FIRST CITIZENS BANCSHARES, INC.,
AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED, STATED IN THOUSANDS)
JUNE 30, 2001

NOTE 1 - CONSOLIDATED FINANCIAL STATEMENTS

The consolidated balance sheet as of June 30, 2001, the consolidated statements of income for the six month period ended June 30, 2001, 2000 and 1999, and the consolidated statements of cash flows for the six month period then ended have been prepared by the company without an audit. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments necessary to present fairly the financial position, results of operations and cash flows at June 30, 2001 and for all periods presented have been made. Operating results for the reporting periods presented are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. For further information, refer to the consolidated financial statements and footnotes thereto included in the company's annual report on Form 10-K for the year ended December 31, 2000.

NOTE 2 - ORGANIZATION

First Citizens Bancshares, Inc. is a Bank Holding Company chartered on December 14, 1982, under the laws of the State of Tennessee. On September 23, 1983 all of the outstanding shares of common stock of First Citizens National Bank were exchanged for an equal number of shares in First Citizens Bancshares, Inc.

NOTE 3 - CONTINGENT LIABILITIES

There are no material pending litigations as of the current reportable date that would result in a liability.

-5-

NOTE 4 - RESERVE FOR LOAN LOSSES

FASB 114 and 118 were implemented during the first quarter of 1995. This new FASB requires companies to set aside reserves for impaired loans.

The following data reflects impaired totals and probably loss loan totals:

Amount of Recorded Balance with a related allowance	\$ 488
Amount of Recorded Balance with no related allowance	<u>82</u>
Impaired loan balance or recorded balance	\$ 570

Interest income recognized on impaired loans have been applied on a cash basis. Cash receipts are applied as cost recovery or principal recovery first. This is consistent with OCC Regulations.

First Citizens will continue to make sure the overall reserve is adequate in addition to the impaired loans.

NOTE 5 - FASB 130-COMPREHENSIVE INCOME

This statement establishes reporting and display requirements for comprehensive income and its components. A separate financial statement is presented that starts with net income from operations and then includes other comprehensive incomes. Bancshares has only two comprehensive income items (Changes in the Market Value of Available for Sale Investment Securities and One Derivative totaling \$1,500,000). The net of tax impact of these two items are carried forward to the equity section of the balance sheet.

NOTE 6 - FASB'S 133, 137 AND 138 DERIVATIVES

FASB's 133, 137 and 138-FASB 133 established accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts and derivatives used for hedging activities. It requires derivative to be reported as either assets or liabilities in the statement of financial position and measure those instruments at fair value. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. FASB 137 and 138 amended FASB 13. Our company used the derivative as a cash flow hedge. First Citizens hedged the "Benchmark Interest Rate." First Citizens has designated a Federal

Home Loan Bank Variable Libor Borrowing to be hedged and effectively have locked in a fixed cost on the liability.

First Citizens swapped a fixed investment cash flow for a variable cash flow tied to the 90 day Libor Rate. The new variable investment cash flow is matched with a variable borrowing cash flow generating a positive spread of 250 basis points with no interest rate risk. This transaction was implemented to increase the earnings of First Citizens. The volume used in this transaction was \$1,500. The volume and risk associated with this transaction is well within the Funds Management Policy of the bank. The maturity of the hedge is 10 years.

The cash flow hedge has produced a positive income. Because First Citizens swapped a fixed cash flow for a variable cash flow and rates later declined, the value of the derivative has increased \$8,000, net of tax, for the current period. Other comprehensive income reflects the fair market value of the derivative at (\$216) gross and (\$130) net of tax.

-6-

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL INFORMATION

First Citizens Bancshares, Inc. (the "company") the bank holding company for First Citizens National Bank (the "bank"), is headquartered in Dyersburg, Tennessee. First Citizens National Bank is a diversified financial service institution, which provides banking and other financial services to its customers. The bank operates 4 wholly owned subsidiaries: Financial Plus, Inc., Delta Finance, Inc., Nevada Investments I, Inc. and Nevada Investments II, Inc. The bank also owns 50% of White and Associates/First Citizens Insurance, LLC and First Citizens/White Associates Insurance Company, Inc. These subsidiary activities consist of: brokerage, personal finance, investments, insurance related products and credit insurance.

BRANCH RENOVATION

An agreement was reached on December 6, 2001 for Construction of a new Downtown drive-in facility located at 113 South Church Street, Dyersburg, Tennessee. The new facility will consist of 898 square feet and will serve as a remote motor bank with six drive-thru lanes and a drive-up ATM lane. The existing facility located on the same site is approximately 1,250 square feet and serves as a full service operation. Construction of the new facility commenced in May 2001. The existing bank lobby was closed and lobby traffic was redirected to the Main Bank Office located only one block from 113 South Church Street. Drive-thru service is expected to continue without interruption.

FORWARD- LOOKING STATEMENTS

Quarterly reports on Form 10Q, including all documents incorporated by reference, may contain forward-looking statements. Additional written or oral forward-looking statements may be made from time to time in other filings with the Securities Exchange Commission. The discussion of changes in operations may contain words that indicate the company's future plans, goals, and estimates of assets, liabilities or income. Forward-looking statements will express the company's position as of the date the statement is made. These statements are primarily based upon estimates and assumptions that are inherently subject to significant banking, economic, and competitive uncertainties, many of which are beyond management's control. When used in this discussion, the words "anticipate," "project," "expect,"

"believe," "should," "intend," "is likely," "going forward," and other expressions are intended to identify forward-looking statements. The statements are within the meaning and intent of section 27A of the Securities Exchange Act of 1934. Such statements may include, but are not limited to, projections of income or loss, expenses, acquisitions, plans for the future and others.

-7-

FINANCIAL SUMMARY

If there is one word that describes results of second quarter operations it would be GROWTH. Total assets at quarter end were in excess of \$528 million, an annualized increase of 10.84%. Deposit totals at June 30, 2001 were up \$25.5 million over those reflected at December 31, 2000, an increase of 6.9%. Loan growth was also strong with an increase of 8.75% over the first two quarters of 2001. We are constantly searching for quality acquisitions, but the truth remains that internal growth is much more desirable in terms of costs and efficiencies. Earnings too were exceptional for the quarter just ended. Only once in the history of First Citizens National Bank has earnings per share exceeded results of second quarter, 2001. These outstanding results were accomplished in a most challenging environment, and in markets in which we have struggled in recent years.

Bancshares recorded net income for second quarter 2001 of \$1.53 million, an 11.92% increase over second quarter 2000 earnings of \$1.37 million. Earnings per share increased 10.81% to 41 cents, up from 37 cents per share in the same period last year. The quarterly return on average assets was 1.17% compared to 1.14% for second quarter 2000. Return on equity for the quarter increased to 12.80% from 12.10% last year. Net interest income increased \$161 thousand or 3.38% from second quarter in the prior year. Lower interest rates reduced the bank's cost of funding and enhanced net interest margins. A gain in interest and fees on loans was supported by a 74% increase in revenues generated by the long-term mortgage division of the bank, also the direct result of a lower interest rate environment. The second quarter increase of \$38 thousand in the provision for loan loss reserve was a result of increased charge-offs and loan growth which exceeded budget projections.

NON-INTEREST INCOME AND EXPENSES

Non-interest income increased \$281 thousand, or 19% over the same quarter in the prior year. A comparison of the first two quarters of 2001 and 2000 reveals a decrease in the percentage of non-interest income to total revenue from 14.66% to 14.30%. Income from credit insurance commissions, trust fees and the sale of assets was down \$66 thousand when comparing second quarter 2000 and 2001. Other changes in non-interest income resulted from the introduction of an overdraft privilege product (+\$134 thousand) and the capital gain on a sale of an investment held within the available for sale portfolio of the bank (+\$75 thousand). Non-interest expense increased \$295 thousand or 7.46% over second quarter 2000. The increase in non-interest expense can be attributed primarily to the cost of employing a consulting firm to review systems and practices and to make recommendations for improvement. The level of compensation was targeted at one-third of the increase in annual income. After the first year, all income enhancements accrue to the benefit of the company. Year to date and quarterly expenses accrued to consultant fees were \$199 thousand and \$154 thousand respectively.

Net Charge-offs	(\$ 265)	(\$ 58)

-11-

LOANS: Average loans increased 9 percent for second quarter 2001 to \$370.5 million from \$337.5 million in 2000 with growth in both mortgage residential, which increased 10 percent, and Commercial, Financial and Agriculture, which increased 11 percent.

AGRICULTURAL LOANS: First Citizens is one of the largest agricultural lenders in the State of Tennessee and is an approved Farm Credit Services lender. Agriculture makes a significant contribution to Dyer County Commerce. Total farmland in production is approximately 231,000 acres or 56% of Dyer County land. Farming is approximately a \$79 million industry. Agricultural credits comprise \$29.3 million or 8 percent of total loans. Loans secured by

farmland and other types of real estate represent \$16.8 million or 6 percent of agricultural credits. Approximately 4% of total agricultural loans are 30 days or more past due.

LOAN LOSS EXPERIENCE AND RESERVES FOR LOAN LOSSES: An analytical model based on historical loss experience, current trends and economic conditions as well as reasonably foreseeable events is used to determine the amount of provision to be recognized and to test the adequacy of the loan loss allowance. The ratio of allowance for loan losses to total loans, net of unearned income, was 1.04 percent as of June 30, 2001 compared to 1.15 percent as of June 30, 2000. Activity posted to the Reserve Account during second quarter consisted of (1) loan charge-off - \$474,000; (2) recovery of loans previously charged off - \$209,000; and (3) additions to reserve - \$232,000. The provision increased \$38,000 or 19.59% since last quarter end (March 31, 2001) because of loans charged off and loan growth that exceeded budget projections. The ratio of net charge offs during the quarter to average net loans outstanding was .07% compared to .01% for the same quarter in 2000. Projected charge-off total for the year 2001 is \$474,000, while projected recoveries are \$209,000. Non-performing loans decreased from \$3 million or .89% of total loans at June 30, 2000 to \$2.7 million or .73% of total loans at June 30, 2001. The decrease is attributed mainly to charge-offs and the transfer of properties to Other Real Estate Owned. Other Real Estate Owned total as of quarter end is \$1.2 million a net increase of \$919 thousand for the quarter. Asset quality is likely to deteriorate somewhat from current levels as the economy remains in a period of slow growth. A local textile manufacturer, employing approximately 900 workers announced its closing in July 2001. However, the closing can be partially offset with the re-location of an injection molding company that manufactures automotive components for General Motors line of sports utility vehicles in Dyer County. First Citizens had no concentrations of credit of 10 percent or more of total loans in any single industry. There are no material reportable contingencies as of this report date.

LIQUIDITY: Liquidity refers to the ability or the financial flexibility to manage future cash flows to meet the needs of depositors and borrowers and fund operations. Maintaining appropriate levels of liquidity allows the Company to have sufficient funds available for reserve requirements, customer demand for loans, withdrawal of deposit balances and maturities of deposits and other liabilities. First Citizen's source of liquidity has improved when comparing June 30, 2001 to June 30, 2000 and December 2000. Improved liquidity is attributed to the calling of Callable Agencies representing approximately 50% of the bond portfolio as well as deposit growth exceeding budget projections. First Citizens deposit growth in second quarter has reflected "consumers flight to quality" in transferring deposits from marketable securities to Federal Deposit Insured transaction accounts. The Wall Street transaction account, tied to the 90 day T-bill rate, has attracted deposits in excess of \$36 million in one year. Exceptional deposit growth experienced this year has resulted in increased pressure on the bank's funds reserve ratio as well as Federal Deposit Insurance cost. No material impact to net income levels is expected.

First Citizen's liquidity position is strengthened by ready availability to a diversified base of wholesale borrowings. The list includes borrowings from Federal Home Loan Bank, brokered certificates of deposits, Federal Funds purchased, Securities Sold Under Agreements to Repurchase, and others. Pre-approved lines of credit available with the Federal Home Loan Bank and Correspondents total \$138 million.

A crisis liquidity plan is in place at the Holding Company and Bank level that predefines a defense against material downturns in liquidity components.

-12-

INVESTMENT SECURITIES

First Citizens had approximately 50% of the bond portfolio called in the year 2001. Investments called were Callable US Agencies. Called amounts will be reinvested primarily in mortgage backed agencies with an average life of less than five years. The volume of called agencies materially improved the bank's liquidity position. A twelve month investment strategy calls for a majority of the called volume to be re-invested into non-callable agencies with an average life of less than five years. First Citizens will use caution with future purchases with extended maturities over

five years given the current low rate environment.

The book value of listed investment securities as of the dates indicated are summarized as follows:

	Composition of Investment Securities (June 30)				
	<u>2001</u>	<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>1997</u>

CAPITAL RESOURCES

Total capital on June 30, 2001 was \$48.8 million, up 4.12% from \$46.9 million on December 31, 2000. The increase in capital was from undistributed net income and positive market moves in the bond portfolio (FASB115). Bancshares has historically maintained capital in excess of minimum levels established by the Federal Reserve Board. The risk based capital ratio reflects continuous improvement when reviewing prior years. Risk based capital ratio as of June 30, 2001 was 13.60%, significantly in excess of the 8% mandated by Regulatory Authorities. Capital as a percentage of total assets for the quarter ending June 30, is presented in the following table for the years indicated (excluding loan

loss reserves):

<u>2001</u>	<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>1997</u>
9.25%	9.33%	9.26%	9.37%	9.48%

The dividend payout ratio is 70% for the current period compared to 59.71% for prior year. Bancshares has purchased 9,358 shares in the open market since December 31, 2000. Strategic direction is to purchase and retire \$1 million in Bancshares stock per year for the next five years.

The ESOP liability has been reduced from \$808 thousand to \$232 thousand since yearend 2000 resulting in a \$0.16 value improvement.

The table below presents for First Citizens Bancshares, Inc. certain operating ratios as of June 30: (quarterly)

	2001	2000	1999	1998
Percentage of Net Income to:				
Average Total Assets	1.17%	1.14%	1.24%	1.22%

RECENT ISSUED ACCOUNTING STANDARDS

Recent accounting standards for business combinations and accounting for goodwill is expected to have an impact on the company's financials. Implementation of the accounting standard will be as of January 1, 2002. First Citizens will perform goodwill impairment testing within six months of adopting the standard. The test will consist of a Fair value calculation for goodwill purchased in acquisitions of Ripley, Troy and First Citizens Insurance units. Results of the calculations will be compared against each unit's book value. Comparisons that result in book value below fair value assessment will indicate that goodwill has not been impaired and no write down is necessary. However, a fair value assessment resulting in a level below book value, will indicate goodwill impairment and a write down will be required. The Pooling of interest method used in previous assessment of goodwill was eliminated as of June 30, 2001. First Citizens will most likely seek advice or methodologies of accounting valuation experts before adopting testing methods. Estimated cost of outsourcing the process is estimated at a pre-tax expense of \$20,000 or less. The impact of the accounting rule change to the company's financial statements cannot be reasonably estimated as of the filing date of this report with the Securities Exchange Commission.

-15-

PART I - ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The bank maintains a formal asset and liability management process to quantify, monitor and control interest rate risk. The Asset/Liability Committee strives to maintain stability in net interest margin under various interest rate cycles. First Citizens has materially improved interest rate risk exposure since year-end 2000. Steps implemented are as follows: (1) increased long-term Federal Home Loan Bank borrowings by \$8 million; (2) purchased variable rate investments; (3) encouraged existing deposit customers to extend maturities past one year; and (4) reduced overnight borrowings exposure.

First Citizens swapped a \$1,500,000 fixed investment cash flow for a variable cash flow stream tied to a 90 day libor rate June 2000. The new variable investment cash flow is matched with a variable borrowing, resulting in an ongoing positive spread of 250 basis points with no interest rate risk. The transaction was implemented to increase earnings and reduce interest rate risk. The cash flow hedge has produced a positive income, but because the bank swapped a fixed cash flow for a variable cash flow and rates have declined the value of the derivative has decreased since inception. The volume and risk associated with this derivative is well within the Funds Management Policy of the bank. There have been no material changes since year-end 2000 applicable to this transaction.
