FORWARD LOOKING STATEMENTS

This quarterly report contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in this Risk Factors section and elsewhere in this annual report.

Item 3. Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, within the 90 days prior to the filing date of this report, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. This evaluation was conducted by the Board of Directors of the Company, the Company's President who also acts as, the Chief Executive Officer, And the Chief Financial Officer.

Based upon that evaluation, the Company concluded that the disclosure controls and procedures are effective. There have been no significant changes in the Company's internal controls or in other factors, which could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

Plan of Operation

We have completed Phase 1 of our exploration program, and have opted not to continue with phase two of the exploration program on the Kayla property and

our plan of operations for the twelve months following the date of this

report is to focus on the Rio Chubut Property located in the Patagonia region of Southern Argentina. Our plan is to explore this property to determine whether the property contains minable reserves of uranium.

In addition, we anticipate spending \$10,000 on professional fees and \$10,000 on other administrative expenses.

Total expenditures over the next 12 months are therefore expected to be \$170,000. We will not be able to proceed with our exploration program, or meet our administrative expense requirements, without additional financing.

We will not be able to complete the initial exploration program on our mineral property without additional financing. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock. We may also seek to obtain short-term loans from our director, although no such arrangement has been made. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any future equity financing. Due to these factors, raise substantial doubt that the Company will be able to continue as a going concern.

To the extent management's plans are unsuccessful in circumventing the going concern uncertainty; the Company will cease all operations and no longer continue as a going concern.

Results Of Operations for Three-Month Period Ended December 31, 2004

We incurred operating expenses in the amount of \$ for the three-month period ended December 31, 2005, as compared to \$ for the comparative period in 2004. At quarter end, we had cash on hand of \$. Our liabilities at the same date totaled \$.
