Forward-Looking Statements and Risk Factors

This Annual Report on Form 10-K includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, without limitation, our expectations regarding sales, earnings or other future financial performance and liquidity, our long-term strategy, restructuring and other initiatives, product introductions, entry into new geographic regions, information systems initiatives, new methods of sale and future operations or operating results. Although we believe that our expectations are based on reasonable assumptions within the bounds of our knowledge of our business and operations, we cannot assure that actual results will not differ materially from our expectations. Factors that could cause actual results to differ from expectations are described herein; in particular, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Information. In addition, there is a discussion of risks associated with an investment in our securities, see Item 1A. Risk Factors.

Unless the context requires otherwise, references to we, us, our and the Company refer to The Estée Lauder Companies Inc. and its subsidiaries.

PART I

Item 1. Business.

The Estée Lauder Companies Inc., founded in 1946 by Estée and Joseph Lauder, is one of the world's leading manufacturers and marketers of quality skin care, makeup, fragrance and hair care products. Our products are sold in over 150 countries and territories under a number of well-known brand names including: Estée Lauder, Aramis, Clinique, Origins, M A C, Bobbi Brown, La Mer and Aveda. We are also the global licensee for fragrances and/or cosmetics sold under brand names such as Tommy Hilfiger, Donna Karan, Michael Kors, Tom Ford, Coach and Tory Burch. Each brand is distinctly positioned within the market for cosmetics and other beauty products.

We are a pioneer in the cosmetics industry and believe we are a leader in the industry due to the global recognition of our brand names, our leadership in product innovation, our strong position in key geographic markets and the consistently high quality of our products and High-Touch services. We sell our prestige products principally through limited distribution channels to complement the images associated with our brands. These channels consist primarily of upscale department stores, specialty multi-brand retailers, upscale perfumeries and pharmacies and prestige salons and spas. In addition, our products are sold in freestanding stores, our own and authorized retailer websites, stores on cruise ships, in-flight, and duty-free shops, as well as by direct response television (DRTV), and certain fragrances are sold in self-select outlets. We believe that our strategy of pursuing selective distribution strengthens our relationships with retailers, enables our brands to be among the best selling product lines at the stores and heightens the aspirational quality of our brands.

For a discussion of recent developments, see *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Results of Operations Overview.*

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

For segment and geographical area financial information, see *Item 8. Financial Statements and Supplementary Data Note 19 Segment Data and Related Information.*

We have been controlled by the Lauder family since the founding of our Company. Members of the Lauder family, some of whom are directors, executive officers and/or employees, beneficially own, directly or indirectly, as of August 14, 2014, shares of Class A Common Stock and Class B Common Stock having 86.7% of the outstanding voting power of the Common Stock.

Products

Skin Care - Our broad range of skin care products addresses various skin care needs. These products include moisturizers, serums, cleansers, toners, body care, exfoliators, acne and oil correctors and sun care products, a number of which are developed for use on particular areas of the body, such as the face or the hands or around the eyes. Skin care products accounted for approximately 43% of our net sales in fiscal 2014.

Makeup - We manufacture, market and sell a full array of makeup products, including those for the face, eyes, lips and nails. Many of the products are offered in an extensive array of shades and colors. We also sell related items such as compacts, brushes and other makeup tools. Makeup products accounted for approximately 38% of our net sales in fiscal 2014.

Fragrance - We offer a variety of fragrance products. The fragrances are sold in various forms, including eau de parfum sprays and colognes, as well as lotions, powders, creams, candles and soaps that are based on a particular fragrance. Fragrance products accounted for approximately 13% of our net sales in fiscal 2014.

Table of Contents

Hair Care - Hair care products are offered mainly in prestige salons and in freestanding stores as well as some department stores and specialty multi-brand retailers, and include shampoos, conditioners, styling products, treatment, finishing sprays and hair color products. Hair care products accounted for approximately 5% of our net sales in fiscal 2014.

Other - We also sell ancillary products and services that accounted for less than 1% of our net sales in fiscal 2014.

Given the personal nature of our products and the wide array of consumer preferences and tastes, as well as competition for the attention of consumers, our strategy has been to market and promote our products through distinctive brands seeking to address broad preferences and tastes. Each brand has a single global image that is promoted with consistent logos, packaging and advertising designed to enhance its image and differentiate it from other brands.

Estée Lauder - Estée Lauder brand products, which have been sold since 1946, are technologically advanced, high performance products with a reputation for innovation, style, glamour and superior quality. Used by women around the world, the broad product line consists of skin care, makeup, and fragrance products that are presented in high quality aspirational packaging.

Aramis and Designer Fragrances - Our Aramis and Designer Fragrances division creates, markets and distributes fragrance and other beauty products, including the following brand names:

- **Aramis** - We pioneered the marketing of prestige men's fragrance, grooming and skin care products with the introduction of Aramis products in 1964.
- **Tommy Hilfiger** - We have an exclusive global license arrangement for a line of men's and women's fragrances and cosmetics under the Tommy Hilfiger brand name, which we launched in 1995. Today, we manufacture and sell a variety of fragrances and ancillary products for men and women.
- **Donna Karan Cosmetics** - In 1997, we obtained the exclusive global license for a line of fragrances and other cosmetics under the Donna Karan New York and DKNY brand names, including certain products that were originally sold by The Donna Karan Company. Under this license, fragrances have been expanded to include extensive lines of companion bath and body products.
- **Michael Kors** - In 2003, we entered into an exclusive global license agreement for fragrances and beauty products under the Michael Kors brand name. The fragrances, as well as ancillary beauty products, are sold primarily in department stores, specialty multi-brand retailers and freestanding Michael Kors boutiques.
- **Coach** - In 2006, we began creating fragrances and related bath and body products for Coach which were sold exclusively in Coach stores. In 2010, we converted the arrangement to a license. The collection is primarily available in department stores, Coach stores in the United States and Asia/Pacific and online at coach.com.
- **Ermenegildo Zegna** - In 2011, we entered into an exclusive global license arrangement for fragrance and beauty products under the Ermenegildo Zegna brand name. We transitioned the five existing fragrances into our portfolio, and have since created a collection of high-end fragrances. These products are sold in markets across Asia/Pacific, Europe and North America, as well as Ermenegildo Zegna boutiques worldwide.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

- **Tory Burch** - In 2011, we entered into an exclusive license to market, develop and sell beauty products under the Tory Burch brand name. Our first launch in fiscal 2014 was in North America and we plan to strategically roll out into other markets over the next few years.

Clinique - Introduced in 1968, Clinique skin care and makeup products are all allergy tested and 100% fragrance free and have been designed to address individual skin types and needs. Clinique also offers select fragrances. The skin care and makeup products are based on the research and related expertise of leading dermatologists. Clinique skin care products are generally marketed as part of the 3-Step System: Cleanse, Exfoliate, Moisturize. Other Clinique skin care products include de-aging solutions to help prevent, halt and diminish the visible effects of sun, wind, stress and pollution and assist in repair to help visibly restore, contour and minimize the look of lines and wrinkles. Clinique works to develop products and regimens to create great skin at any age.

Lab Series - Lab Series Skincare for Men, introduced in 1987, is a full range of products for cleansing, shaving, treatment and body that is especially formulated to address the unique needs of men's skin.

Origins - Introduced in 1990, Origins seeks to create high-performance natural skin care products that are powered by nature and proven by science. Origins also sells makeup, fragrance and hair care products, and has a license agreement to develop and sell beauty products using the name of Dr. Andrew Weil.

M A C - Make-up Art Cosmetics, a leading brand of professional cosmetics, was created in Toronto, Canada in 1984. We completed our acquisition of M A C in 1998. The brand's popularity has grown through a tradition of word-of-mouth endorsement from professional makeup artists and journalists, leadership in social media, trend setting through a connection to pop culture and fashion, product innovation and a broad line of color products that appeal to a diverse consumer base.

Table of Contents

Bobbi Brown - Acquired in 1995, Bobbi Brown is an exclusive beauty line developed by celebrated makeup artist Bobbi Brown with a focus on service and teaching women to be their own makeup artists. The Bobbi Brown line includes color cosmetics, skin care, professional makeup brushes and tools, accessories and fragrances.

La Mer - Acquired in 1995, La Mer products primarily consist of high-end moisturizing creams, lotions, serums and other skin care products. The line, which is available in limited distribution in the United States and many other countries, is an extension of the initial Crème de la Mer product.

Aveda - We acquired the Aveda business in 1997 and since then have acquired select Aveda distributors and retail stores. Aveda creates high performance, botanically-based products for beauty professionals and consumers while continuously striving to conduct business in an environmentally sustainable manner. Aveda manufactures innovative plant-based hair care, skin care, makeup and lifestyle products.

Jo Malone - We acquired London-based Jo Malone Limited in 1999. Jo Malone is known for its unique fragrance portfolio and luxury products for the bath, body and home.

Bumble and bumble - We acquired our initial interest in Bumble and bumble in 2000 and fully acquired the brand in 2006. The New York-based hair care company creates high-quality hair care and styling products distributed through top-tier salons and select prestige retailers. Products are stylist- and salon-tested and found backstage at fashion shows, photo shoots, on television and film sets.

Darphin - In 2003, we acquired Laboratoires Darphin, the Paris-based company dedicated to the development, manufacture and marketing of prestige skin care products which are distributed primarily through high-end independent pharmacies and specialty multi-brand retailers.

Tom Ford Beauty - In 2005, we entered into a license agreement to develop and distribute fragrances and other beauty products under the Tom Ford brand name. In 2006, we introduced Tom Ford Black Orchid, the brand's first signature fragrance. We also introduced a full-range luxury cosmetics line in 2011 and a men's grooming line in 2013.

Smashbox - Founded in 1996 and acquired in 2010, Smashbox Cosmetics is a Los Angeles-based, photo studio-inspired makeup brand with products intended to help consumers create gorgeous looks, whether at a photo shoot or in everyday life.

In addition, we manufacture and sell products under the Prescriptives, FLIRT!, GoodSkin Labs, Ojon and Osiao brands. We also develop and sell products under a license from Kiton and hold licenses to develop and sell fragrances and other beauty products for the Marni and Aerin brands.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Our heritage brands are Estée Lauder, Aramis and Designer Fragrances, Clinique and Origins. M A C and Bobbi Brown are our makeup artist brands and our luxury brands are La Mer, Jo Malone and Tom Ford Beauty.

Distribution

We sell our products primarily through limited distribution channels to complement the images associated with our brands. These channels consist primarily of upscale department stores, specialty multi-brand retailers, upscale perfumeries and pharmacies and prestige salons and spas. In addition, our products are sold in company- and distributor-operated freestanding stores, our own and authorized retailer websites, stores on cruise ships, in-flight and duty-free shops, and DRTV, and certain fragrances are sold in self-select outlets. As is customary in the cosmetics industry, our practice is to accept returns of our products from retailers if properly requested, authorized and approved.

We maintain a dedicated sales force which sells to our retail accounts in North America and in the major overseas markets, and in the travel retail channel. We have wholly-owned operations in over 50 countries, and a controlling interest in a joint venture that operates in three countries, through which we market, sell and distribute our products. In certain countries, we sell our products through select local distributors under contractual arrangements designed to protect the image and position of the brands. In addition, we sell certain products in select domestic and international military locations. For information regarding our net sales and long-lived assets by geographic region, see *Item 8. Financial Statements and Supplementary Data Note 19 Segment Data and Related Information*.

As part of our strategy to diversify our distribution, we have been selectively opening new single-brand stores that we or our distributors operate. The M A C, Aveda, Jo Malone and Origins brands have been the primary focus for this method of distribution, and we are expanding to other brands. We operate approximately 940 freestanding stores and, our distributors operate approximately 370 freestanding stores worldwide. We expect the number of freestanding stores to increase moderately over the next several years.

Table of Contents

We currently sell products from 14 of our brands directly to consumers online through approximately 120 of our own e-commerce and certain of our m-commerce sites. Additionally, our products are sold on various retailer websites. Some or all of these brands are sold online in 28 countries including the following: the United States, Canada, the United Kingdom, France, Germany, Austria, Brazil, Russia, Denmark, Italy, Australia, Korea, China and Japan.

Customers

Our strategy is to build strong relationships with selected retailers globally. Senior management works with executives of our major retail accounts on a regular basis, and we believe we are viewed as an important supplier to these customers. Our largest customer, Macy's Inc., sells products primarily within the United States and accounted for 10% of our consolidated net sales for fiscal 2014 and 11% for fiscal 2013 and 2012, and 11% and 10% of our accounts receivable as of June 30, 2014 and 2013, respectively.

Marketing

Our marketing strategy is built around Bringing the Best to Everyone We Touch. Mrs. Estée Lauder formulated this marketing philosophy to provide High-Touch service and high quality products as the foundation for a solid and loyal consumer base. Our marketing efforts focus principally on communicating the quality, value and benefits of our products. Each of our brands is distinctively positioned, and is promoted with consistent logos, packaging and advertising designed to enhance its image and differentiate it. We regularly advertise our products on television, in magazines and newspapers, by digital and social media, on billboards and through direct mail and photo displays at international airports and seek editorial coverage for our brands and products in publications and other media. Promotional activities and in-store displays are designed to attract new consumers and introduce existing consumers to different products in the line. Our marketing efforts also benefit from cooperative advertising programs with some retailers, some of which are supported by coordinated promotions, such as purchase with purchase and gift with purchase. Such activities attract consumers to our counters and allow us to introduce them to our products. Our marketing and sales executives spend considerable time in the field meeting with consumers, retailers and beauty consultants at the points of sale. These include Estée Lauder Beauty Advisors, Clinique Consultants, Aramis Selling Specialists, Origins Guides and M A C and Bobbi Brown Makeup Artists. At in-store counters, consumers are offered a High-Touch experience with personal consultations to market individual products as well as to provide education on their use and application. We conduct extensive sampling programs, and we pioneered gift with purchase as a sampling program. We believe that the quality and perceived benefits of sample products have been effective inducements to purchases by new and existing consumers.

Our High-Touch approach promotes the total value we offer by leveraging our in-person and virtual assets, as well as merchandising and education, to provide a customized consumer experience. To support this initiative, we continue to expand our online strategy into a multi-pronged digital strategy that encompasses e-commerce, m-commerce, as well as digital and social media. We have dedicated resources to implement coordinated, brand-enhancing strategies across all online activities to increase our direct access to consumers. We continue to use the Internet to educate and inform consumers about certain of our brands. Currently, 16 of our brands have marketing websites. In order to continue to offer unparalleled service and set the standard for prestige beauty shopping online, we partner with key brick and mortar retailers to strengthen their e-commerce business and drive sales of our brands on their websites, continue to innovate to better meet consumer online shopping preferences (e.g., how-to videos, ratings and reviews and mobile phone and tablet applications), and support e-commerce and m-commerce business via digital and social marketing activities designed to build brand equity and consumer engagement.

Most of our creative marketing work is done by in-house creative teams. The creative staff designs and produces the sales materials, advertisements and packaging for products in each brand.

Global net expenses for advertising, merchandising, sampling, promotion and product development costs were \$2,840.0 million, \$2,754.8 million and \$2,614.5 million in fiscal 2014, 2013 and 2012, respectively. These amounts include activities relating to purchase with purchase promotions that are reflected in net sales and cost of sales, and gift with purchase promotions that are reflected in cost of sales.

Information Systems

Information systems support business processes including product development, marketing, sales, order processing, production, distribution and finance. We expect that these systems will continue to provide pertinent inventory and sales data in the short term. As part of our long-term effort to enhance these systems and increase productivity, we continue to implement our Strategic Modernization Initiative (SMI), which includes an enterprise-wide global program that we expect will deliver a single set of integrated data, processes and technologies, which would be scalable and used to standardize business processes across brands, operating units and sales locations. As part of SMI, we rolled out the last of our four major waves of SAP-based technologies (SAP) in July 2014. With the July rollout, locations representing approximately 93% of our consolidated net sales are SAP-enabled. We plan to continue the implementation of SAP at our remaining locations through fiscal 2017.

Table of Contents

In parallel with our SAP deployment, we are creating a more focused global information technology organization utilizing industry standard processes, which we expect will benefit, among other things, our demand planning process. We are also exploring opportunities to create a more efficient organization by rebalancing our information technology resources to better align with our global business growth. As we continue to modernize our key processes and the related systems and infrastructure, we are developing upgraded capabilities to support our human resource and retail operations. Our plan is to progressively develop and deploy key systems globally over the next several years.

Of the many systems currently being utilized, the most significant to our business needs are: (i) a centralized data repository of essential attributes for each of the products we offer, or plan to offer, which enables us to globally manufacture and market products of consistent quality; (ii) a sales analysis system to track weekly sales at the stock keeping unit (SKU) level at the most significant retail sales locations (i.e. sell-through data), increasing our understanding of consumer preferences and enabling us to coordinate more effectively our product development, manufacturing and marketing strategies; (iii) an automated replenishment system with many of our key domestic customers, allowing us to replenish inventories for individual points of sale automatically, with minimal paperwork; and (iv) an inventory management system that provides us with a global view of finished goods availability relative to forecasted requirements.

Research and Development

We believe that we are an industry leader in the development of new products. Our research and development group, which includes scientists and other employees involved in product innovation and packaging design and development, works closely with our marketing and product development teams to cultivate ideas, develop new products and product-line extensions, and create new packaging concepts, as well as to improve, redesign or reformulate existing products. In addition, these research and development personnel provide ongoing technical assistance and know-how to quality and assurance and manufacturing personnel on a worldwide basis, to ensure consistent global standards for our products and to deliver products with attributes that fulfill consumer expectations. The research and development group has long-standing working relationships with several U.S. and international medical and educational facilities, which supplement internal capabilities. Members of the research and development group are also responsible for regulatory compliance matters.

During fiscal 2014, we conducted a review of the activities and elements of costs associated with our research and development process as described above. As a result of our review, we identified certain activities, such as product innovation and packaging design and development, and their related costs that should be categorized as research and development costs, which continue to be recorded in Selling, general and administrative expenses in the consolidated statements of earnings. As a result, our research and development costs totaled \$157.9 million, \$146.8 million and \$137.8 million in fiscal 2014, 2013 and 2012, respectively. Research and development costs are expensed as incurred. As of June 30, 2014, we had approximately 700 employees engaged in research and development activities. We maintain research and development programs at certain of our principal facilities and facilities dedicated to performing research and development, see *Item 2. Properties*.

We do not conduct animal testing on our products or ingredients, nor ask others to test on our behalf, except when required by law.

Manufacturing, Warehousing and Raw Materials

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

We manufacture our products primarily in the United States, Belgium, Switzerland, the United Kingdom and Canada. We continue to streamline our manufacturing processes and identify sourcing opportunities to improve innovation, increase efficiencies, minimize our impact on the environment and reduce costs. Our major manufacturing facilities operate as focus plants that primarily manufacture one category of product (e.g., makeup) for all of the principal brands. Our plants are modern, and our manufacturing processes are substantially automated. While we believe that our network of manufacturing facilities and third party manufacturers is sufficient to meet current and reasonably anticipated manufacturing requirements, we continue to identify opportunities to make significant improvements in capacity, technology and productivity. To capitalize on innovation and other supply chain benefits, we continue to utilize a network of third-party manufacturers on a global basis, including an increased percentage of volume in Asia/Pacific to support our growth.

We have established a global distribution network designed to meet the changing demands of our customers while maintaining service levels. We are continuously evaluating and adjusting this physical distribution network. We have continued to establish regional distribution centers, including those maintained by third parties, strategically positioned throughout the world in order to facilitate efficient delivery of our products to our customers.

Table of Contents

The principal raw materials used in the manufacture of our products are essential oils, alcohols and specialty chemicals. We also purchase packaging components that are manufactured to our design specifications. Procurement of materials for all manufacturing facilities is generally made on a global basis through our Global Supplier Relations department. We have made a concentrated effort in supplier rationalization and continue to review our supplier base with the specific objective of reducing costs, increasing innovation and speed to market and improving quality. In addition, we continue to focus on supply sourcing within the region of manufacture to allow for improved supply chain efficiencies. As a result of sourcing initiatives, there is increased dependency on certain suppliers, but we believe that our portfolio of these suppliers has adequate resources and facilities to overcome most unforeseen interruptions of supply. In the past, we have been able to obtain an adequate supply of essential raw materials and currently believe we have adequate sources of supply for virtually all components of our products.

We are continually benchmarking the performance of the supply chain and will change suppliers, and adjust our distribution networks and manufacturing footprint based upon the changing needs of the business. As we integrate acquired brands, we continually seek new ways to leverage our production and sourcing capabilities to improve our overall supply chain performance.

Competition

The skin care, makeup, fragrance and hair care businesses are characterized by vigorous competition throughout the world. Brand recognition, quality, performance, availability and price are some of the factors that impact consumers' choices among competing products and brands. Advertising, promotion, merchandising, the pace and timing of new product introductions, line extensions and the quality of in-store demonstrations also have a significant impact on consumers' buying decisions. With our numerous brands, sold in various channels, we are one of the world's leading manufacturers and marketers of skin care, makeup, fragrance and hair care products. We compete against a number of companies, some of which have substantially greater resources than we do.

Our principal competitors consist of large, well-known, multinational manufacturers and marketers of skin care, makeup, fragrance and hair care products, most of which market and sell their products under multiple brand names. They include, among others, L'Oréal S.A.; Shiseido Company, Ltd.; Beiersdorf AG; LVMH Moët Hennessey Louis Vuitton; Coty, Inc.; The Procter & Gamble Company; Avon Products, Inc.; Chanel S.A.; and Groupe Clarins. We also face competition from a number of independent brands, as well as some retailers that have developed their own beauty brands. Certain of our competitors also have ownership interests in retailers that are customers of ours.

Trademarks, Patents and Copyrights

We own the trademark rights used in connection with the manufacturing, marketing, distribution and sale of our products both in the United States and in the other principal countries where such products are sold, including Estée Lauder, Clinique, Aramis, Prescriptives, Lab Series, Origins, M A C, Bobbi Brown, La Mer, Aveda, Jo Malone, Bumble and bumble, Darphin, American Beauty, Flirt!, GoodSkin Labs, grassroots research labs, Ojon, Smashbox, and Osiao, and the names of many of the products sold under these brands. We are the exclusive worldwide licensee for fragrances, cosmetics and/or related products for Tommy Hilfiger, Donna Karan New York, DKNY, Kiton, Michael Kors, Tom Ford, Coach, Dr. Andrew Weil, Ermenegildo Zegna, Marni, Aerin and Tory Burch. For further discussion on license arrangements, including their duration, see *Item 8. Financial Statements and Supplementary Data Note 2 Summary of Significant Accounting Policies License Arrangements*. We protect our trademarks in the United States and significant markets worldwide. We consider the protection of our trademarks to be important to our business.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

A number of our products incorporate patented, patent-pending or proprietary technology. In addition, several products and packaging for such products are covered by design patents or copyrights. While we consider these patents and copyrights, and the protection thereof, to be important, no single patent or copyright, or group of patents or copyrights, is considered material to the conduct of our business.

Employees

At June 30, 2014, we had approximately 42,400 full-time employees worldwide (including demonstrators at points of sale who are employed by us), of whom approximately 13,000 are employed in the United States and Canada. None of our employees in the United States is covered by a collective bargaining agreement. A limited number of employees outside of the United States are covered by a works council agreement or other syndicate arrangements.

Government Regulation

We and our products are subject to regulation by the Food and Drug Administration and the Federal Trade Commission in the United States, as well as by various other federal, state, local and international regulatory authorities and the regulatory authorities in the countries in which our products are produced or sold. Such regulations principally relate to the ingredients, manufacturing, labeling, packaging, marketing, advertising, shipment, disposal and safety of our products. We believe that we are in substantial compliance with such regulations, as well as with applicable federal, state, local and international and other countries' rules and regulations governing the discharge of materials hazardous to the environment or that relate to climate change. There are no significant capital expenditures for environmental control or climate change matters either planned in the current year or expected in the near future.

Table of Contents

Seasonality

Our results of operations in total, by region and by product category, are subject to seasonal fluctuations, with net sales in the first half of the fiscal year typically being slightly higher than in the second half of the fiscal year. The higher net sales in the first half of the fiscal year are attributable to the increased levels of purchasing by retailers for the holiday selling season. Many of our customers that are retailers follow a 4-4-5 retail calendar which may influence the amount and timing of their order placement and receipt of goods in any fiscal quarter. In a traditional 4-4-5 retail calendar, each fiscal quarter is comprised of two 4-week periods and one 5-week period, with one extra week in one quarter every seven years. As a result, our customers' retail quarter-end and our fiscal quarter-end may be different by up to six days. Fluctuations in net sales and operating income in total and by geographic region and product category in any fiscal quarter may be attributable to the level and scope of new product introductions. Additionally, gross margins and operating expenses are impacted on a quarter-by-quarter basis by variations in our launch calendar and the timing of promotions, including purchase with purchase and gift with purchase promotions.

Availability of Reports

We make available financial information, news releases and other information on our website at www.elcompanies.com. Our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to these reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge, via the EDGAR database at www.sec.gov or our website, as soon as reasonably practicable after we file such reports and amendments with, or furnish them to, the Securities and Exchange Commission. Stockholders may also contact Investor Relations at 767 Fifth Avenue, New York, New York 10153 or call 800-308-2334 to obtain a hard copy of these reports without charge.

Corporate Governance Guidelines and Code of Conduct

The Board of Directors has developed corporate governance practices to help it fulfill its responsibilities to stockholders in providing general direction and oversight of management. These practices are set forth in our Corporate Governance Guidelines. We also have a Code of Conduct (Code) applicable to all employees, officers and directors of the Company, including, without limitation, the Chief Executive Officer, the Chief Financial Officer and other senior financial officers. These documents and any waiver of a provision of the Code granted to any senior officer or director or material amendment to the Code, if any, may be found in the Investor Relations section of our website: www.elcompanies.com within the Leadership subsection under the heading Corporate Governance. The charters for the Audit Committee, Compensation Committee and Nominating and Board Affairs Committee may be found in Committees within Corporate Governance. Stockholders may also contact Investor Relations at 767 Fifth Avenue, New York, New York 10153 or call 800-308-2334 to obtain a hard copy of these documents without charge.

Executive Officers

The following table sets forth certain information with respect to our executive officers:

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Name	Age	Position(s) Held
John Demsey	58	Group President
Fabrizio Freda	56	President, Chief Executive Officer and a Director
Carl Haney	51	Executive Vice President, Global Research and Development, Corporate Product Innovation, Package Development
Leonard A. Lauder	81	Chairman Emeritus and a Director
Ronald S. Lauder	70	Chairman of Clinique Laboratories, LLC
William P. Lauder	54	Executive Chairman and a Director
Sara E. Moss	67	Executive Vice President and General Counsel
Michael O. Hare	46	Executive Vice President Global Human Resources
Gregory F. Polcer	59	Executive Vice President Global Supply Chain
Cedric Prouvé	54	Group President International
Tracey T. Travis	52	Executive Vice President and Chief Financial Officer
Alexandra C. Trower	49	Executive Vice President Global Communications

John Demsey was appointed Group President in July 2006. In this role, he is responsible for the Estée Lauder, M·A·C, Prescriptives, Smashbox, Tom Ford Beauty, Bobbi Brown, Jo Malone, La Mer and Bumble and bumble brands. In January 2005, Mr. Demsey became Global Brand President of Estée Lauder after serving as President and Managing Director of M·A·C since 1998. From 1991 to 1998, he held several positions with Estée Lauder, including Senior Vice President of Sales and Education for Estée Lauder USA and Canada. Before joining us, he worked in sales and marketing for Revlon, Borghese, Alexandra de Markoff Cosmetics, and Lancaster Cosmetics. He also held various executive retail positions at Bloomingdale's, Macy's, Benetton and Saks Fifth Avenue. Mr. Demsey serves as Chairman of the M·A·C AIDS Fund and is on the Board of Directors of Baccarat S.A. He was previously on the Board of Directors of The Jones Group Inc. and is active in many cultural organizations.

Table of Contents

Fabrizio Freda has been President and Chief Executive Officer of the Company since July 2009. During such period, he has continued to lead the implementation of our long-term strategy that has resulted in a substantial increase in our market capitalization. From March 2008 through June 2009, he was President and Chief Operating Officer of the Company where he oversaw the Clinique, Bobbi Brown, La Mer, Jo Malone, Aveda and Bumble and bumble brands and the Aramis and Designer Fragrances division. He also was responsible for the Company's International Division, as well as Global Operations, Research and Development, Packaging, Quality Assurance, Merchandise Design, Corporate Store Design and Retail Store Operations. Prior to joining the Company, Mr. Freda served in a number of positions of increasing responsibility at The Procter & Gamble Company (P&G), where he was responsible for various operating, marketing and key strategic efforts for over 20 years. From 2001 through 2007 Mr. Freda was President, Global Snacks, at P&G. Mr. Freda also spent more than a decade in the Health and Beauty Care division at P&G. From 1986 to 1988 he directed marketing and strategic planning for Gucci SpA. Mr. Freda is also a member of the Board of Directors of BlackRock, Inc., a global investment manager.

Carl Haney became Executive Vice President, Global Research and Development, Corporate Product Innovation, Package Development in January 2012. Prior to joining the Company, Mr. Haney was Vice President, R&D Global, Male Grooming, Gillette, Braun and Devices, leading teams in all aspects of innovation, including product, packaging, process development and engineering at The Procter & Gamble Company (P&G) from 2007 through May 2012. Mr. Haney started his career at P&G in 1984, and over the years held numerous leadership positions in locations around the world. In 1997, he was promoted to Director, Latin America Beauty Care R&D. Mr. Haney also held R&D leadership roles for P&G Global Cosmetics and Oral Care and led P&G innovation teams in Latin America, Europe and Asia.

Leonard A. Lauder is Chairman Emeritus and a member of the Board of Directors. He was Chairman of the Board of Directors from 1995 through June 2009 and served as our Chief Executive Officer from 1982 through 1999 and President from 1972 until 1995. Mr. Lauder formally joined us in 1958 after serving as an officer in the United States Navy. Since joining, he has held various positions, including executive officer positions other than those described above. He is Chairman Emeritus of the Board of Trustees of the Whitney Museum of American Art, a Charter Trustee of The University of Pennsylvania, a Trustee of The Aspen Institute and the co-founder and Co-Chairman of the Alzheimer's Drug Discovery Foundation. He also served as a member of the White House Advisory Committee on Trade Policy and Negotiations under President Reagan.

Ronald S. Lauder has served as Chairman of Clinique Laboratories, LLC since returning from government service in 1987 and was Chairman of Estee Lauder International, Inc. from 1987 through 2002. He was a member of the Board of Directors of the Company from 1968 to 1986 and again from 1988 to July 2009. Mr. Lauder joined the Company in 1964 and has served in various capacities. From 1983 to 1986, Mr. Lauder served as Deputy Assistant Secretary of Defense for European and NATO Affairs. From 1986 to 1987, he was U.S. Ambassador to Austria. He is also an Honorary Chairman of the Board of Trustees of the Museum of Modern Art and President of the Neue Galerie.

William P. Lauder is Executive Chairman and, in such role, he is Chairman of the Board of Directors. He was Chief Executive Officer of the Company from March 2008 through June 2009 and President and Chief Executive Officer from July 2004 through February 2008. From January 2003 through June 2004, he was Chief Operating Officer. From July 2001 through 2002, he was Group President responsible for the worldwide business of the Clinique and Origins brands and the Company's retail store and online operations. From 1998 to 2001, he was President of Clinique Laboratories, LLC. Prior to 1998, he was President of Origins Natural Resources Inc., and he had been the senior officer of that division since its inception in 1990. Prior thereto, he served in various positions since joining the Company in 1986. He is a member of the Board of Directors of Jarden Corporation. Additionally, within the past five years, Mr. Lauder served as a director of GLG Partners, Inc. and True Temper Sports, Inc. He also currently serves as Chairman of the Board of the Fresh Air Fund, a member of the Boards of Trustees of The University of Pennsylvania and The Trinity School in New York City, the Boards of Directors of the 92nd Street Y and the Partnership for New York City, and the Advisory Board of Zelnick Media.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Sara E. Moss is Executive Vice President and General Counsel. She joined us as Senior Vice President, General Counsel and Secretary in September 2003 and became Executive Vice President in November 2004. She was Senior Vice President and General Counsel of Pitney Bowes Inc. from 1996 to February 2003, and Senior Litigation Partner for Howard, Smith & Levin (now Covington & Burling) in New York from 1984 to 1996. Prior to 1984, Ms. Moss served as an Assistant United States Attorney in the Criminal Division in the Southern District of New York, was an associate at the law firm of Davis, Polk & Wardwell and was Law Clerk to the Honorable Constance Baker Motley, U.S. District Judge in the Southern District of New York.

Michael O Hare joined the Company in 2013 as Executive Vice President, Global Human Resources. Previously, he was with Heineken N.V., a global brewer based in the Netherlands, where he served since 2009 as Global Chief Human Resources Officer. Prior to that, he spent 13 years at PepsiCo, a global food and beverage company, where he held a variety of senior roles in Human Resources, including Chief Personnel Officer/Vice President for Asia Pacific.

Table of Contents

Gregory F. Polcer became Executive Vice President - Global Supply Chain in July 2008. He is responsible for Global Direct and Indirect Procurement, Manufacturing, Logistics, Quality Assurance and Environmental Affairs and Safety and has shared leadership for Corporate Responsibility. From 1988 to 2008, he worked for Unilever where he designed and implemented global, regional and local initiatives. Most recently, from 2006 to 2008, he served as the Senior Vice President, Supply Chain for Unilever where he integrated the North and Latin American Supply Chains, provided senior leadership for all global supply management and established a global outsourcing plan. He served as Senior Vice President, Supply Chain - North America from 2005 to 2006 and Senior Vice President, Supply Chain, Home and Personal Care North America from 2002 to 2004.

Cedric Prouvé became Group President - International in January 2003. He is responsible for our International Division, which includes all markets outside of North America, our Travel Retail business worldwide and all of the activities of our sales affiliates and distributor relationships. From August 2000 through December 2002 he was the General Manager of our Japanese sales affiliate. From January 1997 to August 2000, he was Vice President, General Manager, Travel Retail. He started with us in 1994 as General Manager, Travel Retailing - Asia Pacific Region and was given the added responsibility of General Manager of our Singapore affiliate in 1995. Prior to joining us he worked at L. Oreal in sales and management positions in the Americas and Asia/Pacific.

Tracey T. Travis joined the Company in August 2012 as Executive Vice President and Chief Financial Officer. Prior to joining the Company, Ms. Travis had been Senior Vice President and Chief Financial Officer of Ralph Lauren Corporation since 2005, responsible for Global Finance, Internal Audit, Treasury, Tax, Business Development, Investor Relations and Global Information Technology. Previously, Ms. Travis was Senior Vice President, Finance of Intimate Brands for Limited Brands, Inc. from 2002 to 2004. She also spent a decade at PepsiCo Inc. and the Pepsi Bottling Group, where she held operations management and finance roles. She began her career as an engineer and financial analyst at General Motors Company. Ms. Travis is a member of the Board of Directors of Campbell Soup Company.

Alexandra C. Trower became Executive Vice President - Global Communications in April 2008. She directs the Company's overall communications strategy, overseeing brand communications, corporate communications, internal communications and philanthropic communications. Before joining us, Ms. Trower was Senior Vice President, Media Relations for Bank of America from July 2003 to March 2008. From 1997 to 2003, she worked at JPMorgan Chase, where she was responsible for corporate communications at JPMorgan Fleming Asset Management. From 1987 to 1997, Ms. Trower worked at a former division of Citibank, Chancellor Capital Management (now part of Invesco), where she held a variety of communications roles. Ms. Trower serves on the Board of Directors of Hollins University.

Each executive officer serves for a one-year term ending at the next annual meeting of the Board of Directors, subject to his or her applicable employment agreement and his or her earlier death, resignation or removal.

Item 1A. Risk Factors.

There are risks associated with an investment in our securities.

Please consider the following risks and all of the other information in this annual report on Form 10-K and in our subsequent filings with the Securities and Exchange Commission (SEC). Our business may also be adversely affected by risks and uncertainties not presently known to us or that we currently believe to be immaterial. If any of the events contemplated by the following discussion of risks should occur or other risks

arise or develop, our business, prospects, financial condition and results of operations, as well as the trading prices of our securities, may be adversely affected.

The beauty business is highly competitive, and if we are unable to compete effectively our results will suffer.

We face vigorous competition from companies throughout the world, including multinational consumer product companies. Some of these competitors have greater resources than we do and may be able to respond to changing business and economic conditions more quickly than us. Competition in the beauty business is based on pricing of products, innovation, perceived value, service to the consumer, promotional activities, advertising, special events, new product introductions, e-commerce and m-commerce initiatives and other activities. It is difficult for us to predict the timing and scale of our competitors' actions in these areas. A consolidation in the retail trade may result in us becoming increasingly dependent on key retailers. This could result in an increased risk related to the concentration of our customers. A severe adverse impact on the business operations of our customers could have a corresponding material adverse effect on us. Our ability to compete also depends on the continued strength of our brands, our ability to attract and retain key talent and other personnel, the efficiency of our manufacturing facilities and distribution network, and our ability to maintain and protect our intellectual property and those other rights used in our business. In addition, certain of our key retailers around the world market and sell competing brands or are owned or otherwise affiliated with companies that market and sell competing brands. Our inability to continue to compete effectively in key countries around the world could have an adverse impact on our business.

Table of Contents

Our inability to anticipate and respond to market trends and changes in consumer preferences could adversely affect our financial results.

Our continued success depends on our ability to anticipate, gauge and react in a timely and cost-effective manner to changes in consumer tastes for skin care, makeup, fragrance and hair care products, attitudes toward our industry and brands, as well as to where and how consumers shop for those products. We must continually work to develop, manufacture and market new products, maintain and adapt our High-Touch services to existing and emerging distribution channels, maintain and enhance the recognition of our brands, achieve a favorable mix of products, successfully manage our inventories, and refine our approach as to how and where we market and sell our products. While we devote considerable effort and resources to shape, analyze and respond to consumer preferences, we recognize that consumer tastes cannot be predicted with certainty and can change rapidly. The issue is compounded by the increasing use of social and digital media by consumers and the speed by which information and opinions are shared. If we are unable to anticipate and respond to sudden challenges that we may face in the marketplace, trends in the market for our products and changing consumer demands and sentiment, our financial results will suffer.

Our future success depends on our ability to achieve our long-term strategy.

Achieving our long-term strategy will require investment in new capabilities, brands, categories, distribution channels, technologies and emerging and more mature geographic markets. These investments may result in short-term costs without any current revenues and, therefore, may be dilutive to our earnings, at least in the short term. In addition, we may dispose of or discontinue select brands or streamline operations and incur costs or restructuring and other charges in doing so. Although we believe that our strategy will lead to long-term growth in revenue and profitability, we may not realize, in full or in part, the anticipated benefits. The failure to realize benefits, which may be due to our inability to execute plans, global or local economic conditions, competition, changes in the beauty industry and the other risks described herein, could have a material adverse effect on our business, financial condition and results of operations.

Acquisitions may expose us to additional risks.

We continuously review acquisition and investment opportunities that would expand our current product offerings, our distribution channels, increase the size and geographic scope of our operations or otherwise offer growth and operating efficiency opportunities. There can be no assurance that we will be able to identify suitable candidates or consummate these transactions on favorable terms. If required, the financing for these transactions could result in an increase in our indebtedness, dilute the interests of our stockholders or both. Acquisitions including strategic investments or alliances entail numerous risks, which may include:

- difficulties in assimilating acquired operations or products, including the loss of key employees from, or customers of, acquired businesses;
- diversion of management's attention from our existing businesses;
- adverse effects on existing business relationships with suppliers and customers; and
- risks of entering distribution channels, categories or markets in which we have limited or no prior experience.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Our failure to successfully complete the integration of any acquired business, and any adverse consequences associated with our acquisition activities, could have a material adverse effect on our business, financial condition and operating results.

Completed acquisitions typically result in additional goodwill and/or an increase in other intangible assets on our balance sheet. We are required at least annually, or as facts and circumstances exist, to test goodwill and other intangible assets with indefinite lives to determine if impairment has occurred. If the testing performed indicates that impairment has occurred, we are required to record a non-cash impairment charge for the difference between the carrying value of the goodwill or other intangible assets with indefinite lives and the implied fair value of the goodwill or the fair value of other intangible assets with indefinite lives in the period the determination is made. We cannot accurately predict the amount and timing of any impairment of assets. Should the value of goodwill or other intangible assets become impaired, there could be a material adverse effect on our financial condition and results of operations.

Table of Contents

A general economic downturn, or sudden disruption in business conditions may affect consumer purchases of discretionary items and/or the financial strength of our customers that are retailers, which could adversely affect our financial results.

The general level of consumer spending is affected by a number of factors, including general economic conditions, inflation, interest rates, energy costs, and consumer confidence generally, all of which are beyond our control. Consumer purchases of discretionary items tend to decline during recessionary periods, when disposable income is lower, and may impact sales of our products. A decline in consumer purchases of discretionary items also tends to impact our customers that are retailers. We generally extend credit to a retailer based on an evaluation of its financial condition, usually without requiring collateral. However, the financial difficulties of a retailer could cause us to curtail or eliminate business with that customer. We may also assume more credit risk relating to the receivables from that retailer. Our inability to collect the receivable from one of our largest customers or from a group of customers could have a material adverse effect on our business and our financial condition. If a retailer was to liquidate, we may incur additional costs if we choose to purchase the retailer's inventory of our products to protect brand equity.

In addition, sudden disruptions in business conditions, for example, as a consequence of events such as a pandemic or local or international conflicts around the world, or as a result of a terrorist attack, retaliation and the threat of further attacks or retaliation, or as a result of adverse weather conditions or climate changes or seismic events, can have a short-term and, sometimes, long-term impact on consumer spending.

Events that impact consumers' willingness or ability to travel and/or purchase our products while traveling may impact our business, including travel retail, a significant contributor to our overall results, and our strategy to market and sell products to international travelers at their destinations.

A downturn in the economies of, or continuing recessions in, the countries where we sell our products or a sudden disruption of business conditions in those countries could adversely affect consumer confidence, the financial strength of our retailers and our sales and profitability. We are seeing continued softness in certain Southern European countries and Korea due to challenging economic environments, as well as intensifying competitive pressures globally. Elsewhere, we are cautious of an uncertain retail environment in the United States in the short term, unfavorable foreign exchange rates in certain emerging countries, and the lower growth rates we have been experiencing in China. We also continue to see an adverse impact of Chinese government actions on the travel and spending of Chinese consumers, which are affecting sales in the travel retail channel, at their travel destinations and within their home market.

Volatility in the financial markets and a related economic downturn in key markets or markets generally throughout the world could have a material adverse effect on our business. While we currently generate significant cash flows from our ongoing operations and have access to global credit markets through our various financing activities, credit markets may experience significant disruptions. Deterioration in global financial markets or an adverse change in our credit ratings could make future financing difficult or more expensive. If any financial institutions that are parties to our undrawn revolving credit facility or other financing arrangements, such as foreign exchange or interest rate hedging instruments, were to declare bankruptcy or become insolvent, they may be unable to perform under their agreements with us. This could leave us with reduced borrowing capacity or unhedged against certain foreign currency or interest rate exposures which could have an adverse impact on our financial condition and results of operations.

Changes in laws, regulations and policies that affect our business could adversely affect our financial results.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Our business is subject to numerous laws, regulations and policies. Changes in the laws, regulations and policies, including the interpretation or enforcement thereof, that affect, or will affect, our business, including changes in accounting standards, tax laws and regulations, laws and regulations relating to data privacy, anti-corruption, advertising, marketing, manufacturing, distribution, product registration, ingredients, chemicals and packaging, laws in Europe and elsewhere relating to selective distribution, environmental or climate change laws, regulations or accords, trade rules and customs regulations, and the outcome and expense of legal or regulatory proceedings, and any action we may take as a result could adversely affect our financial results.

We are involved, and may become involved in the future, in disputes and other legal or regulatory proceedings that, if adversely decided or settled, could adversely affect our financial results.

We are, and may in the future become, party to litigation, other disputes or regulatory proceedings. In general, claims made by us or against us in litigation, disputes or other proceedings can be expensive and time consuming to bring or defend against and could result in settlements, injunctions or damages that could significantly affect our business or financial results. We are currently vigorously contesting certain of these claims. However, it is not possible to predict the final resolution of the litigation, disputes or proceedings to which we currently are or may in the future become party to, and the impact of certain of these matters on our business, results of operations and financial condition could be material.

Table of Contents

Government reviews, inquiries, investigations, and actions could harm our business or reputation.

As we operate in various locations around the world, our operations in certain countries are subject to significant governmental scrutiny and may be adversely impacted by the results of such scrutiny. The regulatory environment with regard to our business is evolving, and officials often exercise broad discretion in deciding how to interpret and apply applicable regulations. From time to time, we may receive formal and informal inquiries from various government regulatory authorities, as well as self-regulatory organizations, about our business and compliance with local laws, regulations or standards. Any determination that our operations or activities, or the activities of our employees, are not in compliance with existing laws, regulations or standards could result in the imposition of substantial fines, interruptions of business, loss of supplier, vendor or other third-party relationships, termination of necessary licenses and permits, or similar results, all of which could potentially harm our business and/or reputation. Even if an inquiry does not result in these types of determinations, it potentially could create negative publicity which could harm our business and/or reputation.

Our success depends, in part, on the quality, efficacy and safety of our products.

Our success depends, in part, on the quality, efficacy and safety of our products. If our products are found to be defective or unsafe, our product claims are found to be deceptive, or our products otherwise fail to meet our consumers' expectations, our relationships with customers or consumers could suffer, the appeal of one or more of our brands could be diminished, and we could lose sales and/or become subject to liability or claims, any of which could result in a material adverse effect on our business, results of operations and financial condition.

Our success depends, in part, on our key personnel.

Our success depends, in part, on our ability to retain our key personnel, including our executive officers and senior management team. The unexpected loss of one or more of our key employees could adversely affect our business. Our success also depends, in part, on our continuing ability to identify, hire, train and retain other highly qualified personnel. Competition for these employees can be intense. We may not be able to attract, assimilate or retain qualified personnel in the future, and our failure to do so could adversely affect our business. This risk may be exacerbated by the stresses associated with the implementation of our strategic plan and other initiatives.

We are subject to risks related to our foreign operations.

We operate on a global basis, with a majority of our fiscal 2014 net sales and operating income generated outside the United States.

We intend to reinvest these earnings in our foreign operations indefinitely, except where we are able to repatriate these earnings to the United States without material incremental tax provision. A significant portion of our cash and cash equivalents that result from these earnings remain outside the United States. If these indefinitely reinvested earnings were repatriated into the United States as dividends, we would be subject to additional taxes.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

We maintain offices in over 50 countries and have key operational facilities located outside the United States that manufacture, warehouse or distribute goods for sale throughout the world. Foreign operations are subject to many risks and uncertainties, including:

- fluctuations in foreign currency exchange rates, which can affect our results of operations, the value of our foreign assets, the relative prices at which we and foreign competitors sell products in the same markets and the cost of certain inventory and non-inventory items required in our operations;
- foreign laws, regulations and policies, including restrictions on trade, import and export license requirements, and tariffs and taxes, as well as United States laws and regulations relating to foreign trade, operations and investment;
- lack of well-established or reliable legal and administrative systems in certain countries in which we operate; and
- adverse weather conditions, currency exchange controls, and social, economic and geopolitical conditions, such as terrorist attacks, war or other military action.

These risks could have a material adverse effect on our business, prospects, reputation, results of operations and financial condition.

A disruption in operations or our supply chain could adversely affect our business and financial results.

As a company engaged in manufacturing and distribution on a global scale, we are subject to the risks inherent in such activities, including industrial accidents, environmental events, strikes and other labor disputes, disruptions in supply chain or information systems, loss or impairment of key manufacturing sites or suppliers, product quality control, safety, increase in commodity prices and energy costs, licensing requirements and other regulatory issues, as well as natural disasters and other external factors over which we have no control. If such an event were to occur, it could have an adverse effect on our business and financial results.

Table of Contents

We use a wide variety of direct and indirect suppliers of goods and services from around the world. Some of our products rely on single or a limited number of suppliers. Changes in the financial or business condition of our suppliers could subject us to losses or adversely affect our ability to bring products to market. Further, the failure of our suppliers to deliver goods and services in sufficient quantities, in compliance with applicable standards, and in a timely manner could adversely affect our customer service levels and overall business. In addition, any increases in the costs of goods and services for our business may adversely affect our profit margins if we are unable to pass along any higher costs in the form of price increases or otherwise achieve cost efficiencies in our operations.

Our information systems and websites may be susceptible to cybersecurity breaches, outages, and other risks.

We have information systems that support our business processes, including product development, marketing, sales, order processing, production, distribution, finance and intracompany communications throughout the world. We have e-commerce, m-commerce and other Internet websites in the United States and many other countries. These systems may be susceptible to outages due to fire, floods, power loss, telecommunications failures, break-ins and similar events. Despite the implementation of network security measures, our systems may be vulnerable to cybersecurity breaches such as computer viruses, break-ins and similar disruptions from unauthorized tampering. The occurrence of these or other events could disrupt or damage our information systems and adversely affect our business and results of operations.

Failure to adequately maintain the security of our electronic and other confidential information could materially adversely affect our financial condition and results of operations.

We are dependent upon automated information technology processes. As part of our normal business activities, we collect and store certain information that is confidential, proprietary or otherwise sensitive, including personal information with respect to customers and employees. We may share some of this information with vendors who assist us with certain aspects of our business. Moreover, the success of our e-commerce and m-commerce operations depends upon the secure transmission of confidential and personal data over public networks, including the use of cashless payments. Any failure on the part of us or our vendors to maintain the security of our confidential data and our employees' and customers' personal information, including via the penetration of our network security and the misappropriation of confidential and personal information, could result in business disruption, damage to our reputation, financial obligations to third parties, fines, penalties, regulatory proceedings and private litigation with potentially large costs, and also result in deterioration in our employees' and customers' confidence in us and other competitive disadvantages, and thus could have a material adverse impact on our business, financial condition and results of operations. In addition, a security breach could require that we expend significant additional resources to enhance our information security systems and could result in a disruption to our operations.

We are subject to risks associated with implementing global information systems.

As part of our Strategic Modern Initiative (SMI), we are implementing enterprise-wide global programs intended to deliver a single set of integrated data, processes and technologies, which would be scalable and used to standardize business processes across brands, regions and functions. We are also implementing other systems, including global human resource management systems and retail operating systems. Like most entity-wide changes to software systems, the implementation of SMI and other systems involve risks and uncertainties. Failure to implement SMI and other systems as planned, in terms of timing, specifications and/or costs could have an adverse impact on our business and results of operations.

As we outsource functions, we become more dependent on the entities performing those functions.

As part of our long-term strategy, we are continually looking for opportunities to provide essential business services in a more cost-effective manner. In some cases, this requires the outsourcing of functions or parts of functions that can be performed more effectively by external service providers. These include certain information systems functions such as information technology operations, and certain human resource functions such as employee benefit plan administration. While we believe we conduct appropriate due diligence before entering into agreements with the outsourcing entity, the failure of one or more entities to provide the expected services, provide them on a timely basis or to provide them at the prices we expect may have a material adverse effect on our results of operations or financial condition.

Table of Contents

The trading prices of our securities periodically may rise or fall based on the accuracy of predictions of our earnings or other financial performance.

Our business planning process is designed to maximize our long-term strength, growth and profitability, not to achieve an earnings target in any particular fiscal quarter. We believe that this longer-term focus is in the best interests of the Company and our stockholders. At the same time, however, we recognize that it may be helpful to provide investors with guidance as to our forecast of net sales, earnings per share and other financial metrics or projections. Accordingly, when we announced our year-end financial results for fiscal 2014, we provided guidance as to a number of assumptions, including our expected net sales and earnings per share for the quarter ending September 30, 2014 and the fiscal year ending June 30, 2015. While we generally expect to provide updates to our guidance when we report our results each fiscal quarter, we assume no responsibility to update any of our forward-looking statements at such times or otherwise. In addition, the longer-term guidance we provide is based on goals that we believe, at the time guidance is given, are reasonably attainable for growth and performance over a number of years. Such targets are more difficult to predict than our current quarter and fiscal year expectations.

In all of our public statements when we make, or update, a forward-looking statement about our net sales and/or earnings expectations or expectations regarding restructuring or other initiatives, we accompany such statements directly, or by reference to a public document, with a list of factors that could cause our actual results to differ materially from those we expect. Such a list is included, among other places, in our earnings press release and in our periodic filings with the Securities and Exchange Commission (e.g., in our reports on Form 10-K and Form 10-Q). These and other factors may make it difficult for us and for outside observers, such as research analysts, to predict what our earnings will be in any given fiscal quarter or year.

Outside analysts and investors have the right to make their own predictions of our financial results for any future period. Outside analysts, however, have access to no more material information about our results or plans than any other public investor, and we do not endorse their predictions as to our future performance. Nor do we assume any responsibility to correct the predictions of outside analysts or others when they differ from our own internal expectations. If and when we announce actual results that differ from those that outside analysts or others have been predicting, the market price of our securities could be affected. Investors who rely on the predictions of outside analysts or others when making investment decisions with respect to our securities do so at their own risk. We take no responsibility for any losses suffered as a result of such changes in the prices of our securities.

We are controlled by the Lauder family. As a result of their control of us, the Lauder family has the ability to prevent or cause a change in control or approve, prevent or influence certain actions by us.

As of August 14, 2014, members of the Lauder family beneficially own, directly or indirectly, shares of the Company's Class A Common Stock (with one vote per share) and Class B Common Stock (with 10 votes per share) having 86.7% of the outstanding voting power of the Common Stock. In addition, there are four members of the Lauder family who are employees, including three who are members of our Board of Directors. Another family member is on our board and is a party to a consulting agreement and a license agreement with us. As a result of the stock ownership and their positions at the Company, the Lauder family has the ability to exercise significant control and influence over our business, including, without limitation, all matters requiring stockholder approval, including the election of directors, amendments to the certificate of incorporation and significant corporate transactions, such as a merger or other sale of our Company or its assets, for the foreseeable future.

We are a controlled company within the meaning of the New York Stock Exchange rules and, as a result, are relying on exemptions from certain corporate governance requirements that are designed to provide protection to stockholders of companies that are not controlled

companies.

The Lauder family and their related entities own more than 50% of the total voting power of our common shares and, as a result, we are a controlled company under the New York Stock Exchange corporate governance standards. As a controlled company, we are exempt under the New York Stock Exchange standards from the obligation to comply with certain New York Stock Exchange corporate governance requirements, including the requirements:

- that a majority of our board of directors consists of independent directors;
- that we have a nominating committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.

While we have voluntarily caused our Board to have a majority of independent directors and the written charters of our Nominating and Board Affairs Committee and the Compensation Committee to have the required provisions, we are not requiring our Nominating and Board Affairs Committee and Compensation Committee to be comprised solely of independent directors. As a result of our use of the controlled company exemptions, investors will not have the same protection afforded to stockholders of companies that are subject to all of the New York Stock Exchange corporate governance requirements.

Table of Contents**Item 1B. Unresolved Staff Comments.**

As of the filing of this annual report on Form 10-K, there were no unresolved comments from the Staff of the Securities and Exchange Commission.

Item 2. Properties.

The following table sets forth our principal owned and leased manufacturing, assembly, research and development and distribution facilities as of August 14, 2014. The leases expire at various times through 2029 subject to certain renewal options.

Location		Use	Approximate Square Footage
The Americas			
Blaine, Minnesota	Owned	Manufacturing and R&D	275,000
Blaine, Minnesota	Leased	Distribution	187,000

---------------	--------	--------------	---------

We own, lease and occupy numerous offices, assembly and distribution facilities and warehouses in the United States and abroad. We consider our properties to be generally in good condition and believe that our facilities are adequate for our operations and provide sufficient capacity to meet anticipated requirements. We lease approximately 680,000 square feet of rentable space for our principal offices in New York, New York. We own a building of approximately 57,000 square feet of office space in Melville, New York. As of August 14, 2014, we directly operated approximately 940 retail stores.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market for Registrant's Common Equity and Related Stockholder Matters

Our Class A Common Stock is publicly traded on the New York Stock Exchange under the symbol EL. The following table shows the high and low per share sales prices as reported on the New York Stock Exchange Composite Tape and the cash dividends per share declared in fiscal 2014 and fiscal 2013:

A large black rectangular redaction box covers the table content, obscuring the high and low per share sales prices and cash dividends per share for fiscal 2014 and fiscal 2013.

We expect to continue the payment of cash dividends in the future, but there can be no assurance that the Board of Directors will continue to declare them. We transitioned to a quarterly dividend payout schedule for our Class A and Class B Common Stock beginning in the fiscal 2013 third quarter. Accordingly, the total cash dividends per share in fiscal 2013 is equivalent to six quarterly dividends. As a result, the total value of cash dividends per share paid in fiscal 2014 was lower than the dividends per share paid in fiscal 2013. On August 14, 2014, a dividend was declared in the amount of \$.20 per share on our Class A and Class B Common Stock. The dividend is payable in cash on September 15, 2014 to stockholders of record at the close of business on August 29, 2014.

As of August 14, 2014, there were 8,910 record holders of Class A Common Stock and 16 record holders of Class B Common Stock.

Share Repurchase Program

We are authorized by the Board of Directors to repurchase up to 216.0 million shares of our Class A Common Stock in the open market or in privately negotiated transactions, depending on market conditions and other factors. As of June 30, 2014, the cumulative total of acquired shares pursuant to the authorization was 175.9 million, reducing the remaining authorized share repurchase balance to 40.1 million. During fiscal 2014, we purchased approximately 8.9 million shares pursuant to the authorization for \$617.1 million as outlined in the following table:

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program(1)
July 2013	358,900	\$65.36	358,900	48,583,218
August 2013	279,200	65.68	279,200	48,304,018
September 2013	264,386(2)	66.76		48,304,018
October 2013	443,373(2)	72.76		48,304,018
November 2013	1,031,000	71.44	1,031,000	47,273,018
December 2013	540,127	73.19	540,127	46,732,891
January 2014	979,192(2)	71.41	978,152	45,754,739
February 2014	3,119,197	67.41	3,119,197	42,635,542
March 2014	1,676,604(2)	68.70	1,675,636	40,959,906
April 2014	163,051(2)	67.36	161,591	40,798,315
May 2014	420,500	73.70	420,500	40,377,815
June 2014	326,656	76.53	326,656	40,051,159
	9,602,186	69.49	8,890,959	

(1) The initial program covering the repurchase of 16.0 million shares was announced in September 1998 and increased by 40.0 million shares each in November 2012, November 2007, February 2007 and May 2005 and 20.0 million shares in both May 2004 and October 2002.

(2) Includes shares that were repurchased by the Company in connection with shares withheld to satisfy tax obligations upon the vesting of stock-based compensation.

Subsequent to June 30, 2014 and as of August 14, 2014, we purchased approximately 1.7 million additional shares of Class A Common Stock for \$130.7 million pursuant to our share repurchase program.

Table of Contents**Item 6. Selected Financial Data.**

The table below summarizes selected financial information. For further information, refer to the audited consolidated financial statements and the notes thereto beginning on page F-1 of this report.

	2014 (a)	Year Ended or at June 30			2010 (a)
		2013 (a)	2012 (a)	2011 (a)

Stockholders' equity - The Estée Lauder Companies Inc.	3,854.9	3,286.9	2,733.2	2,629.4	1,948.4

(a) Fiscal 2014 results included \$(1.8) million, after tax, related to total adjustments associated with restructuring activities. Fiscal 2013 results included \$11.7 million, after tax, or \$.03 per diluted share related to total charges associated with restructuring activities. Fiscal 2012 results included \$44.1 million, after tax, or \$.11 per diluted share related to total charges associated with restructuring activities. Fiscal 2011 results included \$41.7 million, after tax, or \$.10 per diluted share related to total charges associated with restructuring activities. Fiscal 2010 results included \$55.9 million, after tax, or \$.14 per diluted share related to total charges associated with restructuring activities.

(b) As a result of our July 2014 SMI rollout, approximately \$178 million of accelerated orders were recorded as net sales and \$127 million as operating income in fiscal 2014 that we believe would normally occur in the fiscal 2015 first quarter, equal to approximately \$.21 per diluted common share.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

(c) During the third quarter of fiscal 2014, we recorded a \$38.3 million charge, on a before and after tax basis, related to the remeasurement of net monetary assets in Venezuela, equal to \$.10 per diluted common share.

(d) In September 2012, we redeemed the \$230.1 million principal amount of our 7.75% Senior Notes due November 1, 2013 (2013 Senior Notes) at a price of 108% of the principal amount. We recorded a pre-tax expense on the extinguishment of debt of \$19.1 million (\$12.2 million after tax, or \$.03 per diluted share) representing the call premium of \$18.6 million and the pro-rata write-off of \$0.5 million of issuance costs and debt discount. In May 2010, we completed a cash tender offer for \$130.0 million principal amount of our 6.00% Senior Notes due January 15, 2012 at a price of 108.500% of the principal amount and for \$69.9 million principal amount of our 2013 Senior Notes at a tender price of 118.813% of the principal amount. During the fourth quarter of fiscal 2010, we recorded a pre-tax expense on the extinguishment of debt of \$27.3 million representing the tender premium, the pro-rata write-off of unamortized terminated interest rate swap, issuance costs and debt discount, and tender offer costs associated with both series of notes.

(e) In December 2012, we amended the agreement related to the August 2007 sale of Rodan + Fields (a brand then owned by us) to receive a fixed amount in lieu of future contingent consideration and other rights. Accordingly, we recognized \$22.4 million, net of discount of \$0.4 million, which has been classified as other income in our consolidated statement of earnings. Prior to this amendment, we earned and received \$0.7 million of contingent consideration. In November 2011, we settled a commercial dispute with third parties that was outside our normal operations. In connection therewith, we received a \$10.5 million cash payment, which has been classified as other income in our consolidated statement of earnings.

(f) In August 2012, we issued \$250.0 million of 2.35% Senior Notes due August 15, 2022 and \$250.0 million of 3.70% Senior Notes due August 15, 2042 in a public offering. We used the net proceeds of the offering to redeem the 2013 Senior Notes and for general corporate purposes.

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The discussion and analysis of our financial condition at June 30, 2014 and our results of operations for the three fiscal years ended June 30, 2014 are based upon our consolidated financial statements, which have been prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP). The preparation of these financial statements requires us to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in those financial statements. These estimates and assumptions can be subjective and complex and, consequently, actual results could differ from those estimates. We consider accounting estimates to be critical if both (i) the nature of the estimate or assumption is material due to the levels of subjectivity and judgment involved, and (ii) the impact within a reasonable range of outcomes of the estimate and assumption is material to the Company's financial condition. Our most critical accounting policies relate to revenue recognition, inventory, pension and other post-retirement benefit costs, goodwill, other intangible assets and long-lived assets and income taxes.

Management of the Company has discussed the selection of significant accounting policies and the effect of estimates with the Audit Committee of the Company's Board of Directors.

Revenue Recognition

Revenues from product sales are recognized upon transfer of ownership, including passage of title to the customer and transfer of the risk of loss related to those goods. In the Americas region, sales are generally recognized at the time the product is shipped to the customer and in the Europe, the Middle East & Africa and Asia/Pacific regions, sales are generally recognized based upon the customer's receipt. In certain circumstances, transfer of title takes place at the point of sale, for example, at our retail stores.

Revenues are reported on a net sales basis, which is computed by deducting from gross sales the amount of actual product returns received, discounts, incentive arrangements with retailers and an amount established for anticipated product returns. Our practice is to accept product returns from retailers only if properly requested, authorized and approved. In accepting returns, we typically provide a credit to the retailer against accounts receivable from that retailer. As a percentage of gross sales, returns were 3.4% in fiscal 2014, 3.3% in fiscal 2013 and 3.5% in fiscal 2012.

Our sales return accrual is a subjective critical estimate that has a direct impact on reported net sales. This accrual is calculated based on a history of actual returns, estimated future returns and information provided by retailers regarding their inventory levels. Consideration of these factors results in an accrual for anticipated sales returns that reflects increases or decreases related to seasonal fluctuations. Experience has shown a relationship between retailer inventory levels and sales returns in the subsequent period, as well as a consistent pattern of returns due to the seasonal nature of our business. In addition, as necessary, specific accruals may be established for significant future known or anticipated events. The types of known or anticipated events that we have considered, and will continue to consider, include, but are not limited to, the financial condition of our customers, store closings by retailers, changes in the retail environment and our decision to continue to support new and existing products.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

In the ordinary course of business, we have established an allowance for doubtful accounts and customer deductions based upon the evaluation of accounts receivable aging, specific exposures and historical trends. Our allowance for doubtful accounts and customer deductions is a subjective critical estimate that has a direct impact on reported net earnings. The allowance for doubtful accounts was \$23.9 million and \$22.7 million as of June 30, 2014 and 2013, respectively. The allowance for doubtful accounts was reduced by \$8.3 million, \$23.0 million and \$13.8 million for customer deductions and write-offs in fiscal 2014, 2013 and 2012, respectively, and increased by \$9.5 million, \$14.6 million and \$11.0 million for additional provisions in fiscal 2014, 2013 and 2012, respectively.

Inventory

We state our inventory at the lower of cost or fair-market value, with cost being based on standard cost which approximates actual cost on the first-in, first-out (FIFO) method. We believe this method most closely matches the flow of our products from manufacture through sale. The reported net value of our inventory includes saleable products, promotional products, raw materials and componentry and work in process that will be sold or used in future periods. Inventory cost includes raw materials, direct labor and overhead, as well as inbound freight. Manufacturing overhead is allocated to the cost of inventory based on the normal production capacity. Unallocated overhead during periods of abnormally low production levels are recognized as cost of sales in the period in which they are incurred.

We also record an inventory obsolescence reserve, which represents the difference between the cost of the inventory and its estimated realizable value, based on various product sales projections. This reserve is calculated using an estimated obsolescence percentage applied to the inventory based on age, historical trends and requirements to support forecasted sales. In addition, and as necessary, we may establish specific reserves for future known or anticipated events.

Table of Contents***Pension and Other Post-retirement Benefit Costs***

We offer the following benefits to some or all of our employees: a domestic trust-based noncontributory qualified defined benefit pension plan (U.S. Qualified Plan) and an unfunded, non-qualified domestic noncontributory pension plan to provide benefits in excess of statutory limitations (collectively with the U.S. Qualified Plan, the Domestic Plans); a domestic contributory defined contribution plan; international pension plans, which vary by country, consisting of both defined benefit and defined contribution pension plans; deferred compensation arrangements; and certain other post-retirement benefit plans.

The amounts needed to fund future payouts under our defined benefit pension and post-retirement benefit plans are subject to numerous assumptions and variables. Certain significant variables require us to make assumptions that are within our control such as an anticipated discount rate, expected rate of return on plan assets and future compensation levels. We evaluate these assumptions with our actuarial advisors and select assumptions that we believe reflect the economics underlying our pension and post-retirement obligations. While we believe these assumptions are within accepted industry ranges, an increase or decrease in the assumptions or economic events outside our control could have a direct impact on reported net earnings.

The discount rate for each plan used for determining future net periodic benefit cost is based on a review of highly rated long-term bonds. For fiscal 2014, we used discount rates for our Domestic Plans of between 4.30% and 4.90% and varying rates on our international plans of between 1.00% and 7.25%. The discount rate for our Domestic Plans is based on a bond portfolio that includes only long-term bonds with an Aa rating, or equivalent, from a major rating agency. We used an above-mean yield curve which represents an estimate of the effective settlement rate of the obligation, and the timing and amount of cash flows related to the bonds included in this portfolio are expected to match the estimated defined benefit payment streams of our Domestic Plans. For our international plans, the discount rate in a particular country was principally determined based on a yield curve constructed from high quality corporate bonds in each country, with the resulting portfolio having a duration matching that particular plan.

For fiscal 2014, we used an expected return on plan assets of 7.50% for our U.S. Qualified Plan and varying rates of between 2.25% and 7.25% for our international plans. In determining the long-term rate of return for a plan, we consider the historical rates of return, the nature of the plan's investments and an expectation for the plan's investment strategies. See *Item 8. Financial Statements and Supplementary Data Note 12 Pension, Deferred Compensation and Post-retirement Benefit Plans* for details regarding the nature of our pension and post-retirement plan investments. The difference between actual and expected return on plan assets is reported as a component of accumulated other comprehensive income. Those gains/losses that are subject to amortization over future periods will be recognized as a component of the net periodic benefit cost in such future periods. For fiscal 2014, our pension plans had actual return on assets of approximately \$129 million as compared with expected return on assets of approximately \$68 million. The resulting net deferred gain of approximately \$61 million, when combined with gains and losses from previous years, will be amortized over periods ranging from approximately 7 to 23 years. The actual return on plan assets from our global pension plans exceeded expectations, primarily reflecting strong performance from global equity and U.S. fixed income investments.

A 25 basis-point change in the discount rate or the expected rate of return on plan assets would have had the following effect on fiscal 2014 pension expense:

(In millions)	25 Basis-Point Increase	25 Basis-Point Decrease
Discount rate	\$ (4.0)	\$ 4.2
Expected return on assets	\$ (2.7)	\$ 2.7

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Our post-retirement plans are comprised of health care plans that could be impacted by health care cost trend rates, which may have a significant effect on the amounts reported. A one-percentage-point change in assumed health care cost trend rates for fiscal 2014 would have had the following effects:

(In millions)	One-Percentage-Point Increase	One-Percentage-Point Decrease
Effect on total service and interest costs	\$ 1.3	\$ (1.1)
Effect on post-retirement benefit obligations	\$ 13.9	\$ (12.1)

To determine the fiscal 2015 net periodic benefit cost, we are using discount rates of 4.30% and 3.60% for the U.S. Qualified Plan and the non-qualified domestic noncontributory pension plan, respectively, and varying rates for our international plans of between .50% and 6.75%. We are using an expected return on plan assets of 7.50% for the U.S. Qualified Plan and varying rates for our international pension plans of between 2.00% and 6.75%. The net change in these assumptions from those used in fiscal 2014 will result in an increase in pension expense of approximately \$3 million in fiscal 2015.

Table of Contents

Goodwill, Other Intangible Assets and Long-Lived Assets

Goodwill is calculated as the excess of the cost of purchased businesses over the fair value of their underlying net assets. Other indefinite-lived intangible assets principally consist of trademarks. Goodwill and other indefinite-lived intangible assets are not amortized.

We assess goodwill and other indefinite-lived intangibles at least annually for impairment as of the beginning of the fiscal fourth quarter, or more frequently if certain events or circumstances exist. We test goodwill for impairment at the reporting unit level, which is one level below our operating segments. We identify our reporting units by assessing whether the components of our operating segments constitute businesses for which discrete financial information is available and management of each reporting unit regularly reviews the operating results of those components. We make certain judgments and assumptions in allocating assets and liabilities to determine carrying values for our reporting units. Impairment testing is performed in two steps: (i) we determine if an indication of impairment exists by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, we measure the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. The impairment test for indefinite-lived intangible assets encompasses calculating a fair value of an indefinite-lived intangible asset and comparing the fair value to its carrying value. If the carrying value exceeds the fair value an impairment charge is recorded.

Testing goodwill for impairment requires us to estimate fair values of reporting units using significant estimates and assumptions. The assumptions made will impact the outcome and ultimate results of the testing. We use industry accepted valuation models and set criteria that are reviewed and approved by various levels of management and, in certain instances, we engage third-party valuation specialists for advice. To determine fair value of the reporting units, we generally use an equal weighting of the income and market approaches. In certain circumstances, equal weighting will not be applied if one of these methods may be less applicable (e.g., only the income approach would be used for reporting units with existing negative margins). We believe both approaches are equally relevant and the most reliable indications of fair value because the fair value of product or service companies is more dependent on the ability to generate earnings than on the value of the assets used in the production process.

Under the income approach, we determine fair value using a discounted cash flow method, projecting future cash flows of each reporting unit, as well as a terminal value, and discounting such cash flows at a rate of return that reflects the relative risk of the cash flows. Under the market approach, we utilize information from comparable publicly traded companies with similar operating and investment characteristics as the reporting units, which creates valuation multiples that are applied to the operating performance of the reporting unit being tested, to value the reporting unit.

The key estimates and factors used in these two approaches include, but are not limited to, revenue growth rates and profit margins based on internal forecasts, terminal value, the weighted-average cost of capital used to discount future cash flows and comparable market multiples. The fiscal 2014 compound annual growth rate of sales for the first eight years of our projections, as considered appropriate for the individual reporting units, ranged between 3% and 17% with the higher growth rates in certain of the Company's smaller reporting units that are expected to continue the growth that they have exhibited over the past several years. The following fiscal 2013 estimates and factors exclude those related to our Darphin reporting unit, for which we recorded an impairment charge of the remainder of its goodwill. The fiscal 2013 compound annual growth rate of sales for the first five to eight years of our projections ranged between 5% and 22% with the higher growth rates in certain of the Company's smaller reporting units that are expected to continue the growth that they have exhibited over the past several years. For reporting units with positive earnings, growth in the corresponding earnings before interest and taxes ranged from 3% to 38% in fiscal 2014 as compared with 7% to 49% in fiscal 2013. The terminal growth rates were projected at 3% after eight years in fiscal 2014 and five to eight years in fiscal 2013, which reflects our estimate of long-term market and gross domestic product growth. The weighted-average cost of capital used to discount future cash flows ranged from 9% to 17% in fiscal 2014 as compared with 8% to 15% in fiscal 2013. The range of market multiples used in our fiscal 2014 impairment testing was from 1.2 to 3.5 times trailing-twelve-month sales and 9.0 to 12.0 times trailing-twelve-month earnings before interest, taxes, depreciation and amortization. The range of market multiples used in our fiscal 2013 impairment testing was from 1.5 to 3.5 times trailing-twelve-month sales and between 8.5 to 13.0 times trailing-twelve-month earnings before interest, taxes and

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

depreciation and amortization. Future changes in these estimates and assumptions could materially affect the results of our reviews for impairment of goodwill. However, a decrease of 100 basis points in our terminal growth rate or an increase of 100 basis points in our weighted-average cost of capital would still result in a fair value calculation exceeding our book value for each of our reporting units. Changes in the valuation assumptions from those used in the prior year primarily reflect the impact of the current economic environment on the reporting units and their projected future results of operations.

Table of Contents

To determine fair value of other indefinite-lived intangible assets, we use an income approach, the relief-from-royalty method. This method assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to obtain the rights to use the comparable asset. Other indefinite-lived intangible assets' fair values require significant judgments in determining both the assets' estimated cash flows as well as the appropriate discount and royalty rates applied to those cash flows to determine fair value. Changes in such estimates or the application of alternative assumptions could produce significantly different results. The fiscal 2014 and fiscal 2013 terminal growth rate applied to future cash flows was 3% and the fiscal 2014 and fiscal 2013 discount rates ranged from 9% to 17% in fiscal 2014 and 10% to 18% in fiscal 2013. The fiscal 2014 and fiscal 2013 royalty rates ranged from 0.5% to 12%. These rates exclude those related to the Darphin trademark, for which we recorded an impairment charge for its remaining carrying value in fiscal 2013.

As of our annual step-one goodwill and indefinite-lived asset impairment test on April 1, 2014, the fair values of our reporting units and the fair values of our indefinite-lived intangible assets substantially exceeded their respective carrying values.

We review long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. When such events or changes in circumstances occur, a recoverability test is performed comparing projected undiscounted cash flows from the use and eventual disposition of an asset or asset group to its carrying value. If the projected undiscounted cash flows are less than the carrying value, an impairment would be recorded for the excess of the carrying value over the fair value, which is determined by discounting future cash flows.

Income Taxes

We account for income taxes using an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. As of June 30, 2014, we have current net deferred tax assets of \$295.1 million and non-current net deferred tax assets of \$85.5 million. The net deferred tax assets assume sufficient future earnings for their realization, as well as the continued application of currently anticipated tax rates. Included in net deferred tax assets is a valuation allowance of \$115.2 million for deferred tax assets, where management believes it is more-likely-than-not that the deferred tax assets will not be realized in the relevant jurisdiction. Based on our assessments, no additional valuation allowance is required. If we determine that a deferred tax asset will not be realizable, an adjustment to the deferred tax asset will result in a reduction of net earnings at that time while the reduction of a valuation allowance will result in an increase of net earnings at that time.

We provide tax reserves for U.S. federal, state, local and foreign exposures relating to periods subject to audit. The development of reserves for these exposures requires judgments about tax issues, potential outcomes and timing, and is a subjective critical estimate. We assess our tax positions and record tax benefits for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting dates. For those tax positions where it is more-likely-than-not that a tax benefit will be sustained, we have recorded the largest amount of tax benefit with a greater than 50% likelihood of being realized upon settlement with a tax authority that has full knowledge of all relevant information. For those tax positions where it is not more-likely-than-not that a tax benefit will be sustained, no tax benefit has been recognized in the consolidated financial statements. We classify applicable interest and penalties as a component of the provision for income taxes. Although the outcome relating to these exposures is uncertain, in management's opinion adequate provisions for income taxes have been made for estimable potential liabilities emanating from these exposures. If actual outcomes differ materially from these estimates, they could have a material impact on our consolidated results of operations.

Quantitative Analysis

During the three-year period ended June 30, 2014, there have not been material changes in the assumptions underlying these critical accounting policies, nor to the related significant estimates. The results of our business underlying these assumptions have not differed significantly from

our expectations.

While we believe that the estimates that we have made are proper and the related results of operations for the period are presented fairly in all material respects, other assumptions could reasonably be justified that would change the amount of reported net sales, cost of sales, operating expenses or our provision for income taxes as they relate to the provisions for anticipated sales returns, allowance for doubtful accounts, inventory obsolescence reserve and income taxes. For fiscal 2014, had these estimates been changed simultaneously by 2.5% in either direction, our reported gross profit would have increased or decreased by approximately \$5.8 million, operating expenses would have changed by approximately \$0.6 million and the provision for income taxes would have increased or decreased by approximately \$0.7 million. The collective impact of these changes on operating income, net earnings attributable to The Estée Lauder Companies Inc., and net earnings attributable to The Estée Lauder Companies Inc. per diluted common share would be an increase or decrease of approximately \$6.4 million, \$5.7 million and \$.01, respectively.

Table of Contents**RESULTS OF OPERATIONS**

We manufacture, market and sell beauty products including those in the skin care, makeup, fragrance and hair care categories which are distributed in over 150 countries and territories. The following table is a comparative summary of operating results for fiscal 2014, 2013 and 2012 and reflects the basis of presentation described in *Item 8. Financial Statements and Supplementary Data Note 2 Summary of Significant Accounting Policies* and *Note 19 Segment Data and Related Information* for all periods presented. Products and services that do not meet our definition of skin care, makeup, fragrance and hair care have been included in the other category.

In order to meet the demands of consumers, we continually introduce new products, support new and established products through advertising, merchandising and sampling and phase out existing products that no longer meet the needs of our consumers or our objectives. The economics of developing, producing, launching, supporting and discontinuing products impact our sales and operating performance each period. The introduction of new products may have some cannibalizing effect on sales of existing products, which we take into account in our business planning.

We operate on a global basis, with the majority of our net sales generated outside the United States. Accordingly, fluctuations in foreign currency exchange rates can affect our results of operations. Therefore, we present certain net sales information excluding the effect of foreign currency rate fluctuations to provide a framework for assessing the performance of our underlying business outside the United States. Constant currency information compares results between periods as if exchange rates had remained constant period-over-period. We calculate constant currency information by translating current year results using prior year weighted-average foreign currency exchange rates.

Overview

We believe that the best way to continue to increase stockholder value is to provide our customers and consumers with the products and services that they have come to expect from us in the most efficient and profitable manner while recognizing consumers' changing shopping habits. To be the global leader in prestige beauty, we continued to implement a long-term strategy that is guiding us through fiscal 2017. The strategy has numerous initiatives across geographic regions, channels of distribution, product categories, brands and functions that are designed to leverage our strengths, make us more productive and grow our sales.

We have a strong, diverse and highly valuable brand portfolio with global reach and potential, and we plan to continue building upon and leveraging our history of outstanding creativity, innovation and entrepreneurship. We have succeeded in expanding our distinctive High-Touch service model and will continue to look for ways to further evolve it within our channels of distribution and geographic regions. As an example, we continue to enhance our capabilities to deliver superior retailing experiences across our brands, particularly in freestanding retail stores. We also continue to increase brand awareness and sales by expanding our multi-pronged digital presence encompassing e-commerce and m-commerce, as well as digital and social media. We are leveraging our regional organization in an effort to assure that we are locally relevant with our products, services, channels, marketing and visual merchandising.

Table of Contents

As part of our strategy, we are continuing to position ourselves to capitalize on opportunities in the fastest-growing areas in prestige beauty. Skin care, our most profitable product category, continues to be a strategic priority for our innovation and investment spending, particularly in the Asia/Pacific region and with product launches such as Advanced Night Repair Synchronized Recovery Complex II from Estée Lauder and Dramatically Different Moisturizing Lotion + from Clinique. We are also focusing our attention on luxury consumers across all product categories and have seen continued strength in the net sales of many of our higher-end prestige products. We also continue to build our makeup product category through the introduction of new product offerings, including new collections from our makeup artist brands and Pure Color Sculpting lipstick from Estée Lauder and our fragrance category through new launches and innovation, such as Estée Lauder Modern Muse and new fragrances from Michael Kors and Tory Burch. In addition, we are continuing to expand our hair care brands both in salons and in other retail channels.

We are strengthening our geographic presence by seeking share growth in large, image-building cities within core markets such as the United States, the United Kingdom, France, Italy and Japan. In addition, we continue to prioritize efforts to expand our presence and accelerate share growth in emerging markets such as China, the Middle East, Eastern Europe, Brazil and South Africa and focus on consumers who purchase in the travel retail channel, in stores at their travel destinations or when they return to their home market. We also continue to expand our digital presence in international markets, which has resulted in growth in the net sales of our products sold online. In North America, despite solid retail sales growth during the holiday season, we saw a softening in the retail environment during the second half of fiscal 2014 in our traditional department store channel, due in part to adverse winter weather conditions. At the same time, we continued to expand our presence in other channels, such as specialty multi-brand retailers, freestanding retail stores and online. Internationally, we continue to take actions to grow in European perfumeries and pharmacies and in department stores, particularly in Asia and the United Kingdom. In addition, we are emphasizing our skin care and makeup initiatives to boost our travel retail sales and continuing efforts to grow our business in the freestanding retail store, online, specialty multi-brand retailer and prestige salon channels. The travel retail channel continues to be an important source of sales growth and profitability. Our business in this channel has benefited from the implementation of programs we designed to target consumers in distinct travel corridors, enhance consumers' High-Touch experiences and convert travelers into purchasers.

While our overall business is performing well, we are seeing continued softness in certain Southern European countries and Korea due to challenging economic environments, as well as intensifying competitive pressures globally. Elsewhere, we are cautious of an uncertain retail environment in the United States in the short term, unfavorable foreign exchange rates in certain emerging countries, and the lower growth rates we have been experiencing in China. We also continue to see an adverse impact of Chinese government actions on the travel and spending of Chinese consumers, which are affecting sales in the travel retail channel, at their travel destinations and within their home market.

We believe we have and will continue to offset to some extent the impact of these challenges as a result of our strategy to mitigate weaknesses we find in certain areas by utilizing the strengths of our diverse brand portfolio and geographic presence in other areas. However, if economic conditions or the degree of uncertainty or volatility worsen, or the adverse conditions previously discussed are further prolonged, then we expect there to be a negative effect on ongoing consumer confidence, demand and spending and, as a result, our business. We will continue to monitor these and other risks that may affect our business.

Looking ahead to fiscal 2015, we plan to continue building on our strengths and our heritage of innovation to bring unique and high-performance products with long-term appeal and enduring quality to our consumers. We expect our strategy will enable us to continue to succeed in high growth channels, benefit from regional opportunities, focus on emerging market consumers and enhance our local relevance. We plan on continuing to incorporate our personalized High-Touch philosophy through customization with key retailers, expansion in freestanding retail stores and extending it to fast-growing digital platforms. We remain dedicated to investing in select areas to improve our capabilities or develop new ones. Our main focuses are digital capabilities, research and development, product innovation, consumer insight, information technology improvements and operational excellence.

Table of Contents

We rolled out the last major wave of SMI in July 2014 in certain of our remaining locations. As a result, some retailers accelerated their sales orders that we believe would normally occur in our fiscal 2015 first quarter into our fiscal 2014 fourth quarter in advance of this implementation to provide adequate safety stock to mitigate any potential short-term business interruption associated with the SMI rollout. The impact on net sales and operating results by product category and geographic region is as follows:

(In millions)	Year Ended	
	Net Sales	Operating Results
Product Category:		

These actions created a favorable comparison between fiscal 2014 and fiscal 2013 of approximately \$178 million in net sales and approximately \$127 million in operating results and impacted our operating margin comparisons. While these additional orders benefited our fiscal 2014 net sales and operating results comparisons, we expect there to be a corresponding adverse effect on our first quarter and full year fiscal 2015 net sales and operating results. We believe the presentation of certain year-to-date comparative information in the following discussions that excludes the impact of the timing of these orders is useful in analyzing the net sales performance and operating results of our business.

Impact of Recent Economic Events in Venezuela

Our Venezuelan subsidiary has been operating in a highly inflationary economy since January 2010. Ongoing macroeconomic uncertainties in Venezuela have resulted in stringent controls on foreign currency exchange. In February 2013, there was a devaluation of the Venezuelan currency, the bolivar fuerte (VEF), from an official rate of 4.3 to 6.3. We recorded a devaluation charge in our fiscal 2013 third quarter, which did not have a significant impact on our consolidated net sales or operating income. In October 2013, the Venezuelan government introduced an auction-based foreign currency exchange mechanism (SICAD I). Participation in the weekly auctions is limited to certain industries determined by the Venezuelan government. Since we were unable to transact in the only SICAD I auction we were authorized to participate, we continued to use the official published rate of 6.3 to remeasure our VEF-denominated monetary assets and liabilities.

During the third quarter of fiscal 2014, the Venezuelan government enacted additional changes to the country's foreign exchange controls that expanded the use of SICAD I and created a third exchange control mechanism (SICAD II), which allows all companies in all sectors to apply for the purchase of foreign currency and foreign currency denominated securities for any legal use or purpose. As a result, we considered our company-specific facts and circumstances in determining the appropriate remeasurement rate, principally assessing our legal eligibility to access the available foreign exchange mechanisms, the transactions that would be eligible, our past and expected future ability to transact through those mechanisms, and our intent to utilize a particular mechanism for particular purposes. Although the SICAD II mechanism and its level and frequency of exchange continue to be regulated by the Venezuelan government, it offers the possibility of foreign exchange in a theoretically

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

open market without restricted uses and in our opinion is the only mechanism legally available at this time for our highest priority transactions, which are the import of goods. We have submitted applications to access U.S. dollars through the SICAD II mechanism and certain applications have been approved and we have received funds through June 30, 2014. While there is no guarantee our future applications will be accepted, based on the enacted changes and related considerations of how our business is eligible under the requirements established by the Venezuelan authorities, we believe the SICAD II rate was, and continues to be, the most appropriate rate that reflects the economics of our Venezuelan subsidiary's business since March 24, 2014, when the SICAD II mechanism became operational. As a result, we changed the exchange rate used to remeasure our VEF-denominated monetary assets and liabilities from 6.3 to the SICAD II rate, which was 49.98 as of June 30, 2014. Accordingly, a remeasurement charge of \$38.3 million, on a before and after tax basis, was reflected in our consolidated statement of earnings for the year ended June 30, 2014.

Table of Contents

Furthermore, in January 2014, in an effort to control inflation, pricing and product shortages, the Venezuelan government enacted a law which imposed a cap on profit margins. We have evaluated the impact of this law and while it has challenged our local business, it did not have a significant impact on our consolidated financial statements for the fiscal year ended June 30, 2014.

Further controls on foreign currency exchange or other actions by the Venezuelan government could have an impact on our local business, however, we do not consider our Venezuelan operations significant to our overall business. On a consolidated basis, we derived less than 1% of our net sales and approximately 1% of our operating income (before the remeasurement charge) from our business in Venezuela for the year ended June 30, 2014.

Returns and Charges Associated with Restructuring Activities

During the second quarter of fiscal 2013, we closed our multi-faceted cost savings program implemented in February 2009 (the Program) and have executed substantially all remaining initiatives as of June 30, 2014. Total cumulative restructuring charges and other costs to implement those initiatives from inception of the Program to date are \$317.5 million.

Restructuring Charges (Adjustments)

The following table presents aggregate restructuring charges (adjustments) related to the Program to date:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Fiscal 2009	\$ 60.9	\$ 4.2	\$ 3.4	\$ 1.8	\$ 70.3
Fiscal 2010	29.3	11.0	2.3	6.2	48.8
Fiscal 2011	34.6	2.4	3.0	1.1	41.1
Fiscal 2012	37.1	1.7	12.6	2.2	53.6
Fiscal 2013	7.7	2.1	1.5	3.3	14.6
Fiscal 2014	(4.1)		1.2		(2.9)
Charges (adjustments) recorded through June 30, 2014	\$ 165.5	\$ 21.4	\$ 24.0	\$ 14.6	\$ 225.5

The following table presents accrued restructuring charges (adjustments) and the related activities under the Program to date:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Balance at June 30, 2012	\$ 47.9	\$	\$ 0.8	\$ 0.5	\$ 49.2
Charges	7.7	2.1	1.5	3.3	14.6

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Cash payments	(26.0)		(2.1)	(3.1)	(31.2)
Non-cash write-offs		(2.1)			(2.1)
Translation adjustments	0.2				0.2
Other adjustments	(2.3)				(2.3)
Balance at June 30, 2013	27.5		0.2	0.7	28.4
Charges (adjustments)	(4.1)		1.2		(2.9)
Cash payments	(16.6)		(0.8)	(0.5)	(17.9)
Translation adjustments	0.3		0.1	(0.1)	0.3
Balance at June 30, 2014	\$ 7.1	\$	\$ 0.7	\$ 0.1	\$ 7.9

Accrued restructuring charges at June 30, 2014 are expected to result in cash expenditures funded from cash provided by operations of approximately \$7 million and \$1 million in fiscal 2015 and 2016, respectively.

Table of Contents

Total Returns and Other Charges (Adjustments) Associated with Restructuring Activities

The following table presents total returns and charges (adjustments) associated with restructuring and other activities related to the Program:

(In millions)	Year Ended June 30		
	2014	2013	2012
Sales returns (included in Net Sales)	\$ (0.1)	\$ 1.5	\$ 2.1
Cost of sales	0.1	1.2	1.5
Restructuring charges (adjustments)	(2.9)	14.6	53.6
Other charges		0.5	6.0
Total charges (adjustments) associated with restructuring activities	\$ (2.9)	\$ 17.8	\$ 63.2

Other charges in connection with the implementation of the Program were primarily related to consulting and other professional services.

Fiscal 2014 as Compared with Fiscal 2013

NET SALES

Net sales increased 8%, or \$787.1 million, to \$10,968.8 million, primarily reflecting growth in all of our product categories and geographic regions. The impact of foreign currency translation on the change in net sales was de minimis.

In advance of our July 2014 implementation of SMI at certain of our locations and to provide adequate safety stock to mitigate any potential short-term business interruption associated with the rollout, certain of our retailers accelerated their orders during the fiscal 2014 fourth quarter. We believe those additional orders, which totaled approximately \$178 million, would normally occur in our fiscal 2015 first quarter and created a favorable comparison to fiscal 2013. While these additional orders benefited our fiscal 2014 net sales comparison, we expect there to be a corresponding adverse effect on our first quarter and full year fiscal 2015 net sales. Adjusting for the impact of the accelerated orders, reported net sales would have increased 6%, with growth in all of our product categories and geographic regions.

Product Categories

The change in net sales in each product category benefited from the accelerated orders during the current year, as discussed above, as follows: skin care, approximately \$91 million; makeup, approximately \$65 million; fragrance, approximately \$21 million; and hair care, approximately \$1 million.

Skin Care

Edgar Filing: ESTÉE LAUDER COMPANIES INC - Form 10-K

Net sales of skin care products increased 7%, or \$304.5 million, to \$4,769.8 million. The recent launches of Advanced Night Repair Synchronized Recovery Complex II and Micro Essence Skin Activating Treatment Lotion from Estée Lauder, and Dramatically Different Moisturizing Lotion + and reformulated Repairwear Laser Focus from Clinique contributed approximately \$615 million of incremental sales, combined. Also contributing to the increase were higher sales of La Mer products and the Nutritious line of products from Estée Lauder of approximately \$144 million, combined. Partially offsetting these increases were lower sales of certain existing Advanced Night Repair Synchronized Recovery products from Estée Lauder and Dramatically Different Moisturizing Lotion and Repairwear Laser Focus from Clinique of approximately \$493 million, combined. Excluding the impact of foreign currency translation, skin care net sales increased 8%. Adjusting for the impact of the accelerated orders, reported net sales in skin care would have increased 5%.

Makeup

Makeup net sales increased 9%, or \$333.3 million, to \$4,210.2 million, primarily reflecting higher net sales from our makeup artist brands, the recent launch of All About Shadow from Clinique and higher sales of Smashbox products of approximately \$339 million, combined. Sales from our makeup artist brands benefited from new product offerings, as well as expanded distribution in line with our retail store strategy. Partially offsetting these increases were lower sales of Chubby Stick Moisturizing Lip Colour Balm and High Impact Lip Color from Clinique, as well as the prior-year launches of Pore Refining Solutions Makeup from Clinique and Pure Color Vivid Shine Lipstick from Estée Lauder of approximately \$34 million, combined. The impact of foreign currency translation on makeup net sales was de minimis. Adjusting for the impact of the accelerated orders, reported net sales in makeup would have increased 7%.

Fragrance

Net sales of fragrance products increased 9%, or \$114.2 million, to \$1,425.0 million, primarily reflecting the recent launches of Estée Lauder Modern Muse, the Michael Kors Collection, Jo Malone Peony & Blush Suede and Tory Burch, as well as higher sales of Tom Ford Black Orchid of approximately \$149 million, combined. These increases were partially offset by lower sales of Estée Lauder *pleasures*, Donna Karan Cashmere Mist, DKNY Be Delicious So Intense and Coach Poppy of approximately \$31 million, combined. The impact of foreign currency translation on fragrance net sales was de minimis. Adjusting for the impact of the accelerated orders, reported net sales in fragrance would have increased 7%.

Table of Contents

Hair Care

Hair care net sales increased 5%, or \$26.7 million, to \$515.6 million, reflecting the continued success and growth of the Invati line of products and the new and reformulated Dry Remedy line of products from Aveda, which contributed approximately \$25 million, combined to the increase. The category benefited from sales generated from expanded global distribution of Aveda products to salons and in the travel retail channel and Bumble and bumble products to specialty multi-brand retailers. Partially offsetting these increases were lower sales of Ojon products. The decrease in Ojon net sales was primarily due to the exit of that business from the direct response television channel in our fiscal 2014 second quarter. Excluding the impact of foreign currency translation, hair care net sales increased 6%. The impact of the accelerated orders on the change in reported net sales in hair care was de minimis.

Geographic Regions

The overall change in net sales in each geographic region benefited from the accelerated orders during the current year, as discussed above, as follows: Americas, approximately \$84 million; Europe, the Middle East & Africa, approximately \$68 million; and Asia/Pacific, approximately \$26 million.

Net sales in the Americas increased 6%, or \$269.4 million, to \$4,572.3 million, primarily reflecting higher net sales in the United States of approximately \$231 million, including the \$84 million in accelerated orders. This growth primarily reflected new collections from our makeup artist brands, higher sales of prestige products from our luxury brands, the continued expansion of Smashbox at specialty multi-brand retailers and department stores, contributions from new product innovations from certain of our heritage brands, new launches from certain of our designer fragrances and expansion into new retail channels by certain of our hair care brands. We are cautious of an uncertain retail environment in the United States in the short term. Net sales in Latin America increased approximately \$24 million, led by Venezuela and Brazil. The net sales increase in Venezuela was primarily due to price increases as a result of rising inflation. Net sales in Canada increased approximately \$15 million. Excluding the impact of foreign currency translation, the Americas net sales increased 7%. Adjusting for the impact of the accelerated orders, reported net sales in the Americas would have increased 4%.

In Europe, the Middle East & Africa, net sales increased 11%, or \$405.0 million, to \$4,163.7 million, primarily reflecting higher sales from our travel retail business, the United Kingdom, Germany and France of approximately \$335 million, combined. The net sales increase in our travel retail business primarily reflected the success of new launch initiatives, an increase in global airline passenger traffic and expanded distribution, as well as the impact of the accelerated orders. This was despite a slowdown at retail, in part, due to an adverse impact of Chinese government actions on the travel and spending of Chinese consumers. Higher sales in the United Kingdom and France were primarily driven by certain of our makeup artist and luxury brands. The net sales increase in Germany was primarily driven by our makeup artist and certain of our heritage brands. These increases were partially offset by lower net sales in South Africa and India of approximately \$7 million, combined, driven by the weakening of their respective currencies. We are seeing continued softness in certain Southern European countries due to challenging economic environments. Excluding the impact of foreign currency translation, Europe, the Middle East & Africa net sales increased 9%. Adjusting for the impact of the accelerated orders, reported net sales in Europe, the Middle East & Africa would have increased 9%.

Net sales in Asia/Pacific increased 5%, or \$111.1 million, to \$2,232.7 million, primarily reflecting higher sales in China and Hong Kong of approximately \$119 million, combined. Higher sales in China were primarily driven by expanded distribution. Despite the higher sales in China, we are cautious of the lower growth rates we have been experiencing during the current year. The net sales increase in Hong Kong was primarily due to higher net sales from certain of our heritage and luxury brands. These increases were partially offset by lower net sales in Japan and Australia of approximately \$17 million, combined. The declines in Japan and Australia were driven by the weakening of their respective currencies, which more than offset an improvement in their local retail environments and the impact of the accelerated orders in Japan. Excluding the impact of foreign currency translation, Asia/Pacific net sales increased 9%. Adjusting for the impact of the accelerated orders, reported net sales in Asia/Pacific would have increased 4%.

We strategically stagger our new product launches by geographic market, which may account for differences in regional sales growth.

COST OF SALES

Cost of sales as a percentage of total net sales decreased to 19.7% as compared with 19.9% in the prior year. Cost of sales as a percentage of total net sales reflected strategic changes in pricing and the mix of our business of approximately 30 basis points and favorable manufacturing variances of approximately 10 basis points. Partially offsetting these changes were an increase in obsolescence charges and the unfavorable effect of exchange rates of approximately 10 basis points, each.

Since certain promotional activities are a component of sales or cost of sales and the timing and level of promotions vary with our promotional calendar, we have experienced, and expect to continue to experience, fluctuations in the cost of sales percentage. In addition, future cost of sales mix may be impacted by the inclusion of potential new brands or channels of distribution which have margin and product cost structures different from those of our current mix of business.

Table of Contents

OPERATING EXPENSES

Operating expenses as a percentage of net sales decreased to 63.6% as compared with 65.1% in the prior year. As a percentage of net sales, this decrease primarily reflected lower spending on advertising, merchandising and sampling of approximately 110 basis points, lower selling costs of approximately 50 basis points and a favorable comparison to the prior year, which reflected restructuring, goodwill and other impairment charges of approximately 40 basis points, combined. These improvements were partially offset by a charge in the current year to remeasure net monetary assets in Venezuela of approximately 30 basis points and unfavorable changes in foreign exchange transactions of approximately 10 basis points. Adjusting for the impact of the accelerated orders in the current year, operating expenses as a percentage of net sales would have decreased 50 basis points, primarily reflecting lower spending on advertising, merchandising and sampling, and lower selling costs.

Changes in advertising, merchandising and sampling spending result from the type, timing and level of activities related to product launches and rollouts, as well as the markets and brands being emphasized.

OPERATING RESULTS

Operating income increased 20%, or \$301.6 million, to \$1,827.6 million and operating margin increased to 16.7% of net sales as compared with 15.0% in the prior year, which primarily reflected our lower operating expense margin and, to a lesser extent, our higher gross margin. The overall operating results were also impacted by approximately \$127 million related to the accelerated orders in the current year, as discussed above, which created a favorable comparison to the prior year, partially offset by the current year remeasurement of net monetary assets in Venezuela of \$38.3 million. While these additional orders benefited our fiscal 2014 operating results comparison, we expect there to be a corresponding adverse effect on our first quarter and full year fiscal 2015 operating results. The following discussions of Operating Results by *Product Categories* and *Geographic Regions* exclude the impact of total charges (adjustments) associated with restructuring activities of \$(2.9) million, or less than 1% of net sales, for fiscal 2014 and \$17.8 million, or less than 1% of net sales, for fiscal 2013. We believe the following analysis of operating results better reflects the manner in which we conduct and view our business. Adjusting for the impact of the accelerated orders in the current year and charges (adjustments) associated with restructuring activities, operating income would have increased 10% and operating margin would have increased 50 basis points.

Product Categories

The overall change in operating results in each product category benefited from the accelerated orders during the current year, as discussed above, as follows: skin care, approximately \$72 million; makeup, approximately \$41 million; fragrance, approximately \$14 million; and the impact on hair care was de minimis.

Skin care operating income increased 18%, or \$145.7 million, to \$975.8 million, primarily reflecting higher results driven by recent product launches from Estée Lauder and Clinique and higher sales of luxury skin care products. Makeup operating income increased 23%, or \$135.5 million, to \$715.9 million, primarily reflecting improved results from our makeup artist brands and certain of our heritage brands, attributable to growth in net sales. We reallocated our investment spending among brands and media formats which positively impacted operating income in the skin care and makeup product categories. Fragrance operating income decreased 13%, or \$16.2 million, to \$104.1 million, primarily reflecting higher investment spending behind recent major launches, partially offset by higher results from our luxury brands. The current year remeasurement of net monetary assets in Venezuela impacted the skin care, makeup and fragrance product categories by \$12 million, \$16 million and \$10 million, respectively. Hair care operating results increased 26%, or \$7.0 million, to \$33.7 million, primarily reflecting higher results from Aveda and strategic reductions in spending behind Ojon products. Adjusting for the accelerated orders, operating income in the

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

skin care, makeup, fragrance and hair care product categories would have increased (decreased) 9%, 16%, (25%) and 26%, respectively.

Geographic Regions

The overall change in operating results in each geographic region benefited as a result of the accelerated orders during the current year, as discussed above, as follows: Americas, approximately \$53 million; Europe, the Middle East & Africa, approximately \$53 million; and Asia/Pacific, approximately \$21 million.

Operating income in the Americas increased 27%, or \$114.1 million, to \$537.3 million, primarily reflecting the increase in net sales, as previously discussed, as well as a more measured approach to spending. These improvements were partially offset by the current year remeasurement of net monetary assets in Venezuela. Adjusting for the impact of the accelerated orders, operating income in the Americas would have increased 14%.

Table of Contents

In Europe, the Middle East & Africa, operating income increased 15%, or \$124.9 million, to \$938.3 million. Higher results from our travel retail business and in the United Kingdom totaled approximately \$126 million, combined, primarily reflecting higher sales. The higher results in our travel retail business also reflected the impact of the accelerated orders. These improvements were partially offset by lower operating results in France and the Middle East of approximately \$10 million, combined. The lower results in France were due to higher spending on advertising, merchandising and sampling. Adjusting for the impact of the accelerated orders, operating income in Europe, the Middle East & Africa would have increased 9%.

In Asia/Pacific, operating income increased 14%, or \$41.9 million, to \$349.1 million. Higher results in Korea, Japan and Hong Kong totaled approximately \$45 million, combined. The higher results in Korea were due to lower spending on advertising, merchandising and sampling and the higher results in Japan primarily reflected the impact of the accelerated orders. The higher results in the region were partially offset by lower operating results of approximately \$11 million in China and Thailand, combined. The lower results from China were primarily driven by an increase in investment spending as a result of new product introductions and increased distribution. Adjusting for the impact of the accelerated orders, operating income in Asia/Pacific would have increased 7%.

INTEREST EXPENSE, NET

Net interest expense decreased to \$50.8 million as compared with \$54.8 million in the prior year, primarily due to the refinancing of debt at lower rates in fiscal 2013 and higher interest income.

INTEREST EXPENSE ON DEBT EXTINGUISHMENT

During the first quarter of fiscal 2013, we redeemed the \$230.1 million principal amount of our 7.75% Senior Notes due 2013 at a price of 108% of the principal amount. We recorded a pre-tax expense on the extinguishment of debt of \$19.1 million representing the call premium of \$18.6 million and the pro-rata write-off of \$0.5 million of issuance costs and debt discount.

OTHER INCOME

We recognized \$23.1 million as other income during fiscal 2013, primarily reflecting the amended agreement related to the August 2007 sale of Rodan + Fields (a brand then owned by us).

PROVISION FOR INCOME TAXES

The provision for income taxes represents U.S. federal, foreign, state and local income taxes. The effective rate differs from the federal statutory rate primarily due to the effect of state and local income taxes, the taxation of foreign income and income tax reserve adjustments, which

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

represent changes in our net liability for unrecognized tax benefits including tax settlements and lapses of the applicable statutes of limitations. Our effective tax rate will change from year to year based on recurring and non-recurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, state and local income taxes, tax reserve adjustments, the ultimate disposition of deferred tax assets relating to stock-based compensation and the interaction of various global tax strategies. In addition, changes in judgment from the evaluation of new information resulting in the recognition, derecognition or remeasurement of a tax position taken in a prior annual period are recognized separately in the period of change.

The effective rate for income taxes was 32.0% and 30.6% for fiscal 2014 and 2013, respectively. The increase in the rate of 140 basis points was principally attributable to a higher effective tax rate related to the Company's foreign operations, which included the impact of the Venezuela remeasurement charge for which no tax benefit has been provided, as well as slightly higher favorable income tax reserve adjustments recorded in the prior year.

NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC.

Net earnings attributable to The Estée Lauder Companies Inc. as compared with the prior year increased 18%, or \$184.3 million, to \$1,204.1 million and diluted net earnings per common share increased 19% from \$2.58 to \$3.06.

Table of Contents**NON-GAAP FINANCIAL MEASURES**

We use certain non-GAAP financial measures, among other financial measures, to evaluate our operating performance, which represent the manner in which we conduct and view our business. Management believes that excluding these items that are not comparable from period to period helps investors and others compare operating performance between two periods. While we consider the non-GAAP measures useful in analyzing our results, they are not intended to replace, or act as a substitute for, any presentation included in the consolidated financial statements prepared in conformity with U.S. GAAP. The following tables present Net Sales, Operating Income and Diluted net earnings per common share adjusted to exclude the impact of accelerated orders associated with the July 2014 SMI rollout, the Venezuela fiscal 2014 remeasurement charge, returns and charges (adjustments) associated with restructuring activities and the fiscal 2013 interest expense on debt extinguishment. The tables provide reconciliations between these non-GAAP financial measures and the most directly comparable U.S. GAAP measures.

(\$ in millions)	Year Ended June 30		Variance	% Change	% Change in Constant Currency
	2014	2013

Table of Contents

Fiscal 2013 as Compared with Fiscal 2012

NET SALES

Net sales increased 5%, or \$468.1 million, to \$10,181.7 million, reflecting growth in all of our major product categories within each geographic region. Excluding the impact of foreign currency translation, net sales increased 6%.

The following discussions of Net Sales by *Product Categories* and *Geographic Regions* exclude the impact of returns associated with restructuring activities of \$1.5 million and \$2.1 million recorded during fiscal 2013 and fiscal 2012, respectively. We believe the following analysis of net sales better reflects the manner in which we conduct and view our business.

Product Categories

Skin Care

Net sales of skin care products increased 6%, or \$240.1 million, to \$4,465.3 million. The fiscal 2013 launches of Perfectionist CP+R, Advanced Time Zone, Advanced Night Repair Eye Serum Infusion and the Optimizer line of products from Estée Lauder contributed approximately \$273 million, combined, to the increase. Also contributing approximately \$99 million, combined, to the increase were the fiscal 2013 launches of The Moisturizing Soft Cream from La Mer and Even Better Eyes Dark Circle Corrector from Clinique. Partially offsetting these increases were lower sales of Perfectionist CP+ Serum and Time Zone, as well as Idealist Even Skintone Illuminator, which was a new launch in fiscal 2012, from Estée Lauder of approximately \$162 million, combined. Excluding the impact of foreign currency translation, skin care net sales increased 7%.

Makeup

Makeup net sales increased 5%, or \$180.1 million, to \$3,876.9 million, primarily reflecting an increase in net sales from our makeup artist brands of approximately \$156 million, combined. The fiscal 2013 launches of High Impact Extreme Volume Mascara and Chubby Stick Intense from Clinique and Pure Color Vivid Shine Lipstick from Estée Lauder contributed approximately \$47 million of incremental sales, combined, to the increase. Partially offsetting these increases were lower sales of Repairwear Laser Focus Makeup from Clinique and Pure Color Eyeshadow and Doublewear Stay-In-Place Makeup from Estée Lauder, all of which were new launches in fiscal 2012, of approximately \$45 million, combined. Excluding the impact of foreign currency translation, makeup net sales increased 6%.

Fragrance

Net sales of fragrance products increased 3%, or \$39.8 million, to \$1,310.8 million. Incremental sales from the fiscal 2013 launches of Zegna Uomo, DKNY Be Delicious So Intense, Tommy Hilfiger Freedom Men and Coach Love contributed approximately \$30 million, combined, to the increase. Higher sales of Jo Malone and Tom Ford fragrances contributed approximately \$60 million, combined, to the increase. These increases were partially offset by lower sales of Estée Lauder Sensuous Nude and DKNY Golden Delicious, both of which were new launches in fiscal 2012, as well as pureDKNY, of approximately \$52 million, combined. Excluding the impact of foreign currency translation, fragrance net

sales increased 4%.

Hair Care

Hair care net sales increased 6%, or \$26.5 million, to \$488.9 million, primarily reflecting the continued success of the Invati line of products and the fiscal 2013 launches of Pure Abundance Style Prep and Be Curly Curl Controller from Aveda. The category also benefited from sales generated from expanded global distribution, in particular, to salons for Aveda and multi-brand specialty retailers for Bumble and bumble. Partially offsetting these increases were lower sales of Bumble and bumble brand products to salons and lower net sales of Ojon brand products due, in part, to a reduction in our business in the DRTV channel. The impact of foreign currency translation on hair care net sales was de minimis.

Geographic Regions

Net sales in the Americas increased 5%, or \$201.8 million, to \$4,302.9 million. The increase during fiscal 2013 was primarily attributable to growth in the United States of approximately \$172 million, due in large part to product offerings from our heritage and makeup artist brands. Net sales in Canada increased approximately \$13 million, primarily reflecting increased sales from certain of our heritage brands as a result of expanded distribution. These increases also reflected the efforts of our expanded pull/push activities, which included innovative advertising that continued to draw new consumers to our brands and our ongoing efforts to work with retailers in the United States and Canada on strengthening the High-Touch concepts used to help market our products. Net sales in Latin America increased approximately \$19 million, led by Venezuela and Mexico. The impact of foreign currency translation on net sales in the Americas was de minimis.

Table of Contents

In Europe, the Middle East & Africa, net sales increased 4%, or \$155.5 million, to \$3,758.7 million, primarily reflecting higher sales from our travel retail business and in the United Kingdom and the Middle East of approximately \$185 million, combined. The net sales increase in our travel retail business primarily reflected a strong retail environment for our products, new product launches and, to a lesser extent, an increase in global airline passenger traffic. Higher sales in the United Kingdom were primarily driven by our makeup artist brands and new product launches from certain of our heritage brands. In addition, the United Kingdom benefited from increased sales of certain of our luxury fragrance and skin care products. Higher sales in the Middle East were primarily driven by our makeup artist brands and sales of luxury fragrances. These increases in the region were partially offset by lower net sales in Spain, Russia, Switzerland and the Balkans of approximately \$45 million, combined. With the exception of Russia, these lower net sales reflected the challenging economic environments in certain countries in Europe. The lower net sales in Russia primarily reflected destocking associated with challenges with a certain customer. The overall change in Europe, the Middle East & Africa net sales was inclusive of unfavorable exchange rates due to the strengthening of the U.S. dollar against most currencies in this region of approximately \$75 million. Excluding the impact of foreign currency translation, net sales in Europe, the Middle East & Africa increased 6%.

Net sales in Asia/Pacific increased 5%, or \$110.2 million, to \$2,121.6 million, primarily reflecting growth in our sales of skin care products, in line with our strategy. We increased sales by approximately \$160 million in China and Hong Kong. Net sales in China benefited from expanded distribution. Higher sales in Hong Kong were primarily driven by launches from our heritage brands and higher-end prestige skin care products. These increases were partially offset by lower net sales in Korea and Japan of approximately \$66 million, combined. The lower net sales in Korea primarily reflected a challenging economic environment and continued competitive pressures facing prestige beauty in Korea. The decline in Japan was driven by the weakening of the Japanese yen. Excluding the impact of foreign currency translation, net sales in Asia/Pacific increased 6%.

We strategically stagger our new product launches by geographic market, which may account for differences in regional sales growth.

COST OF SALES

Cost of sales as a percentage of total net sales decreased to 19.9% as compared with 20.5% in fiscal 2012. This improvement reflected changes in the mix of our business and pricing of approximately 40 basis points, favorable manufacturing variances of approximately 20 basis points and the favorable effect of exchange rates of approximately 10 basis points. These improvements were partially offset by a provision for foreign transactional taxes of approximately 10 basis points.

OPERATING EXPENSES

Operating expenses as a percentage of net sales decreased to 65.1% as compared with 66.0% in fiscal 2012. This improvement reflected a decrease in general and administrative costs as a percentage of net sales of approximately 50 basis points, a decrease in charges associated with restructuring activities of approximately 40 basis points and lower selling and shipping costs as a percentage of net sales of 10 basis points. Also included in this improvement was a favorable change in foreign exchange transactions of approximately 10 basis points and lower charges associated with other intangible asset impairments of approximately 10 basis points. Partially offsetting these improvements were higher costs related to stock-based compensation of approximately 20 basis points and increased spending on advertising, merchandising and sampling in line with our strategy of approximately 10 basis points.

Changes in advertising, merchandising and sampling spending result from the type, timing and level of activities related to product launches and rollouts, as well as the markets being emphasized.

OPERATING RESULTS

Operating income increased 16%, or \$214.3 million, to \$1,526.0 million. Operating margin increased to 15.0% of net sales as compared with 13.5% in fiscal 2012, reflecting our higher gross margin and the decrease in our operating expense margin, as previously discussed. The following discussions of Operating Results by *Product Categories* and *Geographic Regions* exclude the impact of total returns and charges associated with restructuring activities of \$17.8 million, or 0.2% of net sales, in fiscal 2013 and \$63.2 million, or 0.7% of net sales, in fiscal 2012. We believe the following analysis of operating results better reflects the manner in which we conduct and view our business.

Product Categories

Skin care operating income increased 11%, or \$83.4 million, to \$830.1 million, primarily reflecting improved results from higher-margin product launches from Estée Lauder and La Mer, partially offset by goodwill and other intangible asset impairment charges of \$17.7 million. Makeup operating income increased 8%, or \$42.4 million, to \$580.4 million, primarily reflecting improved results from our M A C brand, partially offset by certain of our heritage brands and an increase in investment spending in line with our strategy. Fragrance operating income increased 20%, or \$20.2 million, to \$120.3 million, primarily reflecting increased profitability from certain Jo Malone, Estée Lauder and Clinique products, partially offset by lower results from certain of our designer fragrances. Hair care operating results increased over 100%, or \$14.5 million, to \$26.7 million, due to a favorable comparison to fiscal 2012 which was impacted by other intangible asset impairment charges of \$21.7 million, partially offset by lower sales of Bumble and bumble brand products and higher investment spending by Aveda to support the Invati line of products.

Table of Contents

Geographic Regions

Operating income in the Americas increased 47%, or \$134.8 million, to \$423.2 million, primarily reflecting improved results from our makeup artist and luxury brands and certain of our hair care and heritage brands, driven by improved category mix, partially offset by the timing and level of strategic investment spending in fiscal 2013.

In Europe, the Middle East & Africa, operating income increased 9%, or \$67.1 million, to \$813.4 million. Higher results from our travel retail business, the Middle East and the United Kingdom totaled approximately \$77 million, combined. Partially offsetting these improvements were lower results in Germany and Spain of approximately \$5 million, combined, as well as goodwill and other intangible asset impairment charges of \$17.7 million.

In Asia/Pacific, operating income decreased 10%, or \$33.0 million, to \$307.2 million. Higher results from China and Thailand totaled approximately \$22 million, combined. These higher results were more than offset by lower operating results of approximately \$51 million in Korea, Hong Kong and Japan, combined. The lower results in Hong Kong were due in part to investment spending to support new product launches.

INTEREST EXPENSE, NET

Net interest expense was \$54.8 million as compared with \$61.1 million in fiscal 2012. Interest expense decreased primarily due to the refinancing of debt at lower rates.

INTEREST EXPENSE ON DEBT EXTINGUISHMENT

During the first quarter of fiscal 2013, we redeemed the \$230.1 million principal amount of our 7.75% Senior Notes due 2013 at a price of 108% of the principal amount. We recorded a pre-tax expense on the extinguishment of debt of \$19.1 million representing the call premium of \$18.6 million and the pro-rata write-off of \$0.5 million of issuance costs and debt discount.

OTHER INCOME

In December 2012, we amended the agreement related to the August 2007 sale of Rodan + Fields (a brand then owned by us) to receive a fixed amount in lieu of future contingent consideration and other rights. Accordingly, we recognized \$22.4 million, net of discount of \$0.4 million, which has been classified as other income in our consolidated statements of earnings. Prior to this amendment, we earned and received \$0.7 million of contingent consideration.

In November 2011, we settled a commercial dispute with third parties that was outside our normal operations. In connection therewith, we received a \$10.5 million cash payment, which has been classified as other income in our consolidated statement of earnings.

PROVISION FOR INCOME TAXES

The provision for income taxes represents U.S. federal, foreign, state and local income taxes. The effective rate differs from the federal statutory rate primarily due to the effect of state and local income taxes, the taxation of foreign income and income tax reserve adjustments, which represent changes in our net liability for unrecognized tax benefits including tax settlements and lapses of the applicable statutes of limitations. Our effective tax rate will change from year to year based on recurring and non-recurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, state and local income taxes, tax reserve adjustments, the ultimate disposition of deferred tax assets relating to stock-based compensation and the interaction of various global tax strategies.

The effective income tax rate for fiscal 2013 was 30.6% as compared with 31.8% in fiscal 2012. The decrease in the effective income tax rate of 120 basis points was principally due to a decrease in the effective tax rate of our foreign operations as compared with fiscal 2012, as well as the retroactive reinstatement of the U.S. federal research and development tax credit signed into law on January 2, 2013.

NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC.

Net earnings attributable to The Estée Lauder Companies Inc. as compared with fiscal 2012 increased 19%, or \$162.9 million, to \$1,019.8 million and diluted net earnings per common share increased 20% from \$2.16 to \$2.58. The results in fiscal 2013 include the impact of total returns and charges associated with restructuring activities of \$11.7 million, after tax, or \$.03 per diluted common share. The results in fiscal 2012 include the impact of total returns and charges associated with restructuring activities of \$44.1 million, after tax, or \$.11 per diluted common share.

Table of Contents

FINANCIAL CONDITION

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of funds historically have been cash flows from operations, borrowings pursuant to our commercial paper program, borrowings from the issuance of long-term debt and committed and uncommitted credit lines provided by banks and other lenders in the United States and abroad. At June 30, 2014, we had cash and cash equivalents of \$1,629.1 million compared with \$1,495.7 million at June 30, 2013. Our cash and cash equivalents are maintained at a number of financial institutions. To mitigate the risk of uninsured balances, we select financial institutions based on their credit ratings and financial strength and perform ongoing evaluations of these institutions to limit our concentration risk exposure.

Our business is seasonal in nature and, accordingly, our working capital needs vary. From time to time, we may enter into investing and financing transactions that require additional funding. To the extent that these needs exceed cash from operations, we could, subject to market conditions, issue commercial paper, issue long-term debt securities or borrow under our revolving credit facilities.

Based on past performance and current expectations, we believe that cash on hand, cash generated from operations, available credit lines and access to credit markets will be adequate to support currently planned business operations, information systems enhancements, capital expenditures, potential stock repurchases, potential acquisitions and investments, commitments and other contractual obligations on both a near-term and long-term basis. Our cash and cash equivalents balance at June 30, 2014 includes approximately \$1,140 million of cash in offshore jurisdictions associated with our permanent reinvestment strategy. We do not believe that the indefinite reinvestment of these funds offshore impairs our ability to meet our domestic debt or working capital obligations. If these indefinitely reinvested earnings were repatriated into the United States as dividends, we would be subject to additional taxes.

The effects of inflation have not been significant to our overall operating results in recent years. Generally, we have been able to introduce new products at higher prices, increase prices and implement other operating efficiencies to sufficiently offset cost increases, which have been moderate.

Credit Ratings

Changes in our credit ratings will likely result in changes in our borrowing costs. Our credit ratings also impact the cost of our revolving credit facility as discussed below. Downgrades in our credit ratings may reduce our ability to issue commercial paper and/or long-term debt and would likely increase the relative costs of borrowing. A credit rating is not a recommendation to buy, sell, or hold securities, is subject to revision or withdrawal at any time by the assigning rating organization, and should be evaluated independently of any other rating. As of August 14, 2014, our commercial paper is rated A-1 by Standard & Poor's and P-1 by Moody's and our long-term debt is rated A+ with a stable outlook by Standard & Poor's and A2 with a stable outlook by Moody's.

Debt

At June 30, 2014, our outstanding borrowings were as follows:

(\$ in millions)	Long-term Debt	Current Debt	Total Debt
3.70% Senior Notes, due August 15, 2042 (2042 Senior Notes(1)), (6)	\$ 249.0	\$	\$ 249.0
6.00% Senior Notes, due May 15, 2037 (2037 Senior Notes) (2), (6)	296.6		296.6
5.75% Senior Notes, due October 15, 2033 (2033 Senior Notes(3))	197.8		197.8

Other borrowings	10.4	18.4	28.8
	\$ 1,324.7	\$ 18.4	\$ 1,343.1

-
- (1) Consists of \$250.0 million principal and unamortized debt discount of \$1.0 million.
- (2) Consists of \$300.0 million principal and unamortized debt discount of \$3.4 million.
- (3) Consists of \$200.0 million principal and unamortized debt discount of \$2.2 million.
- (4) Consists of \$250.0 million principal and unamortized debt discount of \$0.2 million.
- (5) Consists of \$300.0 million principal, unamortized debt discount of \$0.2 million and a \$21.3 million adjustment to reflect the termination value of interest rate swaps.
- (6) The Senior Notes contain certain customary incurrence based covenants, including limitations on indebtedness secured by liens.

We have a \$1.0 billion commercial paper program under which we may issue commercial paper in the United States. As of June 30, 2014, we had no commercial paper outstanding.

Table of Contents

In July 2014, we replaced our undrawn \$1.0 billion unsecured revolving credit facility that was set to expire on July 14, 2015 (the Prior Facility), with a new \$1.0 billion senior unsecured revolving credit facility that expires on July 15, 2019, unless extended for up to two additional years in accordance with the terms set forth in the agreement (the New Facility). At June 30, 2014, no borrowings were outstanding under the Prior Facility. The New Facility may be used for general corporate purposes. Up to the equivalent of \$350 million of the New Facility is available for multi-currency loans. The interest rate on borrowings under the New Facility is based on LIBOR or on the higher of prime, which is the rate of interest publicly announced by the administrative agent, or ½% plus the Federal funds rate. We incurred costs of approximately \$1.0 million to establish the New Facility, which costs will be amortized over the term of the facility. The New Facility has an annual fee of \$0.6 million, payable quarterly, based on our current credit ratings. The New Facility also contains a cross-default provision whereby a failure to pay other material financial obligations in excess of \$150.0 million (after grace periods and absent a waiver from the lenders) would result in an event of default and the acceleration of the maturity of any outstanding debt under this facility.

We have a fixed rate promissory note agreement with a financial institution pursuant to which we may borrow up to \$150.0 million in the form of loan participation notes through one of our subsidiaries in Europe. The interest rate on borrowings under this agreement is at an all-in fixed rate determined by the lender and agreed to by us at the date of each borrowing. At June 30, 2014, no borrowings were outstanding under this agreement. Debt issuance costs incurred related to this agreement were de minimis.

Total debt as a percent of total capitalization (excluding noncontrolling interests) decreased to 26% at June 30, 2014 from 29% at June 30, 2013.

Cash Flows

Net cash provided by operating activities was \$1,535.2 million, \$1,226.3 million and \$1,126.7 million in fiscal 2014, 2013 and 2012, respectively. The increase in cash flows provided by operating activities as compared with fiscal 2013 was primarily driven by an increase in net earnings, an increase in accrued income taxes as a result of the level and timing of tax payments and an increase in accounts payable, primarily due to the timing of payments. These changes were partially offset by an increase in accounts receivable, which primarily reflected accelerated orders in connection with our July 2014 SMI implementation. Cash flows provided by operating activities increased in fiscal 2013 as compared with fiscal 2012 primarily driven by an increase in net earnings, a decrease in pension and post-retirement benefit contributions and a favorable change in accounts receivable due to the timing of shipments and collections. These improvements were partially offset by an increase in the levels of inventory, primarily to maintain acceptable service levels in line with forecasted sales activity, as well as for the remaining safety stock from the fiscal 2013 SMI implementation. Also offsetting these improvements were a change in accounts payable, primarily due to the timing of payments, and a decrease in accrued income taxes, resulting from the timing and level of tax payments.

Net cash used for investing activities was \$511.6 million, \$465.5 million and \$428.3 million in fiscal 2014, 2013 and 2012, respectively. The increase in cash flows used for investing activities as compared with fiscal 2013 primarily reflected higher capital expenditure activity in the current year related to leasehold improvements and counters. The increase in cash flows used for investing activities during fiscal 2013 as compared with fiscal 2012 primarily reflected higher capital expenditure activity in fiscal 2013 related to counters and leasehold improvements.

Net cash used for financing activities was \$856.9 million, \$611.5 million and \$585.1 million in fiscal 2014, 2013 and 2012, respectively. The increase in cash used for financing activities as compared with fiscal 2013 primarily reflected an increase in treasury stock purchases which were partially offset by lower dividend payments that resulted from the transition to quarterly dividends in the third quarter of fiscal 2013 and the final annual dividend payment made that year. In addition, the prior year reflected the proceeds from the issuance of the 2022 Senior Notes and 2042 Senior Notes, which was partially offset by the redemption of the 2013 Senior Notes and repayment of commercial paper. The increase in cash used for financing activities in fiscal 2013 as compared with fiscal 2012 primarily reflected the repayment of outstanding commercial paper

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

during fiscal 2013, higher dividends paid as a result of the increase in the annual dividend rate and transition to a quarterly dividend payout schedule, and higher redemptions of long-term debt during fiscal 2013, partially offset by the proceeds from the issuance of the 2022 Senior Notes and 2042 Senior Notes in August 2012 and lower treasury stock repurchases.

Table of Contents***Dividends***

The following is a summary of cash dividends declared per share on our Class A and Class B Common Stock during the year ended June 30, 2014:

Date Declared	Record Date	Payable Date	Amount per Share
August 14, 2013	August 30, 2013	September 16, 2013	\$.18
October 30, 2013	November 29, 2013	December 16, 2013	\$.20
February 4, 2014	February 28, 2014	March 17, 2014	\$.20
May 1, 2014	May 30, 2014	June 16, 2014	\$.20

On August 14, 2014, a dividend was declared in the amount of \$.20 per share on our Class A and Class B Common Stock. The dividend is payable in cash on September 15, 2014 to stockholders of record at the close of business on August 29, 2014.

Pension and Post-retirement Plan Funding

Several factors influence the annual funding requirements for our pension plans. For the U.S. Qualified Plan, our funding policy consists of annual contributions at a rate that provides for future plan benefits and maintains appropriate funded percentages. Such contribution is not less than the minimum required by the Employee Retirement Income Security Act of 1974, as amended, (ERISA) and subsequent pension legislation, and is not more than the maximum amount deductible for income tax purposes. For each international plan, our funding policies are determined by local laws and regulations. In addition, amounts necessary to fund future obligations under these plans could vary depending on estimated assumptions as detailed in *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates*. The effect of our pension plan funding on future operating results will depend on economic conditions, employee demographics, mortality rates, the number of participants electing to take lump-sum distributions, investment performance and funding decisions.

For the U.S. Qualified Plan, we maintain an investment strategy of matching the duration of a substantial portion of the plan assets with the duration of the underlying plan liabilities. This strategy assists us in maintaining our overall funded ratio. For fiscal 2014 and 2013, we met or exceeded all contribution requirements under ERISA regulations for the U.S. Qualified Plan. As we continue to monitor the performance of our plan assets, we may decide to make discretionary cash contributions to the U.S. Qualified Plan or our post-retirement plan in the United States during fiscal 2015, but do not have plans to do so at this time.

For fiscal 2014 and 2013, we made benefit payments under our non-qualified domestic noncontributory pension plan of \$7.2 million and \$6.1 million, respectively. We expect to make benefit payments under this plan during fiscal 2015 of approximately \$14.4 million. For fiscal 2014 and 2013, we made cash contributions to our international defined benefit pension plans of \$27.9 million and \$25.9 million, respectively. We expect to make contributions under these plans during fiscal 2015 of approximately \$24.0 million.

Commitments and Contingencies

Certain of our business acquisition agreements include earn-out provisions. These provisions generally require that we pay to the seller or sellers of the business additional amounts based on the performance of the acquired business. Since the size of each payment depends upon performance of the acquired business, we do not expect that such payments will have a material adverse impact on our future results of operations or financial condition.

For additional contingencies refer to *Item 3. Legal Proceedings*.

Table of Contents**Contractual Obligations**

The following table summarizes scheduled maturities of our contractual obligations for which cash flows are fixed and determinable as of June 30, 2014:

(In millions)	Total	Payments Due in Fiscal					
		2015	2016	2017	2018	2019	Thereafter
Debt service (1)	\$ 2,330.6	\$ 79.7	\$ 68.0	\$ 364.8	\$ 44.7	\$ 44.6	\$ 1,728.8
Operating lease commitments (2)	2,010.6	291.7	274.0	240.5	215.9	190.6	797.9
Unconditional purchase obligations (3)	2,280.1	1,091.6	437.3	430.5	243.7	37.8	39.2
Gross unrecognized tax benefits and interest current(4)	1.1	1.1					
Total contractual obligations	\$ 6,622.4	\$ 1,464.1	\$ 779.3	\$ 1,035.8	\$ 504.3	\$ 273.0	\$ 2,565.9

(1) Includes long-term and current debt and the related projected interest costs, and to a lesser extent, capital lease commitments. Interest costs on long-term and current debt are projected to be \$61.3 million in each of the years from fiscal 2015 through fiscal 2017, \$44.6 million in fiscal 2018 and fiscal 2019 and \$728.7 million thereafter. Projected interest costs on variable rate instruments were calculated using market rates at June 30, 2014. Refer to *Item 8. Financial Statements and Supplementary Data Note 9 Debt*.

(2) Minimum operating lease commitments only include base rent. Certain leases provide for contingent rents that are not measurable at inception and primarily include rents based on a percentage of sales in excess of stipulated levels, as well as common area maintenance. These amounts are excluded from minimum operating lease commitments and are included in the determination of total rent expense when it is probable that the expense has been incurred and the amount is reasonably measurable.

(3) Unconditional purchase obligations primarily include inventory commitments, estimated future earn-out payments, estimated royalty payments pursuant to license agreements, advertising commitments, capital improvement commitments, planned funding of pension and other post-retirement benefit obligations, commitments pursuant to executive compensation arrangements, obligations related to our cost savings initiatives and acquisitions. Future earn-out payments and future royalty and advertising commitments were estimated based on planned future sales for the term that was in effect at June 30, 2014, without consideration for potential renewal periods.

(4) Refer to *Item 8. Financial Statements and Supplementary Data Note 7 Income Taxes* for information regarding unrecognized tax benefits. As of June 30, 2014, the noncurrent portion of our unrecognized tax benefits, including related accrued interest and penalties was \$69.5 million. At this time, the settlement period for the noncurrent portion of the unrecognized tax benefits, including related accrued interest and penalties, cannot be determined and therefore was not included.

Derivative Financial Instruments and Hedging Activities

We address certain financial exposures through a controlled program of risk management that includes the use of derivative financial instruments. We enter into foreign currency forward contracts and may enter into option contracts to reduce the effects of fluctuating foreign currency exchange rates and interest rate derivatives to manage the effects of interest rate movements on our aggregate liability portfolio. We also enter into foreign currency forward contracts and may use option contracts, not designated as hedging instruments, to mitigate the change in fair value of specific assets and liabilities on the balance sheet. We do not utilize derivative financial instruments for trading or speculative purposes. Costs associated with entering into these derivative financial instruments have not been material to our consolidated financial results.

For each derivative contract entered into where we look to obtain hedge accounting treatment, we formally document all relationships between hedging instruments and hedged items, as well as our risk-management objective and strategy for undertaking the hedge transaction, the nature of the risk being hedged, how the hedging instruments' effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. This process includes linking all derivatives to specific assets and liabilities on the balance sheet or to specific firm commitments or forecasted transactions. We also formally assess, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. If it is determined that a derivative is not highly effective, or that it has ceased to be a highly effective hedge, we will be required to discontinue hedge accounting with respect to that derivative prospectively.

Table of Contents

Foreign Exchange Risk Management

We enter into foreign currency forward contracts to hedge anticipated transactions, as well as receivables and payables denominated in foreign currencies, for periods consistent with our identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on costs and on the cash flows that we receive from foreign subsidiaries. The majority of foreign currency forward contracts are denominated in currencies of major industrial countries. We may also enter into foreign currency option contracts to hedge anticipated transactions where there is a high probability that anticipated exposures will materialize. The foreign currency forward contracts entered into to hedge anticipated transactions have been designated as foreign currency cash-flow hedges and have varying maturities through the end of June 2016. Hedge effectiveness of foreign currency forward contracts is based on a hypothetical derivative methodology and excludes the portion of fair value attributable to the spot-forward difference which is recorded in current-period earnings. Hedge effectiveness of foreign currency option contracts is based on a dollar offset methodology. The ineffective portion of both foreign currency forward and option contracts is recorded in current-period earnings. For hedge contracts that are no longer deemed highly effective, hedge accounting is discontinued and gains and losses accumulated in other comprehensive income (loss) are reclassified to earnings when the underlying forecasted transaction occurs. If it is probable that the forecasted transaction will no longer occur, then any gains or losses in accumulated other comprehensive income (loss) are reclassified to current-period earnings. As of June 30, 2014, these foreign currency cash-flow hedges were highly effective in all material respects.

At June 30, 2014, we had foreign currency forward contracts in the amount of \$1,597.3 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$267.2 million), Euro (\$239.8 million), Swiss franc (\$170.4 million), Canadian dollar (\$138.6 million), Australian dollar (\$111.3 million), Japanese yen (\$108.0 million) and Hong Kong dollar (\$103.0 million).

Credit Risk

As a matter of policy, we only enter into derivative contracts with counterparties that have a long-term credit rating of at least A- or higher by at least two nationally recognized rating agencies. The counterparties to these contracts are major financial institutions. Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of contracts in asset positions, which totaled \$4.2 million at June 30, 2014. To manage this risk, we have established strict counterparty credit guidelines that are continually monitored. Accordingly, management believes risk of loss under these hedging contracts is remote.

Certain of our derivative financial instruments, with two counterparties, contain credit-risk-related contingent features. At June 30, 2014, we were in a net liability position for certain derivative contracts that contain such features. Such credit-risk-related contingent features would be triggered if (a) upon a merger involving the Company, the ratings of the surviving entity were materially weaker than prior to the merger or (b) the Company's credit ratings fall below investment grade (rated below BBB-/Baa3) and the Company fails to enter into an International Swaps & Derivatives Association Credit Support Annex within 30 days of being requested by the counterparty. The fair value of collateral required to settle the instruments immediately if a triggering event were to occur is estimated at approximately the fair value of the contracts. The fair value of those contracts as of June 30, 2014 was \$4.5 million. As of June 30, 2014, we were in compliance with such credit-risk-related contingent features.

Market Risk

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

We use a value-at-risk model to assess the market risk of our derivative financial instruments. Value-at-risk represents the potential losses for an instrument or portfolio from adverse changes in market factors for a specified time period and confidence level. We estimate value-at-risk across all of our derivative financial instruments using a model with historical volatilities and correlations calculated over the past 250-day period. The high, low and average measured value-at-risk during fiscal 2014 related to our foreign exchange contracts is as follows:

(In millions)	Year Ended June 30, 2014		
	High	Low	Average
Foreign exchange contracts	\$ 27.4	\$ 7.4	\$ 18.9

The model estimates were made assuming normal market conditions and a 95 percent confidence level. We used a statistical simulation model that valued our derivative financial instruments against one thousand randomly generated market price paths.

Our calculated value-at-risk exposure represents an estimate of reasonably possible net losses that would be recognized on our portfolio of derivative financial instruments assuming hypothetical movements in future market rates and is not necessarily indicative of actual results, which may or may not occur. It does not represent the maximum possible loss or any expected loss that may occur, since actual future gains and losses will differ from those estimated, based upon actual fluctuations in market rates, operating exposures, and the timing thereof, and changes in our portfolio of derivative financial instruments during the year. We believe, however, that any such loss incurred would be offset by the effects of market rate movements on the respective underlying transactions for which the derivative financial instrument was intended.

Table of Contents

OFF-BALANCE SHEET ARRANGEMENTS

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities, other than operating leases, that would be expected to have a material current or future effect upon our financial condition or results of operations.

RECENTLY ISSUED ACCOUNTING STANDARDS

Refer to *Item 8. Financial Statements and Supplementary Data Note 2 Summary of Significant Accounting Policies* for discussion regarding the impact of accounting standards that were recently issued but not yet effective, on our consolidated financial statements.

FORWARD-LOOKING INFORMATION

We and our representatives from time to time make written or oral forward-looking statements, including statements contained in this and other filings with the Securities and Exchange Commission, in our press releases and in our reports to stockholders. The words and phrases "will likely result," "expect," "believe," "planned," "may," "should," "could," "anticipate," "estimate," "project," "intend," "forecast" or similar expressions are used in our forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, without limitation, our expectations regarding sales, earnings or other future financial performance and liquidity, product introductions, entry into new geographic regions, information systems initiatives, new methods of sale, our long-term strategy, restructuring and other charges and resulting cost savings, and future operations or operating results. Although we believe that our expectations are based on reasonable assumptions within the bounds of our knowledge of our business and operations, actual results may differ materially from our expectations. Factors that could cause actual results to differ from expectations include, without limitation:

(1) increased competitive activity from companies in the skin care, makeup, fragrance and hair care businesses, some of which have greater resources than we do;

(2) our ability to develop, produce and market new products on which future operating results may depend and to successfully address challenges in our business;

(3) consolidations, restructurings, bankruptcies and reorganizations in the retail industry causing a decrease in the number of stores that sell our products, an increase in the ownership concentration within the retail industry, ownership of retailers by our competitors or ownership of competitors by our customers that are retailers and our inability to collect receivables;

(4) destocking and tighter working capital management by retailers;

(5) the success, or changes in timing or scope, of new product launches and the success, or changes in the timing or the scope, of advertising, sampling and merchandising programs;

(6) shifts in the preferences of consumers as to where and how they shop for the types of products and services we sell;

(7) social, political and economic risks to our foreign or domestic manufacturing, distribution and retail operations, including changes in foreign investment and trade policies and regulations of the host countries and of the United States;

(8) changes in the laws, regulations and policies (including the interpretations and enforcement thereof) that affect, or will affect, our business, including those relating to our products or distribution networks, changes in accounting standards, tax laws and regulations, environmental or climate change laws, regulations or accords, trade rules and customs regulations, and the outcome and expense of legal or regulatory proceedings, and any action we may take as a result;

(9) foreign currency fluctuations affecting our results of operations and the value of our foreign assets, the relative prices at which we and our foreign competitors sell products in the same markets and our operating and manufacturing costs outside of the United States;

(10) changes in global or local conditions, including those due to the volatility in the global credit and equity markets, natural or man-made disasters, real or perceived epidemics, or energy costs, that could affect consumer purchasing, the willingness or ability of consumers to travel and/or purchase our products while traveling, the financial strength of our customers, suppliers or other contract counterparties, our operations, the cost and availability of capital which we may need for new equipment, facilities or acquisitions, the returns that we are able to generate on our pension assets and the resulting impact on funding obligations, the cost and availability of raw materials and the assumptions underlying our critical accounting estimates;

Table of Contents

(11) shipment delays, commodity pricing, depletion of inventory and increased production costs resulting from disruptions of operations at any of the facilities that manufacture nearly all of our supply of a particular type of product (i.e. focus factories) or at our distribution or inventory centers, including disruptions that may be caused by the implementation of SAP as part of our Strategic Modernization Initiative, other information technology initiatives, or by restructurings;

(12) real estate rates and availability, which may affect our ability to increase or maintain the number of retail locations at which we sell our products and the costs associated with our other facilities;

(13) changes in product mix to products which are less profitable;

(14) our ability to acquire, develop or implement new information and distribution technologies and initiatives on a timely basis and within our cost estimates and our ability to maintain continuous operations of such systems and the security of data and other information that may be stored in such systems or other systems or media;

(15) our ability to capitalize on opportunities for improved efficiency, such as publicly-announced strategies and restructuring and cost-savings initiatives, and to integrate acquired businesses and realize value therefrom;

(16) consequences attributable to local or international conflicts around the world, as well as from any terrorist action, retaliation and the threat of further action or retaliation;

(17) the timing and impact of acquisitions, investments and divestitures; and

(18) additional factors as described in our filings with the Securities and Exchange Commission, including this Annual Report on Form 10-K for the fiscal year ended June 30, 2014.

We assume no responsibility to update forward-looking statements made herein or otherwise.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk.*

The information required by this item is set forth in Item 7 of this Annual Report on Form 10-K under the caption *Liquidity and Capital Resources* *Market Risk* and is incorporated herein by reference.

Item 8. Financial Statements and Supplementary Data.

The information required by this item appears beginning on page F-1 of this Annual Report on Form 10-K and is incorporated herein by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and to ensure that information required to be disclosed is accumulated and communicated to management, including our principal executive and financial officers, to allow timely decisions regarding disclosure. The Chief Executive Officer and the Chief Financial Officer, with assistance from other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of June 30, 2014 and, based on their evaluation, have concluded that the disclosure controls and procedures were effective as of such date.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the fourth quarter of fiscal 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's report on internal control over financial reporting and the report of independent registered public accounting firm on our internal control over financial reporting are incorporated herein from pages F-2 and F-3, respectively.

As part of our Strategic Modernization Initiative, we rolled out the last of our four major waves of SAP-based technologies (SAP) in July 2014. With the July rollout, locations representing approximately 93% of our consolidated net sales are SAP-enabled. We plan to continue the implementation of SAP at our remaining locations through fiscal 2017.

Table of Contents

Item 9B. *Other Information.*

None.

PART III

Item 10. *Directors, Executive Officers and Corporate Governance.*

The information required by this Item, not already provided herein under *Item 1. Business Executive Officers*, will be included in our Proxy Statement for the 2014 Annual Meeting of Stockholders (the 2014 Proxy Statement). The 2014 Proxy Statement will be filed within 120 days after the close of the fiscal year ended June 30, 2014 and such information is incorporated herein by reference.

Item 11. *Executive Compensation.*

The information required by this Item 11 (Executive Compensation) of Form 10-K will be included in the 2014 Proxy Statement. The 2014 Proxy Statement will be filed within 120 days after the close of the fiscal year ended June 30, 2014 and such information is incorporated herein by reference.

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.*

The information required by this Item, not already provided under *Equity Compensation Plan Information* as set forth below, will be included in the 2014 Proxy Statement. The 2014 Proxy Statement will be filed within 120 days after the close of the fiscal year ended June 30, 2014 and such information is incorporated herein by reference.

Equity Compensation Plan Information

The following table summarizes the equity compensation plans under which our securities may be issued as of June 30, 2014 and does not include grants made or cancelled and options exercised after such date. The securities that may be issued consist solely of shares of our Class A Common Stock and all plans were approved by stockholders of the Company.

Equity Compensation Plan Information as of June 30, 2014

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the first column)
Equity compensation plans approved by security holders(a)	18,213,651(b)	\$ 41.51(c)	14,893,856(d)

(a) Includes the Amended and Restated Fiscal 2002 Share Incentive Plan (the 2002 Plan) and the Non-Employee Director Share Incentive Plan (the Director Plan).

(b) Consists of 14,127,832 shares issuable upon exercise of outstanding options, 2,222,101 shares issuable upon conversion of outstanding Restricted Stock Units, 1,184,457 shares issuable upon conversion of outstanding Performance Share Units (PSUs) (assuming maximum payout and approval by the Stock Plan Subcommittee of our Board of Directors of expected payouts for PSUs vested as of June 30, 2014), 98,845 shares issuable upon conversion of Share Units, 320,000 shares issuable upon conversion of an outstanding market share unit (assuming maximum payout) and 260,416 shares issued upon conversion of PSUs based on total stockholder return (assuming maximum payout).

(c) Calculated based upon outstanding options in respect of 14,127,832 shares of our Class A Common Stock.

(d) The 2002 Plan authorizes the grant of shares and benefits other than stock options. As of June 30, 2014, there were 14,744,213 shares of Class A Common Stock available for issuance under the 2002 Plan (subject to the approval by the Stock Plan Subcommittee of expected payouts for PSUs vested as of June 30, 2014). Shares underlying grants cancelled or forfeited under prior plans or agreements may be used for grants under the 2002 Plan. The Director Plan currently provides for an annual grant of options and stock units to non-employee directors. As of June 30, 2014, there were 149,643 shares available for issuance under the Director Plan.

Table of Contents

If all of the outstanding options, warrants, rights, stock units and share units, as well as the securities available for future issuance, included in the first and third columns in the table above were converted to shares of Class A Common Stock as of June 30, 2014, the total shares of Common Stock outstanding (i.e. Class A plus Class B) would increase 9% to 415,992,019. Of the outstanding options to purchase 14,127,832 shares of Class A Common Stock, all such shares are exercisable at a price less than \$74.26, the closing price on June 30, 2014. Assuming the exercise of only in-the-money options, the total shares outstanding would increase by 4% to 397,012,344.

Item 13. *Certain Relationships and Related Transactions, and Director Independence.*

The information required by this Item will be included in the 2014 Proxy Statement. The 2014 Proxy Statement will be filed within 120 days after the close of the fiscal year ended June 30, 2014 and such information is incorporated herein by reference.

Item 14. *Principal Accounting Fees and Services.*

The information required by this Item will be included in the 2014 Proxy Statement. The 2014 Proxy Statement will be filed within 120 days after the close of the fiscal year ended June 30, 2014 and such information is incorporated herein by reference.

PART IV

Item 15. *Exhibits, Financial Statement Schedules.*

Management's Report on Internal Control over Financial Reporting

Management of The Estée Lauder Companies Inc. (including its subsidiaries) (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) of the Securities Exchange Act of 1934, as amended).

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision of and with the participation of the Chief Executive Officer and the Chief Financial Officer, the Company's management conducted an assessment of the effectiveness of the Company's internal control over financial reporting based on the framework and criteria established in *Internal Control - Integrated Framework (1992)*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, the Company's management has concluded that, as of June 30, 2014, the Company's internal control over financial reporting was effective.

The effectiveness of the Company's internal control over financial reporting as of June 30, 2014 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which appears under the heading "Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting."

Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting

The Board of Directors and Stockholders

The Estée Lauder Companies Inc.:

We have audited The Estée Lauder Companies Inc. and subsidiaries (the Company) internal control over financial reporting as of June 30, 2014, based on criteria established in *Internal Control – Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, The Estée Lauder Companies Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of June 30, 2014, based on criteria established in *Internal Control – Integrated Framework (1992)* issued by the COSO.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of The Estée Lauder Companies Inc. and subsidiaries as of June 30, 2014 and 2013, and the related consolidated statements of earnings, comprehensive income (loss), equity and cash flows for each of the years in the three-year period ended June 30, 2014, and our report dated August 20, 2014 expressed an unqualified opinion on those consolidated financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

The Estée Lauder Companies Inc.:

We have audited the accompanying consolidated balance sheets of The Estée Lauder Companies Inc. and subsidiaries (the Company) as of June 30, 2014 and 2013, and the related consolidated statements of earnings, comprehensive income (loss), equity and cash flows for each of the years in the three-year period ended June 30, 2014. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed on the index on page F-1. These consolidated financial statements and financial statement schedule are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule, based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Estée Lauder Companies Inc. and subsidiaries as of June 30, 2014 and 2013, and the results of their operations and their cash flows for each of the years in the three-year period ended June 30, 2014, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), The Estée Lauder Companies Inc. and subsidiaries internal control over financial reporting as of June 30, 2014, based on criteria established in *Internal Control Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated August 20, 2014 expressed an unqualified opinion on the effectiveness of the Company s internal control over financial reporting.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF BUSINESS

The Estée Lauder Companies Inc. manufactures, markets and sells skin care, makeup, fragrance and hair care products around the world. Products are marketed under various brand names including: Estée Lauder, Aramis, Clinique, Prescriptives, Lab Series, Origins, M A C, Bobbi Brown, La Mer, Aveda, Jo Malone, Bumble and bumble, Darphin, Ojon and Smashbox. Certain subsidiaries of The Estée Lauder Companies Inc. are also the global licensee of the Tommy Hilfiger, Kiton, Donna Karan, Michael Kors, Tom Ford, Coach, Ermenegildo Zegna, Tory Burch, Marni and Aerin brand names for fragrances and/or cosmetics.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of The Estée Lauder Companies Inc. and its subsidiaries (collectively, the Company). All significant intercompany balances and transactions have been eliminated.

Certain amounts in the consolidated financial statements of prior years have been reclassified to conform to current year presentation.

Management Estimates

The preparation of financial statements and related disclosures in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses reported in those financial statements. Certain significant accounting policies that contain subjective management estimates and assumptions include those related to revenue recognition, inventory, pension and other post-retirement benefit costs, goodwill, other intangible assets and long-lived assets, and income taxes. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, and makes adjustments when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from those estimates and assumptions. Significant changes, if any, in those estimates and assumptions resulting from continuing changes in the economic environment will be reflected in the consolidated financial statements in future periods.

Currency Translation and Transactions

All assets and liabilities of foreign subsidiaries and affiliates are translated at year-end rates of exchange, while revenue and expenses are translated at weighted-average rates of exchange for the period. Unrealized translation gains (losses) reported as cumulative translation adjustments through other comprehensive income (loss) (OCI) attributable to The Estée Lauder Companies Inc. amounted to \$95.1 million, \$(25.6) million and \$(154.2) million, net of tax, in fiscal 2014, 2013 and 2012, respectively.

For the Company's Venezuelan subsidiary operating in a highly inflationary economy, the U.S. dollar is the functional currency. Remeasurement adjustments in financial statements in a highly inflationary economy and other transactional gains and losses are reflected in Selling, general and administrative expenses in the Company's consolidated statements of earnings. During the third quarter of fiscal 2014, the Venezuelan government enacted changes to the foreign exchange controls that expanded the use of its existing exchange mechanisms and created another exchange control mechanism (SICAD II), which allows companies to apply for the purchase of foreign currency and foreign currency denominated securities for any legal use or purpose. As a result, the Company considered its specific facts and circumstances in determining the appropriate remeasurement rate, principally assessing its legal eligibility to access the available foreign exchange mechanisms, the transactions that would be eligible, the Company's past and expected future ability to transact through those mechanisms, and the Company's intent to utilize a particular mechanism for particular purposes. Although the SICAD II mechanism and its level and frequency of exchange continue to be regulated by the Venezuelan government, it offers the possibility of foreign exchange in a theoretically open market without restricted uses and in management's opinion is the only mechanism legally available at this time for the Company's highest priority transactions, which are the import of goods. Therefore, the Company believes the SICAD II rate was, and continues to be, the most appropriate rate that reflects the economics of its Venezuelan subsidiary's business as of March 24, 2014, when the SICAD II mechanism became operational. As a result, the Company changed the exchange rate used to remeasure the monetary assets and liabilities of its Venezuelan subsidiary from 6.3 to the SICAD II rate, which was 49.98 as of June 30, 2014. Accordingly, a remeasurement charge of \$38.3 million, on a before and after tax basis, was reflected in Selling, general and administrative expenses in the Company's consolidated statement of earnings for the year ended June 30, 2014.

The Company enters into foreign currency forward contracts and may enter into option contracts to hedge foreign currency transactions for periods consistent with its identified exposures. Accordingly, the Company categorizes these instruments as entered into for purposes other than trading.

The accompanying consolidated statements of earnings include net exchange losses on foreign currency transactions, including the effect of the Venezuela remeasurement charge, of \$46.7 million, \$3.5 million and \$0.5 million in fiscal 2014, 2013 and 2012, respectively.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Cash and Cash Equivalents

Cash and cash equivalents include \$971.9 million and \$843.5 million of short-term time deposits at June 30, 2014 and 2013, respectively. The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. As of June 30, 2014, approximately 17% and 16% of the Company's cash and cash equivalents are held by two financial institutions.

Accounts Receivable

Accounts receivable is stated net of the allowance for doubtful accounts and customer deductions totaling \$23.9 million and \$22.7 million as of June 30, 2014 and 2013, respectively. This reserve is based upon the evaluation of accounts receivable aging, specific exposures and historical trends.

Inventory and Promotional Merchandise

Inventory and promotional merchandise only includes inventory considered saleable or usable in future periods, and is stated at the lower of cost or fair-market value, with cost being based on standard cost which approximates actual cost on the first-in, first-out method. Cost components include raw materials, componentry, direct labor and overhead (e.g., indirect labor, utilities, depreciation, purchasing, receiving, inspection and warehousing) as well as inbound freight. Manufacturing overhead is allocated to the cost of inventory based on the normal production capacity. Unallocated overhead during periods of abnormally low production levels are recognized as cost of sales in the period in which they are incurred. Promotional merchandise is charged to expense at the time the merchandise is shipped to the Company's customers. Included in inventory and promotional merchandise is an inventory obsolescence reserve, which represents the difference between the cost of the inventory and its estimated realizable value, based on various product sales projections. This reserve is calculated using an estimated obsolescence percentage applied to the inventory based on age, historical trends and requirements to support forecasted sales. In addition, and as necessary, specific reserves for future known or anticipated events may be established.

Derivative Financial Instruments

The Company's derivative financial instruments are recorded as either assets or liabilities on the balance sheet and measured at fair value. All derivatives are (i) designated as a hedge of the fair value of a recognized asset or liability or of an unrecognized firm commitment (fair-value hedge), (ii) designated as a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (foreign currency cash-flow hedge), or (iii) not designated as a hedging instrument. Changes in the fair value of a derivative

that is designated and qualifies as a fair-value hedge that is highly effective are recorded in current-period earnings, along with the loss or gain on the hedged asset or liability that is attributable to the hedged risk (including losses or gains on unrecognized firm commitments). Changes in the fair value of a derivative that is designated and qualifies as a foreign currency cash-flow hedge of a foreign-currency-denominated forecasted transaction that is highly effective are recorded in OCI. Gains and losses deferred in OCI are then recognized in current-period earnings when earnings are affected by the variability of cash flows of the hedged foreign-currency-denominated forecasted transaction (e.g., when periodic settlements on a variable-rate asset or liability are recorded in earnings). Changes in the fair value of derivative instruments not designated as hedging instruments are reported in current-period earnings.

Property, Plant and Equipment

Property, plant and equipment, including leasehold and other improvements that extend an asset's useful life or productive capabilities, are carried at cost less accumulated depreciation and amortization. Costs incurred for computer software developed or obtained for internal use are capitalized during the application development stage and expensed as incurred during the preliminary project and post-implementation stages. For financial statement purposes, depreciation is provided principally on the straight-line method over the estimated useful lives of the assets ranging from 3 to 40 years. Leasehold improvements are amortized on a straight-line basis over the shorter of the lives of the respective leases or the expected useful lives of those improvements.

Goodwill and Other Indefinite-lived Intangible Assets

Goodwill is calculated as the excess of the cost of purchased businesses over the fair value of their underlying net assets. Other indefinite-lived intangible assets principally consist of trademarks. Goodwill and other indefinite-lived intangible assets are not amortized.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company assesses goodwill and other indefinite-lived intangible assets at least annually for impairment as of the beginning of the fiscal fourth quarter, or more frequently if certain events or circumstances exist. The Company tests goodwill for impairment at the reporting unit level, which is one level below the Company's operating segments. The Company identifies its reporting units by assessing whether the components of its operating segments constitute businesses for which discrete financial information is available and management of each reporting unit regularly reviews the operating results of those components. The Company makes certain judgments and assumptions in allocating assets and liabilities to determine carrying values for its reporting units. Impairment testing is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. The impairment test for indefinite-lived intangible assets encompasses calculating a fair value of an indefinite-lived intangible asset and comparing the fair value to its carrying value. If the carrying value exceeds the fair value, an impairment charge is recorded.

Testing goodwill for impairment requires the Company to estimate fair values of reporting units using significant estimates and assumptions. The assumptions made will impact the outcome and ultimate results of the testing. The Company uses industry accepted valuation models and set criteria that are reviewed and approved by various levels of management and, in certain instances, the Company engages third-party valuation specialists for advice. To determine fair value of the reporting units, the Company generally uses an equal weighting of the income and market approaches. In certain circumstances, equal weighting will not be applied if one of these methods may be less applicable (e.g., only the income approach would be used for reporting units with existing negative margins). The Company believes both approaches are equally relevant and the most reliable indications of fair value because the fair value of product or service companies is more dependent on the ability to generate earnings than on the value of the assets used in the production process.

Under the income approach, the Company determines fair value using a discounted cash flow method, projecting future cash flows of each reporting unit, as well as a terminal value, and discounting such cash flows at a rate of return that reflects the relative risk of the cash flows. Under the market approach, the Company utilizes information from comparable publicly traded companies with similar operating and investment characteristics as the reporting units, which creates valuation multiples that are applied to the operating performance of the reporting unit being tested, to value the reporting unit. The key estimates and factors used in these two approaches include, but are not limited to, revenue growth rates and profit margins based on internal forecasts, terminal value, the weighted-average cost of capital used to discount future cash flows and comparable market multiples.

To determine fair value of other indefinite-lived intangible assets, the Company uses an income approach, the relief-from-royalty method. This method assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to obtain the rights to use the comparable asset. Other indefinite-lived intangible assets' fair values require significant judgments in determining both the assets' estimated cash flows as well as the appropriate discount and royalty rates applied to those cash flows to determine fair value. Changes in such estimates or the application of alternative assumptions could produce significantly different results.

Long-Lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. When such events or changes in circumstances occur, a recoverability test is performed comparing projected undiscounted cash flows from the use and eventual disposition of an asset or asset group to its carrying value. If the projected undiscounted cash flows are less than the carrying value, then an impairment charge would be recorded for the excess of the carrying value over the fair value, which is determined by discounting future cash flows.

Concentration of Credit Risk

The Company is a worldwide manufacturer, marketer and distributor of skin care, makeup, fragrance and hair care products. Domestic and international sales are made primarily to department stores, perfumeries, specialty multi-brand retailers and retailers in its travel retail business. The Company grants credit to all qualified customers and does not believe it is exposed significantly to any undue concentration of credit risk.

The Company's largest customer sells products primarily within the United States and accounted for \$1,142.7 million, or 10%, \$1,078.8 million, or 11%, and \$1,048.1 million, or 11%, of the Company's consolidated net sales in fiscal 2014, 2013 and 2012, respectively. This customer accounted for \$158.5 million, or 11%, and \$113.7 million, or 10%, of the Company's accounts receivable at June 30, 2014 and 2013, respectively.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Revenue Recognition

Revenues from product sales are recognized upon transfer of ownership, including passage of title to the customer and transfer of the risk of loss related to those goods. In the Americas region, sales are generally recognized at the time the product is shipped to the customer and in the Europe, the Middle East & Africa and Asia/Pacific regions, sales are generally recognized based upon the customer's receipt. In certain circumstances, transfer of title takes place at the point of sale, for example, at the Company's retail stores. The Company records revenues generated from purchase with purchase promotions in Net Sales and costs of its purchase with purchase and gift with purchase promotions in Cost of Sales.

Revenues are reported on a net sales basis, which is computed by deducting from gross sales the amount of actual product returns received, discounts, incentive arrangements with retailers and an amount established for anticipated product returns. The Company's practice is to accept product returns from retailers only if properly requested, authorized and approved. In accepting returns, the Company typically provides a credit to the retailer against accounts receivable from that retailer. As a percentage of gross sales, returns were 3.4% in fiscal 2014, 3.3% in fiscal 2013 and 3.5% in fiscal 2012.

Payments to Customers

Certain incentive arrangements require the payment of a fee to customers based on their attainment of pre-established sales levels. These fees have been recorded as a reduction of Net Sales in the accompanying consolidated statements of earnings and were not material to the results of operations in any period presented.

The Company enters into transactions related to demonstrations, advertising and counter construction, some of which involve cooperative relationships with customers. These activities may be arranged either with unrelated third parties or in conjunction with the customer. The Company's share of the cost of these transactions (regardless of to whom they were paid) are reflected in Selling, general and administrative expenses in the accompanying consolidated statements of earnings and were approximately \$1,410 million, \$1,412 million and \$1,343 million in fiscal 2014, 2013 and 2012, respectively.

Advertising and Promotion

Global net expenses for advertising, merchandising, sampling, promotion and product development costs were \$2,840.0 million, \$2,754.8 million and \$2,614.5 million in fiscal 2014, 2013 and 2012, respectively, and are expensed as incurred. Excluding the impact of purchase with

purchase and gift with purchase promotions, costs for advertising, merchandising, sampling, promotion and product development included in Selling, general and administrative expenses in the accompanying consolidated statements of earnings were \$2,618.1 million, \$2,541.0 million and \$2,417.6 million in fiscal 2014, 2013 and 2012, respectively.

Research and Development

During fiscal 2014, the Company conducted a review of the activities and elements of costs associated with its research and development process. As a result of its review, the Company identified certain activities, such as product innovation and packaging design and development, and their related costs that should be categorized as research and development costs, which continue to be recorded in Selling, general and administrative expenses in the consolidated statements of earnings. As a result, research and development costs totaled \$157.9 million, \$146.8 million and \$137.8 million in fiscal 2014, 2013 and 2012, respectively, and are expensed as incurred.

Shipping and Handling

Shipping and handling expenses of \$373.6 million, \$337.9 million and \$312.4 million in fiscal 2014, 2013 and 2012, respectively, are recorded in Selling, general and administrative expenses in the accompanying consolidated statements of earnings and include distribution center costs, third-party logistics costs and outbound freight.

Operating Leases

The Company recognizes rent expense from operating leases with periods of free and scheduled rent increases on a straight-line basis over the applicable lease term. The Company considers lease renewals when such renewals are reasonably assured. From time to time, the Company may receive capital improvement funding from its lessors. These amounts are recorded as deferred liabilities and amortized over the remaining lease term as a reduction of rent expense.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

License Arrangements

The Company's license agreements provide the Company with worldwide rights to manufacture, market and sell beauty and beauty-related products (or particular categories thereof) using the licensors' trademarks. The licenses typically have an initial term of approximately 5 years to 11 years, and are renewable subject to the Company's compliance with the license agreement provisions. The remaining terms, including the potential renewal periods, range from approximately 6 years to 27 years. Under each license, the Company is required to pay royalties to the licensor, at least annually, based on net sales to third parties.

Most of the Company's licenses were entered into to create new business. In some cases, the Company acquired, or entered into, a license where the licensor or another licensee was operating a pre-existing beauty products business. In those cases, other intangible assets are capitalized and amortized over their useful lives.

Certain license agreements may require minimum royalty payments, incremental royalties based on net sales levels and minimum spending on advertising and promotional activities. Royalty expenses are accrued in the period in which net sales are recognized while advertising and promotional expenses are accrued at the time these costs are incurred.

Stock-Based Compensation

The Company records stock-based compensation, measured at the fair value of the awards that are ultimately expected to vest, as an expense in the consolidated financial statements. Upon the exercise of stock options or the vesting of restricted stock units, performance share units, performance share units based on total stockholder return and market share units, the resulting excess tax benefits, if any, are credited to additional paid-in capital. Any resulting tax deficiencies will first be offset against those cumulative credits to additional paid-in capital. If the cumulative credits to additional paid-in capital are exhausted, tax deficiencies will be recorded to the provision for income taxes.

Income Taxes

The Company accounts for income taxes using an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in its consolidated financial statements or tax returns. The net deferred tax assets assume sufficient future earnings for their realization, as well as the continued application of currently anticipated tax rates. Included in net deferred tax assets is a valuation allowance for deferred tax assets, where management believes it is not more-likely-than-not that the deferred tax assets will be realized in the relevant jurisdiction. Based on the Company's assessments, no additional valuation allowance is

required. If the Company determines that a deferred tax asset will not be realizable, an adjustment to the deferred tax asset will result in a reduction of net earnings at that time while the reduction of a valuation allowance will result in an increase of net earnings at that time.

The Company provides tax reserves for U.S. federal, state, local and foreign exposures relating to periods subject to audit. The development of reserves for these exposures requires judgments about tax issues, potential outcomes and timing, and is a subjective critical estimate. The Company assesses its tax positions and records tax benefits for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting dates. For those tax positions where it is more-likely-than-not that a tax benefit will be sustained, the Company has recorded the largest amount of tax benefit with a greater than 50% likelihood of being realized upon settlement with a tax authority that has full knowledge of all relevant information. For those tax positions where it is more-likely-than-not that a tax benefit will not be sustained, no tax benefit has been recognized in the consolidated financial statements. The Company classifies applicable interest and penalties as a component of the provision for income taxes. Although the outcome relating to these exposures is uncertain, in management's opinion adequate provisions for income taxes have been made for estimable potential liabilities emanating from these exposures. If actual outcomes differ materially from these estimates, they could have a material impact on the Company's consolidated results of operations.

Recently Adopted Accounting Standards

In February 2013, the Financial Accounting Standards Board (FASB) issued authoritative guidance requiring an entity to present, in a single location either parenthetically on the face of the financial statements or in a separate note, significant amounts reclassified from each component of accumulated other comprehensive income (loss) (AOCI) and the income statement line items affected by the reclassification. An entity is not permitted to provide this information parenthetically on the face of the income statement if it has items that are not required to be reclassified in their entirety to net income. Instead of disclosing the income statement line affected, a cross reference to other disclosures that provide additional details on these items is required. This guidance became effective prospectively for the Company's fiscal 2014 first quarter and the adoption of this disclosure-only guidance did not have a significant impact on the Company's consolidated financial statements.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In July 2012, the FASB amended its authoritative guidance related to testing indefinite-lived intangible assets for impairment. Under the revised guidance, entities testing their indefinite-lived intangible assets for impairment have the option of performing a qualitative assessment before performing further impairment testing. If entities determine, on the basis of qualitative factors, that it is more-likely-than-not that the asset is impaired, a quantitative test is required. This guidance became effective in the beginning of the Company's fiscal 2014 first quarter and the adoption of this guidance did not have an impact on the Company's consolidated financial statements.

In December 2011, the FASB issued authoritative guidance that creates new disclosure requirements about the nature of an entity's rights of offset and related arrangements associated with its financial instruments and derivative instruments. This revised guidance helps reconcile differences in the offsetting requirements under U.S. GAAP and International Financial Reporting Standards (IFRS). These requirements mandate that entities disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position as well as instruments and transactions subject to an agreement similar to a master netting arrangement. In January 2013, the FASB issued an update that limits the scope of these disclosures to recognized derivative instruments, repurchase agreements and reverse repurchase agreements, and securities borrowing and lending transactions to the extent they are offset in the balance sheet or subject to an enforceable master netting arrangement or similar agreement. This disclosure-only guidance became effective for the Company's fiscal 2014 first quarter, with retrospective application required. The Company currently does not hold any financial or derivative instruments within the scope of this guidance that are offset in its consolidated balance sheets or are subject to an enforceable master netting arrangement. The adoption of this guidance did not have an impact on the Company's consolidated financial statements.

Recently Issued Accounting Standards

In June 2014, the FASB amended its authoritative guidance on accounting for certain share-based payment awards. The amended guidance requires that share-based compensation awards with terms of a performance target that affects vesting, and that could be achieved after the requisite service period, be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant-date fair value of the award and compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved. This guidance becomes effective for the Company's fiscal 2017 first quarter, with early adoption permitted. The guidance will permit an entity to apply the amendments in the update either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the consolidated financial statements and to all new or modified awards thereafter. The Company will apply this new guidance when it becomes effective, and is currently evaluating the impact of adoption on its consolidated financial statements.

In May 2014, the FASB issued authoritative guidance that defines how companies should report revenues from contracts with customers. The standard requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. It provides companies with a single comprehensive five-step principles-based model to use in accounting for revenue and supersedes current revenue recognition requirements, including most industry-specific and transaction-specific revenue guidance. This guidance becomes effective for the Company's fiscal 2018 first quarter and early adoption is not permitted. The guidance permits an entity to apply the standard retrospectively to all prior periods presented, with certain practical expedients, or apply the requirements in the year of adoption, through a cumulative adjustment. The Company will apply this new guidance when it becomes effective and has not yet selected a transition method. The Company is currently evaluating the impact of

adoption on its consolidated financial statements.

In April 2014, the FASB issued authoritative guidance which changes the criteria for a disposal to qualify as a discontinued operation. This revised standard defines a discontinued operation as (i) a component of an entity or group of components that has been disposed of or is classified as held for sale that represents a strategic shift that has or will have a major effect on an entity's operations and financial results or (ii) an acquired business or nonprofit activity that is classified as held for sale on the date of acquisition. The standard also requires expanded disclosures related to discontinued operations and added disclosure requirements for individually material disposal transactions that do not meet the discontinued operations criteria. This guidance becomes effective prospectively for the Company's fiscal 2016 first quarter, with early adoption permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available to be issued. The Company will apply this new guidance when it becomes effective and the adoption of this guidance is not expected to have a significant impact on its consolidated financial statements.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

In July 2013, the FASB issued authoritative guidance that requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss (NOL) carryforward, a similar tax loss, or a tax credit carryforward. If either (i) an NOL carryforward, a similar tax loss, or tax credit carryforward is not available as of the reporting date under the governing tax law to settle taxes that would result from the disallowance of the tax position or (ii) the entity does not intend to use the deferred tax asset for this purpose (provided that the tax law permits a choice), an entity should present an unrecognized tax benefit in the financial statements as a liability and should not net the unrecognized tax benefit with a deferred tax asset. This guidance becomes effective prospectively for unrecognized tax benefits that exist as of the Company's fiscal 2015 first quarter, with retrospective application and early adoption permitted. The Company will apply this new guidance prospectively when it becomes effective, and the adoption of this guidance is not expected to have a significant impact on its consolidated financial statements.

In March 2013, the FASB issued authoritative guidance to resolve the diversity in practice concerning the release of the cumulative translation adjustment (CTA) into net income (i) when a parent sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets within a foreign entity, and (ii) in connection with a step acquisition of a foreign entity. This amended guidance requires that CTA be released in net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided, and that a pro rata portion of the CTA be released into net income upon a partial sale of an equity method investment in a foreign entity only. In addition, the amended guidance clarifies the definition of a sale of an investment in a foreign entity to include both, events that result in the loss of a controlling financial interest in a foreign entity and events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately prior to the date of acquisition. The CTA should be released into net income upon the occurrence of such events. This guidance becomes effective prospectively for the Company's fiscal 2015 first quarter with early adoption permitted. The Company will apply this new guidance when it becomes effective and the adoption of this guidance is not expected to have a significant impact on its consolidated financial statements.

In February 2013, the FASB issued authoritative guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligations within the scope of this guidance is fixed at the reporting date. It does not apply to certain obligations that are addressed within existing guidance in U.S. GAAP. This guidance requires an entity to measure in-scope obligations with joint and several liability (e.g., debt arrangements, other contractual obligations, settled litigations, judicial rulings) as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount it expects to pay on behalf of its co-obligors. In addition, an entity is required to disclose the nature and amount of the obligation. This guidance should be applied retrospectively to all prior periods for those obligations resulting from joint and several liability arrangements within the scope of this guidance that exist at the beginning of the Company's fiscal 2015 first quarter, with early adoption permitted. The Company will apply this guidance when it becomes effective, and the adoption of this guidance is not expected to have a significant impact on its consolidated financial statements.

	\$ 1,502.6	\$ 1,350.7

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The cost of assets related to projects in progress of \$229.9 million and \$178.7 million as of June 30, 2014 and 2013, respectively, is included in their respective asset categories above. Depreciation and amortization of property, plant and equipment was \$378.1 million, \$329.8 million and \$286.9 million in fiscal 2014, 2013 and 2012, respectively. Depreciation and amortization related to the Company's manufacturing process is included in Cost of sales and all other depreciation and amortization is included in Selling, general and administrative expenses in the accompanying consolidated statements of earnings.

NOTE 5 GOODWILL AND OTHER INTANGIBLE ASSETS**Goodwill**

The Company assigns goodwill of a reporting unit to the product category in which that reporting unit predominantly operates at the time of acquisition. The following table presents goodwill by product category and the related change in the carrying amount:

(In millions)	Skin Care	Makeup	Fragrance	Hair Care	Total
<u>Balance as of June 30, 2012</u>					
Goodwill	\$ 68.1	\$ 421.1	\$ 54.8	\$ 403.4	\$ 947.4
Accumulated impairments	(23.6)			(41.2)	(64.8)
	44.5	421.1	54.8	362.2	882.6
Goodwill acquired during the year		9.2			9.2
Impairment charges	(9.6)				(9.6)
Translation and other adjustments	0.3	0.1		(1.1)	(0.7)
	(9.3)	9.3		(1.1)	(1.1)
<u>Balance as of June 30, 2013</u>					
Goodwill	67.7	430.4	54.8	401.6	954.5

Translation and other adjustments	0.1			1.3	1.4
	0.1	10.3		1.3	11.7
<u>Balance as of June 30, 2014</u>					
Goodwill	68.9	440.7	54.8	402.3	966.7
Accumulated impairments	(33.6)			(39.9)	(73.5)

\$ 35.3 \$ 440.7 \$ 54.8 \$ 362.4 \$ 893.2

Other Intangible Assets

Other intangible assets include trademarks and patents, as well as license agreements and other intangible assets resulting from or related to businesses and assets purchased by the Company. Indefinite-lived intangible assets (e.g., trademarks) are not subject to amortization and are assessed at least annually for impairment during the fiscal fourth quarter, or more frequently if certain events or circumstances exist. Other intangible assets (e.g., non-compete agreements, customer lists) are amortized on a straight-line basis over their expected period of benefit, approximately 2 years to 20 years. Intangible assets related to license agreements were amortized on a straight-line basis over their useful lives based on the terms of the respective agreements. The costs incurred and expensed by the Company to extend or renew the term of acquired intangible assets during fiscal 2014 and 2013 were not significant to the Company's results of operations.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Other intangible assets consist of the following:

(In millions)	June 30, 2014			June 30, 2013		
	Gross Carrying Value	Accumulated Amortization	Total Net Book Value	Gross Carrying Value	Accumulated Amortization	Total Net Book Value
<u>Amortizable intangible assets:</u>						
Customer lists and other	\$ 268.3	\$ 216.7	\$ 51.6	\$ 268.0	\$ 204.1	\$ 63.9
License agreements	43.0	43.0		43.0	43.0	
	\$ 311.3	\$ 259.7	51.6	\$ 311.0	\$ 247.1	63.9
<u>Non-amortizable intangible assets:</u>						
Trademarks and other			105.7			105.7
Total intangible assets			\$ 157.3			\$ 169.6

The aggregate amortization expense related to amortizable intangible assets for fiscal 2014, 2013 and 2012 was \$12.4 million, \$12.5 million and \$13.9 million, respectively. The estimated aggregate amortization expense for each of the next five fiscal years is as follows:

(In millions)	2015	2016	Fiscal 2017	2018	2019
Estimated aggregate amortization expense	\$ 12.1	\$ 11.9	\$ 9.9	\$ 8.4	\$ 7.5

Impairment Testing During Fiscal 2013

As of the Company's annual step-one goodwill impairment test on April 1, 2013, the Company determined that the carrying value of the Darphin reporting unit exceeded its fair value. As a result, the Company recorded an impairment charge for the remainder of the goodwill related to the Darphin reporting unit of \$9.6 million. The fair value of the reporting unit was based upon the income approach, utilizing estimated cash flows and a terminal value, discounted at a rate of return that reflects the relative risk of cash flows. The Company also determined that the carrying value of the Darphin trademark exceeded its estimated fair value, which was based on the use of a royalty rate to determine discounted projected future cash flows (relief-from-royalty method). As a result, the Company recognized an impairment charge of \$8.1 million for the remaining carrying value of the related trademark. These impairment charges were reflected in the skin care product category and in the Europe, the Middle East & Africa region.

NOTE 6 RETURNS AND CHARGES ASSOCIATED WITH RESTRUCTURING ACTIVITIES

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

During the second quarter of fiscal 2013, the Company closed its multi-faceted cost savings program implemented in February 2009 (the Program) and have executed substantially all remaining initiatives as of June 30, 2014. Total cumulative restructuring charges and other costs to implement those initiatives from inception of the Program to date are \$317.5 million.

Restructuring Charges (Adjustments)

The following table presents aggregate restructuring charges (adjustments) related to the Program to date:

(In millions)	Employee-Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Fiscal 2009	\$ 60.9	\$ 4.2	\$ 3.4	\$ 1.8	\$ 70.3
Fiscal 2010	29.3	11.0	2.3	6.2	48.8
Fiscal 2011	34.6	2.4	3.0	1.1	41.1
Fiscal 2012	37.1	1.7	12.6	2.2	53.6
Fiscal 2013	7.7	2.1	1.5	3.3	14.6
Fiscal 2014	(4.1)		1.2		(2.9)
Charges (adjustments) recorded through June 30, 2014	\$ 165.5	\$ 21.4	\$ 24.0	\$ 14.6	\$ 225.5

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The following table presents accrued restructuring charges (adjustments) and the related activities under the Program to date:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Balance at June 30, 2012	\$ 47.9	\$	\$ 0.8	\$ 0.5	\$ 49.2
Charges	7.7	2.1	1.5	3.3	14.6
Cash payments	(26.0)		(2.1)	(3.1)	(31.2)
Non-cash write-offs		(2.1)			(2.1)
Translation adjustments	0.2				0.2
Other adjustments	(2.3)				(2.3)
Balance at June 30, 2013	27.5		0.2	0.7	28.4
Charges (adjustments)	(4.1)		1.2		(2.9)
Cash payments	(16.6)		(0.8)	(0.5)	(17.9)
Translation adjustments	0.3		0.1	(0.1)	0.3
Balance at June 30, 2014	\$ 7.1	\$	\$ 0.7	\$ 0.1	\$ 7.9

Accrued restructuring charges at June 30, 2014 are expected to result in cash expenditures funded from cash provided by operations of approximately \$7 million and \$1 million in fiscal 2015 and 2016, respectively.

Total Returns and Other Charges (Adjustments) Associated with Restructuring Activities

The following table presents total returns and charges (adjustments) associated with restructuring and other activities related to the Program:

(In millions)	Year Ended June 30		
	2014	2013	2012
Sales returns (included in Net Sales)	\$ (0.1)	\$ 1.5	\$ 2.1
Cost of sales	0.1	1.2	1.5
Restructuring charges (adjustments)	(2.9)	14.6	53.6
Other charges		0.5	6.0
Total charges (adjustments) associated with restructuring activities	\$ (2.9)	\$ 17.8	\$ 63.2

Other charges in connection with the implementation of the Program were primarily related to consulting and other professional services.

NOTE 7 INCOME TAXES

The provision for income taxes is comprised of the following:

(In millions)	Year Ended June 30		
	2014	2013	2012
Current:			
Federal	\$ 338.2	\$ 261.7	\$ 154.5
Foreign	265.4	241.5	254.1
State and local	20.5	24.3	14.1
	624.1	527.5	422.7
Deferred:			
Federal	(41.7)	(35.2)	(13.8)
Foreign	(18.6)	(41.3)	(9.0)
State and local	3.9	0.4	0.7
	(56.4)	(76.1)	(22.1)
	\$ 567.7	\$ 451.4	\$ 400.6

Earnings before income taxes include amounts contributed by the Company's foreign operations of approximately \$1,384 million, \$1,220 million and \$1,172 million for fiscal 2014, 2013 and 2012, respectively. A portion of these earnings are taxed in the United States.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

A reconciliation of the U.S. federal statutory income tax rate to the Company's actual effective tax rate on earnings before income taxes is as follows:

	2014	Year Ended June 30 2013	2012
Provision for income taxes at statutory rate	35.0 %	35.0 %	35.0 %
Increase (decrease) due to:			
State and local income taxes, net of federal tax benefit	1.4	1.3	1.1
Taxation of foreign operations	(4.0)	(4.9)	(4.2)
Income tax reserve adjustments	(0.5)	(1.0)	(0.8)
Other, net	0.1	0.2	0.7
Effective tax rate	32.0 %	30.6 %	31.8 %

Income tax reserve adjustments represent changes in the Company's net liability for unrecognized tax benefits related to prior-year tax positions including tax settlements and lapses of the applicable statutes of limitations.

Federal income and foreign withholding taxes have not been provided on approximately \$2,403 million of undistributed earnings of foreign subsidiaries at June 30, 2014. The Company intends to reinvest these earnings in its foreign operations indefinitely, except where it is able to repatriate these earnings to the United States without material incremental tax provision. The determination and estimation of the future income tax consequences in all relevant taxing jurisdictions involves the application of highly complex tax laws in the countries involved, particularly in the United States, and is based on the tax profile of the Company in the year of earnings repatriation. Accordingly, it is not practicable to determine the amount of tax associated with such undistributed earnings.

Significant components of the Company's deferred income tax assets and liabilities were as follows:

(In millions)	2014	June 30	2013
Deferred tax assets:			
Compensation related expenses	\$	199.1	\$ 177.0
Inventory obsolescence and other inventory related reserves		80.1	76.1
Retirement benefit obligations		94.0	81.5
Various accruals not currently deductible		174.5	179.9
Net operating loss, credit and other carryforwards		111.3	89.6
Unrecognized state tax benefits and accrued interest		19.3	19.0
Other differences between tax and financial statement values		83.9	83.4
		762.2	706.5

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Valuation allowance for deferred tax assets	(115.2)	(92.9)
Total deferred tax assets	647.0	613.6
Deferred tax liabilities:		
Depreciation and amortization	(248.0)	(249.9)
Other differences between tax and financial statement values	(18.4)	(17.4)
Total deferred tax liabilities	(266.4)	(267.3)
Total net deferred tax assets	\$ 380.6	\$ 346.3

As of June 30, 2014 and 2013, the Company had current net deferred tax assets of \$295.1 million and \$296.0 million, respectively, substantially all of which are included in Prepaid expenses and other current assets in the accompanying consolidated balance sheets. In addition, the Company had noncurrent net deferred tax assets of \$85.5 million and \$50.3 million as of June 30, 2014 and 2013, respectively, substantially all of which are included in Other assets in the accompanying consolidated balance sheets.

As of June 30, 2014 and 2013, certain subsidiaries had net operating loss and other carryforwards for tax purposes of approximately \$429 million and \$349 million, respectively. With the exception of approximately \$412 million of net operating loss and other carryforwards with an indefinite carryforward period as of June 30, 2014, these carryforwards expire at various dates through fiscal 2034. Deferred tax assets, net of valuation allowances, in the amount of \$11.1 million and \$9.0 million as of June 30, 2014 and 2013, respectively, have been recorded to reflect the tax benefits of the carryforwards not utilized to date.

A full valuation allowance has been provided for those deferred tax assets for which, in the opinion of management, it is more-likely-than-not that the deferred tax assets will not be realized.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

As of June 30, 2014 and 2013, the Company had gross unrecognized tax benefits of \$58.1 million and \$64.0 million, respectively. The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$41.1 million.

The Company classifies applicable interest and penalties related to unrecognized tax benefits as a component of the provision for income taxes. During fiscal 2014 and 2013, the Company recognized gross interest and penalty benefits of \$1.7 million and \$8.2 million, respectively, in the accompanying consolidated statements of earnings. The total gross accrued interest and penalties in the accompanying consolidated balance sheets at June 30, 2014 and 2013 were \$12.5 million and \$17.4 million, respectively. A reconciliation of the beginning and ending amount of gross unrecognized tax benefits is as follows:

(In millions)	2014	June 30	2013
Beginning of the year balance of gross unrecognized tax benefits	\$	64.0	\$ 78.5
Gross amounts of increases as a result of tax positions taken during a prior period		5.1	5.6
Gross amounts of decreases as a result of tax positions taken during a prior period		(10.5)	(9.8)
Gross amounts of increases as a result of tax positions taken during the current period		10.1	8.4
Amounts of decreases in unrecognized tax benefits relating to settlements with taxing authorities		(6.4)	(6.8)
Reductions to unrecognized tax benefits as a result of a lapse of the applicable statutes of limitations		(4.2)	(11.9)
End of year balance of gross unrecognized tax benefits	\$	58.1	\$ 64.0

Earnings from the Company's global operations are subject to tax in various jurisdictions both within and outside the United States. During fiscal 2011, the Company commenced participation in the U.S. Internal Revenue Service (the IRS) Compliance Assurance Program (CAP). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of income tax returns prior to filing, thereby reducing or eliminating the need for post-filing examinations.

During the first and fourth quarters of fiscal 2013, the Company formally concluded the compliance process with respect to fiscal years 2011 and 2012, respectively, under the IRS CAP. The conclusion of this process did not impact the Company's consolidated financial statements. As of June 30, 2014, the compliance process was ongoing with respect to fiscal years 2013 and 2014.

The Company is currently undergoing income tax examinations and controversies in several state, local and foreign jurisdictions. These matters are in various stages of completion and involve complex multi-jurisdictional issues common among multinational enterprises, including transfer pricing, which may require an extended period of time for resolution.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

The Company had been notified of a disallowance of tax deductions claimed by its subsidiary in Spain for fiscal years 1999 through 2002. An appeal against this reassessment was filed with the Chief Tax Inspector. On July 18, 2005, the final assessment made by the Chief Tax Inspector was received, confirming the reassessment made by the tax auditors. During fiscal 2006, an appeal against this final assessment was filed with the Madrid Regional Economic Administrative Tribunal (TEAR). In view of the TEAR 's silence, during fiscal 2007 the claim was presumed to be dismissed and an appeal was filed against it with the Central Economic-Administrative Tribunal (TEAC). During the fiscal 2008 fourth quarter, the TEAC dismissed the claim and, on June 10, 2008, the Company filed an appeal for judicial review with the National Appellate Court. During fiscal 2009, the Company completed the appeal proceedings with the National Appellate Court and, as of June 30, 2011, awaited the court 's decision. During the first quarter of fiscal 2012, the National Appellate Court notified the Company that the appeal was denied. The Company had been assessed corporate income tax and interest of \$3.8 million, net of tax, at current exchange rates. In response, the Company filed an appeal with the Spain Supreme Court. Based on the decision of the National Appellate Court, the Company established a reserve during fiscal 2012 which resulted in an increase to the provision for income taxes equal to the \$3.8 million exposure, net of tax. Separately, during fiscal 2012, the Company 's subsidiary in Spain made cash payments totaling \$4.1 million, at current exchange rates, to the Spain tax authority as an advance deposit to limit the additional interest that would be due to the Spain tax authority should it receive an unfavorable decision from the Spain Supreme Court. During the second quarter of fiscal 2014, the Spain Supreme Court notified the Company that its appeal was denied. Since this represents the final outcome of the matter, the Company applied the advance deposit to settle the assessment and previously established reserve.

During fiscal 2014, the Company concluded various state, local and foreign income tax audits and examinations while several other matters, including those noted above, were initiated or remained pending. On the basis of the information available in this regard as of June 30, 2014, the Company does not expect any significant changes to the total amount of unrecognized tax benefits within the next 12 months.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The tax years subject to examination vary depending on the tax jurisdiction. As of June 30, 2014, the following tax years remain subject to examination by the major tax jurisdictions indicated:

Major Jurisdiction	Open Fiscal Years	
Belgium	2010	2014
Canada	2007	2014
China	2010	2014
France	2012	2014
Germany	2004	2014
Hong Kong	2008	2014
Japan	2012	2014
Korea	2014	
Russia	2013	2014
Spain	2012	2014
Switzerland	2011	2014
United Kingdom	2013	2014
United States	2013	2014
State of California	2009	2014
State of New York	2013	2014

The Company is also subject to income tax examinations in numerous other state, local and foreign jurisdictions. The Company believes that its tax reserves are adequate for all years subject to examination.

NOTE 8 OTHER ACCRUED LIABILITIES

Other accrued liabilities consist of the following:

(In millions)	June 30	
	2014	2013
Advertising, merchandising and sampling	\$ 301.7	\$ 318.6
Employee compensation	468.2	433.3

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of June 30, 2014, the Company had outstanding \$249.0 million of the 2042 Senior Notes consisting of \$250.0 million principal and unamortized debt discount of \$1.0 million. The 2042 Senior Notes, when issued in August 2012, were priced at 99.567% with a yield of 3.724%. Interest payments are required to be made semi-annually on February 15 and August 15.

As of June 30, 2014, the Company had outstanding \$296.6 million of 2037 Senior Notes consisting of \$300.0 million principal and unamortized debt discount of \$3.4 million. The 2037 Senior Notes, when issued in May 2007, were priced at 98.722% with a yield of 6.093%. Interest payments are required to be made semi-annually on May 15 and November 15. In April 2007, in anticipation of the issuance of the 2037 Senior Notes, the Company entered into a series of forward-starting interest rate swap agreements on a notional amount totaling \$210.0 million at a weighted-average all-in rate of 5.45%. The forward-starting interest rate swap agreements were settled upon the issuance of the new debt and the Company recognized a loss in other comprehensive income of \$0.9 million that is being amortized to interest expense over the life of the 2037 Senior Notes. As a result of the forward-starting interest rate swap agreements, the debt discount and debt issuance costs, the effective interest rate on the 2037 Senior Notes will be 6.181% over the life of the debt.

As of June 30, 2014, the Company had outstanding \$197.8 million of 2033 Senior Notes consisting of \$200.0 million principal and unamortized debt discount of \$2.2 million. The 2033 Senior Notes, when issued in September 2003, were priced at 98.645% with a yield of 5.846%. Interest payments are required to be made semi-annually on April 15 and October 15. In May 2003, in anticipation of the issuance of the 5.75% Senior Notes, the Company entered into a series of treasury lock agreements on a notional amount totaling \$195.0 million at a weighted-average all-in rate of 4.53%. The treasury lock agreements were settled upon the issuance of the new debt and the Company received a payment of \$15.0 million that will be amortized against interest expense over the life of the 2033 Senior Notes. As a result of the treasury lock agreements, the debt discount and debt issuance costs, the effective interest rate on the 2033 Senior Notes will be 5.395% over the life of the debt.

As of June 30, 2014, the Company had outstanding \$249.8 million of the 2022 Senior Notes consisting of \$250.0 million principal and unamortized debt discount of \$0.2 million. The 2022 Senior Notes, when issued in August 2012, were priced at 99.911% with a yield of 2.360%. Interest payments are required to be made semi-annually on February 15 and August 15.

As of June 30, 2014, the Company had outstanding \$321.1 million of 2017 Senior Notes consisting of \$300.0 million principal, an unamortized debt discount of \$0.2 million and a \$21.3 million adjustment to reflect the remaining termination value of an interest rate swap. The 2017 Senior Notes, when issued in May 2007, were priced at 99.845% with a yield of 5.570%. Interest payments are required to be made semi-annually on May 15 and November 15. During fiscal 2011, the Company terminated its interest rate swap agreements with a notional amount totaling \$250.0 million which had effectively converted the fixed rate interest on its outstanding 2017 Senior Notes to variable interest rates. The instrument, which was classified as an asset, had a fair value of \$47.4 million at the date of cash settlement. Hedge accounting treatment was discontinued prospectively and the fair value adjustment to the carrying amount of the related debt is being amortized against interest expense over the remaining life of the debt.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

In September 2012, the Company used the net proceeds of the 2022 Senior Notes and 2042 Senior Notes to redeem the \$230.1 million principal amount of its 2013 Senior Notes at a price of 108% of the principal amount and recorded a pre-tax expense on the extinguishment of debt of \$19.1 million representing the call premium of \$18.6 million and the pro-rata write-off of \$0.5 million of issuance costs and debt discount.

The Company has a \$1.0 billion commercial paper program under which it may issue commercial paper in the United States. At June 30, 2014, the Company had no commercial paper outstanding.

As of June 30, 2014, the Company had a fixed rate promissory note agreement with a financial institution pursuant to which the Company may borrow up to \$150.0 million in the form of loan participation notes through one of its subsidiaries in Europe. The interest rate on borrowings under this agreement is at an all-in fixed rate determined by the lender and agreed to by the Company at the date of each borrowing. At June 30, 2014, no borrowings were outstanding under this agreement. Debt issuance costs incurred related to this agreement were de minimis.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In July 2014, the Company replaced its undrawn \$1.0 billion unsecured revolving credit facility that was set to expire on July 14, 2015 (the Prior Facility), with a new \$1.0 billion senior unsecured revolving credit facility that expires on July 15, 2019, unless extended for up to two additional years in accordance with the terms set forth in the agreement (the New Facility). At June 30, 2014, no borrowings were outstanding under the Prior Facility. The New Facility may be used for general corporate purposes. Up to the equivalent of \$350 million of the New Facility is available for multi-currency loans. The interest rate on borrowings under the New Facility is based on LIBOR or on the higher of prime, which is the rate of interest publicly announced by the administrative agent, or ½% plus the Federal funds rate. The Company incurred costs of approximately \$1 million to establish the New Facility which will be amortized over the term of the facility. The New Facility has an annual fee of \$0.6 million, payable quarterly, based on the Company's current credit ratings. The New Facility also contains a cross-default provision whereby a failure to pay other material financial obligations in excess of \$150.0 million (after grace periods and absent a waiver from the lenders) would result in an event of default and the acceleration of the maturity of any outstanding debt under this facility.

The Company maintains uncommitted credit facilities in various regions throughout the world. Interest rate terms for these facilities vary by region and reflect prevailing market rates for companies with strong credit ratings. During fiscal 2014 and 2013, the monthly average amount outstanding was approximately \$13.7 million and \$11.8 million, respectively, and the annualized monthly weighted-average interest rate incurred was approximately 9.2% and 8.8%, respectively.

Refer to Note 13 Commitments and Contingencies for the Company's projected debt service payments, as of June 30, 2014, over the next five fiscal years.

NOTE 10 DERIVATIVE FINANCIAL INSTRUMENTS

The Company addresses certain financial exposures through a controlled program of risk management that includes the use of derivative financial instruments. The Company enters into foreign currency forward contracts and may enter into option contracts to reduce the effects of fluctuating foreign currency exchange rates and interest rate derivatives to manage the effects of interest rate movements on the Company's aggregate liability portfolio. The Company also enters into foreign currency forward contracts and may use option contracts, not designated as hedging instruments, to mitigate the change in fair value of specific assets and liabilities on the balance sheet. The Company does not utilize derivative financial instruments for trading or speculative purposes. Costs associated with entering into these derivative financial instruments have not been material to the Company's consolidated financial results.

For each derivative contract entered into where the Company looks to obtain hedge accounting treatment, the Company formally and contemporaneously documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking the hedge transaction, the nature of the risk being hedged, how the hedging instruments' effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. This process includes linking all derivatives to specific assets and liabilities on the balance sheet or to specific firm commitments or forecasted transactions. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging

transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. If it is determined that a derivative is not highly effective, or that it has ceased to be a highly effective hedge, the Company will be required to discontinue hedge accounting with respect to that derivative prospectively.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Foreign Currency Cash-Flow Hedges

The Company enters into foreign currency forward contracts to hedge anticipated transactions, as well as receivables and payables denominated in foreign currencies, for periods consistent with the Company's identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on costs and on the cash flows that the Company receives from foreign subsidiaries. The majority of foreign currency forward contracts are denominated in currencies of major industrial countries. The Company may also enter into foreign currency option contracts to hedge anticipated transactions where there is a high probability that anticipated exposures will materialize. The foreign currency forward contracts entered into to hedge anticipated transactions have been designated as foreign currency cash-flow hedges and have varying maturities through the end of June 2016. Hedge effectiveness of foreign currency forward contracts is based on a hypothetical derivative methodology and excludes the portion of fair value attributable to the spot-forward difference which is recorded in current-period earnings. Hedge effectiveness of foreign currency option contracts is based on a dollar offset methodology.

The ineffective portion of both foreign currency forward and option contracts is recorded in current-period earnings. For hedge contracts that are no longer deemed highly effective, hedge accounting is discontinued and gains and losses in AOCI are reclassified to earnings when the underlying forecasted transaction occurs. If it is probable that the forecasted transaction will no longer occur, then any gains or losses in AOCI are reclassified to current-period earnings. As of June 30, 2014, the Company's foreign currency cash-flow hedges were highly effective in all material respects. The estimated net loss as of June 30, 2014 that is expected to be reclassified from AOCI into earnings, net of tax, within the next twelve months is \$6.5 million. The accumulated gain (loss) on derivative instruments in AOCI was \$(12.5) million and \$16.9 million as of June 30, 2014 and June 30, 2013, respectively.

At June 30, 2014, the Company had foreign currency forward contracts in the amount of \$1,597.3 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$267.2 million), Euro (\$239.8 million), Swiss franc (\$170.4 million), Canadian dollar (\$138.6 million), Australian dollar (\$111.3 million), Japanese yen (\$108.0 million) and Hong Kong dollar (\$103.0 million).

At June 30, 2013, the Company had foreign currency forward contracts in the amount of \$1,579.6 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$426.2 million), Euro (\$268.8 million), Canadian dollar (\$198.6 million), Swiss franc (\$111.5 million), Australian dollar (\$92.1 million), Thailand baht (\$75.5 million) and Hong Kong dollar (\$58.1 million).

Fair-Value Hedges

The Company may enter into interest rate derivative contracts to manage the exposure to interest rate fluctuations on its funded indebtedness and anticipated issuance of debt for periods consistent with the identified exposures.

Credit Risk

As a matter of policy, the Company only enters into derivative contracts with counterparties that have a long-term credit rating of at least A- or higher by at least two nationally recognized rating agencies. The counterparties to these contracts are major financial institutions. Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of contracts in asset positions, which totaled \$4.2 million at June 30, 2014. To manage this risk, the Company has established strict counterparty credit guidelines that are continually monitored. Accordingly, management believes risk of loss under these hedging contracts is remote.

Certain of the Company's derivative financial instruments, with two counterparties, contain credit-risk-related contingent features. At June 30, 2014, the Company was in a net liability position for certain derivative contracts that contain such features. Such credit-risk-related contingent features would be triggered if (a) upon a merger involving the Company, the ratings of the surviving entity were materially weaker than prior to the merger or (b) the Company's credit ratings fall below investment grade (rated below BBB-/Baa3) and the Company fails to enter into an International Swaps & Derivatives Association Credit Support Annex within 30 days of being requested by the counterparty. The fair value of collateral required to settle the instruments immediately if a triggering event were to occur is estimated at approximately the fair value of the contracts. The fair value of those contracts as of June 30, 2014 was \$4.5 million. As of June 30, 2014, the Company was in compliance with such credit-risk-related contingent features.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 11 FAIR VALUE MEASUREMENTS**

The Company records its financial assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability, in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date. The accounting for fair value measurements must be applied to nonfinancial assets and nonfinancial liabilities, which principally consist of assets and liabilities acquired through business combinations, goodwill, indefinite-lived intangible assets and long-lived assets for the purposes of calculating potential impairment, and liabilities associated with restructuring activities. The Company is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are as follows:

Level 1: Inputs based on quoted market prices for identical assets or liabilities in active markets at the measurement date.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. The inputs are unobservable in the market and significant to the instrument's valuation.

The following table presents the Company's hierarchy for its financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2014:

(In millions)	Level 1	Level 2	Level 3	Total
Assets:				
Foreign currency forward contracts	\$	\$ 4.2	\$	\$ 4.2
Available-for-sale securities	7.6			7.6

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

To determine the fair value of the Darphin reporting unit at April 1, 2013, the Company used the income approach. Under the income approach, the Company determines fair value using a discounted cash flow method, projecting future cash flows of the reporting unit. For the Darphin reporting unit, negative cash flows in future forecasted periods would not support a value in excess of carrying value at that time and therefore the Company concluded that all remaining goodwill was fully impaired.

To determine fair value of the Darphin trademark at April 1, 2013, the Company assessed the future performance of the related reporting unit and determined that negative cash flows in future forecasted periods would not support a royalty rate for the calculation of fair value of the trademark at that time. The Company therefore concluded that the carrying value of this asset was not recoverable.

See Note 5 Goodwill and Other Intangible Assets for further discussion of the Company's impairment testing.

The following methods and assumptions were used to estimate the fair value of the Company's other classes of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents The carrying amount approximates fair value, primarily because of the short maturity of cash equivalent instruments.

Available-for-sale securities Available-for-sale securities are generally comprised of mutual funds and are valued using quoted market prices on an active exchange. Available-for-sale securities are included in Other assets in the accompanying consolidated balance sheets.

Note receivable During the second quarter of fiscal 2013, the Company amended the agreement related to the August 2007 sale of Rodan + Fields (a brand then owned by the Company) to receive a fixed amount in lieu of future contingent consideration and other rights. The fair value of the receivable under the amended agreement was determined by discounting the future cash flows using an implied market rate of 6.1%. This implied market rate reflects the Company's estimate of interest rates prevailing in the market for notes with comparable remaining maturities, the creditworthiness of the counterparty, and an assessment of the ultimate collectability of the instrument. The implied market rate is deemed to be an unobservable input and as such the Company's note receivable is classified within Level 3 of the valuation hierarchy. An increase or decrease in the risk premium of 100 basis points would not result in a significant change to the fair value of the receivable. See Note 13 Commitments and Contingencies for further discussion on the amended agreement.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Foreign currency forward contracts The fair values of the Company's foreign currency forward contracts were determined using an industry-standard valuation model, which is based on an income approach. The significant observable inputs to the model, such as swap yield curves and currency spot and forward rates, were obtained from an independent pricing service. To determine the fair value of contracts under the model, the difference between the contract price and the current forward rate was discounted using LIBOR for contracts with maturities up to 12 months, and swap yield curves for contracts with maturities greater than 12 months.

Current and long-term debt The fair value of the Company's debt was estimated based on the current rates offered to the Company for debt with the same remaining maturities. To a lesser extent, debt also includes capital lease obligations for which the carrying amount approximates the fair value. The Company's debt is classified within Level 2 of the valuation hierarchy.

The estimated fair values of the Company's financial instruments are as follows:

(In millions)	2014		June 30		2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Nonderivatives						
Cash and cash equivalents	\$ 1,629.1	\$ 1,629.1	\$ 1,495.7	\$ 1,495.7		
Available-for-sale securities	7.6	7.6	6.5	6.5		
Note receivable	8.4	8.5	16.8	16.9		
Current and long-term debt	1,343.1	1,428.3	1,344.3	1,387.8

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 12 PENSION, DEFERRED COMPENSATION AND POST-RETIREMENT BENEFIT PLANS

The Company maintains pension plans covering substantially all of its full-time employees for its U.S. operations and a majority of its international operations. Several plans provide pension benefits based primarily on years of service and employees' earnings. In certain instances, the Company adjusts benefits in connection with international employee transfers.

Retirement Growth Account Plan (U.S.)

The Retirement Growth Account Plan is a trust-based, noncontributory qualified defined benefit pension plan. The Company's funding policy consists of contributions at a rate that provides for future plan benefits and maintains appropriate funded percentages. Such contribution is not less than the minimum required by the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and subsequent pension legislation and is not more than the maximum amount deductible for income tax purposes.

Restoration Plan (U.S.)

The Company also has an unfunded, non-qualified domestic noncontributory pension Restoration Plan to provide benefits in excess of Internal Revenue Code limitations.

International Pension Plans

The Company maintains international pension plans, the most significant of which are defined benefit pension plans. The Company's funding policies for these plans are determined by local laws and regulations. The Company's most significant defined benefit pension obligations are included in the plan summaries below.

Post-retirement Benefit Plans

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

The Company maintains a domestic post-retirement benefit plan which provides certain medical and dental benefits to eligible employees. Employees hired after January 1, 2002 are not eligible for retiree medical benefits when they retire. Certain retired employees who are receiving monthly pension benefits are eligible for participation in the plan. Contributions required and benefits received by retirees and eligible family members are dependent on the age of the retiree. It is the Company's practice to fund these benefits as incurred and to provide discretionary funding for the future liability up to the maximum amount deductible for income tax purposes.

Certain of the Company's international subsidiaries and affiliates have post-retirement plans, although most participants are covered by government-sponsored or administered programs.

Weighted-average assumptions used to determine net periodic benefit cost for the year ended June 30:									
Discount rate	4.30 4.90%	3.90%	5.40%	1.00 7.25%	1.00 7.00%	1.25 8.25%	4.75 8.75%	3.70 8.65%	5.40 8.75%
Expected return on assets	7.50%	7.50%	7.75%	2.25 7.25%	2.25 7.00%	2.00 8.25%	7.50%	7.50%	7.75%
Rate of compensation Increase	4.00 12.00%	4.00 12.00%	4.00 12.00%	1.00 5.50%	1.00 6.00%	2.00 6.00%	N/A	N/A	N/A

The discount rate for each plan used for determining future net periodic benefit cost is based on a review of highly rated long-term bonds. The discount rate for the Company's Domestic Plans is based on a bond portfolio that includes only long-term bonds with an Aa rating, or equivalent, from a major rating agency. The Company used an above-mean yield curve which represents an estimate of the effective settlement rate of the

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

obligation, and the timing and amount of cash flows related to the bonds included in this portfolio are expected to match the estimated defined benefit payment streams of the Company's Domestic Plans. For the Company's international plans, the discount rate in a particular country was principally determined based on a yield curve constructed from high quality corporate bonds in each country, with the resulting portfolio having a duration matching that particular plan. In determining the long-term rate of return for a plan, the Company considers the historical rates of return, the nature of the plan's investments and an expectation for the plan's investment strategies.

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. The assumed weighted-average health care cost trend rate for the coming year is 7.10% while the weighted-average ultimate trend rate of 4.54% is expected to be reached in approximately 14 years. A one-percentage-point change in assumed health care cost trend rates for fiscal 2014 would have had the following effects:

(In millions)	One-Percentage-Point Increase	One-Percentage-Point Decrease
Effect on total service and interest costs	\$ 1.3	\$ (1.1)
Effect on post-retirement benefit obligations	\$ 13.9	\$ (12.1)

2019	54.6	21.4	9.3
Years 2020 - 2024	291.1	140.6	59.5

Plan Assets

The Company's investment strategy for its pension and post-retirement plan assets is to maintain a diversified portfolio of asset classes with the primary goal of meeting long-term cash requirements as they become due. Assets are primarily invested in diversified funds that hold equity or debt securities to maintain the security of the funds while maximizing the returns within each plan's investment policy. The investment policy for each plan specifies the type of investment vehicles appropriate for the plan, asset allocation guidelines, criteria for selection of investment managers, procedures to monitor overall investment performance, as well as investment manager performance.

The Company's target asset allocation at June 30, 2014 is as follows:

	Pension Plans		Other than Pension Plans Post-retirement
	U.S.	International	
Equity	30%	22%	30%
Debt securities	39%	47%	39%
Other	31%	31%	31%
	100%	100%	100%

The following is a description of the valuation methodologies used for plan assets measured at fair value:

Short-term investment funds - The fair value is determined using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in a market that is not active and is primarily classified as Level 2. When quoted in an active market, these investments are classified within Level 1 of the valuation hierarchy.

Government and agency securities - When quoted prices are available in an active market, the investments are classified as Level 1. When quoted market prices are not available in an active market, these investments are classified as Level 2.

Equity securities - The fair values reflect the closing price reported on a major market where the individual securities are traded. These investments are classified within Level 1 of the valuation hierarchy.

Debt instruments - The fair values are based on a compilation of primarily observable market information or a broker quote in a non-active market. These investments are primarily classified within Level 2 of the valuation hierarchy.

Commingled funds - The fair values are determined using NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the trust/entity, minus its liabilities, and then divided by the number of shares outstanding. When quoted in an active market, these investments are classified within Level 1 of the valuation hierarchy. When the market is not active, these investments are generally classified within Level 2. When the market is not active and some inputs are unobservable, these investments are generally classified within Level 3.

Insurance contracts - These instruments are issued by insurance companies. The fair value is based on negotiated value and the underlying investment held in separate account portfolios as well as considering the creditworthiness of the issuer. The underlying investments are primarily government, asset-backed and fixed income securities. Insurance contracts are generally classified as Level 3 as there are no quoted prices nor other observable inputs for pricing.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Interests in limited partnerships and hedge fund investments - Certain investments are valued using the NAV provided by the administrator of the partnership/fund. The NAV is based on the value of the underlying assets owned by the partnership/fund, minus its liabilities, and then divided by the number of shares outstanding. These investments were classified within Level 2 and Level 3 of the valuation hierarchy. The fair value of all other investments are determined by the fund managers based on the estimated value of the various holdings of the fund portfolio. These investments are classified within Level 3 of the valuation hierarchy and have redemption restrictions.

The following table presents the fair values of the Company's pension and post-retirement plan assets by asset category as of June 30, 2014:

(In millions)	Level 1	Level 2	Level 3	Total

F-34

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS*****401(k) Savings Plan (U.S.)***

The Company's 401(k) Savings Plan (Savings Plan) is a contributory defined contribution plan covering substantially all regular U.S. employees who have completed the hours and service requirements, as defined by the plan document. Regular full-time employees are eligible to participate in the Savings Plan thirty days following their date of hire. The Savings Plan is subject to the applicable provisions of ERISA. The Company matches a portion of the participant's contributions after one year of service under a predetermined formula based on the participant's contribution level. The Company's contributions were \$33.3 million, \$25.1 million and \$23.6 million for fiscal 2014, 2013 and 2012, respectively. Shares of the Company's Class A Common Stock are not an investment option in the Savings Plan and the Company does not use such shares to match participants' contributions.

Deferred Compensation

The Company accrues for deferred compensation and interest thereon, and for the increase in the value of share units pursuant to agreements with certain key executives and outside directors. The amounts included in the accompanying consolidated balance sheets under these plans were \$69.0 million and \$72.1 million as of June 30, 2014 and 2013, respectively. The expense for fiscal 2014, 2013 and 2012 was \$10.6 million, \$12.2 million and \$8.4 million, respectively.

NOTE 13 COMMITMENTS AND CONTINGENCIES***Contractual Obligations***

The following table summarizes scheduled maturities of the Company's contractual obligations for which cash flows are fixed and determinable as of June 30, 2014:

(In millions)	Total	Payments Due in Fiscal					
		2015	2016	2017	2018	2019	Thereafter
Debt service (1)	\$ 2,330.6	\$ 79.7	\$ 68.0	\$ 364.8	\$ 44.7	\$ 44.6	\$ 1,728.8
Operating lease commitments (2)	2,010.6	291.7	274.0	240.5	215.9	190.6	797.9

Total contractual obligations	\$	6,622.4	\$	1,464.1	\$	779.3	\$	1,035.8	\$	504.3	\$	273.0	\$	2,565.9

(1) Includes long-term and current debt and the related projected interest costs, and to a lesser extent, capital lease commitments. Interest costs on long-term and current debt are projected to be \$61.3 million in each of the years from fiscal 2015 through fiscal 2017, \$44.6 million in fiscal 2018 and fiscal 2019 and \$728.7 million thereafter. Projected interest costs on variable rate instruments were calculated using market rates at June 30, 2014. Refer to Note 9 Debt.

(2) Minimum operating lease commitments only include base rent. Certain leases provide for contingent rents that are not measurable at inception and primarily include rents based on a percentage of sales in excess of stipulated levels, as well as common area maintenance. These amounts are excluded from minimum operating lease commitments and are included in the determination of total rent expense when it is probable that the expense has been incurred and the amount is reasonably measurable. Such amounts have not been material to total rent expense. Total rental expense included in the accompanying consolidated statements of earnings was \$356.1 million, \$332.4 million and \$304.9 million in fiscal 2014, 2013 and 2012, respectively.

(3) Unconditional purchase obligations primarily include inventory commitments, estimated future earn-out payments, estimated royalty payments pursuant to license agreements, advertising commitments, capital improvement commitments, planned funding of pension and other post-retirement benefit obligations, commitments pursuant to executive compensation arrangements, obligations related to the Company's cost savings initiatives and acquisitions. Future earn-out payments and future royalty and advertising commitments were estimated based on planned future sales for the term that was in effect at June 30, 2014, without consideration for potential renewal periods.

(4) Refer to Note 7 Income Taxes for information regarding unrecognized tax benefits. As of June 30, 2014, the noncurrent portion of the Company's unrecognized tax benefits, including related accrued interest and penalties was \$69.5 million. At this time, the settlement period for the noncurrent portion of the unrecognized tax benefits, including related accrued interest and penalties, cannot be determined and therefore was not included.

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Legal Proceedings

The Company is involved, from time to time, in litigation and other legal proceedings incidental to its business. Management believes that the outcome of current litigation and legal proceedings will not have a material adverse effect upon the Company's results of operations, financial condition or cash flows. However, management's assessment of the Company's current litigation and other legal proceedings could change in light of the discovery of facts with respect to legal actions or other proceedings pending against the Company, not presently known to the Company or determinations by judges, juries or other finders of fact which are not in accord with management's evaluation of the possible liability or outcome of such litigation or proceedings. Except as disclosed below, reasonably possible losses in addition to the amounts accrued for litigation and other legal proceedings are not material to the Company's consolidated financial statements.

During the fiscal 2007 fourth quarter, the former owner of the Darphin brand initiated litigation in the Paris Commercial Court against the Company and one of its subsidiaries seeking to recover 60.0 million (\$81.9 million at the exchange rate at June 30, 2014) that he claims he was owed as additional consideration for the sale of Darphin to the Company in April 2003. On December 23, 2011, the Paris Commercial Court issued its judgment, awarding the former owner 22.9 million (\$31.3 million at the exchange rate at June 30, 2014) plus interest from 2007. The Company has filed its appeal with the Paris Court of Appeal and oral arguments for the appeal took place in June 2014. A decision is expected to be rendered during September 2014. In accordance with the judgment, in January 2012, the Company paid 25.3 million (\$34.5 million at the exchange rate at June 30, 2014) to the former owner and received from him a bank guarantee to assure repayment to the Company of such sum (or any part thereof) in the event that the judgment is reversed by the Paris Court of Appeal. Based upon its assessment of the case, as well as the advice of external counsel, the Company is maintaining the amount it previously accrued as an amount that it believes will ultimately be paid based on the probable outcome of the appeal. Such amount is less than the Paris Commercial Court's award.

Other Income

During the fiscal 2013 second quarter, the Company amended the agreement related to the August 2007 sale of Rodan + Fields (a brand then owned by the Company) to receive a fixed amount in lieu of future contingent consideration and other rights. Prior to this amendment, the Company earned and recognized \$1.8 million during the three months ended September 30, 2012 as contingent consideration in accordance with the original terms of the agreement, of which \$0.7 million was received. The remaining \$1.1 million of unpaid consideration was included under the amended agreement, whereas the Company is to receive a principal amount of \$22.8 million. As of June 30, 2014, the Company received \$14.4 million of the principal amount. The remaining \$8.4 million principal amount that was due on March 31, 2015, and is included in Prepaid expenses and other current assets in the accompanying consolidated balance sheet as of June 30, 2014, was received in August 2014. As a result of the original and amended terms of this agreement, the Company recognized \$23.1 million as other income in the consolidated statement of earnings during fiscal 2013.

In November 2011, the Company settled a commercial dispute with third parties that was outside its normal operations. In connection therewith, the Company received a \$10.5 million cash payment, which has been classified as other income in its consolidated statement of earnings during fiscal 2012.

NOTE 14 COMMON STOCK

As of June 30, 2014, the Company's authorized common stock consists of 1,300 million shares of Class A Common Stock, par value \$.01 per share, and 304 million shares of Class B Common Stock, par value \$.01 per share. Class B Common Stock is convertible into Class A Common Stock, in whole or in part, at any time and from time to time at the option of the holder, on the basis of one share of Class A Common Stock for each share of Class B Common Stock converted. Holders of the Company's Class A Common Stock are entitled to one vote per share and holders of the Company's Class B Common Stock are entitled to ten votes per share.

Information about the Company's common stock outstanding is as follows:

(Shares in thousands)	Class A	Class B
Balance at June 30, 2011	242,598.9	151,964.1
Acquisition of treasury stock	(11,980.2)	
Conversion of Class B to Class A	186.0	(186.0)
Stock-based compensation	6,314.8	
Balance at June 30, 2012	237,119.5	151,778.1
Acquisition of treasury stock	(6,718.8)	
Conversion of Class B to Class A	2,800.0	(2,800.0)
Stock-based compensation	5,815.5	
Balance at June 30, 2013	239,016.2	148,978.1
Acquisition of treasury stock	(9,602.2)	
Conversion of Class B to Class A	250.0	(250.0)
Stock-based compensation	4,492.4	
Balance at June 30, 2014	234,156.4	148,728.1

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The Company is authorized by the Board of Directors to repurchase up to 216.0 million shares of Class A Common Stock in the open market or in privately negotiated transactions, depending on market conditions and other factors. As of June 30, 2014, the cumulative total of acquired shares pursuant to the authorization was 175.9 million, reducing the remaining authorized share repurchase balance to 40.1 million. Subsequent to June 30, 2014 and as of August 14, 2014, the Company purchased approximately 1.7 million additional shares of Class A Common Stock for \$130.7 million pursuant to its share repurchase program.

The Company transitioned to a quarterly dividend payout schedule for its Class A and Class B Common Stock beginning in the fiscal 2013 third quarter.

The following is a summary of cash dividends declared per share on the Company's Class A and Class B Common Stock during the year ended June 30, 2014:

Date Declared	Record Date	Payable Date	Amount per Share
August 14, 2013	August 30, 2013	September 16, 2013	\$.18
October 30, 2013	November 29, 2013	December 16, 2013	\$.20
February 4, 2014	February 28, 2014	March 17, 2014	\$.20
May 1, 2014	May 30, 2014	June 16, 2014	\$.20

On August 14, 2014, a dividend was declared in the amount of \$.20 per share on the Company's Class A and Class B Common Stock. The dividend is payable in cash on September 15, 2014 to stockholders of record at the close of business on August 29, 2014.

NOTE 15 STOCK PROGRAMS

As of June 30, 2014, the Company has two active equity compensation plans which include the Amended and Restated Fiscal 2002 Share Incentive Plan (the Fiscal 2002 Plan) and the Non-Employee Director Share Incentive Plan (collectively, the Plans). These Plans currently provide for the issuance of 66,206,200 shares of Class A Common Stock, which consist of shares originally provided for and shares transferred to the Fiscal 2002 Plan from other inactive plans and employment agreements, to be granted in the form of stock-based awards to key employees, consultants and non-employee directors of the Company. As of June 30, 2014, approximately 14,893,900 shares of Class A Common Stock were reserved and available to be granted pursuant to these Plans. The Company may satisfy the obligation of its stock-based compensation awards with either new or treasury shares. The Company's equity compensation awards include stock options, performance share units (PSU), restricted stock units (RSU), performance share units based on total stockholder return, market share units (MSU) and share units.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Total stock-based compensation expense is attributable to the granting of, and the remaining requisite service periods of stock options, PSUs, RSUs, PSUs based on total stockholder return, MSUs and share units. Stock-based compensation expense and related income tax benefits are as follows:

(In millions)	Year Ended June 30		
	2014	2013	2012
Compensation expense	\$ 152.6	\$ 145.8	\$ 124.7
Income tax benefit	50.2	47.6	41.1

As of June 30, 2014, the total unrecognized compensation cost related to nonvested stock-based awards was \$101.8 million and the related weighted-average period over which it is expected to be recognized is approximately 2 years.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Stock Options**

A summary of the Company's stock option programs as of June 30, 2014 and changes during the fiscal year then ended, is presented below:

(Shares in thousands)	Shares	Weighted-Average Exercise Price Per Share	Aggregate Intrinsic Value(1) (in millions)	Weighted-Average Contractual Life Remaining in Years
Outstanding at June 30, 2013	15,071.4	\$ 36.60		
Granted at fair value	1,864.9	67.42		
Exercised	(2,695.4)	31.49		
Expired	(16.7)	42.73		
Forfeited	(96.4)	54.80		
Outstanding at June 30, 2014	14,127.8	41.51	\$ 462.7	6.5
Vested and expected to vest at June 30, 2014	14,000.7	41.32	\$ 461.2	6.5
Exercisable at June 30, 2014	9,248.2	31.77	\$ 393.0	5.6

(1) The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

The exercise period for all stock options generally may not exceed ten years from the date of grant. Stock option grants to individuals generally become exercisable in three substantively equal tranches over a service period of up to four years. The Company attributes the value of option awards on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in substance, multiple awards.

The following is a summary of the per-share weighted-average grant date fair value of stock options granted and total intrinsic value of stock options exercised:

(In millions, except per share data)	Year Ended June 30		
	2014	2013	2012
Per-share weighted-average grant date fair value of stock options granted	\$ 23.13	\$ 20.30	\$ 17.41

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

Intrinsic value of stock options exercised \$ 104.7 \$ 145.8 \$ 154.0

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	Year Ended June 30		
	2014	2013	2012
Weighted-average expected stock-price volatility	33%	34%	35%
Weighted-average expected option life	7 years	8 years	8 years
Average risk-free interest rate	2.5%	1.2%	1.7%
Average dividend yield	1.1%	1.0%	1.0%

The Company uses a weighted-average expected stock-price volatility assumption that is a combination of both current and historical implied volatilities of the underlying stock. The implied volatilities were obtained from publicly available data sources. For the weighted-average expected option life assumption, the Company considers the exercise behavior of past grants and models the pattern of aggregate exercises. The average risk-free interest rate is based on the U.S. Treasury strip rate for the expected term of the options and the average dividend yield is based on historical experience.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Performance Share Units**

During fiscal 2014, the Company granted approximately 291,000 PSUs, which will be settled in stock subject to the achievement of the Company's net sales, diluted net earnings per common share and return on invested capital goals for the three fiscal years ending June 30, 2016, all subject to the continued employment or retirement of the grantees. Settlement will be made pursuant to a range of opportunities relative to the net sales, diluted net earnings per common share and return on invested capital targets of the Company and, as such, the compensation cost of the PSU is subject to adjustment based upon the attainability of these target goals. No settlement will occur for results below the applicable minimum threshold of a target and additional shares shall be issued if performance exceeds the targeted performance goals. Certain PSUs are accompanied by dividend equivalent rights that will be payable in cash upon settlement of the PSU. Other PSUs granted in fiscal 2014 are not accompanied by dividend equivalent rights and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant less the discounted present value of the dividends expected to be paid on the shares during the vesting period. These awards are subject to the provisions of the agreement under which the PSUs are granted. The PSUs were valued at the closing market value of the Company's Class A Common Stock on the date of grant and generally vest at the end of the performance period. Approximately 376,500 shares of Class A Common Stock are anticipated to be issued, relative to the target goals set at the time of issuance, in settlement of the 259,700 PSUs that vested as of June 30, 2014. In September 2013, approximately 548,800 shares of the Company's Class A Common Stock were issued and related accrued dividends were paid, relative to the target goals set at the time of issuance, in settlement of 365,900 PSUs which vested as of June 30, 2013.

The following is a summary of the status of the Company's PSUs as of June 30, 2014 and activity during the fiscal year then ended:

(Shares in thousands)	Shares	Weighted-Average Grant Date Fair Value Per Share
Nonvested at June 30, 2013	510.9	\$ 53.73
Granted	291.0	67.38
Vested	(259.7)	48.57
Forfeited	(3.6)	63.17
Nonvested at June 30, 2014	538.6	63.53

Restricted Stock Units

The Company granted approximately 1,313,100 RSUs during fiscal 2014 which, at the time of grant, were scheduled to vest as follows: 300 in fiscal 2014, 478,400 in fiscal 2015, 494,600 in fiscal 2016, 336,800 in fiscal 2017 and 3,000 in fiscal 2018. All RSUs are subject to the continued employment or retirement of the grantees. Certain RSUs granted in fiscal 2014 are accompanied by dividend equivalent rights that will be payable in cash upon settlement of the RSU and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant. Other RSUs granted in fiscal 2014 are not accompanied by dividend equivalent rights and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant less the discounted present value of the dividends

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

expected to be paid on the shares during the vesting period.

The following is a summary of the status of the Company's RSUs as of June 30, 2014 and activity during the fiscal year then ended:

(Shares in thousands)	Shares		Weighted-Average Grant Date Fair Value Per Share
Nonvested at June 30, 2013	2,222.8	\$	52.68
Granted	1,313.1		66.05
Vested	(1,248.3)		49.39
Forfeited	(65.5)		59.91
Nonvested at June 30, 2014	2,222.1		62.21

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Performance Share Units Based on Total Stockholder Return

During fiscal 2013, the Company granted PSUs to an executive of the Company with an aggregate target payout of 162,760 shares of the Company's Class A Common Stock, subject to continued employment through the end of the relative performance periods, which end June 30, 2015, 2016 and 2017. Such PSUs will be settled based upon the Company's relative total stockholder return (TSR) over the relevant performance period as compared to companies in the S&P 500 on July 1, 2012. No settlement will occur if the Company's TSR falls below a minimum threshold, and up to an aggregate of 260,416 shares of the Company's Class A Common Stock will be issued depending on the extent to which the Company's TSR equals or exceeds the minimum threshold. The PSUs are accompanied by dividend equivalent rights that will be payable in cash upon settlement of the PSUs.

The grant date fair value of the PSUs of \$11.0 million was estimated using a lattice model with a Monte Carlo simulation and the following assumptions for each performance period, respectively: contractual life of 33, 45 and 57 months, average risk-free interest rate of 0.3%, 0.5% and 0.7% and a dividend yield of 1.0%. Using the historical stock prices and dividends from public sources, the Company estimated the covariance structure of the returns on S&P 500 stocks. The volatility for the Company's stock produced by this estimation was 32%. The average risk-free interest rate is based on the U.S. Treasury strip rates over the contractual term of the grant and the dividend yield is based on historical experience.

Market Share Unit

During fiscal 2014, the Company had one outstanding market share unit, which vested on June 30, 2014. The market share unit had a grant date fair value of \$10.6 million that was estimated using a lattice model with a Monte Carlo simulation and the following assumptions: contractual life of 41 months, a weighted-average expected volatility of 29%, a weighted-average risk-free interest rate of 1.6% and a weighted-average dividend yield of 1.0%. The Company used an expected stock-price volatility assumption that is a combination of both current and historical implied volatilities from options on the underlying stock. The implied volatilities were obtained from publicly available data sources. The expected life was equal to the contractual term of the grant. The average risk-free interest rate was based on the U.S. Treasury strip rates over the contractual term of the grant and the average dividend yield was based on historical experience. In accordance with the terms of the grant, the maximum award of 320,000 shares of the Company's Class A Common Stock are anticipated to be issued, and related dividends to be paid, based upon the average closing stock price per share of the Company's Class A Common Stock on the New York Stock Exchange during the last 20 trading days ending on June 30, 2014.

Share Units

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

The Company grants share units to certain non-employee directors under the Non-Employee Director Share Incentive Plan. The share units are convertible into shares of the Company's Class A Common Stock as provided for in that plan. Share units are accompanied by dividend equivalent rights that are converted to additional share units when such dividends are declared.

The following is a summary of the status of the Company's share units as of June 30, 2014 and activity during the fiscal year then ended:

(Shares in thousands)	Shares		Weighted-Average Grant Date Fair Value Per Share
Outstanding at June 30, 2013	87.3	\$	33.27
Granted	10.5		70.68
Dividend equivalents	1.0		72.54
Converted			
Outstanding at June 30, 2014	98.8		37.67

Cash Units

Certain non-employee directors defer cash compensation in the form of cash payout share units, which are not subject to the Plans. These share units are classified as liabilities and, as such, their fair value is adjusted to reflect the current market value of the Company's Class A Common Stock. The Company recorded \$2.4 million, \$3.0 million and \$0.8 million as compensation expense to reflect additional deferrals and the change in the market value for fiscal 2014, 2013 and 2012, respectively.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 16 NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC. PER COMMON SHARE**

Net earnings attributable to The Estée Lauder Companies Inc. per common share (basic EPS) is computed by dividing net earnings attributable to The Estée Lauder Companies Inc. by the weighted-average number of common shares outstanding and contingently issuable shares (which satisfy certain conditions). Net earnings attributable to The Estée Lauder Companies Inc. per common share assuming dilution (diluted EPS) is computed by reflecting potential dilution from stock-based awards.

A reconciliation between the numerators and denominators of the basic and diluted EPS computations is as follows:

(In millions, except per share data)	Year Ended June 30		
	2014	2013	2012
Numerator:			
Net earnings attributable to The Estée Lauder Companies Inc.	\$ 1,204.1	\$ 1,019.8	\$ 856.9
Denominator:			
Weighted-average common shares outstanding Basic	386.2	387.6	388.7
Effect of dilutive stock options	5.0	5.5	6.3
Effect of PSUs	0.1		
Effect of RSUs	1.4	1.4	1.8
Effect of performance share units based on TSR	0.1	0.1	
Effect of MSU	0.3	0.3	0.2
Weighted-average common shares outstanding Diluted	393.1	394.9	397.0
Net earnings attributable to The Estée Lauder Companies Inc. per common share:			
Basic	\$ 3.12	\$ 2.63	\$ 2.20
Diluted	3.06	2.58	2.16

As of June 30, 2014 and 2013, 0.1 million outstanding stock options were not included in the computation of diluted EPS because their inclusion would be anti-dilutive. As of June 30, 2012, outstanding stock options that were not included in the computation of diluted EPS because their inclusion would be anti-dilutive were de minimis. As of June 30, 2014, 2013 and 2012, 0.5 million, 0.5 million and 0.6 million, respectively, of PSUs have been excluded from the calculation of diluted EPS because the number of shares ultimately issued is contingent on the achievement of certain performance targets of the Company, as discussed in Note 15 Stock Programs.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 17 ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)**

The components of AOCI included in the accompanying consolidated balance sheets consist of the following:

NOTE 19 SEGMENT DATA AND RELATED INFORMATION

Reportable operating segments include components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (the Chief Executive) in deciding how to allocate resources and in assessing performance. As a result of the similarities in the manufacturing, marketing and distribution processes for all of the Company's products, much of the information provided in the consolidated financial statements is similar to, or the same as, that reviewed on a regular basis by the Chief Executive. Although the Company operates in one business segment, beauty products, management also evaluates performance on a product category basis.

While the Company's results of operations are also reviewed on a consolidated basis, the Chief Executive reviews data segmented on a basis that facilitates comparison to industry statistics. Accordingly, net sales, depreciation and amortization, and operating income are available with respect to the manufacture and distribution of skin care, makeup, fragrance, hair care and other products. These product categories meet the definition of operating segments and, accordingly, additional financial data are provided below. The other segment includes the sales and related results of ancillary products and services that do not fit the definition of skin care, makeup, fragrance and hair care.

Product category performance is measured based upon net sales before returns associated with restructuring activities, and earnings before income taxes, other income, net interest expense, interest expense on debt extinguishment and total charges associated with restructuring activities. Returns and charges associated with restructuring activities are not allocated to the product categories because they result from activities that are deemed a company-wide program to redesign the Company's organizational structure. The accounting policies for the Company's reportable segments are the same as those described in the summary of significant accounting policies, except for depreciation and

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

amortization charges, which are allocated, primarily, based upon net sales. The assets and liabilities of the Company are managed centrally and are reported internally in the same manner as the consolidated financial statements; thus, no additional information is produced for the Chief Executive or included herein.

Diluted	.76	1.09	.54	.66	3.06
Fiscal 2013					
Net Sales(5)	\$ 2,549.5	\$ 2,933.0	\$ 2,291.8	\$ 2,407.4	\$ 10,181.7
Gross Profit	2,010.3	2,365.0	1,848.7	1,931.8	8,155.8
Operating Income(5)	482.0	653.1	245.1	145.8	1,526.0
Net Earnings Attributable to The Estée Lauder Companies Inc.	299.5	447.5	178.8	94.0	1,019.8
Net earnings attributable to The Estée Lauder Companies Inc. per common share:					
Basic	.77	1.16	.46	.24	2.63
Diluted	.76	1.13	.45	.24	2.58

(1) Fiscal 2014 first quarter results include charges associated with restructuring activities of \$(1.2) million. Fiscal 2013 first quarter results include charges associated with restructuring activities of \$(0.4) million, debt extinguishment charges of \$(19.1) million (\$12.2 million after tax, or \$(.03) per diluted common share), certain out-of-period adjustments of \$(5.9) million (\$7.4 million after tax, or \$(.02) per diluted common share) and other income of \$1.8 million (\$1.2 million after tax).

(2) Fiscal 2014 second quarter results include adjustments associated with restructuring activities of \$3.5 million (\$2.3 million after tax, or \$.01 per diluted common share). Fiscal 2013 second quarter results include charges associated with restructuring activities of \$(14.6) million (\$9.5 million after tax, or \$(.02) per diluted common share), certain out-of-period adjustments of \$13.6 million (\$9.1 million after tax, or \$.02 per diluted common share) and other income of \$21.3 million (\$13.6 million after tax, or \$.03 per diluted common share).

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-K

(3) Fiscal 2014 third quarter results include charges associated with restructuring activities of \$(0.2) million and a charge related to the remeasurement of net monetary assets in Venezuela of \$(38.3) million, before and after tax, or \$(.10) per diluted common share. Fiscal 2013 third quarter results include adjustments associated with restructuring activities of \$1.7 million (\$1.0 million after tax).

(4) Fiscal 2014 fourth quarter results include adjustments associated with restructuring activities of \$0.8 million. Fiscal 2013 fourth quarter results include charges associated with restructuring activities of \$(4.5) million (\$(2.8) million after tax, or \$(.01) per diluted common share) and goodwill and other intangible asset impairment charges of \$(17.7) million (\$(15.0) million after tax, or \$(.04) per diluted common share).

(5) As a result of the Company's July 2014 SMI rollout, approximately \$178 million of accelerated orders were recorded as net sales (approximately \$127 million as operating income or \$.21 per diluted common share) in the fiscal 2014 fourth quarter that the Company believes would normally occur in the fiscal 2015 first quarter. As a result of the Company's January 2013 SMI rollout, approximately \$94 million of accelerated orders were recorded as net sales (approximately \$78 million of operating income or \$.13 per diluted common share) in the fiscal 2013 second quarter that likely would have occurred in the fiscal 2013 third quarter.
