INFORMATION STATEMENT

WE ARE NOT ASKING YOU FOR A PROXY, AND YOU ARE REQUESTED NOT TO SEND US A PROXY.

This Information Statement is being mailed on or about October 26, 2004, to the stockholders of record of VitaCube Systems Holdings, Inc., at the close of business on October 15, 2004 (the "Record Date"). This Information Statement is being sent to you for information purposes only. No action is requested or required on your part.

This Information Statement is being furnished to you to inform you of the adoption of resolutions by written consent by the holders of a majority of the outstanding shares of our common stock. The resolutions adopted by the majority stockholders give us the authority to take the following actions:

1. To effectuate a 1-for-5 reverse stock split with respect to each share of our common stock, with no change in the number of authorized shares of common stock.
2. To amend our 2003 Incentive Stock Plan (the "Plan") to increase the number of shares of common stock eligible for awards under the Plan from 4,000,000 pre-split (800,000 post-split) to 5,000,000 pre-split (1,000,000 post-split) shares.

These actions were approved by our board of directors on October 15, 2004, and approved by the majority stockholders on October 15, 2004. The actions will not become effective until at least 20 days after the mailing of this Information Statement to our stockholders.

Under Nevada General Corporation Law, action by stockholders may be taken without a meeting, without prior written notice, by written consent of the holders of the outstanding stock, having not less than the minimum number of votes that would be necessary to authorize the action at a meeting at which all shares entitled to vote thereon were present and voted. Sanford D. Greenberg, our CEO, president and a director, and Warren Cohen, a former director, who together own 59% of our common stock, approved the actions by written consent. Thus, the actions were approved and no other vote or stockholder action is required.

As of the Record Date, we had 32,670,165 shares of our common stock outstanding. Each share of common stock is entitled to one vote.

The expenses of mailing this Information Statement will be borne by the Company, including expenses in connection with the preparation and mailing of this Information Statement. We contemplate that brokerage houses, custodians, nominees, and fiduciaries will forward this Information Statement to the beneficial owners of our common stock held of record by these persons, and we will reimburse them for their reasonable expenses incurred in this process.

Only one Information Statement is being delivered to multiple stockholders sharing an address unless we have received contrary instructions from one or more of the stockholders. We will undertake to deliver promptly, upon written or oral request, a separate copy of the Information Statement to a stockholder at a shared address to which a single copy of the Information Statement was delivered. You may make written or oral request by sending a written notification to our principal executive offices stating your name, your shared address, and the address to which we should direct the additional copy of the Information Statement or by calling our principal executive offices. If multiple stockholders

sharing an address have received one copy of this Information Statement and would prefer us to mail each stockholder a separate copy of future mailings, you may send notification to or call our principal executive offices. Additionally, if current stockholders with a shared address receive multiple copies of this Information Statement and would prefer us to mail one copy of future mailings to stockholders at the shared address, notification of such request may also be made by mail or telephone to our principal executive offices.

APPROVAL OF THE REVERSE STOCK SPLIT

On October 15, 2004, the board of directors, subject to stockholder approval, and the majority stockholders by written consent in lieu of a special meeting approved a 1-for-5 reverse stock split of our common stock. The reverse stock split will become effective upon the filing of a certificate with the Nevada Secretary of State, which filing will not occur until at least 20 days after the mailing of this Information Statement to our stockholders. The board of directors was given the discretion to determine the timing of the filing of the certificate with the Nevada Secretary of State.

Reasons for the Reverse Stock Split

The reason for the reverse stock split is to increase the per share price of our common stock. The Company believes that if it is successful in maintaining a higher stock price, it will help generate interest in the Company among investors and thereby assist us in raising future capital to fund our operations and increase liquidity for our stockholders. No assurance can be given, however, that the market price of our common stock will rise in proportion to the reduction in the number of outstanding common stock resulting from the reverse stock split.

Effect of the Reverse Split

Upon the effective date of the reverse stock split, each five currently outstanding shares of common stock will automatically convert into one share of common stock and the total number of shares of our common stock outstanding will be reduced from 32,670,165 shares to approximately 6,534,033

Any fractional share resulting from the reverse stock split will be rounded to one share. Each stockholder's percentage ownership interest in the Company and proportional voting power will remain unchanged after the reverse stock split except for minor changes and adjustments that will result from rounding fractional shares into whole shares. The rights and privileges of the holders of common stock will be substantially unaffected by the reverse stock split.

The total number of shares of common stock authorized by us is 50,000,000 shares. The number of authorized shares will not be affected by the reverse stock split. Thus, the reverse stock split will result

in additional unissued shares. The stockholders may be diluted to the extent that any of the authorized but unissued shares are subsequently issued.

All issued and outstanding options, warrants, and convertible securities will be appropriately adjusted for the reverse stock split automatically on the effective date of the reverse stock split.

The reverse stock split may result in some stockholders holding "odd lots" of less than 100 shares of common stock. Brokerage commissions and other costs of transactions in odd lots may be higher, particularly on a per share basis, than the costs of transactions in even multiples of 100 shares.

After the reverse stock split, stockholders are not required to obtain new or replacement share certificates. After the effective date of the reverse stock split, stockholders of record on the effective date of the reverse stock split, may contact the Company's transfer agent to exchange their existing certificates for new certificates representing the number of post-reverse stock split shares. Until the stockholder forwards a completed letter of transmittal, together with certificates representing said stockholder's shares of pre-reverse stock split common stock to the transfer agent and receives in return a new certificate representing shares of post-reverse stock split common stock, such stockholder's certificate will be deemed equal to the number of whole shares of post-reverse stock split common stock to which such stockholder is entitled as a result of the reverse stock split.

Certain Federal Income Tax Consequences

The following discussion describes certain material federal income tax considerations relating to the reverse stock split. This discussion is based upon the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), existing and proposed regulations thereunder, judicial decisions, and current administrative rules and practices, all as amended and in effect as of the date hereof. Any of these authorities could be repealed, overruled or modified at any time. Any such change could be retroactive and, accordingly, could cause the tax consequences to vary substantially from the consequences described in this Information Statement. No ruling from the Internal Revenue Service with respect to the matters discussed in this Information Statement has been requested, and there is no assurance that the Internal Revenue Service will agree with the conclusions set forth in this discussion.

This discussion may not address federal income tax consequences that may be relevant to particular stockholders in light of their personal circumstances or stockholders who may be subject to special treatment under the federal income tax laws. This discussion also does not address any tax consequences under state, local, or foreign laws.

The reverse stock split is intended as a tax-free recapitalization to the Company and its stockholders, except as described below. Hence, stockholders will not recognize any gain or loss for federal income tax purposes as a result of the reverse stock split, except as described below. The holding period for such shares of stock after the reverse stock split will include the holding period of shares of stock before the reverse stock split, provided that such shares of stock are held as a capital asset as of the effective date of the reverse stock split. The total adjusted basis of the shares of common stock after the reverse stock split will be the same as the total adjusted basis of the shares of stock before the reverse stock split, excluding the basis of fractional shares. The adjusted basis for each share will increase 5-for-1.

The federal income tax treatment of the receipt of a whole share of common stock in lieu of a fractional share is not clear and may result in tax liability not material in amount in view of the low value of such fractional interest.

**AMENDMENT TO THE 2003 STOCK INCENTIVE PLAN TO INCREASE
THE NUMBER OF SHARES SUBJECT TO THE PLAN**

The Company's 2003 Stock Incentive Plan (the "Plan") was adopted by the board of directors on July 1, 2003, and ratified by the stockholders effective July 1, 2003. On October 15, 2004, the board of directors, subject to stockholder approval, approved an amendment to increase the number of shares reserved for issuance under the Plan from 4,000,000 pre-split (800,000 post-split) to 5,000,000 pre-split (1,000,000 post-split). On October 15, 2004, the majority stockholders by written consent in lieu of a special meeting of stockholders approved the amendment to the Plan. The amendment will take effect on the 20th day following the mailing of this Information Statement to stockholders.

Explanation

The board of directors believes the amendment to the Plan is necessary to continue to attract capable and qualified employees, officers, directors, independent consultants and other advisers to the Company.

Summary of the Plan

Purpose

The general purpose of the Plan is to attract and retain directors, officers, other employees and consultants of the Company and its subsidiaries, to provide such persons to continue in the long-term service of the Company, and to furnish incentives to such persons to become stockholders of the Company.

Administration

The Plan is administered by (i) the Compensation Committee (the "Committee") of the board of directors (comprised exclusively on non-employee directors) with respect to grants other than grants to non-employee directors (ii) with the board of directors with respect to grants to non-employee directors.

Shares Available

The number of shares of the Company's common stock available for issuance under the Plan is a maximum of 4,000,000 pre-split (800,000 post-split) shares. Upon the effective date of the amendment, the number of shares of common stock available under the Plan will increase to 5,000,000 pre-split (1,000,000 post-split) shares.

Eligibility

The Plan provides that options may be granted to employees (including officers and directors who are also employees of the Company or a subsidiary, members of the board of directors who are not officers or employees of the Company, and consultants and other independent advisers who provide services to the Company or a subsidiary). The Committee selects the optionees and determines the number of shares subject to each award and the time or times in which shares become exercisable or vest under the award.

Stock Option Awards

Under the Plan, incentive stock options to purchase shares of common stock ("ISOs"), as defined in Section 422 of the Internal Revenue Code, may be granted only to employees of the Company and its subsidiaries. Non-statutory options to purchase shares of common stock ("NSOs"), and restricted stock awards, may be granted to employees, non-employee directors, and consultants. ISOs granted

under the Plan must have an exercise price of not less than 100% of the fair market value of the common stock on the date of the grant (or, in the case of an ISO granted to holders of more than 10% of the voting power of the Company, must have an exercise equal to 110% of the fair market value). NSOs may be granted at less than fair market value at the discretion of the Committee. The Committee may permit the exercise price of options to be paid in cash, check, non-forfeitable shares of common stock, a recourse promissory note, or any other consideration that the Committee may deem appropriate, or any combination of the above payment methods.

Restricted Stock Awards

The Plan also provides for the award of shares of restricted stock, subject to restrictions as determined by the Committee, which may include continued employment or attainment of performance goals.

Early Termination of Stock Options

Unless otherwise provided in specific stock option agreement, if an optionee's employment or service with the Company is terminated for cause, all options will terminate immediately. If termination is not for cause, the options will be exercisable to the extent such options were exercisable on the date of termination, for a period of three months following termination.

Term of Options

Options granted under the Plan may have a term of up to ten years.

Transferability of Options

Options granted that are ISOs may not be transferred in any manner other than by will or by the laws of descent and distribution and may be exercised during the lifetime of the optionee only by the optionee. Options granted that are NSOs may be transferred subject to the Plan only with the written consent of the Company's board of directors.

Other Provisions

The option agreement may contain such other terms, provisions and conditions not inconsistent with the Plan as may be determined by the Committee.

Changes in Capitalization

If any change is made to the common stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares, or other change affecting the outstanding common stock as a class without the Company's receipt of consideration, appropriate adjustment will be made to the maximum number and/or class of securities issuable under the Plan and the number and/or class of securities and the option price per share in effect under each outstanding stock option under the Plan. Such adjustments to the outstanding options are to be effected in a manner that precludes the enlargement or dilution of rights and benefits under such options. Adjustments determined by the Committee are final, binding, and conclusive.

Change in Control

On the occurrence of certain events, including a merger, liquidation or sale of substantially all of the assets of the Company, all outstanding options under the Plan automatically vest and restrictions on any restricted stock award automatically lapse, and such shares of restricted stock become non-forfeitable. Unless the agreement governing the change in control provides otherwise, upon

consummation of the change in control, the Plan will terminate and all outstanding awards will terminate if not exercised prior to the consummation of the change in control.

Amendment and Termination of the Plan

The Committee has complete and exclusive power and authority to amend or modify the Plan in any or all respects, unless stockholder approval of such amendment or modification is required under applicable law. No such amendment or modification may adversely affect the rights and obligations with respect to awards outstanding under the Plan at the time of such amendment or modification unless the participant consents to such amendment or modification.

Federal Tax Information

The Company's obligation to deliver shares of common stock upon the exercise of stock options under the Plan is subject to the satisfaction of all-applicable federal, state, and local income and employment tax withholding requirements. The following is a summary of the effect of federal income taxation upon the optionee and the Company with respect to the grant and exercise of awards under the Plan.

An optionee who is granted an ISO will not recognize taxable income either at the time the option is granted or upon its exercise, although the exercise may subject the optionee to the alternative minimum tax when the ISO is exercised. Upon the sale or exchange of the shares more than two years after the grant of option and one year after the exercise of the option, any gain or loss will be treated as long-term capital gain or loss. If these holding periods are not satisfied, the optionee will recognize ordinary income at the time of sale or exchange equal to the difference between the exercise price and the lower of (i) the fair market value of the shares at the date of the option exercise minus the exercise price or (ii) the amount realized on disposition minus the exercise price. The Company will be entitled to a tax deduction equal to the amount taxable as ordinary income to the optionee. Any gain or loss recognized on such a premature disposition of the shares in excess of the amounts treated as ordinary income will be characterized as long-term or short-term capital gain or loss depending on the holding period.

An optionee who is granted an NSO will not recognize any taxable income at the time he or she is granted an NSO. However, upon its exercise, the optionee generally will recognize taxable income generally measured as the excess of the then fair market value of the shares purchased over the exercise price. Upon resale of such shares by the optionee, any difference between the sales price and the optionee's purchase price, to the extent not recognized as taxable income as described above, will be treated as long-term or short-term capital gain or loss, depending on the holding period. The Company will be entitled to a tax deduction in the same amount as the ordinary income recognized by the optionee with respect to the shares acquired upon exercise of an NSO.

Generally, at the time of a stock grant, the participant will recognize taxable ordinary income in the amount by which the fair market value of the shares awarded to the participant exceeds, the amount, if any, paid by the participant for the shares. However, if the shares of common stock awarded to a participant as a stock grant are restricted as to transferability and subject to a substantial risk of forfeiture, then the participant will not recognize any taxable income at the time of the stock grant but will have to report as ordinary income, generally as and when the shares vest (e.g., when the risk of forfeiture lapses). The participant may, however, elect under Section 83(b) of the Internal Revenue Code to include as ordinary income in the year of the stock grant an amount equal to the excess of (a) fair market value of the shares on the date of grant over (b) the amount, if any, paid for the shares. In order to make a Section 83(b) election, a notice of election which meets the requirements of the Treasury Regulations must be filed with the Internal Revenue Service within 30 days of the stock grant.
