Transamerica Income Shares, Inc.

NOTES TO THE SCHEDULE OF INVESTMENTS

At June 30, 2009

(all amounts in thousands)

(unaudited)

ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Transamerica Income Shares, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company. The Fund's investment objective is to seek as high a level of current income as is consistent with prudent investment, with capital appreciation as only a secondary objective.

Securities Valuations: The Fund values its investments at the close of the New York Stock Exchange (NYSE), normally 4 p.m. ET, each day the NYSE is open for business. The Fund's investments are valued at the last sale price or closing price on the day of valuation taken from the primary exchange where the security is principally traded.

Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the last quoted bid price.

Debt securities are valued based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service or a major market maker; however, those that mature in sixty days or less are valued at amortized cost, which approximates market.

Other securities for which quotations are not readily available or whose values have been determined to be unreliable are valued at fair market value as determined in good faith by Transamerica Asset Management, Inc.'s (TAM) Valuation Committee, under the supervision of the Board of Trustees.

The Fund is subject to the provisions of Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 establishes a hierarchy that prioritizes the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3) when market prices are not readily available or reliable. Valuation levels are not necessarily an indication of the risk associated with investing in those securities.

The three levels of the hierarchy under FAS 157 are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The aggregate value by input level, at June 30, 2009, for the Fund's investments, as well as a reconciliation of assets for which significant unobservable inputs (Level 3) were used in determining value, is included at the end of the Fund's Schedule of Investments.

Repurchase agreements: The Fund may enter into repurchase agreements. The Fund, through its custodian, receives delivery of the underlying securities, the value of which at the time of purchase is required to be an amount equal to at least 100% of the resale price. The Fund will bear the risk of value fluctuations until the securities can be sold and may encounter delays and incur costs in liquidating the securities. In the event of bankruptcy or insolvency of the seller, delays and costs may be incurred.

Foreign currency denominated investments: The accounting records of the Fund is maintained in U.S. dollars. Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the closing exchange rate each day. Income, expenses, purchases and sales of investment securities denominated in foreign currencies are translated at prevailing exchange rates when accrued or incurred. The Fund combines fluctuations from currency exchange rates and fluctuations in value when computing net realized and unrealized gains or losses from investments.

Net foreign currency gains and losses resulting from changes in exchange rates include: 1) foreign currency fluctuations between trade date and settlement date of investment security transactions; 2) gains and losses on forward foreign currency contracts; and 3) the difference between the receivable amounts of interest and dividends recorded in the accounting records in U.S. dollars and the amounts actually received.

Foreign currency denominated assets may involve risks not typically associated with domestic transactions. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region.

Transamerica Income Shares, Inc.

NOTES TO THE SCHEDULE OF INVESTMENTS (continued)

At June 30, 2009

(all amounts in thousands)

(unaudited)

Forward foreign currency contracts: The Fund is subject to foreign currency exchange rate risk exposure in the normal course of pursuing its investment objectives. The Fund may enter into forward foreign currency contracts to hedge against exchange rate risk arising from investments in securities denominated in foreign currencies. Forward foreign currency contracts are valued at the contractual forward rate and are marked to market daily, with the change in value recorded as an unrealized gain or loss. When the contracts are settled, a realized gain or loss is incurred. Risks may arise from changes in market value of the underlying currencies and from the possible inability of counterparties to meet the terms of their contracts.

Open forward foreign currency contracts at June 30, 2009 are listed in the Schedule of Investments.

Securities lending: The Fund may lend securities to qualified financial institutions and brokers. The lending of Fund securities exposes the Fund to risks such as the following: (i) the borrowers may fail to return the loaned securities; (ii) the borrowers may not be able to provide additional collateral; (iii) the Funds may experience delays in recovery of the loaned securities or delays in access to collateral; or (iv) the Funds may experience losses related to the investment collateral. To minimize certain of these risks, loan counterparties pledge cash collateral equal to at least the market value of the securities loaned. Cash collateral received is invested in the State Street Navigator Securities Lending Trust-Prime Portfolio, a money market mutual fund registered under the 1940 Act. By lending such securities, the Fund attempts to increase its net investment income through the receipt of interest (after rebates and fees). At June 30, 2009, the Fund did not have any securities on loan.

Item 2. Controls and Procedures.

(a) The Registrant's principal executive officer and principal financial officer evaluated the Registrant's controls and procedures within 90 days of this filing and have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940), are appropriately designed to ensure that information required to be disclosed by the Registrant in the reports that it files on Form N-Q(a) is accumulated and communicated to Registrant's management, including its principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure, and (b) is recorded, processed, summarized and reported, within the time periods specified in the rules and forms adopted by the U.S. Securities and Exchange Commission.

(b) The Registrant's principal executive officer and principal financial officer are aware of no change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter that has materially affected, or is reasonable likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

Separate certifications by the Registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
