ALLIANCE DATA SYSTEMS CORPORATION
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited condensed consolidated financial statements included herein have been prepared by Alliance Data Systems Corporation (“ADSC” or, including its wholly owned subsidiaries and its consolidated variable interest entities, the “Company”), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. However, the Company believes that the disclosures are adequate to make the information presented not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company’s Annual Report filed on Form 10-K for the year ended December 31, 2012, filed with the SEC on February 28, 2013.

The unaudited condensed consolidated financial statements included herein reflect all adjustments (consisting of normal, recurring adjustments) which are, in the opinion of management, necessary to state fairly the results for the interim periods presented. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for any subsequent interim period or for the fiscal year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (1) the reported amounts of assets; (2) liabilities and disclosure of contingent assets and liabilities at the date of the financial statements; and (3) the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Standards

In February 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2013-02, “Reporting Amounts Reclassified Out of Accumulated Other Comprehensive Income,” which expands the disclosure requirements for items reclassified from accumulated other comprehensive income to net income by requiring the total changes of each component of other comprehensive income to be disaggregated and separately presenting current period reclassification adjustments from the remainder of other comprehensive income for the period. ASU 2013-02 is effective for interim and annual periods beginning after December 15, 2012 and requires prospective application. ASU 2013-02 had no impact on the Company’s financial condition, results of operations or cash flows, but did add certain disclosure requirements. The related disclosures are presented in Note 9, “Accumulated Other Comprehensive Income.”

2. SHARES USED IN COMPUTING NET INCOME PER SHARE

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	(In thousands, except per share amounts)			
Numerator:				
Net income	\$ 116,440	\$ 103,821	\$ 245,419	\$ 219,050

Edgar Filing: ALLIANCE DATA SYSTEMS CORP - Form 10-Q

Denominator:

Weighted average shares, basic	49,123	50,161	49,444	50,157
Weighted average effect of dilutive securities:				
Shares from assumed conversion of convertible senior notes	10,611	8,435	10,372	8,051
Shares from assumed conversion of convertible note warrants	7,818	4,399	7,336	3,844
Net effect of dilutive stock options and unvested restricted stock units	615	736	594	738
Denominator for diluted calculations	68,167	63,731	67,746	62,790
Basic net income per share	\$ 2.37	\$ 2.07	\$ 4.96	\$ 4.37
Diluted net income per share	\$ 1.71	\$ 1.63	\$ 3.62	\$ 3.49

Index

ALLIANCE DATA SYSTEMS CORPORATION
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The Company calculates the effect of its convertible senior notes, which can be settled in cash or shares of common stock, on diluted net income per share as if they will be settled in cash as the Company has the intent to settle the convertible senior notes for cash.

Concurrently with the issuance of its convertible senior notes, the Company entered into hedge transactions that are generally expected to offset the potential dilution of the shares from assumed conversion of convertible senior notes.

The Company is also party to prepaid forward contracts to purchase 1,857,400 shares of its common stock that are to be delivered over a settlement period in 2014. The number of shares to be delivered under the prepaid forward contracts is used to reduce weighted-average basic and diluted shares outstanding.

3. CREDIT CARD RECEIVABLES

The Company's credit card receivables are the only portfolio segment or class of financing receivables. Quantitative information about the components of total credit card receivables is presented in the table below:

	June 30, 2013	December 31, 2012
	(In thousands)	
Principal receivables	\$ 6,866,955	\$ 7,097,951
Billed and accrued finance charges	282,724	291,476
Other receivables	80,911	60,205
Total credit card receivables	7,230,590	7,449,632
Less credit card receivables – restricted for securitization investors	6,074,037	6,597,120
Other credit card receivables	\$ 1,156,553	\$ 852,512

Allowance for Loan Loss

The Company maintains an allowance for loan loss at a level that is appropriate to absorb probable losses inherent in credit card receivables. The allowance for loan loss covers forecasted uncollectible principal as well as unpaid interest and fees. The allowance for loan loss is evaluated monthly for appropriateness.

In estimating the allowance for principal loan losses, management utilizes a migration analysis of delinquent and current credit card receivables. Migration analysis is a technique used to estimate the likelihood that a credit card receivable will progress through the various stages of delinquency and to charge-off. The allowance is maintained through an adjustment to the provision for loan loss. Charge-offs of principal amounts, net of recoveries are deducted from the allowance. In estimating the allowance for uncollectible unpaid interest and fees, the Company utilizes historical charge-off trends, analyzing actual charge-offs for the prior three months. The allowance is maintained through an adjustment to finance charges, net. In evaluating the allowance for loan loss for both principal and unpaid interest and fees, management also considers factors that may impact loan loss experience, including seasoning, loan volume and amounts, seasonality, payment rates and forecasting uncertainties.

Net charge-offs include the principal amount of losses from credit cardholders unwilling or unable to pay their account balances, as well as bankrupt and deceased credit cardholders, less recoveries and exclude charged-off interest, fees and fraud losses. Charged-off interest and fees reduce finance charges, net while fraud losses are recorded as an expense. Credit card receivables, including unpaid interest and fees, are charged-off at the end of the

month during which an account becomes 180 days contractually past due, except in the case of customer bankruptcies or death. Credit card receivables, including unpaid interest and fees, associated with customer bankruptcies or death are charged-off at the end of each month subsequent to 60 days after the receipt of notification of the bankruptcy or death, but in any case, not later than the 180-day contractual time frame. The Company records the actual charge-offs for unpaid interest and fees as a reduction to finance charges, net. Actual charge-offs for unpaid interest and fees were \$55.0 million and \$44.3 million for the three months ended June 30, 2013 and 2012, respectively, and \$113.7 million and \$93.2 million for the six months ended June 30, 2013 and 2012, respectively.

Index

ALLIANCE DATA SYSTEMS CORPORATION
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The following table presents the Company's allowance for loan loss for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Balance at beginning of period	\$ 471,016	\$ 447,483	\$ 481,958	\$ 468,321
Provision for loan loss	57,796	52,552	124,444	101,879
Recoveries	27,163	23,864	57,948	52,714
Principal charge-offs	(107,579)	(91,378)	(215,954)	(190,393)
Balance at end of period	\$ 448,396	\$ 432,521	\$ 448,396	\$ 432,521

Delinquencies

A credit card account is contractually delinquent if the Company does not receive the minimum payment by the specified due date on the cardholder's statement. It is the Company's policy to continue to accrue interest and fee income on all credit card accounts beyond 90 days, except in limited circumstances, until the credit card account balance and all related interest and other fees are paid or charged off, typically at 180 days delinquent. When an account becomes delinquent, a message is printed on the credit cardholder's billing statement requesting payment. After an account becomes 30 days past due, a proprietary collection scoring algorithm automatically scores the risk of the account becoming further delinquent. The collection system then recommends a collection strategy for the past due account based on the collection score and account balance and dictates the contact schedule and collections priority for the account. If the Company is unable to make a collection after exhausting all in-house collection efforts, the Company may engage collection agencies and outside attorneys to continue those efforts.

The following table presents the delinquency trends of the Company's credit card portfolio:

	June 30, 2013	% of Total	December 31, 2012	% of Total
	(In thousands, except percentages)			
Receivables outstanding – principal	\$ 6,866,955	100.0%	\$ 7,097,951	100.0%
Principal receivables balances contractually delinquent:				
31 to 60 days	98,208	1.5%	100,479	1.4%
61 to 90 days	62,331	0.9	62,546	0.9
91 or more days	105,003	1.5	120,163	1.7
Total	\$ 265,542	3.9%	\$ 283,188	4.0%

Modified Credit Card Receivables

The Company holds certain credit card receivables for which the terms have been modified. The Company's modified credit card receivables include credit card receivables for which temporary hardship concessions have been granted and credit card receivables in permanent workout programs. These modified credit card receivables include concessions consisting primarily of a reduced minimum payment and an interest rate reduction. The temporary programs' concessions remain in place for a period no longer than twelve months, while the permanent programs remain in place through the payoff of the credit card receivables if the credit cardholder complies with the terms of the program. These concessions do not include the forgiveness of unpaid principal, but may involve the reversal of certain

unpaid interest or fee assessments. In the case of the temporary programs, at the end of the concession period, credit card receivable terms revert to standard rates. These arrangements are automatically terminated if the customer fails to make payments in accordance with the terms of the program, at which time their account reverts back to its original terms.

Credit card receivables for which temporary hardship and permanent concessions were granted are both considered troubled debt restructurings and are collectively evaluated for impairment. Modified credit card receivables are evaluated at their present value with impairment measured as the difference between the credit card receivable balance and the discounted present value of cash flows expected to be collected. Consistent with the Company's measurement of impairment of modified credit card receivables on a pooled basis, the discount rate used for credit card receivables is the average current annual percentage rate the Company applies to non-impaired credit card receivables, which approximates what would have been applied to the pool of modified credit card receivables prior to impairment. In assessing the appropriate allowance for loan loss, these modified credit card receivables are included in the general pool of credit cards with the allowance determined under the contingent loss model of Accounting Standards Codification ("ASC") 450-20, "Loss Contingencies." If the Company applied accounting under ASC 310-40, "Troubled Debt Restructurings by Creditors," to the modified credit card receivables in these programs, there would not be a material difference in the allowance for loan loss.

ALLIANCE DATA SYSTEMS CORPORATION
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The Company had \$116.4 million and \$117.0 million, respectively, as a recorded investment in impaired credit card receivables with an associated allowance for loan loss of \$36.4 million and \$39.7 million, respectively, as of June 30, 2013 and December 31, 2012. These modified credit card receivables represented less than 3% of the Company's total credit card receivables as of June 30, 2013 and December 31, 2012, respectively.

The average recorded investment in the impaired credit card receivables was \$117.5 million and \$111.8 million for the three months ended June 30, 2013 and 2012, respectively, and \$117.5 million and \$115.6 million for the six months ended June 30, 2013 and 2012, respectively.

Interest income on these modified credit card receivables is accounted for in the same manner as other accruing credit card receivables. Cash collections on these modified credit card receivables are allocated according to the same payment hierarchy methodology applied to credit card receivables that are not in such programs. The Company recognized \$3.2 million and \$2.9 million for the three months ended June 30, 2013 and 2012, respectively, and \$6.3 million and \$6.1 million for the six months ended June 30, 2013 and 2012, respectively, in interest income associated with modified credit card receivables during the period that such credit card receivables were impaired.

The following tables provide information on credit card receivables that are considered troubled debt restructurings as described above, which entered into a modification program during the specified periods:

	Three Months Ended June 30, 2013			Six Months Ended June 30, 2013		
	Pre-modification		Post-modification	Pre-modification		Post-modification
	Number of Restructurings	Outstanding Balance	Outstanding Balance	Number of Restructurings	Outstanding Balance	Outstanding Balance

Credit Quality

The Company uses proprietary scoring models developed specifically for the purpose of monitoring the Company's obligor credit quality. The proprietary scoring models are used as a tool in the underwriting process and for making credit decisions. The proprietary scoring models are based on historical data and require various assumptions about future performance. Information regarding customer performance is factored into these proprietary scoring models to determine the probability of an account becoming 90 or more days past due at any time within the next 12 months. Obligor credit quality is monitored at least monthly during the life of an account. The following table reflects composition of the Company's credit card receivables by obligor credit quality as of June 30, 2013 and 2012:

Edgar Filing: ALLIANCE DATA SYSTEMS CORP - Form 10-Q

Probability of an Account Becoming 90 or More Days Past Due or Becoming Charged-off (within the next 12 months)	June 30, 2013		June 30, 2012

Credit Card Portfolio Acquisition

In March 2013, the Company acquired the existing private label credit card portfolio of Barneys New York. The purchase price was \$37.1 million, which is subject to customary purchase price adjustments, and consisted of \$35.3 million of credit card receivables and \$1.8 million of intangible assets that are included in the June 30, 2013 unaudited condensed consolidated balance sheet.

Securitized Credit Card Receivables

The Company regularly securitizes its credit card receivables through its credit card securitization trusts. As of June 30, 2013, these trusts consisted of World Financial Network Credit Card Master Trust, World Financial Network Credit Card Master Note Trust (“Master Trust I”) and World Financial Network Credit Card Master Trust III (“Master Trust III”) (collectively, the “WFN Trusts”), and World Financial Capital Credit Card Master Note Trust (the “WFC Trust”). The Company continues to own and service the accounts that generate credit card receivables held by the WFN Trusts and the WFC Trust. In its capacity as a servicer, each of the respective banks earns a fee from the WFN Trusts and the WFC Trust to service and administer the credit card receivables, collect payments, and charge-off uncollectible receivables. These fees are eliminated and therefore are not reflected in the unaudited condensed consolidated statements of income for the three and six months ended June 30, 2013 and 2012.

The WFN Trusts and the WFC Trust are variable interest entities (“VIEs”), and the Company is deemed to be the primary beneficiary for the WFN Trusts and the WFC Trust, as it is the servicer for each of the trusts and is a holder of the residual interest. The Company, through its involvement in the activities of the trusts, has the power to direct the activities that most significantly impact the economic performance of the trust, and the obligation (or right) to absorb losses (or receive benefits) of the trust that could potentially be significant. The assets of these consolidated VIEs include certain credit card receivables that are restricted to settle the obligations of those entities and are not expected to be available to the Company or its creditors. The liabilities of the consolidated VIEs include asset-backed secured borrowings and other liabilities for which creditors or beneficial interest holders do not have recourse to the general credit of the Company.

The tables below present quantitative information about the components of total securitized credit card receivables, delinquencies and net charge-offs:

	June 30, 2013	December 31, 2012
	(In thousands)	
Total credit card receivables – restricted for securitization investors	\$ 6,074,037	\$ 6,597,120
Principal amount of credit card receivables – restricted for securitization investors, 90 days or more past due	\$ 92,031	\$ 112,203

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	(In thousands)

4. REDEMPTION SETTLEMENT ASSETS

Redemption settlement assets consist of cash and cash equivalents and securities available-for-sale and are designated for settling redemptions by collectors of the AIR MILES® Reward Program in Canada under certain contractual relationships with sponsors of the AIR MILES Reward Program. These assets are primarily denominated in Canadian dollars. There were no realized gains or losses from the sale of investment securities for the three and six months ended June 30, 2013 and 2012. The principal components of redemption settlement assets, which are carried at fair value, are as follows:

	June 30, 2013				December 31, 2012			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value	Cost	Unrealized Gains	Unrealized Losses	Fair Value
	(In thousands)							
Cash and cash equivalents	\$ 31,650	\$ —	\$ —	\$ 31,650	\$ 40,266	\$ —	\$ —	\$ 40,266
Government bonds	—	—	—	—	5,064	53	—	5,117
Corporate bonds	470,761	7,881	(1,062)	477,580	436,846	10,560	(99)	447,307
Total	\$ 502,411	\$ 7,881	\$ (1,062)	\$ 509,230	\$ 482,176	\$ 10,613	\$ (99)	\$ 492,690

The following tables show the gross unrealized losses and fair value for those investments that were in an unrealized loss position as of June 30, 2013 and December 31, 2012, aggregated by investment category and the length of time that individual securities have been in a continuous loss position:

	June 30, 2013					
	Less than 12 months		12 Months or Greater		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
	(In thousands)					
Corporate bonds	\$ 95,059	\$ (1,062)	\$ —	\$ —	\$ 95,059	\$ (1,062)
Total	\$ 95,059	\$ (1,062)	\$ —	\$ —	\$ 95,059	\$ (1,062)

	December 31, 2012					
	Less than 12 months		12 Months or Greater		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
	(In thousands)					
Corporate bonds	\$ 36,518	\$ (99)	\$ —	\$ —	\$ 36,518	\$ (99)
Total	\$ 36,518	\$ (99)	\$ —	\$ —	\$ 36,518	\$ (99)

Market values were determined for each individual security in the investment portfolio. When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the security's issuer, and the Company's intent to sell the security and whether it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis. The Company typically invests in highly-rated securities with low probabilities of default and has the ability to hold the investments until maturity. As of June 30, 2013, the Company does not consider

the investments to be other-than-temporarily impaired.

The amortized cost and estimated fair value of the securities at June 30, 2013 by contractual maturity are as follows:

	Amortized Cost	Estimated Fair Value
	(In thousands)	
Due in one year or less	\$ 106,162	\$ 106,783
Due after one year through five years	396,249	402,447
Total	\$ 502,411	\$ 509,230

Long-term portion	\$ 3,351,916	\$ 2,656,916		

(1) At June 30, 2013, the weighted average interest rate for the 2011 Term Loan was 2.20%.

At June 30, 2013, the Company was in compliance with its covenants.

Credit Agreements

At June 30, 2013, the Company, as borrower, and ADS Alliance Data Systems, Inc., ADS Foreign Holdings, Inc., Alliance Data Foreign Holdings, Inc., Epsilon Data Management, LLC, Comenity LLC, Comenity Servicing LLC and Alliance Data FHC, Inc., as guarantors, were party to a credit agreement (the “2011 Credit Agreement”) that provided for a \$903.1 million term loan (the “2011 Term Loan”) subject to certain principal repayments and a \$917.5 million revolving line of credit (the “2011 Credit Facility”).

Total availability under the 2011 Credit Facility at June 30, 2013 was \$917.5 million.

In July 2013, the Company, as borrower, and ADS Alliance Data Systems, Inc., ADS Foreign Holdings, Inc., Alliance Data Foreign Holdings, Inc., Epsilon Data Management, LLC, Comenity LLC, Comenity Servicing LLC and Aspen Marketing Services, LLC, as guarantors, entered into a credit agreement with various agents and lenders dated July 10, 2013 (the “2013 Credit Agreement”), replacing the 2011 Credit Agreement, which was concurrently terminated. Wells Fargo Bank, N.A. is the administrative agent and letter of credit issuer under the 2013 Credit Agreement. The 2013 Credit Agreement provides for a \$1,142.5 million term loan with certain principal repayments and a \$1,142.5 million revolving line of credit with a U.S. \$65.0 million sublimit for Canadian dollar borrowings and a \$65.0 million sublimit for swing line loans. The 2013 Credit Agreement includes an uncommitted accordion feature of up to \$500.0 million (in certain circumstances, up to \$615.0 million) in the aggregate allowing for future incremental borrowings, subject to certain conditions.

The loans under the 2013 Credit Agreement are scheduled to mature on July 10, 2018. The 2013 Term Loan provides for aggregate principal payments of 2.5% of the initial term loan amount in each of the first and second year and 5% of the initial term loan amount in each of the third, fourth, and fifth year, payable in equal quarterly installments beginning on September 30, 2013. The 2013 Credit Agreement is unsecured.

Index

ALLIANCE DATA SYSTEMS CORPORATION
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Advances under the 2013 Credit Agreement are in the form of either U.S. dollar-denominated or Canadian dollar-denominated base rate loans or U.S. dollar-denominated eurodollar loans. The interest rate for base rate loans denominated in U.S. dollars fluctuates and is equal to the highest of (i) Wells Fargo's prime rate (ii) the Federal funds rate plus 0.5% and (iii) the London Interbank Offered Rate ("LIBOR") as defined in the 2013 Credit Agreement plus 1.0%, in each case plus a margin of 0.25% to 1.0% based upon the Company's total leverage ratio as defined in the 2013 Credit Agreement. The interest rate for base rate loans denominated in Canadian dollars fluctuates and is equal to the higher of (i) Wells Fargo's prime rate for Canadian dollar loans and (ii) the Canadian Dollar Offered Rate ("CDOR") plus 1.0%, in each case plus a margin of 0.25% to 1.0% based upon the Company's total leverage ratio as defined in the 2013 Credit Agreement. The interest rate for eurodollar loans fluctuates based on the rate at which deposits of U.S. dollars in the London interbank market are quoted plus a margin of 1.25% to 2.0% based on the Company's total leverage ratio as defined in the 2013 Credit Agreement.

The 2013 Credit Agreement contains the usual and customary negative covenants for transactions of this type, including, but not limited to, restrictions on the Company's ability and in certain instances, its subsidiaries' ability to consolidate or merge; substantially change the nature of its business; sell, lease, or otherwise transfer any substantial part of its assets; create or incur indebtedness; create liens; pay dividends; and make acquisitions. The negative covenants are subject to certain exceptions as specified in the 2013 Credit Agreement. The 2013 Credit Agreement also requires the Company to satisfy certain financial covenants, including a maximum total leverage ratio as determined in accordance with the 2013 Credit Agreement and a minimum ratio of consolidated operating EBITDA to consolidated interest expense as determined in accordance with the 2013 Credit Agreement. The 2013 Credit Agreement also includes customary events of default.

Convertible Senior Notes

At June 30, 2013, the Company had outstanding \$1.12 billion of convertible senior notes, consisting of \$772.6 million that matured on August 1, 2013 and \$345.0 million scheduled to mature on May 15, 2014. The table below summarizes the carrying value of the components of the convertible senior notes:

	June 30, 2013	December 31, 2012
	(In millions)	
Carrying amount of equity component	\$ 368.7	\$ 368.7
Principal amount of liability component	\$ 1,117.6	\$ 1,150.0
Unamortized discount	(32.1)	(76.8)
Net carrying value of liability component	\$ 1,085.5	\$ 1,073.2
If-converted value of common stock	\$ 3,094.6	\$ 2,534.4

The discount on the liability component will be amortized as interest expense over the remaining life of the convertible senior notes which, at June 30, 2013, is a weighted average period of 0.3 years.

Interest expense on the convertible senior notes recognized in the Company's unaudited condensed consolidated statements of income for the three and six months ended June 30, 2013 and 2012 is as follows:

Three Months Ended June 30,	Six Months Ended June 30,

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Both the convertible senior notes due 2013 (the “Convertible Senior Notes due 2013”) and the convertible senior notes due 2014 (the “Convertible Senior Notes due 2014”) are convertible at the option of the holder based on the condition that the common stock trading price exceeded 130% of the applicable conversion price. Pursuant to the indenture governing the Convertible Senior Notes due 2013, the Company provided notice that it intends to satisfy conversions occurring on or after April 2, 2013 by paying solely cash. Through June 30, 2013, \$32.5 million of the convertible senior notes were surrendered for conversion and, in each case, either have been or will be settled in cash following the completion of the applicable cash settlement averaging period.

On August 1, 2013, the Company settled in cash the \$772.6 million of Convertible Senior Notes due 2013, of which \$772.5 million was surrendered for conversion for \$1,790.3 million, with the remaining principal paid at maturity. The Company received \$1,017.7 million of cash from the counterparties in settlement of the related convertible note hedge transactions.

Senior Notes Due 2017

In November 2012, the Company issued and sold \$400 million aggregate principal amount of 5.250% senior notes due December 1, 2017 (the “Senior Notes due 2017”) at an issue price of 98.912% of the aggregate principal amount. The unamortized discount was \$3.9 million and \$4.3 million at June 30, 2013 and December 31, 2012, respectively. The discount is being amortized using the effective interest method over the remaining life of the Senior Notes due 2017 which, at June 30, 2013, is a period of 4.4 years at an effective annual interest rate of 5.5%.

Deposits

As of June 30, 2013, Comenity Bank and Comenity Capital Bank had issued \$319.3 million in money market deposits. Money market deposits are redeemable on demand by the customer and, as such, have no scheduled maturity date.

Asset-backed Securities – Owed to Securitization Investors

Asset-backed Term Notes

In February 2013, Master Trust I issued \$500.0 million of asset-backed term securities to investors, which will mature in February 2018. The offering consisted of \$375.0 million of Class A Series 2013-A asset-backed notes with a fixed interest rate of 1.61% per year and an aggregate of \$125.0 million of subordinated classes of the asset-backed term notes that were retained by the Company and are eliminated from the unaudited condensed consolidated financial statements.

In April 2013, \$500.0 million of floating rate Series 2006-A asset-backed term notes matured and was repaid by the Company.

In May 2013, Master Trust I issued \$657.9 million of asset-backed term securities to investors, which will mature in May 2016. The offering consisted of \$500.0 million of Class A Series 2013-B asset-backed notes with a fixed interest rate of 0.91% per year and an aggregate of \$157.9 million of subordinated classes of the asset-backed term notes that were retained by the Company and are eliminated from the unaudited condensed consolidated financial statements.

In July 2013, the Series 2009-D asset-backed term notes matured and were repaid by the Company. Pursuant to the indenture supplement applicable to these securities, as of June 30, 2013, the Company collected \$245.0 million of

principal payments made by its credit cardholders during the accumulation period. The cash is restricted to the securitization investors and is reflected in other current assets in the Company's unaudited condensed consolidated balance sheet as of June 30, 2013.

Conduit Facilities

The Company has access to committed undrawn capacity through three conduit facilities to support the funding of its credit card receivables through Master Trust I, Master Trust III and the WFC Trust. As of June 30, 2013, total capacity under the conduit facilities was \$2.0 billion, of which \$0.8 billion had been drawn and was included in asset-backed securities debt in the unaudited condensed consolidated balance sheet. Borrowings outstanding under each facility bear interest at a margin above LIBOR or the asset-backed commercial paper costs of each individual conduit provider. The conduits have varying maturities from September 2013 to May 2015 with variable interest rates ranging from 1.19% to 1.72% as of June 30, 2013.

In May 2013, the Company renewed its 2009-VFN conduit facility under World Financial Capital Master Note Trust, extending the maturity to May 31, 2015 and increasing the total capacity from \$375.0 million to \$450.0 million.

ALLIANCE DATA SYSTEMS CORPORATION
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Derivative Instruments

As part of its interest rate risk management program, the Company may enter into derivative contracts with institutions that are established dealers to manage its exposure to changes in interest rates for certain obligations.

The credit card securitization trusts entered into certain interest rate derivative instruments that involved the receipt of variable rate amounts from counterparties in exchange for the Company making fixed rate payments over the life of the agreement without the exchange of the underlying notional amount. These interest rate derivative instruments were not designated as hedges. Such instruments were not speculative and were used to manage interest rate risk, but did not meet the specific hedge accounting requirements of ASC 815, “Derivatives and Hedging.”

Gains on derivative instruments of \$2.2 million and \$8.2 million for the three months ended June 30, 2013 and 2012, respectively, and \$8.5 million and \$15.2 million for the six months ended June 30, 2013 and 2012, respectively, were recognized in securitization funding costs within the unaudited condensed consolidated statements of income.

The Company’s outstanding interest rate derivative instruments matured in April 2013. The Company was not a party to any derivative instruments as of June 30, 2013.

The following tables identify the notional amount, fair value and classification of the Company’s outstanding interest rate derivatives at December 31, 2012 in the unaudited condensed consolidated balance sheets:

	December 31, 2012	
	Notional Amount	Weighted Average Years to Maturity
	(Dollars in thousands)	
Interest rate derivatives not designated as hedging instruments	\$ 545,700	0.51

	December 31, 2012	
	Balance Sheet Location	Fair Value
	(In thousands)	
Interest rate derivatives not designated as hedging instruments	Other assets	\$ 4
Interest rate derivatives not designated as hedging instruments	Other current liabilities	\$ 8,515

7. DEFERRED REVENUE

Because management has determined that the earnings process is not complete at the time an AIR MILES reward mile is issued, the recognition of revenue on fees received is deferred. Amounts for revenue related to the redemption element and service element are recorded in redemption revenue and transaction revenue, respectively, in the unaudited condensed consolidated statements of income.

Under certain of the Company's contracts, a portion of the proceeds is paid to the Company upon the issuance of an AIR MILES reward mile and a portion is paid at the time of redemption and therefore, the Company does not have a redemption obligation related to these contracts. Revenue is recognized at the time of redemption and is not reflected in the reconciliation of the redemption obligation detailed below. Under such contracts, the proceeds received at issuance are initially deferred as service revenue and revenue is recognized pro rata over the estimated life of an AIR MILES reward mile.

Index

8. STOCKHOLDERS' EQUITY

Stock Repurchase Program

On January 2, 2013, the Company's Board of Directors authorized a stock repurchase program to acquire up to \$400.0 million of the Company's outstanding common stock from January 2, 2013 through December 31, 2013, subject to any restrictions pursuant to the terms of the Company's credit agreements, indentures, applicable securities laws or otherwise.

For the six months ended June 30, 2013, the Company acquired a total of 1,274,904 shares of its common stock for \$208.0 million. As of June 30, 2013, the Company has \$192.0 million available under the stock repurchase program.

Stock Compensation Expense

Total stock-based compensation expense recognized in the Company's unaudited condensed consolidated statements of income for the three and six months ended June 30, 2013 and 2012 is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Cost of operations	\$ 10,600	\$ 7,954	\$ 19,542	\$ 15,521
General and administrative	4,391	4,926	8,473	9,665
Total	\$ 14,991	\$ 12,880	\$ 28,015	\$ 25,186

During the six months ended June 30, 2013, the Company awarded 257,212 performance-based restricted stock units with a weighted average grant date fair value per share of \$152.05 as determined on the date of grant. The performance restriction on the awards will lapse upon determination by the Board of Directors or the Compensation Committee of the Board of Directors that the Company's earnings before taxes for the period from January 1, 2013 to December 31, 2013 met certain pre-defined vesting criteria that permit a range from 50% to 150% of such

performance-based restricted stock units to vest. Upon such determination, the restrictions will lapse with respect to 33% of the award on February 21, 2014, an additional 33% of the award on February 23, 2015 and the final 34% of the award on February 22, 2016, provided that the participant is employed by the Company on each such vesting date.

During the six months ended June 30, 2013, the Company awarded 75,282 service-based restricted stock units with a weighted average grant date fair value per share of \$154.21 as determined on the date of grant. Service-based restricted stock units typically vest ratably over three years provided that the participant is employed by the Company on each such vesting date.

(1) Primarily related to the impact of changes in the Canadian currency exchange rate.

A de minimis amount was reclassified out of accumulated other comprehensive income (loss) for the six months ended June 30, 2013.

10. FINANCIAL INSTRUMENTS

In accordance with ASC 825, "Financial Instruments," the Company is required to disclose the fair value of financial instruments for which it is practical to estimate fair value. To obtain fair values, observable market prices are used if available. In some instances, observable market prices are not readily available and fair value is determined using present value or other techniques appropriate for a particular financial instrument. These techniques involve judgment and as a result are not necessarily indicative of the amounts the Company would realize in a current market exchange. The use of different assumptions or estimation techniques may have a material effect on the estimated fair value amounts.

Fair Value of Assets and Liabilities Held at June 30, 2013 and December 31, 2012

The following techniques and assumptions were used by the Company in estimating fair values of financial instruments as disclosed herein:

Cash and cash equivalents, trade receivables, net and accounts payable — The carrying amount approximates fair value due to the short maturity and the relatively liquid nature of these assets and liabilities.

Credit card receivables, net — The carrying amount of credit card receivables, net approximates fair value due to the short maturity and average interest rates that approximate current market origination rates.

Redemption settlement assets, restricted — Redemption settlement assets, restricted consists of cash and cash equivalents and marketable securities. The fair value for securities is based on quoted market prices for the same or similar securities.

Cash collateral, restricted — The spread deposits are recorded at their fair value based on discounted cash flow models. The Company uses a valuation model that calculates the present value of estimated cash flows for each asset. The fair value is based on the term of the underlying securities and a discount rate. The carrying amount of excess funding deposits approximates its fair value due to the relatively short maturity period and average interest rates, which approximate current market rates.

Other investments — Other investments consist primarily of restricted cash and marketable securities. The fair value is based on quoted market prices for the same or similar securities.

As of June 30, 2013, the Company's other investments consisted of \$318.4 million of restricted cash and \$59.3 million of marketable securities. The Company had a cost basis in its marketable securities of \$62.4 million with unrealized losses of \$3.2 million and unrealized gains of \$0.1 million. Of the \$3.2 million unrealized losses, \$2.7 million has been unrealized for less than twelve months and \$0.5 million has been unrealized for twelve months or greater.

As of December 31, 2012, the Company's other investments consisted of \$47.1 million of restricted cash and \$44.9 million of marketable securities. The Company had a cost basis in its marketable securities of \$45.1 million with unrealized losses of \$0.4 million and unrealized gains of \$0.2 million. Of the \$0.4 million unrealized losses, \$0.3 million had been unrealized for less than twelve months and \$0.1 million had been unrealized for twelve months or greater.

Index

ALLIANCE DATA SYSTEMS CORPORATION
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The amortized cost and estimated fair value of the marketable securities at June 30, 2013 by contractual maturity are as follows:

	Amortized Cost	Estimated Fair Value
	(In thousands)	
Due in one year or less	\$ 6,637	\$ 6,540
Due after five years through ten years	4,955	4,527
Due after ten years	50,856	48,281
Total	\$ 62,448	\$ 59,348

Market values were determined for each individual security in the investment portfolio. When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the security's issuer, and the Company's intent to sell the security and whether it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis. The Company typically invests in highly-rated securities with low probabilities of default and has the ability to hold the investments until maturity. There were no realized gains or losses from the sale of other investments for the three and six months ended June 30, 2013 and 2012.

As of June 30, 2013, the Company does not consider the investments to be other-than-temporarily impaired.

Deposits — The fair value is estimated based on the current observable market rates available to the Company for similar deposits with similar remaining maturities.

Asset-backed securities debt – owed to securitization investors — The fair value is estimated based on the current observable market rates available to the Company for similar debt instruments with similar remaining maturities or quoted market prices for the same transaction.

Long-term and other debt — The fair value is estimated based on the current observable market rates available to the Company for similar debt instruments with similar remaining maturities or quoted market prices for the same transaction.

Derivative instruments — The valuation of these instruments is determined using a discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and option volatility.

Financial Assets and Financial Liabilities Fair Value Hierarchy

ASC 825 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1, defined as observable inputs such as quoted prices in active markets;

Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable;
and

-

Level 3, defined as unobservable inputs where little or no market data exists, therefore requiring an entity to develop its own assumptions.

Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. Level 3 financial instruments also include those for which the determination of fair value requires significant management judgment or estimation. The use of different techniques to determine fair value of these financial instruments could result in different estimates of fair value at the reporting date.

Index

ALLIANCE DATA SYSTEMS CORPORATION
 NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The spread deposits included in cash collateral, restricted are recorded at their fair value based on discounted cash flow models, utilizing the respective term of each instrument which ranged from 1 to 40 months, with a weighted average term of 17 months. The unobservable input used to calculate the fair value was the discount rate of 3.2%, which was based on an interest rate curve that is observable in the market as adjusted for a credit spread. Significant increases (decreases) in the term or the discount rate would result in a lower (higher) fair value.

For the three and six months ended June 30, 2013 and 2012, gains included in earnings attributable to cash collateral, restricted are included in interest in the unaudited condensed consolidated statements of income.

Financial Instruments Disclosed but Not Carried at Fair Value

11. INCOME TAXES

For the three and six months ended June 30, 2013, the Company utilized an effective tax rate of 37.3% and 37.8%, respectively, to calculate its provision for income taxes. For the three and six months ended June 30, 2012, the Company utilized an effective tax rate of 38.0% and 38.2%, respectively, to calculate its provision for income taxes. In accordance with ASC 740-270, "Income Taxes — Interim Reporting," the Company's expected annual effective tax rate for calendar year 2013 based on all known variables is 38.1%.

12. SEGMENT INFORMATION

Operating segments are defined by ASC 280, "Segment Reporting," as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is the President and Chief Executive Officer. The operating segments are reviewed separately because each operating segment represents a strategic business unit that generally offers different products and serves different markets.

The Company operates in the following reportable segments: LoyaltyOne, Epsilon, and Private Label Services and Credit. Segment operations consist of the following:

- LoyaltyOne includes the Company's Canadian AIR MILES Reward Program;

• Epsilon provides end-to-end, integrated direct marketing solutions that combine database marketing technology and analytics with a broad range of direct marketing services; and

• Private Label Services and Credit provides risk management solutions, account origination, funding, transaction processing, customer care and collections services for the Company's private label retail credit card programs.

Corporate and all other immaterial businesses are reported collectively as an "all other" category labeled "Corporate/Other." Income taxes are not allocated to the segments in the computation of segment operating profit for internal evaluation purposes and have also been included in "Corporate/Other." Total assets are not allocated to the segments.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and related notes thereto presented in this quarterly report and the consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission, or SEC, on February 28, 2013.

Year in Review Highlights

For the six months ended June 30, 2013, revenue increased 18.4% to \$2.1 billion and adjusted EBITDA increased 16.5% to \$694.8 million as compared to the prior year period. See below for discussion of operating results for each of our three segments.

LoyaltyOne®

Revenue decreased 5.4% to \$461.0 million and adjusted EBITDA increased 8.2% to \$128.8 million for the six months ended June 30, 2013 as compared to the same period in 2012.

The LoyaltyOne segment generates revenue primarily from our coalition loyalty program in Canada and, as such, the segment can be impacted by changes in the foreign currency exchange rate between the U.S. dollar and the Canadian dollar. A weaker Canadian dollar negatively impacted the results of operations for the six months ended June 30, 2013, as the average foreign currency exchange rate was \$0.98 as compared to \$0.99 in the prior year period, which lowered revenue and adjusted EBITDA by \$4.6 million and \$1.4 million, respectively.

AIR MILES® reward miles redeemed during the six months ended June 30, 2013 decreased 10.4% compared to the same period in the prior year with higher collector redemptions in the prior year attributable to the introduction of a five-year expiry policy.

The number of AIR MILES reward miles issued impacts the number of future AIR MILES reward miles available to be redeemed. This can also impact our future revenue recognized with respect to the number of AIR MILES reward miles redeemed and the amount of breakage for those AIR MILES reward miles expected to go unredeemed. AIR MILES reward miles issued during the six months ended June 30, 2013 decreased 4.0% compared to the same period in the prior year due to weakness in consumer credit card spending coupled with reduced promotional activity by our gas and grocer sponsors. Timing of sponsor promotional activities can impact issuance growth in a particular quarter; however, we still anticipate low- to mid-single digit year-over-year issuance growth for 2013.

Because management has determined that the earnings process is not complete at the time an AIR MILES reward mile is issued, the recognition of revenue on fees is deferred. With the adoption of Financial Accounting Standards Board, or FASB, Accounting Standards Update, or ASU, 2009-13, "Multiple-Deliverable Revenue Arrangements," the residual method is no longer utilized to allocate proceeds to the service element for new sponsor agreements entered into or existing sponsor agreements that are materially modified after January 1, 2011. For these agreements, we measure the service element at its estimated selling price. In the first quarter of 2013, we renewed our agreements with Bank of Montreal and Amex Bank of Canada, two of our top five sponsors. We believe there will be a shift in the allocation of deferred revenue between the multiple elements impacting the classification of revenue between transaction and redemption; however, these amounts were not material for the six months ended June 30, 2013.

During the six months ended June 30, 2013, LoyaltyOne also signed new multi-year agreements with Eastlink, a privately-held Canadian telecommunications company; with Irving Oil, a regional energy and marketing company; and with Staples Canada, Inc., Canada's largest supplier of office supplies, technology, office furniture and business

services, to participate as sponsors in the AIR MILES Reward Program.

AIR MILES Cash, an instant reward option added to the AIR MILES Reward Program in March 2012, continues to expand with over 1.5 million collectors enrolled at June 30, 2013. We expect approximately 10 percent of AIR MILES reward miles issued during 2013 will be under this option.

Further, CBSM-Companhia Brasileira De Servicos De Marketing, operator of Brazil's dotz coalition loyalty program, or dotz, in which we have a 37% ownership, has approximately 8.2 million collectors enrolled at June 30, 2013, as compared to approximately 2.9 million collectors enrolled at June 30, 2012. We anticipate that dotz will enter into four additional Brazilian markets by the end of 2013.

Index

Epsilon®

Revenue increased 40.2% to \$649.8 million and adjusted EBITDA increased 33.2% to \$118.0 million for the six months ended June 30, 2013 as compared to the same period in 2012. These increases were driven by the acquisition of the Hyper Marketing group of companies, or HMI, in November 2012 as well as strength in the telecommunications vertical.

During the six months ended June 30, 2013, Epsilon announced a new multi-year agreement with Road Scholar, a not-for-profit organization providing adults with educational travel opportunities worldwide, to provide database marketing services. We also signed multi-year renewal and expansion agreements with AT&T to continue to provide data and agency services, and with Kroger, one of the world's largest retailers, to continue to provide permission-based email marketing deployment and to provide strategic, creative and analytic services. Finally, we renewed multi-year agreements with Guthy-Renker, one of the world's largest direct marketing companies, to continue to provide database, data and permission-based email marketing services, and Carlson Rezidor Hotel Group, one of the world's largest hotel groups, to continue to provide email marketing services.

Private Label Services and Credit

Revenue increased 20.7% to \$977.2 million and adjusted EBITDA increased 13.9% to \$490.1 million for the six months ended June 30, 2013 as compared to the same period in 2012.

For the six months ended June 30, 2013, average credit card receivables increased 29.1% as compared to the same period in the prior year as a result of increased credit sales, recent client signings and recent credit card portfolio acquisitions. Credit sales increased 30.2% for the six months ended June 30, 2013 due to strong core credit cardholder spending, recent new client signings and recent credit card portfolio acquisitions.

Delinquency rates were 3.9% of principal credit card receivables at both June 30, 2013 and 2012. The principal net charge-off rate was 4.5% for the six months ended June 30, 2013 as compared to 5.1% in the prior year period.

In March 2013, we purchased the existing private label credit card portfolio of Barneys New York for a purchase price of \$37.1 million, subject to customary purchase price adjustments.

During the six months ended June 30, 2013, we signed new multi-year agreements to provide private label credit card services to El Dorado Furniture, a multi-channel furniture retailer, Aspen Dental, a provider of dental services, and TigerDirect, a computer and electronics retailer. We also signed new multi-year agreements to provide co-brand credit card services to Ohio University Alumni Association and Caesars Entertainment Corporation.

Additionally, we announced a multi-year renewal and expansion agreement with Orchard Brands, a leading multi-channel retailer of apparel and home products, to continue providing private label credit card services, and we renewed a multi-year agreement to continue providing co-brand credit card services to Gander Mountain, a leading multi-channel retailer of outdoor lifestyle products and services.

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in our Annual Report filed on Form 10-K for the fiscal year ended December 31, 2012.

Recent Accounting Pronouncements

See “Recently Issued Accounting Standards” under Note 1, “Summary of Significant Accounting Policies,” of the Notes to Unaudited Condensed Consolidated Financial Statements for a discussion of certain accounting standards that have been issued during 2013.

Use of Non-GAAP Financial Measures

Adjusted EBITDA is a non-GAAP financial measure equal to net income, the most directly comparable financial measure based on accounting principles generally accepted in the United States of America, or GAAP, plus stock compensation expense, provision for income taxes, interest expense, net, depreciation and other amortization and amortization of purchased intangibles.

We use adjusted EBITDA as an integral part of our internal reporting to measure the performance of our reportable segments and to evaluate the performance of our senior management. Adjusted EBITDA is considered an important indicator of the operational strength of our businesses. Adjusted EBITDA eliminates the uneven effect across all business segments of considerable amounts of non-cash depreciation of tangible assets and amortization of certain intangible assets that were recognized in business combinations.

Index

A limitation of this measure, however, is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues in our businesses. Management evaluates the costs of such tangible and intangible assets, as well as asset sales through other financial measures, such as capital expenditures, investment spending and return on capital and therefore the effects are excluded from adjusted EBITDA. Adjusted EBITDA also eliminates the non-cash effect of stock compensation expense. Stock compensation expense is not included in the measurement of segment adjusted EBITDA provided to the chief operating decision maker for purposes of assessing segment performance and decision making with respect to resource allocations. Therefore, we believe that adjusted EBITDA provides useful information to our investors regarding our performance and overall results of operations. Adjusted EBITDA is not intended to be a performance measure that should be regarded as an alternative to, or more meaningful than, either operating income or net income as an indicator of operating performance or to cash flows from operating activities as a measure of liquidity. In addition, adjusted EBITDA is not intended to represent funds available for dividends, reinvestment or other discretionary uses, and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

The adjusted EBITDA measure presented in this Quarterly Report on Form 10-Q may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements.

(1) Adjusted EBITDA is equal to net income, plus stock compensation expense, provision for income taxes, interest expense, net, depreciation and other amortization, and amortization of purchased intangibles. For a reconciliation of adjusted EBITDA to net income, the most directly comparable GAAP financial measure, see “Use of Non-GAAP Financial Measures” included in this report.

(2) Adjusted EBITDA margin is adjusted EBITDA divided by revenue. Management uses adjusted EBITDA margin to analyze the operating performance of the segments and the impact revenue growth has on operating expenses.

*not meaningful

Index

Consolidated Operating Results:

Revenue. Total revenue increased \$161.6 million, or 18.7%, to \$1.0 billion for the three months ended June 30, 2013 from \$866.5 million for the three months ended June 30, 2012. The net increase was due to the following:

•**Transaction.** Revenue increased \$2.1 million, or 2.7%, to \$79.6 million for the three months ended June 30, 2013. AIR MILES reward miles issuance fees, for which we provide marketing and administrative services, increased \$10.6 million and other servicing fees charged to our credit cardholders increased \$8.0 million, offset by a decrease of \$15.9 million in merchant fees, which are transaction fees charged to the retailer, due to increased royalty payments associated with the signing of new clients.

•**Redemption.** Revenue decreased \$20.8 million, or 13.1%, to \$138.3 million for the three months ended June 30, 2013 due to an 8.9% decrease in AIR MILES reward miles redeemed. The introduction of a five-year expiry policy for the AIR MILES Reward Program stimulated redemption activity in the first half of 2012.

•**Finance charges, net.** Revenue increased \$84.9 million, or 22.5%, to \$462.7 million for the three months ended June 30, 2013. This increase was driven by a 27.4% increase in average credit card receivables, which have increased approximately \$1.5 billion through a combination of growth in our existing credit card receivables and recent credit card portfolio acquisitions. This was offset in part by a 110 basis point decline in gross yield primarily due to the onboarding of new credit card portfolios.

•**Database marketing fees and direct marketing.** Revenue increased \$90.0 million, or 41.0%, to \$309.5 million for the three months ended June 30, 2013. The increase in revenue was driven by our acquisition of HMI, which added \$74.8 million, as well as an increase in revenue of \$17.1 million due to demand in the telecommunications vertical within the Epsilon segment.

•**Other revenue.** Revenue increased \$5.5 million, or 16.8%, to \$37.9 million for the three months ended June 30, 2013 due to additional consulting services provided by Epsilon.

Cost of operations. Cost of operations increased \$112.8 million, or 22.3%, to \$619.3 million for the three months ended June 30, 2013 from \$506.5 million for the three months ended June 30, 2012. The net increase was due to the following:

•**Within the LoyaltyOne segment,** cost of operations decreased \$14.5 million due to a \$9.5 million decrease in fulfillment costs for the AIR MILES Reward Program associated with the decline in AIR MILES reward miles redeemed. In addition, marketing expenses decreased \$4.3 million due to a decline in costs associated with the promotion of AIR MILES Cash from 2012 and a decline in losses associated with international expansion efforts of \$2.7 million. These decreases were partially offset by an increase in payroll and benefits of \$2.1 million.

•**Within the Epsilon segment,** cost of operations increased \$82.9 million due to the HMI acquisition, which added \$65.7 million, as well as an increase in direct marketing costs associated with the increase in revenue.

•**Within the Private Label Services and Credit segment,** cost of operations increased by \$47.2 million. Payroll and benefits increased \$19.9 million due to an increase in the number of associates to support growth, and marketing expenses increased \$8.9 million due to the increase in credit sales. Other operating expenses increased by \$12.4 million, as credit card processing expenses were higher due to an increase in the number of statements generated, and data processing costs increased due to growth in volumes.

Provision for loan loss. Provision for loan loss increased \$5.2 million, or 10.0%, to \$57.8 million for the three months ended June 30, 2013 as compared to \$52.6 million for the three months ended June 30, 2012. The increase in the provision was a result of the growth in credit card receivables, offset in part by improved credit quality. The net charge-off rate improved 30 basis points to 4.6% for the three months ended June 30, 2013 as compared to 4.9% for the three months ended June 30, 2012.

General and administrative. General and administrative expenses increased \$0.7 million, or 2.6%, to \$28.3 million for the three months ended June 30, 2013 as compared to \$27.5 million for the three months ended June 30, 2012 due to higher professional fees and consulting costs, offset in part by lower payroll and benefit costs.

Index

Depreciation and other amortization. Depreciation and other amortization increased \$2.0 million, or 10.5%, to \$20.4 million for the three months ended June 30, 2013, as compared to \$18.5 million for the three months ended June 30, 2012, due to additional assets placed into service resulting from both the HMI acquisition and recent capital expenditures.

Amortization of purchased intangibles. Amortization of purchased intangibles increased \$12.2 million, or 58.5%, to \$33.1 million for the three months ended June 30, 2013 as compared to \$20.9 million for the three months ended June 30, 2012. The increase relates to \$8.4 million of additional amortization associated with the intangible assets from both the HMI acquisition and recent credit card portfolio acquisitions.

Interest expense. Total interest expense, net increased \$10.4 million, or 14.2%, to \$83.5 million for the three months ended June 30, 2013 as compared to \$73.1 million for the three months ended June 30, 2012 due to the following:

• **Securitization funding costs.** Securitization funding costs increased \$2.2 million due to greater borrowings for the three months ended June 30, 2013 as compared to the three months ended June 30, 2012. These increases were offset by lower average interest rates.

• **Interest expense on deposits.** Interest expense on deposits increased \$1.0 million as increases from higher borrowings were offset by lower average interest rates.

• **Interest expense on long-term and other debt, net.** Interest expense on long-term and other debt, net increased \$7.2 million due to an increase of \$5.3 million resulting from the 2012 issuances of senior notes. In addition, the amortization of imputed interest associated with the convertible senior notes increased \$2.4 million as compared to the same period in 2012.

Taxes. Income tax expense increased \$5.6 million to \$69.3 million for the three months ended June 30, 2013 from \$63.7 million for the comparable period in 2012 due primarily to an increase in taxable income, offset in part by a decline in the effective tax rate. The effective tax rate for the three months ended June 30, 2013 declined to 37.3% as compared to 38.0% for the three months ended June 30, 2012 due to a favorable outcome related to certain tax matters.

Segment Revenue and Adjusted EBITDA:

Revenue. Total revenue increased \$161.6 million, or 18.7%, to \$1.0 billion for the three months ended June 30, 2013 from \$866.5 million for the three months ended June 30, 2012. The net increase was due to the following:

• **LoyaltyOne.** Revenue decreased \$9.4 million, or 4.1%, to \$220.1 million for the three months ended June 30, 2013. Redemption revenue decreased \$20.8 million, or 13.1%, due to an 8.9% decline in the number of AIR MILES reward miles redeemed. AIR MILES reward miles issuance fees, for which we provide marketing and administrative services, increased \$10.6 million.

• **Epsilon.** Revenue increased \$96.4 million, or 40.9%, to \$331.8 million for the three months ended June 30, 2013. The acquisition of HMI contributed \$75.1 million to revenue. In addition, revenue increased \$21.0 million, or 25.2%, due to increased demand in the telecommunications vertical.

• **Private Label Services and Credit.** Revenue increased \$77.4 million, or 19.2%, to \$479.9 million for the three months ended June 30, 2013. Finance charges and late fees increased by \$84.9 million, driven by a 27.4% increase in average credit card receivables due to recent credit card portfolio acquisitions and strong credit cardholder spending. Transaction revenue decreased \$7.6 million due to lower merchant fees resulting from increased royalty payments

associated with the signing of new clients, offset by an increase in other servicing fees.

Adjusted EBITDA. Adjusted EBITDA increased \$44.9 million, or 15.3%, to \$337.7 million for the three months ended June 30, 2013 from \$292.8 million for the three months ended June 30, 2012. The net increase was due to the following:

• LoyaltyOne. Adjusted EBITDA increased \$5.6 million, or 9.2%, to \$66.2 million for the three months ended June 30, 2013, and adjusted EBITDA margin also increased to 30.1% for the three months ended June 30, 2013 from 26.4% for the same period in the prior year. Adjusted EBITDA was positively impacted by a reduction in operating expenses, including a decline in marketing expenses due to the promotional activity in 2012 associated with the introduction of AIR MILES Cash, as well as a decline in expenses associated with international activities.

Index

•Epsilon. Adjusted EBITDA increased \$14.8 million, or 30.4%, to \$63.6 million for the three months ended June 30, 2013. Adjusted EBITDA was positively impacted by both the growth in revenue, including the acquisition of HMI, which added \$9.7 million to adjusted EBITDA, and the implementation of cost-saving initiatives and operational efficiencies by Epsilon in the second half of 2012. Adjusted EBITDA margin decreased to 19.2% for the three months ended June 30, 2013 from 20.7% for the same period in the prior year. The negative impact to adjusted EBITDA margin was due to a shift in revenue mix attributable to the HMI acquisition.

•Private Label Services and Credit. Adjusted EBITDA increased \$25.8 million, or 12.5%, to \$231.8 million for the three months ended June 30, 2013. Adjusted EBITDA was positively impacted by the increase in finance charges, net, offset in part by both an increase in operating expenses due to increased volumes and an increase in the provision for loan loss due to the increase in credit card receivables.

•Corporate/Other. Adjusted EBITDA decreased \$1.3 million to a loss of \$23.9 million for the three months ended June 30, 2013 related to higher professional fees and consulting costs.

(1) Adjusted EBITDA is equal to net income, plus stock compensation expense, provision for income taxes, interest expense, net, depreciation and other amortization, and amortization of purchased intangibles. For a reconciliation of adjusted EBITDA to net income, the most directly comparable GAAP financial measure, see “Use of Non-GAAP Financial Measures” included in this report.

(2) Adjusted EBITDA margin is adjusted EBITDA divided by revenue. Management uses adjusted EBITDA margin to analyze the operating performance of the segments and the impact revenue growth has on operating expenses.

Index

Consolidated Operating Results:

Revenue. Total revenue increased \$323.5 million, or 18.4%, to \$2.1 billion for the six months ended June 30, 2013 from \$1.8 billion for the six months ended June 30, 2012. The net increase was due to the following:

•**Transaction.** Revenue increased \$1.7 million, or 1.0%, to \$161.9 million for the six months ended June 30, 2013. AIR MILES reward miles issuance fees, for which we provide marketing and administrative services, increased \$22.7 million and other servicing fees charged to our credit cardholders increased \$17.9 million, offset by a decrease of \$37.7 million in merchant fees, which are transaction fees charged to the retailer, due to increased royalty payments associated with the signing of new clients.

•**Redemption.** Revenue decreased \$49.3 million, or 14.2%, to \$298.4 million for the six months ended June 30, 2013 due to a 10.4% decrease in AIR MILES reward miles redeemed. The introduction of a five-year expiry policy for the AIR MILES Reward Program stimulated redemption activity in the first half of 2012.

•**Finance charges, net.** Revenue increased \$186.0 million, or 24.7%, to \$940.1 million for the six months ended June 30, 2013. This increase was driven by a 29.1% increase in average credit card receivables, which have increased approximately \$1.6 billion through a combination of growth in our existing credit card receivables and recent credit card portfolio acquisitions. This was offset in part by a 100 basis point decline in gross yield primarily due to the onboarding of new credit card portfolios.

•**Database marketing fees and direct marketing.** Revenue increased \$172.0 million, or 39.7%, to \$605.1 million for the six months ended June 30, 2013. The increase in revenue was driven by our acquisition of HMI, which added \$148.6 million, as well as an increase in revenue of \$29.1 million due to demand in the telecommunications vertical within the Epsilon segment.

•**Other revenue.** Revenue increased \$13.1 million, or 20.8%, to \$76.0 million for the six months ended June 30, 2013 due to additional consulting services provided by Epsilon.

Cost of operations. Cost of operations increased \$206.3 million, or 20.0%, to \$1.2 billion for the six months ended June 30, 2013 from \$1.0 billion for the six months ended June 30, 2012. The net increase was due to the following:

•**Within the LoyaltyOne segment,** cost of operations decreased \$35.3 million due to a \$30.4 million decrease in fulfillment costs for the AIR MILES Reward Program associated with the decline in AIR MILES reward miles redeemed. In addition, marketing expenses decreased \$8.2 million due to a decline in costs associated with the promotion of AIR MILES Cash from 2012 and a decline in losses associated with international expansion efforts of \$5.0 million. These decreases were partially offset by an increase in payroll and benefits of \$4.2 million.

•**Within the Epsilon segment,** cost of operations increased \$158.6 million due to the HMI acquisition, which added \$131.4 million, as well as an increase in direct marketing costs associated with the increase in revenue.

•**Within the Private Label Services and Credit segment,** cost of operations increased by \$86.7 million. Payroll and benefits increased \$35.0 million due to an increase in the number of associates to support growth, and marketing expenses increased \$14.6 million due to the increase in credit sales. Other operating expenses increased by \$31.0 million, as credit card processing expenses were higher due to an increase in the number of statements generated, and data processing costs increased due to growth in volumes.

Provision for loan loss. Provision for loan loss increased \$22.6 million, or 22.2%, to \$124.4 million for the six months ended June 30, 2013 as compared to \$101.9 million for the six months ended June 30, 2012. The increase in the

provision was a result of the growth in credit card receivables, offset in part by improved credit quality. The net charge-off rate improved 60 basis points to 4.5% for the six months ended June 30, 2013 as compared to 5.1% for the six months ended June 30, 2012.

General and administrative. General and administrative expenses decreased \$1.0 million, or 1.9%, to \$50.5 million for the six months ended June 30, 2013 as compared to \$51.5 million for the six months ended June 30, 2012 due to lower payroll and benefit costs.

Index

Depreciation and other amortization. Depreciation and other amortization increased \$3.9 million, or 10.8%, to \$40.0 million for the six months ended June 30, 2013, as compared to \$36.1 million for the six months ended June 30, 2012, due to additional assets placed into service resulting from both the HMI acquisition and recent capital expenditures.

Amortization of purchased intangibles. Amortization of purchased intangibles increased \$24.4 million, or 58.1%, to \$66.4 million for the six months ended June 30, 2013 as compared to \$42.0 million for the six months ended June 30, 2012. The increase relates to \$16.8 million of additional amortization associated with the intangible assets from both the HMI acquisition and recent credit card portfolio acquisitions.

Interest expense. Total interest expense, net increased \$27.3 million, or 19.7%, to \$166.0 million for the six months ended June 30, 2013 as compared to \$138.7 million for the six months ended June 30, 2012 due to the following:

• **Securitization funding costs.** Securitization funding costs increased \$4.3 million due to greater borrowings for the six months ended June 30, 2013 as compared to the six months ended June 30, 2012. These increases were offset by lower average interest rates.

• **Interest expense on deposits.** Interest expense on deposits increased \$2.0 million as increases from higher borrowings were offset by lower average interest rates.

• **Interest expense on long-term and other debt, net.** Interest expense on long-term and other debt, net increased \$20.9 million due to an increase of \$18.2 million resulting from the 2012 issuances of senior notes. In addition, the amortization of imputed interest associated with the convertible senior notes increased \$4.7 million as compared to the same period in 2012. These increases were offset by a decline in interest expense associated with our credit facility.

Taxes. Income tax expense increased \$13.6 million to \$149.0 million for the six months ended June 30, 2013 from \$135.4 million for the comparable period in 2012 due primarily to an increase in taxable income, offset in part by a decline in the effective tax rate. The effective tax rate for the six months ended June 30, 2013 declined to 37.8% as compared to 38.2% for the six months ended June 30, 2012 due to a favorable outcome related to certain tax matters.

Segment Revenue and Adjusted EBITDA:

Revenue. Total revenue increased \$323.5 million, or 18.4%, to \$2.1 billion for the six months ended June 30, 2013 from \$1.8 billion for the six months ended June 30, 2012. The net increase was due to the following:

• **LoyaltyOne.** Revenue decreased \$26.3 million, or 5.4%, to \$461.0 million for the six months ended June 30, 2013. Redemption revenue decreased \$49.3 million, or 14.2%, due to a 10.4% decline in the number of AIR MILES reward miles redeemed. AIR MILES reward miles issuance fees, for which we provide marketing and administrative services, increased \$22.7 million.

• **Epsilon.** Revenue increased \$186.3 million, or 40.2%, to \$649.8 million for the six months ended June 30, 2013. The acquisition of HMI contributed \$148.9 million to revenue. In addition, revenue increased \$38.1 million, or 22.9%, due to increased demand in the telecommunications vertical.

• **Private Label Services and Credit.** Revenue increased \$167.4 million, or 20.7%, to \$977.2 million for the six months ended June 30, 2013. Finance charges and late fees increased by \$186.0 million, driven by a 29.1% increase in average credit card receivables due to recent credit card portfolio acquisitions and strong credit cardholder spending. Transaction revenue decreased \$18.7 million due to lower merchant fees resulting from increased royalty payments associated with the signing of new clients, offset by an increase in other servicing fees.

Adjusted EBITDA. Adjusted EBITDA increased \$98.4 million, or 16.5%, to \$694.8 million for the six months ended June 30, 2013 from \$596.5 million for the six months ended June 30, 2012. The net increase was due to the following:

• LoyaltyOne. Adjusted EBITDA increased \$9.8 million, or 8.2%, to \$128.8 million for the six months ended June 30, 2013, and adjusted EBITDA margin also increased to 27.9% for the six months ended June 30, 2013 from 24.4% for the same period in the prior year. Adjusted EBITDA was positively impacted by a reduction in operating expenses, including a decline in marketing expenses due to the promotional activity in 2012 associated with the introduction of AIR MILES Cash, as well as a decline in expenses associated with international activities.

Index

• **Epsilon.** Adjusted EBITDA increased \$29.4 million, or 33.2%, to \$118.0 million for the six months ended June 30, 2013. Adjusted EBITDA was positively impacted by both the growth in revenue, including the acquisition of HMI, which added \$18.0 million to adjusted EBITDA, and the implementation of cost-saving initiatives and operational efficiencies by Epsilon in the second half of 2012.

• **Private Label Services and Credit.** Adjusted EBITDA increased \$59.7 million, or 13.9%, to \$490.1 million for the six months ended June 30, 2013. Adjusted EBITDA was positively impacted by the increase in finance charges, net, offset in part by both an increase in operating expenses due to increased volumes and an increase in the provision for loan loss due to the increase in credit card receivables.

• **Corporate/Other.** Adjusted EBITDA decreased \$0.5 million to a loss of \$42.1 million for the six months ended June 30, 2013 related to a decrease in payroll and benefits costs.

Asset Quality

Our delinquency and net charge-off rates reflect, among other factors, the credit risk of our private label credit card receivables, the success of our collection and recovery efforts, and general economic conditions.

Delinquencies. A credit card account is contractually delinquent when we do not receive the minimum payment by the specified due date on the cardholder's statement. Our policy is to continue to accrue interest and fee income on all credit card accounts beyond 90 days, except in limited circumstances, until the credit card account balance and all related interest and other fees are paid or charged off, typically at 180 days delinquent. When an account becomes delinquent, a message is printed on the credit cardholder's billing statement requesting payment. After an account becomes 30 days past due, a proprietary collection scoring algorithm automatically scores the risk of the account becoming further delinquent. The collection system then recommends a collection strategy for the past due account based on the collection score and account balance and dictates the contact schedule and collections priority for the account. If we are unable to make a collection after exhausting all in-house collection efforts, we may engage collection agencies and outside attorneys to continue those efforts.

The following table presents the delinquency trends of our credit card portfolio:

	June 30, 2013	% of Total	December 31, 2012	% of Total
	(In thousands, except percentages)			
Receivables outstanding – principal	\$ 6,866,955	100.0%	\$ 7,097,951	100.0%
Principal receivables balances contractually delinquent:				
31 to 60 days	98,208	1.5%	100,479	1.4%
61 to 90 days	62,331	0.9	62,546	0.9
91 or more days	105,003	1.5	120,163	1.7
Total	\$ 265,542	3.9%	\$ 283,188	4.0%

Net Charge-Offs. Our net charge-offs include the principal amount of losses from cardholders unwilling or unable to pay their account balances, as well as bankrupt and deceased credit cardholders, less recoveries and exclude charged-off interest, fees and fraud losses. Charged-off interest and fees reduce finance charges, net while fraud losses are recorded as an expense. Credit card receivables, including unpaid interest and fees, are charged-off at the end of the month during which an account becomes 180 days contractually past due, except in the case of customer bankruptcies or death. Credit card receivables, including unpaid interest and fees, associated with customer bankruptcies or death are charged-off at the end of each month subsequent to 60 days after the receipt of notification

of the bankruptcy or death, but in any case, not later than the 180-day contractual time frame.

Index

The net charge-off rate is calculated by dividing net charge-offs of principal receivables for the period by the average credit card receivables for the period. Average credit card receivables represent the average balance of the cardholder receivables at the beginning of each month in the periods indicated. The following table presents our net charge-offs for the periods indicated.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	(In thousands, except percentages)			
Average credit card receivables	\$ 6,964,945	\$ 5,467,489	\$ 6,964,255	\$ 5,394,502
Net charge-offs of principal receivables	80,416	67,514	158,006	137,679
Net charge-offs as a percentage of average credit card receivables (1)	4.6%	4.9%	4.5%	5.1%

(1) We acquired the credit card receivables of The Bon-Ton Stores, Inc. and The Talbots, Inc. in July 2012 and August 2012, respectively. Under GAAP, losses associated with purchased credit card receivables are reflected in the fair value of the purchased credit card receivables and not reported as net charge-offs. For the three and six months ended June 30, 2013, the net charge-off rate would have been 4.8% and 4.7%, respectively, if losses associated with the acquired credit card receivables had been reported as net charge-offs.

See Note 3, "Credit Card Receivables," of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information related to the securitization of our credit card receivables.

Liquidity and Capital Resources

Operating Activities. We generated cash flow from operating activities of \$530.5 million and \$417.4 million for the six months ended June 30, 2013 and 2012, respectively. The increase in operating cash flows in 2013 was primarily due to increased profitability for the six months ended June 30, 2013 as compared to the six months ended June 30, 2012.

We utilize our cash flow from operations for ongoing business operations, repayments of revolving or other debt, acquisitions, capital expenditures and repurchases of our common stock.

Investing Activities. Cash used in investing activities was \$331.7 million and \$613.0 million for the six months ended June 30, 2013 and 2012, respectively. Significant components of investing activities are as follows:

Redemption Settlement Assets. Cash decreased \$47.7 million for the six months ended June 30, 2013, as compared to a cash increase of \$41.4 million for the six months ended June 30, 2012, due to the increase in funding requirements resulting from the change in our estimate of breakage in December 2012.

Restricted Cash. Cash decreased \$271.1 million for the six months ended June 30, 2013 due to the principal accumulation for the repayment of \$245.0 million of asset-backed securities debt that matured in July 2013. During the six months ended June 30, 2012, cash decreased \$438.7 million due to the principal accumulation for the repayment of \$395.0 million of asset-backed securities debt that matured in July 2012 and \$34.5 million for scheduled principal repayments of other asset-based securities debt also repaid in July 2012.

Credit Card Receivables Funding. Cash increased \$83.4 million for the six months ended June 30, 2013 due to typical seasonal declines in credit card receivables from December 31, 2012. During the six months ended June 30,

2012, cash decreased \$61.4 million as growth in our credit card receivables outpaced the seasonal paydown from December 31, 2011.

Purchase of Credit Card Portfolios. Cash decreased \$37.1 million for the six months ended June 30, 2013 due to the acquisition of the private label credit card portfolio from Barneys New York. During the six months ended June 30, 2012, cash decreased \$122.2 million due to the acquisition of the private label credit card portfolios from Pier 1 Imports and Premier Designs.

Capital Expenditures. Our capital expenditures for the six months ended June 30, 2013 were \$59.0 million compared to \$55.5 million for the comparable period in 2012. We anticipate capital expenditures not to exceed approximately 3% of annual revenue for the foreseeable future.

Financing Activities. Cash used in financing activities was \$334.3 million for the six months ended June 30, 2013 as compared to cash provided by financing activities of \$621.8 million for the six months ended June 30, 2012. Our financing activities during the six months ended June 30, 2013 relate primarily to borrowings and repayments of deposits and asset-backed securities debt, settlements for conversions of convertible senior notes and repurchases of our common stock.

Index

Liquidity Sources. In addition to cash generated from operating activities, our primary sources of liquidity include our credit card securitization program, deposits issued by Comenity Bank and Comenity Capital Bank, our credit agreement and issuances of equity securities. In addition to our efforts to renew and expand our current liquidity sources, we continue to seek new funding sources.

As of June 30, 2013, we had no borrowings under our revolving credit facility, with total availability at \$917.5 million. Our total leverage ratio, as defined in our credit agreement, was 2.2 to 1 at June 30, 2013, as compared to the maximum covenant ratio of 3.5 to 1. The Tier 1 risk-based capital ratio, leverage ratio and total risk-based capital ratio for Comenity Capital Bank were 16.7%, 16.5% and 18.0%, respectively, at June 30, 2013. The Tier 1 risk-based capital ratio, leverage ratio and total risk-based capital ratio for Comenity Bank were 15.9%, 15.1% and 17.2%, respectively, at June 30, 2013.

We believe that internally generated funds and other sources of liquidity will be sufficient to meet working capital needs, capital expenditures, and other business requirements for at least the next 12 months, including the repayment of the convertible senior notes that matured on August 1, 2013 and the repayment of the convertible senior notes scheduled to mature on May 15, 2014.

As of June 30, 2013, we were in compliance with our covenants. See Note 6, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information regarding our debt.

Securitization Program. We sell a majority of the credit card receivables originated by Comenity Bank to WFN Credit Company, LLC, which in turn sells them to World Financial Network Credit Card Master Trust, World Financial Network Credit Card Master Note Trust and World Financial Network Credit Card Master Trust III, or collectively, the WFN Trusts, as part of our credit card securitization program, which has been in existence since January 1996. We also sell our credit card receivables originated by Comenity Capital Bank to World Financial Capital Credit Company, LLC, which in turn sells them to World Financial Capital Master Note Trust, or the WFC Trust. These securitization programs are the primary vehicle through which we finance Comenity Bank's and Comenity Capital Bank's credit card receivables.

As of June 30, 2013, the WFN Trusts and the WFC Trust had approximately \$6.1 billion of securitized credit card receivables. Securitizations require credit enhancements in the form of cash, spread deposits, additional receivables and subordinated classes. The credit enhancement is principally based on the outstanding balances of the series issued by the WFN Trusts and the WFC Trust and by the performance of the private label credit cards in these credit card securitization trusts.

Historically, we have used both public and private term asset-backed securities transactions as well as private conduit facilities as sources of funding for our credit card receivables. Private conduit facilities have been used to accommodate seasonality needs and to bridge to completion of asset-backed securitization transactions.

We have secured and continue to secure the necessary commitments to fund our portfolio of securitized credit card receivables originated by Comenity Bank and Comenity Capital Bank. However, certain of these commitments are short-term in nature and subject to renewal. There is not a guarantee that these funding sources, when they mature, will be renewed on similar terms or at all as they are dependent on the asset-backed securitization markets at the time.

At June 30, 2013, we had \$4.0 billion of asset-backed securities debt – owed to securitization investors, of which \$0.7 billion is due within the next 12 months.

The following table shows the maturities of borrowing commitments as of June 30, 2013 for the WFN Trusts and the WFC Trust by year:

	2013	2014	2015	2016	2017 & Thereafter	Total
	(In thousands)					
Term notes	\$ 245,000	\$ 250,000	\$ 393,750	\$ 600,000	\$ 1,758,166	\$ 3,246,916
C o n d u i t facilities (1)	330,000	1,200,000	450,000	—	—	1,980,000
Total (2)	\$ 575,000	\$ 1,450,000	\$ 843,750	\$ 600,000	\$ 1,758,166	\$ 5,226,916

(1) Amount represents borrowing capacity, not outstanding borrowings.

(2) Total amounts do not include \$1.1 billion of debt issued by the credit card securitization trusts, which was retained by us and has been eliminated in the unaudited condensed consolidated financial statements.

Early amortization events as defined within each asset-backed securitization transaction are generally driven by asset performance. We do not believe it is reasonably likely for an early amortization event to occur due to asset performance. However, if an early amortization event were declared, the trustee of the particular credit card securitization trust would retain the interest in the receivables along with the excess interest income that would otherwise be paid to our bank subsidiary until the credit card securitization investors were fully repaid. The occurrence of an early amortization event would significantly limit or negate our ability to securitize additional credit card receivables.

Index

In February 2013, World Financial Network Credit Card Master Note Trust issued \$500.0 million of asset-backed term securities to investors. The offering consisted of \$375.0 million of Class A Series 2013-A asset-backed term notes that have a fixed interest rate of 1.61% per year and mature in February 2018. In addition, we retained an aggregate of \$125.0 million of subordinated classes of the Series 2013-A asset-backed term notes that have been eliminated from our unaudited condensed consolidated financial statements.

In April 2013, \$500.0 million of floating rate Series 2006-A asset-backed term notes matured and was repaid.

In May 2013, World Financial Network Credit Card Master Note Trust issued \$657.9 million of asset-backed term securities to investors. The offering consisted of \$500.0 million of Class A Series 2013-B asset-backed term notes that have a fixed interest rate of 0.91% per year and mature in May 2016. In addition, we retained an aggregate of \$157.9 million of subordinated classes of the Series 2013-B asset-backed term notes that have been eliminated from our unaudited condensed consolidated financial statements.

In May 2013, we renewed our 2009-VFN conduit facility under World Financial Capital Master Note Trust, extending the maturity to May 31, 2015 and increasing the total capacity from \$375.0 million to \$450.0 million.

In July 2013, \$245.0 million of fixed rate Series 2009-D asset-backed term notes matured and was repaid.

2013 Credit Agreement. We entered into a credit agreement dated July 10, 2013, or the 2013 Credit Agreement, which provides for a \$1,142.5 million term loan subject to certain principal repayments and a \$1,142.5 million revolving line of credit with a U.S. \$65.0 million sublimit for Canadian dollar borrowings and a \$65.0 million sublimit for swing line loans. The 2013 Credit Agreement replaced our previously existing credit agreement, which was concurrently terminated.

On August 1, 2013, we settled in cash, with cash on hand and borrowings under the 2013 Credit Agreement, the \$772.6 million of Convertible Senior Notes due 2013, of which \$772.5 million was surrendered for conversion for \$1,790.3 million, with the remaining principal paid at maturity. We received \$1,017.7 million of cash from the counterparties in settlement of the related convertible note hedge transactions.

See Note 6, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information regarding our debt.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market Risk

Market risk is the risk of loss from adverse changes in market prices and rates. Our primary market risks include interest rate risk, credit risk, foreign currency exchange rate risk and redemption reward risk.

There has been no material change from our Annual Report on Form 10-K for the year ended December 31, 2012 related to our exposure to market risk from interest rate risk, credit risk, foreign currency exchange risk and redemption reward risk.

Item 4. Controls and Procedures.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

As of June 30, 2013, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2013 (the end of our second fiscal quarter), our disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and include controls and procedures designed to ensure that information we are required to disclose in such reports is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

In November 2012, we acquired HMI for \$451.8 million, and in December 2012 we acquired Advecor, Inc., or Advecor, for \$12.2 million. Because of the timing of the acquisitions, HMI and Advecor were excluded from our evaluation of and conclusion on the effectiveness of internal control over financial reporting as of June 30, 2013. We will expand our evaluation of the effectiveness of the internal controls over financial reporting to include HMI and Advecor in the fourth quarter of 2013.

FORWARD-LOOKING STATEMENTS

This Form 10-Q and the documents incorporated by reference herein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements may use words such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “predict,” “project,” “would” and similar expressions as they relate to us or our management. When we make forward-looking statements, we are basing them on our management’s beliefs and assumptions, using information currently available to us. Although we believe that the expectations reflected in the forward-looking statements are reasonable, these forward-looking statements are subject to risks, uncertainties and assumptions, including those discussed in the “Risk Factors” section in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2012 and Item 1A of Part II of this Quarterly Report.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from what we projected. Any forward-looking statements contained in this quarterly report reflect our current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. We have no intention, and disclaim any obligation, to update or revise any forward-looking statements, whether as a result of new information, future results or otherwise, except as required by law.

PART II

Item 1. Legal Proceedings.

From time to time we are involved in various claims and lawsuits arising in the ordinary course of our business that we believe will not have a material adverse effect on our business or financial condition, including claims and lawsuits alleging breaches of our contractual obligations.

Item 1A. Risk Factors.

There have been no material changes to the Risk Factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents information with respect to purchases of our common stock made during the three months ended June 30, 2013:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2) (Dollars in millions)
During 2013:				
April 1-30	462,355	\$ 155.69	457,664	\$ 277.1
May 1-31	114,338	178.59	110,305	257.4
June 1-30	381,983	174.31	374,935	192.0
Total	958,676	\$ 165.84	942,904	\$ 192.0

(1) During the period represented by the table, 15,772 shares of our common stock were purchased by the administrator of our 401(k) and Retirement Savings Plan for the benefit of the employees who participated in that portion of the plan.

(2) On January 2, 2013, our Board of Directors authorized a stock repurchase program to acquire up to \$400.0 million of our outstanding common stock from January 2, 2013 through December 31, 2013, subject to any restrictions pursuant to the terms of our credit agreements, indentures, applicable securities laws or otherwise.

Item 3. Defaults Upon Senior Securities.

None

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.
