Who can attend the meeting?

All shareholders as of the record date, or their duly appointed proxies, may attend the meeting. Each shareholder may be asked to present valid picture identification, such as a driver's license or passport. Will my vote be public?

No. As a matter of policy, shareholder proxies, ballots and tabulations that identify individual shareholders are kept confidential and are only available if actually necessary to meet legal requirements.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the holders of a majority in voting power of the outstanding shares of common stock entitled to vote will constitute a quorum, permitting the meeting to conduct its business. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting.

How many votes are needed to approve an Item?

The affirmative vote of shares representing a majority in voting power of the shares of common stock, present in person or represented by proxy and entitled to vote at the meeting, is necessary for approval of Proposal 2. Proxies marked as abstentions on these matters will not be voted and will have the effect of a negative vote. The election of directors will be by a plurality of the votes cast. A proxy marked to withhold authority for the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

PERSONS MAKING THE SOLICITATION

INFORMATION REGARDING THE BOARD OF DIRECTORS, COMMITTEES AND CORPORATE GOVERNANCE

The principal role of our Board of Directors is to oversee the management of the Company's affairs for the benefit of our shareholders. During each year we review our corporate governance policies and practices and compare them to those suggested by various authorities in the matters of corporate governance and the practice of other companies, taking into account the size and resources of our Company. Additionally we continue to review the provisions of the Sarbanes-Oxley Act of 2002 and new, as well as proposed rules of the SEC and the enhanced listing standards of the American Stock Exchange (the Amex)

Our Board of Directors has a standing Organizational Development and Compensation Committee, a Nominating/Governance Committee and an Audit Committee. The functions of each of the Organizational Development and Compensation Committee, the Nominating/Governance Committee and the Audit Committee are governed by charters that have been adopted by the Board of Directors. Our Board of Directors also has adopted a Code of Business Conduct and Ethics that applies to the Company's Directors, officers and employees.

The charters of the Organizational Development and Compensation Committee, Nominating/ Governance Committee and the amended and restated charter of the Audit Committee, and the Code of Business Conduct and Ethics are available in the Corporate Governance section of our website at www.alphaprotech.com. The Company intends to disclose any amendments to the Code of Business and Ethics, and any waiver of the Code of Business Conduct and Ethics granted to any Director or executive officer of the Company on the Company's website. As of the date of this Proxy Statement, there have been no such waivers.

Directors Independence

The Amex listing standards provide that at least a majority of the members of the Board of Directors must be independent, i.e., free of any material relationship with the Company, other than his or her relationship as director or Board Committee member. A director is not independent if he or she fails to satisfy the standards for independence under the Amex listing standards, the rules of the Securities and Exchange Commission, and any other applicable laws, rules and regulations.

The Board of Directors, after a review of all relevant facts and circumstances has affirmatively determined that each of the Directors and nominees, with the exception of Sheldon Hoffman, Alexander W. Millar and Danny Montgomery, is free from any material relationship with the Company and is independent.

Audit Committee

The purposes of the Audit Committee are to assist the Board of Directors in fulfilling its oversight of the integrity of the Company's financial statements, the Company's compliance with legal and regulatory requirements, the independent auditor's qualifications and independence, the performance of the Company's internal audit function and independent auditor, and prepares the report of the Audit Committee. The specific functions and responsibilities of the Audit Committee are set forth in the Amended and Restated Audit Committee Charter which was adopted by the Board in April 2004 and included as an exhibit to the Proxy Statement in 2004. It is available on the Company's website.

The Board has determined that each member of the Audit Committee is financially literate and satisfies the current independence standards of the Amex listing standards and Section 10A(m)(3) of the Securities Exchange Act of 1934. The Board has also determined that Russell Manock qualifies as an audit committee financial expert as that term is defined in Regulation S-K. As an audit committee financial expert, Mr. Manock also satisfies the Amex accounting and financial management expertise requirements.

The audit committee consisting of Messrs Russell Manock, Robert H. Isaly and John Ritota, with Mr. Manock as chairman, met six times in 2006

Organizational Development and Compensation Committee

In April 2004, the Board expanded the function of the Compensation Committee to encompass organizational development and adopted an Organizational Development and Compensation Committee Charter, which is available on the Company's website.

The Committee's function is to assist the Board of Directors in discharging its oversight responsibilities relating to, among other things, executive compensation, equity and incentive compensation plans, management succession planning and training of all management levels and producing the Committee Report. The Committee administers the Company's Stock Option Plans and its Retirement Savings Plan (the 401(k) Plan). The Committee reviews and determines the salary and bonus compensation of the Chief Executive Officer as well as reviews and recommends to the Board of Directors for its approval the compensation of the other executive officers of the Company. Each of the members of the Committee is independent within the meaning of the Amex listing standards.

All members of the Committee shall have in the judgment of the Board, the judgment, aptitude and experience required to advise the Board on matters relating to the selection of directors and matters of corporate governance and of business conduct and ethics.

The Board has established a process for shareholders and other interested parties to send communications to the Board as a group or any individual Director. A description of this process can be found in the Corporate Governance section of our website.

The Committee, consisting of Messrs. David B. Anderson, Russell Manock and Robert H. Isaly, with Mr. Anderson as Chairman, met five times in 2006.

How often did the Board meet in 2006?

During 2006, the Board of Directors of the Company held six meetings. Each director attended 100% of the aggregate of (a) the total number of meetings of the Board of Directors held during the period for which he served as a director, and (b) the total number of meetings held by all committees of the Board of Directors of the Company on which he served.

In addition to participation at Board and committee meetings, the Company's directors discharge their responsibilities throughout the year through personal meetings and other communications, including considerable telephone contact with the CEO and others regarding matters of interest and concern to the Company.

How are directors compensated?

Under the Company's Corporate Governance Guidelines, non-employee Director Compensation is determined annually by the Board of Directors acting upon the recommendation of the Compensation Committee. Directors who are also employees of the Company receive no additional compensation for service as a Director. The following table shows compensation for non-employee directors for fiscal 2006:

Annual Board retainer (1)	\$ 12,000
Annual stock option grant (2)	15,000 shares

- 1 Per non-employee directors
- 2 In fiscal 2006, each of the current non-employee directors

They are also reimbursed for their direct expenses incurred in attending a Board or Committee meeting. Non employee directors are paid bi-annually in June and December .

Beginning with the Company's 2004 annual meeting of shareholders, each non-employee director became eligible to receive (i) a grant of a non-qualified stock option to purchase up to a maximum of 15,000 shares of common stock at each annual meeting at which he or she continues as a non-employee director, and (ii) a grant of a non-qualified option to purchase up to a maximum of 25,000 shares of common stock at the time he or she first becomes a non-employee director. Notwithstanding the foregoing, an individual who was first appointed a non-employee director on or after January 1, 2004 and prior to the Company's 2004 annual meeting of shareholders received only the initial stock option grant described in (ii) above.

The Organizational and Compensation Committee of the Board of Directors (the Compensation Committee) has furnished the following report on executive compensation to the shareholders of the Company.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis will explain the material elements of the compensation of the Company's named executive officers and describe the objectives and principles underlying the Company's executive compensation programs.

Executive Compensation Objectives

The Company's executive compensation objectives are to:

- Motivate and retain highly qualified managers and executives
- Link executives' total compensation to company and individual job performance
- Provide an appropriate balance between incentives focused on achievement of annual business plans and longer term incentives tied to increases in shareholder value

The key elements of the Company's executive compensation program are base salary, annual incentive compensation, long-term incentive compensation and contractual compensation. Explanation of each of these elements appears below.

- Base salary is consistent with competitive practices and levels of responsibility. The Company pays its executives a fixed, annual salary. Salaries provide a degree of financial stability for the executives, with salary increases designed to reward recent performance and contributions. The Company reviews and may revise salaries for executives each year. The CEO and President make the recommendations to the Committee in the case of the other executive officers.
- Cash Bonus & Stock Options reflect the individual's contribution to the overall financial performance of the Company. The Company uses stock options to provide long-term incentive compensation and to link the financial interests of its executives with the financial interests of its stockholders. The Company's program for granting stock options contributes significantly to that linkage.
 - o Stock options become exercisable over time, usually five years, with a three year vesting period, and thus requires a long-term commitment by executives to realize the appreciation potential of the options
 - o All options have an option price that is not less than the fair market value of the stock on the date of grant. The terms of the options and the dates after which they become exercisable were established by the Board with respect to incentive stock options, within the parameters of the new 2004 Stock Option Plan. We do not grant stock appreciation rights. The 2004 Stock Option Plan combines two previously expired separate plans for employees and directors.
- Contractual Incentive Awards are provided for two executive employees through a profit participation incentive compensation. Messrs Alexander Millar and Sheldon Hoffman are each entitled to a cash incentive participation equal to 5% of the consolidated annual pre-tax profits of the Company.
 - o The CEO and President were each compensated on a salary and pay-for-performance approach. Taken into consideration were overall Company performance in attaining annual growth in revenues, the addition or development of new and enhanced products, pretax earnings, and the achievement of short and long term goals of the Company's business as established in its five year plan. Contractual incentive awards were earned in 2006 by both the Company's CEO and President.

Compliance with Section 162 (m) of the Internal Revenue Code of 1986

Deductibility of Compensation The Internal Revenue Service under Section 162 (m) of the Internal Revenue Code will generally deny the deduction of compensation paid to the Chairman and the four other highest paid executive

11

officers required to be named in the Summary Compensation Table to the extent such compensation exceeds \$1 million per executive per year subject to an exception for compensation that meets certain performance-based requirements. Whether the Section 162 (m) limitations with respect to an executive will be exceeded and whether the Company's tax deduction for compensation paid in excess of the \$1 million limit will be denied will depend upon the resolution of various factual and legal issues that cannot be resolved at this time. As to options granted under the 1993 Incentive Stock Option Plan, the Committee intends to qualify to the extent practicable, such options under the rules governing the Section 162 (m) limitation so that compensation attributable to such options will not be subject to limitation under such rules. As to other compensation, while it is not expected that compensation to executives of the Company will exceed the Section 162 (m) limitation in the foreseeable future (and no officer of the Company received compensation in 2006 which resulted under Section 162 (m) in the non-deductibility of such compensation to the Company), various relevant considerations will be reviewed from time to time, taking into account the interests of the Company and its Shareholders, in determining whether to endeavor to cause such compensation to be exempt from the Section 162 (m) limitation.

The Company believes that each key element complements the others and that together they achieve the Company's principal compensation objectives.

The Summary Compensation Table shows the compensation of each named executive officer for the fiscal years ended December 31, 2006, 2005 and 2004

Compensation Committee Interlocks

The Membership of the compensation committee is set forth under Report of the Compensation Committee. During the fiscal year ended December 31, 2006, no director or executive officer of ours served on the board of directors or compensation committee of another company that had an executive officer or director serving on our Board of Directors or compensation committee.

The assumed 5% and 10% rates of stock appreciation are mandated by rules of the Securities and Exchange Commission and do not represent the Company's estimate of the future common stock price. This table does not take into account any appreciation in the price of the common stock to date, which exceeds the hypothetical gain shown in the table.

The following table provides information with respect to option exercises during fiscal 2006 by each of the named executive officers and the status of their options at December 31, 2006. In accordance with SEC rules, values are calculated by subtracting the exercise price from the average of the high and low prices reported for Alpha Pro Tech common stock in Amex transactions on the date of exercise, in the case of exercises, or on December 29, 2006, the last trading day before December 31, 2006, in the case of fiscal year-end values.

THE ALPHA PRO TECH, LTD.

2004 STOCK OPTION PLAN

On June 8, 2004, shareholders approved a new Alpha Pro Tech, Ltd. 2004 Stock Option Plan (the 2004 Plan). The 2004 Plan succeeded the 1993 Incentive Stock Option Plan (the 1993 Plan) and the 1993 Directors Stock Option Plan (the Directors Plan). The 1993 Plan expired by its terms in September 2003, and the Directors Plan similarly expired in October 2003, and no further stock options can be granted under either 1993 Plan.

The 2004 Plan is a stock-based compensation plan that provides for grants of stock options. The 2004 Plan is intended to recognize the contributions made to the Company by key employees of the Company and its subsidiaries and affiliated companies, provide key employees (officers, other employees and consultants) with additional incentive to devote themselves to the future success of the Company, and improve the ability of the Company to attract, retain and motivate individuals. The 2004 Plan also is intended as an additional incentive to members of the Board of Directors of the Company to serve on the Board and to devote themselves to the future success of the Company.

The Board believes that the adoption of the 2004 Plan was in the best interests of the Company and its shareholders. The Board believes that the use of stock options has enabled the Company to attract, retain and motivate talented and experienced individuals.

The 2004 Plan includes provisions designed to serve shareholders interests and promote effective corporate governance, including the following:

- **No Discounted Stock Options.** The 2004 Plan prohibits the granting of stock options at an exercise price that is less than the fair market value of the common stock on the date the stock option is granted.
- **No Annual Evergreen Provision.** The 2004 Plan fixes the number of shares available for grant at 2,500,000 shares and does not provide for any increase based on an increase in the number of outstanding shares of common stock.
- **Limitations on Stock Option Repricings.** The 2004 Plan may not be amended to provide for the repricing of stock options.
- **Limitations on Size of Awards.** The 2004 Plan limits the number of stock options that may be granted to an individual in any single calendar year.
- **Vesting Periods.** Under the 2004 Plan, 100% of the stock options may vest on the first anniversary of the date of grant, subject in each case to a limited exception for termination of employment without cause.

The following is a summary of the 2004 Plan. A copy of the 2004 Plan may be seen on our website.

Description of the 2004 Plan

Number of Shares of Common Stock. The number of shares of the Company s common stock that may be issued under the 2004 Plan is 2,500,000. Of these 2,500,000 shares: (i) the maximum number of shares that may be used for stock options to officers and key employees is 2,000,000, (ii) the maximum number of stock options issuable to non-employee directors is 500,000.

Shares issuable under the 2004 Plan will be authorized but unissued shares. If there is a lapse, forfeiture, expiration, termination or cancellation of any stock option grant made under the 2004 Plan for any reason, the shares will again be available for issuance. The number of shares of common stock issuable under the 2004 Plan is subject to adjustment, in the event of any reorganization, recapitalization, stock split, stock distribution, merger, consolidation, split-up, spin-off, combination, subdivision, consolidation or exchange of shares, any change in the capital structure of the Company or any similar corporate transaction. In each case, the Board has the discretion to make adjustments it deems necessary

to preserve the intended benefits under the 2004 Plan.

Grants of stock options under the 2004 Plan may be transferred, by will, the laws of descent and distribution, pursuant to a qualified domestic relations order, or as may be permitted by the Board with respect to a non-qualified stock option transferred by the participant during his lifetime.

19

Administration. The 2004 Plan is administered by the Board, which has authority to delegate administration to the Organizational Development & Compensation Committee (the Committee), so long as the Committee is comprised of two or more directors who satisfy the non-employee director definition under Rule 16b-3 of the Securities Exchange Act of 1934 (the Exchange Act) and the outside director definition under Section 162(m) of the Code. The Board or Committee, as applicable, has full authority to select the individuals who will receive awards under the 2004 Plan, determine the amount of each grant, and establish the terms and conditions of the grant. The Board or Committee may delegate to an officer of the Company its authority to grant options to employees who are not subject to Section 16 of the Exchange Act or who are not covered employees under Section 162(m) of the Code. To the extent such authority has been delegated, references in this summary to the Board mean the Committee, or the officer of the Company.

Eligibility. All employees and consultants of the Company designated as key employees for purposes of the 2004 Plan and all non-employee directors of the Company are eligible to receive a grant of a stock option under the 2004 Plan. On March 31, 2004, approximately 152 key employees and all non-employee directors were eligible to participate in the 2004 Plan and receive grants of stock options.

Stock Option Agreements. Each stock option made under the 2004 Plan will be evidenced by a written agreement specifying the terms and conditions of the grant as determined by the Board in its sole discretion, consistent with the terms of the 2004 Plan. If a participant fails to enter into an agreement at the request of the Board, then the grant subject to the agreement will be forfeited and cancelled.

Grants To Key Employees. The 2004 Plan provides for discretionary awards of stock options.

Stock Options. The Board has the sole discretion to grant non-qualified stock options or incentive stock options to key employees and to set the terms and conditions applicable to the options, including the type of option and the number of shares subject to the option, provided that (i) the exercise price of each stock option shall be the closing sales price of the Company's common stock on the date on which the option is granted (fair market value), (ii) unless otherwise provided in the stock option agreement, an option will vest 100% on the first anniversary of the date of grant, and the Board cannot provide that a stock option will vest more rapidly (except in the case of the key employee's termination of employment without cause, in which case the Board has the discretion to accelerate the vesting date), and (iii) each option will expire 10 years from the date of grant.

In addition, an incentive stock option is subject to the following rules: (i) the aggregate fair market value (determined at the time the option is granted) of the shares of common stock with respect to which incentive stock options are exercisable for the first time by a key employee during any calendar year (under all incentive stock option plans of the Company and its subsidiaries) shall not exceed \$100,000, and if this limitation is exceeded, so much of the incentive stock option that does not exceed the applicable dollar limit shall be an incentive stock option and the remainder will be a non-qualified stock option; (ii) if an incentive stock option is granted to a key employee who owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company, the exercise price of the incentive stock option shall be 110% of the closing price of the common stock on the date of grant and the incentive stock option shall expire no later than five years from the date of grant; and (iii) no incentive stock option will be granted after 10 years from the date the 2004 Plan was adopted.

Grants to Non-Employee Directors. Under the 2004 Plan, non-employee directors are eligible to receive non-qualified stock options.

Stock Options. Beginning with the Company's 2004 annual meeting of stockholders, each non-employee director is eligible to receive (i) a grant of a non-qualified option to purchase up to a maximum of 15,000 shares of common stock at each annual meeting at which he or she continues as a non-employee director, and (ii) a grant of a non-qualified option to purchase up to a maximum of 25,000 shares of common stock at the time he or she first becomes a non-employee director. Notwithstanding the foregoing, an individual who is first appointed a

non-employee director on or after January 1, 2004 and prior to the Company's 2004 annual meeting of stockholders will receive only the initial stock option grant described in (ii) above.

The Board has the discretion to determine the number of shares subject to a stock option granted to each non-employee director and to establish the terms and conditions of such stock option, provided that (i) unless otherwise set forth in the stock option agreement, each stock option will vest 100% on the first anniversary of the date of grant, and the Board cannot provide that a stock option will vest more rapidly (except in the case of the non-employee director's termination of service on the Board, in which case the Board has the discretion to accelerate the vesting date), (ii) the exercise price shall be the fair market value of the common stock on the date of

20

grant, and (iii) each stock option shall expire ten years after the date of grant.

Payment of Stock Options and Withholding Taxes. The Board may make one or more of the following payment methods available for payment of any stock option grant, including the exercise price of a stock option: cash; cash received from a broker-dealer to whom the holder has submitted an exercise notice together with irrevocable instructions to deliver promptly to the Company the amount of sales proceeds from the sale of the shares subject to the grant to pay the exercise price; delivery of previously acquired shares of common stock that are acceptable to the Board and that have an aggregate fair market value on the date of exercise equal to the exercise price; or certification of ownership by attestation of such previously acquired shares. In the event any withholding tax is required to be withheld in connection with a grant, the Board may permit the holder of the grant to satisfy the minimum required tax obligation by using one or more of the payment alternatives described above, and/or by directing the Company to withhold shares of common stock otherwise issuable in connection with the grant having a fair market value equal to the amount required to be withheld.

Provisions Relating to a Change in Control of the Company. Notwithstanding any other provision of the 2004 Plan, in the event of a Change in Control of the Company, all outstanding grants will become fully exercisable, all restrictions applicable to all grants will terminate or lapse. In addition, upon such Change in Control, the Board has sole discretion to provide for the purchase of any outstanding stock option for cash equal to the difference between the exercise price and the then fair market value of the common stock subject to the option had the option been currently exercisable, make such adjustment to any grant then outstanding as the Board deems appropriate to reflect such Change in Control and cause any such grant then outstanding to be assumed by the acquiring or surviving corporation after such Change in Control.

Amendment of Stock Option Agreements; Amendment and Termination of the 2004 Plan. The Board may amend any stock option agreement at any time, provided that no amendment shall adversely affect the right of any participant under any agreement in any material way without the written consent of the participant, unless such amendment is required by applicable law, regulation or stock exchange rule.

The Board may terminate, suspend or amend the 2004 Plan, in whole or in part, from time to time, without the approval of the stockholders, unless such approval is required by applicable law, regulation or stock exchange rule and provided that no amendment shall adversely affect the right of any participant under any outstanding grant in any material way without the written consent of the participant, unless such amendment is required by applicable law, regulation or rule of any stock exchange on which the shares of the Company's common stock are listed, or result in the repricing of stock options.

Notwithstanding the foregoing, there shall be no amendment to the 2004 Plan or any stock option agreement that results in the repricing of stock options.

Stock Options Granted under the 2004 Plan. Except as described below, it is not possible at this time to determine the awards that will be made in 2007 and future years under the 2004 Plan. Information relating to option grants made in 2006 to the executive officers named in the Summary Compensation Table is set forth under the Option Grants in Last Fiscal Year table.

Summary of Federal Income Tax Consequences

The following is a summary of the federal income tax consequences of the 2004 Plan. It is based on the federal tax laws and regulations currently in effect and existing administrative rulings of the Internal Revenue Service. Participants should consult with their individual tax advisers to determine the tax consequences associated with stock options granted under the 2004 Plan. This information may not be applicable to employees of foreign subsidiaries or to employees who are not residents of the United States.

Non-Qualified Stock Options. In connection with any grant, and as a condition to the issuance or delivery of any shares of Common Stock to the Participant in connection therewith, the Company may require the Participant to pay the Company an amount equal to the minimum amount of the tax the Company or any Subsidiary or Affiliated Company

may be required to withhold to obtain a deduction for federal, state or local income tax purposes as a result of such grant or to comply with applicable law.

Incentive Stock Options. A participant will not recognize any income at the time the participant is granted an incentive stock option. If the participant is issued shares pursuant to the exercise of an incentive stock option, and if the participant does not make a disqualifying disposition of the shares within one year after the date of exercise or within two years after the date of grant, the

21

participant will not recognize any income, for federal income tax purposes, at the time of the exercise. When the participant sells the shares issued pursuant to the incentive stock option, the participant will be taxed, for federal income tax purposes, as a long-term capital gain on any amount recognized by the participant in excess of the exercise price, and any loss sustained by the participant will be a long-term capital loss. No deduction will be allowed to the Company for federal income tax purposes. If, however, the participant sells the shares before the expiration of the holding periods, the participant will recognize ordinary income on the difference between the exercise price and the fair market value at exercise, and the Company generally will receive a tax deduction in the same amount. Upon exercise of an incentive stock option, the excess of the fair market value over the exercise price is an item of tax preference to the participant for purposes of determining the alternative minimum tax.

In order to qualify as an incentive stock option, the option must be exercised within three months after the participant's termination of employment for any reason other than death or disability and within one year after termination of the participant's employment due to disability. If the option is not exercised within this time period, it will be treated as a non-qualified stock option and taxed accordingly.
