**To the Shareholders of  
EnerNorth Industries Inc.**

We have audited the consolidated balance sheets of EnerNorth Industries Inc. as at June 30, 2006 and 2005 and the consolidated statements of operations and deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at June 30, 2006 and 2005 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

**EnerNorth Industries Inc.**  
**Summary of Significant Accounting Policies**  
**(Expressed in Canadian Dollars)**

**June 30, 2006, 2005 and 2004**

---

**N a t u r e o f** EnerNorth Industries Inc. (the "Company") is a corporation amalgamated under the laws of the Province of Ontario. The Company's business is its exploration, development and production of oil and gas.

**G o i n g** These consolidated financial statements have been prepared on the basis of a going concern, which contemplates that the Company will be able to realize assets and discharge liabilities in the normal course of business.

The Company's ability to continue as a going concern is dependent upon the enforceability of the Oakwell Claim (see Note 7) and the Company's ability to fund its operations and legal costs from internal or external sources. If the application of the Judgment becomes enforceable in Canada, then there would be a material and adverse impact on the Company's financial condition and the Company may be required to sell certain assets to satisfy the judgment.

These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company not be able to continue in the normal course of operations. If the "going concern" assumption is not appropriate for these consolidated financial statements then adjustments may be necessary to the carrying value of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

**Basis of Presentation**

These consolidated financial statements have been prepared by management in accordance with accounting principles generally accepted in Canada.

Effective June 1, 2006 the Company incorporated CanPower Development Corp., ("CanPower") a company incorporated under the Companies Act, Cap 308 of the Laws of Barbados to develop power projects globally. The Company owns 100% of the outstanding shares of CanPower.

Through its wholly owned subsidiary EPS Karnataka Power Corp. ("EPS Karnataka"), a company incorporated in Ontario, the Company owns a 97% interest in Euro India Power Canara Private Limited ("EIPCL"), a company incorporated in India.

The Company consolidated three months of activity after the acquisition of Sawn Lake Resources Ltd. in its consolidated statement of operations and its consolidated statement of cash flow for the year ended June 30, 2006. The Company consolidated one month of activity after the acquisition of Great Northern Oil and Gas Inc. in its consolidated statement of operations and its consolidated statement of cash flow for the year ended June 30, 2006 (Note 1).

At June 30, 2006 the Company held a 100% interest in Great Northern Oil & Gas Inc., CanPower Development Corp., EPS Karnataka, and a 97% interest in EIPCL. The consolidated financial statements include the results of these

subsidiaries and intercompany balances and transactions are eliminated.

**Cash and Cash**

**Equivalents** Cash and cash equivalents consist of bank balances and investments in money market instruments with original maturities of three months or less.

**Marketable**

**Securities** Marketable securities are valued at the lower of cost or market on a portfolio basis.

**Oil and Gas**

**Properties** The Company follows the full cost method of accounting for oil and gas operations whereby all costs of exploring for and developing oil and gas reserves are initially capitalized. Such costs include land acquisition costs, geological and geophysical costs, carrying charges on non-producing properties, costs of drilling and overhead charges directly related to acquisition and exploration activities.

Costs capitalized, together with the costs of production equipment, are depleted on the unit-of-production method based on the estimated proved reserves. Petroleum products and reserves are converted to equivalent units of natural gas at approximately 6,000 cubic feet to 1 barrel of oil.

Costs of acquiring and evaluating unproved properties are initially excluded from depletion calculations. These unevaluated properties are assessed periodically to ascertain whether impairment has occurred.

Proceeds from the sale of oil and natural gas properties are applied against capitalized costs, with no gain or loss recognized, unless such a sale would significantly alter the rate of depletion. Alberta Royalty Tax Credits are included in oil and gas sales.

In applying the full cost method, the Company performs an annual impairment test ("ceiling test") which recognizes an impairment loss when the capitalized costs less accumulated depletion and amortization is not recoverable and exceeds its fair value. Fair value is determined as the estimated fair market value of future net revenues from proved and probable oil and gas reserves, as determined by independent engineers, based on sales prices achievable under forecast prices and posted average reference prices in effect at the end of the year and forecast costs, and after deducting estimated future production related expenses, future site restoration costs and income taxes. Recoverability is determined using the undiscounted value of cash flows of proved reserves. The cash flows of proved reserves are derived from revenues from proved oil and gas reserves, as determined by independent engineers.

**Joint Interests**

Certain of the Company's oil and gas activities are conducted jointly with others. These financial statements reflect only the Company's proportionate interest in such activities.

**Asset Retirement**

**Obligation** A provision for asset retirement obligation costs is made when restoration requirements are established and costs can be reasonably estimated. The accrual is based on management's best estimate of the present value of the expected cash flows. Asset retirement obligations increase the carrying amount of the oil and gas properties and are amortized on the same basis as the properties.

Subsequent to the initial measurement of the asset retirement obligations, the obligations are adjusted at the end of each period to reflect the passage of time and changes in the estimated future cash flows underlying the obligation.

**Income Taxes** The Company accounts for income taxes under the asset and liability method. Under this method, future income tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial reporting and tax bases of assets and liabilities and available loss carry forwards. A valuation allowance is established to reduce tax assets if it is more likely than not that all or some portions of such tax assets will not be realized.

**Revenue**

**Recognition** Revenues associated with the sale of crude oil and natural gas are recorded when the title passes to the customer. Revenues from crude oil and natural gas production from properties in which the Company has an interest with other producers are recognized on the basis of the Company's net working interest.

**Royalties** As is normal to the industry, the Company's production is subject to crown, freehold and overriding royalties, and mineral or production taxes. These amounts are reported net of related tax credits and other incentives available.

**Stock Based**

**Compensation**

The Company has established a stock option plan (the "Plan") for directors, officers, employees, consultants and service providers. Effective July 1, 2004, the Company adopted the recommendations of the CICA Handbook Section 3870 "Stock Based Compensation and Other Stock-Based Payments". This section was amended to require the expensing of all stock based compensation awards for fiscal years beginning after January 1, 2003. The Company has chosen to adopt the recommendation prospectively thereby recording the fair value of the stock options issued since July 1, 2004 in the statement of operations using the Black-Scholes option-pricing model.

**Foreign Currency**

**Translation**

Foreign currency accounts are translated to Canadian dollars as follows:

At the transaction date, each asset, liability, revenue or expense is translated into Canadian dollars by the use of the exchange rate in effect at that date. At the year end date, monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at that date and the resulting foreign exchange gains and losses are included in Consolidated Statement of Operations and Deficit in the current period.

**Accounting**

**Estimates** The preparation of these consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. By their nature, these estimates are subject to measurement uncertainty and the effect on the consolidated financial statements of changes in such estimates in future periods could be material.

**Measurement  
Uncertainty**

The amounts recorded for depletion and amortization of oil and gas properties and the valuation of these properties, are based on estimates. These estimates are based on the estimates of proved and probable reserves, production rates, oil and gas prices, future costs and other relevant assumptions. By their nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of changes and estimates in future periods could be significant.

The Company is subject to various regulatory and statutory requirements relating to the protection of the environment. These requirements, in addition to contractual agreements and management decisions, result in the accrual of estimated asset retirement obligation costs. These costs are accrued on the unit of production basis. Any changes in these estimates will affect future earnings.

Costs attributable to commitments and contingencies are expected to be incurred over an extended period of time and are to be funded mainly from the Company's cash provided by operating activities. Although the ultimate impact of these matters on net earnings cannot be determined at this time, it could be material for any one-quarter or year.

The Company's investment in Konaseema Gas Power Limited ("KGPL"), a company incorporated in India that is developing a power project in Andhra Pradesh, India is subject to several risk factors. The actual recoverable amount is dependent upon future events, foreign exchange fluctuations and subject to certain sovereign risks such as stable political and economic conditions. The amount actually recovered could differ materially from the amount estimated by management.

The Company's accounts receivable includes a balance related to a litigation which has uncertainty as to its timely collection.

The Company's investment in marketable securities is carried at the lower of cost or market value. The actual market value is determined by external factors that are beyond the control of management and may fluctuate materially.

As of June 30, 2006 the Company owns 11,848,200 common shares, par value Indian Rupee ("INR") 10 (the "KGPL Shares"), in Konaseema Gas Power Limited ("KGPL"), formerly known as Konaseema EPS Oakwell Power Limited. Pursuant to an Arbitration Agreement between the Company and VBC Ferro Alloys Ltd. ("VBC"), the parent company of Konaseema Gas Power Limited ("KGPL"), an Arbitration Award was passed on October 11, 2003 by Hon'ble Arbitral Tribunal, India (the "Award") requiring as follows (i) VBC transfer an additional 500,000 shares in KGPL to the Company, at no cost and (ii) VBC to buy the original KGPL shares for INR 113,482,000 on or before the earlier of: (a) 60 days after the first disbursement of funds on financial closure for the KGPL Project, and, (b) in any event no later than March 31, 2004. Further, the Company may, upon written notice to VBC, require that VBC purchase, and VBC is then required to buy, an additional 500,000 shares of KGPL at a par value of INR 5,000,000 on or before the same dates. If VBC does not buy the 11,348,200 KGPL Shares before March 31, 2004 then VBC is liable to pay the Company interest at 12% per annum on the value of the unredeemed shares from March 31, 2004 to the date of actual payment thereof.

On February 28, 2004 the Company provided written notice to VBC to purchase 11,348,200 KGPL Shares held by the Company. VBC raised a dispute regarding the purchase of the KGPL Shares and the Company commenced legal proceedings against VBC.

On June 24, 2004 the Company filed an Execution Petition against VBC in the Court of the Chief Judge, City Civil

Court, Hyderabad, India (“City Civil Court”) to enforce the Award.

In February, 2006, the Company advanced INR 5,000,000 (approximately CDN \$134,850) to VBC as consideration for the Company acquiring the additional 500,000 shares of KGPL described in the Award.

The Company filed an application to withdraw its Petition against VBC and on June 9th, 2006 the City Civil Court ordered that the Execution Petition be dismissed as withdrawn.

**3. Investment - (Continued)**

On August 6, 2006 the Company and VBC executed a Joint Memo for full satisfaction of the Award passed on October 11, 2003 stipulating as follows; (i) the Company waive the obligation that VBC purchase 11,348,200 KGPL shares and that the Company will retain its 11,348,200 KGPL shares; (ii) the Company and VBC comply with an order of Reserve Bank of India, such that the Company acquires the allotment of 500,000 KGPL shares rather than having such shares allotted at no cost, (iii) VBC acknowledge the right of the Company to purchase, on payment KGPL shares from VBC and/or its group companies at INR 10 per share free and clear of all claims, demand and encumbrances of any nature and kind; (iv) the Company waive payment of all unpaid interest by VBC under the Award, (v) the Company, VBC and KGPL mutually undertake and agree to release each other against all and any claims, demand, assertions, petitions, decrees and litigation whatsoever that arose or may hereinafter arise in connection with any agreements, arrangements and understandings and agree that neither party will make any claims or demands against each other.

Pursuant to the Joint Memo, the Company acquired the 500,000 equity shares in KGPL previously allotted for no consideration under the Award by paying INR 5,000,000 (approximately CDN \$134,850 in February 2006) and the Company subscribed for a further 500,000 additional equity shares in KGPL at par value INR 5,000,000 (approximately CDN \$121,750 in August 2006).

As a result of the Joint Memo, the Company filed a fresh Execution Petition in the City Civil Court, for such court to record and accept the Joint Memo as full satisfaction of the Award as agreed to by the Company and VBC. The fresh Execution Petition has been listed for disposal by the City Civil Court on October 24, 2006.

The Company estimates that the carrying amounts of the investment in KGPL will be fully recovered. The actual recoverable amount is dependent upon future events including foreign exchange fluctuations. The amount actually recovered could differ materially from the amount estimated by management.

**4. Oil and Gas Properties**

The Company has acquired various working interests in producing and non producing oil and gas properties in Canada. These properties are carried at cost set out below:

Petroleum and natural gas properties and equipment

Cost	Accumulated Depletion and Amortization	Net Book Value
------	---	-------------------

June 30, 2006	\$ 16,779,190	\$ 7,344,573	\$ 9,434,617
June 30, 2005	\$ 7,998,611	\$ 3,930,062	\$ 4,068,549

As at June 30, 2006, costs of acquiring unproved properties in the amount of \$2,473,617 (2005 - \$425,054) were excluded from depletion calculations.

**4. Oil and Gas Properties - (Continued)**

The Company is required to fund its share of costs and expenses. Failure to fund expenditures will in some cases result in a dilution of its interests.

The Company performed a ceiling test calculation at June 30, 2006 to assess the potential impairment of its oil and gas properties. The oil and gas future prices are based on the commodity price forecast of the Company's independent reserve evaluators. These prices have been adjusted for heating content, quality and transportation parameters specific to the Company. The following table summarizes the benchmark prices used in the ceiling test calculation:

Year	WTI Cushing Oklahoma (\$US/bbl)	Edmonton Par Price 40° API (\$Cdn/bbl)	Cromer Medium 29.3° API (\$Cdn/bbl)	Natural Gas AECO Gas Prices (\$Cdn/MMBtu)	Pentanes Plus F.O.B. Field Gate (\$Cdn/bbl)	Butanes F.O.B. Field Gate (\$Cdn/bbl)	Inflation Rate (%/Yr)	Exchange Rate (\$US/\$Cdn)

2012 and thereafter escalated at 1.5%								

An impairment write down of certain of the Company's oil and gas properties was recognized as at June 30, 2006 where the carrying amount was not considered to be recoverable and exceeded its fair value.

**5. Short Term Debt**

At June 30, 2006 the Company has a short term debt in the amount of \$322,469 secured against the Company's portfolio of marketable securities. The debt charges interest at prime (2006 - 6%).

**6. Due to Shareholders**

The amount of \$60,000 (2005 - \$37,500) is due to a shareholder, who is also a director, and is non interest bearing and due on demand.

**7. Oakwell Claim Payable**

In March 1997, Oakwell Engineering Limited (“Oakwell”) and the Andhra Pradesh State Electricity Board (“APSEB”) executed two identical Power Purchase Agreements (“PPA’s”) providing for Oakwell to build, own and operate two identical 100 MW net capacity diesel generator barge mounted power plants, fueled by furnace oil (total 200 MW net capacity) and sell electricity to APSEB on a take-or-pay basis for 15 years (the “Project”). In June 1997, the Company and Oakwell formed an 87.5% - 12.5% joint venture and then incorporated an Indian company, EOPL (now known as KGPL), to implement the provisions of the PPA’s. Disputes rose between the Company and Oakwell regarding the time taken to obtain financing for the Project and a Settlement Agreement was reached in December 1998 under which Oakwell sold the Company all of Oakwell's interest in the PPA’s and in EOPL.

**7. Oakwell Claim Payable - (Continued)**

In July 2002, Oakwell claimed the Company was in breach of the Settlement Agreement over the same issue settled by the Settlement Agreement and in August 2002 the Company was named as a defendant in the High Court of Singapore, in the matter of Oakwell vs. the Company. On October 16, 2003 the High Court of Singapore ordered the Company to pay Oakwell US \$5,657,000 (approximately CDN \$6,933,219 at June 30, 2005) plus costs (the "Judgment"). On November 13, 2003 the Company appealed the Judgment to the Court of Appeal of the Republic of Singapore. That Court, which is the final Court of Appeal for Singapore, dismissed the appeal from the bench on April 27, 2004.

On June 21, 2004, Oakwell filed an Application with the Ontario Superior Court of Justice seeking an order recognizing and enforcing the Judgment in Ontario. On August 30, 2004, the Company filed an Application with the Ontario Superior Court of Justice for a declaration that the Judgment cannot be recognized and enforced in the Province of Ontario on the basis that Singapore does not adhere to the Rule of Law and that the Singapore litigation did not provide the Company with an independent and impartial judiciary and accordingly could not be given the full faith and credit of the Canadian courts. The Applications were heard on December 6-9, 2004 before the Honourable Mr. Justice Day.

On January 10, 2005, after the Company publicly announced its intention to sell its engineering and offshore subsidiary, M&M Engineering Limited ("M&M"), Oakwell brought a motion in the Ontario proceedings seeking to prevent the Company from disposing of or encumbering assets equal to the Canadian dollar equivalent of the Judgment from the proceeds of the sale of M&M. On January 27, 2005, that motion was withdrawn and the Company agreed to provide Oakwell with 5 days notice before execution of any transaction or series of related transactions exceeding \$2.4 million from the proceeds from the sale of M&M.

On June 27, 2005 Justice Day released his decision, in which he granted Oakwell's Application with costs, and dismissed the Company's Application. The formal Order granting recognition and enforcement to the Judgment was issued August 2, 2005.

On July 13, 2005, the Company filed a Notice of Appeal with respect to Justice Day's decision with the Court of Appeal for the Province of Ontario ("Court of Appeal"). The appeal was heard April 10, 2006. On June 9, 2006 the Court of Appeal rendered its decision, dismissing the Company's appeal with costs.

On July 18, 2006 the Company brought a motion before the Court of Appeal seeking a stay of execution of the decision of the Court of Appeal pending the Company's application to the Supreme Court of Canada for leave to appeal, and, should leave be granted, the appeal itself. On July 28, 2006 the Court of Appeal granted the Company's motion for a stay of execution on the condition that the Company pay CDN\$1,500,000 into Court on or before September 8, 2006. The Company paid this amount into Court on September 7, 2006.

Edgar Filing: ENERNORTH INDUSTRIES INC - Form 6-K

On September 8, 2006 the Company filed its application for leave to appeal to the Supreme Court of Canada. The Supreme Court of Canada will only grant leave if it is persuaded that the case raises issues of public importance. The Court's decision on the leave application is not expected until late 2006 or early 2007.

A provision of CDN \$7,686,971 at June 30, 2006 has been made to the Company's financial statements in relation to the Judgment.

**7. Oakwell Claim Payable - (Continued)**

On January 12, 2005, Oakwell filed an Execution Petition before the Hon'ble High Court of Delhi, India ("Delhi Court") which was served on February 14, 2005 against the Company for enforcement of the Singapore Judgment in India against certain assets of the Company allegedly located in India and an application for interim relief seeking attachment of certain assets of the Company including its KGPL shares.

On May 23, 2005, the Delhi High Court ordered that if VBC Ferro Alloys Ltd. ("VBC") purchases the Company's KGPL shares, the sale proceeds shall be kept in India and on September 9, 2005 the Delhi Court further ordered that if the Company receives any payments from VBC from the sale of its KGPL shares, then the proceeds shall be deposited in the Company's account held in a Public Sector Bank in India or invested only in Government of India securities until the disposal of Oakwell's Execution Petition. This order became infructuous on the Company withdrawing its Execution Petition against VBC and not otherwise receiving any payment from VBC by way of sale of KGPL shares.

On August 29, 2006 the Delhi Court dismissed the objections filed by the Company as to the maintainability of the Execution Petition and questioning the Jurisdiction of Delhi Court. The Company filed a Review Petition and a Stay Petition against the Order of August 29, 2006 and a hearing is scheduled for October 13, 2006.

On September 7, 2006 Oakwell filed for interim relief, seeking restraint on the disposal of the Company's KGPL shares and other assets. On September 18, 2006 the Delhi Court ordered that until October 3, 2006, the date of next hearing, the Company shall not deal with, transfer or alienate the KGPL shares or other assets. The Execution Petition and related applications are ongoing.

**8. Convertible Debenture - (Continued)**

The holders of the debenture have the option to convert their debenture into equity units of the Company after 10 days written notice to the Company. The outstanding principal and interest is converted into equity units consisting of one common share and one common share purchase warrant with a three year life and an exercise price equal to 115% of the conversion price. The conversion price is equal to 75% of the market price which is defined as the 10 day weighted average closing price before conversion where the price is not higher than \$2.60 or lower than \$1.50.

Additionally there is an option for both the Company and the debenture holders to reset the market range for the conversion feature as follows:

- 1) The holder has the option to reset the market range on a one time basis by reducing the minimum price per common share to no less than \$0.75 if the market price remains below \$1.50 for 90 days.
- 2) The Company has the option to reset the market range on a one time basis by increasing the maximum price per common share to no more than \$3.25 if the market price remains above \$2.60 for 90 days.

The Company is required to make quarterly payments of interest and principal on the outstanding convertible debenture. The total payments required are as follows:

2007	\$	38,182
2008		44,167

**16. Contingent Liability**

In 1998 a statement of claim was filed against the Company by a former financial adviser alleging breach of contract. The plaintiff has claimed for special damages in the amount of approximately \$230,000 (US \$184,197) and entitlement to a success fee of 1% of the gross debt/equity financing of the Andhra Pradesh project less up to 20% of any corporate contributions by the Company or its affiliates. Management believes that the claim is without merit and has filed a counter claim. No correspondence or activity has transpired since 2000 and management believes that the plaintiff has abandoned the litigation. No provision has been made in these financial statements for this claim.

**17. Commitments**

Operating Leases

The Company has entered into an agreement to lease a vehicle for various periods until the year 2009. The minimum lease commitment under the operating lease is estimated as follows:

2007	\$	7,404
2008		7,477
2009		623
	\$	15,504

**18. Financial Instruments**

The carrying values of the financial instruments of the Company approximate fair values due to the short term maturities and normal trade credit terms of those instruments. Included in cash is \$47,425 (2005 - \$5,226,718) held at one financial institution, \$6,203 held at another financial institution and \$13,656 (2005 - \$59,597) held at two financial intermediaries. The short term debt is held at one financial intermediary.

**19. Segmented Information**

The Company's only operating segment is oil and gas exploration and production. All reportable segments are located in Canada. Previously the Company operated an Industrial and Offshore Division. This segment was disposed of during fiscal 2005 (see Note 12 - Discontinued Operations).

**20. Change in Accounting Policy**

(a) Stock Options

Effective July 1, 2004, the Company adopted the recommendations of the CICA Handbook Section 3870 "Stock Based Compensation and Other Stock-Based Payments". This section was amended to require the expensing of all stock based compensation awards for fiscal years beginning after January 1, 2003. The Company has chosen to adopt the recommendation prospectively thereby recording the fair value of the stock options issued since July 1, 2004 in the income statement using the Black-Scholes option-pricing model. As a result of applying the new accounting policy the Company recorded a stock based compensation expense of \$3,736 (2005 -\$149,109) (see Note 11).

(b) Oil and Gas Accounting

During 2004, the Company adopted the recommendations of the new CICA Handbook guideline AcG-16. The primary difference related to this new accounting standard relates to the application of the ceiling test. Under the new standard the capitalized costs less accumulated depletion and amortization are restricted to the fair value of proved and probable reserves as opposed to the undiscounted value of proved reserves less general and administrative expenses, tax and financing costs. As a result of applying the new standards, management determined that a transitional impairment loss of \$1,945,786 should be recorded as at July 1, 2003. For the period ending June 30, 2006 a further impairment loss of \$2,692,748 was recorded against income for the period.

**21. Subsequent Events**

- (1) Effective July 3, 2006 the Company entered into Purchase and Sale Agreement, for the sale of a portion of its interest in the Buick Creek Area of British Columbia for proceeds of \$825,000. The Company sold a 50% working interest in two standing wells and 16 spacing units from base Baldonnel to base Artex-Halfway-Doig, and 12 spacing units from surface to base Baldonnel and a 10% working interest in two standing wells and 16 spacing units from surface to base Baldonnel.
- (2) On July 18, 2006 the Company brought a motion before the Court of Appeal seeking a stay of execution of the decision of the Court of Appeal regarding the Oakwell Claim payable (Note 7) pending the Company's application to the Supreme Court of Canada for leave to appeal, and, should leave be granted, the appeal itself. On July 28, 2006 the Court of Appeal granted the Company's motion for a stay of execution on the condition that the Company pay \$1,500,000 into Court on or before September 8, 2006. The Company paid this amount into Court on September 7, 2006.

On September 8, 2006, 2006 the Company filed its application for leave to appeal to the Supreme Court of Canada. The Supreme Court of Canada will only grant leave if it is persuaded that the case raises issues of public importance. The Court's decision on the leave application is not expected until late 2006 or early 2007.

**21. Subsequent Events- (Continued)**

(3) On August 6, 2006, pursuant to the Joint Memo (Note 2), the Company subscribed for a further 500,000 equity shares in KGPL at par value INR 5,000,000 (approximately CDN \$121,750) (see Note 3).

(4) On September 6, 2006 the Company entered into an agreement with 1211115 Alberta Ltd. ("1211115") and the shareholders of 1211115 to acquire all the issued and outstanding shares of 1211115 (see Note 14). The Company agreed to issue to the shareholders of 1211115 an aggregate of 1,850,001 units of EnerNorth ("Units"), each Unit comprised of one share of Common Stock with an attributed price of CDN \$1.25 and one common share purchase warrant ("Warrant"), each Warrant entitling the holder to purchase one share of Common Stock at a price of CDN \$1.40 for a period of three years from the date of issuance. The Company also agreed to issue a secured debenture to the debt holders of 1211115 in satisfaction of CDN \$237,500 of debt in 1211115 (the "Transaction").

Under the terms of the agreement, 1211115 advanced CDN \$650,000 to the Company (the "Advance") upon execution of the agreement, which amount is immediately repayable to 1211115 in the event the Transaction is not completed by October 2, 2006. If not repaid as required, the Advance is converted to a demand promissory note, the repayment of which is secured by the unencumbered assets of EnerNorth. Furthermore, in the event that the Transaction terminates at no fault of 1211115 or the shareholders of 1211115, then 650,000 compensation warrants, each compensation warrant entitling the holder to purchase one share of Common Stock at a price of CDN \$1.40 for a period of three years from the date of issuance, will be issued to the shareholders of 1211115.

The primary assets of 1211115 consist of cash and oil and gas interests located in the Chinchaga Area of Alberta and in the Lloydminster area of Saskatchewan.

James C. Cassina and Sandra J. Hall, directors of the Company own 11.24% and 6.49%, respectively of the shares of 1211115. EnerNorth's Board formed an independent committee of disinterested directors to the transaction to consider whether the transaction is in the best interests of EnerNorth. The independent committee has concluded, on review of the Transaction, an independent engineering report on the reserves of 1211115, and a fairness opinion from an independent investment advisor, that EnerNorth should complete the Transaction as it is in the best interest of EnerNorth and improves its financial condition.
