BioGentech Corp. and Subsidiary
Notes to Consolidated Financial Statements (Unaudited)
For the Three months Ended June 30, 2003 and 2002

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of presentation

The unaudited financial statements have been prepared by BioGentech Corp. (the "Company"), pursuant to the rules and regulations of the Securities and Exchange Commission. (See Reverse Acquisition section below). The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These unaudited financial statements should be read in conjunction with the audited financial statements and footnotes for the fiscal years ended March 31, 2003 and 2002 included on Form 8K/A as filed with the Securities and Exchange Commission on July 18, 2003.

The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year.

Reverse acquisition

BioGentec Incorporated ("BG"), a private Nevada corporation, was incorporated on November 21, 2000 according to the laws of Nevada, under the name St Petka, Inc. On May 4, 2001, BG formally changed its name to BioGentec Incorporated. On July 2, 2003, BG was merged into Togs for Tykes Acquisition Corp. ("TTAC"), a wholly-owned subsidiary formed for the purpose of acquiring BG. TTAC is the wholly-owned subsidiary of the registrant, BioGentech Corp. ("BGTH") (formerly Togs for Tykes, Inc.). As allowed under SFAS 141, the Company designated a dated of convenience of the closing for accounting purposes as June 30, 2003. Under the terms of the merger agreement, all of BG's outstanding common stock (19,832,708 shares of \$0.0001 par value stock) will be exchanged for 19,832,708 shares newly issued shares of \$0.001 par value stock of BioGentech Corp. common stock. At the date of the transaction, BGTH had 5,532,000 shares of common stock outstanding of which 4,500,000 will be cancelled as part of the transaction leaving 20,864,708 shares outstanding. As of the date of this filing, BG's shares have not been exchanged for BGTH's common stock and the 4,500,000 shares have not been cancelled. An internal review of BG's shareholder register and related supporting documents was undertaken concurrently with the merger and prior to passing such records to the transfer agent for the issuance of the exchanged shares. The review project is complete and the stock register will be forwarded to the transfer agent for processing.

This transaction was consummated with the filing of the Articles of Merger with the State of Nevada on July 2, 2003. BG shareholders then effectively controlled approximately 95% of the issued and outstanding common stock of BGTH. Since the shareholders of BG obtained control of BGTH, according to FASB Statement No. 141 - "BUSINESS COMBINATIONS," this acquisition has been treated as a recapitalization for accounting purposes, in a manner similar to reverse acquisition accounting. In accounting for this transaction:

- i) BG is deemed to be the purchaser and surviving company for accounting purposes. Accordingly, its net assets are included in the balance sheet at their historical book values and the results of operations of BG have been presented for the comparative prior period; and

Edgar Filing: BIOGENTECH CORP - Form 10QSB

- ii) Control of the net assets and business of BGTH was acquired for accounting purposes effective June 30, 2003. This transaction has been accounted for as a purchase of the assets and liabilities of BGTH by BG during the three months ended June 30 2003. The historical cost of the net assets acquired was \$0 and \$100,000 cash was paid.

BioGentech Corp. and Subsidiary
Notes to Consolidated Financial Statements (Unaudited)
For the Three months Ended June 30, 2003 and 2002

Going concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Through June 30, 2003, the Company is still in the development stage and has not been able to generate any sufficient revenue from its operations to cover its costs and operating expenses. Although the Company has been able to issue its common stock through private placements to raise capital in order to fund its operations, it is not known whether the Company will be able to continue this practice, or be able to obtain other types of financing or if its revenue will increase significantly to be able to meet its cash operating expenses. This, in turn, raises substantial doubt about the Company's ability to continue as a going concern. Management anticipates revenue to grow as a result of additional products offered to its customers and through its acquisition of InnoFood, Inc. Management believes that the private equity financing, public equity financing and new product offerings will enable the Company to generate positive operating cash flows and continue its operations. However, no assurances can be given as to the success of these plans. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

During April 2003, a definitive agreement was signed between BioGentec Incorporated and (BGTH) to merge BioGentec into BGTH's wholly-owned subsidiary, Togs for Tykes Acquisition Corp. The merger was consummated with the filing of the merger agreement with the State of Nevada in July 2003. As a result of the merger, the Company intends to gain access to public equity markets and additional financing.

In July 2003, the Company signed a definitive agreement to acquire InnoFood, Inc. As of the date of this filing, the transaction has not closed. (see Subsequent Events and management, discussion and analysis section).

Stock Options

We did not grant any new options and no options were cancelled or exercised during the three months ended June 30, 2003. As of June 30, 2003, 1,150,000 options were outstanding., all of which are fully vested. Accordingly, no additional disclosure is required under SFAS 148.

Edgar Filing: BIOGENTECH CORP - Form 10QSB

Earnings (loss) per share

We have adopted Statement of Financial Accounting Standards No. 128 ("SFAS 128"), "Earnings Per Share." Under SFAS 128, basic earnings per share is computed by dividing income available to common stockholders by the weighted-average number of common shares assumed to be outstanding during the period of computation. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Because we have incurred net losses, basic and diluted loss per share are the same as additional potential common shares would be anti-dilutive. As of June 30, 2003 we have approximately 1,150,000 common stock equivalents.

Recent Accounting Pronouncements:

In addition, paragraphs 7(a) and 23(a), which relate to forward purchases or sales of when-issued securities or other securities that do not yet exist, should be applied to both existing contracts and new contracts entered into after June 30, 2003. BioGentech Corp. and Subsidiary
Notes to Consolidated Financial Statements (Unaudited)
For the Three months Ended June 30, 2003 and 2002

During May 2003, the FASB issued SFAS 150 - "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a freestanding financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. Some of the provisions of this Statement are consistent with the current definition of liabilities in FASB Concepts Statement No. 6, Elements of Financial Statements. The Company is evaluating the effect of this new pronouncement and will adopt FASB 150 within the prescribed time.

CRITICAL ACCOUNTING POLICY AND ESTIMATES. Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, including patents. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the financial statements included in our Quarterly Report on Form 10-QSB for the period ended June 30, 2003.

OUR BACKGROUND. We were incorporated in Nevada on September 26, 1997, as Aztec Ventures, Inc. Our original business was the sale of pay phone services. In June 2001, our management and business changed. On September 5, 2001, we amended our Articles of Incorporation to change our name to Togs for Tykes, Inc. due to the shift of our business to designing and marketing children's apparel. Since we were not successful in implementing that business plan due to lack of funds, in March 2003, we entered into negotiations regarding an acquisition of BioGentec

Edgar Filing: BIOGENTECH CORP - Form 10QSB

Incorporated, a Nevada corporation ("BG"), in order to merge it with and into our wholly-owned subsidiary, Togs for Tykes Acquisition Corporation, a Nevada corporation. By means of a shareholder vote in March 2003, we changed our name to Biogentech Corp.

We entered into an Agreement and Plan of Merger with BG which provided that BG would become our subsidiary by merging with our acquisition subsidiary. That agreement is attached as an exhibit to our report on Form 8-K filed on July 3, 2003. On July 2, 2003, our subsidiary filed Articles of Merger with the Secretary of State of Nevada to complete that acquisition for accounting purposes, the company has deemed the transaction closed as of June 30, 2003. We anticipate that the acquisition will increase the total value of the corporation to our investors. Also in July 2003, we changed our fiscal year end from December 31 to March 31.

BIOGENTEC INCORPORATED. BioGentec Incorporated ("BG") was incorporated in Nevada on November 21, 2000. BG is dedicated to the development and commercialization of consumer medical products and life style - health improvement products. BG's first product focus is in the fields of immunomodulation, menopause, pinpoint detoxification and cholesterol reduction. BG anticipates that its initial patented product, Prehistin, (formerly Allertin, will create a unique niche within the allergy relief category. In November 2000, BG acquired Allergy Limited, LLC ("Allergy Limited"). Allergy Limited sponsored the clinical research for Prehistin's formula from 1989 through 2000 and secured the first patent, in 1992 and BG secured the second in 2001. Please refer to our Form 8-K filed on July 16, 2003 and the first amendment filed on July 18, 2003, for a more detailed discussion on the Biogentec Incorporated's business and management.

For the three month period ended June 30, 2003.

LIQUIDITY AND CAPITAL RESOURCES. We had cash of \$10,858 at June 30, 2003. We also had \$545 in other assets and \$5,903 in inventory, making our total current assets as at June 30, 2003 equal to \$17,306. We also had the following fixed assets: \$79,382 in net fixed assets, \$12,650 represented by our website, \$40,000 in deposits and \$3,850,000 represented by net value of our patents. Therefore, our total assets as of June 30, 2003 totaled \$3,999,338. Our total current liabilities were \$1,049,599 at June 30, 2003, which was represented by accounts payable and accrued expenses of \$452,446 and \$597,133 due to related parties or shareholders.

We have financed our operations primarily through cash generated from related party debt financing and from the private placement sale of equity securities. During the three month ended June 30, 2003, BG sold 100,000 common shares of its common stock for \$2.00 per share and received \$200,000. Additionally related parties loaned \$208,500 to BG. In the three month period ended June 30, 2002, BG sold \$102,000 in common stock and received \$6000 in related party loans.

As of June 30, 2003, we had negative working capital of \$1,032,293 an increase of \$488,833 (76%) as compared to June 30, 2002, due primarily to an increase in related party obligations and compensation.

Our net cash used by operating activities was \$365,048 for the three months ended June 30, 2003 as compared to net cash used of \$109,225 for the three

Edgar Filing: BIOGENTECH CORP - Form 10QSB

months ended June 30, 2002, an increase of \$225,833 or 207%, primarily due to a reduction of non-cash equity and expense transactions.

Our cash used in investing activities was \$24,884 for the three month period ended June 30, 2003, an increase of \$21,395 or 613%, due to the purchase of computer equipment.

Our net cash provided by financing activities was \$398,500 for the three months ended June 30, 2003 compared to \$108,000 for the same period a year earlier, an increase of 269%. The increase is primarily due to increases in the sale of common stock and loan proceeds from related parties.

See Subsequent Events section for a discussion of capital requirements related to acquisition of InnoFood and financing obtained subsequent to June 30, 2003.

RESULTS OF OPERATIONS.

Revenues and Cost of Sales: Revenues for the quarters ended June 30, 2003 and 2002 are insignificant as we are undertaking a Phase III clinical trial in order to obtain FDA approval as an over the counter drug.

Operating Expenses: Operating expenses for the quarter ended June 30, 2003 were \$647,425 as compared to \$747,284 for the quarter ended June 30, 2002. For both periods expenses incurred were for two major purposes: ongoing development of our Prehistin product and related product management and ii) general management and fund raising efforts. Expenses decreased \$99,859 due primarily to reduced compensation and consulting expenses.

15

Our net loss for three months ended June 30, 2003, was \$653,126 (\$0.03 per share loss) compared to a net loss of \$784,644 (\$0.05 per share loss) for the corresponding period in 2002. Our net loss for the period from our inception to June 30, 2003, was \$3,964,039 (a loss of \$0.23 per share).

Our Plan of Operation for the Next Twelve Months. Over the next 12 months, we plan on pursuing the product development begun by Biogentec Incorporated. Specifically, we plan on moving forward with the development, marketing and sale of our Prehistin product and related products. We also hope that the transaction with InnoFood will close. Should it close, we will pursue the manufacturing and distribution of Modofood's proprietary food sterilization and preservation technology in North America, Central America, South America and Japan, as well as the exclusive rights to negotiate on behalf of Modofood for Southeast Asia, including Taiwan, China and Indonesia.

At June 30, 2003, we had cash of \$10,858. Subsequent to June 30, 2003, we expect to receive a loan in the amount of \$2,088,000 from International Business Consultants, GmbH. The total amount of the loan is \$2.4 Million and is collateralized with 3.5 million in our common stock with a loan to value of our common stock of twenty-five (25) percent. The loan has a two year term at 6% interest, paid quarterly. We will be required to raise additional funds in order to pursue the further development and marketing of the Prehistin product. We will also be required to raise additional funds to manufacture and market Modofood's product. In that regard, we plan on raising additional financing through private placements or other offerings of our stock. We may attempt to secure other loans from lending institutions or otherwise. There is no guarantee that we will be able to raise additional funds through offerings or otherwise.

Edgar Filing: BIOGENTECH CORP - Form 10QSB

If we are unable to raise funds, our ability to continue with product development and to complete the final closing with InnoFood will be hindered.

During the next twelve months, we plan on moving forward with the FDA approval process related to our Prehistin product. We are also in the process of developing additional related products. Such development is in its infancy. Other than the research and development related to our Prehistin product, we do not plan to engage in any other research and development unless we are able to raise additional funds.

We do anticipate the purchase of significant equipment within the next 12 months for InnoFood.

We do not anticipate any significant hiring up to fifty (50) people over the next 12 months for InnoFood and other product lines, assuming we are able to close the InnoFood transaction described above.
