The total number of shares represented by the voting shareholders in attendance is 86,951,080 which are represented as follows:

Name and address of Voting Shareholders	Number of Common Shares
Sector 10 Holdings, Inc. 14553 South 790 West Bluffdale, UT 84605	75,807,580

The Board of Directors decided to amend the prior decisions disclosed in the preliminary Information Statement issued on March 14, 2011. The decisions under that disclosure were made by Management and Board Members who

CORPORATE ACTIONS

PURPOSE AND EFFECT OF RETAINING THE COMPANY'S NAME
AND OF AUTHORIZING A 1-FOR-500 REVERSE STOCK SPLIT

The Company's Board of Directors proposed to ask its stockholders to approve an amendment to the Company's Certificate of Incorporation and the filing of said amendment with the Secretary of State of the State of Delaware to retain the Company name as Sector 10, Inc. and to approve a reverse split of the par value \$0.001 common stock on a 500:1 ratio (500 old shares for one new share). A copy of the amendment to the Company's Certificate of Incorporation is attached hereto as Appendix A.

Amendments to the Articles of Incorporation

Amendment to the Articles of Incorporation to Change the Company Name

The Certificate of Amendment provides that Article I, as it relates to the Company's name, will be revised (if needed) to record the name as follows:

The name of the corporation is Sector 10, Inc.

Amendment to the Articles of Incorporation to Authorize the 1-for-500 Reverse Stock Split of the Company's Outstanding Shares of Common Stock

The Certificate of Amendment provides that Article IV, as it relates to the Reverse Stock Split, will be revised as follows:

On the effective date of this Certificate of Amendment, the Corporation shall effect a reverse split in its issued and outstanding shares of common stock so that the shares currently issued and outstanding shall be reverse split, or consolidated, on a 1-for-500 basis, and stockholders shall receive one share of the Corporation's post-split Common Stock, \$0.001 par value, for each five hundred shares of common stock, \$0.001 par value, held by them prior to the reverse split. No scrip or fractional shares will be issued in connection with the reverse split and any fractional interest will be rounded up to the nearest whole share. The reverse split will not result in any modification of the rights of stockholders, and will have no effect on the stockholders' equity in the Corporation except for a transfer from stated capital to additional paid-in capital. All shares returned to the Corporation as a result of the reverse split will be canceled and returned to the status of authorized and unissued shares. Except as specifically provided herein, the Corporation's Articles of Incorporation shall remain unmodified and shall continue in full force and effect.

Purpose of Amendments

The Company's Board of Directors believes it advisable to amend the Company's Certificate of Incorporation to approve an amendment to the Company's Certificate of Incorporation and the filing of said amendment with the Secretary of State of the State of Delaware to retain the Company name as Sector 10, Inc. and to approve a reverse split of the par value \$0.001 common stock. As of the date hereof, there are 145,557,217 shares of common stock issued and outstanding.

The Company has determined to retain the name Sector 10, Inc. and that a name change is no longer appropriate. It appears that the name change request proposed in the March 14, 2011 Information Statement was not completed. This will be verified and if needed, additional changes will be made to retain the name Sector 10, Inc. otherwise no action

will be taken with respect to the Company name.

7

The Board of Directors has approved an amendment to the Articles of Incorporation that would affect a reverse stock split of the outstanding common stock on the basis of one share for every five hundred shares currently issued and outstanding. Each five hundred shares of common stock outstanding when the Certificate of Amendment is filed with the Delaware Secretary of State (the “Effective Date”) will be converted automatically into a single share of common stock. There will not be a change in the par value of the common stock of the Company. To avoid the existence of fractional shares of common stock, if a stockholder would otherwise be entitled to receive a fractional share, such stockholder will be entitled to receive an additional whole share. The reverse stock split will occur automatically on the Effective Date without any action on the part of stockholders and without regard to the date certificates representing shares of common stock are physically surrendered for new certificates.

Stockholders will hold the same percentage interest in the Company as they held prior to the reverse stock split, but their interest will be represented by one-five hundredth as many shares. For instance, if a stockholder presently owns 525 shares, after the reverse stock split they will own 2 shares (525 divided by 500 equals 1.05 shares, which will be equal to 2 whole shares, to avoid the existence of fractional shares).

Generally, a reduction in the number of outstanding shares of common stock caused by the reverse stock split is anticipated initially to increase the per share market price of the common stock, however, because some investors may view the reverse stock split negatively, there can be no assurance that the market price of the common stock will reflect proportionately the reverse stock split, that any particular price may be achieved, or that any price gain will be sustained in the future.

An increase in per share price of the Company’s common stock, which the Company expects as a consequence of the reverse stock split, may enhance the acceptability of the common stock to the financial community and the investing public and potentially broaden the investor pool from which the Company might be able to obtain additional financing. Because of the trading volatility often associated with low-priced stocks, as a matter of policy, many institutional investors are prohibited from purchasing such stocks. For the same reason, brokers often discourage their customers from purchasing such stocks. To the extent that the per share price of the common stock increases as a result of the reverse stock split, some of these concerns may be ameliorated.

Additionally, because broker’s commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current per share price of the Company’s common stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were higher. On the other hand, if the reverse stock split is implemented, the number of holders of fewer than 100 shares of common stock (“odd-lots”) may be increased. Typically, brokerage fees charged on the transfer of odd lots are proportionately higher than those charged on the transfer of 100 or more shares of common stock (“round-lots”).

Potential Disadvantages to the Reverse Stock Split

Reduced Market Capitalization. Theoretically, the overall value of the Company will not change as a result of the reverse stock split so that reducing the number of shares outstanding by a factor of five hundred would increase the per share price by a value of five hundred. However, a reverse stock split is often viewed negatively by the market and, consequently, can lead to a decrease in the overall market capitalization of the Company. As a result, there is no mathematical certainty as to the increase in the price per share that might be expected as result of the reverse stock split, and there can be no assurance that the per share price will increase proportionately to the reverse stock split. If the per share price increases by a factor less than the one-for-five hundred reverse stock split, then the overall market capitalization of the Company will be reduced.

Increased Volatility. The reverse stock split will reduce our outstanding common stock to approximately 291,200 shares of common stock. Of this amount, approximately 173,890 shares will be held by officers, directors, and stockholders owning in excess of 10% of the outstanding common stock. This will result in approximately 104,350 shares being held in the public float. This reduced number of shares could result in decreased liquidity in the trading market and potential mismatches between supply and demand in the market for the common stock at any given time, which could result in changes in the trading price unrelated to the activities or prospects of the Company.

Increased Transaction Costs. As a result of the reverse stock split, the number of shares held by each individual stockholder will be reduced to one five hundredth of the number previously held. This will increase the number of stockholders who hold less than a “round lot,” or 100 shares. Typically, the transaction costs to stockholders selling “odd lots” are higher on a per share basis. Consequently, the reverse stock split could increase the transaction costs to existing stockholders in the event they wish to sell all or a portion of their position.

Procedure for Exchange of Stock Certificates

The Company anticipates that the reverse stock split will become effective on January 30, 2012 which is approximately 21 calendar days after this Information Statement is first mailed to our stockholders, or as soon thereafter as is practicable, which we will refer to as the Effective Date. Beginning on the Effective Date, each certificate representing pre-reverse split shares will be deemed for all corporate purposes to evidence ownership of post-reverse split shares. Holders of pre-reverse split shares are asked to surrender certificates representing pre-reverse split shares to our transfer agent OTC Stock Transfer in exchange for certificates representing post-reverse split shares in accordance with the procedures set forth in a letter of transmittal to be provided to each stockholder following the Effective Date. No new certificates will be issued to a stockholder until that stockholder has surrendered the stockholder’s outstanding certificate(s) together with the properly completed and executed letter of transmittal.

You should not send your old stock certificates now. You should send them only after you receive the letter of transmittal from our transfer agent.

Federal Income Tax Considerations

Neither the Company nor its stockholders should recognize any gain or loss for federal income tax purposes as a result of the reverse stock split. This conclusion is based on the provisions of the Internal Revenue Code of 1986 (the “Code”), existing and proposed regulations thereunder, legislative history, judicial decisions, and current administrative rulings and practices, all in effect on the date hereof. Any of these authorities could be repealed, overruled, or modified at any time. Any such change could be retroactive and, accordingly, could cause the tax consequences to vary substantially from the consequences described herein. No ruling from the Internal Revenue Service (the “IRS”) with respect to the matters discussed herein has been requested, and there is no assurance that the IRS would agree with the conclusions set forth in this discussion. Accordingly, you should consult with your tax advisor.

This discussion may not address certain federal income tax consequences that may be relevant to particular stockholders in light of their personal circumstances (such as persons subject to the alternative minimum tax) or to certain types of stockholders (such as dealers in securities, insurance companies, foreign individuals and entities, financial institutions, and tax-exempt entities) who may be subject to special treatment under the federal income tax laws. This discussion also does not address any tax consequences under state, local, or foreign laws.

You are urged to consult your tax adviser as to the particular tax consequences to you of the reverse stock split, including the applicability of any state, local, or foreign tax laws, changes in applicable tax laws, and any pending or proposed legislation.

Pursuant to § 242 of the General Corporation Law of the State of Delaware:

The undersigned does hereby certify and set forth as follows:

FIRST: That the Board of Directors of the Sector 10, Inc. (the “Corporation”) have duly adopted the following resolution, setting forth a proposed amendment of the Certificate of Incorporation of the Corporation, declaring said amendment to be advisable:

RESOLVED, that the Board of Directors hereby declares it advisable and in the best interests of the Corporation that Article FOURTH of the Certificate of Incorporation of the Corporation be amended to add the following after the first paragraph of Article FOURTH of the Corporation’s Articles of Incorporation:

Reverse Stock Split

On the effective date of this Certificate of Amendment, the Corporation shall effect a reverse split in its issued and outstanding shares of common stock so that the shares currently issued and outstanding shall be reverse split, or consolidated, on a 1-for-500 basis, and stockholders shall receive one share of the Corporation’s post-split Common Stock, \$0.001 par value, for each five hundred shares of common stock, \$0.001 par value, held by them prior to the reverse split. No scrip or fractional shares will be issued in connection with the reverse split and any fractional interest will be rounded up to the nearest whole share. The reverse split will not result in any modification of the rights of stockholders, and will have no effect on the stockholders’ equity in the Corporation except for a transfer from stated capital to additional paid-in capital. All shares returned to the Corporation as a result of the reverse split will be canceled and returned to the status of authorized and unissued shares. Except as specifically provided herein, the Corporation’s Articles of Incorporation shall remain unmodified and shall continue in full force and effect.

Split Ratio. Each 500 shares of the common stock issued and outstanding, or issued and held by the Corporation, as of the day and time this Amendment is filed with Secretary of State of State of Delaware (the “Change Time” or “Effective Date”) shall be, on and as of the Change Time or Effective Date, combined into one (1) share of common stock of the Corporation, \$.001 par value per share.

SECOND: That the said amendment has been consented to and authorized by the holders of a majority of the issued and outstanding stock entitled to vote by written consent in accordance with the provisions of Section 228 of the General Corporation Law of the State of Delaware.

THIRD: That the aforesaid amendment was duly adopted with the applicable provisions of Sections 242 and 228 of the General Corporation Law of the State of Delaware.

IN WITNESS WHEREOF, said corporation has caused this Amendment to be signed by Pericles DeAvila, Chairman of the Board and Chief Executive Officer of the Corporation, this 12th day of December 2011.
