INCOME SHARES, INC.

Semi-Annual Report

September 30, 2009

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSRS

Dear Fellow Shareholder,

On behalf of Transamerica Income Shares, Inc. (the Fund), we would like to thank you for your continued support and confidence as we look forward to continuing to serve you and your financial advisor in the future. We value the trust you have placed in us.

This semi-annual report is provided to you with the intent of presenting a comprehensive review of the investments of the Fund. The Securities and Exchange Commission requires that annual and semi-annual reports be sent to all shareholders, and we believe this report to be an important part of the investment process. In addition to providing a comprehensive review, this report also provides a discussion of accounting policies as well as matters presented to shareholders that may have required their vote.

We believe it is important to recognize and understand current market conditions in order to provide a context for reading this report. Both equity and fixed-income markets have rebounded from their lows during 2009 as investors have increased their risk appetite and have anticipated an economic recovery. Non-Treasury fixed-income securities in general have experienced significantly positive performance as yield spreads have narrowed. In particular, lower credit quality areas of the fixed-income market have rebounded sharply. For example, the BofA Merrill Lynch U.S. High Yield, Cash Pay Index has generated a sixth-month return of 40.29% as of September 30, 2009. Investors have begun to shift away from money market investments in search of higher yielding instruments, and this has supported the rally in credit-sensitive names. The Federal Reserve continues to be extremely accommodative in its monetary policy in an effort to support a potential economic recovery. Against this backdrop, however, unemployment remains at multi-decade highs and concerns have surfaced regarding the amount of fiscal and monetary stimulus and its potential effect on inflation. For the six months ended September 30, 2009, the Barclays Capital Aggregate U.S. Bond Index returned 5.59%. Please keep in mind it is important to maintain a diversified portfolio as investment returns have historically been difficult to predict.

In addition to your active involvement in the investment process, we firmly believe that a financial advisor is a key resource to help you build a complete picture of your current and future financial needs. Financial advisors are familiar with the market's history, including long-term returns and volatility of various asset classes. With your financial advisor, you can develop an investment program that incorporates factors such as your goals, your investment timeline, and your risk tolerance.

Please contact your financial advisor if you have any questions about the contents of this report, and thanks again for the confidence you have placed in us.

Sincerely,

John K. Carter

UNDERSTANDING YOUR FUND'S EXPENSES

(unaudited)

SHAREHOLDER EXPENSES

Fund shareholders may incur ongoing costs, including management and advisory fees, distribution and service fees, and other fund expenses.

The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at April 1, 2009 and held for the entire period until September 30, 2009.

ACTUAL EXPENSES

The information in the table under the heading "Actual Expenses" provides information about actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = \$8.60), then multiply the result by the number in the column titled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. If your account is an IRA, your expenses could have included a \$15 annual fee. The amount of any fee paid during the period can decrease your ending account value.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The information in the table under the heading "Hypothetical Expenses" provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund versus other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the information under the heading "Hypothetical Expenses" is

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSRS

useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if any of these transaction costs were included, your costs would have been higher. The expenses shown in the table do not reflect any fees that may be charged to you by brokers, financial intermediaries or other financial institutions.

Fund Name	Beginning Account Value	Actual Expenses		Hypothetical Expenses (b)		Annualized Expense Ratio
		Ending Account Value	Expenses Paid During Period (a)	Ending Account Value	Expenses Paid During Period (a)	
Transamerica Income Shares, Inc.	\$ 1,000.00	\$ 1,238.80	\$ 3.98	\$ 1,021.51	\$ 3.60	0.71%

(a) Expenses are calculated using the Fund's annualized expense ratio (as disclosed in the table), multiplied by the average account value for the period, multiplied by the number of days in the period (183 days), and divided by the number of days in the year (365 days).

(b) 5% return per year before expenses.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Transamerica Income Shares, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company. The Fund's investment objective is to seek as high a level of current income as is consistent with prudent investment, with capital appreciation as only a secondary objective.

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

In preparing the Fund's financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), estimates or assumptions (which could differ from actual results) may be used that affect reported amounts and disclosures. The following is a summary of significant accounting policies followed by the Fund.

Securities Valuations: Fund investments traded on an exchange are valued at the last sale price or closing price on the day of valuation on the exchange where the security is principally traded.

Certain debt securities are valued based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service or a major market maker; however, those that mature in sixty days or less are valued at amortized cost, which approximates market value.

Other securities for which quotations are not readily available or whose values have been determined to be unreliable are valued at fair market value as determined in good faith by Transamerica Asset Management, Inc.'s (TAM) Valuation Committee under the supervision of the Fund's Board of Directors.

The Fund is subject to the provisions under the FASB Accounting Standards Codification, Fair Value Measurements and Disclosures (ASC 820). ASC 820 establishes a hierarchy that prioritizes the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3) when market prices are not readily available or reliable. Valuation levels are not necessarily an indication of the risk associated with investing in those securities. The three levels of the hierarchy under ASC 820 are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The aggregate value by input level, at September 30, 2009, for the Fund's investments, as well as a reconciliation of assets for which significant unobservable inputs (Level 3) were used in determining value, are included at the end of the Fund's Schedule of Investments.

Forward Foreign Currency Contracts: The Fund is subject to foreign currency exchange rate risk exposure in the normal course of pursuing its investment objectives. The Fund may enter into forward foreign currency contracts to hedge against exchange rate risk arising from investments in securities denominated in foreign currencies. Forward foreign currency contracts are valued at the contractual forward rate and are marked to market daily, with the change in value recorded as an unrealized gain or loss. When the contracts are settled, a realized gain or loss is incurred. Risks may arise from changes in market value of the underlying currencies and from the possible inability of counterparties to meet the terms of their contracts.

Open forward foreign currency contracts at September 30, 2009 are listed in the Schedule of Investments.

Real Estate Investment Trusts (REITs): There are certain additional risks involved in investing in REITs. These include, but are not limited to, economic conditions, changes in zoning laws, real estate values, property taxes and interest rates.

Repurchase Agreements: The Fund may enter into repurchase agreements. The Fund, through its custodian, receives delivery of the underlying securities, the value of which at the time of purchase is required to be an amount equal to at least 100% of the resale price. The Fund will bear the risk of value fluctuations until the security can be sold and may encounter delays and incur costs in liquidating the security. In the event of bankruptcy or insolvency of the seller, delays and costs may be incurred.

NOTE 1. (continued)

Securities Lending: The Fund may lend securities to qualified financial institutions and brokers. The lending of the Fund's securities exposes the Fund to risks such as the following: (i) the borrower may fail to return the loaned securities; (ii) the borrower may not be able to provide additional collateral; (iii) the Fund may experience delays in recovery of the loaned securities or delays in access to collateral; or (iv) the Fund may experience losses related to the investment collateral. To minimize certain risks, loan counterparties pledge cash collateral equal to at least the market value of the securities loaned. Cash collateral received may be invested in the State Street Navigator Securities Lending Trust-Prime Portfolio, a money market mutual fund registered under the 1940 Act. The value of loaned securities and related collateral outstanding at September 30, 2009, is shown in the Schedule of Investments and in the Statement of Assets and Liabilities.

Income from loaned securities on the Statement of Operations is net of fees earned by the lending agent.

Foreign Currency Denominated Investments: The accounting records of the Fund are maintained in U.S. dollars. Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the closing exchange rate each day. The cost of foreign securities are translated at the exchange rate in effect when the investments were acquired. The Fund combines fluctuations from currency exchange rates and fluctuations in value when computing net realized and unrealized gains or losses from investments.

Net foreign currency gains and losses resulting from changes in exchange rates include: 1) foreign currency fluctuations between trade date and settlement date of investment security transactions; 2) gains and losses on forward foreign currency contracts; and 3) the difference between the receivable amounts of interest and dividends recorded in the accounting records in U.S. dollars and the amounts actually received.

Foreign currency denominated assets may involve risks not typically associated with domestic transactions. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region.

Foreign Taxes: The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon the current interpretation of tax rules and regulations that exist in the markets in which the Fund invests.

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSRS

Securities Transactions and Investment Income: Security transactions are recorded on the trade date. Security gains and losses are calculated on the specific identification basis. Dividend income, if any, is recorded on the ex-dividend date. Interest income, including accretion of discounts and amortization of premiums, is recorded on the accrual basis commencing on the settlement date.

Dividend income is recorded at management's estimate of the income included in distributions from the REIT investments. Distributions received in excess of the estimated amount are recorded as a reduction of the cost of investments. The actual amounts of income, return of capital and capital gains are only determined by each REIT after the fiscal year end and may differ from the estimated amounts.

Dividend Distributions: Dividend distributions are declared monthly. Capital gains distributions are declared annually. Distributions are generally paid in the month following the ex-date, on or about the fifteenth calendar day. See "Automatic Reinvestment Plan" on page 15 for an opportunity to reinvest distributions in shares of the Fund's common stock.

NOTE 2. RELATED PARTY TRANSACTIONS

Transamerica Asset Management, Inc. ("TAM") is the Fund's investment adviser. TAM is directly owned by Western Reserve Life Assurance Co. of Ohio (77%) and AUSA Holding Company (23%) ("AUSA"), both of which are indirect, wholly owned subsidiaries of AEGON NV. AUSA is wholly owned by AEGON USA, LLC ("AEGON USA"), a financial services holding company whose primary emphasis is on life and health insurance, and annuity and investment products. AEGON USA is owned by AEGON US Holding Corporation, which is owned by Transamerica Corporation (DE). Transamerica Corporation (DE) is owned by The AEGON Trust, which is owned by AEGON International B.V., which is owned by AEGON NV, a Netherlands corporation, and a publicly traded international insurance group.

Transamerica Fund Services, Inc. ("TFS") is the Fund's administrator. TAM and TFS are affiliates of AEGON, NV.

Certain officers and directors of the Fund are also officers and/or directors of TAM and TFS.

Transamerica Investment Management, LLC ("TIM") is both an affiliate of the Fund and the sub-adviser to the Fund.

NOTE 2. (continued)

Investment Advisory Fees: The Fund pays management fees to TAM based on average daily net assets (ANA) at the following rate:

0.50% of ANA

TAM currently voluntarily waives its advisory fee and will reimburse the Fund to the extent that operating expenses exceed the following stated limits of ANA:

First \$30 million	1.50%
Over \$30 million	1.00%

There were no fees waived during the period ended September 30, 2009.

Administrative Services: The Fund has entered into an agreement with TFS for financial and legal fund administration services. The Fund pays TFS an annual fee of 0.02% of ANA. The Legal fees on the Statement of Operations are fees paid to external legal counsel.

NOTE 3. INVESTMENT TRANSACTIONS

The cost of securities purchased and proceeds from securities sold (excluding short-term securities) for the period ended September 30, 2009 were as follows:

NOTE 5. FEDERAL INCOME TAX MATTERS

The Fund has not made any provision for federal income or excise taxes due to its policy to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. Management has evaluated the Fund's tax provisions taken for all open tax years and has concluded that no provision for income tax is required in the Fund's financial statements. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments for items including, but not limited to, bond premium amortization, dividends payable and Post-October loss deferrals.

INVESTMENT ADVISORY AND SUB-ADVISORY AGREEMENTS - CONTRACT RENEWAL

(unaudited)

At a meeting of the Board of Directors of Transamerica Income Shares, Inc. (the Board) held on June 4, 2009, the Board reviewed and considered the renewal of the investment advisory agreement (the Investment Advisory Agreement) between Transamerica Income Shares, Inc. (the Fund) and Transamerica Asset Management, Inc. (TAM), as well as the renewal of the investment sub-advisory agreement (the Sub-Advisory Agreement) of the Fund between TAM and Transamerica Investment Management, LLC (the Sub-Adviser), to determine whether the agreements should be renewed.

Following their review and consideration, the Directors determined that the renewal of the Investment Advisory Agreement and the Sub-Advisory Agreement would enable shareholders of the Fund to obtain high quality services at a cost that is appropriate, fair, and in the best interests of Fund shareholders. The Board, including the independent members of the Board, unanimously approved the renewal of the Investment Advisory Agreement and Sub-Advisory Agreement through June 30, 2010. In reaching their decision, the Directors requested and obtained from TAM and the Sub-Adviser such information as they deemed reasonably necessary to evaluate the agreements, including information about fees and performance of comparable funds managed by the Sub-Adviser. The Directors also carefully considered information they had previously received from TAM and the Sub-Adviser as part of their regular oversight of the Fund, as well as comparative fee, expense, and performance information prepared by Lipper Inc. (Lipper), an independent provider of mutual fund performance, and fee and expense information and profitability data prepared by management. In considering the proposed continuation of the Investment Advisory and Sub-Advisory Agreements, the Directors evaluated a number of considerations that they believed, in light of the legal advice furnished to them by independent legal counsel and their own business judgment, to be relevant. They based their decisions on the following considerations, among others, although they did not identify any consideration or particular information that was controlling of their decisions:

The nature, extent and quality of the advisory services to be provided. The Board considered the nature and quality of the services provided by TAM and the Sub-Adviser to the Fund in the past, as well as the services anticipated to be provided in the future. The Directors also reviewed the Sub-Adviser's investment approach for the Fund. The Directors noted that they receive, on a quarterly basis, an execution analysis from Capital Institutional Services, Inc. (CAPIS), an independent provider of trade analyses, for the Sub-Adviser and a comparison of trading results against a peer universe of managers. The Board concluded that TAM and the Sub-Adviser are capable of providing high quality services to the Fund, as indicated by the nature and quality of services provided in the past by TAM and the Sub-Adviser for this Fund and the experience, capability and integrity of TAM's senior management, the financial resources of TAM and the Sub-Adviser, TAM's management oversight process and the professional qualifications of the portfolio management team of the Sub-Adviser. The Directors determined that TAM and the Sub-Adviser can provide investment and related services that are appropriate in scope and extent in light of the Fund's operations, the competitive landscape of the investment company business and investor needs.

The investment performance of the Fund. The Board examined the short and longer-term performance of the Fund, including relative performance against a peer universe of comparable mutual funds as prepared by Lipper for various trailing periods ended December 31, 2008. The Board noted that the Fund's performance was below the median for its peer universe for the past 1-, 3- and 5- year periods. The Directors noted the small size of the peer group and the manner in which Lipper calculates closed-end fund returns. The Directors agreed that they would continue to monitor the performance of the Fund closely. On the basis of the Board's assessment of the nature, extent and quality of advisory services to be provided or procured by TAM and the Sub-Adviser, the Board concluded that TAM and the Sub-Adviser are capable of generating a level of investment performance that is appropriate in light of the Fund's investment objectives, policies and strategies and competitive with other investment companies.

The cost of advisory services provided and the level of profitability. The Board reviewed profitability information of TAM's cost of procuring fund management services, as well as the costs of provision of administration, fund accounting and other services, to the Fund and to Transamerica Income Shares, Inc. as a whole by TAM and its affiliates. The Board reviewed the management and sub-advisory fees for the Fund. The Directors noted that the Fund's contractual management fee and total expenses were in line with the medians for its expense group and universe. Based on their review, the Directors determined that the management and sub-advisory fees of the Fund generally are appropriate in light of the services expected to be provided or procured, and the anticipated profitability of the relationship between the Fund, TAM and its affiliates, and the Sub-Adviser. In making these observations and determinations, the Board reviewed comparative information provided by Lipper.

Whether fee levels reflect economies of scale and the extent to which economies of scale would be realized as the Fund grows. The Directors considered the economies of scale with respect to the management of the Fund, whether the Fund had appropriately benefited from any economies of scale, and whether there was potential for realization of any further economies of scale. The Board considered the specific reasons for the absence of breakpoints in the management fee schedule, and concluded that the absence of breakpoints was acceptable under the circumstances. The Directors also concluded that they will have the opportunity to periodically reexamine whether the Fund has achieved economies of scale, and the appropriateness of management fees payable to TAM and fees paid to the Sub-Adviser, in the future.

Benefits to TAM, its affiliates, or the Sub-Adviser from their relationship with the Fund. The Board concluded that other benefits anticipated to be derived by TAM, its affiliates, and the Sub-Adviser from their relationships with the Fund are expected to be consistent with industry practice and the best interests of the Fund and its shareholders. The Directors noted that TAM would not realize soft dollar benefits from its relationship with the Fund.

Other considerations. The Board determined that TAM has made a substantial commitment to the recruitment and retention of high quality personnel, and maintains the financial, compliance and operational resources reasonably necessary to manage the Fund in a professional manner that is consistent with the best interests of the Fund and its shareholders. In this regard, the Directors favorably considered the procedures and policies in place by TAM to enforce compliance with applicable laws and regulations and oversee the portfolio management activities of the Sub-Adviser. The Directors also determined that TAM has made a significant entrepreneurial commitment to the management and success of the Fund, reflected by TAM's expense limitation and fee waiver arrangements with the Fund, which may result in TAM waiving fees for the benefit of shareholders.

Conclusion. After consideration of the factors described above as well as other factors, the Directors, including all of the independent members of the Board, concluded that the Investment Advisory Agreement and the Sub-Advisory Agreement, including the fees payable thereunder, were fair and reasonable and voted to approve the renewal of the Investment Advisory Agreement and the Sub-Advisory Agreement for the Fund.

RESULTS OF SHAREHOLDER PROXY (unaudited)

Section 270.30e-1 under the Investment Company Act of 1940, as amended, titled Reports to Stockholders of Management Companies, requires regulated investment companies to report on all subject matters put to the vote of shareholders and provide final results. Accordingly, the Board of Directors of the Fund solicited a vote by the shareholders for the following items:

At the annual meeting of shareholders held on July 16, 2009, the results of the vote on Proposal 1 were as follows:

AUTOMATIC REINVESTMENT PLAN

Holders of 50 (not in thousands) shares or more of the Fund's common stock are offered the opportunity to reinvest dividends and other distributions in shares of the common stock of the Fund through participation in the Automatic Reinvestment Plan (the "Plan"). Under the Plan, BNY Mellon, as Transfer Agent, automatically invests dividends and other distributions in shares of the Fund's common stock by making purchases in the open market. Plan participants may also deposit cash in amounts (not in thousands) between \$25 and \$2,500 with BNY Mellon for the purchase of additional shares. Dividends, distributions and cash deposits are invested in, and each participant's account credited with, full and fractional shares.

The price at which BNY Mellon is deemed to have acquired shares for a participant's account is the average price (including brokerage commissions and any other costs of purchase) of all shares purchased by it for all participants in the Plan.

Your dividends and distributions, even though automatically reinvested, continue to be taxable as though received in cash.

Another feature of the Plan is the "Optional Cash Only" feature. You can make additional investments only, without reinvesting your monthly dividend. If you own 50 shares (not in thousands) or more, registered in your name and currently in your Plan account, and desire to periodically send additional contributions (not in thousands) between \$25 and \$2,500 for investment, you may do so. The shares you own and the new shares acquired through this feature will not participate in automatic reinvestment of dividends and distributions. Rather, the shares you acquire if you participate in the "Optional Cash Only" feature of the Plan will be held for safekeeping in your Plan account. Each investment will be made on or near the next dividend payment date. All other procedures for the purchase and sale of shares described above will apply.

BNY Mellon charges a service fee of \$1.75 (not in thousands) for each investment, including both dividend reinvestment and optional cash investment.

Shareholders interested in obtaining a copy of the Plan should contact BNY Mellon:
