Notes to Financial Statements

(Expressed in Canadian Dollars)

1. Summary of Significant Accounting Policies:

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. Transactions in securities are recorded on the transaction date. The investment in common stock of International Multifoods Corporation (Multifoods) is stated at fair market value based on published market value.

Robin Hood Multifoods Inc. and its participating subsidiary corporations (the Employer) pay all administrative costs of the Stock Purchase Plan of Robin Hood Multifoods Inc. (the Plan).

On or about February 15 of each year, the unit value of the vested units or portions thereof of the Trust Fund credited to each participating employee s (Member s) account on the date of distribution are distributed in full shares of Common Stock of Multifoods to the extent possible and the balance, if any, is paid in cash.

Realized gains or losses reflect the difference between fair market values of stock withdrawals by Members and historical cost of the shares on a first-in, first-out basis (FIFO).

2. Summary Description of Plan:

The Plan is a voluntary investment plan intended to provide an opportunity for salaried employees of the Employer to become stockholders of Multifoods and to encourage them to invest on a regular basis. A Member may contribute monthly from 2% to 5% of regular salary to the Plan. The Employer contributes an amount equal to 50% of the Member s contribution.

Contributions of a Member, and of the Employer on behalf of the Member, are calculated and maintained in terms of shares of stock. The number of employees participating in the Plan together with the share and the share values of the participations under the Plan at February 28 were as follows:

Employees' contributions are fully vested. Employer contributions become fully vested after the employee has been a Member of the Plan for three years, or upon retirement, pre-retirement, death or disability, and certain other occurrences. The amounts forfeited by employees who withdraw prior to becoming fully vested are used to reduce subsequent Employer contributions.

Robin Hood Multifoods Inc. may at any time, by action of its Board of Directors, terminate the Plan or discontinue contributions with respect to any one or more participating Employers. Upon termination or discontinuance of contributions, Employer contribution amounts in Member accounts will be distributable to the Member or his or her beneficiary.

The corporations represented by the Employer are all Canadian corporations and all Members are Canadian residents. The Plan is not subject to the provisions of the United States Employee Retirement Income Security Act of 1974.
