TheraCour performs subcontract work for the production, chemical characterization, and scale-up of the nanoviricides drug candidates the Registrant uses. Anil Diwan, the Chairman, President and founder of the Registrant, is the principal shareholder, officer and director of TheraCour. TheraCour adopted the 10b5-1 plan to fund the improvement of its laboratory facilities, the purchase of analytical equipment and the costs of intellectual property (patent) protection.
