**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2018

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the transition period from _____ to _____

COMMISSION FILE NUMBER 001-14793

First BanCorp.

(EXACT NAME OF REGISTRANT AS SPECIFIED IN ITS CHARTER)

Edgar Filing: FIRST BANCORP /PR/ - Form 10-Q

(State or other jurisdiction of
incorporation or organization)

(I.R.S. employer

identification number)

1519 Ponce de León Avenue, Stop 23

00908

Santurce, Puerto Rico

(Zip Code)

(Address of principal executive offices)

(787) 729-8200

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer
company

(Do not check if a smaller reporting company)

Smaller reporting

Emerging

growth company

If an emerging growth company, indicate by check mark if the registered has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13 (a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common stock: 217,183,977 shares outstanding as of July 31, 2018.

SIGNATURES

Forward Looking Statements

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are subject to the safe harbor created by such sections. When used in this Form 10-Q or future filings by First BanCorp. (the “Corporation”) with the U.S. Securities and Exchange Commission (“SEC”), in the Corporation’s press releases or in other public or stockholder communications, or in oral statements made with the approval of an authorized executive officer, the words or phrases “would,” “intends,” “will likely result,” “expect,” “should,” “anticipate,” “look forward,” “believes,” and other terms of similar meaning or import in connection with any discussion of future operating, financial or other performance are meant to identify “forward-looking statements.”

First BanCorp. wishes to caution readers not to place undue reliance on any such “forward-looking statements,” which speak only as of the date made, and to advise readers that these forward-looking statements are not guarantees of future performance and involve certain risks, uncertainties, estimates, and assumptions by us that are difficult to predict. Various factors, some of which are beyond our control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements.

The two hurricanes that affected the Corporation’s service areas in 2017 are discussed below in Note 2 to the financial statements and in various sections of “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” These events caused significant uncertainties, the outcome of which will impact the Corporation’s future results.

Factors that could cause actual results to differ from those expressed in the Corporation’s forward-looking statements include, but are not limited to, risks described or referenced below in Part II, Item 1A. “Risk Factors” and the following:

- the actual pace and magnitude of economic recovery in the Corporation’s service areas that were affected by two hurricanes during 2017 compared to Management’s current views on the economic recovery;
- uncertainties about the effectiveness and the timing of the completion of the rebuilding taking place in the regions affected by the hurricanes, including the rebuilding of the public infrastructure, such as Puerto Rico’s power grid, how and the extent to which government, private or philanthropic funds will be invested in the affected communities, how many displaced individuals will return to their homes in both the short- and long-term, and what other demographic changes will take place, if any;

- uncertainty as to the ultimate outcomes of actions taken, or those that may be taken, by the Puerto Rico government, or the oversight board established by the Puerto Rico Oversight, Management, and Economic Stability Act (“PROMESA”) to address Puerto Rico’s financial problems, including the filing of a form of bankruptcy under Title III of PROMESA, which provides a court debt restructuring process similar to U.S. bankruptcy protection, and the effects of measures included in the Puerto Rico government fiscal plan, or any revisions to it, on our clients and loan portfolios;
- the ability of the Puerto Rico government or any of its public corporations or other instrumentalities to repay its respective debt obligations, including the effect of payment defaults on the Puerto Rico government general obligations, bonds of the Government Development Bank for Puerto Rico (the “GDB”) and certain bonds of government public corporations, and recent and any future downgrades of the long-term and short-term debt ratings of the Puerto Rico government, which could exacerbate Puerto Rico’s adverse economic conditions and, in turn, further adversely impact the Corporation;

- uncertainty about whether the Federal Reserve Bank of New York (the “New York FED” or “Federal Reserve”) will continue to provide approvals for receiving dividends from the Corporation’s subsidiary, FirstBank Puerto Rico (“FirstBank” or the “Bank”), or making payments of dividends on non-cumulative perpetual preferred stock, or payments on trust preferred securities or subordinated debt, incurring, increasing or guaranteeing debt or repurchasing any capital securities, despite the consents that have enabled the Corporation to receive quarterly dividends from FirstBank since the second quarter of 2016, to pay quarterly interest payments on the Corporation’s subordinated debentures associated with its trust preferred securities since the second quarter of 2016, and to pay monthly dividends on the non-cumulative perpetual preferred stock since December 2016;
- a decrease in demand for the Corporation’s products and services and lower revenues and earnings because of the continued recession in Puerto Rico;
- uncertainty as to the availability of certain funding sources, such as brokered certificates of deposit (“brokered CDs”);
- the Corporation’s reliance on brokered CDs to fund operations and provide liquidity;
- the risk of not being able to fulfill the Corporation’s cash obligations or resume paying dividends to the Corporation’s common stockholders in the future due to the Corporation’s need to receive regulatory approvals to declare or pay any dividends and to take dividends or any other form of payment representing a reduction in capital from FirstBank or FirstBank’s failure to generate sufficient cash flow to make a dividend payment to the Corporation;
- the weakness of the real estate markets and of the consumer and commercial sectors and their impact on the credit quality of the Corporation’s loans and other assets, which have contributed and may continue to contribute to, among other things, high levels of non-performing assets, charge-offs and provisions for loan and lease losses, and may subject the Corporation to further risk from loan defaults and foreclosures;
- the ability of FirstBank to realize the benefits of its net deferred tax assets;
- adverse changes in general economic conditions in Puerto Rico, the United States (“U.S.”), the U.S. Virgin Islands (“USVI”), and the British Virgin Islands (“BVI”), including the interest rate environment, market liquidity, housing absorption rates, real estate prices, and disruptions in the U.S. capital markets, which reduced interest margins and affected funding sources, and have affected demand for all of the Corporation’s products and services and reduced the Corporation’s revenues and earnings and the value of the Corporation’s assets, and may continue to have these effects;

- an adverse change in the Corporation's ability to attract new clients and retain existing ones;
- the risk that additional portions of the unrealized losses in the Corporation's investment portfolio are determined to be other-than-temporary, including additional impairments on the Corporation's remaining \$8.1 million of the Puerto Rico government's debt securities;
- uncertainty about regulatory and legislative changes for financial services companies in Puerto Rico, the U.S., the USVI and the BVI, which could affect the Corporation's financial condition or performance and could cause the Corporation's actual results for future periods to differ materially from prior results and anticipated or projected results;

- changes in the fiscal and monetary policies and regulations of the U.S. federal government and the Puerto Rico and other governments, including those determined by the Board of the Governors of the Federal Reserve System (the “Federal Reserve Board”), the New York FED, the Federal Deposit Insurance Corporation (“FDIC”), government-sponsored housing agencies, and regulators in Puerto Rico, and the USVI and BVI;
- the risk of possible failure or circumvention of controls and procedures and the risk that the Corporation’s risk management policies may not be adequate;
- the risk that the FDIC may increase the deposit insurance premium and/or require special assessments to replenish its insurance fund, causing an additional increase in the Corporation’s non-interest expenses;
- the impact on the Corporation’s results of operations and financial condition of acquisitions and dispositions;
- a need to recognize impairments on the Corporation’s financial instruments, goodwill or other intangible assets relating to acquisitions;
- the risk that downgrades in the credit ratings of the Corporation’s long-term senior debt will adversely affect the Corporation’s ability to access necessary external funds;
- the effect on the Corporation’s businesses, business practices and results of operations of a potential higher interest rate environment;
- uncertainty as to whether FirstBank will be able to satisfy its regulators regarding, among other things, its asset quality, liquidity plans, maintenance of capital levels and compliance with applicable laws, regulations and related requirements; and
- general competitive factors and industry consolidation.

The Corporation does not undertake, and specifically disclaims any obligation, to update any “forward-looking statements” to reflect occurrences or unanticipated events or circumstances after the date of such statements except as required by the federal securities laws.

Investors should refer to the Corporation's Annual Report on Form 10-K for the year ended December 31, 2017, as well as "Part II, Item 1A, Risk Factors," in this Quarterly Report on Form 10-Q, for a discussion of such factors and certain risks and uncertainties to which the Corporation is subject.

**FIRST BANCORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

NOTE 1 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The Consolidated Financial Statements (unaudited) of First BanCorp. (the “Corporation”) have been prepared in conformity with the accounting policies stated in the Corporation’s Audited Consolidated Financial Statements included in the Corporation’s Annual Report on Form 10-K for the year ended December 31, 2017 (the “2017 Annual Report on Form 10-K”). Certain information and note disclosures normally included in the financial statements prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) have been condensed or omitted from these statements pursuant to the rules and regulations of the SEC and, accordingly, these financial statements should be read in conjunction with the Audited Consolidated Financial Statements of the Corporation for the year ended December 31, 2017, which are included in the 2017 Annual Report on Form 10-K. All adjustments (consisting only of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the statement of financial position, results of operations and cash flows for the interim periods have been reflected. All significant intercompany accounts and transactions have been eliminated in consolidation.

The results of operations for the quarter and six-month period ended June 30, 2018 are not necessarily indicative of the results to be expected for the entire year.

Adoption of New Accounting Requirements and Recently Issued but Not Yet Effective Accounting Requirements

The Financial Accounting Standards Board (“FASB”) has issued the following accounting pronouncements and guidance relevant to the Corporation’s operations:

Revenue Recognition

In May 2014, the FASB updated the Accounting Standards Codification (the “Codification” or the “ASC”) to create a new, principles-based revenue recognition framework. This guidance requires entities to recognize revenues when they transfer promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance describes a 5-step process that entities can apply to achieve the core principle of revenue recognition and requires disclosures sufficient to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from

contracts with customers and the significant judgments used in determining that information.

The Corporation adopted the guidance on January 1, 2018 using a modified retrospective method, in which the guidance applies to existing contracts in effect at January 1, 2018 and new contracts entered into after this date. Most of the Corporation's revenue, including net interest income, gain on sale of loans, and mortgage servicing fees is explicitly out of scope of the new revenue recognition guidance. The Corporation conducted an assessment of the revenue streams that were potentially affected by the new guidance and reviewed contracts in scope to ensure compliance with the new guidance.

The Corporation has identified service charges on deposits and related cash management services, insurance commissions, merchant-related income, and card interchange income as its most significant revenue streams within the scope of the standard. For the revenue streams that were found in scope, management reviewed in detail its most significant contracts with corresponding customers. The adoption of this guidance did not have a material effect on the Corporation's consolidated financial statements. However, additional disclosures required by the standard have been included in Note 23 – Revenue from Contracts with Customers, to the Corporation's consolidated financial statements.

Recognition and Measurement of Financial Assets and Liabilities

In January 2016, the FASB updated the Codification to require an entity to: (i) measure equity investments at fair value through net income, with certain exceptions, thus, eliminating eligibility for the available-for-sale category; (ii) present in OCI the changes in instrument-specific credit risk for financial liabilities measured using the fair value option; (iii) present financial assets and financial liabilities by measurement category and form of financial asset; (iv) calculate the fair value of financial instruments for disclosure purposes based on an exit price; and (v) assess a valuation allowance on deferred tax assets related to unrealized losses of available-for-sale debt securities in combination with other deferred tax assets. The guidance provides an election to subsequently measure certain nonmarketable equity investments at cost less any impairment, adjusted for certain observable price changes. The guidance also requires a qualitative impairment assessment of such equity investments and amends certain fair value disclosure requirements. The adoption of this standard during the first quarter of 2018 did not have a material effect on the Corporation's consolidated financial statements.

Statement of Cash Flows Presentation – Restricted Cash

In August 2016 and November 2016, the FASB updated the Codification to provide specific guidance on the classification and presentation of certain cash payments and cash receipts, including changes in restricted cash, in the statement of cash flows. This guidance is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The amendments in this update must be applied using a retrospective transition method to each period presented. The Corporation adopted the provisions of this guidance during the first quarter of 2018 without any material effect on the Corporation's consolidated financial statements.

Income Tax Effect of Intra-Entity Transfers of Assets

In October 2016, the FASB updated the Codification to improve the accounting for the income tax consequences of intra-entity transfers of assets other than inventory. With this update, entities are required to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. Under prior GAAP, the recognition of current and deferred income taxes for an intra-entity asset transfer was prohibited until the assets are sold to an outside party. This Update does not include new disclosure requirements; however, existing disclosure requirements might be applicable when accounting for the current and deferred income taxes for an intra-entity transfer of an asset other than inventory. For example, GAAP requires an entity to disclose a comparison of income tax expense (benefit) with statutory expectations (a rate reconciliation for public entities or a description of the nature of each significant reconciling item for nonpublic entities) and also requires an entity to disclose the types of temporary differences and carryforwards that give rise to a significant portion of deferred income taxes. The Corporation adopted the provisions of this guidance during the first quarter of 2018 without any effect on the Corporation's consolidated financial statements.

Clarifying what Changes Qualify as a Modification of a Share-Based Payment Award

In May 2017, the FASB updated the codification to reduce the cost and complexity when applying ASC Topic 718, “Compensation – Stock Compensation” (“ASC Topic 718”), and standardize the practice of applying ASC Topic 718 to financial reporting. ASC Topic 718 prescribes the accounting treatment of a modification in the terms or conditions of a share-based payment award. The guidance clarifies what changes would qualify as a modification. This was done by better defining what does not constitute a modification. In order for a change to a share-based arrangement to not require ASC Topic 718 modification treatment, all of the following must be met: (i) the fair value (or alternative measurement method used) of the modified award must equal the fair value (or alternative measurement method used) of the original award immediately before the original award is modified; (ii) the vesting conditions of the modified award must be the same as the vesting conditions of the original award immediately before the original award is modified; and (iii) the classification of the modified award as an equity instrument or a liability instrument must be the same as the classification of the original award immediately before the original award is modified. The current disclosure requirements in ASC Topic 718 apply regardless of whether an entity is required to apply modification accounting under this update. The amendments in this update must be applied prospectively to an award modified on or after the adoption date. The Corporation adopted the provisions of this guidance on January 1, 2018 without any effect on the Corporation’s consolidated financial statements. The Corporation’s Omnibus Plan provides for equity-based compensation incentives through the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, cash-based awards and other stock-based awards. If any change occurs in the future to awards issued under the Omnibus Plan, the Corporation will evaluate it under this guidance.

Lease Accounting

In February 2016, the FASB updated the Codification to replace ASC 840, “Leases (Topic 840)” (“ASC Topic 840”), with new guidance for the financial reporting about leasing transactions. Under the new guidance, a lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months. Consistent with current GAAP, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee primarily will depend on its classification as a finance or operating lease. However, unlike current GAAP, which requires the recognition of only capital leases on the balance sheet, the guidance will require both types of leases to be recognized on the balance sheet. The guidance will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases. These disclosures include qualitative and quantitative information and additional information about the amounts recorded in the financial statements. The FASB issued an update in January 2018 providing an optional transition practical expedient to not evaluate under new ASC Topic 842, “Leases” (“ASC Topic 842”), land easements that exist or expired before the entity’s adoption of ASC Topic 842 and were not previously accounted for as leases. In addition, the FASB issued an update in July 2018 that makes 16 technical corrections to this guidance that alleviate the potential for unintended consequences from applying the new standard. The guidance on leases will take effect for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. Entities are required to use a modified retrospective approach for leases that existed prior to, or are entered into after, the beginning of the earliest comparative period presented in the financial statements or they can elect an additional and optional transition method to adopt the new leases. Under the optional transition method, an entity applies the new standard at the adoption date and recognizes a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. Also, under the optional transition method, the entity’s reporting for comparative periods presented in the financial statements in which it adopts the new leases standard will continue to be in accordance with ASC Topic 840.

The update is expected to affect the Corporation’s consolidated financial statements since the Corporation has operating and lease arrangements for which it is a lessee. The Corporation has identified the population of its current leases and is in the process of obtaining the data necessary to estimate the amount of right-of-use assets (“ROU”) and lease liabilities that will be recognized upon adoption. Therefore, the Corporation is still evaluating the effect that the adoption of this accounting pronouncement will have on its consolidated financial statements and preliminarily expects that amounts to be recognized as ROU will not be material as a percentage of the Corporation’s total assets.

Accounting for Financial Instruments – Credit Losses

In June 2016, the FASB updated the Codification to introduce new guidance for the accounting for credit losses. The guidance includes an impairment model (known as the current expected credit loss (“CECL”) model) that is based on expected losses rather than incurred losses. It also modifies the impairment model for available-for-sale debt securities and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. The CECL model will apply to: (1) financial assets subject to credit losses and measured at amortized cost and (2) certain off-balance sheet credit exposures. This includes loans, held-to-maturity debt securities, loan commitments, financial guarantees, and net investments in leases, as well as reinsurance and trade receivables. Upon

initial recognition of the exposure, the CECL model requires an entity to estimate the credit losses expected over the life of an exposure (or pool of exposures). The estimate of expected credit losses (“ECL”) should consider historical information, current information, and reasonable and supportable forecasts, including estimates of prepayments. Financial instruments with similar risk characteristics should be grouped together when estimating ECL. The guidance does not prescribe a specific method to make the estimate, so its application will require significant judgment.

Generally, upon initial recognition of a financial asset, the estimate of the ECL will be recorded through an allowance for loan and lease losses with an offset to current earnings. Subsequently, the ECL will need to be reassessed each period, and both negative and positive changes to the estimate will be recognized through an adjustment to the allowance for loan and lease losses and earnings.

The guidance amends the current OTTI model for available-for-sale debt securities. The new available-for-sale debt security model will require an estimate of ECL only when the fair value is below the amortized cost of the asset. The length of time the fair value of an available-for-sale debt security has been below the amortized cost will no longer affect the determination of whether a credit loss exists. As such, the new available-for-sale debt security model is not an OTTI model. In addition, credit losses on available-for-sale debt securities will now be limited to the difference between the security’s amortized cost basis and its fair value. The available-for-sale debt security model will also require the use of an allowance to record estimated credit losses (and subsequent recoveries).

The purchased financial assets with credit deterioration (“PCD”) model applies to purchased financial assets (measured at amortized cost or available-for-sale) that have experienced more than insignificant credit deterioration since origination. This represents a change from the scope of what are considered purchased credit-impaired assets under today’s model. In contrast to the accounting for originated or purchased assets that do not qualify as PCD, the initial estimate of expected credit losses for a PCD would be recognized through an allowance for loan and lease losses with an offset to the cost basis of the related financial asset at acquisition (i.e., there is no effect on net income at initial recognition). Subsequently, the accounting will follow the applicable CECL or available-for-sale debt security impairment model with all adjustments of the allowance for loan and lease losses recognized through earnings. Beneficial interests classified as held-to-maturity or available-for-sale will need to apply the PCD model if the beneficial interest meets the definition of PCD or if there is a significant difference between contractual and expected cash flows at initial recognition.

In general, the new guidance will require modified retrospective application to all outstanding instruments, with a cumulative effect adjustment recorded to opening retained earnings as of the beginning of the first period in which the guidance becomes effective. However, prospective application is required for PCD assets previously accounted for under ASC Topic 310-30, “Receivables,” and for debt securities for which an OTTI was recognized prior to the date of adoption.

This guidance also expands the disclosure requirements regarding an entity’s assumptions, models, and methods for estimating the allowance for loan and lease losses. In addition, public business entities will need to disclose the amortized cost balance for each class of financial asset by credit quality indicator, disaggregated by the year of origination (i.e., by vintage year).

The guidance will be effective for public business entities that are SEC filers in fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption of the guidance will be permitted for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years.

The Corporation has developed a transition roadmap in order to comply on a timely basis with the implementation of this new accounting framework. The Corporation has created a working group with members from multiple areas across the organization that is responsible for assessing the effect of the standard, evaluating interpretative issues, and evaluating the current credit loss models against the new guidance to determine any necessary changes and other related implementation activities. The working group provides periodic updates to the Corporation’s CECL Management Committee, which has oversight responsibilities for the implementation efforts. The Corporation continues to evaluate the effect that this guidance, including the method of implementation, will have on its consolidated financial statements.

Subsequent Measurement of Goodwill

In January 2017, the FASB updated the Codification to simplify the subsequent measurement of goodwill by eliminating Step 2 from the current two-step goodwill impairment test. This guidance provides that a goodwill impairment test be conducted by comparing the fair value of a reporting unit with its carrying amount. Entities are to recognize an impairment charge for goodwill equal to the excess of the carrying amount over the reporting unit's fair value. Entities have the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The effect of this guidance will depend upon the performance of the reporting units that have goodwill and the market conditions affecting the fair value of each reporting unit going forward.

Amortization of Premiums and Discounts of Callable Debt Securities

In March 2017, the FASB updated the Codification to shorten the amortization period for certain purchased callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. With respect to securities held at a discount, the amendments do not require an accounting change; thus, the discount continues to be amortized to maturity. Under current GAAP, premiums and discounts on callable debt securities generally are amortized to the maturity date. An entity must have a large number of similar loans to consider estimates of future principal prepayments when applying the interest method. However, an entity that holds an individual callable debt security at a premium may not amortize that premium to the earliest call date. If that callable debt security is subsequently called, the entity records a loss equal to the unamortized premium. The amendments in this update more closely align the amortization period of premiums and discounts to expectations incorporated in market pricing on the underlying securities. In most cases, market participants price securities to the call date that produces the worst yield when the coupon is above current market rates (that is, the security is trading at a premium) and price securities to maturity when the coupon is below market rates (that is, the security is trading at a discount) in anticipation that the borrower will act in its economic best interest. As a result, the amendments more closely align interest income recorded on bonds held at a premium or a discount with the economics of the underlying instrument. For public business entities, the amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The adoption of this guidance is not expected to have a material effect on the Corporation's consolidated statement of financial condition or results of operations. As of June 30, 2018, the Corporation had \$4.0 million of callable debt securities held at a premium (unamortized premium of \$32 thousand).

Derivatives and Hedging

In August 2017, the FASB updated the Codification to: (i) expand hedge accounting for nonfinancial and financial risk components and amend measurement methodologies to more closely align hedge accounting with a company's risk management activities; (ii) decrease the complexity of preparing and understanding hedge results by eliminating the separate measurement and reporting of hedge ineffectiveness; (iii) enhance transparency, comparability, and understanding of hedge results through enhanced disclosures and a change in the presentation of hedge results to align the effects of the hedging instrument and the hedged item; and (iv) reduce the cost and complexity of applying hedge accounting by simplifying the manner in which assessments of hedge effectiveness may be performed. This update is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The guidance requires companies to apply requirements to existing hedging relationships on the date of adoption, and the effect of the adoption should be reflected as of the beginning of the fiscal year of adoption. As of June 30, 2018, all of the derivatives held by the Corporation were considered economic undesignated hedges. The adoption of this guidance is not expected to have a material effect on the Corporation's consolidated statement of financial condition or results of operations.

Reclassification of Certain Tax Effects From Accumulated Other Comprehensive Income

In February 2018, the FASB updated the Codification to provide entities with an option to reclassify to retained earnings, tax effects that were stranded in accumulated other comprehensive income, pursuant to the Tax Cuts and Jobs Act of 2017 (the “Tax Act”). This guidance is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. This guidance may be early adopted in any interim or annual period for which financial statements have not yet been issued and applied either in the period of adoption or retrospectively to each period in which the effect of the change in the corporate tax rate in the Tax Act is recognized. The Corporation is currently evaluating whether it will adopt this guidance. If adopted, the Corporation does not expect a material effect on its consolidated financial statements.

Improvements to Nonemployee Share-Based Payment Accounting

In June 2018, the FASB updated the Codification as part of a simplification initiative to expand the scope of Topic 718 to include share-based payment transactions for acquiring goods and services from non-employees and to address and improve aspects of the accounting for non-employee share-based payment transactions. The amendments will be effective for interim and annual reporting periods beginning after December 15, 2018. The adoption of this guidance is not expected to have an effect on the Corporation’s consolidated financial statements.

NOTE 2 – UPDATE ON EFFECTS OF NATURAL DISASTERS

Two strong hurricanes affected the Corporation's service areas during September 2017. The following summarizes the more significant continuing financial repercussions of these natural disasters for the Corporation and for its major subsidiary, FirstBank.

Credit Quality and Allowance for Loan and Lease Losses

Relationship officers continued to closely monitor the performance of hurricane-affected commercial loan customers during 2018. Information provided by these commercial loan officers and statistics on the performance of consumer and residential credits were factored into the determination of the allowance for loan and lease losses as of June 30, 2018. Although the identification and evaluation of hurricane-affected credits has been completed, management's assessment of the hurricanes' effect is still subject to uncertainties, both those specific to some individual customers, such as the resolution of insurance claims, and those applicable to the overall economic prospects of the hurricane-affected areas as a whole. During the second quarter and six-month period ended June 30, 2018, the Corporation recorded a net loan loss reserve release of approximately \$2.1 million and \$8.5 million, respectively, in connection with revised estimates associated with the effects of the hurricanes. The revised estimates were primarily attributable to updated assessments of financial performance and repayment prospects of certain individually-assessed commercial credits and, to a lesser extent, lower reserve requirements resulting from payments received during the first six-months of 2018 that reduced the balance of the consumer and residential mortgage loan portfolios outstanding on the dates of the hurricanes.

As of June 30, 2018, the hurricane-related qualitative allowance amounted to \$42.2 million (December 31, 2017 - \$55.6 million). With the future resolution of uncertainties and the ongoing collection of information on individual commercial customers and statistics on the consumer and residential loan portfolios, the loss estimate will be revised as needed. Refer to Note 7 – Loans Held for Investment, to the consolidated financial statements for information about non-performing loans and early delinquency statistics.

Disaster Response Plan Costs, Casualty Losses and Related Insurance

The Corporation has incurred a variety of costs to operate in disaster response mode, and some facilities and their contents, including certain OREO properties, were damaged by the storms. The Corporation maintains insurance for casualty losses, as well as for reasonable and necessary disaster response costs and certain revenue lost through business interruption. Substantially all of the significant disaster response costs had been incurred by the end of the second quarter of 2018. Insurance claim receivables were established for some of the individual costs, when incurred, based on management's understanding of the underlying coverage and when realization of the claim was deemed probable. During the second quarter of 2018, the Corporation reached a final settlement on certain insurance claims arising from the hurricanes. With this settlement, the Corporation received proceeds of approximately \$4.3 million, primarily related to repairs and maintenance costs incurred on certain OREO properties, and \$0.8 million related to a loan receivable fully charged-off in prior periods. The insurance proceeds were recorded against incurred losses, previously-established accounts receivable, or loan recoveries, as applicable. Insurance recoveries are recorded in the same income statement caption as the incurred losses. Recoveries from insurance proceeds in excess of losses incurred, if any, are recognized as a gain from insurance proceeds and reported as part of "other non-interest income" in

the statement of income when the insurance proceeds are received, or when all contingencies related to the insurance claim are resolved. As of June 30, 2018, the Corporation still had an insurance claim receivable of \$6.3 million, included as part of “other assets” in the statement of financial condition. Management also believes that there is a possibility that some gains will be recognized with respect to casualty and lost revenue claims in future periods, but this is contingent on reaching agreement on the Corporation’s claims with the insurance carriers.

Liquidity Management

The Corporation experienced rapid accumulation of deposits after the hurricanes in the fourth quarter of 2017 and the first six months of 2018. Total deposits as of June 30, 2018, excluding brokered CDs, increased \$523.3 million from December 31, 2017 and \$884.8 million since September 30, 2017. The most significant increase was in non-interest-bearing demand deposits, which grew 26%, or \$483.5 million from December 31, 2017 and \$731.0 million, or 46%, since September 30, 2017. Hurricane-related factors, such as the effect of disaster relief funds and settlements of insurance claims, continue to contribute to this growth. Although management expects the balances accumulated by deposit customers in the hurricane-affected areas to reduce over time, it is difficult to predict when and to what degree, and there may be further growth as insurance claims are resolved and additional disaster-recovery funds are distributed.

NOTE 3 – EARNINGS PER COMMON SHARE

The calculations of earnings per common share for the quarters and six-month periods ended June 30, 2018 and 2017 are as follows:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|-------------------------------------------------------|-----------------------------------|-------------|--------------------------------------------|-------------|
| | 2018 | 2017 | 2018 | 2017 |
| (In thousands, except per share information) | | | | |
| Net income | \$ 31,032 | \$ 27,998 | \$ 64,180 | \$ 53,539 |
| Less: Preferred stock dividends | (669) | (669) | (1,338) | (1,338) |
| Net income attributable to common stockholders | \$ 30,363 | \$ 27,329 | \$ 62,842 | \$ 52,201 |
| Weighted-Average Shares: | | | | |
| Average common shares outstanding | 215,737 | 213,900 | 215,194 | 213,621 |
| Average potential dilutive common shares | 929 | 2,932 | 1,289 | 3,482 |
| Average common shares outstanding - assuming dilution | 216,666 | 216,832 | 216,483 | 217,103 |
| Earnings per common share: | | | | |
| Basic | \$ 0.14 | \$ 0.13 | \$ 0.29 | \$ 0.24 |
| Diluted | \$ 0.14 | \$ 0.13 | \$ 0.29 | \$ 0.24 |

Earnings per common share is computed by dividing net income attributable to common stockholders by the weighted-average number of common shares issued and outstanding. Net income attributable to common stockholders represents net income adjusted for any preferred stock dividends, including any dividends declared, and any cumulative dividends related to the current dividend period that have not been declared as of the end of the period. Basic weighted-average common shares outstanding exclude unvested shares of restricted stock that do not contain non-forfeitable dividend rights.

Potential dilutive common shares consist of unvested shares of restricted stock that do not contain non-forfeitable dividend rights, performance units that do not contain non-forfeitable dividend rights if the performance condition is met as of the end of the reporting period, and warrants outstanding during the period using the treasury stock method. This method assumes that the potential dilutive common shares are issued and outstanding and the proceeds from the exercise, in addition to the amount of compensation cost attributable to future services, are used to purchase common stock at the exercise date. The difference between the numbers of potential dilutive shares issued and the shares purchased is added as incremental shares to the actual number of shares outstanding to compute diluted earnings per share. Unvested shares of restricted stock and performance units that do not contain non-forfeitable dividend rights, and warrants outstanding during the period that result in lower potential dilutive shares issued than shares purchased under the treasury stock method, are not included in the computation of dilutive earnings per share since their

inclusion would have an antidilutive effect on earnings per share.

On May 17, 2018, the U.S. Treasury exercised its warrant to purchase 1,285,899 shares of the Corporation's common stock on a cashless basis, resulting in the issuance of 730,571 shares of common stock.

NOTE 4 – STOCK-BASED COMPENSATION.

On May 24, 2016, the Corporation’s stockholders approved the amendment and restatement of the First BanCorp. Omnibus Incentive Plan, as amended (the “Omnibus Plan”), to, among other things, increase the number of shares of common stock reserved for issuance under the Omnibus Plan, extend the term of the Omnibus Plan to May 24, 2026 and re-approve the material terms of the performance goals under the Omnibus Plan for purposes of the then Section 162(m) of the U.S. Internal Revenue Code of 1986, as amended. The Omnibus Plan provides for equity-based compensation incentives (the “awards”) through the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, cash-based awards and other stock-based awards. The Omnibus Plan authorizes the issuance of up to 14,169,807 shares of common stock, subject to adjustments for stock splits, reorganizations, and other similar events. As of June 30, 2018, 6,956,802 authorized shares of common stock were available for issuance under the Omnibus Plan. The Corporation’s Board of Directors, based on the recommendation of the Corporation’s Compensation and Benefits Committee, has the power and authority to determine those eligible to receive awards and to establish the terms and conditions of any awards, subject to various limits and vesting restrictions that apply to individual and aggregate awards.

Restricted Stock

Under the Omnibus Plan, the Corporation may grant restricted stock to plan participants, subject to forfeiture upon the occurrence of certain events until the dates specified in the participant’s award agreement. While the restricted stock is subject to forfeiture and does not contain non-forfeitable dividend rights, restricted stock participants may exercise full voting rights. The restricted stock granted under the Omnibus Plan is typically subject to a vesting period. During the first six months of 2018, the Corporation awarded 342,439 shares of restricted stock to employees, fifty percent (50%) of those shares vest in two years from the grant date and the remaining (50%) vest in three years of the grant date. Included in those 342,439 shares of restricted stock were 20,447 shares granted to retirement-eligible employees at the grant date. The fair value of the shares of restricted stock granted in the first six months of 2018 was based on the market price of the Corporation’s outstanding common stock on the date of the grant.

The following table summarizes the restricted stock activity in the first six months of 2018 under the Omnibus Plan:

| | Six-Month Period Ended June 30, 2018 | |
|----------------------------------------|-----------------------------------------------------|-------------------------------------------------------|
| | Number of shares of restricted stock | Weighted-Average Grant Date Fair Value |
| Non-vested shares at beginning of year | 1,816,968 | \$ 2.76 |
| Granted | 342,439 | 6.30 |
| Forfeited | (9,500) | 2.99 |

Edgar Filing: FIRST BANCORP /PR/ - Form 10-Q

| | | | |
|------------------------------------|-------------|----|------|
| Vested | (1,086,822) | | 2.09 |
| Non-vested shares at June 30, 2018 | 1,063,085 | \$ | 4.59 |

For the quarter and six-month period ended June 30, 2018, the Corporation recognized \$0.8 million and \$1.9 million, respectively, of stock-based compensation expense related to restricted stock awards, compared to \$1.0 million and \$2.0 million for the same periods in 2017, respectively. As of June 30, 2018, there was \$3.2 million of total unrecognized compensation cost related to non-vested shares of restricted stock. The weighted average period over which the Corporation expects to recognize such cost is 1.5 years. The total expense determined for restricted stock awards granted to retirement-eligible employees was charged against earnings at the grant date.

During the first half of 2017, the Corporation awarded 3,644 shares of restricted stock subject to a one-year vesting period to an independent director appointed in the first quarter of 2017. In addition, during the first half of 2017, the Corporation awarded 951,332 shares of restricted stock to employees subject to a vesting period of two years. Included in those 951,332 shares of restricted stock were 838,332 shares granted in the first quarter of 2017 to certain senior officers consistent with the requirements of the Troubled Asset Relief Program (“TARP”) Interim Final Rule. On May 10, 2017, the United States Department of the Treasury (the “U.S. Treasury”) announced that it had sold all of its remaining 10,291,553 shares of the Corporation’s common stock. As a result of the sale by the U.S. Treasury, the Corporation is no longer subject to the compensation-related restrictions under TARP, which substantially limited the Corporation’s ability to award short-term and long-term incentives to the Corporation’s executives, and the Corporation’s senior officers are no longer subject to the transferability restrictions on their shares of restricted stock. However, since the U.S. Treasury did not recover the full amount of its original investment under TARP, the senior officers forfeited 2,370,571, or 50%, of their outstanding shares of restricted stock, resulting in a reduction in the number of common shares outstanding.

The fair value of the shares of restricted stock granted in the first quarter of 2017 was based on the market price of the Corporation’s outstanding common stock on the date of the grant. For the 838,332 shares of restricted stock granted under the TARP requirements, the market price was discounted assuming that 50% of the shares of restricted stock would become freely transferable and the remaining 50% would be forfeited, resulting in a fair value of \$2.71 for each share of restricted stock granted under TARP requirements.

Stock-based compensation accounting guidance requires the Corporation to reverse compensation expense for any awards that are forfeited due to employee or director turnover. Quarterly changes in the estimated forfeiture rate may have a significant effect on stock-based compensation, as the effect of adjusting the rate for all expense amortization is recognized in the period in which the forfeiture estimate is changed. If the actual forfeiture rate is higher than the estimated forfeiture rate, an adjustment is made to increase the estimated forfeiture rate, which will result in a decrease in the expense recognized in the financial statements. If the actual forfeiture rate is lower than the estimated forfeiture rate, an adjustment is made to decrease the estimated forfeiture rate, which will result in an increase in the expense recognized in the financial statements. The estimated forfeiture rate did not change as a result of the restricted shares forfeited in connection with the aforementioned U.S. Treasury’s sale of the Corporation’s common stock.

Performance Units

Under the Omnibus Plan, the Corporation may award performance unit awards to Omnibus Plan participants. During the first six months of 2018, the Corporation granted 304,408 unit awards to executives, with each unit representing the value of one share of the Corporation's common stock. The performance unit awards granted are for the performance period beginning January 1, 2018 and ending on December 31, 2020 and are subject to a three-year requisite service period. These awards do not contain non-forfeitable rights to dividend equivalent amounts and can only be settled in shares of the Corporation's common stock. Included in those 304,408 performance unit awards were 29,171 units granted to retirement-eligible executives at the grant date. The performance unit will vest based on the achievement of a pre-established tangible book value per share target as of December 31, 2020. All of the performance units will vest if performance is at the pre-established performance target level or above. However, the participants may vest on 50% of the awards to the extent that performance is below the target but at 80% of the pre-established performance target level (the 80% minimum threshold) which is measured based upon the growth in the tangible book value during the performance cycle. If performance is between the 80% minimum threshold and the pre-established performance target level, the participants will vest on a proportional amount. No performance units will vest if performance is below the 80% minimum threshold.

The fair value of the performance unit awards granted during the first six months of 2018 was based on the market price of the Corporation's outstanding common stock on the date of the grant. For the quarter and the first six months of 2018, the Corporation recognized \$0.1 million and \$0.3 million, respectively, of stock-based compensation related to performance unit awards. As of June 30, 2018, there was \$1.6 million of total unrecognized compensation cost related to unvested performance units that the Corporation expects to recognize over the three-year requisite service period. The total expense determined for the performance unit awards granted to retirement-eligible executives was charged against earnings at the grant date. The total amount of compensation expense recognized reflects management's assessment of the probability that the pre-established performance goal will be achieved. A cumulative adjustment to compensation expense is recognized in the current period to reflect any changes in the probability of achievement of the performance goals.

Salary stock

Also, effective April 1, 2013, the Corporation's Board of Directors determined to increase the salary amounts paid to certain executive officers, primarily by paying the increased salary amounts in the form of shares of the Corporation's common stock issued under the Omnibus Plan, instead of cash. During the first six months of 2018, the Corporation issued 268,709 shares of common stock (first six months of 2017 – 272,959 shares) with a weighted average market value of \$6.51 (first six months of 2017 – \$5.94) as salary stock compensation. This resulted in a compensation expense of \$1.7 million recorded in the first six months of 2018 (first six months of 2017 – \$1.6 million). Effective July 1, 2018, the payment of additional salary amounts in the form of stock was eliminated in accordance to the previously reported executive compensation program.

For the first six months of 2018, the Corporation withheld 96,377 shares (first six months of 2017 – 90,973 shares) from the common stock paid to certain senior officers as additional compensation and 328,433 shares of restricted stock that vested during the first six months of 2018 (first six months of 2017 – 235,680) to cover employees' payroll and income tax withholding liabilities; these shares are held as treasury shares. The Corporation paid in cash any fractional share of salary stock to which the officer was entitled. In the consolidated financial statements, the Corporation treats shares withheld for tax purposes as common stock repurchases.

NOTE 5 – INVESTMENT SECURITIES***Investment Securities Available for Sale***

The amortized cost, non-credit loss component of OTTI recorded in OCI, gross unrealized gains and losses recorded in OCI, estimated fair value, and weighted-average yield of investment securities available for sale by contractual maturities as of June 30, 2018 and December 31, 2017 were as follows:

| | Amortized cost | Noncredit Loss Component of OTTI Recorded in OCI | June 30, 2018 | | Fair value | Weighted- average yield% |

- (1) As of January 1, 2018, the Corporation adopted ASU 2016-01, resulting in the reclassification of equity securities from available-for-sale investment securities to other investment securities.

Maturities of mortgage-backed securities (“MBS”) are based on the period of final contractual maturity. Expected maturities of investments might differ from contractual maturities because they may be subject to prepayments and/or call options. The weighted-average yield on investment securities available for sale is based on amortized cost and, therefore, does not give effect to changes in fair value. The net unrealized gain or loss on securities available for sale and the noncredit loss component of OTTI are presented as part of OCI.

The following tables show the Corporation’s available-for-sale investments’ fair value and gross unrealized losses, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, as of June 30, 2018 and December 31, 2017. The tables also include debt securities for which an OTTI was recognized and only the amount related to a credit loss was recognized in earnings. For unrealized losses for which OTTI was recognized, the related credit loss was charged against the amortized cost basis of the debt security.

Assessment for OTTI

Debt securities issued by U.S. government agencies, U.S. government-sponsored entities, and the U.S. Treasury accounted for approximately 99% of the total available-for-sale portfolio as of June 30, 2018, and no credit losses are expected, given the explicit and implicit guarantees provided by the U.S. federal government. The Corporation's OTTI assessment was concentrated mainly on private label MBS, and on Puerto Rico government debt securities, for which credit losses are evaluated on a quarterly basis. The Corporation considered the following factors in determining whether a credit loss exists and the period over which the debt security is expected to recover:

- The length of time and the extent to which the fair value has been less than the amortized cost basis;
- Any adverse change to the credit conditions and liquidity of the issuer, taking into consideration the latest information available about the financial condition of the issuer, credit ratings, the failure of the issuer to make scheduled principal or interest payments, recent legislation and government actions affecting the issuer's industry, and actions taken by the issuer to deal with the present economic climate;
- Changes in the near term prospects of the underlying collateral for a security, if any, such as changes in default rates, loss severity given default, and significant changes in prepayment assumptions; and
- The level of cash flows generated from the underlying collateral, if any, supporting the principal and interest payments of the debt securities.

The Corporation recorded OTTI losses on available-for-sale debt securities as follows:

| | Quarter Ended | | Six-Month Period Ended | |
|--------------------------------------------------|---------------|------|------------------------|-------------|
| | June 30, | | June 30, | |
| | 2018 | 2017 | 2018 | 2017 |
| (In thousands) | | | | |
| Total OTTI losses | \$ - | \$ - | \$ - | \$ (12,231) |
| Portion of OTTI recognized in OCI | - | - | - | - |
| Net impairment losses recognized in earnings (1) | \$ - | \$ - | \$ - | \$ (12,231) |

(1) Credit losses on Puerto Rico government debt securities, recorded in the first quarter of 2017.

The following tables summarize the roll-forward of credit losses on debt securities held by the Corporation for which a portion of an OTTI is recognized in OCI:

| | Cumulative OTTI credit losses recognized in earnings on securities still held | | | |

| | 2016 Balance | | | | | | 2017 Balance | |
| (In thousands) | | | | | | | | |
| Available-for-sale securities | | | | | | | | |
| Puerto Rico government obligations | \$ | 22,189 | \$ | 12,231 | \$ | (34,420) | \$ | - |
| Private label MBS | | 6,792 | | - | | - | | 6,792 |
| Total OTTI credit losses for available-for-sale debt securities | \$ | 28,981 | \$ | 12,231 | \$ | (34,420) | \$ | 6,792 |

During the second quarter of 2017, the Corporation sold for an aggregate of \$23.4 million three Puerto Rico government available-for-sale debt securities, specifically bonds of the Government Development Bank for Puerto Rico (the "GDB") and the Puerto Rico Public Buildings Authority, carried on its book at an amortized cost at the time of sale of \$23.0 million (net of \$34.4 million in cumulative OTTI impairment charges). Approximately \$12.2 million of the cumulative OTTI charges on these securities was recorded in the first quarter of 2017.

For the OTTI charge recorded on the Puerto Rico government debt securities in the first quarter of 2017, the Corporation considered the latest available information about the Puerto Rico government's financial condition, including but not limited to credit ratings downgrades, revised estimates of recovery rates, and other relevant developments such as government actions, including debt exchange proposals and the fiscal plan published by the Puerto Rico government in March 2017, as applicable. The Corporation applied a discounted cash flow analysis to its Puerto Rico government debt securities in order to calculate the cash flows expected to be collected and to determine if any portion of the decline in market value of these securities was considered a credit-related OTTI. The analysis derived an estimate of value based on the present value of risk-adjusted cash flows of the underlying securities and included of the following components:

- The contractual future cash flows of the bonds were projected based on the key terms as set forth in the official statements for each security. Such key terms included, among others, the interest rate, amortization schedule, if any, and maturity date.
- The risk-adjusted cash flows were calculated based on a probability of default analysis and recovery rate assumptions, including the weighting of different scenarios of ultimate recovery, considering the credit rating of each security. Constant monthly default rates were assumed throughout the life of the bonds, which considered the respective security's credit rating as of the date of the analysis.
- The adjusted future cash flows were then discounted at the original effective yield of each investment based on the purchase price and expected risk-adjusted future cash flows as of the purchase date of each investment.

The discounted risk-adjusted cash flow analysis for the three Puerto Rico government bonds mentioned above assumed a default probability of 100%, as these three non-performing bonds had been in default since the third quarter of 2016. Based on this analysis, the Corporation recorded in the first quarter of 2017 credit-related OTTI amounting to \$12.2 million, assuming recovery rates ranging from 15% to 80% (with a weighted average of 41%).

In addition, the Corporation performed an OTTI assessment on its private label MBS, which are collateralized by fixed-rate mortgages on single-family residential properties in the United States. The interest rate on these private-label MBS is variable, tied to 3-month LIBOR and limited to the weighted-average coupon on the underlying collateral. The underlying mortgages are fixed-rate, single-family loans with original high FICO scores (over 700) and

moderate loan-to-value ratios (under 80%), as well as moderate delinquency levels.

Based on the expected cash flows, and since the Corporation does not have the intention to sell the securities and has sufficient capital and liquidity to hold these securities until a recovery of the fair value occurs, only the credit loss component, if any, is reflected in earnings. Significant assumptions in the valuation of the private label MBS were as follows:

| | As of June 30, 2018 | | As of December 31, 2017 | |
|--------------------------------|--------------------------------|--------------|------------------------------------|---------------|
| | Weighted Average | Range | Weighted Average | Range |
| Discount rate | 14.6% | 14.6% | 14.0% | 14.0% |
| Prepayment rate | 12.6% | 5.0% - 23.0% | 16.4% | 12.0% - 29.0% |
| Projected Cumulative Loss Rate | 4% | 0% - 8.7% | 3% | 0% - 6.8% |

No OTTI charges on private label MBS were recorded in either the first half of 2018 or the first half of 2017.

Investments Held to Maturity

The amortized cost, gross unrecognized gains and losses, estimated fair value, weighted-average yield and contractual maturities of investment securities held to maturity as of June 30, 2018 and December 31, 2017 were as follows:

June 30, 2018**Gross Unrecognized**

| | Amortized cost | gains | losses | Fair value | Weighted-average yield % |
|----------------------------------------------|-----------------------|--------------|---------------|-------------------|---------------------------------|
| Puerto Rico Municipal Bonds: | | | | | |
| After 1 to 5 years | \$ 3,712 | \$ - | \$ 151 | \$ 3,561 | 5.68 |
| After 5 to 10 years | 39,523 | - | 2,705 | 36,818 | 5.63 |
| After 10 years | 107,251 | - | 12,200 | 95,051 | 5.78 |
| Total investment securities held to maturity | \$ 150,486 | \$ - | \$ 15,056 | \$ 135,430 | 5.74 |

December 31, 2017**Gross Unrecognized**

| | Amortized cost | gains | losses | Fair value | Weighted-average yield % |
|----------------------------------------------|-----------------------|--------------|---------------|-------------------|---------------------------------|
| Puerto Rico Municipal Bonds: | | | | | |
| After 1 to 5 years | \$ 3,853 | \$ - | \$ 173 | \$ 3,680 | 5.38 |
| After 5 to 10 years | 39,523 | - | 3,048 | 36,475 | 5.28 |
| After 10 years | 107,251 | - | 16,374 | 90,877 | 4.93 |
| Total investment securities held to maturity | \$ 150,627 | \$ - | \$ 19,595 | \$ 131,032 | 5.03 |

The following tables show the Corporation's held-to-maturity investments' fair value and gross unrecognized losses, aggregated by investment category and length of time that individual securities have been in a continuous unrecognized loss position, as of June 30, 2018 and December 31, 2017:

As of June 30, 2018

| | Less than 12 months Unrecognized | | 12 months or more Unrecognized | | Total Unrecognized | |
|-----------------------------|----------------------------------|--------|--------------------------------|-----------|--------------------|-----------|
| | Fair Value | Losses | Fair Value | Losses | Fair Value | Losses |
| | (In thousands) | | | | | |
| Debt securities: | | | | | | |
| Puerto Rico Municipal Bonds | \$ - | \$ - | \$ 135,430 | \$ 15,056 | \$ 135,430 | \$ 15,056 |

As of December 31, 2017

| | Less than 12 months Unrecognized | | 12 months or more Unrecognized | | Total Unrecognized | |
|-----------------------------|----------------------------------|--------|--------------------------------|-----------|--------------------|-----------|
| | Fair Value | Losses | Fair Value | Losses | Fair Value | Losses |
| | (In thousands) | | | | | |
| Debt securities: | | | | | | |
| Puerto Rico Municipal Bonds | \$ - | \$ - | \$ 131,032 | \$ 19,595 | \$ 131,032 | \$ 19,595 |

The Corporation determines the fair market value of Puerto Rico Municipal Bonds based on a discounted cash flow analysis using risk-adjusted discount rates. A security with similar characteristics traded in the open market is used as a proxy for each municipal bond. Then the cash flow is discounted at the average spread over the discount curve exhibited by the proxy security at the end of each quarter.

All of the Puerto Rico Municipal Bonds are performing and current as to scheduled contractual payments as of June 30, 2018. Approximately 70% of the held-to-maturity municipal bonds were issued by three of the largest municipalities in Puerto Rico. The vast majority of revenues of these three municipalities is independent of the Puerto Rico central government. These obligations typically are not issued in bearer form, nor are they registered with the SEC, and they are not rated by external credit agencies. In most cases, these bonds have priority over the payment of operating costs and expenses of the municipality, which are required by law to levy special property taxes in such amounts as are required for the payment of all of their respective general obligation bonds and loans. The Corporation performs periodic credit quality reviews on these issuers. Based on the quarterly analysis performed, management concluded that no individual debt security held to maturity was other-than-temporarily impaired as of June 30, 2018.

The PROMESA oversight board has not designated any of Puerto Rico's 78 municipalities as covered entities under PROMESA. However, while the fiscal plan recently certified by the PROMESA oversight board did not contemplate a restructuring of the debt of Puerto Rico's municipalities, the plan did call for the gradual elimination of budgetary subsidies provided to municipalities by the central government. Furthermore, municipalities are also likely

to be affected by the negative economic and other effects resulting from the 2017 hurricanes and from expense, revenue or cash management measures taken by the Puerto Rico government to address its fiscal and liquidity shortfalls, or measures included in fiscal plans of other government entities, such as the fiscal plans of the GDB and the Puerto Rico Electric Power Authority (“PREPA”). Given the uncertain effect that the negative fiscal situation of the Puerto Rico central government and the measures taken, or to be taken, by other government entities may have on municipalities, the Corporation cannot be certain if future impairment charges will be required relating to these securities.

From time to time, the Corporation has securities held to maturity with an original maturity of three months or less that are considered cash and cash equivalents and classified as money market investments in the consolidated statements of financial condition. As of June 30, 2018 and December 31, 2017, the Corporation had no outstanding securities held to maturity that were classified as cash and cash equivalents.

NOTE 6 – OTHER INVESTMENT SECURITIES

Institutions that are members of the FHLB system are required to maintain a minimum investment in FHLB stock. Such minimum investment is calculated as a percentage of aggregate outstanding mortgages, and the FHLB requires an additional investment that is calculated as a percentage of total FHLB advances, letters of credit, and the collateralized portion of outstanding interest-rate swaps. The stock is capital stock issued at \$100 par value. Both stock and cash dividends may be received on FHLB stock.

As of June 30, 2018 and December 31, 2017, the Corporation had investments in FHLB stock with a book value of \$40.8 million and \$40.9 million, respectively. Dividend income from FHLB stock for the quarters ended June 30, 2018 and 2017 was \$0.7 million and \$0.5 million, respectively, and for the six-month periods ended June 30, 2018 and 2017 was \$1.3 million and \$0.9 million, respectively.

The FHLB of New York issued the shares of FHLB stock owned by the Corporation. The FHLB of New York is part of the Federal Home Loan Bank System, a national wholesale banking network of 11 regional, stockholder-owned congressionally chartered banks. The FHLBs are all privately capitalized and operated by their member stockholders. The system is supervised by the Federal Housing Finance Agency, which ensures that the FHLBs operate in a financially safe and sound manner, remain adequately capitalized and able to raise funds in the capital markets, and carry out their housing finance mission.

On January 1, 2018, the Corporation adopted ASU 2016-01, resulting in the reclassification of equity securities with a readily determinable fair value of approximately \$0.4 million from available-for-sale investment securities to other investment securities. During the second quarter and six-month period ended June 30, 2018, the Corporation measured these equity securities at fair value through earnings resulting in the recognition of market-to-market losses of \$3 thousand and \$10 thousand, respectively, recorded as part of other non-interest income in the statement of income.

The Corporation has other equity securities that do not have readily available fair values. The aggregate carrying value of such securities as of June 30, 2018 and December 31, 2017 was \$2.2 million.

NOTE 7 – LOANS HELD FOR INVESTMENT

The following provides information about the loan portfolio held for investment:

| | As of | | As of |
|---------------------------------------------------------------|-----------------|----|---------------------|
| | June 30, | | December 31, |
| | 2018 | | 2017 |
| (In thousands) | | | |
| Residential mortgage loans, mainly secured by first mortgages | \$ 3,238,001 | \$ | 3,290,957 |
| Commercial loans: | | | |
| Construction loans (1) | 84,683 | | 111,397 |
| Commercial mortgage loans (1)(2) | 1,533,308 | | 1,614,972 |
| Commercial and Industrial loans (3) | 2,009,049 | | 2,083,253 |
| Total commercial loans | 3,627,040 | | 3,809,622 |
| Finance leases | 283,274 | | 257,462 |
| Consumer loans | 1,491,976 | | 1,492,435 |
| Loans held for investment | 8,640,291 | | 8,850,476 |
| Allowance for loan and lease losses | (222,035) | | (231,843) |
| Loans held for investment, net | \$ 8,418,256 | \$ | 8,618,633 |

- (1) During the first quarter of 2018, the Corporation transferred \$57.2 million (net of fair value write-downs of \$9.7 million) in non-performing loans to held for sale. Loans transferred to held for sale consisted of a \$30.0 million non-performing construction loan (net of a \$5.1 million fair value write-down) and two non-performing commercial mortgage loans totaling \$27.2 million (net of fair value write-downs of \$4.6 million).
- (2) During the second quarter of 2018, the Corporation completed the sale of a \$10.4 million non-performing commercial mortgage loan that was among the loans transferred to held for sale in the first quarter of 2018.
- (3) As of June 30, 2018 and December 31, 2017, includes \$792.0 million and \$833.5 million, respectively, of commercial loans that are secured by real estate but are not dependent upon the real estate for repayment.

Loans held for investment on which accrual of interest income had been discontinued were as follows:

| (In thousands) | As of June 30, 2018 | As of December 31, 2017 |
|----------------------------------------------------------|------------------------------------|----------------------------------------|
| Non-performing loans: | | |
| Residential mortgage | \$ 162,539 | \$ 178,291 |
| Commercial mortgage (1) | 142,614 | 156,493 |
| Commercial and Industrial | 76,887 | 85,839 |
| Construction: | | |
| Land | 12,926 | 15,026 |
| Construction-commercial (1) | - | 35,100 |
| Construction-residential | 1,222 | 1,987 |
| Consumer: | | |
| Auto loans | 12,299 | 10,211 |
| Finance leases | 2,032 | 1,237 |
| Other consumer loans | 8,622 | 5,370 |
| Total non-performing loans held for investment (2)(3)(4) | \$ 419,141 | \$ 489,554 |

- (1) During the first quarter of 2018, the Corporation transferred \$57.2 million (net of fair value write-downs of \$9.7 million) in non-performing loans to held for sale. Loans transferred to held for sale consisted of a \$30.0 million non-performing construction loan (net of a \$5.1 million fair value write-down) and two non-performing commercial mortgage loans totaling \$27.2 million (net of fair value write-downs of \$4.6 million).
- (2) Excludes \$54.5 million and \$8.3 million of non-performing loans held for sale as of June 30, 2018 and December 31, 2017, respectively.
- (3) Amount excludes purchased-credit impaired (“PCI”) loans with a carrying value of approximately \$152.2 million and \$158.2 million as of June 30, 2018 and December 31, 2017, respectively, primarily mortgage loans acquired from Doral Bank in the first quarter of 2015 and from Doral Financial in the second quarter of 2014, as further discussed below. These loans are not considered non-performing due to the application of the accretion method, under which these loans will accrete interest income over the remaining life of the loans using an estimated cash flow analysis.
- (4) Non-performing loans exclude \$393.3 million and \$374.7 million of Troubled Debt Restructuring (“TDR”) loans that are in compliance with modified terms and in accrual status as of June 30, 2018 and December 31, 2017, respectively.

During the first quarter of 2018, the Corporation transferred to held for sale three non-performing commercial and construction loans. The aggregate recorded investment in these loans was written down to \$57.2 million, which resulted in charge-offs of \$9.7 million, of which \$4.1 million was taken against previously-established reserves for loan losses, resulting in a charge to the provision for loan and lease losses of \$5.6 million in the first quarter of 2018. Loans transferred to held for sale consisted of a \$30.0 million non-performing construction loan (net of a \$5.1 million fair value write-down) and two non-performing commercial mortgage loans totaling \$27.2 million (net of fair value write-downs of \$4.6 million).

During the second quarter of 2018, the Corporation completed the sale of a \$10.4 million non-performing commercial mortgage loan that was among the loans transferred to held for sale during the first quarter.

Loans in Process of Foreclosure

As of June 30, 2018, the recorded investment of residential mortgage loans collateralized by residential real estate property that are in the process of foreclosure amounted to \$142.6 million, including \$21.8 million of loans insured by the FHA or guaranteed by the VA, and \$12.4 million of PCI loans. The Corporation commences the foreclosure process on residential real estate loans when a borrower becomes 120 days delinquent in accordance with the guidelines of the Consumer Financial Protection Bureau (“CFPB”). Foreclosure procedures and timelines vary depending on whether the property is located in a judicial or non-judicial state. Judicial states (i.e., Puerto Rico, Florida and USVI) require the foreclosure to be processed through the state’s court while foreclosure in non-judicial states (i.e., BVI) is processed without court intervention. Foreclosure timelines vary according to state law and investor guidelines. Occasionally, foreclosures may be delayed due to, among other reasons, mandatory mediations, bankruptcy, court delays and title issues.

The Corporation's aging of the loans held for investment portfolio is as follows:

| As of June 30, 2018 (In thousands) | 30-59 Days Past Due | 60-89 Days Past Due | 90 days or more Past Due (1)(2)(3) | Total Past Due | Purchased Credit-Impaired Loans | Current | Total loans held for investment | 90 days past due and still accruing (1)(2)(3) |

| Consumer: Auto loans | 32,527 | 6,906 | 12,299 | 51,732 | - | 804,224 | 855,956 | - |
| Finance leases | 5,777 | 1,404 | 2,032 | 9,213 | - | 274,061 | 283,274 | - |
| Other consumer loans | 8,112 | 5,039 | 14,649 | 27,800 | - | 608,220 | 636,020 | 6,027 |
| Total loans held for investment | \$ 49,184 | \$ 85,750 | \$ 560,602 | \$ 695,536 | \$ 152,242 | \$ 7,792,513 | \$ 8,640,291 | \$ 141,461 |

(1) Includes non-performing loans and accruing loans that are contractually delinquent 90 days or more (i.e., FHA/VA guaranteed loans and credit cards). Credit card loans continue to accrue finance charges and fees until charged-off at 180 days.

(2) It is the Corporation's policy to report delinquent residential mortgage loans insured by the FHA or guaranteed by the VA as past-due loans 90 days and still accruing as opposed to non-performing loans since the principal repayment is insured. These balances include \$30.1 million of residential mortgage loans insured by the FHA or

guaranteed by the VA that are over 15 months delinquent, and are no longer accruing interest as of June 30, 2018.

- (3) As of June 30, 2018, includes \$78.7 million of defaulted loans collateralizing GNMA securities for which the Corporation has an unconditional option (but not an obligation) to repurchase the defaulted loans.
- (4) According to the Corporation's delinquency policy and consistent with the instructions for the preparation of the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C) required by the Federal Reserve Board, residential mortgage, commercial mortgage, and construction loans are considered past due when the borrower is in arrears on two or more monthly payments. FHA/VA government-guaranteed loans, other residential mortgage loans, commercial mortgage loans, land loans, construction-residential loans and construction-commercial loans past due 30-59 days as of June 30, 2018 amounted to \$6.8 million, \$112.0 million, \$3.0 million, \$0.4 million, \$0.3 million and \$0.6 million, respectively.

As of
December 31,
2017

| (In thousands) | 30-59 Days Past Due | 60-89 Days Past Due | 90 days or more Past Due (1)(2)(3) | Total Past Due | Purchased Credit- Impaired Loans | Current | Total loans held for investment | 90 days past due and still accruing (1)(2)(3) |

| Non-performing | - | 162,539 | 12,299 | 2,032 | 8,622 |
| Total | \$ 151,503 | \$ 3,086,498 | \$ 855,956 | \$ 283,274 | \$ 636,020 |

- (1) It is the Corporation's policy to report delinquent residential mortgage loans insured by the FHA or guaranteed by the VA as 90 days past-due loans and still accruing as opposed to non-performing loans since the principal repayment is insured. This balance includes \$30.1 million of residential mortgage loans insured by the FHA or guaranteed by the VA, which are over 15 months delinquent, and are no longer accruing interest as of June 30, 2018.
- (2) PCI loans are excluded from non-performing statistics due to the application of the accretion method, under which these loans will accrete interest income over the remaining life of the loans using estimated cash flow analyses.

Consumer Credit Exposure - Credit Risk Profile Based on Payment Activity

| December 31, 2017 (In thousands) | Residential Real Estate | | Consumer | | |
|--------------------------------------------|--------------------------------|----------------------------------------|-----------------|---------------------------|---------------------------|
| | FHA/VA/ Guaranteed | Other residential loans | Auto | Finance Leases | Other Consumer |
| | (1) | | | | |
| Performing | \$ 138,939 | \$ 2,819,736 | \$ 834,120 | \$ 256,225 | \$ 642,734 |

Purchased Credit Impaired Loans (PCI)

The Corporation acquired PCI loans accounted for under ASC 310-30, “Receivables – Loans and Debt Securities Acquired with Deteriorated Credit Quality” (“ASC Topic 310-30”) as part of a transaction that closed on February 27, 2015 in which FirstBank acquired 10 Puerto Rico branches of Doral Bank, and acquired certain assets, including PCI loans, and assumed deposits, through an alliance with Banco Popular of Puerto Rico, that was the successful lead bidder with the FDIC on the failed Doral Bank, as well as other co-bidders. The Corporation also acquired PCI loans in previously completed asset acquisitions that are accounted for under ASC Topic 310-30. These previous transactions include the acquisition from Doral Financial in the second quarter of 2014 of all its rights, title and interest in first and second residential mortgages loans in full satisfaction of secured borrowings owed by such entity to FirstBank.

Under ASC Topic 310-30, the acquired PCI loans were aggregated into pools based on similar characteristics (i.e. delinquency status and loan terms). Each loan pool is accounted for as a single asset with a single composite interest rate and an aggregate expectation of cash flows. Since the loans are accounted for under ASC Topic 310-30, they are not considered non-performing and will continue to have an accretable yield as long as there is a reasonable expectation about the timing and amount of cash flows expected to be collected. The Corporation recognizes additional losses on this portfolio when it is probable that the Corporation will be unable to collect all cash flows expected as of the acquisition date plus additional cash flows expected to be collected arising from changes in estimates after the acquisition date.

The carrying amounts of PCI loans were as follows:

| | | June 30, 2018 | As of | December 31, 2017 |
|---------------------------------------------------|----|--------------------------|--------------|------------------------------|
| (In thousands) | | | | |
| Residential mortgage loans | \$ | 148,025 | \$ | 153,991 |
| Commercial mortgage loans | | 4,217 | | 4,183 |
| Total PCI loans | \$ | 152,242 | \$ | 158,174 |
| Allowance for loan losses | | (11,354) | | (11,251) |
| Total PCI loans, net of allowance for loan losses | \$ | 140,888 | \$ | 146,923 |

The following tables present PCI loans by past due status as of June 30, 2018 and December 31, 2017:

| As of June 30, 2018 | | 30-59 Days | 60-89 Days | 90 days or more | Total Past Due | Current | Total PCI loans |
|----------------------------|----|-----------------------|-----------------------|----------------------------|---------------------------|----------------|----------------------------|
| (In thousands) | | | | | | | |
| Residential mortgage loans | \$ | - | \$ 8,588 | \$ 27,024 | \$ 35,612 | \$ 112,413 | \$ 148,025 |
| Commercial mortgage loans | | - | - | 3,252 | 3,252 | 965 | 4,217 |

| | | | | | | | |
|-----------|----|---|----------|-----------|-----------|------------|------------|
| Total (1) | \$ | - | \$ 8,588 | \$ 30,276 | \$ 38,864 | \$ 113,378 | \$ 152,242 |
|-----------|----|---|----------|-----------|-----------|------------|------------|

(1) According to the Corporation's delinquency policy and consistent with the instructions for the preparation of the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C) required by the Federal Reserve Board, residential mortgage and commercial mortgage loans are considered past due when the borrower is in arrears two or more monthly payments. PCI residential mortgage loans past due 30-59 days as of June 30, 2018 amounted to \$11.7 million. No PCI commercial mortgage loan was 30-59 days past due as of June 30, 2018.

| As of December 31, 2017 | 30-59 Days | 60-89 Days | 90 days or more | Total Past Due | Current | Total PCI loans |
|------------------------------|---------------|---------------|--------------------|-------------------|------------|--------------------|
| (In thousands) | | | | | | |
| Residential mortgage loans | \$ - | \$ 16,600 | \$ 26,471 | \$ 43,071 | \$ 110,920 | \$ 153,991 |
| Commercial mortgage loans | - | 355 | 2,834 | 3,189 | 994 | 4,183 |
| Total (1) | \$ - | \$ 16,955 | \$ 29,305 | \$ 46,260 | \$ 111,914 | \$ 158,174 |

(1) According to the Corporation's delinquency policy and consistent with the instructions for the preparation of the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C) required by the Federal Reserve Board, residential mortgage and commercial mortgage loans are considered past due when the borrower is in arrears two or more monthly payments. PCI residential mortgage loans and commercial mortgage loans past due 30-59 days as of December 31, 2017 amounted to \$28.1 million and \$0.2 million, respectively.

Initial Fair Value and Accretable Yield of PCI Loans

At acquisition of PCI loans, the Corporation estimated the cash flows the Corporation expected to collect on the loans. Under the accounting guidance for PCI loans, the difference between the contractually required payments and the cash flows expected to be collected at acquisition is referred to as the non-accretable difference. This difference is neither accreted into income nor recorded on the Corporation's consolidated statements of financial condition. The excess of cash flows expected to be collected over the estimated fair value is referred to as the accretable yield and is recognized in interest income over the remaining life of the loans, using the effective-yield method.

Changes in Accretable Yield of Acquired Loans

Subsequent to the acquisition of loans, the Corporation is required to periodically evaluate its estimate of cash flows expected to be collected. These evaluations, performed quarterly, require the continued use of key assumptions and estimates, similar to the initial estimate of fair value. Subsequent changes in the estimated cash flows expected to be collected may result in changes in the accretable yield and non-accretable difference or reclassifications from non-accretable yield to accretable yield. Increases in the cash flows expected to be collected will generally result in an increase in interest income over the remaining life of the loan or pool of loans. Decreases in expected cash flows due to further credit deterioration will generally result in an impairment charge recognized in the Corporation's provision for loan and lease losses, resulting in an increase to the allowance for loan and lease losses. As of June 30, 2018, the reserve related to PCI loans acquired from Doral Financial in 2014 and from Doral Bank in 2015 amounted to \$11.4 million.

Changes in the accretable yield of PCI loans for the quarters and six-month periods ended June 30, 2018 and 2017 were as follows:

| | Quarter Ended | | Six-Month Period Ended | |
|-------------------------------------------|--------------------------|--------------------------|-------------------------------|--------------------------|
| | June 30, 2018 | June 30, 2017 | June 30, 2018 | June 30, 2017 |
| (In thousands) | | | | |
| Balance at beginning of period | \$ 101,059 | \$ 113,665 | \$ 103,682 | \$ 116,462 |
| Accretion recognized in earnings | (2,570) | (2,724) | (5,193) | (5,521) |

| Ending balance | \$ 152,242 | \$ 160,368 | \$ 152,242 | \$ 160,368 |
| Allowance for loan losses | (11,354) | (9,446) | (11,354) | (9,446) |
| Ending balance, net of allowance for loan losses | \$ 140,888 | \$ 150,922 | \$ 140,888 | \$ 150,922 |

Changes in the allowance for loan losses related to PCI loans were as follows:

| | Quarter Ended | | Six-Month Period Ended | |
|--------------------------------|----------------------|----------------------|-------------------------------|----------------------|
| | June 30, 2018 | June 30, 2017 | June 30, 2018 | June 30, 2017 |
| (In thousands) | | | | |
| Balance at beginning of period | \$ 11,251 | \$ 6,857 | \$ 11,251 | \$ 6,857 |
| Provision for loan losses | 103 | 2,589 | 103 | 2,589 |
| Balance at the end of period | \$ 11,354 | \$ 9,446 | \$ 11,354 | \$ 9,446 |

The outstanding principal balance of PCI loans, including amounts charged off by the Corporation, amounted to \$188.0 million as of June 30, 2018 (December 2017 - \$196.6 million).

Purchases and Sales of Loans

During the first six months of 2018, the Corporation purchased \$29.7 million of residential mortgage loans consistent with a strategic program to purchase ongoing residential mortgage loan production from mortgage bankers in Puerto Rico. In general, the loans purchased from mortgage bankers were conforming residential mortgage loans. Purchases of conforming residential mortgage loans provide the Corporation the flexibility to retain or sell the loans, including through securitization transactions, depending upon the Corporation's interest rate risk management strategies. When the Corporation sells such loans, it generally keeps the servicing of the loans.

In the ordinary course of business, the Corporation sells residential mortgage loans (originated or purchased) to GNMA and government-sponsored entities ("GSEs"), such as FNMA and FHLMC, which generally securitize the transferred loans into mortgage-backed securities for sale into the secondary market. During the first six months of 2018, the Corporation sold \$119.8 million of FHA/VA mortgage loans to GNMA, which packaged them into mortgage-backed securities. Also, during the first six months of 2018, the Corporation sold approximately \$51.1 million of performing residential mortgage loans to FNMA and FHLMC. The Corporation's continuing involvement in these sold loans consists primarily of servicing the loans. In addition, the Corporation agreed to repurchase loans when it breaches any of the representations and warranties included in the sale agreement. These representations and warranties are consistent with the GSEs' selling and servicing guidelines (i.e., ensuring that the mortgage was properly underwritten according to established guidelines). The total amount of loans sold in the secondary market included \$9.8 million of seasoned residential mortgage loans sold to FNMA in the second quarter of 2018.

For loans sold to GNMA, the Corporation holds an option to repurchase individual delinquent loans issued on or after January 1, 2003 when the borrower fails to make any payment for three consecutive months. This option gives the Corporation the ability, but not the obligation, to repurchase the delinquent loans at par without prior authorization from GNMA.

Under ASC Topic 860, *Transfer and Servicing*, once the Corporation has the unilateral ability to repurchase the delinquent loan, it is considered to have regained effective control over the loan and is required to recognize the loan and a corresponding repurchase liability on the balance sheet regardless of the Corporation's intent to repurchase the loan. As of June 30, 2018 and December 31, 2017, rebooked GNMA delinquent loans included in the residential mortgage loan portfolio amounted to \$78.7 million and \$62.1 million, respectively.

During the first six months of 2018 and 2017, the Corporation repurchased, pursuant to its repurchase option with GNMA, \$2.0 million and \$17.5 million, respectively, of loans previously sold to GNMA. The principal balance of these loans is fully guaranteed and the risk of loss related to the repurchased loans is generally limited to the difference between the delinquent interest payment advanced to GNMA, which is computed at the loan's interest rate, and the interest payments reimbursed by FHA, which are computed at a pre-determined debenture rate. Repurchases of GNMA loans allow the Corporation, among other things, to maintain acceptable delinquency rates on outstanding GNMA pools and remain as a seller and servicer in good standing with GNMA. During the fourth quarter of 2017, the

Corporation requested and received approval from GNMA for the exclusion of loans in the areas affected by Hurricanes Irma and Maria from calculations of delinquency and default ratios established in the GNMA Mortgage-Backed Securities Guide. The Corporation generally remediates any breach of representations and warranties related to the underwriting of such loans according to established GNMA guidelines without incurring losses. The Corporation's estimate of losses related to breaches in representations and warranties is zero as of June 30, 2018.

Loan sales to FNMA and FHLMC are without recourse in relation to the future performance of the loans. The Corporation repurchased at par loans previously sold to FNMA and FHLMC in the amount of \$3 thousand and \$16 thousand during the first half of 2018 and 2017, respectively. The Corporation's risk of loss with respect to these loans is also minimal as these repurchased loans are generally performing loans with documentation deficiencies.

In addition, during the first six months of 2018, the Corporation purchased a \$21.4 million commercial and industrial loan participation. Also, during the first six months of 2018, the Corporation sold a \$5.6 million commercial and industrial adversely-classified loan in Puerto Rico (recording a charge-off of \$1.3 million), a \$10.4 million non-performing commercial mortgage loan held for sale in Puerto Rico, and a \$9.2 million commercial and industrial loan participation in the Florida region.

Sale of the Puerto Rico Electric Power Authority ("PREPA") Loan

During the first quarter of 2017, the Corporation received an unsolicited offer and sold its outstanding participation in the PREPA line of credit with a book value of \$64 million at the time of sale (principal balance of \$75 million), thereby reducing its direct exposure to the Puerto Rico government. A specific reserve of approximately \$10.2 million had been allocated to this loan. Gross proceeds of \$53.2 million from the sale resulted in an incremental loss of \$0.6 million recorded as a charge to the provision for loan and lease losses in the first quarter of 2017.

Loan Portfolio Concentration

The Corporation's primary lending area is Puerto Rico. The Corporation's banking subsidiary, FirstBank, also lends in the USVI and BVI markets and in the United States (principally in the state of Florida). Of the total gross loans held for investment of \$8.6 billion as of June 30, 2018, credit risk concentration was approximately 75% in Puerto Rico, 19% in the United States, and 6% in the USVI and BVI.

As of June 30, 2018, the Corporation had \$54.6 million outstanding in loans extended to the Puerto Rico government, its municipalities and public corporations, compared to \$55.9 million as of December 31, 2017. Approximately \$33.1 million of the outstanding loans as of June 30, 2018 consisted of loans extended to municipalities in Puerto Rico, which in most cases are supported by assigned property tax revenues. The vast majority of revenues of the municipalities included in the Corporation's loan portfolio are independent of the Puerto Rico central government. These municipalities are required by law to levy special property taxes in such amounts as are required for the payment of all of their respective general obligation bonds and notes. Late in 2015, the GDB and the Municipal Revenue Collection Center ("CRIM") signed and perfected a deed of trust. Through this deed, the GDB, as fiduciary, is bound to keep the CRIM funds separate from any other deposits and must distribute the funds pursuant to applicable law. The CRIM funds are deposited at another commercial depository financial institution in Puerto Rico. In addition to loans extended to municipalities, the Corporation's exposure to the Puerto Rico government as of June 30, 2018 includes a \$6.7 million loan extended to a unit of the central government, and a \$14.8 million loan granted to an affiliate of PREPA.

In addition, the Corporation had \$114.7 million in exposure to residential mortgage loans that are guaranteed by the Puerto Rico Housing Finance Authority. Residential mortgage loans guaranteed by the Puerto Rico Housing Finance Authority are secured by the underlying properties and the guarantees serve to cover shortfalls in collateral in the event of a borrower default. The Puerto Rico government guarantees up to \$75 million of the principal under the mortgage loan insurance program. According to the most recently-released audited financial statements of the Puerto Rico Housing Finance Authority, as of June 30, 2016, the Puerto Rico Housing Finance Authority's mortgage loans insurance program covered loans in an aggregate of approximately \$576 million. The regulations adopted by the Puerto Rico Housing Finance Authority require the establishment of adequate reserves to guarantee the solvency of the mortgage loan insurance fund. As of June 30, 2016, the most recent date as to which information is available, the Puerto Rico Housing Finance Authority had a restricted net position for such purposes of approximately \$77.4 million.

The Corporation also has credit exposure to USVI government entities. As of June 30, 2018, the Corporation had \$72.5 million in loans to USVI government instrumentalities and public corporations, compared to \$70.4 million as of December 31, 2017. Of the amount outstanding as of June 30, 2018, public corporations of the USVI owed approximately \$49.2 million and an independent instrumentality of the USVI government owed approximately \$23.2 million. As of June 30, 2018, all loans were currently performing and up to date on principal and interest payments.

The Corporation cannot predict at this time the ultimate effect that the current fiscal situation of the Commonwealth of Puerto Rico, the uncertainty about the debt restructuring process, the various legislative and other measures adopted and to be adopted by the Puerto Rico government and the PROMESA oversight board in response to such fiscal situation, and the effect of Hurricane Maria will have on the Puerto Rico economy, the Corporation's clients, and the Corporation's financial condition and results of operations.

Troubled Debt Restructurings

The Corporation provides homeownership preservation assistance to its customers through a loss mitigation program in Puerto Rico that is similar to the U.S. government's Home Affordable Modification Program guidelines. Depending upon the nature of borrowers' financial condition, restructurings or loan modifications through this program, as well as other restructurings of individual commercial, commercial mortgage, construction, and residential mortgage loans, fit the definition of a TDR. A restructuring of a debt constitutes a TDR if the creditor, for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Modifications involve changes in one or more of the loan terms that bring a defaulted loan current and provide sustainable affordability. Changes may include, among others, the extension of the maturity of the loan and modifications of the loan rate. As of June 30, 2018, the Corporation's total TDR loans held for investment of \$557.2 million consisted of \$342.9 million of residential mortgage loans, \$91.7 million of commercial and industrial loans, \$84.3 million of commercial mortgage loans, \$6.4 million of construction loans, and \$31.9 million of consumer loans. Outstanding unfunded commitments on TDR loans amounted to \$1.4 million as of June 30, 2018. In addition, the loans held for sale portfolio includes a \$30.0 million TDR construction loan.

The Corporation's loss mitigation programs for residential mortgage and consumer loans can provide for one or a combination of the following: movement of interest past due to the end of the loan, extension of the loan term, deferral of principal payments and reduction of interest rates either permanently or for a period of up to six years (increasing back in step-up rates). Additionally, in certain cases, the restructuring may provide for the forgiveness of contractually-due principal or interest. Uncollected interest is added to the end of the loan term at the time of the restructuring and not recognized as income until collected or when the loan is paid off. These programs are available only to those borrowers who have defaulted, or are likely to default, permanently on their loan and would lose their homes in a foreclosure action absent some lender concession. Nevertheless, if the Corporation is not reasonably assured that the borrower will comply with its contractual commitment, properties are foreclosed.

Prior to permanently modifying a loan, the Corporation may enter into trial modifications with certain borrowers. Trial modifications generally represent a six-month period during which the borrower makes monthly payments under the anticipated modified payment terms prior to a formal modification. Upon successful completion of a trial modification, the Corporation and the borrower enter into a permanent modification. TDR loans that are participating in or that have been offered a binding trial modification are classified as TDRs when the trial offer is made and continue to be classified as TDRs regardless of whether the borrower enters into a permanent modification. As of June 30, 2018, the Corporation classified an additional \$1.1 million of residential mortgage loans as TDRs that were participating in or had been offered a trial modification.

For the commercial real estate, commercial and industrial, and construction loan portfolios, at the time of a restructuring, the Corporation determines, on a loan-by-loan basis, whether a concession was granted for economic or legal reasons related to the borrower's financial difficulty. Concessions granted for loans in these portfolios could include: reductions in interest rates to rates that are considered below market; extension of repayment schedules and maturity dates beyond original contractual terms; waivers of borrower covenants; forgiveness of principal or interest; or other contractual changes that are considered to be concessions. The Corporation mitigates loan defaults for these

loan portfolios through its collection function. The function's objective is to minimize both early stage delinquencies and losses upon default of loans in these portfolios. In the case of the commercial and industrial, commercial mortgage, and construction loan portfolios, the Corporation's Special Asset Group ("SAG") focuses on strategies for the accelerated reduction of non-performing assets through note sales, short sales, loss mitigation programs, and sales of OREO.

In addition, the Corporation extends, renews, and restructures loans with satisfactory credit profiles. Many commercial loan facilities are structured as lines of credit, which generally have one-year terms and, therefore, are required to be renewed annually. Other facilities may be restructured or extended from time to time based upon changes in the borrower's business needs, use of funds, timing of completion of projects, and other factors. If the borrower is not deemed to have financial difficulties, extensions, renewals, and restructurings are done in the normal course of business and not considered concessions, and the loans continue to be recorded as performing.

Selected information on TDR loans held for investment that includes the recorded investment by loan class and modification type is summarized in the following tables. This information reflects all TDRs held for investment:

| | June 30, 2018 | | | | | | |
|----------------------------------------|-----------------------------------|-----------------------------------|----------------------------------------------------------------------------|-------------------------------------------------|------------------------------|-----------------------------|--------------|
| | Interest rate below market | Maturity or term extension | Combination of reduction in interest rate and extension of maturity | Forgiveness of principal and/or interest | Forbearance Agreement | Other ⁽¹⁾ | Total |

(1) Other concessions granted by the Corporation included deferral of principal and/or interest payments for a period longer than what would be considered insignificant, payment plans under judicial stipulation or a combination of the concessions listed in the table.

The following table presents the Corporation's TDR loans held for investment activity:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|--------------------------------------------------------|---------------------------|------------|------------------------------------|------------|
| | 2018 | 2017 | 2018 | 2017 |
| (In thousands) | | | | |
| Beginning balance of TDRs | \$ 572,376 | \$ 602,364 | \$ 587,219 | \$ 647,048 |
| New TDRs | 13,228 | 13,368 | 56,647 | 54,267 |
| Increases to existing TDRs | 75 | 330 | 6,846 | 754 |
| Charge-offs post modification (1)(2) | (8,616) | (9,365) | (17,787) | (24,027) |
| Sales, net of charge-offs | - | - | - | (53,245) |
| Foreclosures | (3,759) | (16,150) | (10,802) | (20,521) |
| TDR transferred to held for sale, net of charge-off | - | - | (30,000) | - |
| Paid-off and partial payments | (16,108) | (22,004) | (34,927) | (35,733) |
| Ending balance of TDRs | \$ 557,196 | \$ 568,543 | \$ 557,196 | \$ 568,543 |

- (1) The six-month period ended June 30, 2018 includes a charge-off of \$5.1 million associated with a \$30.0 million construction loan transferred to held for sale.
- (2) The six-month period ended June 30, 2017 includes a charge-off of \$10.7 million related to the sale of the PREPA credit line.

TDR loans are classified as either accrual or nonaccrual loans. Loans in accrual status may remain in accrual status when their contractual terms have been modified in a TDR if the loans had demonstrated performance prior to the restructuring and payment in full under the restructured terms is expected. Otherwise, loans on nonaccrual and restructured as a TDR will remain on nonaccrual status until the borrower has proven the ability to perform under the modified structure, generally for a minimum of six months, and there is evidence that such payments can, and are likely to, continue as agreed. Performance prior to the restructuring, or significant events that coincide with the restructuring, are included in assessing whether the borrower can meet the new terms and may result in the loan being returned to accrual status at the time of the restructuring or after a shorter performance period. If the borrower's ability to meet the revised payment schedule is uncertain, the loan remains classified as a nonaccrual loan. Loan modifications increase the Corporation's interest income by returning a non-performing loan to performing status, if applicable, increase cash flows by providing for payments to be made by the borrower, and limit increases in foreclosure and OREO costs. A TDR loan that specifies an interest rate that at the time of the restructuring is greater than or equal to the rate the Corporation is willing to accept for a new loan with comparable risk may not be reported as a TDR, or an impaired loan in the calendar years subsequent to the restructuring, if it is in compliance with its modified terms. The Corporation did not remove any loans from the TDR classification during the first six months of 2018 and 2017.

The following table provides a breakdown of the TDR loans held for investment by those in accrual and nonaccrual status:

As of June 30, 2018

| (In thousands) | Accrual | Nonaccrual (1) | Total TDRs |
|---------------------------------------|------------|----------------|------------|
| Non-FHA/VA Residential Mortgage loans | \$ 270,358 | \$ 72,496 | \$ 342,854 |
| Commercial Mortgage loans | 54,354 | 29,927 | 84,281 |
| Commercial and Industrial loans | 43,478 | 48,191 | 91,669 |
| Construction loans: | | | |
| Land | 1,091 | 5,153 | 6,244 |
| Construction-commercial (2) | - | - | - |
| Construction-residential | - | 217 | 217 |
| Consumer loans - Auto | 13,345 | 6,347 | 19,692 |
| Finance leases | 1,334 | 260 | 1,594 |
| Consumer loans - Other | 9,321 | 1,324 | 10,645 |
| Total Troubled Debt Restructurings | \$ 393,281 | \$ 163,915 | \$ 557,196 |

- (1) Included in non-accrual loans are \$51.7 million in loans that are performing under the terms of the restructuring agreement but are reported in nonaccrual status until the restructured loans meet the criteria of sustained payment performance under the revised terms for reinstatement to accrual status and are deemed fully collectible.
- (2) Excludes a \$30.0 million non-performing construction loans transferred to held for sale during the first quarter of 2018.

As of December 31, 2017

| (In thousands) | Accrual | Nonaccrual (1) | Total TDRs |
|----------------------------------------|------------|----------------|------------|
| Non- FHA/VA Residential Mortgage loans | \$ 280,729 | \$ 83,201 | \$ 363,930 |
| Commercial Mortgage loans | 23,329 | 27,483 | 50,812 |
| Commercial and Industrial loans | 41,536 | 52,576 | 94,112 |
| Construction loans: | | | |
| Land | 1,291 | 5,185 | 6,476 |
| Construction-commercial | - | 35,100 | 35,100 |
| Construction-residential | - | 217 | 217 |
| Consumer loans - Auto | 15,548 | 7,057 | 22,605 |
| Finance leases | 1,968 | 216 | 2,184 |
| Consumer loans - Other | 10,294 | 1,489 | 11,783 |
| Total Troubled Debt Restructurings | \$ 374,695 | \$ 212,524 | \$ 587,219 |

- (1) Included in non-accrual loans are \$88.6 million in loans that are performing under the terms of the restructuring agreement but are reported in non-accrual status until the restructured loans meet the criteria of sustained payment performance under the revised terms for reinstatement to accrual status and are deemed fully collectible.

TDR loans exclude restructured residential mortgage loans that are guaranteed by the U.S. federal government (e.g., FHA/VA loans) totaling \$62.2 million as of June 30, 2018 (December 31, 2017 - \$62.1 million). The Corporation excludes FHA/VA guaranteed loans from TDR loan statistics given that, in the event that the borrower defaults on the loan, the principal and interest (at the specified debenture rate) are guaranteed by the U.S. government; therefore, the risk of loss on these types of loans is very low. The Corporation does not consider loans with U.S. federal government guarantees to be impaired loans for the purpose of calculating the allowance for loan and lease losses.

Loan modifications that are considered TDR loans completed during the quarters and six-month periods ended June 30, 2018 and 2017, were as follows:

| | Number of contracts | Quarter Ended June 30, 2018 | |
|---------------------------------------|---------------------|--------------------------------------------------|---------------------------------------------------|

| Construction loans: | | | |
| Land | 1 | 25 | 28 |
| Consumer loans - Auto | 274 | 4,173 | 4,173 |
| Finance leases | 22 | 548 | 548 |
| Consumer loans - Other | 403 | 1,960 | 1,988 |
| Total Troubled Debt Restructurings | 801 | \$ 54,712 | \$ 54,267 |

Recidivism, or the borrower defaulting on its obligation pursuant to a modified loan, results in the loan once again becoming a non-performing loan. Recidivism on a modified loan occurs at a notably higher rate than do defaults on new origination loans, so modified loans present a higher risk of loss than do new origination loans. The Corporation considers a loan to have defaulted if the borrower has failed to make payments of either principal, interest, or both for a period of 90 days or more.

Loan modifications considered TDR loans that defaulted during the quarters and six-month periods ended June 30, 2018 and 2017, and had become TDR during the 12-months preceding the default date, were as follows:

| | Quarter Ended June 30, | | | |
|---------------------------------------|------------------------------------|--------------------------------|------------------------------------|--------------------------------|
| | 2018 | | 2017 | |
| | Number of contracts | Recorded Investment | Number of contracts | Recorded Investment |

| Total | 83 | \$ 1,781 | 78 | \$ 3,242 |

47

For certain TDR loans, the Corporation splits the loans into two new notes, A and B notes. The A note is restructured to comply with the Corporation's lending standards at current market rates, and is tailored to suit the customer's ability to make timely interest and principal payments. The B note includes the granting of the concession to the borrower and varies by situation. The B note is charged off but the obligation is not forgiven to the borrower, and any payments collected are accounted for as recoveries. At the time of the restructuring, the A note is identified and classified as a TDR loan. If the loan performs for at least six months according to the modified terms, the A note may be returned to accrual status. The borrower's payment performance prior to the restructuring is included in assessing whether the borrower can meet the new terms and may result in the loan being returned to accrual status at the time of the restructuring. In the periods following the calendar year in which a loan is restructured, the A note may no longer be reported as a TDR loan if it is in accrual status, is in compliance with its modified terms, and yields a market rate (as determined and documented at the time of the restructuring).

During the second quarter of 2018, a matured TDR commercial mortgage loan with a book value of \$34 million was restructured using the A/B note workout strategy in which note A, with an outstanding balance of \$29.4 million as of June 30, 2018 (net of approximately \$3.6 million of payments collected in the second quarter), was underwritten to comply with the Corporation's lending standards at current market rates for debt with similar credit risk characteristics. The A note was restored to accrual status at the time of the restructuring in the second quarter considering the borrower's sustained historical repayment performance before the restructuring that demonstrated its ability to make timely interest and principal payments under the restructured terms. The B note totaling \$33.4 million, consists of amounts mostly charged-off in prior periods and is fully charged-off as of June 30, 2018.

The following table provides additional information about the volume of this type of loan restructuring as of June 30, 2018 and the effect on the allowance for loan and lease losses in the first six months of 2018 and 2017:

| | June 30, 2018 | June 30, 2017 |
|-------------------------------------------------------|----------------------|--------------------------|
| (In thousands) | | |
| Principal balance deemed collectible at end of period | \$ 64,559 | \$ 36,141 |
| Amount charged off | \$ 1,137 | \$ - |
| Charges to the provision for loan losses | \$ 1,902 | \$ 388 |
| Allowance for loan losses at end of period | \$ 4,611 | \$ 5,529 |

Approximately \$32.7 million of the loans restructured using the A/B note restructure workout strategy were in accrual status as of June 30, 2018. These loans continue to be individually evaluated for impairment purposes.

NOTE 8 – ALLOWANCE FOR LOAN AND LEASE LOSSES

The changes in the allowance for loan and lease losses were as follows:

| | Residential Mortgage Loans | Commercial Mortgage Loans | Commercial & Industrial Loans | Construction Loans | Consumer Loans | Total |

PCI loans:

Adoption of New Accounting Requirements and Recently Issued but Not Yet Effective Accounting Requirements

Edgar Filing: FIRST BANCORP /PR/ - Form 10-Q

| | | | | | | |
|--------------------------------------------------------------|-------------|-------------|-------------|-----------|-------------|---------|
| Carrying value of PCI loans | 153,991 | 4,183 | - | - | - | 158 |
| Allowance for PCI loans | 10,873 | 378 | - | - | - | 11 |
| Allowance for PCI loans to carrying value | 7.06% | 9.04% | - | - | - | |
| Loans with general allowance: | | | | | | |
| Principal balance of loans | 2,703,532 | 1,457,875 | 1,964,953 | 64,131 | 1,711,503 | 7,901 |
| Allowance for loan and lease losses | 26,016 | 38,332 | 36,512 | 2,505 | 65,817 | 169 |
| Allowance for loan and lease losses to principal balance | 0.96% | 2.63% | 1.86% | 3.91% | 3.85% | |
| Total loans held for investment: | | | | | | |
| Principal balance of loans | \$3,290,957 | \$1,614,972 | \$2,083,253 | \$111,397 | \$1,749,897 | \$8,850 |
| Allowance for loan and lease losses | 58,975 | 48,493 | 48,871 | 4,522 | 70,982 | 231 |
| Allowance for loan and lease losses to principal balance (1) | 1.79% | 3.00% | 2.35% | 4.06% | 4.06% | |

(1) Loans used in the denominator include PCI loans of \$152.2 million and \$158.2 million as of June 30, 2018 and December 31, 2017, respectively. However, the Corporation separately tracks and reports PCI loans and excludes these loans from the amount of non-performing loans, impaired loans, TDRs and non-performing assets.

As of June 30, 2018, the Corporation maintained a \$0.2 million reserve for unfunded loan commitments (December 31, 2017 - \$0.7 million), mainly related to outstanding commitments on floor plan revolving lines of credit. The reserve for unfunded loan commitments is an estimate of the losses inherent in off-balance sheet loan commitments to borrowers that are experiencing financial difficulties at the balance sheet date. It is calculated by multiplying an estimated loss factor by an estimated probability of funding, and then by the period-end amounts for unfunded commitments. The reserve for unfunded loan commitments is included as part of accounts payable and other liabilities in the consolidated statement of financial condition and any change to the reserve is included as part of other non-interest expenses in the consolidated statements of income.

During the second quarter of 2018, the Corporation implemented certain enhancements to the methodology behind the calculation of the allowance for commercial loans, which include, among others, a revised procedure whereby historical loss rates for each commercial loan regulatory-based credit risk category (i.e., pass, special mention, substandard, and doubtful) are now calculated using the historical charge-offs and portfolio balances over their average loss emergence period (the “raw loss rate”) for each credit risk classification. However, when not enough loss experience is observed in a particular risk-rated category and the calculation results in a loss rate for such risk-rated category that is lower than the loss rate of a less severe risk-rated category, the Corporation now uses the loss rate of such less severe category. Accordingly, during the second quarter of 2018, the Corporation applied the raw loss rate determined for loans rated pass to the commercial real estate loans rated special mention, instead of the lower raw loss rate that resulted for the special mention category.

As of March 31, 2018, the historical losses and portfolio balances of special mention loans were allocated to pass or substandard categories based on the historical proportion of loans in this risk category that ultimately cured or resulted in being uncollectible.

In addition, during the second quarter of 2018, the Corporation implemented refinements to the measurement of qualitative factors in the estimation process of the allowance for loan losses for commercial and consumer loans primarily consisting of the incorporation of a basis point adjustment derived from the difference between the average raw loss rate and the highest loss rates observed during a look-back period that management determined was appropriate to use for each region to identify any relevant effect during an economic cycle.

Although the net effect of these refinements was immaterial to the total provision expense, on a portfolio basis these enhancements resulted in a \$1.6 million decrease in the provision for commercial and construction loans in the second quarter of 2018, offset by a \$1.6 million increase in the provision for consumer loans.

NOTE 9 – LOANS HELD FOR SALE

The Corporation's loans held-for-sale portfolio as of the dates indicated was composed of:

| | June 30, 2018 | | December 31, 2017 |
|------------------------------------------------|----------------------|----|--------------------------|
| (In thousands) | | | |
| Residential mortgage loans | \$ 26,269 | \$ | 24,690 |
| Construction loans ⁽¹⁾ | 37,732 | | 8,290 |
| Commercial mortgage loans ⁽¹⁾⁽²⁾ | 16,814 | | - |
| Total | \$ 80,815 | \$ | 32,980 |

- (1) During the first quarter of 2018, the Corporation transferred \$57.2 million (net of fair value write-downs of \$9.7 million) in non-performing loans to held for sale. Loans transferred to held for sales consisted of a \$30.0 million non-performing construction loan (net of a \$5.1 million fair value write-down) and two non-performing commercial mortgage loans totaling \$27.2 million (net of fair value write-downs of \$4.6 million).
- (2) During the second quarter of 2018, the Corporation completed the sale of a \$10.4 million non-performing commercial mortgage loan that was among the loans transferred to held for sale in the first quarter of 2018.

NOTE 10 – OTHER REAL ESTATE OWNED

The following table presents OREO inventory as of the dates indicated:

| | June 30, 2018 | | December 31, 2017 |
|--------------------------------|--------------------------|----|------------------------------|
| (In thousands) | | | |
| OREO | | | |
| OREO balances, carrying value: | | | |
| Residential ⁽¹⁾ | \$ 57,579 | \$ | 54,381 |
| Commercial | 75,844 | | 82,871 |
| Construction | 9,932 | | 10,688 |
| Total | \$ 143,355 | \$ | 147,940 |

- (1) Excludes \$14.5 million and \$21.3 million as of June 30, 2018 and December 31, 2017, respectively, of foreclosures that meet the conditions of ASC Topic 310-40 and are presented as a receivable (other assets) in the statement of financial condition.

NOTE 11 – DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

One of the market risks facing the Corporation is interest rate risk, which includes the risk that changes in interest rates will result in changes in the value of the Corporation's assets or liabilities and will adversely affect the Corporation's net interest income from its loan and investment portfolios. The overall objective of the Corporation's interest rate risk management activities is to reduce the variability of earnings caused by changes in interest rates.

The Corporation designates a derivative as a fair value hedge, cash flow hedge or economic undesignated hedge when it enters into the derivative contract. As of June 30, 2018 and December 31, 2017, all derivatives held by the Corporation were considered economic undesignated hedges. These undesignated hedges were recorded at fair value with the resulting gain or loss recognized in current earnings.

The following summarizes the principal derivative activities used by the Corporation in managing interest rate risk:

Interest rate cap agreements - Interest rate cap agreements provide the right to receive cash if a reference interest rate rises above a contractual rate. The value increases as the reference interest rate rises. The Corporation enters into interest rate cap agreements for protection from rising interest rates.

Forward contracts - Forward contracts are sales of to-be-announced ("TBA") mortgage-backed securities that will settle over the standard delivery date and do not qualify as "regular way" security trades. Regular-way security trades are contracts that have no net settlement provision and no market mechanism to facilitate net settlement and that provide for delivery of a security within the time frame generally established by regulations or conventions in the market-place or exchange in which the transaction is being executed. The forward sales are considered derivative instruments that need to be marked-to-market. These securities are used to economically hedge the FHA/VA residential mortgage loan securitizations of the mortgage-banking operations. Unrealized gains (losses) are recognized as part of mortgage banking activities in the consolidated statement of income.

To satisfy the needs of its customers, the Corporation may enter into non-hedging transactions. On these transactions, the Corporation generally participates as a buyer in one of the agreements and as a seller in the other agreement under the same terms and conditions.

In addition, the Corporation enters into certain contracts with embedded derivatives that do not require separate accounting as these are clearly and closely related to the economic characteristics of the host contract. When the embedded derivative possesses economic characteristics that are not clearly and closely related to the economic characteristics of the host contract, it is bifurcated, carried at fair value, and designated as a trading or non-hedging

derivative instrument.

The following table summarizes the notional amounts of all derivative instruments:

| | Notional Amounts ⁽¹⁾ | |
|----------------------------------------|----------------------------------------|----------------------------------------|
| | As of June 30, 2018 | As of December 31, 2017 |
| (In thousands) | | |
| Undesignated economic hedges: | | |
| Interest rate contracts: | | |
| Written interest rate cap agreements | \$ 90,010 | \$ 91,010 |
| Purchased interest rate cap agreements | 90,010 | 91,010 |
| Forward Contracts: | | |
| Sale of TBA GNMA MBS pools | 30,000 | 26,000 |
| Forward loan sales commitments | 6,304 | - |
| | \$ 216,324 | \$ 208,020 |

(1) Notional amounts are presented on a gross basis with no netting of offsetting exposure positions.

The following table summarizes for derivative instruments their fair values and location in the consolidated statements of financial condition:

| | Asset Derivatives | | Liability Derivatives | | | |
|----------------------------------------|----------------------------------|---------------|-----------------------|----------------------------------------|---------------|-------------------|
| | Statement of Financial Condition | June 30, 2018 | December 31, 2017 | Statement of Financial Condition | June 30, 2018 | December 31, 2017 |

| Undesignated economic hedges: | | | | | | |
| Interest rate contracts: | | | | | | |
| Written interest rate cap agreements | Other assets | \$ - | \$ - | Accounts payable and other liabilities | \$ 799 | \$ 305 |
| Purchased interest rate cap agreements | Other assets | 799 | 305 | Accounts payable and other liabilities | - | - |
| Forward Contracts: | | | | | | |
| Sales of TBA GNMA MBS pools | Other assets | 7 | 7 | Accounts payable and other liabilities | 122 | 19 |
| Forward loan sales commitments | Other assets | - | - | Accounts payable and other liabilities | - | - |
| | | \$ 806 | \$ 312 | | \$ 921 | \$ 324 |

The following table summarizes the effect of derivative instruments on the consolidated statement of income:

| | Location of (Loss) or Gain Recognized in Statement of Income on Derivatives | (Loss) or Gain | | (Loss) or Gain | |
|----------------------------------------------------|-----------------------------------------------------------------------------|-----------------------------|-----------------------------|--------------------------------------|--------------------------------------|
| | | Quarter Ended June 30, 2018 | Quarter Ended June 30, 2017 | Six-Month Period Ended June 30, 2018 | Six-Month Period Ended June 30, 2017 |
| (In thousands) | | | | | |
| UNDESIGNATED ECONOMIC HEDGES: | | | | | |
| Interest rate contracts: | | | | | |
| Written and purchased interest rate cap agreements | Interest income - Loans | \$ - | \$ - | \$ - | \$ (1) |
| Forward contracts: | | | | | |
| Sales of TBA GNMA MBS pools | Mortgage Banking Activities | (51) | 364 | (103) | 308 |
| Forward loan sales commitments | Mortgage Banking Activities | - | - | - | - |
| Total (loss) gain on derivatives | | \$(51) | \$ 364 | \$ (103) | \$ 307 |

Derivative instruments are subject to market risk. As is the case with investment securities, the market value of derivative instruments is largely a function of the financial market's expectations regarding the future direction of interest rates. Accordingly, current market values are not necessarily indicative of the future effect of derivative instruments on earnings. This will depend, for the most part, on the shape of the yield curve, and the level of interest rates, as well as the expectations for rates in the future.

As of June 30, 2018, the Corporation had not entered into any derivative instrument containing credit-risk-related contingent features.

NOTE 12 – OFFSETTING OF ASSETS AND LIABILITIES

The Corporation enters into master agreements with counterparties, primarily related to derivatives and repurchase agreements, that may allow for netting of exposures in the event of default. In an event of default, each party has a right of set-off against the other party for amounts owed under the related agreement and any other amount or obligation owed in respect of any other agreement or transaction between them. The following table presents information about the offsetting of financial assets and liabilities, as well as derivative assets and liabilities:

Offsetting of Financial Assets and Derivative Assets

| | | | | | Gross Amounts Not Offset in the Statement of Financial Position | | |
|-------------------------------------------------|--|-----------------------------------------------------------|----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|----------------------------|-----------------------|

NOTE 13 – GOODWILL AND OTHER INTANGIBLES

Goodwill as of June 30, 2018 and December 31, 2017 amounted to \$28.1 million, recognized as part of “Other Assets” in the consolidated statements of financial condition. The Corporation conducted its annual evaluation of goodwill and other intangibles during the fourth quarter of 2017. The Corporation’s goodwill is related to the acquisition of FirstBank Florida in 2005.

There have been no significant events related to the Florida reporting unit that could indicate potential goodwill impairment since the date of the last evaluation; therefore, no goodwill impairment evaluation was performed during the first six months of 2018. Goodwill and other indefinite life intangibles are reviewed at least annually for impairment.

In connection with the acquisition of the FirstBank-branded credit card loan portfolio, in the second quarter of 2012, the Corporation recognized a purchased credit card relationship intangible of \$24.5 million, which is being amortized over the remaining estimated life of 3.3 years on an accelerated basis based on the estimated attrition rate of the purchased credit card accounts, which reflects the pattern in which the economic benefits of the intangible asset are consumed. These benefits are consumed as the revenue stream generated by the cardholder relationship is realized.

The core deposit intangible includes the core deposit acquired in the February 2015 Doral Bank transaction amounting to \$3.4 million as of June 30, 2018.

In the first quarter of 2016, FirstBank Insurance Agency acquired certain insurance customer accounts and related customer records and recognized an insurance customer relationship intangible of \$1.1 million (\$0.7 million as of June 30, 2018), which is being amortized over the next 4.5 years on a straight-line basis. The acquired accounts have a direct relationship to the previous mortgage loan portfolio acquisitions from Doral Bank and Doral Financial in 2015 and 2014.

The following table shows the gross amount and accumulated amortization of the Corporation's intangible assets recognized as part of Other Assets in the consolidated statements of financial condition:

| | As of June 30, 2018 | As of December 31, 2017 |
|------------------------------------------------|------------------------------------|----------------------------------------|
| (Dollars in thousands) | | |
| Core deposit intangible: | | |
| Gross amount, beginning of period | \$ 51,664 | \$ 51,664 |
| Accumulated amortization ⁽¹⁾ | (46,829) | (46,186) |
| Net carrying amount | \$ 4,835 | \$ 5,478 |
| Remaining amortization period | 6.5 years | 7.0 years |
| Purchased credit card relationship intangible: | | |
| Gross amount | \$ 24,465 | \$ 24,465 |
| Accumulated amortization ⁽²⁾ | (17,614) | (16,465) |
| Net carrying amount | \$ 6,851 | \$ 8,000 |
| Remaining amortization period | 3.3 years | 3.9 years |
| Insurance customer relationship intangible: | | |
| Gross amount | \$ 1,067 | \$ 1,067 |
| Accumulated amortization ⁽³⁾ | (368) | (292) |
| Net carrying amount | \$ 699 | \$ 775 |
| Remaining amortization period | 4.5 years | 5.0 years |

- (1) For the quarter and six-month period ended June 30, 2018, the amortization expense of core deposit intangibles amounted to \$0.2 million and \$0.6 million, respectively (2017 - \$0.5 million and \$0.9 million, respectively).
- (2) For the quarter and six-month period ended June 30, 2018, the amortization expense of the purchased credit card relationship intangible amounted to \$0.6 million and \$1.1 million, respectively (2017 - \$0.6 million and \$1.3 million, respectively).
- (3) For the quarter and six-month period ended June 30, 2018, the amortization expense of insurance customer relationship intangible amounted to \$38 thousand and \$76 thousand, respectively (2017 - \$38 thousand and \$76 thousand, respectively).

The estimated aggregate annual amortization expense related to the intangible assets for future periods is as follows:

| | Amount (In thousands) |
|------|---------------------------------|
| 2018 | \$ 1,723 |
| 2019 | 3,088 |
| 2020 | 2,851 |

| | |
|----------------|-------|
| 2021 | 2,658 |
| 2022 | 915 |
| 2023 and after | 1,150 |

NOTE 14 – NON CONSOLIDATED VARIABLE INTEREST ENTITIES (“VIE”) AND SERVICING ASSETS

The Corporation transfers residential mortgage loans in sale or securitization transactions in which it has continuing involvement, including servicing responsibilities and guarantee arrangements. All such transfers have been accounted for as sales as required by applicable accounting guidance.

When evaluating the need to consolidate counterparties to which the Corporation has transferred assets, or with which the Corporation has entered into other transactions, the Corporation first determines if the counterparty is an entity for which a variable interest exists. If no scope exception is applicable and a variable interest exists, the Corporation then evaluates if it is the primary beneficiary of the VIE and whether the entity should be consolidated or not.

Below is a summary of transfers of financial assets to VIEs for which the Corporation has retained some level of continuing involvement:

GNMA

The Corporation typically transfers first lien residential mortgage loans in conjunction with GNMA securitization transactions in which the loans are exchanged for cash or securities that are readily redeemed for cash proceeds and servicing rights. The securities issued through these transactions are guaranteed by the issuer and, under seller/servicer agreements, the Corporation is required to service the loans in accordance with the issuers’ servicing guidelines and standards. As of June 30, 2018, the Corporation serviced loans securitized through GNMA with a principal balance of \$1.7 billion.

Trust-Preferred Securities

In 2004, FBP Statutory Trust I, a financing trust that is wholly owned by the Corporation, sold to institutional investors \$100 million of its variable-rate trust-preferred securities. FBP Statutory Trust I used the proceeds of the issuance, together with the proceeds of the purchase by the Corporation of \$3.1 million of FBP Statutory Trust I variable-rate common securities, to purchase \$103.1 million aggregate principal amount of the Corporation’s Junior Subordinated Deferrable Debentures. Also in 2004, FBP Statutory Trust II, a financing trust that is wholly owned by the Corporation, sold to institutional investors \$125 million of its variable-rate trust-preferred securities. FBP Statutory Trust II used the proceeds of the issuance, together with the proceeds of the purchase by the Corporation of \$3.9 million of FBP Statutory Trust II variable-rate common securities, to purchase \$128.9 million aggregate principal amount of the Corporation’s Junior Subordinated Deferrable Debentures. The debentures are presented in the

Corporation's consolidated statement of financial condition as Other Borrowings, net of related issuance costs. The variable-rate trust-preferred securities are fully and unconditionally guaranteed by the Corporation. The Junior Subordinated Deferrable Debentures issued by the Corporation in April 2004 and September 2004 mature on June 17, 2034 and September 20, 2034, respectively; however, under certain circumstances, the maturity of Junior Subordinated Deferrable Debentures may be shortened (such shortening would result in a mandatory redemption of the variable-rate trust-preferred securities).

During the first quarter of 2018, the Corporation completed the repurchase of \$23.8 million of trust preferred securities of the FBP Statutory Trust I that were auctioned in a public sale at which the Corporation was invited to participate. The Corporation repurchased and cancelled the repurchased trust preferred securities, resulting in a commensurate reduction in the related Floating Rate Junior Subordinated Debenture. The Corporation's winning bid equated to 90% of the \$23.8 million par value. The 10% discount resulted in a gain of approximately \$2.3 million, which is reflected in the statement of income as a "Gain on early extinguishment of debt."

The Collins Amendment to the Dodd-Frank Wall Street Reform and Consumer Protection Act eliminated certain trust-preferred securities from Tier 1 Capital; however, these instruments may remain in Tier 2 capital until the instruments are redeemed or mature. Under the indentures, the Corporation has the right, from time to time, and without causing an event of default, to defer payments of interest on the Junior Subordinated Deferrable Debentures by extending the interest payment period at any time and from time to time during the term of the subordinated debentures for up to twenty consecutive quarterly periods. During the second quarter of 2016, the Corporation, having received approval from the Federal Reserve, paid \$31.2 million for all of the accrued but deferred interest payments plus the interest for the second quarter of 2016 on the Corporation's subordinated debentures associated with its trust preferred securities. Subsequently, the Corporation has received quarterly approvals that have enabled it to make scheduled quarterly interest payments. As of June 30, 2018, the Corporation was current on all interest payments due on its subordinated debt. In October 2017, the New York FED terminated the formal written agreement (the "Written Agreement") entered into on June 3, 2010 between the Corporation and the Reserve Bank. However, the Corporation has agreed with its regulators to continue to obtain approval before paying dividends, receiving dividends from the Bank, making payments on subordinated debt or trust-preferred securities, incurring or guaranteeing debt or purchasing or redeeming any corporate stock. The Corporation has received approval to make the subordinated debentures' quarterly payment for September 30, 2018.

Grantor Trusts

During 2004 and 2005, an unaffiliated party, referred to in this subsection as the seller, established a series of statutory trusts to effect the securitization of mortgage loans and the sale of trust certificates (the “Grantor Trusts”). The seller initially provided the servicing for a fee, which is senior to the obligations to pay trust certificate holders. The seller then entered into a sales agreement through which it sold and issued the trust certificates in favor of the Corporation’s banking subsidiary. Currently, the Bank is the sole owner of the trust certificates; the servicing of the underlying residential mortgages that generate the principal and interest cash flows is performed by another third party, which receives a servicing fee. The securities are variable-rate securities indexed to 90-day LIBOR plus a spread. The principal payments from the underlying loans are remitted to a paying agent (servicer), who then remits interest to the Bank. Interest income is shared to a certain extent with the FDIC, which has an interest only strip (“IO”) tied to the cash flows of the underlying loans and is entitled to receive the excess of the interest income less a servicing fee over the variable rate income that the Bank earns on the securities. This IO is limited to the weighted-average coupon on the securities. The FDIC became the owner of the IO upon its intervention of the seller, a failed financial institution. No recourse agreement exists, and the Bank, as a sole holder of the certificates, absorbs all risks from losses on non-accruing loans and repossessed collateral. As of June 30, 2018, the amortized cost and fair value of the Grantor Trusts amounted to \$20.6 million and \$15.1 million, respectively, with a weighted average yield of 4.51%, which is included as part of the Corporation’s available-for-sale investment securities portfolio.

Investment in unconsolidated entity

On February 16, 2011, FirstBank sold an asset portfolio consisting of performing and non-performing construction, commercial mortgage and commercial and industrial loans with an aggregate book value of \$269.3 million to CPG/GS, an entity organized under the laws of the Commonwealth of Puerto Rico and majority owned by PRLP Ventures LLC (“PRLP”), a company created by Goldman, Sachs & Co. and Caribbean Property Group. In connection with the sale, the Corporation received \$88.5 million in cash and a 35% interest in CPG/GS, and made a loan in the amount of \$136.1 million representing seller financing provided by FirstBank. The loan matured in February 2018 and was refinanced and consolidated with other outstanding loans of CPG/GS in the second quarter of 2018. As of June 30, 2018, the carrying amount of the new loan was \$10.6 million, which was included in the Corporation’s commercial mortgage loans held for investment portfolio. This loan has a three-year maturity, bears a fixed-interest rate, and is primarily secured by income-producing real estate properties and certain residential units. FirstBank’s equity interest in CPG/GS is accounted for under the equity method. FirstBank recorded a loss on its interest in CPG/GS in 2014 that reduced to zero the carrying amount of the Bank’s investment in CPG/GS. No negative investment needs to be reported as the Bank has no legal obligation or commitment to provide further financial support to this entity; thus, no further losses have been or will be recorded on this investment.

Cash proceeds received by CPG/GS have been first used to cover operating expenses and debt service payments, including those related to the refinanced loan described above, which must be substantially repaid before proceeds can be used for other purposes, including the return of capital to both PRLP and FirstBank. FirstBank will not receive any return on its equity interest until PRLP receives an aggregate amount equivalent to its initial investment and a priority return of at least 12%, which has not occurred, resulting in FirstBank’s interest in CPG/GS being subordinate to PRLP’s

interest. CPG/GS will then begin to make payments pro rata to PRLP and FirstBank, 35% and 65%, respectively, until FirstBank has achieved a 12% return on its invested capital and the aggregate amount of distributions is equal to FirstBank's capital contributions to CPG/GS.

The Bank has determined that CPG/GS is a VIE in which the Bank is not the primary beneficiary. In determining the primary beneficiary of CPG/GS, the Bank considered applicable guidance that requires the Bank to qualitatively assess the determination of the primary beneficiary (or consolidator) of CPG/GS based on whether it has both the power to direct the activities of CPG/GS that most significantly affect the entity's economic performance and the obligation to absorb losses of, or the right to receive benefits from, CPG/GS that could potentially be significant to the VIE. The Bank determined that it does not have the power to direct the activities that most significantly impact the economic performance of CPG/GS as it does not have the right to manage or influence the loan portfolio, foreclosure proceedings, or the construction and sale of the property; therefore, the Bank concluded that it is not the primary beneficiary of CPG/GS.

Servicing Assets

The Corporation sells residential mortgage loans to GNMA, which generally securitizes the transferred loans into mortgage-backed securities. Also, certain conventional conforming loans are sold to FNMA or FHLMC with servicing retained. The Corporation recognizes as separate assets the rights to service loans for others, whether those servicing assets are originated or purchased.

The changes in servicing assets are shown below:

| (In thousands) | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|------------------------------------|---------------------------|-----------|------------------------------------|-----------|
| | 2018 | 2017 | 2018 | 2017 |
| Balance at beginning of period | \$ 26,135 | \$ 26,330 | \$ 25,255 | \$ 26,244 |
| Capitalization of servicing assets | 1,138 | 1,049 | 2,025 | 1,924 |
| Amortization | (729) | (779) | (1,466) | (1,567) |
| Adjustment to fair value | 617 | (197) | 1,330 | (357) |
| Other (1) | 30 | 99 | 47 | 258 |
| Balance at end of period | \$ 27,191 | \$ 26,502 | \$ 27,191 | \$ 26,502 |

(1) Amount represents the adjustment to fair value related to the repurchase of loans serviced for others.

Impairment charges are recognized through a valuation allowance for each individual stratum of servicing assets. The valuation allowance is adjusted to reflect the amount, if any, by which the cost basis of the servicing asset for a given stratum of loans being serviced exceeds its fair value. Any fair value in excess of the cost basis of the servicing asset for a given stratum is not recognized.

Changes in the impairment allowance were as follows:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|--------------------------------|---------------------------|--------|------------------------------------|--------|
| | 2018 | 2017 | 2018 | 2017 |
| (In thousands) | | | | |
| Balance at beginning of period | \$ 673 | \$ - | \$ 1,451 | \$ 461 |
| Temporary impairment charges | 20 | 197 | 37 | 357 |
| OTTI of servicing assets | - | - | (65) | (621) |
| Recoveries | (637) | - | (1,367) | - |
| Balance at end of period | \$ 56 | \$ 197 | \$ 56 | \$ 197 |

The components of net servicing income are shown below:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|-------------------------------------------------|---------------------------|----------|------------------------------------|----------|
| | 2018 | 2017 | 2018 | 2017 |
| (In thousands) | | | | |
| Servicing fees | \$ 2,058 | \$ 1,975 | \$ 4,178 | \$ 3,999 |
| Late charges and prepayment penalties | 146 | 138 | 266 | 237 |
| Adjustment for loans repurchased | 30 | 99 | 47 | 258 |
| Other | - | (28) | - | (35) |
| Servicing income, gross | 2,234 | 2,184 | 4,491 | 4,459 |
| Amortization and impairment of servicing assets | (112) | (977) | (136) | (1,925) |
| Servicing income, net | \$ 2,122 | \$ 1,207 | \$ 4,355 | \$ 2,534 |

The Corporation's servicing assets are subject to prepayment and interest rate risks. Key economic assumptions used in determining the fair value at the time of sale of the related mortgages ranged as follows:

| | Maximum | Minimum |
|----------------------------------------------|----------------|----------------|
| Six-Month Period Ended June 30, 2018: | | |
| Constant prepayment rate: | | |
| Government-guaranteed mortgage loans | 5.7% | 5.6% |
| Conventional conforming mortgage loans | 6.3% | 6.2% |
| Conventional non-conforming mortgage loans | 9.6% | 9.1% |
| Discount rate: | | |
| Government-guaranteed mortgage loans | 12.0% | 12.0% |
| Conventional conforming mortgage loans | 10.0% | 10.0% |
| Conventional non-conforming mortgage loans | 14.3% | 14.3% |
| Six-Month Period Ended June 30, 2017: | | |
| Constant prepayment rate: | | |
| Government-guaranteed mortgage loans | 6.0% | 6.0% |
| Conventional conforming mortgage loans | 6.4% | 6.3% |
| Conventional non-conforming mortgage loans | 9.5% | 9.1% |
| Discount rate: | | |
| Government-guaranteed mortgage loans | 12.0% | 12.0% |
| Conventional conforming mortgage loans | 10.0% | 10.0% |
| Conventional non-conforming mortgage loans | 14.3% | 14.3% |

The weighted averages of the key economic assumptions that the Corporation used in its valuation model and the sensitivity of the current fair value to immediate 10% and 20% adverse changes in those assumptions for mortgage loans as of June 30, 2018 were as follows:

| | (Dollars in thousands) | |
|---------------------------------------------------------|-------------------------------|--------|
| Carrying amount of servicing assets | \$ | 27,191 |
| Fair value | \$ | 31,953 |
| Weighted-average expected life (in years) | | 8.63 |
| Constant prepayment rate (weighted-average annual rate) | | - |
| Decrease in fair value due to 10% adverse change | \$ | 731 |
| Decrease in fair value due to 20% adverse change | \$ | 1433 |
| Discount rate (weighted-average annual rate) | | - |
| Decrease in fair value due to 10% adverse change | \$ | 1,603 |
| Decrease in fair value due to 20% adverse change | \$ | 3,067 |

These sensitivities are hypothetical and should be used with caution. As the figures indicate, changes in fair value based on a 10% variation in assumptions generally cannot be extrapolated because the relationship between the change in assumption and the change in fair value may not be linear. Also, in this table, the effect of a variation in a

particular assumption on the fair value of the servicing asset is calculated without changing any other assumption; in reality, changes in one factor may result in changes in another (for example, increases in market interest rates may result in lower prepayments), which may magnify or counteract the sensitivities.

NOTE 15 – DEPOSITS

The following table summarizes deposit balances as of the dates indicated:

| | June 30, 2018 | December 31, 2017 |
|----------------------------------------|--------------------------|------------------------------|
| (In thousands) | | |
| Type of account: | | |
| Non-interest bearing checking accounts | \$ 2,317,149 | \$ 1,833,665 |
| Savings accounts | 2,360,345 | 2,401,385 |
| Interest-bearing checking accounts | 1,328,540 | 1,207,511 |
| Certificates of deposit | 2,389,383 | 2,429,585 |
| Brokered certificates of deposit (CDs) | 822,666 | 1,150,485 |
| | \$ 9,218,083 | \$ 9,022,631 |

Brokered CDs mature as follows:

| | June 30, 2018 |
|---------------------------------|--------------------------|
| (In thousands) | |
| Three months or less | \$ 148,917 |
| Over three months to six months | 180,053 |
| Over six months to one year | 128,815 |
| Over one year to three years | 284,747 |
| Over three years to five years | 78,753 |
| Over five years | 1,381 |
| Total | \$ 822,666 |

The following are the components of interest expense on deposits:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|---------------------------------------|-----------------------------------|-------------|--------------------------------------------|-------------|
| | 2018 | 2017 | 2018 | 2017 |
| (In thousands) | | | | |
| Interest expense on deposits | \$ 16,667 | \$ 15,883 | \$ 33,274 | \$ 31,351 |
| Accretion of premium from acquisition | (2) | (15) | (5) | (38) |
| Amortization of broker placement fees | 309 | 480 | 676 | 1,007 |
| Interest expense on deposits | \$ 16,974 | \$ 16,348 | \$ 33,945 | \$ 32,320 |

NOTE 16 – SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

Securities sold under agreements to repurchase (repurchase agreements) as of the dates indicated consisted of the following:

| (Dollars in thousands) | June 30, 2018 | December 31, 2017 |
|----------------------------------------------------------------------------------------------------|----------------------|--------------------------|
| Short-term fixed-rate repurchase agreement with a rate of 1.53% | \$ - | \$ 100,000 |
| Long-term fixed-rate repurchase agreements, interest ranging from 1.96% to 2.26% ⁽¹⁾⁽²⁾ | 200,000 | 200,000 |
| | \$ 200,000 | \$ 300,000 |

(1) Reported net of securities purchased under agreements to repurchase (reverse repurchase agreements) by counterparty, when applicable, pursuant to Topic ASC 210-20-45-11.

(2) As of June 30, 2018, includes \$200 million with an average rate of 2.11% that lenders have the right to call before their contractual maturities at various dates beginning on July 19, 2018.

Subsequent to June 30, 2018, no lender has exercised its call option on repurchase agreements.

Repurchase agreements mature as follows:

| | June 30, 2018 |
|---------------------|----------------------|
| | (In thousands) |
| Three to four years | 200,000 |
| Total | \$ 200,000 |

As of June 30, 2018 and December 31, 2017, the securities underlying such agreements were delivered to the dealers with which the repurchase agreements were transacted.

Repurchase agreements as of June 30, 2018, grouped by counterparty, were as follows:

| (Dollars in thousands) Counterparty | Amount | Weighted-Average Maturity (In Months) |
|-----------------------------------------------|---------------|--------------------------------------------------|
| JP Morgan Chase | \$ 200,000 | 43 |

NOTE 17 – ADVANCES FROM THE FEDERAL HOME LOAN BANK (FHLB)

The following is a summary of the advances from the FHLB:

| (Dollars in thousands) | June 30, 2018 | December 31, 2017 |
|-----------------------------------------------------------------------------------------|--------------------------|------------------------------|
| Long-term fixed-rate advances from FHLB, with a weighted-average interest rate of 1.91% | \$ 715,000 | \$ 715,000 |

Advances from FHLB mature as follows:

| (In thousands) | June 30, 2018 | |
|--------------------------|----------------------|---------|
| Within one month | \$ | 25,000 |
| Over three to six months | | 70,000 |
| Over one to three years | | 420,000 |
| Over three to five years | | 200,000 |
| Total | \$ | 715,000 |

As of June 30, 2018, the Corporation used \$162.0 million in letters of credit issued by the FHLB as pledges for public deposits in the Virgin Islands and had additional capacity of approximately \$491.6 million on this credit facility based on collateral pledged at the FHLB, including a haircut reflecting the perceived risk associated with the collateral.

NOTE 18 – OTHER BORROWINGS

Other borrowings, as of the indicated dates, consisted of:

| | June 30, 2018 | December 31, 2017 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|------------------------------|
| | (In thousands) | |
| Junior subordinated debentures due in 2034, interest-bearing at a floating rate of 2.75% over 3-month LIBOR (5.08% as of June 30, 2018 and 4.35% as of December 31, 2017) ⁽¹⁾ | \$ 65,593 | \$ 90,078 |

Junior subordinated debentures due in 2034,
 interest-bearing at a floating rate of 2.50%
 over 3-month LIBOR (4.82% as of June 30, 2018
 and 4.12% as of December 31, 2017)

| | | | |
|----|---------|----|---------|
| | 118,557 | | 118,557 |
| \$ | 184,150 | \$ | 208,635 |

(1) Refer to Note 14 - Non-Consolidated Variable Interest Entities (“VIE”) and Servicing Assets-Trust-Preferred Securities, for additional information about the Corporation repurchase and cancellation in the first quarter of 2018 of \$23.8 million in trust-preferred securities associated with these junior subordinated debentures.

NOTE 19 – STOCKHOLDERS' EQUITY

Common Stock

As of June 30, 2018 and December 31, 2017, the Corporation had 2,000,000,000 authorized shares of common stock with a par value of \$0.10 per share. As of June 30, 2018 and December 31, 2017, there were 221,724,062 and 220,382,343 shares issued, respectively, and 217,185,449 and 216,278,040 shares outstanding, respectively. Refer to Note 4 – Stock Based Compensation, for information about transactions related to common stock under the Omnibus Plan.

On May 17, 2018, the U.S. Treasury exercised its warrant to purchase 1,285,899 shares of the Corporation's stock on a cashless basis resulting in the issuance of 730,571 shares of common stock and the use of 555,328 shares to cover the strike price of the transaction. Cash paid in lieu of fractional shares was \$6.58.

Preferred Stock

The Corporation has 50,000,000 authorized shares of preferred stock with a par value of \$1.00, redeemable at the Corporation's option, subject to certain terms. This stock may be issued in series and the shares of each series have such rights and preferences as are fixed by the Board of Directors when authorizing the issuance of that particular series. As of June 30, 2018, the Corporation has five outstanding series of non-convertible, non-cumulative preferred stock: 7.125% non-cumulative perpetual monthly income preferred stock, Series A; 8.35% non-cumulative perpetual monthly income preferred stock, Series B; 7.40% non-cumulative perpetual monthly income preferred stock, Series C; 7.25% non-cumulative perpetual monthly income preferred stock, Series D; and 7.00% non-cumulative perpetual monthly income preferred stock, Series E. The liquidation value per share is \$25.

Effective January 17, 2012, the Corporation delisted all of its outstanding series of non-convertible, non-cumulative preferred stock from the New York Stock Exchange. The Corporation has not arranged for listing and/or registration on another national securities exchange or for quotation of the Series A through E Preferred Stock in a quotation medium. In December 2016, for the first time since July 2009, the Corporation paid dividends on its non-cumulative perpetual monthly income preferred stock, after receiving regulatory approval. Since then, the Corporation has continued to pay monthly dividend payments on the non-cumulative perpetual monthly income preferred stock. The Corporation intends to request approval in future periods to continue monthly dividend payments on the non-cumulative perpetual monthly income preferred stock. The Corporation has received regulatory approval to pay the monthly dividends on the Corporation's Series A through E Preferred Stock through September 2018.

On October 3, 2017, the Federal Reserve terminated the Written Agreement entered into on June 3, 2010 between the Corporation and the Federal Reserve. However, the Corporation has agreed with its regulators to continue to obtain approval before paying dividends, receiving dividends from the Bank, making payments on subordinated debt or trust preferred securities, incurring or guaranteeing debt or purchasing or redeeming any corporate stock.

Treasury stock

During the first six months of 2018 and 2017, the Corporation withheld an aggregate of 424,810 shares and 326,653 shares, respectively, of the common stock paid to certain senior officers as additional compensation and restricted stock that vested during the first six months of 2018 and 2017 to cover employees' payroll and income tax withholding liabilities; these shares are held as treasury stock. As of June 30, 2018, and December 31, 2017, the Corporation had 4,538,613 and 4,104,303 shares held as treasury stock, respectively.

FirstBank Statutory Reserve (Legal Surplus)

The Banking Law of the Commonwealth of Puerto Rico requires that a minimum of 10% of FirstBank's net income for the year be transferred to a legal surplus reserve until such surplus equals the total of paid-in-capital on common and preferred stock. Amounts transferred to the legal surplus reserve from the retained earnings account are not available for distribution to the Corporation, including for payment as dividends to the stockholders, without the prior consent of the Puerto Rico Commissioner of Financial Institutions. The Puerto Rico Banking Law provides that, when the expenditures of a Puerto Rico commercial bank are greater than receipts, the excess of the expenditures over receipts must be charged against the undistributed profits of the bank, and the balance, if any, must be charged against the legal surplus reserve, as a reduction thereof. If there is no legal surplus reserve sufficient to cover such balance in whole or in part, the outstanding amount must be charged against the capital account and the Bank cannot pay dividends until it can replenish the legal surplus reserve to an amount of at least 20% of the original capital contributed. During the fourth quarter of 2017, \$7.3 million was transferred to the legal surplus reserve. FirstBank's legal surplus reserve, included as part of retained earnings in the Corporation's consolidated statement of financial condition, amounted to \$59.7 million as of June 30, 2018. There were no transfers to the legal surplus reserve during the first six months of 2018.

NOTE 20 - INCOME TAXES

Income tax expense includes Puerto Rico and USVI income taxes as well as applicable U.S. federal and state taxes. The Corporation is subject to Puerto Rico income tax on its income from all sources. As a Puerto Rico corporation, First BanCorp. is treated as a foreign corporation for U.S. and USVI income tax purposes and is generally subject to U.S. and USVI income tax only on its income from sources within the U.S. and USVI or income effectively connected with the conduct of a trade or business in those regions. Any such tax paid in the U.S. and USVI is also creditable against the Corporation's Puerto Rico tax liability, subject to certain conditions and limitations.

Under the Puerto Rico Internal Revenue Code of 2011, as amended (the "2011 PR Code"), the Corporation and its subsidiaries are treated as separate taxable entities and are generally not entitled to file consolidated tax returns and, thus, the Corporation is generally not entitled to utilize losses from one subsidiary to offset gains in another subsidiary. Accordingly, in order to obtain a tax benefit from a net operating loss ("NOL"), a particular subsidiary must be able to demonstrate sufficient taxable income within the applicable NOL carry-forward period. The 2011 PR Code allows entities organized as limited liability companies to perform an election to become a non-taxable "pass-through" entity and utilize losses to offset income from other "pass-through" entities, subject to certain limitations, with the remaining net income passing-through to its partner entities. The 2011 PR Code also provides a dividend received deduction of 100% on dividends received from "controlled" subsidiaries subject to taxation in Puerto Rico and 85% on dividends received from other taxable domestic corporations.

On March 1, 2017, the Corporation completed the applicable regulatory filings to change the tax status of its subsidiary, First Federal Finance, from a taxable corporation to a non-taxable "pass-through" entity. This election allows the Corporation to realize tax benefits of its deferred tax assets associated with pass-through ordinary net operating losses available at the banking subsidiary, FirstBank, which were subject to a full valuation allowance as of December 31, 2016, against now pass-through ordinary income from this profitable subsidiary.

On March 1, 2017, the Corporation also completed the applicable regulatory filings to change the tax status of its subsidiary, FirstBank Insurance, from a taxable corporation to a non-taxable "pass-through" entity. This election allows the Corporation to offset pass-through income projected to be earned by FirstBank Insurance with net operating losses available at the Holding Company level.

The Corporation has maintained an effective tax rate lower than the maximum statutory rate mainly by investing in government obligations and mortgage-backed securities exempt from U.S. and Puerto Rico income taxes and by doing business through an International Banking Entity ("IBE") unit of the Bank, and through the Bank's subsidiary, FirstBank Overseas Corporation, whose interest income and gain on sales is exempt from Puerto Rico income taxation. The IBE and FirstBank Overseas Corporation were created under the International Banking Entity Act of Puerto Rico, which provides for total Puerto Rico tax exemption on net income derived by IBEs operating in Puerto Rico on the specific activities identified in the IBE Act. An IBE that operates as a unit of a bank pays income taxes at the corporate standard rates to the extent that the IBE's net income exceeds 20% of the bank's total net taxable income.

Adoption of New Accounting Requirements and Recently Issued but Not Yet Effective Accounting Requirements

For the second quarter and first six months of 2018, the Corporation recorded an income tax expense of \$10.2 million and \$17.9 million, respectively, compared to an income tax expense of \$9.3 million and \$1.2 million for the comparable periods in 2017. The increase in the income tax expense for the second quarter of 2018, as compared to the same period a year ago, was primarily related to higher pre-tax earnings generated in 2018. The increase for the first six months of 2018, compared to same period in 2017, was mostly related to a \$13.2 million tax benefit recorded in the first quarter of 2017 as a result of the above discussed change in tax status of certain subsidiaries from taxable corporations to limited liability companies that have elected to be treated as partnerships for income tax purposes in Puerto Rico and, to a lesser extent, a higher pre-tax income subject to the estimated annual effective tax rate for the six month period ended June 30, 2018.

For the six-month period ended June 30, 2018, the Corporation calculated the provision for income taxes by applying the estimated annual effective tax rate for the full fiscal year to ordinary income or loss. In the computation of the consolidated worldwide annual estimated effective tax rate, ASC Topic 740-270, "Income Taxes – Interim Reporting," requires the exclusion of legal entities with pre-tax losses from which a tax benefit cannot be recognized. The Corporation's estimated annual effective tax rate in the first six months of 2018, excluding entities from which a tax benefit cannot be recognized and discrete items, was 25% compared to 24% for the first six months of 2017. The estimated annual effective tax rate including all entities for the first six months of 2018 was 24% (25% excluding discrete items, primarily the tax benefit resulting from the excess tax benefit recognized during the first quarter of 2018 upon the vesting of shares granted under the Corporation's stock-based compensation plan) compared to 14% for the first six months of 2017 (25% excluding discrete items, primarily the tax benefit resulting from the previously mentioned change in the tax status of two subsidiaries).

The Corporation's net deferred tax asset amounted to \$283.3 million as of June 30, 2018, net of a valuation allowance of \$181.2 million, and management concluded, based upon the assessment of all positive and negative evidence, that it is more likely than not that the Corporation will generate sufficient taxable income within the applicable NOL carry-forward periods to realize such amount. The net deferred tax asset of the Corporation's banking subsidiary, FirstBank, amounted to \$283.2 million as of June 30, 2018, net of a valuation allowance of \$144.6 million, compared to a net deferred tax asset of \$294.7 million, net of a valuation allowance of \$150.7 million, as of December 31, 2017.

During the third quarter of 2017, the Corporation completed a formal ownership change analysis within the meaning of Section 382 of the U.S. Internal Revenue Code ("Section 382") covering a comprehensive period, and concluded that an ownership change occurred during such period. Section 382 limits the ability to utilize U.S. and USVI NOLs for income tax purposes at such jurisdictions following an event of an ownership change. The Section 382 limitation could result in higher U.S. and USVI liabilities in the future than we would incur in the absence of such limitation. For the second quarter and first six months of 2018, and as a result of the Section 382 limitation, the Corporation incurred an income tax expense of approximately \$1.0 million and \$2.6 million, respectively, related to its U.S. operations. The limitation did not affect the USVI operations in the first half of 2018. Prospectively, the Corporation expects that it will be able to mitigate the adverse effects associated with the Section 382 limitation as any such tax paid in the U.S. or USVI could be creditable against Puerto Rico tax liabilities or taken as deduction against taxable income. However, our ability to reduce our Puerto Rico tax liability through such a credit or deduction depends on our tax profile at each annual taxable period, which is dependent on various factors.

As of June 30, 2018, the Corporation did not have Unrecognized Tax Benefits recorded on its books. The Corporation classifies all interest and penalties, if any, related to tax uncertainties as income tax expense. Audit periods remain open for review until the statute of limitations has passed. The statute of limitations under the 2011 PR Code is four years; the statute of limitations for U.S. and USVI income tax purposes is three years after a tax return is due or filed, whichever is later, for each. The completion of an audit by the taxing authorities or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Corporation's liability for income taxes. Any such adjustment could be material to the results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. For U.S. and USVI income tax purposes, all tax years subsequent to 2013 remain open to examination. For Puerto Rico tax purposes, all tax years subsequent to 2012 remain open to examination.

On December 22, 2017, the United States president signed H.R.1, The Tax Cuts and Jobs Acts, which includes an overhaul of individual, business and international taxes and has affected our branch operations in the U.S. and the USVI. The bill includes measures reducing corporate taxes from 35% to 21%, a repeal of the corporate alternative minimum tax regime, changes to business deductions and NOLs, a 15.5% tax on mandatory repatriation of liquid assets, 10% tax on base erosion payments, and a minimum 10.5% tax on inclusion of global intangible low-tax income by U.S. shareholders, among other significant changes. The main provisions affecting our operations in the U.S. and the USVI in the first half of 2018 include: the change in tax rate to 21%, the limitation to the amount certain financial institutions may deduct for premiums paid to the FDIC, and changes in permanent differences, such as meals and entertainment deductions. Other significant provisions, such as the base erosion and anti-abuse tax, do not affect the Corporation's U.S. and USVI branch operations since these operations' receipts do not exceed the annual threshold of U.S. effectively connected gross receipts.

NOTE 21 – OTHER COMPREHENSIVE LOSS

The following table presents changes in accumulated other comprehensive loss for the quarters and six-month periods ended June 30, 2018 and 2017:

| | Changes in Accumulated Other Comprehensive Loss by Component (1) | | | |
|----------------------------------------------------------|-------------------------------------------------------------------------|----------------------|-------------------------------|-------------------------------|
| | Quarter ended | Quarter ended | Six-month period ended | Six-month period ended |
| | June 30, 2018 | June 30, 2017 | June 30, 2018 | June 30, 2017 |
| (In thousands) | | | | |
| Unrealized net holding losses on debt securities | | | | |
| Beginning Balance | \$ (44,662) | \$ (23,688) | \$ (20,608) | \$ (34,383) |
| Other comprehensive (loss) income | (7,445) | 9,434 | (31,499) | 7,898 |
| Amounts reclassified from accumulated comprehensive loss | - | (371) | - | 11,860 |
| Ending balance | \$ (52,107) | \$ (14,625) | \$ (52,107) | \$ (14,625) |

| | Income tax | - | - | - | - |

Total, net of tax \$ - \$ 371 \$ - \$ (11,860)

NOTE 22 – FAIR VALUE

Fair Value Measurement

The FASB authoritative guidance for fair value measurement defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This guidance also establishes a fair value hierarchy for classifying financial instruments. The hierarchy is based on whether the inputs to the valuation techniques used to measure fair value are observable or unobservable. Three levels of inputs may be used to measure fair value:

- Level 1** Valuations of Level 1 assets and liabilities are obtained from readily-available pricing sources for market transactions involving identical assets or liabilities. Level 1 assets and liabilities include equity securities that trade in an active exchange market, as well as certain U.S. Treasury and other U.S. government and agency securities and corporate debt securities that are traded by dealers or brokers in active markets.
- Level 2** Valuations of Level 2 assets and liabilities are based on observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include (i) mortgage-backed securities for which the fair value is estimated based on the value of identical or comparable assets, (ii) debt securities with quoted prices that are traded less frequently than exchange-traded instruments, and (iii) derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data.
- Level 3** Valuations of Level 3 assets and liabilities are based on unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined by using pricing models for which the determination of fair value requires significant management judgments estimation.

For the first six months of 2018, there were no transfers into or out of Level 1, Level 2 or Level 3 of the fair value hierarchy.

Financial Instruments Recorded at Fair Value on a Recurring Basis

Investment securities available for sale

The fair value of investment securities was the market value based on quoted market prices (as is the case with Treasury notes and non-callable U.S. Agency debt securities), when available (Level 1), or, when available, market prices for identical or comparable assets (as is the case with MBS and callable U.S. agency debt) that are based on observable market parameters, including benchmark yields, reported trades, quotes from brokers or dealers, issuer spreads, bids, offers and reference data including market research operations (Level 2). Observable prices in the market already consider the risk of nonperformance. If listed prices or quotes are not available, fair value is based upon discounted cash flow models that use unobservable inputs due to the limited market activity of the instrument, as is the case with certain private label MBS held by the Corporation (Level 3).

Private label MBS are collateralized by fixed-rate mortgages on single-family residential properties in the United States; the interest rate on the securities is variable, tied to 3-month LIBOR and limited to the weighted-average coupon of the underlying collateral. The market valuation represents the estimated net cash flows over the projected life of the pool of underlying assets applying a discount rate that reflects market observed floating spreads over LIBOR, with a widening spread based on a nonrated security. The market valuation is derived from a model that utilizes relevant assumptions, such as the prepayment rate, default rate, and loss severity on a loan level basis. The Corporation modeled the cash flow from the fixed-rate mortgage collateral using a static cash flow analysis according to collateral attributes of the underlying mortgage pool (i.e., loan term, current balance, note rate, rate adjustment type, rate adjustment frequency, rate caps, and others) in combination with prepayment forecasts based on historical portfolio performance. The variable cash flow of the security is modeled using the 3-month LIBOR forward curve. Loss assumptions were driven by the combination of default and loss severity estimates, using an asset-level risk assessment method taking into account loan credit characteristics (loan-to-value, state jurisdiction, delinquency, property type and pricing behavior, and others) to provide an estimate of default and loss severity.

Refer to the table below for further information regarding qualitative information for all assets and liabilities measured at fair value using significant unobservable inputs (Level 3).

Derivative instruments

The fair value of most of the Corporation's derivative instruments is based on observable market parameters and takes into consideration the credit risk component of paying counterparties, when appropriate. On interest caps, only the seller's credit risk is considered. The caps were valued using a discounted cash flow approach based on the related LIBOR and swap rate for each cash flow.

A credit spread is considered for those derivative instruments that are not secured. The cumulative mark-to-market effect of credit risk in the valuation of derivative instruments for the quarters and six-month periods ended June 30, 2018 and 2017 was immaterial.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

| (In thousands) | As of June 30, 2018 | | | | As of December 31, 2017 | | | |
|----------------------------------------------|-------------------------------|-----------|---------|----------------------------------|-------------------------------|-----------|---------|----------------------------------|
| | Fair Value Measurements Using | | | | Fair Value Measurements Using | | | |
| | Level 1 | Level 2 | Level 3 | Assets/Liabilities at Fair Value | Level 1 | Level 2 | Level 3 | Assets/Liabilities at Fair Value |
| Assets: | | | | | | | | |
| Securities available for sale : | | | | | | | | |
| Equity securities ⁽¹⁾ | \$ - | \$ - | \$ - | \$ - | \$ 418 | \$ - | \$ - | \$ - |

(1) As of January 1, 2018, the Corporation adopted ASU 2016-01, resulting in the reclassification of equity securities from available-for-sale investment securities to other investment securities. As of December 31, 2017, equity securities had a net unrealized loss of \$6 thousand.

The table below presents a reconciliation of the beginning and ending balances of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the quarters and six-month periods ended June 30, 2018 and 2017.

| Level 3 Instruments Only (In thousands) | Quarter Ended June 30, | |
|---------------------------------------------------|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| | 2018 Securities Available For Sale⁽¹⁾ | 2017 Securities Available For Sale⁽¹⁾ |
| Beginning balance | \$ 18,808 | \$ 21,382 |
| Total gains (losses) (realized/unrealized): | | |
| Included in other comprehensive income | (279) | 228 |
| Principal repayments and amortization | (700) | (1,839) |
| Ending balance | \$ 17,829 | \$ 19,771 |

(1) Amounts mostly related to private label MBS.

| Level 3 Instruments Only (In thousands) | Six-Month Period Ended June 30, | |
|---------------------------------------------------|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| | 2018 Securities Available For Sale⁽¹⁾ | 2017 Securities Available For Sale⁽¹⁾ |
| Beginning balance | \$ 19,855 | \$ 22,914 |
| Total gains (realized/unrealized): | | |
| Included in other comprehensive income | 193 | 746 |
| Principal repayments and amortization | (2,219) | (3,889) |
| Ending balance | \$ 17,829 | \$ 19,771 |

(1) Amounts mostly related to private label MBS.

The tables below present qualitative information for significant assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as of June 30, 2018 and December 31, 2017:

| June 30, 2018 | | | | |
|--------------------------------------------------|-------------------|----------------------------|--------------------------------|--------------------------------------------------|
| (In thousands) | Fair Value | Valuation Technique | Unobservable Input | Range |
| Investment securities available-for-sale: | | | | |
| Private label MBS | \$ 15,061 | Discounted cash flows | Discount rate | 14.6% 5.0% - 23.0% |
| | | | Prepayment rate | (Weighted Average 12.6%) 0.0% - 8.7% |
| | | | Projected Cumulative Loss Rate | (Weighted Average 3.9%) |
| Puerto Rico government obligations | 2,768 | Discounted cash flows | Discount rate | 6.10% |
| | | | Prepayment rate | 3.00% |

| December 31, 2017 | | | | |
|--------------------------------------------------|-------------------|----------------------------|--------------------------------|--------------------------------------------------|
| (In thousands) | Fair Value | Valuation Technique | Unobservable Input | Range |
| Investment securities available for sale: | | | | |
| Private label MBS | \$ 17,060 | Discounted cash flows | Discount rate | 14.0% 12.0% - 29.0% |
| | | | Prepayment rate | (Weighted Average 16.4%) 0.0% - 6.8% |
| | | | Projected Cumulative Loss Rate | (Weighted Average 3.0%) |
| Puerto Rico government obligations | 2,695 | Discounted cash flows | Discount rate | 6.61% |
| | | | Prepayment rate | 3.00% |

Information about Sensitivity to Changes in Significant Unobservable Inputs

Private label MBS: The significant unobservable inputs in the valuation include probability of default, the loss severity assumption, and prepayment rates. Shifts in those inputs would result in different fair value measurements. Increases in the probability of default, loss severity assumptions, and prepayment rates in isolation would generally result in an adverse effect on the fair value of the instruments. Meaningful and possible shifts of each input were modeled to assess the effect on the fair value estimation.

Puerto Rico Government Obligations: The significant unobservable input used in the fair value measurement is the assumed prepayment rate of the underlying residential mortgage loans that collateralize these obligations that are guaranteed by the Puerto Rico Housing Finance Authority. A significant increase (decrease) in the assumed rate would lead to a higher (lower) fair value estimate. The fair value of these bonds was based on a discounted cash flow analysis that contemplates the credit quality of the holder of second mortgages and a discount for liquidity constraints on the bonds considering the absence of an active market for them. Due to the guarantee of the Puerto Rico Housing Finance Authority and other applicable contractual safeguards, no additional credit spread is applied for services default.

There were no changes in unrealized gains and losses recorded in earnings for the quarters and six-month period ended June 30, 2018 and 2017 for Level 3 assets and liabilities that were still held at the end of each period.

Additionally, fair value is used on a nonrecurring basis to evaluate certain assets in accordance with GAAP. Adjustments to fair value usually result from the application of lower-of-cost or market accounting (e.g., loans held for sale carried at the lower-of-cost or fair value and repossessed assets) or write downs of individual assets (e.g., goodwill and loans).

As of June 30, 2018, impairment or valuation adjustments were recorded for assets recognized at fair value on a non-recurring basis as shown in the following table:

| | Carrying value as of June 30, 2018 | | | (Losses) Gains recorded for the Quarter Ended June 30, 2018 | (Losses) Gains recorded for the Six-Month Period Ended June 30, 2018 |
|-------------------------------------------|------------------------------------|---------|------------|-------------------------------------------------------------------------|-------------------------------------------------------------------------------|
| | Level 1 | Level 2 | Level 3 | | |
| (In thousands) | | | | | |
| Loans receivable ⁽¹⁾ | \$ - | \$ - | \$ 392,039 | \$ (3,869) | \$ (17,972) |
| Other real estate owned ⁽²⁾ | - | - | 143,355 | (8,076) | (8,164) |

| | | | | | |
|---------------------|---|---|--------|---|---------|
| Loans Held For Sale | - | - | 54,546 | - | (5,830) |
| (3) | | | | | |

- (1) Consists mainly of impaired commercial and construction loans. The impairments were generally measured based on the fair value of the collateral. The fair values were derived from external appraisals that took into consideration prices in observed transactions involving similar assets in similar locations but adjusted for specific characteristics and assumptions of the collateral (e.g., absorption rates), which are not market observable.
- (2) The fair values were derived from appraisals that took into consideration prices in observed transactions involving similar assets in similar locations but adjusted for specific characteristics and assumptions of the properties (e.g., absorption rates and net operating income of income producing properties), which are not market observable. Losses were related to market valuation adjustments after the transfer of the loans to the OREO portfolio.
- (3) The value of these loans was primarily derived from external appraisals, adjusted for specific characteristics of the loans.

As of June 30, 2017, impairment or valuation adjustments were recorded for assets recognized at fair value on a non-recurring basis as shown in the following table:

| | Carrying value as of June 30, 2017 | | | (Losses) recorded for the Quarter Ended June 30, 2017 | (Losses) recorded for the Six-Month Period Ended June 30, 2017 |
|----------------------------------|------------------------------------|---------|------------|-------------------------------------------------------------|-------------------------------------------------------------------------|
| | Level 1 | Level 2 | Level 3 | | |
| (In thousands) | | | | | |
| Loans receivable (1) | \$ - | \$ - | \$ 359,302 | \$ (5,341) | \$ (22,707) |
| OREO (2) | - | - | 150,045 | (3,237) | (6,873) |
| Mortgage servicing rights (3) | - | - | 26,502 | (197) | (357) |

- (1) Consists mainly of impaired commercial and construction loans. The impairments were generally measured based on the fair value of the collateral. The fair value was derived from external appraisals that take into consideration prices in observed transactions involving similar assets in similar locations but adjusted for specific characteristics and assumptions of the collateral (e.g., absorption rates), which are not market observable.
- (2) The fair values were derived from appraisals that take into consideration prices in observed transactions involving similar assets in similar locations but adjusted for specific characteristics and assumptions of the properties (e.g., absorption rates and net operating income of income producing properties), which are not market observable. Losses were related to market valuation adjustments after the transfer of the loans to the OREO portfolio.
- (3) Fair value adjustments to the mortgage servicing rights were mainly due to assumptions associated with mortgage prepayments rates. The Corporation carries its mortgage servicing rights at the lower of cost or market, measured at fair value on a non-recurring basis. Assumptions for the value of mortgage servicing rights include: Prepayment Rate of 6.23%, Discount Rate of 11.21%.

Qualitative information regarding the fair value measurements for Level 3 financial instruments are as follows:

| | Method | Inputs |
|------------------------------|---------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Loans | Income, Market, Comparable Sales, Discounted Cash Flows | External appraised values; probability weighting of broker price opinions; management assumptions regarding market trends or other relevant factors |
| OREO | Income, Market, Comparable Sales, Discounted Cash Flows | External appraised values; probability weighting of broker price opinions; management assumptions regarding market trends or other relevant factors |
| Mortgage servicing rights | Discounted Cash Flows | Weighted average prepayment rate of 5.96%; weighted average discount rate of 11.24% |

The following tables present the carrying value, estimated fair value and estimated fair value level of the hierarchy of financial instruments as of June 30, 2018 and December 31, 2017:

| | Total Carrying Amount in Statement of Financial Condition | | Fair Value Estimate | | |

| Derivatives, included in liabilities (fair value) | | 324 | | 324 | | - | | 324 | | - |
| Forward contracts | | | | | | | | | | |

The short-term nature of certain assets and liabilities result in their carrying value approximating fair value. These include cash and due from banks and other short-term assets, such as FHLB stock. Certain assets, the most significant being premises and equipment, mortgage servicing rights, deposits base, and other customer relationship intangibles, are not considered financial instruments and are not included above. Accordingly, this fair value information is not intended to, and does not, represent the Corporation's underlying value. Many of these assets and liabilities subject to the disclosure requirements are not actively traded, requiring management to estimate fair values. These estimates necessarily involve the use of judgment about a wide variety of factors, including but not limited to, relevancy of market prices of comparable instruments, expected futures cash flows, and appropriate discount rates.

NOTE 23 – REVENUE FROM CONTRACTS WITH CUSTOMERS

As noted in Note 1 – Basis of Presentation and Significant Accounting Policies, the Corporation adopted the provisions of ASU 2014-09, “Revenue from Contracts with Customers (Topic 606)” (“ASC Topic 606”), on January 1, 2018. Results for reporting periods beginning after December 31, 2017 are presented under Topic 606, while prior period amounts have not been adjusted and continue to be reported in accordance with Topic 605.

Revenue Recognition

In accordance with ASC Topic 606, revenues are recognized when control of promised goods or services is transferred to customers in an amount that reflects the consideration to which the Corporation expects to be entitled in exchange for those goods or services. To determine revenue recognition for arrangements that an entity determines are within the scope of ASC Topic 606, the Corporation performs the following five steps: (i) identifies the contract(s) with a customer; (ii) identifies the performance obligations in the contract; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations in the contract; and (v) recognizes revenue when (or as) the Corporation satisfies a performance obligation. The Corporation only applies the five-step model to contracts when it is probable that the entity will collect the consideration to which it is entitled in exchange for the goods or services it transfers to the customer. At contract inception, once the contract is determined to be within the scope of ASC Topic 606, the Corporation assesses the goods or services that are promised within each contract and identifies those that contain performance obligations, and assesses whether each promised good or service is distinct. The Corporation then recognizes as revenue the amount of the transaction price that is allocated to the respective performance obligation when (or as) the performance obligation is satisfied.

Disaggregation of Revenue

The following table summarizes the Corporation’s revenue, which includes net interest income on financial instruments and non-interest income, disaggregated by type of service and business segments for the quarter and six-month period ended June 30, 2018:

| (In thousands) | Mortgage Banking | Consumer (Retail) Banking | Commercial and Corporate | Treasury and Investments | United States Operations | Virgin Islands Operations | Total |
|-----------------------------------------|-----------------------------|------------------------------------------|-----------------------------------------|-----------------------------------------|-----------------------------------------|------------------------------------------|-------------------|

| Total Revenue | \$ 50,057 | \$ 129,368 | \$ 42,833 | \$ 27,410 | \$ 30,313 | \$ 18,439 | \$ 298,420 |

(1) Most of the Corporation's revenue is not within the scope of ASU No. 2014-09, *Revenue from Contracts with Customers*. The guidance explicitly excludes net interest income from financial assets and liabilities, as well as other noninterest income from loans, leases, investment securities and derivative financial instruments.

For the six-month period ended June 30, 2018, substantially all of the Corporation's revenue under the scope of Topic 606 was related to performance obligations satisfied at a point in time.

The following is a discussion of revenues within the scope of ASC Topic 606.

Service Charges and Fees on Deposit Accounts

Service charges and fees on deposit accounts relate to fees generated from a variety of deposit products and services rendered to customers. Charges include, but are not limited to, overdraft fees, non-sufficient fund fees, dormant fees and monthly service charges. Such fees are recognized concurrently with the event on a daily basis or on a monthly basis depending upon the customer's cycle date. These depository arrangements are considered day-to-day contracts that do not extend beyond the services performed, as customers have the right to terminate these contracts with no penalty or, if any, nonsubstantive penalties. As a consequence, the income recognition under the standard is not different from the Corporation's practice before the adoption of this guidance.

Insurance Commissions

For insurance commissions, which include regular and contingent commissions paid to the Corporation's insurance agency, the agreements contain a performance obligation related to the sale/issuance of the policy and ancillary administrative post-issuance support. The performance obligation will be satisfied as the policies are issued and revenue will be recognized at that point in time. In addition, contingent commission income was found to be constrained, as defined under the new standard. Contingent commission income will be included in the transaction price only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur or payments are received, which is consistent with the Corporation's practice before the adoption of this guidance. For the quarter and six-month period ended June 30, 2018, the Corporation recognized revenue of \$0.3 million and \$2.4 million, respectively, as payments were received and constraints were released.

Merchant-related Income

For merchant-related income, the determination of which included the consideration of a 2015 sale of merchant contracts that involved sales of point of sale ("POS") terminals and entry into a marketing alliance under a revenue-sharing agreement, the Corporation concluded that control of the POS terminals and merchant contracts was transferred to the customer at the contract's inception. With respect to the related revenue-sharing agreement, the Corporation satisfies the marketing alliance performance obligation over the life of the contract, and the associated transaction price is recognized as the entity performs and any constraints over the variable consideration are resolved.

There was no material change in the timing or measurement of revenues. The overall effect on an ongoing basis of the new revenue guidance, as compared the Corporation's practice before the adoption of this guidance, is expected to be immaterial.

Credit and Debit Card Fees

Credit and debit card fees primarily represent revenues earned from interchange fees and ATM fees. Interchange and network revenues are earned on credit and debit card transactions conducted with payment networks. ATM fees are primarily earned as a result of surcharges assessed to non-FirstBank customers who use a FirstBank ATM. Such fees are generally recognized concurrently with the delivery of services on a daily basis. As a consequence, the income recognition is unchanged from the Corporation's practice before the adoption of this guidance.

Other Fees

Other fees primarily include revenues generated from wire transfers, lockboxes, and bank issuances of checks. Such fees are recognized concurrently with the event or on a monthly basis.

Contract Balances

A contract liability is an entity's obligation to transfer goods or services to a customer in exchange for consideration from the customer. As mentioned above, during 2015, the Bank entered into a long-term strategic marketing alliance with another entity to which the Bank sold its merchant contracts portfolio and related POS terminals. Merchant services are marketed through FirstBank's branches and offices in Puerto Rico and the Virgin Islands. Under the marketing and referral agreement, FirstBank shares with this entity revenues generated by the merchant contracts over the term of the 10-year agreement. As of June 30, 2018, and December 31, 2017, this contract liability amounted to \$2.2 million and \$2.4 million, respectively, which will be recognized over the remaining term of the contract. For the quarter and six-month period ended June 30, 2018, the Corporation recognized revenue and contract liabilities decreased by approximately \$0.1 million and \$0.2 million, respectively, due to the passage of time. There were no changes in contract liabilities due to changes in transaction price estimates.

A contract asset is the right to consideration for transferred goods or services when the amount is conditioned on something other than the passage of time. As of June 30, 2018, and December 31, 2017, there were no receivables from contracts with customers or contract assets recorded on the Corporation's consolidated financial statements.

Other

Except for the contract liabilities noted above, the Corporation did not have any significant performance obligations as of June 30, 2018. The Corporation also did not have any material contract acquisition costs and did not make any significant judgments or estimates in recognizing revenue for financial reporting purposes.

NOTE 24 – SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information is as follows:

Six-Month Period Ended June 30,

Supplemental cash flow information is as follows:

| | 2018 | | 2017 |
|----------------------------------------------------------|----------------|----|-------------|
| | (In thousands) | | |
| Cash paid for: | | | |
| Interest on borrowings | \$ 49,102 | \$ | 44,613 |
| Income tax | 3,527 | | 2,389 |
| Non-cash investing and financing activities: | | | |
| Additions to OREO | 27,393 | | 37,756 |
| Additions to auto and other repossessed assets | 30,194 | | 22,731 |
| Capitalization of servicing assets | 2,025 | | 1,924 |
| Loan securitizations | 119,754 | | 131,808 |
| Loans held for investment transferred to held for sale | 69,851 | | - |
| Loans held for sale transferred to held for investment | 385 | | 10,206 |
| Property plant and equipment transferred to other assets | - | | 1,185 |

NOTE 25 – SEGMENT INFORMATION

Based upon the Corporation's organizational structure and the information provided to the Chief Executive Officer of the Corporation and, to a lesser extent, the Board of Directors, the operating segments are based primarily on the Corporation's lines of business for its operations in Puerto Rico, the Corporation's principal market, and by geographic areas for its operations outside of Puerto Rico. As of June 30, 2018, the Corporation had six reportable segments: Commercial and Corporate Banking; Mortgage Banking; Consumer (Retail) Banking; Treasury and Investments; United States Operations; and Virgin Islands Operations. Management determined the reportable segments based on the internal reporting used to evaluate performance and to assess where to allocate resources. Other factors such as the Corporation's organizational chart, nature of the products, distribution channels, and the economic characteristics of the product were also considered in the determination of the reportable segment.

The Commercial and Corporate Banking segment consists of the Corporation's lending and other services for large customers represented by specialized and middle-market clients and the public sector. The Commercial and Corporate Banking segment offers commercial loans, including commercial real estate and construction loans, and floor plan financings, as well as other products, such as cash management and business management services. The Mortgage Banking segment consists of the origination, sale, and servicing of a variety of residential mortgage loans. The Mortgage Banking segment also acquires and sells mortgages in the secondary markets. In addition, the Mortgage Banking segment includes mortgage loans purchased from other local banks and mortgage bankers. The Consumer (Retail) Banking segment consists of the Corporation's consumer lending and deposit-taking activities conducted mainly through its branch network and loan centers. The Treasury and Investments segment is responsible for the Corporation's investment portfolio and treasury functions that are executed to manage and enhance liquidity. This segment also lends funds to the Commercial and Corporate Banking, Mortgage Banking and Consumer (Retail) Banking segments to finance their lending resources and borrows from those segments. The Consumer (Retail) Banking and the United States Operations segments also lend funds to the other segments. The interest rates charged or credited by Treasury and Investments, the Consumer (Retail) Banking, and the United States Operations segments are allocated based on market rates. The difference between the allocated interest income or expense and the Corporation's actual net interest income from centralized management of funding costs is reported in the Treasury and Investments segment. The United States Operations segment consists of all banking activities conducted by FirstBank in the United States mainland, including commercial and retail banking services. The Virgin Islands Operations segment consists of all banking activities conducted by the Corporation in the USVI and BVI, including commercial and retail banking services.

The accounting policies of the segments are the same as those referred to in Note 1 – "Nature of Business and Summary of Significant Accounting Policies," in the audited consolidated financial statements included in the 2017 Annual Report on Form 10-K.

The Corporation evaluates the performance of the segments based on net interest income, the provision for loan and lease losses, non-interest income and direct non-interest expenses. The segments are also evaluated based on the average volume of their interest-earning assets less the allowance for loan and lease losses.

The following table presents information about the reportable segments:

| (In thousands) | Mortgage Banking | Consumer (Retail) Banking | Commercial and Corporate | Treasury and Investments | United States Operations | Virgin Islands Operations | Total |
|-----------------------------------------------|-----------------------------|------------------------------------------|-----------------------------------------|-----------------------------------------|-----------------------------------------|------------------------------------------|---------------|
| For the quarter ended June 30, 2018: | | | | | | | |

82

The following table presents a reconciliation of the reportable segment financial information to the consolidated totals:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|-------------------------------------------|-----------------------------------|---------------|--------------------------------------------|---------------|
| | 2018 | 2017 | 2018 | 2017 |
| Net income : | | | | |
| Total income for segments and other | \$ 66,897 | \$ 62,896 | \$ 135,969 | \$ 105,766 |
| Other operating expenses (1) | (25,706) | (25,608) | (53,872) | (51,010) |
| Income before income taxes | 41,191 | 37,288 | 82,097 | 54,756 |
| Income tax expense | (10,159) | (9,290) | (17,917) | (1,217) |
| Total consolidated net income | \$ 31,032 | \$ 27,998 | \$ 64,180 | \$ 53,539 |
| Average assets: | | | | |
| Total average earning assets for segments | \$ 11,381,707 | \$ 10,980,018 | \$ 11,307,332 | \$ 10,987,048 |
| Average non-earning assets | 963,752 | 900,622 | 943,828 | 893,785 |
| Total consolidated average assets | \$ 12,345,459 | \$ 11,880,640 | \$ 12,251,160 | \$ 11,880,833 |

- (1) Expenses pertaining to corporate administrative functions that support the operating segment, but are not specifically attributable to or managed by any segment are not included in the reported financial results of the operating segments. The unallocated corporate expenses include certain general and administrative expenses and related depreciation and amortization expenses.

NOTE 26 – REGULATORY MATTERS, COMMITMENTS AND CONTINGENCIES

The Corporation and FirstBank are each subject to various regulatory capital requirements imposed by the federal banking agencies. Failure to meet minimum capital requirements can result in certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material adverse effect on the Corporation's financial statements and activities. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Corporation must meet specific capital guidelines that involve quantitative measures of the Corporation's and FirstBank's assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Corporation's capital amounts and classifications are also subject to qualitative judgments and adjustment by the regulators with respect to minimum capital requirements, components, risk weightings, and other factors.

On October 3, 2017, the New York FED terminated the Written Agreement entered into on June 3, 2010 between the Corporation and the New York FED. However, the Corporation has agreed with the New York FED to continue to obtain the approval of the New York FED before paying dividends, receiving dividends from the Bank, making payments on subordinated debt or trust preferred securities, incurring or guaranteeing debt or purchasing or redeeming any corporate stock.

Although the Corporation and FirstBank became subject to the U.S. Basel III capital rules ("Basel III rules") beginning on January 1, 2015, certain requirements of the Basel III rules are being phased-in over several years and, in general, will be fully effective as of January 1, 2019, although certain elements of the new rules have been deferred by the federal banking agencies. The Corporation and FirstBank compute risk-weighted assets using the Standardized Approach required by the Basel III rules.

The Basel III rules require the Corporation to maintain an additional capital conservation buffer of 2.5% to avoid limitations on both (i) capital distributions (e.g., repurchases of capital instruments, dividends and interest payments on capital instruments), and (ii) discretionary bonus payments to executive officers and heads of major business lines. The phase-in of the capital conservation buffer began on January 1, 2016 with a first year requirement of 0.625% of additional Common Equity Tier 1 Capital ("CET1"), which is being progressively increased over a four-year period, increasing by that same percentage amount on each subsequent January 1 until it reaches the fully phased-in 2.5% CET1 requirement on January 1, 2019.

Under the fully phased-in Basel III rules, in order to be considered adequately capitalized, the Corporation will be required to maintain: (i) a minimum CET1 capital to risk-weighted assets ratio of at least 4.5%, plus the 2.5% capital conservation buffer, resulting in a required minimum CET1 ratio of at least 7%, (ii) a minimum ratio of total Tier 1 capital to risk-weighted assets of at least 6.0%, plus the 2.5% capital conservation buffer, resulting in a required minimum Tier 1 capital ratio of 8.5%, (iii) a minimum ratio of total Tier 1 plus Tier 2 capital to risk-weighted assets of at least 8.0%, plus the 2.5% capital conservation buffer, resulting in a required minimum total capital ratio of 10.5%, and (iv) a required minimum leverage ratio of 4%, calculated as the ratio of Tier 1 capital to average

on-balance sheet (non-risk adjusted) assets.

In addition, as required under the Basel III rules, the Corporation's trust preferred securities ("TRuPs") were fully phased out from Tier 1 capital as of January 1, 2016. However, the Corporation's TRuPs may continue to be included in Tier 2 capital until the instruments are redeemed or mature.

On November 21, 2017, the Federal Reserve Board, the FDIC, and the Office of the Comptroller of the Currency finalized an extension of the phase-in of certain Basel III capital rules for banks not using the Basel advanced approaches. The extension, which was effective January 1, 2018, pauses the full transition to the Basel III treatment of mortgage servicing assets, certain deferred tax assets, investments in the capital of unconsolidated financial institutions and minority interests, pending the banking agencies' broader efforts, announced in September 2017, to simplify the regulatory capital rules that apply to banking organizations that are not subject to the advanced approaches capital rules. Because the advanced approaches capital rules apply to banking organizations with more than \$250 billion in total consolidated assets or at least \$10 billion in total on-balance sheet foreign exposure, the extension relief applies broadly to community, midsize, and regional banks, including the Corporation and FirstBank.

Please refer to the discussion in "Part I, – Item 1, – Business – Supervision and Regulation," included in the 2017 Annual Report on Form 10-K for a more complete discussion of supervision and regulatory matters and activities that affect the Corporation and its subsidiaries.

The Corporation's and its banking subsidiary's regulatory capital positions as of June 30, 2018 and December 31, 2017 were as follows:

| | Regulatory Requirements | | | | | |

The Corporation enters into financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments may include commitments to extend credit and commitments to sell mortgage loans at fair value. As of June 30, 2018, commitments to extend credit amounted to approximately \$1.2 billion, of which \$663.7 million relates to credit card loans. Commercial and Financial standby letters of credit amounted to approximately \$58.7 million. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any conditions established in the contract. Commitments generally have fixed expiration dates or other termination clauses. Since certain commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. For most of the commercial lines of credit, the Corporation has the option to reevaluate the agreement prior to making additional disbursements. In the case of credit cards and personal lines of credit, the Corporation can cancel the unused credit facility at any time and without cause.

As of June 30, 2018, First BanCorp. and its subsidiaries were defendants in various legal proceedings arising in the ordinary course of business. On at least a quarterly basis, the Corporation assesses its liabilities and contingencies in connection with threatened and outstanding legal cases, matters and proceedings, utilizing the latest information available. For cases, matters and proceedings where it is both probable the Corporation will incur a loss and the amount can be reasonably estimated, the Corporation establishes an accrual for the loss. Once established, the accrual is adjusted as appropriate to reflect any relevant developments. For cases, matters or proceedings where a loss is not probable or the amount of the loss cannot be estimated, no accrual is established.

Any estimate involves significant judgment, given the varying stages of the proceedings (including the fact that some of them are currently in preliminary stages), the existence of multiple defendants in some of the current proceedings whose share of liability has yet to be determined, the numerous unresolved issues in the proceedings, and the inherent uncertainty of the various potential outcomes of such proceedings. Accordingly, the Corporation's estimate will change from time-to-time, and actual losses may be more or less than the current estimate.

While the final outcome of legal cases, matters, and proceedings is inherently uncertain, based on information currently available, Management believes that the final disposition of the Corporation's legal cases, matters or proceedings, to the extent not previously provided for, will not have a material negative adverse effect on the Corporation's consolidated financial position as a whole. If management believes that, based on available information, it is at least reasonably possible that a material loss (or additional material loss in excess of any accrual) will be incurred in connection with any legal actions, the Corporation discloses an estimate of the possible loss or range of loss, either individually or in the aggregate, as appropriate, if such an estimate can be made, or discloses that an estimate cannot be made. Based on the Corporation's assessment as of June 30, 2018, no such disclosures were necessary. However, in the event of unexpected future developments, it is possible that the ultimate resolution of these cases, matters and proceedings, if unfavorable, may be material to the Corporation's consolidated financial position on a particular period.

Ramírez Torres, et al. v. Banco Popular de Puerto Rico, et al. FirstBank Puerto Rico has been named Defendant in this Class Action Complaint, filed of February 17, 2017 at the Court of First Instance in San Juan, Puerto Rico. The Complaint seeks damages and preliminary injunctive relief on behalf of the purported class against Banco Popular de

Puerto Rico and other financial institutions with insurance agency subsidiaries in Puerto Rico. Plaintiffs allege that Defendants have been unjustly enriched by failing to reimburse them for "good experience" commissions allegedly paid by Antilles Insurance Company and Puerto Rico Home Insurance Company. On March 30, 2017, FirstBank Puerto Rico filed a Motion to Dismiss and a Motion for Declaratory Judgment and Third Party Complaint against Antilles Insurance Company and the Insurance Commissioner's Office. All other Defendants filed Motions to Dismiss. Antilles Insurance Company filed a Motion against the Third Party Complaint filed by FirstBank Puerto Rico, which FirstBank Puerto Rico opposed. The Insurance Commissioner's Office filed a Motion for Summary Judgment. On July 28, 2017, the Court issued Judgment granting the Motions to Dismiss filed by Defendants, dismissing the Complaint with prejudice, except the Third Party Complaint filed by FirstBank Puerto Rico which was dismissed without prejudice. On August 30, 2017, Plaintiffs filed an Appeal before the Puerto Rico Court of Appeals and FirstBank Puerto Rico filed its Opposition. On March 20, 2018, the Court of Appeals entered Judgment revoking the lower court judgment. Oriental Bank filed for Reconsideration, which was denied. All other Defendants filed writs of Certiorari before the Puerto Rico Supreme Court on May 29, 2018. On June 26, 2018, the Supreme Court issued Resolution denying all writs of Certiorari filed by Defendants. Defendants are currently discussing the Supreme Court's Judgment in order to determine if a Reconsideration will be filed.

NOTE 27 – FIRST BANCORP. (HOLDING COMPANY ONLY) FINANCIAL INFORMATION

The following condensed financial information presents the financial position of the Holding Company only as of June 30, 2018 and December 31, 2017 and the results of its operations for the quarters and six-month periods ended June 30, 2018 and 2017.

-
- (1) Non-GAAP financial measures. See "Risk Management - Capital" below for additional information about the components and a reconciliation of these measures.
 - (2) On a tax-equivalent basis and excluding the changes in fair value of derivative instruments. See "Results of Operations - Net Interest Income" below for a reconciliation of these non-GAAP financial measures.
 - (3) Non-interest expenses to the sum of net interest income and non-interest income.
 - (4) Loans used in the denominator in calculating each of these ratios include purchased credit-impaired ("PCI") loans. However, the Corporation separately tracks and reports PCI loans and excludes these from non-performing loan and non-performing asset amounts.

The following MD&A relates to the accompanying unaudited consolidated financial statements of First BanCorp. (the “Corporation” or “First BanCorp.”) and should be read in conjunction with such financial statements and the notes thereto. This section also presents certain financial measures that are not based on generally accepted accounting principles in the United States (“GAAP”). See “Risk Management - Basis of Presentation” below for information about why the non-GAAP financial measures are being presented and the reconciliation of the non-GAAP financial measures for which the reconciliation is not presented earlier.

EXECUTIVE SUMMARY

First BanCorp. is a diversified financial holding company headquartered in San Juan, Puerto Rico offering a full range of financial products to consumers and commercial customers through various subsidiaries. First BanCorp. is the holding company (the “Holding Company”) of FirstBank Puerto Rico (“FirstBank” or the “Bank”) and FirstBank Insurance Agency. Through its wholly-owned subsidiaries, the Corporation operates offices in Puerto Rico, the United States Virgin Islands and British Virgin Islands, and the State of Florida (USA), concentrating on commercial banking, residential mortgage loan originations, finance leases, credit cards, personal loans, small loans, auto loans, and insurance agency and broker-dealer activities.

OVERVIEW OF RESULTS OF OPERATIONS

First BanCorp.'s results of operations depend primarily on its net interest income, which is the difference between the interest income earned on its interest-earning assets, including investment securities and loans, and the interest expense incurred on its interest-bearing liabilities, including deposits and borrowings. Net interest income is affected by various factors, including: the interest rate scenario; the volumes, mix and composition of interest-earning assets and interest-bearing liabilities; and the re-pricing characteristics of these assets and liabilities. The Corporation's results of operations also depend on the provision for loan and lease losses, non-interest expenses (such as personnel, occupancy, the deposit insurance premium and other costs), non-interest income (mainly service charges and fees on deposits, and insurance income), gains (losses) on sales of investments, gains (losses) on mortgage banking activities, and income taxes.

The Corporation had net income of \$31.0 million, or \$0.14 per diluted common share, for the quarter ended June 30, 2018, compared to \$28.0 million, or \$0.13 per diluted common share, for the same period in 2017.

The key drivers of the Corporation’s GAAP financial results for the quarter ended June 30, 2018, compared to the same period in 2017, include the following:

- Net interest income increased by \$6.6 million to \$130.5 million for the quarter ended June 30, 2018 compared to \$123.9 million for the same period in 2017. The increase in net interest income was driven primarily by: (i) a \$5.0 million increase in interest income on commercial and construction loans, primarily associated with the upward repricing of variable-rate commercial loans and a \$1.2 million cash interest collection on a non-performing commercial loan in the second quarter of 2018, (ii) a \$2.6 million increase in interest income from interest-bearing cash balances, primarily deposits maintained at the Federal Reserve Bank of New York (“New York FED”), due to both a higher average balance of interest-bearing cash and increases in the Federal Funds target rate, (iii) a \$0.8 million increase in interest income on investment securities, primarily due to the gradual reinvestment of liquidity in higher-yielding U.S. agency debt securities; and (iv) a \$0.7 million increase in interest income on consumer loans, primarily due to a \$34.8 million increase in the average balance of this portfolio.

The aforementioned variances were partially offset by: (i) a \$1.7 million increase in interest expense, primarily reflecting the effect of higher market interest rates on the cost of commercial money market accounts tied to variable short-term interest rates, brokered and retail certificates of deposit (“CDs”), and Federal Home Loan Bank of New York (“FHLB”) advances, partially offset by a decrease of \$272.8 million in the average balance of interest-bearing liabilities, primarily brokered CDs and repurchase agreements; and (ii) a \$0.8 million decrease in interest income on residential mortgage loans, primarily associated with a \$70.3 million decrease in the average balance of this portfolio.

The net interest margin increased to 4.49% for the second quarter of 2018, compared to 4.44% for the same period a year ago, primarily related to the upward repricing of variable rate commercial loans, the \$1.2 million cash interest collected on a non-performing commercial loan, and an improved funding mix driven by the increase in the proportion of interest-earning assets funded by the growth in non-interest-bearing deposits. See “Results of Operations - Net Interest Income” below for additional information.

- The provision for loan and lease losses increased by \$1.4 million to \$19.5 million for the second quarter of 2018, compared to \$18.1 million for the same period in 2017. The increase was driven by: (i) a \$4.7 million increase in the provision for consumer loans, primarily related to higher charge-offs on personal loans, the increase in size of the auto and finance lease portfolio, and the effect of refinements in the measurement of qualitative factors used in the determination of the general reserve for consumer loans implemented in the second quarter of 2018 and (ii) a \$4.1 million increase in the provision for commercial and construction loans, primarily reflecting the effect in the second quarter of 2017 of a \$4.2 million recovery on

a previously charged-off commercial loan in Puerto Rico and downgrades in the credit risk classification of certain large commercial loans in the second quarter of 2018, partially offset by a \$1.9 million net loan loss reserve release related to revised estimates associated with the effects of Hurricanes Maria and Irma, resulting from updated assessments about the performance and repayment prospects of certain individually-assessed commercial credits. These variances were partially offset by a \$7.3 million decrease in the provision for residential mortgage loans, reflecting lower charge-off levels, a decline in non-performing loan levels, the overall decrease in the size of this portfolio, and the effect in the second quarter of 2017 of a \$2.6 million charge to the provision for PCI loans.

Net charge-offs totaled \$23.4 million for the second quarter of 2018, or 1.07% of average loans on an annualized basis, compared to \$47.8 million, or 2.16% of average loans for the same period in 2017. The decrease primarily reflects the effect in the second quarter of 2017 of charge-offs amounting to \$29.7 million taken against previously-established specific reserves for commercial mortgage loans formerly guaranteed by the Puerto Rico Tourism Development Fund (“TDF”). See “Results of Operations - Provision for Loan and Lease Losses” and “Risk Management” below for an analysis of the allowance for loan and lease losses and non-performing assets and related ratios.

- The Corporation recorded non-interest income of \$20.5 million for the second quarter of 2018, relatively flat compared to the second quarter of 2017. Some of the most significant variances were: (i) a \$0.7 million increase in transaction fee income from merchant-related transactions and credit and debit card interchange fees, (ii) a \$0.4 million decrease in service charge on deposits accounts; and (iii) the effect of a \$0.4 million partial recovery of previously-recognized other-than-temporary impairment (“OTTI”) charges on non-performing bonds of the Government Development Bank for Puerto Rico (the “GDB”) and the Puerto Rico Public Buildings Authority sold in the second quarter of 2017. See “Results of Operation - Non-Interest Income” below for additional information.

- Non-interest expenses for the second quarter of 2018 were \$90.2 million, compared to \$89.1 million for the same period in 2017. The increase was driven by: (i) a \$2.3 million increase in losses on other real estate owned (“OREO”) operations, primarily reflecting a \$2.5 million increase in adverse fair value adjustments to the value of OREO properties, (ii) a \$1.1 million increase in employees’ compensation and benefit expenses, reflecting costs associated with a cash transition award paid to certain senior officers of \$0.6 million in connection with the previously-reported executive compensation program that became effective in the third quarter of 2017, and a \$0.5 million increase in bonus and incentive-based compensation expenses; and (iii) a \$0.8 million increase in business promotion expenses, reflecting a \$0.4 million increase related to advertising, public relations, and sponsorship activities, and a \$0.3 million increase in costs of the credit card rewards program.

These increases were partially offset by a \$1.6 million decrease in professional service fees, primarily reflecting reductions in attorneys’ collection fees, and a \$1.3 million decrease in the Federal Deposit Insurance Corporation (“FDIC”) insurance premium expense reflecting, among other things, the effect of reductions in brokered CDs, higher liquidity levels tied to the growth in non-interest bearing deposits, and an improvement in the risk profile of the Bank’s balance sheet. See “Results of Operation - Non-Interest Expenses” below for additional information.

- For the second quarter of 2018, the Corporation recorded an income tax expense of \$10.2 million, compared to \$9.3 million for the same period in 2017. The increase was driven by higher pre-tax earnings generated in the second quarter of 2018. The Corporation's estimated annual effective tax rate for the first six months of 2018, excluding entities from which a tax benefit cannot be recognized and discrete items, was 25%, compared to 24% for the first six months of 2017. The estimated annual effective tax rate, including all entities for 2018, was 24% (25% excluding discrete items), compared to 14% for the first six months of 2017 (25% excluding discrete items, primarily the tax benefit resulting from the change in the tax status of certain subsidiaries discussed below). As of June 30, 2018, the Corporation had a net deferred tax asset of \$283.3 million (net of a valuation allowance of \$181.2 million). See "Results of Operation - Income Taxes" below for additional information.

- As of June 30, 2018, total assets were \$12.4 billion, an increase of \$123.6 million from December 31, 2017. The increase primarily reflects: (i) a \$172.0 million increase in cash and cash equivalents, largely driven by the growth in non-interest-bearing deposits and proceeds from loan repayments, partially offset by liquidity used to pay off maturing brokered CDs and a \$100 million short-term repurchase agreement, as well as for the repurchase of \$23.8 million of trust preferred securities, and (ii) a \$145.1 million increase in investment securities, driven by purchases of U.S. agency debt securities totaling \$302.9 million and the purchase of a 6-month U.S. Treasury Bill of \$50 million, partially offset by prepayments of \$92.1 million of U.S. agency MBS, \$70 million of U.S. agency callable debt securities matured during 2018, and a \$31.5 million decrease in the fair value of available-for-sale investment securities.

These variances were partially offset by a \$162.4 million decrease in total loans, reflecting reductions of \$126.3 million and \$39.2 million in the Puerto Rico and Virgin Islands regions, respectively, partially offset by a \$3.1 million increase in the Florida region. The decrease reflects the effect of eight large commercial loans totaling \$91.4 million paid off during 2018,

the sale of three large commercial loans totaling \$25.2 million, and significant payments received, including payments that reduced the outstanding balance of eight commercial lines of credit in Puerto Rico by \$36.1 million. In addition, the residential mortgage loan portfolio decreased by \$51.4 million, including the effect of the \$9.8 million sale of seasoned residential mortgage loans in the secondary market, partially offset by a \$25.4 million increase in the consumer loan portfolio. Accrued interest receivable on loans and investment securities decreased by \$10.0 million, primarily related to interest payments collected on loans after the expiration in the first quarter of 2018 of the three-month payment deferral programs extended to eligible customers affected by Hurricanes Maria and Irma. See “Financial Condition and Operating Data Analysis” below for additional information.

- As of June 30, 2018, total liabilities were \$10.5 billion, an increase of \$91.0 million from December 31, 2017. The increase was mainly due to: (i) a \$367.5 million increase in deposits, excluding government deposits and brokered CDs, primarily reflected in non-interest-bearing deposits and (ii) a \$155.8 million increase in government deposits. Hurricane-related factors, such as the effect of disaster relief funds and settlements of insurance claims, contributed to this growth in deposits. These increases were partially offset by a \$327.8 million decrease in brokered CDs and the repayment at maturity of a \$100 million repurchase agreement. See “Risk Management - Liquidity Risk and Capital Adequacy” below for additional information about the Corporation’s funding sources.

- As of June 30, 2018, the Corporation’s stockholders’ equity was \$1.9 billion, an increase of \$32.6 million from December 31, 2017. The increase was mainly driven by the earnings generated in the first six months of 2018, partially offset by the decrease in the fair value of available-for-sale investment securities recorded as part of other comprehensive loss. The Corporation’s Total Capital, Common Equity Tier 1 Capital, Tier 1 Capital and Leverage ratios calculated under the Basel III rules as currently in effect were 23.47%, 19.73%, 20.14%, and 14.35%, respectively, as of June 30, 2018, compared to Total Capital, Common Equity Tier 1 Capital, Tier 1 Capital and Leverage ratios of 22.53%, 18.96%, 18.97%, and 14.03%, respectively, as of December 31, 2017. See “Risk Management - Capital” below for additional information.

- Total loan production, including purchases, refinancings, renewals and draws from existing revolving and non-revolving commitments, was \$726.8 million for the quarter ended June 30, 2018, excluding the utilization activity on outstanding credit cards, compared to \$906.2 million for the same period in 2017. The variance was primarily related to a \$109.5 million decrease in Puerto Rico loan originations, including reductions of \$128.3 million and \$4.2 million in commercial and residential mortgage loan originations, respectively, partially offset by an increase of \$23.0 million in consumer loan originations. Total loan originations in the Florida region decreased by \$68.7 million, primarily reflected in commercial and residential mortgage loan originations.

- Total non-performing assets were \$621.3 million as of June 30, 2018, a decrease of \$29.3 million from December 31, 2017. The decrease primarily reflects the effect of the split loan restructuring of a \$34 million commercial mortgage loan, the sale of a \$10.4 million non-performing commercial mortgage loan transferred to held for sale in the first quarter of 2018, and collections and charge-offs totaling \$71.7 million. These variances were partially offset by the inflow of two large commercial mortgage loans totaling \$69.8 million tied to a legacy commercial loan relationship that operates in both the Florida and Puerto Rico regions with independent sources of repayment.

- Adversely classified commercial and construction loans, including loans held for sale, increased by \$8.0 million to \$490.4 million as of June 30, 2018, driven by the downgrade in the credit risk classification of three large commercial loans totaling \$110.3 million, including the aforementioned \$69.8 million in two large commercial mortgage loans classified as non-performing during 2018. This was partially offset by the sale of two large commercial loans totaling \$16.0 million, the upgrade in the credit risk classification of several commercial loans totaling \$56.7 million, including the aforementioned \$34 million loan restructured through a loan split and restored to accrual status considering the sustained historical repayment performance before the restructuring, and collections and charge-offs recorded during the first six months of 2018.

The Corporation's financial results for the second quarter and first six months of 2018 and 2017 included the following items that management believes are not reflective of core operating performance, are not expected to reoccur with any regularity or may reoccur at uncertain times and in uncertain amounts (the "Special Items"):

Quarter and Six-Month Period Ended June 30, 2018

- Net loan loss reserve releases of \$2.1 million (\$1.3 million after-tax) and \$8.5 million (\$5.2 million after-tax) for the second quarter and six-month period ended June 30, 2018, respectively, in connection with revised estimates of the reserves associated with the effects of Hurricanes Maria and Irma. See "Results of Operations - Provision for Loan and Lease Losses" below for additional information.
- Hurricane-related expenses of \$0.7 million (\$0.4 million after-tax) and \$2.3 million (\$1.4 million after-tax) for the second quarter and six-month period ended June 30, 2018, respectively.
- Charge to the provision for loan and lease losses of \$5.6 million (\$3.4 million after-tax) associated with three non-performing commercial and construction loans totaling \$57.2 million that were transferred to held for sale during the first quarter of 2018. See "Results of Operations - Provision for Loan and Lease Losses" below for additional information.
- Gain of \$2.3 million on the repurchase and cancellation of \$23.8 million in trust-preferred securities, reflected in the consolidated statement of income as "Gain on early extinguishment of debt." The gain, realized at the holding company level, had no effect on the income tax expense in 2018. See "Results of Operation - Non-Interest Income" below for additional information.

Quarter and Six-Month Period Ended June 30, 2017

- Partial recovery of \$0.4 million of previously-recognized OTTI charges on non-performing bonds of the GDB and the Puerto Rico Public Buildings Authority sold in the second quarter of 2017, reflected in the statement of income as part of "Net gain on sale of investments." No tax expense was recognized for the recovery on the sale of bonds in 2017.
- Tax benefit of \$13.2 million recorded in the first quarter of 2017 in connection with the change in tax status of certain subsidiaries from taxable corporations to limited liability companies that make an election to be treated as

partnerships for income tax purposes in Puerto Rico. See “Results of Operations - Income Taxes” below for additional information.

- OTTI charge of \$12.2 million recorded in the first quarter of 2017 on the aforementioned non-performing bonds of the GDB and the Puerto Rico Public Buildings Authority. No tax benefit was recognized for the OTTI charge in 2017.
- Charge to the provision for loan and lease losses of \$0.6 million (\$0.3 million after-tax) recorded in the first quarter of 2017 associated with the sale of the Corporation’s participation in the Puerto Rico Electric Power Authority (“PREPA”) credit line with a book value of \$64 million at the time of sale. See “Results of Operations - Provision for Loan and Lease Losses” below for additional information.
- Costs of \$0.3 million associated with a secondary offering of the Corporation’s common stock by certain of our existing stockholders, which was completed in the first quarter of 2017. The costs, incurred at the Holding Company level, had no effect on the income tax expense in 2017 based on available operating expenses at the holding company level.

The following table reconciles for the second quarter and first six months of 2018 and 2017, the reported net income to adjusted net income, a non-GAAP financial measure that excludes the Special Items identified above:

| | Quarter ended | | Six-month period | |
|---------------------------------------------------------------------------------------------|----------------------|-------------|-------------------------|-------------|
| | June 30, | | ended June 30, | |
| | 2018 | 2017 | 2018 | 2017 |

(1) See "*Basis of Presentation*" for the individual tax impact for each reconciling item.

Critical Accounting Policies and Practices

The accounting principles of the Corporation and the methods of applying these principles conform to GAAP. The Corporation's critical accounting policies relate to: 1) the allowance for loan and lease losses; 2) OTTI; 3) income taxes; 4) the classification and values of financial instruments; 5) income recognition on loans; 6) loans acquired; and 7) loans held for sale. These critical accounting policies involve judgments, estimates and assumptions made by management that affect the amounts recorded for assets, liabilities and contingent liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from estimates, if different assumptions or conditions prevail. Certain determinations inherently require greater reliance on the use of estimates, assumptions, and judgments and, as such, have a greater possibility of producing results that could be materially different than those originally reported.

The Corporation's critical accounting policies are described in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Practices," included in First BanCorp.'s Annual Report on Form 10-K for the year ended December 31, 2017 (the "2017 Annual Report on Form 10-K"). There have not been any material changes in the Corporation's critical accounting policies since December 31, 2017.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income is the excess of interest earned by First BanCorp. on its interest-earning assets over the interest incurred on its interest-bearing liabilities. First BanCorp.'s net interest income is subject to interest rate risk due to the repricing and maturity mismatch of the Corporation's assets and liabilities. Net interest income for the quarter and six-month period ended June 30, 2018 was \$130.5 million and \$255.2 million, respectively, compared to \$123.9 million and \$246.5 million for the comparable periods in 2017. On a tax-equivalent basis and excluding the changes in the fair value of derivative instruments, net interest income for the quarter and six-month period ended June 30, 2018 was \$135.6 million and \$265.1 million, respectively, compared to \$128.7 million and \$255.6 million for the comparable periods in 2017.

The following tables include a detailed analysis of net interest income. Part I presents average volumes (based on the average daily balance) and rates on an adjusted tax-equivalent basis and Part II presents, also on an adjusted tax-equivalent basis, the extent to which changes in interest rates and changes in the volume of interest-related assets and liabilities have affected the Corporation's net interest income. For each category of interest-earning assets and interest-bearing liabilities, information is provided relating to changes in (i) volume (changes in volume multiplied by prior period rates) and (ii) rate (changes in rate multiplied by prior period volumes). Rate-volume variances (changes

in rate multiplied by changes in volume) have been allocated to the changes in volume and rate based upon their respective percentage of the combined totals.

The net interest income is computed on an adjusted tax-equivalent basis and excluding the change in the fair value of derivative instruments. A definition and a reconciliation of this non-GAAP financial measure are presented below.

Part I

| Quarter ended June 30, | Average Volume | | Interest income ⁽¹⁾ / expense | | Average Rate ⁽¹⁾ | |
|---------------------------------------------------------|-----------------------|----------------------|-----------------------------------------------------|-------------------|------------------------------------|--------------|
| | 2018 | 2017 | 2018 | 2017 | 2018 | 2017 |

| Total interest-bearing liabilities | \$ 8,124,269 | \$ 8,391,875 | \$ 49,887 | \$ 46,149 | 1.24% | 1.11% |
| Net interest income | | | \$ 265,105 | \$ 255,588 | | |
| Interest rate spread | | | | | 4.25% | 4.31% |
| Net interest margin | | | | | 4.62% | 4.59% |

(1) On an adjusted tax-equivalent basis. The adjusted tax-equivalent yield was estimated by dividing the interest rate spread on exempt assets by 1 less the Puerto Rico statutory tax rate of 39.0% and adding to it the cost of interest-bearing liabilities. The tax-equivalent adjustment recognizes the income tax savings when comparing taxable and tax-exempt assets. Management believes that it is a standard practice in the banking industry to present net interest income, interest rate spread and net interest margin on a fully tax-equivalent basis. Therefore, management believes these measures provide useful information to investors by allowing them to make peer comparisons. Changes in the fair value of derivatives are excluded from interest income and interest expense because the changes in valuation do not affect interest received or paid.

(2) Government obligations include debt issued by government-sponsored agencies.

(3) Unrealized gains and losses on available-for-sale securities are excluded from the average volumes.

(4) Average loan balances include the average of non-performing loans.

(5) Interest income on loans includes \$2.1 million and \$2.0 million for the quarters ended June 30, 2018 and 2017, respectively, and \$3.9 million and \$4.1 million for the six-month periods ended June 30, 2018 and 2017, respectively, of income from prepayment penalties and late fees related to the Corporation's loan portfolio.

Part II

| (In thousands) | Quarter ended June 30, 2018 compared to 2017 Increase (decrease) | | | Six-Month Period Ended June 30, 2018 compared to 2017 Increase (decrease) | | |

| Total interest expense | (2,319) | 4,011 | 1,692 | (4,200) | 7,938 | 3,738 |
| Change in net interest income | \$ 3,316 | \$ 3,632 | \$ 6,948 | \$ 5,216 | \$ 4,301 | \$ 9,517 |

Portions of the Corporation's interest-earning assets, mostly investments in obligations of some U.S. government agencies and sponsored entities, generate interest that is exempt from income tax, principally in Puerto Rico. Also, interest and gains on sales of investments held by the Corporation's international banking entities ("IBEs") are tax-exempt under the Puerto Rico tax law (see "Income Taxes" below for additional information). To facilitate the comparison of all interest data related to these assets, the interest income has been converted to an adjusted taxable equivalent basis. The tax equivalent yield was estimated by dividing the interest rate spread on exempt assets by 1 less the Puerto Rico statutory tax rate (39.0%) and adding to it the average cost of interest-bearing liabilities. The computation considers the interest expense disallowance required by Puerto Rico tax law.

The presentation of net interest income excluding the effects of the changes in the fair value of the derivative instruments (“valuations”) provides additional information about the Corporation’s net interest income and facilitates comparability and analysis. The changes in the fair value of the derivative instruments have no effect on interest due or interest earned on interest-bearing liabilities or interest-earning assets, respectively.

The following table reconciles net interest income in accordance with GAAP to net interest income, excluding valuations, and on an adjusted tax-equivalent basis. The table also reconciles net interest spread and net interest margin on a GAAP basis to the valuations and on an adjusted tax-equivalent basis:

| (Dollars in thousands) | Quarter Ended | | Six-M |
|--------------------------------------------------------------------------------------------------------|---------------|---------------|---------------|
| | June 30, 2018 | June 30, 2017 | June 30, 2017 |

| Net interest spread on a tax-equivalent basis and excluding valuations - Non-GAAP | 4.28% | 4.32% | |
| Net interest margin on a tax-equivalent basis and excluding valuations - Non-GAAP | 4.67% | 4.61% | |

Interest income on interest-earning assets primarily represents interest earned on loans held for investment and investment securities.

Interest expense on interest-bearing liabilities primarily represents interest paid on brokered CDs, branch-based deposits, repurchase agreements, advances from the FHLB and junior subordinated debentures.

Unrealized gains or losses on derivatives represent changes in the fair value of derivatives, primarily interest rate caps used for protection against rising interest rates.

For the quarter and six-month period ended June 30, 2018, net interest income increased \$6.6 million to \$130.5 million, and \$8.7 million to \$255.2 million, respectively, compared to the same periods in 2017. The \$6.6 million increase in net interest income for the second quarter of 2018, compared to the same period in 2017, was primarily due to:

- A \$5.0 million increase in interest income on commercial and construction loans, primarily associated with the upward repricing of variable-rate commercial loans and a \$1.2 million cash interest collection on a non-performing commercial loan in the second quarter of 2018.
- A \$2.6 million increase in interest income from interest-bearing cash balances due to both an increase of \$383.6 million in the average balance of deposits maintained at the New York FED and increases in the Federal Funds target rate. A growth in non-interest-bearing deposits provided higher liquidity levels in the second quarter of 2018, as compared to the same period a year ago. In addition, the Federal Funds target rate has increased three times since the end of the second quarter of 2017 from a range of 1.00%-1.25% to its current range of 1.75%-2.00%.
- A \$0.8 million increase in interest income on investment securities, primarily due to the gradual reinvestment of liquidity in higher-yielding U.S. agency debt securities and a \$0.2 million increase in FHLB stock dividends.
- A \$0.7 million increase in interest income on consumer loans, primarily due to a \$34.8 million increase in the average balance of this portfolio, primarily auto loans and finance leases.

Partially offset by:

- A \$1.7 million increase in interest expense, primarily reflecting the effect of higher market interest rates on the cost of commercial money market accounts tied to variable short-term interest rates, FHLB advances, brokered CDs, and repurchase agreements, partially offset by a decrease of \$272.8 million in the average balance of interest-bearing liabilities, primarily brokered CDs and repurchase agreements. Over the last 12 months, the Corporation repaid \$713.8 million of maturing brokered CDs with an all-in cost of 1.23% and new issuances amounted to \$281.9 million with an all-in cost of 1.86%. While the Corporation continues to reduce its reliance on brokered CDs, it is increasing the core deposit base. For the second quarter of 2018, the average balance of non-brokered interest-bearing-deposits increased by \$172.7 million and the average balance of non-interest-bearing deposits increased by \$670.8 million, as compared to the same period in 2017. In addition, during the third quarter of 2017, the Corporation repaid at maturity a \$100 million repurchase agreement that carried a cost of 3.11%.

- A \$0.8 million decrease in interest income on residential mortgage loans, primarily associated with a \$70.3 million decrease in the average balance of this portfolio.

The \$8.7 million increase in net interest income for the first six months of 2018, compared to the same period in 2017, was primarily due to:

- An \$8.1 million increase in interest income on commercial and construction loans, primarily associated with the upward repricing of variable rate commercial loans.

- A \$4.4 million increase in interest income from interest-bearing cash balances due to both an increase of \$344.7 million in the average balance of deposits maintained at the New York FED and the aforementioned increases in the Federal Funds target rate.

- A \$1.5 million increase in interest income on investment securities, primarily due to the gradual reinvestment of liquidity in higher-yielding U.S. agency debt securities. The average balance of investment securities increased by \$72.1 million in the first six months of 2018, as compared to the same period a year ago.

- A \$0.2 million increase in interest income on consumer loans, primarily due to a \$34.5 million increase in the average balance of this portfolio in the first six months of 2018, as compared to the same period in 2017, primarily auto loans and finance leases, partially offset by higher inflows of loans to non-performing status during 2018.

Partially offset by:

- A \$3.7 million increase in interest expense driven by: (i) a \$2.9 million increase in interest expense on non-brokered interest-bearing deposits, driven by higher market interest rates on the cost of retail CDs and commercial money market accounts tied to variable short-term interest rates, (ii) a \$2.4 million increase in interest expense on FHLB advances reflecting an increase of \$97.1 million in the average balance and the effect of a higher reliance in the use of short-term advances during 2017. The aforementioned increases were partially offset by a \$1.3 million decrease in interest expense on brokered CDs, primarily related to a \$402.7 million decrease in the average balance that offset higher costs of new issuances in the second half of 2017. There were no new brokered CDs obtained during 2018.
- A \$1.7 million decrease in interest income on residential mortgage loans, primarily associated with a \$54.9 million decrease in the average balance of this portfolio.

The net interest margin increased by 5 basis points to 4.49% for the second quarter of 2018, compared to the same period in 2017, and increased by 2 basis points to 4.45% for the first six months of 2018, compared to the same period in 2017. The increase was primarily driven by the upward repricing of variable rate commercial loans, the \$1.2 million cash interest collected on a non-performing commercial loan, and an improved funding mix driven by the increase in the proportion of interest-earning assets funded by the growth in non-interest-bearing deposits.

On an adjusted tax-equivalent basis, net interest income for the quarter ended June 30, 2018 increased by \$6.9 million to \$135.6 million, compared to the same period in 2017, and by \$9.5 million to \$265.1 million for the first six months of 2018, compared to the same period in 2017. In addition to the facts discussed above, the increase in the second quarter of 2018, as compared to the same period in 2017, also includes an increase of \$0.4 million in the tax-equivalent adjustment related to the increased interest income of tax-exempt U.S. agency debt securities. For the first six months of 2018, the tax equivalent adjustment increased by \$0.8 million, as compared to the same period in 2017.

Provision for Loan and Lease Losses

The provision for loan and lease losses is charged to earnings to maintain the allowance for loan and lease losses at a level that the Corporation considers adequate to absorb probable incurred losses inherent in the portfolio. The adequacy of the allowance for loan and lease losses is also based upon a number of additional factors, including trends

in charge-offs and delinquencies, current economic conditions, the fair value of the underlying collateral and the financial condition of the borrowers, and, as such, includes amounts based on judgments and estimates made by the Corporation. Important factors that influence this judgment are re-evaluated on a quarterly basis to respond to changing conditions.

As described in Note 2, “Update on Effects of Natural Disasters,” in the consolidated financial statements, two strong hurricanes affected the Corporation’s service areas during September 2017. These hurricanes caused widespread property damage, flooding, power outages, and water and communication service interruptions, and severely disrupted normal economic activity in the affected areas. Relationship officers have continued to closely monitor the performance of hurricane-affected commercial loan customers during 2018. Information provided by these commercial loan officers and statistics on the performance of consumer and residential credits was factored in the determination of the allowance for loan and lease losses as of June 30, 2018. Although the identification and evaluation of hurricane-affected credits has been completed, management’s assessment of the hurricanes’ effect is still subject to uncertainties, both those specific to some individual customers, such as the resolution of insurance claims, and those applicable to the overall economic prospects of the hurricane-affected areas as a whole. During the second quarter and six-month period ended June 30, 2018, the Corporation recorded a net loan loss reserve release of \$2.1 million and \$8.5 million, respectively, in connection with revised estimates associated with the effects of the hurricanes. The revised estimates were primarily attributable to updated assessments of financial performance and repayment prospects of certain individually-assessed commercial credits and, to a lesser extent, lower reserve requirements resulting from payments received during the first six months of 2018 that reduced the balance of the consumer and residential mortgage loan portfolios outstanding on the dates of the hurricanes. As of June 30, 2018, the hurricane-related qualitative allowance amounted to \$42.2 million. With the ongoing collection of information on individual commercial customers and statistics on the consumer and residential mortgage loans portfolios, the loss estimate will be revised as needed. The methodologies that the Corporation used to determine the hurricane-related qualitative estimate and for the review of individual large commercial credits are discussed in detail in Note 1, “Nature of Business and Summary of Significant Accounting Policies,” in the audited consolidated financial statements of the Corporation for the year ended December 31, 2017, which are included in the 2017 Annual Report on Form 10-K.

On a non-GAAP basis, excluding the effect of the reserve release associated with revised estimates of the hurricane-related qualitative allowance, the adjusted provision for loan and lease losses increased by \$3.5 million to \$21.6 million for the second quarter of 2018, as compared to the provision of \$18.1 million for the second quarter of 2017. The \$3.5 million increase in the adjusted provision was driven by:

- A \$5.9 million increase in the adjusted provision for commercial and construction loans, primarily reflecting higher charges to the provision in the second quarter of 2018 related to downgrades in the credit risk classification of certain large commercial loans and the effect in the second quarter of 2017 of a \$4.2 million recovery on a previously charged-off commercial loan in Puerto Rico. These variances were partially offset by a \$1.6 million decrease related to refinements to both the determination of the historical loss rates and the measurement of qualitative factors used in the estimation process of the general reserve for commercial loans, as further discussed below.
- A \$4.7 million increase in the provision for consumer loans, primarily related to higher charge-offs on personal loans, the increase in size of the auto and finance leases portfolio, and the effect of refinements discussed below in the measurement of qualitative factors used in the determination of the general reserve of consumer loans implemented in the second quarter of 2018.

Partially offset by:

- A \$7.1 million decrease in the adjusted provision for residential mortgage loans, reflecting lower charge-off levels, a decline in non-performing loan levels, the overall decrease in the size of this portfolio, and the effect in the second quarter of 2017 of a \$2.6 million charge to the provision for purchased-credit impaired loans.

During the second quarter of 2018, and as part of the Corporation's plan to remediate a material weakness identified in the preparation of financial statements included in the 2017 Annual Report on Form 10-K, an independent third party engaged by the Corporation completed its assessment of the commercial allowance for loan losses framework and the appropriateness of assumptions used in the analysis. The Corporation reviewed the assessment and decided to implement certain enhancements, which include, among others, a revised procedure whereby historical loss rates for each commercial loan regulatory-based credit risk category (i.e., pass, special mention, substandard, and doubtful) are now calculated using the historical charge-offs and portfolio balances over their average loss emergence period (the "raw loss rate") for each credit risk classification. However, when not enough loss experience is observed in a particular risk-rated category and the calculation results in a loss rate for such risk-rated category that is lower than the loss rate of a less severe risk-rated category, the Corporation now uses the loss rate of such less severe category. Accordingly, during the second quarter of 2018, the Corporation applied the raw loss rate determined for loans rated pass to the commercial real estate loans rated special mention, instead of the lower raw loss rate that resulted for the special mention category.

As of March 31, 2018, the historical losses and portfolio balances of special mention loans were allocated to pass or substandard categories based on the historical proportion of loans in this risk category that ultimately cured or resulted in being uncollectible.

In addition, during the second quarter of 2018, the Corporation implemented refinements to the measurement of qualitative factors in the estimation process of the allowance for loan losses for commercial and consumer loans primarily consisting of the incorporation of a basis point adjustment derived from the difference between the average raw loss rate and the highest loss rates observed during a look-back period that management determined was appropriate to use for each region to identify any relevant effect during an economic cycle.

Although the net effect of these refinements were immaterial to the total provision expense, on a portfolio basis these enhancements resulted in a \$1.6 million decrease in the provision for commercial and construction loans in the second quarter of 2018, offset by a \$1.6 million increase in the provision for consumer loans.

In addition, during the first quarter of 2018, the Corporation transferred to held for sale three non-performing commercial and construction loans. The aggregate recorded investment in these two loans was written down to \$57.2 million, which resulted in charge-offs of \$9.7 million and an incremental loss of \$5.6 million reflected in the provision for loan and lease losses for the first six months of 2018. Loans transferred to held for sale consisted of a \$30.0 million non-performing construction loan in the Virgin Islands (net of a \$5.1 million write-down to fair value recorded at the time of the transfer) and two non-performing commercial mortgage loans totaling \$27.2 million (net of write-downs to fair value of \$4.6 million recorded at the time of transfer). During the second quarter of 2018, the Corporation completed the sale of a \$10.4 million non-performing commercial mortgage loan that was among the aforementioned loans transferred to held for sale in the first quarter of 2018.

Further, the provision for loan and lease losses for the first six months of 2017 included a \$0.6 million charge related to the sale of the PREPA credit line. See Note 7, “Loans Held for Investment – Purchases and Sales of Loans,” in the consolidated financial statements for additional information about this transaction.

On a non-GAAP basis, excluding the effect of the aforementioned reserve releases in 2018 associated with revised estimates of the hurricane-related qualitative allowance, the loans transferred to held for sale in 2018, and the sale of the PREPA credit line in 2017, the adjusted provision for loan and lease losses of \$42.9 million for the first six months of 2018 decreased \$0.1 million as compared to the adjusted provision of \$43.0 million for the first six months of 2017. The \$0.1 million decrease in the adjusted provision was driven by:

- A \$15.8 million decrease in the adjusted provision for residential mortgage loans, reflecting lower charge-off levels, a decline in non-performing loan levels, the overall decrease in the size of this portfolio, the effect in 2017 of adjustments to the loss severity estimates used in the calculation of the general reserve, and the effect in 2017 of a \$2.6 million charge to the provision for purchased-credit impaired loans.

Partially offset by:

- A \$10.5 million increase in the adjusted provision for commercial and construction loans, driven by the downgrade in the credit risk classification of three large commercial loans totaling \$110.3 million during the first six months of 2018, and the aforementioned effect of a \$4.2 million recovery on a previously charged-off commercial loan in Puerto Rico.
- A \$5.3 million increase in the adjusted provision for consumer loans, primarily reflecting higher charge-offs on personal loans, the increase in size of the auto and finance leases portfolio, the effect of the above mentioned refinements in the measurement of qualitative factors used in the determination of the general reserve of consumer loans, and the effect in 2017 of a loan loss recovery of \$1.2 million on the sale of certain credit card loans that had been fully charged-off in prior periods.

See “Basis of Presentation” below for a reconciliation of the GAAP provision for loan and lease losses to the non-GAAP provision for loan and lease losses excluding the effects of the hurricane-related reserve releases, the loans transferred to held for sale, and the sale of the PREPA credit line. Also see “Risk Management - Credit Risk Management” below for an analysis of the allowance for loan and lease losses, non-performing assets, impaired loans and related information, and see “Financial Condition and Operating Data Analysis – Loan Portfolio” as well as “Risk Management - Credit Risk Management” below for additional information concerning the Corporation’s loan portfolio exposure in the geographic areas where the Corporation does business.

Non-Interest Income

| | Quarter Ended June 30, | | Six-Month Period | |
|-------------------------------------------------------------------------------------------------------|-------------------------------|--------------|-------------------------|--------------|
| | 2018 | 2017 | Ended June 30, | 2017 |
| (In thousands) | | | | |
| Service charges on deposit accounts | \$ 5,344 | \$ 5,803 | \$ 10,432 | \$ 11,593 |
| Mortgage banking activities | 4,835 | 4,846 | 9,000 | 8,462 |
| Insurance income | 1,780 | 1,855 | 5,135 | 5,442 |
| Other operating income | 8,513 | 7,674 | 16,373 | 15,155 |
| Non-interest income before net gain on investment securities and gain on early extinguishment of debt | 20,472 | 20,178 | 40,940 | 40,652 |
| Net gain on sale of investments securities | - | 371 | - | 371 |
| OTTI on debt securities | - | - | - | (12,231) |
| Net gain (loss) on investments securities | - | 371 | - | (11,860) |
| Gain on early extinguishment of debt | - | - | 2,316 | - |
| Total | \$ 20,472.00 | \$ 20,549.00 | \$ 43,256 | \$ 28,792.00 |

102

Non-interest income primarily consists of income from service charges on deposit accounts, commissions derived from various banking, securities and insurance activities, gains and losses on mortgage banking activities, interchange and other fees related to debit and credit cards, and net gains and losses on investments and impairments.

Service charges on deposit accounts include monthly fees, overdraft fees, and other fees on deposit accounts, as well as corporate cash management fees.

Income from mortgage banking activities includes gain on sales and securitization of loans, revenues earned for administering residential mortgage loans originated by the Corporation and subsequently sold with servicing retained, and unrealized gains and losses on forward contracts used to hedge the Corporation's securitization pipeline. In addition, lower-of-cost-or-market valuation adjustments to the Corporation's residential mortgage loans held-for-sale portfolio and servicing rights portfolio, if any, are recorded as part of mortgage banking activities.

Insurance income consists mainly of insurance commissions earned by the Corporation's subsidiary, FirstBank Insurance Agency, Inc.

The other operating income category is composed of miscellaneous fees such as debit, credit card and point of sale ("POS") interchange fees, as well as contractual shared revenues from merchant contracts sold in 2015.

The net gain (loss) on investment securities reflects gains or losses as a result of sales that are consistent with the Corporation's investment policies, as well as OTTI charges on the Corporation's investment portfolio.

The gain on early extinguishment of debt is related to the repurchase and cancellation in the first quarter of 2018 of \$23.8 million in trust-preferred securities of FBP Statutory Trust I that were auctioned in a public sale at which the Corporation was invited to participate. The Corporation repurchased and cancelled the repurchased trust-preferred securities, resulting in a commensurate reduction in the related Floating Rate Junior Subordinated Debentures. The Corporation's winning bid equated to 90% of the \$23.8 million par value. The 10% discount resulted in a gain of \$2.3 million, which is reflected in the statement of income as a "Gain on early extinguishment of debt." As of June 30, 2018, the Corporation still had Floating Rate Junior Subordinated Debentures ("subordinated debt") outstanding in the aggregate amount of \$184.2 million.

Non-interest income for the second quarter of 2018 of \$20.5 million remained relatively flat compared to the second quarter of 2017. The most significant variances within the non-interest income components follows:

- A \$0.8 million increase in “Other operating income” in the table above, primarily due to a \$0.7 million increase in transaction fee income from merchant-related transactions and credit and debit card interchange fees.

Offset by:

- A \$0.4 million decrease in service charge on deposits accounts, primarily related to a decrease in the volume of returned items and overdraft fee transactions.
- The effect in the second quarter of 2017 of a \$0.4 million partial recovery of previously-recognized OTTI charges on non-performing bonds of the GDB and the Puerto Rico Public Buildings Authority sold in the second quarter of 2017. The Corporation sold for an aggregate of \$23.4 million these non-performing bonds that were carried on its books at an amortized cost of \$23.0 million (net of \$34.4 million in cumulative OTTI charges).

Non-interest income for the six-month period ended June 30, 2018 amounted to \$43.3 million, compared to \$28.8 million for the same period in 2017. The \$14.5 million increase in non-interest income was primarily due to:

- The effect in 2017 of a \$12.2 million OTTI charge on three Puerto Rico Government debt securities held by the Corporation as part of its available-for-sale securities portfolio, specifically the aforementioned bonds of the GDB and the Puerto Rico Public Buildings Authority sold in the second quarter of 2017.
- The \$2.3 million gain recorded in the first quarter of 2018 on the repurchase and cancellation of \$23.8 million in trust-preferred securities.
- A \$0.5 million increase in revenues from mortgage banking activities driven by a net variance of \$1.7 million related to adjustments recorded in 2018 to reduce the valuation allowance of mortgage servicing rights, partially offset by lower conforming loan originations and sales in the secondary market, resulting in a \$1.3 million decrease in gain on sale of residential mortgage loans. Total loans sold in the secondary market to U.S government-sponsored entities amounted to \$170.9 million with a related net gain of \$4.6 million, including gains of \$0.8 million on To-Be-Announced mortgage-backed securities (“TBA”) hedges, in the first half of 2018, compared to total loans sold in the secondary market of \$184.6 million with a related net gain of \$5.9 million, net of TBA hedges losses of \$0.3 million, in the first half of 2017. The total amount of loans sold in the secondary market in 2018 included \$9.8 million of seasoned residential mortgage loans sold to Fannie Mae that resulted in a gain of \$0.2 million.
- A \$1.2 million increase in “Other operating income” in the table above, reflecting the effect of a \$0.8 million gain on sale of fixed assets of a closed banking branch in Florida and a \$0.8 million increase in transaction fee income from credit and debit card interchange fees and merchant-related transactions, partially offset by a \$0.6 million lower of cost or market adjustment recorded in the first quarter of 2018 to reduce the carrying value of a construction loan held for sale.

Partially offset by:

- A \$1.2 million decrease in service charges on deposits, primarily related to a decrease in the volume of returned item and overdraft transaction fees.
- The aforementioned effect in 2017 of the \$0.4 million partial recovery of previously recorded OTTI charges on non-performing bonds of the GDB and the Puerto Rico Public Buildings Authority sold in the second quarter of 2017.

Non-Interest Expenses

The following table presents the components of non-interest expenses:

| | Quarter Ended June 30, | | Six-Month Period Ended | |
|-------------------------------------------------------|-------------------------------|-------------|-------------------------------|-------------|
| | 2018 | 2017 | June 30, | 2017 |
| (In thousands) | | | | |
| Employees' compensation and benefits | \$ 39,555 | \$ 38,409 | \$ 80,239 | \$ 77,062 |
| Occupancy and equipment | 13,746 | 13,759 | 28,851 | 27,847 |
| Insurance and supervisory fees | 3,701 | 4,855 | 7,556 | 9,764 |
| Taxes, other than income taxes | 3,637 | 3,745 | 7,493 | 7,421 |
| Professional fees: | | | | |
| Collections, appraisals and other credit-related fees | 1,650 | 2,452 | 3,249 | 4,524 |
| Outsourcing technology services | 5,127 | 5,398 | 10,250 | 10,752 |
| Other professional fees | 3,416 | 3,950 | 6,754 | 7,480 |
| Credit and debit card processing expenses | 3,766 | 3,566 | 7,303 | 6,397 |
| Business promotion | 4,016 | 3,192 | 6,592 | 6,473 |
| Communications | 1,582 | 1,628 | 3,064 | 3,171 |
| Net loss on OREO and OREO operations | 5,655 | 3,369 | 5,845 | 7,445 |
| Other | 4,365 | 4,746 | 9,047 | 8,615 |
| Total | \$ 90,216 | \$ 89,069 | \$ 176,243 | \$ 176,951 |

105

Non-interest expenses for the second quarter of 2018 were \$90.2 million, compared to \$89.1 million for the same period in 2017. The \$1.1 million increase in non-interest expenses was mainly due to:

- A \$2.3 million increase in losses from OREO operations, primarily reflecting a \$2.5 million increase in adverse fair value adjustments to the value of OREO properties, primarily income-producing commercial properties.
- A \$1.1 million increase in employees' compensation expenses, primarily related to cash transition award payments to certain senior officers of \$0.6 million in connection with the previously-reported executive compensation program that became effective in the third quarter of 2017, and a \$0.5 million increase in bonus and incentive-based compensation expenses.
- A \$0.8 million increase in business promotion expenses, primarily reflecting a \$0.4 million increase related to advertising, public relations, and sponsorship activities, and a \$0.3 million increase in the estimated cost of the credit card rewards program.

Partially offset by:

- A \$1.3 million decrease in the FDIC insurance premium expense, included as part of "Insurance and supervisory fees" in the table above, reflecting, among other things, the effect of reductions in brokered CDs, higher liquidity levels tied to the growth in non-interest-bearing deposits, and an improvement in the risk profile of the Bank's balance sheet.
- A \$1.6 million decrease in professional service fees, mainly related to reductions in attorneys' collection fees.

Non-interest expenses for the six months of 2018 were \$176.2 million, compared to \$177.0 million for the same period in 2017. The \$0.7 million decrease in non-interest expenses was principally attributable to:

- A \$2.4 million decrease in the FDIC insurance premium expense, included as part of "Insurance and supervisory fees" in the table above, as further explained above.
- A \$2.5 million decrease in total professional service fees, primarily reflecting lower attorneys' collection fees and legal expenses, and the effect in 2017 of costs related to the implementation of new information technology

systems.

- A \$1.6 million decrease in losses from OREO operations, primarily related to a \$1.1 million decrease in adverse fair value adjustments to the value of OREO properties, mainly income-producing commercial properties.

Partially offset by:

- A \$3.2 million increase in employees' compensation and benefits, primarily associated with the cash transition award payments of \$1.2 million in connection with the above-mentioned executive compensation program that became effective in the third quarter of 2017, a \$1.0 million increase in bonus and incentive-based compensation, and a \$0.3 million increase in stock-based compensation.
- A \$1.0 million increase in occupancy and equipment expenses, primarily related to hurricane-related expenses amounting to \$2.1 million recorded in the first six months of 2018, mostly attributable to repairs and security matters.
- A \$0.9 million increase in credit and debit card processing expenses, mainly related to higher transaction volumes.
- A \$0.4 million increase in "Other operating expenses" in the table above, primarily reflecting lower reserve releases related to unfunded loan commitments.

Income Taxes

Income tax expense includes Puerto Rico and USVI income taxes as well as applicable U.S. federal and state taxes. The Corporation is subject to Puerto Rico income tax on its income from all sources. As a Puerto Rico corporation, First BanCorp. is treated as a foreign corporation for U.S. and USVI income tax purposes and is generally subject to U.S. and USVI income tax only on its income from sources within the U.S. and USVI or income effectively connected with the conduct of a trade or business in those regions. Any such tax paid in the U.S. and USVI is also creditable against the Corporation's Puerto Rico tax liability, subject to certain conditions and limitations.

Under the Puerto Rico Internal Revenue Code of 2011, as amended (the "2011 PR Code"), the Corporation and its subsidiaries are treated as separate taxable entities and are generally not entitled to file consolidated tax returns and, thus, the Corporation is generally not entitled to utilize losses from one subsidiary to offset gains in another subsidiary. Accordingly, in order to obtain a tax benefit from a net operating loss ("NOL"), a particular subsidiary must be able to demonstrate sufficient taxable income within the applicable NOL carry-forward period. The 2011 PR Code allows entities organized as limited liability companies to perform an election to become a non-taxable "pass-through" entity and utilize losses to offset income from other "pass-through" entities, subject to certain limitations, with the remaining net income passing-through to its partner entities. The 2011 PR Code also provides a dividend received deduction of 100% on dividends received from "controlled" subsidiaries subject to taxation in Puerto Rico and 85% on dividends received from other taxable domestic corporations.

On March 1, 2017, the Corporation completed the applicable regulatory filings to change the tax status of its subsidiary, First Federal Finance, from a taxable corporation to a non-taxable "pass-through" entity. This election allows the Corporation to realize tax benefits of its deferred tax assets associated with pass-through ordinary net operating losses available at the banking subsidiary, FirstBank, which were subject to a full valuation allowance as of December 31, 2016, against now pass-through ordinary income from this profitable subsidiary.

On March 1, 2017, the Corporation also completed the applicable regulatory filings to change the tax status of its subsidiary, FirstBank Insurance, from a taxable corporation to a non-taxable "pass-through" entity. This election allows the Corporation to offset pass-through income projected to be earned by FirstBank Insurance with net operating losses available at the Holding Company level.

The Corporation has maintained an effective tax rate lower than the maximum statutory rate mainly by investing in government obligations and mortgage-backed securities exempt from U.S. and Puerto Rico income taxes and by doing business through an International Banking Entity ("IBE") unit of the Bank, and through the Bank's subsidiary, FirstBank Overseas Corporation, whose interest income and gain on sales is exempt from Puerto Rico income taxation. The IBE and FirstBank Overseas Corporation were created under the International Banking Entity Act of Puerto Rico, which provides for total Puerto Rico tax exemption on net income derived by IBEs operating in Puerto Rico on the specific activities identified in the IBE Act. An IBE that operates as a unit of a bank pays income taxes at the corporate standard rates to the extent that the IBE's net income exceeds 20% of the bank's total net taxable income.

For the second quarter and first six months of 2018, the Corporation recorded an income tax expense of \$10.2 million and \$17.9 million, respectively, compared to an income tax expense of \$9.3 million and \$1.2 million for the comparable periods in 2017. The increase in the income tax expense for the second quarter of 2018, as compared to the same period a year ago, was primarily related to higher pre-tax earnings generated in 2018. The increase for the first six months of 2018, compared to same period in 2017, was mostly related to a \$13.2 million tax benefit recorded in the first quarter of 2017 as a result of the above discussed change in tax status of certain subsidiaries from taxable corporations to limited liability companies that have elected to be treated as partnerships for income tax purposes in Puerto Rico and, to a lesser extent, a higher pre-tax income subject to the estimated annual effective tax rate for the six-month period ended June 30, 2018.

For the six-month period ended June 30, 2018, the Corporation calculated the provision for income taxes by applying the estimated annual effective tax rate for the full fiscal year to ordinary income or loss. In the computation of the consolidated worldwide annual estimated effective tax rate, ASC Topic 740-270, "Income Taxes-Interim Reporting," requires the exclusion of legal entities with pre-tax losses from which a tax benefit cannot be recognized. The Corporation's estimated annual effective tax rate in the first six months of 2018, excluding entities from which a tax benefit cannot be recognized and discrete items, was 25% compared to 24% for the first six months of 2017. The estimated annual effective tax rate including all entities for the first six months of 2018 was 24% (25% excluding discrete items, primarily the tax benefit resulting from the excess tax benefit recognized during the first quarter of 2018 upon the vesting of shares granted under the Corporation's stock-based compensation plan) compared to 14% for the first six months of 2017 (25% excluding discrete items, primarily the tax benefit resulting from the previously mentioned change in the tax status of two subsidiaries).

The Corporation's net deferred tax asset amounted to \$283.3 million as of June 30, 2018, net of a valuation allowance of \$181.2 million, and management concluded, based upon the assessment of all positive and negative evidence, that it is more likely than not that the Corporation will generate sufficient taxable income within the applicable NOL carry-forward periods to realize such amount.

The net deferred tax asset of the Corporation's banking subsidiary, FirstBank, amounted to \$283.2 million as of June 30, 2018, net of a valuation allowance of \$144.6 million, compared to a net deferred tax asset of \$294.7 million, net of a valuation allowance of \$150.7 million, as of December 31, 2017.

During the third quarter of 2017, the Corporation completed a formal ownership change analysis within the meaning of Section 382 of the U.S. Internal Revenue Code ("Section 382") covering a comprehensive period, and concluded that an ownership change occurred during such period. Section 382 limits the ability to utilize U.S. and USVI NOLs for income tax purposes at such jurisdictions following an event of an ownership change. The Section 382 limitation could result in higher U.S. and USVI liabilities in the future than we would incur in the absence of such limitation. For the second quarter and first six months of 2018, and as a result of the Section 382 limitation, the Corporation incurred an income tax expense of approximately \$1.0 million and \$2.6 million, respectively, related to its U.S. operations. The limitation did not affect the USVI operations in the first half of 2018. Prospectively, the Corporation expects that it will be able to mitigate the adverse effects associated with the Section 382 limitation as any such tax paid in the U.S. or USVI could be creditable against Puerto Rico tax liabilities or taken as deduction against taxable income. However, our ability to reduce our Puerto Rico tax liability through such a credit or deduction depends on our tax profile at each annual taxable period, which is dependent on various factors.

As of June 30, 2018, the Corporation did not have Unrecognized Tax Benefits recorded on its books. The Corporation classifies all interest and penalties, if any, related to tax uncertainties as income tax expense. Audit periods remain open for review until the statute of limitations has passed. The statute of limitations under the 2011 PR Code is four years; the statute of limitations for U.S. and USVI income tax purposes is three years after a tax return is due or filed, whichever is later, for each. The completion of an audit by the taxing authorities or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Corporation's liability for income taxes. Any such adjustment could be material to the results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. For U.S. and USVI income tax purposes, all tax years subsequent to 2013 remain open to examination. For Puerto Rico tax purposes, all tax years subsequent to 2012 remain open to examination.

On December 22, 2017, the United States president signed H.R.1, The Tax Cuts and Jobs Acts, which includes an overhaul of individual, business and international taxes and has affected our branch operations in the U.S. and the USVI. The bill includes measures reducing corporate taxes from 35% to 21%, a repeal of the corporate alternative minimum tax regime, changes to business deductions and NOLs, a 15.5% tax on mandatory repatriation of liquid assets, 10% tax on base erosion payments, and a minimum 10.5% tax on inclusion of global intangible low-tax income by U.S. shareholders, among other significant changes. The main provisions affecting our operations in the U.S. and the USVI in the first half of 2018 include: the change in tax rate to 21%, the limitation to the amount certain financial institutions may deduct for premiums paid to the FDIC, and changes in permanent differences, such as meals and entertainment deductions. Other significant provisions, such as the base erosion and anti-abuse tax, do not affect the Corporation's U.S. and USVI branch operations since these operations' receipts do not exceed the annual threshold of U.S. effectively connected gross receipts

On April 16, 2018, the Puerto Rico House of Representatives introduced the house legislative project 1544 (“P de la C. 1544”), which includes proposed changes to the Puerto Rico Income Tax Code. The P de la C. 1544 proposes changes effective January 1, 2019 including: a reduction in the maximum corporate tax rate to 31% from the current 39%, an increase in the NOL limitation to 90% from the current 80%, and changes to the alternative minimum tax computation, including a reduction in the rate to 23%, from the current 30%. The legislative project also eliminates the exemption for interest income of certain mortgage loans, and sets forth additional limitations to deductions related to meals and travel. Other proposed measures include a reduction of the business to business services sales tax for electronic payments. The P de la C. 1544 also includes preventive measures that condition the reductions in income tax and sales tax rates to the government reaching the budgeted revenue collections. It is uncertain whether the proposed tax reform legislation will be enacted in 2018. Some of the provisions in the proposed tax reform legislation, such as the reduction in corporate tax rates, are likely to result in a write down of the Corporation’s consolidated net deferred tax asset with a corresponding charge to the Corporation’s income tax expense in the period of enactment. The reduction in the corporate tax rates could also result in reductions to the Corporation’s effective tax rate going forward.

FINANCIAL CONDITION AND OPERATING DATA ANALYSIS**Assets**

The Corporation's total assets were \$12.4 billion as of June 30, 2018, an increase of \$123.6 million from December 31, 2017. The increase was mainly due to a \$172.0 million increase in cash and cash equivalents, largely driven by the increase of \$483.5 million in non-interest-bearing deposits during the first six months of 2018 and proceeds from loan repayments, partially offset by liquidity used to pay off maturing brokered CDs and a \$100 million short-term repurchase agreement, as well as for the repurchase of \$23.8 million of trust-preferred securities. In addition, total investments securities increased by \$145.1 million during the first six months of 2018 driven by purchases of approximately \$352 million of U.S. agency debt securities, partially offset by U.S. agency mortgage-backed securities ("MBS") prepayments, certain U.S. agency callable debentures that matured during 2018, and the decrease in the fair value of available-for-sale investment securities, as further discussed below.

These variances were partially offset, as further discussed below, by a \$162.4 million decrease in total loans, a decrease of \$10.0 million in accrued interest receivable in connection with interest payments collected on loans after the expiration in the first quarter of 2018 of the three-month payment deferral programs extended to eligible customers affected by Hurricanes Maria and Irma, and an \$11.5 million decrease in the net deferred tax asset.

Loan Portfolio

The following table presents the composition of the Corporation's loan portfolio, including loans held for sale, as of the dates indicated:

| (In thousands) | June 30, 2018 | December 31, 2017 |
|--------------------------------------|--------------------------|------------------------------|
| Residential mortgage loans | \$ 3,238,001 | \$ 3,290,957 |
| Commercial loans: | | |
| Commercial mortgage loans (1) | 1,533,308 | 1,614,972 |
| Construction loans (1) | 84,683 | 111,397 |
| Commercial and Industrial loans | 2,009,049 | 2,083,253 |
| Total commercial loans | 3,627,040 | 3,809,622 |
| Finance leases | 283,274 | 257,462 |
| Consumer loans | 1,491,976 | 1,492,435 |
| Total loans held for investment | 8,640,291 | 8,850,476 |
| Less: | | |
| Allowance for loan and lease losses | (222,035) | (231,843) |
| Total loans held for investment, net | \$ 8,418,256 | \$ 8,618,633 |

| | | | | |
|-----------------------------|----|-----------|----|-----------|
| Loans held for sale (1) (2) | | 80,815 | | 32,980 |
| Total loans, net com | \$ | 8,499,071 | \$ | 8,651,613 |

- (1) During the first quarter of 2018, the Corporation transferred \$57.2 million (net of fair value write-downs of \$9.7 million) in non-performing loans to held for sale. Loans transferred to held for sale consisted of a \$30.0 million non-performing construction loan (net of a \$5.1 million fair value write-down) and two non-performing commercial mortgage loans totaling \$27.2 million (net of fair value write-downs of \$4.6 million).
- (2) During the second quarter of 2018, the Corporation completed the sale of a \$10.4 million non-performing commercial mortgage loan that was among the loans transferred to held for sale in the first quarter of 2018.

As of June 30, 2018, the Corporation's total loan portfolio, before allowance, amounted to \$8.7 billion, down \$162.4 million when compared to December 31, 2017. The decline primarily reflects reductions of \$126.3 million and \$39.2 million in the Puerto Rico and Virgin Islands regions, respectively, partially offset by a \$3.1 million increase in the Florida region. The decrease reflects the effect of eight large commercial loans paid off during 2018 totaling \$91.4 million, the sale of three large commercial loans totaling \$25.2 million, and significant payments received, including payments that reduced the outstanding balance of eight commercial lines of credit in Puerto Rico by \$36.1 million. In addition, the residential mortgage loan portfolio decreased by \$51.4 million, including the effect of the \$9.8 million sale of seasoned residential mortgage loans in the secondary market, partially offset by a \$25.4 million increase in the consumer loan portfolio.

As shown in the table above, as of June 30, 2018, the loans held-for-investment portfolio was comprised of commercial and construction loans (42%), residential real estate loans (37%), and consumer and finance leases (21%). Of the total gross loan portfolio held for investment of \$8.6 billion as of June 30, 2018, approximately 75% had credit risk concentration in Puerto Rico, 19% in the United States (mainly in the state of Florida) and 6% in the Virgin Islands, as shown in the following table:

| <u>As of June 30, 2018</u> (In thousands) | Puerto Rico | Virgin Islands | United States | Total |
|-----------------------------------------------------|--------------------|-----------------------|----------------------|--------------|
| Residential mortgage loans | \$ 2,374,276 | \$ 265,252 | \$ 598,473 | \$ 3,238,001 |
| Commercial mortgage loans | 1,057,317 | 81,317 | 394,674 | 1,533,308 |
| Construction loans | 40,277 | 9,043 | 35,363 | 84,683 |

Residential Real Estate Loans

As of June 30, 2018, the Corporation's residential mortgage loan portfolio held for investment decreased by \$53.0 million, as compared to the balance as of December 31, 2017, mainly resulting from activities in Puerto Rico and the Virgin Islands as principal repayments, charge-offs, and \$22.4 million of foreclosures recorded in the first half of 2018 exceeded the volume of new loans originated and held for investment purposes. The residential mortgage loan portfolio held for investment in the Puerto Rico and Virgin Islands regions decreased during the first six months of 2018 by \$39.1 million and \$17.5 million, respectively, partially offset by an increase of \$3.6 million in the Florida region. The increase in the Florida region was achieved despite the sale of \$9.8 million of seasoned residential mortgage loans to FNMA in the second quarter of 2018.

The majority of the Corporation's outstanding balance of residential mortgage loans in Puerto Rico and the Virgin Islands consisted of fixed-rate loans that traditionally carried higher yields than residential mortgage loans in Florida. In the Florida region, approximately 56% of the residential mortgage loan portfolio consisted of adjustable-rate mortgages. In accordance with the Corporation's underwriting guidelines, residential mortgage loans are mostly fully documented loans, and the Corporation does not originate negative amortization loans.

Commercial and Construction Loans

As of June 30, 2018, the Corporation's commercial and construction loan portfolio held for investment decreased by \$182.6 million to \$3.6 billion, as compared to the balance as of December 31, 2017. The decrease was mainly related to the aforementioned transfer of \$57.2 million of non-performing loans to held for sale (net of fair value write downs of \$9.7 million recorded at the time of transfer in the first quarter of 2018), the repayment in 2018 of eight large commercial loans totaling \$91.4 million, the sale of three large commercial loans totaling \$25.2 million (including \$10.4 million of the aforementioned loans transferred to held for sale in the first quarter), and significant repayments that reduced the outstanding balance of eight commercial lines of credit in Puerto Rico by \$36.1 million.

The commercial and construction loan portfolio, including loans held for sale, decreased by \$116.9 million in the Puerto Rico region driven by two large commercial loans totaling \$23.7 million paid off during 2018, the sale of two large adversely-classified commercial loans totaling \$16.0 million, significant repayments that reduced the outstanding balance of eight commercial lines of credit in Puerto Rico by \$36.1 million, and charge-offs. In the Virgin Islands, commercial and construction loans decreased by \$20.9 million, driven by a \$6.7 million commercial mortgage loan paid off during 2018, the fair value write-down of \$5.1 million recorded on the construction loan transferred to held for sale in the first quarter of 2018, and a \$10.0 million decrease in the balance of a commercial line of credit of a United States Virgin Island ("USVI") government public corporation. In Florida, total commercial and construction loans increased by \$1.5 million, despite the effect of five large loans paid off during the first six months of 2018 totaling \$61.0 million and the sale of a \$9.2 million commercial loan participation.

As of June 30, 2018, the Corporation had \$54.6 million outstanding in loans extended to the Puerto Rico government, its municipalities and public corporations, compared to \$55.9 million as of December 31, 2017. Approximately \$33.1 million of the outstanding loans as of June 30, 2018 consisted of loans extended to municipalities in Puerto Rico, which in most cases are supported by assigned property tax revenues. The vast majority of revenues of the municipalities included in the Corporation's loan portfolio are independent of the Puerto Rico central government. These municipalities are required by law to levy special property taxes in such amounts as are required for the payment of all of their respective general obligation bonds and notes. Late in 2015, the GDB and the Municipal Revenue Collection Center ("CRIM") signed and perfected a deed of trust. Through this deed, the GDB, as fiduciary, is bound to keep the CRIM funds separate from any other deposits and must distribute the funds pursuant to applicable law. The CRIM funds are deposited at another commercial depository financial institution in Puerto Rico. In addition to loans extended to municipalities, the Corporation's exposure to the Puerto Rico government as of June 30, 2018 includes a \$6.7 million loans extended to a unit of the central government and a \$14.8 million loan granted to an affiliate of PREPA.

The Corporation also has credit exposure to USVI government entities. As of June 30, 2018, the Corporation had \$72.5 million in loans to USVI government instrumentalities and public corporations, compared to \$70.4 million as of December 31, 2017. Of the amount outstanding as of June 30, 2018, public corporations of the USVI owed approximately \$49.2 million and an independent instrumentality of the USVI government owed approximately \$23.2 million. As of June 30, 2018, all loans were currently performing and up to date with their respective principal and interest payments.

Furthermore, as of June 30, 2018, the Corporation had loans granted to the hotel industry in Puerto Rico that were formerly guaranteed by the TDF with an aggregate book value of \$46.2 million, compared to \$70.8 million as of December 31, 2017. Historically, the borrower and the operations of the underlying collateral of these loans have been the primary sources of repayment and the TDF, which is a subsidiary of the GDB, provided a secondary guarantee for payment performance. As part of agreements executed in the second quarter of 2017 and in the first quarter of 2018, the TDF paid \$7.6 million and \$4.0 million, respectively, to honor a portion of its guarantee on these loans. As provided in the agreements, the cash payments received by the Corporation released the TDF from its liability as a guarantor of these loans. In addition, the GDB agreed to issue to the Bank a fixed income

financial instrument pursuant to the GDB's Restructuring Support Agreement approved by the PROMESA oversight board. During the first quarter of 2018, the Corporation transferred to held for sale \$27.2 million (net of write-downs of \$4.6 million recorded at the time of transfer) in two of these three commercial mortgage loans. Subsequently, the Corporation sold in the second quarter of 2018 one of these loans that carried a book value of \$10.4 million. Also in the second quarter of 2018, the Corporation completed the split loan restructuring of the largest of these three facilities amounting to \$34 million. This loan relationship was restructured in the second quarter using the A/B note workout strategy in which note A, with an outstanding balance of \$29.4 million as of June 30, 2018 (net of approximately \$3.6 million of payments collected in the second quarter), was underwritten to comply with the Corporation's lending standards at current market rates. The A note was restored to accrual status at the time of the restructuring in the second quarter considering the borrower's sustained historical repayment performance before the restructuring that demonstrated its ability to make timely interest and principal payments under the restructured terms. The B note consists of amounts mostly charged-off in prior periods and is fully charged-off as of June 30, 2018. The sale and the loans split restructuring resulted in a \$44.4 million reduction in non-performing assets during the second quarter of 2018.

As of June 30, 2018, the Corporation's total exposure to shared national credit ("SNC") loans amounted to \$749.2 million. As of June 30, 2018, approximately \$267.0 million of the SNC exposure related to the portfolio in Puerto Rico and \$482.2 million related to the portfolio in the Florida region.

The composition of the Corporation's construction loan portfolio held for investment as of June 30, 2018 by category and geographic location follows:

As of June 30, 2018

| | Puerto Rico | Virgin Islands | United States | Total |
|---------------------------------------------------------------------|------------------------|---------------------------|--------------------------|--------------|
| (In thousands) | | | | |
| Loans for residential housing projects: | | | | |

| (In thousands) | |
| Under \$300k | \$ 587 |
| Over \$600k (1) | 597 |
| | \$ 1,184 |

(1) One residential housing project in Puerto Rico.

Consumer Loans and Finance Leases

As of June 30, 2018, the Corporation's consumer loan and finance lease portfolio increased by \$25.4 million to \$1.8 billion, as compared to the portfolio balance as of December 31, 2017. The increase was primarily reflected in auto, finance leases, and personal loans, which increased by \$11.7 million, \$25.8 million, and \$8.8 million, respectively, partially offset by reductions of \$14.5 million and \$3.9 million in credit card and boat loans, respectively. The increase was primarily associated with a higher level of consumer loan originations in the Puerto Rico region during the first half of 2018.

Loan Production

First BanCorp. relies primarily on its retail network of branches to originate residential and consumer loans. The Corporation supplements its residential mortgage originations with wholesale servicing released mortgage loan purchases from mortgage bankers. The Corporation manages its construction and commercial loan originations through centralized units and most of its originations come from existing customers, as well as through referrals and direct solicitations.

The following table provides a breakdown of First BanCorp.'s loan production, including purchases, refinancings, renewals and draws from existing revolving and non-revolving commitments, for the periods indicated:

| | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|---------------------------------------------------|------------------------|------------|---------------------------------|--------------|
| | 2018 | 2017 | 2018 | 2017 |
| | (In thousands) | | | |
| Residential real estate | \$ 140,344 | \$ 180,031 | \$ 261,118 | \$ 344,171 |
| Commercial and industrial and commercial mortgage | 377,277 | 538,175 | 712,352 | 1,062,870 |
| Construction | 8,949 | 9,382 | 19,633 | 34,997 |
| Finance leases | 41,533 | 25,781 | 69,011 | 50,169 |
| Consumer | 242,379 | 239,369 | 431,809 | 445,016 |
| Total loan production | \$ 810,482 | \$ 992,738 | \$ 1,493,923 | \$ 1,937,223 |

The Corporation is experiencing continued loan demand and has continued its targeted origination strategy. During the quarter and six-month period ended June 30, 2018, total loan originations, including purchases, refinancings, and draws from existing revolving and non-revolving commitments, amounted to approximately \$810.5 million and \$1.5

billion, respectively, compared to \$992.7 million and \$1.9 billion, respectively, for the comparable periods in 2017.

Residential mortgage loan originations and purchases for the quarter and six-month period ended June 30, 2018 amounted to \$140.3 million and \$261.1 million, respectively, compared to \$180.0 million and \$344.2 million, respectively, for the comparable periods in 2017. These statistics include purchases from mortgage bankers of \$15.2 million and \$29.7 million for the quarter and six-month period ended June 30, 2018, respectively, compared to \$17.7 million and \$32.4 million, respectively, for the comparable periods in 2017. The decrease of \$39.7 million in the second quarter of 2018, as compared to the same period of 2017, reflects declines of approximately \$4.2 million, \$33.0 million, and \$2.5 million in Puerto Rico, Florida, and the Virgin Islands, respectively. For the six-month period ended June 30, 2018, the decrease includes reductions of \$31.6 million, \$47.4 million, and \$4.1 million on the Puerto Rico, Florida, and the Virgin Islands regions, respectively.

Originations of auto loans (including finance leases) for the quarter and six-month period ended June 30, 2018 amounted to \$141.0 million and \$242.4 million, respectively, compared to \$116.3 million and \$221.7 million, respectively, for the comparable periods in 2017. The increases were primarily reflected in the Puerto Rico region with increases of \$25.4 million and \$21.8 million for the second quarter and six-month period ended June 30, 2018, compared to the same periods in 2017. Personal loan originations, other than credit cards, for the quarter and six-month period ended June 30, 2018 amounted to \$59.2 million and \$97.5 million, respectively, compared to \$62.2 million and \$110.0 million, respectively, for the comparable periods in 2017. Most of the decrease in personal loan originations was reflected in the Puerto Rico region. The utilization activity on the outstanding credit card portfolio for the quarter and six-month period ended June 30, 2018 amounted to approximately \$83.7 million and \$160.9 million, respectively, compared to \$86.6 million and \$163.5 million, respectively, for the comparable periods in 2017.

The above-mentioned statistics of residential mortgage, auto and finance leases in Puerto Rico show levels close or above pre-hurricane levels.

Commercial and construction loan originations (excluding government loans) for the second quarter of 2018 and 2017 amounted to \$383.8 million and \$547.6 million, respectively, while the originations for the six-month periods ended June 30, 2018 and 2017 amounted to \$716.0 million and \$1.1 billion, respectively. The decrease in the second quarter of 2018, compared to the same period in

2017, reflects a decrease of approximately \$128.3 million in the Puerto Rico region, primarily due to the effect in the second quarter of 2017 of the refinancing and renewal of two large commercial loans totaling \$72.5 million and reduced activity compared to pre-hurricane levels, and a decrease of approximately \$33.3 million in the Florida region. For the six-month period ended June 30, 2018, the decrease reflects the impact in 2017 of the refinancing and renewal of five large commercial loans in Puerto Rico totaling \$248.9 million and a decrease of \$31.3 million in commercial and construction loan originations in the Florida region.

Government loan originations for the quarter and six-month period ended June 30, 2018 amounted to \$2.4 million and \$16.0 million, respectively, mainly related to the utilization of an arranged overdraft line of credit of a government entity in the Virgin Islands region. No government loans were originated during the first six months of 2017.

Investment Activities

As part of its liquidity, revenue diversification and interest rate risk strategies, First BanCorp. maintains an investment portfolio that is classified as available for sale or held to maturity. The Corporation's total available-for-sale investment securities portfolio as of June 30, 2018 amounted to \$2.0 billion, a \$145.0 million increase from December 31, 2017. The increase was mainly driven by purchases of U.S. agency debt securities totaling \$302.9 million (average yield of 3.13%) and the purchase of a 6-month U.S. Treasury Bill of \$50 million, partially offset by prepayments of \$92.1 million of U.S. agency MBS, \$70 million of U.S. agency callable debt securities matured during 2018, and a \$31.5 million decrease in the fair value of available-for-sale investment securities.

As of June 30, 2018, approximately 99% of the Corporation's available-for-sale securities portfolio was invested in U.S. Government and agency debentures and fixed-rate U.S. government-sponsored agency MBS (mainly GNMA, FNMA and FHLMC fixed-rate securities).

As of June 30, 2018, the Corporation owned bonds of the Puerto Rico Housing Finance Authority in the aggregate amount of \$8.1 million, carried on the Corporation's books at their aggregate fair value of \$6.8 million, which were current as to contractual payments as of June 30, 2018.

As of June 30, 2018, the Corporation's held-to-maturity investment securities portfolio amounted to \$150.5 million, down \$0.1 million from December 31, 2017. Held-to-maturity investment securities consisted of financing arrangements with Puerto Rico municipalities issued in bond form, which are accounted for as securities, but were underwritten as loans with features that are typically found in commercial loans. These obligations typically are not issued in bearer form, are not registered with the SEC, and they are not rated by external credit agencies. These bonds have seniority to the payment of operating costs and expenses of the municipality and are supported by assigned property tax revenues. Approximately 70% of the Corporation's municipality bonds consisted of obligations issued by three of the largest municipalities in Puerto Rico. These municipalities are required by law to levy special property

taxes in such amounts as are required for the payment of all of their respective general obligation bonds and loans.

See “Exposure to Puerto Rico Government” below for information and details about the Corporation’s total direct exposure to the Puerto Rico government.

The following table presents the carrying value of investments as of the indicated dates:

| (In thousands) | June 30, 2018 | December 31, 2017 |
|---------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|----------------------------------|
| Money market investments | \$ 97,590 | \$ 10,415 |
| Investment securities available for sale, at fair value: | | |

|-------------------------------------------------------------------------------|--------------------------|------------------------------|
| Available for sale: | | |
| FHLMC certificates | \$ 343,146 | \$ 311,706 |
| GNMA certificates | 200,038 | 221,630 |
| FNMA certificates | 760,209 | 680,040 |
| Collateralized mortgage obligations issued or guaranteed by FHLMC and GNMA | 53,312 | 44,061 |
| Other mortgage pass-through certificates | 15,061 | 17,060 |
| Total mortgage-backed securities | \$ 1,371,766 | \$ 1,274,497 |

The carrying values of investment securities classified as available for sale and held to maturity as of June 30, 2018 by contractual maturity (excluding mortgage-backed securities) are shown below:

| (Dollars in thousands) | Carrying Amount | Weighted Average Yield % |
|---------------------------------------------------------------------|----------------------------|-----------------------------------------|
| U.S. Government and agencies obligations | | |
| Due within one year | \$ 132,035 | 1.33 |
| Due after one year through five years | 306,194 | 1.51 |
| Due after five years through ten years | 182,681 | 2.94 |
| Due after ten years | 36,491 | 2.28 |
| | 657,401 | 1.91 |
| Puerto Rico government and municipalities obligations | | |
| Due after one year through five years | 3,712 | 5.68 |
| Due after five years through ten years | 43,598 | 5.40 |
| Due after ten years | 110,019 | 5.82 |
| | 157,329 | 5.70 |
| Total | 814,730 | 2.64 |
| Mortgage-backed securities | 1,371,766 | 2.67 |
| Total investment securities available for sale and held to maturity | \$ 2,186,496 | 2.66 |

Net interest income of future periods could be affected by prepayments of mortgage-backed securities. Any acceleration in the prepayments of mortgage-backed securities would lower yields on these securities, as the amortization of premiums paid upon acquisition of these securities would accelerate. Conversely, acceleration of the prepayments of mortgage-backed securities would increase yields on securities purchased at a discount, as the amortization of the discount would accelerate. These risks are directly linked to future period market interest rate fluctuations. Also, net interest income in future periods might be affected by the Corporation's investment in callable securities. As of June 30, 2018, the Corporation had approximately \$292.7 million in debt securities (U.S. agencies and Puerto Rico government securities) with embedded calls and with an average yield of 2.42%. See "Risk Management" below for further analysis of the effects of changing interest rates on the Corporation's net interest income and of the interest rate risk management strategies followed by the Corporation. Also see Note 5, "Investment Securities," to the consolidated financial statements for additional information regarding the Corporation's investment portfolio.

RISK MANAGEMENT

Risks are inherent in virtually all aspects of the Corporation's business activities and operations. Consequently, effective risk management is fundamental to the success of the Corporation. The primary goals of risk management are to ensure that the Corporation's risk-taking activities are consistent with the Corporation's objectives and risk tolerance, and that there is an appropriate balance between risk and reward in order to maximize stockholder value.

The Corporation has in place a risk management framework to monitor, evaluate and manage the principal risks assumed in conducting its activities. First BanCorp.'s business is subject to eleven broad categories of risks: (1) liquidity risk; (2) interest rate risk; (3) market risk; (4) credit risk; (5) operational risk; (6) legal and compliance risk; (7) reputational risk; (8) model risk; (9) capital risk; (10) strategic risk; and (11) information technology risk. First BanCorp. has adopted policies and procedures designed to identify and manage the risks to which the Corporation is exposed.

The Corporation's risk management policies are described below as well as in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," of the 2017 Annual Report on Form 10-K.

Liquidity Risk and Capital Adequacy

Liquidity is the ongoing ability to accommodate liability maturities and deposit withdrawals, fund asset growth and business operations, and meet contractual obligations through unconstrained access to funding at reasonable market rates. Liquidity management involves forecasting funding requirements and maintaining sufficient capacity to meet liquidity needs and accommodate fluctuations in asset and liability levels due to changes in the Corporation's business operations or unanticipated events.

The Corporation manages liquidity at two levels. The first is the liquidity of the parent company, which is the holding company that owns the banking and non-banking subsidiaries. The second is the liquidity of the banking subsidiary. As of June 30, 2018, FirstBank could not pay any dividend to the holding company, except upon receipt of required regulatory approvals. During the first six months of 2018, the Corporation continued to pay quarterly interest payments on the subordinated debentures associated with its trust preferred securities and the monthly dividend income on its non-cumulative perpetual monthly income preferred stock pursuant to regulatory approvals.

The Asset and Liability Committee of the Board of Directors is responsible for establishing the Corporation's liquidity policy, as well as approving operating and contingency procedures and monitoring liquidity on an ongoing basis. The Management Investment and Asset Liability Committee (the "MIALCO"), using measures of liquidity developed by management that involve the use of several assumptions, reviews the Corporation's liquidity position on a monthly basis. The MIALCO oversees liquidity management, interest rate risk and other related matters.

The MIALCO, which reports to the Board of Directors' Asset and Liability Committee, is composed of senior management officers, including the Chief Executive Officer, the Chief Financial Officer, the Chief Risk Officer, the Retail Financial Services Director, the Risk Manager of the Treasury and Investments Division, the Financial Analysis and Asset/Liability Director and the Treasurer. The Treasury and Investments Division is responsible for planning and executing the Corporation's funding activities and strategy, monitoring liquidity availability on a daily basis, and reviewing liquidity measures on a weekly basis. The Treasury and Investments Accounting and Operations area of the Comptroller's Department is responsible for calculating the liquidity measurements used by the Treasury and Investment Division to review the Corporation's liquidity position on a monthly basis. The Financial Analysis and Asset/Liability Director estimates the liquidity gap for longer periods.

To ensure adequate liquidity through the full range of potential operating environments and market conditions, the Corporation conducts its liquidity management and business activities in a manner that will preserve and enhance funding stability, flexibility and diversity. Key components of this operating strategy include a strong focus on the continued development of customer-based funding, the maintenance of direct relationships with wholesale market funding providers, and the maintenance of the ability to liquidate certain assets when, and if, requirements warrant.

The Corporation develops and maintains contingency funding plans. These plans evaluate the Corporation's liquidity position under various operating circumstances and are designed to help ensure that the Corporation will be able to operate through periods of stress when access to normal sources of funds is constrained. The plans project funding requirements during a potential period of stress, specify and quantify sources of liquidity, outline actions and procedures for effectively managing through a difficult period, and define roles and responsibilities. Under the contingency funding plan, the Corporation stresses the balance sheet and the liquidity position to critical levels that imply difficulties in getting new funds or even maintaining the current funding position of the Corporation and the Bank and are designed to help ensure the ability of the Corporation and the Bank to honor its respective commitments, and has established liquidity triggers monitored by the MIALCO in order to maintain the ordinary funding of the banking business. Four different scenarios are defined in the contingency funding plan: local market event, credit rating downgrade, an economic cycle downturn event, and a concentration event. They are reviewed and approved annually by the Board of Directors' Asset and Liability Committee.

The Corporation manages its liquidity in a proactive manner and maintains a sound liquidity position. It uses multiple measures to monitor the liquidity position, including core liquidity, basic liquidity, and time-based reserve measures. As of June 30, 2018, the estimated core liquidity reserve (which includes cash and free liquid assets) was \$2.2 billion, or 17.8% of total assets, compared to \$1.9 billion or 15.6% of total assets as of December 31, 2017. The basic liquidity ratio (which adds available secured lines of credit to the core liquidity) was approximately 21.8% of total assets, compared to 21.2% of total assets as of December 31, 2017. The increase in core liquidity was largely driven by the aforementioned deposit build-up experienced after the hurricanes. As of June 30, 2018, the Corporation had \$491.6 million available for additional credit from the FHLB of New York. Unpledged liquid securities as of June 30, 2018, mainly fixed-rate MBS and U.S. agency debentures, amounted to approximately \$1.2 billion. The Corporation does not rely on uncommitted inter-bank lines of credit (federal funds lines) to fund its operations and does not include them in the basic liquidity measure. As of June 30, 2018, the holding company had \$24.6 million of cash and cash equivalents. Cash and cash equivalents at the Bank level as of June 30, 2018 were approximately \$881.6 million. The Bank had \$822.7 million in brokered CDs as of June 30, 2018, of which approximately \$457.8 million mature over the next twelve months. Liquidity at the Bank level is highly dependent on bank deposits, which fund 75% of the Bank's assets (or 68%, excluding brokered CDs).

Sources of Funding

The Corporation utilizes different sources of funding to help ensure that adequate levels of liquidity are available when needed. Diversification of funding sources is of great importance to protect the Corporation's liquidity from market disruptions. The principal sources of short-term funds are deposits, including brokered CDs, securities sold under agreements to repurchase, and lines of credit with the FHLB.

The Asset Liability Committee of the Board of Directors reviews credit availability on a regular basis. The Corporation has also sold mortgage loans as a supplementary source of funding. Long-term funding has also been obtained in the past through the issuance of notes and long-term brokered CDs. The cost of these different alternatives, among other things, is taken into consideration.

The Corporation has continued reducing the amounts of its outstanding brokered CDs. As of June 30, 2018, the amount of brokered CDs had decreased \$327.8 million to \$822.7 million from brokered CDs of \$1.2 billion as of December 31, 2017. At the same time as the Corporation focuses on reducing its reliance on brokered CDs, it is seeking to add core deposits. During the first six months of 2018, the Corporation increased non-brokered deposits, excluding government deposits, by \$367.5 million to \$7.6 billion as further discussed below.

The Corporation continues to have access to financing through counterparties to repurchase agreements, the FHLB, and other agents, such as wholesale funding brokers. While liquidity is an ongoing challenge for all financial institutions, management believes that the Corporation's available borrowing capacity and efforts to grow retail deposits will be adequate to provide the necessary funding for the Corporation's business plans in the foreseeable future.

The Corporation's principal sources of funding are:

Brokered CDs – Historically, a large portion of the Corporation's funding has been brokered CDs issued by FirstBank. Total brokered CDs decreased during the first six months of 2018 by \$327.8 million to \$822.7 million as of June 30, 2018.

The average remaining term to maturity of the retail brokered CDs outstanding as of June 30, 2018 was approximately 1.2 years.

The use of brokered CDs has historically been important for the growth of the Corporation. The Corporation encounters intense competition in attracting and retaining regular retail deposits in Puerto Rico. The brokered CD market is very competitive and liquid, and has enabled the Corporation to obtain substantial amounts of funding in short periods of time. This strategy has enhanced the Corporation's liquidity position, since brokered CDs are insured by the FDIC up to regulatory limits and can be obtained faster than regular retail deposits.

The following table presents contractual maturities of time deposits with denominations of \$100,000 or higher as of June 30, 2018:

| | Total |
|---------------------------------|----------------|
| | (In thousands) |
| Three months or less | \$ 477,766 |
| Over three months to six months | 371,689 |
| Over six months to one year | 535,057 |
| Over one year | 1,055,447 |
| Total | \$ 2,439,959 |

Certificates of deposit in denominations of \$100,000 or higher include brokered CDs of \$822.7 million issued to deposit brokers in the form of large certificates of deposit that are generally participated out by brokers in shares of less than the FDIC insurance limit.

Government deposits – As of June 30, 2018, the Corporation had \$634.4 million of Puerto Rico public sector deposits (\$535.7 million in transactional accounts and \$98.8 million in time deposits), compared to \$490.3 million as of December 31, 2017. Approximately 31% is from municipalities and municipal agencies in Puerto Rico and 69% is from public corporations and the central government and agencies. Most of the increase in 2018 was related to higher balances in transactional deposit accounts of certain municipalities in Puerto Rico.

In addition, as of June 30, 2018, the Corporation had \$174.3 million of government deposits in the Virgin Islands, compared to \$162.6 million as of December 31, 2017.

Retail deposits – The Corporation's deposit products also include regular saving accounts, demand deposit accounts, money market accounts and retail CDs. Total deposits, excluding brokered CDs and government deposits, increased by \$367.5 million to \$7.6 billion from the balance of \$7.2 billion as of December 31, 2017. The higher balance reflects increases of \$288.4 million and \$114.2 million in Puerto Rico and the Virgin Islands, respectively, partially offset by a \$35.2 million decrease in Florida. After the hurricanes and during the fourth quarter of 2017 and the first six months of 2018, the Corporation experienced rapid accumulation of deposits. Total deposits as of June 30, 2018, excluding brokered CDs and government deposits, increased \$367.5 million from December 31, 2017 and \$743.6 million since September 30, 2017. The most significant increase was in non-interest-bearing demand deposits, which grew 26%, or \$483.5 million, between December 31, 2017 and June 30, 2018, and \$730.9 million, or 46%, between September 30, 2017 and June 30, 2018. Hurricane-related factors, such as the effect of disaster relief funds and settlement of insurance claims, continue to contribute to this growth. Although management expects the balances accumulated by deposit customers in the hurricane-affected areas to reduce over time, it is difficult to predict when and to what degree, and there may be further growth as insurance claims are resolved and additional disaster-recovery

funds are distributed. See Note 15, “Deposits,” in the consolidated financial statements for further details.

See “Results of Operations – Net Interest Income” above for information about average balances of interest-bearing deposits, and the average interest rate paid on deposits for the quarters and six-month periods ended June 30, 2018 and 2017.

Securities sold under agreements to repurchase - The Corporation’s investment portfolio is funded in part with repurchase agreements. The Corporation’s outstanding securities sold under repurchase agreements amounted to \$400 million as of June 30, 2018, compared to \$500 million as of December 31, 2017. The Corporation repaid at maturity a \$100 million short-term repurchase agreement carried at a cost of 1.53%. One of the Corporation’s strategies has been the use of structured repurchase agreements and long-term repurchase agreements to reduce liquidity risk and manage exposure to interest rate risk by lengthening the final maturities of its liabilities while keeping funding costs at reasonable levels. In addition to these repurchase agreements, the Corporation has been able to maintain access to credit by using cost-effective sources such as FHLB advances. See Note 16, “Securities Sold Under Agreements to Repurchase,” in the consolidated financial statements for further details about repurchase agreements outstanding by counterparty and maturities.

As of June 30, 2018, the Corporation had \$200 million of reverse repurchase agreements with a counterparty under a master netting arrangement that provides for a right of setoff that meets the conditions of ASC Topic 210-20-45-11 for a net presentation. These repurchase agreements and reverse repurchase agreements are presented net on the consolidated statement of financial condition.

Under the Corporation’s repurchase agreements, as is the case with derivative contracts, the Corporation is required to pledge cash or qualifying securities to meet margin requirements. To the extent that the value of securities previously pledged as collateral declines due to changes in interest rates, a liquidity crisis or any other factor, the Corporation is required to deposit additional cash or securities to meet its margin requirements, thereby adversely affecting its liquidity.

Given the quality of the collateral pledged, the Corporation has not experienced margin calls from counterparties arising from credit-quality-related write-downs in valuations.

Advances from the FHLB – The Bank is a member of the FHLB system and obtains advances to fund its operations under a collateral agreement with the FHLB that requires the Bank to maintain qualifying mortgages and/or investments as collateral for advances taken. As of each of June 30, 2018 and December 31, 2017, the outstanding balance of FHLB advances was \$715.0 million. As of June 30, 2018, the Corporation had \$491.6 million available for additional credit on FHLB lines of credit.

Trust-Preferred Securities – In 2004, FBP Statutory Trust I, a statutory trust that is wholly-owned by the Corporation and not consolidated in the Corporation's financial statements, sold to institutional investors \$100 million of its variable-rate trust-preferred securities. FBP Statutory Trust I used the proceeds of the issuance, together with the proceeds of the purchase by the Corporation of \$3.1 million of FBP Statutory Trust I variable rate common securities, to purchase \$103.1 million aggregate principal amount of the Corporation's Junior Subordinated Deferrable Debentures.

Also in 2004, FBP Statutory Trust II, a statutory trust that is wholly-owned by the Corporation and not consolidated in the Corporation's financial statements, sold to institutional investors \$125 million of its variable-rate trust-preferred securities. FBP Statutory Trust II used the proceeds of the issuance, together with the proceeds of the purchase by the Corporation of \$3.9 million of FBP Statutory Trust II variable rate common securities, to purchase \$128.9 million aggregate principal amount of the Corporation's Junior Subordinated Deferrable Debentures.

The trust-preferred debentures are presented in the Corporation's consolidated statement of financial condition as Other Borrowings. The variable-rate trust-preferred securities are fully and unconditionally guaranteed by the Corporation. The \$100 million Junior Subordinated Deferrable Debentures issued by the Corporation in April 2004 and the \$125 million issued in September 2004 mature on June 17, 2034 and September 20, 2034, respectively; however, under certain circumstances, the maturity of the subordinated debentures may be shortened (such shortening would result in a mandatory redemption of the variable-rate trust-preferred securities). The Collins Amendment of the Dodd-Frank Act eliminated certain trust-preferred securities from Tier 1 Capital. Bank holding companies such as the Corporation were required to fully phase out these instruments from Tier I capital in January 1, 2016; however, they may remain in Tier 2 capital until the instruments are redeemed or mature.

As mentioned above, during the first quarter of 2018, the Corporation completed the repurchase of \$23.8 million of trust-preferred securities of the FBP Statutory Trust I that were being auctioned in a public sale at which the Corporation was invited to participate. The Corporation repurchased and cancelled the repurchased trust-preferred securities, resulting in a commensurate reduction in the related subordinated debenture. As of June 30, 2018, the Corporation still had subordinated debentures outstanding in the aggregate amount of \$184.2 million.

During the second quarter of 2016, the Corporation received approval from the Federal Reserve and paid \$31.2 million for all the accrued but deferred interest payments, plus the interest for the 2016 second quarter on the Corporation's subordinated debentures associated with its trust preferred securities. Subsequently, the Corporation received quarterly regulatory approvals and made scheduled quarterly interest payments. As of June 30, 2018, the Corporation was current on all interest payments due related to its subordinated debentures. On October 3, 2017, the New York FED terminated the Written Agreement entered into on June 3, 2010 between the Corporation and the Federal Reserve. However, the Corporation has agreed with its regulators to continue to obtain approval before paying dividends, receiving dividends from the Bank, making payments on subordinated debt or trust-preferred securities, incurring or guaranteeing debt or purchasing or redeeming any corporate stock. The Corporation has received approval to make the subordinated debenture quarterly payment for September 30, 2018. The Corporation intends to request approval for future periods to continue regularly- scheduled quarterly payments.

Other Sources of Funds and Liquidity - The Corporation's principal uses of funds are for the origination of loans and the repayment of maturing deposits and borrowings. In connection with its mortgage banking activities, the Corporation has invested in technology and personnel to enhance the Corporation's secondary mortgage market capabilities.

The enhanced capabilities improve the Corporation's liquidity profile as they allow the Corporation to derive liquidity, if needed, from the sale of mortgage loans in the secondary market. The U.S. (including Puerto Rico) secondary mortgage market is still highly liquid, in large part because of the sale of mortgages through guarantee programs of the FHA, VA, HUD, FNMA and FHLMC. During the first six months of 2018, the Corporation sold approximately \$119.8 million of FHA/VA mortgage loans to GNMA, which packages them into mortgage-backed securities. Any regulatory actions affecting GNMA, FNMA or FHLMC could adversely affect the secondary mortgage market.

Although currently not in use, other potential sources of short-term funding for the Corporation include commercial paper and federal funds purchased. Furthermore, in previous years, the Corporation entered into several financing transactions to diversify its funding sources, including the issuance of notes payable and, as noted above, junior subordinated debentures as part of its longer-term

liquidity and capital management activities. No assurance can be given that these sources of liquidity will be available in the future and, if available, will be on comparable terms.

Effect of Credit Ratings on Access to Liquidity

The Corporation's liquidity is contingent upon its ability to obtain external sources of funding to finance its operations. The Corporation's current credit ratings and any further downgrade in credit ratings can hinder the Corporation's access to new forms of external funding and/or cause external funding to be more expensive, which could in turn adversely affect results of operations. Also, changes in credit ratings may further affect the fair value of unsecured derivatives that consider the Corporation's own credit risk as part of the valuation.

The Corporation does not have any outstanding debt or derivative agreements that would be affected by credit downgrades. Furthermore, given the Corporation's non-reliance on corporate debt or other instruments directly linked in terms of pricing or volume to credit ratings, the liquidity of the Corporation so far has not been affected in any material way by downgrades. The Corporation's ability to access new non-deposit sources of funding, however, could be adversely affected by credit downgrades.

As of June 30, 2018, the Corporation's credit as a long-term issuer was rated B+ by S&P and B- by Fitch. At the FirstBank subsidiary level, long-term issuer ratings as of June 30, 2018 were Caa1 by Moody's, seven notches below their definition of investment grade, B+ by S&P, four notches below their definition of investment grade, and B- by Fitch, six notches below their definition of investment grade. The Corporation's credit ratings are dependent on a number of factors, both quantitative and qualitative, and are subject to change at any time. The disclosure of credit ratings is not a recommendation to buy, sell or hold the Corporation's securities. Each rating should be evaluated independently of any other rating.

Cash Flows

Cash and cash equivalents were \$888.4 million as of June 30, 2018, an increase of \$172.0 million when compared to the balance as of December 31, 2017. The following discussion highlights the major activities and transactions that affected the Corporation's cash flows during the first six months of 2018 and 2017:

Cash Flows from Operating Activities

First BanCorp.'s operating assets and liabilities vary significantly in the normal course of business due to the amount and timing of cash flows. Management believes cash flows from operations, available cash balances and the Corporation's ability to generate cash through short- and long-term borrowings will be sufficient to fund the Corporation's operating liquidity needs for the foreseeable future.

For the first six months of 2018 and 2017, net cash provided by operating activities was \$158.3 million and \$131.6 million, respectively. Net cash generated from operating activities was higher than reported net income largely as a result of adjustments for items such as the provision for loan and lease losses, depreciation and amortization, and impairments, as well as the cash generated from sales of loans held for sale.

Cash Flows from Investing Activities

The Corporation's investing activities primarily relate to originating loans to be held for investment and the purchasing, selling and repaying available-for-sale and held-to-maturity investment securities. For the six-month period ended June 30, 2018, net cash used in investing activities was \$57.4 million, primarily reflecting the effect of purchases of U.S. agency debt securities, partially offset by U.S. agency MBS prepayments and proceeds from the aforementioned sales of adversely-classified commercial loans and seasoned residential mortgage loans.

For the six-month period ended June 30, 2017, net cash provided by investing activities was \$64.3 million, primarily reflecting U.S. agency MBS prepayments and proceed from the sales of the PREPA credit line and non-performing bonds of GDB and the Puerto Rico Public Buildings Authority.

Cash Flows from Financing Activities

The Corporation's financing activities primarily include the receipt of deposits and the issuance of brokered CDs, the issuance and payments on long-term debt, the issuance of equity instruments and activities related to its short-term funding. During the six-month period ended June 30, 2018, net cash provided by financing activities was \$71.2 million, mainly reflecting the effect of the increases in non-brokered deposits, partially offset by repayments of maturing brokered CDs and a \$100 million short-term repurchase agreement, as well as the repurchase of trust-preferred securities.

In the first six months of 2017, net cash used in financing activities was \$63.0 million, mainly due to repayments of maturing brokered CDs.

Capital

As of June 30, 2018, the Corporation's stockholders' equity was \$1.9 billion, an increase of \$32.6 million from December 31, 2017. The increase was mainly driven by the earnings generated in the first six months of 2018, partially offset by the decrease in the fair value of available-for-sale investment securities recorded as part of other comprehensive loss. On December 31, 2016, for the first time since July 2009, the Corporation paid dividends on its non-cumulative perpetual monthly income preferred stock, after receiving regulatory approval. Since then, the Corporation has continued to pay monthly dividend payments on the non-cumulative perpetual monthly income preferred stock. As mentioned above, on October 3, 2017, the Federal Reserve terminated the Written Agreement entered into on June 3, 2010 between the Corporation and the Federal Reserve. However, the Corporation has agreed with its regulators to continue to obtain approval before paying dividends, receiving dividends from the Bank, making payments on subordinated debt or trust preferred securities, incurring or guaranteeing debt or purchasing or redeeming any corporate stock. The Corporation received regulatory approvals to pay the monthly dividends on the Corporation's Series A through E Preferred Stock through September 2018. The Corporation intends to request approval in future periods to continue to pay monthly dividend payments on the non-cumulative perpetual monthly income preferred stock.

Set forth below are First BanCorp.'s and FirstBank's regulatory capital ratios as of June 30, 2018 and December 31, 2017:

| | Banking Subsidiary | | | | To be well capitalized - General thresholds |
|----------------------------------------------------------------------------------------------|---------------------------|------------------------------------------|------------------|------------------------------------------|----------------------------------------------------------------|
| | First BanCorp. | | FirstBank | | |
| | Actual | Fully Phased-in⁽¹⁾ | Actual | Fully Phased-in⁽¹⁾ | |
| As of June 30, 2018 | | | | | |
| Total capital ratio (Total capital to risk-weighted assets) | 23.47% | 22.92% | 22.98% | 22.44% | 10.00% |
| Common Equity Tier 1 capital ratio (Common equity Tier 1 capital to risk-weighted assets) | 19.73% | 19.24% | 18.17% | 17.72% | 6.50% |
| Tier 1 capital ratio (Tier 1 capital to risk-weighted assets) | 20.14% | 19.65% | 21.72% | 21.18% | 8.00% |
| Leverage ratio | 14.35% | 14.35% | 15.48% | 15.48% | 5.00% |

| | Banking Subsidiary | | |
|--|---------------------------|------------------|-----------------------------------|
| | First BanCorp. | FirstBank | To be well capitalized |

| | | Fully | | Fully | | - General thresholds |
|----------------------------------------------------------------------------------------------|---------------|---------------------------------|---------------|---------------------------------|--|---------------------------------|
| As of December 31, 2017 | Actual | Phased-in ⁽¹⁾ | Actual | Phased-in ⁽¹⁾ | | |
| Total capital ratio (Total capital to risk-weighted assets) | 22.53% | 21.99% | 22.06% | 21.53% | | 10.00% |
| Common Equity Tier 1 capital ratio (Common equity Tier 1 capital to risk-weighted assets) | 18.96% | 18.09% | 17.70% | 16.86% | | 6.50% |
| Tier 1 capital ratio (Tier 1 capital to risk-weighted assets) | 18.97% | 18.49% | 20.79% | 20.26% | | 8.00% |
| Leverage ratio | 14.03% | 14.01% | 15.39% | 15.37% | | 5.00% |

(1) Certain adjustments required under Basel III rules will be phased-in through the end of 2018 although certain elements of the Basel III rules have recently been deferred by the federal banking agencies. The ratios shown in this column were calculated assuming a fully phased-in adjustments as if they were effective as of June 30, 2018 and December 31, 2017.

Although the Corporation and FirstBank became subject to the Basel III rules beginning on January 1, 2015, certain requirements of the Basel III rules are being phased-in over several years and, in general, were intended to be fully effective as of January 1, 2019. The federal banking agencies have recently deferred certain elements of the Basel III rules. The Corporation and FirstBank compute risk-weighted assets using the Standardized Approach required by the Basel III rules.

The Basel III rules require the Corporation to maintain an additional capital conservation buffer of 2.5% to avoid limitations on both (i) capital distributions (e.g., repurchases of capital instruments, dividends and interest payments on capital instruments) and (ii) discretionary bonus payments to executive officers and heads of major business lines. The phase-in of the capital conservation buffer began on January 1, 2016 with a first year requirement of 0.625% of additional Common Equity Tier 1 capital (“CET1”), which is being progressively increased by that same percentage amount on each subsequent January 1 until it reaches the fully phased-in 2.5% CET1 requirement on January 1, 2019.

Under the fully phased-in Basel III rules, in order to be considered adequately capitalized, the Corporation will be required to maintain: (i) a minimum CET1 capital to risk-weighted assets ratio of at least 4.5%, plus the 2.5% “capital conservation buffer,” resulting in a required minimum CET1 ratio of at least 7%, (ii) a minimum ratio of total Tier 1 capital to risk-weighted assets of at least 6.0%, plus the 2.5% capital conservation buffer, resulting in a required minimum Tier 1 capital ratio of 8.5%, (iii) a minimum ratio of total Tier 1 plus Tier 2 capital to risk-weighted assets of at least 8.0%, plus the 2.5% capital conservation buffer, resulting in a required minimum total capital ratio of 10.5%, and (iv) a required minimum leverage ratio of 4%, calculated as the ratio of Tier 1 capital to average on-balance sheet (non-risk adjusted) assets.

In addition, as required under Basel III rules, the Corporation’s trust-preferred securities (“TRUPs”) were fully phased out from Tier 1 capital on January 1, 2016. However, the Corporation’s TRUPs may continue to be included in Tier 2 capital until the instruments are redeemed or mature.

On November 21, 2017, the Federal Reserve Board, the FDIC, and the Office of the Comptroller of the Currency finalized an extension of the phase-in of certain Basel III capital rules for banks not using the Basel advanced approaches capital rule. The extension, which was effective on January 1, 2018, pauses the full transition of the Basel III treatment of mortgage servicing assets, certain deferred tax assets, and investments in the capital of unconsolidated financial institutions and minority interests, pending the banking agencies’ broader efforts, announced in September 2017, to simplify the regulatory capital rules that apply to banking organizations that are not subject to the advanced approaches capital rules. Because the advanced approaches capital rules apply to banking organizations with more than \$250 billion in assets or foreign bank subsidiaries with more than \$10 billion in assets, the extension relief applies broadly to community, midsize, and regional banks, including the Corporation and FirstBank.

The tangible common equity ratio and tangible book value per common share are non-GAAP financial measures generally used by the financial community to evaluate capital adequacy. Tangible common equity is total equity less preferred equity, goodwill, core deposit intangibles, purchased credit card relationship assets and insurance customer

relationship intangible assets. Tangible assets are total assets less goodwill, core deposit intangibles, purchased credit card relationship and insurance customer relationship intangible assets. See “Basis of Presentation” below for additional information.

The following table is a reconciliation of the Corporation's tangible common equity and tangible assets as of June 30, 2018 and December 31, 2017, respectively:

| (In thousands, except ratios and per share information) | June 30, 2018 | December 31, 2017 |
|---------------------------------------------------------|--------------------------|------------------------------|
| Total equity - GAAP | \$ 1,901,679 | \$ 1,869,097 |
| Preferred equity | (36,104) | (36,104) |
| Goodwill | (28,098) | (28,098) |
| Purchased credit card relationship intangible | (6,851) | (8,000) |
| Core deposit intangible | (4,835) | (5,478) |
| Insurance customer relationship intangible | (699) | (775) |
| Tangible common equity | \$ 1,825,092 | \$ 1,790,642 |
| | | |
| Total assets - GAAP | \$ 12,384,862 | \$ 12,261,268 |
| Goodwill | (28,098) | (28,098) |
| Purchased credit card relationship intangible | (6,851) | (8,000) |
| Core deposit intangible | (4,835) | (5,478) |
| Insurance customer relationship intangible | (699) | (775) |
| Tangible assets | \$ 12,344,379 | \$ 12,218,917 |
| Common shares outstanding | 217,185 | 216,278 |
| | | |
| Tangible common equity ratio | 14.78% | 14.65% |
| Tangible book value per common share | \$ 8.40 | \$ 8.28 |

On May 17, 2018, the U.S. Department of the Treasury fully exercised its warrant to purchase 1,285,899 shares of the Corporation's common stock on a cashless basis, resulting in the issuance of 730,571 shares of common stock.

The Banking Law of the Commonwealth of Puerto Rico requires that a minimum of 10% of FirstBank's net income for the year be transferred to legal surplus until such surplus equals the total of paid-in-capital on common and preferred stock. Amounts transferred to the legal surplus account from the retained earnings account are not available for distribution to the Corporation, including for payment as dividends to the stockholders, without the prior consent of the Puerto Rico Commissioner of Financial Institutions. The Puerto Rico Banking Law provides that, when the expenditures of a Puerto Rico commercial bank are greater than receipts, the excess of the expenditures over receipts must be charged against the undistributed profits of the bank, and the balance, if any, must be charged against the legal surplus reserve, as a reduction thereof. If there is no legal surplus reserve sufficient to cover such balance, in whole or in part, the outstanding amount must be charged against the capital account and the Bank cannot pay dividends until it can replenish the legal surplus reserve to an amount equal to at least 20% of the original capital contributed. During the fourth quarter of 2017, \$7.3 million was transferred to the legal surplus reserve. FirstBank's legal surplus reserve, included as part of retained earnings in the Corporation's consolidated statement of financial condition, amounted to \$59.7 million as of June 30, 2018. There were no transfers to the legal surplus reserve during the first six months of 2018.

Off -Balance Sheet Arrangements

In the ordinary course of business, the Corporation engages in financial transactions that are not recorded on the balance sheet, or may be recorded on the balance sheet in amounts that are different from the full contract or notional amount of the transaction. These transactions are designed to (1) meet the financial needs of customers, (2) manage the Corporation's credit, market and liquidity risks, (3) diversify the Corporation's funding sources, and (4) optimize capital.

As a provider of financial services, the Corporation routinely enters into commitments with off-balance sheet risk to meet the financial needs of its customers. These financial instruments may include loan commitments and standby letters of credit. These commitments are subject to the same credit policies and approval process used for on-balance sheet instruments. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the statement of financial position. As of June 30, 2018, commitments to extend credit amounted to approximately \$1.2 billion, of which \$663.7 million related to credit card loans. Commercial and financial standby letters of credit amounted to approximately \$58.7 million. Commitments to extend credit are agreements to lend to customers as long as the conditions established in the contract are met.

Contractual Obligations, Commitments and Contingencies

The following table presents information about the maturities of the Corporation's contractual obligations and commitments, which consist of CDs, long-term contractual debt obligations, commitments to sell mortgage loans and commitments to extend credit:

**Contractual Obligations and Commitments
As of June 30, 2018**

| | Total | Less than 1 year | 1-3 years | 3-5 years | After 5 years |
|----------------------------------------------------|--------------|-----------------------------|------------------|------------------|--------------------------|
| (In thousands) | | | | | |
| Contractual obligations: | | | | | |
| Certificates of deposit | \$ 3,212,048 | \$ 1,824,249 | \$ 1,028,191 | \$ 353,893 | \$ 5,715 |
| Securities sold under agreements to repurchase (1) | 200,000 | - | - | 200,000 | - |
| Advances from FHLB | 715,000 | 95,000 | 420,000 | 200,000 | - |
| Other borrowings | 184,150 | - | - | - | 184,150 |
| Total contractual obligations | \$ 4,311,198 | \$ 1,919,249 | \$ 1,448,191 | \$ 753,893 | \$ 189,865 |
| Commitments to sell mortgage loans | \$ 6,304 | | | | |
| Standby letters of credit | \$ 2,728 | | | | |
| Commitments to extend credit: | | | | | |
| Lines of credit | \$ 1,130,187 | | | | |
| Letters of credit | 55,997 | | | | |
| Construction undisbursed funds | 63,551 | | | | |
| Total commercial commitments | \$ 1,249,735 | | | | |

(1) Reported net of reverse repurchase agreement by counterparty, when applicable, pursuant to ASC Topic 210-20-45-11.

The Corporation has obligations and commitments to make future payments under contracts, such as debt and lease agreements, and under other commitments to sell mortgage loans at fair value and to extend credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Other contractual obligations result mainly from contracts for the rental and maintenance of equipment. Since certain commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. For most of the commercial lines of credit, the Corporation has the option to reevaluate the agreement prior to additional disbursements. There have been no significant or unexpected draws on existing commitments. In the case of credit cards and personal lines of credit, the Corporation can cancel the unused credit facility at any time and without cause.

Interest Rate Risk Management

First BanCorp. manages its asset/liability position in order to limit the effects of changes in interest rates on net interest income and to maintain stability of profitability under varying interest rate scenarios. The MIALCO oversees interest rate risk, and the MIALCO's meetings focus on, among other things, current and expected conditions in world financial markets, competition and prevailing rates in the local deposit market, liquidity, the pipeline of loan originations, securities market values, recent or proposed changes to the investment portfolio, alternative funding sources and related costs, hedging and the possible purchase of derivatives such as swaps and caps, and any tax or regulatory issues that may be pertinent to these areas. The MIALCO approves funding decisions in light of the Corporation's overall strategies and objectives.

On a quarterly basis, the Corporation performs a consolidated net interest income simulation analysis to estimate the potential change in future earnings from projected changes in interest rates. These simulations are carried out over a one-to-five-year time horizon, assuming upward and downward yield curve shifts. The rate scenarios considered in these simulations reflect gradual upward and downward interest rate movements of 200 basis points during a twelve-month period. Simulations are carried out in two ways:

- (1) Using a static balance sheet, as the Corporation had on the simulation date, and
- (2) Using a dynamic balance sheet based on recent patterns and current strategies.

The balance sheet is divided into groups of assets and liabilities by maturity or re-pricing structure and their corresponding interest yields and costs. As interest rates rise or fall, these simulations incorporate expected future lending rates, current and expected future funding sources and costs, the possible exercise of options, changes in prepayment rates, deposit decay and other factors, which may be important in projecting net interest income.

The Corporation uses a simulation model to project future movements in the Corporation's balance sheet and income statement. The starting point of the projections corresponds to the actual values on the balance sheet on the date of the simulations.

These simulations are highly complex, and are based on many assumptions that are intended to reflect the general behavior of the balance sheet components over the period in question. It is unlikely that actual events will match these assumptions in most cases. For this reason, the results of these forward-looking computations are only approximations of the true sensitivity of net interest income to changes in market interest rates. Several benchmark and market rate curves were used in the modeling process, primarily the LIBOR/SWAP curve, Prime, Treasury, FHLB rates, brokered CD rates, repurchase agreements rates and the mortgage commitment rate of 30 years.

The 12-month net interest income is forecasted assuming the June 30, 2018 interest rate curves remain constant. Then, net interest income is estimated under rising and falling rate scenarios. For the rising rate scenario, a gradual (ramp) parallel upward shift of the yield curve is assumed during the first 12 months (the "+200 ramp" scenario). Conversely, for the falling rate scenario, a gradual (ramp) parallel downward shift of the yield curve is assumed during the first 12 months (the "-200 ramp" scenario). However, given the current low levels of interest rates, a full downward shift of 200 basis points would represent an unrealistic scenario. Therefore, under the falling rate scenario, rates move downward up to 200 basis points, but without reaching zero. The resulting scenario shows interest rates close to zero in most cases, reflecting a flattening yield curve instead of a parallel downward scenario.

The Libor/Swap curve for June 2018, as compared to December 2017, reflected a 63 basis points increase in the short-term horizon, between 1 to 12 months, while market rates increased by 68 basis points in the medium term, that is, between 2 to 5 years. In the long-term, that is, over a 5-year time horizon, market rates increased by 53 basis points, causing a more flattened yield curve. The U.S. Treasury curve in the short-term increased by 55 basis points and in the medium-term horizon increased by 59 basis points as compared to the December 2017 end of month levels. The long-term horizon increased by 34 basis points as compared to December 2017 end of month levels.

The following table presents the results of the simulations as of June 30, 2018 and December 31, 2017. Consistent with prior years, these exclude non-cash changes in the fair value of derivatives:

| | June 30, 2018 | | | | December 31, 2017 | | | |
|-----------------------|-------------------------------------------|---------------|------------------------------|---------------|-------------------------------------------|---------------|------------------------------|---------------|
| | Net Interest Income Risk | | | | Net Interest Income Risk | | | |
| | (Projected for the next 12 months) | | | | (Projected for the next 12 months) | | | |
| | Static Simulation | | Growing Balance Sheet | | Static Simulation | | Growing Balance Sheet | |
| | Change | Change | Change | Change | Change | Change | Change | Change |
| | | % | | % | | % | | % |
| (Dollars in millions) | | | | | | | | |
| + 200 bps ramp | \$ 18.0 | 3.40% | \$ 17.3 | 3.15% | \$ 18.0 | 3.55% | \$ 17.5 | 3.42% |
| - 200 bps ramp | \$ (16.2) | (3.05)% | \$ (18.0) | (3.27)% | \$ (14.6) | (2.89)% | \$ (17.7) | (3.47)% |

The Corporation continues to manage its balance sheet structure to control the overall interest rate risk. As of June 30, 2018, the simulations showed that the Corporation maintained an asset-sensitive position. The Corporation has continued repositioning the balance sheet and improving the funding mix, driven by an increase in the average balance of non-interest-bearing deposits and reductions in brokered CDs, short-term repurchase agreements and other borrowings. The above-mentioned growth in non-interest-bearing deposits, along with proceeds from US agency mortgage-backed securities and loan repayments, has helped the Corporation continue to maintain high liquidity levels.

Taking into consideration the above-mentioned facts for modeling purposes, the net interest income for the next 12 months under a non-static balance sheet scenario is estimated to increase by \$17.3 million in the rising rate scenario when compared against the Corporation's flat or unchanged interest rate forecast scenario. Under the falling rate, non-static scenario, the net interest income is estimated to decrease by \$18.0 million.

Derivatives

First BanCorp. uses derivative instruments and other strategies to manage its exposure to interest rate risk caused by changes in interest rates that are beyond management's control.

The following summarizes major strategies, including derivative activities, that the Corporation uses in managing interest rate risk:

Interest rate cap agreements - Interest rate cap agreements provide the right to receive cash if a reference interest rate rises above a contractual rate. The value increases as the reference interest rate rises. The Corporation enters into

interest rate cap agreements for protection from rising interest rates.

Forward Contracts - Forward contracts are sales of TBAs that will settle over the standard delivery date and do not qualify as “regular-way” security trades. Regular-way security trades are contracts that have no net settlement provision and no market mechanism to facilitate net settlement and provide for delivery of a security within the timeframe generally established by regulations or conventions in the market-place or exchange in which the transaction is being executed. The forward sales are considered derivative instruments that need to be marked-to-market. These securities are used to hedge the FHA/VA residential mortgage loan securitizations of the mortgage-banking operations. Unrealized gains (losses) are recognized as part of mortgage banking activities in the consolidated statement of income.

For detailed information regarding the volume of derivative activities (e.g., notional amounts), location and fair values of derivative instruments in the consolidated statements of financial condition and the amount of gains and losses reported in the consolidated statements of income, see Note 11, “Derivative Instruments and Hedging Activities,” in the consolidated financial statements.

The following tables summarize the fair value changes in the Corporation's derivatives, as well as the sources of the fair values:

| (In thousands) | Asset Derivatives Six-Month Period Ended June 30, 2018 | Liability Derivatives Six-Month Period Ended June 30, 2018 |
|-----------------------------------------------------------------------|---------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| Fair value of contracts outstanding as of the beginning of the period | \$ 312 | \$ (324) |
| Changes in fair value during the period | 494 | (597) |
| Fair value of contracts outstanding as of June 30, 2018 | \$ 806 | \$ (921) |

Sources of Fair Value

| (In thousands) As of June 30, 2018 | Maturity by Period | | | | Total Fair Value |
|------------------------------------------------------------------|--------------------------------------------|-------------------------------|-----------------------------------|------------------------------------------------------|-----------------------------|
| | Maturity Less Than One Year | Maturity 1-3 Years | Maturity 3-5 Years | Maturity in Excess of 5 Years | |
| Pricing from observable market inputs - Asset Derivatives | \$ 7 | \$ 799 | \$ - | \$ - | \$ 806 |
| Pricing from observable market inputs - Liability Derivatives | (122) | (799) | - | - | (921) |
| | \$ (115) | \$ - | \$ - | \$ - | \$ (115) |

Derivative instruments, such as interest rate caps, are subject to market risk. As is the case with investment securities, the market value of derivative instruments is largely a function of the financial market's expectations regarding the future direction of interest rates. Accordingly, current market values are not necessarily indicative of the future impact of derivative instruments on earnings. This will depend, for the most part, on the level of interest rates, as well as the expectations for rates in the future.

As of June 30, 2018 and December 31, 2017, all of the derivative instruments held by the Corporation were considered undesignated economic hedges.

The use of derivatives involves market and credit risk. The market risk of derivatives stems principally from the potential for changes in the value of derivative contracts based on changes in interest rates. The credit risk of derivatives arises from the potential for default of the counterparty. To manage this credit risk, the Corporation deals with counterparties of good credit standing, enters into master netting agreements whenever possible and, when appropriate, obtains collateral. Master netting agreements incorporate rights of set-off that provide for the net settlement of contracts with the same counterparty in the event of default.

Credit Risk Management

First BanCorp. is subject to credit risk mainly with respect to its portfolio of loans receivable and off-balance-sheet instruments, mainly derivatives and loan commitments. Loans receivable represents loans that First BanCorp. holds for investment and, therefore, First BanCorp. is at risk for the term of the loan. Loan commitments represent commitments to extend credit, subject to specific conditions, for specific amounts and maturities. These commitments may expose the Corporation to credit risk and are subject to the same review and approval process as for loans made by the Bank. See "Contractual Obligations, Commitments and Contingencies" above for further details. The credit risk of derivatives arises from the potential that the counterparty will default on its contractual obligations. To manage this credit risk, the Corporation deals with counterparties of good credit standing, enters into master netting agreements whenever possible and, when appropriate, obtains collateral. For further details and information on the Corporation's derivative credit risk exposure, see "Interest Rate Risk Management," above. The Corporation manages its credit risk through its credit policy, underwriting, independent loan review and quality control procedures, statistical analysis, comprehensive financial analysis, and established management committees. The Corporation also employs proactive collection and loss mitigation efforts. Furthermore, personnel performing structured loan workout functions are responsible for mitigating defaults and minimizing losses upon default within each region and for each business segment. In the case of the commercial and industrial ("C&I"), commercial mortgage and construction loan portfolios, the Special Asset Group ("SAG") focuses on strategies for the accelerated reduction of non-performing assets through note sales, short sales, loss mitigation programs, and sales of OREO. In addition to the management of the resolution process for problem loans, the SAG oversees collection efforts for all loans to prevent migration to the non-performing and/or adversely classified status. The SAG utilizes relationship officers, collection specialists and attorneys. In the case of residential construction projects, the workout function monitors project specifics, such as project management and marketing, as deemed necessary.

The Corporation may also have risk of default in the securities portfolio. The securities held by the Corporation are principally fixed-rate U.S. agency mortgage-backed securities and U.S. Treasury and agency securities. Thus, a substantial portion of these instruments is backed by mortgages, a guarantee of a U.S. government-sponsored entity or the full faith and credit of the U.S. government.

Management, consisting of the Corporation's Commercial Credit Risk Officer, Retail Credit Risk Officer, Chief Lending Officer and other senior executives, has the primary responsibility for setting strategies to achieve the Corporation's credit risk goals and objectives. These goals and objectives are documented in the Corporation's Credit Policy.

Allowance for Loan and Lease Losses and Non-performing Assets

Allowance for Loan and Lease Losses

The allowance for loan and lease losses represents the estimate of the level of reserves appropriate to absorb inherent incurred credit losses. The amount of the allowance is determined by empirical analysis and judgments regarding the quality of each individual loan portfolio. All known relevant internal and external factors that affect loan collectability are considered, including analyses of historical charge-off experience, migration patterns, changes in economic conditions, and changes in loan collateral values. For example, factors affecting the economies of Puerto Rico, Florida (USA), the United States Virgin Islands and the British Virgin Islands may contribute to delinquencies and defaults above the Corporation's historical loan and lease losses. Such factors are subject to regular review and may change to reflect updated performance trends and expectations, particularly in times of severe stress. The process includes judgments and quantitative elements that may be subject to significant change.

The allowance for loan and lease losses provides for probable incurred losses that have been identified with specific valuation allowances for individually evaluated impaired loans and probable incurred losses believed to be inherent in the loan portfolio that have not been specifically identified. An internal risk rating is assigned to each business loan at the time of approval and is subject to subsequent periodic reviews by the Corporation's senior management. The allowance for loan and lease losses is reviewed on a quarterly basis as part of the Corporation's continued evaluation of its asset quality.

Hurricanes Maria and Irma caused widespread property damage, flooding, power outages, and water and communication services interruptions, and severely disrupted normal economic activity in the affected areas. Damages associated with these hurricane-related events have had and will continue to have significant short-term economic repercussions, both positive and negative, for the Corporation's commercial and individual loan customers in the most severely affected parts of Puerto Rico and the Virgin Islands. The methodologies used by the Corporation to determine the hurricane-related qualitative estimate and for the review of individual large commercial credits are discussed in detail in Note 1, "Nature of Business and Summary of Significant Accounting Policies," in the audited consolidated financial statements for the year ended December 31, 2017, which are included in the 2017 Annual Report on Form 10-K. With the ongoing collection of information on individual commercial customers and statistics on the consumer and residential loan portfolios, the loss estimate will be revised as needed.

The ratio of the allowance for loan and lease losses to total loans held for investment remained relatively flat at 2.57% as of June 30, 2018, compared to 2.62% as of December 31, 2017. The change for each portfolio follows:

- The allowance to total loans ratio for the residential mortgage portfolio decreased from 1.79% as of December 31, 2017 to 1.70% as of June 30, 2018, primarily due to lower delinquency levels reflecting the effect of clients that resumed their payments after the expiration of the three-month payment deferral program.
- The allowance to total loans ratio for the commercial mortgage portfolio increased from 3.00% as of December 31, 2017 to 3.17% as of June 30, 2018, driven by the effect of the downgrade in the credit risk classification of three large loans totaling \$110.3 million.
- The allowance to total loans for the C&I portfolio decreased from 2.35% as of December 31, 2017 to 2.19% as of June 30, 2018, reflecting the effect of a \$4.0 million net loan loss reserve release related to revised estimates of the reserve associated with the effects of Hurricanes Maria and Irma, primarily due to updated assessments about the performance and repayment prospects of certain individually assessed commercial loans and charge-offs taken against previously-established reserves.
- The allowance to total loans for the construction loan portfolio increased from 4.06% as of December 31, 2017 to 4.66% as of June 30, 2018, primarily due to the effect of the aforementioned transfer of loans to held for sale, including the transfer to held for sale of a \$30.0 million construction loan in the Virgin Islands.
- The allowance to total loans for the consumer loan portfolio decreased from 4.06% as of December 31, 2017 to 3.96% as of June 30, 2018, reflecting the effect of a \$2.0 million release of the hurricane-related qualitative reserve resulting from payments received during 2018 that reduced the balance of the consumer loan portfolio outstanding on

the dates of the hurricanes.

The ratio of the total allowance to non-performing loans held for investment was 52.97% as of June 30, 2018 compared to 47.36% as of December 31, 2017, reflecting the effect of the aforementioned transfer to held for sale of non-performing commercial and construction loans totaling \$57.2 million.

Substantially all of the Corporation's loan portfolio is located within the boundaries of the U.S. economy. Whether the collateral is located in Puerto Rico, the U.S. and British Virgin Islands or the U.S. mainland (mainly in the state of Florida), the performance of the Corporation's loan portfolio and the value of the collateral supporting the transactions are dependent upon the performance of and conditions within each specific area's real estate market. The real estate market in Puerto Rico experienced readjustments in value driven by the loss of income due to higher unemployment, reduced demand and general adverse economic conditions that were exacerbated by the effect of Hurricanes Maria and Irma. The Corporation sets adequate loan-to-value ratios following its regulatory and credit policy standards.

As shown in the following table, the allowance for loan and lease losses amounted to \$222.0 million as of June 30, 2018, or 2.57% of total loans, compared with \$231.8 million, or 2.62% of total loans, as of December 31, 2017. See "Results of Operations - Provision for Loan and Lease Losses" above for additional information.

| (Dollars in thousands) | Quarter Ended June 30, | | Six-Month Period Ended June 30, | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|------------|---------------------------------------|------------|

-
- (1) Net of a \$0.2 million and \$0.3 million net loan loss reserve release for the second quarter and six-month period ended June 30, 2018, respectively, associated with the effects of Hurricanes Maria and Irma.
 - (2) Net of a \$1.7 million and \$1.9 million net loan loss reserve release for the second quarter and six-month period ended June 30, 2018, respectively, associated with the revised estimates of the effects of Hurricanes Maria and Irma. For the six-month period ended June 30, 2018, also includes a provision of \$1.1 million associated with the transfer of \$27.2 million in non-performing commercial mortgage loans to held for sale.
 - (3) Net of a \$0.2 million and \$4.0 million net loan loss reserve release for the second quarter and six-month period ended June 30, 2018, respectively, associated with revised estimates of the effects of Hurricanes Maria and Irma. For the six-month period ended June 30, 2017, includes a provision of \$0.6 million associated with the sale of the PREPA credit line.
 - (4) Net of a \$0.1 million net loan loss reserve release for the six-month period ended June 30, 2018 associated with the revised estimates of the effects of Hurricanes Maria and Irma. For the six-month period ended June 30, 2018, also includes a provision of \$4.5 million associated with a \$30.0 million non-performing construction loan transferred to held for sale.
 - (5) Net of a \$2.0 million net loan loss reserve release for the six-month period June 30, 2018 associated with revised estimates of the effects of Hurricanes Maria and Irma.
 - (6) Net of a \$2.1 million and \$8.5 million net loan loss reserve release for the second quarter and six-month period ended June 30, 2018, respectively, associated with revised estimates of the effects of Hurricanes Maria and Irma. For the six-month period ended June 30, 2018, also includes a provision of \$5.6 million associated with the transfer of \$57.2 million in non-performing loans to held for sale in the first quarter of 2018. For the six-month period ended June 30, 2017, includes a provision of \$0.6 million associated with the sale of the PREPA credit line.
 - (7) Includes charge-offs totaling \$4.6 million associated with the transfer of \$27.2 million in non-performing commercial mortgage loans to held for sale in the six-month period ended June 30, 2018.
 - (8) Includes a charge-off of \$10.7 million associated with the sale of the PREPA credit line in the six-month period ended June 30, 2017.
 - (9) Includes a charge-off of \$5.1 million associated with the transfer of a \$30.0 million non-performing construction loan to held for sale in the six-month period ended June 30, 2018.
 - (10) Includes charge-offs totaling \$9.7 million associated with the transfer of \$57.2 million in non-performing loans to held for sale in the six-month period ended June 30, 2018. Includes a charge-off of \$10.7 million associated with the sale of the PREPA credit line in the six-month period ended June 30, 2017.
 - (11) Non-GAAP financial measures, see "Basis of Presentation" below for a reconciliation of these measures.

The following table sets forth information concerning the allocation of the allowance for loan and lease losses by loan category and the percentage of loan balances in each category to the total of such loans as of the dates indicated:

| (In thousands) | As of June 30, 2018 | | As of December 31, 2017 | |
|-----------------------------------|------------------------|-----------------------------------------------------------|----------------------------|--------------------------------------------------------|
| | Amount | Percent of loans in each category to total loans | Amount | Percent of loans in each category to total loans |
| Residential mortgage loans | \$ 55,130 | 37% | \$ 58,975 | 37% |
| Commercial mortgage loans | 48,718 | 18% | 48,493 | 18% |
| Construction loans | 3,949 | 1% | 4,522 | 1% |
| Commercial and Industrial loans | 44,000 | 23% | 48,871 | 24% |
| Consumer loans and finance leases | 70,238 | 21% | 70,982 | 20% |
| | \$ 222,035 | 100% | \$ 231,843 | 100% |

See "Results of Operations - Provision for Loan and Lease Losses" above for information about enhancements to the methodology behind the calculation of the allowance for loan and lease losses implemented in the second quarter of 2018

The following table sets forth information concerning the composition of the Corporation's allowance for loan and lease loss of June 30, 2018 and December 31, 2017 by loan category and by whether the allowance and related provision were calculated individually or through a general valuation allowance.

| (Dollars in thousands) | As of June 30, 2018 | | | Consumer and Finance | | |
