EXECUTIVE COMPENSATION

All elements of executive compensation are generally targeted at the 50th percentile of survey data. The Company firmly believes in pay for performance, to ensure alignment with the interests of the Company's shareholders and to drive the achievement of the Company's business objectives. Accordingly, the majority of executive compensation is tied to performance. Our Chief Executive Officer (CEO) received 70% of his target compensation in the form of performance-based pay, consisting of annual incentives (cash) and long-term incentives (equity), with the remaining 30% set as fixed pay. For our other Named Executive Officers, approximately 60% of their target compensation was performance-based with the remaining 40% set as fixed pay. In 2014, our executive compensation program received strong support from shareholders, with over 97% of the votes cast in approval of the program.

We encourage you to read our Compensation Discussion and Analysis (CD&A), which begins on page 16 and describes our pay for performance philosophy and each element of compensation. Our Board of Directors recommends approval, on an advisory basis, of the compensation of our Named Executive Officers, as further described in the CD&A and Proposal No. 2: Advisory Vote on Executive Compensation beginning on page 43.

PROXY STATEMENT

GENERAL INFORMATION

The Board of Directors of Alexander & Baldwin, Inc. ("A&B" or the "Company") is soliciting proxies for the Annual Meeting of Shareholders to be held on April 28, 2015 and at any adjournment or postponement of the meeting (the "Annual Meeting").

In accordance with rules and regulations adopted by the U.S. Securities and Exchange Commission ("SEC"), instead of mailing a printed copy of our proxy materials to each shareholder of record, we are furnishing proxy materials on the Internet. You will not receive a printed copy of the proxy materials, unless you request it. If you would prefer to receive printed proxy materials, please follow the instructions for requesting such materials contained in the Notice of Internet Availability of Proxy Materials. This process is designed to expedite shareholders' receipt of proxy materials, lower the cost of the Annual Meeting and help conserve natural resources.

On or around March 18, 2015, we mailed to our shareholders (other than to certain street name shareholders or those who previously requested electronic or paper delivery) a Notice of Internet Availability of Proxy Materials, which contains instructions on how you may access and review on the Internet all of our proxy materials, including this Proxy Statement and our 2014 Annual Report to Shareholders. The Notice of Internet Availability of Proxy Materials also instructs you on how you may vote your proxy on the Internet.

Only shareholders of record at the close of business on February 19, 2015 are entitled to notice of and to vote at the Annual Meeting. On that date, there were 48,830,998 shares of common stock outstanding, each of which is entitled to one vote. Provided a quorum is present, a majority of the votes cast will be necessary for the ratification of the appointment of the independent registered public accounting firm, and for the approval, on an advisory basis, of our executive compensation. Directors are elected by a plurality of votes cast, provided a quorum is present. Abstentions and broker non-votes will be included for purposes of establishing a quorum at the Annual Meeting. However, abstentions and broker non-votes will have no effect on the voting results for any matter, as they are not considered to be votes cast.

Officers, employees and directors of A&B and its subsidiaries may, without additional compensation, solicit proxies by telephone or by other appropriate means. Arrangements also will be made with brokerage firms and other persons that are record holders of A&B's common stock to forward proxy soliciting material to the beneficial owners of the stock, and A&B will reimburse those record holders for their reasonable expenses. A&B has retained the firm of Morrow & Co., Inc. to assist in the solicitation of proxies, at a cost of \$10,000 plus reasonable

out-of-pocket expenses.

You may revoke your proxy or change your vote any time before it is voted at the Annual Meeting by:

- Filing a written revocation with the Corporate Secretary;
- Submitting a later-dated proxy or a later-dated vote by Internet or telephone; or
- Voting in person at the Annual Meeting.

CERTAIN INFORMATION CONCERNING THE BOARD OF DIRECTORS

Director Independence. The Board has reviewed each of its current directors and nominees and has determined that all such persons, with the exception of Mr. Kuriyama and Mr. Hulihee, who are executive officers of A&B or its subsidiaries, are independent under New York Stock Exchange (NYSE) rules. In making its independence determinations, the Board considered the transactions, relationships or arrangements in Certain Information Regarding Directors and Executive Officers Certain Relationships and Transactions below, as well as the following: Mr. Doane his status as a former executive officer of A&B Predecessor, banking relationships with First Hawaiian Bank, an entity of which Mr. Doane is a director, and a reservation to purchase a condominium unit in an A&B project at full market price; Mr. Harrison A&B s banking relationships with First Hawaiian Bank, an entity of which Mr. Harrison is Chairman of the Board, President and Chief Executive Officer; Mr. Watanabe A&B s banking relationships with American Savings Bank, an entity of which Mr. Watanabe is a director, and electricity sales by a division of A&B to a subsidiary of HEI, an entity of which Mr. Watanabe is Non-Executive Chairman of the Board; and Mr. Yeaman telephone and other communication services provided to A&B by Hawaiian Telcom, an entity of which Mr. Yeaman is President and Chief Executive Officer; and Ms. Wall A&B s banking relationships with First Hawaiian Bank, an entity of which Ms. Wall is a director.

Board Leadership Structure. The Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management. The Board understands that there is no single, generally accepted approach to providing Board leadership and that given the dynamic and competitive environment in which we operate, the right Board leadership structure may vary as circumstances warrant. The Board currently has a combined Chairman of the Board and Chief Executive Officer (CEO) and a Lead Independent Director. The Board has chosen this leadership structure at this time because it believes the structure is in the best interests of the Company and its shareholders, as it provides unified leadership and accountability, in quickly and seamlessly identifying and carrying out strategic priorities of the Company. With its Lead Independent Director, this governance structure also provides a form of leadership that allows the Board to function independently from management, capable of objective judgment regarding management s performance, and enables the Board to fulfill its duties effectively and efficiently. The Lead Independent Director s duties include consulting with the Chairman of the Board on agendas and meeting schedules, facilitating the process for the Board s self-evaluation, presiding at Board meetings in the absence of the Chairman, presiding at executive sessions of non-management Directors, and facilitating communication between the Independent Directors and the Chairman and Chief Executive Officer. Mr. Watanabe has served at Lead Independent Director since 2012 and will be retiring from the Board effective as of the Annual Meeting; Charles G. King has been appointed as Lead Independent Director upon Mr. Watanabe s retirement. The Board has determined that its leadership structure is appropriate for A&B at this time.

The Board s Role in Risk Oversight. The Board has oversight of the risk management process, which it administers in part through the Audit Committee. One of the Audit Committee s responsibilities involves discussing policies regarding risk assessment and risk management. Risk oversight plays a role in all major Board decisions and the evaluation of risk is a key part of the decision-making process. For example, the identification of risks and the development of sensitivity analyses are key requirements for capital requests that are presented to, and evaluated by, the Board.

This risk management process occurs throughout all levels of the organization, but is also facilitated through a formal process in which a risk management working group is tasked with identifying significant risks through regular discussions with all levels of management. Risk management is reflected in the Company s compliance, auditing and risk management functions, and its risk-based approach to strategic and operating decision-making. Management reviews its risk management activities with the Audit Committee and the full Board of Directors on a regular basis. In addition, risk management perspectives from each of A&B s business segments are included in the Company s operating and strategic plans. The Board believes that its current leadership structure is conducive to the risk oversight process.

Table of Contents

Pay Risk Assessment. The Compensation Committee has a formal review process to regularly consider and discuss the compensation policies, plans and structure for all of the Company's employees, including the Company's executive group, to ascertain whether any of the compensation programs and practices create risks or motivate risky behavior that are reasonably likely to have a material adverse effect on the Company. Management has worked with the Compensation Committee to review all Company incentive plans and related policies and practices, and the overall structure and positioning of total pay, pay mix, the risk management process and related internal controls.

Based on its formal review process, the Compensation Committee concluded that there continues to be no material adverse effects due to pay risk. Management and the Compensation Committee concluded that A&B's employee compensation programs represent an appropriate balance of fixed and variable pay, cash and equity, short-term and long-term compensation, financial and non-financial performance, and an appropriate level of enterprise-wide risk oversight. Various policies are in place to mitigate any compensation-related risk, including:

- minimum stock ownership guidelines
- vesting periods on equity
- capped incentive payments
- use of multiple performance metrics
- use of multiple organizational performance levels
- reasonable payout curves tied to performance (e.g., incentive pool funding at 50% at threshold, 100% at target, 200% maximum at extraordinary, with linear interpolation between each goal); individual awards can be further modified, ranging from 0% (no award) to 150%, so long as the aggregate incentive pool is not exceeded (zero sum)
- review of goal-setting by the Compensation Committee to ensure that goals are reasonable
- mix of pay that is consistent with competitive practices for organizations similar in size
- insider trading and hedging prohibitions
- a compensation clawback policy
- oversight by a Compensation Committee composed of independent directors

Board of Directors and Committees of the Board. The Board of Directors held six meetings during 2014. In conjunction with five of these meetings, the non-management directors of A&B met in formally-scheduled executive sessions, led by Mr. Watanabe, the Lead Independent Director. The Compensation Committee has general responsibility for management and other salaried employee compensation and benefits, including incentive compensation and stock incentive plans, and for making recommendations on director compensation to the Board. For further information on the processes and procedures for consideration of executive compensation, see the Compensation Discussion and Analysis section below. Nominating and Corporate Governance Committee: The current members of the Nominating and Corporate Governance Committee (the Nominating Committee) are:

- Mr. Watanabe, Chairman
- Mr. King
- Mr. Pasquale

The Board has determined that each member is independent under the applicable NYSE listing standards. Nominating Committee Processes. The Nominating Committee identifies potential nominees by asking current directors to notify the Nominating Committee of qualified persons who might be available to serve on the Board. The Nominating Committee also engages when appropriate firms that specialize in identifying director candidates.

The Nominating Committee will consider director candidates recommended by shareholders. In considering such candidates, the Nominating Committee will take into consideration the needs of the Board and the qualifications of the candidate. To have a candidate considered by the Nominating Committee, a shareholder must submit a written recommendation that includes the name of the shareholder, evidence of the

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

shareholder's ownership of A&B stock (including the number of shares owned and the length of time of ownership), the name of the candidate, the candidate's qualifications to be a director and the candidate's consent for such consideration.

The shareholder recommendation and information described above must be sent to the Corporate Secretary at 822 Bishop Street, Honolulu, Hawaii, 96813 and must be received not less than 120 days before the anniversary of the date on which A&B's Proxy Statement was released to shareholders in connection with the previous year's annual meeting.

The Nominating Committee believes that the minimum qualifications for serving as a director are high ethical standards, a commitment to shareholders, a genuine interest in A&B and a willingness and ability to devote adequate time to a director's duties. The Nominating Committee also may consider other factors it deems to be in the best interests of A&B and its shareholders, such as business experience, financial expertise, knowledge and involvement in Hawaii

communities and businesses, and group decision-making skills. While the Nominating Committee does not have a written diversity policy, it considers diversity of knowledge, skills, professional experience, education, expertise, and representation in industries and geographies relevant to the Company, as important factors in its evaluation of candidates.

Once a potential candidate has been identified by the Nominating Committee, the Nominating Committee reviews information regarding the person to determine whether the person should be considered further. If appropriate, the Nominating Committee may request information from the candidate, review the person's accomplishments, qualifications and references, and conduct interviews with the candidate. The Nominating Committee's evaluation process does not vary based on whether or not a candidate is recommended by a shareholder.

Ms. Wall was recommended as a director candidate to the Nominating Committee by the CEO and non-management directors.

Non-employee directors may defer all or a portion of their vested shares until cessation of board service or the fifth anniversary of the award date. Section 16(a) Beneficial Ownership Reporting Compliance. Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) requires A&B's directors and executive officers, and persons who own more than 10 percent of A&B's common stock, to file reports of ownership and changes in ownership with the SEC. A&B believes that, during fiscal 2014, its directors and executive officers filed all reports required to be filed under Section 16(a) on a timely basis.

Certain Relationships and Transactions. A&B has adopted a written policy under which the Audit Committee must pre-approve all related person transactions that are disclosable under Item 404(a) of SEC Regulation S-K. Prior to entering into a transaction with A&B, directors and executive officers (and their family members) must make full disclosure of all facts and circumstances to the Law Department. The Law Department then determines whether such transaction requires the approval of the Audit Committee. The Audit Committee considers all of the relevant facts available, including (if applicable) but not limited to: the benefits to the Company; the impact on a director's independence in the event the person in question is a director, an immediate family member of a director or an entity in which a director is a partner, shareholder or executive officer; the availability of other sources for comparable products or services; the terms of the transaction; and the terms available to unrelated third parties or to employees generally. The Audit Committee will approve only those related person transactions that are in, or are not inconsistent with, the best interests of the Company and its shareholders.

Table of Contents

The Audit Committee has established written procedures to address situations when approvals need to be sought between meetings. Whenever possible, proposed related person transactions will be included as an agenda item at the next scheduled Audit Committee meeting for review and approval. However, if it appears that a proposed related person transaction will occur prior to the next scheduled Audit Committee meeting, approval will be sought from Audit Committee members between meetings. Approval by a majority of the Committee members will be sufficient to approve the related person transaction. If a related person transaction is approved in this manner, the action will be reported at the next Audit Committee meeting.

Executive Summary

Pay Philosophy. The following is an overview of the Company's pay philosophy:

- A&B firmly believes in pay for performance and alignment with shareholder interests. Thus, a majority of NEO compensation is tied to performance to ensure alignment with shareholders. Seventy percent of the CEO's target total direct compensation (TDC) was performance-based. For the other NEOs, on average, 60 percent of TDC was performance-based.
- In addition, A&B's stock ownership guidelines further align NEO interests with the interests of shareholders. Executives are required to own stock equal to a multiple of salary within five years of employment or five years after a promotion. All NEOs have met or are on track to meet this requirement.
- Direct components of pay are generally targeted at the 50th percentile of market pay data.
- No perquisites are provided (other than Company-provided parking, which is provided at no additional cost to A&B).
- All NEOs participate in the same health and welfare benefit plans as other salaried employees.

Over the years of his tenure as CEO, Mr. Kuriyama has expressed to the Committee his perspectives on how his own compensation should be determined in relation to other executives at A&B, his team philosophy on compensation, the continuing need to control overhead costs and the importance of retaining other key employees in the organization through incentive programs. Mr. Kuriyama has therefore often requested that his incentive compensation awards be capped at levels below what would otherwise be earned through actual performance and significantly below 50th percentile levels for CEOs of other U.S.-based companies of similar size to A&B. Consequently, while the Company's philosophy (as discussed in the Compensation Overview section of the CD&A) is to manage NEOs target compensation levels at the market 50th percentile, Mr. Kuriyama's target compensation is at the 25th percentile.

In 2014, our executive compensation program received strong support from shareholders, with over 97% of the votes cast in approval of the program.

Promote Good and Avoid Poor Pay Practices. The Compensation Committee consistently evaluates the Company's executive compensation practices and modifies or adopts programs or practices to provide an appropriate balance of risk and reward. It adheres to good governance practices, as listed below, to ensure that it adopts the best practices to the extent that they are best aligned to the business goals and strategy of the Company as well as shareholder interests.

Table of Contents

Promote Good Pay Practices

- TDC consisting heavily of performance-based compensation
- Multiple performance metrics to determine incentive payments
- Multi-year performance periods on performance based equity awards
- Relative performance metrics
- Multi-year vesting periods on equity awards
- Double trigger change-in-control agreements that require both a change-in-control event and termination of employment before any payments can be made
- Meaningful stock ownership guidelines for senior executives
- Use of tally sheets and wealth assessments

Avoid Poor Pay Practices

- No employment contracts
- No guaranteed bonus payments
- No large bonus payouts without justifiable performance linkage
- No perquisites, other than Company-provided parking
- No excessive severance or change-in-control provisions
- No tax gross-ups
- No speculative transactions by executives using Company stock in hedging activities
- No unreasonable internal pay disparity
- No repricing or replacing of underwater stock options without prior shareholder approval

Performance Accomplishments in 2014. In 2014, the Company had the following significant accomplishments:

- The Company achieved net income of \$61.4 million compared to \$37.2 million(2) in 2013 (excluding expenses incurred in 2013 for the acquisition of Grace Pacific). A&B also paid a modest quarterly dividend, which was increased in the fourth quarter of 2014.

- The Company's revenues in 2014 were \$560 million compared to \$365.2 million in 2013.

- In 2014, A&B continued to focus on and increase its asset base in Hawaii. The Company's value creating strategies include growing, and advancing key projects in, the development pipeline; maximizing the value of the Company's commercial portfolio, including continued migration of commercial properties from the U.S. Mainland to Hawaii; securing superior investments in real estate and in complementary businesses; and employing the Company's 88,000 acres in Hawaii at their highest and best use. These strategies position A&B for future success as the Hawaii economy and real estate markets continue to improve.
- The Real Estate Development and Sales segment performed well. The Waihonua high-rise condominium project was completed successfully late in the year and all units were delivered to their owners by January 2015. Sixteen of 30 lots in the Company's portfolio of upscale residential lots in Kahala have been sold, with three additional lots in escrow, all at favorable prices. Significant progress also was made at Kukui'ula, A&B's resort residential development on Kauai, and at Maui Business Park II, the Company's business park on Maui. Maui Mall, a 185,700 square-foot shopping center, was sold at a 5% cap rate.
- The Real Estate Leasing segment performed well. Year-over-year commercial portfolio net operating income increased by 12% and operating profit increased by 9%. Due to major strides in migrating the portfolio to Hawaii, 77% of net operating income is now generated from Hawaii assets, up from 47% at separation from Matson.
- Grace Pacific was a solid contributor to 2014 cash flow, generating \$38 million, or 21% of A&B's \$184 million of EBITDA(3) despite a slower-than-anticipated pace of jobs released for bid and weather-related impacts.

Pay for Performance. The Company's overall performance in 2014 was determined to be slightly above target and was reflected in elements of compensation earned by executives for 2014.

- *Base Salary:* NEO salaries range from the 25th to the 50th percentiles of competitive market rates.
- *Target Total Cash (TCC):* Target Total Cash consists of base salary plus target annual cash incentives. NEO TCC ranged from the 25th to the 50th percentiles. Actual annual incentive amounts earned reflect Company performance slightly above target against business unit performance (as described below in *Company and Business Unit Performance*) and value creation goals for 2014 for all of the NEOs. Actual total cash compensation paid to the NEOs ranged from the 25th to the 60th percentiles.
- *Long-term Incentives (LTI):* NEO LTI ranged from the 25th to the 50th percentiles. The Performance Share Units granted in 2013 were earned based upon the Company's achievement of pre-set goals for total shareholder return over a two-year performance period. The first opportunity to earn the shares occurred in January 2015, upon completion of the 2013-2014 performance period, with 48.33% of the shares earned.
- *Total Direct Compensation (TDC):* TDC for the NEOs ranged from the 25th percentile to the 50th percentile. Actual TDC earned by the NEOs ranged from the 25th percentile to the 60th percentile.

Compensation Overview

The Company's executive compensation programs are administered by its Compensation Committee. After conducting a search for an independent consultant in 2012, the Compensation Committee retained Towers Watson to provide advice and analysis on the design, structure and level of executive and director compensation for A&B.

Compensation Philosophy and Objectives. The Company seeks to align its objectives with shareholder interests through a compensation program that attracts, motivates and retains qualified and effective executives, and rewards performance and results. To achieve this, the Company uses the following pay elements, which are described under the Pay Elements section of the CD&A:

(3) Refer to page 42 for a reconciliation from GAAP to non-GAAP measures for EBITDA.

Table of Contents

Element of Pay	Target Positioning	Purpose

Annual Cash Incentives	50th percentile	<ul style="list-style-type: none"> Rewards achievement of annual Company, business unit and individual performance Reinforces pay for performance principles Performance measures for 2014 included business unit performance (as described below in Company and Business Unit Performance)

Each has a service-vesting requirement. PSUs also have a performance-vesting requirement, based on A&B's total shareholder return (TSR) results relative to the TSR of companies that comprise the Standard & Poor's Midcap 400 index over a two-year period
Health and Welfare Benefits	50th percentile	<ul style="list-style-type: none"> Aids in attracting and retaining employees

Severance Benefits	50th percentile	<ul style="list-style-type: none"> Retains talent during transitions due to a Change in Control or other covered events

Pay Mix. The Company's combination of pay elements is designed to place greater emphasis on performance-based compensation, while at the same time focusing on long-term talent retention and ensuring an appropriate balance between pay and risk. The Committee believes that this is consistent with one of its key compensation objectives, which is to align management and shareholder interests. For 2014, the TDC mix was generally within the same range as competitive practices for each element of pay, as shown by the table below.

Percentage of Target Total Direct Compensation Provided by Each Pay Element for 2014

	NEOs		Competitive	
	Annual Salary	Long-Term Incentives	Annual Salary	Long-Term Incentives
Mr. Kuriyama	30%	31%	25%	51%
Mr. Benjamin	39%	23%	37%	37%
Mr. Ito	36%	22%	37%	37%
Mr. Chun	43%	22%	42%	36%
Ms. Ching	41%	20%	42%	36%

Assessment of Total Compensation. In evaluating and making pay decisions, the Compensation Committee utilizes the following tools, resources and information:

Table of Contents

- Company and individual performance
- Say-on-Pay vote results
- Competitive survey data
- Economic environment
- Job responsibilities and experience
- Positioning within the executive s salary range
- Tally sheets covering the past 5 years
- Accrued benefits balances
- Positioning in relation to the pay philosophy
- Projected salary increases in the general industry
- Total value of the total pay package
- Alignment to pay for performance
- Reasonableness and balance of pay risk
- Internal pay equity
- NEO s current and expected future contributions
- Size of recent awards

Internal Pay Equity. The Compensation Committee considers internal pay equity as a factor in establishing compensation for executives. While the Compensation Committee has not established a specific policy regarding the ratio of total compensation of the CEO to that of the other executive officers, it does review compensation levels to ensure that appropriate internal equity exists. In 2014, it reviewed the ratio of the CEO s salary, TCC and TDC relative to the average compensation for the other NEOs, as reflected in the table below. These ratios were also compared to benchmark survey data to determine whether compensation relationships are consistent with industry practices. The Company s target and actual ratios were within a reasonable range and positively reflect a lower ratio between the CEO and other NEOs than that of companies of similar size in general industry, due to our CEO s team philosophy and request for a total compensation level that is relatively close to the other NEOs.

2014 Ratio of Target and Actual CEO Pay to Other NEOs

Pay Elements

The Company provides the following pay elements to its executive officers in varying combinations to accomplish its compensation objectives.

Salary: Salary is intended to provide a competitive fixed rate of pay based upon an executive s responsibilities. Because the Company believes that salary is less impactful than performance-based compensation in achieving the overall objectives of the Company s executive compensation program, at target, between 30% - 40% of an NEO s total compensation is paid as salary.

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

Generally, the Board of Directors determines the CEO's annual salary change on the basis of the factors listed previously in the *Assessment of Total Compensation* section. The Board has a formal performance review process for the CEO that includes five key categories: financial performance results, strategic effectiveness and innovation, business management, talent management, and personal effectiveness. None of the categories is formally weighted, and there is no overall rating score. Each Board member provides written observations and rates the CEO's performance against the criteria. The Board of Directors discusses the results of the assessment with the CEO, including the areas of greatest strength and areas where improvements could be made. The result of this process is considered in determining the CEO's actual salary.

Table of Contents

The CEO recommends annual salary changes for the other NEOs. Salary adjustments for NEOs are generally considered by the Compensation Committee in February of each year for implementation on April 1. Any base salary increases for NEOs in 2014 reflected increases based on performance and the factors listed in the *Assessment of Total Compensation* section above.

Salary Information for 2013 - 2014

Mr. Kuriyama	\$ 525,000	*	525,000	25th percentile
Mr. Benjamin	\$ 439,089	3%	452,262	50th percentile
Mr. Ito	\$ 304,500	15%**	350,175	50th percentile
Mr. Chun	\$ 303,844	3%	312,959	50th percentile
Ms. Ching	\$ 253,750	4%	263,900	50th percentile

* Reflects no increase in base salary as requested by Mr. Kuriyama.

** Reflects an increase based on performance and the intent to bring Mr. Ito's salary closer to the market median.

Annual Incentives: For 2014, annual incentives for NEOs were provided through the Alexander & Baldwin, Inc. Performance Improvement Incentive Plan (PIIP) to motivate executives and reward them if they achieve specific pre-established corporate and business unit goals and for creating value for the Company. The financially oriented goals were established in February 2014. A rating for Value Creation was assessed by the CEO after the 2014 performance period.

- For 2014, A&B used Real Estate Development & Sales Gross Margin and Leasing Gross Margin for its Properties business segment; Pre-Tax Income and sugar yields for its Agribusiness segment; EBITDA for its Materials & Construction segment; and Value Creation as the performance measures for the NEOs. PIIP awards that ultimately determine the aggregate amount of incentives that are funded to the incentive pool. Gross Margin, Pre-Tax Income, sugar yields and EBITDA were selected because the Company believes they best reflect the results of business execution and profitability levels of the respective segments, while Value Creation is a subjective rating by the CEO that is reviewed with the Compensation Committee based on the performance and accomplishments of the Company that create long-term value for shareholders but are not necessarily reflected in annual financial results.

- The aggregate amount of the incentive pool can range between 0% to 200% based on the achievement of financial goals approved in February and the score for Value Creation. The incentive pool is funded by aggregating the target incentives for each participant in the plan and multiplying that sum by the performance ratings for the applicable measures at below threshold, threshold, target or extraordinary (maximum) levels.

- Each individual's actual incentive award may be modified from his or her target award level according to funding level and an individual performance modifier that ranges from 0% to 150%, so long as the aggregate incentive pool established is not exceeded for NEOs and PIIP executives.

The Company believes that the annual incentive structure drives the following objectives:

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

- Alignment with key goals/objectives
- Fostering a team environment while allowing for greater flexibility in individual recognition
- Motivating and rewarding value creation over both the short and long-term

Company and Business Unit Performance. The annual corporate and business unit targets are based on the Company's Board-approved operating plan, and adjusted in certain instances to exclude the effect of certain income producing items. When establishing the operating plan, management and the Board of Directors consider the historical performance of the Company, external elements such as economic conditions and competitive factors, Company capabilities, performance objectives, and the Company's strategic plan. The extraordinary (maximum) and threshold performance ranges were determined on the basis of the level of difficulty in achieving the objective and are intended to ensure an enduring standard of performance.

For determination of award pool funding for 2014, the Company's operating performance was compared to the performance goals approved by the Compensation Committee.

Corporate Goal (\$ in millions)		Threshold	Target	Extra-ordinary (maximum)	Actual
Development & Sales gross margin	Properties*	\$ 36.0	\$ 42.0	\$ 50.0	\$ 50.7
Leasing gross margin	Properties	\$ 46.0	\$ 47.5	\$ 51.0	\$ 49.0
EBITDA(4)	Materials & Construction	\$ 38.0	\$ 41.0	\$ 43.0	\$ 37.5
Pre-tax income	Agribusiness	\$ (7.5)	\$ (3.0)	\$	\$ (13.3)
Yield (tons sugar per acre)	Agribusiness	11.5	11.8	12.3	11.4
Value creation	Corporate	1.0	2.0	3.0	2.25

* Exclusive of commercial property sales.

The incentive compensation for the NEOs was based on a weighted mix of (a) the blended level of achievement of the financial and operating goals set for each of the operating segments (NOI for Leasing, pre-tax income for Development and Sales, pre-tax income and sugar yield for Agribusiness, and EBITDA for Materials & Construction), and (b) the blended score awarded for value creation accomplishments achieved by each of the operating segments and the parent company.

The scores for both the level of achievement for financial and operating goals and value creation can range from 0 for below threshold performance, 1.0 for threshold performance, 2.0 for target performance and to 3.0 for extraordinary (maximum) performance. Based on 2014 performance, the NEOs received a blended score of 1.95 for financial and operating goals, and a blended score of 2.25 for value creation accomplishments. The financial and operating goals account for 59.5% of the NEO's total incentive award, and value creation accounts for the remaining 40.5%. On a blended basis, therefore, the NEOs received an aggregate score of 2.1 for their 2014 incentive awards.

Value creation reflects performance and accomplishments of the Company that create value for shareholders but are not necessarily reflected in 2014 financial results.

Value Creation encompasses various different activities and initiatives that help the Company over the short or long term to deliver value to its shareholders, such as building the pipeline of development projects, establishing strategic partnerships, joint ventures or alliances, obtaining entitlement and other regulatory approvals for A&B lands, migrating the Mainland commercial properties to Hawaii, making superior investments in Hawaii real estate or other growth opportunities, achieving sales or leasing results that enhance the value of the Company's real estate holdings, progressing towards a new business model for sugar, etc. It will be evaluated by the CEO at the conclusion of the year and

assigned a rating at or between: below threshold, threshold, target, and extraordinary (maximum).

Individual Performance. In addition to corporate and business unit performance goals, each NEO's 2014 award could be modified between 0%-150% based on individual performance. The CEO's performance is reviewed and approved by the Compensation Committee each year. Individual performance of the other NEOs is reviewed and assessed by the CEO. The following table reflects individual modifiers:

Mr. Kuriyama	91%*
Mr. Benjamin	114%
Mr. Ito	100%
Mr. Chun	102%
Ms. Ching	114%

*For the reasons cited elsewhere in this Proxy, Mr. Kuriyama requested that his incentive payout be capped.

Actual awards earned in total by the NEOs versus target were 5% greater than the overall targeted goal payouts and were as follows:

NEO	Target Bonus		Actual Bonus		Actual as a % of Target
	% of Base Salary	\$	% of Base Salary	\$	
Mr. Kuriyama	105%	551,250	95%	500,000	91%
Mr. Benjamin	60%	271,360	73%	330,000	122%
Mr. Ito	60%	210,110	64%	225,000	107%
Mr. Chun	50%	156,480	54%	170,000	109%
Ms. Ching	50%	131,950	61%	160,000	121%

Equity-Based Compensation:

Equity grants are generally considered and granted annually in January by the Compensation Committee. Based on current market data provided by Towers Watson, the CEO makes recommendations for each executive officer to the Compensation Committee, which retains full authority to set the actual grant amount. In determining the type and size of a grant to an executive officer, the Compensation Committee generally considers, among other things, the items mentioned above in the *Assessment of Total Compensation* section.

In 2014, the Company issued equity awards with a mix of 50% performance share units (PSUs) and 50% time-based restricted stock units (TBRsUs). No stock options were granted in 2014, and there is no present intent to grant stock options as part of the Company's equity award package.

- PSUs are settled in shares and have both a performance- and service-vesting requirement. The performance requirement is based on A&B's total shareholder return (TSR) results relative to the TSR of companies that comprise the Standard & Poor's Midcap 400 index over a two-year period. Under the service-vesting requirement, recipients must remain employed until the end of the performance period to earn any shares that become issuable. PSUs are intended to motivate recipients to focus on A&B shareholder returns with an objective to outperform the share performance of other U.S.-based companies with similar market capitalization. PSUs cliff vest after a two-year period (concurrent with the performance period).

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

- Beginning with the 2015 equity grants, PSUs will be based on relative TSR against companies that comprise two indices to which the Company belongs: the Standard & Poor's Midcap 400 index and the Russell 2000 index. Half of the PSUs granted will be evaluated against the companies comprising the S&P Midcap 400 and half will be evaluated against companies comprising the Russell 2000. In addition, the performance and vesting horizons will be increased

Table of Contents

from two to three years. For the 2015 equity grants, the PSUs awarded will be evenly divided into PSUs that have two-year performance and vesting horizons and PSUs that have three-year performance and vesting horizons. From 2016 on, PSUs awarded will have three year performance and vesting horizons.

- The Company believes these changes better align the NEOs' performance to relative performance against indices to which the Company belongs and focuses performance over a longer time horizon.

Performance Range

	Performance	Earnout
Threshold	35th Percentile	35% of Target
Target	55th Percentile	100% of Target
Maximum	75th Percentile	150% of Target

- TBRsUs are awards that are settled in shares but vest in thirds over a three-year period based on service. TBRsUs are intended to focus behaviors on improving long-term stock price performance on an absolute basis (as a complement to the relative-performance nature of PSUs), increase share ownership and strengthen retention of participants through a three-year vesting period.

The actual performance level attained for the 2013 PSU grants covering the performance period of 2013–2014 was at the 39th percentile relative to the Standard & Poor's Midcap 400 index. This resulted in a payout of 48.33% of target. Details of the individual payouts are as follows:

Table of Contents

In line with the Committee's intent to support a pay for performance philosophy, the January 2015 target equity award opportunity levels as determined by the Committee were, with the exception of Mr. Kuriyama, at the 50th percentile or higher.

Retirement Plans: The Company provides various retirement plans to assist its employees with retirement income savings and to attract and retain its employees. The Committee periodically reviews the value of benefits from the retirement plans in conjunction with all other forms of pay in making compensation decisions.

A&B Retirement Plan for Salaried Employees: The A&B Retirement Plan for Salaried Employees (the Qualified Retirement Plan), which is a tax-qualified defined benefit pension plan, provides pension benefits to the Company's salaried non-bargaining unit employees. The Pension Benefits table of this Proxy Statement provides further information regarding the Qualified Retirement Plan.

In 2007, A&B Predecessor closed participation in its traditional defined pension plan for new non-bargaining unit employees hired after January 1, 2008. These employees participate in the Company's cash balance defined benefit pension plan, in which participants accrue 5% of their eligible annual compensation under a cash balance formula. Effective January 1, 2012, the Company froze benefit accruals under its traditional defined benefit plans for non-bargaining unit employees hired before January 1, 2008 and replaced the benefit with the cash balance formula mentioned above.

A&B Individual Deferred Compensation and Profit Sharing Plan: The Company has a tax-qualified defined contribution retirement plan (the A&B Profit Sharing Retirement Plan) available to all salaried non-bargaining unit employees that provides for performance-based discretionary contributions to participants based on the degree of achievement of pre-tax income as established in A&B's 2014 operating plan. In 2014, available contributions were set between zero and five percent of each employee's base salary. There was a 3.01% profit-sharing contribution for 2014 based on the Company's performance at target for its pre-tax income goal for the A&B Profit Sharing Retirement Plan. The Plan also provides a discretionary match under the Individual Deferred Compensation (401(k)) component of the plan for all salaried non-bargaining unit employees that in 2014 provided for a match of up to three percent of the compensation deferred by a participant during the fiscal year, subject to IRS maximum compensation limitations. The value of the Company's 2014 profit sharing contribution and Individual Deferred Compensation matches for NEOs are included in the Summary Compensation Table of this Proxy Statement.

A&B Excess Benefits Plan: This non-qualified benefit plan (the Excess Benefits Plan) for executives is designed to meet the retirement plan objectives described above. It complements the Qualified Retirement Plan and A&B Profit Sharing Retirement Plan by providing benefits and contributions in amounts that could not be provided by those plan's formulas due to the limits imposed by tax law. A&B Predecessor also froze the pension benefits under the Excess Benefits Plan that had accumulated as of December 31, 2011 pursuant to the traditional defined benefit formula and implemented the cash balance formula for eligible employees beginning January 1, 2012. All NEOs are eligible to participate in the Excess Benefits Plan.

No Perquisites: The Company has no NEO perquisites, with the exception of Company-provided parking in its downtown building, which is provided at no additional cost to A&B.

Severance Plan and Change in Control Agreements: The Company provides severance benefits pursuant to the Severance Plan and change in control agreements to certain executives, including the NEOs, to retain talent during transitions due to a Change in Control or other covered

event and to provide a competitive pay package. The Compensation Committee designed the change in control agreement to provide a competitively structured program, and yet be conservative overall in the amounts of potential award payouts. The Compensation Committee's decisions

Table of Contents

regarding other compensation elements are affected by the potential payouts under these arrangements, as the Committee considers how the terms of these arrangements and the other pay components interrelate. These agreements are described in further detail in the Other Potential Post-Employment Payments section of this Proxy Statement.

Retiree Health and Medical Plan: The Company provides NEOs with the same retiree medical and life insurance benefits as are provided in general to all salaried non-bargaining unit employees who joined A&B Predecessor prior to January 1, 2008. These benefits aid in retaining long-term service employees and provide for health care costs in retirement. The Company limits its contribution towards the monthly premium, based on the employee's age and years of service. The benefits from this plan are reflected in the Other Potential Post-Employment Payments section of this Proxy Statement.

The Role of Survey Data

The Company uses published survey data as a reference, but does not benchmark against specific companies within such surveys. The Company operates in a number of different industries and there are no companies that are considered directly comparable in business mix, size and geographic relevance. Accordingly, the Company does not use data that is specific to any individual segment of the Company's business but instead, based on the recommendation of Towers Watson, uses data from five national and highly recognized published surveys representing a broad group of general industry and real estate companies similar in size to the Company to assess the Company's pay practices. Towers Watson uses data subsets in each survey that represent companies of similar size with revenues between \$250 million and \$1 billion. The survey sources provide only one of the tools that the Committee uses to assess appropriate pay levels. Internal equity, Company performance, business unit performance, compensation philosophy, performance consistency, historical pay movement, pay mix, pay risk, economic environment and individual performance are also reviewed.

The surveys used by Towers Watson in their assessment of total direct compensation and CEO pay ratio as compared to other NEOs include:

- Towers Watson 2013 CDB General Industry Executive Database
- Towers Watson 2013 CSR Top Management Compensation Survey
- Towers Watson 2013 Long-term Incentives, Policies and Practices Survey
- Mercer 2013 U.S. Benchmark Database - Executive Compensation Survey
- National Association for Real Estate Investment Trust (NAREIT) 2013 Compensation Survey

The Role of the Compensation Consultant

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

After conducting a search in 2012, the Compensation Committee selected and has since directly retained Towers Watson, an independent executive compensation consulting firm, to assist the Committee in:

- Evaluating salary and incentive compensation levels
- Reviewing and suggesting executive pay plan design modifications
- Understanding current trends and legislative reform initiatives in the area of executive compensation
- Assessing appropriate outside Board of Director pay levels and structuring

In selecting Towers Watson, the Compensation Committee considered, among other factors, the following:

- Depth and breadth of executive compensation knowledge and experience
- Qualifications as a board-level consultant

Table of Contents

- Quality of resources available (staff, data, etc.)
- Understanding of A&B's business strategy and issues, industry, performance drivers and human capital considerations
- Objectivity in advice and recommendations

- The individuals providing consulting services to the Committee are not directly compensated for the total revenues that Towers Watson generates from the Company

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

The Compensation Committee has reviewed Towers Watson's work, policies and procedures and determined that no conflicts of interest exist. In accordance with the New York Stock Exchange (NYSE) requirements, the Compensation Committee annually assesses the independence of its compensation consultant, outside legal counsel, and other advisers who will provide services with respect to executive compensation matters. In assessing independence, the following factors are considered:

- Whether a compensation adviser's employer provides other services to A&B
- The amount of fees the compensation adviser's employer receives from A&B as a percentage of such employer's total revenues
- The compensation adviser's policies and procedures to prevent conflicts of interest
- Business or personal relationships between a compensation adviser and any member of A&B's compensation committee
- The compensation adviser's stock ownership in A&B
- Business or personal relationships between a compensation adviser or the compensation adviser's employer and any executive officer of A&B

The Role of Management

Management assists the Compensation Committee in its role of determining executive compensation in a number of ways, including:

- Providing management's perspective on compensation plan structure and implementation
- Identifying appropriate performance measures and establishing company, unit and individual performance goals that are consistent with the Board-approved operating plans
- Providing the data used to measure performance against established goals, with the CEO providing perspective on individual executive performance and compensation amounts
- Providing recommendations, based on information provided by Towers Watson, regarding pay levels for officers on the basis of plan formulas, salary structures and the CEO's assessment of individual officer performance

Tax and Accounting Considerations

In evaluating the Company's executive compensation structure, the Compensation Committee considers tax and accounting treatment, balancing the effects on the individual and the Company. Section 162(m) of the Internal Revenue Code limits the tax deductibility of certain executive compensation in excess of \$1,000,000 for any fiscal year, except for certain performance-based compensation. However, in establishing the cash and equity incentive compensation programs for the executive officers, the Compensation Committee believes that the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole or primary factor. The Compensation Committee believes that cash and equity incentive compensation must be maintained at the requisite level to attract and retain the executive officers essential to the Company's financial success, even if all or part of that compensation may not be deductible by reason of the Section 162(m) limitation.

Stock Ownership Guidelines

To enhance shareholder alignment and ensure commitment to value-enhancing longer-term decision-making, the Company has established stock ownership guidelines. Executives are required to own a value of stock equal to the salary multiple below within a five year-period from commencement of employment or within a five-year period after a change in salary based on promotion:

Position	Salary Multiple
CEO	5X
Other NEOs	3X

All NEOs have met or are on track to meet the ownership guidelines.

Equity Granting Policy

Equity awards are expected to be granted for current employees at the same time of year at the January Compensation Committee meeting. Equity grants for new hires or promoted employees are approved at regularly scheduled Compensation Committee meetings. The timing of these grants is made without regard to anticipated earnings or other major announcements by the Company.

Policy Regarding Speculative Transactions and Hedging

The Company has adopted a formal policy prohibiting directors, officers and employees from (i) entering into speculative transactions, such as trading in options, warrants, puts and calls or similar instruments, involving A&B stock, or (ii) hedging or monetization transactions, such as zero-cost collars and forward sale contracts, involving A&B stock.

Policy Regarding Recoupment of Certain Compensation

The Company has adopted a formal clawback policy for senior management, including all NEOs. Pursuant to the policy, the Company will seek to recoup certain incentive compensation, including cash and equity bonuses based upon the achievement of financial performance metrics, from executives in the event that the Company is required to restate its financial statements.

Under the 2012 Plan, the Company has issued time-based restricted stock units that vest in equal increments over three years. Time-based restricted stock units that are unvested will automatically vest upon death or permanent disability. Time-based restricted stock units will partially vest on a prorated basis upon normal retirement at 65 or approved early retirement at 55 (with five years of service). Upon the effective date of any change in control, any unvested restricted share units automatically vest if the participant is involuntarily terminated or awards are not assumed or replaced by the successor company.

Under the 2012 Plan, grantees receive dividends on the full amount of restricted stock units granted, regardless of vesting, at the same rate as is payable on the Company's common stock. However, for grants made on or after January 2010 by A&B Predecessor, payment of accrued dividend equivalents on performance-based restricted stock unit awards will be made upon attainment of the applicable performance goals and will be paid according to the number of actual shares earned.

Under the 2012 Plan, the Company has issued performance share units, which have both a performance-vesting and a service-vesting requirement. The performance-vesting requirement is based on the Company's total shareholder return (TSR) results relative to the TSR of the Standard & Poor's Midcap 400 index over a two-year period. Under the service-vesting requirement, recipients must remain employed until the end of the two-year performance period in order to vest in any shares that become issuable on the basis of the TSR results for that period. (Pro-rata vesting will apply to the extent employment ceases with the Company during the performance period by reason of death, disability or retirement, with pro-rata to be applied to the number of shares resulting from the Company's relative TSR over the performance period.) PSUs will be settled in shares of A&B stock.

No stock options were granted in 2014 and there is no present intent to grant stock options as part of the Company's equity award package.

Actuarial assumptions used to determine the present values of the pension benefits include: Discount rates for qualified and non-qualified retirement plans of 4.00% and 3.10%, respectively. Age 62 with 5 years of service (or current age, if greater) is the assumed retirement age. Qualified plan benefits (traditional defined benefit and cash balance) are assumed to be paid on a life annuity basis (however, cash balance portion could be paid in a lump sum). The cash balance accounts are projected to the assumed retirement age using 2.41% interest per year (the rate in effect for 2015) with no future pay credits. The projected qualified plan cash balance accounts were converted to life annuities at the assumed retirement age using the annuity conversion interest assumptions and mortality used in our financial disclosures, i.e., 1.40% (for the first 5 years), 3.98% (next 15 years) and 5.04% (years in excess of 20) applied on a rolling basis, and the Applicable Mortality Table, as defined for lump sum calculations under Section 417(e) of the Internal Revenue Code. The Applicable Mortality Table is defined by the IRS for years through 2015, and for subsequent years, the assumption is that the IRS will continue to apply the same annual mortality improvements as it did through 2015 in each future year.

The Excess Benefits Plan benefits are paid as a lump sum equal to the present value of the traditional defined benefit assumed to be paid on a life annuity basis plus the cash balance account. The present value was determined based on interest rates (with 39% marginal tax rate adjustment) and mortality used in our financial disclosures, i.e., 0.85% (for the first 5 years), 2.43% (next 15 years) and 3.07% (years in excess of 20) applied on a rolling basis, and the Applicable Mortality Table, as defined for lump sum calculations under Section 417(e) of the Internal Revenue Code. The cash balance accounts are projected to the assumed retirement age using 2.41% interest per year (the rate in effect for 2015) with no future pay credits.

A&B Retirement Plan for Salaried Employees:

The A&B Retirement Plan for Salaried Employees (the "Qualified Retirement Plan") provides pension benefits to the Company's salaried employees who are not subject to collective bargaining agreements. In 2007, A&B Predecessor closed participation in its traditional defined pension plan for new non-bargaining unit employees hired after January 1, 2008. These employees participate in the Company's cash balance defined benefit pension plan, in which participants

accrue 5% of their eligible annual compensation under a cash balance formula. Effective January 1, 2012, the Company froze benefit accruals under its traditional defined benefit plans for non-bargaining unit employees hired before January 1, 2008 and replaced the benefit with the cash balance formula mentioned above. The Qualified Retirement Plan, as adopted by A&B, mirrors the provisions of A&B Predecessor's qualified retirement plan as described above.

The traditional defined benefit formula was based on participants' service and average monthly compensation in the five highest consecutive years of their final 10 years of service through December 31, 2011. Compensation included base salary, overtime pay and one-year bonuses. The amounts were expressed as a single life annuity payable at the normal retirement age of 65. An employee became vested after five years of service with A&B Predecessor or the Company. An employee may take early retirement at age 55 or older, if the employee has already completed at least five years of service with A&B Predecessor or the Company. If an employee retires early, the same formula for normal retirement is used, although the benefit will be reduced for commencement before age 62 because the employee will receive payment early and over a longer period of time.

Effective January 1, 2012, a cash balance formula provides a retirement account equal to 5 percent of an employee's eligible cash compensation, for each year worked, while covered by the cash balance formula, plus interest. The vesting period was reduced from five years to three years for an employee with a cash balance account. At retirement or other separation from service, the employee may elect to receive the vested cash balance portion of the Qualified Retirement Plan benefits as a lump sum or an actuarially equivalent annuity.

A&B Excess Benefits Plan: The Excess Benefits Plan was adopted to help the Company meet its objectives for retirement plans, including assisting employees with retirement income planning, increasing the attractiveness of employment with the Company and attracting mid-career executives. The Excess Benefits Plan works together with the Qualified Retirement Plan and A&B Profit Sharing Retirement Plan to provide Company pension benefits and profit sharing contributions in amounts equal to what otherwise would have been provided using the Qualified Retirement Plan's and A&B Profit Sharing Retirement Plan's formulas except for the compensation, contribution and benefits limits imposed by tax law. Effective December 31, 2011, A&B Predecessor also froze pension benefits that had accumulated under the traditional defined benefit formula under the Excess Benefits Plan effective January 1, 2012. Under the pension portion of the Excess Benefits Plan associated with the Qualified Retirement Plan, benefits under the traditional defined benefit formula are payable after the executive's separation from service in a lump sum that is actuarially equivalent to the annuity form of payment, and the cash balance account is paid as a lump sum. Under the profit sharing portion of the Excess Benefits Plan associated with the A&B Profit Sharing Retirement Plan, amounts are credited to executives' accounts, to be payable after the executive's separation from service. All NEOs are eligible to participate in the Excess Benefits Plan. The Excess Benefits Plan, as adopted by A&B, mirrors the provisions of A&B Predecessor's excess benefits plan as described above.

(2) Represents interest earned on the prior year's cash account balance.

Other Potential Post-Employment Payments.

Change in Control Agreements: A&B has entered into Change in Control Agreements with each of the NEOs, which are intended to encourage their continued employment with A&B by providing them with greater security in the event of termination of their employment following a change in control of A&B. The Company has adopted a participation policy that extends these agreements to only senior level executives whose employment would be most likely at risk upon a change in control. Each Change in Control Agreement has an initial one-year term and is automatically extended at the end of each term for a successive one-year period, unless terminated by A&B. The Change in Control Agreements provide for certain severance benefits if the executive's employment is terminated by A&B without cause or by the executive for good reason, in each case as defined in the agreement, following a Change in Control Event of A&B, as defined by Internal Revenue Code Section 409A, as follows: Upon a termination of employment under the above circumstances, the executive will be entitled to receive (i) a lump-sum severance payment equal to two times the sum of the executive's base salary and target bonus, (ii) pro rata payment at target with respect to outstanding contingent awards for uncompleted performance periods, (iii) a lump sum payment of amounts due the executive under deferred compensation plans, and (iv) an amount equal to the positive spread between the exercise price of outstanding options held by the executive and the fair market value of the underlying shares at the time of termination. In addition, A&B will maintain all (or provide similar) health and welfare benefit plans for the executive's continued benefit for a period of two years after termination. A&B will also reimburse executives for individual outplacement counseling services up to \$10,000. These are double trigger agreements under which no payments are made and long-term incentives do not accelerate unless both a change in control and a qualifying termination of employment occurs.

In the event that any amount payable to the executive is deemed under the Internal Revenue Code to be made in connection with a change in control of the Company, and such payments would result in the excise tax imposed on excess parachute payments under the Internal Revenue Code, the Change in Control Agreements provide that the executive's payments will be reduced to an amount that would not result in the imposition of the excise tax, to the extent that such reduction would result in a greater after-tax benefit to the executive. No tax gross-up

payments are provided by the Change in Control Agreements.

Table of Contents

If there is a potential change in control of the Company, the executive agrees to remain in the employ of the Company until the earliest of (1) a date six months after the occurrence of the potential change in control, (2) the termination of the executive's employment by reason of disability or retirement, or (3) the occurrence of a change in control of the Company.

Executive Severance Plan: The Company also maintains the Executive Severance Plan (Severance Plan) that covers the NEOs. The Severance Plan continues from year to year, subject to a periodic review by the Board of Directors. The Severance Plan provides certain severance benefits if a designated executive is involuntarily terminated without cause, as defined in the Severance Plan, or laid off from employment as part of a job elimination/restructuring or reduction in force. Upon such termination of employment, the executive will be entitled to receive an amount equal to six months' base salary, payable in equal installments over a period of one year, and continued payment by the Company of life and disability insurance premiums and COBRA premiums for continued group health plan coverage. If the executive executes a release agreement acceptable to the Company, the executive will be entitled to receive additional benefits, including an additional six months of base salary and designated benefits, reimbursement for outplacement counseling services and a prorated share of incentive plan awards at target levels under the PIIP that would have been payable to the executive had he or she remained employed until the end of the applicable performance period.

Voluntary Resignation: If the executive voluntarily resigns from the Company, no amounts are payable under the Severance Plan or the PIIP. The executive may be entitled to receive retirement and retiree health and welfare benefits to the extent those benefits have been earned or vested under the provisions of the plans. The executive may have up to three to six months after termination to exercise vested stock options at the time of termination. In addition, the executive would be entitled to any amounts voluntarily deferred (and the earnings accrued) under the A&B Profit Sharing Retirement Plan.

Other benefits, as described in the CD&A section of this Proxy Statement, may include accrued, vested benefits under the Qualified Retirement Plan and the Excess Benefits Plan.

The following tables show the potential value to each executive under various termination-related scenarios, assuming that the termination of employment or other circumstances resulting in payment occurred on December 31, 2014.

Table of Contents

-
- (1) Assumes execution of an acceptable release agreement as provided by the Executive Severance Plan.
- (2) Normal retirement is at age 65. An executive with 5 years of service may retire at age 62 with unreduced traditional defined benefit pension benefits under the Qualified Retirement Plans. Employees may elect early retirement after attaining age 55 and completing 5 years of service.
- (3) If an NEO is disabled, he will continue to accrue credited vesting service as long as he is continuously receiving disability benefits under A&B's sickness benefits plan or long-term disability benefit plan. Should the NEO stop receiving disability benefits, the accrual of credited vesting service will cease. Upon the later of attainment of age 65 or the date at which he is no longer eligible for disability benefits, the NEO will be entitled to receive a pension benefit based on his years of credited benefit service and his compensation prior to his becoming disabled.
- (4) Retirement Benefits figures are incremental to the values shown in the Pension Benefits Table, which uses a different set of assumptions as described in the related narrative.
- (5) Represents the present value of amount paid as an annuity.
- (6) The Retirement Benefits figures are incremental to the values shown in the Pension Benefits Table. Under certain termination scenarios, benefits reflected in the Pension Benefits Table under the various retirement plans are forfeited or reduced resulting in a negative value.
- (7) Includes the gain on accelerated stock options and the value of accelerated restricted stock and performance share units. The value of stock awards was determined based on the closing price of A&B common stock on December 31, 2014 of \$39.26.
- (8) An NEO receives continued three-year vesting of stock options; see Outstanding Equity Awards at Fiscal Year-End table in this Proxy Statement for vested and unvested equity awards.
- (9) Mr. Chun turned 62 during 2014 and became eligible for unreduced retirement benefits per the Company's retirement plan. Therefore, Mr. Chun's benefits upon termination are the same as those shown in the pension benefits table starting this year (figures shown in the executive termination table are incremental to those in the pension benefits table). Mr. Chun's qualified pension death benefit is different upon death since this benefit is payable to his spouse assuming Joint & Survivor 50% form of payment is elected (non-qualified death benefit is the same as retirement since this is payable as a lump sum, as if Mr. Chun retires as of 12/31/2014). The non-qualified Change in Control (CIC) benefits are different as they are calculated based on lump sum assumptions as of the assumed CIC date (as of 12/31/2014).

All amounts shown are lump-sum payments, unless otherwise noted. Assumptions used in the tables above include: Discount rates for qualified and non-qualified retirement plans of 4.00% and 3.10%, respectively; and a stock price of \$39.26. The assumed retirement age is the current age if eligible for early retirement (at least age 55 with 5 years of service); otherwise it is the normal retirement age 65. Qualified plan benefits (traditional defined benefit and cash balance) are assumed to be paid on a life annuity basis (however, cash balance portion could be paid in a lump sum). The cash balance accounts are projected to the assumed retirement age using 2.41% interest per year (the rate in effect for 2015) with no future pay credits. The projected qualified cash balance accounts were converted to life annuities at the assumed retirement age using the annuity conversion interest assumptions and mortality used in our financial disclosures, i.e., 1.40% (for the first 5 years), 3.98% (next 15 years) and 5.04% (years in excess of 20) and the Applicable Mortality Table, as defined for lump sum calculations under Section 417(e) of the Internal Revenue Code. The Applicable Mortality Table is defined by the IRS for years through 2015, and for subsequent years, the assumption is that the IRS will continue to apply the same annual mortality improvements as it did through 2015 in each future year.

The Excess Benefits Plan benefits are paid, upon termination, as a lump sum equal to the present value of the traditional defined benefit assumed to be paid on a life annuity basis plus the cash balance account. The lump sum conversion was based on interest rates (with 39% marginal tax rate adjustment) and mortality used in our financial disclosures, i.e., for change in control lump sums: 0.85% (for the first 5 years), 2.84% (next 15 years) and 3.43%

Table of Contents

(years in excess of 20); for other scenarios: 0.85% (for the first 5 years), 2.43% (next 15 years) and 3.07% (years in excess of 20); and the Applicable Mortality Table, as defined for lump sum calculations under Section 417(e) of the Internal Revenue Code.

Use of Non-GAAP Financial Measures

The Company reports net income and diluted earnings per share in accordance with GAAP and on a non-GAAP basis. Reconciliations of the Company's GAAP to non-GAAP financial measures for the years ended December 31, 2014 and 2013 are presented below.

(dollars in millions, except earnings per share, unaudited)	2014	Year Ended December 31	2013
Net income	\$	61.4	34.3
Professional service and other expenses incurred to acquire Grace Pacific LLC			4.6

Professional service and other expenses incurred to acquire Grace Pacific LLC			0.10
Income tax effect of adjusting items			(0.04)
Diluted earnings per share, adjusted net income	\$	1.25	0.82

The Company presents the non-GAAP measures of EBITDA, adjusted operating profit, and adjusted operating profit margin for the Materials & Construction segment, which contain the results of Grace Pacific. The Company uses these non-GAAP financial measures when evaluating operating performance for the Materials & Construction segment because management believes that EBITDA, adjusted operating profit, and adjusted operating profit margin provide insight into the segment's core operating results, future cash flow generation, and the underlying business trends affecting performance on a consistent and comparable basis from period to period. The Company provides this information as an additional means of evaluating the segment's ongoing core operations. The non-GAAP financial information presented herein should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The Company believes that Materials & Construction operating profit is the most directly comparable GAAP measurement to the segment's EBITDA and adjusted operating profit. A reconciliation of segment operating profit to EBITDA, adjusted operating profit, and adjusted operating profit margin follows:

Adjusted operating profit margin	12.8%	10.4%

* 2013 results for the Materials & Construction segment include results from Grace Pacific from October 1, 2013, its acquisition date, to December 31, 2013.

** The Company reported adjusted EBITDA of \$7.7 million for the quarter and year ended December 31, 2013, which excluded \$0.9 million of purchase price allocation adjustments on EBITDA. In the second quarter of 2014, the Company discontinued reporting adjusted EBITDA as the impacts of purchase price allocation adjustments on EBITDA became de minimis. For the year ended December 31, 2014, the impact of purchase price allocation adjustments on EBITDA to derive adjusted EBITDA was a negative \$0.2 million.

PROPOSAL NO. 2: ADVISORY VOTE ON EXECUTIVE COMPENSATION

Shareholders are being asked to vote to approve, on a non-binding, advisory basis, the compensation of our NEOs.

A&B's compensation philosophy is to drive the Company's objectives and further shareholder interests through a compensation program that attracts, motivates and retains outstanding executives, and rewards outstanding performance. The CD&A section of this Proxy Statement, beginning on page 16, discusses our policies and procedures that implement our compensation philosophy. Highlights of our compensation program include the following:

- Executive compensation is closely aligned with performance. In 2014, between 56 and 70 percent of the NEOs' target total direct compensation was variable and performance-based, with 70 percent of the CEO's target total direct compensation variable and performance-based. The ratio of variable compensation is consistent with market practices.

- The Company remains committed to responsible pay practices and has adopted policies that are representative of best practices, including a clawback policy that applies to all senior management and a policy prohibiting hedging and other speculative transactions involving Company stock. The Compensation Committee is focused on continuous improvement in executive compensation practices and policies to ensure alignment between pay and performance, as well as implementation of best practices. This includes, but is not limited to, such practices as adopting a 50th percentile target compensation philosophy, using multiple performance metrics and multi-year equity vesting, double triggers

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

on equity grants in the event of a change in control, reasonable change-in-control agreements, protocols for an annual pay risk assessment, meaningful stock ownership guidelines, and no employment agreements, guaranteed bonuses, gross-ups, stock option repricing or executive perquisites (other than parking). In 2014, the average total direct compensation for NEOs was below the 50th percentile targeted.

Table of Contents

- As described previously in this proxy statement, revenues and net income have increased meaningfully from 2013, and significant value creation accomplishments occurred in 2014. The executive compensation program reflected slightly above target performance by the Company in 2014, which resulted in payouts ranging between 91% to 122% of annual cash incentive targets for the NEOs, and a profit sharing contribution of 3.01% of base salary.
- The actual performance level attained for the 2013 PSU grants covering the performance period of 2013 – 2014 was at the 39th percentile relative to the Standard & Poor’s Midcap 400 index. This resulted in a payout of 48.33% of target. Beginning with the 2015 equity grants, PSUs will be based on relative TSR against companies that comprise two indices to which the Company belongs: the Standard & Poor’s Midcap 400 index and the Russell 2000 index. Half of the PSUs granted will be evaluated against the companies comprising the S&P Midcap 400 and half will be evaluated against companies comprising the Russell 2000. In addition, the performance and vesting horizons will be increased from two to three years. The Company believes these changes better align the NEOs’ performance objectives to relative performance against indices to which the Company belongs and focus on a longer performance horizon.

The following resolution is being submitted for a shareholder advisory vote at the Annual Meeting:

RESOLVED, that the Company’s shareholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company’s Proxy Statement for the 2015 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2014 Summary Compensation Table and the other related tables and disclosure.

Although the advisory vote is non-binding, the Compensation Committee and the Board will review the results of the vote and consider them in future determinations concerning our executive compensation program. As announced previously, we will provide shareholders the opportunity to cast an advisory vote on executive compensation on an annual basis.

The Board of Directors recommends that shareholders vote FOR the approval of the resolution relating to executive compensation.

AUDIT COMMITTEE REPORT

The Audit Committee provides assistance to the Board of Directors in fulfilling its obligations with respect to matters involving the accounting, auditing, financial reporting, internal control and legal compliance functions of A&B, including the review and approval of all related person transactions required to be disclosed in this Proxy Statement. Among other things, the Audit Committee reviews and discusses with management and Deloitte & Touche LLP, A&B’s independent registered public accounting firm, the results of the year-end audit of A&B, including the auditors’ report and audited financial statements. In this context, the Audit Committee has reviewed and discussed A&B’s audited financial statements with management, has discussed with Deloitte & Touche LLP the matters required to be discussed by applicable Public Company Accounting Oversight Board rules and, with and without management present, has discussed and reviewed the results of the independent registered public accounting firm’s audit of the financial statements.

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

The Audit Committee has received the written communication regarding independence from Deloitte & Touche LLP required under the rules of the Public Company Accounting Oversight Board, and has discussed with Deloitte & Touche LLP its independence from A&B. The Audit Committee has determined that the provision of non-audit services rendered by Deloitte & Touche LLP to A&B is compatible with maintaining the independence of Deloitte & Touche LLP from A&B in the conduct of its auditing function.

Table of Contents

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that A&B's audited consolidated financial statements be included in A&B's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 for filing with the SEC. The Audit Committee also has appointed, subject to shareholder ratification, Deloitte & Touche LLP as A&B's independent registered public accounting firm for 2015.

The foregoing report is submitted by Mr. Pasquale (Chairman), Mr. Harrison and Mr. Yeaman.

PROPOSAL NO. 3: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has appointed Deloitte & Touche LLP as the independent registered public accounting firm of A&B for the ensuing year, and the Audit Committee recommends that shareholders vote in favor of ratifying such appointment. Although ratification of this appointment is not required by law, the Board believes that it is desirable as a matter of corporate governance. If shareholders do not ratify the appointment of Deloitte & Touche LLP, it will be considered as a recommendation to the Board and the Audit Committee to consider the retention of a different firm. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting, where they will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions from shareholders.

In compliance with applicable SEC rules, the Audit Committee has adopted policies and procedures for Audit Committee approval of audit and non-audit services. Under such policies and procedures, the Audit Committee pre-approves or has delegated to the Chairman of the Audit Committee authority to pre-approve all audit and non-prohibited, non-audit services performed by the independent registered public accounting firm in order to assure that such services do not impair the auditor's independence. Any additional proposed services or costs exceeding pre-approved cost levels require additional pre-approval as described above. The Audit Committee may delegate pre-approval authority to one or more of its members for services not to exceed a specific dollar amount per engagement. Requests for pre-approval include a description of the services to be performed, the fees to be charged and the expected dates that the services will be performed. All services provided by Deloitte & Touche LLP during 2014 were pre-approved in accordance with these policies.

For the years ended December 31, 2014 and 2013, professional services were performed by Deloitte & Touche LLP (including affiliates) for A&B as follows:

Audit Fees. The aggregate fees billed for the audit of the Company's annual consolidated financial statements, including Sarbanes-Oxley Section 404 attestation-related work, for the fiscal years ended December 31, 2014 and 2013, the reviews of the interim financial statements included in the Company's Quarterly Reports on Form 10-Q and consents for SEC registration statements were approximately \$1,890,000 and \$1,975,000, respectively.

Audit-Related Fees. The aggregate fees billed for Audit-Related services for the fiscal years ended December 31, 2014 and 2013 were approximately \$105,000 and \$439,000, respectively, and were related primarily to consultation on financial accounting and reporting standards and audits of the Company's standalone subsidiaries in 2014 and to the audits of the Company's employee benefit plans and standalone subsidiaries and services and audits rendered in connection with acquisitions made by the Company in 2013.

Edgar Filing: Alexander & Baldwin, Inc. - Form DEF 14A

Tax Fees. The aggregate fees billed for tax services for the fiscal years ended December 31, 2014 and 2013 were \$199,000 and \$20,000, respectively.

All Other Fees. There were no fees billed for services not included above for the fiscal years ended December 31, 2014 and 2013.
