CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including the following:

- certain statements, including possible or assumed future results of operations, in Management's Discussion and Analysis of Financial Condition and Results of Operations;
- any statements contained herein regarding the prospects for our business or any of our services;
- any statements preceded by, followed by or that include the words may, will, should, seeks, believes, expects, anticipates, continue, estimate, plans, future, targets, predicts, budgeted, projections, outlooks, attempts, is scheduled, or similar expressions;
- other statements contained herein regarding matters that are not historical facts.

Our business and results of operations are subject to risks and uncertainties, many of which are beyond our ability to control or predict. Because of these risks and uncertainties, actual results may differ materially from those expressed or implied by forward-looking statements, and investors are cautioned not to place undue reliance on such statements, which speak only as of the date thereof. Important factors that could cause actual results to differ materially from our expectations and may adversely affect our business and results of operations, include, but are not limited to those items described herein or set forth in Item 1A. Risk Factors appearing in our Annual Report on Form 10-K for the year ended December 31, 2008.

STARTEK, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share data)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These financial statements reflect all adjustments (consisting only of normal recurring entries, except as noted) which, in the opinion of management, are necessary for fair presentation. Operating results during the three and six months ended June 30, 2009, are not necessarily indicative of operating results that may be expected during any other interim period of 2009 or the year ending December 31, 2009. We have evaluated all subsequent events through July 31, 2009, the date the financial statements were issued.

The consolidated balance sheet as of December 31, 2008, was derived from audited financial statements at that date, but does not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the StarTek, Inc. Annual Report on Form 10-K for the year ended December 31, 2008.

Certain reclassifications have been made to 2008 information to conform to 2009 presentation due to the presentation of discontinued operations (see Note 5).

Unless otherwise noted in this report, any description of us refers to StarTek, Inc. and our subsidiaries. The assets and liabilities of our foreign operations that are recorded in foreign currencies are translated into U.S. dollars at exchange rates prevailing at the balance sheet date. Revenues and expenses are translated at the weighted-average exchange rate during the reporting period.

Recently Adopted Accounting Pronouncements

Effective January 1, 2009, we adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157), for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value on a recurring basis (at least annually) for which SFAS No. 157 was previously adopted. Refer to Note 9, Fair Value Measurements, of this Form 10-Q for additional information on the adoption of SFAS No. 157.

Edgar Filing: STARTEK INC - Form 10-Q

Effective January 1, 2009, we adopted Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities to provide greater transparency through additional disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133) and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. Refer to Note 8, Derivative Instruments, of this Form 10-Q for additional information on the adoption of SFAS No. 161.

We adopted Statement of Financial Accounting Standards No. 141(R), Business Combinations (SFAS No. 141(R)), which significantly changed the accounting for and reporting of business combination transactions. This standard was effective for us for business combination transactions for which the acquisition date was on or after January 1, 2009. No business combination transactions occurred during the six months ended June 30, 2009.

We adopted FASB Staff Position No. 115-2 and SFAS No. 124-2, Recognition and Presentation of Other-Than-Temporary Impairments (FSP No. 115-2 and SFAS No. 124-2), in the second quarter of 2009. FSP No. 115-2 and SFAS No. 124-2 modifies the other-than-temporary impairment guidance for debt securities through increased consistency in the timing of impairment recognition and enhanced disclosures related to the credit and noncredit components of impaired debt securities that are not expected to be sold. In addition, increased disclosures are required for both debt and equity securities regarding expected cash flows, credit losses, and securities with unrealized losses. Refer to Note 7,

Investments, of this Form 10-Q for the relevant disclosures required by adoption of FSP No. 115-2 and SFAS No. 124-2. The adoption of FSP No. 115-2 and SFAS No. 124-2 did not have a material impact on our financial statements.

We adopted FASB Staff Position No. 107-1 and APB Opinion No. 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP No. 107-1 and APB Opinion No. 28-1), in the second quarter of 2009. FSP No. 107-1 and APB Opinion No. 28-

Table of Contents

I requires fair value disclosures for financial instruments that are not reflected in the Condensed Consolidated Balance Sheets at fair value. Prior to the issuance of FSP No. 107-1 and APB Opinion No. 28-1, the fair values of those assets and liabilities were disclosed only annually. With the issuance of FSP No. 107-1 and APB Opinion No. 28-1, we are now required to disclose this information on a quarterly basis, providing quantitative and qualitative information about fair value estimates for all financial instruments not measured in the Condensed Consolidated Balance Sheets at fair value. The adoption of FSP No. 107-1 and APB Opinion No. 28-1 did not have a material impact on our financial statements.

We adopted Statement of Financial Accounting Standards No. 165, *Subsequent Events* (SFAS No. 165), in the second quarter of 2009. SFAS No. 165 establishes the accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date, that is, whether that date represents the date the financial statements were issued or were available to be issued. Refer to this Note 1, *Basis of Presentation*, for the related disclosures. The adoption of SFAS No. 165 did not have a material impact on our financial statements.

Recently Issued Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 168). SFAS No. 168 will become the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP), superseding existing FASB, American Institute of Certified Public Accountants (AICPA), Emerging Issues Task Force (EITF), and related accounting literature. SFAS No. 168 reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. Also included is relevant Securities and Exchange Commission guidance organized using the same topical structure in separate sections. SFAS No. 168 will be effective for financial statements issued for reporting periods that end after September 15, 2009. This will have an impact on our financial statements since all future references to authoritative accounting literature will be references in accordance with SFAS No. 168.

2. SEGMENT INFORMATION

We operate within three business segments, U.S., Canada and Offshore. The business segments align with those regions in which our services are rendered. As of June 30, 2009, the U.S. segment included the operations of our thirteen facilities in the U.S., the Canada segment included the operations of our five facilities in Canada and the Offshore segment included the operations of our facility in Makati City, Philippines. We use gross profit as our measure of profit and loss for each business segment and do not allocate selling, general and administrative expenses to our business segments.

Information about our reportable segments, which correspond to the geographic areas in which we operate, is as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2009	2008	2009	2008
Revenue:				
United States	\$ 52,033	\$ 41,767	\$ 101,397	\$ 81,725
Canada	19,232	23,700	38,413	48,325

Edgar Filing: STARTEK INC - Form 10-Q

Offshore		2,025			4,191		
Total	\$	73,290	\$	65,467	\$	144,001	\$ 130,050
Gross profit:							
United States	\$	10,085	\$	6,239	\$	18,882	\$ 14,245
Canada		3,268		2,065		5,014	3,526
Offshore		(224)				(44)	
Total	\$	13,129	\$	8,304	\$	23,852	\$ 17,771

3. NET INCOME (LOSS) PER SHARE

Basic and diluted net income (loss) per common share is computed on the basis of our weighted average number of common shares outstanding, as determined by using the calculations outlined below:

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Income (loss) from continuing operations	\$ 1,327	\$ (4,588)	\$ (2,661)	\$ (4,991)
Income from discontinued operations, net of tax		69	4,640	141
Net income (loss)	\$ 1,327	\$ (4,519)	\$ 1,979	\$ (4,850)
Weighted average shares of common stock	14,782	14,706	14,768	14,706
Dilutive effect of stock options	30		11	
Common stock and common stock equivalents	14,812	14,706	14,779	14,706
Basic net income (loss) per share from:				
Continuing operations	\$ 0.09	\$ (0.31)	\$ (0.18)	\$ (0.34)
Discontinued operations		0.00	0.31	0.01
Net income (loss)	\$ 0.09	\$ (0.31)	\$ 0.13	\$ (0.33)
Diluted net income (loss) per share from:				
Continuing operations	\$ 0.09	\$ (0.31)	\$ (0.18)	\$ (0.34)
Discontinued operations		0.00	0.31	0.01
Net income (loss)	\$ 0.09	\$ (0.31)	\$ 0.13	\$ (0.33)

Diluted earnings per share is computed on the basis of our weighted average number of common shares outstanding plus the effect of dilutive outstanding stock options and non-vested restricted stock using the treasury stock method. Anti-dilutive securities totaling 2,156 and 2,993 in the three and six months ended June 30, 2009, respectively, were not included in our calculation because the stock options' exercise prices were greater than the average market price of the common shares during the periods and anti-dilutive securities totaling 1,867 and 1,624 in the three and six months ended June 30, 2008, respectively, were not included in our calculation due to our net loss from continuing operations during those periods.

4. IMPAIRMENT LOSSES AND RESTRUCTURING CHARGES*Impairment Losses*

During the six months ended June 30, 2009, we incurred \$1,756 of impairment losses in our Canadian segment, due to the impairment of certain long-lived assets for which the carrying value of those assets is not recoverable. These assets are located in a facility for which we are uncertain about our ability to generate future cash flows to support the carrying value of these assets. The long-lived assets include computer and telephone equipment, furniture and fixtures, leasehold improvements and software. Refer to Note 9, Fair Value Measurements, of this Form 10-Q, for additional information on the fair value measurements for all assets and liabilities that are measured at fair value in the Condensed Consolidated Financial Statements.

Restructuring Charges

Edgar Filing: STARTEK INC - Form 10-Q

In August 2007, August 2008, December 2008 and February 2009, we closed facilities in Hawkesbury, Ontario, Big Spring, Texas, Petersburg, Virginia and Regina, Saskatchewan, respectively. We have recorded restructuring charges related to lease costs and other expenses related to the facility closures. In accordance with Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities (SFAS No. 146), we recognized the liability when it was incurred, instead of upon commitment to a plan. A significant assumption used in determining the amount of estimated liability incurred in closing a facility is the estimated liability for future lease payments on vacant facilities. If the assumptions regarding early termination and the timing and amounts of sublease payments prove to be inaccurate, we may be required to record additional losses, or conversely, a future gain, in our Condensed Consolidated Statements of Operations.

We expect to incur total restructuring charges related to our Canada segment of approximately \$6,988 (\$2,312 and \$4,676 related to the Hawkesbury and Regina closures, respectively). We expect to incur total restructuring charges related to our U.S. segment of approximately \$1,964 (\$302 and \$1,662 related to the Big Spring and Petersburg closures, respectively). The cumulative amount paid as of June 30, 2009 related to the closure of Hawkesbury, Regina and Petersburg is \$1,123, \$513 and \$561, respectively. We expect completion of the Hawkesbury, Petersburg and Regina restructuring plans no later than 2012, 2013 and 2013 respectively; however, it may be earlier depending on our ability to sublease the respective facility or buy-out the applicable lease. During February 2009, we

Edgar Filing: STARTEK INC - Form 10-Q

Table of Contents

bought out the remainder of the lease at the Big Spring facility for approximately \$184 and do not expect to incur any additional charges. Refer to Note 9, Fair Value Measurements, of this Form 10-Q, for additional information on the fair value measurements for all assets and liabilities, including restructuring charges, that are measured at fair value in the Condensed Consolidated Financial Statements.

A summary of the activity under the restructuring plans as of June 30, 2009, and changes during the six months ended June 30, 2009 is presented below:

	Facility-Related Costs						Company Total
	Hawkesbury	Regina	Canada Total	Big Spring	Petersburg	U.S. Total	
Balance as of January 1, 2009	\$ 1,099	\$	\$ 1,099	\$ 208	\$ 1,402	\$ 1,610	\$ 2,709
Expense	16	4,436	4,452	31	198	229	4,681
Payments	(218)	(513)	(731)	(239)	(403)	(642)	(1,373)
Reclassification of long-term liability		136	136		(25)	(25)	111
Foreign currency translation adjustment	44	335	379				379
Balance as of June 30, 2009	\$ 941	\$ 4,394	\$ 5,335	\$	\$ 1,172	\$ 1,172	\$ 6,507

5. DISCONTINUED OPERATIONS

On February 25, 2009, we entered into an agreement to sell the assets of Domain.com, our wholly owned subsidiary, to A. Emmet Stephenson, Jr., Inc. (Mr. Stephenson) in exchange for cash of \$7,075. The assets of Domain.com consist of domain names, trademarks and corporation names. We conducted an auction for the assets and received bids from multiple parties, including Mr. Stephenson. Mr. Stephenson presented the highest bid, which represented the selling price, of \$7,075 and the sale was completed effective February 25, 2009. Mr. Stephenson is one of our co-founders, has managed the Domain.com subsidiary since 2006 and owns approximately 20% of our common shares outstanding. Because the transaction involves a related party, the Audit Committee of our Board of Directors considered and approved the transaction.

The results of operations and cash flows of Domain.com have been reported in the Condensed Consolidated Statements of Operations as discontinued operations. The following table summarizes the results of discontinued operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Operating income from discontinued operations before income taxes	\$	\$	110	\$ 27
Gain on the sale of discontinued operations				6,937
Income tax expense			(41)	(2,324)
Income from discontinued operations, net of tax	\$	\$	69	\$ 141

6. PRINCIPAL CLIENTS

Edgar Filing: STARTEK INC - Form 10-Q

The following table represents revenue concentration of our principal clients.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
AT&T Services, Inc. and AT&T Mobility, LLC, subsidiaries of AT&T, Inc.	64.2%	51.7%	64.5%	50.6%
T-Mobile USA, Inc., a subsidiary of Deutsche Telekom	22.0%	28.6%	21.4%	28.2%

The loss of a principal client and/or changes in timing or termination of a principal client's product launch, volume delivery or service offering would have a material adverse effect on our business, revenue, operating results, and financial condition. To limit our credit risk, management from time to time will perform credit evaluations of our clients. Although we are directly impacted by the economic conditions in which our clients operate, management does not believe substantial credit risk existed as of June 30, 2009.

Table of Contents**7. INVESTMENTS**

Investments available for sale consisted of:

	Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
As of June 30, 2009:				
Corporate debt securities	\$ 493	\$ 5	\$	\$ 498
As of December 31, 2008:				
Corporate debt securities	\$ 8,513	\$ 9	\$ (85)	\$ 8,437

As of June 30, 2009, the investments in our portfolio have remaining contractual maturities within one year. There are no investments as of June 30, 2009 that have carried unrealized losses for longer than twelve months. Refer to Note 9, Fair Value Measurements, of this Form 10-Q, for additional information on the fair value measurements for all assets and liabilities, including investments, that are measured at fair value in the Condensed Consolidated Financial Statements. Proceeds from the sale of investment securities available for sale were \$1,491 and \$8,021 for the three and six months ended June 30, 2009, respectively, and \$4,515 and \$9,469 for the three and six months ended June 30, 2008, respectively. Gross realized gains included in other income were \$0 and \$5 for the three and six months ended June 30, 2009, respectively, and \$0 and \$0 for the three and six months ended June 30, 2008, respectively. Gross realized losses included in other income were \$3 and \$3 for the three and six months ended June 30, 2009, respectively, and \$0 and \$0 for the three and six months ended June 30, 2008, respectively. Original cost of investments available for sale is based on the specific identification method.

The following table summarizes the aggregate fair value of those investments in a gross unrealized loss position:

	June 30, 2009	As of December 31, 2008
Investments in a continuous unrealized loss position for less than 12 months		
Aggregate unrealized losses on corporate debt securities	\$	\$ (38)
Aggregate fair value of corporate debt securities		1,996
Investments in a continuous unrealized loss position for greater than 12 months		
Aggregate unrealized losses on corporate debt securities	\$	\$ (47)
Aggregate fair value of corporate debt securities		3,447

8. DERIVATIVE INSTRUMENTS

We use derivatives to partially offset our business exposure to foreign currency exchange risk. We enter into foreign currency exchange contracts to hedge our anticipated operating commitments that are denominated in foreign currencies. The contracts cover periods commensurate with expected exposure, generally within six months, and are principally unsecured foreign exchange contracts. The market risk exposure is essentially limited to risk related to currency rate movements. Our Canadian and Philippine subsidiaries' functional currencies are the Canadian dollar and the Philippine peso, respectively, which are used to pay labor and other operating costs in those countries. However, our

Edgar Filing: STARTEK INC - Form 10-Q

client contracts primarily generate revenues which are paid to us in U.S. dollars. We have elected to follow cash flow hedge accounting under SFAS No. 133 in order to associate the results of the hedges with forecasted future expenses. The current mark-to-market gain or loss is recorded in accumulated other comprehensive income (AOCI) as a component of stockholders' equity and will be re-classified to operations as the forecasted expenses are incurred, typically within one year. During the three and six months ended June 30, 2009 and 2008, our cash flow hedges were highly effective and there were no amounts charged to the Condensed Consolidated Statements of Operations for hedge ineffectiveness.

During the six months ended June 30, 2009, we entered into Canadian dollar forward contracts with Wells Fargo Bank for a notional amount of \$13,500 Canadian dollars to hedge our foreign currency risk with respect to labor costs in Canada. As of June 30, 2009, we have not entered into any arrangements to hedge our exposure to fluctuations in the Philippine peso relative to the U.S. dollar.

Table of Contents

The following table shows the notional principal of our derivative instruments as of June 30, 2009:

	Currency	Notional Principal
Instruments qualifying as accounting hedges:		
Foreign exchange contracts	Canadian dollar	CDN \$ 29,100

The above foreign exchange contracts are to be delivered periodically through December 2009 at a purchase price which is no more than \$24,285 and no less than \$23,968. The estimates of fair value are based on applicable and commonly used pricing models and prevailing financial market information as of June 30, 2009. Refer to Note 9, Fair Value Measurements, of this Form 10-Q, for additional information on the fair value measurements for all assets and liabilities, including derivative assets and derivative liabilities, that are measured at fair value in the Condensed Consolidated Financial Statements.

The following table shows our derivative instruments measured at gross fair value as reflected in the Condensed Consolidated Balance Sheet as of June 30, 2009:

	Fair Value of Derivatives Designated as Hedge Instruments
Derivative assets:	
Foreign exchange contracts	\$ 996
Derivative liabilities:	
Foreign exchange contracts	\$ (97)

The following table shows the effect of our derivative instruments designated as cash flow hedges in the Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2009:

	Three Months Ended				
	June 30, 2009		June 30, 2008		
	Gain Recognized in AOCI	Gain Reclassified from AOCI into Income	Gain Recognized in AOCI	Gain Reclassified from AOCI into Income	Location of Gain Reclassified from AOCI into Income
Cash flow hedges:					
Foreign exchange contracts	\$ 1,713	\$ 23	\$ 71	\$ 26	Cost of services

	Six Months Ended				
	June 30, 2009		June 30, 2008		
	Gain Recognized in AOCI	Loss Reclassified from AOCI into Income	Loss Recognized in AOCI	Loss Reclassified from AOCI into Income	Location of Loss Reclassified from AOCI into Income
Cash flow hedges:					

Edgar Filing: STARTEK INC - Form 10-Q

----------------------------	----	-------	----	---------	----	------	----	-------	------------------

9. FAIR VALUE MEASUREMENTS

As of January 1, 2009, we adopted SFAS No. 157 for all non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements. We had previously adopted SFAS No. 157 for all financial assets and liabilities. SFAS No. 157 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, we consider the principal or most advantageous market in which we would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions, and credit risk.

Table of Contents

SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The levels of the fair value hierarchy under SFAS No. 157 are described below:

- | | |
|---------|--|
| Level 1 | Valuation is based upon quoted prices for identical instruments traded in active markets. |
| Level 2 | Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market. |
| Level 3 | Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques. |

Investments

As of June 30, 2009 and December 31, 2008, our investments consisted entirely of corporate debt securities. Our corporate debt securities are valued using third-party broker statements. The value of the majority of our corporate debt securities is derived from quoted market information. The inputs to the valuation are generally classified as Level 1 given the active market for these securities, however, if an active market does not exist, the inputs are recorded at a lower level in the fair value hierarchy.

Derivative Instruments and Hedging Activities

Our derivative instruments are valued using third-party broker or counterparty statements. The value is derived from pricing models using inputs based upon market information, including contractual terms, market prices and yield curves. The inputs to the valuation pricing models are observable in the market, and as such are generally classified as Level 2 in the fair value hierarchy.

Restructuring Charges

SFAS No. 146 specifies that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred, instead of upon commitment to an exit plan. On an ongoing basis, management assesses the profitability and utilization of our facilities and in some cases management has chosen to close facilities. Accrued restructuring costs were valued using a discounted cash flow model. Significant assumptions used in determining the amount of the estimated liability for closing a facility are the estimated liability for future lease payments on vacant facilities, which we determine based on a third-party broker's assessment of our ability to successfully negotiate early termination agreements with landlords and/or to sublease the facility, and the discount rate utilized to determine the present value of the future expected cash flows. If the assumptions regarding early termination and the timing and amounts of sublease payments prove to be inaccurate, we may be required to record additional losses, or conversely, a future gain, in the Condensed Consolidated Statements of Operations.

As described in Note 4, Impairment Losses and Restructuring Charges, during the six months ended June 30, 2009, we closed our facility in Regina, Saskatchewan, which resulted in \$0 and \$4,436 of accrued restructuring costs during the three and six months ended June 30, 2009. These costs were valued using a discounted cash flow model. The cash flows consist of the future lease payment obligations required under the lease agreement. We assumed that we would not sublease the vacant facility for the remainder of the lease term based on our knowledge of the Regina marketplace, as well as our historical inability to sublease our facilities in other locations in which we operate. In the future, if we are able to sublease the facility, we may be required to record a gain in the Condensed Consolidated Statements of Operations. Future cash flows also include estimated property taxes through the remainder of the lease term, which are valued based upon historical tax payments. The future cash flows were discounted using a rate of 3%. Given that the restructuring charges were valued using our internal estimates using a discounted cash flow model, we have classified the accrued restructuring costs as Level 3 in the fair value hierarchy.

Impairment of Long-Lived Assets

As described in Note 4, Impairment Losses and Restructuring Charges, during the three and six months ended June 30, 2009, we recorded approximately \$0 and \$1,756 of impairment losses in our Canadian segment, due to the impairment of certain long-lived assets for which the carrying value of those assets is not recoverable. These assets are located in a facility for which we do not have long-term customer commitments and therefore, we are uncertain about our ability to generate future cash flows to support the carrying value of these assets. The long-lived assets include computer and telephone equipment, furniture and fixtures, leasehold improvements and software. For assets which were not recoverable through future cash flows or could not be used in another facility,

Table of Contents

we reduced the carrying value to fair value. The fair value of these long-lived assets after the impairment charge was \$228. Given that the impairment losses were valued using internal estimates, we have classified the remaining fair value of long-lived assets as Level 3 in the fair value hierarchy.

Fair Value Hierarchy

The following tables set forth our assets and liabilities measured at fair value on a recurring basis and a non-recurring basis by level within the fair value hierarchy. As required by SFAS No. 157, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Assets Measured at Fair Value on a Recurring Basis as of June 30, 2009			
	Level 1	Level 2	Level 3	Total
Assets:				
Corporate debt securities	\$ 498	\$	\$	\$ 498
Derivative instruments		899		899
Total fair value of assets measured on a recurring basis	\$ 498	\$ 899	\$	\$ 1,397

	Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis During the Six Months ended June 30, 2009			
	Level 1	Level 2	Level 3	Total
Assets:				
Property, plant and equipment, net	\$	\$	\$ 228	\$ 228
Total fair value of assets measured on a non-recurring basis	\$	\$	\$ 228	\$ 228
Liabilities:				
Accrued restructuring costs	\$	\$	\$ 4,436	\$ 4,436
Total fair value of liabilities measured on a non-recurring basis	\$	\$	\$ 4,436	\$ 4,436

10. DEBT

On June 26, 2009, we entered into a business loan agreement, promissory note and three commercial security agreements (together the Agreement) with UMB Bank Colorado, N.A. (UMB Bank) for a \$15 million secured revolving line of credit. The Agreement is effective July 1, 2009 through August 1, 2010. This Agreement replaced our \$10 million secured revolving line of credit with Wells Fargo Bank N.A., which expired by its terms on June 30, 2009. There was no balance outstanding on either the line of credit with UMB Bank or the previous line of credit with Wells Fargo Bank N.A. as of June 30, 2009.

Edgar Filing: STARTEK INC - Form 10-Q

Borrowings under the Agreement bear interest, at our option at the time of the borrowing, of the thirty, sixty or ninety day LIBOR index, plus 1.75%. The interest rate shall never be less than 3.25% per annum. Under the Agreement, we granted UMB Bank a security interest in all of our present and future accounts receivable, general intangibles, and owned real property. In addition, under the Agreement, we are subject to certain financial covenants, which include maintaining 1) a ratio of total liabilities to tangible net worth of less than 1.0 to 1.0, 2) a tangible net worth of at least \$105 million, 3) unencumbered liquid assets, defined as cash, certificate of deposits and marketable securities, of at least \$10 million measured on the last day of each fiscal quarter and 4) a cash flow coverage ratio, as defined in the Agreement, of greater than 1.50 to 1.0 measured on the last day of each fiscal quarter for the previous twelve months.

In addition, during the three months ended June 30, 2009, we paid off the remaining principal balance on the Secured Equipment Promissory Note between Wells Fargo Equipment Finance, Inc. and StarTek USA, Inc., our wholly owned subsidiary, and the Canadian Dollar Secured Equipment Loan between Wells Fargo Equipment Finance Company, Inc. and StarTek Canada Services, Ltd., our wholly owned subsidiary. The loans had original maturities in November 2010. The total payoff on these loans, including pre-payment penalties, was \$5,688.

Table of Contents**11. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)**

Statement of Financial Accounting Standards No. 130, Reporting Comprehensive Income, establishes standards for reporting and display of comprehensive income. Comprehensive income is defined essentially as all changes in stockholders' equity, exclusive of transactions with owners. The following represents the components of other comprehensive income (loss):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Net income (loss)	\$ 1,327	\$ (4,519)	\$ 1,979	\$ (4,850)
Other comprehensive income (loss):				
Foreign currency translation adjustments, net of tax	224	(78)	136	(451)
Change in fair value of derivative instruments, net of tax	1,713	71	2,007	(41)
Unrealized gain (loss) on available for sale securities, net of tax	7	153	51	(67)
Comprehensive income (loss)	\$ 3,271	\$ (4,373)	\$ 4,173	\$ (5,409)

Accumulated other comprehensive income (loss) consisted of the following items:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Accumulated foreign currency translation adjustments:				
Beginning balance	\$ 1,002	\$ 2,180	\$ 1,090	\$ 2,553
Translation adjustments, net of tax	224	(78)	136	(451)
Ending balance	\$ 1,226	\$ 2,102	\$ 1,226	\$ 2,102
Accumulated unrealized derivative (losses) gains:				
Beginning balance	\$ (1,150)	\$ (92)	\$ (1,444)	\$ 20
Gain (loss) reclassified to earnings, net of tax	14	16	(1,019)	(114)
Change in fair value of cash flow hedges, net of tax	1,699	55	3,026	73
Ending balance	\$ 563	\$ (21)	\$ 563	\$ (21)
Accumulated unrealized losses on available for sale securities:				
Beginning balance	\$ (17)	\$ (249)	\$ (61)	\$ (29)
Gain (loss) reclassified to earnings, net of tax	2		(1)	
Change in fair value of available for sale securities, net of tax	5	153	52	(67)
Ending balance	\$ (10)	\$ (96)	\$ (10)	\$ (96)

12. SHARE-BASED COMPENSATION

Edgar Filing: STARTEK INC - Form 10-Q

Compensation cost that has been charged against income related to share-based compensation for the three months ended June 30, 2009 and 2008 was \$472 and \$241, respectively and is included in selling, general and administrative expense. The compensation cost that has been charged for the six months ended June 30, 2009 and 2008 was \$937 and \$614, respectively. A summary of activity during the six months ended June 30, 2009 related to our equity awards is presented below.

Stock Options

A summary of option activity as of June 30, 2009, and changes during the six months then ended is presented below:

	Shares		Weighted Average Exercise Price
Outstanding as of January 1, 2009	1,629	\$	11.45
Granted	678		4.29
Exercised			
Forfeited	(111)		8.65
Expired	(34)		15.55
Outstanding as of June 30, 2009	2,162	\$	9.29

Table of Contents**Restricted Shares**

Restricted share activity during the six months ended June 30, 2009 was as follows:

	Restricted Shares		Grant Date Fair Value
Non-vested balance as of January 1, 2009	62	\$	10.45
Granted	7		4.76
Vested	(14)		9.01
Forfeited	(3)		9.01
Non-vested balance as of June 30, 2009	52	\$	10.14

13. INCOME TAXES

The year-to-date effective tax rate for continuing operations decreased from 35.6% during the six months ended June 30, 2008 to 20.4% during the six months ended June 30, 2009. The primary difference between the periods is an increase in work opportunity credits and a larger impact from the change in the Canadian statutory tax rates in 2009 compared to 2008. Effective January 1, 2008, the Canadian statutory rate was reduced from 22.1% to 19.5% for fiscal year 2008 and to 19.0% for fiscal year 2009. The rate will continue to decrease each year until it is 15.0% by 2012.

Differences between U.S. statutory income tax rates and our effective tax rates for continuing operations for the six months ended June 30, 2009 and 2008 were:

	Six Months Ended June 30,	
	2009	2008
U.S. statutory tax rate	35.0%	35.0%
Effect of state taxes (net of Federal benefit)	4.3%	1.6%
Work opportunity credits	(17.2)%	7.2%
Effect of change in Canadian tax rate	(12.0)%	(5.4)%
Meals and entertainment	4.2%	(1.9)%
Other, net	6.1%	(0.9)%
Total	20.4%	35.6%

14. LITIGATION

In our Annual Report on Form 10-K filed March 3, 2009, we described two material pending litigation matters: West Palm Beach Firefighters Pension Fund v. StarTek, Inc., et al. (U.S. District Court, District of Colorado) filed on July 8, 2005, and John Alden v. StarTek, Inc., et al. (U.S. District Court, District of Colorado) filed on July 20, 2005 (the Litigation).

Edgar Filing: STARTEK INC - Form 10-Q

On July 20, 2009, we executed a Stipulation of Settlement (Stipulation) with lead plaintiffs to settle the Litigation. Under the terms of the Stipulation, defendants will pay \$7,500 to completely resolve the Litigation, in exchange for a release of all claims by lead plaintiffs and class members and a dismissal of the Litigation with prejudice. StarTek's primary insurance carrier will contribute \$6,900 and StarTek will contribute \$600 to the Settlement Fund (as defined in the Stipulation). The settlement as set forth in the Stipulation is subject to various conditions, including preliminary approval by the United States District Court for the District of Colorado (the Court), notice to the class members, a final hearing, and final approval by the Court. We have accrued for our portion of the settlement due, or \$600 in our Condensed Consolidated Statement of Operations during the three and six months ended June 30, 2009.

We are involved from time to time in other litigation arising in the normal course of business, none of which is expected by management to have a material adverse effect on our business, financial condition or results of operations.

15. SUBSEQUENT EVENT

On July 20, 2009, we executed a Stipulation of Settlement with lead plaintiffs to settle two pending litigation matters. Refer to Note 14, Litigation , for further information regarding the Stipulation of Settlement.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our Unaudited Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2008, and with the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2008.

Unless otherwise noted in this report, any description of us or we refers to StarTek, Inc. and our subsidiaries. Financial information in this report is presented in U.S. dollars.

BUSINESS DESCRIPTION AND OVERVIEW

StarTek is a provider of business process outsourcing services to the communications industry. We partner with our clients to meet their business objectives and improve customer retention, increase revenues and reduce costs through an improved customer experience. Our solutions leverage industry knowledge, best business practices, skilled agents, proven operational excellence and flexible technology. The StarTek comprehensive service suite includes customer care, sales support, complex order processing, accounts receivable management, technical support and other industry-specific processes. We operate our business within three reportable segments, based on the geographic regions in which our services are rendered: (1) the U.S., (2) Canada and (3) the Philippines (Offshore). As of June 30, 2009, our U.S. segment included the operations of our thirteen facilities in the U.S.; our Canada segment included the operations of our five facilities in Canada; and our Offshore segment included the operations of our facility in Makati City, Philippines. As of June 30, 2008, there were fourteen, six and zero operating centers in the U.S., Canada and Offshore, respectively. We use gross profit as our measure of profit and loss for each business segment and do not allocate selling, general and administrative expenses to our business segments.

We endeavor to achieve site optimization at all of our locations by routinely evaluating site performance. If local economic conditions, prevailing wage rates, or other factors, negatively impact the long-term financial viability of a location, management will from time to time make the decision to close a facility. As a result, we may incur impairment losses or restructuring charges in connection with the closure. Likewise, management is continually in pursuit of opportunities to open new locations in economically viable geographic markets in order to improve profitability and grow the business.

SIGNIFICANT DEVELOPMENTS DURING THE THREE AND SIX MONTHS ENDED JUNE 30, 2009

In February 2009, we closed our facility in Regina, Saskatchewan. The closure of our Regina facility was driven by market conditions, namely recruiting challenges in this location, which impacted the profitability of the site and management determined it was in our long-term interest to close the location. This closure resulted in approximately \$2.9 million and \$5.2 million less revenue during the three and six months ended June 30, 2009 and \$0.1 million and \$nil less gross profit during the three and six months ended June 30, 2009 compared to the comparable periods ended June 30, 2008. We also incurred restructuring charges of approximately \$4.4 million during the six months ended June 30, 2009 related to the closure, which is discussed in further detail below.

Edgar Filing: STARTEK INC - Form 10-Q

On February 25, 2009, we entered into an agreement to sell the assets of Domain.com, our wholly owned subsidiary, to A. Emmet Stephenson, Jr., Inc. (Mr. Stephenson) in exchange for cash of \$7.075 million. The assets of Domain.com consist of domain names, trademarks and corporation names. We conducted an auction for the assets and received bids from multiple parties, including Mr. Stephenson. Mr. Stephenson presented the highest bid, which represented the selling price, of \$7.075 million and the sale was completed effective February 25, 2009. Mr. Stephenson is one of our co-founders, has managed the Domain.com subsidiary since 2006 and owns approximately 20% of our common shares outstanding. Because the transaction involves a related party, the Audit Committee of our Board of Directors considered and approved the transaction.

The results of operations and cash flows of Domain.com have been reported as discontinued operations.

RESULTS OF OPERATIONS THREE MONTHS ENDED JUNE 30, 2009 AND JUNE 30, 2008

Edgar Filing: STARTEK INC - Form 10-Q

Table of Contents

The following table presents selected items from our Condensed Consolidated Statements of Operations in thousands of dollars and as a percentage of revenue for the periods indicated.

	Three Months Ended June 30, 2009		% of Revenue	Three Months Ended June 30, 2008		% of Revenue	% Change Q2 2008 to Q2 2009
Revenue	\$	73,290	100.0%	\$	65,467	100.0%	11.9%
Cost of services		60,161	82.1%		57,163	87.3%	5.2%
Gross profit		13,129	17.9%		8,304	12.7%	58.1%
Selling, general and administrative expenses		10,889	14.9%		10,227	15.6%	6.5%
Impairment losses and restructuring charges			0.0%		5,500	8.4%	-100.0%
Operating income (loss)		2,240	3.0%		(7,423)	-11.3%	NM
Net interest and other (expense) income		(103)	-0.1%		90	0.1%	NM
Income (loss) from continuing operations before income taxes		2,137	2.9%		(7,333)	-11.2%	NM
Income tax expense (benefit)		810	1.1%		(2,745)	-4.2%	NM
Net income (loss) from continuing operations		1,327	1.8%		(4,588)	-7.0%	NM
Income from discontinued operations, net of tax			0.0%		69	0.1%	-100.0%
Net income (loss)	\$	1,327	1.8%	\$	(4,519)	-6.9%	NM

The following table summarizes our revenues and gross profit for the periods indicated, by reporting segment:

	For the Three Months Ended June 30,					
	2009		2008			
	(in 000s)	(% of Total)	(in 000s)	(% of Total)

Table of Contents

Revenue

Revenue increased by \$7.8 million, or 11.9%, from \$65.5 million in the second quarter of 2008 to \$73.3 million in the second quarter of 2009. The increase was driven by a \$10.3 million increase in revenue in our U.S. segment. Of this increase, \$9.9 million was from two new sites that were opened in mid-2008 (Mansfield, OH and Jonesboro, AK). This was partially offset by \$3.9 million less revenue from site closures in Big Spring, TX and Petersburg, VA in August 2008 and December 2008, respectively. The remainder of the change was driven by increases in the number of average full-time equivalent agents and utilization at other U.S. locations. In the second quarter of 2009, average full-time equivalent agents increased by 15.7% from the second quarter of 2008. This was due in large part to the full ramp of a site which transitioned to a new customer and contributed approximately \$1.8 million of additional revenue in the second quarter of 2009. Revenues in our Canadian segment declined by \$4.5 million in the second quarter of 2009 compared to the same period in 2008. Of this decrease, \$2.9 million was due to the site closure in Regina, Saskatchewan. The remainder was due to a decline of 11.3% in average full-time equivalent agents at our other Canadian locations. Revenue from our Offshore segment increased from \$0 in the second quarter of 2008 to \$2.0 million in the second quarter of 2009 because our site in Makati City, Philippines opened in September 2008.

Cost of Services and Gross Profit

Cost of services increased by \$3.0 million, or 5.2%, from \$57.2 million in the second quarter of 2008 to \$60.2 million in the second quarter of 2009. Cost of services in the U.S. increased by approximately \$6.4 million, of which \$3.0 million was related to the net addition of new sites, less closures, year over year, as discussed above. Gross profit as a percentage of revenue in the U.S. increased from 14.9% in the second quarter of 2008 to 19.4% in the second quarter of 2009. This increase was driven by higher utilization, which we define as average full-time equivalent agents divided by available seat capacity, which increased from 63% in the second quarter of 2008 to 82% in the second quarter of 2009. Cost of services in Canada declined by \$5.7 million in the second quarter of 2009 from the second quarter of 2008, of which \$3.1 million was due to the closure of the facility in Regina, Saskatchewan and \$2.0 million was due to improvements in the Canadian to U.S. dollar exchange rate. The remaining decrease in the Canadian segment was due to fewer agents, as described above. Cost of services for our Offshore segment increased by approximately \$2.2 million due to the opening of our Makati City, Philippines location.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by \$0.7 million, or 6.5%, from \$10.2 million in the second quarter of 2008 to \$10.9 million in the second quarter of 2009. The increase was due to an increase of \$0.6 million in payroll expenses, driven by a \$0.4 million increase in bonuses and \$0.2 million higher stock based compensation expense. In addition, selling, general and administrative expenses increased by \$0.6 million due to an accrual for the settlement of our shareholder lawsuit which we entered into a Stipulation of Settlement for on July 20, 2009. These increases were partially offset by decreases of \$0.3 million and \$0.2 million in depreciation expense and employee training expense, respectively.

Impairment Losses and Restructuring Charges

Impairment losses and restructuring charges declined from \$5.5 million in the second quarter of 2008 to \$0 in the second quarter of 2009. In the second quarter of 2008, we recorded \$4.1 million in impairment losses due to impairment of certain long-lived assets (\$2.3 million in the U.S.

Edgar Filing: STARTEK INC - Form 10-Q

segment and \$1.8 million in the Canadian segment) and \$1.4 million in restructuring charges associated with the closure of our site in Hawkesbury, Ontario, Canada. We did not incur any impairment losses or restructuring charges during the second quarter of 2009.

Operating Income (Loss)

We had operating income of \$2.2 million during the three months ended June 30, 2009 and an operating loss of \$7.4 million during the three months ended June 30, 2008. Operating income (loss) as a percentage of revenue was 3.0% for the three months ended June 30, 2009 compared to (11.3%) for the three months ended June 30, 2008. The increase was a result of lower impairment and restructuring charges and higher revenue, partially offset by an increase in cost of services and selling, general and administrative expenses, as discussed previously.

Net Interest and Other (Expense) Income

Net interest and other expense was approximately \$0.1 million during the second quarter of 2009, compared to net interest and other income of approximately \$0.1 million in the second quarter of 2008. The decrease was due primarily to \$0.3 million less interest and investment income in the second quarter of 2009, compared to the second quarter of 2008 due to lower cash and investments during

Table of Contents

the period. This decrease to interest income was offset by a \$0.1 million decrease in interest expense due to less interest expense related to our equipment loans and line of credit, partially offset by a pre-payment penalty on the equipment loans.

Income Tax

The quarterly effective tax rate for continuing operations remained consistent, increasing slightly from 37.4% during the three months ended June 30, 2008 to 37.9% during the three months ended June 30, 2009.

Net Income (Loss)

Net income was \$1.3 million for the second quarter of 2009 and we had a net loss of approximately \$4.5 million during the second quarter of 2008. The increase in net income was primarily due to higher revenue and the absence of impairment and restructuring charges, partially offset by higher cost of services and selling, general and administrative expenses, as discussed previously.

RESULTS OF OPERATIONS SIX MONTHS ENDED JUNE 30, 2009 AND JUNE 30, 2008

	Six Months Ended June 30, 2009	% of Revenue	Six Months Ended June 30, 2008	% of Revenue	% Change YTD June 30, 2008 to 2009

Table of Contents

Revenue

Revenue increased by \$14.0 million, or 10.7%, from \$130.0 million in the six months ended June 30, 2008 to \$144.0 million in the six months ended June 30, 2009. The increase was driven by the U.S. segment and the Offshore segment which increased by \$19.7 million and \$4.2 million, respectively. The increase in U.S. revenue was due to three new U.S. facilities added in 2008, partially offset by the closure of two U.S. facilities. The net impact of these openings and closures was \$11.9 million in additional revenue. U.S. revenue also increased due to the full ramp of a site which transitioned to a new customer and contributed \$3.4 million of additional revenue in the six months ended June 30, 2009 compared to the six months ended June 30, 2008. The remaining increase of \$4.4 million at the remaining U.S. facilities was driven by an increase in the number of average full-time equivalent agents, which increased approximately 7.9% from the six months ended June 30, 2008 to the six months ended June 30, 2009. The offshore facility in Makati City, Philippines opened in September 2008, and as such did not contribute revenue during the first half of 2008 and contributed \$4.2 million in the first half of 2009. Revenue from Canada decreased by \$9.9 million in the first half of 2009 compared to the same period in 2008 due primarily to the closure of our Regina, Saskatchewan facility in February 2009 which had approximately \$5.2 million less revenue in the six months of 2009 compared to the same period in 2008. In addition, revenue decreased by approximately \$0.6 million due to changes in the foreign exchange rate between the U.S. dollar and Canadian dollar. The remainder of the decrease in the Canadian segment was due to a decrease in the number of average full-time equivalent agents, which decreased by approximately 13.3% in the first half of 2009 from the first half of 2008.

Cost of Services and Gross Profit

Cost of services increased by \$7.9 million, or 7.0%, from \$112.3 million in the six months ended June 30, 2008 to \$120.1 million in the six months ended June 30, 2009. Cost of services in the U.S. increased by approximately \$15.0 million, of which \$8.0 million related to the net addition of new sites year over year, as discussed above. Cost of services at our other U.S. facilities also increased during the first half of 2009 compared to the first half of 2008 due to a greater number of agents, as described above. In addition, cost of services increased by approximately \$4.2 million due to the opening of the Makati City, Philippines location. These increases to cost of services were offset by lower cost of services in Canada due in part to the closure of the Regina location, which accounted for \$5.3 million of the decrease. Additionally, cost of services decreased by \$4.2 million in the first half of 2009 compared to the first half of 2008 due to a stronger U.S. to Canadian dollar exchange rate. The remaining decrease in the Canadian segment was due to fewer agents, as described above.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by \$0.3 million, or 1.3%, from \$20.3 million in the first six months of 2008 to \$20.6 million in the first six months of 2009. The increase was primarily due to \$0.6 million in expense associated with the settlement of our shareholder lawsuit, \$0.6 million increase in payroll expense, \$0.2 million increase in other legal expense and \$0.2 million increase in relocation expenses. These increases were partially offset by declines in depreciation expense of \$0.5 million, hiring expense of \$0.2 million, consulting fees of \$0.1 million, maintenance contract expenses of \$0.1 million and telephone expenses of \$0.1 million.

Impairment Losses and Restructuring Charges

Edgar Filing: STARTEK INC - Form 10-Q

Impairment losses and restructuring charges were \$6.4 million and \$5.6 million for the six months ended June 30, 2009 and 2008, respectively. Restructuring charges were \$4.7 million during the six months ended June 30, 2009, related primarily to the closure of our Regina, Saskatchewan facility in February 2009 for which we incurred approximately \$4.4 million of charges. The costs relate primarily to the building lease costs through the remainder of the lease term, or July 2013. Accrued restructuring costs were valued using a discounted cash flow model and the cash flows consist of the future lease payment obligations required under the lease agreements and property taxes through the remainder of the lease term. We assumed that we would not sublease the vacant facilities for the remainder of the lease term. In the future, if we are able to sublease the facilities, we may be required to record a gain in the Condensed Consolidated Statements of Operations. The remainder of the restructuring charges during the first half of 2009 were due to adjustments in our estimated liability for our other restructuring plans. We recorded \$1.5 million in restructuring charges in the first half of 2008 related to the closure of our Hawkesbury, Ontario facility in 2007.

We recorded approximately \$1.7 million in impairment losses during the first half of 2009 due to the impairment of certain long-lived assets for which the carrying value of those assets is not recoverable. These assets are located in a facility for which we are uncertain about our ability to generate future cash flows to support the carrying value of these assets. The long-lived assets include computer and telephone equipment, furniture and fixtures, leasehold improvements and software. We recorded \$4.1 million in impairment losses in the first half of 2008 due to impairment of certain long-lived assets (\$2.3 million in the U.S. segment and \$1.8 million in the Canadian segment).

Table of Contents

Operating Loss

We incurred operating losses of approximately \$3.2 million and \$8.2 million for the six months ended June 30, 2009 and 2008, respectively. Operating loss as a percentage of revenue was (2.2%) for the six months ended June 30, 2009 compared to (6.3%) for the six months ended June 30, 2008. The decline in the loss was driven by an increase in revenue, partially offset by higher impairment and restructuring charges, cost of services and selling, general and administrative costs, as discussed previously.

Net Interest and Other (Expense) Income

Net interest and other expense was approximately \$0.2 million during the first half of 2009, compared to net interest and other income of approximately \$0.4 million in the first half of 2008. The change was due primarily to a decrease in interest and investment income of approximately \$0.7 million in the first half of 2009 compared to the first half of 2008 due to a decline in our investment balance during these periods, partially offset by less interest expense, which declined by approximately \$0.1 million in the first half of 2009 compared to the first half of 2008.

Income Tax

The year-to-date effective tax rate for continuing operations decreased from 35.6% during the six months ended June 30, 2008 to 20.4% during the six months ended June 30, 2009. The primary difference between the periods is an increase in work opportunity credits and a larger impact from the change in the Canadian statutory tax rates in 2009 compared to 2008.

Income from Discontinued Operations

Income from discontinued operations was approximately \$4.6 million during the six months ended June 30, 2009 and approximately \$0.1 million during the six months ended June 30, 2008. In February 2009, we sold Domain.com, a wholly owned subsidiary, for cash of approximately \$7.1 million. We had a gain on the sale of approximately \$6.9 million, less taxes of approximately \$2.3 million.

Net Income (Loss)

Net income was \$2.0 million during the six months ended June 30, 2009 and net loss was approximately \$4.9 million during the six months ended June 30, 2008. The increase in net income was primarily due to higher revenue and income from discontinued operations, partially offset by higher cost of services, selling, general and administrative expenses and impairment and restructuring charges, as discussed previously.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2009, working capital totaled \$56.8 million and our current ratio was 3.21:1, compared to working capital of \$47.6 million and a current ratio of 2.58:1 at December 31, 2008. We have historically financed our operations, liquidity requirements, capital expenditures, and capacity expansion primarily through cash flows from operations, and to a lesser degree, through various forms of debt and leasing arrangements. In addition to funding basic operations, our primary uses of cash typically relate to capital expenditures to upgrade our existing information technologies and service offerings, investments in our facilities. We believe that cash flows from operations and cash provided by short-term borrowings, when necessary, will adequately meet our ongoing operating requirements. Any significant future expansion of our business may require us to secure additional cash resources. Our liquidity could be significantly impacted by large cash requirements to expand our business or a decrease in demand for our services, particularly from any of our principal clients, which could arise from a number of factors, including, but not limited to, competitive pressures, adverse trends in the business process outsourcing market, industry consolidation, adverse circumstances with respect to the industries we service, and any of the other factors we describe more fully in the **Risk Factors** section in our Annual Report on Form 10-K for the year ended December 31, 2008.

	Six Months Ended June 30,	
	2009	2008
	(in thousands)	
Net cash provided by (used in):		
Operating activities	\$ 6,524	\$ 9,593
Investing activities	10,064	(14,163)
Financing activities	(6,842)	(2,204)
Effect of foreign exchange rates on cash	501	(570)
Net increase in cash and cash equivalents	\$ 10,247	\$ (7,344)

Table of Contents

Our balance of cash and cash equivalents was \$19.8 million at June 30, 2009, compared to a balance of \$9.6 million at December 31, 2008.

Operating Activities. Net cash provided by operating activities decreased by \$3.1 million from \$9.6 million for the six months ended June 30, 2008 to \$6.5 million for the six months ended June 30, 2009. Net cash provided by operating activities from continuing operations was \$8.9 million, or a decrease of \$0.6 million. The slight decline of \$0.6 million in cash provided by operating activities from continuing operations was driven by the following decreases: 1) \$3.5 million of lower collections of accounts receivable period over period due to the timing of collections of large billings, 2) \$1.6 million in less accounts payable due to timing of payments of purchases and 3) \$1.3 million of lower income from continuing operations after impairment losses and depreciation expense (net loss from continuing operations improved by \$2.3 million offset by \$3.6 million less impairment and depreciation expense). These decreases to cash provided by operating activities from continuing operations were partially offset by the following increases: 1) \$3.0 million in deferred income taxes, whereby the deferred income tax asset declined by \$1.4 million in the first six months of 2009 compared to an increase of \$1.6 million in the same period of 2008 because of the utilization of net operating loss carry forwards and less impairment and restructuring charges and 2) \$2.7 million in income taxes receivable which decreased in the first half of 2009 because of the collection of a large outstanding income tax receivable in the period.

Investing Activities. Net cash provided by investing activities was \$10.1 million in the first six months of 2009 compared to cash used in investing activities of \$14.2 million in the first six months of 2008. The increase was due to 1) proceeds from the sale of Domain.com of \$7.1 million, 2) a \$7.7 million decrease in purchases of property, plant and equipment due to no new site openings in the first six months of 2009 compared to the opening of two new sites in the first six months of 2008 and 3) an increase in net proceeds from the sale of investments, net of purchases, of \$9.5 million which was a result of a shift towards more conservative holdings of cash and cash equivalents.

Financing Activities. Net cash used in financing activities increased by \$4.6 million from \$2.2 million in the six months ended June 30, 2008 to \$6.8 million for the six months ended June 30, 2009. The increase was due primarily to an increase in payments on long-term debt of \$4.7 million due to the pay-off of our two equipment loans in the second quarter of 2009. Refer to *Liquidity and Capital Resources - Contractual Obligations* below for further information on the pay-off of these loans.

Contractual Obligations. Other than operating and capital leases for certain equipment, real estate and leases and commitments to purchase goods and services in the future, we have no off-balance sheet transactions, unconditional purchase obligations or similar instruments and we are not a guarantor of any other entities' debt or other financial obligations.

On June 26, 2009, we entered into a business loan agreement, promissory note and three commercial security agreements (together the Agreement) with UMB Bank Colorado, N.A. (UMB Bank) for a \$15 million secured revolving line of credit. The Agreement is effective July 1, 2009 through August 1, 2010. This Agreement replaced our \$10 million secured revolving line of credit with Wells Fargo Bank N.A., which expired by its terms on June 30, 2009. We use this line of credit to finance regular, short-term operating expenses. There was no balance outstanding on either the line of credit with UMB Bank or the previous line of credit with Wells Fargo Bank N.A. as of June 30, 2009. As of June 30, 2009, we were in compliance with our debt covenants.

Borrowings under the Agreement bear interest, at our option at the time of the borrowing, of the thirty, sixty or ninety-day LIBOR index, plus 1.75%. The interest rate shall never be less than 3.25% per annum. Under the Agreement, we granted UMB Bank a security interest in all of our present and future accounts receivable, general intangibles, and owned real property. In addition, under the Agreement, we are subject to certain financial covenants, which include maintaining 1) a ratio of total liabilities to tangible net worth of less than 1.0 to 1.0, 2) a tangible net worth of at least \$105 million, 3) unencumbered liquid assets, defined as cash, certificate of deposits and marketable securities, of at least \$10

Edgar Filing: STARTEK INC - Form 10-Q

million measured on the last day of each fiscal quarter and 4) a cash flow coverage ratio, as defined in the Agreement, of greater than 1.50 to 1.0 measured on the last day of each fiscal quarter for the previous twelve months.

In addition, during the second quarter of 2009, we paid off the remaining principal balance on the Secured Equipment Promissory Note between Wells Fargo Equipment Finance, Inc. and StarTek USA, Inc., our wholly owned subsidiary, and the Canadian Dollar Secured Equipment Loan between Wells Fargo Equipment Finance Company, Inc. and StarTek Canada Services, Ltd., our wholly owned subsidiary. The loans had original maturities in November 2010. The total payoff on these loans, including pre-payment penalties, was approximately \$5.7 million.

Other Factors Impacting Liquidity. Effective November 4, 2004, our board of directors authorized purchases of up to \$25.0 million of our common stock. The repurchase program will remain in effect until terminated by the board of directors and allows us to repurchase shares of our common stock from time to time on the open market, in block trades and in privately-negotiated transactions. Repurchases will be implemented by the Chief Financial Officer consistent with the guidelines adopted by the board of directors and will depend on market conditions and other factors. Any repurchases of shares will be made in accordance with Securities and Exchange Commission rules. We have not yet repurchased any shares pursuant to this board authorization.

Table of Contents

Our business currently has a high concentration of a few principal clients. The loss of a principal client and/or changes in timing or termination of a principal client's product launch or service offering would have a material adverse effect on our business, liquidity, operating results, and financial condition. These client relationships are further discussed in Note 6, Principal Clients, to our Condensed Consolidated Financial Statements, which are included at Item 1, Financial Statements, of this Form 10-Q. To limit our credit risk, management from time to time will perform credit evaluations of our clients. Although we are directly impacted by the economic conditions in which our clients operate, management does not believe substantial credit risk existed as of June 30, 2009. Refer to Item 1A, Risk Factors appearing in our Annual Report on Form 10-K for the year ended December 31, 2008 for further information regarding these risks.

As of June 30, 2009, we had approximately \$0.5 million invested in corporate debt securities. There is a risk that if those companies in which we are invested suffer due to economic conditions or other reasons, we could realize losses on these investments which could impact our liquidity.

There is a risk that the counterparties to our hedging instruments could suffer financial difficulties due to economic conditions or other reasons and we could realize losses on these arrangements which could impact our liquidity. However, we do not believe we are exposed to more than a nominal amount of credit risk in our derivative hedging activities, as the counterparties are established, well-capitalized financial institutions.

Although management cannot accurately anticipate the effects of domestic and foreign inflation on our operations, management does not believe inflation has had, or is likely in the foreseeable future to have, a material adverse effect on our results of operations or financial condition.

Variability of Operating Results. Our business has been seasonal only to the extent that our clients' marketing programs and product launches are geared toward the winter holiday buying season. We have experienced and expect to continue to experience some quarterly variations in revenue and operating results due to a variety of factors, many of which are outside our control, including: (i) timing and amount of costs incurred to expand capacity in order to provide for volume growth from existing and future clients; (ii) changes in the volume of services provided to principal clients; (iii) expiration or termination of client projects or contracts; (iv) timing of existing and future client product launches or service offerings; (v) seasonal nature of certain clients' businesses; and (vi) cyclical nature of certain clients' businesses.

Because we service relatively few, large clients, the availability of cash is highly dependent on the timing of cash receipts from accounts receivable. As a result, from time to time, we borrow cash from our line of credit to cover short-term cash needs. These borrowings are typically outstanding for a short period of time before they are repaid. However, our debt balance can fluctuate significantly during any given quarter as part of our ordinary course of business. Accordingly, our debt balance at the end of any given quarter is not necessarily indicative of the debt balance at any other time during that period.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In preparing our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management must undertake decisions that impact the reported amounts and related disclosures. Such decisions include the selection of the appropriate accounting principles to be applied and assumptions upon which accounting estimates are based. Management applies its best judgment based on its understanding and analysis of the relevant circumstances to reach these decisions. By their nature, these judgments are subject to an inherent degree of uncertainty. Accordingly, actual results may vary significantly from the estimates we have applied.

Our critical accounting policies and estimates are consistent with those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2008. Please refer to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the year ended December 31, 2008, for a complete description of our Critical Accounting Policies and Estimates.

Recently Adopted Accounting Pronouncements

Effective January 1, 2009, we adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157), for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value on a recurring basis (at least annually) for which SFAS No. 157 was previously adopted. Refer to Note 9, Fair Value Measurements, of this Form 10-Q for additional information on the adoption of SFAS No. 157.

Effective January 1, 2009, we adopted FASB No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities to provide greater transparency through

Table of Contents

additional disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133) and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. Refer to Note 8, Derivative Instruments, of this Form 10-Q for additional information on the adoption of SFAS No. 161.

We adopted FASB No. 141(R), Business Combinations (SFAS No. 141(R)), which significantly changed the accounting for and reporting of business combination transactions. This standard was effective for us for business combination transactions for which the acquisition date was on or after January 1, 2009. No business combination transactions occurred during the six months ended June 30, 2009.

We adopted FASB Staff Position No. 115-2 and SFAS No. 124-2, Recognition and Presentation of Other-Than-Temporary Impairments (FSP No. 115-2 and SFAS No. 124-2), in the second quarter of 2009. FSP No. 115-2 and SFAS No. 124-2 modifies the other-than-temporary impairment guidance for debt securities through increased consistency in the timing of impairment recognition and enhanced disclosures related to the credit and noncredit components of impaired debt securities that are not expected to be sold. In addition, increased disclosures are required for both debt and equity securities regarding expected cash flows, credit losses, and securities with unrealized losses. Refer to Note 7,

Investments, of this Form 10-Q for the relevant disclosures required by adoption of FSP No. 115-2 and SFAS No. 124-2. The adoption of FSP No. 115-2 and SFAS No. 124-2 did not have a material impact on our financial statements.

We adopted FASB Staff Position No. 107-1 and APB Opinion No. 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP No. 107-1 and APB Opinion No. 28-1), in the second quarter of 2009. FSP No. 107-1 and APB Opinion No. 28-1 requires fair value disclosures for financial instruments that are not reflected in the Condensed Consolidated Balance Sheets at fair value. Prior to the issuance of FSP No. 107-1 and APB Opinion No. 28-1, the fair values of those assets and liabilities were disclosed only annually. With the issuance of FSP No. 107-1 and APB Opinion No. 28-1, we are now required to disclose this information on a quarterly basis, providing quantitative and qualitative information about fair value estimates for all financial instruments not measured in the Condensed Consolidated Balance Sheets at fair value. The adoption of FSP No. 107-1 and APB Opinion No. 28-1 did not have a material impact on our financial statements.

We adopted SFAS No. 165, Subsequent Events (SFAS No. 165), in the second quarter of 2009. SFAS No. 165 establishes the accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date, that is, whether that date represents the date the financial statements were issued or were available to be issued. Refer to this Note 1, Basis of Presentation, for the related disclosures. The adoption of SFAS No. 165 did not have a material impact on our financial statements.

Recently Issued Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (SFAS No. 168). SFAS No. 168 will become the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP), superseding existing FASB, American Institute of Certified Public Accountants (AICPA), Emerging Issues Task Force (EITF), and related accounting literature. SFAS No. 168 reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. Also included is relevant Securities and Exchange Commission guidance organized using the same topical structure in separate sections. SFAS No. 168 will be effective for financial statements issued for reporting periods that end after September 15, 2009. This will have an impact on our financial statements since all future references to authoritative accounting literature will be references in accordance with SFAS No. 168.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business, we are exposed to certain market risks related to changes in interest rates and other general market risks, and foreign currency exchange rates. This information should be read in conjunction with information set forth in Part II, Item 7A in our Annual Report on Form 10-K for the year ended December 31, 2008, in addition to the interim unaudited consolidated financial statements, accompanying notes and management's discussion and analysis of financial condition and results of operations presented in Items 1 and 2 of this Quarterly Report on Form 10-Q.

Table of Contents

Interest Rate Risk

We are exposed to interest rate risk with respect to our cash and cash equivalents, investments and debt obligations. Cash and cash equivalents are not restricted. We consider cash equivalents to be short-term, highly liquid investments readily convertible to known amounts of cash, and so near their maturity they present insignificant risk of changes in value because of changes in interest rates. At June 30, 2009, investments available for sale consisted of corporate debt securities. Our investment portfolio is subject to interest and inflation rate risks and will fall in value if market interest and/or inflation rates or market expectations relating to these rates increase. Management believes we have the ability to hold the foregoing investments until maturity, and therefore, if held to maturity, we would not expect the future proceeds from these investments to be affected, to any significant degree, by any sudden changes in market interest rates. Declines in interest rates over time will, however, reduce our interest income derived from future investments. In addition, our investments in corporate debt securities could be adversely affected by declines in the economic condition of those companies in which we are invested.

Foreign Currency Exchange Risks

We enter into foreign currency exchange contracts to hedge our anticipated operating commitments that are denominated in foreign currencies. The contracts cover periods commensurate with expected exposure, generally within six months, and are principally unsecured foreign exchange contracts. The market risk exposure is essentially limited to risk related to currency rate movements. Our Canadian and Philippine subsidiaries functional currencies are the Canadian dollar and the Philippine peso, respectively, which are used to pay labor and other operating costs in those countries. However, our client contracts generate revenues which are paid to us in U.S. dollars. During the second quarter of 2009, we did not enter into any Canadian dollar forward contracts to hedge our foreign currency risk with respect to labor costs in Canada. As of June 30, 2009, we have not entered into any arrangements to hedge our exposure to fluctuations in the Philippine peso relative to the U.S. dollar. As of June 30, 2009, we had contracted to purchase \$29.1 million Canadian dollars to be delivered periodically through December 2009 at a purchase price which is no more than \$24.3 million and no less than \$24.0 million.

During the three and six months ended June 30, 2009, there were no other material changes in our market risk exposure. For a complete discussion of our market risk associated with foreign currency and interest rate risk as of December 31, 2008, see Item 7A. Quantitative and Qualitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended December 31, 2008. Also, refer to Item 1A.

Risk Factors appearing in our Annual Report on Form 10-K for the year ended December 31, 2008 for further information regarding these risks.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. As of June 30, 2009, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2009, our disclosure controls and procedures were effective and were designed to ensure that all information required to be disclosed by us in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in internal controls over financial reporting. There was no change in our internal control over financial reporting that occurred during the quarter ended June 30, 2009, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

ITEM 1. LEGAL PROCEEDINGS

In our Annual Report on Form 10-K filed March 3, 2009, we described two material pending litigation matters: West Palm Beach Firefighters Pension Fund v. StarTek, Inc., et al. (U.S. District Court, District of Colorado) filed on July 8, 2005, and John Alden v. StarTek, Inc., et al. (U.S. District Court, District of Colorado) filed on July 20, 2005 (the Litigation).

On July 20, 2009, we executed a Stipulation of Settlement (Stipulation) with lead plaintiffs to settle the Litigation. Under the terms of the Stipulation, defendants will pay \$7.5 million to completely resolve the Litigation, in exchange for a release of all claims by lead plaintiffs and class members and a dismissal of the Litigation with prejudice. StarTek's primary insurance carrier will contribute \$6.9 million and StarTek will contribute \$0.6 million to the Settlement Fund (as defined in the Stipulation). The settlement as set forth in the Stipulation is subject to various conditions, including preliminary approval by the United States District Court for the District of

Table of Contents

Colorado (the Court), notice to the class members, a final hearing, and final approval by the Court. We have accrued for our portion of the settlement due, or \$0.6 million, in our Condensed Consolidated Statement of Operations during the three and six months ended June 30, 2009.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in our 2008 Annual Report on Form 10-K.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The annual meeting of stockholders of StarTek, Inc. was held on May 4, 2009. Stockholders were invited to vote, by proxy or in person, on two items. The results of the vote were as follows:

	For	Against	Abstain/ Withhold
Election of Directors			
Ed Zschau	12,399,946		1,265,850
P. Kay Norton	13,484,604		181,192
Albert C. Yates	12,411,327		1,254,470
A. Laurence Jones	13,481,063		184,734
Harvey A. Wagner	12,411,398		1,254,398
Ratify Appointment of Ernst & Young LLP			
as independent registered public accounting firm of the company for the year ending December 31, 2009	10,690,844	2,958,879	16,073
