STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

Strategic Hotels & Resorts, Inc. (SHR and, together with its subsidiaries, the Company) was incorporated in January 2004 to acquire and asset-manage upper upscale and luxury hotels that are subject to long-term management contracts. As of June 30, 2015, the Company's portfolio included 18 full-service hotel interests located in urban and resort markets in the United States and Hamburg, Germany. The Company considers each hotel to be a separate operating segment because the Company allocates resources and assesses performance on an individual hotel basis. The Company aggregates the individual hotels into one reportable business segment, hotel ownership. SHR operates as a self-administered and self-managed real estate investment trust (REIT), which means that it is managed by its board of directors and executive officers. A REIT is a legal entity that holds real estate interests and, through payments of dividends to stockholders, is permitted to reduce or avoid federal income taxes at the corporate level. For SHR to continue to qualify as a REIT, it cannot operate hotels; instead it employs internationally known hotel management companies to operate its hotels under management contracts. SHR conducts its operations through its direct and indirect subsidiaries, including its operating partnership, Strategic Hotel Funding, L.L.C. (SH Funding), which currently holds substantially all of the Company's assets. SHR is the sole managing member of SH Funding and holds approximately 99.7% of its membership units as of June 30, 2015. SHR manages all business aspects of SH Funding, including the sale and purchase of hotels, the investment in these hotels and the financing of SH Funding and its assets.

As of June 30, 2015, SH Funding owned interests in or leased the following 18 hotels:

On March 31, 2014, the Company acquired the remaining ownership interests in the affiliate and began accounting for it as a consolidated affiliate (see note 3). One land parcel at this property is subject to a ground lease arrangement.

(b) This property is owned by an affiliate that was partially-owned by the Company and accounted for as an unconsolidated affiliate prior to June 11, 2014 (see note 7). On June 11, 2014, the Company acquired the remaining ownership interests in the affiliate and began accounting for it as a consolidated affiliate (see note 3).

(c) This property is owned by a consolidated affiliate in which the Company holds an interest (see notes 2, 6 and 17). The Company has a leasehold interest in this property. On May 7, 2015, the Company entered into an agreement with an unaffiliated third party, whereby the Company agreed to transfer its leasehold interests in this property to such unaffiliated third party. When the transaction closes, the Company will be released from all obligations under the lease arrangements. The transaction is expected to close in the third quarter of 2015.

(e) This property is subject to a ground lease arrangement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The accompanying unaudited condensed consolidated financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformity with the rules and regulations of the SEC applicable to interim financial information. As such, certain information and footnote disclosures normally included in complete annual financial statements prepared in accordance with GAAP have been omitted in accordance with the rules and regulations of the SEC. In the opinion of management, the

accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial

STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

position of the Company and its results of operations and cash flows for the interim periods presented. The Company believes the disclosures made are adequate to prevent the information presented from being misleading. However, the unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements included in SHR's annual report on Form 10-K for the year ended December 31, 2014.

Basis of Consolidation:

The accompanying unaudited condensed consolidated financial statements include the accounts of SHR, its subsidiaries and other entities in which the Company has a controlling interest. If SH Funding determines that it is the holder of a variable interest in a variable interest entity (VIE), and it is the primary beneficiary, then SH Funding will consolidate the entity. At June 30, 2015, SH Funding consolidated one VIE, the entity that owns the JW Marriott Essex House Hotel (see note 6). For entities that are not considered VIEs, SH Funding consolidates those entities it controls. It accounts for those entities over which it has a significant influence but does not control using the equity method of accounting. At June 30, 2015, SH Funding owned interests in the Four Seasons Residence Club Punta Mita (Four Seasons RCPM) and the Lot H5 Venture (see note 7), which are unconsolidated affiliates in the accompanying unaudited condensed consolidated financial statements that are accounted for using the equity method of accounting. All intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates:

The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Restricted Cash and Cash Equivalents:

At June 30, 2015 and December 31, 2014, restricted cash and cash equivalents included \$47,660,000 and \$37,486,000, respectively, that will be used for property and equipment replacement in accordance with hotel management agreements. At June 30, 2015 and December 31, 2014, restricted cash and cash equivalents also included reserves of \$30,130,000 and \$44,024,000, respectively, required by loan and other agreements.

Income Taxes:

SHR has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the Tax Code). As a REIT, SHR generally will not be subject to U.S. federal income tax if it distributes 100% of its annual taxable income to its shareholders and complies with certain other requirements. As a REIT, SHR is subject to a number of organizational and operational requirements. If it fails to qualify as a REIT in any taxable year, SHR will be subject to U.S. federal income tax (including any applicable alternative minimum tax) on its taxable income at regular corporate tax rates. Even if it qualifies for taxation as a REIT, it may be subject to foreign, state and local income taxes and to U.S. federal income tax and excise tax on its undistributed income. In addition, taxable income from SHR's taxable REIT subsidiaries is subject to federal, foreign, state and local income taxes. Also, the foreign countries where the Company has operations do not recognize REITs under their respective tax laws.

Accordingly, the Company is subject to tax in those jurisdictions.

Deferred tax assets and liabilities are established for net operating loss carryforwards and temporary differences between the financial reporting basis and the tax basis of assets and liabilities at the enacted tax rates expected to be in effect when the net operating loss carryforwards are utilized and when the temporary differences reverse. The Company evaluates uncertain tax positions in accordance with applicable accounting guidance. A valuation allowance for deferred tax assets is provided if the Company believes all or some portion of the deferred tax asset may not be realized. Any increase or decrease in the valuation allowance that results from a change in circumstances that causes a change in the estimated realizability of the related deferred tax asset is included in earnings.

For the three and six months ended June 30, 2015 and 2014, income tax expense is summarized as follows (in thousands):

Per Share Data:

The Company uses the two-class method to calculate per share data for common stock and participating securities. Under the two-class method, net earnings are allocated to common stock and participating securities as if all of the net earnings for the period had been distributed. Unvested share-based compensation awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities and, therefore, are included in computing per share data pursuant to the two-class method. The Company's restricted stock units (RSUs) are considered participating securities because they contain non-forfeitable rights to dividend equivalents. To the extent the Company has undistributed earnings, it will follow the two-class method of computing per share data.

Basic income per common share is computed by dividing the net income attributable to SHR common shareholders by the weighted average shares of common stock outstanding during each period. Diluted income per common share is computed by dividing the net income attributable to SHR common shareholders as adjusted for the impact of dilutive securities, if any, by the weighted average shares of common stock outstanding plus potentially dilutive securities. Dilutive securities may include RSUs, performance-based RSUs, and noncontrolling interests that have an option to exchange their interests to shares of SHR common stock. No effect is shown for securities that are anti-dilutive. Potentially dilutive shares are determined using the more dilutive of either the two-class method or the treasury stock method. The following table sets forth the components of the calculation of net income attributable to SHR common shareholders used for determining per share amounts for the three and six months ended June 30, 2015 and 2014 (in thousands):

New Accounting Guidance:

In April 2015, the Financial Accounting Standards Board (FASB) issued new guidance which changes the presentation of debt issuance costs in financial statements. Under the new guidance, an entity presents debt issuance costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the debt issuance costs is reported as interest expense. The new guidance is effective on January 1, 2016, with early adoption permitted for any annual or interim period for which an entity's financial statements have not yet been made available for issuance. The new guidance must be applied retrospectively to all prior periods presented. The Company expects to adopt the new guidance on January 1, 2016 and will apply the presentation guidance to all periods presented in its consolidated financial statements.

In August 2014, the FASB issued new accounting guidance which requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. The standard provides guidance on determining when and how to disclose going concern uncertainties in the financial statements. Certain disclosures will be required if conditions give rise to substantial doubt about an entity's ability to continue as a going concern. This guidance is effective on January 1, 2017. The Company will apply the guidance prospectively and does not anticipate the guidance will have a material impact on its consolidated financial statements or disclosures.

In May 2014, the FASB issued new guidance which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The guidance will replace most existing revenue recognition guidance in GAAP when it becomes effective. The new guidance is effective on January

1, 2018 with early adoption permitted on January 1, 2017. The guidance permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that the guidance will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the guidance on its consolidated financial statements.

In April 2014, the FASB issued new guidance which amends the requirements for reporting discontinued operations. Under the guidance, only disposals that represent a strategic shift that has (or will have) a major effect on the entity's results of operations

STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

would qualify as discontinued operations. In addition, the guidance expands the disclosure requirements for disposals that meet the definition of a discontinued operation and requires entities to disclose information about disposals of individually significant components. The provisions became effective in the first quarter of 2015, with early adoption permitted for any annual or interim period for which an entity's financial statements have not yet been made available for issuance. The Company adopted the guidance on January 1, 2015 and will apply the guidance prospectively to disposal activity occurring after January 1, 2015.

Purchase Price Allocations of Hotel Acquisitions

The amounts recognized as assets acquired and liabilities assumed for each hotel acquisition are based on the acquisition-date fair values. The allocation of the fair value of recent acquisitions are preliminary and are subject to a measurement period that will allow the Company to obtain the information necessary to properly identify and measure the assets acquired and liabilities assumed. The final allocation of the fair values may result in adjustments to the recognized amounts of assets and liabilities, which could be significant. The Company expects to finalize the preliminary allocations as soon as possible, but no later than one year from the respective acquisition dates.

For purposes of the pro forma financial information, 20,000,000 shares of SHR common stock (a portion of the shares issued in an underwritten public offering of common stock that was completed in June 2014) are reflected as if the offering occurred on January 1, 2013 because these shares relate directly to the acquisition of the Hotel del Coronado Venture. No adjustments were made to the pro forma financial information for the remaining shares of SHR common stock issued in June 2014 because they did not relate directly to the acquisitions. 4. IMPAIRMENT LOSSES

The Company performed an impairment test of the long-lived assets related to the Marriott Lincolnshire Resort during the second quarter of 2015 as a result of a change in the anticipated holding period for this hotel. The Company determined that the carrying value of the hotel's long-lived assets exceeded the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the hotel. As a result of this impairment test, the Company recorded an impairment loss of \$10,401,000 included in the condensed consolidated statements of operations for the three and six months ended June 30, 2015, which represents the amount by which the carrying amount of the hotel's long-lived assets exceeded the fair value, with fair value determined based on estimated future discounted cash flows or the relevant market data as to the fair value of the asset (Level 3 inputs).

5. DISPOSITION OF HOTEL PROPERTIES

2015 Disposition

Effective January 1, 2015, the Company adopted new accounting guidance that amends the requirements for reporting discontinued operations. Under the new guidance, only disposals that represent a strategic shift that has (or will have) a major effect on the Company's results of operations will qualify as discontinued operations.

On May 21, 2015, the Company, along with its joint venture partner, sold the Hyatt Regency La Jolla hotel for sales proceeds of approximately \$118,293,000. The \$89,228,000 mortgage loan secured by the hotel was repaid at the time of closing. A \$40,613,000 gain on the sale was recorded in other income, net in the condensed consolidated statements of operations for the three and six months ended June 30, 2015. The portion of the gain attributable to the joint venture partner was \$16,649,000, which is reflected in net income attributable to the noncontrolling interests in consolidated affiliates in the condensed consolidated statements of operations for the three and six months ended June 30, 2015.

The disposition of the Hyatt Regency La Jolla hotel does not represent a strategic shift that has had a major effect on the Company's results of operations; therefore, the hotel's results of operations are included in continuing operations for all periods presented.

2014 Dispositions

Prior to January 1, 2015, and the adoption of the new accounting guidance that changed the criteria for reporting discontinued operations, the Company sold the following hotels:

Hotel	Location	Date Sold	Sales Proceeds	Gain on sale
Four Seasons Punta Mita Resort and La Solana land parcel	Punta Mita, Mexico	February 28, 2014	\$206,867,000	\$63,879,000

(a) There was an outstanding balance of £67,301,000 (\$112,150,000) on the mortgage loan secured by the Marriott London Grosvenor Square hotel, which was repaid at the time of closing. The net proceeds received by the Company were \$97,257,000.

6. VARIABLE INTEREST ENTITY

On September 14, 2012, the Company formed a joint venture (the Essex House Hotel Venture) with affiliates of KSL Capital Partners, LLC (KSL) to acquire, own, manage, and operate the JW Marriott Essex House Hotel. The Company contributed cash of \$89,147,000 to acquire a 51% equity interest in the Essex House Hotel Venture, and KSL contributed cash of \$85,651,000 to acquire a 49% equity interest. Pursuant to the terms of the joint venture agreements establishing the Essex House Hotel Venture, at any time prior to the third anniversary of the formation of the Essex House Hotel Venture, KSL shall have the right to sell its equity interest in the Essex House Hotel Venture to the Company in exchange for shares of SHR's common stock, as set forth in the joint venture agreements, at a purchase price equal to KSL's net investment plus 8.0% compounded annually (the Put Option). For purposes of paying the purchase price, SHR's common stock shall be valued at the greater of (i) \$7.50 per share and (ii) the 20-day volume-weighted average price per share of SHR's common stock as of the date KSL exercises the Put Option. The Essex House Hotel Venture is jointly controlled by the Company and KSL; however, it is considered a VIE because the Company determined that it is the only holder of equity at risk due to the Put Option. The Company also determined that it is the primary beneficiary of the Essex House Hotel Venture due to the Put Option, which impacts the Company's power to direct the activities that most significantly impact the economic performance of the entity, as well as its obligation to absorb the losses and its right to receive benefits from the entity that could potentially be significant to the entity. As such, the transactions and accounts of the Essex House Hotel Venture are included in the condensed consolidated financial statements. On July 24, 2015, KSL exercised its Put Option (see note 17).

Other than in connection with a customary environmental indemnity and non-recourse carve-out guaranty in favor of the lender, the liabilities of the Essex House Hotel Venture are solely the obligations of the Essex House Hotel Venture and are not guaranteed by the Company. The debt is secured by the JW Marriott Essex House Hotel, and the creditors of the Essex House Hotel Venture do not have general recourse to the Company. The use of certain assets of the Essex House Hotel Venture is restricted because they are collateral for the Essex House Hotel Venture's debt (see note 9), and the Company does not have the ability to leverage the assets.

The Company and KSL are subject to the terms of the joint venture agreements, which include provisions for additional contributions. For the six months ended June 30, 2015, the Company and KSL provided no additional contributions to the Essex House Hotel Venture. For the six months ended June 30, 2014, the Company and KSL provided additional contributions of \$2,550,000 and \$2,450,000, respectively, to the Essex House Hotel Venture for property improvements.

For the six months ended June 30, 2015, the Company and KSL received distributions of \$30,600,000 and \$29,400,000, respectively, from the Essex House Hotel Venture paid from excess cash received from the refinancing of the mortgage loan secured by the JW Marriott Essex House Hotel in December 2014.

11. DERIVATIVES

The Company manages its interest rate risk by varying its exposure to fixed and variable rates while attempting to minimize its interest costs. The Company manages its variable interest rate risk through the use of interest rate derivative instruments. The Company enters into interest rate derivative instruments with high credit quality counterparties and diversifies its positions among such counterparties in order to reduce its exposure to credit losses. The Company uses interest rate caps to limit exposure on its variable-rate debt that would result from an increase in interest rates. The Company's lenders, as stipulated in the respective loan agreements, generally require such caps. The Company records all derivatives at fair value in either prepaid expenses and other assets or accounts payable and accrued expenses in the condensed consolidated balance sheets.

The valuation of the interest rate derivative instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The Company incorporates credit valuation adjustments (CVA) to appropriately reflect its own nonperformance risk and the respective counterparty's nonperformance risk. When assessing nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Except for the CVA, all inputs used to measure fair value of the derivative financial instruments are Level 2 inputs. The Company has concluded that the inputs used to measure its CVA are Level 3 inputs. If the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The Company reviews the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes may result in a reclassification of certain financial assets or liabilities. Such reclassifications are reported as transfers into and out of Level 3, or between other levels, at the fair value at the beginning of the reporting period in which the changes occur. The Company assessed the impact of the CVA on the overall fair value of its derivative instruments and concluded that the CVA does not have a significant impact to the fair values as of June 30, 2015. As of June 30, 2015 and December 31, 2014, all derivative liabilities are categorized as Level 2.

Derivatives in Cash Flow Hedging Relationships:

Historically, the Company has used interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involved the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. The effective portion of changes in the fair value of derivatives designated and that qualified as cash flow hedges were recorded in accumulated OCL and was subsequently reclassified into earnings in the period that the hedged forecasted transaction affected earnings. During the six months ended June 30, 2014, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives was recognized directly in earnings.

In April 2014, the Company paid \$17,428,000, which included accrued and unpaid interest, to terminate its two interest rate swaps that were in cash flow hedging relationships. There was no immediate charge to earnings based on the Company's forecasted levels of LIBOR-based debt at the date of the termination. Amounts previously recorded in accumulated OCL related to these interest rate swaps will be reclassified into earnings as additional interest expense on a straight-line basis over the original maturity period of the interest rate swaps. During the next twelve months, an

additional \$5,326,000 will be reclassified as an increase to interest expense.

Derivatives Not Designated as Hedging Instruments:

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet hedge accounting requirements. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings.

In April 2014, the Company paid \$5,281,000, which included accrued and unpaid interest, to terminate its two interest rate swaps that were not designated as hedging instruments. These interest rate swaps were marked to market through earnings through the date of termination, with no additional gain or loss recognized in earnings at the date of termination.

As of June 30, 2015, the Company had the following outstanding interest rate derivatives that were not designated as hedging instruments:

Interest Rate Derivatives	Number of Instruments	Notional Amount (in thousands)
Interest rate caps	10	\$1,427,000

At June 30, 2015 and December 31, 2014, the aggregate notional amount of the Company's interest rate cap agreements was \$1,427,000,000 and \$1,429,000,000, respectively. The Company's interest rate caps have LIBOR strike rates ranging from 2.05% to 4.55% and maturity dates ranging from July 2015 to July 2017.

12. SHARE-BASED EMPLOYEE COMPENSATION PLANS

Second Amended and Restated 2004 Incentive Plan:

On June 21, 2004, SHR adopted the 2004 Incentive Plan (the Plan). The Plan provided for the grant of equity-based awards in the form of, among others, options to purchase shares of SHR common stock (Options), RSUs, and stock appreciation rights (SARs), which are collectively referred to as the Awards. On May 22, 2008, SHR's shareholders approved SHR's Amended and Restated 2004 Incentive Plan (the Amended Plan). The Amended Plan: (a) added OP Units as an additional type of award; (b) adjusted the number of authorized shares from 3,000,000 shares of SHR common stock to 4,200,000 shares of SHR common stock or OP Units; (c) limited the maximum term of Options and SARs to no more than 10 years and prohibited the repricing of Options and SARs; and (d) established minimum vesting periods for certain awards. On May 19, 2011, SHR's shareholders approved SHR's Second Amended and Restated 2004 Incentive Plan (the Amended and Restated Plan) pursuant to which the number of securities authorized and reserved for issuance increased from 4,200,000 shares of SHR common stock or OP Units to 9,700,000 shares of SHR common stock or OP Units. The termination date of the Amended and Restated Plan was also extended from June 21, 2014 to December 31, 2016.

RSUs and Performance-Based RSUs:

During the six months ended June 30, 2015, SHR granted 294,243 RSUs to certain employees, officers and directors under the Amended and Restated Plan. These RSUs represent awards of shares of SHR's common stock that will generally vest over three years.

In February 2015, SHR granted certain employees a target grant of 322,285 performance-based RSUs under a performance share plan that provides the recipient the opportunity to earn between 0.0% and 200.0% of the target (up to a maximum of 644,570 performance-based RSUs), based on the relative total shareholder return of the shares of SHR common stock, as defined in the agreement, over the period from January 2, 2015 through December 31, 2017. The Company measures compensation expense for RSUs based on the per share fair market value of SHR's common stock at the date of grant, adjusted for estimated forfeitures. The Company measures compensation expense for performance-based

RSUs based on a Monte Carlo simulation to estimate the fair value on the date of grant. Compensation expense for RSUs and performance-based RSUs is recognized on a straight-line basis over the service period and is included in corporate expenses in the condensed consolidated statements of operations. The Company recorded compensation expense of \$1,856,000 and \$1,392,000 related to RSUs and performance-based RSUs for the three months ended June 30, 2015 and 2014, respectively, and \$3,740,000 and \$2,850,000 for the six months ended June 30, 2015 and 2014, respectively. As of June 30, 2015, there was unrecognized compensation expense of \$4,844,000 related to unvested RSUs and \$6,276,000 related to performance-based RSUs granted under the Amended and Restated Plan. The unrecognized compensation expense is expected to be recognized over a weighted average period of 1.73 years for unvested RSUs and 2.05 years for performance-based RSUs.

13. RELATED PARTY TRANSACTIONS

On February 28, 2014, certain direct and indirect wholly-owned subsidiaries of SH Funding sold the Four Seasons Punta Mita Resort and adjacent La Solana land parcel to affiliates of Cascade Investment, L.L.C. (Cascade) for proceeds of \$206,867,000 (see note 5). Cascade beneficially owned approximately 6.4% of SHR's common stock as of the closing date.

Additionally, the Company has entered into month-to-month agreements with an affiliate of Cascade pursuant to which the Company provides advisory services for certain hotels not owned by the Company. The Company currently receives fees of \$46,000 per month under these agreements (see note 16).

14. COMMITMENTS AND CONTINGENCIES

Environmental Matters:

Generally, the properties acquired by the Company have been subjected to environmental site assessments. While some of these assessments have led to further investigation and sampling, none of the environmental assessments have revealed, nor is the Company aware of any environmental liability that it believes would have a material effect on its business or financial statements.

Litigation:

The Company is party to various claims and routine litigation arising in the ordinary course of business. Based on discussions with legal counsel, the Company does not believe that the results of these claims and litigation, individually or in the aggregate, will have a material effect on its business or financial statements.

Letters of Credit:

As of June 30, 2015, the Company provided a \$75,000 letter of credit related to its office space lease. In January 2015, the Company terminated the letter of credit that was previously provided in connection with an obligation to complete property improvements at the JW Marriott Essex House Hotel.

Purchase Commitments:

Construction Contracts

The Company has executed various contracts related to construction activities. As of June 30, 2015, the Company's obligations under these contracts amounted to approximately \$24,054,000. The construction activities are expected to be completed in the next twelve months.

JW Marriott Essex House Hotel Property Improvement Plan

As required by the JW Marriott Essex House Hotel management agreement, the Essex House Hotel Venture has an obligation to renovate and improve the property. As of June 30, 2015, the Essex House Hotel Venture's obligation under this agreement is approximately \$504,000. The improvements are expected to be completed by September 2015.

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

As of June 30, 2015 and December 31, 2014, the carrying amounts of certain financial instruments employed by the Company, including cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, and accounts payable and accrued expenses were representative of their fair values because of the short-term maturity of these instruments.

At June 30, 2015 and December 31, 2014, the Company estimated the fair value of mortgages and credit facility arrangements to be approximately \$1,820,000,000 and \$1,726,000,000, respectively.

STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company estimated the fair value of the debt using a future discounted cash flow analysis based on the use and weighting of multiple market inputs being considered. Based on the frequency and availability of market data, all inputs used to measure the estimated fair value of the debt are Level 2 inputs. The primary sensitivity in these calculations is based on the selection of appropriate discount rates.

Derivative financial instruments have been recorded at their estimated fair values.

16. MANAGEMENT AND ADVISORY AGREEMENTS

JW Marriott Essex House Hotel Performance Guarantee

In connection with the acquisition of the JW Marriott Essex House Hotel in September 2012, the Essex House Hotel Venture entered into a management agreement with an affiliate of Marriott International, Inc. (Marriott). In connection with the management agreement, Marriott provided the Essex House Hotel Venture with a limited performance guarantee that will ensure, subject to certain limitations, a target level of net operating profit. Guarantee payments are calculated and paid to the Essex House Hotel Venture on a monthly basis based on the cumulative year-to-date results with a final true-up at the end of each year. Monthly interim payments are recorded as deferred revenue and are recognized as other hotel operating revenue at the end of the year when the final guarantee payment for the year is determined. The maximum guarantee that could be paid to the Essex House Hotel Venture during the guarantee period is \$40,000,000. Any guarantee payments that exceed \$20,000,000 may be recoverable by Marriott in accordance with the terms of the limited performance guarantee. Any amounts that are recoverable will be deferred and will not be recognized in earnings. Since the commencement of the performance guarantee, the Essex House Hotel Venture has received payments of \$20,000,000 which have been recognized in earnings, and has received payments of an additional \$9,827,000, which have been recorded as deferred revenues in accounts payable and accrued expenses on the condensed consolidated balance sheet. The guarantee period began on September 17, 2012 and will continue through the earlier of (a) December 31, 2020, (b) the date at which the maximum guarantee has been funded, or (c) the termination of the management agreement.

Asset Management and Advisory Agreements

The Company has entered into asset management and advisory agreements with third parties to provide such services to hotels not owned by the Company. The Company earns base fees and may have the potential to earn additional incentive fees. The Company earned fees of \$262,000 and \$100,000 for the three months ended June 30, 2015 and 2014, respectively, and fees of \$525,000 and \$200,000 for the six months ended June 30, 2015 and 2014, respectively, under these agreements, which are included in other income, net in the condensed consolidated statements of operations.

17. SUBSEQUENT EVENTS

On July 24, 2015, KSL exercised its Put Option related to its interest in the Essex House Hotel Venture. In connection with the exercise of the Put Option, and in accordance with the terms of the joint venture agreements, (a) SHR will issue an aggregate of 6,595,449 shares of its common stock to KSL, (b) the borrowers under the mortgage loan secured by the JW Marriott Essex House Hotel became wholly owned by certain indirect subsidiaries of SHR, and (c) the Essex House Hotel Venture with KSL will terminate.

Note on Forward-Looking Statements

On one or more occasions, we may make statements regarding our assumptions, projections, expectations, targets, intentions or beliefs about future events. All statements other than statements of historical facts included or incorporated by reference in this Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act).

Words or phrases such as "anticipates," "believes," "could," "estimates," "expects," "intends," "may," "plans," "potential," "projects," "should," "targets," "will," "will continue," "will likely result" or other comparable expressions or the negative of the terms identify forward-looking statements. Forward-looking statements reflect our current views about future events and are subject to risks, uncertainties, assumptions and changes in circumstances that may cause actual results or outcomes to differ materially from those expressed in any forward-looking statement. We caution that while we make such statements in good faith and we believe such statements are based on reasonable assumptions, including without limitation, management's examination of historical operating trends, data contained in records and other data available from third parties, we cannot assure you that our projections will be achieved.

Some important factors that could cause actual results or outcomes for us to differ materially from these forward-looking statements are discussed in the cautionary statements contained in Exhibit 99.1 to this Form 10-Q, which are incorporated herein by reference. In assessing forward-looking statements contained herein, readers are urged to read carefully all cautionary statements contained in this Form 10-Q.

Overview

Our core business is to acquire and asset-manage upper upscale and luxury hotels (as defined by Smith Travel Research, an independent provider of lodging industry statistical data). We own a unique portfolio of hotels that includes complex assets with multiple revenue streams located in select urban and resort markets that have strong growth characteristics and high barriers to entry. See "Item 1. Financial Statements -1. General" for the hotel interests owned or leased by us as of June 30, 2015. We are committed to enhancing shareholder value through a disciplined strategy that includes internal growth through exceptional asset management; conservative balance sheet management; disciplined capital allocation; and opportunistic dispositions of hotels upon completion of our value enhancement and cash flow generating strategies.

We were incorporated in Maryland in January 2004 and completed our initial public offering of our common stock in June 2004. We made an election to be taxed as a real estate investment trust (REIT) under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the Tax Code). A REIT is a legal entity that holds real estate interests and, through payments of dividends to stockholders, is permitted to reduce or avoid federal income taxes at the corporate level. To continue to qualify as a REIT, we cannot operate hotels; instead we employ internationally known hotel management companies to operate our hotels under management contracts. We operate as a self-administered and self-managed REIT, which means that we are managed by our board of directors and executive officers. We conduct our operations through our direct and indirect subsidiaries including our operating partnership, Strategic Hotel Funding, L.L.C. (SH Funding), which currently holds substantially all of our assets. We are the managing member of SH Funding and hold approximately 99.7% of its membership units as of June 30, 2015. We manage all business aspects of SH Funding, including the sale and purchase of hotels, the investment in such hotels and the financing of SH Funding and its assets.

Throughout this "Management's Discussion and Analysis of Financial Condition and Results of Operations" section, references to "we", "our", "us", and "the Company" are references to Strategic Hotels & Resorts, Inc. (SHR) together, except as the context otherwise requires, with its consolidated subsidiaries, including SH Funding.

When presenting the U.S. dollar equivalent amount for any amounts expressed in a foreign currency, the U.S. dollar equivalent amount has been computed based on the exchange rate on the date of the transaction or the exchange rate prevailing on June 30, 2015, as applicable, unless otherwise noted.

Key Indicators of Operating Performance

We evaluate the operating performance of our business using a variety of operating and other information that includes financial information prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) such as total revenues, operating income (loss), net income (loss), and earnings per share, as well as non-GAAP financial information. In addition, we use other information that may not be financial in nature, including statistical information and comparative data. We use this information to measure the performance of individual hotels, groups of hotels, and/or our

Table of Contents

business as a whole. Key performance indicators that we evaluate include average daily occupancy, average daily rate (ADR), revenue per available room (RevPAR), and Total RevPAR, which are more fully discussed under “—Factors Affecting Our Results of Operations—Revenues.” We also evaluate Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), Comparable EBITDA, Funds from Operations (FFO) attributable to SHR common shareholders, FFO-Fully Diluted, and Comparable FFO as supplemental non-GAAP measures to GAAP performance measures. We provide a more detailed discussion of the non-GAAP financial measures under “—Non-GAAP Financial Measures.”

Outlook

The current cyclical recovery of the lodging industry, which is viewed as positive RevPAR growth on a trailing twelve month basis for the industry, has been characterized by steadily improving demand, despite somewhat muted macroeconomic growth, and very limited new supply, particularly in the luxury and upper upscale segment. From a historical perspective, 2015 represents the sixth year of the current lodging recovery, and June 2015 represented the 58th consecutive month of RevPAR growth for the industry since the recovery began in 2010. The previous two upcycles lasted just over nine years (June 1992 through August 2001) and over five years (June 2003 through October 2008), respectively. Supply growth on a trailing twelve month moving average during the current upcycle has been 0.8% and has consistently run below the 2% long-term average.

As we assess lodging supply and demand dynamics looking forward, we are optimistic about the long-term prospects for the current recovery continuing, particularly in the product niche and markets in which we own assets. Group bookings pace remains our best forward indicator of demand. Definite group room nights for 2016 as of June 30, 2015 for our Total Portfolio (which is defined within “—Factors Affecting Our Results of Operations - Total Portfolio and Same Store Assets Definitions” and summarized in the table on page 33), excluding the Hyatt Regency La Jolla hotel, which was sold on May 21, 2015, are expected to exceed 2015 definite group room nights by 12.6% and are booked at 2.4% higher rates. With the exception of the New York City and Austin markets and select areas of the Miami market, new supply in the luxury and upper upscale segments remains very well contained in our markets and the current significant gap between hotel trading values and replacement costs bodes favorably for very limited supply growth into the future.

European Strategy

We previously announced our intention to exit our assets in Europe in an orderly process designed to maximize proceeds. Since that time, we sold the Renaissance Paris Hotel LeParc Trocadero (Renaissance Paris), the InterContinental Prague hotel, our leasehold interest in the Paris Marriott hotel and the Marriott London Grosvenor Square hotel. Our only remaining European asset is our leasehold interest in the Marriott Hamburg hotel. On May 7, 2015, we entered into an agreement with an unaffiliated third party, whereby we agreed to transfer our leasehold interests in the Marriott Hamburg hotel to an unaffiliated third party. When the transaction closes, which is expected in the third quarter of 2015, we will have completed our exit from Europe.

Factors Affecting Our Results of Operations

Acquisitions of Consolidated Properties. On May 12, 2015, we acquired the Four Seasons Hotel Austin for a cash payment of approximately \$196.3 million, which includes net working capital proration.

On January 29, 2015, we acquired the Montage Laguna Beach resort. The acquisition was funded through the issuance of 7,347,539 shares of SHR's common stock to an affiliated designee of the seller, the assumption of a \$150.0 million existing mortgage loan encumbering the property, and a cash payment of approximately \$110.3 million, which includes net working capital proration.

On December 9, 2014, we acquired the Four Seasons Resort Scottsdale at Troon North for a cash payment of approximately \$140.9 million, which includes net working capital proration.

Acquisitions of Interests in Consolidated Properties. On July 24, 2015, affiliates of KSL Capital Partners, LLC (KSL) exercised their right to sell us their equity interests in a joint venture formed with us to acquire, own, manage, and operate the JW Marriott Essex House Hotel (the Essex House Hotel Venture) (the Put Option). In connection with the exercise of the Put Option, and in accordance with the terms of the joint venture agreements, (a) we will issue an

aggregate of 6,595,449 shares of our common stock to KSL, (b) the borrowers under the mortgage loan secured by the JW Marriott Essex House Hotel became wholly owned by certain of our indirect subsidiaries, and (c) the Essex House Hotel Venture with KSL will terminate.

On June 11, 2014, we acquired the 63.6% equity interests in the entity that owns the Hotel del Coronado, BSK Del Partners, L.P. (the Hotel del Coronado Venture), that were previously owned by certain affiliates of Blackstone Real Estate Partners VI L.P. for a cash payment of \$210.0 million. Additionally, we became fully obligated under the entire \$475.0 million mortgage

Table of Contents

and mezzanine loans outstanding. Effective as of the closing of the transaction, we consolidated the Hotel del Coronado Venture.

On March 31, 2014, we acquired the 50% equity interests in the entities that own the Fairmont Scottsdale Princess hotel, Walton/SHR FPH Holdings, L.L.C. and FMT Scottsdale Holdings, L.L.C. (the Fairmont Scottsdale Princess Venture), that were previously owned by an affiliate of Walton Street Capital, L.L.C. for a cash payment of \$90.6 million. Additionally, we became fully obligated under the entire \$117.0 million mortgage loan, which was previously outstanding and repaid in full on April 9, 2015. Effective as of the closing of the transaction, we consolidated the Fairmont Scottsdale Princess Venture.

Sales of Interests in Consolidated Properties. On May 21, 2015, we, along with our joint venture partner, sold the Hyatt Regency La Jolla hotel for sales proceeds of approximately \$118.3 million. The \$89.2 million mortgage loan secured by the hotel was repaid at the time of closing. In accordance with newly adopted accounting guidance that amends the requirements for reporting discontinued operations, the sale of the Hyatt Regency La Jolla hotel did not represent a strategic shift that has a major effect on our results of operations; therefore, the results of operations for this property have been classified as continuing operations for all periods presented.

On March 31, 2014, we sold our interest in the Marriott London Grosvenor Square hotel for sales proceeds, net of working capital proration and closing costs, of approximately \$209.4 million. There was an outstanding balance of £67.3 million (\$112.2 million) on the mortgage loan secured by the Marriott London Grosvenor Square hotel, which was repaid at the time of closing. We received net proceeds of approximately \$97.3 million. The results of operations for this property have been classified as discontinued operations for all periods presented.

On February 28, 2014, we sold our interest in the Four Seasons Punta Mita Resort and the adjacent La Solana land parcel for proceeds of \$206.9 million. The results of operations for this property and the adjacent land parcel have been classified as discontinued operations for all periods presented.

Total Portfolio and Same Store Assets Definitions. We define our Total Portfolio as properties that we wholly or partially own or lease and whose operations are included in our consolidated operating results. Our Total Portfolio excludes all sold properties and assets held for sale, if any, classified as discontinued operations.

We present certain information about our hotel operating results and key performance indicators on a comparable hotel basis, which we refer to as our Same Store analysis. We define our Same Store Assets as those hotels (a) that are owned or leased by us, and whose operations are included in our consolidated operating results and (b) for which we reported operating results throughout the entire reporting periods presented. Our Same Store Assets Portfolio excludes all sold properties and assets held for sale, if any, classified as continuing and discontinued operations. We present the results of Same Store Assets because we believe that doing so provides useful information for evaluating the period-to-period performance of our hotels and facilitates comparisons with other hotel REITs and hotel owners. In particular, these measures assist in distinguishing whether increases or decreases in revenues and/or expenses are due to operations of the Same Store Assets or from acquisition or disposition activity.

(1) The results of operations for the Hyatt Regency La Jolla hotel are included in our Total Portfolio results of operations for our period of ownership. The Hyatt Regency La Jolla hotel was sold on May 21, 2015, and the results of operations are classified as continuing operations for all periods presented.

(2) We exclude the Marriott Hamburg hotel for purposes of calculating the key performance indicators, such as occupancy, ADR, and RevPAR, which are discussed throughout the remainder of this "Management's Discussion and Analysis of Financial Condition and Results of Operations" because we sublease the operations of the hotel and only record lease revenue.

Revenues. Substantially all of our revenue is derived from the operation of our hotels. Specifically, our revenue for the six months ended June 30, 2015 and 2014, consisted of:

Rooms revenue. Occupancy and ADR are the major drivers of rooms revenue.

Food and beverage revenue. Occupancy, local catering and banquet events are the major drivers of food and beverage revenue.

Other hotel operating revenue. Other hotel operating revenue consists primarily of cancellation fees, spa, telephone, parking, golf course, internet access, space rentals, retail and other guest services and is also driven by occupancy.

Lease revenue. We sublease our interest in the Marriott Hamburg hotel to a third party and earn annual base rent plus additional rent contingent on the hotel meeting performance thresholds. On May 7, 2015, we entered into an agreement with an unaffiliated third party, whereby we agreed to transfer our leasehold interests in the Marriott Hamburg hotel to such unaffiliated third party. The transaction is expected to close in the third quarter of 2015.

Changes in our revenues are most easily explained by performance indicators that are used in the hotel real estate industry:

• average daily occupancy;

• ADR, which stands for average daily rate, is equal to rooms revenue divided by the number of occupied rooms;

• RevPAR, which stands for revenue per available room, is equal to rooms revenue divided by the number of rooms available; and

• Total RevPAR, which stands for total revenue per available room, is equal to the sum of rooms revenue, food and beverage revenue and other hotel operating revenue, divided by the number of rooms available.

We generate a significant portion of our revenue from two broad categories of customers, transient and group.

Our transient customers include individual or group business and leisure travelers that occupy fewer than 10 rooms per night. Transient customers for our Total Portfolio accounted for approximately 53.2% and 57.3% of the rooms sold during the six months ended June 30, 2015 and 2014, respectively. We divide our transient customers into the following subcategories:

• Transient Leisure – This category generates the highest room rates and includes travelers that receive published rates offered to the general public that do not have access to negotiated or discounted rates.

• Transient Negotiated – This category includes travelers, who are typically associated with companies and organizations that generate high volumes of business, that receive negotiated rates that are lower than the published rates offered to the general public.

Our group customers include groups of 10 or more individuals that occupy 10 or more rooms per night. Group customers for our Total Portfolio accounted for approximately 46.8% and 42.7% of the rooms sold during the six months ended June 30, 2015 and 2014, respectively. We divide our group customers into the following subcategories:

• Group Association – This category includes group bookings related to national and regional association meetings and conventions.

• Group Corporate – This category includes group bookings related to corporate business.

• Group Other – This category generally includes group bookings related to social, military, education, religious, fraternal and youth and amateur sports teams.

Fluctuations in revenues, which, for our domestic hotels, historically have been correlated with changes in the United States gross domestic product (U.S. GDP), are driven largely by general economic and local market conditions, which in turn affect levels of business and leisure travel. Guest demographics also affect our revenues. During 2014 and in the first half of 2015, demand at our hotels has been strong, which we believe reflects the relative strength of our primary customer demographics, particularly U.S. based corporations and affluent transient travelers.

In addition to economic conditions, supply is another important factor that can affect revenues. Room rates and occupancy tend to fall when supply increases unless the supply growth is offset by an equal or greater increase in demand. One reason we target upper upscale and luxury hotels in select urban and resort markets, including major business centers and leisure destinations, is because they tend to be in locations that have greater supply constraints such as lack of available land, high development costs, long development and entitlement lead times, and brand trade area restrictions that prevent the addition of a certain brand or brands in close proximity. Nevertheless, our hotels are not insulated from competitive pressures and our hotel operators will lower room rates to compete more aggressively for guests in periods when occupancy declines.

Hotel Operating Expenses. Our hotel operating expenses for the six months ended June 30, 2015 and 2014 consisted of the costs and expenses to provide hotel services, including:

	Total Portfolio % of Total Hotel Operating Expenses		Same Store Assets % of Total Hotel Operating Expenses		
	2015	2014	2015	2014

• Rooms expense. Occupancy is a major driver of rooms expense, which has a significant correlation with rooms revenue.

• Food and beverage expense. Occupancy, local catering and banquet events are the major drivers of food and beverage expense, which has a significant correlation with food and beverage revenue.

• Other departmental expenses. Other departmental expenses consist of general and administrative, marketing, repairs and maintenance, utilities and expenses related to earning other operating revenue.

• Management fees. We pay base and incentive management fees to our hotel operators. Base management fees are computed as a percentage of revenue. Incentive management fees are incurred when operating profits exceed levels prescribed in our management agreements.

• Other hotel expenses. Other hotel expenses consist primarily of insurance costs and property taxes.

Salaries, wages and related benefits are included within the categories of hotel operating expenses described above and represented approximately 50.7% and 55.5% of the Total Portfolio total hotel operating expenses for the six months ended June 30, 2015 and 2014, respectively.

Most categories of variable operating expenses, such as utilities and certain labor such as housekeeping, fluctuate with changes in occupancy. Increases in RevPAR attributable to increases in occupancy are accompanied by increases in most categories of variable operating costs and expenses while increases in RevPAR attributable to increases in ADR typically only result in increases in limited categories of operating costs and expenses, such as management fees charged by our operators, which are based on hotel revenues. Therefore, changes in ADR have a more significant impact on operating margins.

Lease Expense. As a result of the sale-leaseback transaction of the Marriott Hamburg hotel, we record lease expense in our condensed consolidated statements of operations. In conjunction with the sale-leaseback transaction, we also recorded a deferred gain, which is amortized as an offset to lease expense. On May 7, 2015, we entered into an agreement with an unaffiliated third party, whereby we agreed to transfer our leasehold interests in the Marriott Hamburg hotel to such unaffiliated third party. The transaction is expected to close in the third quarter of 2015.

Corporate Expenses. Corporate expenses include payroll and related costs, professional fees, travel expenses, office rent and transaction costs.

Recent Events. In addition to the changes to the consolidated hotel properties and unconsolidated affiliates noted above, we expect that the following events will cause our future results of operations to differ from our historical performance:

Unsecured Credit Facility. On May 27, 2015, we entered into a new \$750.0 million senior unsecured credit facility, which also includes a \$250.0 million accordion feature. The unsecured credit facility is comprised of a \$450.0 million unsecured revolving credit facility and a \$300.0 million unsecured term loan. The unsecured credit facility replaced the \$300.0 million secured credit facility that was set to initially expire in April 2018. Interest on the unsecured revolving credit facility is payable monthly based upon a leverage-based pricing grid with annual rates ranging from London Interbank Offered Rate (LIBOR) plus 1.65% to LIBOR plus 2.40%. Interest on the unsecured term loan is also payable monthly based upon a leverage-based pricing grid with annual rates ranging from LIBOR plus 1.60% to

LIBOR plus 2.35%. The facility expires on May 27, 2020. See "—Liquidity and Capital Resources—Unsecured Credit Facility."

The interest rate decreased to an annual rate of LIBOR plus 2.95% from the previous annual rate of LIBOR plus 4.00%, subject to a 0.75% LIBOR floor. On July 24, 2015, KSL exercised its Put Option related to the Essex House Hotel Venture, and the borrowers under the mortgage loan secured by the JW Marriott Essex House Hotel became wholly owned by certain of our indirect subsidiaries.

On July 7, 2014, we paid off the outstanding balance of an \$85.0 million mortgage loan secured by the InterContinental Miami hotel. On August 29, 2014, we closed on a new \$115.0 million mortgage loan secured by the InterContinental Miami hotel. On June 30, 2014, we refinanced the mortgage loan secured by the Four Seasons Washington, D.C. hotel. The principal was reduced to \$120.0 million and the annual interest rate was reduced to LIBOR plus 2.25% from LIBOR plus 3.15%. The loan has an initial maturity date of June 30, 2017 with two, one-year extension options, subject to certain conditions.

On May 29, 2014, we refinanced the mortgage loan secured by the Loews Santa Monica Beach Hotel. Rooms. Our Same Store Assets contributed to a \$4.9 million, or 3.5%, increase in rooms revenue for the three months ended June 30, 2015 from the three months ended June 30, 2014. The components of RevPAR from our Same Store Assets for the three months ended June 30, 2015 and 2014 are summarized as follows:

	Three Months Ended June 30,			Change (%) Favorable/ (Unfavorable)	
	2015		2014		
Occupancy	79.5	%	81.3	% (2.2)%
ADR	\$310.27		\$292.97	5.9	%
RevPAR	\$246.53		\$238.29	3.5	%

The increase in RevPAR for the Same Store Assets resulted from a 5.9% increase in ADR offset by a 1.8 percentage-point decline in occupancy. RevPAR increased primarily due to growth in transient and group ADR of 6.9% and 5.6%, respectively, for our Same Store Assets for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014. Significant ADR increases were noted at the following Same Store Assets: the Four Seasons Silicon Valley hotel due to strong transient demand that helped drive higher transient and group ADR; the Four Seasons Washington, D.C. hotel due to strong group demand for premium rooms that helped drive higher group ADR; the Ritz-Carlton Half Moon Bay hotel due to the hotel replacing lost group room nights from the prior year with higher rated transient rooms; and the Fairmont Chicago hotel due to selling premium rooms to groups and increasing transient and group ADR during periods of high group demand.

RevPAR growth was not as strong as anticipated due to declines in period over period occupancy levels at certain of our Same Store Assets. Poor weather conditions during the second quarter of 2015 impacted transient occupancy during high demand periods in some of our significant markets, including Southern California and Chicago. More specifically, there were notable declines in occupancy at the following Same Store Assets: the Ritz-Carlton Half Moon Bay hotel due to non-repeat groups from 2014 and weak group demand in 2015; the Fairmont Scottsdale Princess hotel due to significant group cancellations in the second quarter of 2015 and large non-repeat groups from 2014; and the Loews Santa Monica Beach hotel due to a weak market in the second quarter of 2015 and demand being impacted by a pool deck renovation at the hotel.

For our Total Portfolio, rooms revenue increased \$37.5 million, or 25.2%, for the three months ended June 30, 2015 from the three months ended June 30, 2014. In addition to the increase in the rooms revenue at our Same Store Assets, the increase in our Total Portfolio rooms revenue includes \$34.2 million of additional rooms revenue from hotel acquisitions.

The components of RevPAR from our Total Portfolio for the three months ended June 30, 2015 and 2014 are summarized as follows:

	Three Months Ended June 30,			Change (%) Favorable/ (Unfavorable)	
	2015		2014		
Occupancy	78.9	%	80.8	% (2.4)%
ADR	\$323.91		\$289.97	11.7	%
RevPAR	\$255.41		\$234.23	9.0	%

Food and Beverage. Our Same Store Assets had a \$4.9 million, or 5.3%, increase in food and beverage revenue for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014, primarily due to an increase in banquet, catering, and audio-visual revenues from strong group spend at many of our Same Store Assets, including significant group spend at the InterContinental Miami hotel, the Fairmont Chicago hotel, and the JW Marriott Essex House Hotel. The InterContinental Miami hotel also had an increase in outlet revenue due to strong volume at its Toro Toro restaurant. For our Total Portfolio, food and beverage revenue increased \$34.5 million, or

34.5%, when comparing the three months ended June 30, 2015 to the three months ended June 30, 2014. In addition to the increase in food and beverage revenue at our Same Store Assets, the increase in our Total Portfolio food and beverage revenue includes \$31.0 million of additional food and beverage revenue from hotel acquisitions.

Other Hotel Operating Revenue. Our Same Store Assets had a \$1.2 million, or 5.1%, decrease in other hotel operating revenue for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014, primarily due to a decline in theater revenue at the Marriott Lincolnshire hotel and a decline in cancellation and attrition revenue at the Ritz-Carlton Laguna Niguel hotel. For our Total Portfolio, other hotel operating revenue increased \$9.0 million, or 34.9%, when comparing the three

months ended June 30, 2015 to the three months ended June 30, 2014, which includes \$10.7 million of additional other hotel operating revenue from hotel acquisitions.

Hotel Operating Expenses. The following table presents the components of our hotel operating expenses for the three months ended June 30, 2015 and 2014, including the amount and percentage changes in these expenses between the two periods of our Total Portfolio and Same Store Assets (in thousands):

Hotel operating expenses for our Same Store Assets increased by \$7.1 million, or 3.9%, for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014. Increases in operating expenses within the food and beverage department include a \$5.6 million increase in payroll costs driven by strong banquet and catering volume, partially offset by a \$1.3 million decrease in food and beverage acquisition costs. Increases in other departmental expenses include a \$0.6 million increase in payroll costs, a \$0.3 million increase in information systems costs, a \$0.2 million increase in credit card commissions, and a \$0.2 million increase in marketing costs. Management fees increased by \$1.0 million due to higher gross revenues and improved operating profit at many of our Same Store Assets. Other hotel expenses increased primarily due to increases in real estate taxes.

For our Total Portfolio, hotel operating expenses increased by \$58.8 million, or 29.5%, for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014, due to the increase in our Same Store Assets as well as \$55.2 million of additional hotel operating expenses related to hotel acquisitions.

Depreciation and Amortization. For our Total Portfolio, depreciation and amortization increased \$12.3 million, or 43.7%, for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014, primarily due to \$12.2 million of additional depreciation and amortization expense from hotel acquisitions.

Impairment Losses. During the three months ended June 30, 2015, we performed an impairment test of long-lived assets related to the Marriott Lincolnshire Resort as a result of a change in the anticipated holding period for this hotel and recorded a non-cash impairment charge of \$10.4 million.

Corporate Expenses. Corporate expenses decreased \$0.8 million, or 10.5%, for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014. Corporate expenses consist primarily of payroll and related costs, professional fees, travel expenses, office rent, and transaction costs. The decrease in corporate expenses primarily relates to significant transaction costs related to loan modifications that were expensed during the second quarter 2014.

Interest Expense, Net. There was a \$1.2 million, or 5.9%, increase in interest expense, net for the three months ended June 30, 2015 when compared to the three months ended June 30, 2014. The components of interest expense, net for the three months ended June 30, 2015 and 2014, are summarized as follows (in thousands):

	Three Months Ended June 30,		Change (\$) Favorable/ (Unfavorable)	Change (%) Favorable/ (Unfavorable)

Total interest expense, net	\$ (20,693) \$ (19,537) \$ (1,156) (5.9)%

The change in interest expense, net, is primarily due to the following:

- an increase in mortgage interest due to the consolidation of the mortgage loan secured by the Hotel del Coronado, the assumption of the mortgage loan secured by the Montage Laguna Beach resort, and the new mortgage loan secured by the Ritz-Carlton Half Moon Bay hotel, offset by the repayment of mortgage loans secured by the Fairmont Chicago, Westin St. Francis, Hyatt Regency La Jolla, and the Fairmont Scottsdale Princess hotels, lower annual interest rates resulting from refinancing activity, and the elimination of cash swap settlement payments due to the termination of all of our remaining interest rate swaps in April 2014;

- an increase in interest related to credit facility arrangements due to a higher average balance outstanding under the credit facility arrangements during the three months ended June 30, 2015 as compared to the three months ended June 30, 2014;

- a decrease in amortization of debt discount related to the Fairmont Scottsdale Princess hotel, which became fully amortized at March 31, 2015; and

- an increase in interest expense related to the mark to market of interest rate swaps, which was impacted by the swap terminations that eliminated mark to market gains.

The weighted average debt outstanding for the three months ended June 30, 2015 and 2014 amounted to \$1.8 billion and \$1.3 billion, respectively. At June 30, 2015, approximately 22.5% of our total debt had fixed interest rates.

Loss on Early Extinguishment of Debt. During the three months ended June 30, 2015, we recognized a loss on early extinguishment of debt of \$34.2 million, which includes \$32.9 million of prepayment penalties and other fees incurred in connection with the repayments of the mortgage loans secured by the Westin St. Francis and the Fairmont Chicago hotels. Additionally, we wrote off unamortized deferred financing costs related to the mortgage loans secured by the Westin St. Francis hotel, the Fairmont Chicago hotel, and the Hyatt Regency La Jolla hotel, which was repaid upon the sale of the hotel.

Equity in Earnings of Unconsolidated Affiliates. There was no activity related to unconsolidated affiliates for the three months ended June 30, 2015. The change in equity in earnings of unconsolidated affiliates is due to the acquisitions of the remaining equity interests in the Hotel del Coronado Venture in 2014. Subsequent to the acquisition, the operating results of the Hotel del Coronado were consolidated and no longer accounted for using the equity method of accounting.

Table of Contents

The following table presents certain components included in the calculation of equity in earnings resulting from our unconsolidated affiliates for the three months ended June 30, 2014 (in thousands):

	Hotel del Coronado Venture (1)	Unconsolidated Affiliates in Mexico (2)	Total
Equity in earnings (losses)	\$880	\$(54)) \$826
Depreciation and amortization	1,572	—	1,572
Interest expense	1,518	—	1,518
Income tax expense (benefit)	87	(23)) 64

(1) The Hotel del Coronado Venture is BSK Del Partners, L.P., the owner of the Hotel del Coronado. The Hotel del Coronado Venture became wholly owned by us in June 2014.

(2) These affiliates include the Four Seasons Residence Club Punta Mita (Four Seasons RCPM) and the Lot H5 Venture.

Gain on Consolidation of Affiliates. On June 11, 2014, we acquired the 63.6% interest in the Hotel del Coronado Venture that was not previously owned by us and recorded a gain on consolidation of affiliate of \$65.3 million for the three months ended June 30, 2014, which represents the difference between the fair value and carrying value of our preexisting equity interest in the Hotel del Coronado, offset by acquisition costs.

Other Income, Net. Other income, net includes asset management fee income, non-income related state, local and franchise taxes, as well as miscellaneous income and expenses. The \$39.7 million change in other income, net for the three months ended June 30, 2015, when compared to the three months ended June 30, 2014, is primarily due to the \$40.6 million gain recorded on the sale of the Hyatt Regency La Jolla hotel during the three months ended June 30, 2015.

Income Tax Expense. The \$2.2 million, or 1,084.5%, increase in income tax expense is due to higher current income tax expense resulting from improved profitability and operations of the hotels as well as higher deferred income tax expense related to the Hotel del Coronado, which was consolidated in June 2014.

Income from Discontinued Operations, Net of Tax. The income from discontinued operations, net of tax, for the three months ended June 30, 2014 represents transaction costs related to the disposition of the Four Seasons Punta Mita Resort and the Marriott London Grosvenor Square hotel in 2014. Effective January 1, 2015, we adopted new accounting guidance that amends the requirements for reporting discontinued operations. Based on the new guidance, the disposal of the Hyatt Regency La Jolla hotel on May 21, 2015 does not represent a strategic shift that has a major effect on our results of operations; therefore, the results of operations for the Hyatt Regency La Jolla hotel are classified as continuing operations.

Net (Income) Loss Attributable to the Noncontrolling Interests in Consolidated Affiliates. We record net loss or income attributable to noncontrolling interests in consolidated affiliates for the non-ownership interests in hotels that are partially owned by us. The change in net (income) loss attributable to noncontrolling interests in consolidated affiliates is primarily due to the gain recorded on the sale of the Hyatt Regency La Jolla hotel for the three months ended June 30, 2015.

Rooms. Our Same Store Assets contributed to a \$13.5 million, or 5.9%, increase in rooms revenue for the six months ended June 30, 2015 from the six months ended June 30, 2014. The components of RevPAR from our Same Store Assets for the six months ended June 30, 2015 and 2014 are summarized as follows:

	Six Months Ended June 30,		Change (%)	
	2015	2014	Favorable/ (Unfavorable)	
Occupancy	75.4	% 75.7	% (0.4)%
ADR	\$306.69	\$288.61	6.3	%
RevPAR	\$231.15	\$218.39	5.8	%

The increase in RevPAR for the Same Store Assets resulted from the combination of a 6.3% increase in ADR and a 0.3 percentage-point decrease in occupancy. RevPAR increased primarily due to growth in transient ADR of 6.1% for our Same Store Assets for the six months ended June 30, 2015 when compared to the six months ended June 30, 2014. Significant contributors to growth in rooms revenue at our Same Store Assets include: the Westin St. Francis hotel, which had increased transient demand over the prior year and strong citywide and self-contained group demand that helped drive higher transient and group ADR, the Four Seasons Silicon Valley hotel, which had strong transient and group demand that helped drive higher transient and group ADR, and the Ritz-Carlton Laguna hotel, which had strong group demand that helped drive higher transient and group ADR. The increase in RevPAR was partially offset by declines in occupancy levels at certain of our Same Store Assets, including the Ritz-Carlton Half Moon Bay hotel due to non-repeat groups from 2014, weak group demand in 2015, and rooms renovation displacement in the first quarter of 2015, and the JW Marriott Essex House Hotel, which has been impacted by additional hotel supply in the New York City market that is putting downward pressure on demand.

For our Total Portfolio, rooms revenue increased \$97.3 million, or 38.6%, for the six months ended June 30, 2015 from the six months ended June 30, 2014. In addition to the increase in the rooms revenue at our Same Store Assets, the increase in our Total Portfolio rooms revenue includes \$83.3 million of additional rooms revenue from hotel acquisitions.

The components of RevPAR from our Total Portfolio for the six months ended June 30, 2015 and 2014 are summarized as follows:

	Six Months Ended June 30,		Change (%)

Occupancy	75.8	% 74.9	% 1.2	%
ADR	\$318.42	\$282.31	12.8	%
RevPAR	\$241.36	\$211.44	14.2	%

Food and Beverage. Our Same Store Assets had a \$12.6 million, or 8.6%, increase in food and beverage revenue for the six months ended June 30, 2015 when compared to the six months ended June 30, 2014 primarily due to an increase in banquet and catering revenues due to increased banquet volume and strong group spend at many of our Same Store Assets, including the InterContinental Miami hotel, the Fairmont Chicago hotel, and the Ritz-Carlton Laguna Niguel hotel. Additionally, the InterContinental Miami hotel had an increase in outlet revenue due to strong volume at its Toro Toro restaurant. For our Total Portfolio, food and beverage revenue increased \$87.9 million, or 51.7%, when comparing the six months ended June 30, 2015 to the six months ended June 30, 2014. In addition to the increase in food and beverage revenue at our Same Store Assets, the increase in our Total Portfolio food and beverage revenue includes \$75.5 million of additional food and beverage revenue from hotel acquisitions.

The increase in hotel operating expenses was offset by a reduction in real estate taxes, which primarily relates to a real estate tax refund received by the Westin St. Francis hotel during the six months ended June 30, 2015.

For the Total Portfolio, hotel operating expenses increased by \$138.2 million, or 38.1%, for the six months ended June 30, 2015 when compared to the six months ended June 30, 2014, due to the increase in our Same Store Assets as well as \$126.2 million of additional hotel operating expenses from hotel acquisitions.

The change in interest expense, net, is primarily due to the following:

- an increase in mortgage interest due to the consolidation of the mortgage loan secured by the Hotel del Coronado, the assumption of the mortgage loan secured by the Montage Laguna Beach resort, and the new mortgage loan secured by the Ritz-Carlton Half Moon Bay hotel, offset by the repayment of mortgage loans secured by the Fairmont Chicago, Westin St. Francis, and Hyatt Regency La Jolla hotels, lower annual interest rates resulting from refinancing activity, and the elimination of cash swap settlement payments due to the termination of all of our remaining interest rate swaps in April 2014; and
- an increase in interest expense related to the amortization and mark to market related to interest rate swaps, which was impacted by the swap terminations that increased amortization of amounts previously recorded in accumulated other comprehensive loss and also eliminated mark to market gains.

The weighted average debt outstanding for each of the six months ended June 30, 2015 and 2014 amounted to \$1.8 billion and \$1.2 billion, respectively. At June 30, 2015 approximately 22.5% of our total debt had fixed interest rates. Loss on Early Extinguishment of Debt. During the six months ended June 30, 2015, we recognized a loss on early extinguishment of debt of \$34.2 million, which includes \$32.9 million of prepayment penalties and other fees incurred in connection with the repayments of the mortgage loans secured by the Westin St. Francis and the Fairmont Chicago hotels. Additionally, we wrote off unamortized deferred financing costs related to the mortgage loans secured by the Westin St. Francis hotel, the Fairmont Chicago hotel, and the Hyatt Regency La Jolla hotel, which was repaid upon the sale of the hotel.

Equity in Earnings of Unconsolidated Affiliates. There was no activity related to unconsolidated affiliates for the six months ended June 30, 2015. The change in equity in earnings of unconsolidated affiliates is due to the acquisitions of the remaining equity interests in the Fairmont Scottsdale Princess Venture and the Hotel del Coronado Venture in 2014. Subsequent to each acquisition, the operating results of the Fairmont Scottsdale Princess Venture and the Hotel del Coronado Venture were consolidated and no longer accounted for using the equity method of accounting. The following table presents certain components included in the calculation of equity in earnings resulting from our unconsolidated affiliates for the six months ended June 30, 2014 (in thousands):

	Fairmont Scottsdale Princess Venture (1)	Hotel del Coronado Venture	Unconsolidated Affiliates in Mexico	Total
Equity in earnings	\$4,846	\$600	\$(175)	\$5,271
Depreciation and amortization	1,551	3,526	—	5,077
Interest expense	168	3,418	1	3,587
Income tax expense	—	(143)	(78)	(221)

(1) The Fairmont Scottsdale Princess Venture is FMT Scottsdale Holdings, L.L.C. and Walton/SHR FPH Holdings, L.L.C., the owner of the Fairmont Scottsdale Princess hotel. The Fairmont Scottsdale Princess Venture became wholly owned by us in March 2014.

Gain on Consolidation of Affiliates. On March 31, 2014, we acquired the 50% interest in the Fairmont Scottsdale Princess Venture that was not previously owned by us and recorded a gain on consolidation of affiliate of \$78.1 million for the six months ended June 30, 2014. On June 11, 2014, we acquired the 63.6% interest in the Hotel del Coronado Venture that was not previously owned by us and recorded a gain on consolidation of affiliate of \$65.4 million for the six months ended June 30, 2014.

Other Income, Net. Other income, net includes asset management fee income, non-income related state, local and franchise taxes, as well as miscellaneous income and expenses. The \$39.1 million increase in other income, net, is primarily due to the \$40.6 million gain recorded on the sale of the Hyatt Regency La Jolla hotel during the six months ended June 30, 2015.

Income Tax Expense. The \$2.4 million, or 985.8%, increase in income tax expense is due to higher current income tax expense resulting from improved profitability and operations of the hotels as well as higher deferred income tax

expense related to the Hotel del Coronado, which was consolidated in June 2014.

Income from Discontinued Operations, Net of Tax. Income from discontinued operations, net of tax, decreased by \$159.0 million due to gains recognized on the sale of the Marriott London Grosvenor Square hotel and the Four Seasons Punta Mita Resort during the six months ended June 30, 2014. Effective January 1, 2015, we adopted new accounting guidance that amends

the requirements for reporting discontinued operations. Based on the new guidance, the disposal of the Hyatt Regency La Jolla hotel on May 21, 2015 does not represent a strategic shift that has a major effect on our results of operations; therefore, the results of operations for the Hyatt Regency La Jolla hotel are classified as continuing operations.

Net Income Attributable to the Noncontrolling Interests in SHR's Operating Partnership. We record net income or loss attributable to the noncontrolling interests in SHR's operating partnership based on the percentage of SH Funding we do not own. The \$1.0 million decrease in net income attributable to the noncontrolling interests in SHR's partnership is due to lower net income during the six months ended June 30, 2015 compared to the six months ended June 30, 2014. During the six months ended June 30, 2014, we recorded significant gains related to the consolidation of affiliates and the disposition of two hotels. During the six months ended June 30, 2015, we recorded fewer gains because we only had one hotel disposition. Additionally, we recorded an impairment loss of \$10.4 million and loss on early extinguishment of debt of \$34.2 million during the six months ended June 30, 2015.

Net (Income) Loss Attributable to the Noncontrolling Interests in Consolidated Affiliates. We record net loss or income attributable to noncontrolling interests in consolidated affiliates for the non-ownership interests in hotels that are partially owned by us. The change in net (income) loss attributable to noncontrolling interests is primarily due to the gain recorded on the sale of the Hyatt Regency La Jolla hotel for the six months ended June 30, 2015.

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of funds necessary to pay for operating expenses and other expenditures, including:

- interest expense and scheduled principal payments on outstanding indebtedness; and
- recurring maintenance and capital expenditures necessary to maintain our properties properly.

Capital expenditures for the six months ended June 30, 2015 and 2014 amounted to \$45.7 million and \$35.6 million, respectively. Included in the June 30, 2015 and 2014 capital expenditure amounts were \$0.3 million and \$0.4 million of capitalized interest, respectively. For the remainder of the year ending December 31, 2015, we expect to spend approximately \$51.5 million on hotel property and equipment replacement projects in accordance with hotel management agreements and approximately \$23.0 million to \$33.0 million on owner-funded projects, subject to adjustments based on continued evaluation. Major expected capital expenditures include guestroom renovations at the Loews Santa Monica Beach Hotel, the Four Seasons Washington, D.C. hotel and the Westin St. Francis hotel, as well as a 100-room expansion at the Fairmont Scottsdale Princess hotel.

Historically, we have satisfied our short-term liquidity requirements through our existing working capital, cash provided by operations, and our credit facility arrangements. As of June 30, 2015, we had approximately \$16.1 million of available corporate level cash, not including restricted cash and cash currently held by the hotels.

Additionally, we anticipate our \$750.0 million senior unsecured credit facility, which includes a \$250.0 million accordion feature, will continue to provide sufficient borrowing capacity to meet our short-term liquidity requirements during the next twelve months (see – “Unsecured Credit Facility” below) as long as we are in compliance with financial covenants. Our compliance with financial covenants in future periods will depend substantially on the financial results of our hotels, and in particular, the operating results and gross asset values of the pool of unencumbered assets that support the unsecured credit facility, which include the Fairmont Chicago hotel, the Fairmont Scottsdale Princess hotel, the Four Seasons Hotel Austin, the Four Seasons Jackson Hole hotel, the Four Seasons Resort Scottsdale at Troon North, the Four Seasons Silicon Valley hotel, the Marriott Lincolnshire Resort, the Ritz-Carlton Laguna Niguel hotel, and the Westin St. Francis hotel. As of June 30, 2015, we were in compliance with our financial and other restrictive covenants contained in the unsecured credit facility agreement. As of August 5, 2015, the outstanding borrowings and letters of credit under the unsecured credit facility in the aggregate were \$334,000,000, and the available borrowing capacity under the unsecured credit facility was \$416,000,000.

Table of Contents

We believe that the following measures we have taken should be sufficient to satisfy our liquidity needs for the next 12 months.

On May 27, 2015, we entered into a new \$750.0 million senior unsecured credit facility. The unsecured credit facility is comprised of a \$450.0 unsecured revolving credit facility and a \$300.0 unsecured term loan. The unsecured credit facility contains an accordion feature, which provides the option to increase the borrowing capacity up to \$1.0 billion, subject to the satisfaction of customary conditions set forth in the agreement. On May 27, 2015, we also closed a \$115.0 million term loan secured by the Ritz-Carlton Half Moon Bay hotel. Simultaneously, we used the proceeds from these transaction to repay the previously outstanding \$209.6 million loan secured by the Westin St. Francis hotel and the \$93.1 million loan secured by the Fairmont Chicago hotel that were cross-collateralized and set to mature in June 2017. These transactions allowed us to reduce interest expense, lower our overall weighted average cost of debt and increase the weighted average maturity of our debt. We currently have nine unencumbered assets that will allow for increased financing flexibility in future periods.

On May 21, 2015, we, along with our joint venture partner, sold our interest in the Hyatt Regency La Jolla hotel for \$118.3 million. The \$89.2 million mortgage loan secured by the Hyatt Regency La Jolla hotel was repaid upon the close of the transaction.

In February 2015, we entered into a stock distribution agreement whereby we may sell, from time to time, through certain agents, shares of SHR's common stock, having an aggregate offering price of up to \$250.0 million by means of ordinary brokers' transactions at market prices or as otherwise agreed to between us and the agents.

In December 2014, we completed an underwritten public offering of common stock and raised net proceeds of approximately \$250.9 million. We used a portion of the proceeds to fund the acquisition of the Four Seasons Resort Scottsdale at Troon North and to redeem all of the issued and outstanding shares of our Series B Preferred Stock in January 2015, which eliminates future preferred dividend distributions related to these shares, and for general corporate purposes, including, without limitation, repaying other debt and funding capital expenditures and working capital. In June 2014, we completed an underwritten public offering of common stock and raised net proceeds of approximately \$416.6 million. We used the proceeds to fund the acquisition of the remaining 63.6% interest in the Hotel del Coronado Venture not previously owned by us, to redeem all of the issued and outstanding shares of our Series C Preferred Stock, which eliminates future preferred dividend distributions related to these shares, and for general corporate purposes, including, without limitation, reducing our borrowings under our credit facility arrangements, repaying other debt and funding capital expenditures and working capital.

In December 2014, the Essex House Hotel Venture entered into a new \$225.0 million mortgage loan secured by the JW Marriott Essex House Hotel, whereby we reduced the interest rate spread and extended the maturity of the mortgage loan to 2020, assuming extension options are exercised. In August 2014, we entered into a new \$115.0 million mortgage loan secured by the InterContinental Miami hotel, whereby we were able to obtain a favorable fixed annual rate and extend the maturity of the mortgage loan to 2024. In May and June 2014, we refinanced the mortgage loans secured by the Loews Santa Monica Beach Hotel and the Four Seasons Washington, D.C. hotel whereby we reduced the interest rate spreads on both loans and staggered and extended maturities to 2021 and 2019, respectively, assuming extension options are exercised (see – “Mortgages payable, net of discount” below).

In March 2014, we sold the Marriott London Grosvenor Square hotel for proceeds of approximately \$209.4 million, which included amounts used to repay the outstanding mortgage loan balance, and used the proceeds to acquire the remaining 50.0% equity interest in the Fairmont Scottsdale Princess Venture not previously owned by us.

In February 2014, we sold our interest in the Four Seasons Punta Mita Resort and the adjacent La Solana land parcel for proceeds of approximately \$206.9 million. We used the proceeds to redeem all of the issued and outstanding shares of our Series A Preferred Stock, which eliminates future preferred dividend distributions related to these shares, and repay indebtedness under our credit facility arrangements.

In November 2008, our board of directors elected to suspend the quarterly dividend to holders of shares of our common stock beginning in the fourth quarter of 2008. Our board of directors will continue to evaluate the dividend policy in light of the REIT provisions of the Tax Code, restrictions under our unsecured credit facility (if applicable), the overall economic climate and our improving financial results.

Unsecured credit facility. On May 27, 2015, we entered into a new \$750.0 million senior unsecured credit facility. The unsecured credit facility is comprised of a \$450.0 million unsecured revolving credit facility and a \$300.0 million unsecured term loan. The unsecured credit facility contains an accordion feature, which provides the option to increase the borrowing capacity up to \$1.0 billion, subject to the satisfaction of customary conditions set forth in the agreement. SH Funding has a letter of credit sub-facility of \$60.0 million under the unsecured credit facility. The following summarizes key financial terms and conditions of the unsecured credit facility:

interest on the unsecured revolving facility is payable monthly at LIBOR plus an applicable margin in the case of each LIBOR loan and base-rate plus an applicable margin in the case of each base rate loan whereby the applicable margins are dependent on the ratio of consolidated debt to gross asset value (Leverage Ratio) as follows:

Leverage Ratio	Applicable Margin of each LIBOR Loan (% per annum)	Applicable Margin of each Base Rate Loan (% per annum)	
Greater than or equal to 60%	2.40	% 1.40	%
Greater than or equal to 55% but less than 60%	2.15	% 1.15	%

Greater than or equal to 55% but less than 60%	2.10	% 1.10	%

Greater than or equal to 45% but less than 50%	1.80	% 0.80	%
Less than 45%	1.60	% 0.60	%

an unused commitment fee is payable monthly under the unsecured revolving facility based on the unused revolver balance at a rate of 0.30% per annum in the event that the unsecured revolving facility usage is less than 50% and a rate of 0.20% per annum in the event that the unsecured revolving facility usage is equal to or greater than 50%;

the maturity date of both the unsecured revolving facility and the unsecured term loan is May 27, 2020;

the unsecured credit facility requires that SH Funding own, at all times, a minimum of five unencumbered assets, exclusive of assets located in Mexico, and is initially supported by a pool of unencumbered assets that currently

consists of the Fairmont Chicago hotel, the Fairmont Scottsdale Princess hotel, the Four Seasons Hotel Austin, the Four Seasons Jackson Hole hotel, the Four Seasons Resort Scottsdale at Troon North, the Four Seasons Silicon Valley hotel, the Marriott Lincolnshire Resort, the Ritz-Carlton Laguna Niguel hotel, and the Westin St. Francis hotel;

the borrowing capacity under the unsecured revolving facility is reduced by any amounts previously borrowed and not repaid and any outstanding letters of credit;

financial covenants include: (a) minimum corporate fixed charge coverage of 1.50, (b) maximum corporate leverage of 60%, (c) maximum secured leverage of 50%; (d) maximum secured recourse leverage of 10%, (e) maximum unsecured leverage of 60%, (f) minimum unsecured interest coverage of 2.00, and (g) minimum tangible net worth of approximately \$1.8 billion, excluding goodwill and currency translation adjustments, plus an amount equal to 75% of the net proceeds of any new issuances of our common stock, which is not used to reduce indebtedness or used in a transaction or series of transactions to redeem outstanding capital stock; and

restrictions on SHR and SH Funding's ability to pay dividends.

Notwithstanding the dividend restrictions, for so long as the Company qualifies, or has taken all other actions necessary to qualify as a REIT, SH Funding may authorize, declare, and pay quarterly cash dividends to the Company when and to the extent necessary for the Company to distribute cash dividends to its stockholders generally in an aggregate amount not to exceed the minimum amount necessary for the Company to maintain its tax status as a REIT, unless certain events of default exist.

Other terms and conditions exist including a limitation on mortgaging the unencumbered assets and limitations on the Company's ability to incur costs for discretionary capital programs and to redeem, retire or repurchase common stock. (1) All of these loan agreements require maintenance of financial covenants, all of which we were in compliance with at June 30, 2015.

Our long-term liquidity requirements consist primarily of funds necessary to pay for scheduled debt maturities, debt refinancings, renovations, expansions and other non-recurring capital expenditures that need to be made periodically to our properties and the costs associated with acquisitions of properties. In addition, we may use cash to buy back outstanding debt or common securities from time to time when market conditions are favorable through open market purchases, privately negotiated transactions, or a tender offer, although the terms of our unsecured credit facility may impose certain conditions or restrictions in connection therewith.

Historically, we have satisfied our long-term liquidity requirements through various sources of capital, including our existing working capital, cash provided by operations, sales of properties, long-term property mortgage indebtedness, credit facility arrangements, issuance of senior unsecured debt instruments and through the issuance of additional equity securities. Credit markets have improved and access to mortgage and corporate level debt is more readily available. However, the capital markets can be volatile and there are no guarantees our maturing debt will be readily refinanced. Our ability to raise funds through the issuance of equity securities is dependent upon, among other things, general market conditions for both REITs in general and us specifically, including market perceptions regarding the Company. We will continue to analyze which source of capital is most advantageous to us at any particular point in

time, but equity and debt financing may not be consistently available to us on terms that are attractive or at all.

Cash Flows

Operating Activities. Net cash provided by operating activities was \$74.1 million for the six months ended June 30, 2015 compared to net cash provided by operating activities of \$23.6 million for the six months ended June 30, 2014. Cash flows from operations increased from 2014 to 2015 primarily due to increased operating income at many of our Same Store Assets, operating income generated by newly acquired hotels, a reduction in income taxes paid, which was significantly higher in the prior year due to income taxes paid attributable to the sale of the Four Seasons Punta Mita Resort and adjacent La Solana land parcel, and a reduction in cash interest paid.

Investing Activities. Net cash used in investing activities was \$226.6 million for the six months ended June 30, 2015 and net cash provided by investing activities was \$89.4 million for the six months ended June 30, 2014. Dividend Policy

We generally intend to distribute each year substantially all of our taxable income (which does not necessarily equal net income as calculated in accordance with GAAP) to our shareholders so as to comply with REIT provisions of the Tax Code. If necessary for REIT qualification purposes, we may need to distribute any taxable income in cash or by a special dividend. Our dividend policy is subject to revision at the discretion of our board of directors. All distributions will be made at the discretion of our board of directors and will depend on our taxable income, our financial condition, our maintenance of REIT status and other factors as our board of directors deems relevant.

In November 2008, our board of directors elected to suspend the quarterly dividend to holders of shares of our common stock beginning in the fourth quarter of 2008. Our board of directors has continued the suspension of the quarterly dividend to holders of shares of our common stock as a measure to preserve liquidity and to continue to reduce leverage.

Our board of directors will continue to evaluate the dividend policy in light of the REIT provisions of the Tax Code, restrictions under our unsecured credit facility, the overall economic climate and our improving financial results.

(4) On May 7, 2015, we entered into an agreement with an unaffiliated third party, whereby we agreed to transfer our leasehold interests in the Marriott Hamburg hotel to such unaffiliated third party. When the transaction closes, we will be released from all obligations under the lease arrangements. The transaction is expected to close in the third quarter of 2015.

(5) Amounts include executed construction contracts.

Reserve Funds for Capital Expenditures

We maintain each of our hotels in excellent condition and in conformity with applicable laws and regulations and in accordance with the agreed upon requirements in our management agreements with our hotel operators.

We are obligated to maintain reserve funds for capital expenditures at the majority of our hotels (including the periodic replacement or refurbishment of furniture, fixtures and equipment) as determined pursuant to the management agreements with our hotel operators. As of June 30, 2015, \$47.7 million was in restricted cash reserves for future capital expenditures. Generally, our agreements with hotel operators require us to reserve funds at amounts ranging between 4.0% and 5.0% of the individual hotel's annual revenues and require the funds to be set aside in restricted cash. Expenditures are capitalized as incurred and depreciation begins when the related asset is placed in service. Any unexpended amounts will remain our property upon termination of the management and operating contracts.

Off-Balance Sheet Arrangements

Fairmont Scottsdale Princess Venture

We had a 50% ownership interest in FMT Scottsdale Holdings, L.L.C. and Walton/SHR FPH Holdings, L.L.C. (together, the Fairmont Scottsdale Princess Venture), which owns the Fairmont Scottsdale Princess hotel, and accounted for our investment under the equity method of accounting. On March 31, 2014, we acquired the remaining 50% interest in the Fairmont Scottsdale Princess Venture that was previously owned by our joint venture partner. Our equity in earnings of the Fairmont Scottsdale Princess Venture was \$4.8 million for the six months ended June 30, 2014.

Hotel del Coronado Venture

We had a 36.4% ownership interest in BSK Del Partners, L.P. (the Hotel del Coronado Venture), which owns the Hotel del Coronado, and accounted for our investment under the equity method of accounting. On June 11, 2014, we acquired the remaining 63.6% interest in the Hotel del Coronado Venture that was previously owned by our joint venture partner.

Four Seasons RCPM

We own a 31.0% interest in and act as asset manager for a venture with two unaffiliated parties that developed the Four Seasons RCPM, a luxury vacation home product sold in fractional and whole ownership interests on the property adjacent to the Four Seasons Punta Mita Resort in Mexico. We account for this investment under the equity method of accounting. At June 30, 2015 and December 31, 2014, our investment in the unconsolidated affiliate amounted to \$3.4 million. Our equity in losses of the unconsolidated affiliate was \$0.2 million for the six months ended June 30, 2014.

Lot H5 Venture

On June 14, 2013, we entered into an amended and restated venture agreement with an unaffiliated third party, forming the Lot H5 Venture. The Lot H5 Venture owns the Lot H5 land parcel, an undeveloped, oceanfront land parcel in Punta Mita, Nayarit, Mexico. We have a preferred position in the Lot H5 Venture that entitles us to receive the first \$12.0 million of distributions generated from the Lot H5 Venture, with any excess distributions split equally between the partners. We jointly control the Lot H5 Venture with our partner and account for our interest in the Lot H5 Venture as an equity method investment. At June 30, 2015 and December 31, 2014, our investment in the unconsolidated affiliate amounted to \$19.4 million. We had no equity in earnings of the unconsolidated affiliate related to the Lot H5 Venture for the six months ended June 30, 2015 and 2014.

Related Party Transactions

We have in the past engaged in transactions with related parties. See "Item 1. Financial Statements - 13. Related Party Transactions" for a discussion of our transactions with related parties.

Critical Accounting Policies

Our discussion and analysis of financial condition and results of operations is based on our condensed consolidated interim financial statements, which have been prepared in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the financial statements and disclosures. Some of these estimates and assumptions require application of difficult, subjective, and/or complex judgment about the effect of matters that are inherently uncertain and that may change in subsequent periods. We evaluate our estimates and assumptions on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

A disclosure of our critical accounting policies which affect our more significant judgments and estimates used in the preparation of our condensed consolidated financial statements is included in our Annual Report on Form 10-K for the year ended December 31, 2014 in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Seasonality

The lodging business is seasonal in nature, and we experience some seasonality in our business. Revenues for hotels in tourist areas, those with significant group business, and in areas driven by greater climate changes are generally seasonal. Quarterly revenues also may be adversely affected by events beyond our control, such as extreme weather conditions and other acts of nature, terror attacks or alerts, airline strikes, economic factors and other considerations affecting travel.

To the extent that cash flows from operations are insufficient during any quarter, due to temporary or seasonal fluctuations in revenues, we may have to enter into short-term borrowings to pay operating expenses and make distributions to our stockholders.

New Accounting Guidance

See "Item 1. Financial Statements—2. Summary of Significant Accounting Policies—New Accounting Guidance."

Non-GAAP Financial Measures

We present five non-GAAP financial measures that we believe are useful to management and investors as key measures of our operating performance: FFO attributable to SHR common shareholders; FFO—Fully Diluted;

Comparable FFO; EBITDA; and Comparable EBITDA. Amounts presented in accordance with our definitions of FFO attributable to SHR common shareholders, FFO—Fully Diluted, Comparable FFO, EBITDA, and Comparable EBITDA may not be comparable to similar measures disclosed by other companies, since not all companies calculate these non-GAAP measures in the same manner. FFO attributable to SHR common shareholders, FFO—Fully Diluted, Comparable FFO, EBITDA, and Comparable EBITDA should

Table of Contents

not be considered as an alternative measure of our net income (loss) or operating performance. FFO attributable to SHR common shareholders, FFO—Fully Diluted, Comparable FFO, EBITDA, and Comparable EBITDA may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures and property acquisitions and other commitments and uncertainties. Although we believe that FFO attributable to SHR common shareholders, FFO—Fully Diluted, Comparable FFO, EBITDA, and Comparable EBITDA can enhance the understanding of our financial condition and results of operations, these non-GAAP financial measures, when viewed individually, are not necessarily better indicators of any trend as compared to comparable GAAP measures such as net income (loss) attributable to SHR common shareholders. In addition, adverse economic and market conditions might negatively impact our cash flow. We have provided a quantitative reconciliation of FFO attributable to SHR common shareholders, FFO—Fully Diluted, Comparable FFO, EBITDA, and Comparable EBITDA to the most directly comparable GAAP financial performance measure, which is net income (loss) attributable to SHR common shareholders.

EBITDA and Comparable EBITDA

EBITDA represents net income (loss) attributable to SHR common shareholders excluding: (i) interest expense, (ii) income taxes, including deferred income tax benefits and expenses applicable to our foreign subsidiaries and income taxes applicable to sale of assets; (iii) depreciation and amortization; and (iv) preferred stock dividends. EBITDA also excludes interest expense, income taxes and depreciation and amortization of our unconsolidated affiliates. EBITDA is presented on a full participation basis, which means we have assumed conversion of all redeemable noncontrolling interests of our operating partnership into our common stock. We believe this treatment of noncontrolling interests provides useful information for management and our investors and appropriately considers our current capital structure. We also present Comparable EBITDA, which eliminates the effect of realizing deferred gains on our sale leasebacks, as well as the effect of gains or losses on sales of assets, early extinguishment of debt, impairment losses, foreign currency exchange gains or losses and certain other charges that are highly variable from year to year.

We believe EBITDA and Comparable EBITDA are useful to management and investors in evaluating our operating performance because they provide management and investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe they help management and investors meaningfully evaluate and compare the results of our operations from period to period by removing the impact of our asset base (primarily depreciation and amortization) from our operating results. Our management also uses EBITDA and Comparable EBITDA as measures in determining the value of acquisitions and dispositions.

EBITDA is presented on a full participation basis, which means we have assumed conversion of all redeemable (1) noncontrolling interests in SHR's operating partnership into shares of SHR's common stock. This adjustment reverses the net income that was allocated to the noncontrolling interests in SHR's operating partnership.

(2) This adjustment represents the portion of interest expense, income taxes and depreciation and amortization attributable to the noncontrolling interests in affiliates that are consolidated but not wholly owned by us.

(3) This adjustment represents our portion of interest expense, income taxes and depreciation and amortization related to affiliates that are not consolidated.

This adjustment represents the portion of gains or losses from sales of depreciable property and the portion of loss (4) on early extinguishment of debt attributable to the noncontrolling interests in affiliates that are consolidated but not wholly owned by us.

Table of Contents

FFO Attributable to SHR Common Shareholders, FFO-Fully Diluted, and Comparable FFO

We compute FFO attributable to SHR common shareholders in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT. NAREIT adopted a definition of FFO in order to promote an industry-wide standard measure of REIT operating performance. NAREIT defines FFO as net income (loss) (computed in accordance with GAAP) excluding losses or gains from sales of depreciable property, impairment of depreciable real estate, real estate-related depreciation and amortization, and our portion of these items related to unconsolidated affiliates. We also present FFO—Fully Diluted, which is FFO attributable to SHR common shareholders plus income or loss on income attributable to redeemable noncontrolling interests of our operating partnership. We also present Comparable FFO, which is FFO—Fully Diluted excluding the impact of any gains or losses on early extinguishment of debt, impairment losses on non-depreciable assets, foreign currency exchange gains or losses and certain other charges that are highly variable from year to year.

We believe that the presentation of FFO attributable to common shareholders, FFO—Fully Diluted and Comparable FFO provides useful information to management and investors regarding our results of operations because they are measures of our ability to fund capital expenditures and expand our business. In addition, FFO is widely used in the real estate industry to measure operating performance without regard to items such as depreciation and amortization.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

Our future income, cash flows and fair values relevant to financial instruments are dependent upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. We use derivative financial instruments to manage, or hedge, interest rate risks related to our borrowings. We do not use derivatives for trading or speculative purposes and only enter into contracts with major financial institutions based on their credit rating and other factors. We use methods which incorporate standard market conventions and techniques such as discounted cash flow analysis and option pricing models to determine fair value. All methods of estimating fair value result in general approximation of value and such value may or may not actually be realized.

See “Item 1. Financial Statements – 11. Derivatives” for information on our interest rate cap agreements outstanding as of June 30, 2015.

As of June 30, 2015, our total outstanding mortgages and indebtedness under the unsecured credit facility totaled approximately \$1.8 billion, of which approximately 22.5% was fixed-rate debt. If market rates of interest on our variable rate debt increase by 20%, the increase in interest expense on the variable rate debt would decrease future earnings and cash flows by approximately \$0.5 million annually.

Interest risk amounts were determined by considering the impact of hypothetical interest rates on our financial instruments. These analyses do not consider the effect of the reduced level of overall economic activity that could exist in that environment. Furthermore, in the event of a 20% increase in the market rates of interest on our variable rate debt as discussed above, we may take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, these analyses assume no changes in our financial structure.

Currency Exchange Risk

As we have international operations, currency exchange risk arises as a normal part of our business. In particular, we are subject to fluctuations due to changes in foreign exchange as it relates to our leasehold interest in the Marriott Hamburg hotel, which uses the euro. For the six months ended June 30, 2015, approximately 0.3% of our total revenues were generated from the Marriott Hamburg hotel. As a result, fluctuations in the value of foreign currency against the U.S. dollar do not have a significant impact on our reported results. On May 7, 2015, we entered into an agreement with an unaffiliated third party, whereby we agreed to transfer our leasehold interests in the Marriott Hamburg hotel to such unaffiliated third party. When the transaction closes, we will be released from all obligations under the lease arrangements. The transaction is expected to close in the third quarter of 2015.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of our “disclosure controls and procedures” (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this quarterly report on Form 10-Q was made under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer. Based upon this evaluation, as of June 30, 2015, our chief executive officer and our chief financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.
