SECTION 1 REGISTRANT'S BUSINESS AND OPERATIONS

ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT

As previously disclosed, The Cheesecake Factory Incorporated (the Company) entered into a five-year, \$200 million, unsecured revolving credit facility, dated as of April 3, 2007 (the Credit Facility), by and among the Company and JPMorgan Chase Bank, as administrative agent, Bank of the West, as syndication agent, and Bank of America, Wells Fargo Bank and Rabobank Nederland, as documentation agents. In conjunction with the Credit Facility and also as previously disclosed, the Company entered into an interest collar agreement with JPMorgan Chase Bank, dated as of April 3, 2007 (the First Interest Collar Agreement), as a cash flow hedge against the LIBO Rate movements on a notional amount of \$100 million of the Credit Facility.

The Company subsequently entered into a second interest collar agreement with JPMorgan Chase Bank, dated as of October 3, 2007 (the Second Interest Collar Agreement), as a cash flow hedge against the LIBO Rate movements on the remaining outstanding balance of the Credit Facility. As with the First Interest Collar Agreement, the Second Interest Collar Agreement relates only to the LIBO Rate portion of the interest and not the Applicable Margin. The Second Interest Collar Agreement provides for the Company to pay interest for a period of four years and six months at a rate between 4.49% and 5.35% on a notional amount of \$50 million while receiving interest for the same period at the LIBO Rate on the same notional amount. The Company expects that the interest rate collar will qualify as an effective cash flow hedge under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities. As such, any changes in the fair value of the derivative are recorded in other comprehensive income on the consolidated balance sheets until earnings are affected by the variability of cash flows.
