**Item 8.01 Other Events**

On May 20, 2005, Public Company Management Corporation (the "Registrant") announced record quarterly revenue of \$714,111, representing a 343% increase over the same period of the prior year. The revenue resulted from nine (9) new contracts, a 200% new client growth rate from the same period last year. During the second quarter 2005 ended March 31, 2005, net income from operations moved into the positive, with the Registrant reporting \$127,522 compared to an operating loss of \$74,028 in the comparable period last year. However, largely due to unrealized losses of security holdings, the Registrant reported a net loss of \$325,235 for the quarter.

As of March 31, 2005, Registrant had net working capital of \$1,731,281, consisting of \$1,544,381 in cash and marketable securities, \$1,081,035 in accounts and notes receivable (net of allowance for uncollectability) and \$1,025,782 in current liabilities. The Registrant does not anticipate any requirement for additional working capital in the next 12 months.

Since March 31, 2005, the Registrant has signed an additional two contracts to provide consulting services relating to becoming public companies and have made significant progress under contracts signed in previous periods.
