PART I

ITEM 1. DESCRIPTION OF BUSINESS

General.

As used herein the terms "Company" and "Nexia" refer to Nexia Holdings, Inc., a Nevada corporation and its subsidiaries and predecessors. Nexia was incorporated under the laws of the State of Colorado on April 20, 1987. Nexia has undergone several name changes since its organization. The Company moved its domicile to the State of Nevada on October 5, 2000, by merging with a Nevada corporation established for the purpose of facilitating the change of domicile. Nexia has been involved in several previous business activities, all of which were discontinued in February of 1998. On August 29, 2000, the Company became a holding company by purchasing a majority interest in Wichita Development Corporation ("Wichita"), whose primary business function became real estate operations. The shares held in Wichita were subsequently spun-off to Company shareholders in January of 2001 on a pro rata basis.

On February 15, 2002 the Company entered into a Stock Purchase Agreement ("Agreement") with Axia Group, Inc., a related party ("Axia"), pursuant to which the Company issued to Axia 255,100,000 restricted shares of the Company's common stock in exchange for essentially all of the assets and liabilities of Axia including a portfolio of securities, real estate holdings and publicly reporting shell-companies. The shares issued to Axia equaled approximately 82% of the issued and outstanding shares of the Company after the close of the transaction. Axia on December 10, 2002 spun-off those 255,100,000 shares of the Company's common stock to Axia's shareholders on a pro rata basis. Nexia intends to manage the Axia interests acquired as a result of this transaction in a manner similar to that previously followed by Axia. For more information on this transaction, see the Company's Form 8-K filed February 27, 2002 and as amended on May 1, 2002.

On June 30, 2003, Nexia sold its interest in Wichita Development Corporation (Wichita) and its subsidiaries Salt Lake Development Corporation and Wichita Properties to Diversified Financial Resources Corporation ("DFRC"). The agreement provides that Nexia transfer to DFRC 100% of all shares that Nexia held in Wichita (86,795,794) in exchange for among other things, a promissory note in the sum of \$150,000 and 1,148,251 restricted shares of the common stock of DFRC with a guaranteed resale value of \$1.00 per share, whereby, within 36 months of the sale, DFRC is bound to issue sufficient additional shares such that the total value at liquidation will equal \$1,000,000. The Wichita common shares transferred to DFRC were approximately 83% of the issued and outstanding shares of Wichita. Control of Wichita included the ownership of Salt Lake Development Corporation, a subsidiary corporation of Wichita.

Forward Looking Business Plan

The Company successfully acquired essentially all of the assets and liabilities of Axia including a portfolio of securities, real estate holdings and publicly reporting shell-companies on February 15, 2002. The following discussion represents the Company's plans to operate the business acquired from Axia in the purchase agreement previously discussed. Property descriptions, legal discussions and similar areas are a reflection of those acquisitions from Axia which constitute the majority of the Company's assets and operations at the present.

Business of Issuer

Financial Consulting

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

The Company, through its subsidiary, Hudson Consulting Group, Inc., provides a variety of financial consulting services to a wide range of clients.

Our business model is to provide an expanded scope of financial, business, and investment oriented consulting services to select start-up companies and existing public companies. Specifically, the Company helps client companies by creating a series of infrastructure-based partnerships that take advantage of the Company's expertise in: uncovering private placement funding sources; strategic business planning; SEC registration documentation; "edgarization" of SEC forms and filings; transactional document preparation; clerical and record keeping assistance to clients; restructuring capital formation; identifying merger and acquisition opportunities.

The Company's clients may choose to be acquired by the Company's reporting companies and create their own public shareholder base with a self underwritten offering or may choose to take advantage of the Company's shareholder base in a registered spin-off, or a dividend. The self-underwritten option requires a company to raise

2

capital before obtaining a quote, whereas a registered spin-off or dividend enables clients to obtain a quote prior to raising any new capital.

The Company employs several methods to locate prospective clients. We advertise directly through print media to attract both private and public corporations to engage our services, obtain referrals from previous clients and do our own research of various databases that profile public companies.

The Company charges clients monthly or predetermined fees which vary in both amount and form. Acceptable payments include cash, securities of the client corporation, other assets, or some combination of the three. This payment arrangement allows many organizations, especially start-up ventures and those experiencing financial difficulties, to obtain the Company's services without draining necessary cash resources. However, accepting stock as compensation occasionally impairs the Company's cash flow, and for this reason acceptable payments and the size of payments the Company charges for its services vary with the volatility of the clients' securities, the amount and nature of work involved, and the expenses related to the services being rendered.

Entities from many different industries employ the Company's consulting services. The decision to accept a prospective client depends on the client's financial stability, the type of services needed, and the compensation format. A key to the Company's success is management's ability to improve and maintain its client base and successfully liquidate its compensation.

Real Estate Investment

The combined statements of operations, stockholders equity and cash flows for the year ended December 31, 2003 include only the real estate operations of Diversified Holdings - I, Inc., Golden Opportunity Development Corporation, Downtown Development Corporation, Wasatch Capital Corporation, Kearns Development Corporation, West Jordan Real Estate Holdings, Inc., Canton's Wild Horse Ranch II, Inc., Oasis International Hotel & Casino, Inc., Canton Industrial Corporation of Salt Lake City, Inc., and Canton Tire Recycling of West Virginia, Inc. (collectively referred to as the 'entities'). Pursuant to the recapitalization of the Company on February 15, 2002, these entities have been treated as the acquiring entities for accounting purposes. The Company is

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

the surviving entity for legal purposes. Because the recapitalization involved entities under common control, Interpretation 39 requires that there be no adjustment to the carrying values of the assets or liabilities at the date of the recapitalization.

Nexia's real estate operations primarily involve the acquisition, management, lease and sale of real estate holdings. Nexia owns a variety of commercial and residential properties in Utah and other parts of the United States. The Company seeks to locate and acquire undervalued real estate (which is primarily commercial) with little or no cash down. Once acquired, the Company's real estate holdings are leased. Though the Company seeks to generate and maximize rental income through the management and lease of the property, our primary goal is to acquire real estate which will substantially appreciate in value and for which we can realize a substantial gain upon disposition.

3

Organization

The following chart shows the companies currently owned by Nexia Holdings, Inc., including a consulting company, four holders of real estate and four companies that no longer have operations:

[SEE ATTACHED ORGANIZATIONAL FLOW CHART]

The Company also has a substantial interest in approximately 14 shell companies. The Company intends to provide assistance in finding operations for these companies through reverse mergers with operating companies. The value of these companies cannot be determined at this time in light of the fact that: 1) no substantial assets are currently in the companies; 2) The Company has identified no business opportunities for these companies; and 3) The Company's shareholding in these entities are illiquid in light of recent rule changes on the resale of securities in blank check companies. The Company and its president have assisted in filing Form 10-SB's to enable these companies to become fully reporting under the Securities Exchange Act of 1934. Each of these entities is currently delinquent in its required filings with the Securities and Exchange Commission. The Company's president now also holds a substantial interest in these entities.

Governmental Regulation

The Company and its facilities are subject to normal government regulation at the federal, state and local level. The Company must comply with government regulations regarding employment, wages, access for handicapped and disabled persons and other laws, rules, regulations and ordinances. Although the Company does not foresee any change in existing local, state, or federal regulations, if changes should occur, the Company believes that it can adapt to such new regulations and that those changes would not have any significant effect on revenues or current operations of the Company. However, no assurance can be made that compliance or failure to comply with future regulation will not have a materially adverse effect on the business, operating results or financial condition of the Company.

Competition

The Company expects to be involved in intense competition with other business entities, many of which will have a competitive edge over the Company by virtue of their stronger financial resources and prior experience in business. There are numerous entities in both the real estate markets in which the Company currently owns property and in the financial consulting area that would be in competition with the Company, though there are no dominant operations which the Company can identify as a continuing direct competitor to the Company's operations. There is no assurance that the Company will be successful in operating any business which it may acquire in the future.

Employees

The Company's subsidiaries have a total of 5 full time employees as of December 31, 2003. Management of the Company expects to use consultants, attorneys, and accountants as necessary, and anticipates a need to engage at least two (2) additional employees.

During the quarter ending September 30, 2003, Nexia's subsidiary, Hudson Consulting Group, Inc., temporarily discontinued cash payments to its employees. Consequently, Nexia has relied upon the issuance of S-8 shares to pay certain employees and consultants. On July 21, 2003, Nexia issued 5,000,000 shares of S-8 common stock to Jared Gold for services rendered valued at \$10,000, or \$0.002 per share, the market price on the date of grant. In September, 2003 Nexia issued 17,550,000 shares of its common stock to employees under its S-8 Registration Statements for its Employee Benefit Plans. Michael Golightly, an attorney employed by the Company was issued 7,550,000 shares as compensation for past services to the Company and in partial settlement of obligations related to

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

his employment. Shane Stone, serving as accounting manager for the Company was issued 10,000,000 shares as compensation for his services in working on financial and quarterly reports for the Company and in partial settlement of obligations related to his employment.

On December 4, 2003, the Company's board of directors approved the delivery of options to purchase 1,600,000 shares of the Company's common stock to 8 employees of the Company for services rendered to the Company, the shares were authorized pursuant to the S-8 Registration Statement of the Company. Each employee received 200,000 shares.

On December 8, 2003, the Company's board of directors approved the delivery of options to purchase 4,000,000 shares of the Company's common stock to 8 employees of the Company for services rendered to the Company, the shares were authorized pursuant to the S-8 Registration Statement of the Company. Each employee received 500,000 shares.

5

Risk Factors

You should carefully consider the following risks before making an investment in our Company. In addition, you should keep in mind that the risks described below are not the only risks that Nexia faces. The risks described below are all the risks that Nexia currently believes are material to our business. However, additional risks not presently known to us, or risks that we currently believe are not material, may also impair our business operations. You should also refer to the other information set forth in this Annual Report on Form 10-KSB, including the discussions set forth in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Business," as well as our financial statements and the related notes.

Nexia's business, financial condition, or results of operations could be adversely affected by any of the following risks. If we are adversely affected by such risks, then the trading of our common stock could decline, and you could lose all or part of your investment.

Nexia's auditor's report on our financial statements includes an explanatory

paragraph with respect to substantial doubt existing about its ability to

continue as a going concern.

As of December 31, 2003, Nexia had incurred a loss from operations and had an accumulated deficit resulting from losses in prior years. As a result, its financial statements include a note stating that these conditions raise substantial doubt about its ability to continue as a going concern, but the financial statements do not include any adjustments that might result from this uncertainty.

Nexia may face significant competition.

There are numerous businesses, corporations, individuals and firms that are engaged in the type of business activities that Nexia is presently engaged in. Many of those entities are more experienced and possess significantly greater

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

financial and personnel resources than Nexia currently has. While Nexia intends to be competitive with those entities, there can be no assurance that such will be the case.

Limited ability to market services and properties.

Due to the limited resources available to Nexia, the sales and marketing of our services and properties have been limited. Nexia's future success is dependent upon our ability to market and sell our services and properties with those limited resources.

Nexia is subject to compliance with securities law, which exposes it to

potential liabilities, including potential rescission rights.

Nexia has periodically offered and sold our common stock to investors pursuant to certain exemptions from the registration requirements of the Securities Act of 1933, as well as those of various state securities laws. The basis for relying on such exemptions is factual; that is, the applicability of such exemptions depends upon Nexia's conduct and that of those persons contacting prospective investors and making the offering. Nexia has not received a legal opinion to the effect that any of our prior offerings were exempt from registration under any federal or state law. Instead, it has relied upon the operative facts as the basis for such exemptions, including information provided by investors themselves.

If any prior offering did not qualify for such exemption, an investor would have the right to rescind its purchase of the securities if it so desired. It is possible that if an investor should seek rescission, such investor would succeed. A similar situation prevails under state law in those states where the securities may be offered without registration in reliance on the partial exemption from the registration or qualification provisions of such state statutes under the National Securities Markets Improvement Act of 1996. If investors were successful in seeking rescission, we would face severe financial demands that could adversely affect our business and operations. Additionally, if we did not in fact qualify for the exemptions upon which we have relied, we may become subject to significant fines and penalties imposed by the SEC and state securities agencies.

Additional Capital is Necessary to Implement Nexia's Business Plan.

6

Nexia does not believe that it has sufficient cash, cash equivalents and operating income to maintain its business at its existing level in 2004. Nexia will require significant new capital in order to execute its strategic plan and believes that this capital will only be available through an offering of shares of its common stock. Nexia's success in raising this capital will depend upon its ability to access equity capital markets and we may not be able to do so or to do so on acceptable terms. If it fails to obtain funds on acceptable terms, it will not be able to execute its strategic plan and would have to delay or abandon some or all of its plans for growth. If it is able to obtain funds, it believes that the terms of such arrangement will result in an offering that is highly dilutive to existing holders of shares of our common stock because of the price at which it would have to issue those shares and the large number of

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

shares it would have to issue at those prices.

Need for Additional Specialized Personnel.

Although Nexia's management is committed to the business and continued development and growth of the business, the addition of specialized key personnel and persons to assist management in the expansion of Nexia's operations will be necessary. There can be no assurance that Nexia will be able to locate and hire such specialized personnel on acceptable terms.

There is no established, stable market for Nexia's common stock.

Nexia's common stock is quoted on the Over-the-Counter Electronic Bulletin Board ("OTCBB") and traded sporadically. A large number of shares of outstanding common stock are restricted and are not freely-tradeable. An established public trading market for our common stock may never develop or, if developed, it may not be able to be sustained. The OTCBB is an unorganized, inter-dealer, over-the-counter market that provides significantly less liquidity than other markets. Purchasers of Nexia's common stock may therefore have difficulty selling their shares should they desire to do so.

Volatility of Stock Price.

The trading price of Nexia's Common Stock has in the past and may in the future be subject to significant fluctuations. In addition, the stock market in general has experienced extreme price and volume fluctuations that have affected the market price for many companies in industries similar to or related to that of Nexia and which have been unrelated to the operating performance of these companies. These market fluctuations may adversely affect the market price of Nexia's Common Stock.

Penny stock regulations may impair Nexia's shareholders' ability to sell their stock.

Nexia's shares of common stock is deemed a "penny stock." Penny stocks generally are equity securities with a price of less than \$5.00 per share, other than securities registered on certain national securities exchanges. Penny stocks are subject to rules and regulations that impose additional sales practice requirements on broker-dealers who sell the securities to persons other than established customers and accredited investors, and these additional requirements may restrict the ability of broker-dealers to sell a penny stock.

Any acquisitions that Nexia undertakes could be difficult to integrate, disrupt its business, dilute shareholder value and significantly harm its operating results.

Nexia expects to review opportunities to buy other business or technologies that would complement its current business, expand the breadth of its markets, or that may otherwise offer growth opportunities. If we make any future acquisitions, we could issue stock that would dilute existing stockholders' percentage ownership, incur substantial debt or assume contingent liabilities. Potential acquisitions also involve numerous risks, including:

- o problems assimilating the purchased operations, technologies or

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

products;
o unanticipated costs associated with the acquisition;
o diversion of management's attention from our core business;
o adverse effects on existing business relationships with suppliers and customers;
o risks associated with entering markets in which we have no or limited prior experience; and o potential loss of the purchased organization's or our own key employees.

7

Nexia cannot assure that it would be successful in overcoming problems encountered in connection with such acquisitions and its inability to do so could significantly harm its business.

Nexia is subject to various risks connected to the ownership of real property.

Nexia's investments are subject to varying degrees of risk generally incident to the ownership of real property. Real estate values and income from Nexia's current properties may be adversely affected by changes in national or local economic conditions and neighborhood characteristics, changes in interest rates and in the availability, cost and terms of mortgage funds, occupancy rates in Nexia's properties, the impact of present or future environmental legislation and compliance with environmental laws, the ongoing need for capital improvements, changes in governmental rules and fiscal policies, civil unrest, acts of God, including earthquakes and other natural disasters which may result in uninsured losses, acts of war, adverse changes in zoning laws, and other factors which are beyond the control of Nexia.

In addition, real estate investments are relatively illiquid. The ability of Nexia to vary its ownership of real estate property in response to changes in economic and other conditions is limited. If Nexia must sell an investment, there can be no assurance that Nexia will be able to dispose of it in the time period it desires or that the sales price of any investment will recoup the amount of Nexia's investment.

Nexia's real property is also subject to real property taxes. The real property taxes on the real property may increase or decrease as property tax rates change and as the property is assessed or reassessed by taxing authorities. If property taxes increase, Nexia's operations could be adversely affected.

Reports to Security Holders

The Company is not required to deliver an annual report to security holders and will not voluntarily deliver a copy of the annual report to the security holders. Should the Company choose to create an annual report, it will contain audited financial statements. The Company will file all of its required information with the Securities and Exchange Commission ("SEC").

The public may read and copy any materials that are filed by the Company with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The statements and forms filed by the Company with the SEC have been filed electronically and are available for viewing or copy on the SEC maintained Internet site that contains reports, proxy, and information statements, and other information

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

regarding issuers that file electronically with the SEC. The Internet address for this site can be found at: <http://www.sec.gov>. Information is also available on the Nexia website located at: <http://www.nexiaholdings.com>.

ITEM 2. DESCRIPTION OF PROPERTY

Location and Description

Nexia acquired through its purchase of the former Axia subsidiaries the ownership or leasehold rights to industrial, commercial, warehouse, office, and undeveloped commercial and residential real estate. This acquisition of properties was not limited to any specific geographic area. Regardless of the type of property, future acquisitions will not be limited to any specific geographic area. At the end of 2003, Nexia owned, leased, or had interests in properties in Utah and West Virginia.

Investment Policies

Nexia's policy is to actively pursue the acquisition of real estate for investment income and appreciation in property value. During the past year, Nexia has placed an emphasis on acquiring property which management feels is undervalued. Rather than limiting itself to specific types of real estate, Nexia's policy has been to focus primarily on terms of financing and potential return on capital. Nexia generally looks for properties that can be purchased by

8

assuming the existing financing or by paying the balance of the purchase price with a nominal cash expenditure and/or the issuance of shares of Nexia's common stock.

Nexia has no present intention to invest in first or second mortgages, interests in Real Estate Investment Trusts, or Real Estate Limited Partnerships. However, Nexia's board of directors is not precluded in the future from considering or participating in such investments.

Nexia currently has no limitations on the percentage of assets which may be invested in any one investment or the type of securities and investments in which it may invest. However, the board of directors in its discretion may set policies without a vote of Nexia's securities holders regarding the percentage of assets which may be invested in any one investment or type of investment. Nexia's current policy is to evaluate each investment based upon its potential capital return to Nexia on a relatively short term basis. Furthermore, Nexia does not plan to enter into the business of originating, servicing, or warehousing mortgages or deeds of trust except as may be incidental to its primary purpose of acquiring real estate.

There is a risk that Nexia may lose control of its properties through foreclosure if enough funds are not derived from the rental income for both the financing and operation of its properties. Currently, due to expanded acquisition activity and deficiencies in rental income from the properties acquired, Nexia does not have sufficient rental revenues to cover the debt service and operating costs of all properties. Nexia currently has to use capital from other sources to fund this deficit. Although management hopes to increase the occupancy rates, and thus increase the rental income so that such income will cover both operations and debt service, no such assurances can be made.

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Description of Real Estate and Operating Data

Below is a list of the properties owned by Nexia and/or its consolidated subsidiaries as of December 31, 2003. Also included are any changes in the ownership status of such properties which have occurred between the end of 2003 and the filing of this Form 10-KSB. All references to current principal balances of encumbrances against the properties are as of December 31, 2003, only.

Commercial Properties

Nexia's subsidiaries own interests in the four commercial properties described below.

Wasatch Capital Corporation ("Wasatch")

Wasatch, a 76.21% owned subsidiary of Nexia, owns the Wallace-Bennett Building, located at 55-65 West 100 South, Salt Lake City, Utah. The building is a 36,797 square foot, turn-of-the-century multi-story office building. Currently, only the ground level is suitable for rent as retail space. The ground level comprises 7,816 square feet or 21% of the building. During 2001, 1640 square feet of ground floor space having the address of 61-63 West 100 South was renovated for use as an art gallery. Total cost of the renovation was \$45,193.86. In January 2002, 3,545 square feet of ground floor space having the address 65 West 100 South was renovated for use as a 2002 Winter Olympic demonstration space for the Greek Ministry of Culture. Total cost of these renovations was \$94,473.56. A portion of that space is currently leased to Wasatch CD Exchange, a retail outlet for used music compact disks, for a monthly rental of \$1,400.72 for 1,585 square feet of the space occupied during the Olympics, the balance of the space is occupied by a retail outlet for a monthly rental of \$1,050 for the 1400 square feet utilized by the tenant.

On May 9, 2003, Wasatch refinanced the underlying loan package on the Wallace-Bennett Building. The terms of the new loan package provide for a loan in the total amount of \$850,000, an interest rate on the loan of 7.5%, with monthly payments of \$6,848. The loan has a term of three years, resulting in a due date of May 10, 2006. Of the loan proceeds \$202,920 has been set aside for construction or capital improvements to the buildings securing the loan. In the event that direct benefits from improvements to the building cannot be realized from refurbishing the building this amount will be returned to the lender to pay down the existing loan. Wasatch intends to improve the upper floor space as office space and increasing the available tenant parking on the site and has recently signed agreement to have plans for this purpose developed. The balance due on the existing note on December 31, 2003 was \$ 636,291.

9

Currently, the rentable space on the ground level is 100% occupied. The rented ground level space is leased to a restaurant (1,719 square feet ground floor, 864 square feet of basement space), two retail stores (912 square feet & 1400 square feet), a CD exchange retail outlet (1585 square feet) and an art gallery (1,640 square feet), 561 square feet are considered to be common area and not rentable. The tenants are responsible for all of their own utilities except water and sewer. Tenants also pay their pro-rata share of all other operating expenses as well as maintenance, janitorial services, insurance, and property taxes. The average annual effective rental for the rentable ground level space is \$10.00 per square foot.

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

The additional stories above the ground floor cannot be used until they have been remodeled and rehabilitated. Wasatch has moved forward to have plans developed to remodel the second level of the east half of the building for use as office space. The cost for the project is estimated to be \$190,000. The Company intends to fund labor costs for these improvements with shares of its common stock under the Company's 2004 Benefit Plan and intends to utilize bank financing for material costs.

Downtown Development, Corp. ("DDC") (f.k.a. A-Z South State, Corp.)

DDC, a 99.08% owned subsidiary of Nexia, owns a one story retail building located at 1374 South State Street, Salt Lake City, Utah, which it purchased on December 1, 1999 for \$535,000. An all-inclusive trust deed in the amount of \$400,000 was placed on the property requiring monthly payments of \$4,231.38 with interest at 9.725% per annum. The balance owing at December 31, 2003 was \$385,535. In December of 2002 DDC obtained permanent financing with Community First National Bank, the loan bears interest at the rate of 7.16% per annum, with monthly payments of \$3,061. The building is 7,000 square feet, one story tall, and constructed in the late 1960's. A furniture store had a lease for 4,500 square feet leased at \$3,800 per month through the end of the year 2003, this space is currently unoccupied. A bakery currently occupies 2,500 square feet of retail space under a lease in the building. DDC expended \$34,100 through March 31, 2004, in renovations to the property, this figure does not include substantial improvements made by the tenant to the property. DDC has no immediate plans to improve the non-leased space. DDC believes the property is adequately insured. The retail space in the building competes for tenants with other retail space on State Street which is a commercial zone for over one mile in each direction from the property.

Kearns Development Corporation. ("Kearns")

Kearns, a 90.7% owned subsidiary of Nexia, owns one office building located on West Sams Boulevard in Kearns, Utah (a suburb of the Greater Salt Lake area). The building contains approximately 11,709 square feet of total floor space in a single story. The building was purchased on November 29, 2000 for a total price of \$750,000. The purchase was financed with a \$625,000 first mortgage from Brighton Bank with an initial variable rate of 10.97% amortized over 25 years and monthly payments of \$5,632, with a balance owing at December 31, 2002 of \$615,012. The loan was personally guaranteed by Richard D. Surber, Nexia's President and C.E.O. This property was refinanced on January 10, 2003, a new mortgage in the sum of \$660,000 was obtained from Community First Bank, an interest rate of 7.16% applies to the loan, monthly payments are \$5,223 based upon a 20 year amortization with a balloon payment of the remaining balance due on January 10, 2013, however, the balance due may be called on demand. The balance owing on this loan as of December 31, 2003 was \$ 645,024.

The building is leased to three major tenants occupying 100% of the office space, and generating monthly rentals of \$11,173 at an average rate of \$11.45 per square foot. Kearns has no present plans to renovate or improve the building. Management believes that the building is adequately insured. The building competes for tenants with other office space in the Kearns area.

West Jordan Real Estate Holdings, Inc. ("West Jordan")

West Jordan, a 88.28% owned subsidiary of Nexia, operates the Glendale Plaza, a retail shopping plaza located at 1199 South Glendale Drive, Salt Lake City, Utah. West Jordan exercised an option to purchase the shopping plaza on June 22, 2001. The loan on the property was refinanced on June 30, 2002 for a total loan amount of \$1,072,500 at the current interest rate of 8%, the loan is due on demand or monthly payments of \$12,417 are due each month, as of December 31, 2003 the outstanding balance owed was \$981,778. The sum of \$69,000 has been set

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

aside by Imperial Bank until such time as certain tenant occupancy goals are met.

10

The property contains 72,256 square feet of retail space and approximately 77% is leased to tenants. A national chain retail store occupies 10,080 square feet of the building. They are the only tenant of the Glendale Plaza which occupy more than ten percent of the premises. The Glendale Plaza generates approximately \$207,000 in annual rental income as of December, 2003, or approximately \$2.86 per square foot. Present plans are to continue to operate the building as a retail shopping plaza and to increase the average rental rate. Property taxes and assessments have been paid in full on the property. West Jordan is of the opinion that this property is adequately insured.

West Jordan has expended approximately \$284,049 through March 31, 2004, in capital improvements to the Glendale property since its purchase. Substantial additional improvements are needed to improve rental rates which are currently significantly below area market rates. West Jordan is in the process of initiating such improvements. The Company has hired a contractor to begin work on certain renovations. The contractor has agreed to accept a combination of shares and options to purchase shares of the Company's common stock under its 2004 Benefit Plan. The material costs will be financed or covered by operating income.

Residential Properties

One of Nexia's subsidiaries owns a interest in the residential properties described below.

Sale of Property Holdings Subsidiary

On June 30, 2003 Nexia sold its interest in Wichita Development Corporation (Wichita) and its subsidiaries Salt Lake Development Corporation and Wichita Properties to Diversified Financial Resources Corporation ("DFRC"). The agreement provided that Nexia transfer to DFRC 100% of all shares that Nexia held in Wichita (86,795,794) in exchange for among other things, a promissory note in the sum of \$150,000 and 1,148,251 restricted shares of the common stock of DFRC with a guaranteed resale value of \$1.00 per share, whereby, within 36 months of the sale, DFRC is bound to issue sufficient additional shares such that the total value at liquidation will equal \$1,000,000. The number of Wichita common shares transferred to DFRC is approximately 83% of the issued and outstanding shares of Wichita. Control of Wichita includes the ownership of Salt Lake Development Corporation, a subsidiary corporation of Wichita.

Hudson Consulting Group, Inc. (Hudson)

Hudson, a 99.08% owned subsidiary of Nexia, owns a condominium unit located in close proximity to Brian Head Ski Resort and the surrounding resort town in southern Utah. Hudson acquired the condominium unit for investment purposes and has contracted with a management firm who rents the unit on a short-term basis. The unit is subject to a note with a current principal balance at December 31, 2003 of \$29,617 and bearing an interest rate of 8.25% per annum. Monthly payments on the unit are \$301. Hudson as of the date of this filing was in the process of marketing this unit for sale. Suit is currently pending against Hudson for unpaid owners fees on this unit in the sum of \$10,679, Hudson intends to seek a compromise and settlement of this claim and thus cure the alleged

default.

On April 22, 2003, Hudson transferred Unit A216 of the Brian Head North Condominiums to David Wolfson in exchange for Wolfson assuming all obligations of the condo, including taxes, owner's fees and the mortgage payment. As of December 31, 2003 Wolfson had ceased making payments on the property and Hudson is seeking to have the property returned to it in order to cure all past due obligations and return the condominium to management by Hudson.

Hudson also had an option to purchase a fourth condominium in the Brian Head area pursuant to a lease option agreement it executed with Richard Surber, Hudson's president, director and chief executive officer, in August, 1997. Mr. Surber owns the condominium subject to a note on the property secured by a deed of trust. Hudson leased the condominium for \$900 per month, \$671 of which is applied to the monthly obligations on the first note. Hudson had an option to purchase the condominium through a payment of \$82,100, which was reduced monthly by the extent to which Hudson monthly rental payments decrease the principal balance due on the note. The lease option contained an alternative option price in the event the unit appreciates dramatically during the term of the lease. Hudson was also required to pay all taxes, condominium fees, maintenance and repair expenses and other charges

11

on the property. Hudson had the right to manage, control and sell the condominium unit during the term of lease, which by agreement of the parties came to an end on March 31, 2003.

Industrial Property

One of Nexia's subsidiaries owned an interest in the industrial property described below.

Canton Tire Recycling West Virginia, Inc. ("CTR")

CTR, a 99.08% owned subsidiary of Nexia, owns the Parkersburg Terminal, located at 516 Camden Street, Parkersburg, West Virginia. The terminal is a former fuel transfer station. The property consists of 4.5 acres on a tributary of the Ohio River and includes a former oil storage facility and a warehouse with office space. There are no encumbrances on the property. The property has been vacant and unused since its acquisition. CTR is subject to competition in finding tenants or buyers for the property, and there is a substantial likelihood that the property will remain vacant for some time. CTR is of the opinion that this property is adequately covered by insurance. CTR has no present plans to renovate or improve the property and recognized impairment expense of \$29,554 and \$258,788 during the years ended December 31, 2003 and 2002 respectively.

The West Virginia Division of Environmental Protection filed suit against CTR and Axia Group, Inc. the former parent corporation of CTR, seeking the completion of environmental clean up procedures at the site. CTR believes it has completed all cleanup measures which will be required by the State of West Virginia, however there can be no assurance that the State of West Virginia will not require additional cleanup on the property. For more information on the suit filed against CTR and Axia and for more information on Parkersburg properties, see "Item 3, Legal Proceedings."

CTR invested approximately \$150,000 in environmental cleanup of the site over

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

the course of its ownership of the property. All appropriate reports regarding the cleanup have been filed with regulatory agencies. CTR, the property owner, has not received any additional requests or responses for over eighteen months regarding the property.

On April 9, 2004, the property was sold for \$1,816.70 in unpaid property taxes due on the property as a result of a clerical oversight. CTR will make an attempt to reacquire the property, if possible, for the cost of the back taxes and legal fees associated with the sale and any legal costs necessitated by that effort. The Company recognized a loss from disposition of \$29,559 during the year ended December 31, 2003.

Undeveloped Land

Nexia, through its subsidiaries, owns approximately six (6) small parcels of undeveloped raw land in Utah and Kansas. There are currently no plans to develop these properties. If valid offers are received on these parcels, they may be sold. During 2003, the Company recognized an impairment expense of \$173,966 on these parcels based on their assessed market value.

Insurance

Nexia is of the opinion that each of these properties described above is adequately insured.

ITEM 3. LEGAL PROCEEDINGS

The following cases may have a material impact on the Company:

State of West Virginia vs. Canton Tire Recycling West Virginia, Inc., Canton

Industrial Corporation and CyberAmerica Corporation - Suit was filed on August

14, 1998 in the Circuit Court of Wood County, Parkersburg, West Virginia as file no. 98 C 354 seeking the completion of clean up procedures for property owned by Canton Tire Recycling West Virginia, located in the city of Parkersburg. The state requested that certain waste material present on the site and any remaining material in the on site storage tanks be removed and that an oil/water separator located on the property be cleaned out. The Company and the State of West Virginia entered into a Consent Decree by which the Company agreed to submit and complete a Remediation and Sampling Work Plan and the payment of

12

\$88,000 in fines and penalties (\$8,000 has been paid, \$20,000 was paid prior to May 31, 2000, similar payments were made in 2001 and 2002 and the final payment is due May 31, 2003.) The work required by the Remediation and Sampling Work Plan has been completed and submitted to the State. This information included test results indicating that soil contamination testing required by the Plan reported contamination exceeding state guidelines. The nature and cost of further testing or clean-up as a result of that report cannot be determined at this time. No further request for additional work or testing has been received from the State of West Virginia. The Company made a final payment of this matter with a \$5,000 cash payment in February 2004, which the State of West Virginia has accepted as final settlement of the court order.

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Hudson Consulting Group, Inc. v. Chequemate International, Inc., dba C-3D

Digital, Inc. Suit was filed on November 16, 2000 in the Third Judicial

District Court, for Salt Lake County, State of Utah, Civil No. 000909325. The Company seeks recovery of its damages as a result of the failure of Chequemate to deliver 75,000 shares of its common stock as provided for in an Advisory Agreement between the parties dated July 29, 1999. Damages are sought for the highest value of these shares during the period that delivery was not made, in late July of 2000 the shares traded at approximately \$2.68 per share. Partial delivery of shares due under the agreement was received by Hudson in June of 2000 leaving 75,000 shares due and owing. The parties have signed a settlement agreement wherein the defendant agrees to deliver 514,000 shares of its common stock to Hudson and agrees to include these shares in a registration statement. The shares have been received by Hudson and the registration statement, including the shares received by Hudson has been filed with the SEC. The agreement further provides that in the event the sale of the shares does not generate \$90,000 in proceeds that the defendant will issue additional shares to Hudson to cover any shortfall. Upon receipt of the share certificate a notice of dismissal of the lawsuit was filed with the court by Hudson. On January 2, 2003 Hudson filed suit in the Third Judicial District Court, for Salt Lake County, State of Utah, Civil No. 030900004. This cause of action seeks recovery of the failure of C-3D to honor the terms of the settlement agreement from the prior action, recovery of \$63,965.50 is sought for the difference in sales proceeds from the stock delivered under the settlement agreement and the agreed upon settlement figure of \$90,000. Defendant's registered agent has been served but no answer has been filed and the court has signed a default judgment as to C-3D. Attempts to contact officers of C-3D have failed and at present it appears that the company is no longer operating. On May 14, 2003 the court granted a default judgment in the sum of \$74,245.50.

Hudson Consulting Group, Inc. v. Ohana Enterprises, Inc., Isaac P. Simmons,

Kathryn A. Christmann, Gerard Nolan, David Cronshaw, Interactive Ideas, Jonathan

Thomas and Phillip Crawford. Suit was filed on March 17, 2003 in the Third

Judicial District Court in and for Salt Lake County, State of Utah, Case No. 030905949. Suit was filed by Hudson to seek payment under an August 27, 2002 Stock Purchase Agreement, wherein the named defendants purchased a controlling interest in a Delaware corporation known as Torchmail Communications, Inc. which changed its name subsequent to the transfer to Ohana Enterprises, Inc. The total sales price was \$300,000 of which only the first \$100,000 has been paid. The defendants have claimed that Hudson misrepresented the status of Ohana prior to the transfer and are denying any further obligation to make payments. In February of 2004 Hudson agreed to settle the litigation and all related claims in exchange for a cash payment of \$117,000, such that each party, except the defendant Gerard Nolan, will be released from all claims, including counterclaims and third party claims and all costs are to be paid by the party incurring them.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

Limited Market for Common Stock.

There is currently a limited trading market for our shares of common stock, and there can be no assurance that a more substantial market will ever develop or be maintained. Any market price for shares of common stock of Nexia is likely to be very volatile, and numerous factors beyond our control may have a significant adverse effect. In addition, the stock markets generally have experienced, and continue to experience, extreme price and volume fluctuations which have affected the market price of many small capital companies and which have often been unrelated to the operating performance of these companies. These broad market fluctuations, as well as general economic and political conditions, may also adversely affect the market price of our common stock. Further, there is no correlation between the present limited market price of our common stock and our revenues, book value, assets or other established criteria of value. The present limited quotations of our common stock should not be considered indicative of the actual value of Nexia Holdings, Inc. or our common stock.

Risks of "Penny Stock".

Nexia Holdings Inc.'s common stock (OTC BB: NXIA) is deemed to be "penny stock" as that term is defined in Rule 3a51-1 of the Securities and Exchange Commission. Penny stocks are stocks (i) with a price of less than \$5.00 per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ-listed stocks must still meet requirement (i) above); or (iv) in issuers with net tangible assets less than \$2,000,000 (if the issuer has been in continuous operation for at least three years) or \$5,000,000 (if in continuous operation for less than three years), or with average sales of less than \$6,000,000 for the last three years. Until recently, there had been no "established public

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

market" for our common stock during the last five years. While our stock has traded between \$0.31 and \$0.0005 per share over the past two years, there is no assurance that this price level will continue, as there has thus far been low volume. Section 15(g) of the Securities Exchange Act of 1934, as amended, and Rule 15g-2 of the Securities and Exchange Commission require broker/dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in our common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be a "penny stock."

Moreover, Rule 15g-9 of the Securities and Exchange Commission requires broker/dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stocks to that investor. This procedure requires the broker/dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker/dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for investors in our common stock to resell their shares to third parties or to otherwise dispose of them.

RECENT SALES OF UNREGISTERED SECURITIES

The Company issued no unregistered securities within the period covered by this report which have not been previously reported on Form 10-QSB.

In March of 2003, a Stock Purchase Agreement was entered into between Nexia Holdings, Inc. and Chen Li, an individual resident of San Diego, California, whereby Nexia sold to Ms. Li Five Million (5,000,000) shares of restricted common stock of Nexia as consideration for Ms. Li making a loan in the sum of \$30,000 to Nexia's subsidiary corporation, West Jordan Real Estate Holdings, Inc. The Company issued the shares pursuant to section

15

4(2) of the Securities Act of 1933 in an isolated private transaction by the Company which did not involve a public offering. The Company made this offering based on the following factors: (1) The issuance was an isolated private transaction by the Company which did not involve a public offering, being made to a single entity; (2) there was only one offeree who was issued stock; (3) the offeree acquired the stock with investment intent; (4) there were no subsequent or contemporaneous public offerings of the stock; (5) the stock was not broken down into smaller denominations; and (6) the negotiations for the issuance of the stock took place directly between the offeree and the Company.

Subsequent Events

On January 29, 2004, the board of directors authorized the issuance of 10,000,000 shares of the Company's common stock to each of the Company's directors, Richard Surber, Gerald Einhorn, Adrienne Bernstein and John E. Fry,

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Jr. The stock was issued as compensation for the services provided by the directors and were issued with a restrictive legend and pursuant to Section 4(2) of the Securities Act of 1933.

On April 8, 2004, the Company's board of directors authorized the issuance of 5,000,000 shares of the Company's common stock to Ronald Friedman for services rendered to the Company, the shares were issued with a restrictive legend and issued pursuant to Section 4(2) of the Securities Act of 1933 in a private transaction.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

The Company's plan of operation for the coming year, as discussed above, is to identify and acquire favorable business opportunities as well as manage the acquired subsidiaries and operations in a manner similar to that previously used by Axia Group, Inc.

The Company does not plan to limit its options to any particular industry, but will evaluate each opportunity on its merits. The Company believes it can meet its cash needs for the foreseeable future from its current assets.

Consulting

Our business model is to provide an expanded scope of financial, business, and investment oriented consulting services to select start-up companies and existing public companies. Specifically, the Company helps client companies by creating a series of infrastructure-based partnerships that take advantage of the Company's expertise in: advising, uncovering private placement funding sources, strategic business planning, SEC registration documentation, transactional document preparation, restructuring capital information, "edgarizing" documents for filing with the Securities and Exchange Commission, clerical support for clients, and identifying merger and acquisition opportunities.

The Company's clients may choose to be acquired by the Company's reporting companies and create their own public shareholder base with a self underwritten offering or may choose to take advantage of the Company's shareholder base in a Securities and Exchange Commission ("SEC") registered spin-off or a dividend. The self- underwritten option requires a company to raise capital before obtaining a quote, whereas an SEC registered spin- off or dividend enables clients to obtain a quote prior to raising any new capital.

The Company employs several methods to locate prospective clients. We advertise directly through print media to attract both private and public corporations to engage our services, obtain referrals from previous clients and do our own research of various databases that profile public companies.

The Company charges clients monthly or predetermined fees which vary in both amount and form. Acceptable payments include cash, securities of the client corporation, other assets, or some combination of the three. This payment arrangement allows many organizations, especially start-up ventures and those experiencing financial difficulties, to obtain the Company's services without draining necessary cash funds. However, accepting stock as compensation occasionally impairs the Company's cash flow, and for this reason acceptable payments and the size

of payments the Company charges for its services vary with the volatility of the clients' securities, the amount and nature of work involved, and the expenses related to the services being rendered.

Revenues from Hudson's financial consulting operations increased for the year ended December 31, 2003. Nexia recorded \$276,565 in revenues for the year ended December 31, 2003, from its financial consulting operations as compared to \$223,387 for the same period of 2002. This increase was due to a general turn around in consulting due to improved market conditions experienced in the latter part of the year. As the market continues to improve, Nexia anticipates a continuing increase in consulting activity.

Real Estate Operations

Nexia's objective with respect to its real estate operations is to acquire, through its subsidiaries, properties throughout the country which Nexia's management believes to be undervalued and which a subsidiary is able to acquire through the expenditure of limited amounts of cash. The subsidiaries attempt to acquire such properties by assuming existing favorable financing and paying the balance of the price with nominal cash payments or through the issuance of shares of either Nexia's or the subsidiary's common stock, or some combination of the two. Once such properties are acquired, the subsidiary leases them to primarily commercial tenants. Nexia's real-estate subsidiaries also make limited investments in improvements to the properties with the objective of increasing occupancy and improving cash flows. Nexia believes that with minor improvements and effective management by the subsidiaries, properties can be liquidated at a profit within a relatively short period of time. The Company has incurred losses during the past year from impairment write-downs of property.

Nexia recorded consolidated rental revenues of \$511,020 for 2003 as compared to \$610,556 for 2002. This decrease was largely attributable to the sale of Wichita Development Corporation and Salt Lake Development Corporation, both of these entities generated rental revenues for the entire 12 months ending December 31, 2002 versus 7 months of rental revenue recorded in the fiscal year ended December 31, 2003. During 2003, Nexia continued to take steps to decrease the overall vacancy rate of its consolidated real estate holdings including marketing its holdings to potential tenants through commissioned real estate agents and making cost-effective improvements to the holdings to increase occupancy.

Nexia continues its real estate operations despite the negative cash flow for two reasons. First, Nexia is attempting to eliminate the losses by increasing occupancy and rental income from those properties of the subsidiaries which have a high current vacancy rate. Second, Nexia's subsidiaries purchase real estate primarily for appreciation purposes. Thus, while Nexia seeks to minimize and reverse its real estate cash flow deficit, its goal is to offset such deficit with sufficient cash that will be generated upon property disposition.

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Company Operations as a Whole

Revenues

Gross revenues for December 31, 2002 and 2003 were \$833,943 and \$787,585 respectively. The decrease in revenues is due in part to decrease in rental revenues as a result of the sales of Wichita Development Corporation and Salt Lake Development Corporation in July of 2003.

Losses

Nexia recorded an operating loss of \$1,112,463 at December 31, 2003, as compared to an operating loss of \$2,991,265 at December 31, 2002. Nexia recorded a net loss of \$ 901,825 for December 31, 2003, compared to a net loss of \$3,520,570 for December 31, 2002. Nexia's losses decreased as a result of reductions in the level of real estate operations, reduced amounts of losses from sales of securities, reductions in staff and related administrative expenses.

Nexia feels that it is positioned to take advantage of changing market conditions as a result of changes made in the last year. Nexia anticipates operating at a minimal loss through fiscal 2004. There can be no assurance that Nexia will attain profitability or that its can obtain any revenue growth in the future.

Expenses

General and administrative expenses for December 31, 2003 and 2002 were \$ 710,304 and \$1,461,603 respectively. The decrease in expenses is a direct result of the decreases in consulting fees, accounting and audit expenses, bad debt expense, and other general expenses.

Nexia expects expenses as a percent of revenues to remain constant or decrease through 2004 as Nexia steps up its effort to streamline operations and eliminate non-performing assets as well as acquire additional properties and grow its consulting businesses.

Capital Resources and Liquidity

At December 31, 2003, Nexia had current assets of \$ 382,860 and total assets of \$ 3,480,505. Nexia had a net working capital deficit of \$ 1,304,435 at December 31, 2003. The main factors creating the working capital deficit is the amount of real estate obligations that are classified as current obligations and the substantial decrease in securities available for sale due to write downs resulting from downturns in the market.

Net stockholders' equity in Nexia was \$ 44,705 as of December 31, 2003, compared to \$420,316 as of December 31, 2002.

Cash flow used in operations was \$ 152,474 for the year ended December 31, 2003, compared to cash flow used in operations of \$849,030 for the year ended December 31, 2002. The decrease in cash flows used in operating activities for the year ended December 31, 2003, is primarily attributable to the reduction in costs of staff, real estate holdings and a decrease in impairment expense of \$632,260 from the prior year.

Cash flow used by investing activities was \$ 9,763 for the year ended December 31, 2003, compared to net cash provided by investing activities of \$2,305,049

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

for the year ended December 31, 2002. The significant decrease in cash resulting from investing activities for the year ended December 31, 2003 as, compared with 2002 is primarily a result of not having any comparable real estate sales during the year 2003.

Cash flow provided by financing activities was \$ 147,489 for the year ended December 31, 2003, compared to net cash used of \$1,642,541 for the year ended December 31, 2002. Nexia had positive financing cash flow for the year ended December 31, 2003, as a result of issuing long term debt, including convertible debentures, and proceeds from the issuance of stock options.

18

Due to Nexia's acquisition of debt service on real estate holdings, willingness to acquire properties with negative cash flow shortages, and acceptance of non-cash assets for consulting services, Nexia experiences occasional cash flow shortages. To satisfy its cash requirements, including the debt service on its real estate holdings, Nexia must periodically raise funds from external sources. This often involves Nexia conducting exempt offerings of its equity securities.

During the year ended December 31, 2003, Nexia issued a total of 33,150,000 shares for services rendered and prepaid services by employees and consultants.

Debentures

On October 31, 2003 the Company issued two 18% Series A Senior Subordinated Convertible Redeemable Debentures, with a due date of November 1, 2004. Each of the debentures is in the face amount of \$30,000 and is convertible into the common stock of the Company at a discount of 30% from the market price on the date of conversion. The holders of the debentures are Mr. Ronald Friedman and Mr. John E. Fry, Jr., Mr. Fry is a director of the Company. The funds received in exchange for the debentures were forwarded to Creative Marketing Group, Inc. to further a proposed agreement with the Company, that agreement failed to close and the receivable in the amount of \$60,000 at 18% interest has been acknowledged by CMG.

Stock and Options To Employees

During the quarter ending September 30, 2003, Nexia's subsidiary, Hudson Consulting Group, Inc., temporarily discontinued cash payments to its employees.

Consequently, Nexia has relied upon the issuance of S-8 shares to pay certain employees and consultants. On July 21, 2003, Nexia issued 5,000,000 shares of S-8 common stock to Jared Gold for services rendered valued at \$10,000, or \$0.002 per share, the market price on the date of grant. In September, 2003 Nexia issued 17,550,000 shares of its common stock to employees under its S-8 Registration Statements for its Employee Benefit Plans. Michael Golightly, an attorney employed by the Company was issued 7,550,000 shares as compensation for past services to the Company and in partial settlement of obligations related to his employment. Shane Stone, serving as accounting manager for the Company was issued 10,000,000 shares as compensation for his services in working on financial and quarterly reports for the Company and in partial settlement of obligations related to his employment.

On November 17, 2003, the Company's board of directors approved the issuance of 2,000,000 shares of the Company's common stock to Francis A. Zumbrowski for bona

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

fide services he provided to the Company.

The directors receiving shares included, Richard Surber, Gerald Einhorn, Adrienne Bernstein, and John E. as an incentive to retaining Mr. Surber as an employee of the Company. As these preferred shares have voting rights which equate to 100 shares of common stock for every 1 Series A Preferred share and may be converted into \$10 worth of common stock. this issuance of preferred stock has the effect of diluting the voting rights of holders of the common stock and potential dilution of the rights of common stockholders upon liquidation or in the event of conversion of the shares.

Ability to Continue as a Going Concern

Nexia's ability to continue as a going concern is in doubt as a result of Nexia having incurred a loss from its operations during the fiscal year ended December 31, 2003 and has had losses in prior years as well. Nexia will need to substantially decrease its operating expenses, increase its operating income, and raise significant additional capital, as to which there is no assurance that the objective will be accomplished. In the event that these events do not take place Nexia will in all probability not be able to continue as a going concern in calendar year 2004.

Capital Expenditures

Nexia had capital expenditures of \$32,544 during the year ended 2003.

Income Tax Expense (Benefit)

Nexia has an income tax benefit resulting from net operating losses to offset future operating profit of approximately \$6,652,023. This is not shown on the balance sheet as a deferred tax asset due to past history of loss years in conjunction with profit years during the previous 10 year period as well as specifics in the GAAP regulations regarding surety of future earnings.

Impact of Inflation

Nexia believes that inflation has had a negligible effect on operations over the past three years. Nexia believes that it can offset inflationary increases in the cost of labor by increasing sales and improving operating efficiencies.

21

Known Trends, Events, or Uncertainties

General Real Estate Investment Risks

Nexia's investments are subject to varying degrees of risk generally incident to the ownership of real property. Real estate values and income from Nexia's current properties may be adversely affected by changes in national or local economic conditions and neighborhood characteristics, changes in interest rates and in the availability, cost and terms of mortgage funds, occupancy rates of Nexia's properties, the impact of present or future environmental legislation and compliance with environmental laws, the ongoing need for capital improvements, changes in governmental rules and fiscal policies, civil unrest, acts of God, including earthquakes and other natural disasters which may result in uninsured losses, acts of war, adverse changes in zoning laws, and other factors which are beyond the control of Nexia.

Value and Illiquidity of Real Estate

Real estate investments are relatively illiquid. The ability of Nexia to vary its ownership of real estate property in response to changes in economic and other conditions is limited. If Nexia must sell an investment, there can be no assurance that Nexia will be able to dispose of it in the time period it desires or that the sales price of any investment will recoup the amount of Nexia's

investment.

22

Property Taxes

Nexia's real property is subject to real property taxes. The real property taxes on this property may increase or decrease as property tax rates change and as the property is assessed or reassessed by taxing authorities. If property taxes increase, Nexia's operations could be adversely affected.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Nexia Holdings, Inc. and Subsidiaries
Salt Lake City, Utah

We have audited the accompanying consolidated balance sheet of Nexia Holdings, Inc. and Subsidiaries as of December 31, 2003 and the related consolidated statements of operations and other comprehensive income, stockholders' equity and cash flows for the years ended December 31, 2003 and 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Nexia Holdings, Inc. and Subsidiaries as of December 31, 2003 and the consolidated results of their operations and other comprehensive income, and their cash flows for the years ended December 31, 2003 and 2002 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has generated significant losses from operations, has an accumulated deficit of \$10,224,467 and has a working

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

capital deficit of \$1,304,435 at December 31, 2003, which together raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT POLICIES

a. Organization

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Nexia Holdings, Inc. (Nexia or The Company) was incorporated under the laws of the State of Colorado on April 20, 1987 as Metropolitan Acquisition Corporation. The name of the Company has changed several times, most recently, to Kelly's Coffee Group, Inc. (Kelly's) on April 22, 1994, and finally to Nexia Holdings, Inc. on March 15, 2002. Nexia became a development stage company on March 1, 1998.

On October 5, 2000, Nexia merged with a Nevada corporation with the same name, effectively changing its state of domicile from Colorado to Nevada and its authorized common stock from 100,000,000 shares with \$.001 par value to 1,000,000,000 shares with \$.001 par value.

On February 15, 2002, the Company entered into a Stock Purchase Agreement (Agreement) with Axia Group, Inc. (Axia), a related party, pursuant to which the Company issued to Axia 255,100,000 restricted shares of the Company's common stock in exchange for essentially all of the assets and liabilities of Axia. Axia's assets included a portfolio of securities, real estate holdings and publicly reporting shell-companies. The shares issued to Axia equaled approximately 82% of the issued and outstanding shares of the Company after the close of the transaction. Immediately prior to the Agreement, the Company had 55,252,760 shares of common stock issued and outstanding. The acquisition was accounted for as a recapitalization. Such subsidiaries consist of Diversified Holdings I, Inc., Wichita Development Corporation, Golden Opportunity Development Corporation, Downtown Development Corporation, Wasatch Capital Corporation, Hudson Consulting Group, Inc., Oasis International Hotel and Casino, Inc., Canton Industrial Corporation of Salt Lake City Inc., Canton's Wild Horse Ranch II, Inc., West Jordan Real Estate Holdings, Inc., Salt Lake Development, Inc., Kearns Development Corporation and Canton Tire Recycling of West Virginia, Inc. (together "The Accounting Acquirer"). The subsidiaries of Axia which were transferred to the Company have been treated as the acquiring entities for accounting purposes and the Company is the surviving entity for legal purposes. The transaction is deemed to be an exchange of assets between entities under common control. The President of the Company is also the President of Axia and is also a significant shareholder in many of the subsidiaries which were transferred to the Company. As noted by Interpretation 39, the transfer of net assets or an exchange of shares between entities under common control is excluded from Opinion 16 and should be accounted for at historical cost. There was no adjustment to the carrying value of the assets or liabilities of the transferred subsidiaries, nor was there any adjustment to the carrying value of the net assets or liabilities of the Company. The combined statements of operations and other comprehensive income and cash flows for the year ended December 31, 2001 include only the activity of the accounting acquirer and through February 5, 2002 (date of agreement) after which the statement of operations reflect the operations of the accounting acquirer and Nexia. The statement of stockholders equity for the year ended December 31, 2001 has been presented to give proportionate effect to the number of shares issued by the Company as applied to the equity transactions of the accounting acquirer.

On June 19, 2003, in an inter-company tax free transaction, Wichita Development Corporation exchanged its shareholdings in Kearns Development Corporation for the

e. Provision for Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Net deferred tax assets consist of the following components as of December 31, 2003 and 2002:

	2003	2002
	-----	-----
Deferred tax assets		
NOL Carryover	\$ 2,594,290	\$ 2,648,445
Capital loss	661,050	661,050
Other	33,700	2,000
Deferred tax liabilities:	-	-
Valuation allowance	(3,289,040)	(3,311,495)
	-----	-----
Net deferred tax asset	\$ -	\$ -
	=====	=====

The income tax provision differs from the amount of income tax determined by applying the U.S. federal and state income tax rates of 39% to pretax income from continuing operations for the years ended December 31, 2003 and 2002 due to the following:

	2003	2002
	-----	-----
Book loss	\$ (351,710)	\$ (1,394,472)
Bad debt	124,495	120,370
Asset impairments	97,165	100,927
Other	2,345	(2,371)
Stock for services/option expense	150,160	8,000

	\$ -	\$ -
	=====	=====

At December 31, 2003, the Company had net operating loss carryforwards

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

of approximately \$6,652,023 that may be offset against future taxable income from the year 2003 through 2023. No tax benefit has been reported in the December 31, 2003 consolidated financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

e. Provision for Taxes

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carryforwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carryforwards may be limited as to use in the future years.

f. Depreciation

The Company's property and equipment is depreciated using the straight-line Accounting method over the useful lives shown below for financial reporting purposes.

Asset -----	Useful Life -----
Computers	3 years
Equipment and fixtures	5 to 10 years
Buildings and improvements	20 to 39 years

g. Revenue Recognition

The Company recognizes revenue from its two main sources of revenue as follows:

Rental Revenue

Rental revenues are recorded in the period in which they are earned in accordance with rental agreements and lease contracts. Rent payments are typically due by the 1st of each month. Occasionally, the Company will receive rent payments at the end of preceding months for the following months rent. The Company will record these as deferred revenue until such time as the rent has been earned. Deferred rental revenue at the December 31, 2003 was \$28,455.

Consulting Revenue

The Company, through its subsidiaries performs consulting services which consist of financial reporting, business acquisitions, and other public company reporting and support functions. The Company can

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

receive payment for these services in a variety of ways. (1) the Company can be paid in cash; (2) the Company can be paid in restricted securities of the client; (3) the Company can be paid in a combination of cash and restricted securities of the client. The Company follows the revenue recognition provisions of SAB 101 'Revenue Recognition in Financial Statements' and 5 'Recognition and Measurement in Financial Statements of Business Enterprises'. These statements require that revenue not be recognized unless collectibility is reasonably assured with recognition of revenue acceptable only when realizable or when assets received or held are readily convertible into known amounts of cash or claims to cash.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT POLICIES (Continued)

g. Revenue Recognition (Continued)

Consulting Revenue (Continued)

Accordingly, when the Company is to be paid in cash, the Company will record the revenue on an accrual basis when the services have been performed, the amounts are readily determinable and collection is reasonably assured. In the cases where the Company receives restricted securities from the client as payment, revenue is deferred until such time as the securities are sold, thereby meeting the requirements that the assets received are readily convertible into known amounts of cash. In the cases where the Company receives a combination of cash and restricted securities, the Company will record that cash as revenue as noted previously and will defer the recognition of the revenue from the securities until the securities are sold.

The Company records the securities received from consulting services in accordance with SFAS 115 'Accounting for Certain Investments in Debt and Equity Securities'. This standard requires that the Company classify its investments as either trading, available for sale, or held to maturity securities. The Company typically classifies the securities received as payment for the consulting services as available for sale. Any unrealized gains and losses on these securities for which the revenue has been deferred are recorded as adjustments to the deferred revenue account until such time as the security is sold and the Company is able to recognize the revenue from the consulting services. The amount of deferred revenue related to consulting services performed for which the Company received restricted securities at December 31, 2003 was \$8,958. This represents the fair value of the portion of the available for sale securities for which revenue had been deferred at December 31, 2003.

h. Marketable Securities

The Company follows the provisions of SFAS 115 regarding marketable securities. The Company's securities investments that are bought and

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period included in earnings.

Securities investments that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and recorded at amortized cost in investments and other assets. Securities investments not classified as either held-to-maturity or trading securities are classified as available-for-sale securities. Available-for-sale securities are recorded at fair value in investments and other assets on the balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a separate component of equity. All marketable securities held by the Company have been classified as available-for-sale securities.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT POLICIES (Continued)

i. Issuance of Common Stock

The Company frequently issues shares of its common stock to acquire assets, retire debt and pay for services. When stock is issued for assets, debt or services, the value of the stock, related assets, debt or services is determined by the most readily determinable value, i.e. the value of the common stock issued or the value of the assets, debt or services.

j. Environmental Compliance and Remediation

The Company determines potential liability on a site by site basis and records a liability when its existence is probable and reasonably estimable. Expenditures that do not have a future economic benefit are expensed as incurred. Expenditures that extend the life of the related property or mitigate or prevent future environmental contamination are capitalized.

k. Impairment of Long-Lived Assets

The Company evaluates its long-lived assets in accordance with Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets". The Company recognizes impairment losses as the difference between historical cost and fair value of the asset, less costs to sell, when management determines that events and circumstances indicate a need to assess impairment, and when that assessment indicates that historical cost materially exceeds fair value, less costs to sell. Impairment expense totaled \$173,966 and \$258,788 for the years ended December 31, 2003 and December 31, 2002, respectively.

l. Advertising Expense

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

n. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT POLICIES (Continued)

o. Newly Issued Accounting Pronouncements

During the year ended December 31, 2003, the Company adopted the following accounting pronouncements:

SFAS No. 143 -- In August 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations, which established a uniform methodology for accounting for estimated reclamation and abandonment costs. The statement was effective for fiscal years beginning after June 15, 2002. The adoption of SFAS No. 143 did not have a material effect on the financial statements of the Company.

SFAS No. 145 -- On April 30, 2002, the FASB issued FASB Statement No. 145 (SFAS 145), "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." SFAS 145 rescinds both FASB Statement No. 4 (SFAS 4), "Reporting Gains and Losses from Extinguishment of Debt," and the amendment to SFAS 4, FASB Statement No. 64 (SFAS 64), "Extinguishments of Debt Made to Satisfy Sinking-Fund Requirements." Through this rescission, SFAS 145 eliminates the requirement (in both SFAS 4 and SFAS 64) that gains and losses from the extinguishment of debt be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect. However, an entity is not prohibited from classifying such gains and losses as extraordinary items, so long as it meets the criteria in paragraph 20 of Accounting Principles Board Opinion No. 30, Reporting the Results of Operations Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. Further, SFAS 145 amends paragraph 14(a) of FASB Statement No. 13, "Accounting for Leases", to eliminate an inconsistency between the accounting for sale-leaseback transactions and certain lease modifications that have economic effects that are similar to sale-leaseback transactions. The amendment requires that a lease modification (1) results in recognition of the gain or loss in the 9 financial statements, (2) is subject to FASB Statement No. 66, "Accounting for Sales of Real Estate," if the leased asset is real estate (including integral equipment), and (3) is subject (in it's

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

entirety) to the sale-leaseback rules of FASB Statement No. 98, "Accounting for Leases: Sale-Leaseback Transactions Involving Real Estate, Sales-Type Leases of Real Estate, Definition of the Lease Term, and Initial Direct Costs of Direct Financing Leases." Generally, FAS 145 is effective for transactions occurring after May 15, 2002. The adoption of SFAS 145 did not have a material effect on the financial statements of the Company.

SFAS No. 146 -- In June 2002, the FASB issued SFAS No. 146, "Accounting for Exit or Disposal Activities" (SFAS 146). SFAS 146 addresses significant issues regarding the recognition, measurement, and reporting of costs that are associated with exit and disposal activities, including restructuring activities that are currently accounted for under EITF No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." The scope of SFAS 146 also includes costs related to terminating a contract that is not a capital lease and termination benefits that employees who are involuntarily terminated receive under the terms of a one-time benefit arrangement that is not an ongoing benefit arrangement or an individual

deferred-compensation contract. SFAS 146 will be effective for exit or disposal activities that are initiated after December 31, 2002 and early application is encouraged. The provisions of EITF No. 94-3 shall continue to apply for an exit activity initiated under an exit plan that met the criteria of EITF No. 94-3 prior to the adoption of SFAS 146. The effect on adoption of SFAS 146 will change on a prospective basis the timing of when the restructuring charges are recorded from a commitment date approach to when the liability is incurred. The adoption of SFAS 146 did not have a material effect on the financial statements of the Company.

SFAS No. 147 -- In October 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 147, "Acquisitions of Certain Financial Institutions" which is effective for acquisitions on or after October 1, 2002. This statement provides interpretive guidance on the application of the purchase method to acquisitions of financial institutions. Except for transactions between two or more mutual enterprises, this Statement removes acquisitions of financial institutions from the scope of both SFAS 72 and Interpretation 9 and requires that those transactions be accounted for in accordance with SFAS No. 141, "Business Combinations" and No. 142, "Goodwill and Other Intangible Assets". The adoption of SFAS No. 147 did not have a material effect on the financial statements of the Company.

SFAS No. 148 -- In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock Based Compensation-Transition and Disclosure-an

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

amendment of FASB Statement No. 123" which is effective for financial statements issued for fiscal years ending after December 15, 2002. This Statement amends SFAS 123, Accounting for Stock-Based Compensation, to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based compensation and the effect of the method used on reported results. The adoption of SFAS No. 148 did not have a material effect on the financial statements of the Company.

SFAS No. 149 -- In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" which is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. This statement amends and clarifies financial accounting for derivative instruments embedded in other contracts (collectively referred to as derivatives) and hedging activities under SFAS 133. The adoption of SFAS No. 149 did not have a material effect on the financial statements of the Company.

SFAS No. 150 -- In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" which is effective for financial instruments entered into or modified after May 31, 2003, and is otherwise effective at the beginning of the first interim period

beginning after June 15, 2003. This Statement establishes standards for how an issuer classifies and measures in it's statement of financial position certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within it's scope as a liability (or an asset in some circumstances) because that financial instrument embodies an obligation of the issuer. The adoption of SFAS No. 150 did not have a material effect on the financial statements of the Company.

FASB Interpretation No. 45 -- "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others - an Interpretation of FASB Statements No. 5, 57 and 107". The initial recognition and initial measurement provisions of this Interpretation are to be applied prospectively to guarantees issued or modified after December 31, 2002. The disclosure requirements in the Interpretation were effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of FASB Interpretation No. 45 did not have a material effect on the financial statements of the Company.

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

FASB Interpretation No. 46 -- In January 2003, the FASB issued FASB Interpretation No. 46 "Consolidation of Variable Interest Entities." FIN 46 provides guidance on the identification of entities for which control is achieved through means other than through voting rights, variable interest entities, and how to determine when and which business enterprises should consolidate variable interest entities. This interpretation applies immediately to variable interest entities created after January 31, 2003. It applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. The adoption of FIN 46 did not have a material impact on the Company's financial statements.

NOTE 2 - GOING CONCERN

The Company's consolidated financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has incurred cumulative operating losses through December 31, 2003 of \$10,224,467, and has a working capital deficit of \$1,304,435 at December 31, 2003 all of which raise substantial doubt about the Company's ability to continue as a going concern.

Primarily, revenues have not been sufficient to cover the Company's operating costs. Management's plans to enable the Company to continue as a going concern include the following:

- o Increasing revenues from rental properties by implementing new marketing programs
- o Making certain improvements to certain rental properties in order to make them more marketable
- o Reducing negative cash flows by selling rental properties that do not at least break even
- o Refinancing high interest rate loans
- o Increasing consulting revenues by focusing on procuring clients that pay for services rendered in cash or highly liquid securities
- o Reducing expenses through consolidating or disposing of certain subsidiary companies
- o Raising additional capital through private placements of the Company's common stock

There can be no assurance that the Company can or will be successful in implementing any of its plans or that they will be successful in enabling the company to continue as a going concern. The Company's consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 - RELATED PARTY TRANSACTIONS

In August of 1997, Canton Financial Services Corporation (CFSC), a formerly consolidated subsidiary subsequently incorporated into Hudson, executed a lease agreement with the Company's CEO and president pursuant to which he is leasing an interest in a condominium to the Company. The condominium is located in Brian Head, Utah, in close proximity to other condominiums owned by the Company's subsidiaries. The lease has a term of five years and expired on August 29, 2002. The lease provided for monthly payments of \$900 and an option to purchase the condominium for \$84,814. An extension was entered into through March 31, 2003, when the lease was allowed to expire.

The Company's CEO and president has at various times been appointed to

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

serve as an officer or director for some clients of the Company. These appointments have been disclosed to the disinterested members of the board and the approval of the board of directors has been granted in each of these cases. As payment for services provided to these corporations, he has received securities of those corporations, and these transactions have been disclosed to the board of directors in each case. He holds a significant interest in approximately 20 shell companies.

During 2002, the CEO and president of the Company, received 1,570,513 shares of Axia, a related party, as additional collateral for the loans he personally guaranteed for the Company's subsidiary, Kearns. Later in 2002, the Company refinanced the loan and he kept the shares issued to him. As such, the shares have been expensed as loan fees and were valued at \$0.26 per share, the trading price for Axia, for a total value of \$408,333 and a payable to Axia was established. In 2003, the shares were returned to Axia and the debt was forgiven. As such, the \$408,333 was treated as contributed capital to Kearns.

The Company's CEO and president has issued personal guarantees on numerous debts of the Company in order to secure refinancing arrangements.

During April 2003, Hudson, a subsidiary of the Company, entered into an agreement to sell its interest in Unit A216 of the Brian Head North Condominiums in Iron County, Utah to related party. Hudson received \$1,000 in cash and was relieved of all obligations and liabilities relating to the property. The Company recognized a loss on sale of \$10,660.

During May 2003, Hudson entered into a one-year Consulting Agreement with Axia Group, Inc. (Axia) a related party. The agreement calls for Axia to issue 666,667 shares of common stock and pay \$10,000 per month or hourly billings on a monthly basis, whichever is greater. Amounts due under this agreement have been off-set against payables to Axia from the receipt by Hudson of \$64,413 in cash from the sale of Axia common stock. At December 31, 2003, Hudson had a net receivable of \$12,942 from Axia.

NOTE 11 - COMMITMENTS AND CONTINGENCIES (Continued)

Suit was filed on August 14, 1998 in the Circuit Court of Wood County,

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Parkersburg, West Virginia seeking the completion of clean up procedures for property owned by Canton Tire Recycling West Virginia, located in the city of Parkersburg. The state requested that certain waste material present on the site and any remaining material in the on site storage tanks be removed and that an oil/water separator located on the property be cleaned out. The Company and the State of West Virginia entered into a Consent Decree by which the Company agreed to submit and complete a Remediation and Sampling Work Plan and the payments of \$88,000 in fines and penalties. As of December 31, 2003, the Company had paid \$68,000 related to this obligation with the remaining \$20,000 included in accrued liabilities in the accompanying consolidated financial statements. The work required by the Remediation and Sampling Work Plan has been completed and submitted to the State. This information included test results indicating that soil contamination testing required by the Plan reported contamination exceeding state guidelines. The nature and cost of further testing or clean-up as a result of that report cannot be determined at this time. No further request for additional work or testing has been received from the State of West Virginia. During 2004, the amount due was compromised and settled for a \$5,000 payment.

The Company and various subsidiary companies have filed suit seeking recovery of assets and other redress relating to the sale of assets, subsidiary companies or the performance of consulting services. The ultimate outcome of these various actions and their potential impact, if any, on the Company's consolidated financial statements is not presently determinable.

NOTE 12 - SIGNIFICANT EVENTS

Disposition and Impairment of Assets -----

During March 2004, the buildings and land of the Company's subsidiary CTRWV in Parkersburg, West Virginia were sold in a trust deed sale for back property taxes from 2001. As such, the Company wrote-off the remaining net book value of \$29,559 to loss on disposal of assets at December 31, 2003.

During December 2003, land on the books at a value of \$195,511 was determined to be permanently impaired in value and written down by \$173,966 to its fair value of \$21,545.

During June 2003, the Company's subsidiary, Hudson, sold two condominiums in Brian Head, Utah, one to a related party (See Note 3) for a loss of \$10,660. The other condominium was sold to a third party for \$48,000. The net book value of \$43,500, plus sale expenses of \$3,549, resulted in a gain on sale of \$951.

Disposition of Subsidiary

On August 27, 2002, the Company's subsidiary, Hudson, entered into a Stock Purchase Agreement (Agreement) for the sale of its' 79.77% ownership in Torchmail Communications, Inc. (Torchmail) to seven unrelated parties. The terms of the sale were that Hudson would transfer its' 79.77% ownership in Torchmail for \$300,000. The purchase price was to be paid \$100,000 at closing, \$100,000 120 days following closing and \$100,000 180 days following closing. Payment of the \$200,000 due following closing was to be secured by 1,874,601 shares of common stock which was two-thirds of the 79.77% owned by Hudson and by 9,384,543 shares of Torchmail to be issued and sold in a separate transaction. The sale of Torchmail resulted in a gain of \$343,102. Since execution of the Agreement, the Company has received \$100,000 paid at closing and a second \$100,000 payment in February 2004. The remaining \$100,000 has not yet been received and is the subject of litigation. Since the Company does not know the ultimate outcome of the remaining receivable, the remaining portion of the gain on sale of \$21,770 is being presented as deferred. At such time as the litigation is resolved, the Company will recognize the resulting net effect of the sale.

On June 19, 2003, in an inter-company tax free transaction, WHDV, a subsidiary of the Company, exchanged it's shareholdings in Kearns for the DHI shareholdings in SLD. DHI, Kearns and SLD were all subsidiaries of Nexia at the time of the restructuring.

On June 30, 2003, the Company sold its interest in WHDV to DFRC. The terms of the agreement are as follows:

- a) WHDV assigns to DH1 a promissory note in the amount of \$14,056;
- b) WHDV waives the \$112,517 receivable owed to it by Kearns;
- c) Nexia waives the \$1,565 receivable owed to it by WHDV, and DH1 waives the \$407,854 receivable owed to it by SLD;
- d) Wichita issues to DH1 a promissory note in the amount of \$150,000;
- e) DFRC transfers to DH1 1,148,251 shares of it's restricted common stock with a guaranteed liquidation value of not less than \$1 per share. Although DFRC shares currently have a market price of approximately \$2.70/share, the shares have been assigned a value of \$0.19/share due to concerns about the liquidity of the DFRC shares.

Subsequently, it was determined that the receivable from WHDV was impaired, with the full allowance applied against the gain on sale. The Company recognized a net gain on sale of \$129,268.

(802,693 shares), Axia Group, Inc. (13,113,462 shares), and Oasis International Hotel & Casino, Inc. (2,654,271 shares). Mr. Surber personally owns 94,023,147 shares.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The related party receivable at December 31, 2003 of \$12,942 from Axia was settled subsequent to the end of year as further described in subsequent events.

The Company has entered into the following related party transactions:

In August of 1997, Hudson Consulting Group, Inc. (Hudson), executed a lease agreement with the Company's CEO and president pursuant to which he is leasing an interest in a condominium to the Company. The condominium is located in Brian Head, Utah, in close proximity to other condominiums owned by the Company's subsidiaries. The lease expired on August 29, 2003. The lease provides for monthly payments of \$900. Hudson had an option to purchase the condominium for \$84,814, reduced monthly by a portion of the payment attributable to principal. In the event that the value of the condominium appreciates and Hudson had arranged a sale of the condominium prior to exercise of the option, the option price shall be \$84,814 plus 10% of the amount by which the total sales price exceeds \$84,814. This agreement has expired and Hudson has no further claim or right to the described property.

During 2002, the CEO and president of the Company, received 1,570,513 shares of Axia, a related party, as additional collateral for the loans he personally guaranteed for the Company's subsidiary. Later in 2002, the Company refinanced the loan and he kept the shares issued to him. The shares have been expensed as loan fees and were valued at \$0.26 per share which was the trading price for Axia for a total value of \$408,333 and is considered a payable to Axia. The shares were later returned for cancellation.

In the first quarter of 2002, the Company entered into a Stock Purchase Agreement ("Agreement") with Axia Group, Inc. ("Axia"), pursuant to which the Company issued to Axia 255,100,000 restricted shares of the Company's common stock in exchange for essentially all of the assets and liabilities of Axia including a portfolio of securities, real estate holdings and publicly reporting shell-companies. The shares issued to Axia equaled approximately 82% of the issued and outstanding shares of the Company after the close of the transaction. Axia on December 10, 2002 spun-off those 255,100,000 shares of the Company's common stock to Axia's shareholders on a pro rata basis. This transaction was first reported in the Company's Form 8-K filed on February 26, 2002.

The Company has entered into discussions with Richard Surber, the President of the Company, with regard to providing compensation and security to Mr. Surber for acting as a personal guarantor for loans to several of the Company's subsidiaries. The package will most likely consist of common stock issued by the Company and/or other investment securities and cash compensation.

Surber has at various times been appointed to serve as an officer or director for some clients of Nexia. These appointments have been disclosed to the disinterested members of the board and the approval of the board of directors has been granted in each of these cases. As payment for services provided to these corporations, Surber has received securities of those corporations, and these transactions have been disclosed to the board of directors in each case. Surber holds a significant interest in approximately 14 shell companies. Mr Surber is licenced to practice law in the State of California and occasionally represents corporate clients on various corporate matters. Mr Surber has disclosed the fact that he on occasion does act as counsel to several companies for which he receives fees for the legal services provided.

Subsequent Events:

On January 29, 2004 the Company, and/or its subsidiaries entered the following agreements to settle debts and obligations with Axia Group, Inc., a related party of which Richard Surber, President of the Company also serves as an officer and director:

1. Diversified Holdings I, Inc. accepted the assignment of certain rights to securities with a stated value of \$50,000 due in the settlement of Axia's litigation claim against America West Securities and Robert Kay.
2. Diversified Holdings, I, Inc. also accepted an assignment of Axia's rights (presently being litigated) against Kevin Sheff for the recovery of 10,000 post-split shares of Axia Group, Inc's common stock.
3. As settlement of compensation due under a May 2, 2003 Consultant Agreement with Hudson Consulting Group, Inc., Axia Group Inc. transferred 9,100,012 shares of Nexia common stock to Hudson.
4. Signed a full release and settlement of all claims against Axia Group, Inc. of all claims held by, Nexia Holdings, Inc., Wasatch Capital, Inc., Hudson Consulting Group, Inc. and West Jordan Real Estate Holdings, Inc.

The end result of the agreements was to resolve and settle all claims against Axia Group, Inc. held by the named entities, all subsidiaries of Nexia Holdings, Inc. Richard Surber, President of the Company, is also an officer and director of Axia Group, Inc. The purpose of the above described transaction was to settle the various claims and resolve the debts and obligations that existed between Axia and the Company and its subsidiaries.

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

Exhibit 14.1 - Code of Ethics

CODE OF ETHICS OF NEXIA HOLDINGS, INC.

I. Objectives

Nexia Holdings, Inc. (Nexia) is committed to the highest level of ethical behavior. Nexia's business success depends upon the reputation of Nexia and its directors, officers and employees to perform with the highest level of integrity and principled business conduct.

This Code of Ethics ("Code") applies to all directors, officers and employees of Nexia, including Nexia's chief executive officer and chief financial officer, (collectively, the "Covered Persons"). This Code is designed to deter wrongdoing and to promote all of the following:

honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; full, fair, accurate, timely, and understandable disclosure in reports and documents that Nexia files with, or submits to, the Securities and Exchange Commission (the "Commission"), and in other public communications made by Nexia; compliance with applicable governmental laws, rules and regulations; the prompt internal reporting to an appropriate person or persons identified herein for receiving violations of this Code; and accountability for adherence to this Code.

Each Covered Person must conduct himself or herself in accordance with this Code, and must seek to avoid even the appearance of improper behavior.

This Code is not intended to cover every applicable law, or to provide answers to all questions that might arise; for such, Nexia relies on each person's sense of what is right, including a sense of when it is appropriate to seek guidance from others on an appropriate course of conduct.

II. Honest and Ethical Conduct

Each Covered Person must always conduct himself or herself in an honest and ethical manner. Each Covered Person must act with the highest standards of personal and professional integrity and must not tolerate others who attempt to deceive or evade responsibility for actions. Honest and ethical conduct must be a driving force in every decision made by a Covered Person while performing his or her duties for Nexia. When in doubt as to whether an action is honest and ethical, each Covered Person shall seek advice from her or his immediate supervisor or senior management, as appropriate.

III. Conflict of Interest

The term "conflict of interest" refers to any circumstance that would cast doubt on a Covered Person's ability to act objectively when representing Nexia's interests. Covered Persons should not use their position or association with Nexia for their own or their family's gain, and should avoid situations in which their personal interests (or those of their family) conflict or overlap, or appear to conflict or overlap, with Nexia's best interests.

The following are examples of activities that give rise to a conflict of

Edgar Filing: NEXIA HOLDINGS INC - Form 10KSB

interest. These examples do not in any way limit the scope of Nexia's policy regarding conflicts of interest.

Where a Covered Person's association with (or financial interest in) another person or entity would reasonably be expected to interfere with the Covered Person's independent judgment in Nexia's best interest, that association or financial interest creates a conflict of interest.

The holding of a financial interest by a Covered Person in any present or potential competitor, customer, supplier, or contractor of Nexia creates a conflict of interest, except where the business or enterprise in which the Covered Person holds a financial interest is publicly owned, and the financial interest of the Covered Person in such public entity constitutes less than one percent (1%) of the ownership of that business or enterprise.

The acceptance by a Covered Person of a membership on the board of directors, or serving as a consultant or advisor to any board or any management, of a business that is a present or potential competitor, customer, supplier, or contractor of Nexia, creates a conflict of interest, unless such relationship is pre-approved, in writing, by the chief executive officer of Nexia or the board of directors in the event the Covered Person is the chief executive officer.

Engaging in any transaction involving Nexia, from which the Covered Person can benefit financially or otherwise, apart from the usual compensation received in the ordinary course of business, creates a conflict of interest. Such transactions include lending or borrowing money, guaranteeing debts, or accepting gifts, entertainment, or favors from a present or potential competitor, customer, supplier, or contractor of Nexia.

The use or disclosure of any unpublished information regarding Nexia, obtained by a Covered Person in connection with his or her employment for personal benefit creates a conflict of interest.

It is Nexia's policy and it is expected that all Covered Persons should endeavor to avoid all situations that present an actual or apparent conflict of interest. All actual or apparent conflicts of interest must be handled honestly and ethically. If a Covered Person suspects that he or she may have a conflict of interest, that Covered Person is required to report the situation to, and to seek guidance from, her or his immediate supervisor or senior management as appropriate. For purposes of this Code, directors, the chief executive officer, and the chief financial officer shall report any such conflict or potential conflict to the chairman of the audit committee, if one is later created, and in the absence of an audit committee, to the chairman of the board of directors. Officers (other than the chief executive and chief financial officers) and employees of Nexia shall report any such situations to their immediate supervisor. It is the responsibility of the audit committee chairman or the chairman of the board of directors, as applicable, to determine if a conflict of interest exists or whether such situation is likely to impair the Covered Person's ability to perform his or her assigned duties with Nexia, and if such situation is determined to present a conflict, to determine the necessary resolution.

Loans are expressly prohibited from Nexia to all directors and executive officers.

IV. Compliance with Applicable Laws, Rules and Regulations

Full compliance with the letter and the spirit of all applicable governmental laws, rules and

regulation, and applicable rules and listing standards of any national securities exchange on which Nexia's securities may be listed, is one of the foundations on which Nexia ethical policies are built. All directors and executive officers of Nexia must understand and take responsibility for Nexia's compliance with the applicable governmental laws, rules and regulations of the cities, states and countries in which Nexia operates, and for complying with the applicable rules and listing standards of any national securities exchange on which Nexia's securities may be listed.

V. Rules to Promote Full, Fair, Accurate, Timely and Understandable Disclosure

As a public company, Nexia has a responsibility to report financial information to security holders so that they are provided with accurate information in all material respects about Nexia's financial condition and results of operations. It is the policy of Nexia to fully and fairly disclose the financial condition of Nexia in compliance with applicable accounting principles, laws, rules and regulations. Further, it is Nexia's policy to promote full, fair, accurate, timely and understandable disclosure in all Nexia reports required to be filed with or submitted to the Commission, as required by applicable laws, rules and regulations then in effect, and in other public communications made by Nexia.

Covered Persons may be called upon to provide or prepare necessary information to ensure that Nexia's public reports are complete, fair and understandable. Nexia expects Covered Persons to take this responsibility seriously and to provide accurate information related to Nexia's public disclosure requirements.

All books and records of Nexia shall fully and fairly reflect all Nexia transactions in accordance with accounting principles generally accepted in the United States of America, and any other financial reporting or accounting regulations to which Nexia is subject. No entries to Nexia's books and records shall be made or omitted to intentionally conceal or disguise the true nature of any transaction. Covered Persons shall maintain all Nexia books and records in accordance with Nexia's established disclosure controls and procedures and internal controls for financial reporting, as such controls may be amended from time to time.

All Covered Persons must report any questionable accounting or auditing matters that may come to their attention. This applies to all operating reports or records prepared for internal or external purposes. If any Covered Person has concerns or complaints regarding questionable accounting or auditing matters of Nexia, Covered Person shall report such matters to his or her immediate supervisor. If the immediate supervisor is involved in the questionable accounting or auditing matter, or does not timely resolve the Covered Person's concern, the Covered Person should submit their concerns to the chief executive officer or the chief financial officer. If the chief executive officer and the chief financial officer are involved in the questionable accounting or auditing matter, or do not timely resolve the Covered Person's concerns, the Covered Person should submit his or her concern directly to the audit committee, if one be established, or to the board of directors in the absence of a designated audit committee. The reporting of any such matter may be done on a confidential basis, at the election of the Covered Person making the report.

VII. Confidentiality

Directors and employees must maintain the confidentiality of non-public, proprietary information regarding Nexia, its customers or its suppliers, and shall use that information only to further the business interests of Nexia, except where disclosure or other use is authorized by Nexia or legally mandated. This includes information disseminated to employees in an effort to keep them informed or in connection with their work activities, but with the instruction, confidential labeling, or reasonable expectation that the information be kept confidential.

VIII. Trading on Inside Information

Inside information includes any non-public information, whether favorable or unfavorable, that investors generally consider important in making investment decisions. Examples include, financial results not yet publicly released, imminent regulatory approval/disapproval of any proposed corporate action or other significant matter such as the purchase or sale of a business unit, subsidiary or significant assets, threatened litigation, or other significant facts about Nexia's business. No information obtained as the result of employment at, or a director's service on the board of, Nexia may be used for personal profit or as the basis for a "tip" to others, unless such information is first made generally available to the public.

IX. Protection and Proper Use of Nexia's Assets

Directors and employee should protect Nexia's assets and ensure their efficient use. Theft, carelessness and waste have an adverse impact on Nexia and its profitability. Nexia assets may only be used for legitimate company business purposes.

X. Intellectual Property

Nexia expends a great deal of time, effort and money to protect its intellectual property. The company is sensitive to issues regarding the improper use of our intellectual property and avoiding the improper use of intellectual property of others, including but not limited to copyrights, trademarks, trade secrets and patents.
