PRIVATE PLACEMENTS

August 29, 2005 Private Placement

The information set forth under the caption "Private Placement - August 29, 2005 Private Placement" in this prospectus on page 16 is supplemented as follows:

Effective February 24, 2006, we have reduced the conversion price for the 6% convertible notes with an aggregate principal of \$2,100,000 from \$1.06 per share to \$1.00 per share, subject to adjustment according to the terms of the note agreements. We also amended certain adjustment provisions in the note agreements relating to subsequent sales of securities by our company. If we issue additional securities to third parties at an effective net price to our company that is less than the reduced conversion price of \$1.00, then the conversion price will be reduced to equal to the effective net price of the newly issued securities. Effective net price of the newly issued securities will be calculated as the minimum dollar value of consideration payable to our company to purchase the additional securities divided by the maximum number of shares of our common stock potentially issuable at any time upon conversion, exchange or exercise into our securities. If we issue additional securities to a third party with a price or number of underlying shares of our common stock that floats or resets or otherwise varies or is subject based on market price of our common stock, then the effective net price of these securities will be determined separately on

each date these securities are converted, exchanged or exercised into our common stock and is deemed to be equal to the lowest effective net price such third party is entitled to acquire our common stock on such date.

Effective February 24, 2006, we have also reduced the exercise price for the share purchase warrants issued to the investors in the August 29, 2005 Private Placement from \$1.25 per share to \$1.15 per share, subject to adjustment according to the terms of the warrants. We also amended certain adjustment provisions in the warrants relating to subsequent sales of securities by our company. If we issue additional securities to third parties at an effective net price to our company that is less than the reduced exercise price of \$1.15, then the exercise price will be reduced to equal to the effective net price of the newly issued securities. Effective net price of the newly issued securities will be calculated as the minimum dollar value of consideration payable to our company to purchase the additional securities divided by the maximum number of shares of our common stock potentially issuable at any time upon conversion, exchange or exercise into our securities. If we issue additional securities to a third party with a price or number of underlying shares of our common stock that floats or resets or otherwise varies or is subject based on market price of our common stock, then the effective net price of these securities will be determined separately on each date these securities are converted, exchanged or exercised into our common stock and is deemed to be equal to the lowest effective net price such third party is entitled to acquire our common stock on such date.
