Item 1.01 Entry into a Material Definitive Agreement.

On June 15, 2006, Cabot Microelectronics Corporation (the "Corporation") entered into agreements to acquire substantially all of the assets and assume certain current liabilities of QED Technologies, Inc. ("QED") and to purchase certain additional associated proprietary technology and intellectual property from a related corporation, Byelocorp Scientific, Inc. ("BSI"), which is controlled by one of the principal shareholders of QED. The purchase price for the acquired assets is expected to be between \$19 and \$23.5 million and will be paid in cash from Cabot Microelectronics' available reserves. The exact amount of the purchase price is subject to the performance of the acquired business over a two-year period following the closing. The transaction is expected to close in July 2006 and is contingent on customary closing conditions. QED is a privately-held company that specializes in unique, patented polishing and metrology systems for high precision optics.

In addition, please refer to our Quarterly Report on Form 10-Q for the period ended March 31, 2006, and our Annual Report on Form 10-K for the fiscal year ended September 30, 2005, for a list of additional Risk Factors that may affect our business and operational results and the transaction referred to herein.
