#### CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains certain forward-looking statements within the meaning of section 27A of the Securities Act of 1933, as amended, and section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to, among other things:

our financial results, expectations of future revenues and profitability;

our intention and ability to protect our intellectual property, the cost of prosecuting or defending our intellectual property through litigation, the outcome of related litigations and the strength and future value of our intellectual property;

our future investments in subscription acquisition activities, offers of bundled hardware and service subscriptions, future advertising expenditures, future use of consumer rebates, hardware cost and associated subsidies, and other marketing activities and consumer offers, including our current subsidized hardware pricing and related subscription pricing and their impact on our hardware revenues, service revenues, total acquisition costs as well as sales and marketing, subscription acquisition costs, and average revenue per subscription ("ARPU");

our estimates of the useful life of TiVo-enabled digital video recorders ("DVRs") in connection with the recognition of revenue received from product lifetime subscriptions and the expected future increase in the number of fully-amortized TiVo-Owned product lifetime subscriptions;

our expectations regarding the seasonality of our business and subscription additions to the TiVo service; our expectations regarding any future growth in subscriptions to the TiVo Service, including future increases in TiVo's MSO subscription base and the possibility of future decreases in the TiVo-Owned subscription base; our intentions to continue to grow the number of TiVo-Owned subscriptions through our relationships with major retailers and our expectations with respect to future gross additions in our TiVo-Owned subscriptions as well as multiple system operators and broadcasters' ("MSOs") subscriptions;

our expectations related to future advertising and audience research measurement revenues;

our expectations related to changes in the cost of our hardware revenues and the reasons for changes in the volume of DVRs sold to retailers;

our future earnings including expected future service revenues from future TiVo-Owned subscriptions and future service and technology revenues from MSOs;

our expectations of the growth in the future advanced television services market for our software and technology for both our hardware and in-home and outside-of-the-home cloud-based solutions, which will be impacted by alternatives to and competitors with our products, such as cable Video On Demand ("VOD"), streaming VOD from the internet, and network DVRs;

our expectations regarding installation and operational issues surrounding cable-operator provided CableCARDs and switched digital devices essential for TiVo consumer devices in cable homes;

our expectations that in the future we may also offer services for additional non-DVR products that would incorporate the TiVo user interface and non-DVR software;

our expectations of the growth of the TiVo service and technology outside the United States;

our expectations with respect to the timing of future development and deployment, including future

3

subscription growth or attrition and future technology and service revenues, with our distribution partners such as Virgin Media Limited (U.K.), Suddenlink (U.S.), Charter Communications (U.S.), Cableuropa S.A.U. ("ONO") (Spain), Comcast (U.S.), Cox (U.S.), RCN (U.S.), Grande Communications (U.S.), DIRECTV (U.S.), and Cablevision (Mexico):

our expectations regarding the future amount of our research and development spending and associated ability to remain competitive and a technology innovator in advanced television solutions beyond the DVR;

our expectations regarding future increases in the amount of deferred expenses in costs of technology revenues related to development work for our television distribution partners;

our expectations regarding future increases in our operating expenses, including increases in general and administrative expenses, litigation expenses, sales and marketing and subscription acquisition costs, and future increases in hardware costs related to supply shortages in the hard disk drive component market;

our expectations regarding our ability to oversee outsourcing of our manufacturing processes and engineering work; our expectations with respect to the usability of our current finished goods inventory of DVRs and non-DVR products and the risks that hardware forecasts of our MSO customers may be reduced after we have committed manufacturing resources due to long-lead times which if such inventories exceed forecasted demand would require us to record additional write-downs;

our expectations regarding our ability to fund operations, capital expenditures, and working capital needs during the next year;

our expectations regarding our ability to raise additional capital through the financial markets in the future; our expectations regarding our ability to perform or comply with laws, regulations, and requirements different than those in the United States; and

our expectations regarding our estimates and expectations related to long-term investments and their associated carrying value.

Forward-looking statements generally can be identified by the use of forward-looking terminology such as "believe," "expect," "may," "will," "intend," "estimate," "continue," "ongoing," "predict," "potential," and "anticipate" or similar express negative of those terms or expressions.
