**Item 8.01. Other Events.**

Duke Energy Carolinas, LLC ( DEC ) and the Public Staff North Carolina Utilities Commission (the Public Staff ) have reached a partial settlement resolving certain issues in the rate case which DEC filed on August 25, 2017, with the North Carolina Utilities Commission (the NCUC ). The partial settlement includes, among other things, (1) a return on equity of 9.9% based upon a capital structure of 52% equity and 48% debt, (2) the return to customers of excess North Carolina state deferred income taxes over four years, and (3) the removal of recovery of Customer Connect project costs while permitting deferral treatment of project costs. Excluding the items which have not been settled (as described below), this partial settlement results in an approximate \$105 million annual customer rate increase prior to the reductions from the return of excess North Carolina state deferred income taxes, or approximately \$45 million after applying such reductions.

DEC and the Public Staff have not reached a compromise on a number of items, including coal ash basin deferred costs to be recovered and amortization period, and ongoing coal ash costs to be included in rates; the timing of adoption, costs to be included and structure of a Grid Reliability and Resiliency Rider; the impacts of the Federal Tax Cuts and Jobs Act; and the allowance of a return on the unamortized balance of Lee Nuclear project development costs during the amortization period.

On March 1, 2018, DEC also filed supplemental comments with the NCUC in the Federal Tax Act Proceeding that propose how DEC could implement the impacts of the Federal Tax Cut and Jobs Act of 2017.

An overview providing additional detail on these filings is attached to this Form 8-K as Exhibit 99.1.

An evidentiary hearing on the partial settlement and other issues in the case will commence March 5, 2018. The partial settlement will be subject to the review and approval of the NCUC.
