Item 5.02(e).

Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On May 30, 2008, the Compensation Committee (the Committee) of the Board of Directors of Simtek Corporation (the Company) adopted an Executive Incentive Compensation Plan (the Plan) pursuant to which participating executive officers of the Company will be eligible to earn an annual cash bonus based on the achievement of certain predefined goals and objectives relating to the Company. The goal of the Plan is to use effectively defined and managed compensation to enable the Company to effectively recruit, reward and retain key executives. The material terms of the Plan are described below.

Under the Plan, each executive officer has a target incentive amount based on a specified percentage of his annual base salary (prorated in the case of an executive not employed for the full year). The Plan contains the following target incentive amounts for the named executive officers for 2008:

	<u>2008 Base Salary</u>	<u>Target Incentive (% of Base Salary)</u>
Harold Blomquist	\$325,000	50%
Brian Alleman	\$225,000	50%
Ronald Sartore	\$225,000	33%

The remaining participants have target incentive amounts at 50% of their base salaries. Upon completion of 100% of an executive's goals against which he is measured, that executive will be eligible to earn the amount specified as his target incentive. A lump sum payment under the Plan will be paid in or around March, 2009.

The determination of actual bonus amounts will be based on the following factors:

.

On Time Delivery

.

Product Revenue

.

Ex-item Net Income

.

R&D Points

.

Design Win Points

.

Cash Position

.

Gross Profit Margin %

.

Failure Analysis Response Time

.

Business Development Initiatives

.

Discretionary Incentive

Each criteria is assigned a minimum threshold value that once achieved begins to contribute to the executive's earned incentive compensation. Certain factors such as strategic initiatives are inherently variable and the Committee will exercise discretion in the final determination of their value. In addition, the Committee will use its discretion in setting the final incentive compensation payout amounts. Each executive's earned incentive compensation will then be subject to a multiplier based on the Company's adjusted net income. The multiplier will be either zero (in which case there will be no incentive compensation paid), 1.0 or 1.25.

The description of the Plan is qualified in its entirety by the actual terms of the Plan, filed as Exhibit 10.1 to this Current Report on Form 8-K, which is incorporated herein by reference.
