NEWS RELEASE

SHAW ANNOUNCES WIRELESS SPECTRUM AUCTION RESULTS

Calgary, Alberta (July 21, 2008) Shaw Communications Inc. (Shaw or the Company) is pleased to announce that after almost eight weeks of competitive bidding, the auction for Spectrum Licences for Advanced Wireless Services (AWS) has concluded. The auction began on May 27, 2008 and Shaw was successful in acquiring approximately 20 megahertz of spectrum across its cable operating footprint in Western Canada and Northern Ontario.

Jim Shaw, Chief Executive Officer and Vice Chair, commented, Ownership of spectrum is an important strategic asset for Shaw and represents good value for our shareholders. We believe the total cost of \$190 million, or approximately 5 per cent of the total auction proceeds, was an appropriate investment to gain ownership of this asset and that our strategy was prudent and responsive in light of higher than expected prices.

Ultimately, increased competition means the consumer wins. Our advantage is that we have an extensive network supported by 10,000 employees and multiple products already on the market. Customers should see competitive wireless products backed by the same commitment to service that they have come to expect from Shaw.

Shaw Communications Inc. is a diversified communications company whose core business is providing broadband cable television, High-Speed Internet, Digital Phone, telecommunications services (through Shaw Business Solutions) and satellite direct-to-home services (through Star Choice). The Company serves 3.3 million customers, including approximately 1.5 million Internet and 500,000 residential Digital Phone customers, through a reliable and extensive network, which comprises over 600,000 kilometres of fibre. Shaw is traded on the Toronto and New York stock exchanges and is included in the S&P/TSX 60 Index (Symbol: TSX SJR.B, NYSE SJR).
