NOTE 2:

SIGNIFICANT ACCOUNTING POLICIES

The Financial Statements of the subsidiaries mentioned in Note 1 a., have been prepared on a consistent basis with those applied by the Company. The Note 1 a. to the Unaudited Basic Financial Statements details the most significant accounting policies. Below are the most relevant accounting policies adopted by the subsidiaries, which are not included in that note.

In addition to the description in the Unaudited Basic Financial Statements:

a. Revenue recognition

- Revenues from admission rights, leases and services

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of: (i) a monthly base rent (the “Base Rent”) and (ii) a specified percentage of the tenant’s monthly gross retail revenues (the “Percentage Rent”) (which generally ranges between 4% and 10% of tenant’s gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant’s Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA’s lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six-months, upon not less than 60 days’ written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

NOTE 2: (Continued)

a. (Continued)

Additionally, APSA charges its tenants a monthly administration fee related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers' operations. The administration fee is prorated among the tenants according to their leases, which varies from shopping center to shopping center. Administration fees are recognized monthly when earned.

In addition to rent, tenants are generally charged "admission rights", a non-refundable admission fee that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements.

- Lease agent operations

Fibesa S.A., company in which APSA has shares of 99.99996%, acts as the leasing agent for APSA bringing together APSA and potential lessees for the retail space available in certain of the APSA's shopping centers. Fibesa S.A.'s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value, admission rights and commissions from rental of advertising spaces. Revenues are recognized at the time that the transaction is successfully concluded.

- Consumer Financing operations

Revenues derived from credit card transactions consist of commissions and financing income, charges to clients for life and disability insurance and for statements of account, among others. Commissions are recognized at the time the merchants' transactions are processed, while the rest financing income is recognized when accrued. Income generated from granting consumer loans mainly includes financial interests, which are recognized by the accrual method during the period, irrespective of whether collection has or has not been made.

NOTE 2: (Continued)

a. (Continued)

- Hotel operations

The Company recognizes revenues from its rooms, catering and restaurant facilities as accrued on the close of each business day.

b. Investments

- Equity investees and other non-current investments

The interests held in entities over which the Company does not exert control, joint control or significant influence have been measured for accounting purposes at cost plus any declared dividends.

Given the sale of 80% of Tarshop S.A.'s shares described in Note 22 B.3., as of the date of issuance of these unaudited financial statements, APSA maintains a 20% investment in Tarshop S.A. that is valued by the equity method due to the existence of significant influence by the group of companies on Tarshop S.A.'s decisions and the intention to keep it as a long-term investment.

The equity investments in TGLT S.A. and Hersha Hospitality Trust were valued at their acquisition cost.

c. Intangible assets, net

Intangible assets are carried at restated cost less accumulated amortization and corresponding allowances for impairment in value, if applicable. Included in the intangible assets caption are the following:

- Concession

Intangible assets include Arcos del Gourmet S.A.'s concession right, which will be amortized over the life of the concession agreement (see Notes 22 B.1. and 24 B.5.), after the opening of the shopping center.

- Trademarks

Trademarks include the expenses and fees related to their registration.

- 15 -

NOTE 2: (Continued)

c.

(Continued)

- Pre-operating and organization expenses

These expenses are amortized by the straight-line method in 3 years, starting upon the opening of the shopping center.

The net carrying value of these assets does not exceed their estimated recoverable value at period/year end.

- Non-compete agreement

These expenses were amortized by the straight-line method in 28 months, starting upon December 1st, 2009.

Under the agreement executed with Banco Hipotecario S.A. for the sale of Tarshop S.A.'s shares, APSA has signed a non-compete agreement in favor of BHSA and has thus written off this intangible (See Note 22 B.3.).

d. Negative Goodwill, net

Amortizations were calculated through the straight-line method on the basis of an estimated useful life considering the weighted average of the remaining useful life of the assets acquired.

The residual value of goodwill arising from the acquisition of net assets and shares in companies has been shown in the "Negative goodwill, net" caption. Amortizations were classified in the "Amortization of the negative goodwill, net" caption of the Statement of Income. Goodwill related to the acquisition of interest in subsidiaries is included in non-current investments.

Values thus obtained do not exceed the respective estimated recoverable values at period/year end.

NOTE 2: (Continued)

e. Liabilities in kind related to barter transactions

Liabilities in kind corresponding to obligations to deliver units to be built are valued considering the value of the assets received or the cost of construction of the units to deliver plus necessary additional costs to transfer the assets to the creditor, the largest, thus reducing its value pro rata the units that are granted notarial titled deed. Liabilities in kind have been shown in the "Trade account payables" caption.

NOTE 3: NET INCOME BY BUSINESS SEGMENT

The Company has determined that its reportable segments are those that are based on the Company's method of internal reporting. Accordingly, the Company has six reportable segments. - Financial operations and others

This segment primarily includes results related to or generated by security transactions and other non-core activities of the Company. This segment also includes gain/loss in equity investees of the company related to the banking industry.

The Company measures its reportable segments based on operating result. Inter-segment transactions, if any, are accounted for at current market prices. The Company evaluates performance of its segments and allocates resources to them based on operating result. The Company is not dependent on any single customer.

The accounting policies of the segments are the same as those described in Note 1 to the Unaudited Basic Financial Statements and in Note 2 to the Unaudited Consolidated Financial Statements.

NATIONAL PARKS ADMINISTRATION DISPUTE

- Provision for unexpired claims against Llao Llao Holding S.A.

The Company Llao Llao Holding S.A. (“LLH”) predecessor of Llao Llao Resorts S.A. (“LLR”) as operator of the Llao Llao Hotel, was sued in 1997 by the National Parks Administration seeking collection of the unpaid balance of the additional sale price, in Argentine External Debt Bond (“EDB”) amounting to US\$ 2.9 million. In March 2004, after different stages of judicial proceeding LLH paid Ps. 9,156 in cash and EDB.

Furthermore, the plaintiff requested to initiate an incidental procedure for execution of sentence by performing a settlement through the Ministry of Economy. After various judicial instances, such liquidation was approved. In April 2010, LLR paid Ps. 12,297 in cash and bonds, in addition to the Ps. 826 which had already been levied through an attachment. On December 28, 2011, the court settlement that cancels the amounts owed was ruled.

At the same time, the plaintiff stated that the deposited amounts were in line with the settlement that had taken place on June 30, 2007, and that was eventually approved in the framework of these proceedings on December 5, 2007. As a result, it argued that the interest accrued until actual payment was to be adjusted by application of the Argentine Central Bank’s borrowing interest rate. As estimated by the Argentine Agency of National Parks, the outstanding balance to be deposited by LLR would amount to US\$ 659. As of December 31, 2011, the Company’s attorneys have estimated the contingency at Ps. 587. In addition, on September 22, 2010, the judge calculated that the fees payable to the auctioneer who took part in the proceedings amount to Ps. 1.8 million. LLR lodged an appeal against the award for considering the amount excessively high. The auctioneer, in turn, lodged his appeal against the award for considering the amount insufficient. After various judicial instances, the courts rendered a decision favorable to LLR and considered the debt related to interest settled.

Since LLR had a credit balance as regards the deposit made pursuant to settlement approved in the proceedings, on February 18, 2011 LLR filed a remedy for relief whereby it requested that the Court of Appeal issue a decision on the amount deposited in excess and order the eventual repayment to the defendant. The Court of Appeal ruled that the claim should be treated by the Court of original jurisdiction. Hence, the file was returned to the original Court. There, the auctioneer has requested payment of fees, which were decreased to Ps. 1.1 million plus VAT after LLR’s appeal was favorable. LLR presented a proposal to pay the auctioneer’s fees settled, which will be withheld from the funds seized, from the freely disposable funds (Ps. 826) and from the funds invested in time deposits in dollars. Likewise, LLR requested professional fees to be settled and resolution of the pending clarifying remedy as to the amount deposited in excess.

NOTE 20: (Continued)

As of the date these financial statements, the Company's attorneys have informed that the fees were made available to be collected. The remaining balance will be used to pay incidental expenses until the court process finishes.

(i) Puerto Retiro S.A.

On April 18, 2000, Puerto Retiro S.A. (indirect subsidiary of IRSA) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A.. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, this being a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

Notice has been served upon the commercial court that the criminal cause of action was declared extinguished by operation of the statutes of limitation and that the accused were acquitted. However, this ruling was challenged by filing an appeal in cassation, which is why the other decision is still not final.

(i) (Continued)

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues to consider that the request for bankruptcy will be denied by the court. However, taking the particular characteristics into account and the progress of the legal action, this position cannot be considered conclusive.

(ii) Loan of Hoteles Argentinos S.A.

In March 2005, Credit Suisse First Boston (“CSFB”) acquired a loan for US\$ 11.1 million of Hoteles Argentinos S.A. (“HASA”), which had been in non-compliance since January 2002. In April 2006, HASA reduced the capital amount payable to US\$ 6.0 million. The balance accrued a 6 months LIBOR interest rate plus 7.0% being the last of US\$ 5.07 million due in March, 2010.

Jointly, a credit default swap was subscribed by the Company for 80% of the restructured debt value in order to protect CSFB in case of non-compliance with HASA’s obligations. As compensation, the Company received a coupon on a periodical basis. Additionally, the Company has deposited as guarantee the amount of US\$ 1.2 million.

With the last installment of the loan received having been repaid on March 15, 2010, CSFB reimbursed the deposit to the Company. In connection with this matter, HASA borrowed a new loan from Standard Bank Argentina S.A., for a total amount of Ps. 19.0 million, which accrued interest at a fixed rate, payable on a quarterly basis. The capital mature on March 15, 2011. On this date, HASA refinanced the mentioned loan agreement, as per the following detail: US\$ 0.4 million at a fixed rate (capital plus interest) to be paid on September 12, 2012; US\$ 0.4 million at a fixed rate (capital plus interest) to be paid on March 14, 2012 and Ps. 15.8 million at a fixed rate, with capital to be paid on March 14, 2012 and interests payable on a quarterly basis.

As a guarantee for this transaction, the Company entered into a put option agreement (Put Right) with Standard Bank Argentina S.A. whereby the Bank receives the right to sell to the Company, which in turn agrees to purchase, 80% of the credit rights arising from the loan in the event of HASA defaulted the loan.

As of the date of these financial statements, HASA had committed no event of default.

NOTE 22: ACQUISITION, CONSTITUTION AND RESTRUCTURING OF BUSINESS AND PROPERTY

A. IRSA Inversiones y Representaciones Sociedad Anónima

1. Creation of CYRSA - Horizons Project

In January 2007, the Company acquired two adjacent plots of land located in Vicente López, Province of Buenos Aires (one of them, through the purchase of Rummaala S.A., which was the owner of that plot of land and currently is merged with CYRSA S.A.). The purchase price was US\$ 36.2 million of which US\$ 30.3 million will be cancelled by handing over certain units of the building to be constructed. As security for this obligation, a pledge was constituted over the shares of Rummaala S.A. and a mortgage was constituted over the Company's building Suipacha 652.

In April 2007, the Company constituted CYRSA S.A. ("CYRSA") and in August 2007, CYRELA was incorporated with the ownership of 50% of CYRSA capital stock. The Company contributed the plots of land and the related liability in kind for a net value of Ps. 21,495 and CYRELA contributed Ps. 21,495 in cash.

Then, a major real estate development known as "Horizons" was launched on the two plots of land mentioned.

From May 2008, CYRSA continued the marketing process of the building units to be constructed on the plot referred to above. Certain clients had made advances by means of signing preliminary sales contracts, reaching 100% of the units to be marketed, which are disclosed in "Customer advances".

The sale price set forth in these preliminary sales contracts consist of a fixed and determined portion and another portion to be determined in line with the future construction expenses.

Each buyer chose from the following purchase plans:

- The balance is cancelled in installments and is fully paid at the time of transfer signature of deeds or,
- Partial cancellation will be on installments payable up to the time of transfer / signatures of deeds, the remaining balance to be financed during 90 months' term with units having mortgaged guarantees.

As of December 31, 2011, the percentage of completion of the "Horizons" project was 99%. Three of the six towers included in the project have already been completed and are currently signing the title deeds.

2. Acquisition of Hersha Hospitality Trust ("Hersha")

On August 4, 2009, the Company, through Real Estate Investment Group L.P. (REIG) acquired 5,700,000 shares representing approximately 10.4% of Hersha's common stock and a call option that matures on August 4, 2014 to purchase an additional 5,700,000 shares at an exercise price of US\$ 3.00 per share. Under the agreement, if starting on August 4, 2011 the quoted market price of Hersha's share were to exceed US\$ 5.00 per share during 20 consecutive trading sessions, Hersha may settle the call option by issuing and delivering a variable amount of shares to be determined in accordance with certain market values.

The total purchase price paid was US\$ 14.3 million. As part of the agreement, the Company's Chairman and CEO, Mr. Eduardo S. Elsztein, has been appointed to Hersha's Board of Trustees.

NOTE 22:

2. (Continued)

In January, March and October 2010, the Company through its subsidiaries purchased 11,606,542 additional shares of Hersha's common stock, for an aggregate purchase price of US\$ 47.9 million.

During fiscal year ended on June 30, 2011, the Company through its subsidiaries sold 2,542,379 common shares in Hersha, for a total of US\$ 16.1 million, which resulted in approximately US\$ 11.5 million gain.

As of December 31, 2011 the Company's direct and indirect interest in Hersha amounts to 9.17%. If the call option was exercised and the Company's interest was not diluted due to newly issued shares, the Company's interest in Hersha would be 12.12%. The Company accounts for its investment in Hersha at cost while the call option has been accounted for its fair value.

Hersha is a Real Estate Investment Trust (REIT) listed in the New York Stock Exchange (NYSE) under the "HT" symbol that holds majority interests in 78 hotels throughout the United States of America totaling approximately 10,621 rooms. These hotels are rated as "select service" and "upscale hotels" and they are mainly located in the Northeast coast of the US, including New York, New Jersey, Boston, Washington D.C. and Philadelphia, whilst a few are located in northern California, Los Angeles and Arizona. These properties are operated under franchises that are leaders and enjoy widespread recognition in their markets, such as Marriot International, Intercontinental Hotel Group, Starwood Hotels, Hilton Hotels Corporation, Global Hyatt Corporation and Choice Hotels International.

3. Acquisition of Lipstick Building, New York

In July 2008, the Company (through its subsidiaries) acquired a 30% interest in "Metropolitan 885 Third Avenue LLC" ("Metropolitan"), which main asset (through its subsidiaries) was a rental office building in New York City known as the "Lipstick Building" and the debt related to that asset. The transaction included the acquisition of (i) a put right exercisable until July 2011 to sell a 50% of the interest acquired at the same value paid plus interest at 4.5% per annum and (ii) a right of first offer to acquire a 60% portion of the 5% interest of the shareholding. The total price paid was US\$ 22.6 million.

NOTE 22:

(Continued)

A. (Continued)

3. (Continued)

During 2009 and in the context of the financial crisis and shrinkage of the real estate market in New York, Metropolitan incurred in significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since the Company's share in Metropolitan's losses exceeded its equity interest; the Company recognized a zero value on its investment and a liability of US\$ 1.5 million which represented the Company's maximum commitment to fund Metropolitan's operations.

In December 2010, the negotiations geared towards restructuring the amounts owed under mortgage to Royal Bank of Canada came to a successful conclusion. The debt was reduced from US\$ 210.0 million to US\$ 130.0 million (excluding accrued interest) at a Libor plus 400 basic points rate, which may not exceed a maximum rate of 6.25% and with a maturity date fixed at seven years. The junior indebtedness to Goldman, Sachs & Co., which had amounted to US\$ 45.0 million (excluding accrued interest), was cancelled through a US\$ 2.25 million payment.

Metropolitan 885 Third Avenue Leasehold LLC ("Metropolitan Leasehold") will maintain the existing ground leases in the same terms and conditions in which they had been initially agreed upon, for a remaining 66 years' term. The final consent to this restructuring has already been tendered by all the parties concerned and the closing was consummated on December 30, 2010, as that is when the company New Lipstick LLC ("New Lipstick"), the new Metropolitan Leasehold holding company, made a US\$ 15.0 million principal payment as repayment of the newly restructured mortgage debt, thus reducing it from US\$ 130.0 million to US\$ 115.0 million.

As a consequence of said closing, the Company has indirectly – through New Lipstick – increased its equity interest in the Lipstick Building to 49%. This increase originated in a US\$ 15.3 million capital contribution and in the fact that the put option for 50% of the shareholding initially acquired in Metropolitan, which had amounted to approximately US\$ 11.3 million plus accrued interest, has been rendered ineffectual. Besides, the above-mentioned commitment, for US\$ 1.5 million, ceased to be in effect.

5. Acquisition of companies in the Oriental Republic of Uruguay

During the fiscal year ended on June 30, 2009, the Company (through Tyrus) acquired by a minimum payment a 100% ownership interest in Liveck S.A. Simultaneously, Liveck acquired a 90% interest over the shares of the companies Zetol S.A. (Zetol) and Vista al Muelle S.A. (Vista al Muelle), both property owners in Uruguay's Canelones Department. The remaining 10% ownership interest in the capital stock of both companies is held by Banzey S.A. (Banzey).

The total price of the purchase of all the shares in Zetol had been fixed at US\$ 7.0 million, of which US\$ 2.0 million have already been paid, the outstanding balance is to be paid in 5 installments of US\$ 1.0 million each plus an annual 3.5% compensatory interest rate calculated on the total outstanding amount and tied to the consummation of the release to the market of the real estate projects or within a maximum term of 93 months counted as from the date of acquisition of the Company. The sellers of the shares of Zetol may choose to receive, in lieu of the amounts outstanding in cash (principal plus interest), the ownership rights to the units to be built in the real estate owned by Zetol representative of 12% of the total marketable square meters built.

The price for the purchase and sale of all the shares in Vista al Muelle amounted to US\$ 0.83 million, and accrued an annual 8% compensatory interest rate on the outstanding amounts. As of September 10, 2010, it was completely paid.

To guarantee compliance with the duties agreed by Liveck in the above transactions, Ritelco S.A. has tendered a surety bond guaranteeing payment of 45% of the outstanding balance, interest thereon and the option rights of the sellers.

On the balance sheet date, having failed to execute the shareholders' agreement or to sign an agreement to extend the term for such execution, the parties have not expressed their intention to perform the obligations assumed under the agreement to purchase the stock of Vista al Muelle S.A. and Zetol S.A.

The Company and its shareholders intend to develop an urban project that will consist in the construction of apartment buildings to be subsequently sold. The project has already been conferred the "Urban Feasibility" status by Canelones' Mayor's Office and its Legislative Council.

In view of the additional development capacity granted by the IMC, the companies agree to pay maximum the sum of US\$ 8.1 million for all concepts solely with works and other services as consideration thereof. The works to be carried out in consideration thereof are described in the Contract Plan.

Furthermore, the companies may exercise an option included in the agreement that entitles them to a 15% reduction of the total consideration amount, provided 80% of such consideration has been already been performed with a term of four years as from execution of the Contract Plan.

On the other hand, it states that if the companies do not build the square meters of additional development capacity granted to them, the total consideration amount will also be reduced proportionately as the parties agree.

In February 2010, it acquired additional real estate for a total of US\$ 1.0 million in exchange for a down payment of US\$ 0.15 million with the balance to be paid in 3 consecutive and equal installments maturing on December 31, 2011, June 30, 2013 and December 31, 2014 and accruing an annual 3% interest rate on the outstanding balance, payable quarterly and on arrears as from December 31, 2009.

On December 17, 2010, the Company and Cyrela signed a stock purchase agreement whereby a 50% interest in Liveck's capital stock was reacquired from Cyrela for US\$ 2.7 million. This amount is equivalent to the contributions made in Liveck by Cyrela. Therefore, the Company's interest in Liveck amounted to 100% (through Tyrus).

As part of the agreement, the Company agreed to hold Cyrela harmless in the event of claims asserted by Zetol's sellers. Besides, if within a term of 24 months as from the date of the agreement Cyrela were not released from the guarantee tendered in favor of the above-mentioned sellers, the Company will be obliged to post a new guarantee in favor of Cyrela, equivalent to 45% of the price balance, interest thereon and the option rights to which Zetol's sellers are entitled.

NOTE 1: ACCOUNTING STANDARDS

Below are the most relevant accounting standards used by the Company to prepare these unaudited financial statements:

1.1. Preparation and presentation of financial statements

These unaudited financial statements are stated in thousands of Argentine pesos and were prepared in accordance with disclosure and valuation criteria contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas, approved with certain amendments by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, in accordance with the resolutions issued by the National Securities Commission.

The Company's results for the six-month periods ended December 31, 2011 have not been audited. The Company's management estimates that they include all the adjustments necessary to present fairly the results for such period.

The Company's results for the six-month periods ended December 31, 2011 do not necessarily reflect the proportion of the Company's full-year results.

1.2. Use of estimates

The preparation for financial statements requires the Company's Management, at a specific date, to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the period. The Company's Management makes estimations to calculate, for example, the allowance for doubtful accounts, depreciation and amortization, the impairment of long-lived assets, income taxes, contingencies allowances, fair value of assets acquired in a business combination, the fulfillment of certain conditions for valuation of inventories to its net realizable value and fair value of transaction of exchanges (barter). Future actual results could differ from the estimates and assumptions made at the date of these financial statements.

1.3. Recognition of the effects of inflation

The financial statements have been prepared in constant Argentine Pesos, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the financial statements taken as a whole.

The rate used for restatement of items in these financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

1.4. Comparative information

Balances items as of June 30, 2011 shown in these unaudited financial statements for comparative purposes arise from audited annual financial statements for the year then ended.

Balances of the six - month period ended December 31, 2011 of the unaudited income, shareholders' equity and cash flow statements are shown for comparative purpose with the same period of the previous fiscal year.

The unaudited financial statements as of December 31, 2010 originally issued have been subject to certain reclassifications required in order to present these figures comparatively with those stated as of December 31, 2011.

h. Inventories

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Properties classified as inventories have been valued at acquisition or construction cost restated as mentioned in Note 1.3., or estimated market value, whichever is lower. Costs include land and land improvements, direct construction costs, construction overhead costs, financial costs and real estate taxes.

Inventories on which advance payments that establish price have been received, and the operation's contract terms and conditions assure that the sale will be effectively accomplished and that the income will be realized, are valued at its net realizable value. Profits arising from such valuation are shown in the "Gain from recognition of inventories at net realizable value" caption of the Statements of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the period/year.

- Units to be received

The Company has rights to receive certain property units to be built, which have been valued according to the accounting measuring standards corresponding to inventories receivables (the price established in the deed or net realizable value, as applicable) and there have been disclosed under "Inventories".

i. (Continued)

- Investments in subsidiaries and equity investments:

Non current investments in subsidiaries and equity investments have been valued by using the equity method of accounting based on the financial statements issued by them. The accounting standards used by the subsidiaries and related companies to prepare their financial statements are similar to the ones used by the Company.

This item includes the lower or higher value paid for the purchase of shares in subsidiaries and affiliated companies assignable to the assets acquired, and goodwill related to the subsidiaries and affiliated companies acquired.

- Banco Hipotecario S.A. and Banco de Crédito & Securitización S.A.:

The financial statements of Banco Hipotecario S.A. and Banco de Crédito & Securitización S.A. are prepared in accordance with the Central Bank of the Argentine Republic (“BCRA”) standards. For the purpose of the valuation of the investment in the Company, adjustments necessary to adequate the financial statements to the professional accounting standards have been considered.

In accordance with the regulations of the BCRA, there are certain restrictions on the distribution of profits by Banco Hipotecario S.A. to the Company.

- Tyrus S.A.:

Foreign permanent investments held by the Company through Tyrus S.A. in Uruguay have been classified as “integrated” or “not-integrated” into the Company’s operations, considering the characteristics of the aforementioned investments abroad and their operations.

- Undeveloped parcels of lands:

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company's strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land held for development and sale and improvements are stated at cost restated as mentioned in Note 1.3. or market value, whichever is lower.

NOTE 1: (Continued)

1.5. (Continued)

i. (Continued)

The values of non-current investments thus obtained, do not exceed their respective estimated recoverable values at the end of the period/year.

j. Fixed assets, net

Fixed assets comprise primarily of rental properties and other properties and equipment held for use by the Company.

Fixed assets value, net of allowances set up, does not exceed estimated recoverable value at the end of the period/year.

- Rental properties:

Rental properties are carried at acquisition and/or construction cost, restated as mentioned in Note 1.3., less accumulated depreciation and allowance for impairment at the end of the period/ year. The Company capitalizes the financial accrued costs associated with long-term construction projects.

Depreciation was computed under the straight-line method over the estimated useful lives of each asset applying annual rates in order to extinguish their values at the end of its useful life. The Company revises the useful life of the assets periodically.

The Company has allowances for impairment of certain rental properties as disclosed in Exhibit A. Increases and decreases of such allowances are disclosed in Exhibit E.

Significant renewals and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the Statements of Income.

j. (Continued)

• Other properties and equipment:

Other properties and equipment properties are carried at cost, restated as mentioned in Note 1.3., less accumulated depreciation at the end of the period/year. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

Assets	Estimated useful life (years)
	On contract basis
Leasehold improvements	10
Furniture and fixtures	5
Vehicles	10
Machinery and equipment	3
Computer equipment	

The cost of maintenance and repairs is charged to expense as incurred.

The cost of significant renewals and improvements are added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts.

k. Intangible assets, net

The Company segregates in this caption, among others, the expenses that the Company avoids incurring as a result of acquiring effective rent contracts and the estimated costs of entering into rent contracts acquired (see Note 1.5.I.). These are shown net of their accumulated amortization, calculated on the basis of the average initial remaining life of the rent contracts acquired.

“Project development expenses” include expenses initially incurred to launch the marketing of the plots of the project “Abril”, which are depreciated on the basis of plots sold.

The value of these assets does not exceed their estimated recoverable value as of period/ year end.

NOTE 1: (Continued)

1.5. (Continued)

1. Business combinations

Significant entities or net asset acquired by the Company are recorded in line with the “purchased method” set forth in Technical Resolution No. 18 and Technical Resolution No. 21. All assets and liabilities acquired to third independent parties are adjusted to show their fair value. The Company identifies the assets and liabilities acquired, that included intangible assets such as: lease agreements acquired for prices and terms that are either higher or lower than in the market; costs of executing and delivering the lease agreements in force (costs that the Company avoids incurring as a result of acquiring effective lease agreements); the value of acquired brands, the value of any deposits associated to the investment and the intangible value inherent to customer relations

The process of identification and the determination of the purchase price paid is a matter that requires complex judgments and significant estimates.

The Company uses the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land, buildings and shopping centers. The amounts assigned to all the other assets and liabilities are based on independent valuations or on the Company’s own analysis on comparable assets and liabilities.

If the price paid is larger than the value of the tangible and intangible assets and liabilities as identified, the excess is considered to be goodwill.

m. Debt issuance costs

Expenses incurred in connection with the issuance of debt are amortized over the life of the related issuances. In the case of redemption or conversion of these notes, the related expenses are amortized using the accelerated depreciation method.

Amortization has been recorded under “Financial results and holding gain/loss, net” in the Statements of Income as a greater financing expense.

n. Customer advances

Customer advances represent payments received in connection with the sale and rent of properties and has been valued according to the amount of money received.

NOTE 1: (Continued)

1.5. (Continued)

o. Income tax

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (see Note 15).

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carryforwards, considering the legal regulations approved at the date of issuance of these financial statements.

p.

MPIT

The Company calculates MPIT by applying the current 1% rate on computable assets at the end of the period/ year. This tax complements income tax. The Company's tax obligation in each period will coincide with the higher of the two taxes. However, if MPIT exceeds income tax in a given period, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years.

The Company has recognized MPIT accrued in the period and paid in previous years as credit, because the Company estimates that in the future years it may be computable as prepayment of income tax.

q.

Allowances and Provisions

Changes in provisions are showed in Exhibit E.

- Allowance for doubtful accounts:

The allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is calculated based on an individual analysis of the recoverability of the accounts receivable.

IRSA Inversiones y Representaciones Sociedad Anónima

NOTE 1: (Continued)

1.5. (Continued)

q. (Continued)

The estimate of the amount and the possibility of fulfillment are made considering the opinion of the legal counsels. When it comes to its mortgage-secured receivables, the Company applies the collateral's realization value upon analyzing the recoverability of receivables with hints of uncollectibility.

While Management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the financial statements reflect that consideration.

- For impairment of assets:

The Company regularly assesses its non-current assets for recoverability at the end of every year.

The Company estimates the recoverable value of rental properties based on their economic use value, which is determined based on estimated future cash flows discounted. For the rest of the assets (inventories and undeveloped parcels of land) the Company makes a comparison with market values based on values of comparable properties. If the recoverable value of assets, which had been impaired in prior years, increases, the Company records the corresponding reversals of impairment loss as required by accounting standards.

- For lawsuits:

The Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor issues. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have an effect on the Company's future results of operations and financial condition or liquidity.

q. (Continued)

At the date of issuance of these financial statements, Company's Management understands that there are no elements to foresee other potential contingencies having a negative impact on these financial statements

r. Shareholders' equity accounts

Amounts of shareholders' equity accounts have been restated following the guidelines detailed in Note 1.3. until February 28, 2003. Subsequent movements are stated in the currency of the month to which they correspond.

"Common stock" account was stated at historical nominal value. The difference between value stated in constant currency, following the guidelines detailed in Note 1.3., and historical nominal value is shown under "Inflation adjustment of common stock".

"Cumulative translation adjustments" corresponds to exchange rate differences generated by investments in foreign companies classified as non-integrated to the Company's transactions.

The reimbursement of APSA's dividends expired has been recorded against Retained Earnings proportionally to the Company's interest (See Note 24 B.6 to the unaudited consolidated financial statements).

s. Profit and loss accounts

The profit and loss for the year are shown as follows:

s. (Continued)

Results from investments in subsidiary and equity investments were calculated under the equity method, by applying the percentage of the Company's equity interest to the results of such companies, with the adjustments for application of Technical Resolution No. 21.

t. Revenue recognition

t.1. Sales of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

- The sale has been consummated.
- There is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property.
 - The Company's receivable is not subject to future subordination.
 - The Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not recognize results until construction activities have begun. The percentage-of-completion method of accounting requires the Company's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

t.2. Revenues from leases

Revenues from leases are recognized considering its terms and conditions and over the life of the related lease contracts.

v. Negative Goodwill, net

Goodwill has been restated following the guidelines mentioned in Note 1.3. and amortization has been calculated by the straight-line method based on an estimated useful life, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation.

w. Dividends

IRSA's Board of Directors decided that its dividend policy shall consist in the distribution, pro rata amongst the Shareholders, of an amount equivalent to the highest of a) up to twenty per cent (20%) of revenues posted by the "Offices and others" segment that comes from the Net Operating Income by Business Segment as of June 30 of each year (Note 3 to the consolidated financial statements) or b) up to twenty per cent (20%) of net income as of June 30 of each year. This policy requires that the Company must at all times abide by the covenants imposed on it by virtue of its financial commitments.

1.6. Adoption of the International Financial Reporting Standards

The National Securities Commission through the Resolution No. 562 has mandated that the Technical Resolution No. 26 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE) is to be applied by the companies admitted to the Public Offering System under Law No. 17,811 in connection with either their capital and/or negotiable obligations, and/or by the companies that have applied for admission to the Public Offering System. As consideration therefore, Koad S.A. made a down payment of US\$ 0.05 million and agreed to cancel the US\$ 7.4 million balance by delivering 118 apartments and 55 parking spaces. Brief comments on the Company's activities during the period, including references to significant events occurred after the end of the period.

Buenos Aires, February 13, 2012 - IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BCBA: IRSA), the leading real estate company in Argentina, announces its results for the first six month ended on December 31, 2011.

Income for the Period	127.4	114.4	11.4	%	133.1	170.6	-22	%

The company's consolidated Revenues for the second quarter of fiscal year 2012 were 6% higher than in the same period of the previous fiscal year. This level of growth is explained by the improvement in the shopping centers and offices revenues, of around 28% and 15%, respectively, offset by a fall in the hotel business and sales and developments.

Operating income grew 24.4% during the second quarter of 2012 due to the improvement in operating margins of our shopping centers and offices business, whereas net income for the fiscal year amounted to ARS 127.4 million, 11.4% higher than in the same period of the previous fiscal year and showing a substantial improvement as compared to the ARS 5.7 million income observed in the last quarter. This improvement is mainly explained by higher income from Banco Hipotecario and an increase in the market value of IRSA's option in Hersha Hospitality Trust.

EBITDA from the rental segments has shown an upward trend of around 27% for the second quarter of fiscal year 2012 as compared to the same period of 2011. For the first six months of fiscal year 2012, EBITDA from the rental segment grew 28.9% as compared to the first six months of 2011, offset by the fall observed in the Sales and Development and Consumer Finance segments. EBITDA grew 19.3%.

¹ BITDA represents operating income plus depreciation and amortization (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

- it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;
- it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;

- it reflects the effect of non-recurring expenses, as well as investing gains and losses;
- it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position; and
- other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

IRSA Inversiones y Representaciones Sociedad Anónima - Earnings Release as of December 31, 2011

I. Shopping Centers (through our subsidiary Alto Palermo S.A.)

After a year in which the Argentine shopping center industry saw an outstanding performance, the second quarter of fiscal year 2012 experienced significant growth, in line with the levels of economic activity, consumption and inflation observed. Supermarket sales increased 27.2% during the same period². Consumers' expectations have improved, as per the index prepared by the Torcuato Di Tella University³, reaching 55.6 points, well above the 52.9 points recorded in the same quarter of 2010. There has also been an improvement in access to consumer credit which, according to statistics published by the Argentine Central Bank⁴, increased 49% compared to the same quarter of the previous year.

These rising consumption indicators were reflected in our tenants' sales, which grew 22.1% YoY during this quarter, resulting in an increase in operating income and EBITDA above 30%.

(1) 6 months as of December 31 of each year.

During the second quarter of fiscal year 2012, shopping center tenant sales amounted to ARS 2,635 million (a 22.1% increase as compared to the same period of the previous year). This increase was led by the strong growth experienced by our shopping centers in the interior of the country, in particular Córdoba Shopping and Alto Rosario, way above our shopping centers' average.

The EBITDA/Revenue margin for the first six months of fiscal year 2012 was around 80%, showing a 4% increase as compared to the same period of the previous fiscal year.

Total portfolio occupancy remains at high levels, near 98%. In the shopping centers of the City of Buenos Aires, the vacancy rate is almost zero, with a strong demand for rental space. In the provinces, where sales have experienced a

strong growth in the last years, the occupancy rate has increased in line with the business levels. Without considering Shopping Soleil, which is in the process of redistributing stores in order to optimize its performance, portfolio occupancy would reach almost 99%.

II. Offices and Others

During the second quarter of fiscal year 2012, the market of Class A and A+ offices showed an average vacancy rate of 7.83%, slightly lower than the 7.88% rate recorded during the previous quarter. Throughout the year, vacancy levels decreased by almost 20% as compared to the values of early 2011. According to CB Richard Ellis, at present there are more than 148,000 sqm under construction, only 26,000 sqm of which will be inaugurated during the first quarter of 2012. The northern area is the submarket with greater growth, with 73,845 square meters under construction.

Lease prices of Class A and A+ offices are 27.01 US\$ / sqm per month on average. The highest lease prices are found in Catalinas, Plaza San Martín and Plaza Roma with an average of 30-32 US\$ / sqm per month, and at a second level, in Barrio Norte and Puerto Madero, with 27.89 US\$ / sqm per month and 27.16 US\$ / sqm per month, respectively. Finally, during 2011 the sale of A and A+ offices increased 5.9%, reaching more than 90,000 sqm.

Source: Richard Ellis.

This slight recovery in the office market had a favorable effect on the revenues from our Office segment, which was occupied by 96% as of December 31, 2011, 1% above the level recorded in the previous quarter and 6% above the occupancy level observed as of the end of fiscal year 2011.

Revenues from the Office segment increased by 14.6% in the second quarter of fiscal year 2012, whereas operating income grew by 53.5% as compared to the same quarter of the previous fiscal year. This improvement in the level of activity of offices has been mainly driven by the occupancy of some vacant floors and an improvement in rental price levels. EBITDA grew in the same line (+37.1%).

The portfolio's occupancy level reached 96%, 5.1% higher than the one recorded as of the end of fiscal year 2011. The entire portfolio's rental prices grew with respect to the previous quarter, reaching values close to 24 US\$ / sqm. This reflects the soundness of our assets, which are located in the best areas of Downtown Buenos Aires.

The EBITDA/Revenues margin for the first six months of fiscal year 2012 was 66.5%, above the 60.8% ratio observed in the same period of fiscal year 2011.

During the second quarter of fiscal year 2012, sales totaled ARS 68.8 million, mainly explained by the revenue recognition of ARS 28.3 million from “Horizons” project, ARS 20.0 millions from the sale of Thames San Justo and ARS 2.6 million from the sale of plots of “El Encuentro”.

For the first six months of fiscal year 2012, the gain from Valuation of Inventories at Net Realizable Value was ARS 35.2 million, derived mainly from the following projects:

- Museo Renault
- Libertador 498
- Condominios II (Rosario)
 - Horizons

IRSA Inversiones y Representaciones Sociedad Anónima - Earnings Release as of December 31, 2011

Horizons Project

It has been fully sold. Work progress is near 99.9%. Several units have been already delivered, and the process of delivery and execution of title deeds to the rest of the units is expected to be completed by June 2012. However, these revenues will not generate strong results as most of them were recorded as Gain from Valuation of Inventories at Net Realizable Value in previous periods.

Caballito Nuevo Project (IRSA's barter)

This property, with a surface area of 8,404 sqm, is situated in the northern area of Caballito's residential neighborhood in the City of Buenos Aires. On May 4, 2006, IRSA and KOAD S.A. ("KOAD"), an Argentine developer, entered into an asset exchange agreement valued at US\$7.5 million pursuant to which IRSA sold to Koad plot number 36 of "Terrenos de Caballito" and KOAD S.A. agreed to develop a residential complex called "Caballito Nuevo", at its costs, consisting of two 34-story towers containing 220 apartments each, consisting of one, two and three bedroom residential units with surface areas ranging from 40 to 85 sqm, totaling approximately 28,000 saleable sqm. The project offers a wide variety of amenities and services. As a result of this transaction, Koad delivered to IRSA 118 apartments and 61 parking lots in the first tower, representing 25% of the total square meters for sale. As of December 31, 2011, 12 apartments and 9 parking spaces, for a total value of US\$ 2.0 million, are pending sale.

El Encuentro Project

In the district of Benavidez, Municipality of Tigre, 35 kilometers north from downtown Buenos Aires, a 110-hectare gated residential complex known as "El Encuentro" is located, consisting of a total of 527 lots with a total saleable area of 610,785.15 sqm with two privileged front accesses: the main one to Vía Bancalari and the service one to Highway No. 9, allowing an easy way to and from the city. On May 21, 2004 an exchange deed was signed for the original lot whereby DEESA agreed to pay US\$ 4.0 million to our subsidiary Inversora Bolívar, of which US\$ 1.0 million were paid in cash and the balance of US\$3.0 million was paid on December 22, 2009, with the transfer of 110 residential plots already chosen, totaling a saleable area of 127,795 sqm. The development of the project is completed and equipped with power supply, water, sewage, effluent treatment plant, public lighting, finished driveways and accesses, buildings, sports facilities, etc. As of December 31, 2011, 32 units are available for sale for US\$ 4.7 million.

Sale of AGROCOM plot

IRSA sold a plot of approximately 7.9 hectares located at Thames 1868 street (between Alberto Lartigau and Ramón Falcón streets), in the district of San Justo, Province of Buenos Aires.

The transaction price was US\$ 4.7 million. As of June 30, 2011 this land reserve was valued at a book value of AR\$ 3.89 (approximately US\$ 0.91).

Purchase of Nobleza Piccardo Plot

In May 2011, IRSA acquired 50% of the property where Nobleza Piccardo had its manufacturing plant. It is located in the City of San Martín, in the Province of Buenos Aires. The total area of this plot is 160,000 sqm with a current built area of 80,000 sqm. Due to its size and location it is an excellent site for the future development of different segments.

Nobleza Piccardo will lease 100% of the plot during the first year, releasing it partially until the 3rd year under lease, at which moment it will release the whole plot. We are preparing a Master Plan in order to apply before the authorities of San Martín's Town Hall for the zoning parameters that will allow us to develop a mixed used project.

IV. Hotels

During the past quarter, the hotel business in the City of Buenos Aires maintained the same levels of rental prices and occupancy rates as in the previous quarters. However, our Llao Llao hotel has suffered the effects of the eruption of the volcano in Chile that affected the arrival of tourists to the City of Bariloche as its airport was closed down. In the second quarter of 2012, the hotel's occupancy rate reached 15% and room rates were also revised downwards in order to attract tourists despite the climate issues caused by the volcano.

VI. Brief comment on future prospects for the next period

During the past years private consumption has boosted, and our shopping centers have experienced significant growth. Occupancy has remained close to 100% and our tenants' sales have reached growth rates higher than 30%, above annual inflation and activity levels. Prospects for the next quarter and the closing of fiscal year 2012 are positive, in line with the expansion observed in our shopping centers in the past semester. A higher growth is noted in the newest shopping centers that are in a maturing stage, such as Soleil or Dot Baires Shopping or those recently refurbished, such as Córdoba Shopping or Alto Rosario, whose turnovers have soared thanks to the reforms made.

Undoubtedly, greater Buenos Aires and the interior of Argentina will continue to drive growth. In greater Buenos Aires, the consumers' purchasing potential is much higher than the current one, and in the interior shopping centers arise as a very attractive alternative for family entertainment and leisure during weekends. Meanwhile, in the City of Buenos Aires we expect to undertake expansion and remodeling works in various of our shopping centers, in line with the higher demand for space and scarce availability observed.

Among our current investments, we will continue to invest in the revamping of our Soleil shopping center, purchased in July 2010, so as to position it as the first Premium Outlet in Argentina and attract the best public in the area, optimizing its turnover. In addition, we have launched, through our subsidiary Arcos del Gourmet S.A., the project Espacio Urbano in the area of Palermo, which features an open space aimed at boosting the commercial area with different innovative and luring proposals.

We will also continue to work as we have done until now in the improvement of services at our shopping centers, with the main goal of maintaining occupancy levels at 100%, increasing the number of visitors to our shopping centers and improving our brands' turnover. In this sense, we will continue to partner with financial institutions in the promotion of credit card sales, which have proved to be very effective in terms of sales and have been favorably received by the public in inflationary contexts such as the current one.

As concerns rental Offices, during the second quarter of 2012 the market has remained solid. Vacancy in the premium office market recorded no changes from previous quarter figures, although it decreased by 20% compared to 2011 values. Rental prices have been more stable, as they maintained the levels of the previous quarter and even increased one point from 2011 values. Our offices' behavior was similar to the market's, with occupancy rates rising to more than 96% and rental prices remaining at previous quarter levels. Prospects for this segment are promising. As reported by Richard Ellis, more than 148,000 sqm of A+ and A offices are currently under construction, 17% of which will become operational during the next quarter. In this context, we plan to launch in the near future our Catalinas Norte project on a plot of land purchased by the Company in December 2009, which will add 35,000 sqm of gross leaseable area to our premium office portfolio and is set to become another landmark building, located in one of the finest spots of the City of Buenos Aires.

Real estate continues to be the main choice for investment in Argentina, as it has proved to be a very good means of preserving dollar values and hedging against inflation. In this sense, despite the scarce development of the Argentine mortgage market, which according to Central Bank data remains below 2%, prices in the residential and commercial segments have continued their upward trend, without any prospects of deceleration or downward revision. These prospects favor our Sales and Developments segment, in which we expect to complete the delivery of the remaining units in the Horizons project and to finish implementing the sale of Torres Rosario and El Encuentro.

As concerns the international segment, we will continue developing our strategy of selective investments outside of Argentina, involving top level assets, as the case of the Lipstick Building, Madison 183, Hersh Hospitality Trust and recently, Supertel Hospitality Inc. All of them are opportunistic investments made at attractive prices or with capital

structures with potential for improvement.

The Company's strong cash generation and low indebtedness level, along with its experience in taking advantage of opportunities and its access to the capital markets allow us to envisage a promising future for IRSA, aimed at consolidating the best real estate portfolio in Argentina.
