PROXY STATEMENT

2012 ANNUAL MEETING OF STOCKHOLDERS

This Proxy Statement is furnished by the Board of Directors of Summer Infant, Inc., a Delaware corporation, in connection with the solicitation of proxies to be used at the Annual Meeting of Stockholders to be held on Thursday, June 14, 2012, and at any adjournments or postponements of the meeting. Our Board of Directors has fixed April 25, 2012 as the record date for determining those stockholders entitled to receive notice of, and to vote at, the meeting. Only stockholders of record at the close of business on April 25, 2012 will be entitled to vote at the meeting. We intend to first mail or give to holders of our common stock this Proxy Statement and the accompanying proxy card to all stockholders entitled to vote on or about April 30, 2012.

Any proxy, if received in time for voting and not revoked, will be voted at the meeting in accordance with the stockholder's instructions on the proxy card. If no instructions are given on the proxy card, the proxy will be voted (1) **FOR** the proposal to elect as directors the nominees named in this proxy statement, (2) **FOR** the proposal to approve of our 2012 Incentive Compensation Plan, (3) **FOR** the proposal to ratify the appointment of McGladrey & Pullen, LLP, an independent public accounting firm, as the independent auditor of the Company for the year ending December 31, 2012, and (4) as the persons specified in the proxy deem advisable on such other business as may properly come before the meeting. At present, management knows of no additional business to be presented at the meeting, but if other business is presented, the persons named in the proxy card and acting under the proxy card will vote or refrain from voting in accordance with their best judgment pursuant to the discretionary authority conferred by the proxy.

Record Date and Outstanding Shares

As of April 25, 2012, the record date for the meeting, there were 17,888,889 shares of common stock issued and outstanding, all of which are entitled to vote at the meeting. Each full share of common stock entitles the holder of that share to one vote on all matters properly brought before the meeting. At present, our common stock is the only class of our capital stock that is issued and outstanding.

Quorum

The representation in person or by proxy of at least a majority of the shares of common stock entitled to vote at the meeting is necessary to establish a quorum for the transaction of business. Abstentions and broker non-votes, as described below, will be counted for purposes of determining whether a quorum is present for the transaction of business at the meeting.

Vote Required

The affirmative vote of a plurality of the shares of our common stock represented in person or by proxy at the meeting is necessary for the election of directors. The affirmative vote of the majority of shares present in person or represented by proxy at the Annual Meeting and entitled to vote at the meeting is required for approval of the other proposals described in this proxy statement. With regard to the proposal to elect directors, shares that are entitled to vote but abstain from voting on a matter will be excluded from the vote and will have no effect on its outcome. Furthermore, shares held in street name by a broker or nominee who indicates on a proxy that it does not have discretionary authority to vote those shares as to the proposal to elect directors will also be entirely excluded from the vote and will have no effect on its outcome. We refer to these shares as broker non-votes. With regard to all other proposals, shares which are entitled to vote at the meeting but abstain from voting on a matter and broker non-votes will have the effect of a vote cast against such proposals.

Please note that the rules regarding how brokers, banks, or other nominees may vote your shares have changed. As a result, brokers, banks and other nominees may no longer use discretionary authority to vote shares on the election of directors or the proposal to approve our 2012 Incentive Compensation Plan if they have not received specific voting instructions from their clients. For your vote to be counted on these proposals, you now will need to communicate your voting decisions to your broker, bank, or other nominee before the date of the meeting. Accordingly, we encourage you to vote promptly, even if you plan to attend the meeting.

We will report voting results in a filing with the United States Securities and Exchange Commission (or the SEC) on a Current Report on Form 8-K.

Revocability of Proxies

A proxy may be revoked at any time prior to its exercise:

- by submitting a written notice revoking that proxy, addressed to our Board of Directors at our principal office at 1275 Park East Drive, Woonsocket, Rhode Island 02895, or
- at the meeting prior to the taking of a vote.

Any stockholder entitled to vote at the meeting may attend the meeting and vote in person on any matter presented for a vote to our stockholders at the meeting, whether or not that stockholder has previously given a proxy.

Solicitation of Proxies

Proxies, in the form enclosed, are solicited by our Board of Directors. Solicitation of proxies will be made initially by mail. Proxies may also be solicited personally, by telephone, e-mail or by facsimile transmission by our directors, officers and other employees. We will bear all costs and expenses incurred in connection with this solicitation, including the cost of printing and mailing these proxy materials and the expenses, charges and fees of brokers, custodians, nominees and other fiduciaries who, at the request of our management, mail material to, or otherwise communicate with, the beneficial owners of our common stock held of record by those brokers, custodians, nominees or other fiduciaries.

Annual Report and Other Matters

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, which was made available to stockholders with or preceding this proxy statement, contains financial and other information about our Company, but is not incorporated into this proxy statement and is not to be considered a part of these proxy soliciting materials or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Securities

Board Leadership Structure and Board's Role in Risk Oversight

Board Leadership Structure

Our Board of Directors believes that our Chief Executive Officer is best situated to serve as Chairman of the Board because he is the director most familiar with our business and industry, and most capable of effectively identifying strategic priorities and leading the discussion and execution of strategy. Independent directors and management have different perspectives and roles in strategy development. Our independent directors bring experience, oversight and expertise from outside our Company and industry, while the Chief Executive Officer brings company-specific experience and expertise. Our Board of Directors believes that the combined role of Chairman and Chief Executive Officer promotes strategy development and execution, and facilitates information flow between management and the board, which are essential to effective governance.

One of the key responsibilities of the Board of Directors is to assist the Company in developing strategic direction and to hold management accountable for the execution of strategy once it is developed. The Board of Directors believes the combined role of Chairman and Chief Executive Officer, together with an independent Lead Director having the duties described below, is in the best interests of our Company because it provides the appropriate balance between strategy development and independent oversight of management.

Lead Director

Robert Stebenne, an independent director, was selected by our Board of Directors to serve as the Lead Director for all meetings of the independent directors held in executive session. The Lead Director has the responsibility of presiding at all executive sessions of the board, consulting with the Chairman and Chief Executive Officer on board and committee meeting agendas, acting as a liaison between management and the independent directors, including maintaining frequent contact with the Chairman and Chief Executive Officer and advising him on the efficiency of the board meetings, facilitating teamwork and communication between the independent directors and management, as well as additional responsibilities.

Board's Role in Oversight of Risk

Our Board of Directors is responsible for overseeing our Company's risk management. The Board of Directors regularly reviews information regarding our Company's credit, liquidity and operations, as well as the risks associated with each. The Audit Committee discusses with our independent auditor the major financial risk exposures and the steps management has taken to monitor and mitigate such exposures.

Corporate Governance

Independence

In determining the independence of directors, our Board of Directors analyzes each director's relationship with our Company and its subsidiaries to determine whether our directors are independent under the applicable rules of the Nasdaq Stock Market and the SEC. Our Board of Directors has determined that all of our current directors, except Mr. Macari, are independent within the meaning of the independence rules of the Nasdaq Stock Market and the SEC. As noted above, the Nominating & Governance Committee has undertaken a search to fill the vacancy on our Board of Directors with an independent director.

Executive Sessions

All directors who are not employees of our Company or our subsidiaries meet in executive session from time to time, and met at least four times in 2011.

Code of Ethics

We have adopted a Code of Ethics that applies to all our directors, officers and employees, which can be found on our website at www.summerinfant.com. Amendments to our Code of Ethics and any grant of a waiver from a provision of our Code of Ethics requiring disclosure under applicable SEC or Nasdaq Stock Market rules will be disclosed on our website.

Corporate Governance Guidelines

Our Board of Directors adopted Corporate Governance Guidelines, which can be found on our website at www.summerinfant.com. These guidelines include, without limitation, guidelines relating to director qualifications and responsibilities, board committees, director access to officers and employees, director and officer compensation, management succession and stockholder communication with the board.

Insider Trading Policy

Under our Code of Ethics, directors, officers, and employees who have access to confidential information relating to our Company are not permitted to use or share that information for stock trading purposes or for any other purpose except the conduct of the Company's business. To use non-public information for personal financial benefit or to tip others who might make an investment decision on the basis of this information is not only unethical and against Company policy, but is also illegal. We also maintain an insider trading policy, applicable to all directors, officers and employees and other designated service providers. The policy provides that these persons may not (i) buy, sell or engage in other transactions in our securities while aware of material non-public information about our Company; (ii) buy or sell securities of other companies while aware of material non-public information about those companies that they become aware of as a result of business dealings with our Company, or (iii) disclose material non-public information to any unauthorized persons outside of our Company. In addition, officers and directors are prohibited from purchasing or selling options on our common stock or engaging in short sales of our common stock. Officers and directors are discouraged from engaging in hedging or monetizing transactions (such as prepaid variable forwards, collars, equity swaps or similar derivative securities that are linked to our common stock), and must obtain prior approval to engage in such transactions. The policy also requires officers, directors and certain other identified employees to obtain pre-clearance for any trading, and subjects these persons to a defined trading blackout period, which under the current policy begins on the date three calendar weeks prior to the end of the fiscal quarter and extends until the third trading day following the release of financial results for that fiscal quarter.

Stock Ownership Guidelines for Non-Employee Directors and Chief Executive Officer

Our Board of Directors has adopted ownership guidelines to align the interests of its independent, non-employee directors and our Chief Executive Officer with the interests of our stockholders. Adoption of these guidelines encourages non-employee directors and our Chief Executive Officer to maintain a significant ownership stake over their tenure. It is expected that each non-employee director and the Chief Executive Officer shall attain the applicable share ownership level within five years of his or her initial election or appointment.

As a guideline, a non-employee director shall own shares of our common stock equal in value to at least three times the amount of his or her applicable annual retainer fee. As a guideline, our Chief Executive Officer shall own shares of our common stock equal in value to at least six times the amount of his annual base salary.

In calculating compliance with the guidelines, each non-employee director and the Chief Executive Officer shall be credited for each share of common stock beneficially owned by him or her, including shares held in benefit plans, each share of vested and non-vested restricted stock, and each restricted stock unit. The Compensation Committee will review from time to time the ownership guidelines and recommend any changes for approval by our Board of Directors as appropriate.

Communications with Directors

Stockholders may send communications to our Board of Directors, the Chairman, any individual director or group of directors, or any board committee by using the contact information provided on our website. Stockholders also may send communications by letter addressed to: Corporate Secretary, Attn: Board of Directors, Summer Infant, Inc., 1275 Park East Drive, Woonsocket, Rhode Island 02895. Communications may also be received and reviewed by our Chairman or members of senior management. Stockholder concerns about our accounting, internal controls, auditing matters or business practices will be reported to the Audit Committee. All other concerns will be reported to the appropriate committee(s) of our Board of Directors.

Board of Directors Meetings and Committees of the Board

Attendance of Directors

In 2011, our Board of Directors met five times. All directors attended more than 75% of the meetings. All directors attended in excess of 75% of the meetings of the committees of our Board of Directors on which they served. Our directors are encouraged, but not required, to attend annual meetings. All of our directors attended our 2011 annual meeting of stockholders, and all of our directors are expected to attend this meeting.

Committees of the Boards of Directors

Our Board of Directors has designated the following standing committees: an Audit Committee, a Compensation Committee and a Nominating & Governance Committee. From time to time as needed, our Board of Directors may designate ad hoc or special committees to address specifically delegated matters. The composition and objectives of each of the standing committees are described below.

Audit Committee

The Audit Committee held four meetings in 2011. As described in the committee's charter, a copy of which is available on our website at www.summerinfant.com, the primary function of the audit committee is to appoint, retain, set compensation of, and supervise our independent auditors, review the results and scope of the audit and other accounting-related services, and review our accounting practices and systems of internal accounting and disclosure controls.

The committee, established in accordance with section 3(a)(58)(A) of the Exchange Act, currently consists of three members: Richard Wenz - Chairman, Dan Almagor, and Robert Stebenne. Each member of the committee is an independent director under applicable SEC and Nasdaq Stock Market rules. The members of the committee are required to have extensive business and financial experience. They are also required to have a good understanding of financial statements, including our balance sheet, income statement, cash flow statement and our quarterly reports on Form 10-Q and our annual report on Form 10-K and related financial statements and disclosures. Our Board of Directors has determined that Mr. Wenz qualifies as an audit committee financial expert within the meaning of SEC rules.

The committee meets with our external auditors and principal financial personnel to review quarterly financial results and the results of the annual audit (in both regular and executive sessions). The committee reviews and approves annual external auditor engagement plans, scopes and fees. The committee approves all fees and terms related to the annual independent audit as well as all permissible non-audit engagements of the external auditors. The committee pre-approves all audit and permissible non-audit services to be performed by the external auditors.

Compensation Committee

The Compensation Committee met five times in 2011. The committee currently consists of four members: Richard Wenz - Chairman, Martin Fogelman, Robert Stebenne, and Derial Sanders. Each member of the committee is an independent director under the rules of the Nasdaq Stock Market.

As described in the committee's charter, which is available on our website at www.summerinfant.com, the compensation committee is responsible, on behalf of our Board of Directors, for reviewing and approving the amounts and types of compensation paid to our executive officers and independent, non-employee directors, as well as all bonus and equity compensation paid to other employees. The committee meets at least four times per year and additionally as needed. The Chairman of the committee regularly reports to our Board of Directors on compensation committee policy, procedures, actions, and recommendations. The committee is responsible for determining that compensation paid under our compensation programs is equitable (meaning that it is appropriate to the responsibilities of the position), is based on the performance of our Company and the individual, and meets the standards of the competitive marketplace. The committee is responsible for all compensation decisions for our Chief Executive Officer and other executive officers.

Use of Outside Advisors. All compensation decisions are made with consideration of the committee's guiding principles to provide competitive compensation for the purpose of attracting and retaining talented executives and employees and of motivating our employees to achieve improved Company performance, which ultimately benefits our stockholders. The committee has authority to retain (at the Company's expense) outside counsel, compensation consultants and other advisors to assist as needed. The committee considers input and recommendations from our Chief Executive Officer and outside compensation consultants in connection with its review of our Company's compensation programs and its annual review of the performance of the other executive officers. In 2011, the committee engaged the services of an independent compensation consultant, Pearl Meyer & Partners, LLC (or "PM&P"). As further described below under "Role of Compensation Consultant" in the "Executive Compensation" section of this proxy statement, PM&P has assisted the committee with several initiatives in 2011. The committee retains PM&P directly, although in carrying out assignments PM&P also interacts with management when necessary and appropriate to obtain compensation and performance data. In addition, PM&P may, in its discretion, seek input and feedback from management regarding its consulting work product prior to presentation to the committee to confirm alignment with our business strategy, identify data questions and other similar issues, if any.

The committee takes into consideration the recommendations of its compensation consultant and our Chief Executive Officer, but retains absolute discretion as to whether to adopt such recommendations in whole or in part, as it deems appropriate. For additional information on the processes followed by the committee and the objectives, methodologies and components of compensation considered by the committee in connection with executive compensation and overall compensation for employees, see the "Executive Compensation" section of this proxy statement.

Nominating & Governance Committee

The Nominating & Governance Committee met five times in 2011. As described in the committee's charter, which is available on our website at www.summerinfant.com, the committee is responsible for (i) overseeing and reviewing the size, functioning, composition and needs of the Board of Directors and its committees, including recruitment of qualified board members and recommending nominees to the Board of Directors for election as directors, (ii) developing and recommending corporate governance guidelines and monitoring those guidelines, and (iii) overseeing the management continuity planning process. The committee currently consists of three members: Robert Stebenne - Chairman, Martin Fogelman and Richard Wenz. Each member of the committee is an independent director under the rules of the Nasdaq Stock Market.

Process for Identifying and Evaluating Potential Director Nominees. The committee will consider persons identified by its members, management, stockholders, investment bankers and others for nomination to the Board of Directors. The committee follows the process described in this proxy statement and its charter when determining nominees to our Board of Directors.

The committee will identify, evaluate and recommend candidates to become members of our Board of Directors with the goal of creating a Board of Directors that, as a whole, consists of individuals with various and relevant career experience, industry knowledge and experience, financial expertise (including whether a candidate satisfies the criteria for being an audit committee financial expert, as defined by the SEC), and

community ties. The committee will also consider minimum individual qualifications of candidates, including strength of character,

mature judgment, familiarity with our Company's business and industry, independence of thought, an ability to work collegially and whether the candidate is independent within the meaning of SEC and Nasdaq Stock Market rules. Candidates, whether identified by the committee or proposed by stockholders, will be reviewed in the context of the current composition of our Board of Directors, our operating requirements and the long-term interests of our stockholders. Although the committee does not have a formal diversity policy concerning membership of the Board of Directors, the committee does consider diversity in its broadest sense when evaluating candidates, including persons diverse in gender, ethnicity, experience, and background.

Process for Stockholder Nominations. Nominations to our Board of Directors may be submitted to the committee by our stockholders in accordance with the process described in our amended and restated bylaws. Stockholders who wish to recommend a candidate for election to our Board of Directors should send their letters to the Company at 1275 Park East Drive, Woonsocket, Rhode Island 02895, Attention: Nominating & Governance Committee. These letters will be promptly forwarded to the members of the committee.

All stockholder recommendations for director candidates must be submitted to the Company not less than 60 calendar days or more than 90 calendar days prior to the annual meeting at which the nominee is requested to be proposed. Stockholders must follow certain procedures to recommend or propose candidates for election as directors described in our amended and restated bylaws and summarized below.

The notice must contain certain information about the stockholder making the recommendation or proposal of a candidate for election to the Board of Directors, as described in our amended and restated bylaws, including (i) the name and address of the stockholder and its affiliates making the recommendation and (ii) the number of shares of our common stock directly or indirectly beneficially owned by the stockholder, including any rights to acquire shares of our common stock. The recommendation must contain the following information about the candidate being proposed for election to the Board of Directors as described in our amended and restated bylaws, including (i) the name and address of the candidate, (ii) the number of shares of our common stock directly or indirectly beneficially owned by the candidate, including any rights to acquire shares of our common stock and (iii) the information that would be required to be disclosed in a proxy statement in connection with the solicitation of proxies for election of directors in a contested election under Section 14 of the Exchange Act. The candidate must also submit a written representation and agreement to the Company that he or she is not party to any agreement with another person (other than our Company) that, if elected, would obligate the candidate to act or vote on a certain issue or that provides for compensation or other reimbursement for service on the Board of Directors, and that if elected, the candidate would be in compliance with all applicable guidelines and policies of the Company.

Director Compensation

We do not pay any directors who are also executive officers any additional compensation for service as directors. In June 2011, the Compensation Committee recommended, and our Board of Directors approved, a new independent, non-employee director compensation arrangement. The Compensation Committee was advised by compensation consultant, Pearl Meyer & Partners, in developing its recommendation for changes in director compensation arrangement.

Under our prior non-employee director compensation arrangement, non-employee directors received the following compensation:

- a \$50,000 annual retainer for each non-employee director;

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

- an additional \$10,000 annual retainer for the Chairman of the Audit Committee;
- an additional \$10,000 annual retainer for the Chairman of the Compensation Committee;
- an additional \$15,000 annual retainer for the Lead Director and Nominating & Governance Committee Chairman;
- expense reimbursement for all reasonable expenses incurred in attending meetings and tending to our business; and

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

- a one-time grant to each non-employee director of options to purchase 40,000 shares of our common stock under the our incentive compensation plan.

The new non-employee director compensation arrangement approved in June 2011 provides for the following compensation:

- the lead director will receive an annual retainer of \$60,000;
- each other director will receive an annual retainer of \$50,000;
- for any meetings beyond four regularly scheduled board meetings per year, each director will receive a fee of \$1,000 for each board meeting attended in person, and \$500 for each telephonic board meeting attended;
- the chairpersons of the audit committee, compensation committee and nominating/governance committee will receive an additional annual fee of \$15,000, \$10,000, and \$8,000, respectively;
- each director will receive a fee of \$1,000 for each committee meeting attended in person, and \$500 for each telephonic committee meeting attended;
- new non-employee directors will receive an initial equity award, in the form of restricted stock, equal in value to \$30,000, based on the fair market value of our common stock on the date of grant, and such equity award will vest in four equal annual installments beginning on the first anniversary of the date of grant; and
- each director will receive an annual equity award, in the form of shares of our common stock, on the date of our annual meeting of stockholders, the number of shares to be calculated by dividing \$30,000 by the fair market value of our common stock on such date.

We will also generally reimburse non-employee directors for travel expenses incurred in connection with their duties as directors. In addition, our Board of Directors may from time to time also provide for cash compensation, as recommended by the Compensation Committee, payable to members of special or ad hoc committees of the Board of Directors.

PROPOSAL NO. 2

APPROVAL OF 2012 INCENTIVE COMPENSATION PLAN

Overview

In 2007, our 2006 Performance Equity Plan (as amended, the 2006 Plan) was approved by stockholders and authorized for issuance up to 1,600,000 shares of our common stock for stock-based incentive compensation to eligible employees, officers, directors and independent contractors. On June 5, 2008, our stockholders approved an amendment to the 2006 Plan to increase the number of shares authorized for issuance under the 2006 Plan to 3,000,000. As of April 26, 2012, we had 206,415 shares of common stock available for grant under the 2006 Plan. The remaining shares available for future awards under the 2006 Plan will only sustain a portion of our annual incentive equity grant for 2012, essentially reducing the available pool of shares for grants in 2013 to zero. As a result, the Board of Directors of the Company is recommending the adoption of a new 2012 Incentive Compensation Plan (the 2012 Plan) that will eventually replace the 2006 Plan once all shares in that plan have been granted. Therefore, our Board of Directors has adopted the 2012 Plan and recommends that our stockholders approve the 2012 Plan to give our Company the ability to grant 500,000 shares of our common stock for stock-based incentive compensation to eligible employees, officers, directors and consultants to our Company.

Our Board of Directors recommends this action to enable us to continue to attract, motivate, retain and reward high-quality executives and other employees, officers, directors and consultants by enabling such persons to acquire or increase a proprietary interest in our Company. Our Board of Directors believes that equity awards promote growth and provide a meaningful incentive to personnel of successful companies by aligning the interests of such persons with our stockholders.

Key Features of the 2012 Incentive Compensation Plan

Key features of the 2012 Plan include:

- Shares requested. The maximum number of shares as to which awards may be granted under the 2012 Plan is 500,000 shares, or approximately 2.8% of our currently outstanding shares of common stock. When combined with the approximately 206,415 shares remaining available for issuance under our 2006 Plan, approximately 706,415 shares of our common stock will be available for issuance following approval of the 2012 Plan. This amount is sufficient for our needs for fiscal years 2012 and 2013 based on our current plans and growth expectations.
- No evergreen provision. There is no evergreen feature pursuant to which the shares authorized for issuance under the 2012 Plan can be increased automatically without stockholder approval.
- No repricing of awards. The 2012 Plan prohibits repricing of equity awards, whether by amending an existing award or exchanging a new award at a lower price without prior stockholder approval.

- No automatic single-trigger acceleration upon a change in control. There is no provision for the automatic acceleration of unvested awards upon a change in control. The applicable transaction agreement or individual award agreements may provide for acceleration of awards and the Committee administering the 2012 Plan has discretion to provide for acceleration upon a change in control.

- Performance-based awards. The 2012 Plan provides for the granting of performance-based awards, which when used, will enable us to align our incentive awards to employees, officers and directors with our Company's performance.

Burn Rate and Overhang; Burn Rate Commitment

Burn Rate. In administering our equity incentive compensation programs, we consider both our burn rate and our overhang. The burn rate measures the potential future dilution to our stockholders as a result of long-term equity incentive awards granted each year. For this purpose, burn rate is the number of shares of our common stock subject to stock awards granted in a fiscal year divided by the weighted average number of shares of our common stock outstanding (basic) during our fiscal year. For purposes of calculating the number of shares subject to stock awards granted in a fiscal year, (i) awards of stock options and stock SARs will count as one share and (ii) full value awards (restricted stock grants, restricted stock units, performance shares or any other award does not have an exercise price per share equal to fair market value) will count as 1.5 shares. Awards that are assumed or substituted in acquisitions are excluded from our burn rate calculations.

Since our Company became a publicly-traded company in March 2007, our burn rate has varied. Initially, as a newly-public company seeking to grow, our Company relied on equity incentives to attract and retain qualified executives and employees. As a result and in only one year, we granted a higher number of equity awards to a wide group of employees, leading to a higher average annual burn rate. Our historical burn rates for each of the past four years are as follows:

	Fiscal Year 2011	Fiscal Year 2010	Fiscal Year 2009	Fiscal Year 2008
Burn Rate	2.87%	1.31%	10.52%	0.00%
3-year Average Burn Rate (2008-2010)	XXX		3.94%	
3-year Average Burn Rate (2009-2011)		4.90%		XXX

As the table above shows, our three-year average burn rates were strongly impacted by grants made in 2009, whereas burn rates in all other years are well below 3%, and also below ISS standards for companies in our industry category. As discussed more thoroughly in the Executive Compensation section of this proxy statement, in 2011, our Company, with the assistance of PM&P, undertook to bring our overall compensation program, including compensation of our executives, into closer alignment with comparable companies. As a result, in 2011 we began making planned annual equity grants to our executive officers and other senior management at a level comparable to the 25th-percentile of comparable companies. As we continue to implement changes to our overall compensation program, we estimate that our average three-year burn rate will also continue to decrease to and normalize over time.

Burn Rate Commitment. To continue to manage and control the amount of our common stock used for equity compensation, on April 16, 2012, our Board adopted a resolution committing to cap our average annual burn rate. The Company commits that, with respect to the number of shares subject to awards granted over the next three fiscal years 2012-2014, we will maintain an average annual burn rate over that period that does not exceed 3.5% of our weighted shares of common stock outstanding. For purposes of calculating the number of shares of common stock granted in a particular year, all awards will first be converted into option-share equivalents as noted above. This three-year average annual burn rate commitment of 3.5% is (1) well below Institutional Shareholder Services', or ISS', three-year average burn rate for similar companies in the Consumer Durables and Apparel Industry (GICS code 2520), and (2) within other burn rate limits and expectations of our institutional investors.

Overhang. Overhang is a measure of potential future dilution to our stockholders from the exercise of long-term equity incentive awards granted and outstanding even if such awards are not vested. We define overhang as of a given date as (1) the sum of the total number of shares of our common stock that underlie outstanding equity awards plus the total number of shares of our common stock available for issuance under our equity compensation plans as of such date (in aggregate these are referred to as total plan shares) divided by (2) the number of shares of our common stock outstanding during our fiscal year. Our overhang as of December 31, 2011 was 12.7%, and on a pro forma basis, assuming the approval of the 500,000 shares available under the 2012

Plan, would be 15.5%. We believe that our overhang (both on an actual basis and on a pro forma basis) is reasonable in relation to our peer group and reflect a judicious use of equity for compensation purposes.

Reasons for the Proposal

As described more fully in the Executive Compensation section of this proxy statement, equity compensation is a crucial component of our overall compensation program for executive officers and senior management. In addition, we use equity awards to compensate our independent directors and to provide them with an interest in the overall financial performance of our Company. A significant portion of the shares granted under our equity incentive compensation programs go to executive officers and senior management employees as a regular component of their compensation. Of equity awards granted in connection with performance in fiscal 2011, 49.2% were granted to senior management employees, 43.2% were granted to our executive officers and 7.6% to our independent directors.

Our growth and success depend wholly on the talent and efforts of people. The availability of ongoing long-term equity incentive compensation is a key factor in our ability to recruit and retain talent. We must offer competitive compensation packages that reward performance and create a compelling reason to join or remain at our Company and deliver results that benefit all constituents. We believe stock-based compensation motivates employees and helps to focus participants on the performance and financial goals we have committed to achieve. We believe that our ability to offer long-term equity incentives encourages a balanced focus between short-term and long-term goals and performance that cannot be as effectively achieved with cash awards alone. To that end, the standard vesting schedule for equity awards granted under our incentive compensation plans extends over a four year period, with the awards vesting 25% each year beginning on the first anniversary of the date of grant of the award.

As more fully discussed in the Executive Compensation section of this proxy statement, beginning in 2011 and with the assistance of PM&P, we have undertaken to review and modify our overall compensation program, executive compensation and compensation for our independent directors to better align compensation with comparable companies, our business performance and therefore the interests of our stockholders. These changes were designed to drive desired financial, operational and strategic objectives that create sustainable long-term stockholder value; incentivize our executive officers to accomplish our business strategy; and reward the results and behaviors of officers and senior management that drive our Company's strategy by meeting or exceeding profitability goals.

For the reasons discussed above, it is our belief that it is in the best interest of our Company and its stockholders to approve the 2012 Plan. Accordingly, the board of directors has adopted the 2012 Plan, subject to stockholder approval. The 2012 Plan allows our Company to continue to use stock-based compensation and performance-based compensation (both cash and equity) as a core component of our overall compensation program.

Summary of the 2012 Incentive Compensation Plan

The following is a summary of certain principal features of the 2012 Plan. This summary is qualified in its entirety by reference to the complete text of the 2012 Plan, and stockholders are urged to read the actual text of the 2012 Plan in its entirety which is set forth as Annex A to this proxy statement. The 2012 Plan will be effective upon stockholder approval at the meeting.

Eligibility

The persons eligible to receive awards under the 2012 Plan are the officers, directors, employees, consultants and other persons who provide services to our Company or any related entity. The foregoing notwithstanding, only employees of our Company, or any parent corporation or subsidiary corporation of our Company (as those terms are defined in Sections 424(e) and (f) of the Internal Revenue Code, respectively), are eligible for purposes of receiving any incentive stock options, also known as ISOs. An employee on leave of absence may be considered as still in the employ of our Company or a related entity for purposes of eligibility for participation in the 2012 Plan.

Administration

The 2012 Plan is to be administered by the compensation committee of our Board of Directors or other committee designated by our Board of Directors to administer the 2012 Plan and which consists of not less than two independent directors (the Committee), except to the extent and subject to certain limitations the Board of Directors elects to administer the 2012 Plan. Subject to the terms of the 2012 Plan, the Committee is authorized to select eligible persons to receive awards, determine the type, number and other terms and conditions of, and all other matters relating to, awards, prescribe award agreements (which need not be identical for each participant), and the rules and regulations for the administration of the 2012 Plan, construe and interpret the 2012 Plan and award agreements, correct defects, supply omissions or reconcile inconsistencies therein, and make all other decisions and determinations as the Committee may deem necessary or advisable for the administration of the 2012 Plan. The Committee may also, in its sole discretion and subject to certain limitations, delegate its authority to grant awards under the 2012 Plan to a specific person or group of persons.

Shares Available for Awards

Under the 2012 Plan, the total number of shares of our common stock reserved and available for delivery under the 2012 Plan at any time during the term of the 2012 Plan shall be 500,000, subject to adjustment as provided for in the 2012 Plan. Shares of our common stock under awards that are forfeited, expire or otherwise terminate without issuance of such shares will again be available for delivery with respect to awards under the 2012 Plan. However, shares of our common stock will not again be available for delivery with respect to awards under the 2012 Plan if (i) such shares were tendered or withheld (either actually or by attestation) upon exercise or settlement of an award or (ii) such shares were tendered or withheld (either actually or by attestation) to pay tax withholding requirements. In addition, shares of our common stock subject to a stock appreciation right, or SAR, shall be counted against the pool of available shares as granted (not settled) with respect to awards under the 2012 Plan. Any shares of our common stock repurchased by our Company in the open market using proceeds from option exercises shall not be available for awards under the 2012 Plan. Awards issued in substitution for awards previously granted by a company acquired by our Company or a related entity, or with which our Company or a related entity combines, do not reduce the limit on grants of awards under the 2012 Plan.

Annual Per-Person Limitations

The 2012 Plan imposes individual limitations on the amount of certain awards, in part to comply with Section 162(m) of the Internal Revenue Code. Under these limitations, during any 12-month period, no participant may be granted (i) stock options or stock appreciation rights with respect to more than 500,000 shares of common stock, or (ii) shares of restricted stock, restricted stock units, performance shares and other stock based-awards with respect to more than 500,000 shares of common stock, in each case, subject to adjustment in certain circumstances. The maximum amount that may be paid out as performance awards in cash or other property (excluding shares of our common stock) in any 12-month performance period is \$3,000,000.

Section 162(m) of the Internal Revenue Code

The 2012 Plan is designed to allow our Company to grant awards that satisfy the requirements for the performance-based compensation exclusion from the deduction limitations under Section 162(m) of the Internal Revenue Code. Our Board of Directors believes that it is in our interest and the interests of our stockholders to maintain an equity and cash compensation 2012 Plan under which compensation awards made to our named executive officers can qualify for deductibility for federal income tax purposes. Accordingly, the 2012 Plan has been structured in a manner such that awards under it can satisfy the requirements for the performance-based compensation exclusion from the deduction limitations under Section 162(m) although we cannot guarantee that awards under the 2012 Plan will actually qualify as performance-based compensation

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

under Section 162(m). Future changes in Section 162(m) or the regulations thereunder may adversely affect our ability to ensure that awards under the 2012 Plan will qualify as performance-based compensation that are fully deductible by us under Section 162(m). In order for awards to satisfy the requirements for the performance-based compensation exclusion from the deduction limitations under Section 162(m), the 2012 Plan specifies performance measures and other material terms

that must be approved by our stockholders, which are described below under Performance Awards. Approval of the 2012 Plan by the required vote of our stockholders is intended to constitute such approval.

Types of Awards Authorized under the 2012 Plan

Stock Options and Stock Appreciation Rights. The Committee is authorized to grant stock options, including both ISOs, which can result in potentially favorable tax treatment to the participant, and non-qualified stock options, and stock appreciation rights entitling the participant to receive the amount by which the fair market value of a share of common stock on the date of exercise exceeds the grant price of the stock appreciation right. The exercise price per share subject to an option and the grant price of a stock appreciation right are determined by the Committee. The exercise price per share of stock options shall be no less than 100% of the fair market value of a share of common stock on the date such stock option is granted. An option granted to a person who owns or is deemed to own stock representing 10% or more of the voting power of all classes of stock of our Company or any parent company (sometimes referred to as a 10% owner) will not qualify as an ISO unless the exercise price for the option is not less than 110% of the fair market value of a share of common stock on the date such ISO is granted.

For purposes of the 2012 Plan, the term fair market value means the fair market value of common stock, awards or other property as determined by the Committee or under procedures established by the Committee. Unless otherwise determined by the Committee, the fair market value of common stock as of any given date is the closing sales price per share of common stock as reported on the principal stock exchange or market on which common stock is traded on the date as of which such value is being determined or, if there is no sale on that date, then on the last previous day on which a sale was reported. The maximum term of each option or stock appreciation right, the times at which each option or stock appreciation right will be exercisable, and provisions requiring forfeiture of unexercised options or stock appreciation rights at or following termination of employment generally are fixed by the Committee, except that no option or stock appreciation right may have a term exceeding ten years, and no ISO granted to a 10% stockholder (as described above) may have a term exceeding five years (to the extent required by the Internal Revenue Code at the time of grant). Methods of exercise and settlement and other terms of options and stock appreciation rights are determined by the Committee. The Committee, thus, may permit the exercise price of options awarded under the 2012 Plan to be paid in cash, shares, other awards or other property (including loans to participants).

Restricted Stock and Restricted Stock Units. The Committee is authorized to grant restricted stock and restricted stock units. Restricted stock is a grant of shares of common stock which may not be sold or disposed of, and which is subject to such risks of forfeiture and other restrictions as the Committee may impose. A participant granted restricted stock generally has all of the rights of a stockholder of our Company, unless otherwise determined by the Committee. An award of restricted stock units confers upon a participant the right to receive shares of common stock or cash equal to the fair market value of the specified number of shares of common stock covered by the restricted stock units at the end of a specified deferral period, subject to such risks of forfeiture and other restrictions as the Committee may impose. These awards may be subject to the satisfaction of performance-based criteria and qualify as performance awards for purposes of Section 162(m) of the Internal Revenue Code, as discussed below under Performance Awards. Prior to settlement, an award of restricted stock units carries no voting or dividend rights or other rights associated with share ownership, although dividend equivalents may be granted, as discussed below.

The Committee is also authorized to grant dividend equivalents conferring on participants the right to receive, currently or on a deferred basis, cash, shares of common stock, other awards or other property equal in value to dividends paid on a specific number of shares of common stock or other periodic payments in connection with a restricted stock unit award. Dividend equivalents may be paid currently or on a deferred basis and, if deferred, may be deemed to have been reinvested in additional shares of common stock, awards or otherwise as specified by the Committee.

Bonus Stock, Non-Employee Director Awards and Awards in Lieu of Obligations. The Committee is authorized to grant shares of common stock as a bonus free of restrictions, or to grant shares of common stock or other awards in lieu of Company obligations to pay cash or deliver

other property under the 2012 Plan or other plans

or compensatory arrangements, subject to such terms as the Committee may specify. The Committee may, in its sole discretion, determine to provide for the grant of unrestricted shares of common stock to non-employee directors in recognition of their services to our Board of Directors in addition to any other compensation paid to our non-employee directors.

Performance Awards. The Committee is authorized to grant performance awards to participants on terms and conditions established by the Committee, which awards may consist of shares of our common stock, cash, restricted stock awards, or restricted stock units. The performance criteria to be achieved during any performance period and the length of the performance period is determined by the Committee upon the grant of the performance award. Performance awards may be valued by reference to a designated number of shares of common stock (in which case they are referred to as performance shares) or by reference to a designated amount of property including cash (in which case they are referred to as performance units). Performance awards may be settled by delivery of cash, shares of common stock or other property, or any combination thereof, as determined by the Committee. Performance awards granted to persons whom the Committee expects will, for the year in which a deduction arises, be covered employees (as defined below) will, if and to the extent intended by the Committee, be subject to provisions that should qualify such awards as performance-based compensation not subject to the limitation on tax deductibility by our Company under Section 162(m) of the Internal Revenue Code. For purposes of Section 162(m), the term covered employee means a company's chief executive officer and each other person whose compensation is required to be disclosed in the company's filings with the SEC by reason of that person being among the three highest compensated officers of the company (other than the company's chief executive officer or principal financial officer) as of the end of a taxable year. If and to the extent required under Section 162(m), any power or authority relating to a performance award intended to qualify under Section 162(m) is to be exercised by the Committee and not the Board of Directors.

Performance Criteria. If and to the extent that the Committee determines that these provisions of the 2012 Plan are to be applicable to any award, one or more of the following business criteria for our Company, on a consolidated basis, or for related entities, or for business or geographical units of our Company or a related entity (except with respect to the total shareholder return and earnings per share criteria), are to be used by the Committee in establishing performance goals for awards under the 2012 Plan: (1) earnings per share; (2) revenues or margins; (3) cash flow; (4) operating margin; (5) return on net assets, investment, capital, or equity; (6) economic value added; (7) direct contribution; (8) net income; pretax earnings; earnings before interest and taxes; earnings before interest, taxes, depreciation and amortization; earnings after interest expense and before extraordinary or special items; operating income or income from operations; income before interest income or expense, unusual items and income taxes, local, state or federal and excluding budgeted and actual bonuses which might be paid under any ongoing bonus plans of our Company; (9) working capital; (10) management of fixed costs or variable costs; (11) identification or consummation of investment opportunities or completion of specified projects in accordance with corporate business plans, including strategic mergers, acquisitions or divestitures; (12) total shareholder return; (13) debt reduction or refinancing; (14) market share; (15) entry into new markets, either geographically or by business unit; (16) customer retention and satisfaction; (17) strategic plan development and implementation, including turnaround plans; (18) management of product distribution by type or customer; or (19) the fair market value of a share of common stock. Any of the above goals may be determined on an absolute or relative basis (e.g. growth in earnings per share) or as compared to the performance of a published or special index deemed applicable by the Committee including, but not limited to, a group of companies that are comparable to our Company. The Committee may exclude the impact of an event or occurrence which the Committee determines should appropriately be excluded, including without limitation (i) restructurings, discontinued operations, extraordinary items (as defined pursuant to generally accepted accounting principles), and other unusual or non-recurring charges; (ii) an event either not directly related to the operations of our Company or not within the reasonable control of management; (iii) a change in accounting standards required by generally accepted accounting principles; or (iv) such other exclusions or adjustments as the Committee specifies at the time the award is granted.

The Committee may, in its discretion, determine that the amount payable as a performance award will be reduced from the amount of any potential award.

Other Stock-Based Awards. The Committee is authorized to grant awards that are denominated or payable in, valued by reference to, or otherwise based on or related to shares of our common stock. The Committee determines the terms and conditions of such awards.

Other Terms of Awards

Awards may be settled in the form of cash, shares of common stock, other awards or other property, in the discretion of the Committee. The Committee may require or permit participants to defer the settlement of all or part of an award in accordance with such terms and conditions as the Committee may establish, including payment or crediting of interest or dividend equivalents on deferred amounts, and the crediting of earnings, gains and losses based on deemed investment of deferred amounts in specified investment vehicles. The Committee is authorized to place cash, shares of common stock or other property in trusts or make other arrangements to provide for payment of its obligations under the 2012 Plan. The Committee may condition any payment relating to an award on the withholding of taxes and may provide that a portion of any shares of common stock or other property to be distributed will be withheld (or previously acquired shares of common stock or other property be surrendered by the participant) to satisfy withholding and other tax obligations. Awards granted under the 2012 Plan generally may not be pledged or otherwise encumbered and are not transferable except by will or by the laws of descent and distribution, or to a designated beneficiary upon the participant's death, except that the Committee may, in its discretion, permit transfers, subject to any terms and conditions the Committee may impose thereon.

Awards under the 2012 Plan are generally granted without a requirement that the participant pay consideration in the form of cash or property for the grant (as distinguished from the exercise), except to the extent required by law. The Committee may, however, grant awards in exchange for other awards under the 2012 Plan, awards under other Company plans, or other rights to payment from our Company, and may grant awards in addition to such other awards, rights or other awards.

Effect of a Change in Control

The Committee may, in its discretion, accelerate the exercisability, the lapsing of restrictions or the expiration of deferral or vesting periods of any award, and such accelerated exercisability, lapse, expiration and if so provided in the award agreement or otherwise determined by the Committee, vesting shall occur automatically upon the consummation of a change in control of our Company, as defined in the 2012 Plan. With respect to any award subject to the achievement of performance-based goals, the Committee may, in its discretion, determine that all or a portion of the applicable performance goals have been met based upon the actual achievement of such goals as of the date of the consummation of the change in control. However, unless otherwise determined by the Committee, acceleration of or lapsing of vesting in connection with an award shall not occur if either (1) our Company is the surviving entity in the change in control transaction or (2) the successor company in the change in control transaction assumes or substitutes for the award.

Adjustments

The Committee is authorized to adjust outstanding awards (including adjustments to exercise prices of options and other affected terms of Awards) in the event that a dividend or other distribution (whether in cash, shares of common stock or other property), recapitalization, forward or reverse split, reorganization, merger, consolidation, spin-off, combination, repurchase, share exchange or other similar corporate transaction or event affects our common stock so that an adjustment is appropriate. These adjustments include changing the number and type of shares to be issued under the 2012 Plan, changing the per-person limitations on awards and the grant, purchase or exercise price of an award, and changing the restriction on the total amount of awards that may be granted. The Committee is also authorized to adjust performance conditions and other terms of awards in response to these kinds of events or in response to changes in applicable laws, regulations or accounting principles.

Amendment and Termination

The Board of Directors may amend, alter, suspend, discontinue or terminate the 2012 Plan or the Committee's authority to grant awards without further stockholder approval, except that stockholder approval must be obtained for any amendment or alteration if such approval is required by law or regulation or under the rules of any stock exchange or quotation system on which shares of common stock are then listed or quoted. Thus, stockholder approval may not necessarily be required for every amendment to the 2012 Plan which might increase the cost of the 2012 Plan or alter the eligibility of persons to receive awards. Stockholder approval will not be deemed to be required under laws or regulations, such as those relating to ISOs, that condition favorable treatment of participants on such approval, although the Board may, in its discretion, seek stockholder approval in any circumstance in which it deems such approval advisable. Unless earlier terminated by the Board of Directors, the 2012 Plan will terminate at the earliest of (a) such time as no shares of common stock remain available for issuance under the 2012 Plan or (b) the tenth anniversary of the effective date of the 2012 Plan. Awards outstanding upon expiration of the 2012 Plan shall remain in effect until they have been exercised or terminated, or have expired.

Federal Income Tax Consequences of Awards

The 2012 Plan is not qualified under the provisions of section 401(a) of the Internal Revenue Code and is not subject to any of the provisions of the Employee Retirement Income Security Act of 1974.

Nonqualified Stock Options. An optionee generally is not taxable upon the grant of a nonqualified stock option granted under the 2012 Plan. On exercise of a nonqualified stock option granted under the 2012 Plan, an optionee will recognize ordinary income equal to the excess, if any, of the fair market value on the date of exercise of the shares of stock acquired on exercise of the option over the exercise price. If the optionee is an employee of our Company or a related entity, that income will be subject to the withholding of Federal income tax. The optionee's tax basis in those shares will be equal to their fair market value on the date of exercise of the option, and his or her holding period for those shares will begin on that date.

If an optionee pays for shares of stock on exercise of an option by delivering shares of our common stock, the optionee will not recognize gain or loss on the shares delivered, even if their fair market value at the time of exercise differs from the optionee's tax basis in them. The optionee, however, otherwise will be taxed on the exercise of the option in the manner described above as if he or she had paid the exercise price in cash. If a separate identifiable stock certificate or other indicia of ownership is issued for that number of shares equal to the number of shares delivered on exercise of the option, the optionee's tax basis in the shares represented by that certificate or other indicia of ownership will be equal to his or her tax basis in the shares delivered, and his or her holding period for those shares will include his or her holding period for the shares delivered. The optionee's tax basis and holding period for the additional shares received on exercise of the option will be the same as if the optionee had exercised the option solely in exchange for cash.

We will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income taxable to the optionee, provided that amount constitutes an ordinary and necessary business expense for our Company and is reasonable in amount, and either the employee includes that amount in income or we timely satisfy our reporting requirements with respect to that amount.

Incentive Stock Options. The 2012 Plan provides for the grant of stock options that qualify as incentive stock options as defined in section 422 of the Internal Revenue Code, which we refer to as ISOs. Generally, an optionee is not subject to tax upon the grant or exercise of an ISO. In addition, if the optionee holds a share received on exercise of an ISO for at least two years from the date the option was granted and at least one year from the date the option was exercised, which we refer to as the required holding period, the difference, if any, between the amount realized

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

on a sale or other taxable disposition of that share and the holder's tax basis in that share will be long-term capital gain or loss.

If, an optionee disposes of a share acquired on exercise of an ISO before the end of the required holding period, which we refer to as a disqualifying disposition, the optionee generally will recognize ordinary income in the

year of the disqualifying disposition equal to the excess, if any, of the fair market value of the share on the date the ISO was exercised over the exercise price. If, however, the disqualifying disposition is a sale or exchange on which a loss, if realized, would be recognized for Federal income tax purposes, and if the sales proceeds are less than the fair market value of the share on the date of exercise of the option, the amount of ordinary income recognized by the optionee will not exceed the gain, if any, realized on the sale. If the amount realized on a disqualifying disposition exceeds the fair market value of the share on the date of exercise of the option, that excess will be short-term or long-term capital gain, depending on whether the holding period for the share exceeds one year.

An optionee who exercises an ISO by delivering shares of stock acquired previously pursuant to the exercise of an ISO before the expiration of the required holding period for those shares is treated as making a disqualifying disposition of those shares. This rule prevents pyramiding (or the exercise of an ISO (that is, exercising an ISO for one share and using that share, and others so acquired, to exercise successive ISOs) without the imposition of current income tax.

For purposes of the alternative minimum tax, the amount by which the fair market value of a share of stock acquired on exercise of an ISO exceeds the exercise price of that option generally will be an adjustment included in the optionee's alternative minimum taxable income for the year in which the option is exercised. If, however, there is a disqualifying disposition of the share in the year in which the option is exercised, there will be no adjustment with respect to that share. If there is a disqualifying disposition in a later year, no income with respect to the disqualifying disposition is included in the optionee's alternative minimum taxable income for that year. In computing alternative minimum taxable income, the tax basis of a share acquired on exercise of an ISO is increased by the amount of the adjustment taken into account with respect to that share for alternative minimum tax purposes in the year the option is exercised.

We are not allowed an income tax deduction with respect to the grant or exercise of an incentive stock option or the disposition of a share acquired on exercise of an incentive stock option after the required holding period. However, if there is a disqualifying disposition of a share, we are allowed a deduction in an amount equal to the ordinary income includible in income by the optionee, provided that amount constitutes an ordinary and necessary business expense for our Company and is reasonable in amount, and either the employee includes that amount in income or we timely satisfy our reporting requirements with respect to that amount.

Stock Awards. Generally, the recipient of a stock award will recognize ordinary compensation income at the time the stock is received equal to the excess, if any, of the fair market value of the stock received over any amount paid by the recipient in exchange for the stock. If, however, the stock is non-vested when it is received under the 2012 Plan (for example, if the employee is required to work for a period of time in order to have the right to sell the stock), the recipient generally will not recognize income until the stock becomes vested, at which time the recipient will recognize ordinary compensation income equal to the excess, if any, of the fair market value of the stock on the date it becomes vested over any amount paid by the recipient in exchange for the stock. A recipient may, however, file an election with the Internal Revenue Service, within 30 days of his or her receipt of the stock award, to recognize ordinary compensation income, as of the date the recipient receives the stock award, equal to the excess, if any, of the fair market value of the stock on the date the stock award is granted over any amount paid by the recipient in exchange for the stock.

The recipient's basis for the determination of gain or loss upon the subsequent disposition of shares acquired as stock awards will be the amount paid for such shares plus any ordinary income recognized either when the stock is received or when the stock becomes vested. Upon the disposition of any stock received as a stock award under the 2012 Plan, the difference between the sale price and the recipient's basis in the shares will be treated as a capital gain or loss and generally will be characterized as long-term capital gain or loss if the shares have been held for more than one year from the date as of which he or she would be required to recognize any compensation income.

We will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income taxable to the recipient, provided that amount constitutes an ordinary and necessary business expense for our

Company and is reasonable in amount, and either the recipient includes that amount in income or we timely satisfy our reporting requirements with respect to that amount.

Stock Appreciation Rights. We may grant stock appreciation rights, or SARs, under the 2012 Plan. Generally, the recipient of a SAR will not recognize any taxable income at the time the SAR is granted. With respect to SARs, if the recipient receives the appreciation inherent in the SARs in cash, the cash will be taxable as ordinary compensation income to the recipient at the time that the cash is received. If the recipient receives the appreciation inherent in the SARs in shares of stock, the recipient will recognize ordinary compensation income equal to the excess of the fair market value of the stock on the day it is received over any amounts paid by the recipient for the stock. With respect to SAR granted with an option, if the recipient elects to surrender the underlying option in exchange for cash or shares of stock equal to the appreciation inherent in the underlying option, the tax consequences to the recipient will be the same as discussed above. If the recipient elects to exercise the underlying option, the holder will be taxed at the time of exercise as if he or she had exercised a nonqualified stock option (discussed above), i.e., the recipient will recognize ordinary income for Federal tax purposes measured by the excess of the then fair market value of the shares of stock over the exercise price.

In general, there will be no Federal income tax deduction allowed to our Company upon the grant or termination of SARs. Upon the exercise of a SAR, however, we will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income that the employee is required to recognize as a result of the exercise, provided that the deduction is not otherwise disallowed under the Internal Revenue Code.

Dividend Equivalents. Generally, the recipient of a dividend equivalent award in connection with a restricted stock unit award will recognize ordinary compensation income at the time the dividend equivalent award is received equal to the fair market value of the amount received. We generally will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income that the employee is required to recognize as a result of the dividend equivalent award, provided that the deduction is not otherwise disallowed under the Internal Revenue Code.

Importance of Consulting Tax Adviser

The information set forth above is a summary only and does not purport to be complete. In addition, the information is based upon current Federal income tax rules and therefore is subject to change when those rules change. Moreover, because the tax consequences to any recipient may depend on his particular situation, each recipient should consult his or her tax adviser as to the Federal, state, local and other tax consequences of the grant or exercise of an award or the disposition of stock acquired as a result of an award.

New Plan Benefits

Benefits obtained by our employees under our 2012 Plan will be made on a discretionary basis. Accordingly, it is not possible to determine the benefits that will be received by our executive officers and our other employees under the 2012 Plan in fiscal year 2012.

Recommendation

Our Board of Directors recommends a vote **FOR** the approval of our 2012 Incentive Compensation Plan.

PROPOSAL NO. 3

**RATIFICATION OF APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Our Audit Committee has appointed McGladrey & Pullen, LLP (or M&P), an independent registered public accounting firm, to audit the consolidated financial statements of our Company for the fiscal year ending December 31, 2012, and recommends that stockholders vote in favor of the ratification of such appointment. In the event of a negative vote on such ratification, the Audit Committee will reconsider its selection. We anticipate that representatives of M&P will be present at the meeting, will have the opportunity to make a statement if they desire, and will be available to respond to appropriate questions.

In 2011, M&P acquired the assets of Caturano and Company, Inc. (formerly Caturano and Company, P.C.) (or Caturano), our former independent registered public accounting firm. As a result on August 31, 2010, Caturano resigned as the independent registered public accounting firm for the Company, and concurrent with such resignation, the Audit Committee approved the engagement of M&P as the new independent registered public accounting firm for the Company.

Caturano served as the independent auditor of the Company from May 27, 2009 until August 31, 2010. From January 1, 2010 through the date of Caturano's resignation on August 31, 2010, there were (i) no disagreements between the Company and Caturano on any matters of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Caturano, would have caused Caturano to make reference to the subject matter of the disagreement in their reports on our financial statements for such year, and (ii) no reportable events within the meaning set forth in Item 304(a)(1)(v) of Regulation S-K. During the period January 1, 2010 through August 31, 2010, we did not consult Caturano with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, or any other matter or reportable events listed in Items 304(a)(2)(i) and (ii) of Regulation S-K. We provided Caturano with a copy of the disclosures in this paragraph and requested in writing that Caturano furnish us with a letter addressed to the SEC stating whether or not they agree with such disclosures. Caturano provided a letter, dated September 3, 2010 stating its agreement with such statements, which was filed as Exhibit 16.1 to our Current Report on Form 8-K filed with the SEC on September 7, 2010.

The Audit Committee has considered whether the provision of non-audit services by Caturano and M&P is compatible with maintaining their respective independence.

Fees

The following table shows the aggregate fees paid or accrued for audit and other services provided for the years ended December 31, 2011 and 2010:

	2011	2010 (1)
Audit Fees	\$ 280,813	\$ 210,386
Audit-Related Fees		
Tax Fees		

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

All Other Fees		9,705		36,700
Total Fees	\$	290,518	\$	247,086

(1) Amounts in this column represent (i) \$34,935 paid to M&P and \$175,451 paid to Caturano for Audit Fees; and (ii) \$31,500 paid to M&P and \$5,200 paid to Caturano for All Other Fees.

Audit Fees were for professional services rendered for the audit of our annual consolidated financial statements and review of consolidated financial statements included in our Quarterly Reports on Form 10-Q and

services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements.

All Other Fees were for services other than the services reported above, specifically fees paid (i) in 2010 to Caturano and M&P for work on Sarbanes-Oxley compliance and (ii) in 2011 to M&P for work on Sarbanes-Oxley compliance.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The Audit Committee pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with the pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis.

AUDIT COMMITTEE REPORT

This Audit Committee Report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission or subject to Regulation 14A or 14C under the Exchange Act, or to the liabilities of Section 18 of the Exchange Act. Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933 or the Exchange Act that might incorporate future filings, including this Proxy Statement, in whole or in part, this report shall not be incorporated by reference into any such filings.

The Audit Committee reviews our financial reporting process on behalf of our Board of Directors. Management has the primary responsibility for the financial statements and the reporting process. Our independent auditors are responsible for expressing an opinion on the conformity of our audited financial statements to accounting principles generally accepted in the United States of America.

In this context, the Audit Committee has reviewed and discussed with management and the independent auditors the audited financial statements. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended, as adopted by the Public Company Accounting Oversight Board (the PCAOB) in Rule 3200T. In addition, the Audit Committee has received from the independent auditors the written disclosures and letter required by the applicable requirements of the PCAOB and discussed with them their independence from us and our management. In addition, the Audit Committee has considered whether the independent auditor's provision of non-audit services to us is compatible with the auditor's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that our audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2011, for filing with the SEC.

The foregoing report has been furnished by the current members of the Audit Committee.

EXECUTIVE COMPENSATION

Executive Summary

We are a designer, manufacturer and distributor of a range of juvenile health, safety and wellness products, and are part of an industry that is highly competitive and has many participants. Our ability to compete effectively in our industry is dependent in part on our ability to attract, motivate and retain key management personnel and other qualified employees. Historically, our compensation program for executive officers consisted primarily of base salary, performance-based cash bonuses and long-term incentives in the form of stock-based compensation, including stock options and restricted stock awards. In 2011, we undertook a review of our compensation program to ensure that it is competitive with our peers and continues to align compensation with our business performance.

Performance Highlights in 2011

Fiscal year 2011 proved to be a difficult year for all retail businesses, including those in our industry, as consumers continued to be cost-conscious in light of continued uncertain economic conditions in the U.S., resulting in decreased consumer spending. Despite the challenges, we made several important achievements in fiscal year 2011, including the following:

- Net revenues in 2011 increased 22.5% to \$238.2 million, compared to \$194.5 million in 2010.
- We acquired Born Free Holdings Limited, a manufacturer and distributor of infant feeding products.
- We introduced new products in our existing categories that increased our value-add to retailers and led to additional shelf space.
- We consolidated our distribution centers to drive efficiency and generate additional savings while also enacting other supply chain improvements to help offset inflationary costs.

The following chart highlights the successful and steady revenue growth achieved by our Company since 2007:

Although we achieved certain financial and strategic milestones, we unfortunately did not achieve all of our fiscal 2011 financial goals. Our fiscal 2011 pre-bonus EBITDA did not meet our target threshold for the year and, because this was the primary performance metric tied to our annual short-term cash incentive plan, no incentives were paid to any participants for the year.

However, we continued to strive for long-term value creation for our stockholders. Similar to companies in our industry, we saw our stock price fluctuate in fiscal 2011, yet our one and three-year stockholder returns were -7.1% and 48.5%, which ranked us above the median and the 75th percentile among all companies in the Consumer Durables & Apparel industry group as of December 31, 2011. Because a portion of our executive compensation is in

the form of long-term stock-based awards, we believe the interests of our management team remain appropriately aligned with the performance of our Company and therefore of our stockholders.

To help illustrate this point, the following chart highlights the stock appreciation achieved by our Company as compared to our peer group, the S&P 500 index, and the S&P 500 Consumer Durables & Apparel index since December 2008:

2011 Pay Decisions

As noted above, although we achieved many accomplishments during 2011, our pay decisions were conservative in light of the current business environment as well as our EBITDA performance, and resulted in the following:

- Base salaries for our executives were modestly increased in 2011, with increases ranging from 3% to 4%.
- While we increased our sales in 2011 despite the difficult consumer environment, we did not meet the 2011 financial target under our short-term cash incentive plan and therefore no bonus payouts were made to our executive officers or any other employees.
- Our equity awards granted in 2011 were at or below the market 25th percentile for similar companies.

The following chart shows the mix of total direct compensation actually earned by our Chief Executive Officer for 2011, with fixed compensation reflecting base salary and variable compensation reflecting restricted stock awards:

We strive to tie a significant portion of our executives' pay to the achievement of financial and individual strategic goals as well as the creation of long-term value for our stockholders. In fiscal 2011, executives did not receive annual incentive awards, demonstrating the commitment of the Company and the Compensation Committee to paying for performance.

Changes in our Compensation Practices and Programs

In 2011, the Compensation Committee engaged Pearl Meyer & Partners, LLC (or "PM&P"), an independent compensation consulting firm, to review our Company's executive and director compensation programs in an effort to begin implementing changes that will align them with comparable peer companies. In addition, we want to ensure that our executive compensation program reflects a "pay-for-performance" philosophy that ties a portion of our executive officers and senior management's compensation to the overall business performance of our Company. Actions taken in 2011 as part of this review included the development or adoption of:

- A peer group to enable us to benchmark certain elements of our executive and director compensation;
- Short-term incentive compensation plan guidelines;
- A formal, long-term incentive compensation plan strategy;

- Stock ownership guidelines for our Chief Executive Officer and directors; and
- Updated director compensation arrangements.

The core components of our executive compensation program historically used by the Compensation Committee in determining compensation for our executives have not changed as a result of our ongoing review, as they reflect the appropriate balance of short-term and long-term incentives. As we further develop our compensation practices to align them with comparable companies, we will continue to focus on improving our internal process for determining and reviewing compensation of all of our employees, including our executive officers, with the goal to bring compensation levels into alignment over time up to the 50th-percentile range of comparable companies.

Compensation Philosophy and Objectives

Our Board of Directors has appointed a Compensation Committee consisting of independent directors as required by applicable SEC and Nasdaq Stock Market rules. The Compensation Committee is authorized to determine and approve, or make recommendations to our Board of Directors with respect to, the compensation of our Chief Executive Officer and our other executive officers and to grant or recommend the grant of stock-based compensation to our Chief Executive Officer and other executive officers. The Compensation Committee also reviews our compensation policies and practices for all employees.

Our philosophy is to compensate our executives at levels that enable us to attract, motivate, and retain highly qualified executives. As our business evolves, we seek to foster a performance-oriented culture, where individual performance is aligned with organizational objectives. We will continue to establish annual bonus programs designed to reward individuals for performance based primarily on our financial results and their achievement of personal and corporate goals that contribute to our long-term goal of building stockholder value. Grants of stock-based awards are intended to provide additional incentive to work to maximize long-term total return to stockholders and to align the interests of our executives with those of our stockholders. Total compensation levels reflect corporate positions, responsibilities, tenure, experience and achievement of goals. As a result of our performance-based philosophy, compensation levels may vary significantly from year-to-year and among our various executive officers with fixed and variable pay components generally set at or below the 50th percentile of comparable companies and variable pay components generally set at or below the 50th percentile of comparable companies. We expect the compensation level of our Chief Executive Officer will be higher than that of our other executive officers, assuming relatively equal achievement of individual performance goals, because our compensation policies set our base salaries, annual bonuses, and stock-based award grants after reviewing those of comparable companies, which generally compensate their chief executive officers at higher levels because of their roles and their importance to overall company success.

Compensation Components

Each year the Compensation Committee reviews the various components of executive compensation to determine an appropriate mix for each named executive officer, as described below. In determining each component of an executive's compensation, numerous factors are considered, including:

- the individual's particular background and circumstances, including prior relevant work experience;
- the demand for individuals with the individual's specific expertise and experience;
- the individual's role with us and the compensation paid to similar persons determined through benchmark studies;
- the individual's performance and contribution to the achievement of Company goals and objectives;

- comparison to other executives within our Company; and
- the overall financial performance of our Company.

Our policy for allocating between short-term and long-term compensation is to ensure adequate annual cash compensation to attract and retain personnel, while providing incentives (in the form of equity awards) to maximize long-term value for our Company and our stockholders. Accordingly, (i) we provide cash compensation in the form of base salary and annual incentive bonuses to meet competitive salary norms and reward good performance on an annual basis and (ii) we provide non-cash compensation in the form of stock-based awards to reward superior performance against long-term objectives.

Base Salary. The Compensation Committee strives to provide that the named executive officers are paid a base salary that is competitive with salaries paid by comparable companies for similar work, based on each employee's experience, performance and geographic location. As noted below in Compensation Benchmarking, we target cash compensation at or below market median levels to remain competitive in attracting and retaining executive talent. When setting pay, the Compensation Committee considers a combination of the executive's performance, the performance of our Company and the individual business or corporate function for which the executive is responsible, the nature and importance of the position and role within our Company, the scope of the executive's responsibility, internal relationships or comparisons and the current compensation package in place for that executive, including the executive's current annual salary and potential bonus awards. The Compensation Committee also considered the Chief Executive Officer's recent performance, his achievements in prior years, his achievement of specific short-term goals and our Company's performance when determining his base salary. For the other named executive officers, the Compensation Committee meets with the Chief Executive Officer to review his compensation recommendations for those named executive officers, including his performance evaluation of all such persons and the basis of his recommendations, including the scope of each person's duties, oversight responsibilities and individual objectives and goals against results achieved for the applicable fiscal year.

Annual Incentive Bonus. Our Company generally uses short-term cash-based incentive compensation programs to recognize and reward executive officers and other employees who contribute meaningfully to an increase in stockholder value and profitability. In general, the funding of the annual incentive bonus pool is dependent upon our Company's targeted earnings before interest, taxes, depreciation and amortization (before deducting incentive compensation). If the plan is fully funded, each named executive officer has the ability to receive up to 200% of his or her target bonus award opportunity depending upon the achievement of target bonus payouts. The percentage of the bonus actually paid to each named executive officer depends on the attainment of corporate financial targets and individual performance goals.

Long-Term Equity Incentive Awards. The Compensation Committee believes that stock-based compensation ensures that its executive officers have a continuing stake in the long-term success of our Company. In general, long-term incentive awards are targeted between the 25th and 50th-percentiles of the compensation peer group with appropriate adjustments for individual and Company performance, though historically awards have generally been below market levels. Long-term incentive awards have been in the form of stock options or restricted stock awards, or a combination of both types of awards. Vesting for these awards extends over a four-year period, with 25% of the total number of shares subject to an award vesting each year beginning on the first anniversary of the date of grant. If a named executive officer leaves our Company prior to the completion of the applicable vesting schedule, the unvested portion of the option or stock grant is forfeited unless otherwise provided in his employment agreement or termination agreement. In administering our long-term incentive compensation programs, we also consider both our burn rate and our overhang, as discussed more fully above in Burn Rate and Overhang; Burn Rate Commitment under Proposal No. 2 to approve our 2012 Incentive Compensation Plan.

Perquisites and Fringe Benefits. We provide very few executive fringe benefits. Our executive officers receive health and welfare benefits, such as group medical, group life and long-term disability coverage, under plans generally available to all other employees. We believe that our executives should be able to provide for their retirement needs from the total annual compensation they earn based on our performance. Accordingly, other than an employer matching contribution under our Section 401(k) plan which is the same that we provide all of our employees, we do not offer our executives any nonqualified pension plans, supplemental executive retirement plans, deferred compensation plans or other forms of compensation for retirement. We may, however, provide for fringe benefits in individually negotiated employment agreements with our executive officers.

Role of the Compensation Committee and Management

The Compensation Committee of our Board of Directors currently determines the compensation of our Chief Executive Officer and our other executive officers. Annually, our Compensation Committee evaluates the performance of our Chief Executive Officer and determines the compensation of our Chief Executive Officer in light of the goals and objectives of our compensation program for that year. Our Compensation Committee together with our Chief Executive Officer annually assess the performance of our other executive officers. Based in part on recommendations from our Chief Executive Officer, our Compensation Committee determines the compensation of

our other executive officers. As discussed below, the Compensation Committee also considers input from other independent directors, our compensation consultant and benchmarking studies and surveys.

At the request of our Compensation Committee, our Chief Executive Officer generally attends our Compensation Committee meetings, including meetings at which our compensation consultant is present. This enables our Compensation Committee to review with our Chief Executive Officer the corporate and individual goals that our Chief Executive Officer regards as important to achieve our overall success. Our Compensation Committee also requests our Chief Executive Officer to assess the performance of and develop goals for our other executive officers. Although the participation of our Chief Executive Officer could influence performance targets and individual goals, including his own, our Compensation Committee rather than our Chief Executive Officer makes all determinations regarding individual and corporate goals and targets. Our Chief Executive Officer does not attend any portion of meetings at which his compensation is discussed.

Role of the Compensation Consultant

The Compensation Committee retains PM&P to provide advice regarding compensation program design, competitive practices, market trends, peer group composition and compensation for our Chief Executive Officer, other executive officers, members of senior management and our Board of Directors. PM&P reports directly to the Compensation Committee, meets the independence requirements of applicable SEC rules and does not provide any other services to our Company beyond those requested or approved by the Compensation Committee. PM&P regularly attends meetings of the Compensation Committee, either in person or by telephone. In 2011, PM&P assisted the Compensation Committee with the following initiatives:

- Development of a peer group used to make compensation decisions related to executive officer and director compensation;
- Development of a formal, long-term incentive compensation plan strategy;
- Development of short-term incentive compensation plan guidelines;
- Assessment of compensation to our Board of Directors; and
- Development of stock ownership guidelines for our Chief Executive Officer and Board of Directors.

Compensation Benchmarking

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

In determining compensation levels, we regularly review compensation levels in our geographical area, compensation levels of companies that we deem to be similar to our Company regardless of their location, competitive factors to enable us to attract executives from other companies, and, most importantly, compensation levels that we deem appropriate to attract, motivate, and retain our executives. The Compensation Committee believes that it is important when making compensation-related decisions to be informed as to the practices of publicly-held companies of similar size, revenue and market focus. Geographic location is also taken into consideration. As a result, the Compensation Committee relies on its independent compensation consultant to help define the appropriate competitive market using a combination of peer group companies and industry-specific compensation surveys.

In 2011, the Compensation Committee requested PM&P develop an appropriate peer group that would be used in making pay decisions regarding executive officer and director compensation. The following selection criteria were used to develop the peer group:

- Companies with revenues within a range of \$63.2 to \$748 million;
- Companies with similar market capitalizations;
- Companies with a similar product and industry similarity;
- Companies with business model similarity (in terms of being a designer, manufacturer and distributor of consumer durables); and

- Companies with comparable sales growth over the most recent 1, 3 and 5-year periods.

The resulting peer group consisted of the following 14 companies:

Acme United Corporation	iRobot Corporation
Crocs, Inc.	JAKKS Pacific, Inc.
A.T. Cross Company	Kid Brands, Inc.
Crown Crafts, Inc.	Physician Formula Holdings, Inc.
Delta Apparel, Inc.	RC2 Corporation (now a subsidiary of Tomy Company, Ltd.
Gaiam, Inc.	Rocky Brands, Inc.
Helen of Troy Limited	Zumiez, Inc.

We will annually reassess the relevance of our peer group and make changes when appropriate. We believe the use of benchmarking is an important factor in remaining competitive with our peers and furthering our objective of attracting, motivating and retaining highly qualified personnel.

Based on management's analysis and recommendations, the Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended over time to bring base salaries and total executive compensation in line with approximately the median (50th-percentile) of the companies represented in the peer group. Short-term incentive compensation, based on the achievement of specified goals and objectives, may be awarded in the form of a cash performance bonus and/or equity awards. Total compensation may vary significantly from year-to-year based on total Company and business unit performance.

Executive Compensation in 2011

As noted in the executive summary, in 2011, we engaged the services of PM&P to assist us in reviewing our overall compensation program, and this review is ongoing. As a result, our fiscal 2011 incentive compensation program was a program in transition. As summarized in the Compensation Benchmarking section, we did review and consider data for a group of peer companies identified by us after consultation with PM&P and began to benchmark our compensation levels to that peer group in an effort to determine the appropriateness of our compensation program. This review included a determination of our position among the peer companies and the development of recommendations and guidelines for the structure of our short-term and long-term incentive programs. PM&P also advised our Compensation Committee regarding the appropriateness of our compensation program. We began implementing changes to our compensation programs in 2011, and our intent over time is to align our compensation practices with the median of our peer group.

Base Salaries. As is our practice, we reviewed base salaries for our executive officers at the beginning of the 2011 fiscal year. The following table summarizes the amount of base salary and year-over-year increase for each of our named executive officers for 2011 and 2012. As summarized below, we provided modest increases to certain named executive officers in 2011 and no merit increases in 2012.

Position	Executive	2010 Base Salary	Percent Increase in 2011	2011 Base Salary
----------	-----------	------------------	--------------------------	------------------

Edgar Filing: Summer Infant, Inc. - Form DEF 14A

CEO and Chairman	Jason Macari	\$	375,000	4%	\$	390,000
	David					
COO(1)	Hemendinger		N/A	N/A	\$	280,000
Former CFO	Joseph Driscoll	\$	210,000	3%	\$	216,300
Former COO	Jeffery Hale	\$	275,000	None	\$	275,000

(1) Hired in November 2011.

Annual Incentive Bonus. Our fiscal 2011 incentive bonus program was broad-based with executive officers and all other employees eligible to participate. The funding of the 2011 annual incentive bonus cash pool is dependent upon the achievement of a certain level of profitability, namely our Company's pre-bonus EBITDA (earnings before interest, taxes, depreciation and appreciation). For fiscal 2011, the target pre-bonus EBITDA was \$24,668,000, which if achieved would result in a total cash bonus pool of \$1,500,000. The actual amount of the cash bonus pool to be funded for 2011 was dependent on the level of achievement of that target, as set forth below:

EBITDA Achievement	Pre-Bonus EBITDA Triggers (in thousands)	Bonus Payout	Total Payout (in millions)
140% +	\$ 34,535	200%	\$ 3.0
130 - 139%	\$ 32,068	175%	\$ 2.6
120 - 129%	\$ 29,602	150%	\$ 2.3
110 - 119%	\$ 27,135	125%	\$ 1.9
100-109%	\$ 24,668	100%	\$ 1.5
100%	\$ 24,668	100%	\$ 1.5
90% - 99%	\$ 22,201	75%	\$ 1.1
80% - 89%	\$ 19,734	50%	\$ 0.8
< 80%		No Bonus	\$

In 2012, we determined that pre-bonus EBITDA for fiscal year 2011 did not meet the threshold amount needed to fund the cash pool for the annual incentive bonus. Therefore, the Compensation Committee determined no incentive bonus was earned and decided not to fund the annual incentive bonus pool in 2011. As a result, no cash bonuses were paid in 2012 to our named executive officers or any other employees for 2011 performance.

Long-Term Equity Incentive Awards. For fiscal 2011, our stock-based incentive compensation grants for executive officers and senior management employees were in the form of restricted stock awards. The amount of restricted stock granted to each executive officer during fiscal 2011 reflected the executive's position within our Company, their individual performance and stock-based grants by comparable companies for comparable positions, with the goal to bring the executive within the 25th-percentile of such comparable companies. The vesting schedule for the restricted stock awards is 25% per year, with vesting beginning on the first anniversary of the grant date. The vesting schedule is designed to encourage executives to continue in the employ of our Company. Each executive forfeits the unvested portion, if any, of the restricted stock awards if the executive's service to our Company is terminated for any reason, except as may otherwise be determined by our Board of Directors.

Mr. Macari's individual performance goals for fiscal 2011, each of which were given a different weighting, included (i) attaining pre-bonus EBITDA margin target of 10.9%; (ii) meeting net revenue target of \$225,311,000; (iii) improving overall organizational structure and strengthening the management team; (iv) improving product distribution and (v) increasing quality and frequency of communications between management and our Board of Directors. As a result, Mr. Macari received a restricted stock award of 30,813 shares based on his meeting individual performance goals in 2011 and to bring his compensation in line with comparable companies, as noted above.

Mr. Hemendinger became our Chief Operating Officer in November 2011. Mr. Hemendinger receives a base salary of \$280,000 pursuant to the terms of his offer letter with our Company. As an inducement to Mr. Hemendinger to join our Company, the Compensation Committee approved a grant to Mr. Hemendinger of an option to purchase 40,000 shares and a restricted stock award of 20,000 shares. The Compensation Committee believes this inducement grant was necessary to attract and retain an executive of Mr. Hemendinger's caliber, and that the grant was in line with comparable companies.

Mr. Driscoll's individual performance goals for fiscal 2011, each of which were given a different weighting, included (i) attaining pre-bonus EBITDA margin target of 10.9%; (ii) meeting net revenue target of \$225,311,000; (iii) further developing internal and external reporting processes; (iv) continuing to ensure Sarbanes-Oxley compliance; (v) further developing internal staff capabilities; and (vi) evaluating and supporting acquisition transactions. As noted above, Mr. Driscoll received a modest increase in his base salary in 2011. For the reasons noted above, no annual bonuses were paid for 2011 performance. Mr. Driscoll received a restricted stock award of 7,969 shares based on meeting his individual performance goals.

Severance Payments. Mr. Hale's employment with our Company was terminated in 2011. As noted above, Mr. Hale did not receive any merit increase in base salary in 2011. For the reasons noted above, no annual bonuses were paid for 2011 performance. In connection with his termination, in exchange for Mr. Hale executing a general release of claims he may have against us and agreeing not to directly or indirectly compete with our Company, or to solicit employees, customers, or prospective acquisition candidates of our Company for a six-month period, Mr. Hale received an amount equal to six months of his annual \$275,000 base salary and continued benefits. In addition, we expect to pay Mr. Hale an additional amount equal to three months of his annual \$275,000 base salary and continued benefits for up to an additional three months pursuant to the terms of his severance agreement, provided that these continued benefits will terminate earlier if Mr. Hale becomes employed during the three-month period following the end of the initial six-month severance period. We agreed to continue the vesting of one of his restricted stock awards through March 2012. Mr. Hale's severance agreement is described below under Employment Arrangements and Change in Control Agreements with Executive Officers.

Pursuant to the agreement, Mr. Macari serves as our Chief Executive Officer, and receives a base salary of \$375,000 per annum, subject to increase at the end of each year at the discretion of the Compensation Committee. The express grant of any specific power to the Committee, and the taking of any action by the Committee, shall not be construed as limiting any power or authority of the Committee. The Committee may, in its sole discretion, delegate to one or more officers of the Company or any Related Entity, or

committees thereof, the authority, subject to such terms and limitations as the Committee shall determine, to perform such functions, including the granting of Awards and administrative functions as the Committee may determine to the extent that such delegation will not result in the loss of an exemption under Rule 16b-3(d)(1) for Awards granted to Participants subject to Section 16 of the Exchange Act in respect of the Company and will not cause Awards intended to qualify as performance-based compensation under Code Section 162(m) to fail to so qualify. The Committee may appoint agents to assist it in administering the Plan. Any such delegation to grant Awards shall be set forth in writing and shall specify the persons authorized to act thereunder, include limitations as to type and amount of Awards that may be granted during the period of the delegation and contain guidelines as to the determination of the exercise price and the vesting criteria. The Committee must deliver the written evidence of the delegation to the Company's Chief Financial Officer and Chief Executive Officer before any delegated authority may be exercised. The Committee may revoke or amend the terms of any delegation at any time but such action shall not invalidate any prior actions of the Committee's delegate that were consistent with the terms of the Plan.

(c) **Limitation of Liability.** The Committee and the Board, and each member thereof, shall be entitled to, in good faith, rely or act upon any report or other information furnished to him or her by any officer or Employee, the Company's independent auditors, Consultants or any other agents assisting in the administration of the Plan. Members of the Committee and the Board, and any officer or Employee acting at the direction or on behalf of the Committee or the Board, shall not be personally liable for any action or determination taken or made in good faith with respect to the Plan, and shall, to the extent permitted by law, be fully indemnified and protected by the Company with respect to any such action or determination.

4. **Shares Subject to Plan.**

(a) **Limitation on Overall Number of Shares Available for Delivery Under Plan.** Subject to adjustment as provided in Section 10(c), the total number of Shares reserved and available for delivery under the Plan shall be 500,000. Any Shares delivered under the Plan may consist, in whole or in part, of authorized and unissued shares or treasury shares.

(b) **Application of Limitations to Grants of Award.** No Award may be granted if the number of Shares to be delivered in connection with such an Award exceeds the number of Shares remaining available for delivery under the Plan, minus the number of Shares deliverable in settlement of or relating to then outstanding Awards. The Committee may adopt reasonable counting procedures to ensure appropriate counting, avoid double counting and make adjustments if the number of Shares actually delivered differs from the number of Shares previously counted in connection with an Award. Notwithstanding anything in Section 4(c) to the contrary and subject to adjustment as provided in Section 10(c), the maximum aggregate number of Shares that may be delivered under the Plan as a result of the exercise of the Incentive Stock Options shall be 500,000 Shares.

(c) **Availability of Shares Not Delivered under Awards.** If any Awards are forfeited, expire or otherwise terminate without issuance of such Shares, the Shares to which those Awards were subject, shall, to the extent of such forfeiture, expiration, termination or non-issuance, again be available for delivery with respect to Awards under the Plan, subject to the limitations set forth in this Section 4(c).

Notwithstanding the foregoing, the following Shares shall not be again available for delivery with respect to Awards under the Plan: (i) Shares tendered or held back by the Company upon exercise of an Option or settlement of another Award (either actually or by attestation) and (ii) Shares tendered or held back by the Company to cover tax withholding liabilities arising from such Option or other Award (either actually or by attestation).

In addition, Shares subject to a Stock Appreciation Right that are not issued upon the net settlement of the Stock Appreciation shall not be available for delivery with respect to Awards under the Plan. Shares repurchased by the Company on the open market using Option Proceeds shall not be available for Awards under the Plan.

A-6

Substitute Awards shall not reduce the Shares authorized for delivery under the Plan or authorized for delivery to a Participant in any period. Additionally, in the event that a company acquired by the Company or any Related Entity or with which the Company or any Related Entity combines has shares available under a pre-existing plan approved by its stockholders, the shares available for delivery pursuant to the terms of such pre-existing plan (as adjusted, to the extent appropriate, using the exchange ratio or other adjustment or valuation ratio or formula used in such acquisition or combination to determine the consideration payable to the holders of common stock of the entities party to such acquisition or combination) may be used for Awards under the Plan and shall not reduce the Shares authorized for delivery under the Plan if and to the extent that the use of such Shares would not require approval of the Company's stockholders under the rules of the Nasdaq.

5. **Eligibility; Per-Person Award Limitations.** Awards may be granted under the Plan only to Eligible Persons. Subject to adjustment as provided in Section 10(c), in any fiscal year of the Company during any part of which the Plan is in effect, no Participant may be granted (i) Options or Stock Appreciation Rights with respect to more than 500,000 Shares or (ii) Restricted Stock, Restricted Stock Units, Performance Shares or Other Stock-Based Awards with respect to more than 500,000 Shares. In addition, the maximum dollar value payable to any one Participant with respect to Performance Units is \$3,000,000 with respect to any 12-month Performance Period.

6. **Specific Terms of Awards.**

(a) **General.** Awards may be granted on the terms and conditions set forth in this Section 6. In addition, the Committee may impose on any Award or the exercise thereof, at the date of grant or thereafter (subject to Section 10(e)), such additional terms and conditions, not inconsistent with the provisions of the Plan, as the Committee shall determine, including terms requiring forfeiture of Awards in the event of termination of the Participant's Continuous Service and terms permitting a Participant to make elections relating to his or her Award. Except as otherwise expressly provided herein, the Committee shall retain full power and discretion to accelerate, waive or modify, at any time, any term or condition of an Award that is not mandatory under the Plan. Except in cases in which the Committee is authorized to require other forms of consideration under the Plan, or to the extent other forms of consideration must be paid to satisfy the requirements of Delaware law, no consideration other than services may be required for the grant (as opposed to the exercise) of any Award.

(b) **Options.** The Committee is authorized to grant Options to any Eligible Person on the following terms and conditions:

(i) **Exercise Price.** Other than in connection with Substitute Awards, the exercise price per Share purchasable under an Option shall be determined by the Committee, provided that such exercise price shall not be less than 100% of the Fair Market Value of a Share on the date of grant of the Option. If an Employee owns or is deemed to own (by reason of the attribution rules applicable under Section 424(d) of the Code) more than 10% of the combined voting power of all classes of stock of the Company (or any parent corporation or subsidiary corporation of the Company, as those terms are defined in Sections 424(e) and (f) of the Code, respectively) and an Incentive Stock Option is granted to such Employee, the exercise price of such Incentive Stock Option (to the extent required by the Code at the time of grant) shall be no less than 110% of the Fair Market Value of a Share on the date such Incentive Stock Option is granted. Other than pursuant to Section 10(c)(i) and (ii), without prior approval of the Company's stockholders the Committee shall not be permitted to: (A) lower the exercise price per Share of an Option after it is granted, (B) cancel an Option when the exercise price per Share exceeds the Fair Market Value of the underlying Shares in exchange for another Award (other than in connection with Substitute Awards), or (C) take any other action with respect to an Option that may be treated as a repricing pursuant to the applicable rules of the Nasdaq, including through a cancellation and re-grants or cancellation of Options in exchange for cash.

(ii) **Time and Method of Exercise.** The Committee shall determine the time or times at which or the circumstances under which an Option may be exercised in whole or in part (including based on achievement of performance goals or future service requirements), the time or times at which Options shall cease to be or become exercisable following termination of Continuous Service or upon other conditions,

which the exercise price may be paid or deemed to be paid (including in the discretion of the Committee a cashless exercise procedure), the form of such payment, including, without limitation, cash, Shares (including without limitation the withholding of Shares otherwise deliverable pursuant to the Award), other Awards or awards granted under other plans of the Company or a Related Entity, or other property (including notes or other contractual obligations of Participants to make payment on a deferred basis provided that such deferred payments are not in violation of Section 13(k) of the Exchange Act, or any rule or regulation adopted thereunder or any other applicable law), and the methods by or forms in which Shares will be delivered or deemed to be delivered to Participants.

(iii) ***Incentive Stock Options.*** The terms of any Incentive Stock Option granted under the Plan shall comply in all respects with the provisions of Section 422 of the Code. Anything in the Plan to the contrary notwithstanding, no term of the Plan relating to Incentive Stock Options shall be interpreted, amended or altered, nor shall any discretion or authority granted under the Plan be exercised, so as to disqualify either the Plan or any Incentive Stock Option under Section 422 of the Code, unless the Participant has first requested, or consents to, the change that will result in such disqualification. Thus, if and to the extent required to comply with Section 422 of the Code, Options granted as Incentive Stock Options shall be subject to the following special terms and conditions:

(A) the Option shall not be exercisable for more than ten years after the date such Incentive Stock Option is granted; provided, however, that if a Participant owns or is deemed to own (by reason of the attribution rules of Section 424(d) of the Code) more than 10% of the combined voting power of all classes of stock of the Company (or any parent cor
