ITEM 8.01 OTHER EVENTS

On March 30, 2010, Moody's Investors Services (Moody's) announced that it has revised its rating outlook to stable from negative for IDACORP, Inc. (IDACORP) and Idaho Power Company (IPC). Additionally, Moody's upgraded the senior secured debt rating of IPC to A2 from A3 and the rating of IPC's shelf registration for senior secured debt to (P)A2 from (P)A3. All other ratings of IDA and IPC were affirmed by Moody's.

The upgrade of senior secured debt at IPC follows Moody's August 2009 upgrade of the senior secured debt ratings of the majority of its investment grade regulated utilities by one notch. Issuers with negative outlooks were excluded from the August 2009 upgrade.

Moody's stated that the change to a stable rating outlook for IPC reflects the company's strengthened financial and operating profile resulting from a series of regulatory decisions during 2009 and 2010, which it said evidence strong support for credit quality. Moody's stated that improved cost recovery for IPC through general rate relief and various cost tracking mechanisms provided in regulatory orders bolstered utility cash flow and are expected to reduce past volatility and sustain IPC's key financial metrics more in line with its rating level. Moody's added that the execution risks associated with IPC's capital spending projects and related external financing needs are tempered by assurances of future rate treatment for the ongoing construction of the Langley Gulch combined cycle natural gas plant and anticipated conservative IPC funding strategies.

The following outlines the former and current Moody's ratings of IPC's and IDACORP's securities:
