and treat as deemed distributions to our shareholders. Likewise, for the tax year ended December 31, 2008, we had net long-term capital gains of \$14,922,751 for tax purposes and \$15,936,644 for book purposes; which we also elected to retain and treat as deemed distributions to our shareholders. In order to make the election to retain capital gains, we incurred federal taxes on behalf of our shareholders in the amount of \$814,502 and \$5,222,964 for the tax years ended December 31, 2009 and 2008, respectively. As of December 31, 2009, we did not have any undistributed long-term capital gains since they are being treated as distributed through the “deemed distribution.”

CSMC, a wholly owned subsidiary of CSC, is not a RIC and is required to pay taxes at the current corporate rate. CSC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain of its wholly owned portfolio companies. Deferred taxes related to the qualified defined pension plan are recorded as incurred.

6. Employee Stock Option Plans

On July 20, 2009, shareholders approved the Company’s 2009 Stock Incentive Plan (the “2009 Plan”), which provides for the granting of stock options to employees and officers of the Company and authorizes the issuance of common stock upon exercise of such options for up to 140,000 shares. All options are granted at or above market price, generally expire up to ten years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five annual installments. Options to purchase 38,750 shares at a price of \$76.74 (market price at the time of the grant) were granted on October 19, 2009 and remain outstanding, thus leaving a total of 101,250 options available for future grant.

The Company previously granted stock options under its 1999 Stock Option Plan (the “1999 Plan”), as approved by shareholders on July 19, 1999. The 1999 Plan expired on April 19, 2009. Options previously made under the Company’s 1999 Stock Option Plan and outstanding on July 20, 2009 continue in effect governed by provisions of the 1999 plan. All options granted under the 1999 Plan were granted at or above market price, generally expire up to ten years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five to ten annual installments.

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

Notes to Consolidated Financial Statements

(continued)

We recognize compensation cost over the straight-line method for all share-based payments granted on or after that date and for all awards granted to employees prior to April 1, 2006 that remain unvested on that date. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. Accordingly, for the quarter and nine months ended December 31, 2009, we recognized compensation expense of \$190,652 and \$473,703, respectively.

As of December 31, 2009, the total remaining unrecognized compensation cost related the 2009 Plan and 1999 Plan non-vested stock options was \$2,871,764, which will be amortized over the weighted-average service period of approximately 4.2 years. The following table summarizes the 2009 Plan and the 1999 Plan price per option at grant date using the Black-Scholes pricing model:

Date of Issuance	Black-Scholes Pricing Model Assumptions				
	Weighted Average Fair Value	Expected Dividend Yield	Risk-Free Interest Rate	Expected Volatility	Expected Life (in years)
<u>2009 Plan</u>					
October 19, 2009	\$ 25.36	1.04%	2.36%	37.6%	5
<u>1999 Plan</u>					
July 30, 2008	\$ 29.93	0.62%	3.36%	20.2%	5
July 21, 2008	\$ 27.35	0.67%	3.41%	20.2%	5
July 16, 2007	\$ 41.78	0.39%	4.95%	19.9%	5
July 17, 2006	\$ 33.05	0.61%	5.04%	21.2%	7
May 15, 2006	\$ 31.28	0.64%	5.08%	21.1%	7

The following table summarizes activity in the 2009 Plan and the 1999 Plan as of December 31, 2009:

	Number of shares	Weighted-Average Exercise Price
<u>2009 Plan</u>		
Balance at March 31, 2009	–	\$ –
Granted	38,750	76.74
Exercised	–	–
Canceled	–	–
Balance at December 31, 2009	38,750	\$76.74
<u>1999 Plan</u>		
Balance at March 31, 2009	107,900	\$114.78
Granted	–	–
Exercised	–	–
Canceled	–	–
Balance at December 31, 2009	107,900	\$114.78
Combined Balance at December 31, 2009	146,650	\$104.72

Notes to Consolidated Financial Statements

(continued)

At December 31, 2009, the range of exercise prices and weighted-average remaining contractual life of outstanding options was \$65.00 to \$152.98 and 4.2 years, respectively. The number of options exercisable under the 2009 Plan and the 1999 Plan, at December 31, 2009, was 35,960 with a weighted-average exercise price of \$110.30. No options were exercised during the nine months ended December 31, 2009.

7. Summary of Per Share Information

	Three Months Ended		Nine Months Ended	
	December 31		December 31	
	2009	2008	2009	2008
Investment income	\$.68	\$ 2.74	\$ 1.34	\$ 3.42
Operating expenses	(.21)	(.20)	(.59)	(.59)
Interest expense	–	–	–	–

Net increase (decrease) in unrealized appreciation of investments	.84	(17.94)	10.80	(26.29)
Treasury stock repurchase *	–	–	–	1.40
Change in pension plan funded status	–	–	(.07)	–
Stock option expense	.05	.04	.13	.10
Increase (decrease) in net asset value	.73	(15.06)	11.01	(22.41)
Net asset value:				
Beginning of period	121.26	142.74	110.98	150.09
End of period	\$121.99	\$127.68	\$121.99	\$127.68
Shares outstanding at end of period (000s omitted)	3,742	3,742	3,742	3,742

* Net increase is due to purchases of Common Stock at prices less than beginning period net asset value.

8. Contingencies and Commitments

From time to time the Company may be liable for claims against its portfolio companies. We do not believe the effects of such claims would have a material impact on our results of operations and financial condition.

The Company has future commitments, subject to specific conditions, to invest up to \$5,061,482 in six portfolio companies.

(continued)

9. New Authoritative Accounting Guidance

As discussed in *Note 3 – Significant Accounting Policies*, on July 1, 2009, the Accounting Standards Codification became FASB's officially recognized source of authoritative U.S. generally accepted accounting principles applicable to all public and non-public non-governmental entities, superseding existing FASB, AICPA, EITF and related literature. Rules and interpretive releases of the SEC under the authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All other accounting literature is considered non-authoritative. The switch to ASC affects the way companies refer to U.S. GAAP in financial statements and accounting policies. Citing particular content in the ASC involves specifying the unique numeric path to the content through the Topic, Subtopic, Section and Paragraph Structure.

New authoritative accounting guidance under ASC Topic 715, "Compensation – Retirement Benefits," provides guidance related to an employer's disclosures about plan assets of defined benefit pension or other post-retirement benefit plans. Under ASC Topic 715, disclosures should provide users of financial statements with an understanding of how investment allocation decisions are made, the factors that are pertinent to an understanding of investment policies and strategies, the major categories of plan assets, the inputs and valuation techniques used to measure the fair value of plan assets, the effect of fair value measurements using unobservable inputs on changes in plan assets for the period and significant concentrations of risk within plan assets. The disclosures required by ASC Topic 715 will be included in our financial statements beginning with the financial statements for the year ended March 31, 2010.

New authoritative accounting guidance (Accounting Standards Update No. 2009-5) under ASC Topic 820 provides guidance for measuring the fair value of a liability in circumstances in which a quoted price in an active market for the identical liability is not available. In such instances, a reporting entity is required to measure fair value utilizing a valuation technique that uses (i) the quoted price of the identical liability when traded as an asset, (ii) quoted prices for similar liabilities when traded as assets, or (iii) another valuation technique that is consistent with the existing principles of ASC Topic 820, such as an income approach or market approach. The new authoritative guidance also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of the liability. The foregoing new authoritative accounting guidance under ASC Topic 820 became effective for our financial statements beginning October 1, 2009 and did not have a significant impact on our financial statements.

Further new authoritative accounting guidance (Accounting Standards Update No. 2009-12) under ASC Topic 820 provides guidance for measuring the fair value of investments in certain entities that calculate net asset value per share or its equivalent; provided that the investment does not have a readily determined fair value and the net asset value is calculated in a manner that is consistent with ASC Topic 946, "Financial Services – Investment Companies," as of the reporting entities measurement date, including the measurement of all or substantially all of the underlying investments of the investee in accordance with Topic 820. In such instances, a reporting entity is permitted to estimate the fair value of an investment using the net asset value per share. The disclosures required by ASU 2009-12 became effective for our financial statements for the quarter ended December 31, 2009 and did not have a significant impact on our financial statements.

10. Subsequent Events

The Company has evaluated all subsequent events through February 4, 2010, the date of the filing of this Form 10-Q.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements, and notes thereto, for the year ended March 31, 2009, included in the 2009 Form 10-K. Operating results for the three and nine months ended December 31, 2009 are not necessarily indicative of the results for the year ended March 31, 2010 or any future period.

Forward-Looking Statements

The information contained herein may contain "forward-looking statements" based on our current expectations, assumptions and estimates about us and our industry. These forward-looking statements involve risks and uncertainties. Words such as "believe," "anticipate," "estimate," "expect," "intend," "plan," "will," "may," "might," "could," other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of several factors more fully described in "Risk Factors" and elsewhere in this Form 10-Q, and in our Form 10-K for the year ended March 31, 2009. The forward-looking statements made in this Form 10-Q related only to events as of the date on which the statements are made. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Results of Operations

Net asset value at December 31, 2009 was \$456,445,923, equivalent to \$121.99 per share. Assuming reinvestment of all dividends and tax credits on retained long-term capital gains, the December 31, 2009 net asset value reflects a decrease of 3.4% during the past twelve months.

	December 31, 2009	December 31, 2008
Net assets	\$456,455,923	\$477,738,322
Shares outstanding	3,741,638	3,741,638
Net assets per share	\$121.99	\$127.68

The composite measure of our financial performance in the Consolidated Statements of Operations is captioned "Increase (decrease) in net assets from operations" and consists of three elements. The first is "Net investment income," which is the difference between our income from interest, dividends and fees and our combined operating and interest expenses, net of applicable income taxes. The second element is "Net realized gain (loss) on investments," which is the difference between the proceeds received from disposition of portfolio securities and their stated cost. The third element is the "Net increase (decrease) in unrealized appreciation of investments," which is the net change in the market or fair value of our investment portfolio, compared with stated cost. It should be noted that the "Net realized gain (loss) on investments" and "Net increase (decrease) in unrealized appreciation of investments" are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from "unrealized" to "realized." Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Net Investment Income

Interest income of \$773,076 for the nine months ended December 31, 2009 decreased from \$1,052,625 for the nine months ended December 31, 2008 as a result of lower interest rates, decrease in excess cash, and the sale of unrestricted marketable securities in October 2008. During the nine months ended December 31, 2009 and 2008, we recorded dividend income from the following sources:

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(continued)

	Nine Months Ended December	
	2009	2008
Alamo Group Inc.	\$ 509,454	\$ 509,454
CapitalSouth Partners	20,528	20,519
Dennis Tool Company	33,333	37,499
Encore Wire Corporation	245,205	245,205
Heelys, Inc.	0	9,317,310
Kimberly-Clark Corporation	0	89,529
PETsMart, Inc.	0	18,000
The RectorSeal Corporation	1,877,870	480,000
TCI Holdings, Inc.	60,953	60,953
The Whitmore Manufacturing Company	469,467	120,000
Other	0	51,039
	\$3,216,810	\$10,949,508

Net Realized Gain on Investments

Net realized gains on investments for the nine months ended December 31, 2009 totaled \$1,639,995 before tax provisions while net realized gains on investments for the nine months ended December 31, 2008 totaled \$15,936,644.

During the nine months ended December 31, 2009, we sold all of our shares of Dennis Tool Company generating proceeds of \$4,763,416, which does not include an additional \$659,361 held in escrow; resulting in a net realize gain of \$1,433,472 before tax provisions. In addition, we received \$206,522 from Essex Capital Corporation representing a contingent payment in connection with a previous investment in Pharma Fab, Inc. that was written off in 2007.

Net Increase (Decrease) in Unrealized Appreciation of Investments

Set forth in the following table are the significant increases and decreases in unrealized appreciation by portfolio company:

	Three Months Ended December 31		Nine Months Ended December 31	
	2009	2008	2009	2008
Alamo Group Inc.	\$2,830,300	\$(3,537,875)	\$14,151,500	\$(14,859,075)
All Components, Inc.	1,000,000	(2,399,999)	7,612,999	(9,599,999)
Balco, Inc.	–	–	1,400,000	1,500,000
Encore Wire Corporation	(4,086,750)	6,130,125	4,086,750	10,216,875
Heelys, Inc.	465,866	(16,305,293)	4,285,963	(16,305,293)
Media Recovery, Inc.	1,900,000	(3,600,000)	(1,100,000)	(9,100,000)
Palm Harbor Homes, Inc.	(2,984,947)	(9,818,901)	(2,984,947)	(5,891,341)
The RectorSeal Corporation	5,300,000	(4,200,000)	2,600,000	(16,900,000)
The Whitmore Manufacturing Company	–	(1,000,000)	2,400,000	(1,000,000)

During the nine months ended December 31, 2009, the value of our investments increased by \$40,419,753. The largest increases in unrealized appreciation are attributable to Alamo Group, Inc., which increased \$14,151,500; Heelys, Inc., which increased \$4,285,963; Encore Wire Corporation, which increased \$4,086,750, all due to an increase in their respective stock prices; and All Components, Inc., which increased \$7,612,999 as a result of debt

reduction on its senior credit facility. Offsetting the increases were a \$2,984,947 reduction in Palm Harbor Homes, Inc. due to a decrease in their stock price; and a \$1,100,000 reduction in Media Recovery, Inc. caused by slowdowns in segments of their business.

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(continued)

Portfolio Investments

During the quarter ended December 31, 2009, we made investments of \$753,000 in existing portfolio companies.

We have agreed, subject to certain conditions, to invest up to \$5,061,482 in six portfolio companies.

Financial Liquidity and Capital Resources

At December 31, 2009, we had cash and cash equivalents of approximately \$4.7 million. Pursuant to Small Business Administration (SBA) regulations, cash and cash equivalents of \$2.6 million held by Capital Southwest Venture Corporation (CSVC) may not be transferred or advanced to us without the consent of the SBA. Under current SBA regulations and subject to the SBA's approval of its credit application, CSVC would be entitled to borrow up to \$20.6 million. With the exception of a capital gain distribution made in the form of a distribution of the stock of a portfolio company in the fiscal year ended March 31, 1996, we have elected to retain all gains realized during the past 40 years. Retention of future gains is viewed as an important source of funds to sustain our investment activity. Approximately \$16.0 million of our investment portfolio is represented by unrestricted publicly-traded securities, and represent a source of liquidity.

Funds to be used by us for operating or investment purposes may be transferred in the form of dividends, management fees or loans from The RectorSeal Corporation and The Whitmore Manufacturing Company, wholly-owned portfolio companies, to the extent of their available cash reserves and borrowing capacities.

Management believes that our cash and cash equivalents and cash available from other sources described above are adequate to meet our expected requirements. Consistent with our long-term strategy, the disposition of investments from time to time may also be an important source of funds for future investment activities.

Application of Critical Accounting Policies and Accounting Estimates

There have been no changes during the quarter ended December 31, 2009 to the critical accounting policies or the areas that involve the use of significant judgments and estimates we described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2009.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

We are subject to financial market risks, including changes in marketable equity security prices. We do not use derivative financial instruments to mitigate any of these risks.

Our investment performance is a function of our portfolio companies' profitability, which may be affected by economic cycles, competitive forces, foreign currency fluctuations and production costs including labor rates, raw material prices and certain commodity prices. Most of the companies in our investment portfolio do not hedge their exposure to raw material and commodity price fluctuations. However, the portfolio company with the greatest exposure to foreign currency fluctuations generally hedges its exposure. All of these factors may have an adverse effect on the value of our investments and on our net asset value.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

(continued)

Our investment in portfolio securities includes fixed-rate debt securities which totaled \$14,687,432 at December 31, 2009, equivalent to 3.3% of the value of our total investments. Generally, these debt securities are below investment grade and have relatively high fixed rates of interest; therefore, minor changes in market yields of publicly-traded debt securities have little or no effect on the values of debt securities in our portfolio and no effect on interest income. Our investments in debt securities are generally held to maturity and their fair values are determined on the basis of the terms of the debt security and the financial condition of the issuer.

A portion of our investment portfolio consists of debt and equity securities of private companies. We anticipate little or no effect on the values of these investments from modest changes in public market equity valuations. Should significant changes in market valuations of comparable publicly-owned companies occur, there may be a corresponding effect on valuations of private companies, which would affect the value and the amount and timing of proceeds eventually realized from these investments. A portion of our investment portfolio also consists of restricted common stock of publicly-owned companies. The fair values of these restricted securities are influenced by the nature of applicable resale restrictions, the underlying earnings and financial condition of the issuers of such restricted securities and the market valuations of comparable publicly-owned companies. A portion of our investment portfolio also consists of unrestricted, freely marketable common stock of publicly-owned companies. These freely marketable investments, which are valued at the public market price, are directly exposed to equity price risks in that a change in an issuer's public market equity price would result in an identical change in the fair value of our investment in such security.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the Chairman of the Board and President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934). Based on that evaluation, the Chairman of the Board and President and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that the information required to be disclosed is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and is accumulated and communicated to management, including the Chairman of the Board and President and Chief Financial Officer, as appropriate, to allow timely decisions regarding such required disclosure.

During the fiscal quarter ended December 31, 2009, there were no changes to the internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are currently the subject of certain legal actions. In our judgment, none of the lawsuits currently pending against us, either individually or in the aggregate, is likely to have a material adverse effect on our business, results of operations, or financial position.

We, Capital Southwest Corporation and CSVC, have been named in a lawsuit filed on August 27, 2007 in the United States District Court of the Northern District of Texas, Dallas Division, against Heelys, Inc. (“Heelys”) and their Chief Executive Officer, Chief Financial Officer, the directors who signed their registration statement with the Securities and Exchange Commission in connection with their December 7, 2006 initial public offering (“IPO”), and their underwriters for the IPO. The complaint alleges violations of Sections 11 and 15 of the Securities Act of 1933 and the plaintiffs are seeking compensatory damages in an unspecified amount, as well as reasonable costs and expenses incurred in the action, including counsel fees and expert fees. Similar suits were also filed in 2007 and 2008 in the United States District Court of the Northern District of Texas making substantially similar allegations under Sections 11, 12 and 15 of the Securities Act of 1933, and seeking substantially similar damages.

These lawsuits were transferred to a single judge, and consolidated into a single action, with a consolidated complaint filed on March 11, 2008. During a mediation conducted by the Hon. Nicholas H. Politan (ret.), Plaintiffs and Defendants reached a settlement pursuant to which Defendants will pay Plaintiffs and a proposed plaintiff settlement class a total of \$7.5 million. Heelys, Inc. also reached an agreement in principal with its insurers for their insurance policies to fund the majority of this settlement amount. On July 31, 2009, the Court preliminarily approved the settlement and scheduled a final fairness hearing for November 17, 2009 to consider final approval of the settlement. On November 17, 2009, the federal judge presiding over the consolidated securities class action approved the settlement and signed a Final Judgment and Order of Dismissal with prejudice with respect to the lawsuit.

Heelys, Inc., its former Chief Executive Officer, its former Chief Financial Officer, and its directors who signed the Company's registration statement filed with the Securities and Exchange Commission in connection with its December 7, 2006 initial public offering (the "IPO")—along with us, Capital Southwest Corporation and CSVC, and the underwriters for the Heelys, Inc. IPO—are defendants in a lawsuit originally filed on May 16, 2008 by individual shareholder Carl Dick in the County Court of Law No. 1, Dallas County, Texas. This lawsuit asserts claims that are substantially similar to those asserted in the consolidated class action described above. The Plaintiff's second petition alleges violations of Sections 11, and 15 of the Securities Act of 1933, Sections 33(A), (C), and (F) of the Texas Securities Act and Section 27.01 of the Texas Business and Commerce Code. Defendants withdrew their previously-filed special exceptions to Plaintiff's petition seeking to have all claims dismissed on August 21, 2009. Plaintiff and Defendants agreed to settle this case for \$5.25 million. Heelys' insurance company paid approximately \$2.0 million of the settlement amount, and Heelys paid the remainder. Pursuant to the settlement agreement, the lawsuit was dismissed with prejudice on September 18, 2009.

Item 1A. Risk Factors

There have been no material changes to our risk factors disclosed in Item 1A, “Risk Factors”, in our Annual Report on Form 10-K for the fiscal year ended March 31, 2009.

Item 6. Exhibits

(a) Exhibits

Exhibit 31.1- Certification of Chairman of the Board and President required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), filed herewith.

Exhibit 31.2- Certification of Chief Financial Officer required by Rule 13a-14(a) or Rule 15d-14(a) of the Exchange Act, filed herewith.

Exhibit 32.1- Certification of Chairman of the Board and President required by Rule 13a-14(b) or Rule 15d-14(b) of the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code, furnished herewith.

Exhibit 32.2- Certification of Chief Financial Officer required by Rule 13a-14(b) or Rule 15d-14(b) of the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code, furnished herewith.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
