- (1) Other than our investments listed in footnote 7 below, we do not Control any of our portfolio companies, as defined in the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act). In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments, which as of March 31, 2012 represented 152% of the Company's net assets or 93% of the Company's total assets, are subject to legal restrictions on sales.

The investments not otherwise pledged as collateral for the Debt Securitization, the Revolving Funding Facility or the SMBC Funding Facility (each as defined in Note 5 to the consolidated financial statements) by the respective obligors thereunder are pledged as collateral by the Company and certain of its other subsidiaries for the Revolving Credit Facility (as defined in Note 5 to the consolidated financial statements) (except for a limited number of exceptions as provided in the credit agreement governing the Revolving Credit Facility).

- (2) These assets are owned by the Company's wholly owned subsidiary Ares Capital CP Funding LLC (Ares Capital CP), are pledged as collateral for the Revolving Funding Facility and, as a result, are not directly available to the

creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP's obligations under the Revolving Funding Facility (see Note 5 to the consolidated financial statements).

- (3) Pledged as collateral for the Debt Securitization.
- (4) These assets are owned by the Company's wholly owned subsidiary Ares Capital JB Funding LLC ( ACJB ), are pledged as collateral for the SMBC Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than ACJB's obligations under the SMBC Funding Facility (see Note 5 to the consolidated financial statements).
- (5) Investments without an interest rate are non-income producing.
- (6) As defined in the Investment Company Act, we are deemed to be an Affiliated Person of a portfolio company because we own 5% or more of the portfolio company's outstanding voting securities or we have the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions during the three months ended March 31, 2012 in which the issuer was an Affiliated company (but not a portfolio company that we Control ) are as follows:

- \* Together with GE Global Sponsor Finance LLC and General Electric Capital Corporation (together, "GE"), we co-invest through the Senior Secured Loan Fund LLC d/b/a the Senior Secured Loan Program (the "SSLP"). The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP, consisting of representatives of an affiliate of the Company and an affiliate of GE; therefore, although the Company owns more than 25% of the voting securities of the SSLP, the Company does not believe that it has control over the SSLP (for purposes of the Investment Company Act or otherwise).
- (8) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (9) Excepted from the definition of investment company under Section 3(c) of the Investment Company Act and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (10) In the first quarter of 2011, the staff of the Securities and Exchange Commission (the "Staff") informally communicated to certain business development companies the Staff's belief that certain entities, which would be classified as an investment company under the Investment Company Act but for the exception from the definition of investment company set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as eligible portfolio companies (as defined in Section 2(a)(46) of the Investment Company Act). Subsequently, in August 2011 the Securities and Exchange Commission issued a concept release (the "Concept Release") which states that "[a]s a general matter, the Commission presently does not believe that Rule 3a-7 issuers are the type of small, developing and financially troubled businesses in which Congress intended BDCs primarily to invest and requested comment on whether or not a 3a-7 issuer should be considered an eligible portfolio company." Ares Capital provided a comment letter in respect of the Concept Release and continues to believe that the language of Section 2(a)(46) of the Investment Company Act permits a business development company to treat as eligible portfolio companies entities that rely on the 3a-7 exception. However, given the current uncertainty in this area (including the language in the Concept Release), Ares Capital has, solely for purposes of calculating the composition of its portfolio pursuant to Section 55(a) of the Investment Company Act, identified these entities in our schedule of investments as non-qualifying assets should the Staff ultimately disagree with Ares Capital's position.
- (11) Variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect on the date presented.
- (12) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 5.00% on \$18 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (13) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$12 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (14) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 4.00% on \$44 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (15) Loan was on non-accrual status as of March 31, 2012.

Table of Contents

- (16) Loan includes interest rate floor feature.
- (17) In addition to the interest earned based on the stated contractual interest rate of this security, the certificates entitle us to receive a portion of the excess cash flow from the SSLP's loan portfolio, which may result in a return to the Company greater than the contractual stated interest rate.

- (1) Other than our investments listed in footnote 6 below, we do not Control any of our portfolio companies, as defined in the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act ). In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments, which as of December 31, 2011 represented 162% of the Company s net assets or 95% of the Company s total assets, are subject to legal restrictions on sales.

The investments not otherwise pledged as collateral for the Debt Securitization the Revolving Funding Facility (each as defined in Note 5 to the consolidated financial statements) by the respective obligors thereunder are pledged as collateral by the Company and certain of its other subsidiaries for the Revolving Credit Facility (as defined in Note 5 to the consolidated financial statements) (except for a limited number of exceptions as provided in the credit agreement governing the Revolving Credit Facility).

- (2) These assets are owned by the Company s wholly owned subsidiary Ares Capital CP Funding LLC ( Ares Capital CP ), are pledged as collateral for the Revolving Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP s obligations under the Revolving Funding Facility (see Note 5 to the consolidated financial statements).

\* Together with GE Global Sponsor Finance LLC and General Electric Capital Corporation (together, "GE"), we co-invest through the Senior Secured Loan Fund LLC d/b/a the Senior Secured Loan Program (the "SSLP"). The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by GE and the Company; therefore, although the Company owns more than 25% of the voting securities of the SSLP, the Company does not believe that it has control over the SSLP (for purposes of the Investment Company Act or otherwise).

(7) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

(8) Excepted from the definition of investment company under Section 3(c) of the Investment Company Act and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

- (9) In the first quarter of 2011, the staff of the Securities and Exchange Commission (the Staff ) informally communicated to certain business development companies the Staff's belief that certain entities, which would be classified as an investment company under the Investment Company Act but for the exception from the definition of investment company set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as eligible portfolio companies (as defined in Section 2(a)(46) of the Investment Company Act). Subsequently, in August 2011 the Securities and Exchange Commission issued a concept release (the Concept Release ) which states that [a]s a general matter, the Commission presently does not believe that Rule 3a-7 issuers are the type of small, developing and financially troubled businesses in which Congress intended BDCs primarily to invest and requested comment on whether or not a 3a-7 issuer should be considered an eligible portfolio company . Ares Capital provided a comment letter in respect of the Concept Release and continues to believe that the language of Section 2(a)(46) of the Investment Company Act permits a business development company to treat as eligible portfolio companies entities that rely on the 3a-7 exception. However, given the current uncertainty in this area (including the language in the Concept Release), Ares Capital has, solely for purposes of calculating the composition of its portfolio pursuant to Section 55(a) of the Investment Company Act, identified these entities in our schedule of investments as non-qualifying assets should the Staff ultimately disagree with Ares Capital's position.
- (10) Variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect on the date presented.
- (11) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 5.00% on \$18 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (12) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$12 million aggregate principal amount outstanding of the portfolio

company's senior term debt previously syndicated by us.

- (13) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 4.00% on \$45 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (14) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 1.25% on \$74 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (15) Loan was on non-accrual status as of December 31, 2011.
- (16) Loan includes interest rate floor feature.
- (17) In addition to the interest earned based on the stated contractual interest rate of this security, the certificates entitle us to receive a portion of the excess cash flow from the SSLP's loan portfolio, which may result in a return to the Company greater than the contractual stated interest rate.

**1. ORGANIZATION**

Ares Capital Corporation (the Company or ARCC or we ) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act ). The Company has elected to be treated as a regulated investment company, or a RIC , under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code ) and operates in a manner so as to qualify for the tax treatment applicable to RICs.

On April 1, 2010, we consummated our acquisition of Allied Capital Corporation ( Allied Capital ), in an all stock merger where each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock (the Allied Acquisition ). The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital 's then-existing stockholders.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments. Also, as a result of the Allied Acquisition, Allied Capital 's equity investments, including equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio.

We are externally managed by Ares Capital Management LLC ( Ares Capital Management or our investment adviser ), a wholly owned subsidiary of Ares Management LLC ( Ares Management ), a global alternative asset manager and a Securities and Exchange Commission ( SEC ) registered investment adviser. Ares Operations LLC ( Ares Operations or our administrator ), a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

Interim financial statements are prepared in accordance with United States generally accepted accounting principles ( GAAP ) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period presented, have been included. The current period 's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2012.

**2. SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

***Cash and Cash Equivalents***

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Table of Contents

*Concentration of Credit Risk*

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

*Investments*

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized.

Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on, among other things, the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter. In addition, our independent accountants review our valuation process as part of their overall integrated audit.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.

Table of Contents

- The audit committee of our board of directors reviews these valuations, as well as the input of third parties, including independent third-party valuation firms, with respect to the valuations of a minimum of 50% of our portfolio at fair value.
- Our board of directors discusses valuations and ultimately determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on, among other things, the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

See Note 7 for more information on our valuation process.

***Interest and Dividend Income Recognition***

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

***Payment-in-Kind Interest***

The Company has loans in its portfolio that contain payment-in-kind ( PIK ) provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends, even though the Company has not yet collected the cash.

*Capital Structuring Service Fees and Other Income*

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

*Foreign Currency Translation*

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.

Table of Contents

(2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

***Accounting for Derivative Instruments***

The Company does not utilize hedge accounting and marks its derivatives to market through unrealized gains (losses) in the accompanying statement of operations.

***Equity Offering Expenses***

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received.

***Debt Issuance Costs***

Debt issuance costs are amortized over the life of the related debt instrument using the straight line method, which closely approximates the effective yield method.

***U.S. Federal Income Taxes***

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as such taxable income is earned.

Certain of our wholly owned subsidiaries are also subject to U.S. federal and state income taxes.

### *Dividends to Common Stockholders*

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. We intend to use primarily newly issued shares to implement the dividend reinvestment plan (so long as we are trading at a premium to net asset value). If our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan. However, we reserve the right to issue new shares of our common stock in connection with our obligations under the dividend reinvestment plan even if our shares are trading below net asset value.

Table of Contents

*Use of Estimates in the Preparation of Financial Statements*

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

*New Accounting Pronouncements*

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update ( ASU ) 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ( ASU 2011-04 ). ASU 2011-04 was issued concurrently with International Financial Reporting Standards No.13 ( IFRS 13 ), Fair Value Measurements, to provide largely identical guidance about fair value measurement and disclosure requirements as is currently required under ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820). The new standards do not extend the use of fair value but, rather, provide guidance about how fair value should be applied where it already is required or permitted under IFRS or GAAP. For GAAP, most of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. ASU 2011-04 eliminates the concepts of in-use and in-exchange when measuring fair value of all financial instruments. For Level 3 fair value measurements, the ASU requires that our disclosure include quantitative information about significant unobservable inputs, a qualitative discussion about the sensitivity of the fair value measurement to changes in the unobservable inputs and the interrelationship between inputs, and a description of our valuation process. Public companies are required to apply ASU 2011-04 prospectively for interim and annual periods beginning after December 15, 2011. The Company has evaluated the impact of the adoption of ASU 2011-04 on its financial statements and disclosures and determined the adoption of ASU 2011-04 has had no material effect on the Company's financial condition and results of operations. See Note 7 for the disclosure required by ASU 2011-04.

**3. AGREEMENTS**

*Investment Advisory and Management Agreement*

The Company is party to an investment advisory and management agreement (the investment advisory and management agreement ) with Ares Capital Management. Subject to the overall supervision of our board of directors, Ares Capital Management provides investment advisory and management services to the Company. For providing these services, Ares Capital Management receives a fee from us consisting of two components a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 1.5% based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters. The base management fee is payable quarterly in arrears.

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

The incentive fee has two parts. The first part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that we have not yet received in cash. Our investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued interest that we never actually receive.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses, unrealized capital appreciation, unrealized capital depreciation or income tax expense related to realized gains. Because of the structure of the incentive fee, it is possible that we may pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate (as defined below) for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized and/or unrealized capital losses.

Table of Contents

Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed hurdle rate of 1.75% per quarter. If market credit spreads rise, we may be able to invest our funds in debt instruments that provide for a higher return, which may increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income. To the extent we have retained pre-incentive fee net investment income that has been used to calculate this part of the incentive fee, it is also included in the amount of our total assets (other than cash and cash equivalents but including assets purchased with borrowed funds) used to calculate the 1.5% base management fee.

We pay our investment adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

- no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.1875% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.1875%) as the catch-up provision. The catch-up is meant to provide our investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeded 2.1875% in any calendar quarter; and
- 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee (the Capital Gains Fee), is determined and payable in arrears as of the end of each calendar year (or, upon termination of the investment advisory and management agreement, as of the termination date) and is calculated at the end of each applicable year by subtracting (a) the sum of our cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (b) our cumulative aggregate realized capital gains, in each case calculated from October 8, 2004 (the date we completed our initial public offering). Realized capital gains and losses include gains and losses on investments and foreign currencies, as well as gains and losses on extinguishment of debt and other assets. If such amount is positive at the end of such year, then the Capital Gains Fee for such year is equal to 20% of such amount, less the aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee for such year.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in our portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in our portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in our portfolio as of the applicable Capital Gains Fee calculation date and (b) the accreted or amortized cost basis of such investment.

Notwithstanding the foregoing, as a result of an amendment to the capital gains portion of the incentive fee under the investment advisory and management agreement (the "Capital Gains Amendment") that was adopted on June 6, 2011, if we are required by GAAP to record an investment at its fair value as of the time of acquisition instead of at the actual amount paid for such investment by us (including, for example, as a result of the application of the acquisition method of accounting), then solely for the purposes of calculating the Capital Gains Fee, the accreted or amortized cost basis of an investment shall be an amount (the "Contractual Cost Basis") equal to (1) (x) the actual amount paid by the Company for such investment plus (y) any amounts recorded in the Company's financial statements as required by GAAP that are attributable to the accretion of such investment plus (z) any other adjustments made to the cost basis included in the Company's financial statements, including payment-in-kind interest or additional amounts funded (net of repayments) minus (2) any amounts recorded in the Company's financial statements as required by GAAP that are attributable to the amortization of such investment, whether such calculated Contractual Cost Basis is higher or lower than the fair value of such investment (as determined in accordance with GAAP) at the time of acquisition.

Table of Contents

We defer cash payment of any incentive fee otherwise earned by our investment adviser if during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to our stockholders and (b) the change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period. Any deferred incentive fees are carried over for payment in subsequent calculation periods to the extent such payment is payable under the investment advisory and management agreement.

The Capital Gains Fee due to our investment adviser as calculated under the investment advisory and management agreement (as described above) for the three months ended March 31, 2012 was \$0. However, in accordance with GAAP, for the three months ended March 31, 2012, the Company recorded a capital gains incentive fee of \$5,701, bringing the total GAAP accrual related to the capital gains incentive fee to \$54,658 as of March 31, 2012. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory and management agreement. This GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the Capital Gains Fee plus the aggregate cumulative unrealized capital appreciation. If such amount is positive at the end of a period, then GAAP requires us to record a capital gains incentive fee equal to 20% of such cumulative amount, less the aggregate amount of actual Capital Gains Fees paid or capital gains incentive fees accrued under GAAP in all prior periods. The resulting accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future.

For the three months ended March 31, 2012, base management fees were \$19,986, incentive management fees related to pre-incentive fee net investment income were \$20,685 and incentive management fees related to capital gains were \$5,701.

As of March 31, 2012, \$95,329 was included in management and incentive fees payable in the accompanying consolidated balance sheet, of which \$40,671 is currently payable to the Company's investment adviser under the investment advisory and management agreement.

For the three months ended March 31, 2011, base management fees were \$16,730, incentive management fees related to pre-incentive fee net investment income were \$15,826 and incentive management fees related to capital gains were \$15,115.

***Administration Agreement***

We are party to an administration agreement, referred to herein as the administration agreement, with our administrator, Ares Operations. Pursuant to the administration agreement, Ares Operations furnishes us with office equipment and clerical, bookkeeping and record keeping services at our office facilities. Under the administration agreement, Ares Operations also performs, or oversees the performance of, our required administrative services, which include, among other things, providing assistance in accounting, legal, compliance, operations, technology, and investor relations, being responsible for the financial records that we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Operations assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under our administration agreement are equal to an amount based upon our allocable portion of Ares Operations' overhead and other expenses (including travel expenses) incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the

compensation of certain of our officers (including our chief compliance officer, chief financial officer, general counsel, treasurer and assistant treasurer) and their respective staffs. The administration agreement may be terminated by either party without penalty upon 60 days written notice to the other party.

For the three months ended March 31, 2012 and 2011, we incurred \$2,320 and \$2,425, respectively, in administrative fees. As of March 31, 2012, \$2,320 of these fees were unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

**SSLP**

The Company has an investment in the subordinated certificates (the *SSLP Certificates*) issued by the Senior Secured Loan Fund LLC, which operates using the name Senior Secured Loan Program (the *SSLP*), an unconsolidated vehicle. The Company, through the *SSLP*, co-invests in stretch senior and unitranche loans (loans that combine both senior and subordinated debt, generally in a first lien position) of middle market companies with GE Global Sponsor Finance LLC and General Electric Capital Corporation (together, *GE*). The *SSLP* is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the *SSLP* must be approved by an investment committee of the *SSLP*, consisting of representatives of an affiliate of the Company and an affiliate of *GE* (approval from a representative of each is required to approve transactions).

As of March 31, 2012 and December 31, 2011, the *SSLP* had available capital of approximately \$7.7 billion, of which approximately \$5.4 billion and \$5.0 billion in aggregate principal amount was funded at March 31, 2012 and December 31, 2011, respectively. As of March 31, 2012 and December 31, 2011, the Company had agreed to make available to the *SSLP* \$1,487,500, of which \$376,534 and \$442,523 was unfunded, respectively. It is within our discretion to make these additional amounts available to the *SSLP*.

As of March 31, 2012 and December 31, 2011, the *SSLP* had total assets of \$5.3 billion and \$5.0 billion, respectively. *GE*'s investment in the *SSLP* consisted of senior notes of \$4.2 billion and \$3.8 billion and subordinated certificates of \$159 million and \$149 million at March 31, 2012 and December 31, 2011, respectively. The subordinated certificates are junior to the senior notes invested by *GE* and the Company owned 87.5% of the outstanding certificates as of March 31, 2012 and December 31, 2011. The *SSLP*'s portfolio consisted of senior and unitranche loans to 33 and 32 different issuers as of March 31, 2012 and December 31, 2011, respectively. As of March 31, 2012 and December 31, 2011, the portfolio was comprised of all first lien senior secured loans to U.S. middle-market companies and none of these loans were on non-accrual status. As of March 31, 2012 and December 31, 2011, the largest loan to a single issuer in the *SSLP*'s portfolio in aggregate principal amount was \$300.0 million, and loans to the top five issuers totaled \$1.4 billion. The portfolio companies in the *SSLP* are in industries similar to the companies in the Company's portfolio.

The amortized cost and fair value of the *SSLP Certificates* held by the Company was \$1,100,243 and \$1,125,702, respectively, as of March 31, 2012, and \$1,034,254 and \$1,059,178, respectively, as of December 31, 2011. The *SSLP Certificates* pay a weighted average coupon of approximately LIBOR plus 8.0% and also entitle the Company to receive a portion of the excess cash flow from the loan portfolio, which may result in a return greater than the contractual coupon. The Company's yield on its investment in the *SSLP* at fair value was 15.6% and 15.7% as of March 31, 2012 and December 31, 2011, respectively. For the three months ended March 31, 2012 and 2011, the Company earned interest income of \$43,267 and \$23,321, respectively, in respect of its *SSLP* investment. The Company is also entitled to certain other fees in connection with the *SSLP*.

Effective March 30, 2012, Ares Capital Management assumed from the Company the role of co-manager of the *SSLP*; however, the Company retained its representation on the investment committee of the *SSLP*. This change did not impact the economics to the Company of its participation in the *SSLP*.

**5. BORROWINGS**

In accordance with the Investment Company Act, with certain limited exceptions, the Company is only allowed to borrow amounts such that its asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of March 31, 2012 our asset coverage for borrowed amounts was 270%.

The Company's outstanding debt as of March 31, 2012 and December 31, 2011 was as follows:

(2) Includes an accordion feature that allows the Company, under certain circumstances, to increase the size of the facility to a maximum of \$1,050,000.

(3) Represents the aggregate principal amount outstanding less the unaccreted purchased discount. The total unaccreted discount was \$48,961 and \$49,012 as of March 31, 2012 and December 31, 2011, respectively.

(4) Represents the aggregate principal amount outstanding of the Convertible Notes (as defined below) less the unaccreted discount initially recorded upon issuance of the Convertible Notes. The total unaccreted discount for the February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes was \$32,056, \$13,379 and \$4,837, respectively, at March 31, 2012.

The weighted average stated interest rate and weighted average maturity, both on aggregate principal amount, of all our principal debt outstanding as of March 31, 2012 were 5.1% and 10.5 years, respectively, and as of December 31, 2011 were 4.8% and 9.3 years, respectively.

***Revolving Credit Facility***

In December 2005, the Company entered into a senior secured revolving credit facility (as amended and restated, the Revolving Credit Facility ), which as of March 31, 2012, allowed the Company to borrow up to \$810,000 at any one time outstanding with a maturity date of January 22, 2013. The Revolving Credit Facility also includes an accordion feature that allows, under certain circumstances, for an increase in the size of the facility to a maximum of \$1,050,000. The Revolving Credit Facility generally requires payments of interest at the end of each LIBOR interest period, but no less frequently than quarterly, on LIBOR-based loans, and monthly payments of interest on other loans. All principal is due upon maturity.

Under the Revolving Credit Facility, the Company is required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) maintaining a certain minimum stockholders' equity, (e) maintaining a ratio of total assets (less total liabilities) to total indebtedness, of the Company and its subsidiaries, of not less than 2.0:1.0, (f) maintaining minimum liquidity, and (g) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and its subsidiaries. In addition to the asset coverage ratio described above, borrowings under the Revolving Credit Facility (and the incurrence of certain other permitted debt) will be subject to compliance with a borrowing base that will apply different advance rates to different types of assets in our portfolio. As of March 31, 2012, the Company was in material compliance with the terms of the Revolving Credit Facility.

As of March 31, 2012, there were no principal amounts outstanding under the Revolving Credit Facility. As of December 31, 2011, there was \$395,000 outstanding under the Revolving Credit Facility. The Revolving Credit Facility also

Table of Contents

provides for a sub-limit for the issuance of letters of credit for up to an aggregate amount of \$100,000. As of March 31, 2012 and December 31, 2011, the Company had \$47,432 and \$47,249 in standby letters of credit issued through the Revolving Credit Facility, respectively. The amount available for borrowing under the Revolving Credit Facility is reduced by any standby letters of credit issued. As of March 31, 2012, there was \$762,568 available for borrowing (net of standby letters of credit issued) under the Revolving Credit Facility.

Subject to certain exceptions, the interest rate charged on the Revolving Credit Facility is based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on the alternate base rate plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending upon our credit ratings. As of March 31, 2012 and, for the three months ended March 31, 2012 and 2011, the effective LIBOR spread under the Revolving Credit Facility was 3.00%. As of March 31, 2012, the one, two, three and six month LIBOR was 0.24%, 0.35%, 0.47% and 0.73%, respectively. As of December 31, 2011, the one, two, three and six month LIBOR was 0.30%, 0.43%, 0.58% and 0.81%, respectively. In addition to the stated interest expense on the Revolving Credit Facility, the Company is required to pay a commitment fee of 0.50% per annum on any unused portion of the Revolving Credit Facility and a letter of credit fee of 3.25% per annum on letters of credit issued, both of which are payable quarterly. The letter of credit fee is also based on a pricing grid depending on our credit ratings.

With certain exceptions, the Revolving Credit Facility is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the Revolving Funding Facility, those held by ACJB under the SMBC Funding Facility and those held as a part of the Debt Securitization, each as discussed below, and certain other investments).

The components of interest and credit facility fees expense, cash paid for interest expense, average interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the Revolving Credit Facility were as follows:

	For the three months ended March 31,	
	2012	2011
Stated interest expense	\$ 908	\$ 222
Facility fees	1,232	1,050

Cash paid for interest expense	\$ 1,503	\$ 563
Average stated interest rate	3.5%	3.3%
Average outstanding balance	\$ 103,516	\$ 26,656

See Note 15 for subsequent events relating to the Revolving Credit Facility.

***Revolving Funding Facility***

In October 2004, we established, through our wholly owned subsidiary, Ares Capital CP Funding LLC ( Ares Capital CP ), a revolving funding facility (as amended, the Revolving Funding Facility ) that allows Ares Capital CP to borrow up to \$500,000 at any one time outstanding. The Revolving Funding Facility is secured by all of the assets held by, and the Company's membership interest in, Ares Capital CP. The Revolving Funding Facility was previously subject to a three year reinvestment period scheduled to expire on January 18, 2014

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

(with two one-year extension options, subject to our and our lenders' consent) with a stated maturity date of January 18, 2016 (with two one-year extension options, subject to our and our lenders' consent). On January 18, 2012, the Company and Ares Capital CP amended the Revolving Funding Facility to, among other things, extend the reinvestment period by one year to January 18, 2015 (with a one-year extension option, subject to our and the lenders' consent), and extend the maturity date by one year to January 18, 2017 (with a one-year extension option, subject to our and the lenders' consent).

As part of the Revolving Funding Facility, we and Ares Capital CP are subject to limitations as to how borrowed funds may be used including restrictions on geographic concentrations, sector concentrations, loan size, payment frequency and status, average life, collateral interests and investment ratings as well as regulatory restrictions on leverage which may affect the amount of debt that we and Ares Capital CP may issue from time to time. There are also certain requirements relating to portfolio performance, including required minimum portfolio yield and limitations on delinquencies and charge offs, violation of which could result in the early amortization of the Revolving Funding Facility and limit further advances under the Revolving Funding Facility and in some cases could be an event of default. The Revolving Funding Facility is also subject to a borrowing base that applies different advance rates to assets held by Ares Capital CP. Such limitations, requirements, and associated defined terms are as provided for in the documents governing the Revolving Funding Facility.

Table of Contents

As of March 31, 2012, the Company and Ares Capital CP were in material compliance with the terms of the Revolving Funding Facility.

As of March 31, 2012 and December 31, 2011, there was \$485,000 and \$463,000 outstanding, respectively, under the Revolving Funding Facility.

Prior to the January 18, 2012 amendment referenced above, the interest rate charged on the Revolving Funding Facility, subject to certain exceptions, was based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a base rate (which is the higher of a prime rate, or the federal funds rate plus 0.50%) plus an applicable spread of between 1.25% to 2.75%, in each case, based on a pricing grid depending upon our credit ratings. After January 18, 2012, the interest rate charged on the Revolving Funding Facility is based on LIBOR plus and applicable spread of 2.50% or on a base rate plus applicable spread of 1.50%. As of March 31, 2012 and December 31, 2011, the rate in effect was based on one month LIBOR of 0.24% and 0.30%, respectively. We are also required to pay a commitment fee of between 0.50% and 2.00% depending on the usage level on any unused portion of the Revolving Funding Facility.

The components of interest and credit facility fees expense, cash paid for interest expense, average stated interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the Revolving Funding Facility were as follows:

***SMBC Funding Facility***

In January 2012, we established, through our wholly owned subsidiary Ares Capital JB Funding LLC ( ACJB ), a revolving funding facility (the SMBC Funding Facility ) by entering into a Loan and Servicing Agreement (the SMBC Loan and Servicing Agreement ) with ACJB, as the borrower, Sumitomo Mitsui Banking Corporation ( SMBC ), as the administrative agent, collateral agent, and lender, pursuant to which SMBC agreed to extend credit to ACJB in an aggregate principal amount up to \$200,000 at any one time outstanding. In connection with the SMBC Funding Facility, we entered into a Purchase and Sale Agreement with ACJB, pursuant to which we may sell ACJB certain first lien loans we have originated or acquired or will originate or acquire (the SMBC Loans ) from time to time. The SMBC Funding Facility is secured by all of the assets held by ACJB. The SMBC Funding Facility has a reinvestment period scheduled to end on January 20, 2015 and a final maturity date of January 20, 2020. The reinvestment period and final maturity are both subject to two one-year extensions by mutual agreement.

The SMBC Loan and Servicing Agreement includes usual and customary events of default for revolving funding facilities of this nature, including allowing SMBC, upon a default, to accelerate and foreclose on the SMBC Loans and to pursue the rights under the SMBC Loans

directly with the obligors thereof. The SMBC Funding Facility is also subject to a borrowing base that applies different advance rates to assets held by ACJB. Such limitations, requirements and associated defined terms are as provided for in the documents governing the SMBC Funding Facility. As of March 31, 2012, the Company and ACJB were in material compliance with the terms of the SMBC Funding Facility.

As of March 31, 2012, there was \$31,800 outstanding under the SMBC Funding Facility. Subject to certain exceptions, the interest rate charged on the SMBC Funding Facility is based on one month LIBOR plus an applicable spread of 2.125% or a base rate (which is the greater of a prime rate and the federal funds rate plus 0.50%) plus an applicable spread of 1.125%. As of March 31, 2012, one month LIBOR was 0.24%. Prior to July 20, 2012, there is no commitment fee required to be paid. Beginning on July 20, 2012 we will be required to pay a commitment fee of 0.50% depending on the usage level on any unused portion of the SMBC Funding Facility.

The components of interest and credit facility fees expense, cash paid for interest expense, average interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the SMBC Funding Facility were as follows:

**Debt Securitization**

In July 2006, through ARCC Commercial Loan Trust 2006 ( ARCC CLT ), a vehicle serviced by our wholly owned subsidiary, ARCC CLO 2006 LLC ( ARCC CLO ), the Company completed a \$400,000 debt securitization (the Debt Securitization ) and issued approximately \$314,000 aggregate principal amount of asset-backed notes (the CLO Notes ) to third parties that are secured by a pool of middle-market loans that were purchased or originated by the Company. The Company initially retained approximately \$86,000 of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization and has subsequently repurchased \$34,790 of the CLO Notes, bringing our total holdings of CLO Notes to \$120,790 (the Retained Notes ) as of March 31, 2012. The CLO Notes are included in the consolidated balance sheet.

The CLO Notes mature on December 20, 2019, and, as of March 31, 2012, there was \$60,049 outstanding under the Debt Securitization (excluding the Retained Notes).

During the first five years from the closing date, principal collections received on the underlying collateral could be used to purchase new collateral. This reinvestment period expired on June 17, 2011. Because the reinvestment period expired, all principal collections received on the underlying collateral will be used to paydown the CLO Notes outstanding in their order of legal priority.

All of the CLO Notes are secured by the assets of ARCC Commercial Loan Trust 2006, including commercial loans totaling \$308,100 as of the closing date, which were sold to the trust by the Company, the originator and servicer of the assets. Additional commercial loans were purchased by the trust from the Company primarily using the proceeds from the Class A-1A VFN Notes as well as proceeds from loan repayments. As of March 31, 2012, the Company, ARCC CLT and ARCC CLO were in material compliance with the terms of the Debt Securitization.

The classes, amounts and interest rates (expressed as a spread to LIBOR) of the CLO Notes as of March 31, 2012 and December 31, 2011 are as follows:

Class	As of	
	March 31, 2012	December 31, 2011
	Amount	Amount

The interest charged under the Debt Securitization is based on 3-month LIBOR, which as of March 31, 2012 was 0.47% and as of December 31, 2011 was 0.56%. The blended interest rate charged on the CLO Notes, excluding fees, at March 31, 2012, was approximately 3-month LIBOR plus 50 basis points and at December 31, 2011, was approximately 3-month LIBOR plus 45 basis points. The Company was also required to pay a commitment fee of 0.175% for any unused portion of the Class A-1A VFN Notes through June 17, 2011, which is included in facility fees below.

### *Convertible Notes*

In January 2011, we issued \$575,000 aggregate principal amount of unsecured convertible senior notes that mature on February 1, 2016 (the February 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2011, we issued \$230,000 aggregate principal amount of unsecured convertible senior notes that mature on June 1, 2016 (the June 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2012, we issued \$162,500 aggregate principal amount of unsecured convertible senior notes that mature on March 15, 2017 (the 2017 Convertible Notes) and together with the February 2016 Convertible Notes and the June 2016 Convertible Notes, the Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the Convertible Notes prior to maturity. The February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes bear interest at a rate of 5.75%, 5.125% and 4.875%, respectively, per year, payable semi-annually.

In certain circumstances, the Convertible Notes will be convertible into cash, shares of our common stock or a combination of cash and shares of our common stock, at our election, at their respective initial conversion rates (listed below) subject to customary anti-dilution adjustments and the requirements of their respective indenture (the Convertible Notes Indentures). Prior to the close of business on the business day immediately preceding their respective conversion date (listed below), holders may convert their Convertible Notes only under certain circumstances set forth in the Convertible Notes Indentures. On or after their respective conversion date until the close of business on the scheduled trading day immediately preceding their respective maturity date, holders may convert their Convertible Notes at any time. In addition, if we engage in certain corporate events as described in their respective Convertible Notes Indenture, holders of the Convertible Notes may require us to repurchase for cash all or part of the Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

Certain key terms related to the convertible features for each of the Convertible Notes are listed below.

As of March 31, 2012, the principal amounts of each series of the Convertible Notes exceeded the value of the underlying shares multiplied by the per share closing price of our common stock.

The Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to

any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

The Convertible Notes Indentures contain certain covenants, including covenants requiring us to comply with Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act and to provide financial information to the holders of the Convertible Notes under certain circumstances. These covenants are subject to important limitations and exceptions that are described in the Convertible Notes Indentures. As March 31, 2012, the Company was in material compliance with the terms of the Convertible Notes Indentures.

The Convertible Notes are accounted for in accordance with ASC 470-20 (previously FASB Staff Position No. APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) ). Upon conversion of any of the Convertible Notes, we intend to pay the outstanding principal amount in cash and to the extent that the conversion value exceeds the principal amount, we have the option to pay in cash or shares of our common stock (or a combination of cash and shares) in respect of the excess amount, subject to the requirements of the Convertible Notes Indentures. The Company has determined that the embedded conversion options in the Convertible Notes are not required to be separately accounted for as a derivative under GAAP. In accounting for the Convertible Notes, we estimated at the time of issuance that the values of the debt and equity components were approximately 93% and 7%, respectively, for each of the February 2016 Convertible Notes and the June 2016 Convertible Notes, and the debt and equity components approximately 97% and 3%, respectively, for the 2017 Convertible Notes. The original issue discount equal to the equity components of the Convertible Notes were recorded in capital in excess of par value in the accompanying consolidated balance sheet. As a result, we record interest expense comprised of both stated interest expense as well as accretion of the original issue discount. Additionally, the issuance costs associated with the Convertible Notes were allocated to the debt and equity components in proportion to the allocation of the proceeds and accounted for as debt issuance costs and equity issuance costs, respectively.

At the time of issuance, the debt issuance costs and equity issuance costs for the February 2016 Convertible Notes were \$15,778 and \$1,188, respectively, for the June 2016 Convertible Notes were \$5,913 and \$445, respectively, and for the 2017 Convertible Notes were \$4,813 and \$149, respectively. At the time of issuance and as of March 31, 2012, the equity component, net of issuance costs as recorded in the capital in excess of par value in the consolidated balance sheet for the February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes was \$39,063, \$15,653 and \$4,726, respectively.

As of March 31, 2012 the components of the carrying value of the Convertible Notes, the stated interest rate and the effective interest rate were as follows:

	<b>February 2016</b>		<b>June 2016</b>		<b>2017</b>
	<b>Convertible Notes</b>		<b>Convertible Notes</b>		<b>Convertible Notes</b>
Principal amount of debt	\$ 575,000	\$	230,000	\$	162,500

*2022 Notes*

On February 2, 2012, we issued \$143,750 aggregate principal amount of senior unsecured notes that mature on February 15, 2022 (the 2022 Notes ). The 2022 Notes may be redeemed in whole or in part at any time or from time to time at our option on or after February 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest. The 2022 Notes bear interest at a rate of 7.00% per year payable quarterly commencing on May 15, 2012 and all principal is due upon maturity. Total proceeds from the issuance of the 2022 Notes, net of underwriting discounts and offering costs, were approximately \$138,338.

*2040 Notes*

On October 21, 2010, we issued \$200,000 aggregate principal amount of senior unsecured notes that mature on October 15, 2040 (the 2040 Notes ). The 2040 Notes may be redeemed in whole or in part at any time or from time to time at our option on or after October 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest. The 2040 Notes bear interest at a rate of 7.75% per annum, payable quarterly, and all principal is due upon maturity. Total proceeds from the issuance of the 2040 Notes, net of underwriting discounts and offering costs, were approximately \$193,000.

For the three months ended March 31, 2012, the components of interest expense and cash paid for interest expense for the 2022 Notes and the 2040 Notes are as follows:

*Allied Unsecured Notes*

As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including Allied Capital's unsecured notes, which consisted of 6.625% Notes due on July 15, 2011 (the 2011 Notes ), 6.000% Notes due on April 1, 2012 (the 2012 Notes ) and 6.875% Notes due on April 15, 2047 (the 2047 Notes ) and, together with the 2011 Notes and the 2012 Notes, the Allied Unsecured Notes ). In accordance with ASC 805-10, the initial carrying value of the Allied Unsecured Notes was equal to the fair value as of April 1, 2010 resulting in an initial unaccreted discount from the principal value of the Allied Unsecured Notes of approximately \$65,800. Accretion expense related to this discount is included in interest and credit facility fees in the accompanying statement of operations.

On March 16, 2011 we redeemed the remaining balance of the 2011 Notes for a total redemption price (including a redemption premium) of \$306,800, in accordance with the terms of the indenture governing the 2011 Notes, which resulted in a loss on the extinguishment of debt of \$8,860. On April 27, 2011, we redeemed the remaining balance of the 2012 Notes for a total redemption price (including a redemption

premium) of \$169,338, in accordance with the terms of the indenture governing the 2012 Notes, which resulted in a loss on the extinguishment of debt of \$10,458.

As of March 31, 2012 and December 31, 2011, the 2047 Notes were outstanding as follows:

	March 31, 2012		As of	December 31, 2011	
	Outstanding Principal	Carrying Value(1)		Outstanding Principal	Carrying Value(1)
2047 Notes	\$ 230,000	\$ 181,039	\$	230,000	\$ 180,988

---

(1) Represents the principal amount of the 2047 Notes less the unaccreted purchased discount initially recorded as a part of the Allied Acquisition.

The 2047 Notes bear interest at a rate of 6.875% and mature on April 15, 2047. The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. The 2047 Notes may be redeemed in whole or in part at any time or from time to time at our option on or after April 15, 2012, at a par redemption price of \$25 per security plus accrued and unpaid interest and upon the occurrence of certain tax events as stipulated in the indenture governing the 2047 Notes.

## 6. COMMITMENTS AND CONTINGENCIES

The Company has various commitments to fund investments in its portfolio as described below.

As of March 31, 2012 and December 31, 2011, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments the funding of which is at (or substantially at) the Company's discretion:

	As of			
		March 31, 2012		December 31, 2011
Total revolving and delayed draw commitments	\$	534,489	\$	565,630
Less: funded commitments		(114,472)		(125,037)
Total unfunded commitments		420,017		440,593
Less: commitments substantially at discretion of the Company		(24,750)		(64,750)
Less: unavailable commitments due to borrowing base or other covenant restrictions		(35,490)		(5,518)
Total net adjusted unfunded revolving and delayed draw commitments	\$	359,777	\$	370,325

Included within the total revolving and delayed draw commitments as of March 31, 2012 are commitments to issue up to \$85,950 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, if the standby letters of credit were to be issued, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of March 31, 2012, the Company had \$43,628 in standby letters of credit issued and outstanding under these commitments on behalf of the portfolio companies, of which no amounts were recorded as a liability on our balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company. Of these letters of credit \$40,552 expire in 2012 and \$3,076 expire in 2013.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As of March 31, 2012 and December 31, 2011, the Company was party to subscription agreements to fund equity investments in private equity investment partnerships:

	As of	
	March 31, 2012	December 31, 2011
Total private equity commitments	\$ 149,117	\$ 132,030
Less: funded private equity commitments	(78,891)	(67,428)
Total unfunded private equity commitments	70,226	64,602
Less: private equity commitments substantially at discretion of the Company	(58,612)	(53,525)
Total net adjusted unfunded private equity commitments	\$ 11,614	\$ 11,077

Table of Contents

In addition, as of each of March 31, 2012 and December 31, 2011, the Company had outstanding guarantees or similar obligations on behalf of certain portfolio companies totaling \$800.

Further in the ordinary course of business, we may sell certain of our investments to third party purchasers. In particular, in connection with the sale of certain controlled portfolio company equity investments (as well as certain other sales) we have, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions may give rise to future liabilities.

As of March 31, 2012, one of the Company's portfolio companies, Ciena Capital LLC (Ciena), had one non-recourse securitization Small Business Administration (SBA) loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which the Company succeeded to as a result of the Allied Acquisition) whereby the Company must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of March 31, 2012, there are no known issues or claims with respect to this performance guaranty.

**7. FAIR VALUE OF FINANCIAL INSTRUMENTS**

Effective January 1, 2008, the Company adopted Accounting Standards Codification (ASC) 825-10 (previously Statement of Financial Accounting Standards (SFAS) No. 159, the Fair Value Option for Financial Assets and Liabilities), which provides companies the option to report selected financial assets and liabilities at fair value. ASC 825-10 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. The Company has not elected the ASC 825-10 option to report selected financial assets and liabilities at fair value. With the exception of the line items entitled other assets and debt, which are reported at amortized cost, all assets and liabilities approximate fair value on the balance sheet. The carrying value of the line items entitled interest receivable, receivable for open trades, payable for open trades, accounts payable and accrued expenses, management and incentive fees payable and interest and facility fees payable approximate fair value due to their short maturity.

Effective January 1, 2008, the Company adopted ASC 820-10 (previously SFAS No. 157, Fair Value Measurements), which expands the application of fair value accounting. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Company to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Company has considered its principal market as the market in which the Company exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

- Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the net asset valuation policy approved by our board of directors that is consistent with ASC 820-10 (see Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. Our valuation policy considers the fact that because there is not a readily available market value for most of the investments in our portfolio, the fair value of the investments must typically be determined using unobservable inputs.

Table of Contents

The Company's portfolio investments (other than as discussed below in the following paragraph) are typically valued using two different valuation techniques. The first valuation technique is an analysis of the enterprise value (EV) of the portfolio company. Enterprise value means the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. The primary method for determining EV uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA (net income before net interest expense, income tax expense, depreciation and amortization). EBITDA multiples are typically determined based upon review of market comparable transactions and publicly traded comparable companies, if any. The second method for determining EV uses a discounted cash flow analysis whereby future expected cash flows of the portfolio company are discounted to determine a present value using estimated discount rates (typically a weighted average cost of capital based on costs of debt and equity consistent with current market conditions). The EV analysis is performed to determine the value of equity investments, the value of debt investments in portfolio companies where the Company has control or could gain control through an option or warrant security, and to determine if there is credit impairment for debt investments. If debt investments are credit impaired, an EV analysis may be used to value such debt investments; however, in addition to the methods outlined above, other methods such as a liquidation or wind-down analysis may be utilized to estimate enterprise value. The second valuation technique is a yield analysis, which is typically performed for non-credit impaired debt investments in portfolio companies where we do not own a controlling equity position. To determine fair value using a yield analysis, a current price is imputed for the investment based upon an assessment of the expected market yield for a similarly structured investment with a similar level of risk. In the yield analysis, we consider the current contractual interest rate, the maturity and other terms of the investment relative to risk of the company and the specific investment. A key determinant of risk, among other things, is the leverage through the investment relative to the enterprise value of the portfolio company. As debt investments held by the Company are substantially illiquid with no active transaction market, the Company depends on primary market data, including newly funded transactions, as well as secondary market data with respect to high yield debt instruments and syndicated loans, as inputs in determining the appropriate market yield, as applicable.

For other portfolio investments such as investments in collateralized loan obligations and the subordinated certificates of the SSLP, discounted cash flow analysis is the primary technique utilized to determine fair value. Expected future cash flows associated with the investment are discounted to determine a present value using a discount rate that reflects estimated market return requirements.

The following table summarizes the significant unobservable inputs the Company used to value the majority of its investments categorized within Level 2 or 3. The below table is not intended to be all-inclusive, but instead captures the significant unobservable inputs relevant to our determination of fair values.

Asset Category	Fair Value	Primary Valuation Technique	Unobservable Input		Weighted Average

Changes in market yields, discount rates or EBITDA multiples, each in isolation, may change the fair value of certain of our investments. Generally, an increase in market yields or discount rates or decrease in EBITDA multiples may result in a decrease in the fair value of certain of our investments.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally

subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

**8. STOCKHOLDERS EQUITY**

The following table summarizes the total shares issued and proceeds received in public offerings of the Company's common stock net of underwriting discounts and offering costs for the three months ended March 31, 2012:

	<b>Shares issued</b>	<b>Offering price per share</b>	<b>Proceeds net of underwriting and offering costs</b>
January 2012 public offering	16,422	\$ 15.41	\$ 252,415
Total for the three months ended March 31, 2012	16,422	\$ 15.41	\$ 252,415

Table of Contents

The Company used the net proceeds from the above public equity offering to repay outstanding indebtedness and for general corporate purposes, which included funding investments.

There were no sales of our equity securities for the three months ended March 31, 2011.

## 9. EARNINGS PER SHARE

The following information sets forth the computations of basic and diluted net increase in stockholders' equity resulting from operations per share for the three months ended March 31, 2012 and 2011:

	For the three months ended March 31,	
	2012	2011
Net increase in stockholders' equity resulting from operations available to common stockholders:	\$ 105,547	\$ 123,766
Weighted average shares of common stock outstanding - basic and diluted:	217,044	204,419
Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ 0.49	\$ 0.61

For the purposes of calculating diluted earnings per share, the average closing price of the Company's common stock for the three months ended March 31, 2012 and for the period from the time of issuance for the 2017 Convertible Notes through March 31, 2012 was less than the current conversion price for each respective series of the Convertible Notes and therefore, the underlying shares for the intrinsic value of the embedded options had no impact. The average closing price of the Company's common stock for the period from the time of issuance of both the February 2016 Convertible Notes and the June 2016 Convertible Notes through March 31, 2011 was less than the current conversion price for each respective series of the Convertible Notes and therefore, the underlying shares for the intrinsic value of the embedded options had no impact.

## 10. DIVIDENDS AND DISTRIBUTIONS

The following table summarizes our dividends declared during the three months ended March 31, 2012 and 2011:

**11. RELATED PARTY TRANSACTIONS**

In accordance with the investment advisory and management agreement, we bear all costs and expenses of the operation of the Company and reimburse our investment adviser for certain of such costs and expenses incurred in the operation of the Company. For the three months ended March 31, 2012 and 2011, the investment adviser incurred such expenses totaling \$909 and \$643, respectively. As of March 31, 2012, \$447 was unpaid and such payable is included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

We have entered into separate subleases with Ares Management and Ivy Hill Asset Management, L.P. ( IHAM ), a wholly owned portfolio company of the Company, pursuant to which Ares Management and IHAM sublease approximately 15% and 20%, respectively, of the Company's New York office space for a fixed rent equal to 15% and 20%, respectively, of the base annual rent payable by us under the Company's lease for this space, plus certain additional costs and expenses. For the three months ended March 31, 2012, such amounts payable to the Company totaled \$368. For the three months ended March 31, 2011, there were no amounts payable to the Company. Under our previous lease that expired on February 27, 2011, we were party to a sublease agreement with Ares Management whereby Ares Management subleased approximately 25% of such office space for a fixed rent equal to 25% of the basic annual rent payable by us under this lease, plus certain additional costs and expenses. For the three months ended March 31, 2011, such amounts payable to the Company totaled \$396.

As of March 31, 2012, Ares Investments Holdings LLC, an affiliate of Ares Management (the sole member of our investment adviser), owned approximately 2.9 million shares of the Company's common stock representing approximately 1.3% of the total shares outstanding as of March 31, 2012.

See Notes 3 and 12 for descriptions of other related party transactions.

**12. IVY HILL ASSET MANAGEMENT, L.P. AND OTHER MANAGED FUNDS**

In November 2007, the Company established IHAM to serve as a manager for Ivy Hill Middle Market Credit Fund, Ltd., an unconsolidated investment vehicle focusing on investments in middle-market loans. From inception until the second quarter of 2009, IHAM's financial results were consolidated with those of the Company. In June 2009, because of a shift in activity from being primarily a manager, with no dedicated employees, of funds in which the Company had invested debt and equity, to a manager with individuals dedicated to managing an increasing number of third party funds, the Company concluded that GAAP required the financial results of IHAM to be reported as a portfolio company in the schedule of investments rather than as a consolidated subsidiary in the Company's financial results. The Company made an initial equity investment of \$3,816 into IHAM in June 2009. As of March 31, 2012, the Company's total investment in IHAM at fair value was \$201,199, including unrealized appreciation of \$88,323. As of December 31, 2011, the Company's total investment in IHAM at fair value was \$194,597 including unrealized appreciation of \$81,721. For the three months ended March 31, 2012 and 2011, the Company received distributions consisting entirely of dividend income from IHAM of \$4,762.

IHAM manages 10 unconsolidated credit vehicles and sub-manages or sub-advises four other unconsolidated credit vehicles (these vehicles managed or sub-managed /sub-advised by IHAM are collectively referred to as the IHAM Vehicles ). As of March 31, 2012 and December 31, 2011, the Company had investments in two of the IHAM Vehicles.

IHAM or certain of the IHAM Vehicles purchased investments from the Company of \$6,162, during the three months ended March 31, 2012. No realized gain or loss was recorded on these transactions for the three months ended March 31, 2012. IHAM or the IHAM Vehicles may, from time to time, buy or sell additional investments from or to the Company. For any such purchases or sales by the IHAM Vehicles from or to the Company, the IHAM Vehicles must obtain approval from third parties unaffiliated with the Company or IHAM, as applicable.

IHAM is party to an administration agreement, referred to herein as the IHAM administration agreement, with Ares Operations. Pursuant to the IHAM administration agreement, Ares Operations provides IHAM with office facilities, equipment, clerical, bookkeeping and record keeping services, services of, and oversight of, custodians, depositories, accountants, attorneys, underwriters and such other persons in any other capacity deemed to be necessary. Under the IHAM administration agreement, IHAM reimburses Ares Operations for all of the actual costs associated with such services, including Ares Operations allocable portion of overhead and the cost of its officers and respective staff in performing its obligations under the IHAM administration agreement.

As part of the Allied Acquisition, the Company acquired the management rights for an unconsolidated vehicle, the AGILE Fund I, LLC ( AGILE Fund ). Effective March 30, 2012, the management rights for the AGILE Fund were transferred for de minimis, non-monetary consideration to an unrelated third party. The Company's investment in AGILE Fund was \$104 at fair value, including unrealized depreciation of \$103, as of March 31, 2012.

shares fluctuate in value. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.

(4) For the three months ended March 31, 2012, the total return based on net asset value equals the change in net asset value during the period plus the declared dividends of \$0.37 per share for the three months ended March 31, 2012 divided by the beginning net asset value at January 1, 2012. For the three months ended March 31, 2011, the total return based on net asset value equals the change in net asset value during the period plus the declared dividends of \$0.35 per share for the three months ended March 31, 2011 divided by the beginning net asset value. These calculations are adjusted for shares issued in connection with the dividend reinvestment plan and the issuance of common stock in connection with any equity offerings. Total return based on net asset value is not annualized. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.

(5) The ratios reflect an annualized amount.

(6) For the three months ended March 31, 2012, the ratio of operating expenses to average net assets consisted of 2.39% of base management fees, 3.15% of incentive management fees, 3.92% of the cost of borrowing and other operating expenses of 1.05%. For the three months ended March 31, 2011, the ratio of operating expenses to average net assets consisted of 2.14% of base management fees, 3.97% of incentive management fees, 3.87% of the cost of borrowing and other operating expenses of 1.02%. These ratios reflect annualized amounts.

(7) The ratio of net investment income to average net assets excludes income taxes related to realized gains.

**14. LITIGATION**

The Company is party to certain lawsuits in the normal course of business. In addition, Allied Capital was involved in various legal proceedings which the Company assumed in connection with the Allied Acquisition. Furthermore, third parties may try to seek to impose liability on the Company in connection with the activities of its portfolio companies. While the outcome of any such legal proceedings cannot at this time be predicted with certainty, the Company does not expect that these legal proceedings will materially affect its business, financial condition or results of operations.

**15. SUBSEQUENT EVENTS**

The Company's management has evaluated subsequent events through the date of issuance of the consolidated financial statements included herein. There have been no subsequent events that occurred during such period that would require disclosure in this Form 10-Q or would be required to be recognized in the Consolidated Financial Statements as of and for the three months ended March 31, 2012, except as disclosed below.

In May 2012, the Company amended the Revolving Credit Facility to, among other things, (i) increase the commitment size of the facility from \$810,000 to \$900,000, (ii) extend the maturity date from January 22, 2013 to May 4, 2016, (iii) extend the expiration of the revolving period from January 22, 2013 to May 4, 2015, (iv) reduce the stated interest rate by replacing the pricing grid with an applicable spread over LIBOR of 2.25% (with no floor) and an applicable spread over base rate of 1.25% (with no floor) and (v) reduce the commitment fee to 0.375% for any unused portion of the Revolving Credit Facility. The amended Revolving Credit Facility includes an accordion feature that allows the Company, under certain circumstances, to increase the size of the facility to a maximum of \$1,350,000.

## OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a BDC under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act ).

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component like warrants.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments, of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments. Also, as a result of the acquisition of Allied Capital Corporation ( Allied Capital ) on April 1, 2010 (the Allied Acquisition ), Allied Capital 's equity investments, which included equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to continue actively seeking opportunities over time to dispose of certain of the assets that were acquired in the Allied Acquisition, particularly non-yielding equity investments and controlled portfolio company investments, as well as lower or non-yielding debt investments and investments that may not be core to our investment strategy, and generally rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. However, there can be no assurance that this strategy will be successful.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

We also may opportunistically invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. Specifically, as part of this 30% basket, we may invest in entities that are not considered eligible portfolio companies (as defined in the Investment Company Act), including companies located outside of the United States,

Table of Contents

entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

We are externally managed by Ares Capital Management LLC ( "Ares Capital Management" ), a wholly owned subsidiary of Ares Management LLC ( "Ares" ), a global alternative asset manager and an SEC-registered investment adviser, pursuant to an investment advisory and management agreement. Ares Operations LLC ( "Ares Operations" ), a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

We have elected to be treated as a regulated investment company (a "RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

Ares Capital Management, our investment adviser, employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the credit risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of acquisition), although it may also take into account under certain circumstances the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. Under this system, investments with a grade of 4 involve the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments graded 3 involve a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3. Investments graded 2 indicate that the risk to our ability to recoup the initial cost basis of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. An investment grade of 1 indicates that the risk to our ability to recoup the initial cost basis of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is anticipated that we will not recoup our initial cost basis and may realize a substantial loss of our initial cost basis upon exit. For investments graded 1 or 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company. Our investment adviser grades the investments in our portfolio at least each quarter and it is possible that the grade of certain of these portfolio investments may be reduced or increased over time.

Set forth below is the grade distribution of our portfolio companies as of March 31, 2012 and December 31, 2011:

(dollar amounts in millions)	As of							
	March 31, 2012				December 31, 2011			
	Fair Value	%	Number of Companies	%	Fair Value	%	Number of Companies	%
Grade 1	\$ 85.4	1.6%	10	7.0%	\$ 77.1	1.5%	9	6.4%
Grade 2	180.2	3.5%	11	7.7%	184.4	3.7%	11	7.8%
Grade 3	4,418.4	84.9%	109	76.2%	4,265.5	83.7%	110	78.0%
Grade 4	520.5	10.0%	13	9.1%	567.5	11.1%	11	7.8%
	\$ 5,204.5	100.0%	143	100.0%	\$ 5,094.5	100.0%	141	100.0%

As of each March 31, 2012, and December 31, 2011 the weighted average grade of the investments in our portfolio was 3.0.

As of March 31, 2012, 3.6% and 1.0% of the total investments at amortized cost and at fair value, respectively, were on non-accrual status. As of December 31, 2011, 3.3% and 0.9% of the total investments at amortized cost and at fair value, respectively, were on non-accrual status.

**RESULTS OF OPERATIONS**

*For the three months ended March 31, 2012 and 2011*

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Operating results for the three months ended March 31, 2012 and 2011 are as follows:

(in millions)	For the three months ended March 31,			
		2012		2011
Total investment income	\$	167.7	\$	135.7
Total expenses		88.0		85.8

Net realized gains (losses) on investments		(7.7)		62.6
Net unrealized gains on investments		36.2		22.2
Realized losses on extinguishment of debt				(8.9)
Net increase in stockholders' equity resulting from operations	\$	105.5	\$	123.8

Table of Contents

Net income can vary substantially from period to period due to various factors, including acquisitions, the level of new investment commitments, the recognition of realized gains and losses and unrealized appreciation and depreciation. As a result, quarterly comparisons of net income may not be meaningful.

**Investment Income**

(in millions)	For the three months ended March 31,	
	2012	2011
Interest income	\$ 132.9	\$ 110.6
Capital structuring service fees	17.7	11.0
Dividend income	9.2	8.8
Management fees	4.9	3.4
Other income	3.0	1.9
Total investment income	\$ 167.7	\$ 135.7

The increase in interest income for the three months ended March 31, 2012 was primarily due to the increase in the size of the portfolio, which increased from an average of \$4.3 billion at amortized cost for the three months ended March 31, 2011 to an average of \$5.1 billion at amortized cost for the comparable period in 2012. Even though new investment commitments decreased from \$502 million for the three months ended March 31, 2011 to \$384 million for the comparable period in 2012, capital structuring service fees increased for the three months ended March 31, 2012 as compared to 2011 primarily due to the increase in the average capital structuring service fees received on new investments which increased from 2.2% in 2011 to 4.6% in 2012. Management fees for the three months ended March 31, 2012 included management fees earned from the SSLP totaling \$3.9 million, as compared to \$2.4 million for the comparable period in 2011.

**Operating Expenses**

(in millions)	For the three months ended March 31,	
	2012	2011
Interest and credit facility fees	\$ 32.8	\$ 30.2
Incentive management fees related to pre-incentive fee net investment income	20.7	15.8
Incentive management fees related to capital gains per GAAP	5.7	15.1
Base management fees	20.0	16.7
Professional fees	3.7	2.7
Administrative fees	2.3	2.4
Other general and administrative	2.8	2.9
Total operating expenses	\$ 88.0	\$ 85.8

Interest and credit facility fees for the three months ended March 31, 2012 and 2011 were comprised of the following:

For the three months ended  
March 31,

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

(in millions)	2012		2011	
Stated interest expense	\$	25.5	\$	21.8

Amortization of debt issuance costs		3.4		2.8
Accretion of discount on notes payable		2.6		3.6
Total interest and credit facility fees expense	\$	32.8	\$	30.2

Stated interest expense for the three months ended March 31, 2012 increased from the comparable period in 2011 due to the increase in our average principal debt outstanding partially offset by a decrease in our weighted average stated interest rate. For the three months ended March 31, 2012, our average principal debt outstanding was \$2.0 billion as compared to \$1.5 billion for the comparable period in 2011, and the weighted average stated interest rate on our debt was 5.1% as compared to 5.6% for the comparable period in 2011.

Table of Contents

The increase in base management fees and incentive management fees related to pre-incentive fee net investment income for the three months ended March 31, 2012 from the comparable period in 2011 was primarily due to the increase in the size of the portfolio and in the case of incentive management fees, the related increase in pre-incentive fee net investment income. For the three months ended March 31, 2012, the capital gains incentive fee expense was \$5.7 million bringing the total capital gains incentive fee accrual in accordance with GAAP to \$54.7 million (included in management and incentive fees payable in the consolidated balance sheet) as of March 31, 2012. The accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reduction of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the three months ended March 31, 2012 we did not incur a capital gains fee under the investment advisory and management agreement and therefore there are no amounts currently due under the agreement. See Note 3 to the Company's consolidated financial statements for the three months ended March 31, 2012 for more information on the incentive and base management fees.

Professional fees include legal, accounting, valuation and other professional fees incurred related to the management of the Company. Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. Other general and administrative expenses include rent, insurance, depreciation, director's fees and other costs.

**Income Tax Expense, Including Excise Tax**

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. In order to maintain its RIC status, the Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, the Company accrues excise tax on estimated excess taxable income. For the three months ended March 31, 2012 and 2011, a net expense of \$2.0 million and \$0.7 million was recorded for U.S. federal excise tax, respectively.

Certain of our wholly owned subsidiaries are subject to U.S. federal and state income taxes. For the three months ended March 31, 2012 and 2011, we recorded a tax expense of approximately \$0.7 million and \$1.3 million, respectively, for these subsidiaries.

**Net Realized Gains/Losses**

During the three months ended March 31, 2012, the Company had \$311.1 million of sales, repayments or exits of investments resulting in \$7.7 million of net realized losses. These sales, repayments or exits included \$6.2 million of investments sold to IHAM or certain vehicles managed by IHAM (see Note 12 to the Company's consolidated financial statements for the three months ended March 31, 2012 for more detail

**FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES**

The Company's liquidity and capital resources have been generated primarily from the net proceeds of public offerings of common stock, advances from the Revolving Credit Facility, the Revolving Funding Facility and the SMBC Funding Facility (each as defined below and together, the Facilities), net proceeds from the issuance of unsecured notes as well as cash flows from operations.

As of March 31, 2012, the Company had \$216.4 million in cash and cash equivalents and \$2.0 billion in total indebtedness outstanding at carrying value (\$2.1 billion at principal amount). Subject to leverage and borrowing base restrictions, the Company had approximately \$945.8 million available for additional borrowings under the Facilities as of March 31, 2012.

We may from time to time seek to retire or repurchase our common stock through cash purchases, as well as retire, cancel or purchase our outstanding debt through cash purchases and/or exchanges, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. The amounts involved may be material.

**Equity Issuances**

The following table summarizes the total shares issued and proceeds we received in underwritten public offerings of our common stock net of underwriting and offering costs for the three months ended March 31, 2012:

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Table of Contents

(in millions, except per share data)	Shares issued	Offering price per share	Proceeds net of underwriting and offering costs

(1) The shares were sold to the underwriters for a price of \$15.41 per share, which the underwriters were then permitted to sell at variable prices. The underwriters have advised that the average price paid by the public for such shares was \$15.60.

The Company used the net proceeds from the above public equity offering to repay outstanding indebtedness and for general corporate purposes, which included funding investments.

As of March 31, 2012, total market capitalization for the Company was \$3.6 billion compared to \$3.2 billion as of December 31, 2011.

(1) Subject to borrowing base and leverage restrictions. Represents the total aggregate amount available or outstanding, as applicable, under such instrument.

(2) The Revolving Credit Facility provides for an accordion feature that allows the Company, under certain circumstances, to increase the size of the Revolving Credit Facility to a maximum of \$1,050.0 million.

(3) Represents the aggregate principal amount outstanding less the unaccreted purchased discount. The total unaccreted purchased discount on the 2047 Notes was \$49.0 million as of March 31, 2012 and December 31, 2011.

(4) Represents the aggregate principal amount outstanding of the Convertible Notes less the unaccreted discount initially recorded upon issuance of the Convertible Notes. The total unaccreted discount for the February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes was \$32.1 million, \$13.4 million and \$4.8 million, respectively, at March 31, 2012.

The weighted average stated interest rate and weighted average maturity, both on aggregate principal amount, of all our principal debt outstanding as of March 31, 2012 were 5.1% and 10.5 years, respectively, and as of December 31, 2011 were 4.8% and 9.3 years, respectively.

The ratio of total principal amount of debt outstanding to stockholders' equity as of March 31, 2012 was 0.62:1.00 compared to 0.69:1.00 as of December 31, 2011. The ratio of total carrying value of debt outstanding to stockholders' equity as of March 31, 2012 was 0.59:1.00 compared to 0.66:1.00 as of December 31, 2011.

In accordance with the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of March 31, 2012, our asset coverage for borrowed amounts was 270%.

***Revolving Credit Facility***

In December 2005, we entered into a senior secured revolving credit facility (as amended and restated, the *Revolving Credit Facility*), which as of March 31, 2012, allows the Company to borrow up to \$810 million with a maturity date of January 22, 2013. The *Revolving Credit Facility* also includes an accordion feature that allows us, under certain circumstances, to increase the size of the facility to a maximum of \$1.05 billion. Subject to certain exceptions, as of March 31, 2012, the interest rate charged on the *Revolving Credit Facility* is based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on the alternate base rate plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending upon our credit ratings. As of March 31, 2012, the effective LIBOR spread under the *Revolving Credit Facility* was 3.00%. As of March 31, 2012, there were no principal amounts outstanding under the *Revolving Credit Facility* and we were in material compliance with the terms of the *Revolving Credit Facility* (see the Recent Developments section as well as Note 15 to our consolidated financial statements for the three months ended March 31, 2012 for more information regarding the *Revolving Credit Facility*).

***Revolving Funding Facility***

In October 2004, we established, through our wholly owned subsidiary, Ares Capital CP Funding LLC (Ares Capital CP) a revolving funding facility (as amended, the *Revolving Funding Facility*) which currently provides for up to \$500 million of borrowings by Ares Capital CP. The *Revolving Funding Facility* is secured by all of the assets held by, and the membership interest in, Ares Capital CP. On January 18, 2012, the *Revolving Funding Facility* was amended to, among other things, extend the reinvestment period by one year to January 18, 2015, extend the maturity date by one year to January 18, 2017 (both with a one-year extension option subject to our and the lenders' consent) and replace the pricing grid with an applicable spread over one month LIBOR of 2.50% and an applicable spread over base rate of 1.50%. Additionally, we are required to pay a commitment fee of between 0.50% and 2.00% depending on the usage level on any unused portion of the *Revolving Funding Facility*. As of March 31, 2012, the principal amount outstanding under the *Revolving Funding Facility* was \$485.0 million and we and Ares Capital CP were in material compliance with the terms of the *Revolving Funding Facility*.

***SMBC Funding Facility***

In January 2012, we established, through our wholly owned subsidiary, Ares Capital JB Funding LLC, (ACJB), a revolving funding facility (the *SMBC Funding Facility*), which currently provides for up to \$200 million of borrowings by ACJB. The *SMBC Funding Facility* is secured by all of the assets held by ACJB. The *SMBC Funding Facility* has a reinvestment period ending January 20, 2015 and a final maturity date of January 20, 2020, both of which are subject to two one-year extensions by mutual agreement. As of March 31, 2012, the interest rate charged on the *SMBC Funding Facility* is based on one month LIBOR plus an applicable spread of 2.125% or a base rate (which is the greater of a prime

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

rate and the federal funds rate plus 0.50%) plus an applicable spread of 1.125%. As of March 31, 2012, the principal amount outstanding under the SMBC Funding Facility was \$31.8 million and we and ACJB were in material compliance with the terms of the SMBC Funding Facility.

### *Debt Securitization*

In July 2006, through ARCC Commercial Loan Trust 2006 ( ARCC CLT ), a vehicle serviced by our wholly owned subsidiary ARCC CLO 2006 LLC ( ARCC CLO ), we completed a \$400 million debt securitization (the Debt Securitization ) and issued approximately \$314 million aggregate principal amount of asset backed notes (the CLO Notes ) to third parties that were secured by a pool of middle-market loans purchased or originated by the Company. We initially retained approximately \$86 million of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization. As of March 31, 2012, our total holdings of CLO Notes, including \$34.8 million of CLO Notes repurchased in the first quarter of 2009, was \$120.8 million (the Retained Notes ). During the three months ended March 31, 2012, we

Table of Contents

repaid \$17.5 million of the CLO Notes. As of March 31, 2012, \$60.0 million was outstanding under the Debt Securitization (excluding the Retained Notes), which are included in our March 31, 2012 consolidated balance sheet.

The CLO Notes, have a stated maturity of December 20, 2019 and have a blended interest rate charged of LIBOR plus 0.50% as of March 31, 2012. As of March 31, 2012, we, ARCC CLT and ARCC CLO were in material compliance with the terms of the Debt Securitization.

*Unsecured Notes*

*Convertible Notes*

In January 2011, we issued \$575 million aggregate principal amount of unsecured convertible senior notes that mature on February 1, 2016 (the February 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2011, we issued \$230 million aggregate principal amount of unsecured convertible senior notes that mature on June 1, 2016 (the June 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2012, we issued \$162.5 million aggregate principal amount of unsecured convertible senior notes that mature on March 15, 2017 (the 2017 Convertible Notes) and together with the February 2016 Convertible Notes and the June 2016 Convertible Notes, the Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the Convertible Notes prior to maturity. The February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes bear interest at a rate of 5.75%, 5.125% and 4.875%, respectively, per year, payable semi-annually.

In certain circumstances, the Convertible Notes will be convertible into cash, shares of Ares Capital's common stock or a combination of cash and shares of our common stock, at our election, at their respective initial conversion rates (listed below) subject to customary anti-dilution adjustments and the requirements of their respective indentures (the Convertible Notes Indentures). Prior to the close of business on the business day immediately preceding their respective conversion date (listed below), holders may convert their Convertible Notes only under certain circumstances set forth in the respective Convertible Notes Indenture. On or after their respective conversion dates until the close of business on the scheduled trading day immediately preceding their respective maturity date, holders may convert their Convertible Notes at any time. In addition, if we engage in certain corporate events as described in their respective Convertible Notes Indenture, holders of the Convertible Notes may require us to repurchase for cash all or part of the Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

Certain key terms related to the convertible features for each of the Convertible Notes are listed below.

	February 2016 Convertible Notes	June 2016 Convertible Notes	2017 Convertible Notes

The Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities. As of March 31, 2012, we were in material compliance with the terms of the indentures governing the Convertible Notes Indentures.

### *2022 Notes*

On February 2, 2012, we issued \$143.8 million in aggregate principal amount of senior unsecured notes which bear interest at a rate of 7.00% and mature on February 15, 2022 (the 2022 Notes ). The 2022 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to

time at our option on or after February 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest.

*2040 Notes*

On October 21, 2010, we issued \$200 million in aggregate principal amount of senior unsecured notes which bear interest at a rate of 7.75% and mature on October 15, 2040 (the 2040 Notes). The 2040 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time at our option on or after October 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest.

*2047 Notes*

As of March 31, 2012, there was \$230 million aggregate principal amount outstanding of the 2047 Notes which bear interest at a rate of 6.875% and mature on April 15, 2047. The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time at our option on or after April 15, 2012, at a par redemption price of \$25 per security plus accrued and unpaid interest and upon the occurrence of certain tax events as stipulated in the indenture governing the 2047 Notes.

As of March 31, 2012, we were in material compliance with the terms of the 2022 Notes, the 2040 Notes and the 2047 Notes.

See Note 5 to our consolidated financial statements for the three months ended March 31, 2012 for more detail on the Company's debt obligations.

**OFF BALANCE SHEET ARRANGEMENTS**

The Company has various commitments to fund investments in its portfolio, as described below.

As of March 31, 2012 and December 31, 2011, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments the funding of which is at (or substantially at) the Company's discretion:

<b>(in millions)</b>	<b>As of</b>	
	<b>March 31, 2012</b>	<b>December 31, 2011</b>
Total revolving and delayed draw commitments	\$ 534.5	\$ 565.6
Less: funded commitments	(114.5)	(125.0)

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Total unfunded commitments	420.0	440.6
Less: commitments substantially at discretion of the Company	(24.7)	(64.8)
Less: unavailable commitments due to borrowing base or other covenant restrictions	(35.5)	(5.5)
Total net adjusted unfunded revolving and delayed draw commitments	\$ 359.8	\$ 370.3

Included within the total revolving and delayed draw commitments as of March 31, 2012 are commitments to issue up to \$86.0 million in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, if the standby letters of credit were to be issued, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of March 31, 2012, the Company had \$43.6 million in standby letters of credit issued and outstanding under these commitments on behalf of the portfolio companies, of which no amounts were recorded as a liability on our balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company. Of these letters of credit \$40.5 million expire in 2012 and \$3.1 million expire in 2013.

As of March 31, 2012 and December 31, 2011, the Company was party to subscription agreements to fund equity investments in private equity investment partnerships:

(in millions)		As of	
	March 31, 2012		December 31, 2011
Total private equity commitments	\$ 149.1	\$	132.0
Less: funded private equity commitments	(78.9)		(67.4)
Total unfunded private equity commitments	70.2		64.6
Less: private equity commitments substantially at discretion of the Company	(58.6)		(53.5)
Total net adjusted unfunded private equity commitments	\$ 11.6	\$	11.1

Table of Contents

In addition, as of March 31, 2012 and December 31, 2011, the Company had outstanding guarantees or similar obligations on behalf of certain portfolio companies totaling \$0.8 million.

Further in the ordinary course of business, we may sell certain of our investments to third party purchasers. In particular, in connection with the sale of certain controlled portfolio company equity investments (as well as certain other sales) we have, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions may give rise to future liabilities.

As of March 31, 2012, one of the Company's portfolio companies, Ciena Capital LLC (Ciena), had one non-recourse securitization Small Business Administration (SBA) loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which Ares Capital succeeded to as a result of the Allied Acquisition) whereby Ares Capital must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of March 31, 2012, there are no known issues or claims with respect to this performance guaranty.

**RECENT DEVELOPMENTS**

In May 2012, the Company amended the Revolving Credit Facility to among other things, (i) increase the commitment size of the facility from \$810 million to \$900 million, (ii) extend the maturity date from January 22, 2013 to May 4, 2016, (iii) extend the expiration of the revolving period from January 22, 2013 to May 4, 2015, (iv) reduce the stated interest rate by replacing the pricing grid with an applicable spread over LIBOR of 2.25% (with no floor) and an applicable spread over base rate of 1.25% (with no floor) and (v) reduce the commitment fee to 0.375% for any unused portion of the Revolving Credit Facility. The amended Revolving Credit Facility includes an accordion feature that allows the Company, under certain circumstances, to increase the size of the facility to a maximum of \$1,350 million.

From April 1, 2012 through May 4, 2012, we had made new investment commitments of \$340 million, of which \$335 million were funded. Of these new commitments, 65% were in first lien senior secured debt, 31% were in second lien senior secured debt and 4% were investments in subordinated certificates of the SSLP which were applied to co-investments with GE in stretch senior and unitranche loans. Of the \$340 million of new investment commitments, 88% were floating rate and 12% were fixed rate. The weighted average yield of debt and other income producing securities funded during the period at amortized cost was 9.3%. We may seek to syndicate a portion of these new investment commitments to third parties, although there can be no assurance that we will be able to do so.

From April 1, 2012 through May 4, 2012, we exited \$221 million of investment commitments. Of these investment commitments, 41% were first lien senior secured debt, 24% were other equity securities, 20% were senior subordinated debt, 8% were investments in subordinated certificates of the SSLP, 6% were second lien senior secured debt and 1% were preferred equity securities. Of the \$221 million of exited investment commitments, 53% were floating rate investments, 25% were non-interest bearing and 22% were fixed rate investments. The weighted average yield of debt and other income producing securities exited or repaid during the period at amortized cost was 13.1%. On the \$221 million of investment commitments exited from April 1, 2012 through May 4, 2012, we recognized total net realized gains of approximately \$15 million.

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In addition, as of May 4, 2012, we had an investment backlog and pipeline of approximately \$460 million and \$590 million, respectively. Investment backlog includes transactions for which a formal mandate, letter of intent or a signed commitment have been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where significant due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment have been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, we may syndicate a portion of these investments to third parties. We cannot assure you that we will make any of these investments or that we will syndicate any portion of these investments.

**CRITICAL ACCOUNTING POLICIES**

*Basis of Presentation*

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

*Cash and Cash Equivalents*

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

*Concentration of Credit Risk*

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

*Investments*

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on, among other things, the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period, and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter. In addition, our independent accountants review our valuation process as part of their overall integrated audit.

## Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

Table of Contents

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of third parties, including independent third-party valuation firms, with respect to the valuations of a minimum of 50% of our portfolio at fair value.
- Our board of directors discusses valuations and ultimately determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on, among other things, the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

***Interest and Dividend Income Recognition***

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

*Payment-in-Kind Interest*

The Company has loans in its portfolio that contain PIK provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash.

*Capital Structuring Service Fees and Other Income*

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a

Table of Contents

portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

***Foreign Currency Translation***

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.
  
- (2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

***Accounting for Derivative Instruments***

The Company does not utilize hedge accounting and marks its derivatives, if applicable at such time, to market through unrealized gains (losses) in the accompanying statement of operations.

***Equity Offering Expenses***

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received.

***Debt Issuance Costs***

Debt issuance costs are amortized over the life of the related debt instrument using the straight line method, which closely approximates the effective yield method.

***U.S. Federal Income Taxes***

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as such taxable income is earned.

Certain of our wholly owned subsidiaries are subject to U.S. federal and state income taxes.

Table of Contents

*Dividends to Common Stockholders*

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. We intend to use primarily newly issued shares to implement the dividend reinvestment plan (so long as we are trading at a premium to net asset value). If our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan. However, we reserve the right to issue new shares of our common stock in connection with our obligations under the dividend reinvestment plan even if our shares are trading below net asset value.

*Use of Estimates in the Preparation of Financial Statements*

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

Table of Contents

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

***Interest Rate Risk***

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of March 31, 2012, approximately 19% of the investments at fair value in our portfolio were at fixed rates, approximately 68% were at variable rates, 12% were non-interest earning and 1% were on non-accrual status. Additionally, for the investments at variable rates, 62% of the investments contain interest rate floors (representing 42% of total investments at fair value). The Revolving Credit Facility, the Revolving Funding Facility, the SMBC Funding Facility and the Debt Securitization all bear interest at variable rates with no interest rate floors, while the 2022 Notes, 2040 Notes, 2047 Notes and the Convertible Notes bear interest at fixed rates.

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments. In addition, there can be no assurance that we will be able to effectively hedge our interest rate risk.

Based on our March 31, 2012 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions)	Interest		Interest		Net
Basis Point Change	Income		Expense		Income
Up 300 basis points	\$	52.1	\$	17.3	\$ 34.8

### Item 4. Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934).

Table of Contents

Based on that evaluation, our President and our Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to the Company that is required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934.

There have been no changes in our internal control over financial reporting during the three months ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings.**

We are party to certain lawsuits in the normal course of business. In addition, Allied Capital was involved in various legal proceedings which the Company assumed in connection with the Allied Acquisition. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. While the outcome of any such legal proceedings cannot at this time be predicted with certainty, we do not expect these matters will materially affect our business, financial condition or results of operations.

**Item 1A. Risk Factors.**

In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

We did not sell any equity securities during the period covered in this report that were not registered under the Securities Act of 1933.

We did not repurchase any shares of our common stock during the period covered in this report.

**Item 3. Defaults Upon Senior Securities.**

Not applicable.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information.**

On May 4, 2012, the Company entered into an agreement to amend and restate the Revolving Credit Facility (as amended and restated, the A&R Revolving Credit Facility ). The A&R Revolving Credit Facility, among other things:

- increased the commitment size of the facility from \$810 million to \$900 million,
- extended the maturity date from January 22, 2013 to May 4, 2016,
- extended the expiration of the revolving period from January 22, 2013 to May 4, 2015, during which period the Company, subject to certain conditions, may make borrowings under the A&R Revolving Credit Facility,
- requires the Company to make certain monthly amortization and other payments after the revolving period,
- increased the size of the Letter of Credit sub-facility from \$100 million to \$125 million,
- modified the types of collateral available to the secured parties under the A&R Revolving Credit Facility,
- modified certain provisions with respect to testing borrowing base values, and
- modified pricing.

Subject to certain exceptions, the stated borrowing rate under the Company's prior revolving credit facility was based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on an alternate base rate (which is the highest of a prime

rate, the federal funds rate plus 0.50%, or one month LIBOR plus 1.00%) plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending on the Company's credit ratings. Subject to certain exceptions, the stated borrowing rate under the A&R Revolving Credit Facility is based on LIBOR plus 2.25% or on an alternate base rate (which is the highest of a prime rate, the federal funds rate plus 0.50%, or one month LIBOR plus 1.00%) plus 1.25%. The A&R Revolving Credit Facility continues to be secured by a material portion of the Company's assets (excluding, among other things, investments held in and by certain subsidiaries or investments in certain portfolio companies of the Company) and is guaranteed by certain subsidiaries of the Company.

The A&R Revolving Credit Facility includes an accordion feature that allows the Company, under certain circumstances, to increase the size of the facility to a maximum of \$1.35 billion.

Under the A&R Revolving Credit Facility, the Company has made certain representations and warranties and is required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain asset transfers and restricted payments, (d) maintaining a certain minimum stockholders' equity, (e) maintaining a ratio of total assets (less total liabilities) to total indebtedness, of the Company and its subsidiaries, of not less than 2.0:1.0, and (f) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and certain of its subsidiaries. The A&R Revolving Credit Facility also continues to include usual and customary events of default for senior secured revolving credit facilities of this nature.

In addition to the asset coverage ratio described above, borrowings under the A&R Revolving Credit Facility (and the incurrence of certain other permitted debt) will continue to be subject to compliance with a borrowing base that will apply different advance rates to different types of assets in the Company's portfolio. Borrowings under the A&R Revolving Credit Facility will also continue to be subject to the leverage restrictions contained in the Investment Company Act of 1940, as amended.

The documents related to the A&R Revolving Credit Facility will be filed as exhibits to the Company's quarterly report on Form 10-Q for the quarter ended June 30, 2012.
