2005 Proxy Form

Australia and New Zealand
Banking Group Limited
ABN 11 005 357 522

Charles Goode
Chairman
16 November 2005

On behalf of the Board of Directors, I have pleasure in enclosing notice of the thirty seventh Annual General Meeting of Australia and New Zealand Banking Group Limited.

The Meeting will be held at the Adelaide Convention Centre, North Terrace, Adelaide, South Australia on Friday, 16 December 2005 at 10:00am (Adelaide time).

Our choice of Adelaide for this year's Meeting reflects a policy of rotating shareholder meetings among the major cities where our shareholders are located. This gives as many shareholders as possible the opportunity to directly participate in meetings of the Company. In recent years we have held shareholder meetings in Melbourne, Sydney, Perth, and Brisbane.

If you are able to attend, would you please bring this letter with you to facilitate your admission into the Meeting.

ANZ staff will be available outside the meeting room should you wish to discuss banking services, investment products or shareholder matters.

If you are unable to attend the Meeting, I encourage you to vote using the attached Proxy Form. Alternatively, you can submit your proxy instructions electronically by visiting www.anz.com and clicking on the following links *shareholders (top of page)*

> *Annual General Meeting (left hand link)* > *Electronic Proxy Form (body of text)*.

Also attached is a form to enable you to nominate questions in advance of the Annual General Meeting. We will attempt to ensure that as many of the more frequently asked questions as possible are addressed at the Meeting.

Yours faithfully

Chairman

HOW TO COMPLETE THE PROXY FORM

1 YOUR ADDRESS

This is your address as it appears on ANZ's share register. If this information is incorrect, please mark the box and make the correction on the form. Members sponsored by a broker or other Controlling Participant (in which case your reference number overleaf will commence with an X) should advise their broker or other Controlling Participant of any changes. **Please note, you cannot change ownership of your securities using this form.**

2 APPOINTMENT OF PROXY

If you wish to appoint the Chairman of the Meeting as your proxy, mark the box. If the individual or body corporate you wish to appoint as your proxy is someone other than the Chairman of the Meeting please write the name of that individual or body corporate. If you leave this section blank, or your named proxy does not attend the Meeting, the Chairman of the Meeting will be your proxy. A proxy need not be a securityholder of ANZ. **Do not** write the name of ANZ or the registered securityholder in the space.

3 VOTES ON ITEMS OF BUSINESS

You may direct your proxy how to vote all your shares, or abstain from voting all your shares, on an item of business by placing a mark in the appropriate box opposite the item. Alternatively, you may direct your proxy to vote a number or percentage of your shares in a particular way, and the remaining number or percentage in another way. This can be done by inserting the number or percentage in the appropriate box or boxes next to the item. If you do not mark any of the boxes on a given item, your proxy may vote as he or she chooses. If you mark more than one box on an item, or the number or percentage of shares specified in the FOR, AGAINST and ABSTAIN boxes for an item exceeds your total shareholding, your vote on that item will be invalid.

4 APPOINTMENT OF A SECOND PROXY

A member who is entitled to cast two or more votes may appoint up to two persons (including bodies corporate) as proxies to attend the Meeting and vote on a poll. If you wish to appoint a second proxy, an additional Proxy Form may be obtained by telephoning ANZ's Share Registry or you may copy this form.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

To appoint a second proxy you must:

a) on each of the first Proxy Form and the second Proxy Form state the percentage of your voting rights or number of securities applicable to that form. If the appointments do not specify the percentage or number of votes that each proxy may exercise, each proxy may exercise half your votes. Fractions of votes will be disregarded.

b) return both forms together in the same envelope.

5 SIGNING INSTRUCTIONS

You must sign this form as follows in the spaces provided:

Individual: where the holding is in one name, the member must sign.

Joint Holding: where the holding is in more than one name, all of the members should sign.

Power of Attorney: to sign under Power of Attorney, you must have already lodged the Power with the Share Registry for notation. If you have not previously done so, please attach a certified copy of the Power of Attorney to this form when you return it.

Companies: where the company has a Sole Director who is also the Sole Company Secretary, that person must sign this form. If the company (pursuant to section 204A of the Corporations Act 2001) does not have a Company Secretary, a Sole Director can also sign alone. Otherwise this form must be signed by a Director jointly with either another Director or a Company Secretary. Please indicate the office held by signing in the appropriate place.

If a representative of a corporate securityholder or a corporate proxy is to attend the meeting the appropriate Corporate Representative Form should be produced prior to admission. This form may be obtained from ANZ's Share Registry.

LODGEMENT OF A PROXY

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

This Proxy Form (and any authority under which it is signed or a certified copy of that authority) must be received by ANZ not later than 48 hours before the commencement of the Meeting at 10.00am (Adelaide time) on Friday, 16 December 2005. Any Proxy Form, authority or certified copy of an authority received after that time will not be valid for the scheduled Meeting. The following addresses are specified for the purposes of receipt of Proxy Forms and any authorities under which Proxy Forms are signed (or certified copies of those authorities):

ANZ Share Registry
GPO Box 242
Melbourne Victoria 3001
Australia

ANZ Share Registry
Yarra Falls
452 Johnston Street
Abbotsford Victoria 3067

Appointment of Proxy

I/We being a member/s of Australia and New Zealand Banking Group Limited (ANZ) and entitled to attend and vote at the 2005 Annual General Meeting of ANZ hereby appoint

The Chairman
of the Meeting
(mark with an X) **OR**

If you are not appointing the Chairman of the Meeting as
your proxy please write here the full name of the individual
or body corporate you are appointing as your proxy

or failing the individual or body corporate named, or if no individual or body corporate is named, the Chairman of the Meeting, as my/our proxy to act generally at the Meeting on my/our behalf and to vote in accordance with the following directions (or if no directions have been given, as the proxy sees fit) at the 2005 Annual General Meeting of ANZ to be held at the Adelaide Convention Centre, North Terrace, Adelaide, South Australia on Friday, 16 December 2005 at 10.00am (Adelaide time) and at any adjournment of that Meeting.

IMPORTANT: FOR ITEMS 6 AND 7 BELOW

If the Chairman of the Meeting is your nominated proxy, or may be appointed by default, and you have not directed your proxy how to vote on Items 6 and 7 below, please mark this box with an X. By marking this box you acknowledge that the Chairman of the Meeting may exercise your proxy even if he has an interest in the outcome of these items and that votes cast by him, other than as proxy holder, would be disregarded because of that interest. If you do not mark this box, and you have not directed your proxy how to vote, the Chairman of the Meeting will not cast your votes on Items 6 and 7 and your votes will not be counted in computing the required majority if a poll is called on these items. The Chairman of the Meeting intends to vote undirected proxies in favour of Items 6 and 7.

Voting directions to your proxy please mark **X** to indicate your directions

**2005 INVESTOR SNAPSHOT
MEASURING PERFORMANCE**

2005 has been another good year for ANZ as we continue to deliver for all our stakeholders. We have rewarded shareholders with strong returns and built a unique culture that continues to deliver leading staff engagement and customer satisfaction. Our community involvement and recognition has increased significantly. Our focus remains on building a sustainable business to deliver long term for all stakeholders.

NET PROFIT AFTER TAX (\$m)

MARKET CAPITALISATION (\$b at 30 September)

IMPROVED CUSTOMER SATISFACTION

We are the leading major bank for customer satisfaction and we are now more than nine percentage points ahead of the average of the Big 4 banks and five percentage points ahead of our closest major peer.

LEADING STAFF ENGAGEMENT

Staff engagement is the highest of any major Australian company at 63%, placing ANZ in the Best Employer Zone (see page 35). This follows our previous strong performance for staff satisfaction which increased from 49% in 1999 to 85% in 2004.

2005 HIGHLIGHTS

Awarded Bank of the Year for the sixth year in a row (as voted by Personal Investor Magazine)

Awarded Best Call Centre and now open 24/7

The leading large Australian organisation for the Advancement of Women

Awarded New Zealand Bank of the Year

DIVIDEND (cents)

CASH EARNINGS PER SHARE (cents)

EARNING COMMUNITY TRUST

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Our community investment strategy seeks to increase the financial literacy and inclusion of adult Australians and enable our people to support the causes important to them. More than 18% of our people contributed 24,000 hours of volunteer time in 2005 and 28% of our staff have donated funds through workplace giving.

MANAGING RESPONSIBLY

ANZ ranked in the top 10 of top 10% banks globally on the Dow Jones Sustainability Index. We scored 100% for our Community Management Practice on the Corporate Responsibility Index and we maintained our membership on the FTSE4Good Global Index.

CHAIRMAN AND CEO'S REPORT

SUSTAINING PERFORMANCE AND GROWTH

Last year we outlined strategic priorities for achieving our goal to become the most respected and fastest growing of the major Australian banks. These were to create shareholder value, build market leadership and achieve superior revenue growth; to run a low cost and low risk business with distinctive customer service, and to earn the trust of the community.

It is pleasing to report to shareholders that in 2005 we made good progress towards these goals. Through stable leadership and a consistent agenda, we have achieved 22% compound growth in total shareholder return over the past seven years, and 33% in the past year.

We have strengthened our strategic position during the year. In Australia we have increased our market share in our Personal business, and ANZ is now the third largest bank by share of retail customers, by assets, and by value.

Over the past nine years we have taken 20 percentage points off the cost to income ratio. Our current mid-40s ratio makes us one of the most efficient banks in the world.

In customer satisfaction, we rate nine percentage points higher than the industry average for major banks, and ANZ is the most well regarded of the major banks among retail customers. Our products have been highly rated. For the sixth consecutive year independent experts have voted us Bank of the Year.

On other leading indicators we have performed strongly. We have built a performance and results oriented culture and have the highest staff engagement of any major Australian company. Through our activities and programs in areas such as financial literacy and inclusion we are earning the trust of the community.

We made progress in 2005 and look forward to continuing it in 2006.

CHAIRMAN'S REPORT

A MESSAGE FROM CHARLES GOODE

The achievements of the past year would not have been possible without the commitment and dedication of our people. On behalf of my fellow Directors and all shareholders, I thank them for their contribution to ANZ's success and look forward to their continuing support.

ANZ has once again met its commitment to shareholders, producing a record profit, a 17.3% return on shareholder equity and a strong capital position.

For the year ended 30 September 2005, profit after tax was up 7% to a record \$3,018 million. Excluding significant items and integration costs associated with The National Bank of New Zealand, our profit was up 12% to \$3,056 million.

The Directors were pleased to increase the dividend by 9% to 110 cents per share fully franked. This was the 12th consecutive increase in our annual dividend.

Our Australian businesses performed well, particularly our Personal business which recorded growth above the average of the financial services sector. We are now, on many criteria, the best performing major retail bank in Australia, a noteworthy achievement given ANZ's heritage as a predominantly corporate bank.

Our Institutional business recorded a solid performance in what has been a highly competitive year. This business is undergoing a period of reinvigoration following a number of years of relatively flat earnings and low asset growth, arising from our de-risking program.

Both our Corporate business and Esanda continued to deliver solid and consistent earnings growth in an increasingly competitive environment.

In New Zealand, the competitive environment coupled with our continued investment in the ANZ retail business offset a good performance by The National Bank of New Zealand franchise.

Our Asia Pacific business delivered a good to invest in the region, establishing new partnerships this year in Vietnam and Cambodia. We are making good progress in establishing partnerships in China.

We are managing risks well and are seeing the results from the de-risking program undertaken in recent years. Net specific provisions were down by 19% to \$357million.

Our capital position is strong, with the Group's adjusted common equity ratio at 5.1% of risk weighted assets, above our target range of 4.5% to 5.0%.

Board changes

Directors Brian Scott and John Dahlsen, both of whom were on the ANZ Board for 20 years, retired during the year.

Their wise counsel and insightful contributions to Board deliberations over many years demonstrate the benefit of having some Directors with long-standing institutional knowledge of the company and the experience of all phases of the economic cycle. We thank them sincerely and wish them well in their retirement.

Outlook

It is likely that we are moving into a period of slightly lower economic growth and a more competitive environment. This calls for a systematic focus on costs and revenue growth and I believe that ANZ is well placed to meet future challenges.

In the coming year we should continue to benefit from the momentum we have built in our Australian businesses. In the medium term, we expect to see improved returns from the integrated business in New Zealand, while over the longer term our position in Asia should become of more importance.

We are focused on delivering sustainable returns for our shareholders.

CHARLES GOODE
CHAIRMAN

**CHIEF EXECUTIVE OFFICER'S REPORT
A MESSAGE FROM JOHN McFARLANE**

For over a decade now, shareholders and other stakeholders have benefited from the strategic expansion and strength of our financial performance. Profits now exceed \$3 billion, and we have expanded our position in Australia, become the leading bank in New Zealand and the South Pacific, and we are the leading Australian bank in Asia. We can be proud of these achievements.

Growth and Transformation

That is now, but what of the future? We have set ourselves a new challenge of becoming Australasia's leading bank. This requires a new agenda with two principal themes: Growth, and Transformation.

Growth is about expansion of our franchise and building leadership positions in our core domestic businesses in Australia and New Zealand and expanding into Asia and the Pacific, as well as serving our clients from these geographies across the world. We expect Australia will initially drive our growth and performance as it did in 2005. Later we expect our leadership position in New Zealand to bear fruit, and over the longer term, Asia will become increasingly meaningful.

Growth also means delivering strong returns for shareholders by raising our annual revenue growth to 7%–9% over the coming years. We made good progress in 2005 with a substantial increase in our investment spending; adding over 2,200 people in the year, mainly to increase our footprint and to expand our service to customers.

Transformation is about maintaining world-class productivity, demonstrated by a cost-income ratio of 40% or below. Last year, we also put plans in place to transform ANZ into a leaner, sharper, more agile, and more externally focused competitor. This will involve shifting our priorities towards customers and reallocating resources from internal activities. It means increased automation, redesign of our operational platforms, and leveraging low-cost offshore capabilities owned by ANZ.

These and other initiatives give us confidence that we will achieve our stated targets.

Sustainability involves a longer-term focus

To be successful long-term, our focus cannot exclusively be on today, but also on the longer-term. Winners, over time, will not be those who maximise short-term results, but those who invest wisely to produce superior returns tomorrow. Companies nevertheless need to produce reasonable results in the short-term to survive, while they pursue their long run ambitions.

The highest performing companies are not simply a financial construction of land, labour and capital. They are much more than this. A vibrant company is more than the sum of its pieces. It serves its customers well, it cares for its employees, it is part of the community in which it operates and these strengths create the foundation for success with shareholders.

Beyond this, a truly successful company is also a community that is interdependent with other communities. It takes on the characteristics of those it engages with and, in turn, influences them.

So in taking our corporations forward, we need to think of advancing not a company but a community. This means a very different agenda for companies going forward and particularly for ANZ in the years to come.

JOHN McFARLANE
CHIEF EXECUTIVE OFFICER

**CHIEF FINANCIAL OFFICER'S REPORT
A SUMMARY FROM PETER MARRIOTT**

This year ANZ reported a record net profit after tax of \$3,018 million, up 7.2% on 2004. Our dividend for the year was 110c per share, up 8.9% on 2004. This report explains how we get from our profit of \$3,018 million to our dividend of 110c, and then on the following pages, we delve into our profit result in more detail.

Headline Profit - (\$m)

Adjustments	2004		2005	
+ Goodwill	\$	189m	\$	224m
- Hybrid dividend	\$	62m	\$	84m

- Non-core items	\$	84m	\$	(38m)
------------------	----	-----	----	-------

We make a series of adjustments to remove items like goodwill expense, dividends on hybrid instruments which reduce the amount of cash available to ordinary shareholders, and non-core items. These non-core items include incremental costs associated with merging our two banks in New Zealand of \$52m (\$14m in 2004) and non-recurring gains of \$14m (\$98m in 2004). By making these adjustments, we end up with what is commonly known as our cash profit.

Cash Profit Available to Ordinary Shareholders - (\$m)	Average Ordinary Shares on Issue - (m)
---	---

We then divide this cash profit by the average number of ordinary shares on issue over the year. The increase in shares over the year is mainly due to the impact of the rights issue in 2004, shares being issued under the Dividend Re-investment Plan, and various option plans. This resulted in cash Earnings Per Share growth of 8.8% in 2005.

Cash Earnings Per Share - (cents)	Dividend Per Share - (cents)
--	-------------------------------------

Our policy has been to grow our dividend per share approximately in line with growth in cash Earnings Per Share.

This resulted in a dividend of 110 cents, and a payout ratio of approximately 63%, which also allows us to fully frank the dividend for the foreseeable future.

1 PROFIT

Profit and Loss Summary	2005 \$m	2004 \$m	Movt %
Net interest income	5,798	5,254	10%
Other operating income	3,552	3,391	5%
Operating income	9,350	8,645	8%
Operating expenses	(4,515)	(4,026)	12%
Profit before debt provision	4,835	4,619	5%
Provision for doubtful debts	(580)	(632)	(8)%
Profit before income tax	4,255	3,987	7%
Income tax expenses	(1,234)	(1,168)	6%
Outside equity interests	(3)	(4)	(25)%
Net Profit attributable to shareholders of the company	3,018	2,815	7%
Total significant items and NBNZ incremental integration costs after tax	(38)	84	large
Net profit excluding significant items and NBNZ incremental integration costs	3,056	2,731	12%

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

ANZ reported a profit of \$3,018m for the 2005 year, up 7% on 2004, and our 8th consecutive year of increasing profits. This profit includes a number of items that distort the underlying performance of the business, such as incremental National Bank of New Zealand integration costs and significant one-off transactions.

To give a more accurate representation of the underlying performance, we also calculate our profit excluding these items. On this basis, our profit was \$3,056m in 2005, up 12% on 2004. Growth in Earnings Per Share (EPS) excluding goodwill, significant items, and incremental integration costs, commonly known as cash EPS, was 8.8%.

2 BALANCE SHEET GROWTH

One of the key drivers of our performance has been strong overall balance sheet growth over the past 12 months. Balance sheet growth largely comprises:

a Asset Growth

The continued strong growth of recent periods continued in 2005, with total assets up 13% to \$293 billion.

Most of ANZ's assets represent lending to individuals, businesses, large corporations and other entities. This includes mortgage lending, unsecured personal and credit card lending and loans for various business related activities.

Despite a softening in the rate of growth from recent years, mortgages continued to grow solidly in both Australia (14%) and New Zealand (11%).

Asset growth in our Corporate and Institutional segments was mixed during the year. Lending growth slowed in Corporate to 11%, down from 19% last year. Institutional lending growth of 15% was encouraging following a number of years of subdued growth resulting from our deliberate de-risking of the portfolio.

b Liability Growth

Consumer and Business deposits are the biggest items on the liability side of our balance sheet, with total customer deposits of \$165 billion. In both consumer and business deposits, ANZ performed well in 2005.

Retail deposits was a highly competitive segment in the Australian market over the past twelve months due to the introduction of a number of high interest rate online products. ANZ was the only major bank to gain market share during the year with 10% growth.

In New Zealand retail deposits grew 7% and market share remained stable, a pleasing outcome given the ongoing integration of The National Bank of New Zealand.

We also experienced good deposit growth across our Corporate and Institutional segments over the year, up 12% and 10% respectively.

3 NET INTEREST INCOME

Net interest income (NII) is the difference between interest received from customer lending and interest paid by ANZ to those providing our funding.

NII increased 10% in 2005 to \$5,798m, reflecting strong growth in average interest earning assets of 17% partly offset by a decline in our Net Interest Margin.

Over the year, our net interest margin declined 14 basis points to 2.35% at September 2005, with the key drivers being:

a Asset Mix (-3 basis points) this decline happens when we have stronger growth in lower margin assets i.e. Mortgages and Institutional, relative to growth in higher margin products, reducing our average margin.

b Funding Mix (-3 basis points) when asset growth outstrips deposit growth additional funds are sought from higher cost wholesale markets, negatively impacting net interest margin.

c Competition (-7 basis points) the Australian and New Zealand banking markets remain highly competitive. During the year competition resulted in a 7 basis point reduction in our net interest margin.

The key areas of competition included:

New Zealand Mortgages in late 2004 a competitor attempted to gain share by significantly reducing their interest rates on two year fixed mortgages. Despite largely maintaining market share, both ANZ and NBNZ margins were adversely impacted due to the lower market rates.

Institutional Banking interest margins remained under pressure as the Australian and large International banks continue to compete for business and as global credit spreads remain at low levels.

d Foreign Currency revenue hedges (-3 basis points) due to losses on foreign currency revenue hedges reported in interest.

4 **OTHER OPERATING INCOME**

Other operating income predominantly comprises fee income from across our businesses, foreign exchange and trading income generated by our Institutional markets business, and other items such as our share of earnings from the INGA Joint Venture. Other operating income increased \$161m or 5% to \$3,552 million in 2005.

Lending fee income increased 4% to \$1,043m in 2005 driven by the 12% increase in our lending volumes. Non-lending fees increased 11% to \$1,573m during the year, driven largely your Personal Division, where good growth in customer numbers has helped drive higher revenue from areas like credit cards and transaction accounts.

We also generated higher revenue from our financial planners, assisted by healthy market conditions. Institutional improved its non-lending fees, particularly in the second half of the year.

Other contributors to the improved Other operating income performance include:

a Foreign exchange earnings, which were up 10% to \$454 million, partly offset by lower earnings on trading instruments, which were down 11% to \$134 million.

b Increased contribution from Wall Street to Main Street (WSTMS). WSTMS is aimed at providing total capital solutions for mid market and business banking clients. Our success is reflected in the fact that we are now involved in the largest number of Private Equity transactions in Australia, including 22 in 2005.

c Earnings from our INGA Joint Venture were up 10% to \$107 million, helped by buoyant equity markets.

5 **EXPENSES**

In 2005 we increased expenses 12% to \$4,515m continuing our commitment to invest in long-term earnings sustainability.

Since 1996 our cost to income ratio has reduced from 66% to 46%, making us one of the world's most efficient banks. Our current focus has shifted to growing revenue, requiring additional short-term investment. Over the past year, our personnel costs have risen 15%, or 11% adjusted for the additional two months contribution from NBNZ. The key driver of this increase has been an increase of more than 2,200 employees over the past 12 months.

Our premises expenses were up 12% over the year, driven by the additional two months from NBNZ, growth in our ATM and branch network, market rent increases, and higher security service costs.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Other notable changes in our expenses included an additional \$31 million in advertising and public relations, as we seek to leverage our improved customer satisfaction and product awards, and higher travel costs.

a Personal expenses up 7% to \$1,639m reflecting significant investment in frontline personnel with 697 staff added in 2005 and continued investment in our branch network, with 15 new branches opened and an additional 75 refurbished.

b Institutional expenses up 6% to \$766m driven largely by increased personnel costs, up 12% due to incentive compensation and costs associated with restructuring the Markets business.

c New Zealand expenses up 17% to \$955m due to the additional two months of NBNZ, and as we have continued to invest in the ANZ (NZ) brand, adding 514 new staff and opening 4 new branches.

d Corporate expenses up 5% to \$294m following significant investment in front line personnel.

e Esanda and UDC expenses were well controlled, increasing just 1% to \$188m.

f Asia Pacific expenses up 20% to \$171m reflecting ongoing investment in the region.

6 BAD AND DOUBTFUL DEBTS CHARGE

ANZ recognises an expense for credit losses based on the expected long-term loss rate for each part of the loan portfolio. The method used for determining this expense is referred to as Economic Loss Provisioning (ELP).

For larger individual loans, the ELP model calculates the expected loss by considering:

- a** The probability of default (that is, the probability of customers not meeting their agreed commitments).

- b** The loss given default (that is, how much we lose on a loan where the customer has defaulted).

For portfolios of smaller loans with similar characteristics such as credit cards and home loans, we take a portfolio approach. For example, with our \$90 billion Australian mortgage portfolio, we estimate the long run loss rate to be around 5 basis points (or 0.05%), even though our recent loss experience has been significantly less.

In 2005 the ELP rate was 25 basis points, down from 31 basis points in 2004.

On a portfolio of net lending assets which averaged \$235 billion over the year, this resulted in a charge to our profit and loss of \$580m, down 8% on 2004.

The reduction in ANZ's ELP rate reflects improvement in the credit quality of the Group's portfolio driven by:

significant de-risking in the Institutional division and the absence of offshore losses

the acquisition of The National Bank of New Zealand, which is weighted to lower risk retail lending

generally favourable macro environment, including record low unemployment, low interest rates and a healthy business environment with low levels of gearing

The improvement in the Group's portfolio has also been reflected in our level of Net Specific Provisions, which were down 19% to \$357 million, and Non-Accrual loans, which were down 23% to \$642 million.

AUSTRALIAN EQUIVALENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (AIFRS)

ANZ currently prepares its financial statements in accordance with Australian Generally Accepted Accounting Principles. From 1 October 2005 the Group will report under AIFRS, as issued by the Australian Accounting Standards Board. It is important to note that in substance the day-to-day operations of ANZ will not change, AIFRS will only impact the way that we account for certain aspects of our business.

The following areas have been identified as significant for ANZ. Further details are included in the 2005 ANZ Financial Report.

Key Area (1)	AIFRS Accounting Change	Potential impact (after tax)
Goodwill	Goodwill currently amortised over expected period of benefit. This is to be replaced by periodic impairment testing.	Expenses reduced by \$224m per annum based on 2005 full year results.
Fee Revenue	Larger number of fees deferred on initial payment and recognised over the expected life of the financial instrument.	Profit impact is not expected to be material. Reduction to retained earnings of \$3m and \$266 million as at 1 October 2004 and 1 October 2005 respectively.
Debt v Equity Classification	ANZ StEPS issue will be treated as debt rather than equity.	Current dividend of \$66m will be reclassified as interest expense from 1 October 2005.
Share-Based Payments	All share-based payments required to be recognised as an expense upon issue. \$1,000 employee shares, deferred shares and options will be amortised over relevant vesting periods.	Expenses increased by \$64 million after tax per annum based on 2005 results. Reduction to retained earnings of \$12m as at 1 October 2004.
Post Employment Benefits	ANZ will be required to recognise the net position of its defined benefit super annuation schemes in the statement of financial position.	Profit impact is not expected to be material. Reduction to retained earnings of \$142 million as at 1 October 2004.
Hedging	Introduction of stringent criteria for application of hedge accounting. In effectiveness recorded in the statement of financial performance.	Impact of ineffectiveness uncertain, may result in increased volatility. This is not expected to be material. Reduction to retained earnings of \$129m and increase in reserves of \$162m as at 1 October 2005.
Credit Loss Provisioning	Economic Loss Provisioning will be replaced by a charge for individual provisions on impaired exposures plus movements in Collective Provision.	It is expected that the new credit loss provisioning charge will drive increased earnings volatility. Increase to retained earnings of \$191m as at 1 October 2005.

(1) The total estimated impact of adopting AIFRS is likely to result in a net increase to retained earnings of \$104 million as at 1 October 2004, and a net decrease to retained earnings of \$386 million as at 1 October 2005 resulting in a cumulative decrease of \$282 million in retained earnings.

CAPITAL

Banks are required to maintain capital levels that comply with both regulatory and operational requirements. Capital adequacy is generally measured as capital as a percentage of risk weighted assets.

The key regulatory requirement is based on Tier 1 capital, which represents high quality capital, including ordinary shares, retained earnings and general reserves, less items like goodwill. ANZ's current Tier1 ratio is 6.9%. ANZ also needs to maintain a certain level of Tier 2 capital, which includes items like subordinated debt and the general provision. Our current Tier 2 ratio is 3.9%. The level of capital is also a key focus for rating agencies when they determine our credit ratings.

The key measure used by ratings agencies is known as Adjusted Common Equity(ACE), which is Tier 1 capital less preference shares and a number of other deductions such as the value of our investment in the ING Joint Venture. ANZ has an ACE target range of 4.50% to 5.00% of Risk Weighted Assets. At September 2005 we were slightly above this, with an ACE ratio of 5.1%.

However it does mean that banks like ANZ are highly leveraged organisations, necessitating strong risk management frameworks and capabilities.

RISK MANAGEMENT

ANZ recognises the importance of effective risk management to its business success. Management is committed to achieving strong risk control, resulting in no surprises and a distinctive risk management capability.

1. Robust Risk Management Framework

ANZ's risk management framework combines Board policy setting and review with regular senior management oversight and independent business unit monitoring.

ANZ Board

Risk Management Committee oversees principles, policies, strategies, processes and control frameworks for the management of Risk and approves credit transactions beyond the approval discretion of executive management

Audit Committee reviews financial control frameworks and compliance

Senior Management

Credit & Trading Risk Committee oversees credit policy, major lending decisions, asset writing strategies and traded and non-traded market risk

Group Asset & Liability Committee oversees regulatory capital, balance sheet structure, liquidity and funding

Operational Risk Executive Committee oversees operational risk and compliance strategy

Business Unit Level

Business Unit Risk Management Discharge responsibilities for business, market, credit, operational, liquidity and reputational risk and compliance with internal and external obligations

2. Major inherent risks

The major inherent risks faced by ANZ can be grouped under the following categories:

a Credit Risk is the risk of loss associated with customer lending, and is the major risk faced by ANZ. Credit risk policies and management are executed through dedicated Risk departments that report to the Chief Risk Officer. All major credit decisions require approval by independent Risk personnel. Net Specific Provisions for credit losses fell 19% in 2005 to \$357 million.

b Market Risk is the risk of losses from changes in interest rates, foreign exchange rates or the prices of equity shares and indices, commodities, debt securities and other financial contracts, including derivatives. An independent market risk team ensures traded and non-traded risks and liquidity profiles are within Board and Senior Management authorised limits. Value at Risk (VaR) is a statistical estimate of the likely daily loss. The average traded VaR exposure for 2005 was \$1.6m at the lower end of peer banks.

c Operational Risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems, or from external events. The operational risk frame work is set at Group level. Divisions are responsible for Operational Risks on a day-to-day basis.

d Compliance is the risk of failure to comply with all applicable legal and regulatory requirements and industry standards and the corresponding impact on ANZ s business, reputation and financial condition.

3. Key risk developments

In recent years ANZ has significantly reduced its risk profile. This has been achieved through a number of strategies and structural drivers:

a Increased Consumer Banking Assets

Traditionally ANZ has had greater exposure to the higher risk Institutional and Corporate segments relative to Australian peers. While we continue to leverage our strengths in these divisions, we have increased our focus on the lower risk Consumer segment. In 2000 consumer

lending comprised approximately 55% of net lending assets; this has increased to approximately 63% today. This shift in business mix and resulting reduction in risk can largely be attributed to strong growth in Mortgages, and the acquisition of The National Bank of New Zealand, with its consumer banking strength.

b Reduction in Non-Accrual Loans

Loans where we expect to lose at least some interest and/or principal, as a percentage of non-mortgage lending assets, is a useful measure of credit quality. Over the last five years, this has fallen from 1.65% to just 0.46% in 2005.

c Reduction in Offshore Exposures

Lending to non-core geographies and sectors has been significantly reduced. Since 2000 the percentage of the Group's offshore net lending assets has reduced from 11% to 4%. The deliberate re-balancing process was completed with the sale of our UK based Project and Structured Finance business in October 2004.

d Industry and Single Name Exposure Limits

Integral to the risk management framework are concentration limits for countries, industries and individual customers. We constantly monitor and manage both limits and exposures to minimise the risk that ANZ is exposed to large unexpected credit losses.

A detailed explanation of risk management at ANZ is available on our web site at www.anz.com/australia/aboutanz/corporateinformation/corpgovpolicy

OUR BUSINESS PERFORMANCE
INSPIRED TEAMWORK BUILDS GROWTH

ANZ provides a wide range of banking products and services, from first home mortgages to complex derivatives for large institutional clients. We focus on our domestic markets in Australia and New Zealand and also operate internationally.

Australia

Personal Banking was again our best performing division, gaining market share in most areas and maintaining our major bank lead in customer satisfaction and staff engagement. We are now the third largest retail bank in Australia and closing in on the number two position.

Institutional is performing well after several years of constrained growth as we reduced risk.

Corporate once again delivered solid earnings growth. Despite slower growth in Business Banking, the focus on specialist strategies and segment propositions underpinned the overall performance.

Esanda's consistent performance continued, reflecting their strong market position.

New Zealand

New Zealand Division performance was subdued due to The National Bank of New Zealand integration, intense competition in the mortgage segment, and the cost of continued investment in rebuilding the ANZ brand.

Significant progress was made on integration in 2005, particularly in systems. Integration will be largely complete by December 2005 with the focus shifting to business as usual and capitalising on our leading market positions.

Asia Pacific

Asia Pacific's performance in 2005 was adversely impacted by the non-recurrence of one-off items booked in 2004 and our continued investment in Asia. The Pacific business performed well reflecting our number one or two market position in all markets. Asia's performance was subdued by investment associated with new retail partnerships in Vietnam and Cambodia and 2004 one off gains from our PT Panin Bank partnership not repeated in 2005.

Pictured left - From top: Kym Darcy, Corporate; Carolyn Morris, Esanda; Jackie Walters, Asia Pacific; and Tania Turnbull, Personal.

OUR BUSINESS PERFORMANCE
DOMESTIC FOCUS, INTERNATIONAL PRESENCE

Our domestic markets, Australia and New Zealand, are the most significant contributors to our performance, comprising 89% of our 2005 profit. Our focus on these markets is evidenced by fact that 89% of our staff and 94% of our points of representation reside in these geographies.

NPAT by Divisions - (\$m)

We are the only Australian bank with a significant presence in Asia, and during the year we extended this with two new retail partnerships in Vietnam and Cambodia. We continue to be in discussions with two Chinese financial institutions.

We remain the number one Australian bank in the Pacific, holding either the number one or two position in all markets in which we operate.

We have a substantial presence in the key finance centres of London and New York, and a smaller presence elsewhere in Europe, the Middle East, and South Asia, which allows us to support our domestic customers' international activities.

Our growth philosophy is simple: we will acquire new customers, retain existing customers, increase our share of their financial services spend, and pursue the extensive growth opportunities that still exist for ANZ. Our goal is to continue our market share growth towards number two in retail banking.

What we do

Personal provides retail banking services to over 3 million Australian customers through its 756 branches. It is comprised of five specialist business units.

Our Mortgages business unit is the largest of these, and is responsible for our award winning residential mortgage products. Our Consumer Finance business provides credit cards and personal loans to retail customers, and is also responsible for our ATMs and Merchant Payments business. Banking Products is responsible for our transaction and savings accounts. Regional Commercial and Agribusiness products are sold by our branch network to our rural and regional customers. Wealth Management includes our financial planning business, ANZ Trustees, Margin Lending and our investments in e*Trade and in the INGA Joint Venture, but from 1 October 2005 was renamed Investment and Insurance Products, as we increase our focus on selling insurance products.

Achievements

ANZ's Personal Division continued to build a sustainable competitive advantage, recording market share gains across its product range, and strong growth in each of our business units.

In addition to gains in market share, ANZ is now the number three retail bank. This strategy has also delivered recognition in the broader market. We have been voted Bank of the Year for the sixth year in a row by Personal Investor Magazine.

ANZ's market-leading product set delivered growth that exceeded that of the financial services sector on average. For example, Mortgages grew 14%, credit cards grew an impressive 20% and Deposits grew 10%. We have also seen solid growth in wealth management distribution.

Financial performance

\$m	2004	2005	%
Income	2,942	3,242	10%
Expenses	(1,533)	(1,639)	7%
Profit before provisions	1,409	1,603	14%
Debt provisions	(183)	(198)	8%
Tax & OEI	(343)	(392)	14%
Profit after tax	883	1,013	15%
Cost income ratio (CTI)	52.1%	50.6%	(3)%
Staff (FTE)	8,919	9,616	8%

We invest a lot of time and effort trying to better understand what drives customer behaviour, and using these customer insights to drive strategy. This is clearly paying off as we now lead the major banks in customer satisfaction. Personal Division's customer satisfaction rating is 76.5%, more than nine points ahead of the Big four banks' average of 67%. At the same time, risk of defection is falling, and is down 6% on 2004. ANZ retail customers are also the least likely to switch to other major banks.

We've invested strongly in our brand. We're differentiating ANZ on convenience and simplicity, bringing this to life through such initiatives as simplified technology, a \$5 transaction account, 24/7 call centre, new branches and reduced queue times. In the past year we opened 15 new branches, installed 500 new ATMs, employed 697 new staff members and spent \$100 million on branch upgrades.

There has been much comment about the level of competition in recent times. We have taken a measured response to price-led competition, protecting our customer base through investment in our frontline, and in marketing and distribution. We are funding this through a reduction in back-office costs and productivity gains.

Goals for 2006

Personal banking remains an attractive market. We are operating in a favourable credit growth environment, with clear market segments.

Against this background, our growth philosophy is simple: we'll acquire new customers, retain existing customers, increase our share of their spend, and pursue the extensive growth opportunities that still exist for ANZ. Our goal is to continue our market share growth towards number two in retail banking.

Customer acquisition will be driven through continued focus on understanding their needs. Over the next three years we'll expand the branch network by almost 10% or around 65 branches.

Engaged staff, deep customer insight, market-leading products and increased convenience will continue to drive customer retention.

We are also building strong customer relationship management (CRM) sales capability, growing our financial planning footprint to drive growth of joint venture funds under management and integrating cross sell into third party channels.

Further growth opportunities will result from increasing our presence in high growth areas such as Western Australia and Queensland and extending our capabilities to new brands and segments.

Institutional has built a strong base for future growth this year. We have refocused our client model, upgraded our capabilities in key products and leveraged our distinctive global product expertise. Our Risk Management processes foster ownership of risk management by all our people, and we continue to build our talent and skill base by providing world class training for our current staff and by recruiting top industry professionals.

What we do

Institutional has one client coverage team and three specialist businesses.

The Client Relationship Group is responsible for delivering solutions to meet client needs for those with turnover above \$150 million.

Our Markets business is a major participant in the financial markets providing specialist services in foreign exchange, capital markets, commodities, structured derivatives and interest rate services. Corporate & Structured Financing provides advice in mergers and acquisitions, divestments, takeovers/ defences, project finance, corporate restructuring, cross-border structures, privatisations, private equity and tailored strategic and financial advice. Trade and Transaction Services is responsible for trade finance, transaction banking for larger clients, and our custody business.

We have strong long term relationships with our Institutional clients and are widely acknowledged leaders in relationship management. As the strongest advisor in complex and structured finance products, we have the best understanding of client funding and capital needs, and of offshore banking needs. We remain the leader in Trade Finance services, and a leader in transactional banking and foreign exchange across all segments.

Achievements

In addition to delivering 8% earnings growth this year, Institutional also rebuilt the foundations for strong future growth. We have sold non-core activities, focused our strategy on key strengths and new opportunities, targeted the most capable people and refreshed our product offering.

We completed our de-risking program during the year, which was a deliberate strategy to improve the quality of our portfolio.

Financial performance

\$m	2004	2005	%
Income	2,041	2,165	6%
Expenses	(720)	(766)	6%
Profit before provisions	1,321	1,399	6%
Debt provisions	(160)	(139)	(13)%
Tax & OEI	(304)	(337)	11%
Profit after tax	857	923	8%
Cost income ratio (CTI)	35.3%	35.4%	0%
Staff (FTE)	2,936	3,103	6%

We are now working to rebuild the market share lost during recent years. The intensely competitive markets experienced this year continued to put pressure on margins. We expect this margin pressure to continue, and aim to counter the impact on our results by reducing the amount of debt we hold on our balance sheet by improved distribution to our global investor base.

We maintained the momentum of our successful Trade and Transaction Services business and our Wall Street to Main Street strategy, which provides investment banking type solutions for our non-Institutional clients.

We've adopted a product neutral, customer segmented approach, while maintaining the benefits our clients receive from our Specialised Industry knowledge. Our aim for 2006 is to improve our cross sell and improve our full service offering for clients.

We have invested in skill based training for our people and recruited where we need specialist skills.

We are building our product offering in debt capital markets and alternative asset capabilities. During the year we restructured our Markets business by successfully merging and integrating the Capital Markets and Foreign Exchange and Commodities business units.

In capital markets, where ANZ has not traditionally been a strong player, our league table position has improved. We undertook the largest Commercial Mortgage Backed Securities transaction in the Australian market.

Our cross sell is growing as evidenced by increased swaps activity within our investor and borrower base. We successfully sold down units in our Energy Infrastructure Trust and did four public-private partnership transactions, including the Royal Women's Hospital in Melbourne. Our Asian network provides us with a significant growth opportunity in an expanding market.

Goals for 2006

With the de-risking agenda now firmly behind us, Institutional will renew its focus on providing the full range of banking and investment banking services for our clients.

We will continue to leverage strong customer relationships, build on underweight segments, maintain focus on efficiency and risk management and retain and recruit the right people. At the same time Institutional will continue to build momentum in Trade, Wall Street to Main Street, and our current product range, while seeking the opportunities available from new markets.

ANZ National Bank has achieved a strong strategic position, as evidenced by its standing in all core banking markets. Customer attrition is significantly better than expected and market share of customers is close to 40% across all major sectors.

What we do

The New Zealand Businesses division comprises all of ANZ's operations in New Zealand with the exception of Institutional and our UDC asset finance business. In the retail and business banking segments we continue to operate through both The National Bank of New Zealand (NBNZ) and ANZ brands, offering a full range of personal and business banking services.

Our Rural Banking business operates under the NBNZ brand and offers general and tailored banking services to our broad range of rural customers. Corporate Banking provides transactional banking services and meets the sophisticated product requirements of our customers under the ANZ brand. We hold leading market positions in all segments.

Achievements

Earnings for the New Zealand businesses were up 20%, assisted by an additional two months contribution from NBNZ.

This result for the merged ANZ National Bank was impacted by intense price competition in the retail market and subsequent margin compression, lower Treasury earnings along with our continued focus on amalgamation, integration and establishing capability for future growth. New Zealand remains an attractive banking environment, with sound credit quality and strong volume growth.

We invested substantial resources in building our retail capability in both NBNZ and ANZ, with an emphasis on the ANZ brand. We opened four new branches, added 514 staff, established a mobile mortgage team, and provided 680 ATMs across the two brands.

Financial performance

\$m	2004	2005	%
Income	1,670	1,953	17%
Expenses	(818)	(955)	17%
Profit before provisions	852	998	17%
Debt provisions	(97)	(92)	(5)%
Tax & OEI	(242)	(292)	21%
Profit after tax	513	614	20%
Cost income ratio (CTI)	49.0%	48.9%	0%
Staff (FTE)	8,066	8,580	6%

ANZ customer service ratings hit a seven-year high in the first quarter of 2005 and NBNZ continues to lead the major banks in customer service.

Much of the focus since the acquisition almost two years ago has been on maintaining our customer franchises and building the business. This customer-focus is beginning to pay off and the ANZ brand is clearly showing signs of turnaround. Customer attrition has slowed by 65% over 2004, while NBNZ has maintained its share of main bank customers. We have retained our share in the competitive deposit market and the ANZ on-line call

account has been a major success with over \$900 million deposited since its launch in December 2004.

The gradual erosion in the home loan market has slowed since integration. We have maintained our dominant position in the rural market, though we had a small loss of share to niche players and new entrants to the market, who are competing primarily on price. Our commitment to this market remains strong through our experienced relationship management teams.

The integration program is on track. Much ground has been covered during its first two phases, due to be completed in December this year. Teams have been restructured, operations co-located, the rural integration program is complete and work is nearing completion on establishing the new IT infrastructure. We are also on target to meet the Reserve Bank of New Zealand's mandated regulatory requirements.

Goals for 2006

Our aim is to be the leading bank in New Zealand. We will achieve this through:

Sustainable and profitable revenue growth by investing for the long term, exploiting opportunities in markets in which we are under-represented and making better use of our strategic alliances (with ING, for example). We will maintain a conservative risk policy while being flexible to changing customer needs.

Delivering a quality customer experience through operational excellence by continued investment in our front-line, ensuring we're easy to do business with, being agile and responsive, and continuously reviewing our customer systems and processes.

Leveraging our scale to operate more efficiently, rationalising functions, integrating systems and processes and automating back-office processes.

Harnessing our unique dual brand position to extend our reach.

Developing and growing our people, translating their talent into a sustainable competitive advantage.

A core advantage is the wide customer base, the segmentation of which has given us the flexibility to respond effectively and rapidly to changing market conditions. We expect the strength of our customer proposition will continue to drive customer satisfaction and market share, while our low cost to income and disciplined execution will enable footprint investment in the business.

What we do

Corporate division is comprised of three specialist businesses, each focused on the needs of a different tier of customers.

Corporate Banking provides relationship banking and a range of sophisticated financial solutions to around 3,000 clients who have annual turnover of \$10 million to \$150 million. Business Banking provides a more traditional relationship banking offering to around 38,000 business customers who have up to \$50,000 in funds under management or annual turnover up to \$10 million. Small Business Banking services around 170,000 small businesses with funds under management below \$50,000 with service largely offered via the branch network.

Achievements

Corporate maintained its successful track record of strong financial performance and low risk growth in 2005.

Our earnings were up 10% to \$376 million, with lending growth of 11% and deposit growth of 12%. We continued to invest heavily in our footprint, while keeping our cost to income ratio in the low 30s. High employee engagement (63% in Business Banking and 57% in Corporate Banking) combined with a strong customer proposition, places us in a leading position with customers.

In Small Business Banking we invested heavily in frontline staff, employing 80 new small business specialists and simplifying processes.

In Business Banking, the strategy has been to expand our geographic footprint and industry specialisation, as well as to

Financial performance

\$m	2004	2005	%
Income	829	897	8%
Expenses	(280)	(294)	5%
Profit before provisions	549	603	10%
Debt provisions	(61)	(66)	8%
Tax & OEI	(147)	(161)	10%
Profit after tax	341	376	10%
Cost income ratio (CTI)	33.8%	32.8%	(3)%
Staff (FTE)	1,761	1,941	10%

develop a market leading customer service proposition, adopting a structured and sustainable approach to organic growth.

This includes use of business brokers and an attractive mix of products to drive customer acquisition, increased product sales per customer and maintain a high rate of customer retention. The Business Banking portfolio is well secured and risk profiles remain low.

Our Corporate Banking teams successfully operate in the mature mid-market business segment. ANZ has innovated in the mid-market, offering its Wall Street to Main Street (WSTMS) strategy of providing investment banking type solutions to business clients. The strategy is working and we are seeing a significant increase in these transactions. It meets two of a private company's main life-cycle needs: achieving growth or facilitating generational change. ANZ has a clear market leading position thanks to the way in which we've melded the culture of traditional relationship bankers with the services of WSTMS specialists. ANZ is now responsible for the greatest number of private equity deals in this segment in Australia.

We continue to face a number of challenges. These include the entry of new players, commoditisation of the credit product, margin pressure, and changing business ownership resulting from generational change and the growth of the self employed sector.

Our response to these challenges has been to strive to be the best, most engaged business bankers; to segment our customer base in a disciplined way; to offer industry specialisation, specialist customer solutions and innovative products; and to have the best possible business platforms, channels and processes.

Independent research shows that in both Corporate and Business Banking, we have high customer satisfaction, and that among all major banks, the Corporate division's customers are the least likely to switch.

Goals for 2006

Corporate division's goal is to achieve growth above that of the financial services sector in each of our businesses. With the strong team we have established and a solid track record behind us, we seek to deepen existing relationships and win new customers.

We expect the strength of our customer proposition will continue to drive customer satisfaction and market share, while our low cost to income and disciplined execution will enable further investment in our business. We will continue to focus on our risk management capabilities and raise the bar in execution and leadership.

With a presence in 23 countries, ANZ is already Australia's leading bank in the Asia Pacific region. This gives us a great starting point to make the most of the economic growth in the region. We will continue to invest in our existing businesses in the Pacific and Asia, and add skills, products and new distribution channels.

What we do

The Asia Pacific division comprises three geographically defined businesses in the South Pacific, and across East Asia and Southeast Asia.

Pacific offers a full range of retail and commercial banking services in 11 countries throughout the South Pacific. Our Asian network, which serves primarily Australian, New Zealand and Asian corporates who trade, operate and invest across 11 countries in the east Asia region. International Partnerships covers ANZ's retail partnerships with local banks in Indonesia, the Philippines, Vietnam and Southeast Asia. Together, these businesses make ANZ Australia's leading bank in Asia Pacific.

Achievements

Asia Pacific Division's profit was down 14% to \$95 million in 2005. On a geographic basis, which includes all of our activities in Asia Pacific including Institutional, profit was down 4% to \$184 million.

The core business performed well, with strong growth on volume and earnings. This underlying momentum was offset by lower earnings from our investment in Panin Bank in Indonesia, lower Treasury earnings in Asia, and the costs associated with establishing our International Partnership business.

We are the leading bank in the South Pacific, with an average market share across the region of almost 40%. The business has one of the highest staff engagement levels in ANZ (68%) and in 2005 showed strong profit growth. We continue to strengthen our franchise by investing in training, new products and distribution.

Financial performance - Geographic

\$m	2004	2005	%
Income	484	506	5%
Expenses	(209)	(239)	14%
Profit before provisions	275	267	(3)%
Debt provisions	(34)	(31)	(9)%
Tax & OEI	(50)	(52)	4%
Profit after tax*	191	184	(4)
Cost income ratio (CTI)	42.6%	46.6%	9%
Staff (FTE)	2,221	2,432	10%

* Includes profit from Institutional and Group Centre businesses in the Asia Pacific region of \$89 million (2004: \$80 million)

Supporting local and regional economic development is an important component of our Pacific strategy. As one of the largest corporations and employers in the Pacific, ANZ contributes in a real way to local communities.

In Asia, we are seeing strong growth in manufacturing, trade and infrastructure investment. For example, regional

trade reached US\$949 billion in 2004, fuelling strong demand for trade finance. ANZ's Asian Net work is uniquely placed to service customers that trade or invest across the Asia Pacific region and into Australia and New Zealand.

The international partnership agenda is taking shape. Our strategy is to participate in the growth in consumer banking in Asia by developing partnerships with local banks that can benefit from our experience in retail banking, Small to Medium Enterprises, Trade and Risk Management.

By combining the local franchise with ANZ's expertise, we can grow faster together than we could on our own.

We are adopting a portfolio approach, making modest initial investments and targeting a number of partnerships across the region. Today, we have partnerships in Indonesia (PT Panin Bank 29%), the Philippines (Metrobank Cards Corporation 40%), Vietnam (Sacombank 10%) and Cambodia (ANZ Royal Bank 55%). In addition, we are targeting two equity investments in China in 2006.

Goals for 2006

Pacific

Maintain revenue momentum and grow market share

Continue with investment in new products and distribution channels, including new branches

Simplify and re-engineer our processes to improve customer service and productivity

Asia network

Accelerate growth in the Institutional Banking segment

Expand our skills and talent pool to support faster growth

Invest in our Expatriate and Private Banking businesses

International Partnerships

Make a number of strategic investments in local retail banks in Asia that will put us in a unique position to capture the growth in consumer banking.

Work with existing partners to transfer ANZ skills to local markets

Continue to grow our Asian credit card business at double digit rates.

We have built on the strong growth of the last 5 years and are facing up to increasing competitive pressures by re-doubling our focus on our core businesses and entering new businesses in adjacent markets, where we can win through leveraging core capabilities.

Financial performance

\$m	2004	2005	%
Income	456	481	5%
Expenses	(186)	(188)	1%
Profit before provisions	270	293	9%
Debt provisions	(67)	(62)	(7)%
Tax & OEI	(60)	(72)	20%
Profit after tax	143	159	11%
Cost income ratio (CTI)	40.8%	39.1%	(4)%
Staff (FTE)	1,297	1,351	4%

What we do

Esanda celebrated a significant milestone in 2005 as it entered its 50th year of business, occupying a market leading position in virtually every segment in which it competes and a leadership position overall.

Esanda provides vehicle and equipment finance, rental services, and savings and investment products. It operates in Australia as Esanda and Esanda Fleet Partners and in New Zealand as UDC and Esanda FleetPartners.

Achievements

Our focus on improving core business performance was rewarded with profit up 11% to \$159 million.

Return on equity has grown to 24%, up from 11% just 5 years ago. Despite increased investment in frontline staff, cost to income ratio has fallen from around 50% in 2000, to just 40% today. The business risk profile has improved, allowing a significant reduction in provisions.

Our focus is now creating accelerated and sustainable growth through a combination of new product development and new business development in adjacent markets where we can leverage core capabilities. For example, we have expanded our fleet capabilities into the heavy equipment market (mining, farming and industrial) and have entered the private sales market the fastest growing segment of the vehicle market.

Likewise, our aim is to build our non-prime auto finance business, tapping into a market that is growing at three times the rate of the prime market.

We are also expanding our cross-sell capabilities and focus, ensuring that we deliver to our customers the best financial products available.

To assist our growth in the higher return fleet management segment, we have sharpened our sales and pricing focus in Esanda Fleet Partners and Commercial Asset Finance with strong growth displayed in both businesses.

In line with our strategy to grow the consumer market, we launched an internet based savings product called Esanda Online Saver which has attracted over \$160 million funds under management since its launch in May 2005.

Goals for 2006

We will continue to extract efficiency gains to fund frontline investment and market extensions, and use our specialist product focus, strong partner relationships and the reputation for security and reliability that we have built over 50 years to deliver simple, easy to use products. We do this with a low cost base, leadership in almost every segment in which we operate and an accelerated growth agenda.

Through the Group Centre's leadership ANZ has achieved the highest staff engagement of Australia's major companies, a significantly reduced risk profile that is now in line with major peers and leading technology capabilities developed across Australia, New Zealand and India.

What we do

The Group Centre comprises:

Operations, Technology and Share Services (OTSS)

Group People Capital

Group Risk Management

Group Strategic Development

Group Financial Management, including Treasury

Achievements

The Group Centre reported a loss of \$124 million in 2005, 6% higher than 2004. The key drivers included increased risk management and compliance costs, reduced Treasury and hedge earnings, partly offset by lower provisions for offshore losses.

Significant progress in finalising the New Zealand technology integration program, with over 900 separate

changes successfully implemented.

Successfully completed the ANTS project, which was focussed on simplifying ANZ's core systems. This was one of the most complex and largest technology architecture projects in the bank's history and provides ANZ with a solid foundation for future systems requirements.

Successful relocation of our Disaster Recovery Data Centre to a new, world class facility.

Continued to expand our wholesale funding base, to meet the strong growth in demand for lending, raising A\$21 billion in senior and subordinated debt and 500 million from a preference share issue.

Goals for 2006

During 2005 OTSS conducted a long-term technology strategy review aimed at streamlining ANZ's core banking system and enhancing the single view of customer capabilities. We will continue to progress this agenda in 2006.

The New Zealand technology integration is scheduled for completion by December 2005.

We will continue to explore expansion opportunities of our Bangalore technology facility, which is focused on providing non-customer facing technology support.

Treasury will continue to raise ANZ's wholesale funding requirements at globally competitive interest rates.

Implement International Financial Reporting Standards and achieve Sarbanes Oxley s404 compliance.

Corporate Centre Leadership

Peter Hawkins, Group Managing Director, Group Strategic Development; **Shane Freeman**, Group General Manager People Capital; **Peter Hodgson**, Chief Risk Officer; **Bob Edgar**, Chief Operating Officer; **Mike Grime**, Managing Director, Operations Technology & Shared Services; and **Peter Marriott**, Chief Financial Officer (pictured page 10).

**PEOPLE, COMMUNITY AND THE ENVIRONMENT
INSPIRING, ENERGISING AND BUILDING RELATIONSHIPS**

ANZ aims to bring a human face to banking and build relationships of trust and mutual respect with the community.

In 2005 we continued to inspire and energise our people, bringing our Breakout cultural transformation work shops to branch staff around the country. We introduced innovative policies to create a more flexible and responsive workplace as ANZ was recognised as having the most engaged workforce of all major Australian companies.

We deepened our commitment to financial literacy and inclusion of adult Australians, particularly amongst the most vulnerable people in society. With the Commonwealth Government of Australia, we will provide financial education programs for remote Indigenous communities and expand our Saver Plus matched savings and financial literacy program to benefit low-income families. Over 400 financial counsellors and community educators were trained to deliver our MoneyMinded financial literacy program to help people with lower levels of financial literacy and those facing financial hardship. We are working to complete our second national survey of adult financial literacy in Australia. Our response will include a greater focus on providing convenient, simple and responsible financial products, services and marketing communication. We aim to rapidly expand our financial literacy and inclusion programs to help more people improve their financial knowledge, skills and confidence.

During 2005 our people came together with communities to achieve some remarkable outcomes. In our response to the Asia Tsunami disaster, we worked with community partners such as World Vision, volunteered our time and services, collected customer contributions and provided more than \$1 million through donations made by staff and then matched dollar for dollar by ANZ. Our people also provided the entire volunteer network to support the inaugural Oxfam Community Aid Abroad Comic Relief fundraiser.

Pictured left - Saver Plus family: Leonie with daughters Lisa (left) and Jessica (right).

OUR PEOPLE AND CULTURE INDIVIDUALS AT THE HEART OF CHANGE

We listen and respond to our people, providing programs and opportunities that aim to create a vibrant, energetic and high-performing culture. We invest in the development of our people and encourage them to use ANZ's values to guide their actions and decisions.

Building a vibrant, high-performing culture

ANZ has invested in its people over the past five years with the goal to create a vibrant, energetic and high-performing culture where ANZ's values are the basis for the actions our people take and the decisions they make each day.

This year, industry research revealed that ANZ has the most engaged workforce of all major companies in Australia.

Employee engagement means much more to us than simply a staff survey outcome. It's the result of a comprehensive strategy to inspire and energise our people to deliver their best everyday. This involves attracting and nurturing the very best talent, investing in their development, and recognising and rewarding their contribution, values and behaviours.

Cultural transformation

Now in its fifth year, over 21,000 staff have participated in our Breakout program as part of ANZ's long-term commitment to transforming our culture. The program includes workshops to help staff use ANZ's values in their decision-making and to effectively balance the competing needs of staff, shareholders, customers and the community in their roles and activities.

This year we commenced Breakout for the frontline, which will see some 7,000 branch staff participate in the program over the next 18 months. We also introduced Breakout Recharge which focuses on creating and building cohesive and effective teams.

Our people are actively involved in our efforts to make ANZ a great place to work.

We seek their ideas and feedback on our progress via our annual employee engagement survey. The survey is used to identify and address key issues and opportunities for improvement, and focus groups are subsequently held across the business to provide deeper guidance and appropriate responses.

These and other investments have helped to radically change our culture over the past five years. In addition to our levels of employee engagement, we have also seen positive developments in organisational climate through our annual values assessment survey. The survey of senior leaders and a random sample of staff in 2005 showed that respondents rated the most visible values in our culture as customer focus and community involvement. By comparison, in 2000, cost reduction was perceived to be our primary value.

Attracting and nurturing talent

Over the past 18 months, we have added some 3,000 mostly customer-facing positions to support our growth agenda and network expansion. We are also one of the largest recruiters of graduates amongst all publicly listed companies in Australia.

We invest in the personal and professional development of our people and systematically identify and advance the top 20% of performers at each level.

Pictured - 12 weeks paid Parental Leave gives Natalie Paine and baby Jack a head start.

Lost Time Injury Frequency Rate

(Compensated claims per million hours worked)

Flexibility for a diverse workforce

ANZ has adopted a number of innovative workplace policies designed to create flexible working conditions responsive to the needs of our people at various stages of their lives. For example, this year we introduced a new policy guaranteeing those Australian staff aged over 55 the right to work part-time if they choose.

We have made diversity a real priority, with a particular focus on women. We have extended the priority childcare services available to our people through our partnership with ABC Learning Centres and provided 12 weeks paid parental leave for primary care givers, with no qualifying period and paid up front. We also introduced a mentoring program to increase representation of women in senior management. In 2005, more than 18% of our senior management positions were held by women.

ANZ was also recognised as the leading large Australian organisation for the Advancement of Women by the Equal Opportunity for Women in the Workplace Agency (EOWA).

Wellbeing

We introduced a significantly enhanced Health, Safety and Security strategy in 2005. This includes our Branchsafe program, designed to better manage and assess security and risk in our branches. Ongoing facilities improvement programs during the year included a significant investment in branch refurbishments and upgrades, particularly in New South Wales. We continued to reduce our lost time injury frequency rate, which is the best among our peer group.

Our commitment to employee well-being extends to providing our people with free health information and services through My Health Online, and My Healthcheck—an initiative that offers a paid physical checkup during working hours once every two years to all staff.

Consistent with our broad commitment to improving the financial literacy of Australians, more than 5,000 staff participated in Financial Fitness workshops covering budgeting and savings, retirement planning and superannuation, and investment basics.

Employee community contributions

We offer our people opportunities to get involved in local community programs and the causes that are important to them, creating some extraordinary outcomes. In 2005, 3,675 or 18% of Australian staff contributed more than 24,000 hours as part of ANZ's Volunteers program, which provides employees with eight hours leave each year to complete volunteering activities of their choice. ANZ's program is amongst the leaders globally—the average corporate volunteering participation rate is 8.5%.

Throughout the year 28% of our Australian staff donated money to numerous community partners through our Community Giving program, where ANZ matches staff contributions dollar-for-dollar up to \$1,000 per person. The high participation rate was achieved through staff donations to the Tsunami relief efforts, which resulted in ANZ and its people donating \$1 million to support the work of World Vision. The average participation rate for similar schemes at large organisations is 3-4%.

THE COMMUNITY AND ENVIRONMENT

PERSONAL CHALLENGES AND SHARED GOALS

We aim to be leaders in addressing the major social issues that involve the financial services industry in particular financial literacy and financial inclusion. Our programs also provide opportunities for our staff to support causes that are important to them.

Our Community

ANZ's community programs aim to build the financial knowledge, skills and confidence of all Australians, particularly the most vulnerable.

There is no short-term fix to these issues. It requires continued focus, passion and persistence across our entire business and deep partnerships with government, regulators and community organisations to achieve lasting change.

Together we aim to create confident, capable consumers who can access and use financial products and services to improve their personal financial well-being, which in turn will help to create stronger communities and a healthy economy.

Innovative programs

Saver Plus is a financial literacy program aimed at helping families on low-incomes to improve their financial knowledge, develop a long-term savings habit, and save for their children's education. As part of the program, ANZ rewards the efforts of participants by matching every dollar saved up to a total amount of \$2,000. Participants agree to direct their savings towards their children's education and learning needs, such as the purchase of personal computers.

The program was created with the Brotherhood of St Laurence (BSL) and is delivered through partnerships with BSL, Berry Street Victoria, The Benevolent Society and The Smith Family.

Earlier this year ANZ provided \$481,000 in matched savings to the 257 families who participated in the 2004 pilot program and, at the end of September 2005, a further 453 families had saved \$384,703 to be matched by ANZ.

An RMIT University evaluation of the Saver Plus pilot program revealed that 92% of participants achieved their savings goal, and 35% exceeded their goal. A key finding was that three months after they completed the program 84% of participants were still saving regularly and 34% of these were saving more than they had previously.

MoneyMinded is Australia's first comprehensive adult financial literacy program, to help people, particularly low-income earners and those facing financial hardship, develop financial knowledge, skills and confidence. Its development was funded by ANZ, and guided by stakeholders such as the Australian Financial Counselling and Credit Reform Association and Australian Securities Investment Commission.

With 40 years experience in community work (including 20 in financial counselling). Jan Pentland sees MoneyMinded as an excellent financial literacy resource.

Jan Pentland

Financial Counsellor, AFCCRA Chair.

Our community investment strategy focuses on enhancing the well-being and prosperity of the communities where our people live and work, and where our business operates. Earning the trust of the community is one of our core values.

More than 400 financial counsellors and community educators have been trained to deliver the program around Australia with 3,500 people attending at least one MoneyMinded session and almost 1,000 people attending multiple workshops. Together with our community partners, our goal is to reach 100,000 people over the next five years.

Expanding our partnerships

In July this year ANZ and the Commonwealth Government Department of Family and Community Services, launched Money Business, a culturally specific program to bring financial literacy and money management skills to Indigenous people in six sites including Katherine, Tennant Creek, Nguiu (Tiwi Islands), Galiwinku (Elcho Island) in the Northern Territory and Geraldton and Kununurra in Western Australia.

ANZ will contribute \$1 million in funding over the next 3 years and share our experience in developing financial literacy and matched savings programs to enable MoneyBusiness to reach 2,000 Indigenous people. We will also work with the Government and the local communities to adapt Saver Plus to reach up to 300 Indigenous families.

ANZ has also formed a partnership with Traditional Credit Union (TCU), an indigenous credit union based in Darwin. Together we are developing a financial inclusion strategy, including the delivery of MoneyBusiness to help TCU members build better lives for themselves and improve their living standards through enhanced money management skills.

The Victorian State Government, has funded Berry Street Victoria to translate and deliver MoneyMinded to the Iraqi community in Shepparton as part of its social policy action plan *A Fairer Victoria*. We are also investigating opportunities with the State Government to extend these programs to support other communities within Victoria.

ENVIRONMENT

ANZ has established an Environment Charter, strategy and internal responsibilities for reducing the impact of our operations and business activities on the environment. Our aim is to align ANZ's environmental performance with our commitment to make a sustainable contribution to society.

Environment Charter

A significant step in ANZ's environmental commitment was the introduction in July 2005 of a new Group Environment Charter. It sets higher standards for managing our environmental footprint and provides guidance for improving environmental performance through our relationships with partners, customers and suppliers.

Responsible lending

An environmental and social issues screen of clients and transactions is being introduced across ANZ's Institutional & Corporate divisions. This allows key risks to be identified and addressed in the credit process. Formal internal engagement has been established to oversee more effective integration of environmental and social considerations in lending policies and decision-making principles and frameworks. This includes a program to build broad staff awareness and understanding of the business rationale for environmental and social issues.

Operational Environmental Footprint

Programs are in place to reduce the impact of our operations on the environment and in 2005 we fulfilled our commitments to:

Reduce electricity consumption

Reduce paper usage

Enhance our existing procurement policies and practices to address environmental risks and opportunities in our supply chain

We continue to work on implementing an environmental management system to identify, measure and track our environmental performance.

THE BOARD OF DIRECTORS

SUSTAINING PERFORMANCE AND GROWTH

The Board is responsible to shareholders for the governance of ANZ, and oversees its operations and financial performance.

It sets the strategic direction and financial objectives, determines the appropriate risk appetite for the organisation, and monitors operational performance. It also monitors compliance in terms of ethical standards and regulatory requirements. The Board appoints the Chief Executive Officer and regularly reviews his performance.

The Board Charter clearly sets out the Board's purpose, powers, and specific responsibilities. The business of ANZ is managed under the direction of the Board. The Board delegates to the Chief Executive Officer and through him, to other senior management, the authority and responsibility for managing the everyday affairs of ANZ. The Board monitors management and performance on behalf of shareholders.

The ANZ Board is chaired by a non-executive independent director. Its structure provides for a division of responsibility between the Chairman and the Chief Executive Officer. This is supported by the ANZ Board Charter ([anz.com>aboutANZ>corporate governance](http://anz.com/aboutANZ/corporate%20governance)) which states that the Chairman must be an independent non-executive director and that the majority of the Board must comprise independent non-executive directors.

The Board strives to achieve a balance of skills, knowledge, experience and perspective among its directors. This is particularly important for the banking sector, as banks have deep relationships with customers across every sector of the economy, and need to understand what is happening across the broader economy. Banking can also be cyclical, so it is important that in achieving a balance of experience, the Board includes a number of longer serving directors.

Details regarding the skills, experience, and expertise of each director are on the following pages.

Pictured - From left: Greg Clark, Roderick Deane, Margaret Jackson, David Gonski and David Meiklejohn.

**B COM (HONS) (MELB), MBA (COLUMBIA UNIVERSITY,
NEWYORK), HON LLD (MELB), HON LLD (MONASH)**

Chairman

Independent Non-Executive Director

Non-executive director since July 1991. Mr. Goode was appointed Chairman in August 1995 and is an ex officio member of all Board Committees.

Experience and expertise

Mr. Goode has a background in the finance industry and has been a professional non-executive director since 1989. He brings a wide range of skills and significant experience of the finance industry to his role as Chairman of the Board.

Age 67. Residence Melbourne.

MR. J. McFARLANE

MA, MBA

Chief Executive Officer

Chief Executive Officer since October 1997. Mr. McFarlane is also a Director of ANZ National Bank Limited in New Zealand.

Experience and expertise

Mr. McFarlane brings broad leadership, management and banking skills following a 30-year career in banking. Mr. McFarlane is a former Group Executive Director, Standard Chartered Plc, Head of Citibank, United Kingdom and Managing Director, Citicorp Investment Bank Ltd.

Age 58. Residence Melbourne.

DR. G J CLARK

PHD, BSC (HONS)

Independent Non-Executive Director

Chairman of the Technology Committee

Non-executive director since February 2004. Dr Clark is a member of the Nominations, Governance & Corporate Responsibility Committee.

Experience and expertise

Dr Clark is Principal of Clark Capital Partners, a US based firm that advises internationally on technology and the technology market place. Previously he held senior executive positions in IBM, News Corporation and Loral Space and Communications. He brings to the Board international business experience and a distinguished career in micro-electronics, computing and communications.

Age 62. Based in New York, United States of America but also resides in Sydney.

DR. R S DEANE

PHD, B COM (HONS), FCA, FCIS, FNZIM

Independent Non-Executive Director

Chairman of ANZ National Bank Limited

in New Zealand

Non-executive director since September 1994. Dr. Deane is a member of the Compensation & Human Resources Committee and the Technology Committee.

Experience and expertise

Dr. Deane has skills and experience across a variety of sectors including government, banking and finance, economics, and telecommunications, and also with charitable and cultural organisations.

Age 64. **Residence** Wellington, New Zealand.

MR. J K ELLIS

MA (OXON), FAICD, HON FIE AUST, FAUSIMM,

FTSE, HON DR ENG (CQU)

Independent Non-Executive Director

Chairman of the Risk Management Committee

Non-executive director since October 1995. Mr. Ellis is a member of the Audit Committee.

Experience and expertise

A trained engineer, Mr. Ellis brings to the Board his analytical skills together with his practical understanding of operational issues, investments and acquisitions across a range of sectors including natural resources, manufacturing, biotechnology and education..

Age 68. Residence Melbourne.

MR. D M GONSKI, AO

B COM, LLB, S.I.A. (AFF), FAICD, FCPA

Independent Non-Executive Director

Chairman of the Nominations, Governance

& Corporate Responsibility Committee

Non-executive director since February 2002.

Mr. Gonski is a member of the Risk

Management Committee.

Experience and expertise

A lawyer, Mr. Gonski has a broad experience across business, the law and investment banking. He also brings to his role on the Board an appreciation for the community through his work in the arts and the not-for-profit sector.

Age 52. Residence Sydney.

MS. M A JACKSON, AC

B EC, MBA, HON LLD, FAICD, FCA

Independent Non-Executive Director

Chairman of the Compensation & Human Resources Committee

Non-executive director since March 1994. Ms Jackson is a member of the Audit Committee.

Experience and expertise

A Chartered Accountant, with significant financial expertise, Ms Jackson has broad industrial experience including her involvement in transportation, mining, the media, manufacturing and insurance. This expertise coupled with her work in health and education contribute to her role on the Board.

Age 52. Residence Melbourne.

MR. D E MEIKLEJOHN

B COM, DIP. ED, FCPA, FAICD, FAIM

Independent Non-Executive Director

Chairman of the Audit Committee

Non-executive director since October 2004. Mr. Meiklejohn is a member of the Nominations, Governance & Corporate Responsibility Committee.

Experience and expertise

Mr. Meiklejohn has a strong background in finance and accounting. He also brings to the Board his experience across a number of directorships of major Australian companies spanning a range of industries.

Age 63. Residence Melbourne.

MR. J P MORSCHEL

DIPQS, FAIM

INDEPENDENT NON-EXECUTIVE DIRECTOR

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Non-executive director since October 2004. Mr. Morschel is a member of the Risk Management Committee and the Compensation & Human Resources Committee.

Experience and expertise

Mr. Morschel has a strong background in banking and financial services, and brings the experience of being a director of major Australian and international companies.

Age 62. Residence Sydney.

(1) From 1997, the annual debt provision charge has been calculated based on economic loss provisioning; prior year data has not been restated for this change in measurement approach

(2) From 1998 to 2001, consolidated assets include the statutory funds of ANZ Life as required by an accounting standard. For the year 2004, consolidated assets include the statutory funds of NBNZ Life Insurance Limited. ANZ Life was sold in May 2002 and NBNZ Life Insurance Limited was sold on 30 September 2005.

(3) Excludes significant items and outside equity interests

(4) For the periods 1997 to 2002 the return on average ordinary equity calculation accrues the dividend over the year. From 2003, dividends may no longer be accrued and as such are not included in the calculation of return on average ordinary equity

(5) Excludes goodwill amortisation, abnormals and significant items

(6) Periods prior to 2004 adjusted for the bonus elements of the November 2003 Rights Issue

(7) From 2003 the dividend payout ratio includes the final dividend proposed but not provided for in terms of AASB 1044 Provisions, Contingent Liabilities and Contingent Assets which was effective from the September 2003 financial year.

(8) Equals shareholders equity less preference share capital and unamortised goodwill

(9) DRP represents Dividend Reinvestment Plan

(10) Includes branches, offices, representative offices and agencies

(11) Prior to 1997, excludes temporary staff

(12) From 2000 onwards the number of shareholders does not include the number of employees whose only shares are held by ANZEST Pty Ltd as the trustee for shares issued under the terms of any ANZ employee incentive plan.

INFORMATION FOR SHAREHOLDERS

A SUMMARY

DIVIDENDS

The final dividend of 59 cents per share, fully franked, will be paid on 16 December 2005. A Dividend Reinvestment Plan (DRP) and Bonus Option Plan (BOP) are available to shareholders. Copies of the terms and conditions of the Plans are available from the ANZ Share Registry at the addresses shown below.

In order to reduce costs, minimise the potential for fraud and enhance convenience for shareholders, ANZ has implemented a direct credit payment policy regarding dividend payments to shareholders in Australia, New Zealand and the UK (other than to those who have elected to participate in either the DRP or the BOP).

REMOVAL FROM MAILING LIST

Shareholders who do not wish to receive a copy of the Concise Annual Report must advise the Share Registry in writing or you can register your email address via www.anz.com and elect to receive shareholder information via email instead of by mail.

CHANGE OF ADDRESS

Shareholders who have changed their address will need to advise the Share Registry in writing, quoting their shareholder number, name and company as applicable. If you have purchased your shares through a broker you will need to inform your broker of the change.

ANZ is proud to be a foundation member of eTree, a Computershare initiative with Landcare Australia.

Register to receive all your shareholder communications electronically through eTree and in return ANZ will make a donation of up to \$2 to Landcare Australia to support reforestation projects across Australia and New Zealand.

So far through this initiative ANZ has donated the equivalent of almost 200,000 trees and we encourage more shareholders to register and help give back to our environment.

The notes appearing on pages 6 to 107 form an integral part of these financial statements

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

- (1) 2005 relates to the issue of 500,000 Euro Trust securities raising \$875m net of issue costs of \$4m. 2003 relates to the issue of 10 million ANZ Stapled Exchangeable Preferred Securities (ANZ StEPS), raising \$1 billion less issue costs of \$13 million. Refer note 30

Nature and purpose of reserves

- (2) Asset revaluation reserve
Prior to 1 October 2000, the asset revaluation reserve was used to record certain increments and decrements on the revaluation of non-current assets. As the Group has elected to adopt deemed cost in accordance with AASB 1041, the balance of the reserve is not available for future non-current asset write downs while the Group remains on the deemed cost basis
- (3) Foreign currency translation reserve
Exchange differences arising on translation of foreign self-sustaining operations are taken to the foreign currency translation reserve, as described in accounting policy note 1(v)
- (4) General reserve and Capital reserve
The balance of these reserves have resulted from prior period allocations of retained profits and may be released to retained profits

The notes appearing on pages 6 to 107 form an integral part of these financial statements

NOTES TO THE FINANCIAL STATEMENTS

Our critical accounting policies are described on pages 110 to 113.

1: ACCOUNTING POLICIES

i) Basis of preparation

This general purpose financial report complies with the accounts provisions of the Banking Act 1959, applicable Australian Accounting Standards, the accounts provisions of the Corporations Act 2001, Urgent Issues Group Consensus Views and other authoritative pronouncements of the Australian Accounting Standards Board. Except as disclosed below, these accounting policies are consistent with those of the previous year.

The financial report has been prepared in accordance with the historical cost convention as modified by the revaluation of trading instruments which are recorded at market value with gains and losses on revaluation taken to the statement of financial performance, and the deemed cost of properties (deemed cost being the carrying amount of revalued non-current assets as at the date of reverting to the cost basis per AASB 1041 - Revaluation of Non Current Assets) less any accumulated depreciation.

The preparation of the financial report requires the use of management estimates. Such estimates may require review in future periods.

The Company is a company of the kind referred to in Australian Securities and Investments Commission class order 98/100, dated 10 July 1998. Consequently, amounts in the financial report have been rounded to the nearest million dollars except where otherwise indicated.

All amounts are expressed in Australian dollars, unless otherwise stated. Where necessary, amounts shown for the previous year have been reclassified to facilitate comparison.

ii) Changes in Accounting Policies

There have been no changes in accounting policies for the year ended 30 September 2005.

For reporting periods commencing 1 October 2005, the Group is required to prepare financial statements using Australian equivalents to International Financial Reporting Standards (AIFRS). The move to reporting under AIFRS represents a major change to reporting processes and

will result in significant changes to accounting policies. Refer to note 55 for a detailed analysis of the impacts of adopting AIFRS.

iii) Consolidation

The financial statements consolidate the financial statements of Australia and New Zealand Banking Group Limited (the Company) and its controlled entities.

Where controlled entities and associates have been sold or acquired during the year, their operating results have been included to the date of disposal or from the date of acquisition.

Control means the capacity of an entity to dominate decision making, directly or indirectly, in relation to the financial and operating policies of another entity so as to enable that other entity to pursue the objectives of the controlling entity.

The capacity of an entity to dominate decision making is usually present when that entity has power over more than one half of the voting rights of the other entity; power to govern the financial and operating policies of the other entity; power to appoint or remove the majority of the members of the board of directors; or power to cast the majority of votes at meetings of the board of directors or equivalent governing body of the entity. However, all the facts of a particular situation are considered when assessing control.

The Group adopts the equity method of accounting for associates and the Group's interest in joint venture entities.

The Group's share of results of associates and joint venture entities is included in the consolidated statement of financial performance. Shares in associates and joint venture entities are stated in the consolidated statement of financial position at cost plus the Group's share of post acquisition net assets. Interests in associates and joint ventures are reviewed annually for impairment primarily using a discounted cash flow methodology. In the course of completing this valuation other methodologies are considered to determine the reasonableness of the valuation including the multiples of earnings methodology.

All significant activities of the Group, with the exception of the ING Australia Joint Venture, are operated through wholly-owned controlled entities.

The Group may invest in or establish special purpose vehicles to enable it to undertake specific types of transactions. Where the Group controls such vehicles, they are consolidated into the Group financial results.

iv) Goodwill

Goodwill, representing the excess of the purchase consideration over the fair value of the identifiable net assets of a controlled entity at the date of gaining control, is recognised as an asset and amortised on a straight line basis over the period during which the benefits are expected to arise, not exceeding 20 years.

The unamortised balance of goodwill and the period of amortisation are reviewed annually for impairment using a discounted cash flow or the capitalisation of earnings methodology. Where the balance exceeds the value of expected future benefits, the difference is charged to the statement of financial performance.

v) Foreign currency

Financial assets and liabilities denominated in foreign currencies are translated into Australian dollars at the rates of exchange ruling at balance date.

Revenues and expenses of overseas branches and controlled entities are translated at average exchange rates for the year.

Net translation differences arising from the translation of overseas branches and controlled entities considered to be self-sustaining operations are included in the foreign currency translation reserve, after allowing for those positions hedged by foreign exchange contracts and related currency borrowings (net of tax).

vi) Fee income

Fee and commission income is brought to account on an accruals basis. Certain yield-related front-end application fees received are deferred and accrued to income as an adjustment to yield over the period of the loan. Non yield-related application and activation lending fees received are recognised as income no later than when the loan is disbursed or the commitment to lend expires.

Fees and commissions that relate to the execution of a significant act (for example, advisory services, placement fees and underwriting fees) are taken to income when the fees are receivable. Fees charged for providing ongoing services that represent the recoupment of the costs of providing service (for example, maintaining and administering existing facilities) are recognised as revenue in the period in which the service is provided.

vii) Net loans and advances

Net loans and advances include direct finance provided to customers such as bank overdrafts, credit cards, term loans, lease finance, hire purchase finance and commercial bills.

Overdrafts, credit cards and term loans are carried at principal balances outstanding. Interest on amounts outstanding is accounted for on an accruals basis.

Finance leases, including hire purchase contracts, are accounted for using the finance method whereby income is taken to account progressively over the life of the lease or the contract in proportion to the outstanding investment balance. The finance receivable component of operating leases is accounted for using the finance method and operating lease residual value retained is recorded as other assets. At finalisation, goods are disposed of and proceeds received are applied against the residual value. Any resulting gains or losses are recognised through income.

The operating lease residual value is reflected at estimated future realisable value. The residual value is reviewed semi-annually and compared to estimated future market values. Any impairment on these residual value assets is recognised in the statement of financial performance for the period.

A hire purchase is a contract where Esanda or UDC (the owner) allows the customer (the hirer) the right to possess and use goods in return for regular payments. When all payments are made the title to the goods will pass to the hirer.

The gross amount of contractual payments for finance leases to business customers that have a fixed rate and a fixed term are recorded as gross lease receivables and the unearned interest component is recognised as income yet to mature.

Customer financing through redeemable preference shares is included within net loans and advances. Dividends received on redeemable preference shares are taken to the statement of financial performance as part of interest income.

All loans are subject to regular scrutiny and graded according to the level of credit risk. Loans are classified as either productive or non-accrual. The Group has adopted the Australian Prudential Regulation Authority Impaired Assets Guidelines in assessing non-accrual loans. Non-accrual loans include loans where the accrual of interest and fees has ceased due to doubt as to full recovery, and loans that have been restructured with an effective yield below the Group's average cost of funds at the date of restructuring. A specific provision is raised to cover the expected loss, where full recovery of principal is doubtful.

Restructured loans are loans with an effective yield above the Group's cost of funds and below the yield applicable to a customer of equal credit standing.

Cash receipts on non-accrual loans are, in the absence of a contrary agreement with the customer, applied as income or fees in priority to being applied as a reduction in principal, except where the cash receipt relates to proceeds from the sale of security.

viii) Bad and doubtful debts and other loss contingencies

Bad and doubtful debts:

The Group recognises an expense for credit losses based on the expected long term loss ratio for each part of the loan portfolio. The charge is booked to the General Provision which is maintained to cover losses inherent within the Group's existing loan portfolio.

The method used by the Group for determining this expense charge is referred to as economic loss provisioning (ELP). The Group uses ELP models to calculate the expected loss by considering:

the history of credit loss for each type and risk grade of lending; and

the size, composition and risk profile of the current loan portfolio.

The Group regularly reviews the assumptions used in the ELP models. These reviews are conducted in recognition of the subjective nature of ELP methodology. Methodologies are updated as improved analysis becomes available. In addition, the robustness of outcomes is reviewed considering the Group's actual loss experience and losses sustained by other banks operating in similar markets.

To the extent that credit losses are not consistent with previous loss patterns used to develop the assumptions within the ELP methodology, the existing General Provision may be determined to be either in excess of or insufficient to cover credit losses not yet specifically identified. As a result of the reassessments, ELP charge levels may be periodically increased or decreased.

Specific provisions are maintained to cover identified doubtful debts. All known bad debts are written off in the year in which they are identified. The specific provision requirement (representing new and increased specific provisions less specific provision releases) is transferred from the General Provision to the Specific Provision. Recoveries, representing excess transfers to the Specific Provision, are credited to the General Provision.

Provisions for doubtful debts are deducted from loans and advances in the statement of financial position.

Other loss contingencies:

These items are recorded as liabilities on the balance sheet when the following requirements are met:

the transaction is probable in that the contingency is likely to occur; and

can be reasonably estimated.

Further disclosure is made within note 47, where the above requirements are not met but the contingency falls within the category of reasonably possible. Specific details are provided together with an estimate of the range or a statement that such an estimate is not possible.

ix) Acceptances

Commercial bills accepted but not held in portfolio are accounted for and disclosed as a liability with a corresponding contra asset.

The Group's own acceptances discounted are held as part of either the trading securities portfolio or the loan portfolio, depending on whether, at the time of such discount, the intention was to hold the acceptances for resale or until maturity.

x) Trading securities

Securities held for trading purposes are recorded at market value. Unrealised gains and losses on revaluation are taken to the statement of financial performance.

Market value for listed and unlisted securities is determined by the price displayed by a willing buyer in a liquid market at the reporting date, adjusted for liquidity issues around the size of the parcel of securities held by the Group as compared to the normal daily trading volumes in the securities. Where a market price in a liquid market is not readily available, the market value is determined by reference to the market price available for a security with similar credit, maturity and yield characteristics or by using industry standard pricing models.

xi) Investment securities

Investment securities are those which the Group intends and has the ability to hold until maturity. Such securities are recorded at cost or at cost adjusted for amortisation of premiums or discounts.

Premiums and discounts are capitalised and amortised from the date of purchase to maturity. Interest and dividend income is accrued. Changes in market values of securities are not taken into account unless there is considered to be an other than temporary diminution in value. The market value of listed and unlisted investment securities used for considering other than temporary impairment and fair market value disclosures is determined using quoted market prices for securities with the same or similar credit, maturity and yield characteristics.

Market value, used for impairment issues, is determined in accordance with the methodology discussed under Trading Securities.

xii) Repurchase agreements

Securities sold under repurchase agreements are retained in the financial statements and a counterparty liability is disclosed under the classifications of Due to other financial institutions or Deposits and other borrowings. The difference between the sale price and the repurchase price is amortised over the life of the repurchase agreement and charged to interest expense in the statement of financial performance.

Securities purchased under agreements to resell are recorded as Liquid assets, Net loans and advances, or Due from other financial institutions, depending on the term of the agreement and the counterparty.

xiii) Derivative financial instruments

Derivative financial instruments (derivatives) are contracts whose value is derived from one or more underlying financial instruments or indices. They include swaps, forward rate agreements, futures, options and combinations of these instruments.

Trading derivatives, comprising derivatives entered into for customer-related or proprietary reasons or for hedging the trading portfolio, are measured at fair value and all gains and losses are taken to other operating income in the statement of financial performance.

Fair value losses arising from trading derivatives are not offset against fair value gains on the statement of financial position unless a legal right of set-off exists.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

For contracts subject to master netting agreements that create a legal right of set-off for which only the net revaluation amount is recognised in the statement of financial performance, unrealised gains on derivatives are recognised as part of other assets and unrealised losses are recognised as part of other liabilities in a category described as treasury instrument revaluations .

Derivatives designated as hedges of underlying non-trading exposures are accounted for on the same basis as the underlying exposures. To be designated as a hedge, the fair value of the hedge must move inversely with changes in the fair value of the underlying exposure.

Gains and losses resulting from the termination of a derivative that was designated as a hedge of non-trading exposures are deferred and amortised over the remaining period of the original term covered by the terminated instrument where the underlying exposure still exists. The gains or losses are recorded in the income or expense line in which the underlying exposure movements are recorded. Where the underlying exposure no longer exists, the gains and losses are recognised in the statement of financial performance in the other operating income line.

Gains and losses on derivatives related to hedging exposures arising from anticipated transactions are deferred and recognised in the financial statements when the anticipated transaction occurs.

These gains and losses are deferred only to the extent that there is an offsetting unrecognised (unrealised) gain or loss on the exposures being hedged. Deferred gains and losses are amortised over the expected term of the hedged exposure and are recorded in the results of operations in the same line as the underlying exposure. For hedging instruments designed as hedging interest rate risk, the amortised deferred gain or loss is posted to the net interest line; for items designated as hedging foreign currency exposures, the amortised deferred gain or loss is recorded in the other operating income line. The impact of hedges of foreign currency revenue is recorded in interest income. The deferred gain or loss is recorded in other liability or other assets in the statement of financial position.

Gains and losses that arise prior to and upon the maturity of transactions entered into under hedge rollover strategies are deferred and included in the measurement of the hedged anticipated transaction if the transaction is still expected to occur. If the forecasted transaction is no longer expected to occur, the gains and losses are recognised immediately in the statement of financial performance in other income.

Movements in the derivative financial position are recorded in the cashflow statement when they are settled on the other financing and investing lines.

xiv) Premises and equipment

Premises and equipment are carried at cost less depreciation or amortisation.

Profit or loss on the disposal of premises and equipment is determined as the difference between the carrying amount of the assets at the time of disposal and the proceeds of disposal, and is included in the results in the year of disposal.

Assets other than freehold land are depreciated at rates based upon their expected useful lives to the Group, using the straight line method. The depreciation rates used for each class of asset are:

Buildings	1%
Building integrals	10%
Furniture & equipment	10%
Computer & office equipment	12.5 to 33%
Software	14 to 33%

Leasehold improvements are amortised on a straight line basis over the shorter of the useful lives or remaining terms of the lease.

Costs incurred in acquiring and building software and computer systems are capitalised as fixed assets and expensed as amortisation over periods of between 3 and 5 years except for the branch front end applications where 7 years is used. Costs incurred in planning or evaluating software proposals, or in maintaining systems after implementation, are not capitalised.

The carrying values of all non-current assets, including premises and equipment, have been assessed annually, and have not been found to be in excess of their recoverable amounts. Recoverable amounts are determined through a combination of comparisons with market values and cash flows. If the carrying value of a non-current asset exceeds its recoverable amount, the asset is written down to the lower value. Where assets working together as a group support the generation of cash flows, the recoverable amount is assessed in relation to the group of assets.

xv) Income tax

The Group adopts the liability method of tax effect accounting whereby income tax expense is calculated based on accounting profit adjusted for permanent differences. Permanent differences are items of revenue and expense which are recognised in the statement of financial performance but are not part of taxable income or vice versa.

Future tax benefits and deferred tax liabilities relating to timing differences and tax losses are carried forward at tax rates applicable to future periods. These future tax benefits are not brought to account unless realisation of the asset is assured beyond reasonable doubt. Future tax benefits relating to tax losses are only carried forward where realisation of the benefit is considered virtually certain.

Provision for Australian income tax is made where the earnings of overseas controlled entities are subjected to Australian tax under the attribution rules for the taxation of foreign sourced income.

Otherwise, no provision is made for overseas withholding tax or Australian income tax which may arise on repatriation of earnings from overseas controlled entities, where it is expected these earnings will be retained by those entities to finance their ongoing business.

For details of the impact of Tax Consolidation, refer note 6.

xvi) Employee entitlements

The amounts expected to be paid in respect of employees' entitlements to annual leave are accrued at expected salary rates including on-costs. Liability for long service leave is accrued in respect of all applicable employees at the present value of future amounts expected to be paid.

xvii) Provisions

Refer to note 27 for the accounting policies covering various provisions, excluding ELP which is detailed in note 1(viii) above.

xviii) Superannuation commitments

Contributions, which are determined on an actuarial basis, to superannuation schemes are charged to personnel expenses in the statement of financial performance.

Any aggregate deficiencies arising from the actuarial valuations of the Group's defined benefit schemes have been provided for in the financial statements, where a legal or constructive obligation exists.

The assets and liabilities of the schemes have not been consolidated as the Company does not have direct or indirect control of the schemes.

xix) Leasing

Leases entered into by the Group as lessee are predominantly operating leases, and the operating lease payments are included in the statement of financial performance in equal installments over the lease term.

xx) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from or payable to the ATO is included as an other asset or liability in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from or payable to the ATO are classified as operating cash flows.

xxi) Capitalised expenses

Direct external expenses related to the acquisition of interest earning assets, including structured institutional lending, mortgages and finance leases, are initially recognised as part of the cost of acquiring the asset and written-off as an adjustment to its expected yield over its expected life. For assets subject to prepayment, expected life is determined on the basis of the historical behaviour of the particular asset portfolio, taking into account contractual obligations and prepayment experience assessed on a regular basis. Impairment of capitalised expenses is assessed through comparing the actual behaviour of the portfolio against initial expected life assumptions.

(1) In addition, there is a notional goodwill amortisation charge of \$43 million (2004: \$41 million; 2003: \$44 million) included in the calculation of the share of income from the ING Australia joint venture

4: EQUITY INSTRUMENTS ISSUED TO EMPLOYEES

Under existing Australian Accounting Standards, equity instruments issued to employees are not required to be expensed. The impact of expensing options (1), and shares issued under the \$1,000 employee share plan, has been calculated and is disclosed below.

	2005 \$m	Consolidated 2004 \$m	2003 \$m
Net profit attributable to shareholders of the Company	3,018	2,815	2,348
Expenses attributable to:			
Options issued to Group Heads(1)	(5)	(8)	(8)
Options issued to general management(1)	(20)	(23)	(24)
Shares issued under \$1,000 employee share plan	(23)	(22)	(18)
Total	2,970	2,762	2,298

(1) Based on fair values estimated at grant date determined in accordance with the fair value measurement provisions of AASB 1046. Value of options are amortised on a straight-line basis over the vesting period.

It is Group policy that KPMG Australia or any of its related practices may provide assurance and other audit-related services that, while outside the scope of the statutory audit, are consistent with the role of auditor. These include regulatory and prudential reviews requested by the Company's regulators such as the Australian Prudential Regulation Authority. KPMG Australia or any of its related practices may not provide services that are perceived to be materially in conflict with the role of auditor. These include consulting advice and subcontracting of operational activities normally undertaken by management, and engagements where the auditor may ultimately be required to express an opinion on its own

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

work. However, non-audit services that are not perceived to be materially in conflict with the role of auditor may be provided by KPMG Australia or any of its related practices subject to the approval of the Audit Committee.

KPMG has confirmed to ANZ that it has policies in place on loans from audit clients that are in accordance with Rule 2-01 of Regulation S-X and that neither KPMG nor any covered person or immediate family member have any loans outstanding from the Company and its related parties, that are part of the audit client, that are not in compliance with that rule.

-
- (1) 2005 includes services in relation to the transition to Australian equivalents to International Financial Reporting Standards
 - (2) Includes services for the audit or review of financial information other than financial reports, including prudential supervision reviews for central banks, prospectus reviews, trust audits and other audits required for local statutory purposes
 - (3) 2004 includes due diligence oversight review of The National Bank of New Zealand and markets co-sourcing internal audit work which ceased in April 2004. 2003 includes assessing the Group's compliance with the requirements of the US Patriot Act.

Tax Consolidation

Legislation has been enacted to allow Australian resident entities to elect to consolidate and be treated as a single entity for Australian taxation purposes. The Company has elected for all Australian wholly owned subsidiaries, trusts and partnerships to be taxed as a single entity with effect from 1 October 2003.

(1) Following a change in accounting standards in 2003 dividends are no longer accrued and are recorded when declared. Final dividend of \$1,077 million for 2005 not included in above table

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

A final dividend of 59 cents, fully franked, is proposed to be paid on each fully paid ordinary share on 16 December 2005 (2004: final dividend of 54 cents, paid 17 December 2004, fully franked, 2003: final dividend of 51 cents, paid 19 December 2003, fully franked). The 2005 interim dividend of 51 cents, paid 1 July 2005, was fully franked (2004: interim dividend of 47 cents, paid 1 July 2004, fully franked, 2003: interim dividend of 44 cents, paid 1 July 2003, fully franked).

The tax rate applicable to the franking credits attached to the interim dividend and to be attached to the proposed final dividend is 30% (2004: 30%, 2003: 30%).

Preference dividends					
Trust Securities Issues		36	102		
ANZ Stapled Exchangeable Preferred Securities (ANZ StEPS)	66	62			
Euro Trust Securities	18				
Dividends on preference shares	84	98	102		

Trust Securities Issues (ANZ TrUEPrS)

In 1998 ANZ TrUEPrS issued 124,032,000 preference shares, raising USD 775 million via Trust Securities issues. The Trust Securities carried an entitlement to a distribution of 8% (USD 400 million) or 8.08% (USD 375 million). The amounts were payable quarterly in arrears. Payment dates were the fifteenth day of January, April, July and October in each year. The preference shares were bought back on 12 December 2003.

ANZ Stapled Exchangeable Preferred Securities (ANZ StEPS)

On 23 September 2003, the Group issued 10 million ANZ StEPS at \$100 each raising \$1 billion (\$987 million net of issue costs of \$13 million). ANZ StEPS comprise 2 fully paid securities - an interest paying unsecured note issued by a New Zealand subsidiary (ANZ Holdings (New Zealand) Limited) which is stapled to a fully paid preference share issued by the Company.

Distributions on ANZ StEPS are non-cumulative and are payable quarterly in arrears (on 15 March, 15 June, 15 September, 15 December of each year) based upon a floating distribution rate equal to the 90 day bank bill rate plus a 100 basis point margin. At each payment date the 90 day bank bill rate is reset for the next quarter. Dividends are not payable on the preference share while it is stapled to the note. If distributions are not paid on ANZ StEPS, the Company may not pay dividends or return capital on its ordinary shares or any other share capital or security ranking equal or below the preference share component.

Euro Trust Securities

On 13 December 2004, the Group issued 500,000 Euro Floating Rate Non-cumulative Trust Securities (Euro Trust Securities) at 1,000 each into the European market, raising 500 million (A\$871 million at the spot rate at the date of issue, net of issue costs). The Euro Trust Securities are similar in structure to ANZ StEPS and US Trust Security issuances, in that they comprise 2 fully paid securities - an interest paying unsecured note issued by a United Kingdom subsidiary (ANZ Jackson Funding PLC) stapled to a fully paid 1,000 preference share issued by the Company, which are stapled together and issued as a Euro Trust Security by ANZ Capital Trust III.

Distributions on Euro Trust Securities are non-cumulative and are payable quarterly in arrears (on 15 March, 15 June, 15 September, 15 December of each year) based upon a floating distribution rate equal to 3 month EURIBOR rate plus a 66 basis point margin. At each payment date the 3 month EURIBOR rate is reset for the next quarter. Dividends are not payable on the preference share while it is stapled to the note. If distributions are not paid on Euro Trust Securities, the Company may not pay dividends or return capital on its ordinary shares or any other share capital or security ranking equal or below the preference share component.

Dividend Franking Account

The amount of franking credits available to the Company for the subsequent financial year is \$78 million (2004: \$111 million and 2003: nil), after adjusting for franking credits that will arise from the payment of tax on Australian profits for the 2005 financial year, \$462 million of franking credits which will be utilised in franking the proposed final dividend and franking credits that may not be accessible by the Company at

present.

Restrictions which Limit the Payment of Dividends

There are presently no significant restrictions on the payment of dividends from controlled entities to the Company. Various capital adequacy, liquidity, statutory reserve and other prudential requirements must be observed by certain controlled entities and the impact on these requirements caused by the payment of cash dividends is monitored.

Payments of dividends from overseas controlled entities may attract withholding taxes which have not been provided for in these financial statements.

There are presently no restrictions on payment of dividends by the Company. Reductions of shareholders' equity through payment of cash dividends is monitored having regard to the regulatory requirements to maintain a specified capital adequacy ratio. In particular, the Australian Prudential Regulation Authority has advised Australian banks that a bank under its supervision must consult with it before declaring a coupon payment on a Tier 1 instrument, including a dividend if the bank has incurred a loss, or proposes to pay coupon payments on Tier 1 instruments (including dividends), which exceed the level of current year profits.

Dividend Reinvestment Plan

During the year, 3,900,116 ordinary shares were issued at \$19.95 per share, and 3,406,775 ordinary shares at \$21.85 per share, under the Dividend Reinvestment Plan (2004: 3,909,659 ordinary shares at \$16.61 per share, and 3,906,171 ordinary shares at \$17.84 per share)

Bonus Option Plan

Dividends paid during the year have been reduced by way of certain shareholders participating in the Bonus Option Plan and forgoing all or part of their right to dividends in return for the receipt of bonus shares.

During the year, 1,749,584 ordinary shares were issued under the Bonus Option Plan (2004: 1,771,864 ordinary shares).

	Declared dividend \$m	Bonus options exercised \$m	Amount paid \$m
Final dividend 2004	983	(19)	964
Interim dividend 2005	930	(17)	913
	1,913	(36)	1,877

8: EARNINGS PER ORDINARY SHARE

ACQUISITIONS OF CONTROLLED ENTITIES

There were no material controlled entities acquired during the year ended 30 September 2005.

During the year ended 30 September 2004 the following material controlled entities were acquired:

On 1 December 2003, the Company acquired NBNZ Holdings Ltd and its controlled entities (NBNZ). Details of the acquisition are disclosed in note 41. The operating results of these acquired entities have been included in consolidated operating profit since acquisition.

A restructuring provision of \$25 million was established for restructuring the operations of the acquired entities. A balance of \$12 million remains in the provision at 30 September 2005. On 26 June 2004, NBNZ was amalgamated into ANZ Banking Group (New Zealand) Limited. ANZ Banking Group (New Zealand) Limited changed its name to ANZ National Bank Limited on 28 June 2004.

DISPOSALS OF CONTROLLED ENTITIES

In September 2005 ANZ National Bank Limited entered into a joint venture with ING Insurance International Limited (INGII). The joint venture, ING (NZ) Holdings Ltd (INGNZ), is 49% owned by ANZ National Bank Ltd and 51% owned by INGII.

On 30 September 2005:

ANZ National Bank Limited and INGII invested NZD163 million and NZD170 million respectively into INGNZ.

ANZ National Bank Limited sold NBNZ Life Insurance Limited and NBNZ Investment Services Limited to INGNZ for NZD158 million resulting in the following impact on the Group's financial statements:

reduction in unamortised goodwill of NZD114 million;

recognition of approximately NZD16 million (\$14 million) profit on sale of 51% of the NBNZ Life and Funds Management businesses;

an investment in INGNZ of NZD145 million (being initial investment adjusted for unrecognised profit on ANZ National Bank's; and 49% share of the profit on sale of the NBNZ Life and Funds Management businesses joint venture and costs).

INGNZ acquired at market value the New Zealand-based businesses previously owned by INGA. The profit on sale of the New Zealand-based businesses of approximately \$40 million is recognised in INGA, however, ANZ's share of this profit is eliminated on consolidation.

There were no material controlled entities disposed of during the year ended 30 September 2004.

19: DEFERRED TAX ASSETS

	Consolidated		The Company	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m
Future income tax assets comprises				
General provision for doubtful debts	719	650	505	442
Other provisions	335	340	218	238
Other	283	464	31	57
Total deferred tax assets	1,337	1,454	754	737
Future income tax assets				
Australia	862	959	674	636
Overseas	475	495	80	101
Total deferred tax assets	1,337	1,454	754	737

Certain potential future income tax assets within the Group have not been recognised as assets because recovery cannot be regarded as virtually certain. These potential benefits arise from tax losses and timing differences (benefits could amount to \$23 million, 2004: nil), and from realised capital losses (benefits could amount to \$66 million, 2004: \$67 million).

These benefits will only be obtained if:

- i) the relevant entities derive future assessable income of a nature and amount sufficient to enable the benefit of the taxation deductions to be realised;
- ii) the relevant entities continue to comply with the conditions for deductibility imposed by law; and
- iii) there are no changes in taxation legislation adversely affecting the benefit of the taxation deductions.

20: GOODWILL

	Consolidated		The Company	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m
Goodwill at cost	3,298	3,509	123	123
Accumulated amortisation	(400)	(240)	(57)	(49)
Total goodwill(1)	2,898	3,269	66	74

(1) Excludes notional goodwill related to the ING Australia joint venture of \$711 million (September 2004: \$754 million) and the ING New Zealand joint venture of \$82 million (September 2004: nil)

21: OTHER ASSETS

	Consolidated		The Company	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m

	381	430	349	375
Capital works in progress				
At cost	56	35	27	21
Total premises and equipment	1,441	1,532	849	826

(1) In accordance with AASB 1041 this represents deemed cost

From 1 October 2000 as allowed by AASB 1041 Revaluation of Non-Current Assets the Group elected to revert to the cost basis for measuring the class of assets land and buildings .

As all properties are carried at deemed cost subject to individually meeting a recoverable amount test, valuations are carried out on all properties with a carrying value in excess of \$2 million every three years. Properties carrying values are not increased to market values if valuations exceed carrying amounts. However, if the valuation of an individual property is determined to be less than its carrying amount, it will be written down to the lower amount, where considered appropriate.

The properties are subject to external valuation by independent valuers. Valuations are based on the estimated open market value and assume that the properties concerned continue to be used in their existing manner by the Group.

The last independent valuation of the Group s freehold land and buildings was carried out for 30 September 2002 purposes. For 30 September 2005, the valuations were carried out by Jones Lang La Salle Advisory for Australia. New Zealand property values were assessed based on valuations by Telfer Young. This resulted in a valuation of \$466 million and \$25 million for the Group and Company respectively

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

(excludes leasehold land and buildings). As land and buildings are recorded at deemed cost, the valuation was not brought to account.

Further, a recoverable amount review of all properties at 30 September 2005 was completed. This involved properties being reviewed for the existence of impairment indicators that might provide evidence that the property's recoverable amount exceeded its carrying value (also using the independent valuations performed), and hence a writedown being required.

As a result of this review, some properties were identified as impaired and a loss of \$3m was recorded (2004: \$2 million).

Group accounting policy covering the amortisation of software costs capitalised is detailed in note 1(xiv). As at 30 September 2005 the weighted average amortization period is 5 years.

Reconciliations of the carrying amounts for each class of premises and equipment are set out below:

	Consolidated		The Company	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m

Other liabilities	645	468	114	365
	2,503	4,287	(401)	811
Total payables and other liabilities	11,607	14,212	8,790	10,890

- (1) Overseas Treasury instruments revaluations includes cash collateral paid under credit support agreements in ANZ's London branch, an offsetting mark to market loss is recorded in Australia

27: PROVISIONS

	Consolidated		The Company	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m
Employee entitlements(1)	360	333	260	248
Restructuring costs and surplus leased space	77	106	57	66
Non-lending losses, frauds and forgeries	184	171	136	125
Other	293	235	197	179
Total provisions	914	845	650	618

- (1) The aggregate liability for employee benefits largely comprise employee entitlements provisions plus liability for payroll tax and fringe benefits tax. The aggregate liability as at 30 September 2005 was \$468 million for the Group and \$288 million for the Company (30 September 2004: was \$456 million for the Group and \$284 million for the Company)

Reconciliations of the carrying amounts of each class of provisions, except for employee entitlements, are set out below:

	Consolidated		The Company	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m
Restructuring costs and surplus leased space(1)				
Carrying amount at beginning of the year	106	92	66	68
Acquisition provision (NBNZ)		27		
Provision made during the year	57	69	52	63
Payments made during the year	(47)	(68)	(34)	(50)
Release of provisions	(38)	(15)	(27)	(15)
Adjustment for exchange rate fluctuations	(1)	1		
Carrying amount at the end of the year	77	106	57	66
Non-lending losses frauds and forgeries(2)				
Carrying amount at beginning of the year	171	164	125	128
Provision made during the year	37	18	23	4
Payments made during the year	(8)	(7)	(2)	(3)
Release of provisions	(16)	(4)	(10)	(4)
Carrying amount at the end of the year	184	171	136	125
Other provisions(3)				
Carrying amount at beginning of the year	235	244	179	181
Provision made during the year	222	209	142	165
Payments made during the year	(132)	(173)	(93)	(127)
Release of provisions	(31)	(46)	(31)	(40)
Adjustment for exchange rate fluctuations	(1)	1		
Carrying amount at the end of the year	293	235	197	179

- (1) Restructuring costs and surplus leased space provisions arise from exit activities related to material changes in the scope of business undertaken by the Group or the manner in which that business is undertaken, and includes termination benefits. Costs related to on-going activities are not provided for. Provision is made when the Group is demonstrably committed, it is probable that the costs will be incurred, though its timing is uncertain, and the costs can be reliably estimated
- (2) Non-lending losses, frauds and forgeries provisions arise from inadequate or failed internal processes and systems, or from external events
- (3) Other provisions comprise various other provisions including fringe benefits tax, fleet maintenance, workers compensation and other non-employee entitlement provisions

(1) Callable five years prior to maturity

- (2) Callable five years prior to maturity and reverts to floating rate notes

Loan capital is subordinated in right of payment to the claims of depositors and all other creditors of the Company and its controlled entities which have issued the notes. The loan capital, except for the US Trust Security Issue, constitutes tier 2 capital as defined by the Australian Prudential Regulation Authority (APRA) for capital adequacy purposes. The US Trust Security Issue constitutes tier 1 capital, as defined by APRA, for capital adequacy purposes

US TRUST SECURITIES

On 27 November 2003, the Company issued 1.1 million USD non-cumulative Trust Securities (US Trust Securities) at USD1000 each pursuant to offering memorandum dated 19 November 2003 raising USD1.1 billion. US Trust Securities comprise two fully paid securities – an interest paying unsecured note (issued by Samson Funding Limited, a wholly owned NZ subsidiary of the Company) and a fully paid USD1,000 preference share (issued by the Company), which are stapled together and issued as a US Trust Security by ANZ Capital Trust I or ANZ Capital Trust II (the Trusts). Investors have the option to redeem the US Trust Security from the Trusts and hold the underlying stapled security.

The issue was made in two tranches:

USD350 million tranche with a coupon of 4.484% and was issued through ANZ Capital Trust I. After 15 January 2010 and at any coupon date thereafter, ANZ has the discretion to redeem the US Trust Security for cash. If it does not exercise this discretion, the investor is entitled to require ANZ to exchange the US Trust Security into a number of ordinary shares based on the formula in the offering memorandum.

USD750 million tranche with a coupon of 5.36% and was issued through ANZ Capital Trust II. It has the same conversion features as the USD350 million tranche but from 15 December 2013.

Distributions on US Trust Securities are non-cumulative and are payable half yearly in arrears and are funded by payments received by the respective Trusts on the underlying note. Distributions are subject to certain payment tests (eg. APRA requirements and distributable profits being available). Distributions are expected to be payable on 15 June and 15 December of each year. Dividends are not payable on the preference share while it is stapled to the note. If distributions are not paid on the US Trust Securities, the Company may not pay dividends or return capital on its ordinary shares or any other share capital or security ranking equal or junior to the preference share component.

At any time in the Company's discretion or upon the occurrence of certain other conversion events, such as the failure of the respective Trust to pay in full a distribution within seven business days of the relevant distribution payment date, the notes that are represented by the relevant US Trust Securities will be automatically assigned to a subsidiary of the Company and the preference shares that are represented by the relevant US Trust Securities will be distributed to investor in redemption of such US Trust Securities. The distributed preference shares will immediately become dividend paying and holders will receive non-cumulative dividends equivalent to the scheduled payments in respect of the US Trust Securities for which the preference shares were distributed. If the US Trust Securities are not redeemed or bought back prior to the 15 December 2053, they will be converted into preference shares, which in turn will be mandatorily convert into a number of ordinary shares based upon the formula in the offering memorandum.

The preference shares forming part of the US Trust Securities rank equal to the preference shares issued in connection with the ANZ StEPS and Euro Trust Securities in all respects. Except in limited circumstances, holders of US Trust Securities do not have any right to vote in general meetings of the company.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

On winding up of the Company, the rights of US Trust Security holders will be determined by the preference share component of US Trust Security. These preference shares rank behind all depositors and creditors, but ahead of ordinary shareholders.

The US Trust Securities qualify as Tier 1 capital as defined by the Australian Prudential Regulation Authority, however, the US Trust Securities are reported as debt under Australian, International and US Accounting Standards with the coupon payment classified as interest expense.

30: SHARE CAPITAL

Number of issued shares	2005	The Company 2004	2003
Ordinary shares each fully paid	1,826,449,480	1,818,401,807	1,521,686,560
Preference shares each fully paid	10,500,000	10,000,000	134,032,000
Total number of issued shares	1,836,949,480	1,828,401,807	1,655,718,560

ORDINARY SHARES

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

For a reconciliation of the movement in ordinary share capital refer to Statement of Changes in Shareholders' Equity on page 4

PREFERENCE SHARES**a) Trust Securities Issues (ANZ TrUEPrS)**

ANZ TrUEPrS were 124,032,000 fully paid non-converting non-cumulative preference shares issued for USD6.25 per share via Trust Securities Issues in 1998.

The Trust Securities were mandatorily exchangeable for the preference shares issued by the Company, and carried an entitlement to a non-cumulative trust distribution of 8.00% or 8.08% per annum payable quarterly in arrears. The Trust Securities were issued by a non-diversified closed end management investment company registered under the US Investment Company Act of 1940. The preference shares themselves carried no present entitlement to dividends. Distributions to investors in the Trust Securities were funded by income distributions made by the Group.

Upon maturity of the Trust Securities in 2048, investors would have mandatorily exchanged the Trust Securities for the preference shares and thereupon the preference shares would have carried an entitlement to non-cumulative dividends of 8.00% or 8.08% per annum payable quarterly in arrears. The mandatory exchange of the Trust Securities for the preference shares could have occurred earlier at the Company's option or in specified circumstances.

With the prior consent of the Australian Prudential Regulation Authority, the preference shares were redeemable at the Company's option after 5 years, or within 5 years in limited circumstances. The entitlement of investors to distributions on the Trust Securities would have ceased on redemption of the preference shares.

The transaction costs arising on the issue of these instruments were recognised directly in equity as a reduction of the proceeds of the equity instruments to which the costs related.

On 12 December 2003, the Group bought back its 124,032,000 preference shares issued via Trust Securities Issues for \$1,045 million.

b) ANZ Stapled Exchangeable Preferred Securities (ANZ StEPS)

On 23 September 2003, the Company issued 10 million ANZ StEPS at \$100 each pursuant to a prospectus dated 14 August 2003 raising \$1 billion (excluding issue costs of \$13 million; net raising \$987 million). ANZ StEPS comprise two fully paid securities - an interest paying unsecured note (issued by ANZ Holdings (New Zealand) Limited, a New Zealand subsidiary of the Company) stapled to a fully paid \$100 preference share (issued by the Company).

Distributions on ANZ StEPS are non-cumulative and are payable quarterly in arrears based upon a floating distribution rate equal to the 90 day bank bill rate plus a 100 basis point margin. At each payment date the 90 day bank bill rate is reset for the next quarter. Distributions are subject to certain payment tests (ie APRA requirements and distributable profits being available) and the basis for their calculation may change on any reset date. Distributions are expected to be payable on 15 March, 15 June, 15 September and 15 December of each year. Dividends are not payable on the preference share while it is stapled to the note. If distributions are not paid on ANZ StEPS, the Company may not pay dividends or return capital on its ordinary shares or any other share capital or security ranking equal or junior to the preference share component.

On any reset date, ANZ may change certain terms (subject to certain restrictions) including the next reset date, market reset (from floating rate to a fixed rate, or vice versa), margin and the frequency and timing of the distribution payment dates. The first reset date is 15 September 2008. Holders of ANZ StEPS can require exchange on any reset date or earlier if certain specified events occur. On exchange, a holder will receive (at the Company's discretion) either \$100 cash for each ANZ StEPS exchanged or a number of ordinary shares calculated in accordance with a conversion ratio based on \$100 divided by the market price of ordinary shares at the date of conversion less 2.5%. In certain circumstances, the Company may also require exchange other than on a reset date.

Upon the occurrence of an assignment event, ANZ StEPS become unstapled. In this case, the note will be assigned to a subsidiary of the company, however, the holder will retain the preference share and the rights to exchange the preference share.

The preference shares forming part of ANZ StEPS rank equally with the preference shares issued in connection with US Trust Securities and Euro Trust Securities in all respects. Except in

certain limited circumstances, holders of ANZ StEPS do not have any right to vote in general meetings of the Company.

On a winding up of the Company, the rights of ANZ StEPS holders will be determined by the preference share component of ANZ StEPS. Those preference shares rank behind all depositors and creditors, but ahead of ordinary shareholders.

The transactions costs arising on the issue of these instruments were recognised directly in equity as a reduction of the proceeds of the equity instruments to which the costs relate.

c) Euro Trust Securities

On 13 December 2004, the Company issued 500,000 Euro Floating Rate Non-cumulative Trust Securities (Euro Trust Securities) at 1000 each pursuant to the offering circular dated 9 December 2004, raising \$871 million (at the spot rate at the date of issue, net of issue costs). Euro Trust Securities comprise two fully paid securities – an interest paying unsecured note (issued by ANZ Jackson Funding PLC, a United Kingdom subsidiary of the Company) and a fully paid, 1000 preference share (issued by the Company), which are stapled together and issued as a Euro Trust Security by ANZ Capital Trust III (the Trust). Investors have the option to redeem the Euro Trust Security from the Trust and hold the underlying stapled security.

Distributions on Euro Trust Securities are non-cumulative and are payable quarterly in arrears and are funded by payments received by the Trust on the underlying note and or preference share. The distribution is based upon a floating distribution rate equal to the 3 month EURIBOR rate plus a 66 basis point margin up until 15 December 2014, after which date the distribution rate is the 3 month EURIBOR rate plus a 166 basis point margin. At each payment date the 3 month EURIBOR rate is reset for the next quarter. Distributions are subject to certain payment tests (eg APRA requirements and distributable profits being available). Distributions are expected to be payable on 15 March, 15 June, 15 September and 15 December of each year. Dividends are not payable on the preference shares while they are stapled to the note, except for the period after 15 December 2014 when the preference share will pay 100bpts to fund the increase in the margin. If distributions are not paid on Euro Trust Securities, the Company may not pay dividends or return capital on its ordinary shares or any other share capital or security ranking equal or junior to the preference share component.

At any time at ANZ's discretion or upon the occurrence of certain other conversion events, such as the failure of the Trust to pay in full a distribution within seven business days of the relevant distribution payment date or the business day prior to 15 December, 2053, the notes that are represented by the relevant Euro Trust Securities will be automatically assigned to a Branch of the Company and the preference shares that are represented by the relevant Euro Trust Securities will be distributed to investor in redemption of such Euro Trust Securities. The distributed preference shares will immediately become dividend paying and holders will receive non-cumulative dividends equivalent to the scheduled payments in respect of the Euro Trust Securities for which the preference shares were distributed.

The preference shares forming part of the Euro Trust Security rank equal to the preference shares issued in connection with the ANZ StEPS and US Trust Securities in all respects. Except in limited circumstances, holders of Euro Trust Securities do not have any right to vote in general meetings of the company.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

On winding up of the Company, the rights of Euro Trust Security holders will be determined by the preference share component of the Euro Trust Security. These preference shares rank behind all depositors and creditors, but ahead of ordinary shareholders.

The transaction costs arising on the issue of these instruments were recognised directly in equity as a reduction to the proceeds of the equity instruments to which the costs relate.

32: CAPITAL ADEQUACY

The Australian Prudential Regulation Authority (APRA) adopts a risk-based capital assessment framework for Australian banks based on internationally accepted capital measurement standards. This risk-based approach requires eligible capital to be divided by total risk weighted assets, with the resultant ratio being used as a measure of a bank's capital adequacy.

Capital is divided into tier 1, or core capital, and tier 2, or supplementary capital. For capital adequacy purposes, eligible tier 2 capital cannot exceed the level of tier 1 capital. Banks are required to deduct from total capital any strategic holdings of other banks' capital instruments and investments in entities engaged in life insurance, funds management and securitisation activities. Under APRA guidelines, banks must maintain a ratio of qualifying capital to risk weighted assets of at least 8 per cent.

The measurement of risk weighted assets is based on: a) a credit risk-based approach wherein risk weightings are applied to statement of financial position assets and to credit converted off balance sheet exposures. Categories of risk weights are assigned based upon the nature of the counterparty and the relative liquidity of the assets concerned; and b) the recognition of risk weighted assets attributable to market risk arising from trading and commodity positions. Trading and commodity balance sheet positions do not attract a risk weighting under the credit risk-based approach.

33: AVERAGE BALANCE SHEET AND RELATED INTEREST

Averages used in the following table are predominantly daily averages. Interest income figures are presented on a tax-equivalent basis. Non-accrual loans are included under the interest earning asset category Loans, advances and bills discounted. Intragroup interest earning assets and interest bearing liabilities are treated as external assets and liabilities for the geographic segments.

35: MARKET RISK

Market risk is the risk to earnings arising from changes in interest rates, currency exchange rates, or from fluctuations in bond, commodity or equity prices.

The Board of Directors through the Risk Management Committee, a Committee of the Board, has responsibility for oversight of market risk within the Group. Routine management of market risk is delegated to two senior management committees. The Credit and Trading Risk Committee, chaired by the Chief Risk Officer, is responsible for traded market risk, while the Group Asset and Liability Committee, chaired by the Chief Financial Officer, is responsible for non-traded market risk (or balance sheet risk).

The Credit and Trading Risk Committee monitors traded market risk exposures (including Value at Risk and Stress Testing) and is responsible for authorising the trading risk limit framework. The Group Asset and Liability Committee reviews balance sheet based risk measures and strategies on a monthly basis.

The Value at Risk (VaR) Measure

A key measure of market risk is Value at Risk (VaR). VaR is a statistical estimate of the likely daily loss and is based on historical market movements.

The confidence level is such that there is 97.5% or 99% probability that the loss will not exceed the VaR estimate on any given day. The 99% confidence level encompasses a wider range of potential outcomes.

The Group's standard VaR approach for both traded and non-traded risk is historical simulation. The Group calculates VaR using historical changes in market rates and prices over the previous 500 business days.

It should be noted that because VaR is driven by actual historical observations, and as such is not an estimate of the maximum loss that the Group could experience from an extreme market event. As a result of this limitation, the Group utilises a number of other risk measures (eg. stress testing) and associated detailed control limits to measure and manage traded market risk.

Traded and non-traded market risks have been considered separately below.

Traded Market Risks

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Trading activities are focused on customer trading, distribution and underwriting of a range of securities and derivative instruments. The principal activities include foreign exchange, interest rate and debt markets. These activities are managed on a global product basis.

Below are aggregate VaR exposures covering both derivative and non-derivative trading positions for the Group's principal trading centres.

	As at Sep 05 \$m	High for period Sep 05 \$m	Low for period Sep 05 \$m	Average for period Sep 05 \$m	As at Sep 04 \$m	High for period Sep 04 \$m	Low for period Sep 04 \$m	Average period Sep 04 \$m
Value at risk at 97.5% confidence								
Foreign exchange	0.8	1.7	0.3	0.8	0.5	1.9	0.3	0.7
Interest rate	1.3	2.2	0.2	0.9	1.0	1.6	0.2	0.6
Credit spread	0.8	1.5	0.2	0.8	0.5	1.0	0.3	0.6
Diversification benefit	(1.2)	n/a	n/a	(0.9)	(0.7)	n/a	n/a	(0.5)
Total VaR	1.7	3.0	0.8	1.6	1.3	2.5	0.8	1.4
Value at risk at 99% confidence								
Foreign exchange	0.9	2.1	0.4	1.1	0.9	2.8	0.4	1.0
Interest rate	1.7	2.8	0.2	1.2	0.8	2.0	0.1	0.7
Credit spread	1.4	2.4	0.4	1.2	1.0	1.5	0.5	0.8
Diversification benefit	(1.8)	n/a	n/a	(1.3)	(0.9)	n/a	n/a	(0.6)
Total VaR	2.2	4.0	1.0	2.2	1.8	3.4	1.0	1.9

VaR is calculated separately for Foreign Exchange/Commodities and for Interest Rate/Debt Markets businesses as well as Total Group. The diversification benefit reflects the correlation implied by historical rates between Foreign Exchange/Commodities and Interest Rate/Debt Markets.

Non-Traded Market Risks (Balance Sheet Risk)

The principal objectives of balance sheet management are to manage interest income sensitivity while maintaining acceptable levels of interest rate and liquidity risk and to hedge the market value of the Group's capital.

Interest Rate Risk

The objective of balance sheet interest rate risk management is to secure stable and optimal net interest income over both the short (next 12 months) and long term. Non-traded interest rate risk relates to the potential adverse impact of changes in market interest rates on the Group's future net interest income. This risk arises from two principal sources: mismatches between the repricing dates of interest bearing assets and liabilities; and the investment of capital and other non-interest bearing liabilities in interest bearing assets. Interest rate risk is reported as follows using three measures: VaR, scenario analysis (to a 1% shock) and disclosure of the interest rate sensitivity gap (refer note 36).

a) VaR Interest Rate Risk

Below are aggregate VaR figures covering non-traded interest rate risk.

	As at Sep 05 \$m	High for period Sep 05 \$m	Low for period Sep 05 \$m	Average for period Sep 05 \$m	As at Sep 04 \$m	High for period Sep 04 \$m
Value at risk at 97.5% confidence						
Group	14.2	24.0	13.7	18.1	21.0	37.2

b) Scenario Analysis - A 1% Shock on the Next 12 Months Net Interest Income

A 1% overnight parallel positive shift in the yield curve is modelled to determine the potential impact on net interest income over the immediate forward period of 12 months. This is a standard risk quantification tool.

The figures in the table below indicate the outcome of this risk measure for the current and previous financial years - expressed as a percentage of reported net interest income. The sign indicates the nature of the rate sensitivity with a positive number signifying that a rate increase is positive for net interest income over the next 12 months. Conversely, a negative number signifies that a rate increase is negative for the next 12 months net interest income.

	Consolidated	
	2005	2004

Impact of 1% Rate Shock

As at 30 September	1.73%	1.48%
Maximum exposure	1.87%	1.53%
Minimum exposure	0.25%	(0.07)%
Average exposure (in absolute terms)	1.21%	0.71%

The extent of mismatching between the repricing characteristics and timing of interest bearing assets and liabilities at any point has implications for future net interest income. On a global basis, the Group quantifies the potential variation in future net interest income as a result of these repricing mismatches each month using a static gap model.

The repricing gaps themselves are constructed based on contractual repricing information. However, for those assets and liabilities where the contractual term to repricing is not considered to be reflective of the actual interest rate sensitivity (for example, products priced at the Group's discretion), a profile based on historically observed and/or anticipated rate sensitivity is used. This treatment excludes the effect of basis risk between customer pricing and wholesale market pricing. For example, when wholesale market rates are anticipating an official rate increase the Group does not reprice certain customer business until the first repricing date after the official rate rise.

The majority of the Group's non-traded interest exposure exists in Australia and New Zealand. In these centres, a separate balance sheet simulation process supplements this static gap information. This allows the net interest income outcomes of a number of different scenarios - with different market interest rate environments and future balance sheet structures - to be identified. This better enables the Group to accurately quantify the interest rate risks associated with the balance sheet, and to formulate strategies to manage current and future risk profiles.

Foreign Currency Related Risks

The Group's investment of capital in non-Australian operations generates an exposure to changes in the relative value of individual currencies against the Australian Dollar. Variations in the value of these foreign currency investments are reflected in the Foreign Currency Translation Reserve.

The Group incurs some non-traded foreign currency risk related to the potential repatriation of profits from non-Australian business units. This risk is routinely monitored and hedging is conducted where it is likely to add shareholder value. NZD revenue related hedge contracts outstanding at 30 September 2005 were AUD 3,957 million.

The risk relating to mismatching of non-traded foreign currency assets and liabilities has not been presented, as this type of risk is minimal for the Group.

36: INTEREST SENSITIVITY GAP

The following table represents the interest rate sensitivity as at 30 September 2005 of the Group's assets, liabilities and off balance sheet instruments repricing (that is, when interest rates applicable to each asset or liability can be changed) in the periods shown.

Repricing gaps are based upon contractual repricing information except where the contractual terms are not considered to be reflective of actual interest rate sensitivity, for example, those assets and liabilities priced at the Group's discretion. In such cases, the rate sensitivity is based upon historically observed and/or anticipated rate sensitivity.

Sensitivity to interest rates arises from mismatches in the period to repricing of assets and that of the corresponding liability funding. These mismatches are managed within policy guidelines for mismatch positions.

At 30 September 2005	Less than 3 months \$m	Between 3 months and 6 months \$m	Between 6 months and 12 months \$m	Between 1 year and 5 years \$m	After 5 years \$m	Not bearing interest \$m	Total \$m

cumulative	11,469	14,025	15,015	27,903	28,409		

The bulk of the Group's loan/deposit business is conducted in the domestic balance sheets of Australia and New Zealand and is priced on a floating rate basis. The mix of repricing maturities in these books is influenced by the underlying financial needs of customers.

Offshore operations, which are generally wholesale in nature, are able to minimise interest rate sensitivity through closely matching the maturity of loans and deposits. Given both the size and nature of their business, the interest rate sensitivities of these balance sheets contribute little to the aggregate risk exposure, which is primarily a reflection of the positions in Australia and New Zealand.

In Australia and New Zealand, a combination of pricing initiatives and off-balance sheet instruments is used in the management of interest rate risk. For example, where a strong medium to long term rate view is held, hedging and pricing strategies are used to modify the profile's rate sensitivity so that it is positioned to take advantage of the expected movement in interest rates. However, such positions are taken within the overall risk limits specified by policy.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The following table represents the interest rate sensitivity as at 30 September 2004 of the Group's assets, liabilities and off balance sheet instruments repricing (that is, when interest rates applicable to each asset or liability can be changed) in the periods shown.

At 30 September 2004	Less than 3 months \$m	Between 3 months and 6 months \$m	Between 6 months and 12 months \$m	Between 1 year and 5 years \$m	After 5 years \$m	Not bearing interest \$m	Total \$m

37: NET FAIR VALUE OF FINANCIAL INSTRUMENTS

Australian Accounting Standard AASB 1033: Presentation and Disclosure of Financial Instruments (AASB 1033) requires disclosure of the net fair value of on and off balance sheet financial instruments. The disclosures exclude all non-financial instruments, such as income taxes and regulatory deposits, and specified financial instruments, such as interests in controlled entities. The aggregate net fair value amounts do not represent the underlying value of the Group.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Net fair value is the fair value adjusted for transaction costs.

Quoted market prices, where available, are adjusted for material transaction costs and used as the measure of net fair value. In cases where quoted market values are not available, net fair values are based on present value estimates or other valuation techniques. For the majority of short-term financial instruments, defined as those which reprice or mature in 90 days or less, with no significant change in credit risk, the net fair value was assumed to equate to the carrying amount in the Group's statement of financial position.

The fair values are based on relevant information available as at 30 September 2005. While judgement is used in obtaining the net fair value of financial instruments, there are inherent weaknesses in any estimation technique. Many of the estimates involve uncertainties and matters of significant judgement, and changes in underlying assumptions could significantly affect these estimates. Furthermore, market prices or rates of discount are not available for many of the financial instruments valued and surrogates have been used which may not reflect the price that would apply in an actual sale.

The net fair value amounts have not been updated for the purposes of these financial statements since 30 September 2005, and therefore the net fair value of the financial instruments subsequent to 30 September 2005 may be different from the amounts reported.

Financial Assets	Net fair value		Carrying value	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m
Liquid assets	11,600	6,363	11,600	6,363
Due from other financial institutions	6,348	4,781	6,348	4,781
Trading securities	6,285	5,478	6,285	5,478
Investment securities, shares in associates and joint venture entities	9,252	9,878	8,813	9,706
Loans and advances	232,724	206,788	230,952	204,962
Customer's liabilities for acceptances	13,449	12,466	13,449	12,466
Other financial assets	9,866	9,458	9,751	9,088

LIQUID ASSETS AND DUE FROM OTHER FINANCIAL INSTITUTIONS

The carrying values of these financial instruments are considered to approximate their net fair values as they are short-term in nature or are receivable on demand.

TRADING SECURITIES

Trading securities are carried at market value. Market value is generally based on quoted market prices, broker or dealer price quotations, or prices for securities with similar credit risk, maturity and yield characteristics.

INVESTMENT SECURITIES

Net fair value is based on quoted market prices or broker or dealer price quotations. If this information is not available, net fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

SHARES IN ASSOCIATES AND JOINT VENTURE ENTITIES

Net fair value is based on quoted market prices or broker or dealer price quotations. If this information is not available, net fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics, independent valuation, or by reference to the net tangible asset backing of the investee.

LOANS, ADVANCES AND CUSTOMERS LIABILITIES FOR ACCEPTANCES

The carrying value of loans, advances and acceptances is net of specific and general provisions for doubtful debts and income yet to mature. The estimated net fair value of loans, advances and acceptances is based on the discounted amount of estimated future cash flows and accordingly has not been adjusted for either specific or general provisions for doubtful debts.

Estimated contractual cash flows for performing loans are discounted at estimated current bank credit spreads to determine fair value. For loans with doubt as to collection, expected cash flows (inclusive of the value of security) are discounted using a rate which includes a premium for the uncertainty of the flows.

The difference between estimated net fair values of loans, advances and acceptances and carrying value reflects changes in interest rates and the credit worthiness of borrowers since loan origination.

Net lease receivables, with a carrying value of \$3,523 million (2004: \$3,079 million) and a net fair value of \$3,523 million (2004: \$3,080 million), are included in loans and advances.

OTHER FINANCIAL ASSETS

Included in this category are accrued interest, fees receivable and derivative financial instruments. The carrying values of accrued interest and fees receivable are considered to approximate their net fair values as they are short term in nature or are receivable on demand.

The fair values of derivative financial instruments such as interest rate swaps and currency swaps were calculated using discounted cash flow models based on current market yields for similar types of instruments and the maturity of each instrument. Foreign exchange contracts and interest rate option contracts were valued using market prices and option valuation models as appropriate.

Properties held for resale, deferred tax assets and prepaid expenses are not considered financial assets.

Financial Liabilities	Net fair value		Carrying value	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m
Due to other financial institutions	12,027	7,349	12,027	7,349
Deposits and other borrowings	185,645	168,542	185,693	168,557
Liability for acceptances	13,449	12,466	13,449	12,466
Bonds and notes	39,137	27,747	39,073	27,602
Loan capital	9,215	8,540	9,137	8,475
Other financial liabilities	10,939	13,665	10,921	13,525

DUE TO OTHER FINANCIAL INSTITUTIONS

The carrying value of amounts due to other financial institutions is considered to approximate the net fair value.

DEPOSITS AND OTHER BORROWINGS

The net fair value of a deposit liability without a specified maturity or at call is deemed by AASB 1033 to be the amount payable on demand at the reporting date. The fair value is not adjusted for any value expected to be derived from retaining the deposit for a future period of time.

For interest bearing fixed maturity deposits and other borrowings and acceptances without quoted market prices, market borrowing rates of interest for debt with a similar maturity are used to discount contractual cash flows.

BONDS AND NOTES AND LOAN CAPITAL

The aggregate net fair value of bonds and notes and loan capital at 30 September 2005 was calculated based on quoted market prices. For those debt issues where quoted market prices were not available, a discounted cash flow model using a yield curve appropriate for the remaining term to maturity of the instrument was used.

OTHER FINANCIAL LIABILITIES

This category includes accrued interest and fees payable for which the carrying amount is considered to approximate the fair value. Also included are derivative financial instruments, where fair value is determined on the basis described under Other financial assets .

Income tax liabilities, other provisions and accrued charges are not considered financial liabilities.

COMMITMENTS AND CONTINGENCIES

As outlined in note 47, the Group has various credit related commitments. Based upon the level of fees currently charged for granting such commitments, taking into account maturity and interest rates, together with any changes in the creditworthiness of counterparties since origination of the commitments, their estimated replacement or net fair value is not material.

TRANSACTION COSTS

The fair value of financial instruments required to be disclosed under US accounting standard, Statement of Financial Accounting Standards No. 107 Disclosures about Fair Value of Financial Instruments (SFAS 107) is calculated without regard to estimated transaction costs. Such transaction costs are not material, and accordingly the fair values shown above would not differ materially from fair values calculated in accordance with SFAS 107.

38: DERIVATIVE FINANCIAL INSTRUMENTS

Derivative instruments are contracts whose value is derived from one or more underlying financial instruments or indices. They include swaps, forward rate agreements, futures, options and combinations of these instruments. The use of derivatives and their sale to customers as risk management products is an integral part of the Group's trading activities. Derivatives are also used to manage the Group's own exposure to fluctuations in exchange and interest rates as part of its asset and liability management activities and are classified as other than trading. Derivatives are subject to the same types of credit and market risk as other financial instruments, and the Group manages these risks in a consistent manner.

The principal exchange rate contracts used by the Group are forward foreign exchange contracts, currency swaps and currency options. Forward foreign exchange contracts are agreements to buy or sell a specified quantity of foreign currency on a specified future date at an agreed rate. A currency swap generally involves the exchange, or notional exchange, of equivalent amounts of two currencies and a commitment to exchange interest periodically until the principal amounts are re-exchanged on a future date. Currency options provide the buyer with the right, but not the obligation, either to purchase or sell a fixed amount of a currency at a specified rate on or before a future date. As compensation for assuming the option risk, the option writer generally receives a premium at the start of the option period.

The principal interest rate contracts used by the Group are forward rate agreements, interest rate futures, interest rate swaps and options. Forward rate agreements are contracts for the payment of the difference between a specified interest rate and a reference rate on a notional deposit at a future settlement date. There is no exchange of principal. An interest rate future is an exchange traded contract for the delivery of a standardised amount of a fixed income security or time deposit at a future date. Interest rate swap transactions generally involve the exchange of fixed and floating interest payment obligations without the exchange of the underlying principal amounts.

Derivative transactions generate income for the Group from buy/sell spreads and from trading positions taken by the Group. Income from these transactions is taken to net interest income, foreign exchange earnings or profit on trading instruments. Income or expense on derivatives entered into for balance sheet and revenue hedging purposes is accrued and recorded as an adjustment to the interest income or expense of the related hedged item.

CREDIT RISK

The credit risk of derivative financial instruments arises from the potential for a counterparty to default on its contractual obligation. Credit risk arises when market movements are such that the derivative has a positive value to the Group. It is the cost of replacing the contract in the event of counterparty default. The Group limits its credit risk within a conservative framework by dealing with creditworthy counterparties, setting credit limits on exposures to counterparties, and obtaining collateral where appropriate.

The following table provides an overview of the Group's exchange rate, credit, commodity and interest rate derivatives. It includes all trading and other than trading contracts. Notional principal amounts measure the amount of the underlying physical or financial commodity and represent the volume of outstanding transactions. They are not a measure of the risk associated with a derivative.

The credit equivalent amount is calculated in accordance with the Australian Prudential Regulation Authority's Capital Adequacy guidelines. It combines the aggregate gross replacement cost with an allowance for the potential increase in value over the remaining term of the transaction should market conditions change.

The fair value of a derivative represents the aggregate net present value of the cash inflows and outflows required to extinguish the rights and obligations arising from the derivative in an orderly market as at the reporting date. Fair value does not indicate future gains or losses, but rather the unrealised gains and losses from marking to market all derivatives at a particular point in time.

Consolidated	Notional principal amount 2005 \$m	Credit equivalent amount 2005 \$m	Fair value 2005 \$m	Notional principal amount 2004 \$m	Credit equivalent amount 2004 \$m	Fair value 2004 \$m

	816,293	14,084	(266)	709,533	14,328	(828)

(1) The fair value of foreign exchange contracts includes a net additional \$586 million (September 2004: net \$(519) million) in respect of cash collateral paid/(received) under credit support agreements

(2) Credit equivalent amounts have not been included as there is minimal credit risk associated with exchange traded futures where the clearing house is the counterparty

(3) Options sold have no credit exposure, as they represent obligations rather than assets

(4) Credit default swaps include structured financing transactions that expose the Group to the performance of certain assets. The total investment of the Group in these transactions is USD 500 million (2004: USD 750 million)

The maturity structure of derivative activity is a primary component of potential credit exposure. The table below shows the remaining maturity profile by class of derivatives, based on notional principal amounts. The table also shows the notional principal amounts of the derivatives held for trading and other than trading purposes.

Concentrations of credit risk exist for groups of counterparties when they have similar economic characteristics. Major concentrations of credit risk arise by location and type of customer.

The following table shows the concentrations of credit risk, by class of counterparty and by geographic location, measured by credit equivalent amount.

Approximately 57% (2004: 47%) of the Group's exposures are with counterparties which are either Australian banks or banks based in other OECD countries.

The next table shows the fair values of the Group's derivatives by product type, disaggregated into gross unrealised gains and gross unrealised losses.

The fair value of a derivative represents the aggregate net present value of the cash inflows and outflows required to extinguish the rights and obligations arising from the derivative in an orderly market as at the reporting date. Fair value does not indicate future gains or losses, but rather the unrealised gains and losses from marking to market all derivatives at a particular point in time.

- (1) The fair values of derivatives vary over time depending on movements in interest and exchange rates and the trading or hedging strategies used
- (2) The fair value of foreign exchange contracts trading is impacted by netting arrangements and timing of collateral paid under credit support agreements

The Group classifies derivatives into two types according to the purpose they are entered into: trading or hedging.

In addition to customer and trading activities, the Group uses, inter alia, derivatives to manage the risk associated with its balance sheet and future revenue streams. The principal objectives of asset and liability management are to hedge the market value of the Group's capital and to manage and control the sensitivity of the Group's income while maintaining acceptable levels of interest rate and liquidity risk. The Group also uses a variety of foreign exchange derivatives to hedge against adverse movements in the value of foreign currency denominated assets and liabilities and future revenue streams.

Income and loss relating to trading derivatives is reported in the statement of financial performance as other operating income. The fair value of trading derivatives is recorded on a gross basis as other assets or other liabilities as appropriate unless there is a legal right of set off. The fair value of a derivative financial instrument is the net present value of future expected cash flows arising from that instrument.

In order to be classified as a hedging derivative the hedging relationship must be expected to be effective.

An effective hedging relationship is one where there is expected to be a high degree of negative correlation between changes in the fair value of the financial asset being hedged and the derivative nominated as the hedging instrument. This effectiveness is assessed on initial classification of the hedging relationship. A hedging relationship is either effective or non-effective in its entirety, no accounting adjustment is made for an assessed percentage of ineffectiveness. Where a hedging relationship is deemed effective it is accounted for in the same manner as the underlying asset or liability it is hedging.

During the year NZD0.7 billion hedge of NZD revenue were put in place to lock in historically high NZD exchange rates. Hedge contracts outstanding at 30 September 2005 totalled NZD4.4 billion (AUD 4.0 billion).

The table below shows the notional principal amount, credit equivalent amount and fair value of derivatives held by the Group, split between those entered into for customer-related and trading purposes, and those entered into for balance sheet hedging and revenue related hedging.

Consolidated	Notional principal amount	Credit equivalent amount	Fair value	Notional principal amount	Credit equivalent amount	Fair value
	2005 \$m	2005 \$m	2005 \$m	2004 \$m	2004 \$m	2004 \$m

Total	816,293	14,084	(266)	709,533	14,328	(828)

Detailed below are the net deferred realised and unrealised gains and losses arising from other than trading contracts used to hedge interest rate exposure or to hedge anticipated transactions. These gains and losses are deferred only to the extent that there is an offsetting unrecognised gain or loss on the exposure being hedged. Deferred gains or losses are generally amortised over the expected term of the hedged exposure.

	41	(51)	77	235	118	184

39: SECURITISATION

During the year ended 30 September 2005, the Group did not securitise any residential mortgage loans (2004: \$1,481 million).

All securitised loans have been removed from the Group's balance sheet and transferred to third party special purpose entities (SPEs).

The Group retains servicing and (for some loans) custodian responsibilities for the loans sold. Following a securitisation, the Group receives fees for servicing the loans, custodian fees, fees for facilities provided and any excess income derived by the SPE after interest has been paid to investors and net credit losses and expenses absorbed.

The Group does not hold any material retained interest in the loans that have been sold. There is no recourse against the Group if cash flows from the securitised loans are inadequate to service the obligations of the SPE except to the limited extent provided in the transaction documents through the provision of arm's length services and facilities.

The securities issued by the SPEs do not represent deposits or other liabilities of the Company or the Group. Neither the Company nor the Group in any way stands behind the capital value or performance of the securities or the assets of the SPEs except to the limited extent provided in the transaction documents through the provision of arm's length services and facilities.

The Group may also provide liquidity facilities and other forms of credit enhancement to ensure adequate funds are available to the SPEs. The facilities are undrawn. The Group also provides hedging facilities to the SPEs to mitigate interest rate and currency risks. All these transactions are completed on an arm's length basis.

The following table summarises the cash flows from the SPEs to the Group in respect of assets securitised by the Group.

	2005 \$m	2004 \$m
Proceeds from securitising loans		1,481
Servicing fees received	6	4
Other cash inflows	11	7

40: SEGMENT ANALYSIS

For management purposes the Group is organised into six major business segments including Personal, Institutional, New Zealand Business, Corporate, Esanda and UDC and Asia Pacific. An expanded description of the principal activities for each of the business segments is contained in the Glossary on pages 120 to 121.

A summarised description of each business segment is shown below:

Personal	Comprises the activities of Regional Commercial and Agribusiness Products, Banking Products, Consumer Finance, Wealth Management, Mortgages and other (including the branch network)
Institutional	Comprises businesses that provide a full range of financial services to the Group's largest corporate and institutional customers including Corporate and Structured Financing, Client Relationship Group, Markets and Trade and Transaction Services
New Zealand Business	Provides a full range of banking services for personal, small business and corporate customers in New Zealand and comprises ANZ Retail, NBNZ Retail, Corporate Banking, Rural Banking and Central Support
Corporate	Comprises Corporate Banking, Business Banking and Small Business banking in Australia
Esanda and UDC	Provides vehicle and equipment finance, rental services and fixed and at call investments. Operates in Australia as Esanda and Esanda FleetPartners and in New Zealand as UDC and Esanda FleetPartners
Asia Pacific	Provides retail banking services in the Pacific region and Asia, including ANZ's share of PT Panin Bank in Indonesia. This business excludes Institutional businesses in the Asia Pacific region that are included in the Institutional division.

As the composition of segments has changed over time, September 2004 comparatives have been adjusted to be consistent with the 2005 segment definitions. Comparatives for the year ended 30 September 2003 have not been provided because the data could not reasonably be disaggregated into the amended segments.

(1) An associate from 1 April 2001. In 2004 the Group exercised options over a further 18% of PT Panin Indonesia Bank

(2) An associate from 21 June 2005

(3) An associate from 9 October 2003

(4) An associate from 1 October 2002

(5) An associate from 10 December 2004

(6) 2004 carrying values as follows: PT Panin Indonesia Bank \$160 million, Metrobank Card Corporation Inc \$16 million, ETrade \$14 million, and Other associates \$73 million. Total \$263 million

44: INTERESTS IN JOINT VENTURE ENTITIES

The Group has interests in joint venture entities as follows:

	Interest held	Voting Interest	Incorporated in	Carrying Value \$m	Reporting date	Principal activity
ING Australia Limited(1)	49%(2)	49%(2)	Australia	1,479	31 December	Funds Management and Insurance
ING (NZ) Holdings Limited(3)	49%(4)	50%(4)	New Zealand	131	31 December	Funds

Total interests in Joint Venture entities	1,610
---	-------

(1) A joint venture entity from 1 May 2002

(2) This represents the Group's 49% share of the assets and liabilities of ING Australia Limited. The Group has joint control of the joint venture, and accordingly the entity is not consolidated.

Key details of the joint venture are:

ING Australia Limited is owned 51% by ING Group and 49% by ANZ.

Both shareholders have an equal say in strategic decisions with a number of matters requiring the approval of both Shareholders (ie require unanimous approval).

These include major items of capital expenditure, acquisitions or disposals in excess of \$20 million and changes to the Board structure.

Equal board representation with four Group nominees and four ING Group nominees. All key issues (including business plans, major capital expenditure, acquisitions etc) require unanimous Board approval.

Refer to Critical Accounting Policies item f) for details regarding valuation of investment in ING Australia Limited.

The Joint Venture includes the majority of the Group's and ING's funds management and insurance activities in Australia.

(3) A joint venture entity from 30 September 2005

(4) This represents the Group's 49% share of assets and liabilities of ING (NZ) Holdings Limited. The Group has joint control of the joint venture, and accordingly the entity is not consolidated.

Key details of the joint venture are:

ING (NZ) Holdings Limited is owned 51% by ING Group and 49% by ANZ.

Both shareholders have an equal say in strategic decisions with a number of matters requiring the approval of both shareholders (ie require unanimous approval). These include major items of capital expenditure, acquisitions or disposals in excess of \$20 million and changes to the Board structure.

Equal board representation with four Group nominees and four ING Group nominees. All key decisions (including business plans, major capital expenditure, acquisitions etc) require unanimous Board approval.

The joint venture includes the majority of the Group's and ING's funds management and insurance activities in New Zealand.

- (2) This represents Deeds of Subordination with ASIC and buyer of last resort

45: FIDUCIARY ACTIVITIES

The Group conducts investment fiduciary activities for trusts, including deceased estates. These trusts have not been consolidated as the Company does not have direct or indirect control.

Where the Company or its controlled entities incur liabilities in respect of these operations as trustee, where the primary obligation is incurred in an agency capacity as trustee of the trust rather than on the Group's own account, a right of indemnity exists against the assets of the applicable funds or trusts. As these assets are sufficient to cover the liabilities and it is therefore not probable that the Company or its controlled entities will be required to settle the liabilities, the liabilities are not included in the financial statements.

The aggregate amounts of funds concerned are as follows:

	2005 \$m	2004 \$m
Trusteeships	1,927	1,632

Funds management activities are conducted through the ING Australia Joint Venture and certain subsidiaries of ANZ National Bank Limited. During the period, ANZ National Bank Limited and ING in New Zealand established the ING NZ Joint Venture. In doing so, ANZ National Bank Limited transferred some of its managed funds activities into the new joint venture and INGA transferred its NZ business.

As at 30 September 2005, the ANZ/ING Australia Joint Venture had funds under management of \$34,569 million (30 September 2004: \$35,780 million), the ING NZ Joint Venture had funds under management of \$6,839 million (30 September 2004: \$nil) and certain subsidiaries of ANZ National Bank Limited had funds under management of \$3,371 million (30 September 2004: \$3,764 million).

Custodian services are conducted through ANZ Custodian Services. As at 30 September 2005, ANZ Custodian Services had funds under custody of \$98.3 billion (30 September 2004: \$59.8 billion).

46: COMMITMENTS

	42	32	26	19
Total lease rental commitments	1,225	1,170	957	895
Total commitments	1,305	1,230	983	915

The Group leases land and buildings under operating leases expiring from one to five years. Leases generally provide the Group with a right of renewal at which time all terms are renegotiated. Lease payments comprise a base amount plus an incremental contingent rental. Contingent rentals are based on either movements in the Consumer Price Index or operating criteria. Contingent rentals are not included in lease rental commitments, are not provisioned for due to their immateriality, therefore are expensed as incurred.

47: CONTINGENT LIABILITIES, CONTINGENT ASSET AND CREDIT RELATED COMMITMENTS**CREDIT RELATED COMMITMENTS**

The credit risk of the following facilities may be less than the contract amount, but as it cannot be accurately determined, the credit risk has been taken to be the contract amount.

The majority of undrawn facilities are subject to customers maintaining specific credit standards. The amount does not necessarily represent future cash requirements as many of these facilities are expected to be partially used or to expire unused.

	Consolidated		The Company		Controlled Entities	
	2005 Contract amount \$m	2004 Contract amount \$m	2005 Contract amount \$m	2004 Contract amount \$m	2005 Contract amount \$m	2004 Contract amount \$m

Underwriting facilities		63				63
	87,319	78,914	68,491	62,118	18,828	16,796

CONTINGENT LIABILITIES

The qualitative details of the estimated maximum amount of contingent liabilities that may become payable relate to non-customer contingent liabilities. These contingent liabilities relate to transactions that the Group has entered into as principal. By contrast, the quantitative tabular presentation relates to customer contingent liabilities, ie direct credit substitutes and trade and performance related items. Hence, as the contingent liabilities refer to different aspects of Group operations, there are no reconciling items.

Guarantees, Credit derivatives sold, Standby letters of credit, Bill endorsements and Other are classified by APRA as direct credit substitutes and exhibit the same credit risk characteristics as a direct extension of credit. The maximum potential amount of future payments represents the contract amount that could be lost if the counterparty fails to meet its financial obligations.

Documentary letters of credit involve the issue of letters of credit guaranteeing payment in favour of an exporter secured against an underlying shipment of goods or backed by a confirmatory letter of credit from another bank.

Performance related contingents are liabilities that oblige the Group to make payments to a third party should the customer fail to fulfil the non-monetary terms of the contract.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The Group guarantees the performance of customers by issuing standby letters of credit and guarantees to third parties. The risk involved is essentially the same as the credit risk involved in extending loan facilities to customers, therefore these transactions are subjected to the same credit origination, portfolio management and collateral requirements for customers applying for loans. As the facilities may expire without being drawn upon, the notional amounts do not necessarily reflect future cash requirements.

The credit risk of these facilities may be less than the contract amount, but as it cannot be accurately determined, the credit risk has been taken to be the contract amount.

	Consolidated		The Company		Controlled Entities	
	2005 Contract amount \$m	2004 Contract amount \$m	2005 Contract amount \$m	2004 Contract amount \$m	2005 Contract amount \$m	2004 Contract amount \$m

Other	1,433	1,336	1,128	931	305	405
Total contingent liabilities	22,832	22,149	21,676	21,091	1,156	1,058

The details and estimated maximum amount of contingent liabilities that may become payable are set out below.

i) Clearing and Settlement Obligations

In accordance with the clearing and settlement arrangements set out:

in the Australian Payments Clearing Association Limited (APCA) Regulations for the Australian Paper Clearing System, the Bulk Electronic Clearing System, the Consumer Electronic Clearing System and the High Value Clearing System (HVCS), the Company has a commitment to rules which could result in a bilateral exposure and loss in the event of a failure to settle by a member institution; and

in the Austraclear System Regulations, the Company has a commitment to participate in loss-sharing arrangements in the event of a failure to settle by a member institution. For both the APCA HVCS and Austraclear, the obligation arises only in limited circumstances.

ii) Nominee Activities

The Group will indemnify each customer of controlled entities engaged in nominee activities against loss suffered by reason of such entities failing to perform any obligation undertaken by them to a customer.

iii) Interbank Deposit Agreement

ANZ has entered into an Interbank Deposit Agreement with the major banks in the payments system. This agreement is a payment system support facility certified by the Australian Prudential Regulation Authority, where the terms are such that if any bank is experiencing liquidity problems, the other participants are required to deposit equal amounts of up to \$2 billion for a period of 30 days. At the end of 30 days the deposit holder has the option to repay the deposit in cash or by way of assignment of mortgages to the value of the deposit.

iv) Contingent Tax Liability

The Group in Australia was during the year subjected to client risk reviews by the Australian Taxation Office (ATO) across a broad spectrum of matters, as part of normal ATO procedures. The reviews mainly covered years up to 2003.

Some matters have been listed by the ATO for further investigation.

The ATO is also reviewing the taxation treatment of certain other transactions undertaken by the Group in the course of normal business activities.

In addition, at the Company's request the ATO is reviewing the taxation treatment of the sale of Grindlays in 2000. It is also reviewing the transfer of the life and funds management businesses into the joint venture with ING in 2002.

During the year the Company and the ATO settled the remaining outstanding issues from the large case tax audit which commenced in 1995. The settlement was within existing provisions.

The Group in New Zealand is being audited by the Inland Revenue Department (IRD) as part of normal revenue authority procedures, with a particular focus on certain kinds of structured finance transactions. The IRD has issued Notices of Proposed Adjustment (the Notices) in respect of some of those structured finance transactions. The Notices are not tax assessments and do not establish a tax liability, but are the first step in a formal disputes process. In addition, some tax assessments have been received. Should the same position be adopted by the IRD on the remaining transactions of that kind as reflected in the Notices and tax assessments received, the maximum potential tax liability would be approximately NZD432 million (including interest tax effected) for the period to 30 September 2005. Of that maximum potential liability, approximately NZD124 million is subject to tax indemnities provided by Lloyds TSB Bank PLC under the agreement by which ANZ acquired the National Bank of New Zealand and which relate to transactions undertaken by the National Bank of New Zealand before December 2003.

General or issue-specific audits and other investigations are being undertaken by revenue authorities in the United States, the United Kingdom and in other jurisdictions as part of normal revenue authority activity in those countries.

The Company has assessed these and other taxation claims arising in Australia, New Zealand and elsewhere, including seeking independent advice where appropriate, and believes that it holds appropriate provisions.

v) **Sale of Grindlays businesses**

On July 31 2000, ANZ completed the sale to Standard Chartered Bank (SCB) of ANZ Grindlays Bank Limited and the private banking business of ANZ in the United Kingdom and Jersey, together with ANZ Grindlays (Jersey) Holdings Limited and its subsidiaries, for USD1.3 billion in cash. ANZ provided warranties and certain indemnities relating to those businesses and, where it anticipated that payments would be likely under the warranties or indemnities, made provisions to cover the anticipated liability. The issues below have not impacted the reported results. All settlements and costs have been covered within the provisions established at the time. ANZ remains liable in relation to the Foreign Exchange Regulation Act (FERA) and differential cheques matters described below.

FERA

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

In 1991, amounts of INR 689m (AUD 21m) were transferred from non-convertible Indian Rupee accounts maintained with Grindlays in India, mainly to the convertible vostro account at Girobank, maintained at Bombay. These transactions may not have complied with the provisions of the Foreign Exchange Regulation Act, 1973. Grindlays, on its own initiative, brought these transactions to the attention of the Reserve Bank of India. The Indian authorities have served notices on Grindlays and certain of its officers in India that could lead to possible penalties. Grindlays has commenced proceedings in the courts contesting the validity of these notices. In November 1998 the Bombay High Court dismissed the writ petitions. In March 1999 the Supreme Court granted leave to appeal and ordered that, pending the disposal of the appeals, the prosecutions and adjudications against the officers shall not be proceeded with further. Final hearing of the appeals before the Supreme Court of India is expected in late 2005.

Differential Cheques

In June 2003, Grindlays was successful in its appeal against orders to repay, with interest, two payments it received from a stockbroker in 1991 in connection with securities transactions Grindlays had entered into with counterparty banks. These orders, requiring Grindlays to show cause why the payments made by the stockbroker should not be set aside on the grounds that they were not made in the ordinary course of business and were not genuine, had directed repayment of Indian Rupees 24 million (AUD 0.7m), plus interest accruing at 24% since 1991. The Custodian has yet to file an appeal against this judgment. Grindlays is awaiting the outcome of proceedings in relation to a further ten payments received by it in 1991 in similar circumstances totalling Indian Rupees 202 million (AUD 6.0m), including interest at 24% this is approximately Indian Rupees 884 million (AUD 26.4 m).

In addition, ANZ provided an indemnity relating to tax liabilities of Grindlays (and its subsidiaries) and the Jersey Sub-Group to the extent to which such liabilities were not provided for in the Grindlays accounts as at 31 July 2000. Claims have been made under this indemnity also, with no material impact on the Group expected.

vi) Pursuant to class order 98/1418 (as amended) dated 13 August 1998, relief was granted to a number of wholly owned controlled entities from the Corporations Act 2001 requirements for preparation, audit, and publication of individual financial statements. The results of these companies are included in the consolidated Group results. The entities to which relief was granted are:

ANZ Properties (Australia) Pty Ltd(1)	Alliance Holdings Pty Ltd(1)	E S & A Holdings Pty Ltd(1)
ANZ Capital Hedging Pty Ltd(1)	Jikk Pty Ltd(1)	ANZ Funds Pty Ltd(1)
ANZ Nominees Ltd(1)	ANZ Orchard Investments Pty Ltd(2)	Votrait No. 1103 Pty Ltd(2)
ANZ Infrastructure Investments Limited(3)	ANZ Securities (Holdings) Limited(3)	

-
- (1) Relief granted on 21 August 2001
 - (2) Relief granted on 13 August 2002
 - (3) Relief granted on 9 September 2003

It is the condition of the class order that the Company and each of the above controlled entities enter into a Deed of Cross Guarantee. A Deed of Cross Guarantee under the class order was lodged and approved by the Australian Securities and Investments Commission. The effect of the Deed is that the Company guarantees to each creditor payment in full of any debt in the event of winding up any of the controlled entities under certain provisions of the Corporations Act 2001. The Company will only be liable in the event that after six months any creditor has not been paid in full. The controlled entities have also given similar guarantees in the event that the Company is wound up. The consolidated statement of financial performance and consolidated statement of financial position of the Company and its wholly owned controlled entities which have entered into the Deed of Cross Guarantee are:

	Consolidated	
2005		2004

(1) The Companies included in the class order changed in 2005, accordingly retained profits did not carry forward in 2005

(2) Shareholders equity excludes retained profits and reserves of controlled entities within the class order

vii) The Company has guaranteed payment on maturity of the principal and accrued interest of commercial paper notes issued by ANZ (Delaware) Inc. of \$6,400 million as at 30 September 2005 (2004: \$7,081 million).

viii) The Company is party to an underpinning agreement with ANZ National Bank Limited whereby the Company undertakes to assume risk in relation to credit facilities extended by ANZ National Bank Limited to individual customers which exceed 35% of ANZ National Bank Limited's capital base.

ix) The Company is party to an underpinning agreement with Australia and New Zealand Banking Group (PNG) Limited whereby the Company undertakes to assume risk in relation to credit facilities extended by Australia and New Zealand Banking Group (PNG) Limited to individual customers which exceed 25% of Australia and New Zealand Banking Group (PNG) Limited's capital base.

x) On 10 March 2005, leave was given by the High Court in London to certain parties to make a claim against ANZ over its role in 1996 as arranger and escrow agent in respect of a buyback of Nigerian Government bills of exchange (the Noga claim). The claim was disclosed by ANZ in view of its potential size (DEM 973 million [\$833 million at 31 March 2005 exchange rates] plus interest). ANZ considered the Noga claim to be opportunistic and that the chances of it being successful were very remote. ANZ took the opportunity to settle the proceedings at an early stage at a level which is not material to the bank.

GENERAL

There are outstanding court proceedings, claims and possible claims against the Group, the aggregate amount of which cannot readily be quantified. Appropriate legal advice has been obtained and, in the light of such advice, provisions as deemed necessary have been made. The gross amounts of accruals made for material litigation contingencies is \$233 million (2004: \$168 million).

Contingent Asset

National Housing Bank

In 1992, Grindlays received a claim aggregating approximately Indian Rupees 5.06 billion from the National Housing Bank (NHB) in India. The claim arose out of cheques drawn by NHB in favour of Grindlays, the proceeds of which were credited to the account of a Grindlays customer.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Grindlays won an arbitration award in March 1997, under which NHB paid Grindlays an award of Indian Rupees 9.12 billion. NHB subsequently won an appeal to the Special Court of Mumbai, after which Grindlays filed an appeal with the Supreme Court of India. Grindlays paid the disputed money including interest into court. Ultimately, the parties settled the matter and agreed to share the moneys paid into court which by then totalled Indian Rupees 16.45 billion (AUD 661 million at 19 January 2002 exchange rates), with Grindlays receiving Indian Rupees 6.20 billion (AUD 248 million at 19 January 2002 exchange rates) of the disputed monies. ANZ in turn received a payment of USD124 million (USD equivalent of the Indian Rupees received by Grindlays) from Standard Chartered Bank under the terms of an indemnity given in connection with the sale of Grindlays to Standard Chartered Bank.

ANZ Claims

ANZ is pursuing two separate actions arising from the above.

(a) A \$130 million plus compound interest claim against its insurers. \$130 million is the balance of the limit of indemnity under ANZ's insurance arrangements for the 1991-92 policy year.

The proceedings, in the Supreme Court of Victoria, are against ANZ's captive insurance company ANZcover Insurance Pty Ltd (ANZcover). ANZcover is an authorised general insurer restricted to insuring the interests of ANZ and its subsidiaries. ANZcover in turn purchases reinsurance from global reinsurers, primarily in the London reinsurance market. ANZcover has no retained exposure to the NHB claim, which is fully reinsured, save for a small exposure arising from the insolvency of some reinsurers in the London market.

The insurers contest liability and the proceedings remain on foot. The trial before the Supreme Court of Victoria is scheduled to be heard in early 2006.

(b) ANZ is entitled to share with NHB in the proceeds of any recovery from the estate of the customer whose account was credited with the cheques drawn by NHB. However, the Indian Taxation Department is claiming a statutory priority to all of the funds available for distribution to creditors of that customer.

No amounts receivable under either of these actions have been recognised in these accounts, except for \$0.9 million which has been received from insurers, by way of settlement or distributions from schemes of arrangement, representing, in aggregate, \$1.1 million of indemnity.

48: SUPERANNUATION COMMITMENTS

A number of pension and superannuation schemes have been established by the Group worldwide. The Group may be obliged to contribute to the schemes as a consequence of legislation and provisions of trust deeds. Legal enforceability is dependent on the terms of the legislation and trust deeds. The major schemes with assets in excess of \$25 million are:

Country	Scheme	Scheme type	Contribution levels	
			Employee	Employer
Australia	ANZ Australian Staff Superannuation Scheme(1),(2)	Defined Contribution Scheme Section C(3)	optional(7)	Balance of cost(9)
		or Defined Contribution Scheme Section A	optional	9% of salary(10)
		or Defined Benefit Scheme Pension Section(4)	nil	Balance of cost(11)
New Zealand	ANZGROUP (New Zealand) Staff Superannuation Scheme(1),(2)	Defined Benefit Scheme(5)	nil	Balance of cost(12)
		or Defined Contribution Scheme	minimum of 2.5% of salary	7.5% of salary(13)
	National Bank Staff Superannuation Fund(1),(2)	Defined Benefit Scheme(6)	5.0% of salary	Balance of cost(14)
		or Defined Contribution Scheme	minimum of 2.0% of salary	11.2% of salary(15)
England	ANZ UK Staff Pension Scheme(1)	Defined Benefit Scheme	5.0% of salary(8)	Balance of cost(16)

Balance of cost: the Group's contribution is assessed by the actuary after taking account of members' contributions and the value of the schemes' assets

-
- (1) These schemes provide for pension benefits
 - (2) These schemes provide for lump sum benefits
 - (3) Closed to new members in 1997
 - (4) Closed to new members. Operates to make pension payments to retired members or their dependents
 - (5) Closed to new members on 31 March 1990. Operates to make pension payments to retired members of that section of the scheme or their dependents
 - (6) Closed to new members on 1 October 1991

- (7) Optional but with minimum of 1% of salary
- (8) From 1 October 2003, members of the Senior Management section commenced contributions at the rate of 5% of salary, and all new members at the rate of 5% of salary
- (9) As determined by the Trustee on the recommendation of the actuary currently 9% (2004: 9%) of members salaries
- (10) 2004: 9% of salary
- (11) As determined by the Trustee on the recommendation of the actuary currently nil (2004: nil)
- (12) As recommended by the actuary currently nil (2004: nil)
- (13) 2004: 7.5% of salary
- (14) As recommended by the actuary currently 22.3% (2004: 22.3%) of members salaries
- (15) 2004: 11.2% of salary
- (16) The Group recommenced contributions to the Scheme, effective from 1 October 2003. Contributions are currently 25% of pensionable salaries. Additional half yearly contributions of GBP 500,000 for 15 years have commenced, with the first payment made in November 2004

The details of defined benefit sections of the schemes are as follows:

2005 Schemes	Employer's contribution \$m	Accrued benefits \$m	Net market value of assets held by scheme \$m	Excess of net market value of assets over accrued benefits \$m	Vested benefits \$m

(3) Amounts were measured at 30 September 2004

(4) Other includes the defined benefit arrangements in Japan, Philippines and Taiwan

ANZ Australian Staff Superannuation Scheme Pension Section

The Pension Section of the ANZ Australian Staff Superannuation Scheme is closed to new members. A full actuarial valuation, conducted by the Scheme Actuary, Russell Employee Benefits, as at 31 December 2004 showed a deficit of \$5 million and the expectation is that this deficit has remained materially unchanged since that date.

The Group has no present liability under the Scheme's Trust Deed to commence contributions or fund the deficit. An interim actuarial valuation will be conducted as at 31 December 2005, at which time the funding position will be reassessed. The next full actuarial valuation is due to be conducted as at 31 December 2007.

ANZ UK Staff Pension Scheme

The deficit disclosed above for the UK Staff Pension Scheme has been determined for the purpose of AASB1028 Employee Benefits .

Consulting actuaries Watson Wyatt LLP have advised that as at 31 December 2003 the Scheme would have met the minimum funding requirement (MFR) test as defined in UK legislation, being 115% funded on that basis. Following an interim actuarial valuation of the Scheme at 31 December 2004, the actuary expects the Scheme's funding level to be comfortably within the MFR and statutory surplus limits.

The Group has no present liability under the Scheme's Trust Deed to fund the deficit, but it does have a contingent liability if the Scheme was wound up. If this were to happen, the Trustee would be able to pursue the Bank for additional contributions under the UK Employer Debt Regulations. This is calculated based on an insurance buy-out of the Scheme. This is considered unlikely, given the Group intends to continue the Scheme on an on-going basis and the financial strength of the Group.

From 1 October 2003, the Group recommenced contributions at the rate of 25% of pensionable salaries. These contributions are sufficient to cover the cost of accruing benefits. In order to address the deficit, the Group has agreed to pay half yearly additional contributions of GBP 500,000 for a period of 15 years, commencing for the year beginning 1 October 2004, with the first payment made in November 2004.

National Bank Staff Superannuation Fund

The last full actuarial valuation of the pension section of the National Bank Staff Superannuation Fund was conducted by Aon Consulting NZ as at 31 March 2004, and showed a deficit of NZD6 million (\$6 million). Based on an interim actuarial valuation, a deficit of NZD12 million (\$11 million) was disclosed as at 30 September 2004. An actuarial valuation conducted as at 31 March 2005 showed a deficit of NZD8.6 million (\$8 million). The Group has no present liability under the Scheme's Trust Deed to fund the deficit, but it does have a contingent liability if the Scheme was wound up. Under the Scheme's Trust Deed, if the Scheme were wound up, the Group is required to pay the Trustees of the Scheme an amount sufficient to ensure members do not suffer a reduction in benefits to which they would otherwise be entitled.

49: EMPLOYEE SHARE AND OPTION PLANS

The Company has three share purchase and option incentive plans available for employees and directors of the Group: the ANZ Employee Share Acquisition Plan(1); the ANZ Share Option Plan; and the ANZ Directors Share Plan. Shareholders of the Company have approved the implementation of each of the current plans. Fully paid ordinary shares issued under these plans are held in trust on behalf of participants and generally rank equally with other existing fully paid ordinary shares, other than in respect of voting rights while the shares remain in trust. However, Performance Shares issued to the ANZ CEO on 31 December 2004, do not attract a dividend.

Each option granted under the ANZ Share Option Plan entitles a holder to purchase one ordinary share subject to any terms and conditions imposed on issue. The exercise price of the options, determined in accordance with the rules of the plan, is based on the weighted average price of the Company's shares traded during the five business days preceding the date of granting the options.

An offer to employees and directors cannot be made under any of the plans if an issue pursuant to that offer will result in the aggregate of shares issued and options granted over unissued shares held for employees under various employee share and option incentive schemes exceeding 7% of the issued capital (and unexercised options) of the Company. The closing market price of one ordinary share at 30 September 2005 was \$24.00.

(1) The ANZ Employee Share Acquisition Plan includes the \$1,000 Share Plan, the Deferred Share Plan and the Employee Share Save Scheme

ANZ EMPLOYEE SHARE ACQUISITION PLAN

\$1,000 Share Plan

Subject to Board approval this plan allows for the issue of up to \$1,000 of shares to all eligible employees each financial year.

The shares are generally issued for no consideration, except in New Zealand where employees are required to pay NZD 1 cent per share at the time the shares are transferred to them. During the financial year, 1,151,157 shares with an average issue price of \$20.03 were issued under the \$1,000 Share Plan (2004: 1,244,654 shares with an average issue price of \$18.04 were issued). These shares are issued from the Share Capital account, hence only an increase in the number of shares on issue results.

Details of the movement in employee shares under the \$1,000 Share Plan are as follows:

	The Company	
2005		2004

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Number of shares at beginning of the year	5,229,252	4,537,676
Number of shares issued to the trust	1,394,587	1,512,886
Number of shares distributed to employees	(946,224)	(787,873)
Number of shares forfeited	(71,997)	(33,437)
Number of shares at end of the year(1)	5,605,618	5,229,252

(1) Includes shares issued under the bonus option plan and the dividend reinvestment plan

	The Company	
	2005	2004
Number of shares acquired since commencement of the \$1,000 Share Plan(1)	9,409,732	8,258,575

(1) Excludes shares issued under the bonus option plan and the dividend reinvestment plan

Deferred Share Plan

Selected employees may also be issued deferred shares, which vest in the employee up to three years from the date of issue. Ordinary shares issued under this plan may be held in trust for up to 10 years, and may be required to meet performance hurdles before being able to be traded after the restriction period has expired. The issue price is based on the volume weighted average price of the shares traded on the ASX in the 5 trading days leading up to and including the date of issue. Unvested shares are forfeited on resignation, dismissal, or termination on notice (LTI deferred shares only), or if a performance condition has not been met.

During the financial year, 655,261 (2004: 2,750,277) deferred shares were issued under this Plan.

Details of the movement in employee shares under the Deferred Share Plan are as follows:

	The Company	
	2005	2004
Number of shares at beginning of the year	8,715,896	8,020,848
Number of shares issued to the trust	732,032	2,851,886
Number of shares distributed to employees	(1,766,494)	(2,034,234)
Number of shares forfeited	(228,116)	(122,604)
Number of shares at end of the year(1)	7,453,318	8,715,896

(1) Includes shares issued under the bonus option plan and the dividend reinvestment plan

	The Company	
	2005	2004
Number of shares acquired since commencement of the Deferred Share Plan(1)	17,283,723	16,628,462

(1) Excludes shares issued under the bonus option plan and the dividend reinvestment plan

ANZ EMPLOYEE SHARE SAVE SCHEME

Eligible employees have the opportunity to request that a proportion of their income be directed to the purchase of ANZ shares. The amount they elect to contribute is deducted fortnightly and shares are purchased on market quarterly in arrears by the trust. The Company contributes 5% of the purchase price and pays for brokers fees and stamp duty. Senior executives may participate but are not eligible to receive the 5% discount. Employees are eligible to participate in the Scheme if they are permanent full-time or part-time employees of the Company and have been employed since 1 October immediately prior to the invitation being made by the Company. Employees nominate a restriction period between 1 to 10 years during which period the shares are held in trust. Dividends are paid to the employees.

Details of the movement in employee shares under the ANZ Employee Share Save Scheme are as follows:

	The Company	
	2005	2004
Number of shares at beginning of the year	452,130	394,405
Number of shares purchased	306,377	279,723
Number of shares issued to the trust	23,789	24,243
Number of shares distributed to employees	(268,184)	(246,241)
Number of shares at end of the year	514,112	452,130

	The Company	
	2005	2004
Number of shares acquired since commencement of the ANZ Employee Share Save Scheme	1,349,752	1,043,375

Costs associated with the ANZ Employee Share Save Scheme were recognised in Personnel Expenses and Liquid Assets (amounts were less than \$500,000).

ANZ SHARE PURCHASE SCHEME

The ANZ Share Purchase Scheme is a closed scheme. Shares have been progressively paid up by eligible officers, with the last remaining shares held under the scheme fully paid up and redeemed during the 2004 financial year. No fully paid ordinary shares have been issued under this Scheme since 1996.

Details of the movement in employee shares under the ANZ Share Purchase Scheme are as follows:

	The Company	
	2005	2004
Number of shares at beginning of the year		229,500
Number of shares redeemed by employees(1)		(229,500)
Number of shares at end of the year		

(1) Redeemed once paid out by employee

ANZ SHARE OPTION PLAN

Selected employees may be granted options, which entitle them to purchase ordinary fully paid shares in the Company at or greater than a price fixed at the time when the options are issued (depending on whether the exercise price is indexed or not). Voting and dividend rights will be attached to the unissued ordinary shares when the options have been exercised.

Details of the options over unissued ordinary shares as at the beginning and end of the financial year and movements during the year are set out below.

Grant date	Exercise price \$	Earliest exercise date	Expiry date	No. options at beginning of the year	Options granted	Options lapsed and surrendered		Options exercised	On issue	No. options outstanding at 30 September 2005	
										Vested	Hurdle

Totals				36,800,628	5,099,488	1,810,012	6,642,326	33,447,778

The aggregate fair value of shares issued as a result of the exercise of options during the 2005 financial year was \$141 million.

On 24 October 2003 the Company issued a prospectus to invite shareholders to participate in a pro-rata renounceable rights issue. In accordance with the rules set out in the ANZ Share Option Plan in the event of a rights issue, the exercise price of options granted under the plan is to be reduced in accordance with ASX Listing Rule 6.22. As a result, the exercise price of each option issued under the ANZ Share Option Plan is reduced by 72 cents from the amount previously disclosed.

Details of performance hurdles applicable to options are as follows:

A The percentage change of the ANZ Total Shareholder Return (ANZ TSR) to exceed the percentage change of the S&P/ASX 200 Banks (Industry Group) Accumulation Index from date of issue to any time from the third anniversary date up to and including the proposed exercise date.

B & C During the four-year period commencing three years, and ending seven years, after the issue date of the options:

50% of the options allocated may be exercised by the option holder subject to the ANZ TSR exceeding the percentage change in the S&P/ASX 200 Banks (Industry Group) Accumulation Index measured over the same period and calculated as at the last trading day of any month; and

50% of the options allocated may be exercised by the option holder subject to the ANZ TSR exceeding the percentage change in the S&P/ASX 100 Accumulation Index measured over the same period and calculated as at the last trading day of any month.

D Options may be exercised at month ends during the four-year period commencing three years, and ending seven years, after the issue date of the options. The exercise price will be set according to the movement in the S&P/ASX 200 Banks (Industry Group) Accumulation Index (excluding ANZ) since issue date, and can be no lower than the base issue price.

DSR No performance hurdles apply. Deferred Share Rights may only be exercised between the third and seventh anniversary of their issue.

E The options may be exercised only if the ANZ Accumulation Index over the period from the date on which the options are granted to the last trading day of any month occurring during the relevant exercise period, equals or exceeds the S&P/ASX 100 Accumulation Index calculated over the same period (applicable to the CEO only).

F One half of the options may be exercised only if the ANZ TSR calculated over the period commencing on the date of grant and ending on the last day of any month after the second anniversary of their date of grant exceeds the percentage change in the S&P/ASX 200 Banks (Industry Group) Accumulation Index over that same period; and the other half of the options may be exercised only if the ANZ TSR calculated over the relevant period exceeds the percentage change in the S&P/ASX 100 Accumulation Index over that same period (applicable to the CEO only).

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

G Exercise of options is subject to the satisfaction of time and performance based hurdles. Options may be exercised during the four year period commencing three years, and ending seven years, after the issue date of the Options subject to meeting the following performance hurdle. The performance hurdle will be measured during the exercise period by comparing ANZ's Total Shareholder Return (ANZ's TSR) against a comparator group of major financial services companies in the ASX Top 50, excluding the ANZ, as determined by the Board Compensation and Human Resources Committee. The options become exercisable depending on ANZ's ranking within the comparator group. ANZ must rank at the 50th percentile for 50% of the options to become exercisable. For each 1% increase above the 50th percentile an additional 2% of options will become exercisable, with 100% being exercisable where ANZ ranks at or above the 75th percentile. This will be calculated as at the last trading day of any month (once the exercise period has commenced).

N No performance hurdles apply. Once the exercise period has been reached, the options may be exercised. As their purpose is predominately retention and to share in any growth in the share price, additional hurdles are not applied.

These options will expire immediately on termination of employment, except in the event of retirement, retrenchment, death or disablement or where agreed by the directors of the Company, in which case the exercise of the options may be allowed.

In the event of a takeover offer or takeover announcement, the directors of the Company may allow the options to be exercised.

If there is a bonus issue prior to the expiry or exercise of the options, then upon exercise of the options, option holders are entitled to those shares as if the options had been exercised prior to that issue. Those shares will be allotted to the option holder when the options are exercised.

The following options were exercised by employees and former employees during the financial year:

Exercise price \$	No. of shares issued	Proceeds received \$

COMMENTARY ON CHANGES BETWEEN 2004 AND 2005

Non-Executive Directors (NEDs)

Primary Total Remuneration has increased by \$212,114. This increase is as a result of:

- i) Timing differences between the appointment of DE Meiklejohn and JP Morschel, and the retirement of BW Scott and JC Dahlsen.
- ii) Increase in Chairman's fees of \$71,000 in recognition of increased demands of the role, relativity to peers, and to maintain equitable relativity with other NEDs.
- iii) The full year effect of the addition of GJ Clark to the Board.

The Post-Employment Retirement Benefit accrued during the year has increased by \$511,120 from the previous period due to the following:

- i) \$95,286 resulting from fee increases over the last 3 years being taken into account for the purpose of the directors' retirement benefits.
- ii) \$415,634 of this is due to amendments made during the year to the individual agreements with NEDs to make the formula for calculating the amount payable under them consistent for all NEDs. In some instances this has resulted in the amount accrued during the year being increased to take account of the impact of the change to the formula on previous years' accrued benefits. In each case under the relevant agreement, the maximum amount that may be paid to a NED as a retirement benefit is subject to the limits in the Corporations Act.

Executive Director (Chief Executive Officer)

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

There was no change to J McFarlane's fixed remuneration which remained at \$2,000,000, including superannuation contributions. His short-term incentive target for 2005 was increased to \$2,000,000 (100% of his fixed remuneration) in accordance with his contract extension announced on 26 October 2004. His actual payment was \$2,100,000 (compared to \$1,850,000 in 2004) reflecting the Board's assessment of his performance against agreed balanced scorecard objectives which include ANZ's financial performance and its performance against specified measures for shareholders, customers, staff and the community.

	236,684	1,850,006	5,535,939	502,301	532,146		2,584,880	90,619	9,245,885

- (1) Non-monetary benefits for all directors are nil.
- (2) Shares acquired through participation in Directors Share Plan (relates to CEO only in relation to cash incentive, as NEDs do not participate in Short-Term Incentive arrangements). Value reflects the price at which the shares were purchased on market (amortisation not applicable).
- (3) 100% of the CEO's cash incentive vested during the financial year.
- (4) Accrual relates to Directors Retirement Scheme. The following benefits were paid under the Directors Retirement Scheme to the following former directors: JC Dahlsen (retired 3 February 2005) \$513,668; BW Scott (retired 23 April 2005) \$516,214. If each of the current NEDs had ceased to be a director as at 30 September 2005, the following benefits would have been payable under the Directors Retirement Scheme: CB Goode \$1,312,539; GJ Clark \$83,197; RS Deane \$693,285; JK Ellis \$523,039; DM Gonski \$249,445; MA Jackson \$487,022; DE Meiklejohn \$64,781; JP Morschel \$60,459. The Directors Retirement Scheme will be discontinued effective 30 September 2005. Refer to section B2 for more information pertaining to the Directors Retirement Scheme.
- (5) In accordance with the requirements of AASB1046A, the amortisation value includes a proportion of the fair value (taking into account market-related vesting conditions) of all equity that had not yet fully vested as at the commencement of the financial year. It is assumed that 100% of the options will vest at the commencement of their exercise period (i.e. the shortest possible vesting period is assumed). The fair value is determined at grant date and is allocated on a straight-line basis over the expected vesting period. The fair value is determined using a binomial option-pricing model that is explained in Note 51 Equity Instruments Transactions section I. The amount included as remuneration is not related to nor indicative of the benefit (if any) that may ultimately be realised should the options become exercisable. For deferred shares, the fair value is the weighted average price of the Company's shares traded on the ASX on the day the shares were granted.
- (6) Amortisation value of options as a percentage of his total remuneration (as shown in the Total column above) was 25% in 2005 (37% in 2004).
- (7) Amounts disclosed for remuneration of directors exclude insurance premiums paid by the consolidated entity in respect of directors and officers liability insurance contracts which cover current and former directors and officers, including executive officers of the entity and directors, executive officers and secretaries of the controlled entities. The total premium, which cannot be disclosed because of confidentiality requirements, has not been allocated to the individuals covered by the insurance policy as, based on all available information, the directors believe that no reasonable basis for such allocation exists.
- (8) J McFarlane elected to use almost all his cash salary and incentive to purchase on market deferred shares under the Directors Share Plan.
- (9) Amounts paid in NZD are converted to AUD at an average rate for the year of 1.0847 (1.1254 in 2004).

- (10) Includes \$300,000 additional employer contribution, agreed as part of contract extension announced 26 October 2004. Refer section D2
- (11) Relates to reimbursement to J McFarlane for the additional tax liability on his UK Pension Plan holdings, arising as a result of Australian Foreign Investment Fund rules, and J McFarlane's continuing Australian residency (in accordance with the contractual arrangements detailed in section D2).
- (12) Relates to professional services rendered in respect of taxation matters.
- (13) 2004 aggregate amounts relate to those directors reported in 2004.

TABLE 2: SPECIFIED EXECUTIVES REMUNERATION

For the year ended 30 September 2005 details of the remuneration of the top seven executives (Specified Executives), other than the Chief Executive Officer, are set out below and include the five most highly remunerated executives in the Company and the Group (as required under the Corporations Act 2001) and the top executives in the Group by authority (as required by AASB1046):

		Cash salary/fees \$	Long service leave accrued during the year \$	PRIMARY Non monetary benefits(1) \$	Total cash short term Incentive(2),(3) \$	Primary total \$
Specified Executives						
Sir J Anderson(8),(9)	2005	838,110			460,960	1,299,070

COMMENTARY ON CHANGES BETWEEN 2004 AND 2005**Specified Executives**

The differences in Total Remuneration between 2004 and 2005 for Specified Executives are as a result of the following:

i) Total Employment Costs (TEC) or fixed remuneration increases between 2004 and 2005 are in line with ANZ's guiding principles (refer to sections C1 and C3), and to reflect role changes for BC Hartzer; increased responsibility for GK Hodges and market pressures.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

ii) Increase in target short term incentive (STI) amounts (for all Specified Executives except for Sir J Anderson), from 67% of TEC to 100% of TEC in order to meet competitive pressures.

iii) With the exception of Sir J Anderson, change in STI delivery to 100% cash in 2005 versus 75% cash and 25% deferred shares (amortised over 3 years) for 2004.

iv) Sir J Anderson and S Targett commenced part way through 2004, being 1 December 2003 and 5 May 2004 respectively.

v) Two of S Targett's deferred share grants fell into the 2005 financial year (refer to footnote 6).

vi) 2004 aggregate amounts relate to those Specified Executives reported in 2004.

	POST EMPLOYMENT			EQUITY(5)			Total amortisation of other equity allocations(6) \$	Total (7),(10) \$
	Super contributions \$	Retirement benefit accrued during year(4) \$	Annual remuneration (Primary plus Post Employment) \$	Total amortisation value of STI shares \$	Total amortisation value of LTI shares \$	Total amortisation value of LTI options \$		
Specified Executives								
Sir J Anderson(8),(9)	83,811	33,367	1,416,248				477,452	1,893,700

Chief Financial Officer	45,542		1,292,368	243,435	276,714	369,376		2,181,893
S Targett(9)	46,800		1,695,274		40,544	39,059	789,238	2,564,115
Group Managing Director Institutional	18,976		599,418				188,081	787,499
TOTAL	352,799	36,674	11,462,615	848,440	1,536,289	1,361,701	1,266,690	16,475,735
	300,598	42,270	7,490,561	1,089,594	1,250,614	1,551,766	407,249	11,789,784

(1) Non monetary benefits provided to Specified Executives consist of salary packaged items such as car parking and novated lease motor vehicles.

(2) Total cash incentive relates to the full incentive amount for the financial year ended 30 September 2005. A portion of the STI was delivered as deferred shares in 2004.

(3) 100% of the Specified Executives cash incentive vested to the person in the financial year.

(4) Accrual relates to Retirement Allowance. As a result of being employed with ANZ prior to November 1992, RJ Edgar and GK Hodges are eligible to receive a Retirement Allowance on retirement, retrenchment, death, or resignation for illness, in capacity or domestic reasons. The Retirement Allowance is calculated as follows: 3 months of notional salary (which is 65% of fixed remuneration) plus an additional 3% of notional salary for each year of full-time service above 10 years, less the total accrual value of long service leave (including taken and untaken).

(5) In accordance with the requirements of AASB1046A, the amortisation value includes a proportion of the fair value (taking into account market-related vesting conditions) of all equity that had not yet fully vested as at the commencement of the financial year. It is assumed that 100% of the options will vest at the commencement of their exercise period (i.e. the shortest possible vesting period is assumed) and that deferred shares will vest after 3 years. The fair value is determined at grant date and is allocated on a straight-line basis over the 3-year vesting period. For options, the fair value is determined using a Binomial Option Pricing model that is explained in Note 51 section I. The amount included as remuneration is not related to nor indicative of the benefit (if any) that may ultimately be realised

should the options become exercisable. For deferred shares, the fair value is the weighted average price of the Company's shares traded on the ASX on the day the shares were granted.

(6) Amortisation of other equity allocations for Sir J Anderson relates to the granting of zero priced options (ZPO). ZPOs are granted as part of his employment contract. Refer to section E2 for further details. Amortisation of other equity allocations for S Targett relates to the grant of deferred shares beginning on 11 May 2004 (four tranches to the value of \$700,000 each to be issued at 6 month intervals in May and November in 2004 and 2005, subject to Board approval and continued employment) and hurdled A options (refer to Note 51 Equity Instruments Transactions section K for performance hurdle details) to compensate S Targett for the loss of access to equity as a result of his resignation from his previous employer.

(7) Amounts disclosed for remuneration of Specified Executives exclude insurance premiums paid by the consolidated entity in respect of directors and officers liability insurance contracts which cover current and former directors and officers, including executive officers of the entity and directors, executive officers and secretaries of the controlled entities. The total premium, which cannot be disclosed because of confidentiality requirements, has not been allocated to the individuals covered by the insurance policy as, based on all available information, the directors believe that no reasonable basis for such allocation exists.

(8) Amounts paid in NZD are converted to AUD at an average rate for the year of 1.0847 (1.1254 in 2004).

(9) Sir J Anderson was appointed 1 December 2003 (i.e. 2 months after the start of the 2004 financial year) and S Targett was appointed 5 May 2004 (i.e. 7 months after the start of the 2004 financial year)

(10) Amortisation value of options as a % of total remuneration for the 2005 financial year was as follows; Sir J Anderson - 25% (15% in 2004); Dr R J Edgar - 10% (12% in 2004); E Funke Kupper - 11% (18% in 2004); B C Hartzler - 11% (17% in 2004); G K Hodges- 10% (14% in 2004); P R Marriott- 12% (17% in 2004); S Targett- 11% (12% in 2004)

SECTION B. NON-EXECUTIVE DIRECTORS REMUNERATION**B1. NON-EXECUTIVE DIRECTORS REMUNERATION POLICY**

Non-executive Directors (NEDs) fees are reviewed annually and are determined by the Board of Directors based on advice from external advisors and with reference to fees paid to other NEDs of comparable companies. NEDs fees are within the maximum aggregate limit agreed to by shareholders at the Annual General Meeting held on 13 December 2002 (\$2.5 million, excluding retirement allowances and superannuation), and are set at levels that fairly represent the responsibilities of, and the time spent by, the NEDs on Group matters. NEDs receive a fee for being a director of the Board, and additional fees for either chairing or being a member of a committee. Work on special committees may attract additional fees of an amount considered appropriate in the circumstances. An additional fee is also paid if a NED serves as a director of ANZ National Bank Limited, ING Australia Ltd or Metrobank Card Corporation. NEDs do not receive any performance/incentive payments and are not eligible to participate in any of the Group's incentive arrangements.

The Chairman Fee was increased to \$500,000 effective 1 October 2004 in recognition of the demands of the role, market practice and in order to maintain desired relativity with other directors. No other adjustments were made to NED fees for the year ending 30 September 2005.

The fee structure is illustrated in Table 3 below:

TABLE 3

Role	2004 Fee	2005 Fee
Chairman	\$ 429,000	\$ 500,000
Non-Executive Director	\$ 130,000	\$ 130,000
Committee Chair(1)	\$ 32,500	\$ 32,500
Committee Member(1)	\$ 9,750	\$ 9,750

(1) Except Nominations & Corporate Governance Committee and Technology Committee, where the current Chair and Member Fees are \$21,000 and \$6,300 respectively.

For details of remuneration paid to directors for the year ended 30 September 2005, refer to Table 1 in section A.

NED Shareholding Guidelines

NEDs have agreed to accumulate ANZ shares, over a five-year period, to the value of 100% (200% for Chairman) of the base annual NED Fee and to maintain this shareholding while a director of ANZ. NEDs have agreed to apply up to 25% of their base fee annually via the Director's

Share Plan or other means, towards the purchase of ANZ shares in order to achieve/maintain the desired holding level. This is a new guideline which was approved by the Board in September 2005.

B2. NON-EXECUTIVE DIRECTORS RETIREMENT POLICY

All NEDs participated in the ANZ Directors Retirement Scheme up to the year ended 30 September 2005. Under this scheme, a lump-sum retirement benefit was payable to NEDs upon their ceasing to be a director. The lump-sum retirement benefit payable where the NED held office for 8 years or more was equal to the total remuneration (excluding retirement benefit accrual) of the NED in respect of the 3 years immediately preceding the NED ceasing to be a NED. For periods of less than 8 years, a proportionate part of such remuneration was payable. The NEDs are not entitled to the statutory entitlements of long service leave and annual leave.

Consistent with Principle 9.3 of the Australian Stock Exchange (ASX) Corporate Governance Rules, which states that NEDs should not be provided with retirement benefits other than statutory superannuation, the ANZ Directors Retirement Scheme was closed effective 30 September 2005.

Accrued entitlements were fixed at 30 September 2005 and will be carried forward to retirement, and collected by the NED when they retire. The entitlements may be carried forward as:

Cash Alternative: A cash payment, being the entitlement accrued to 30 September 2005, plus escalation based on the 30 day bank bill rate until retirement date; and/or

Shares Alternative: A number of ANZ shares purchased on market on 27 October 2005 to the value of the accrued entitlement, plus escalation based on the 30-day bank bill rate for the period 1 October 2005 to 26 October 2005 (subject to Shareholder approval at the 2005 Annual General Meeting). Shares will then be held in ANZ Employee Share Trust for the benefit of the Director until retirement.

NEDs have been asked to nominate the proportion of their accrued entitlement to be directed towards each alternative, subject to shareholder approval.

Fees for NEDs will be increased by 27.5% effective 1 October 2005 to compensate for the removal of this contractual benefit. This amount was determined based on an independent actuarial valuation of the scheme by Mercer Finance & Risk Consulting and advice from expert remuneration consultants PricewaterhouseCoopers. This increase is also in line with market practice in relation to fee increases due to the removal of the Directors Retirement Scheme, where increases have typically ranged from 25% to 30%.

NED Fee Cap

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

There has been no increase in the NED fee pool since 2002. Shareholder approval will be sought at the 2005 Annual General Meeting for an increase to the NED Fee Cap by \$500,000. This proposed increase would take the maximum aggregate amount from \$2.5m to \$3.0m an amount which is considered necessary in order to:

accommodate the fee adjustment to compensate for the removal of the Directors Retirement Scheme (27.5%) while the discontinued retirement benefits under the Constitution are outside the maximum aggregate limit, the compensating increase to fees will be within the limit;

allow for annual adjustments in line with market NED movements; and

allow for the addition of another NED in either 2006 or early 2007.

It is critical that the Company has the capacity to pay adequate fees to NEDs in order to attract and retain directors of the highest calibre.

B3. DIRECTORS SHARE PLAN

The Directors Share Plan is available to both non-executive and executive directors. Directors may elect to forgo remuneration to which they may have otherwise become entitled and receive shares to the value of the remuneration forgone. Participation in the plan is voluntary, except to the extent that the NED Shareholding Guidelines must be met and therefore the shares acquired are not subject to performance conditions.

Shares acquired under the plan are purchased on market and are held in trust for up to 10 years. Shares are subject to a minimum 1 year restriction, during which the shares cannot be traded, and are subject to forfeiture for serious misconduct. All costs associated with the plan are met by the Company.

SECTION C. EXECUTIVE REMUNERATION STRUCTURE

C1. REMUNERATION GUIDING PRINCIPLES

ANZ's reward policy guides the Compensation & Human Resources Committee and management in shaping remuneration strategies and initiatives.

The following principles underpin ANZ's reward policy:

1. Focus on creating and enhancing value for ANZ's shareholders;
2. Differentiation of individual rewards commensurate with contribution to overall results and according to individual accountability, performance and potential;
3. Significant emphasis on at risk components of total rewards linked to the enhancement of shareholder value through improvements in Economic Value Added (EVA); and
4. The provision of a competitive reward proposition to successfully attract, motivate and retain the highest quality individuals required to deliver ANZ's business and growth strategies.

During 2005 a comprehensive review of reward structures has been conducted against the backdrop of these principles and against the Company's growth strategy and corporate governance principles. As a result, a number of changes have been made. These changes are detailed in section C4.

Shareholding Guidelines

Direct Reports to the CEO are expected to accumulate ANZ shares, over a five year period, to the value of 200% of their Total Employment Cost (TEC) and to maintain this shareholding while an executive of ANZ. Our next most senior executives are expected to accumulate ANZ shares to the value of 100% of their TEC and to maintain this shareholding while an executive of ANZ. This guideline was introduced in June 2005. New executives will be expected to accumulate the required holdings within five years of appointment.

C2. REMUNERATION STRUCTURE OVERVIEW

ANZ's reward structures are designed to meet the needs of ANZ's specialised business units as well as the markets in which they operate. As a result, the mix of remuneration components can vary across the organisation although, where practicable, ANZ applies structures and opportunities on a consistent basis for similar roles and levels. There is a strong emphasis on variable remuneration opportunities with total employee remuneration differentiated significantly on the basis of performance.

The executive remuneration program (which includes the remuneration of senior managers and the company secretaries) is designed to support the reward principles detailed in section C1, and to underpin the Company's growth strategy. This program aims to differentiate remuneration on the basis of achievement against group, business unit and individual performance targets which are aligned to sustained growth in shareholder value using a balanced scorecard approach.

The program comprises the following components:

fixed remuneration component (TEC): salary, non-monetary benefits and superannuation contributions (Refer to C3).

variable or at risk component (Refer to C4):

Short-Term Incentive (STI); and

Long-Term Incentive (LTI).

The relative weighting of fixed and variable components, for target performance, is set according to the size of the role and competitive market in which the role operates, with the proportion of remuneration at risk increasing for the most senior or complex roles, or for those roles where there is strong market pressure to provide greater levels of remuneration. Figure 1 below shows the relative mix of Fixed, STI and LTI at target payment levels.

Fixed remuneration is set around the median of the market. STI and LTI payments for on target performance are also set at market median, however the plan design allows for the opportunity to earn upper quartile total remuneration for significant out performance, and significantly reduced payment for underperformance. In this way the remuneration structure is heavily weighted towards reward for performance.

C3. FIXED REMUNERATION

For most executives, fixed remuneration consists of what is referred to as Total Employment Cost (TEC). TEC comprises cash salary, a superannuation contribution, and the remainder as nominated benefits. The types of benefits that can be packaged by executives include novated car leases, additional superannuation contributions, car parking, child care, laptops and contributions towards the Employee Share Save Scheme (see note 49 of the 2005 Financial Report for details of the Employee Share Save Scheme).

To ensure fixed remuneration remains competitive, the TEC component of executive remuneration is reviewed annually based on individual performance and market data. ANZ operates with a midpoint targeted to the market median being paid in the finance industry in the relevant global markets in which ANZ operates, and a range around this midpoint. International remuneration levels are considered in assessing market competitiveness where an executive's primary place of residence is outside of Australia or New Zealand, in which case the local market is considered.

FIGURE 1

Target Reward Mix

-
- (1) Specified Executives' reward mix pertains to Dr R J Edgar, E Funke Kupper, B C Hartzler, G K Hodges, P R Marriott and S Targett. Refer to E2 for composition of Sir J Anderson's remuneration
 - (2) The reward mix for larger senior executive roles and smaller senior executive roles is based on average data

C4. VARIABLE REMUNERATION

Variable remuneration forms a significant part of executives' potential remuneration, providing an at-risk component that is designed to drive performance in both the short-term (annually) and in the medium and long-term (over 3 years or more).

The opportunities available to executives under ANZ's variable reward programs are calibrated to reflect executives' potential impact on the business, to manage internal relativities, and to ensure competitiveness in the relevant markets in which they operate.

Most executives participate in the short-term incentive (STI) plan detailed in section C4.1 and the long-term incentive (LTI) plan detailed in section C4.2, subject to individual performance thresholds. In some instances, customised STI plans will exist for executives to ensure closer alignment of their rewards with business objectives and market practice. For example, staff in ANZ's Institutional Division participate in a customised incentive plan more closely aligned with that market. No executive, however, may participate in more than one STI plan.

Equity allocated under ANZ incentive schemes remain at risk until fully vested (in the case of Deferred Shares) or are exercisable (in the case of options or Performance Rights). As such, it is a condition of grant that no schemes are entered into that specifically protect the unvested value of shares, options and Performance Rights allocated. Doing so would constitute a breach of the grant conditions and would result in the forfeiture of the relevant shares or options.

C4.1 Short-Term Incentives

ANZ's STI approach supports our strategic objectives by providing rewards that are significantly differentiated on the basis of achievement against performance targets. Most executives participate in the plan explained below. All STI plans are reviewed and approved by the Compensation & Human Resources Committee.

Determination of Award Levels

The size of the overall pool available each year is determined based on ANZ Group performance against a balanced scorecard of financial and qualitative measures. This pool is then distributed amongst divisions and then individuals based on relative performance.

Each executive has a target STI which is determined according to seniority and market relativities. The size of the actual STI payment made at the end of each financial year to individuals may be at, above or below the target and this will be determined according to ANZ Group, Division and Individual Performance.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Performance objectives are set at the start of each financial year according to a balanced scorecard of measures at the Group, Division and Individual level. These measures are aligned with the achievement of ANZ's business plan, and are the most appropriate indicators of performance. Division and Individual objectives are a subset of the Group objectives, which ensures there is alignment of objectives through the executive population.

Performance objectives under ANZ's balanced scorecard include a number of qualitative and quantitative measures which include, but are not limited to:

Financial Measures including: Economic Value Added (EVA™); Revenue and Net Profit After Tax

Customer Measures including: Customer Satisfaction and Market Share

Employee Engagement, Risk Management and Compliance Measures

Environment, Health & Safety and Community Measures.

The STI is payable 100% in cash (except where specific business plans require otherwise). Executives are able to elect to sacrifice part or all of their incentive towards the purchase of ANZ shares which are restricted from sale for 12 months, or towards additional superannuation contributions.

The target STI award level for Specified Executives is 100% of TEC in 2005 (increasing from 67% of TEC), with a maximum STI award of 150% of TEC. For larger senior executive roles in the general ANZ STI plan, the target STI is 67% of TEC, with a maximum of 100% of TEC, and for smaller senior executive roles the target is 43% of TEC and the maximum 65% of TEC. Note, the target and maximum STI amounts for larger and smaller senior executive roles may vary for customised incentive schemes.

C4.2 Long-Term Incentives

Long-term incentives (LTIs) are used as a mechanism to link a significant portion of executives' remuneration to the attainment of sustained growth in shareholder value.

A comprehensive review of ANZ's Long-Term Incentive Program was conducted in 2005 which resulted in a number of changes. The annual LTI allocation to be made in November 2005 will now be delivered as 100% Performance Rights. It was previously delivered as Hurdled Options (50% of grant LTI value) and Deferred Shares (50% of grant LTI value). It was decided that the entire LTI allocation should be linked to a single long-term performance measure.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The size of individual LTI grants is determined by an individual's level of responsibility, performance and the assessed potential of the executive. Typically at the most senior levels the Target LTI value will range from around 10% to 24% of the individual's target reward mix, as shown in Figure 1 in Section C2.

Executives are advised of their LTI dollar value, which is then converted into a number of Performance Rights based on an audited valuation. ANZ engages external experts (PricewaterhouseCoopers and Mercer Finance & Risk Consulting) to independently value the Performance Right, taking into account factors including the performance conditions, life of instrument, share price at grant date etc. These valuations are then audited by KPMG. The Board then approves use of the highest value. The LTI dollar value is then divided by the approved value of the Performance Right to determine the number of rights to be allocated.

EXAMPLE

Executive granted LTI value of \$60,000

Approved Performance Right Valuation is \$10.85 per Performance Right

$\$60,000 / \$10.85 = 5,530$ Performance Rights allocated to executive

LTI allocations are made annually in or around November.

Performance Rights

(To be granted from October 2005)

A Performance Right is a right to acquire a share at nil cost, subject to satisfactorily meeting time and performance hurdles. Upon exercise, each Performance Right entitles the holder to one ordinary share. Performance Rights are ANZ's preferred LTI delivery vehicle as they provide a clearer, more tangible value to the executive, subject to satisfactorily performing relative to the performance hurdle for vesting. Performance Rights are designed to reward executives for share price growth dependent upon the Company's Total Shareholder Return (TSR) outperforming peers. TSR represents the change in the value of a share plus the value of reinvested dividends paid. TSR was chosen as the most appropriate comparative measure as it focuses on the delivery of shareholder value and is a well understood and tested mechanism to measure performance.

The TSR vesting scale is designed to ensure that executive rewards are directly linked to the Company's TSR and are therefore aligned to the outcomes experienced by other shareholders. The proportion of Performance Rights that become exercisable will depend upon the TSR achieved by ANZ relative to the companies in the comparator group (shown below) over a three-year period. There will not be any retesting feature.

Performance equal to the 50th percentile of the comparator group will result in half the Performance Rights becoming exercisable. Performance above the 50th percentile will result in further Performance Rights becoming exercisable, increasing on a straight-line basis until all of the Performance Rights become exercisable where ANZ's TSR is at or above the 75th percentile when compared with the comparator group. TSR is measured on a pro-rata basis; where ANZ's performance falls between two of the comparators, the actual relative level of TSR, rather than simple ranking, will determine the level of vesting.

An averaging calculation will be used for TSR over a 90 day period for start and end values in order to reduce share price volatility.

It should also be noted that where median performance is achieved, executives' total remuneration will typically be below market median for the financial services industry. 75th percentile performance is required for full vesting which enables executives to receive the full value of their LTI. To ensure an independent TSR measurement, ANZ engages the services of an external organisation (Macquarie Financial Services) to calculate ANZ's performance against the TSR hurdle.

The conditions under which Performance Rights are granted are approved by the Board in accordance with the rules of the ANZ Share Option Plan. Performance conditions are explained in more detail below.

Each Performance Right has the following features

The performance hurdle is tested at the end of three years;

No dividends will be payable on the Performance Rights until they vest;

A two-year exercise period that commences three years after the grant date subject to the performance hurdle being cleared;

Upon exercise, each Performance Right entitles the holder to one ordinary share;

In case of dismissal for misconduct, Performance Rights are forfeited;

In case of resignation or termination on notice, only Performance Rights that become exercisable by the end of the notice period may be exercised;

In case of retrenchment or retirement, Performance Rights will be performance tested at the date of termination, and where performance hurdles have been met, Performance Rights will be prorated and a grace period provided in which to exercise;

In case of death or total and permanent disablement, a grace period is provided in which to exercise all Performance Rights. The hurdles would be waived; and

Performance hurdle, which is explained above.

Comparator Group

The peer group of companies against which ANZ's TSR performance is measured, comprises the following companies:

AMP Limited

AXA Asia Pacific Holdings Limited

Commonwealth Bank of Australia

Insurance Australia Group Limited

Macquarie Bank Limited

National Australia Bank Limited

QBE Insurance Group Limited

St George Bank Limited

Suncorp-Metway Limited

Westpac Banking Corporation

This comparator group was chosen because it represents ANZ's key competitors in the financial services industry, are an appropriate reference group for investors and are of sufficient size by market capitalisation and weight in ASX Top 50.

Refer to Equity Instruments Transactions Section K in Note 51 for details pertaining to legacy LTI equity vehicles (which are yet to vest).

C5. PERFORMANCE OF ANZ

Table 4 shows ANZ's annual performance over the five-year period spanning 1 October 2000 to 30 September 2005. The table illustrates the impact of ANZ's performance on shareholder wealth, taking into account dividend payments, share price changes and returns on capital during the financial year.

TABLE 4

	FY 2001	FY 2002	FY 2003	FY 2004	FY 2005
Basic Earnings Per Share (EPS)	112.7	141.4	142.4	153.1	160.9
NPAT (\$m)	1,870	2,322	2,348	2,815	3,018
Total Dividend (cps)	73	85	95	101	110
Share price at 30 September (\$)	15.28	16.88	17.17	19.02	24.00
Total Shareholder Return (%)	26.2	15.3	6.7	17.0	32.6

In table 4, ANZ's Total Shareholder Return (TSR, which includes share price growth, dividends and other capital adjustments) has been shown for each individual financial year between 2001 and 2005. Figure 2 however, compares ANZ's TSR performance against the median TSR of the LTI comparator group and the S&P/ASX 200 Banks Accumulation Index over the 2000 to 2005 measurement period. The difference between S&P/ASX 200 Banks Accumulation Index and the median of ANZ's comparator group over the 2004 and 2005 financial years is due to the weightings in the Index of the large banking institutions that have underperformed comparatively during this period; whereas the organisations in ANZ's comparator group are weighted evenly.

SECTION D. CHIEF EXECUTIVE OFFICER'S REMUNERATION

D1. CEO REMUNERATION OVERVIEW

The structure of J McFarlane's remuneration, which is in accordance with his employment agreement, is as follows:

Fixed Remuneration: Consists of salary, benefits and superannuation contributions. Since October 2003, J McFarlane has elected to receive almost all of his Fixed Remuneration in the form of shares purchased under the Directors' Share Plan. These shares are not subject to a performance condition as they are provided in place of cash remuneration at the CEO's choice. However, they are subject to forfeiture in case of termination for serious misconduct.

Short-Term Incentive: The Board sets J McFarlane's balanced scorecard at the beginning of the financial year. The Board then assesses performance against these objectives at the end of the year. These objectives are aligned with the achievement of ANZ's business plan, and are the most appropriate indicators of performance. These objectives include a number of quantitative and qualitative measures, which include (but are not limited to) financial, customer, people, environment and community measures. J McFarlane's STI may be paid in cash or in shares purchased under the Directors' Share Plan. J McFarlane has typically elected to receive shares.

Long-Term Incentive: J McFarlane's Long-Term Incentive is made up of Hurdled Options and Performance Shares as approved by shareholders at the 2001 and 2004 Annual General Meetings respectively. The performance conditions pertaining to the options issued during the year are indicated in Equity Instruments Transactions Section K1 Hurdled A options of Note 51.

The remuneration of J McFarlane for the year ended 30 September 2005 is set out in Table 1 in Section A. The mix of remuneration for J McFarlane under his current contract is made up as follows:

Fixed Remuneration of \$2,000,000 per annum;

Target variable Short-Term Incentive of \$2,000,000 per annum;

Long-Term Incentive of \$2,600,000 (one allocation only (based on valuation of 175,000 performance shares at issue)).

Shareholding Guideline

The Chief Executive Officer of ANZ is expected to accumulate ANZ shares, over a five year period, to the value of 200% of his Fixed Remuneration and to maintain this shareholding while CEO of ANZ. This shareholding guideline was introduced in September 2005 and adherence to this guideline will be regularly monitored.

D2. CEO S CONTRACT TERMS

On 26 October 2004, the Company announced an extension to J McFarlane s contract:

The term of the contract was extended by one year to 30 September 2007;

In addition to mandatory superannuation contributions, the Company makes additional employer contributions of \$300,000 per annum (effective from 1 October 2003), paid quarterly to J McFarlane s chosen superannuation fund; and

J McFarlane was granted 175,000 Performance Shares on 31 December 2004.

A separate agreement, made on 23 October 2001, provides for reimbursements to J McFarlane for any additional tax liabilities that may arise on his UK Pension Plan holdings as a result of his continuing Australian residency. Under this agreement, ANZ reimburses J McFarlane for any additional tax liability incurred on his UK Pension Plan during his employment with ANZ, arising as a consequence of Australian Foreign Investment Fund rules. In the event of decreased Australian tax liabilities due to a decreased value in J McFarlane s UK Pension Plan, the reduced liability will be used to offset potential subsequent reimbursements.

D3. CEO S RETIREMENT AND TERMINATION BENEFITS

In accordance with J McFarlane s contract variation (refer section D2), J McFarlane s nominated superannuation fund receives \$300,000 per annum (effective from 1 October 2003, paid quarterly) in addition to mandatory superannuation contributions.

J McFarlane can terminate his employment agreement by providing 12 months notice. ANZ may terminate the employment agreement by providing notice equal to the unexpired term of the employment agreement (which ends on 30 September 2007). If ANZ terminates the employment agreement without notice and thus breaches its obligation to provide the required notice, ANZ has agreed with J McFarlane that the damages payable by ANZ for breach of contract would be equal to the Total Employment Cost (TEC) that would otherwise be received over the remainder of the contract (TEC comprises salary or fees, non-monetary benefits and mandatory superannuation contributions). In circumstances of serious misconduct, J McFarlane is only entitled to payment of TEC up to the date of termination.

Payment of accumulated superannuation benefits plus statutory entitlements of long service leave and annual leave (calculated on the basis of salary or fees) applies in all events of separation.

In the event of resignation not approved by the Board or dismissal for serious misconduct, all unexercised options and Performance Shares will be forfeited. In the event of termination on notice or agreed separation, all vested options and Performance Shares must be exercised within 6 months of the termination or agreed separation date, subject to meeting the relevant performance hurdles. In the event of serious misconduct, shares held in the Directors' Share Plan will be forfeited. On resignation or termination on notice, shares held under the Directors' Share Plan will be released.

D4. CEO'S PARTICIPATION IN EQUITY PROGRAMS

Hurdled Options

At the 2001 Annual General Meeting, four tranches of options were approved for granting by the Board: 500,000 in 2001; 1,000,000 in 2002; 1,000,000 in 2003 and 500,000 in 2004. For options granted to the CEO, the exercise price is equal to the weighted average share price on the ASX during the 5 trading days immediately before or after the Company's Annual General Meeting that immediately precedes the allocation. The exercise of these options is subject to performance hurdles being satisfied. J McFarlane's specific performance hurdles, for options granted during the year, are indicated in Equity Instruments Transactions Section K1 (Hurdled A) of Note 51, and for Performance Shares in Equity Instruments Transactions Section C of Note 51. For options granted to the CEO, the life and exercise period may differ, as disclosed in Equity Instruments Transactions Section C of Note 51.

Performance Shares

175,000 Performance Shares were issued to J McFarlane on 31 December 2004 as part of his contract extension, as approved by shareholders at the 2004 Annual General Meeting. No dividends will be payable on the shares until they vest. Vesting will be subject to time and performance hurdles being satisfied as detailed in Equity Instruments Transactions Section K3 of Note 51. As these Performance Shares were granted as part of J McFarlane's contract extension, as opposed to a new contract, the conditions of grant were aligned with those of the original contract apart from the application of a TSR performance hurdle.

Directors' Share Plan

J McFarlane participates in the Directors' Share Plan, which is explained in section B3.

Please refer to Equity Instruments Transactions in Note 51 for details of grants and holdings.

SECTION E. SPECIFIED EXECUTIVES CONTRACT TERMS

Contractual terms for most executives are similar, but do, on occasion, vary to suit different needs. Section E1 details the contractual terms for those Specified Executives who are on open-ended contracts. Section E2 details the contractual terms for Sir J Anderson, who is on a fixed term contract.

E1. OPEN-ENDED CONTRACTS (Dr RJ EDGAR, E FUNKE KUPPER, BC HARTZER, GK HODGES, PR MARRIOTT, S TARGETT)

Length of Contract	Open-ended.
Fixed Remuneration	Remuneration consists of salary, mandatory employer superannuation contributions and benefits.
Short-Term Incentive	Eligible to participate. Target opportunity of 100% of Total Employment Cost (refer to section C4.1 for details of short-term incentive arrangements).
Long-Term Incentive	Eligible to participate at the Board's discretion refer to section C4.2 for long-term incentive arrangements.
Resignation	Employment may be terminated by giving 6 months written notice. On resignation any options and unvested deferred shares will be forfeited.
Retirement	On retirement, shares and options are released in full.
Termination on Notice by ANZ	ANZ may terminate the executive's employment by providing 12 months written notice or payment in lieu of the notice period based on Total Employment Cost (TEC). On termination on notice by ANZ any options or LTI deferred shares that have vested, or will vest during the notice period will be released, in accordance with the ANZ Share Option Plan Rules. LTI shares that have not yet vested will generally be forfeited, although for some executives (E Funke Kupper, BC Hartzer and PR Marriott) these shares will be released in full. Deferred shares granted under STI arrangements will vest in full for all executives. There is discretion to pay incentives on a pro-rata basis (depending on termination date and subject to business performance).
Redundancy	If ANZ terminates employment for reasons of bona fide redundancy, a severance payment will be made that is equal to 12 months TEC. All STI deferred shares are released. All options granted since 24 April 2002 are released on a pro-rata basis all prior grants may be exercised. All LTI deferred shares granted since 23 October 2002 are released on a pro-rata basis all prior grants will vest.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

There is discretion to pay incentives on a pro-rata basis (depending on termination date and subject to business performance).

Death or Total and
Permanent Disablement

All options and shares released; pro-rata incentive.

Termination for serious misconduct

ANZ may immediately terminate the executive's employment at any time without notice in the case of serious misconduct, and the employee will only be entitled to payment of TEC up to the date of termination.

On termination for serious misconduct any options and any deferred shares still held in trust will be forfeited.

Other Aspects

S Targett: Subject to continued employment and the approval of the Board, four tranches to the value of \$700,000 each of deferred shares to be granted at six month intervals in May and November in 2004 and 2005, and Hurdled Options with a value of \$750,000 granted within 3 months of commencement of employment, to compensate for the loss of equity from S Targett's previous employer. On Termination on Notice, sign-on options can be exercised as a pro-rata proportion to the period of employment. Sign-on deferred shares will vest in full, including any scheduled to be granted during the notice period.

E2. FIXED TERM CONTRACT (SIR J ANDERSON)

Length of Contract	Contract was effective from 1 December 2003 to 30 September 2005, and extended to 15 April 2006.
Fixed Remuneration	The Total Employment Cost (TEC) package is NZD1,000,000 per annum and is inclusive of employer contributions to the superannuation fund.
Short-Term Incentive	STI payments are subject to both business and individual performance. The target payment is 50% of TEC.
Equity Participation	A Zero priced option (ZPO) is a right to acquire a share at nil cost. ZPOs are granted as part of Sir J Anderson's contract under the ANZ Share Option Plan. They were designed to deliver equity to the CEO of The National Bank of New Zealand (NBNZ) and to meet the particular needs and circumstances at the time of the acquisition of NBNZ. Grants are fixed at NZD500,000 worth of ZPOs annually, granted in two tranches per annum and with a nil exercise price. The ZPOs have no time based vesting criteria, and so can be exercised at any time during employment and within 6 months of the termination of employment.
Resignation	Sir J Anderson may terminate his employment by giving 12 months' written notice. On resignation any ZPOs which have not been exercised as at the termination date will lapse.
Retirement	A policy for payment of retirement gratuities was in place with NBNZ employees prior to the acquisition by the Company of NBNZ. This policy has been continued for eligible staff who were ANZ National Bank Limited employees as at 1 December 2003, including Sir J Anderson. Under this policy, a payment will be made to Sir J Anderson on his retirement that is equal to the number of full years' service divided by 35 and multiplied by 85% of finishing salary (where finishing salary is fixed remuneration less any superannuation contribution). This value is then grossed up for tax (i.e. divided by 0.61) and from this value the total accrual value of long service leave taken is deducted.
Termination on Notice by ANZ	ANZ National Bank Limited may terminate Sir J Anderson's employment by providing notice or payment in lieu of notice equal to the unexpired term of the employment agreement (which ends on 15 April 2006). On termination on notice, any options may be exercised in accordance with the ANZ Share Option Plan Rules.
Death or Total and Permanent Disablement	Exercise any ZPOs; pro-rata incentive.
Termination for serious misconduct	ANZ National Bank Limited may terminate Sir J Anderson's employment at any time without notice for serious misconduct, and Sir J Anderson will only be entitled to payment up to the date of termination. On termination for serious misconduct any ZPOs which have not been exercised as at the termination date will lapse.

E3. PARTICIPATION IN EQUITY PROGRAMS

A number of shares and options are granted to executives under the remuneration programs detailed in Section C. For Specified Executives, details of all grants made during the year and legacy LTI programs are listed in Equity Instruments Transactions Section K, of Note 51. Aggregate holdings of shares and options are also shown. The deferred shares component of the LTI is administered under the ANZ Employee Share Acquisition Plan. For executives, the shares are deferred for three years.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The directors and specified executives shares and options disclosures are detailed in Note 51: Directors and Specified Executives Related Party Transactions.

NOTES TO THE FINANCIAL STATEMENTS

51: DIRECTORS AND SPECIFIED EXECUTIVES - RELATED PARTY TRANSACTIONS

This note covers the related party transactions (excluding remuneration information as detailed in Note 50) of the directors of the Company and the specified executives as required by AASB1046 Director and Executive Disclosures by Disclosing Entities and the Corporations Act 2001.

Australian Securities and Investments Commission (ASIC) Class Order 98/110 dated 10 July 1998 (as amended)

The directors and specified executives have been exempted, subject to certain conditions, by an ASIC class order, 98/110 dated 10 July 1998 (as amended), from making disclosures of loans regularly made, guaranteed or secured directly or indirectly by the Group to related parties or in respect of a financial instrument transaction regularly made by the Group to related parties (other than shares and share options), other than to the director or specified executive, or to an entity controlled or significantly influenced by the director or specified executive, where the loan or financial instrument transaction is lawfully made and occurs in the course of ordinary banking business either at arm's length or with the approval of a general meeting of the relevant entity and its ultimate chief entity (if any).

The class order does not apply to a loan or financial instrument transaction of which any director or specified executive should reasonably be aware that, if not disclosed, would have the potential to adversely affect the decisions made by users of the financial statements about the allocation of scarce resources.

A condition of the class order is that for each financial year to which it applies, the Company must provide evidence to ASIC that the Company has systems of internal controls and procedures which:

- i) in the case of any material financial instrument transaction, ensure that; and
- ii) in any other case, are designed to provide a reasonable degree of assurance that, any financial instrument transaction of a bank which may be required to be disclosed in the Company's financial statements and which is not entered into regularly, is drawn to the attention of the directors.

LOAN TRANSACTIONS

Details regarding loans outstanding at the reporting date to directors and specified executives including personally related parties (subject to the ASIC Class Order 98/110 (as amended) disclosure limitation as described above), where the individuals aggregate loan balance exceeded \$100,000 at any time in the reporting period, are as follows:

	Balance 1 October 2004 \$	Balance 30 September 2005 \$	Interest paid and payable in the reporting period \$	Highest balance in the reporting period \$
Directors				
Non-executive Directors				
J P Morschel	310,000	716,880	51,127	779,933
J C Dahlsen(1)	17,695,111	14,736,607	1,024,458	17,695,111
D M Gonski	18,342,000	18,342,000	1,097,742	18,342,000
Executive Directors				
J McFarlane(2)	10,349,429	6,264,681	495,517	16,249,944
Specified executives				
R J Edgar	181,814	918,284	17,001	1,130,316
E Funke Kupper	680,000	680,000	4,797(3)	680,000
B C Hartzler	2,645,581	2,703,626	163,028(3)	2,771,944
G K Hodges	1,172,688	1,019,242	61,658	2,869,921

- (1) J C Dahlsen ceased to be a director in February 2005
- (2) The loan balances as at 30 September 2005 largely relate to loans for the purchase of ANZ shares, including the exercise of options
- (3) Interest payments were reduced as a result of a linked offset account

Details regarding the aggregate of loans made, guaranteed or secured by any entity in the Group to each group of directors and specified executives including related parties (subject to the ASIC Class Order 98/110 (as amended) disclosure limitation as described above) are as follows:

	Balance 1 October 2004 \$	Balance 30 September 2005 \$	Interest paid and payable in the reporting period \$	Number in group at 30 September
Directors				
2005	46,696,540	40,060,168	2,668,844	4(3)
Specified executives				
2005	4,680,083	5,321,152	246,483	4(3)

- (3) Number in the Group includes directors and specified executive with loan balances greater than zero

Loans made to the non-executive directors are made in the course of ordinary business on normal commercial terms and conditions. Loans to the executive director are made pursuant to the Executive Directors Loan Scheme authorised by shareholders on 18 January 1982, on the same terms and conditions applicable to other employees within the Group in accordance with established policy.

No amounts have been written down or recorded as allowances, as the balances are considered fully collectible.

OTHER TRANSACTIONS OF DIRECTORS AND SPECIFIED EXECUTIVES

Other transactions (other than shares and share options)

Under the ASIC class order referred to above, disclosure of other transactions regularly made by the Group is limited to disclosure of such transactions with a director of the Company, specified executives of the Group and to an entity controlled or significantly influenced by the directors and specified executives, on the basis the transactions are:

on arm's length terms and conditions no more favourable than those entered into by other employees or unrelated customers;

information about them does not have the potential to affect adversely decisions about the allocations of scarce resources made by users of the financial report, or the discharge of accountability by the director or specified executive; and

are deemed trivial or domestic in nature.

Transactions between the directors, specified executives and related entities and the Group during the financial year were in the nature of normal personal banking, debentures, investment and deposit transactions. These transactions occurred on an arm's length basis and on normal commercial terms and conditions no more favourable than those given to other employees or customers and were trivial and domestic in nature.

EQUITY INSTRUMENTS TRANSACTIONS

The Company equity instruments and transactions relating to the Directors of the Company and the Corporations Act 2001 and AASB 1046 specified executives of the Group and Company are detailed as follows:

A. SHAREHOLDINGS OF NON-EXECUTIVE DIRECTORS (INCLUDING MOVEMENTS DURING THE YEAR)

Name	Balance of shares as at 1 October 2004(1)	Shares acquired during the year in lieu of salary(2)	Shares resulting from any other change during the year(3)	Balance of shares held as at 30 Sept 2005(1),(4)	Balance of shares held as at Financial Report sign-off date(1)
CB Goode	502,464	20,781	12,392	535,637	559,451
GJ Clark	2,000			2,000	3,766
JC Dahlsen (retired 3 February 2005)	121,915		(8,441)	113,474	113,474
RS Deane	75,364			75,364	75,364
JK Ellis	84,476	1,703	5,017	91,196	92,658
DM Gonski	52,612	2,055	237	54,904	57,217
MA Jackson	93,297			93,297	93,297
DE Meiklejohn	4,185		2,141	6,326	6,326
JP Morschel	4,000	1,502		5,502	7,268
BW Scott (retired 23 April 2005)	72,475		(6,494)	65,981	65,981

(1) Balance of shares held at 1 October 2004, 30 September 2005 and 2 November 2005 (Financial Report sign-off date), includes directly held shares, nominally held shares and shares held by personally related entities.

(2) All shares acquired in lieu of salary were done so under the Directors Share Plan (refer to Section B3 of Note 50, for an overview of the Directors Share Plan).

(3) Other shares resulting from any other changes during the year include the net result of any shares purchased, sold or acquired under the Dividend Reinvestment Plan.

(4) The following shares were nominally held as at 30 September 2005: CB Goode 141,860; RS Deane 73,000; JK Ellis 23,900; DM Gonski 52,159; MA Jackson 10,632; DE Meiklejohn 2,656; JP Morschel 1,502.

B. SHAREHOLDINGS OF CHIEF EXECUTIVE OFFICER (CEO) (INCLUDING MOVEMENTS DURING THE YEAR)

Balance of	Shares acquired	Performance	Value of performance	Shares acquired during the year	Shares resulting from any other	Balance of shares	Balance of shares held as at
------------	-----------------	-------------	----------------------	---------------------------------	---------------------------------	-------------------	------------------------------

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

shares as at 1 Oct 2004(1)	during the year in lieu of salary(2)	shares granted during the year(3),(4)	shares granted during the year(5) \$	through the exercise of options(6)	change during the year(7)	held as at 30 Sep 2005(1),(8)	Financial Report sign-off date(1)
1,690,507	89,995	175,000	2,628,500	500,000	(635,787)	1,819,715	1,820,056

(1) Balance of shares held at 1 October 2004, 30 September 2005 and 2 November 2005 (Financial Report sign-off date) includes directly held shares, nominally held shares and shares held by personally related entities.

(2) All shares acquired in lieu of salary were done so under the Directors' Share Plan (refer to Section B3 of Note 50) for an overview of the Directors' Share Plan).

(3) The grant of performance shares on 31 December 2004 was approved by shareholders at the 2004 AGM, with the earliest vesting date being 31 December 2006. Refer to Section K3 for further details.

(4) Nil performance shares forfeited or vested. The maximum amortisation balance (i.e. 1 October 2005 to vesting date) is \$1,645,513 for subsequent financial years, however the value will be nil if the minimum performance hurdle is not achieved.

(5) The fair value of performance shares granted during the year is based on the fair value of the shares as at 31 December 2004 (\$15.02) multiplied by the number granted.

(6) All options held/exercised by the CEO have been approved by shareholders (December 1999 and December 2001).

(7) Other shares resulting from any other changes during the year includes the net result of any shares purchased, sold, or acquired under the Dividend Reinvestment Plan. It also includes those shares received on 28 October 2004 in regards to the 2004 incentive (for the period ending 30 September 2004).

(8) 1,270,176 shares were held nominally as at 30 September 2005.

C. OPTIONS GRANTED TO CEO(1)

Type of options	Grant date	First date exercisable	Date of expiry(4)	Exercise price(5) \$	Number granted(6),(7)	Number vested during the year	Percentage that vested during the year%	Vested and exercisable as at 30 Sep 2005	Vested and unexercisable as at 30 Sep 2005

(1) All options held/exercised by the CEO have been approved by shareholders (December 1999 and December 2001).

(2) The options may be exercised only if the ANZ Accumulation Index over the period from the date on which the options are granted to the last trading day of any month occurring during the relevant exercise period equals or exceeds the ASX 100 Accumulation Index calculated over the same period. Refer to Section K1 for Hurdled A details.

(3) The fair value per option at the 31 December 2004 grant date is \$1.98. Refer to Section I for details of the valuation methodology and inputs.

(4) Treatment of options on termination of employment is explained in Section D3 of Note 50.

(5) The exercise price is equal to the weighted average share price during the 5 trading days immediately after the Company's Annual General Meeting. Note, the original exercise price of options issued prior to the Renounceable Rights issue in November 2003, have been reduced by 72 cents because of the dilution of share capital associated with the Renounceable Rights issue.

(6) Nil options forfeited or expired during the period.

(7) The maximum amortisation balance (i.e. 1 October 2005 to vesting date) is \$885,321 for subsequent financial years, however the value will be nil if the minimum performance hurdles are not achieved.

D. OPTION HOLDINGS OF CEO (INCLUDING MOVEMENTS DURING THE YEAR)(1)

Balance as at 1 Oct 2004	Granted during the year as remuneration	Value of options granted during the year(2) \$	Exercised during the year	Date of exercise of options	Number of ordinary shares issued on exercise of options	Value of options exercised during the year(3) \$	Share price on date of exercise of options \$	Amount paid per share \$	Balance as at 30 Sep 2005	Total value of options granted and exercised during the year \$
3,000,000	500,000	990,000	500,000	08-Aug-05	500,000	2,530,000	21.54	16.48	3,000,000	3,520,000

- (1) All options held/exercised by the CEO have been approved by shareholders (December 1999 and December 2001).
- (2) The value of options granted during the year is based on the fair value of the option (\$1.98) multiplied by the number granted. Refer to section I. for details of the valuation methodology and inputs.
- (3) The value per option used in this calculation is based on the difference between the volume weighted average price of the Company's shares traded on the ASX on the day the options were exercised, and the exercise price. This is then multiplied by the number granted.

(1) Deferred shares issued as STI shares were granted under a historical ANZ Short-Term Incentive Program and relate to those deferred shares vested during the year and those yet to vest (STI is now delivered generally as 100% cash, therefore no STI deferred shares were granted to Specified Executives during the year. Refer Section C4.1 of Note 50). The shares are restricted for 3 years and may be held in trust for up to ten years

(2) Nil shares forfeited during the year

(3) The maximum amortisation balance (i.e. 1 October 2005 to vesting date) for each Specified Executive for subsequent financial years is as follows: Dr RJ Edgar \$141,285; E Funke Kupper \$135,693; BC Hartzer \$125,786; GK Hodges \$106,248; PR Marriott \$167,451

Other Deferred Shares(1)

Name	Grant date	Vesting date	Number granted(2),(3)	Value of deferred shares granted during the year(4) \$	Number that vested during the year	Percentage that vested during the year %
S Targett	11-May-04	11-May-07	38,419	n/a		
	05-Nov-04	05-Nov-07	35,105	726,659		
	13-May-05	13-May-08	32,080	707,339		
Total			105,604	1,433,998		

1 Other deferred shares issued to S Targett relate to the issue of deferred shares (four tranches to the value of \$700,000 each to be issued at 6 month intervals in May and November in 2004 and 2005, subject to Board approval and continuing employment) to compensate S Targett for the loss of access to equity as a result of his resignation from his previous employer

2 Nil shares forfeited during the year

3 The maximum amortisation balance (i.e. 1 October 2005 to vesting date) is \$1,498,908 for subsequent financial years

4 The value of deferred shares granted during the year is based on the volume weighted average price of the Company's shares traded on the ASX on the day the shares were granted, multiplied by the number granted

(1) Options granted to Specified Executives pertains to these options granted, vested or exercised during the year, options yet to vest and any unexercised options

(2) Refer to Section K1 for more details pertaining to hurdled A, hurdled B and index linked options. Refer to Section E2 of Note 50, for further information on zero priced options granted to Sir J Anderson

(3) Treatment of options on termination of employment is explained in Section E of Note 50

(4) The exercise price is equal to the weighted average share price over the 5 trading days up to and including the grant date. Note, the original exercise price of options issued prior to the Renounceable Rights issue in November 2003, have been reduced by 72 cents because of the dilution of share capital associated with the Renounceable Rights issue. Given index-linked options have a dynamic exercise price, the original exercise price is shown in G (refer to Section K1 for more details)

(5) No additional options were granted in the period up to and including 2 November 2005, and nil options forfeited or expired

(6) The maximum amortisation balance (i.e. 1 October 2005 to vesting date) for each Specified Executive for subsequent financial years is as follows: Dr RJ Edgar \$266,582; E Funke Kupper \$218,793; BC Hartzer \$272,560; GK Hodges \$232,767; PR Marriott \$309,425; S Targett \$493,628. The value will be nil however, if the minimum

performance hurdles are not achieved

- (7) Refer to section I for details of the valuation methodology and inputs
- (8) S Targett was granted Hurdled Options to compensate for the loss of equity from S Targett's previous employer

(3) Nil options lapsed during the year

(4) Other refers to share options granted to a personally related entity. 11,000 of these options were vested and exercisable as at 30 September 2005

I. OPTION VALUATIONS

Option type	Grant date	Option value(1) \$	Exercise price (5 day VWAP) \$	Share price at grant \$	ANZ expected volatility(2) %	Option term (years)	Vesting period (years)	Expected life (years)	Expected dividend yield(3) %	Riskfree interest rate(4) %
Hurdled	05-Nov-04	2.50	20.68	20.70	18.50	7	3	3	5.30	5.24
Hurdled (CEO)	31-Dec-04	1.98	20.49	20.56	16.50	4	2	2	5.50	5.10
Zero-priced	05-Nov-04	20.70		n/a	n/a	2		n/a	n/a	n/a
Zero-priced	13-May-05	22.05		n/a	n/a	2		n/a	n/a	n/a

(1) The Binomial Option Pricing Model (the model) is used to assess the value of ANZ's options (other than zero priced options, for which the value is the volume weighted average price of the Company's shares traded on the ASX on the day the options were granted). The model utilises probability theory to determine the value of an ANZ option based on likely share prices at the expiry date of the option. In accordance with AASB 1046 and 1046A, the model reflects both the performance hurdles that currently apply to the Hurdled Options and the non-transferability of the options. Under the terms of the Options, the hurdle conditions (outlined in section K) must be met before the options may be exercised during the exercise period

(2) Expected volatility represents a measure of the amount by which ANZ's share price is expected to fluctuate over the life of the options. The measure of volatility used in the model is the annualised standard deviation of the continuously compounded rates of return on the historical share price over a defined period of time preceding the date of grant. This historical average annualised volatility is then used to estimate a reasonable expected volatility over the expected life of the options

(3) In estimating the fair value of the ANZ option grant, expected dividends were included in the application of the model. The expected dividend yield applied to the model was based on an analysis of ANZ's historical dividend payments and yields

(4) The risk-free interest rate is based on the implied yield currently available on zero-coupon bonds issued by the Australian government, with a remaining term equal to the expected life of ANZ's options

J. PERFORMANCE SHARE VALUATION

Share type	Grant date	Share value(1) \$	Share price at grant \$	ANZ expected volatility(2) %	Term of shares (years)	Vesting period (years)	Expected life (years)	Expected dividend yield(3) %	Risk free interest rate(4) %
CEO Performance Shares	31-Dec-04	15.02	20.56	16.50	5	2	2	5.40	5.00

- (1) The Binomial Pricing Model (the model) is used to assess the value of the Performance Shares. In accordance with AASB 1046 and 1046A, the model utilises probability theory to determine the value of the performance shares which also reflects the performance hurdle. Under the terms of the performance shares, the hurdle conditions (outlined in Section K) must be met before the shares can vest
- (2) Expected volatility represents a measure of the amount by which ANZ's share price is expected to fluctuate over the life of the options. The measure of volatility used in the model is the annualised standard deviation of the continuously compounded rates of return on the historical share price over a defined period of time preceding the date of grant. This historical average annualised volatility is then used to estimate a reasonable expected volatility over the expected life of the performance shares
- (3) In estimating the fair value of the performance shares, expected dividends were included in the application of the model. The expected dividend yield applied to the model was based on an analysis of ANZ's historical dividend payments and yields
- (4) The risk-free interest rate is based on the implied yield currently available on zero-coupon bonds issued by the Australian government, with a remaining term equal to the expected life of the performance shares

K. LEGACY LONG TERM INCENTIVE (LTI) PROGRAMS

K1 Options (Granted prior to October 2005)

Each option has the following features:

An exercise price (or for index-linked options, the original exercise price) that is set equal to the weighted average sale price of all fully paid ordinary shares in the Company sold on the Australian Stock Exchange during the 1 week prior to and including the date of grant;

A maximum life of 7 years and an exercise period that commences 3 years after the date of grant, subject to performance hurdles being cleared. Options are re-tested monthly (if required) after the commencement of the exercise period;

Upon exercise, each option entitles the option-holder to one ordinary share;

In case of resignation or termination on notice or dismissal for misconduct: options are forfeited;

In case of redundancy: options are pro-rated and a grace period is provided in which to exercise the remaining options (with hurdles waived, if applicable);

In case of retirement, death or total and permanent disablement: A grace period is provided in which to exercise all options (with hurdles waived, if applicable); and

Performance hurdles, which are explained below for each type of option.

Hurdled Options (Hurdled B) (Granted November 2004)

In November 2004 hurdled options were granted with a relative Total Shareholder Return (TSR) performance hurdle attached.

The proportion of options that become exercisable will depend upon the TSR achieved by ANZ relative to the companies in the comparator group shown below. Performance equal to the median TSR of the comparator group will result in half the options becoming exercisable.

Performance above median will result in further options becoming exercisable, increasing on a straight-line basis until all of the options become exercisable where ANZ's TSR is at or above the 75th percentile in the comparator group.

AMP Limited

AXA Asia Pacific Holdings Limited Commonwealth Bank of Australia Insurance Australia Group Limited Macquarie Bank Limited National Australia Bank Limited QBE Insurance Group Limited St George Bank Limited Suncorp-Metway Limited Westpac Banking Corporation

Hurdled Options (Hurdled A) (Granted to Executives from February 2000 until July 2002, and from November 2003 until May 2004. Granted to CEO from December 2001 until December 2004.)

Until May 2004, hurdled options were granted to executives with the following performance hurdles attached. The following performance hurdles also pertain to the options granted to the CEO during the year:

1. Half the options may only be exercised once ANZ's TSR exceeds the percentage change in the S&P/ASX 200 Banks (Industry Group) Accumulation Index, measured over the same period (since issue) and calculated as at the last trading day of any month (once the exercise period has commenced); and
2. The other half of hurdled options may only be exercised once the ANZ TSR exceeds the percentage change in the S&P/ASX 100 Accumulation Index, measured over the same period (since issue) and calculated as at the last trading day of any month (once the exercise period has commenced).

Index-linked options (Granted from October 2002 to May 2003)

Index-linked options have a dynamic exercise price that acts as a built-in performance hurdle, i.e. the exercise price is adjusted in line with the movement in the S&P/ASX 200 Banks (Industry Group) Accumulation Index (excluding ANZ). As an additional constraint, the adjusted exercise price can only be set at or above the original exercise price. They are exercisable between the 3rd and 7th year after grant date, subject to the adjusted exercise price being above the prevailing share price.

K2 Deferred Shares

(Granted from February 2000)

Deferred Shares granted under the Long Term Incentive (LTI) arrangements were designed to reward executives for superior growth whilst also encouraging executive retention and an increase in the Company's share price.

Shares are subject to a time-based vesting hurdle of 3 years, during which time they are held in trust;

During the deferral period, the employee is entitled to any dividends paid on the shares;

Shares issued under this plan may be held in trust for up to 10 years;

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The value used to determine the number of LTI deferred shares to be allocated has been based on the volume weighted average price of the shares traded on the ASX in the week leading up to and including the date of issue;

In case of resignation or termination on notice or dismissal for misconduct: LTI shares are forfeited;

In case of redundancy: the number of LTI shares that are released is pro-rated according to the time held as a proportion of the vesting period; and

In case of retirement, death or total & permanent disablement: LTI shares are released to executives.

Deferred Shares no longer form part of ANZ's Senior Executive LTI program, however there may be circumstances (such as retention) where this type of equity (including Deferred Share Rights) will be issued.

K3 Performance Shares

(Granted December 2004 to CEO)

In December 2004 Performance Shares were granted to the CEO of ANZ with a relative TSR performance hurdle attached. The proportion of shares that vest will depend upon the TSR achieved by ANZ relative to the companies in the comparator group shown below.

Performance equal to the median TSR of the comparator group will result in half the Performance Shares becoming exercisable. Performance above median will result in further Performance Shares becoming exercisable, increasing on a straight-line basis until all of the Performance Shares become exercisable where ANZ's TSR is at or above the 75th percentile in the comparator group. No dividends will be payable on the shares until they vest, with the earliest possible vesting date being 31 December 2006.

52: DIRECTORS OF CONTROLLED ENTITIES OF THE COMPANY - RELATED PARTY TRANSACTIONS(1)

LOAN TRANSACTIONS

Loans to executive directors of controlled entities are made pursuant to the Executive Directors' Loan Scheme authorised by shareholders on 18 January 1982. These loans were in the nature of normal personal loans and were made on the same terms and conditions applicable to other eligible employees within the Group in accordance with established policy.

OTHER TRANSACTIONS OF DIRECTORS AND PERSONALLY RELATED ENTITIES

i) Financial instrument transactions

ASIC class order 98/110 dated 10 July 1998 (as amended).

Disclosure of financial instrument transactions regularly made by a bank is limited to disclosure of such transactions with a director of the controlled entity concerned or an entity controlled or significantly influenced by the director of the controlled entity.

Financial instrument transactions between the directors of the controlled entities or their personally related entities and the Bank during the financial year were in the nature of normal personal banking, investment and deposit transactions. These transactions occurred on an arm's length basis and on normal commercial terms and conditions no more favourable than those given to other employees or customers.

ii) Transactions other than financial instrument transactions of banks

All other transactions with directors of the controlled entities of the Company and their personally related entities are conducted on arm's length terms and conditions, and are deemed trivial or domestic in nature. These transactions are in the nature of deposits, debentures, or investment transactions conducted with non-bank controlled entities.

All other transactions with directors' personally related entities occur within a normal customer or supplier relationship and are on arm's length terms and conditions.

1 Relates to all other related party disclosures not concerning directors of Australia and New Zealand Banking

Group Limited as disclosed in note 51

53: TRANSACTIONS WITH ASSOCIATES AND JOINT VENTURE ENTITIES - RELATED PARTY DISCLOSURES

During the course of the financial year the Company and the Group conducted transactions with associates and joint venture entities on normal commercial terms and conditions as shown below:

	Consolidated		The Company	
	2005 \$ 000	2004 \$ 000	2005 \$ 000	2004 \$ 000
Aggregate				
Amounts receivable from associates and joint venture entities	340,916	101,835	305,493	27,553
Interest revenue	15,920	4,078	14,464	2,422
Dividend revenue	107,298	38,353	6,647	365
Commissions received from ING Australia joint venture	122,153	87,026	114,509	80,127
Costs recovered from ING Australia joint venture	9,430	9,776	9,430	9,761

54: EXCHANGE RATES

The exchange rates used in the translation of the results and the assets and liabilities of major overseas branches and controlled entities are:

	2005		2004		2003	
	Closing	Average	Closing	Average	Closing	Average
Euro	0.6325	0.6024	0.5814	0.5968	0.5847	0.5649
Great British pound	0.4325	0.4142	0.3983	0.4054	0.4070	0.3822
New Zealand dollar	1.0998	1.0847	1.0700	1.1254	1.1431	1.1139
United States dollar	0.7623	0.7657	0.7165	0.7263	0.6795	0.6124

55: IMPACT OF ADOPTING AUSTRALIAN EQUIVALENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (AIFRS)**Management of the Group's transition to AIFRS**

For reporting periods commencing 1 October 2005, the Group is required to prepare financial statements using Australian Equivalents to International Financial Reporting Standards (AIFRS), issued by the Australian Accounting Standards Board.

On 1 October 2005, the Group commenced application of AIFRS, covering all financial systems and records. The Group will report for the first time in compliance with AIFRS when the results for the half year ending 31 March 2006 are released.

The Group is required to prepare an opening balance sheet in accordance with AIFRS as at 1 October 2004. Most accounting policy adjustments to retrospectively apply AIFRS will be made against retained earnings in this opening balance sheet. However, transitional adjustments relating to those standards for which comparatives are not required will only be made on 1 October 2005. The standards are AASB 132: Financial Instruments: Disclosure and Presentation, AASB 139: Financial Instruments: Recognition and Measurement, and AASB 4: Insurance Contracts.

Impact of transition to AIFRS

The key impacts identified below are based on accounting policy decisions current at the date of this financial report. Further developments in AIFRS attributable to:

- new or revised accounting standards or interpretations issued by the Australian Accounting Standards Board;
- additional guidance on the application of AIFRS to the financial industry; or

changes to the Group's operations

if any, may result in changes to accounting policy decisions made to date and, consequently, the likely impacts outlined below. Any such changes will be reflected within the Group's first AIFRS compliant statement for the half year ending 31 March 2006, or a later financial report as appropriate.

The key impacts identified below are separated between those applicable for the comparative financial year (ie from 1 October 2004), and those applicable from 1 October 2005.

All amounts are stated on an after tax basis, unless otherwise stated.

Issues with effective impact from 1 October 2004

i) Goodwill

No initial impact on retained earnings

Potential volatility in future earnings

The adoption of AIFRS does not impact the carrying amount of goodwill on transition as the Group has elected not to restate past business combinations. Under AIFRS, the past practice of systematically amortising goodwill over the expected period of benefit ceases and is replaced by impairment testing annually or more frequently if events or circumstances indicate that goodwill might be impaired. As a result, the Group amortisation expense for the AIFRS comparative financial year ended 30 September 2005 will decrease by \$224 million (including notional INGA goodwill of \$43 million).

ii) Defined benefits superannuation plan

Initial reduction in retained earnings

Actuarial movements through retained earnings

On adoption of AASB 119: Employee Benefits, surpluses (assets) and/or deficits (liabilities) that arise within defined benefit superannuation schemes will be recognised in the statement of financial position.

Under AGAAP, the Group accounts for the defined benefit superannuation schemes on a cash basis and does not currently recognise an asset or liability for the net position of the defined benefit superannuation schemes.

The Group has elected to apply the option available under AASB 119 to recognise actuarial gains and losses in the statement of financial position (i.e. the direct to retained earnings approach). The non-cash expense reflecting the notional cost of the benefits accruing to members of the defined benefit schemes in respect of service provided over the reporting period is charged to the statement of financial performance. All transitional adjustments and ongoing movements reported for each scheme will be actuarially determined in accordance with AASB 119.

At 1 October 2004, the Group will recognise a net liability position of \$142 million (Company: \$143 million) after recognising a net deferred tax asset of \$56 million (Company: \$57 million) which will be applied against retained earnings.

For the AIFRS comparative year ended 30 September 2005, a \$35 million adjustment will be made to retained earnings to recognise a decrease in the Group's pension liability, representing largely a net actuarial gain (Company: \$32 million). The impact on the statement of financial performance of moving from a contributions basis to a service cost basis is not expected to be material for either the Group and Company.

iii) Share based payments

Initial reduction in shareholders' equity

Higher ongoing expenses

The Group currently recognises immediately an expense equal to the full fair value of all deferred shares issued as part of the short term and long term incentive arrangements. The deferred shares vest over one to three years and may be forfeited under certain conditions. The Group does not currently recognise an expense for options issued to staff or for shares issued under the \$1,000 employee share plan.

On adoption of AASB 2: Share-based Payment, the Group will recognise an expense for all share based remuneration, including deferred shares and options, and will recognise this expense over the relevant vesting period.

The Group has elected to retrospectively apply AASB 2 to share based payments granted prior to 7 November 2002.

On 1 October 2004, this change in accounting policy will result in:

the establishment of a share options reserve of \$43 million (Company: \$43 million) to reflect the fair value of options granted to employees;

a reduction in paid up capital of \$49 million (Company: \$49 million), in order to reflect the fair value of vested shares;

recognition of a deferred tax liability of \$18 million (Company: \$16 million); and

a net decrease to retained earnings of \$12 million (Company: \$13 million).

<p>iii) Share based payments (continued)</p>	<p>For the AIFRS comparative year ended 30 September 2005, the impact of the change is</p> <p>expected to be:</p> <ul style="list-style-type: none"> an increase in the share options reserve of \$23 million (Company: \$23 million); an increase in paid up capital of \$41 million (Company: \$41 million); and a decrease in profit after tax of \$64 million (Company: \$57 million).
<p>iv) Fee Revenue financial service fees recognised over the period of service</p> <p>Initial reduction in retained earnings</p>	<p>Under AASB 118: Revenue, certain service type fees (such as administration fees) will be deferred and amortised over the period of service. On 1 October 2004, \$3 million (Company: \$2 million) of fees that have previously been recognised in the statement of financial performance will be recognised as a liability in the statement of financial position, with a corresponding reduction to retained earnings. For the AIFRS comparative year ended 30 September 2005, the impact of this change on the statement of financial performance for the Group and the Company are expected to be immaterial.</p>
<p>v) Securitisation</p> <p>Additional assets/liabilities recognised</p>	<p>AIFRS has introduced new requirements for the recognition of financial assets, including those transferred to a special purpose entity for securitisation. The accounting treatment of existing securitisations has been reassessed. Consequently, some vehicles, which were previously not consolidated, are being consolidated by the Group. This will result in an increase in assets and liabilities recorded within the statement of financial position of \$4,900 million as at 1 October 2004 for the Group.</p> <p>Vehicles set up for assisting customers securitise their own assets will continue to not be consolidated under AIFRS.</p> <p>For the comparative AIFRS year ended 30 September 2005, the Group will recognise a decrease of \$400 million in both assets and liabilities, reflecting the net impact of repayment and securitisation of new assets during the year.</p> <p>Within the Group statement of financial performance, income and expenses will be increased to recognise the income and expense items recorded within these vehicles. The overall impact on net profit is expected to be immaterial.</p>
<p>vi) Foreign currency translation reserve</p> <p>Initial increase in retained earnings no change to shareholders equity</p>	<p>The Group has elected to apply the option under AASB 121: The Effects of Changes in Foreign Exchange Rates, to reset amounts recorded within the Foreign currency translation reserve to zero. On 1 October 2004, adopting this election will result in an increase in retained earnings of \$218 million and \$233 million for the Group and the Company respectively.</p>
<p>vii) Asset revaluation reserve balance relating to land and buildings</p>	

Initial increase in retained earnings

The Group has elected to apply the option under AASB 1: First time Adoption of Australian Equivalents to International Financial Reporting Standards , to recognise the value of Land and Buildings at deemed cost. As a result, the Group and the Company Asset revaluation reserve of \$31 million relating to Land and Buildings will be reset to zero as at 1 October 2004 and adjusted against retained earnings.

no change to shareholders' equity

viii)

Taxation

Change in methodology

Under AASB 112: Income taxes , a balance sheet method of tax effect accounting will be adopted, replacing the statement of financial performance approach currently used by the Group.

Immaterial impacts

Income tax expense comprises current and deferred taxes, with income tax expense recognised in the statement of financial performance, or recognised in equity to the extent that it relates to items recognised directly in equity.

viii)	Taxation (continued)	<p>Deferred tax is calculated using the balance sheet method by determining temporary</p> <p>differences between the carrying amount of assets and liabilities for financial reporting</p> <p>purposes and the tax base of those assets and liabilities as used for taxation purposes.</p> <p>At 1 October 2004, an additional net deferred tax asset of \$14 million (Company: \$11 million) will be recognised with a corresponding increase to retained earnings.</p>
ix)	Intangible assets software	<p>No impact on earnings</p> <p>Reclassification only</p> <p>Capitalised software assets will be reclassified from Premises and Equipment to a separately identifiable intangible asset on transition to AIFRS. For the Group, this will result in a reclassification of \$430 million (Company: \$375 million) as at 1 October 2004. There will be no impact on the statement of financial performance.</p>
x)	Business Combinations	<p>No impact</p> <p>At 1 October 2004, the Group has elected under AASB 1: First time Adoption of Australian Equivalents for International Financial Reporting Standards , to not restate the classification and accounting treatment of business combinations that occurred prior to 1 October 2004.</p>
Issues with effective impact from 1 October 2005		
xi)	Credit loss provisioning	<p>AASB 139: Financial Instruments: Recognition and Measurement adopts an incurred loss approach for credit loss provisioning and provides guidance on the measurement of incurred losses. Provisions are raised for losses that have already been incurred for exposures that are known to be impaired. The estimated losses on these impaired exposures are then discounted to their present value. As this discount unwinds during the period between recognition of impairment and recovery of the written down amount, it is recognised in the statement of financial performance as interest income.</p> <p>The current General Provision in the statement of financial position will be replaced on</p> <p>adoption of AIFRS by a Collective Provision.</p> <p>Exposures not individually known to be impaired are placed into pools of similar assets with similar risk characteristics to be collectively assessed for losses that have been incurred, but not identified yet. The required provision is estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the collective pool. The historical loss experience is adjusted based on current observable data.</p> <p>The Collective Provision under AIFRS shares the same underlying measurement objectives as the current General Provision. However, as a result of the application of a new estimation methodology, certain judgemental risk measures have changed.</p>

The Group believes that the resulting Collective Provision, while lower than the current General Provision, comfortably falls within the probable range of losses that have been incurred but not identified in our portfolio.

On adoption of AIFRS, the current Economic Loss Provisioning (ELP) charge to profit will be replaced by a charge for individual provisions on impaired exposures together with a charge for movements in the Collective Provision.

As a result of these changes:

at 1 October 2005, there will be a reduction of \$6 million to retained earnings for the Group (Company: \$3 million) relating to individual provisions on impaired exposures as a result of discounting estimated future cash flows;

at 1 October 2005, the Collective Provision for the Group will be \$307 million less than the AGAAP General Provision (Company: \$151 million). After tax, this will result in an increase to retained earnings of \$197 million at 1 October 2005 (Company: \$102 million). Due to current uncertainty around AIFRS accounting interpretations and the development of Australian industry practice in this area, this Collective Provision on impaired exposures may be subject to further refinement;

individual provisions and movements in the Collective Provision will be charged direct to the statement of financial performance, driving increased earnings volatility; and

movements in the Collective Provision will be driven by changes in portfolio size, portfolio mix, credit risk and economic cycles.

xii) Fee Revenue financial service fees recognised as an adjustment to yield

Initial reduction in retained earnings

Under AASB 139: Financial Instruments: Recognition and Measurement, fee income (such as loan approval fees) integral to the yield of an originated financial instrument (such as loans and advances measured at amortised cost), net of any direct incremental costs, will be capitalised and deferred over the expected life of the financial instrument.

On 1 October 2005, certain fees that have previously been recognised in the statement of financial performance, will be deferred and recognised against net loans and advances in the statement of financial position with a corresponding reduction to retained earnings. The impact will be \$266 million and \$195 million for the Group and the Company respectively. The annual impact on net profit from this change is not expected to be material. However, there will be an increase in interest income (offset by a reduction in fee income) and a reclassification to interest earning assets of customer's liabilities for acceptances of \$13,449 million.

xiii) Derivative financial instruments including hedging

Initial reduction in retained earnings

Volatility in future earnings

New assets and liabilities recognised

Under AIFRS, all derivative financial instruments, including those used as hedging instruments, will be measured at fair value and recognised in the statement of financial

position. This will require an adjustment to reflect the market value of counterparty risk in the fair value of derivatives. This will result in a decrease in retained earnings of \$24 million and \$22 million at 1 October 2005 for the Group and Company respectively. (Under AGAAP, counterparty risk is notionally allowed for as part of the General Provision.)

At 1 October 2005, recognition of the fair value of derivatives relating to securitisation vehicles and structured finance transactions will reduce retained earnings by \$64 million for the Group (Company: \$50 million). The Group continues to evaluate hedging relationships and effectiveness for certain structured finance transactions, which may introduce volatility within the statement of financial performance. Accordingly, the likely AIFRS impact cannot be reliably estimated at present.

AIFRS permits hedge accounting (if certain criteria are met) for fair value hedges, cash flow hedges and hedges of investments in foreign operations. Fair value and cash flow hedge accounting can only be considered where prospective and retrospective effectiveness tests are met and the hedge relationship has been adequately documented. Ineffectiveness precludes the use of hedge accounting. The Group uses cash flow and fair value hedging in respect of its interest rate risk exposures.

As at 1 October 2005, the Group has designated certain fair value and cash flow hedges and financial liabilities as fair value through profit and loss, resulting in an increase in net assets of \$97 million (Company: decrease in net assets of \$53 million), represented by a decrease in retained earnings of \$65 million (Company: \$64 million), and an increase in reserves of \$162 million (Company: \$11 million). Any volatility through the statement of financial performance due to hedge ineffectiveness is not expected to be material.

xiv) Financial instruments classification and measurement

Certain assets reclassified and measured at fair value

Initial decrease in retained earnings

Under AIFRS, certain financial assets of the Group currently carried at amortised cost will be either:

reclassified as available for sale, resulting in measurement at fair value with movements being taken to an Available for Sale equity

reserve; or

reclassified as financial assets held at fair value through the profit and loss, with movements in fair value being taken to the statement of financial performance.

On 1 October 2005, the reclassification of financial assets as either available for sale financial assets or financial assets designated at fair value, will not result in a material adjustment for the Group and the Company.

Under AIFRS, most financial liabilities will continue to be recognised at amortised cost and, as a result, there will be no material adjustment to the statements of financial position and performance.

Financial instruments will be measured under AIFRS at bid or offer prices rather than the current use of mid prices. On 1 October 2005, this change in measurement will result in a decrease to retained earnings of \$5 million for the Group and \$4 million for the Company.

xv) Classification of hybrid financial instruments

Reclassification of ANZ StEPS from equity to debt

Under AASB 132: Financial Instruments: Disclosure and Presentation, ANZ StEPS, a hybrid Tier 1 instrument currently treated as equity, will be reclassified as debt. Prepaid issue costs, currently offset against the preference share capital balance, will be capitalised and amortised to interest over a 5 year period from the date of issue.

At 1 October 2005, an amount of \$987 million will be transferred from Preference Share Capital to Loan Capital, and capitalised prepaid issue costs of \$5 million will have been amortised. Ongoing distributions to the holders of ANZ StEPS will be treated as an interest expense in the statement of financial performance rather than as dividends.

xvi) Accounting for INGA

Initial reduction in retained earnings

Under AASB 131: Interests in Joint Ventures, and in line with current policy, the Group is required to equity account for its interest in INGA. The adoption of AIFRS by INGA will result in the following significant measurement and recognition differences to AGAAP:

increased policy liabilities resulting from a change in the discount rates applied in the actuarial calculation of policy liabilities and the separate presentation and change in basis of deferred acquisition costs (largely commissions) previously included within net policy liabilities;

write-off of the excess of the market value over net assets (EMVONA) for INGA's life insurance controlled entities, which under AIFRS will no longer be recognised, together with a reassessment of other non-allowable intangibles; and

initial entry fee income previously taken upfront will be deferred and amortised to income over time.

The Group's 49% share of INGA's net AIFRS adjustment is \$181 million, thus reducing the Group's retained earnings and the carrying value of its interest in INGA as at 1 October 2005.

Following the adoption of AIFRS, the Group's investment in INGA will also be impacted by INGA's adoption of classifying and measuring its shareholder investments as available for sale assets. This change in measurement is likely to result in a reduction in investment return volatility experienced by INGA, as only realised gains and losses will be reported in its net profit.

xvii) Accounting for ING New Zealand

Immaterial impacts

On 30 September 2005, ANZ announced its funds management and life insurance joint

venture with ING had been extended through the creation of a New Zealand joint venture. The adoption of AIFRS by ING New Zealand is not expected to have a material impact on the Group's financial statements.

Summary of Financial Impacts

A summary of the material after-tax financial impacts of conversion to AIFRS is set out in the following tables:

Table 1 represents the impact of the transition to AIFRS on Shareholders' Equity as at 1 October 2004, for those standards with an effective date of 1 October 2004.

Table 2 sets out the additional impacts on Shareholders' Equity as at 1 October 2005 including those standards with an effective date of 1 October 2005.

Table 3 sets out the expected comparative adjustment to the result for the year ended 30 September 2005.

References are provided within the tables to the detailed narrative disclosure in the section above.

56: EVENTS SINCE THE END OF THE FINANCIAL YEAR

There were no significant events from 30 September 2005 to the date of this report.

DIRECTORS DECLARATION

The directors of Australia and New Zealand Banking Group Limited declare that:

- a) in the directors opinion the financial statements and notes of the Company and the consolidated entity have been prepared in accordance with the Corporations Act 2001, including that they:
- i) comply with applicable Australian Accounting Standards, and other mandatory professional reporting requirements; and
 - ii) give a true and fair view of the financial position of the Company and of the consolidated entity as at 30 September 2005 and of their performance as represented by the results of their operations and their cash flows, for the year ended on that date; and
- b) that the directors have received the declaration under section 295A of the Corporations Act 2001; and
- c) in the directors opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The Company and certain of its wholly owned controlled entities (listed in note 47) have executed a Deed of Cross Guarantee enabling them to take advantage of the accounting and audit relief offered by class order 98/1418 (as amended), issued by the Australian Securities and Investments Commission.

The nature of the Deed of Cross Guarantee is to guarantee each creditor payment in full of any debt in accordance with the terms of the Deed of Cross Guarantee.

At the date of this declaration, there are reasonable grounds to believe that the Company and its controlled entities which executed the Deed of Cross Guarantee are able, as an economic entity, to meet any obligations or liabilities to which they are, or may become, subject by virtue of the Deed of Cross Guarantee.

Signed in accordance with a resolution of the directors.

INDEPENDENT AUDIT REPORT TO THE MEMBERS OF AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED

SCOPE

We have audited the financial report of Australia and New Zealand Banking Group Limited for the financial year ended 30 September 2005, consisting of the statements of financial performance, statements of financial position, statement of changes in shareholders' equity, statements of cash flows, accompanying notes 1 to 56 and the directors' declaration, set out on pages 2 to 108. The financial report includes the consolidated financial statements of the consolidated entity, comprising the Company and the entities it controlled at the end of the year or from time to time during the financial year. The Company's directors are responsible for the financial report.

We have conducted an independent audit of this financial report order to express an opinion on it to the members of the Company. Our audit has been conducted in accordance with Australian Auditing Standards to provide reasonable assurance whether the financial report is free of material misstatement. Our procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion whether, in all material respects, the financial report is presented fairly in accordance with Accounting Standards and other mandatory professional reporting requirements in Australia and statutory requirements so as to present a view which is consistent with our understanding of the Company's and the consolidated entity's financial position, and performance as represented by the results of their operations and their cash flows.

The audit opinion expressed in this report has been formed on the above basis.

AUDIT OPINION

In our opinion, the financial report of Australia and New Zealand Banking Group Limited is in accordance with:

- a) the *Corporations Act 2001*, including:
 - i) giving a true and fair view of the Company's and the consolidated entity's financial position as at 30 September 2005 and of their performance for the year ended on that date; and
 - ii) complying with Accounting Standards in Australia and the Corporations Regulations 2001; and
- b) other mandatory financial reporting requirements in Australia.

2 November 2005

CRITICAL ACCOUNTING POLICIES

The Group prepares its consolidated financial statements in accordance with Australian Accounting Standards and other authoritative accounting pronouncements. However, notwithstanding the existence of relevant accounting standards, there are a number of critical accounting treatments, which include complex or subjective decisions or assessments. All material changes to accounting policy are approved by the Audit Committee of the Board.

HISTORICAL CHANGES

There have been no material changes to the Group's critical accounting policies or their related methodologies over the last 3 years.

A brief discussion of critical accounting policies, and their impact on the Group, follows:

a) Economic Loss Provisioning

Description and Significance

The Group recognises an expense for credit losses provision for doubtful debts based on the average one year loss expected to be incurred if the same loan portfolio was held over an economic cycle. The provision for doubtful debts is booked to the General Provision which is maintained to cover the losses inherent in the Group's existing loan portfolio. The method used by the Group for determining the expense charge is referred to as Economic Loss Provisioning (ELP). The Group uses ELP models to calculate the expected loss by considering:

the size, composition and risk profile of the current loan portfolio; and

the history of credit losses for each loan portfolio.

Ongoing reviews

The Group regularly reviews the assumptions used in the ELP models. These reviews are conducted in recognition of the subjective nature of the ELP methodology. Methodologies are updated as improved analysis becomes available. In addition, the robustness of outcomes is reviewed considering the Group's actual loss experience, and losses sustained by other banks operating in similar markets.

To the extent that credit losses are not consistent with previous loss patterns used to develop the assumptions within the ELP methodology, the existing General Provision may be determined to be either in excess of or insufficient to cover credit losses not yet specifically identified.

As a result of the reassessments, ELP charge levels may be periodically increased or decreased with a direct impact on profitability.

As part of its review of the ELP model outputs, the Group also regularly evaluates the overall level of the General Provision. The Group is required, by APRA prudential standards, to have policies which cover the level of General Provisions that are needed to absorb estimated losses inherent in the credit portfolio. In some limited circumstances, the assessment of the inherent losses in the portfolio may require an additional charge to profits to ensure the adequacy of the General Provision. The Group considers it appropriate to maintain its General Provision in excess of the APRA guidelines.

Quantification of Sensitivity

The average charge to profit for ELP was 0.25% of average net lending assets or \$580 million (Sep 2004: 0.31% or \$632 million; Sep 2003: 0.39% or \$614 million).

As at September 2005, the balance of the General Provision of \$2,167 million (Sep 2004: \$1,992 million) represents 0.99% (Sep 2004: 1.01%) of risk weighted assets).

b) Specific Provisioning

Description and Significance

The Group maintains a specific provision for doubtful debts arising from its exposure to organisations and credit counterparties.

When a specific debt loss is identified as being probable, its value is transferred from the general provision to the specific provision. Specific provisioning is applied when the full recovery of one of the Group's exposures is identified as being doubtful resulting in the creation of a specific provision equal to the full amount of the expected loss plus any enforcement/recovery expenses.

Recoveries resulting from proceeds received from accounts which were written off in prior years are transferred back to the General Provision.

Quantification of Sensitivity

The recognition of losses has an impact on the size of the General Provision rather than directly impacting profit. However, to the extent that the General Provision is drawn down beyond a prudent amount it will be restored through a transfer from the current year's earnings. The amount of net transfer from the General Provision to the Specific Provision, net of recoveries, during the year was \$357 million (Sept 2004: \$443 million; Sep 2003: \$527 million).

c) Deferred acquisition costs, software assets and deferred income

Description and Significance

The Group recognises assets and liabilities that represent:

Deferred acquisition costs direct costs from the acquisition of interest earning assets;

Software assets direct costs incurred in developing software systems; and

Deferred income liabilities representing income received in advance of services performed.

Deferred acquisition costs Initially, expenses related to the acquisition of interest earning assets are recognised as part of the cost of acquiring the asset and written-off as an adjustment to its yield over its expected life. For assets subject to prepayment, expected life is determined on the basis of the historical behaviour of the asset portfolio, taking into account prepayments. Commissions paid to third party mortgage brokers are an example of expenditure that is deferred and amortised over the expected average life of a mortgage of 4 years.

Software assets Costs incurred in acquiring and building software and computer systems are capitalised as fixed assets and expensed as depreciation over periods of between 3 and 5 years except for the branch front end applications where 7 years is used. The carrying value of these assets is subject to a recoverable amount test to determine their value to the Group. If it is determined that the value of the asset is less than its book value, the asset is written down to the recoverable amount. Costs incurred in planning or evaluating software proposals, or in maintaining systems after implementation, are not capitalised.

Deferred income Income received in advance of the Group's performance of services or in advance of having been earned, is initially recorded as a liability. Once the recognition criteria are met, it is then recognised as income.

Quantification of Sensitivity

Deferred acquisition costs At 30 September, the Group's assets included \$524 million (Sep 2004: \$465 million) in relation to costs incurred in acquiring interest earning assets. During the year, amortisation of \$258 million (Sep 2004: \$218 million) was recognised as an adjustment to the yield earned on interest earning assets.

Software assets At 30 September, the Group's fixed assets included \$381 million (Sep 2004: \$430 million) in relation to costs incurred in acquiring and developing software. During the year, depreciation expense of \$121 million (Sep 2004: \$129 million) was recognised. Following prior periods of above average project activity which replaced significant parts of the Group's core infrastructure, the software depreciation expense is expected to stabilise going forward. Consistent with US accounting rules on software capitalisation, only costs incurred during configuration, coding and installation stages are capitalised. Administrative, preliminary project and post implementation costs including determining performance requirements, vendor selection and training costs are expensed as incurred.

Deferred income At 30 September, the Group's liabilities included \$79 million (Sep 2004: \$156 million) in relation to income received in advance. This income is largely comprised of two components: (1) fees received for services not yet completed; and (2) profit made on interest rate swaps from a shortening of the investment term of capital. Under Australian Accounting Standards, this profit is deferred and recognised when the hedged transaction occurs, or immediately if the hedged transaction is no longer expected to occur.

The balances of deferred assets and liabilities at 30 September were:

	Deferred Acquisition Costs		Software Assets		Deferred Income	
	2005 \$m	2004 \$m	2005 \$m	2004 \$m	2005 \$m	2004 \$m

- (2) Costs capitalised during the year exclude trailer commissions paid, relating to the acquisition of mortgage assets of \$83 million (2004: \$87 million)
- (3) Includes capitalised debt raising expenses

d) Derivatives and Hedging

Description and Significance

The Group buys and sells derivatives as part of its trading operations and to hedge its interest rate risk, foreign exchange risk and equity risks (in ING Australia). The derivative instruments used to hedge the Group's exposures include:

swaps;

foreign exchange contacts

forward rate agreements;

futures;

options; and

combinations of the above instruments.

The Group classifies derivatives into two types according to the purpose they are entered into: trading or hedging.

Income and loss relating to trading derivatives is reported in the statement of financial performance as trading income. The fair value of trading derivatives is recorded on a gross basis as other assets or other liabilities as appropriate unless there is a legal right of set off. The fair value of a derivative financial instrument is the net present value of future expected cash flows arising from that instrument.

In order to be classified as a hedging derivative the hedging relationship must be expected to be effective. Hedging derivatives are accounted for in the same manner as the underlying asset or liability they are hedging. For example, if the hedged instrument is accounted for using the accrual method, the hedging instrument will also be accounted for using the accrual method.

Accounting treatment Derivative instruments entered into for the purpose of hedging are accounted for on the same basis as the underlying exposures or risks.

Derivative instruments entered into to hedge exposures that are not recorded at fair value, do not have their fair values recorded in the Group's Statement of Financial Position.

Exposures hedged by derivatives not recorded at their fair value include risks related to:

revenues from and capital invested into foreign operations;

structured lending transactions;

lending assets; and

funding liabilities.

Hedge accounting is only applied when the hedging relationship is identified at the time the Group enters into the hedging derivative transaction. If a hedge ceases to be effective, the hedging derivative transaction will be recognised at fair value. Gains and losses on derivative instruments not carried at their fair value amounts are recognised at the same time as the gain or loss on the hedged exposure is booked.

Movements in the value of foreign exchange contracts that are hedging overseas operations are not recognised as income or expenses. Instead these movements are recognised in the Foreign Currency Translation Reserve together with the net difference arising from the translation of the overseas operation.

Fair value determination Derivatives entered into as part of the Group's trading operations are carried at their fair values with any change in fair value being immediately recognised as part of trading income. Where liquid markets exist, fair value is based on quoted market prices. For certain complex or illiquid derivative instruments, it may be necessary to use projections, estimates and models to determine fair value.

e) Special purpose and off balance sheet vehicles

The Group may invest in or establish special purpose entities (SPEs), to enable it to undertake specific types of transactions.

Where the Group has established SPEs which are controlled by the Group to facilitate transactions undertaken for Group purposes, these are consolidated into the Group's financial statements.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The table below summarises the main types of SPEs that are not consolidated into the Group, the reason for their establishment, and the key risks associated with them.

Type of Special Purpose Entity (SPE)	Reason for establishment	Key Risks	SPE Assets	
			2005 \$m	2004 \$m
Securitisation vehicles	<p>Assets are transferred to an SPE which funds the purchase by issuing securities.</p> <p>Enables ANZ or customers to increase diversity of funding sources.</p> <p>The amount disclosed here is the total assets of SPEs managed or arranged by ANZ. It includes SPEs that purchase assets from sellers other than ANZ.</p>	ANZ may manage securitisation vehicles, service assets in a vehicle or provide liquidity or other support and retains the risks associated with the provision of these services. Credit and market risks associated with the underlying assets are not retained or assumed by ANZ except to the limited extent that ANZ provides arm's length services and facilities.	15,181	13,013
Structured finance entities	These entities are set up to assist with the structuring of client financing.	ANZ may retain liquidity risk, if it provides liquidity support to the vehicle. ANZ may also manage these vehicles.	1,243	1,993
Managed funds	These funds invest in specified investments on behalf of clients.	INGA, INGNZ and certain subsidiaries of ANZ National Bank Limited, as managers of the funds, expose ANZ to operational and reputational risk.	44,779	39,544

f) Valuation of investment in ING Australia Limited (INGA)

Description and significance

The Group adopts the equity method of accounting for its 49% interest in INGA. As at 30 September 2005, the Group's carrying value was \$1,479 million (September 2004: \$1,697 million).

The carrying value is subject to a recoverable amount test to ensure that this does not exceed its recoverable amount at the reporting date.

Any excess of carrying value above recoverable amount is written off to the statement of financial performance.

Quantification of sensitivity

During the year the Group engaged Ernst & Young ABC Limited (EY ABC) to provide an independent valuation of INGA for 31 March 2005 assessment purposes. The valuation was a stand alone market based assessment of economic value, and excluded the Group's specific synergies and hedging arrangements. The independent valuation was based on a discounted cashflow approach, with allowance for the cost of capital. EY ABC presented an independent valuation range of \$3,458 million to \$3,727 million, reflecting a range of sales and cost base assumptions. Based on this review, ANZ believed that no change was required to the carrying value of the investment as at 31 March 2005.

A review for 30 September 2005 reporting purposes revealed there were no indicators of impairment and a further independent review was not required.

g) Valuation of goodwill in ANZ National Bank Ltd

Goodwill arising from the acquisition of National Bank of New Zealand (NBNZ) is systematically amortised over the period of time during which the benefits of the acquisition are expected to arise, such period of benefit not exceeding 20 years.

The carrying value of goodwill is reviewed at each balance date and is written down, to the extent that it is no longer supported by probable future benefits.

The Group obtained an independent valuation of ANZ National Bank Limited as at 31 March 2005. This valuation, based on a capitalisation of earnings methodology, calculated the value of ANZ National Bank Limited at a New Zealand geographic and New Zealand business unit reporting level. Based on the results of this valuation, no write-down in the carrying value of goodwill was required.

At 30 September 2005, a management review was conducted to determine whether there were any indicators of impairment in the carrying value of NBNZ goodwill. The assessment did not indicate the existence of impairment indicators and accordingly no write-down was required.

RISK MANAGEMENT

ANZ recognises the importance of effective risk management to its business success. Management is committed to achieving strong control and a distinctive risk management capability that enables ANZ business units to meet their performance objectives.

ANZ approaches risk through managing the various elements of the system as a whole rather than viewing them as independent and unrelated parts. The Risk function is independent of the business with clear delegations from the Board and operates within a comprehensive framework comprising:

The Board, providing leadership, setting risk appetite/strategy and monitoring progress.

A strong framework for development and maintenance of Group-wide risk management policies, procedures and systems, overseen by an independent team of risk professionals.

The use of sophisticated risk tools, applications and processes to execute the global risk management strategy across the Group.

Business Unit level accountability, as the first line of defence, and for the management of risks in alignment with the Group's strategy.

Independent oversight to ensure Business Unit compliance with policies, regulations and laws, and to provide regular risk evaluation and reporting.

The various risks inherent in the operations of the Group may be broadly grouped together under the following major categories:

Credit Risk

The Group has an overall lending objective of sound growth for appropriate returns. The credit risk management framework exists to provide a structured and disciplined process to support this objective.

This framework is top down, being defined firstly by the Group's Vision and Values and secondly, by Credit Principles and Policies. The effectiveness of the credit risk management framework is validated through compliance and monitoring processes. These, together with portfolio selection, define and guide the credit process, organisation and staff.

Risk Management's responsibilities for credit risk policy and management are executed through dedicated departments, which support the Group's business units. All major Business Unit credit decisions require approval by both business writers and independent risk personnel.

Market Risk

ANZ has a detailed market risk management and control framework, to support trading activities, which incorporates an independent risk measurement approach to quantify the magnitude of market risk within the trading books. This approach, along with related analysis, identifies the range of possible outcomes that can be expected over a given period of time, and establishes the relative likelihood of those outcomes.

Market risk also includes the risk that the Group will incur increased interest expense arising from funding requirements during periods of poor market liquidity (balance sheet or non-traded market risk). ANZ has a separate risk management and control framework for such risks, which is built around a Board-approved policy and limit framework.

Within overall strategies and policies, control of market risk exposures at Group level is the responsibility of Market Risk, who work closely with the Markets, and Treasury business units.

Operational Risk

Risk Management is responsible for establishing the Group's operational risk framework and associated Group-level policies. Business Units are responsible for the identification, analysis, assessment and treatment of operational risks on a day-to-day basis.

A Risk Drivers and Controls (or Scorecards) Approach to operational risk measurement is used to measure the operational risk profile of individual business units, and to allocate operational risk economic capital. This approach gives business managers a strong and clear incentive to reduce operational risk.

Compliance

ANZ conducts its business in accordance with all relevant compliance requirements in each point of representation.

In order to assist the Group identify, manage, monitor and measure its compliance obligations, the Group has a comprehensive regulatory compliance framework in place, which is consistent with the Australian Standard on Compliance Programs (AS 3806) and which addresses both external (regulatory) and internal compliance.

In addition, Group Compliance, a discrete function within Risk Management, is responsible for working in conjunction with Business Unit Compliance teams and other risk management areas to provide a compliance infrastructure and framework to facilitate planning, reporting and management of new and changing business obligations and processes.

Associations with Related Entities

ANZ has a policy and compliance plan to provide a framework for managing the risks resulting from associations between the Company, as an Authorised Deposit-taking Institution (ADI), and its related entities. Under this policy, all dealings between the Company and its related entities are conducted on an arm's-length basis, unless approved by the ANZ Board.

FINANCIAL INFORMATION**1: CROSS BORDER OUTSTANDINGS**

Cross border outstandings of the Group to countries which individually represented in excess of 0.75% of the Group's total assets are shown below.

There were no cross border outstandings to any other country exceeding 0.75% of total assets.

Cross border foreign outstandings are based on the country of domicile of the borrower or guarantor of the ultimate risk and comprise loans (including accrued interest), placements with banks, acceptances and other monetary assets denominated in currencies other than the borrower's local currency.

For certain countries, local currency obligations are also included. Cross border foreign outstandings are before specific and general provisions.

	Governments and other official institutions \$m	Banks and other financial institutions \$m	Other commercial and industrial \$m	Total \$m	% of Group assets

3: VOLUME AND RATE ANALYSIS

The following table allocates changes in interest income and interest expense between changes in volume and changes in rate for the past two years. Volume and rate variances have been calculated on the movement in average balances and the change in the interest rates on average interest earning assets and average interest bearing liabilities. The variance caused by the change of both volume and rate has been allocated in proportion to the relationship of the absolute dollar amounts of each change to the total.

4: CONCENTRATIONS OF CREDIT RISK

Concentrations of credit risk exist if a number of counterparties are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Off balance sheet transactions of the Group are substantially with other banks.

GLOSSARY

Asia Pacific provides primarily retail and corporate banking services in the Pacific Region and Asia, including ANZ's share of PT Panin Bank in Indonesia; this division excludes Institutional businesses in the Asia Pacific region that are included in the Institutional result.

Corporate consists of Corporate Banking, Business Banking and Small Business Banking in Australia.

Small Business Banking - provides business banking services to metropolitan-based small businesses, with business banking funds under management of up to \$50,000.

Business Banking - provides a full range of banking services to metropolitan-based small to medium businesses, with turnover up to \$10 million and business banking funds under management of more than \$50,000.

Corporate Banking - manages customer relationships and develops financial solutions for medium-sized businesses, with a turnover of \$10 million to \$150 million.

Economic loss provisioning (ELP) charge is determined based on the expected average annual loss of principal over the economic cycle for the current risk profile of the lending portfolio.

Equity standardisation. Economic Value Added (EVATM) principles are in use throughout the Group, whereby risk adjusted capital is allocated and charged against business units. Equity standardised profit is determined by eliminating the impact of earnings on each business unit's book capital and attributing earnings on the business unit's risk adjusted capital. This enhances comparability of business unit performance. Geographic results are not equity standardised.

Esanda and UDC comprises Esanda Finance Corporation Limited and UDC Finance Corporation Limited. They provide vehicle and equipment finance, rental services and fixed and at call investments. Operating in Australia as Esanda and Esanda FleetPartners, and in New Zealand as UDC and Esanda FleetPartners.

Group Centre provides support to the other segments in the areas of People Capital, Risk Management, Finance, Operations, Technology, Strategy and Treasury.

Impaired assets are loans or other credit facilities where there is reasonable doubt about the collectability of interest, fees (past and future) or principal outstanding, or where concessional terms have been provided because of the financial difficulties of the customer.

ING Australia (INGA), the joint venture between the Group and ING Group.

Institutional is a segment encompassing businesses that provide a full range of financial services to the Group's largest corporate and institutional customers.

Client Relationship Group - manages customer relationships and develops financial services solutions and strategies for large businesses with a turnover greater than \$150 million in Australia and New Zealand and, through corporate clients where the Group has an existing customer relationship, in the United Kingdom, United States and Asia.

Trade and Transaction Services - provides cash management, trade finance, international payments, clearing and custodian services principally to corporate and institutional customers.

Markets - provides origination, underwriting, structuring, risk management, advice and sale of credit and derivative products, foreign exchange and commodity trading and sales-related services, globally.

Corporate and Structured Financing - provides complex financing and advisory services, structured financial products, leasing, private equity, project and leveraged finance and infrastructure investment to ANZ's corporate, institutional, and small business customers.

Net advances include gross loans and advances and acceptances less income yet to mature and provisions (for both as at and average volumes).

Net interest average margin is net interest income as a percentage of average interest earning assets. Non-assessable interest income is grossed up to the equivalent before tax amount for the purpose of these calculations.

Net interest spread is the average interest rate received on interest earning assets less the average interest rate paid on interest bearing liabilities. Non-assessable interest income is grossed up to the equivalent before tax amount for the purpose of these calculations.

Net non-interest bearing items, which are referred to in the analysis of interest spread and net interest average margin, includes shareholders' equity, provisions for doubtful debts, and deposits not bearing interest and other liabilities not bearing interest, offset by premises and equipment and other non-interest earning assets. Non-accrual loans are included within interest bearing loans, advances and bills discounted.

Net specific provision is the transfer from the general provision to the specific provision (representing new and increased specific provisions less specific provision releases on impaired assets) less recoveries.

New Zealand Business comprises

ANZ Retail - operating under the ANZ brand in New Zealand, provides a full range of banking service to personal and business banking customers.

NBNZ Retail - operating under the National Bank brand in New Zealand, provides a full range of banking services to personal customers from youth through to private banking, and business banking customers with turnover up to NZD5 million.

Corporate Banking - incorporates the ANZ and NBNZ brands in New Zealand, and provides financial solutions through a relationship management model for medium-sized businesses with a turnover up to NZD100 million.

Rural Banking - provides a full range of banking services to rural and agribusiness customers in New Zealand.

NBNZ - refers to the operations of the National Bank of New Zealand Limited purchased on 1 December 2003. These operations were amalgamated with ANZ Banking Group (New Zealand) Limited on 26 June 2004 to form ANZ National Bank Limited. NBNZ was reported as a separate business unit until 30 September 2004.

Operating expenses exclude the charge for doubtful debts.

Operations, Technology and Shared Services comprises the Group's core support units responsible for operating the Group's global technology platforms, development and maintenance of business applications, information security, the Group's

payments back-office processing, and the provision of other essential shared services to the Group, including property, human resources operations, procurement and outsourcing.

Overseas includes the results of all operations outside Australia, except if New Zealand is separately shown.

Overseas markets includes all operations outside of Australia and New Zealand. The Group's geographic segments are Australia, New Zealand and Overseas markets.

Personal comprises the following business in Australia:

Banking Products - manufactures deposit, transaction account and margin lending products.

Consumer Finance - provides consumer and commercial credit cards, ePayment products, personal loans, and merchant payment and ATM facilities.

Mortgages - provides mortgage finance secured by residential real estate in Australia.

Regional Commercial and Agribusiness Products - provides a full range of banking services to personal customers across Australia, and to small business and agricultural customers in rural Australia.

Wealth Management - comprises the equity accounted earnings from INGA's core business operations (excludes investment earnings) and the Financial Planning distribution business.

Other - includes the branch network, whose costs are full recovered from product business units, Private Banking and marketing and support costs.

Service transfer pricing is used to allocate services that are provided by central areas to each of its business units. The objective of service transfer pricing is to remove cross-subsidies between business units, and ensure each business accounts for the cost of the services it uses.

Service transfer pricing charges are reported in the profit and loss statement of each business unit as:

Net inter business unit fees - includes intra-group receipts or payments for sales commissions and branch service fees. A product business will pay a distribution channel for product sales. Both the payment and receipt are shown as net inter business unit fees.

Net inter business unit expenses - consists of the charges made to business units for the provision of support services. Both payments by business units and receipts by service providers are shown as net inter business unit expenses.

Total advances include gross loans and advances and acceptances less income yet to mature (for both as at and average volumes).

Treasury is the banker to all ANZ businesses charged with providing cashflow support, ensuring liquidity, managing interest rate risk and providing capital to the businesses.

Unproductive facilities comprise certain facilities (such as standby letters of credit, bill endorsements, documentary letters of credit and guarantees to third parties, undrawn facilities to which the Group is irrevocably committed and market related exposures) where the customer status is defined as non-accrual.

FROM SECURITY HOLDERS

2005 Annual General Meeting

Your questions regarding any matter relating to ANZ that may be relevant to the 2005 Annual General Meeting are important to us. We invite you to use this form to submit any questions. Please return it in the reply paid envelope provided or fax it to (61 3) 9273 4899 or e-mail investor.relations@anz.com

We will attempt to respond to as many of the more frequently asked questions as possible in the Chairman's and Chief Executive Officer's addresses at the 2005 Annual General Meeting. Due to the large number of questions we receive, we will not be replying on an individual basis.

You will also be able to listen to the addresses made at the 2005 Annual General Meeting live by webcast on www.anz.com

2005 INVESTOR SNAPSHOT
MEASURING PROFIT AND RETURN

2005 has been another good year for ANZ as we continue to deliver for all our stakeholders. We have rewarded shareholders with strong returns and built a unique culture that continues to deliver leading staff engagement and customer satisfaction. Our community involvement and recognition has increased significantly. Our focus remains on building a sustainable business to deliver long term for all stakeholders.

EARNING COMMUNITY TRUST

Our community investment strategy seeks to increase the financial literacy and inclusion of adult Australians and enable our people to support the causes important to them. More than 18% of our people contributed 24,000 hours of volunteer time in 2005 and 28% of our staff have donated funds through workplace giving.

MANAGING RESPONSIBLY

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

ANZ ranked in the top 10 of top 10% banks globally on the Dow Jones Sustainability Index. We scored 100% for our Community Management Practice on the Corporate Responsibility Index and we maintained our membership on the FTSE4 Good Global Index.

The achievements of the past year would not have been possible without the commitment and dedication of our people. On behalf of my fellow Directors and all shareholders, I thank them for their contribution to ANZ's success and look forward to their continuing support.

**CHAIRMAN'S REPORT
A MESSAGE FROM CHARLES GOODE**

ANZ has once again met its commitment to shareholders, producing a record profit, a 17.3% return on shareholder equity and a strong capital position.

For the year ended 30 September 2005, profit after tax was up 7% to a record \$3,018 million. Excluding significant items and integration costs associated with the National Bank of New Zealand, our profit was up 12% to \$3,056 million.

The Directors were pleased to increase the dividend by 9% to 110 cents per share fully franked. This was the 12th consecutive increase in our annual dividend.

Our Australian businesses performed well, particularly our Personal business which recorded growth above that of the financial services sector. We are now, on many criteria, the best performing major retail bank in Australia, a noteworthy achievement given ANZ's heritage as a predominantly corporate bank.

Our Institutional business recorded a solid performance in what has been a highly competitive year. This business is undergoing a period of reinvigoration following a number of years of relatively flat earnings and low asset growth, arising from our de-risking program.

Both our Corporate business and Esanda continued to deliver solid and consistent earnings growth in an increasingly competitive environment.

In New Zealand, the competitive environment coupled with our continued investment in the ANZ retail business offset a good performance by the National Bank of New Zealand franchise.

Our Asia Pacific business delivered a good underlying performance and we have continued to invest in the region, establishing new partnerships this year in Vietnam and Cambodia. We are making good progress in establishing partnerships in China.

We are managing risks well and are seeing the results from the de-risking program undertaken in recent years. Net specific provisions were down by 19% to \$357 million.

Our capital position is strong, with the Group's adjusted common equity ratio at 5.1% of risk weighted assets, above our target range of 4.5% to 5.0%.

Board changes

Directors Brian Scott and John Dahlsen, both of whom were on the ANZ Board for 20 years, retired during the year.

Their wise counsel and insightful contributions to Board deliberations over many years demonstrate the benefit of having some Directors with long-standing institutional knowledge of the company and the experience of all phases of the economic cycle. We thank them sincerely and wish them well in their retirement.

Outlook

It is likely that we are moving into a period of slightly lower economic growth and a more competitive environment. This calls for a systematic focus on costs and revenue growth and I believe that ANZ is well placed to meet future challenges.

In the coming year we should continue to benefit from the momentum we have built in our Australian businesses. In the medium term, we expect to see improved returns from the integrated business in New Zealand, while over the longer term our position in Asia should become of more importance.

We are focused on delivering sustainable returns for our shareholders.

CHARLES GOODE
CHAIRMAN

CHIEF EXECUTIVE OFFICER'S REPORT

A MESSAGE FROM JOHN McFARLANE

For over a decade now, shareholders and other stakeholders have benefited from the strategic expansion and strength of our financial performance. Profits now exceed \$3 billion, and we have expanded our position in Australia, become the leading bank in New Zealand and the South Pacific, and we are the leading Australian bank in Asia. We can be proud of these achievements.

Growth and Transformation

That is now, but what of the future? We have set ourselves a new challenge of becoming Australasia's leading bank. This requires a new agenda with two principal themes – Growth, and Transformation.

Growth is about expansion of our franchise and building leadership positions in our core domestic businesses in Australia and New Zealand and expanding into Asia and the Pacific, as well as serving our clients from these geographies across the world. We expect Australia will initially drive our growth and performance as it did in 2005. Later we expect our leadership position in New Zealand to bear fruit, and over the longer term, Asia will become increasingly meaningful.

Growth also means delivering strong returns for shareholders by raising our annual revenue growth to 7% – 9% over the coming years. We made good progress in 2005 with a substantial increase in our investment spending; adding over 2,200 people in the year, mainly to increase our footprint and to expand our service to customers.

Transformation is about maintaining world-class productivity, demonstrated by a cost-income ratio of 40% or below. Last year, we also put plans in place to transform ANZ into a leaner, sharper, more agile, and more externally focused competitor. This will involve shifting our priorities towards customers and reallocating resources from internal activities. It means increased automation, redesign of our operational platforms, and leveraging low-cost offshore capabilities owned by ANZ.

These and other initiatives give us confidence that we will achieve our stated targets.

Sustainability involves a longer-term focus

To be successful long-term, our focus cannot exclusively be on today, but also on the longer-term. Winners, over time, will not be those who maximise short-term results, but those who invest wisely to produce superior returns tomorrow. Companies nevertheless need to produce reasonable results in the short-term to survive, while they pursue their long run ambitions.

The highest performing companies are not simply a financial construction of land, labor and capital. They are much more than this. A vibrant company is more than the sum of its pieces. It serves its customers well, it cares for its employees, it is part of the community in which it operates and these strengths create the foundation for success with shareholders.

Beyond this, a truly successful company is also a community that is interdependent with other communities. It takes on the characteristics of those it engages with and, in turn, influences them.

So in taking our corporations forward, we need to think of advancing not a company but a community. This means a very different agenda for companies going forward and particularly for ANZ in the years to come.

JOHN McFARLANE
CHIEF EXECUTIVE OFFICER

OUR BUSINESS PERFORMANCE

DOMESTIC FOCUS, INTERNATIONAL PRESENCE

Our domestic markets, Australia and New Zealand, are the most significant contributors to our performance, comprising 89% of our 2005 profit. Our focus on these markets is evidenced by fact that 89% of our staff and 94% of our points of representation reside in these geographies.

**PERFORMANCE OF OUR
MAJOR DIVISIONS (NPAT \$m)**

- (1) Data for 2001 include the consolidation of assets in the statutory funds of ANZ Life. Data for 2004 include the consolidation of assets in the statutory funds of NBNZ Life Insurance Limited
- (2) Excludes significant items, NBNZ incremental integration costs and outside equity interests
- (3) For the periods 2001 and 2002 the return on average ordinary equity calculation accrues the dividend over the year. From 2003, dividends may no longer be accrued and as such are not included in the calculation of return on average ordinary equity
- (4) Excludes goodwill amortisation, abnormals, significant items and NBNZ incremental integration costs
- (5) Periods prior to 2004 adjusted for the bonus elements of the November 2003 Rights Issue
- (6) Includes branches, offices, representative offices and agencies

Strong lending growth partly offset by lower interest margins.

**Net Loans and Advances
including Acceptances (\$b)**

Net Interest Margin (bps)

Continued strong lending growth in Australia and New Zealand, driven largely by Mortgages and Institutional, saw Net Lending Assets up 12% in 2005.

Increased competition in New Zealand Mortgages and the Institutional Division were the key drivers behind the 14 basis point Net Interest Margin contraction in 2005.

We continue to have world class efficiency which has permitted us to invest in more people.

Cost to Income (CTI)(1) %

Staff (Full Time Equivalent)

Significant investment in the sustainability of the business in 2005 saw the cost to income ratio increase slightly. We have set a target of reducing the CTI. to 40%.

Over 3,000 new staff employed in the last 18 months across the business. Approximately 70% of new FTEs are in frontline, revenue generating roles.

(1) Excludes goodwill amortisation, significant items and NBNZ incremental integration costs.

THE BOARD OF DIRECTORS

STRATEGIC DIRECTION AND EXPERIENCE

Mr. C B Goode
Mr. J McFarlane
Dr. G J Clark

Dr. R S Deane
Mr. J K Ellis
Mr. D M Gonski

Ms. M A Jackson
Mr. D E Meiklejohn
Mr. J P Morschel

MR C B GOODE, AC

B COM (HONS) (MELB), MBA (COLUMBIA UNIVERSITY, NEW YORK), HON LLD (MELB), HON LLD (MONASH)

Chairman & Independent Non-Executive Director

Non-executive director since July 1991. Mr Goode was appointed Chairman in August 1995 and is an ex officio member of all Board Committees.

Experience and expertise

Mr Goode has a background in the finance industry and has been a professional non-executive director since 1989. He brings a wide range of skills and significant experience of the finance industry to his role as Chairman of the Board.

Age 67. Residence Melbourne.

MR J McFARLANE

MA, MBA

Chief Executive Officer

Chief Executive Officer since October 1997. Mr. McFarlane is also a Director of ANZ National Bank Limited in New Zealand.

Experience and expertise

Mr. McFarlane brings broad leadership, management and banking skills following a 30-year career in banking. Mr. McFarlane is a former Group Executive Director, Standard Chartered Plc, Head of Citibank, United Kingdom and Managing Director, Citicorp Investment Bank Ltd.

Age 58. **Residence** Melbourne.

DR G J CLARK

PHD, BASK (HONS)

Independent Non-Executive Director Chairman of the Technology Committee

Non-executive director since February 2004. Dr Clark is a member of the Nominations, Governance & Corporate Responsibility Committee.

Experience and expertise

Dr Clark is Principal of Clark Capital Partners, a US based firm that advises internationally on technology and the technology market place. Previously he held senior executive positions in IBM, News Corporation and Loral Space and Communications. He brings to the Board international business experience and a distinguished career in micro-electronics, computing and communications.

Age 62. Based in New York, United States of America but also resides in Sydney.

DR R S DEANE

PHD, B COM (HONS), FCA, FCIS, FNZIM

Independent Non-Executive Director Chairman of ANZ National Bank Limited in New Zealand

Non-executive director since September 1994. Dr Deane is a member of the Compensation & Human Resources Committee and the Technology Committee.

Experience and expertise

Dr Deane has skills and experience across a variety of sectors including government, banking and finance, economics, and telecommunications, and also with charitable and cultural organisations.

Age 64. Residence Wellington, New Zealand.

MR J K ELLIS

MA (OXON), FAICD, HON FIE AUST, FAUSIMM, FTSE, HON DR ENG (CQU)

Independent Non-Executive Director Chairman of the Risk Management Committee

Non-executive director since October 1995. Mr Ellis is a member of the Audit Committee.

Experience and expertise

A trained engineer, Mr Ellis brings to the Board his analytical skills together with his practical understanding of operational issues, investments and acquisitions across a range of sectors including natural resources, manufacturing, biotechnology and education.

Age 68. Residence Melbourne.

MR D M GONSKI, AO

B COM, LLB, S.I.A. (AFF), FAICD, FCPA

Independent Non-Executive Director Chairman of the Nominations, Governance & Corporate Responsibility Committee

Non-executive director since February 2002. Mr Gonski is a member of the Risk Management Committee.

Experience and expertise

A lawyer, Mr Gonski has a broad experience across business, the law and investment banking. He also brings to his role on the Board an appreciation for the community through his work in the arts and the not-for-profit sector.

Age 52. Residence Sydney.

MS M A JACKSON, AC

B EC, MBA, HON LLD, FAICD, FCA

Independent Non-Executive Director Chairman of the Compensation & Human Resources Committee

Non-executive director since March 1994. Ms Jackson is a member of the Audit Committee.

Experience and expertise

A Chartered Accountant, with significant financial expertise, Ms Jackson has broad industrial experience including her involvement in transportation, mining, the media, manufacturing and insurance. This expertise coupled with her work in health and education contribute to her role on the Board.

Age 52. Residence Melbourne.

MR D E MEIKLEJOHN

B COM, DIP. ED, FCPA, FAICD, FAIM

Independent Non-Executive Director Chairman of the Audit Committee

Non-executive director since October 2004. Mr Meiklejohn is a member of the Nominations, Governance & Corporate Responsibility Committee.

Experience and expertise

Mr Meiklejohn has a strong background in finance and accounting. He also brings to the Board his experience across a number of directorships of major Australian companies spanning a range of industries.

Age 63. Residence Melbourne.

MR J P MORSCHER

DIPQS, FAIM

Independent Non-Executive Director

Non-executive director since October 2004. Mr Morscher is a member of the Risk Management Committee and the Compensation & Human Resources Committee.

Experience and expertise

Mr Morscher has a strong background in banking and financial services, and brings the experience of being a director of major Australian and international companies.

Age 62. Residence Sydney.

Visit our website at www.anz.com for listings of current directorships.

PEOPLE, COMMUNITY AND THE ENVIRONMENT

INSPIRING, ENERGIZING AND BUILDING RELATIONSHIPS

Our community investment strategy focuses on enhancing the well-being and prosperity of the communities where our people live and work, and where our business operates. Earning the trust of the community is one of our core values.

People

We introduced a new policy giving employees who are 55 years and older the right to move to a part time working arrangement if they choose, and we doubled maternity/parental leave to 12 weeks fully paid, with no minimum service requirements to qualify.

More than 21,000 staff has now experienced our Breakout cultural transformation workshops. When the Breakout program began, our people cited Cost Reduction and Profit as the top two values most evident in our culture. Today they are Customer Focus and Community Involvement

As a result of these and other initiatives, ANZ has the highest level of employee engagement among large employers and all major banks in Australia and New Zealand according to the globally recognized Hewitt Best Employers survey.

Community

We continued our long term commitment to improving the financial literacy and inclusion of adult Australians. For example, our Saver Plus program assisted more than 700 low-income families to develop a long-term savings habit, improve their financial knowledge and save for their children's education. As part of the program, ANZ provided funds to match more than \$800,000 saved by participants in the 2004 and 2005 programs.

This year 18% of Australian staff contributed more than 24,000 hours as part of our ANZ's Volunteers program, which provides employees with eight hours leave each year to complete volunteering activities of their choice.

Some 28% of our Australian staff donated money to numerous community partners through our Community Giving program, where ANZ matches staff contributions dollar-for-dollar up to \$1,000 per person. This was achieved principally through staff donations to the Tsunami relief efforts, where ANZ and its people donated \$1 million to support the work of World Vision.

Environment

We upgraded our Environment Charter to drive improvements in our environmental performance and outcomes and developed a Stewardship Model for assessing and managing the environmental and social responsibilities in our Institutional and Investment Banking decisions.

We have also developed a Sustainable Procurement policy, which will be introduced over the coming months in collaboration with our key suppliers. The policy will guide the selection and evaluation of suppliers on the basis of environmental and social indicators consistent with ANZ's Environmental Charter.

GUIDE TO CONCISE REPORT

ANZ presents two reports, the ANZ Concise Annual Report (this document) and the ANZ Financial Report. Both reports show how ANZ performed during the year ended 30 September 2005 and the overall financial position of the Group at the end of the year. ANZ also publishes an announcement to the market each half year. All these documents are on anz.com. ANZ prepares its financial reports in accordance with applicable Australian Accounting Standards. Particular terms required by the Standards may not be familiar to some readers. This guide and the Glossary of Financial Terms (on pages 94 and 95) are designed to assist readers to understand the Report.

The ANZ Concise Annual Report is a concise report for the purposes of section 314(2) of the Corporations Act 2001 and comprises two parts: Part 1 (Annual Review) and Part 2 (Concise Report). The two parts are distributed together as one document and should be read together. These documents may only be distributed by a person on the basis that Part 1 (Annual Review) and Part 2 (Concise Report) are distributed together.

A copy of the full Financial Report for the year ended 30 September 2005 for the Group, including the independent Auditor's Report, is available to all members, and will be sent to a member without charge upon request. The Financial Report can be requested by telephone (Australia 1800 11 33 99 Overseas +613 9415 4010), by email at investor.relations@anz.com or viewed directly on the Internet at www.anz.com

CONCISE ANNUAL REPORT CONTENTS

The ANZ Concise Annual Report has two main sections – the 2005 Annual Review and the Concise Report. The front section, the Annual Review, contains information about significant matters that impacted the management and performance of ANZ during the year, including discussion and analysis of the financial results, updates on the specialist business units and Group-wide programs, the ten year summary and information on the directors.

The Concise Report contains information required by the Corporations Act 2001 (as amended), including:

a Concise Financial Report, drawn up in accordance with applicable Australian Accounting Standards, including the Consolidated Statements of Financial Performance, Financial Position and Cash Flows.

the Directors' Report, including the Remuneration Report.

the Auditor's Report; and

the Corporate Governance Report, as recommended by the ASX Corporate Governance Councils Principles of Corporate Governance and Best Practice Recommendations.

These statements have been reviewed by ANZ's Audit Committee and approved by the Board. Our external auditor, KPMG, has audited the Concise Financial Report and related notes.

This Concise Annual Report cannot be expected to provide as full an understanding of the Group's financial performance, financial position and financing and investing activities as the ANZ 2005 Financial Report. Analysis and discussion of the Concise Financial Report are on pages 10 to 15 of Part 1 of this Concise Annual Report.

CORPORATE GOVERNANCE REPORT

To ensure the reader is up-to-date with ANZ's corporate governance practices, this report provides information on the Group's governance framework, alignment with Australian and overseas governance issues, the Board and its procedures as well as Group codes, policies and related processes.

DIRECTORS REPORT

This report provides information on how the business is performing and includes details about the Group's principal activities, the Directors and Company Secretaries. Details about the non-audit services and the Auditor's independence declaration also form part of this report. In addition, it contains remuneration information on the Directors and Specified Executives. Declarations are provided by the CEO, CFO and the Auditor.

CONSOLIDATED STATEMENT OF FINANCIAL PERFORMANCE

Financial performance refers to ANZ's profit for the year including:

the sources of ANZ's income split between net interest income and other income;

the expenses incurred by ANZ during the year;

provision for doubtful debts; and

ANZ's tax expense for the year.

The key figure to look at is Net profit attributable to shareholders of the Company, which is the profit for the year.

The results of controlled companies are included in the consolidated results of the Group.

CONSOLIDATED STATEMENT OF FINANCIAL POSITION

This Statement is a summary of the assets, liabilities and shareholders' equity as at 30 September 2005. It shows what ANZ as a Group owns as assets, what it owes as liabilities and its net assets. Net assets are equal to total shareholders' equity. The assets and liabilities are listed in order of liquidity, with those assets representing cash shown first and those hardest to convert to cash, such as premises, last.

The assets and liabilities of controlled companies are included within the consolidated results of the Group.

CONSOLIDATED STATEMENT OF CASH FLOWS

The Consolidated Statement of Cash Flows summarises the Group's cash payments and cash receipts for the financial year. The values may differ from those shown in the Consolidated Statement of Financial Performance because the Consolidated Statement of Financial Performance is prepared on an accrual accounting basis. Cash in the Statement refers to cash on hand, bank deposits and other forms of highly liquid investments that can readily be converted to cash.

NOTES TO THE CONCISE FINANCIAL STATEMENTS

These notes provide details on the basis of preparation of the Concise Financial Report including details on critical accounting policies, contingent liabilities and assets, segment analysis and dividends.

DIRECTORS' DECLARATION

This declaration contains the directors' sign-off that the Concise Report complies with Accounting Standards and provides a true and fair view of the performance and financial position of the Company.

AUDITOR'S REPORT

The independent audit report is the external and independent opinion on the Concise Report.

SHAREHOLDER INFORMATION

Information is provided on ordinary shares including the twenty largest shareholders and the distribution of shareholdings, and preferences shares ANZ Stapled Exchangeable Preferred Securities (ANZ StEPS) and Euro Stapled Trust Securities. It also includes on-market buy-back, details on voting rights for ordinary shares and ANZ StEPS, employee shareholder information and Stock Exchanges, ANZ StEPS, American Depositary Receipts and Euro Trust Securities.

GLOSSARY OF FINANCIAL TERMS

The glossary of financial terms on pages 94 and 95 contains an explanation of key financial terms.

CORPORATE GOVERNANCE AT ANZ:

A SOLID FOUNDATION

This report sets out the Company's corporate governance framework. Further detail is contained on anz.com > about anz > corporate governance. This website is regularly updated to ensure it reflects the Company's most recent corporate governance information.

ANZ's shareholders depend on the Company's Board for strategic guidance and oversight of the Company as set out in the Board Charter (anz.com > about anz > corporate governance). The Board recognises its overriding responsibility to act honestly, fairly, diligently and progressively, in accordance with the law, in serving the interests of ANZ's shareholders and all other stakeholders.

Corporate governance is an important focus for the Board. Good corporate governance meets ethical and stewardship responsibilities, and gives ANZ a strong commercial advantage. It receives close scrutiny, particularly since the establishment of the Nominations, Governance & Corporate Responsibility Committee in 2002.

ANZ shares and related securities are listed on the Australian (ASX), the New Zealand (NZX) and the New York (NYSE) Stock Exchanges. ANZ must comply with a range of requirements including listing requirements in Australia and New Zealand as well as overseas requirements such as the US Sarbanes-Oxley Act of 2002, the US Securities and Exchange Commission (SEC) rules and the New York Stock Exchange listed company requirements. In addition, ANZ strives to achieve best practice by taking into account the principles and guidelines set out by the ASX Corporate Governance Council, the New Zealand Securities Commission and the Combined Code of the United Kingdom.

In general, the Board seeks:

to embrace principles considered to be best practice across the jurisdictions;

to be an early adopter, where possible, by complying before a published law or recommendation takes effect; and

to take an active role in discussions regarding best practice in corporate governance in Australia and overseas.

Consequently, the Board continually monitors governance developments to align ANZ's practices with best practice standards.

During the year, the Board worked closely with management to review and update ANZ policies and procedures in light of changes to regulations, legislation and guidelines across relevant jurisdictions.

ALIGNMENT WITH AUSTRALIAN AND OVERSEAS CORPORATE GOVERNANCE ISSUES

INTERNATIONAL

International Financial Reporting Standards (IFRS) ANZ has a formal program to ensure that the Company is prepared to report, in compliance with Australian equivalents to IFRS as issued by the International Accounting Standards Board, when its results for the half-year ended 31 March 2006 are announced. ANZ is on track to achieve this reporting schedule.

Basel II For ANZ, the new Basel Accord is scheduled to commence in 2006 for two years of parallel running with the current Capital Accord, prior to full implementation in January 2008. ANZ has established a program to ensure the Company achieves accreditation at the advanced levels for both credit and operational risk under Basel II. The program is on schedule with a number of Basel II requirements already in place.

AUSTRALIA

ASX Corporate Governance Council Principles of Good Corporate Governance and Best Practice Recommendations ANZ considers these principles important and complies with the recommendations.

The Corporations Law Economic Reform Program (Audit Reform and Corporate Disclosure) Act 2004 (CLERP 9 Act) The legislation was passed by Parliament on 25 June 2004. ANZ chose to be an earlier adopter of most of the new requirements for the 2004 financial year. For the 2005 financial year, ANZ complies with all the new requirements.

NEW ZEALAND

NZX Corporate Governance Rules and Principles The NZX has introduced a Corporate Governance Best Practice Code. As an overseas listed issuer on the NZX, ANZ is deemed to comply with the NZX Listing Rules provided that it remains listed on the ASX. A New Zealand Stock Exchange disclosure is available on page 58.

OTHER JURISDICTIONS

United States of America As a foreign private issuer registered with the SEC with securities listed on the NYSE, ANZ is required to comply with certain corporate governance requirements contained in US securities laws, including the Sarbanes-Oxley Act of 2002 and applicable New York Stock Exchange (NYSE) Listing Standards. Under the NYSE Listing Standards, ANZ is required to provide a brief description of the significant differences between its corporate governance practices and corporate governance requirements for US listed companies under the NYSE Listing Standards. Information will be provided in the Company's US Form 20-F 2005 Annual Report and available on ANZ's website (anz.com > shareholders > financial information > annual reports).

United Kingdom ANZ monitors developments in the UK Combined Code through changes made by the Higgs Report and the Smith Report.

ASX CORPORATE GOVERNANCE TABLE

FOCUS & PRINCIPLE		COMPLIANCE (ü)
1	Lay solid foundation for management and oversight	
1.1	Formalise the functions reserved to the Board and those delegated to management	Pgs 50, 51 ü
2	Structure the board to add value	
2.1	The majority of the Board should be independent directors	Pg 53 ü
2.2	The chairperson should be an independent director	Pg 50 ü
2.3	The roles of the Chairperson and Chief Executive Officer should not be exercised by the same person	Pg 50 ü
2.4	The Board should establish a nomination committee	Pg 56 ü
2.5	Provide related disclosures	ü
3	Promote ethical and responsible decision-making	
3.1	Establish a code of conduct to guide the directors, the CEO, the CFO and any other key executives as to:	
3.1.1	the practices necessary to maintain confidence in the company's integrity	Pgs 50, 57, 58 ü
3.1.2	the responsibility and accountability of individuals for reporting and investigating reports of unethical practices	Pg 57, 58 ü
3.2	Disclose the policy concerning trading in company securities by directors, officers and employees	Pg 58 ü
3.3	Provide related disclosures	ü
4	Safeguard integrity of financial reporting	
4.1	Require the CEO and CFO to state in writing to the Board that the company's financial reports present a true and fair view, in material respects, of the company's condition and operational results and are in accordance with accounting standards	Pg 61 ü
4.2	The board should establish an audit committee	Pg 55 ü
4.3	Structure the audit committee so that it consists of	
	> only non-executive directors	
	> a majority of independent directors	
	> an independent chairperson, who is not chairperson of the Board	

	> at least three members	Pg 55 ü
4.4	The audit committee should have a formal charter	Pg 55 ü
4.5	Provide related disclosures	ü
5	Making timely and balanced disclosure	
5.1	Establish written policies and procedures designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior management level for that compliance	Pgs 49, 57, 58 ü
5.2	Provide related disclosures	ü
6	Respect the rights of shareholders	
6.1	Design and disclose a communications strategy to promote effective communication with shareholders and encourage effective participation	Pg 50 ü
6.2	Request the external auditor to attend the AGM and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report	Pg 50 ü
7	Recognise & manage risk	
7.1	The Board or appropriate committees should establish policies on risk oversight and management	Pg 56 ü
7.2	The CEO and CFO should state to the Board in writing that	
7.2.1	the statement given in accordance with best practice recommendation 4.1 is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board	Pgs 56, 57 ü
7.2.2	the company's risk management and internal compliance and control system is operating effectively and efficiently in all material respects	Pgs 56, 57 ü
7.2.3	Provide related disclosures	ü
8	Encourage enhanced performance	
8.1	Disclose the process for performance evaluation of the Board, its committees, individual directors and key executives	Pg 54 ü
9	Remunerate fairly and responsibly	
9.1	Provide disclosure in relation to the company's remuneration policies to enable investors to understand the costs and benefits of the policies, and the link between remuneration paid to the directors and key executives and corporate performance	Pgs 62 to 81 ü
9.2	The Board should establish a remuneration committee	Pgs 55, 56 ü
9.3	Clearly distinguish the structure of non-executive directors remuneration from that of executives	Pgs 62 to 81 ü
9.4	Ensure that payment of equity-based executive remuneration is made in accordance with thresholds set in plans approved by shareholders	Pgs 62 to 81 ü
9.5	Provide related disclosures	ü

10 Recognise the legitimate interests of stakeholders

10.1 Establish and disclose a code of conduct to guide compliance with legal and other obligations to legitimate stakeholders

Pg 50, 57 ü

ETHICAL AND RESPONSIBLE DECISION-MAKING

The Board encourages management to promote and maintain a culture within ANZ which draws upon a set of unifying values to guide the actions and decisions of the Board and all employees (see [anz.com > sustainability > our values](#)).

More than 21,000 ANZ employees have participated in the Breakout culture development program. The program includes workshops to help staff to apply values-based decision-making, balancing the competing needs of staff, shareholders, customers and the community in their roles and activities.

ANZ has three main codes of conduct which also guide everyday business practice and decision-making throughout the Group.

ANZ Directors Code of Conduct sets ethical standards for the directors. They are expected to pursue the highest standards of ethical conduct in the interests of shareholders and all other stakeholders.

ANZ (Employee) Code of Conduct sets ethical standards for ANZ staff to embrace and advocate. It establishes an environment in which ANZ staff can excel, regardless of race, religion, age, ability or gender.

ANZ Code of Conduct for Financial Officers (adopted from G100 Code of Conduct for Chief Financial Officers) provides a practical guide for the CFO and financial staff in their everyday dealings as to the standards of ethical behaviour expected in the performance of their duties in addition to the ANZ Employee Code of Conduct.

Further details on these codes can be found on [anz.com > about anz > corporate governance](#).

COMMITMENT TO SHAREHOLDER COMMUNICATION

Shareholders are the owners of ANZ, and the Company's stated aim is to perform and grow to create value for our shareholders.

In order to vote on decisions about ANZ, and to communicate views to the Company, shareholders need an understanding of the Company's business operations and performance.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

ANZ encourages shareholders to take an active interest in the Company. It seeks to provide shareholders with quality information in a timely fashion generally through ANZ's reporting of results, the Company's Annual Report, briefings, half yearly newsletters and via its dedicated shareholder site on anz.com.

ANZ strives for transparency in all its business practices. The Company recognises the impact of quality disclosure on the trust and confidence of the shareholder, the wider market and the community.

Should shareholders require any information, they are also provided with relevant contact details for ANZ and relevant share registries in the half yearly shareholder newsletters, the Annual Report (under Information for shareholders) and anz.com.

CONTINUOUS DISCLOSURE

It has long been ANZ's practice to release all price-sensitive information as required under the ASX listing rules in a timely manner:

to all relevant stock exchanges on which ANZ's securities are listed; and

to the market and community generally through ANZ's media releases, website and other appropriate channels. ANZ-related releases are posted on relevant stock exchange websites and on anz.com > about anz > corporate governance > continuous disclosure.

Through ANZ's Continuous Disclosure Policy (see page 58 and anz.com > about anz > corporate governance) the Company demonstrates its commitment to continuous disclosure. The policy reflects relevant obligations under applicable stock exchange listing rules and legislation.

For reporting purposes, price-sensitive information is information that a reasonable person would expect to have a material effect on the price or value of ANZ's securities.

Designated disclosure officers have responsibility for reviewing proposed disclosures and making decisions in relation to what information can be or should be disclosed to the market. All ANZ staff are required to inform a disclosure officer regarding any potentially price-sensitive information concerning ANZ as soon as they become aware of it.

UPHOLDING SHAREHOLDER RIGHTS

ANZ upholds shareholder rights and provides shareholders with the opportunity to be involved in shareholder meetings.

To allow as many shareholders as possible to have an opportunity to attend a meeting, ANZ rotates shareholder meetings around regional capital cities. Webcast technology has been introduced which makes it possible to attend presentations to listen to the speakers and simultaneously view presentations over the internet. Further details on meetings and presentations held throughout this financial year are available on anz.com > shareholders > presentations.

Prior to the Annual General Meeting, shareholders are encouraged to submit any questions they have for the Chairman or Chief Executive Officer to enable key common themes to be considered.

The external auditor is present at ANZ Annual General Meetings and available to answer shareholder questions. The auditor can respond on any business item that concerns them in their capacity as auditor.

Shareholders have the right to vote on various resolutions related to Company matters. If shareholders are unable to attend a meeting they can submit their proxies via post or electronically through anz.com. Where votes are taken on a poll, ANZ appoints an independent party to verify the results, which are reported to the ASX and posted on anz.com.

BOARD RESPONSIBILITY AND DELEGATION OF AUTHORITY

The Board is responsible to shareholders for the governance of the Group, and oversees its operations and financial performance. To this end, it sets the strategic direction and financial objectives, and monitors operational performance. It also monitors compliance in terms of ethical and efficiency standards and regulatory requirements. The Board also appoints the Chief Executive Officer and regularly reviews his performance.

The ANZ Board is chaired by a non-executive independent director. Its structure provides for a division of responsibility between the Chairman and the Chief Executive Officer. This is supported by the ANZ Board Charter (anz.com > about ANZ > corporate governance) which states that the Chairman must be an independent non-executive director and that the majority of the Board must comprise independent non-executive directors.

The Board Charter clearly sets out the Board's purpose, powers, and specific responsibilities. The business of the Bank is managed under the direction of the Board. The Board delegates to the Chief Executive Officer and through him, to

other senior management, the authority and responsibility for managing the everyday affairs of the Company. The Board monitors management and performance on behalf of shareholders.

ROLE OF THE CHAIRMAN

The Chairman, a non-executive director, plays an important leadership role with ANZ and is involved in:

chairing meetings of shareholders and Board meetings;

monitoring the performance of the Board and the mix of skills and effectiveness of individual contributions;

maintaining on going dialogue with the Chief Executive Officer and appropriate mentoring and guidance;

overseeing Board review processes; and

on going mentoring of individual directors.

ACCESS TO DIRECTORS

Management is able to consult directors as required on a regular basis. Employees have access to the directors directly or through the Company Secretary. Shareholders who wish to communicate with the directors may direct correspondence to a particular director, or to the non-executive directors as a whole.

BOARD COMPOSITION, SELECTION AND APPOINTMENT

The Board strives to achieve a balance of skills, knowledge, experience and perspective among its directors. Details regarding the skills, experience, expertise of each director in office at the date of this Concise Annual Report can be found on pages 51 to 53.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The Nominations, Governance & Corporate Responsibility Committee is responsible for the nominations process which includes a regular review of board composition and succession for the Board including the Chairman (anz.com > about anz > corporate governance).

Once a director is selected, there are several key elements relating to the appointment process including:

Formalising the appointment Each director receives correspondence and related information setting out the Directors Code of Conduct, 3-year rotation, re-election procedures, length of service, Board composition and nomination process, performance evaluation, directors fees, directors dealings in shares, disclosure of interests, conflict of interest policy and procedures, outside board and other appointments as well as insurance and related procedures.

Receipt of appointment-related documents including:

Director Handbook Each director receives a handbook which outlines directors principal obligations, Company policies, charters and processes as well as Board specific procedures. It also sets out details of scheduled Board and Committee meetings.

Director s Deed Each director signs the Deed which covers a number of issues including indemnity, directors and officers liability insurance, the right to obtain independent advice and the requirements concerning confidential information.

Undertaking induction training New directors take part in a formal induction program which ensures they have dedicated sessions with ANZ directors, executives and other key staff members regarding ANZ s values and culture, the Group s governance framework, financial management and business operations. Specific topics covered during these sessions include the Directors Code of Conduct and Director-related policies, Board and Committee principles, processes and key issues, financial and audit issues such as accounting standards and taxation, governance issues including current and emerging legislation and regulations, risk management and compliance framework as well as people capital issues. Insight into the business units is provided in one-on-one sessions with each business head.

In addition, each new Committee member participates in Committee-specific educational sessions with the relevant Committee chairman and ANZ executives.

Adherence to Directors Code of Conduct As presented earlier, this code sets out that directors will pursue the highest standards of ethical conduct.

Meeting share qualification Non-executive directors are required to accumulate a holding in shares in the Company that is equivalent to at least 100% of a non-executive director s base fee and 200% of this fee for the Chairman.

Election at next Annual General Meeting

The ANZ Constitution and the Corporations Act 2001 both permit the Board to appoint a person to be a director of ANZ at any time, but that person must seek election by shareholders at the next Annual General Meeting.

DIRECTORS

MR CB GOODE, AC

B COM (HONS) (MELB), MBA (COLUMBIA UNIVERSITY, NEWYORK), HON LLD (MELB), HON LLD (MONASH)

Chairman

Independent Non-Executive Director

Non-executive director since July 1991. Mr Goode was appointed Chairman in August 1995 and is an ex-officio member of all Board Committees.

Experience and expertise

Former directorships

Former Director: Rio Tinto Plc (1998 2005), Rio Tinto Limited (1998 2005), CSR Limited (1996 2003) and Leighton Holdings Limited (2001 2004).

Age 62. **Residence** Sydney.

INDEPENDENCE AND MATERIALITY

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Under its Charter, a majority of non-executive directors on the ANZ Board must satisfy ANZ's criteria for independence. The Board Charter sets out independence parameters in order to establish whether a non-executive director may have a relationship with ANZ which could (or could be perceived to) impede their decision-making.

Directors are required to seek Board approval before accepting other Board appointments or appointments to charitable or other committees. In addition, directors are required to inform the Company of appointments or retirement from external organisations.

In the 2005 financial year, the Board reviewed its criteria for independence in respect of the requirements in the ASX Corporate Governance Council's Best Practice Recommendations, NZX and NYSE Corporate Governance Standards, and the US Sarbanes-Oxley Act of 2002. The Board adopted standards for determining non-executive director independence both for members of the Board and the Audit Committee (some jurisdictions apply different tests for the assessment of Audit Committee independence). The criteria are more rigid than those set in most jurisdictions including criteria stipulated specifically for audit committees.

The Board applies the following standard in making its determination as to the existence of a material relationship – a relationship with ANZ is material if a reasonable person in the position of a non-executive director of ANZ would expect there to be a real and sensible possibility that it would influence a director's mind in:

making decisions on matters likely to come regularly before the Board or its committees;

objectively assessing information and advice given by management;

setting policy for general application across ANZ; and

generally, carrying out the performance of his or her role as director.

At its July 2005 meeting, the Board considered each director's independence and in each case concluded that the independence criteria were met by all non-executive directors.

The independence criteria and process used by the Board in its determination of director independence are detailed on

ANZ's website (anz.com > about anz > corporate governance)

The Board examined acquirer relationships associated with each director and immediate family members in respect of the level of lending and whether ANZ is the sole lender, the credit rating and whether the account is in order. Due to privacy regulations, ANZ is unable to disclose

details of acquirer relationships associated with each director. The Board concluded that there was no such situation which would impact on a director's independence.

The Board also examined supplier relationships associated with each director and immediate family members in respect of the value of the relationship to the supplier, the service or product provided and its value as well as other relevant information. It noted several director associations as follows:

Dr Deane is Chairman of Telecom New Zealand Ltd. ANZ acquires communication services from Telecom New Zealand for the Company's New Zealand operations.

Mr Gonski is a director of Westfield Holdings Ltd. ANZ leases properties from Westfield for its branch network in Australia.

Ms Jackson is Chairman of Qantas Airways Limited. ANZ has commercial relationships with Qantas as a partner in the co-branded ANZ Frequent Flyer Visa Cards, as a less or of airport terminal properties in Australia and New Zealand for ANZ automatic teller machines (ATMs), and as an acquirer of travel services for ANZ people.

In each case, the Board concluded that having regard to the nature and value of the commercial relationship and the materiality criteria described above, each of Dr Deane, Mr Gonski and Ms Jackson is independent.

Directors do not participate in any decisions regarding transactions with organisations which they are associated as acquirer or supplier (see Conflict of Interest on page 54). Directors' biographies on pages 51 to 53 and on anz.com > about anz > corporate governance highlight their associations outside of ANZ.

It is the Board's view that length of service is not a disabling criterion affecting a director's independence. On the contrary, length of service greater than 10 years is seen as beneficial in a complex organisation that is subject to significant economic cycles.

INDEPENDENT ADVICE

In order to assist directors to fulfil their responsibilities, each director has the right (with the prior approval of the Chairman) to seek independent professional advice regarding his/her responsibilities at the expense of the Group. In addition the Board and each Committee, at the expense of the Group, may obtain whatever professional advice it requires to assist in its work.

TENURE AND RETIREMENT

ANZ's Constitution provides that at least one-third (or the nearest whole number) of directors must retire at each annual general meeting, but are eligible for re-election at that meeting.

An appointee who is filling a casual vacancy has to stand for election at the first Annual General Meeting after their appointment. This requirement does not apply to the Chief Executive Officer, or any director retiring at that meeting in any event.

It is Board policy that directors appointed since July 1993 will, except in unusual circumstances, retire after 15 years of services as a director of ANZ.

During 2005, Mr Dahlsen and Dr Scott retired from the Board. Mr Dahlsen was Chairman of the Audit Committee (replaced by Mr Meiklejohn) and Dr Scott was Chairman of the Nominations, Governance & Corporate Responsibility Committee (replaced by Mr Gonski). During their tenure, they made significant contributions to ANZ as Board members as well as Committee Chairmen.

PERFORMANCE EVALUATIONS

Performance evaluations are conducted internally and cover the Board, each non-executive director and Board Committees.

The frame work used to assess the directors is based on the expectation they are performing their duties in a manner which should create and continue to build sustainable value for shareholders, and in accordance with the duties and obligations imposed upon them by the ANZ Constitution and the law.

The performance criteria take into account each director's contribution to:

the charting of direction, strategy and financial objectives for ANZ;

the monitoring of compliance with regulatory requirements and ethical standards;

the monitoring and assessing of management performance in achieving strategies and budgets approved by the Board;

the setting of criteria for, and evaluation of, the Chief Executive Officer's performance; and

the regular and continuing review of executive succession planning and executive development activities.

Board and non-executive performance evaluations are conducted in two ways:

Annual review On an annual basis, or more frequently if appropriate, the Chairman has a one-on-one meeting with each director specifically addressing the performance criteria including compliance with the Directors' Code of Conduct. In addition, they discuss the effectiveness of the Board and related issues including the Board's oversight and contribution to the Company, Board discussion (including the performance of the non-executive directors and the Chairman), Board memberships, Committees, and other relevant issues. They also discuss the performance of the Board against its Charter and goals set for the year. The Chairman provides a report to the Board on the outcome of these meetings.

In addition, each director also completes a questionnaire and returns this to the Chairman of the Nominations, Governance & Corporate Responsibility Committee. The Committee Chairman presents these findings to the Board.

The outcome of the 2004 annual review led to several Board and Committee related changes during this financial year. Firstly, there was an expansion of responsibility and change of name for the Nominations, Governance & Corporate Responsibility Committee. To provide greater focus on technology and technology risk, the Technology Committee was established (see page 56).

Re-election statement Directors when nominating for re-election are required to submit a written or oral statement to the Board setting out the reasons why they seek re-election. In the director's absence, the Board evaluates this statement (having regard to the performance criteria) when it considers whether to endorse the relevant director's re-election.

Each Board committee conducts a self-evaluation at least annually (see page 55).

CONTINUING EDUCATION

ANZ directors take part in a range of training and continuing education programs. In addition to a formal induction program (see page 51), continuing education sessions are held throughout the year focusing on a range of topics including People Capital issues, emerging economic topics, technical developments, pending legislation, accounting standards, taxation, risk management and corporate governance.

Directors also receive a quarterly newsletter designed to keep them abreast of matters relating to their duties and responsibilities as directors and officers.

In addition to formal Board-wide workshops, each Committee conducts its own continuing education sessions. Internal and/or external experts are engaged to conduct all education sessions.

Directors also receive regular business unit briefings at each Board meeting. These briefings provide directors with an insight into each area of the Company, in particular, performance, key issues, risks and strategy for growth. In addition, directors participate in business unit site visits which provide them with the opportunity to meet with staff and customers.

CONFLICT OF INTEREST

Over and above the issue of independence, each director has a continuing responsibility to determine whether he or she has a potential or actual conflict of interest in relation to any material matter which comes before the Board. Such a situation may arise from external associations, interests or personal relationships which might affect, or be seen potentially to affect, the director's position to act in the best interest of ANZ.

Under the Director's Disclosure of Interest Policy and Policy for Handling Conflicts of Interest (see page 58 and anz.com > about anz > corporate governance), a director may not exercise any influence over the Board if a potential conflict of interest exists. The process set out is such that a director may not receive relevant Board papers, may not be present for Board deliberations on the subject, and may not vote on any related Board resolutions. These matters, should they occur, are recorded in the Board minutes.

BOARD COMMITTEES

Each of the five main Committees is comprised solely of independent directors, has its own Charter and has the power to initiate any special investigations it deems necessary. Committee membership is reviewed annually. Membership criteria are based on a director's skills and experience, as well as his/her ability to add value to the Committee. Board Committee attendance is contained on page 41.

The Chairman is an ex-officio member of all Committees. The Chief Executive Officer, Mr McFarlane, is invited to attend Committee meetings, as appropriate. His presence is not automatic, however, and he does not attend any meeting where his remuneration is considered or discussed. Non-executive directors may attend any meeting of a Committee on a subject where they have a special interest.

Committee performance self-evaluations are conducted annually to review performance against its Charter and goals set for the year. The suitability of the Charter and any areas for improvement are also assessed. The review and stated objectives for the new financial year are submitted to the full Board for discussion and approval.

A copy of each Committee Charter and Standing Rules applicable to each committee can be found on our website at anz.com > about anz > corporate governance.

The **Audit Committee** is responsible for oversight and monitoring of:

the Company's financial reporting principles and policies, controls and procedures;

the work of Group (Internal) Audit which reports directly and solely to the Chairman of the Audit Committee (refer to Group (Internal) Audit on page 57 for more information);

the Audit Committees of subsidiary companies such as ANZ National Bank;

the integrity of the Company's financial statements and prudential returns; and

compliance with regulatory requirements and independent audit thereof.

The Audit Committee is also responsible for:

the appointment, evaluation and oversight of the external auditor;

compensation of the external auditors; and

where appropriate, replacement of the external auditor.

Under the Committee Charter, all members of the Audit Committee must be financially literate and that at least one member of the Committee be a financial expert as defined in the US Sarbanes-Oxley Act. Mr Meiklejohn and Ms Jackson were designated as the Audit Committee's financial experts for this purpose for the 2005 financial year. Refer to pages 52 and 53 for their qualifications.

The Audit Committee meets with the external auditor without management being present. The Chairman of the Audit Committee meets separately and regularly with the Group General Manager (Internal) Audit and the external auditor.

Some 2005 financial year activities included:

Monitoring the work of Group (Internal) Audit During the year, the Committee received regular comprehensive reports on Group (Internal) Audit covering its activities, governance, staff, customers, quality and management. In addition, the Chairman of the Audit Committee attended a number of senior Group (Internal) Audit team meetings and the team conference. He also took part in small group discussions with the Group (Internal) Audit staff.

Review of the transition to International Financial Reporting Standards (IFRS) The Group is required to report in accordance with these standards for the 2006 financial year. The Committee monitored the Group's preparations for transition to the new standards including staff education and skill enhancement, systems modifications, new systems development and financial reporting changes.

Oversight of ANZ National Bank Limited integration the Committee monitored a number of major related initiatives during the year including the successful integration of a number of key financial systems.

The **Compensation & Human Resources Committee** is responsible for recommendations to the Board in respect of the Group's compensation program including any equity-based programs. It also evaluates the performance of and approves the compensation for the senior executive officers and Board appointees (including the Chief Executive Officer) and approves compensation levels and policy guidelines.

Some 2005 financial year activities included:

Planning for Directors Retirement Scheme closure The Committee reviewed the scheme, considered alternative approaches taking into account best practice and has overseen the planning for the closure of the scheme on 30 September 2005.

Introduction of shareholding guidelines To ensure strong alignment between non-executive directors, the Chief Executive Officer, senior executives and shareholders, the Committee monitored the development and implementation of shareholding guidelines.

ANZ BOARD COMMITTEE MEMBERSHIPS from 1 October 2004 30 September 2005

Audit	Compensation & Human Resources	Nominations, Governance & Corporate Responsibility	Risk Management	Technology (commenced 21 Feb 2005)
David Meiklejohn FE, C Chairman from 3 Feb 2005	Margaret Jackson C	David Gonski C Chairman from 23 Apr 2005	Jerry Ellis C	Gregory Clark C
Margaret Jackson FE Jerry Ellis	Roderick Deane John Morschel	Gregory Clark David Meiklejohn	David Gonski John Morschel	Roderick Deane Charles Goode (ex-Officio)
Charles Goode (ex-Officio)	Charles Goode (ex-Officio)	Charles Goode (ex-Officio)	Charles Goode (ex-Officio)	
John Dahlsen C retired 3 Feb 2005		Brian Scott C retired 23 Apr 2005	Roderick Deane retired from RMC on 28 Feb 2005 (Following Dr Deane joining the Technology Committee)	

C Chairman, FE Financial Expert (for the purposes of the US Sarbanes-Oxley Act requirements)

Revision of remuneration principles and processes A review of ANZ's compensation program was undertaken during the year which included extensive consultation with key shareholders and their advisers. As a result, changes were made to the executive remuneration structure.

Review of the succession plan The Committee conducted reviews of the current succession plans covering the replacement of the CEO, CEO's direct reports and other business-critical roles.

The **Nominations, Governance & Corporate Responsibility Committee** identifies and recommends prospective Board members and succession planning for the Chairman, recommends processes for Board performance review, corporate governance principles and practices and monitors the direction and control of corporate responsibility for ANZ.

Some 2005 financial year activities included:

Widening scope In recognition of ANZ's commitment to corporate responsibility, the Committee expanded its scope to include this area of focus. This commitment was also reflected in changes made to the Directors' and Employees' Codes of Conduct and the Charters for the Board and the Committee.

Monitoring changes to domestic and overseas legislation and regulations The Committee received regular updates on changes to relevant legislation and regulations and considered potential impacts on ANZ's customers, staff, operations and the community.

Refining Board performance evaluation processes Procedures for Board performance assessment were reviewed. The Committee recommended to the Board the adoption of a mixed-methods approach, where directors take part in an interview and complete a detailed questionnaire.

The **Risk Management Committee** is responsible for the review of risk in all aspects of the business. It is responsible for overseeing, monitoring and reviewing the Group's risk management principles and policies, strategies, processes and controls including credit, market, balance sheet, operational risk and compliance. It may approve credit transactions and other matters beyond the approval discretion of executive management.

Some 2005 financial year activities included:

Examination of risk culture The Committee reviewed the Group's risk culture with the objective of ensuring the correct balance between risk and reward. This resulted in further alignment of Risk to the divisions as well as the revision of several risk policies.

Oversight of Basel II The Group is preparing for the new Basel Accord, scheduled to commence in 2006 for two years of parallel running with the current capital Accord, prior to full implementation in January 2008. The Committee monitored the Group's preparation for transition to the new Accord including the accreditation submission. In addition, the Committee took part in a dedicated Basel II education forum.

Monitoring of emerging risks During the year, the Committee received regular reports on emerging or future risks and management's responses necessary to ensure timely and necessary mitigation.

Newly established in 2005, the **Technology Committee** assists the Board of Directors in the effective discharge of its responsibilities in relation to technology related matters. The Committee is responsible for the oversight and evaluation of new projects in technology above \$50 million and security issues relevant to ANZ's technology processes and systems. It is also responsible for the review and approval of management's recommendations for long-term technology planning and the overall framework for the management of technology risk.

Some 2005 financial year activities included:

Review of technology systems To enhance understanding of the Group's systems, the Committee took part in site visits of key operations and partner facilities. In addition, the Committee received several reports on technology systems and reviewed future technology strategy.

Oversight of information security The key drivers of information security were reviewed by the Committee as well as monitoring of emerging technology risks and management's responses necessary to ensure proper mitigation.

Monitoring of New Zealand systems integration The Committee received updates on the New Zealand technology initiatives and overall integration.

ADDITIONAL COMMITTEES

In addition to the five main Board Committees, the Board has constituted a Shares Committee and an Executive Committee to assist in carrying out its functions.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

The Executive Committee has the full power of the Board and is convened as necessary between regularly scheduled Board meetings. The Board also forms and delegates authority to ad hoc Committees of the Board as and when needed to carry out its functions. The Shares Committee has the power to administer ANZ's Employee Share Plan and Employee Share Option Plan.

DIRECTORS MEETINGS

The number of Board meetings and Committee meetings held during the year ended September 30, 2005 and attended by each director are set out in the table on page 41.

ROLE OF COMPANY SECRETARY

The Board is responsible for the appointment of ANZ's Company Secretaries. Currently there are three people appointed as Company Secretary. For management and corporate governance purposes the following structure operates.

The Group General Counsel and Company Secretary is normally in attendance at all Board and Committee meetings. He prepares minutes and provides legal advice to the Board if and when required. He works closely with the Chair of the Nominations and Corporate Governance Committee to develop and maintain ANZ's corporate governance principles. He is responsible to the Board for the Company Secretary's Office function.

The Company Secretary is responsible for day-to-day operations of the Company Secretary's Office including lodgements with relevant stock exchanges, the management of dividend payments, and the relationship with the share registry provider. The Chief Financial Officer is also appointed as Company Secretary.

Profiles of ANZ's Company Secretaries can be found in the Directors' Report on page 60.

RISK MANAGEMENT AND COMPLIANCE

ANZ's business controls are governed by an ongoing focus on risk and compliance issues within the framework of the Company's overall strategy. ANZ has established a comprehensive risk and compliance management framework to ensure best practice alignment.

In terms of risk management and compliance, the Board is principally responsible for establishing risk tolerance, approving related strategies and policies, monitoring and assessing the activities of

management, overseeing policy compliance and the effectiveness of the risk systems and policies to meet the requirements of all regulations and the interests of shareholders, customers and staff.

The Risk Management Committee of the Board oversees the Group's risk management policies and controls, and may approve credit transactions and other matters beyond the approval discretion of executive management.

On a day-to-day basis, the various risks inherent in ANZ's operations are managed by both Group Risk Management and each business unit.

For further information on risk management, please see page 15 and visit anz.com > about anz > corporate governance.

FINANCIAL CONTROLS

As previously noted, the Audit Committee of the Board oversees the Company's financial reporting policies and controls, integrity of the Company's financial statements, the work of Group (Internal) Audit, the Audit Committees of the subsidiary companies, prudential returns and compliance with related regulatory requirements.

To further strengthen controls and procedures, the Audit Committee agreed that the Company undertake a Group-wide program focusing on Section 404 of the US Sarbanes-Oxley Act of 2002. The program is being instituted at both Company and business unit level and is overseen by a program steering committee.

ANZ expects to be in full compliance with this section of the Act during the financial year to 30 September 2006, ANZ's first reporting date under the Act.

AUDIT

Group (Internal) Audit

Group (Internal) Audit provides independent assurance that the design and operation of the risk and control framework across the Group is effective. It operates under a Charter from the Audit Committee that gives it unrestricted access to review all activities of the Group. The Group General Manager (Internal) Audit reports to the Chairman of the Audit Committee.

The Audit Committee monitors the performance of Group (Internal) Audit and the Group General Manager (Internal) Audit.

A risk-based audit approach is used to ensure that the higher risk activities in each business are audited each year. All audits are conducted in a manner that conforms to international auditing standards. Audit results also influence incentive compensation of business heads.

Group (Internal) Audit plays an active role in ensuring compliance with the requirements of supervisory regulatory authorities. Group (Internal) Audit also works collaboratively with the external auditor to ensure a comprehensive audit scope.

The Audit Committee plays an active role in reviewing significant issues arising from internal audits conducted by Group (Internal) Audit. There is a robust process for ensuring prompt resolution of audit issues, which includes monthly reviews of progress by the Chief Executive Officer and the Chairman of the Audit Committee.

The Audit Committee also receives formal reports on significant issues to ensure that any remedial action is undertaken promptly.

External audit

The external auditor's role is to provide reasonable assurance that ANZ's financial reports are true and fair and free from material misstatement. The external auditor also performs independent audits in accordance with Australian and United States Auditing Standards.

The Audit Committee oversees ANZ's Policy on Relationship with External Auditor. Under the policy, the Audit Committee is responsible for the appointment (subject to ratification by shareholders), compensation, retention and oversight of the external auditor.

The policy also stipulates that the Audit Committee:

pre-approves all audit and non-audit services;

regularly reviews the independence of the external auditor;

evaluates the effectiveness of the external auditor.

Details of non-audit services are in the Directors' Report on pages 60 to 61.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

In addition, ANZ requires a two-year period before any former partner or employee of the external auditor is appointed as a director or senior executive of ANZ.

The lead partner position of the external auditor is required to rotate off the ANZ audit after five years and cannot return for a further five years. Other senior audit staff are required to rotate off after a maximum of seven years.

Any potential appointments of ex-partners or ex-employees of the external auditor to the ANZ finance staff, at senior management level or higher, must be pre-approved by the Chairman of the Audit Committee.

As disclosed in the 2004 Annual Report, the SEC commenced an inquiry into non-audit services provided by ANZ's auditor, KPMG. ANZ has provided the information requested by the SEC. This inquiry has not concluded. Should the SEC determine that services provided by KPMG did not comply with the US auditor independence rules, the SEC may seek sanctions, the nature and amount of which are not known. Whilst ANZ cannot predict the outcome of the inquiry, based on information currently available, ANZ does not believe it will have a material adverse effect on the Company.

CODES OF CONDUCT AND POLICIES

Below is an overview of ANZ's key codes and policies which apply to directors and employees. Summaries of these and other company policies can be found on anz.com > about anz > corporate governance.

Codes of Conduct for Directors and for Employees These policies set out the ethical standards to which directors and employees are expected to adhere. The Codes require that directors and employees adhere to the law, disclose any relevant interests, and act honestly and ethically in all their dealings. The codes also cover the confidentiality of information, limits on acceptance of gifts or entertainment and on use of ANZ goods, services and facilities. Key contact – Group General Counsel and Company Secretary.

Code of Conduct for Financial Officers (adopted from the Group of 100 Code of Conduct for CFOs and Senior Financial Officers). The Code requires that chief financial officers and other finance staff influencing financial performance adhere to principles of honesty and integrity, respect confidentiality of information, declare conflicts of interest, maintain transparency in reporting, exercise diligence and good faith, ensure sound internal controls and set a standard for other financial professionals. Key contact – Chairman of the Audit Committee.

Critical Accounting Policies Details of the critical accounting policies and any changes in accounting policies made since the date of the 2004 Annual Report are set out on page 85 in this Concise Annual Report and in the 2005 Financial Report. Key contact – Group General Manager Finance.

Directors Disclosure of Interests Policy and Policy for Handling Conflicts of Interests The Board has adopted a policy on disclosure of interests requiring that directors disclose certain interests, and actual or potential conflicts of interest are addressed. Details of directors' dealings with ANZ are set out in the Financial Report. Key contact: Group General Counsel and Company Secretary.

Employee Indemnity Policy This policy provides that the Group will indemnify employees against any liability that they incur in carrying out their role subject to meeting certain requirements. Further details on this policy and on indemnities given to certain employees can be found on page 61 of this Concise Annual Report. Key contact: General Manager Operational and Technology Risk.

Continuous Disclosure Policy ANZ is committed to achieving best practice in the area of continuous disclosure. The policy is designed to ensure that there is full and timely disclosure of ANZ's activities to shareholders and the market. The policy requires that information disclosed to the relevant stock exchanges is placed on ANZ's website. Key contacts: Head of Investor Relations, Head of Media Relations and Group General Counsel and Company Secretary.

Policy on the Prevention of Money Laundering, Criminal and Terrorist Financing This policy covers Anti-Money Laundering and Anti-Terrorism laws and regulations. It sets out principles related to identification and record keeping procedures, the need for staff awareness and related training, and annual requirements for independent testing and compliance reporting. The policy is aimed at ensuring that ANZ is able to protect its reputation, integrity, assets, liabilities and shareholder funds. Key contacts: General Manager Operational and Technology Risk and General Manager Group Compliance.

Policy on Relationship with External Auditor The Board and the Audit Committee's policy on audit and non-audit services regulates the audit-related and non-audit services that may be conducted by ANZ's external auditor. It sets in place a formal approval process regarding the provision of audit and non-audit services. This approval process is the responsibility of the Audit Committee. In addition it sets out the rotation requirements for the lead partner and other members of the audit team, and processes related to the potential appointment of ex-partners or ex-employees of the external auditor. Key contact: Chairman of the Audit Committee.

Securities Trading Policy The policy prohibits trading in ANZ securities or the securities of other companies for all persons: directors, employees, contractors and consultants engaged by ANZ who are aware of unpublished price-sensitive information. In addition, the policy specifically prohibits restricted employees trading in ANZ securities during blackout periods, which are the six weeks leading up to the day following the half-yearly and annual results announcements. Key contact: General Manager Group Compliance.

Whistleblower Policy (formerly known as Serious Complaints Policy) The Whistleblower Process is an additional mechanism by which ANZ staff, contractors and consultants may voice any concerns they may have regarding any malpractice or impropriety that they find within ANZ. It requires that protection be given to employees against dismissal or penalty as a result of disclosing concerns in good faith. Key contacts Group General Manager (Internal Audit) and Group General Counsel and Company Secretary.

New Zealand Policies Recognising the importance of ANZ's presence in New Zealand and the requirements of the Reserve Bank of New Zealand, the ANZ National Bank Limited Board reviews and approves all ANZ Group governance and risk management policies before they are adopted by ANZ National Bank to ensure that they meet all New Zealand regulatory requirements. Key contact General Counsel and Company Secretary ANZ National Bank Limited.

NEW ZEALAND STOCK EXCHANGE DISCLOSURE

The following statement is included as required under New Zealand Stock Exchange (NZX) Listing Rules which requires ANZ, as an Overseas Listed Issuer, to include a statement of the material differences between Australian Stock Exchange (ASX) corporate governance rules and principles and those applicable under the NZX Corporate Governance Best Practice Code (NZX Code). Irrespective of any differences, ANZ complies with all applicable governance principles and requirements both in Australia and New Zealand.

The ASX corporate governance rules and principles specifically address corporate governance matters in relation to risk management, internal controls and stakeholder interests which are not specifically addressed in the NZX Code. The ASX principles and rules also provide greater emphasis on the need for issuers to disclose internal corporate governance policies and procedures to shareholders (including for example disclosure of insider trading policies, performance measurement procedures and remuneration policies).

The ASX corporate governance principles and rules require ANZ to comply or explain any non-compliance, while some of the NZX governance requirements are mandatory under the NZX Listing Rules. For example, the ASX Corporate Governance Council Principles of Good Corporate Governance and Best Practice Recommendations suggest that a majority of directors be independent. The NZX Listing Rules require that at least two directors be independent (or if there are 8 or more directors, at least 3 or one-third be independent).

In New Zealand, governance rules concerning the independence of auditors are covered in the NZX Code. In Australia, they are covered more extensively in the Corporations Act 2001 and the ASX Corporate Governance Council Principles of Good Corporate Governance and Best Practice Recommendations. There are also some differences in other aspects of corporate regulation generally in Australia and New Zealand. For example:

ASX Listing Rules do not require shareholder approval of major transactions to the same extent required by NZX Listing Rules.

The ASX related party transaction provisions require shareholder approval only for related party acquisitions or dispositions of assets exceeding 5% of shareholders equity. Whereas the NZX related party transaction provisions

require shareholder approval for related party acquisitions, dispositions and other transactions exceeding 5% of the issuer's average market capitalisation, and for an additional category of service arrangements where the threshold is an annual gross cost of 0.5% of the issuer's average market capitalisation.

Restrictions on buy-backs and financial assistance covered by the NZX Listing Rules are not addressed in the ASX Listing Rules, but are covered in Australia's Corporations Act. Details on ANZ's corporate governance are set out on pages 48 to 58.

POLITICAL DONATIONS

In the year to 30 September 2005, ANZ donated \$100,000 to the Liberal Party and \$50,000 to the Australian Labor Party.

DIRECTORS REPORT

The directors present their report together with the Concise Financial Report of the consolidated entity (the Group), being Australia and New Zealand Banking Group Limited (the Company) and its controlled entities, for the year ended 30 September 2005 and the Auditors Report thereon. The information is provided in conformity with the Corporations Act 2001.

PRINCIPAL ACTIVITIES

The principal activities of the Group during the year were general banking, mortgage lending, leasing, hire purchase and general finance, international and investment banking, nominee and custodian services, executor and trustee services and life insurance and funds management activities and through ANZ National Bank Limited and the joint ventures ING Australia Limited (INGA) and ING New Zealand Limited (INGNZ).

There has been no significant change in the nature of the principal activities of the Group during the financial year.

At 30 September 2005, the Group had 1,223 points of representation.

RESULT

Profit Consolidated net profit after income tax attributable to shareholders of the Company was \$3,018 million, an increase of 7% over the prior year.

Net loans and advances increased by 13% from \$204,962 million to \$230,952 million, primarily due to mortgage and business lending in Australia and New Zealand.

Deposits and other borrowings increased by 10% from \$168,557 million to \$185,693 million primarily to fund asset growth.

Bonds and notes increased by 42% from \$27,602 million to \$39,073 million to fund asset growth.

The provision for doubtful debts has been determined using economic loss provisioning (ELP) and is based on the Group's risk management models.

The ELP charge reduced 8% from \$632 million to \$580 million. The current charge reflects a decrease in the ELP rate over the year in line with the Group's improving risk-profile. This is as a result of growth in low risk domestic assets (principally mortgages), strong underlying credit quality, the continued risk reduction strategy covering the overseas portfolio and high-risk assets, and the cessation of the Corporate Centre charge for offshore losses.

ANZ's ELP models recognise that the general provision balance must be regularly reviewed, and in rare situations, increased or decreased to cover unusual events. The balance is at an appropriate level.

Net specific provisions of \$357 million, were down \$86 million compared to the prior year. Gross non-accrual loans decreased to \$642 million, down from \$829 million. The reductions reflect the strategy to reduce risk in both overseas portfolios (not including New Zealand) and high-risk domestic portfolios. The reductions also reflect strong credit quality, favourable economic conditions and fewer large single name defaults.

Further details are contained in the Chief Financial Officer's review on pages 10 to 15 of this Concise Annual Report.

STATE OF AFFAIRS

In the directors' opinion, there have been no significant changes in the state of affairs of the Group during the financial year, other than:

Reduction of risk The Company has been actively reducing the overall risk profile of the Group. Net specific provisions of \$357 million were down 19% compared to the prior year. This was below the amount accrued for doubtful debts of \$580 million in the Statement of Financial Performance.

New joint venture In September 2005, ANZ National Bank Limited formed a joint venture with ING Insurance International Limited covering life insurance and wealth management activities in New Zealand. The joint venture is called ING (NZ) Holdings Limited and ANZ National Bank Limited will have a 49% interest. ANZ National Bank Limited sold a controlling interest in NBNZ Life Insurance Limited into this joint venture.

New capital instrument In December 2004, the Group raised \$871 million through the issuance of a \$500 million Euro Trust Securities into the European market. The instrument is similar in structure to the Group's existing Australian (ANZ StEPS) and US Trust Securities. Further details are contained in the 2005 Financial Report.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Further review of matters affecting the Group's state of affairs are also contained in this Concise Annual Report under the Chairman's Report on page 8, the Chief Executive Officer's Report on page 9 and the Chief Financial Officer's Review on pages 10 to 15.

DIVIDENDS

The directors propose that a final fully franked dividend of 59 cents per fully paid ordinary share be paid on 16 December 2005. The proposed payment amounts to approximately \$1,077 million.

During the financial year, the following fully franked dividends were paid on fully paid ordinary shares:

Type	Cents per share	Amount before bonus options \$m	Date of payment
Final 2004	54	983	17 December 2004
Interim 2005	51	930	1 July 2005

REVIEW OF OPERATIONS

A review of the operations of the Group during the financial year and the results of those operations, including an assessment of the financial position and business strategies of the Group are contained in the Chairman's Report, the Chief Executive Officer's Report, and the Chief Financial Officer's Review and our Business Performance on pages 8, 9, 10 to 15 and 16 to 31 respectively of this Concise Annual Report.

EVENTS SINCE THE END OF THE FINANCIAL YEAR

No matter or circumstance has arisen between 30 September 2005 and the date of this report that has significantly affected or may significantly affect the operations of the Group in future financial years, the results of those operations or the state of affairs of the Group in future financial years.

FUTURE DEVELOPMENTS

Details of likely developments in the operations of the Group and its prospects in future financial years are contained in this Concise Annual Report under the Chairman's Report and the Chief Executive Officer's Report. In the opinion of the directors, disclosure of any further information would be likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION

ANZ recognises our obligation to our stakeholders – customers, shareholders, staff and the community – to operate in a way that advances sustainability and mitigates our environmental impact. Our commitment to improve our environmental performance is integral to our making a sustainable contribution to society.

We acknowledge that we have an impact on the environment:

directly through the conduct of our business operations; and

indirectly through the products and services we provide to our customers.

As such, ANZ has established an Environment Charter, strategy and internal responsibilities for reducing the impact of our operations and business activities on the environment can be found on pages 32 to 37.

The operations of the Group are not subject to any particular or significant environmental regulation under a law of the Commonwealth or of a State or Territory. However, the operations of the Group may become subject to environmental regulation when enforcing securities over land. ANZ has developed policies to manage such environmental risks. Having made due enquiry, to the best of our knowledge no member of the Group has incurred any environmental liability during the year.

DIRECTORS QUALIFICATIONS, EXPERIENCE AND SPECIAL RESPONSIBILITIES

At 1 October 2004, the Board was comprised of 10 non-executive directors and one executive director, the Chief Executive Officer. Two non-executive directors retired during the year: Mr John Dahlsen on 3 February 2005 and Dr Brian Scott on 23 April 2005.

At the date of this report, the Board comprises 8 non-executive directors who have a diversity of business and community experience and one executive director, the Chief Executive Officer, who has extensive banking experience. The names of directors and details of their qualifications and experience is contained on pages 51 to 53 of this Concise Annual Report and on anz.com.

Details of the number of Board and Board Committee meetings held during the year, directors attendance at those meetings, and details of directors special responsibilities are shown on pages 40 to 41 of this Concise Annual Report.

For those directors in office at 30 September 2005, details of the directorships of other listed companies held by each director in the 3 years prior to the end of the 2005 financial year are listed in this Concise Annual Report on pages 51 to 53.

COMPANY SECRETARIES QUALIFICATIONS AND EXPERIENCE

Currently there are three people appointed as Company Secretary of the Company.

Details of their roles are contained on page 56. Their qualifications are as follows:

Tim L Estrange, LLB, BCom, ANZ Group General Counsel and Company Secretary

Mr L Estrange has a long-standing legal career spanning 26 years. He has significant experience in corporate law. Mr L Estrange joined ANZ in 2003. Prior to ANZ, he worked closely with boards and senior management of major corporations, banks and financial institutions. Mr L Estrange was the National Executive Partner, Litigation and Dispute Resolution of Allens Arthur Robinson and a member of the Board of Management of that firm. He was also Managing Partner of Allen Allen & Hemsley. Mr L Estrange is also a member of Chartered Secretaries Australia.

Peter Marriott, BEc (Hons), ANZ Chief Financial Officer.

Mr Marriott has been involved in the finance industry for more than 20 years.

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

Mr Marriott joined ANZ in 1993. Prior to his career at ANZ, Mr Marriott was a Partner in the Melbourne office of the then KPMG Peat Marwick. He is a Fellow of a number of professional organisations including the Institute of Chartered Accountants in Australia and the Australian Institute of Banking and Finance. He is also a Member of the Australian Institute of Company Directors.

John Priestley, BEc, LLB, ANZ Company Secretary.

Mr Priestley, a qualified lawyer, joined ANZ in 2004. Prior to ANZ, he had a long career with the Mayne Group and held positions which included responsibility for the legal, company secretarial, compliance and insurance functions. He is a member of Chartered Secretaries Australia and also a member of Chartered Secretaries Australia's Legislation Review Committee.

NON-AUDIT SERVICES

The Company's Relationship with External Auditor Policy states that the external auditor may not provide services that are perceived to be in conflict with the role of the auditor. These include consulting advice and sub-contracting of operational activities normally undertaken by management, and engagements where the auditor may ultimately be required to express an opinion on its own work.

Specifically the policy:

limits the non-audit services that may be provided;

requires that audit and permitted non-audit services must be pre-approved by the Audit Committee, or pre-approved by the Chairman of the Audit Committee and notified to the Audit Committee; and

requires the external auditor to not commence an audit engagement for the Group, until the Group has confirmed that the engagement has been pre-approved.

The Audit Committee has reviewed a summary of non-audit services provided by the external auditor for 2005, and has confirmed that the provision of non-audit services for 2005 is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. This has been formally advised to the Board of Directors.

The external auditor has confirmed to the Audit Committee that they have complied with the Company's Relationship with External Auditor Policy on the provision of non-audit services by the external auditor for 2005.

The non-audit services supplied by the Group's external auditor, KPMG, and the amount paid or payable by type of non-audit service during the year to 30 September 2005 are as follows:

Non-audit service	2005	Amount paid/ payable \$ '000s	2004
Co-sourced internal audit services(1)			1,260
Tax compliance and related services	4		628
Controls and process reviews	254		249
NBNZ due diligence oversight			420
US Sarbanes-Oxley and International Financial Reporting Standards matters	426		335
Accounting advice	74		170
Securitisation review			128
Review of capital raising circulars	253		292
Sustainability review	82		
Other	26		157
Total	1,119		3,639

(1) The work performed by KPMG was independent of the external audit team and management

The directors are satisfied that the provision of non-audit services by the external auditor during the year to 30 September 2005 is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

AUDITOR'S INDEPENDENCE DECLARATION

The Company's lead auditor has provided a written declaration under Section 307C of the Corporations Act 2001 that to the best of his knowledge and belief, there have been no contraventions of:

the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and

the applicable Australian code of professional conduct in relation to the audit.

A copy of this declaration is detailed on page 90 of this Concise Annual Report. This declaration is incorporated in and forms part of this Directors' Report.

DIRECTORS AND OFFICERS WHO WERE PREVIOUSLY PARTNERS OF THE AUDITOR

The following persons are currently directors or officers of the Group and were partners of KPMG at a time when KPMG was the auditor of Australia and New Zealand Banking Group Limited:

Ms Margaret Jackson, Non-executive director (left KPMG in June 1992); and

Mr Peter Marriott, Chief Financial Officer (left KPMG in January 1993).

CEO/CFO DECLARATION

The Chief Executive Officer and the Chief Financial Officer have given a declaration to the Board concerning the Group's financial statements under section 295A(2) of the Corporations Act 2001 and recommendations 4.1 and 7.2 of the ASX Corporate Governance Council Principles of Good Corporate Governance and Best Practice Recommendations.

DIRECTORS AND OFFICERS INDEMNITY

The Company's Constitution (Rule 11.1) permits the Company to indemnify each officer or employee of the Company against liabilities (so far as may be permitted under the Corporations Act 2001) incurred in the execution and discharge of the officer's or employee's duties.

It is the Company's policy that its employees should not incur any liability for acting in the course of their employment legally, within the policies of the Company and provided they act in good faith.

Under the policy, the Company will indemnify employees against any liability they incur in carrying out their role. The indemnity protects employees and former employees who incur a liability when acting as an employee, trustee or officer of the Company, or a subsidiary of the Company at the request of the Company.

The indemnity is subject to the Corporations Act 2001 and will not apply in respect of any liability arising from:

a claim by the Company;

a claim by a related body corporate;

a lack of good faith;

illegal or dishonest conduct; or

non-compliance with the Company's policies or discretions.

The Company has entered into indemnity Deeds with each of its directors, with certain other officers of the Company, and with certain employees and other individuals who act as directors or officers of related body corporates or of another company. To the extent permitted bylaw, the Company indemnifies the individual for all liabilities, including costs, damages and expenses incurred in their capacity as an officer of the company to which they have been appointed. Some amendments to these Deeds in favour of the Company's directors will be proposed to shareholders at the forthcoming Annual General Meeting. Further details are contained in the Notice of Meeting.

The Company has indemnified the trustees and former trustees of certain of the Company's superannuation funds and directors, former directors, officers and former officers of trustees of various Company sponsored superannuation schemes in Australia. Under the relevant Deeds of Indemnity, the Company must indemnify each indemnified person if the assets of the relevant fund are insufficient to cover any loss, damage, liability or cost incurred by the indemnified person in connection with the fund, being loss, damage, liability or costs for which the indemnified person would have been entitled to be indemnified out of the assets of the fund in accordance with the trust deed and the Superannuation Industry (Supervision) Act 1993. This indemnity survives the termination of the fund. Some of the indemnified persons are or were directors or executive officers of the Company.

The Company has also indemnified certain employees of the Company, being trustees and administrators of a trust which is a subsidiary entity, from and against any loss, damage, liability, tax, penalty, expense or claim of any kind or nature arising out of or in connection with the creation, operation or dissolution of the trust, where they are acting in good faith and in a manner that they reasonably believed to be within the scope of the authority conferred by the trust.

Except for the above, neither the Company nor any related body corporate of the Company has indemnified or made an agreement to indemnify any person who is or has been an officer or auditor of the Company or of a related body corporate.

During the financial year, and again since the end of the financial year, the Company has paid a premium for an insurance policy for the benefit of the directors, secretaries, and senior managers of the Company, and directors, secretaries and senior managers of related bodies corporate of the Company. In accordance with common commercial practice, the insurance policy prohibits disclosure of the nature of the liability insured against and the amount of the premium.

ROUNDING OF AMOUNTS

The Company is a company of the kind referred to in Australian Securities and Investments Commission class order 98/100 (as amended) pursuant to section 341(1) of the Corporations Act 2001. As a result, amounts in this Directors' Report and the accompanying financial statements have been rounded to the nearest million dollars except where otherwise indicated.

REMUNERATION REPORT

This Remuneration Report details ANZ's remuneration policies pertaining to directors and executives, the link between remuneration outcomes and ANZ's performance, and individual remuneration disclosures relating to remuneration and equity for ANZ's directors and top executives (as required by AASB 1046 and the Corporations Act 2001). The remuneration policies and practices detailed in this report have evolved during the financial year as a result of market research and consultation with major shareholders and their advisors.

The Compensation & Human Resources Committee has responsibility for making recommendations to the Board for both director and executive remuneration and executive succession. On a number of occasions throughout the year, both the Compensation and Human Resources Committee and management received external advice on matters relating to remuneration. The following advisors were used: Hay Group, Blake Dawson Waldron, Freehills, PricewaterhouseCoopers, Mercer Finance & Risk Consulting and Ernst& Young. Refer to page 55 of the Corporate Governance Report for more details about the Committee's role, and anz.com > about ANZ (listing at top of screen) > Corporate Governance > Board Related Charters for the charter which details the terms of reference under which the Committee operates.

	2004(13)	930,710	78,211	2,247,831	192,497

COMMENTARY ON CHANGES BETWEEN 2004 AND 2005

Non-Executive Directors (NEDs)

Primary Total Remuneration has increased by \$212,114. This increase is as a result of:

- i) Timing differences between the appointment of DE Meiklejohn and JP Morschel, and the retirement of BW Scott and JC Dahlsen.
- ii) Increase in Chairman's fees of \$71,000 in recognition of increased demands of the role, relativity to peers, and to maintain equitable relativity with other NEDs.
- iii) The full year effect of the addition of GJ Clark to the Board.

The Post-Employment Retirement Benefit accrued during the year has increased by \$511,120 from the previous period due to the following:

- i) \$95,286 resulting from fee increases over the last 3 years being taken into account for the purpose of the directors' retirement benefits.
- ii) \$415,634 of this is due to amendments made during the year to the individual agreements with NEDs to make the formula for calculating the amount payable under them consistent for all NEDs. In some instances this has resulted in the amount accrued during the year being increased to take account of the impact of the change to the formula on previous years' accrued benefits. In each case under the relevant agreement, the

maximum amount that may be paid to a NED as a retirement benefit is subject to the limits in the Corporations Act.

Executive Director (Chief Executive Officer)

There was no change to J McFarlane's fixed remuneration which remained at \$2,000,000, including superannuation contributions. His short-term incentive target for 2005 was increased to \$2,000,000 (100% of his fixed remuneration) in accordance with his contract extension announced on 26 October 2004. His actual payment was \$2,100,000 (compared to \$1,850,000 in 2004) reflecting the Board's assessment of his performance against agreed balanced scorecard objectives which include ANZ's financial performance and its performance against specified measures for shareholders, customers, staff and the community.

	Committee fees (cash) \$	Value of shares acquired in lieu of cash incentive(2),(3) \$	POST EMPLOYMENT			EQUITY(5)		OTHER \$	Total(7) \$
			Primary total \$	Super contributions \$	Retirement benefit accrued during the year(4) \$	Total amortisation of LTI shares \$	Total amortisation of LTI options \$
