Changes to Nominating Procedures

We have had no material changes to the procedures by which security holders may recommend nominees to the registrant's board of directors.

Identification of Audit Committee

Our board of directors has a separately designated standing Audit Committee. Our Audit Committee currently consists of Messrs. Haralambus, Hecht and Keating, each of whom is independent within the meaning of the applicable rules for companies traded on The NASDAQ Capital Market (NASDAQ). Our Audit Committee is responsible for the engagement our independent public accountants, reviews the scope of the audit to be conducted by

the independent public accountants, and periodically meets with the independent public accountants and our Chief Financial Officer to review matters relating to our financial statements, our accounting principles and our system of internal accounting controls. Our Audit Committee reports its recommendations as to the approval of our financial statements to our board of directors. The role and responsibilities of our Audit Committee are more fully set forth in a written charter adopted by our board of directors. Our Audit Committee reviews and reassesses the Amended and Restated Audit Committee Charter annually and recommends any changes to our board of directors for approval.

Audit Committee Financial Expert

Our board of directors has determined that our audit committee does not include a person who is an “audit committee financial expert” within the meaning of the rules and regulations of the SEC. Our board of directors has further determined that each member of the audit committee is able to read and understand fundamental financial statements and has substantial business experience that results in such member’s financial sophistication. Accordingly, our board of directors believes that each member of our audit committee has sufficient knowledge and experience necessary to fulfill such member’s duties and obligations on our audit committee.

Code of Ethical Conduct

Our board of directors has adopted a Code of Ethical Conduct (the “Code of Conduct”). We require all employees, directors and officers, including our Chief Executive Officer and Chief Financial Officer, to adhere to the Code of Conduct in addressing legal and ethical issues encountered in conducting their work. The Code of Conduct requires that these individuals avoid conflicts of interest, comply with all laws and other legal requirements, conduct business in an honest and ethical manner and otherwise act with integrity and in our best interest. The Code of Conduct contains additional provisions that apply specifically to our Chief Financial Officer and other financial officers with respect to full and accurate reporting. Based solely on our review of the copies of the forms received by us and written representations from certain reporting persons that they have complied with the relevant filing requirements, we believe that, during the year ended December 31, 2005, all of our executive officers, directors and the holders of 10% or more of our common stock complied with all Section 16(a) filing requirements, except for Harry Haralambus, who did not timely file a Form 4 reporting one transaction, Leonard Hecht, who did not timely file a Form 4 reporting one transaction, Glenn S. Palmer, who did not timely file a Form 4 reporting four transactions, Gary Freeman, who did not timely file a Form 5 reporting one transaction, and Kevin R. Keating, who did not timely file a Form 5 reporting one transaction.

ITEM 11.

Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis relates to the compensation paid to our named executive officers in the Summary Compensation Table set forth below during fiscal 2007.

Compensation Philosophy and Objectives

Our executive compensation program is designed to (i) attract, as needed, executives with the skills necessary for us to achieve our business plan priorities, (ii) reward our executives fairly over time, (iii) retain those executives who continue to perform at or above expected levels of performance, and (iv) align the compensation of our executives with our performance.

Compensation for our named executive officers has both short-term and long-term components, as well as a benefits component, and is dependent on performance. The short-term components are base salary and cash bonuses. The long-term component consists of stock options. Our 2005 Stock Incentive Plan ("Plan"), which was adopted by our stockholders in 2005, also permits the granting of restricted stock. Historically we have granted only stock options to our named executive officers. In establishing future executive officer compensation packages, the compensation committee or our board of directors ("Compensation Committee") may utilize the other types of awards available under the Plan, and/or adopt additional long-term incentive and/or annual incentive plans to meet the needs of changing employment markets and economic, accounting and tax conditions. It is anticipated that any such new plans would be submitted to our stockholders for approval.

Our compensation program does not rely to any significant extent on welfare benefits or perquisites. The benefits offered under these plans and programs to named executive officers serve a different purpose than do the other components of compensation. In general, they are designed to provide a safety net of protection against the financial catastrophes that can result from illness, disability or death, and to provide a reasonable level of retirement income based on compensation and years of service. Benefits offered to named executive officers are those that are offered to the general employee population. Perquisites are limited and generally consist of automobile allowances.

Our management, the Compensation Committee and our board of directors work in a cooperative fashion. Management advises the Compensation Committee and our board of directors on compensation developments, compensation packages and our overall compensation program. The Compensation Committee and/or our board of directors then review and are required to approve the same prior to their adoption by us. Our board of directors also approves any material changes in our Chief Executive Officer's compensation arrangements. Management works with the Compensation Committee and our board of directors to report on executive performance, particular business issues facing an executive or his or her division, and management's views on the efficacy of and incentives behind the compensation program in order to assist in the establishment of appropriate performance goals, the adjustment of salaries, the award of discretionary bonuses and related matters.

Our compensation program and the compensation package of each named executive officer are reviewed annually by the Compensation Committee. On a program-wide basis, the Compensation Committee considers whether our incentive plans provide appropriate means of compensating our executives (e.g., cash versus stock, time-based versus performance-based incentives, etc.), stock availability under existing plans and developments in the field of incentive compensation. Historically, we have not had bonus or other incentive compensation plans, other than the Plan. Furthermore, we were limited (and continue to be limited) in the number of options (and other equity awards) we could grant to individuals as the Plan is subject to limitations regarding the maximum number of awards that we may grant. Our compensation program does not provide for a specific mix of base salary, cash bonuses and equity

awards. We seek to establish our executive compensation at levels we believe will enable us to hire and retain executives in a competitive environment and to reward executives for their contribution to our overall business success.

The Compensation Committee's annual review also includes consideration of the various elements of our executive compensation packages, including whether there should be general or specific salary increases, whether potential payouts as a percentage of salary should change, and whether to alter the mix between cash and equity compensation. This review also addresses the more specific issues of setting performance targets and whether an individual executive's performance, promotion or change in circumstances warrant changes to his or her compensation package that are different from the other executives as a group.

Elements of Compensation

In setting the compensation for each named executive officer, the Compensation Committee considers (i) the level of compensation paid to executive officers in positions of similar apparel companies, (ii) the responsibility and authority of each position relative to other positions within the company, (iii) the individual performance of each executive officer, and (iv) the experience and skills of the named executive officer.

Base Salary

In establishing base salaries for named executive officers, the Compensation Committee considers the comparative data described above as well as overall performance, the performance of each individual named executive officer, and the performance of their division for operational executives, as well as considering market forces, peer data and other general factors believed to be relevant, including time between salary increases, promotion, expansion of responsibilities, advancement potential, and the execution of special or difficult assignments. Additionally, the Compensation Committee will take into account the relative salaries of the executive officers and determine what it believes are appropriate compensation level distinctions between and among the executive officers, including between the Chief Executive Officer and the other named executive officers and among the other named executive officers. While the Compensation Committee considers our financial performance, there is no specific relationship between achieving or failing to achieve budgeted estimates or our stock or financial performance and the annual salaries determined by the Compensation Committee for any of the executive officers. No specific weight is attributed to any of the factors considered by the Compensation Committee; the Compensation Committee considers all factors and makes a subjective determination, based upon the experience of its members and the recommendations of our management.

Salaries for executives are reviewed annually by the Compensation Committee and may be adjusted by the Compensation Committee in accordance with the criteria described above. Management participates in setting base salaries as described above.

Cash Bonuses

Our named executive officers are eligible to receive cash bonuses at the discretion of the Compensation Committee. The Compensation Committee believes cash bonuses serve to motivate our named executive officers to meet performance goals envisioned by management and the Compensation Committee in order to benefit all of our stockholders. The Compensation Committee awards cash bonuses based on the comparative data described above as well as individual performance, the functions performed by the named executive officer, the scope of the named executive officer's on-going duties, general changes in industry compensation for comparable positions, and our overall financial performance.

Equity Compensation

Our officers and other employees are eligible to participate in the Plan. The Plan was established to provide an incentive for employees, including executive officers, to maximize our long-term performance, and permits our board

of directors or the Compensation Committee to grant stock options and restricted stock purchase rights to employees, including executive officers, on such terms as our board of directors or the Compensation Committee may determine.

Our overall long-term equity incentive strategy is to grant stock options, which reward the executive when stockholder value is created via stock appreciation. We believe that stock options are an effective way to motivate executives to deliver consistent operational performance to increase our long-term value.

The Compensation Committee considers the grant of stock-based compensation to all officers. The Compensation Committee determines the size of an executive's equity grant by considering a number of factors, such as: (i) market benchmarking, including the size of competitive grants based on the value delivered, percent of the company and absolute size of the grant, (ii) prior grants and the unvested retention value of the grants, (iii) retention objectives for the specific executive, and (iv) guidelines established by the Compensation Committee for equity usage company-wide. Such grants are then made on the basis of a subjective analysis of an executive's individual performance, our financial performance, and the number of shares subject to the executive's existing options, as well as the extent to which the executive's existing equity awards have current value.

These annual grants are reviewed with the Compensation Committee and approved by the Compensation Committee or our board of directors on the grant date. The exercise price for stock options is 100% of the closing price of the underlying common stock on the grant date.

Benefits and Other Compensation

We maintain broad-based benefits that are provided to all employees, including health and dental insurance, life and disability insurance and a 401(k) plan. Executives are eligible to participate in all of our employee benefit plans, in each case on the same basis as other employees. We do not have a pension plan and have not adopted a mandatory matching contribution formula for our 401(k) plan.

Tax Considerations

The Compensation Committee has considered the potential future effects of Internal Revenue Code Section 162(m) on its compensation program. Section 162(m) limits the deductibility by public companies of certain executive compensation in excess of \$1.0 million per executive per year, but excludes from the calculation of such \$1.0 million limit certain elements of compensation, including performance-based compensation, provided that certain requirements are met. None of our executive officers approached the \$1.0 million limit in fiscal 2007 and we do not expect any executive officer to approach such limit in fiscal 2008.

Compensation of Chief Executive Officer

During the period in 2007 in which Paul Guez served as our Chief Executive Officer and President, we did not pay Mr. Guez any compensation for services rendered. In determining the compensation paid to Mr. Palmer during 2007 for services rendered as our Chief Executive Officer and President, we considered (i) the level of compensation paid to chief executive officers of similar apparel companies, (ii) the responsibility and authority of our chief executive officer relative to other officers within the company, (iii) the performance of our chief executive officer, and (iv) the experience and skills of our chief executive officer.

Compensation of Other Named Executive Officers

The specific amounts of compensation we paid to our other named executive officers are set forth in the summary compensation table below. We believe that these amounts were competitive with respect to compensation in our industry and met the elements described under our compensation objectives and philosophy.

Summary Compensation Table

The following table sets forth, as to each person serving as Chief Executive Officer and Chief Financial Officer during 2007 (referred to as named executive officers), information concerning all compensation paid for services to us in all capacities for 2007 and 2006. Employment Agreements

On September 21, 2007, the Compensation Committee approved our entry into a revised Employment Agreement with Mr. Palmer and revisions to the termination provisions of the option previously granted to Mr. Palmer on July 24, 2007.

The revised Employment Agreement is effective as of July 1, 2007, has an initial term through December 31, 2010, and is subject to automatic renewal thereafter for one-year terms unless either party gives the other party written notice of its intention to terminate the Employment Agreement at least 90 days prior to the expiration of the initial term or any renewal term. Under the terms of the Employment Agreement, Mr. Palmer will receive base compensation for each of the third and fourth quarters of fiscal 2007 of \$87,500 and minimum annual compensation for each of fiscal 2008 through 2010 of \$400,000. Mr. Palmer is also entitled to receive an annual bonus equivalent to 2.5% of the Registrant's earnings before interest, taxes, depreciation and amortization for each of the years ended December 31, 2008 through 2010, and is eligible to receive a bonus for the period ended December 31, 2007, if any, as determined by the Compensation Committee. Mr. Palmer is also entitled to four weeks paid vacation and reimbursement of expenses, including up to \$2,000 per month for all expenses incurred by Mr. Palmer with respect to his personal automobile. We have also agreed to provide Mr. Palmer with a furnished apartment or comparable living space in Los Angeles, California suitable to his position for the initial twelve months of the term of the Employment Agreement. Additionally, we have agreed to pay for no more than two coach or economy class round trip tickets per month from Los Angeles to New Jersey for Mr. Palmer to visit with his family. Mr. Palmer has agreed to establish a

permanent residence within twenty miles of Los Angeles, California no later than July 1, 2008. Upon the termination of Mr. Palmer's employment under the Employment Agreement before the expiration of its stated term by Mr. Palmer for good reason or by us for any reason other than death, disability or cause, we have agreed to pay Mr. Palmer 12 months base salary plus a pro-rated bonus for the year during which such termination occurs as severance.

As an inducement material to Mr. Palmer's decision to enter into employment with us, we previously granted to Mr. Palmer an option to purchase 625,000 shares of our common stock. The option has a term of 10 years, a per share exercise price of \$1.40 and will vest over a period of two years, with 125,000 shares vesting on the date of grant and 125,000 shares vesting on each subsequent six-month anniversary of the date of grant. The revised option provides that upon the termination of Mr. Palmer's employment with us, the option remains exercisable for various periods based on the circumstances under which Mr. Palmer's employment was terminated.

These options, which were granted on July 24, 2007, vest over two years as follows: 125,000 shares vesting on the date of grant and 125,000 shares vesting on each subsequent six-month anniversary of the date of grant.

Director Compensation

The general policy of our board of directors is that compensation for independent directors should be a mix of cash and equity-based compensation. We do not pay management directors for board service in addition to their regular employee compensation. The Compensation Committee, which consists solely of independent directors, has the primary responsibility for reviewing and considering any revisions to director compensation. The Board reviews the committee's recommendations and determines the amount of director compensation. The committee can engage the services of outside advisers, experts, and others to assist the committee in determining director compensation. During 2007, the committee did not use an outside adviser to aid in setting director compensation.

Our board of directors followed the recommendation of the committee and set director compensation as follows:

- annual cash retainer of \$15,000; and
- stock option grant of 75,000 shares upon the director's first election or appointment to the Board.

The following table details the total compensation earned by the company's non-employee directors in 2007.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth certain information regarding our common stock beneficially owned on April 28, 2008 for (i) each executive officer and director, (ii) all executive officers and directors as a group, and (iii) each other stockholder known to be the beneficial owner of more than 5% of our outstanding common stock, on an approximated basis. In general, a person is deemed to be a "beneficial owner" of a security if that person has or shares the power to vote or direct the voting of such security, or the power to dispose or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which the person has the right to acquire beneficial ownership within 60 days. In computing the percentage ownership of any person, the amount of shares outstanding is deemed to include the amount of shares beneficially owned by such person (and only such person) by reason of these

acquisition rights. As a result, the percentage of outstanding shares of any person as shown in the following table does not necessarily reflect the person's actual ownership or voting power with respect to the number of shares of our common stock actually outstanding at April 28, 2008.

Under the terms of the convertible notes and the warrants issued on March 5, 2008, a holder of such securities may not convert the convertible notes or exercise the warrants to the extent such conversion or exercise would cause such holder, together with its affiliates, to beneficially own a number of shares of our common stock which would exceed 4.99% of our then outstanding shares of our common stock following such conversion or exercise, excluding for purposes of such determination shares of our common stock issuable upon conversion of the convertible notes which have not been converted and upon exercise of the warrants that have not been exercised. The shares of our common stock and percentage ownership listed in the following table for Gemini Master Fund, Ltd. do not reflect these contractual limitations on a holder's ability to acquire shares of our common stock upon conversion of its convertible note or exercise of its warrant.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10-K/A

Unless otherwise indicated, each person in the table will have sole voting and investment power with respect to the shares shown. The following table assumes a total of 27,982,200 shares of our common stock issued and outstanding as of April 28, 2008.

Changes in Control

Under the terms of the convertible notes and warrants issued on March 5, 2008, we provided to the investors anti-dilution protection whereby in the event we issue securities (other than certain exempt securities) for a consideration per share less than the per share conversion price or exercise price (as applicable) in effect immediately prior to such issuance, immediately after such issuance, in the case of the convertible notes the per share conversion price then in effect will be reduced to the issuance price per share of such newly issued securities, and in the case of the warrants the per share exercise price then in effect will be reduced by an amount determined by a weighted-average formula set forth in the warrants. This anti-dilution protection could result in a change in control to the extent that we are required to issue a large enough number of shares of our common stock upon the conversion of the convertible notes or exercise of the warrants at a low enough per share conversion price or exercise price (as

applicable).

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

Related Party Transactions

Other than the transactions described below, since January 1, 2006, there has not been, nor is there currently proposed, any transaction or series of similar transactions to which we were or will be a party:

- in which the amount involved exceeds the lesser of \$120,000 or one percent of the average of our total assets at year-end for the last two completed fiscal years; and
- in which any director, executive officer, other shareholder of more than 5% of our common stock or any member of their immediate family had or will have a direct or indirect material interest.

From time to time, our Chairman and majority shareholder, Paul Guez, made advances to us to support our working capital needs. These advances were non-interest bearing and unsecured, with no formal terms of repayment. On July 1, 2006, Mr. Guez converted the advances to a line of credit in an agreement with us. The line of credit allows us to borrow from him up to a maximum of \$3 million at an interest rate of 6% per annum. We may repay the advances in full or in part at any time until the credit line expires and repayment is required, on December 31, 2008. As of December 31, 2007 and 2006 the balance of these advances was \$0 and \$1,876,991, respectively, and accrued interest thereon was \$0 and \$68,190.

On November 13, 2007, we agreed to issue 1,000,000 shares of a newly formed Series A Convertible Preferred Stock (the "Series A Preferred") in satisfaction of \$2,556,682 of advances made to us by Paul Guez. Subsequent to the transaction, and in connection with our application for additional listing of the shares of common stock underlying the Series A Preferred, we were advised orally by NASDAQ Listing Qualifications that the terms of the Series A Preferred did not comply with specified NASDAQ Marketplace Rules relating to stockholder approval and voting

rights.

As a result of the discussions with the NASDAQ Listing Qualifications Department, and as a result of subsequent negotiations with Mr. Guez, on November 28, 2007, we rescinded the purchase transaction of the Series A Preferred (effective as of November 13, 2007, the date that the transaction originally closed) and entered into a new transaction with Mr. Guez pursuant to a Preferred Stock Rescission and Purchase Agreement dated November 28, 2007, whereby we issued 1,000,000 shares of an amended and restated form of the Series A Convertible Preferred Stock (the "New Series A Preferred") in consideration for (i) the cancellation of the \$2,556,682 of advances made to us by Mr. Guez (which again became due and owing by us as a result of the rescission of the prior transaction), and (ii) an additional cash investment equal to \$125,000. The shares of New Series A Preferred are convertible into 4,623,589 shares of our common stock based on a conversion formula equal to the price per share (\$2.681682) divided by the conversion price (\$0.58) multiplied by the total number of shares of New Series A Preferred issued (1,000,000), subject to adjustment in accordance with the provisions of the certificate of designations for the New Series A Preferred. The conversion price equals the consolidated closing bid price for a share of the Company's common stock prior to the signing of the definitive agreement governing the transaction.

Additionally, during the term of the license agreement, we have the option to purchase from Yanuk Jeans, LLC the property licensed under the agreement. Related royalties paid and payable for the years ended December 31, 2007 and 2006 were \$0 and \$277,139, respectively.

Taverniti is the exclusive licensee for the design, development, manufacture, sale, marketing and distribution of the Taverniti So Jeans trademark in the denim and knit sports wear categories for men and women. It is paying royalties to Taverniti Holdings, LLC in the ranges of 5-8 percent depending on the net sales of the licensed products pursuant to a license agreement with Taverniti Holdings, LLC. Taverniti Holdings, LLC is jointly owned by Paul Guez (60%) and Jimmy Taverniti (40%), the designer of the products for the brand, and Mr. Guez is the sole manager. The license agreement was signed in May 2004 and expires on December 31, 2015. No royalties were paid or payable for the year ended December 31, 2007 as royalties for that year were waived by Taverniti Holdings, LLC. Royalties paid or

payable for the year ended December 31, 2006 were \$1,053,263, of which total \$98,000 was forgiven during 2007.
