Mr. Ives and Fellow Trustees:

I am writing on behalf of Karpus Investment Management (KIM), a registered investment advisor. As of July 31, 2006, we represented beneficial ownership 3,758,437 shares of MGF for KIM clients, which represents 7.21 percent of outstanding shares. We have been accumulating shares for investment purposes since October 1, 1992. I have made contact with the Fund's portfolio manager, Mr. Peter Vaream, who answered many questions that I had regarding the management of the Fund. I was pleased that your firm allowed me this access and overall we are satisfied with the net asset value performance of MGF. As the second largest shareholder of the Fund, I would like to meet with some of the Trustees prior to, or subsequent to the Shareholder meeting scheduled for October 6, 2006. The language in your prospectus allows for open market repurchases at points in time when the Fund's shares "are trading at a discount of 10% or more from the net asset value." The Trustees engaged in such open market repurchases from October 26, 1998 to May 28, 2004 during which time the discount narrowed from 15 to 10 percent. This program enabled the Fund's market price performance to beat its benchmark over this holding period. After this repurchase program ended, Fund shares have traded between a 9.5 and a 13 percent discount and Fund performance has slightly lagged the benchmark. Although performance has not been poor, we would like to see the Trustees do something to help narrow the Fund's persistently wide discount to net asset value. We would suggest that the Trustees consider reinstating the open market purchase program and set a floor for when the Fund would step in and aggressively buy shares. For example, the Trustees could announce that share repurchases would be commenced at any point in time when the discount reached 12 percent. This would essentially set a floor for the discount. Also, the Trustees could engage in tender offers at their discretion when the discount reached a certain trigger point. I hope that the Trustees will allow me to discuss some of our ideas and concerns at the upcoming Shareholder meeting. I believe that when long-term investors work together with Fund management excellent long term performance will be the outcome. I hope the Trustees will consider "lending me their ear" and will seek feedback from large Shareholders in the future. In business, companies operate much more smoothly when management and ownership are on the same page. I appreciate your time and consideration. I look forward to meeting with you in October. Sincerely, /s/ Cody B. Bartlett Jr., CFA
