Item 7.01 Regulation FD Disclosure

On June 10, 2015, Global Partners LP (the Partnership) issued a press release, attached hereto as Exhibit 99.1, announcing a public offering of common units representing limited partner interests in the Partnership.

In accordance with General Instruction B.2 of Form 8-K, the information set forth in Exhibit 99.1 shall not be deemed to be filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, unless the Partnership specifically states that the information is to be considered filed under the Exchange Act or incorporates it by reference into a filing under the Exchange Act or the Securities Act of 1933, as amended.

Item 8.01 Other Events

The Partnership's quarterly results vary as a result of a number of factors regarding market conditions such as demand for petroleum products and renewable fuels, weather, credit markets, the regulatory and permitting environment and the forward product pricing curve. To date in the second quarter, the Partnership is experiencing certain non-seasonal factors applying downward pressure on product margins and EBITDA. Such factors include (i) less favorable market conditions than in the first quarter in the wholesale gasoline market; (ii) the adverse effect of rising wholesale gasoline prices in the Partnership's Gasoline Distribution and Station Operation's segment; (iii) less contribution from the Partnership's distillates and residual fuel businesses which, although seasonal in nature, disproportionately benefited in the first quarter from colder than normal weather; and (iv) unfavorable market conditions in the Partnership's crude by rail business. The Partnership expects those factors to continue through the quarter. As a result, the Partnership expects EBITDA generated for the second quarter of 2015 will be substantially less than EBITDA generated during the first quarter.
