**APPROXIMATE DATE OF PROPOSED SALE TO THE PUBLIC:**  
From time to time after this Registration Statement becomes effective.

If any securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box: [x ]

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. \_\_\_\_\_

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. \_\_\_\_\_

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. \_\_\_\_\_

If delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. \_\_\_\_\_

## CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Number of Shares to be registered	Proposed maximum offering price per share	Proposed maximum aggregate offering price	Amount of registration fee
Common Stock, \$0.0001 par value	380,179	\$ 16.77(1)	\$ 6,375,601.83	\$ 682.19
Common Stock, \$0.0001 par value issuable upon exercise of Warrants	133,333	\$ 7.50 (2)	\$ 999,997.50	\$ 107.00
	513,512		\$ 7,375,599.33	\$ 789.19

(1) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(c) and Rule 457(g) under the Securities Act of 1933, using the average of the high and low price as reported on the American Stock Exchange on April 7, 2006, which was \$16.77 per share.

(2) Calculated in accordance with Rule 457(g)(1).

**The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.**

The information in this Prospectus is not complete and may be changed. The selling stockholders may not sell these securities until the registration statement is filed with the Securities and Exchange Commission and becomes effective. This Prospectus is not an offer to sell these securities and is not soliciting an offer to buy these securities in any state where the sale is not permitted.

**PRELIMINARY PROSPECTUS SUBJECT TO COMPLETION, DATED APRIL 10, 2006**

**BODISEN BIOTECH, INC.  
513,512 SHARES OF  
COMMON STOCK**

This prospectus relates to the resale by the selling stockholders of up to 513,512 shares of our common stock including up to 133,333 shares of common stock issuable upon the exercise of common stock purchase warrants. The selling stockholders may sell common stock from time to time in the principal market on which the stock is traded at the prevailing market price or in negotiated transactions. The selling stockholders may be deemed underwriters of the shares of common stock, which they are offering. We will pay the expenses of registering these shares.

We are not selling any shares of common stock in this offering and therefore will not receive any proceeds from the sale of common stock hereunder. We may receive proceeds from any exercise of outstanding warrants. The warrants may also be exercised by surrender of the warrants in exchange for an equal value of shares in accordance with the terms of the warrants.

Our common stock is listed on the American Stock Exchange under the symbol "BBC." The last reported sales price per share of our common stock as reported by the American Stock Exchange on April 7, 2006, was \$16.79.

**Investing in these securities involves significant risks. See "Risk Factors" beginning on page 7.**

No other underwriter or person has been engaged to facilitate the sale of shares of common stock in this offering. None of the proceeds from the sale of stock by the selling stockholders will be placed in escrow, trust or any similar account.

We may amend or supplement this prospectus from time to time by filing amendments or supplements as required. You should read the entire prospectus and any amendments or supplements carefully before you make your investment decision.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is \_\_\_\_\_, 2006.

## PROSPECTUS SUMMARY

The following summary highlights selected information contained in this prospectus. This summary does not contain all the information you should consider before investing in the securities. Before making an investment decision, you should read the entire prospectus carefully, including the "risk factors" section, the financial statements and the notes to the financial statements. As used throughout this prospectus, the terms "Bodisen Biotech," "BBC," the "Company," "we," "us," and "our" refer to Bodisen Biotech, Inc.

### BODISEN BIOTECH, INC.

We are primarily engaged in developing, manufacturing and selling organic fertilizers and pesticides in The People's Republic of China.

For the fiscal year ended December 31, 2005, we had revenue of \$30,975,350, with gross profits of \$11,504,229.

We were incorporated on January 14, 2000 in Delaware and our principal place of business is based in The People's Republic of China. We are located at: Bodisen Biotech, Inc., North Part of Xinquia Road, Yang Ling AG, High-Tech Industries Demonstration Zone, Yang Ling, China 712100, Telephone: +862987074957.

#### The Offering

Common stock offered by selling stockholders	513,512 shares, including up to 133,333 shares of common stock issuable upon the exercise of common stock purchase warrants at an exercise price of \$7.50 per share
Common stock to be outstanding after the offering	18,310,250 shares
Use of proceeds	We will not receive any proceeds from the sale of the common stock hereunder. See "Use of Proceeds" for a complete description.
AMEX Symbol	BBC

### Summary of Recent Transaction

On March 15, 2006, we completed a private placement offering of 380,179 shares our common stock, par value \$0.0001 per share, to accredited investors for an aggregate purchase price of approximately \$5,322,506. The aforementioned securities were sold in reliance upon the exemption afforded by the provisions of Regulation S, as promulgated by the Securities and Exchange Commission under the Securities Act of 1933, as amended.

## **RISK FACTORS**

This investment has a high degree of risk. Before you invest you should carefully consider the risks and uncertainties described below and the other information in this prospectus. If any of the following risks actually occur, our business, operating results and financial condition could be harmed and the value of our stock could go down. This means you could lose all or a part of your investment.

### **Risks Related To Our Business**

**Our management owns a significant amount of the Common Stock, giving them influence or control in corporate transactions and other matters, and their interests could differ from those of other stockholders.**

Our principal executive officers, Wang Qiong and Chen Bo, own approximately 40.3% of the Existing Common Stock. As a result, they are in a position to significantly influence or control the outcome of matters requiring a stockholder vote, including the election of directors, the adoption of any amendment to the Certificate of Incorporation and By-Laws, and the approval of significant corporate transactions. Their control may delay or prevent a change of control on terms favorable to our other stockholders and may adversely affect your voting and other stockholders rights.

**We may require additional financing in the future and a failure to obtain such required financing will inhibit our ability to grow.**

The continued growth of our business may require additional funding from time to time. Funding would be used for general corporate purposes, which may include acquisitions, investments, repayment of debt, capital expenditures, repurchase of our capital stock and any other purposes that we may specify in any supplement to this admission document. Obtaining additional funding would be subject to a number of factors, including market conditions, operational performance and investor sentiment. These factors may make the timing, amount, terms and conditions of additional funding unattractive, or unavailable, to us.

**The terms of any future financing may adversely affect your interest as stockholders.**

If we require additional financing in the future, we may be required to incur indebtedness or issue equity securities, the terms of which may adversely affect your interests in us. For example, the issuance of additional indebtedness may be senior in right of payment to your shares upon our liquidation. In addition, indebtedness may be under terms that make the operation of its business more difficult because the lender's consent will be required before we can take certain actions. Similarly, the terms of any equity securities we issue may be senior in right of payment of dividends to your Common Stock and may contain superior rights and other rights as compared to your Common Stock. Further, any such issuance of equity securities may dilute your interest in us.

**Our corporate structure may subject our stockholders to two levels of taxation on the payment of dividends or the disposition of its operating subsidiary, thereby substantially reducing the return on its stockholders' investment.**

If Yang Ling, our wholly-owned subsidiary, pays a dividend to us, its parent company, for distribution to the stockholders as a dividend, or if Yang Ling (rather than us, its parent company) is ultimately sold, the dividend or the proceeds of that transaction would be subject to two levels of tax - one at the parent corporate level and one at the parent stockholder level. Because our operations are conducted through Yang Ling in China, any dividends payable by us must come from Yang Ling and it is more likely that Yang Ling, rather than the parent company, will ultimately be sold. Thus, if Yang Ling pays a dividend to us in the future or if Yang Ling is sold in the future, those proceeds may be subject to two levels of taxation: (i) we will pay tax on the dividend or sale proceeds received from Yang

Ling, and (ii) our stockholders will pay tax on the distribution of the dividend or the proceeds of the sale. These two levels of taxation will effectively reduce the financial return on your investment in us.

**We do not anticipate paying dividends on the Common Stock.**

4

---

We have never paid dividends on our Common Stock and do not anticipate paying dividends in the foreseeable future. Our Directors intend to follow a policy of retaining all of our earnings, if any, to finance the development and expansion of our business.

**We may not be able to adequately protect and maintain our intellectual property.**

Our success will depend on our ability to continue to develop and market fertilizer and pesticide products. We protect our proprietary technology and formulae by keeping such technology or formulae confidential. If such technology or formulae are disclosed to a third party that is not under an obligation to keep the technology confidential or are accidentally disclosed, we may not be able to protect our technology or formulae against being exploited by third parties. We currently have not applied for patents for our technology products or formulae as our Directors believe an application for such patents would result in public knowledge of our proprietary technology and formulae.

**Our success depends on our management team and other key personnel, the loss of any of whom could disrupt our business operations.**

Our future success will depend in substantial part on the continued service of our senior management, including Mrs. Wang Qiong, our Chairman and Chief Executive Officer, Chen Bo, our President, and Wang Chunsheng, our Chief Operational Officer. The loss of the services of one or more of our key personnel could impede implementation of our business plan and result in reduced profitability. We do not carry key person life or other insurance in respect of any of our officers or employees. Our future success will also depend on the continued ability to attract, retain and motivate highly qualified technical sales and marketing customer support. Because of the rapid growth of the economy in The People's Republic of China, competition for qualified personnel is intense. We cannot guarantee that we will be able to retain our key personnel or that we will be able to attract, assimilate or retain qualified personnel in the future.

**Restrictions on making distributions**

The Company is a legal entity separate and distinct from its operating subsidiary, Yang Ling, which is an indirect subsidiary of the Company. The Company's revenues (on a parent company only basis) would be derived entirely from dividends paid to the Company by Yang Ling. The Chinese government exerts significant influence over the economy of The People's Republic of China, and there may be regulatory restrictions on Yang Ling's ability to make distributions of cash to the Company.

**Risks Related To Agricultural Industry in The People's Republic of China**

**Our success depends upon the development of The People's Republic of China's agricultural industry.**

The People's Republic of China is currently the world's most populous country and one of the largest producers and consumers of agricultural products. Roughly half of The People's Republic of China's labour force is engaged in agriculture, even though only about 10% of the land is suitable for cultivation. Although The People's Republic of China hopes to further increase agricultural production, incomes for Chinese farmers are stagnating. Despite the Chinese government's continued emphasis on agricultural self-sufficiency, inadequate port facilities and a lack of warehousing and cold storage facilities impedes the domestic agricultural trade. Where we rely on the local farmer to purchase our products, which are generally purchased under a "Cash on Delivery" or on 9-12 months credit, a farmer's inability to sell his agricultural goods could therefore hinder his ability to timely pay his credit obligations to us.

**We do not have supplier contracts with all of our trade vendors.**

Typically for the agricultural industry in The People's Republic of China, we do not have supplier contracts with all of our trade vendors. Where we do not have contracts in place, business is conducted on an order-by-order basis. Despite our not having supplier contracts in place in every case, the Directors believe that we have very good relations with the agricultural vendor community.

## **Risks Related To The People's Republic of China**

### **The People's Republic of China's Economic Policies could affect our Business.**

Substantially all of our assets are located in The People's Republic of China and substantially all of our revenue is derived from our operations in The People's Republic of China. Accordingly, our results of operations and prospects are subject, to a significant extent, to the economic, political and legal developments in The People's Republic of China.

While The People's Republic of China's economy has experienced significant growth in the past twenty years, such growth has been uneven, both geographically and among various sectors of the economy. The Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall economy of The People's Republic of China, but they may also have a negative effect on us. For example, operating results and financial condition may be adversely affected by the government control over capital investments or changes in tax regulations.

The economy of The People's Republic of China has been changing from a planned economy to a more market-oriented economy. In recent years the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform and the reduction of state ownership of productive assets, and the establishment of corporate governance in business enterprises; however, a substantial portion of productive assets in The People's Republic of China are still owned by the Chinese government. In addition, the Chinese government continues to play a significant role in regulating industry development by imposing industrial policies. It also exercises significant control over The People's Republic of China's economic growth through the allocation of resources, the control of payment of foreign currency-denominated obligations, the setting of monetary policy and the provision of preferential treatment to particular industries or companies.

### **Capital outflow policies in The People's Republic of China may hamper our ability to remit income to the United States.**

The People's Republic of China has adopted currency and capital transfer regulations. These regulations may require us to comply with complex regulations for the movement of capital. Although our Directors believe that we are currently in compliance with these regulations, should these regulations or the interpretation of them by courts or regulatory agencies change; we may not be able to remit all income earned and proceeds received in connection with its operations or from the sale of its operating subsidiary to our stockholders.

### **Although the Group does not import goods into or export goods out of The People's Republic of China, fluctuation of the Renminbi may indirectly affect our financial condition by affecting the volume of cross-border money flow.**

The value of the Renminbi fluctuates and is subject to changes in The People's Republic of China's political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including United States dollars, has been based on rates set by the People's Bank of China which are set based upon the interbank foreign exchange market rates and current exchange rates of a basket of currencies on the world financial markets. As of April 7, 2006, the exchange rate between the Renminbi and the United States dollar was 8.0145 Renminbi to every one United States dollar.

### **We may face obstacles from the communist system in The People's Republic of China.**

Foreign companies conducting operations in The People's Republic of China face significant political, economic and legal risks. The Communist regime in The People's Republic of China, including a cumbersome bureaucracy, may

hinder Western investment.

**We may have difficulty establishing adequate management, legal and financial controls in The People's Republic of China.**

The People's Republic of China historically has not adopted a Western style of management and financial reporting concepts and practices, modern banking, computer or other control systems. We may have difficulty in hiring and retaining a sufficient number of qualified employees to work in The People's Republic of China. As a result of these factors, we may experience difficulty in establishing management, legal and financial controls, collecting financial data and preparing financial statements, books of account and corporate records and instituting business practices that meet Western standards.

6

---

**It will be extremely difficult to acquire jurisdiction and enforce liabilities against our officers, directors and assets based in The People's Republic of China.**

Because our Executive Officers and several of our Directors, including, the chairman of our Board of Directors, are Chinese citizens it may be difficult, if not impossible, to acquire jurisdiction over these persons in the event a lawsuit is initiated against us and/or our officers and directors by a stockholder or group of stockholders in the United States. Also, because the majority of our assets are located in The People's Republic of China it would also be extremely difficult to access those assets to satisfy an award entered against us in a United States court.

**We may face judicial corruption in The People's Republic of China.**

Another obstacle to foreign investment in The People's Republic of China is corruption. There is no assurance that we will be able to obtain recourse, if desired, through The People's Republic of China's poorly developed and sometimes corrupt judicial systems.

**The admission of The People's Republic of China into the World Trade Organization could lead to increased foreign competition for us.**

Domestic competition in the compound fertilizer industry is largely fragmented and foreign competition is minimal. However, as a result of The People's Republic of China becoming a member of the World Trade Organization ("WTO"), import restrictions on agricultural products are expected to be reduced. With the lowering of import restrictions and the WTO's requirement for a reduction of import tariffs as condition of membership, such reduced import restrictions and tariffs for us may result in an increase of foreign products and could in turn lead to increased competition in the domestic agricultural market.

**The Group may not be able to obtain regulatory approvals for its products.**

The manufacture and sale of agricultural products in The People's Republic of China is regulated by the People's Republic of China and the Shaanxi Provincial Government. Although our licenses and regulatory filings are current, the uncertain legal environment of The People's Republic of China and its industry may be vulnerable to local government agencies or other parties who wish to renegotiate the terms and conditions of, or terminate their agreements or other understandings with us.

## USE OF PROCEEDS

We will not receive any proceeds from the sale of shares to be offered by the selling stockholders. The proceeds from the sale of each selling stockholders' common stock will belong to that selling stockholder. However, we may receive the sale price of any common stock we sell to the selling stockholders upon exercise of outstanding warrants.

Unless otherwise indicated in the applicable prospectus supplement, we anticipate that any net proceeds from the sale of the securities that we may offer under this prospectus and any accompanying prospectus supplement will be used for general corporate purposes. General corporate purposes may include acquisitions, investments, repayment of debt, capital expenditures, repurchase of our capital stock and any other purposes that we may specify in any prospectus supplement. We may invest the net proceeds temporarily until we use them for their stated purpose.

## MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our common stock is traded on the American Stock Exchange under the symbol "BBC." Prior to August 29, 2005, our common stock traded on the Over-the-Counter Bulletin Board under the symbol "BBOI." The following table sets forth the high and low bid prices of our Common Stock for the periods indicated. The quotations set forth below reflect inter-dealer prices, without retail mark-up, markdown or commission and may not represent actual transactions.

	2006	
	High*	Low*
1 <sup>st</sup> Quarter	\$ 21.97	\$ 13.14
	2005	
	High*	Low*
1 <sup>st</sup> Quarter	\$ 6.30	\$ 5.05
2 <sup>nd</sup> Quarter	6.25	5.04
3 <sup>rd</sup> Quarter	7.87	5.10
4 <sup>th</sup> Quarter	15.94	6.12
	2004	
	High*	Low*
1 <sup>st</sup> Quarter	\$ 13.90	\$ 0.25
2 <sup>nd</sup> Quarter	7.62	4.40
3 <sup>rd</sup> Quarter	8.60	6.10
4 <sup>th</sup> Quarter	7.31	5.60

As of April 7, 2006, there were approximately 896 holders of record of our common stock.

### Dividends

We have never declared or paid any cash dividends on our common stock. We currently intend to retain future earnings, if any, to finance the expansion of our business. As a result, we do not anticipate paying any cash dividends in the foreseeable future.

### Securities Authorized for Issuance Under Equity Compensation Plans

The following table shows information with respect to each equity compensation plan under which our common stock is authorized for issuance as of the fiscal year ended December 31, 2005.

**EQUITY COMPENSATION PLAN INFORMATION**

<b>Plan category</b>	<b>Number of securities to be issued upon exercise of outstanding options, warrants and rights</b>	<b>Weighted average exercise price of outstanding options, warrants and rights</b>	<b>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))</b>
	<b>(a)</b>	<b>(b)</b>	<b>(c)</b>
<b>Equity compensation plans approved by security holders</b>	136,000	\$ 5.39	864,000
<b>Equity compensation plans not approved by security holders</b>	-0-	-0-	-0-
<b>Total</b>	136,000	\$ 5.39	864,000

**MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION****Forward-Looking Statements**

The information in this report contains forward-looking statements. All statements other than statements of historical fact made in this report are forward looking. In particular, the statements herein regarding industry prospects and future results of operations or financial position are forward-looking statements. These forward-looking statements can be identified by the use of words such as “believes,” “estimates,” “could,” “possibly,” “probably,” “anticipates,” “projects,” “expects,” “may,” “will,” or “should” or other variations or similar words. No assurances can be given that the future results anticipated by the forward-looking statements will be achieved. Forward-looking statements reflect management’s current expectations and are inherently uncertain. Our actual results may differ significantly from management’s expectations.

The following discussion and analysis should be read in conjunction with our financial statements, included herewith. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future. Such discussion represents only the best present assessment of our management.

**Overview**

The Company is incorporated under the laws of the state of Delaware and its operating subsidiary, Yang Ling, is headquartered in the Shaanxi Province, The People’s Republic of China. The Group engages in the business of manufacturing and marketing organic fertilizers and pesticides in The People’s Republic of China. It produces numerous product lines, from pesticides to crop specific fertilizers. These products are then marketed and sold to over 150 wholesalers throughout the 20 provinces of The People’s Republic of China. The Group conducts research and development to further improve existing products and develop new formulae and products.

**Significant Accounting Policies**

*Use of estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### *Accounts receivable*

The Group maintains reserves for potential credit losses on accounts receivable. It reviews the composition of accounts receivable and analyze historical bad debts, customer concentrations, customer credit worthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves. Reserves are recorded primarily on a specific identification basis.

### *Inventories*

Inventories are valued at the lower of cost (determined on a weighted average basis) or market. The Group compares the cost of inventories with the market value and allowance is made for writing down the inventories to their market value, if lower.

### *Property and equipment*

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with estimated lives of: 30 years for building, 10 years for machinery, 5 years for office equipment and 8 years for vehicles.

### *Intangible assets*

Intangible assets consist of rights to use land and proprietary technology rights to fertilizers. The Company evaluates intangible assets for impairment, at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable from its estimated future cash flows. Recoverability of intangible assets, other long-lived assets and, goodwill is measured by comparing their net book value to the related projected undiscounted cash flows from these assets, considering a number of factors including past operating results, budgets, economic projections, market trends and product development cycles. If the net book value of the asset exceeds the related undiscounted cash flows, the asset is considered impaired, and a second test is performed to measure the amount of impairment loss. Potential impairment of goodwill after July 1, 2002 is being evaluated in accordance with SFAS No. 142. The SFAS No. 142 is applicable to the financial statements of the Group beginning July 1, 2002.

### *Revenue recognition*

The Group's revenue recognition policies are in compliance with Staff Accounting Bulletin ("SAB") 104. Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations by the Group exist and collectibility is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue.

### *Stock-based compensation*

In October 1995, the FASB issued SFAS No. 123, "Accounting for Stock-Based Compensation". SFAS No. 123 prescribes accounting and reporting standards for all stock-based compensation plans, including employee stock options, restricted stock, employee stock purchase plans and stock appreciation rights. SFAS No. 123 requires compensation expense to be recorded (i) using the new fair value method or (ii) using the existing accounting rules prescribed by Accounting Principles Board Opinion No. 25, "Accounting for stock issued to employees" (APB 25) and related interpretations with proforma disclosure of what net income and earnings per share would have been had the

Group adopted the new fair value method. The Group uses the intrinsic value method prescribed by APB 25 and have opted for the disclosure provisions of SFAS No. 123.

10

---

*Income taxes*

The Group utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

According to the Provisional Regulations of the People's Republic of China on Income Tax, the Document of Reductions and Exemptions of Income Tax for the Group have been approved by the local tax bureau and the Management Regulation of Yang Ling Agricultural High-Tech Industries Demonstration Zone. The Group is exempted from income tax in its first two years of operations.

*Foreign currency transactions and comprehensive income (loss)*

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain statements, however, require entities to report specific changes in assets and liabilities, such as gain or loss on foreign currency translation, as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income. Transactions occur in Chinese Renminbi. The unit of Renminbi is in Yuan.

**Recent Accounting Pronouncements**

In November 2004, the FASB has issued FASB Statement No. 151, "Inventory Costs, an Amendment of ARB No. 43, Chapter 4" ("FAS No. 151"). The amendments made by FAS No. 151 are intended to improve financial reporting by clarifying that abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) should be recognized as current-period charges and by requiring the allocation of fixed production overheads to inventory based on the normal capacity of the production facilities.

The guidance is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Earlier application is permitted for inventory costs incurred during fiscal years beginning after November 23, 2004. The provisions of FAS No. 151 will be applied prospectively. The Company does not expect the adoption of FAS No. 151 to have a material impact on its consolidated financial position, results of operations or cash flows.

In December 2004, the FASB issued FASB Statement No. 123R, "Share-Based Payment, an Amendment of FASB Statement No. 123" ("FAS No. 123R"). FAS No. 123R requires companies to recognize in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees. FAS No. 123R is effective beginning in the Company's second quarter of fiscal 2005. The Company is in process of evaluating the impact of this pronouncements on its consolidated financial position, results of operations or cash flows.

In December 2004, the FASB issued SFAS Statement No. 153, "Exchanges of Non-monetary Assets." The Statement is an amendment of APB Opinion No. 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. The Company believes that the adoption of this standard will have no material impact on its financial statements.

In March 2004, the Emerging Issues Task Force ("EITF") reached a consensus on Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments." The EITF reached a consensus about

the criteria that should be used to determine when an investment is considered impaired, whether that impairment is other-than-temporary, and the measurement of an impairment loss and how that criteria should be applied to investments accounted for under SFAS No. 115, "Accounting In Certain Investments In Debt And Equity Securities." EITF 03-01 also included accounting considerations subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. Additionally, EITF 03-01 includes new disclosure requirements for investments that are deemed to be temporarily impaired. In September 2004, the Financial Accounting Standards Board (FASB) delayed the accounting provisions of EITF 03-01; however the disclosure requirements remain effective for annual reports ending after June 15, 2004. The Company will evaluate the impact of EITF 03-01 once final guidance is issued.

*Year Ended December 31, 2005 compared to Year Ended December 31, 2004*

Revenue. The Company generated revenues of \$30,975,350 for the twelve months ended December 31, 2005, an increase of \$14,749,454 or 90.9%, compared to \$16,225,896 for the twelve months ended December 31, 2004. The growth in revenue was primarily attributable to the increase in our customer base as we continue to aggressively market our products and the growing awareness in the agricultural industry in the markets in which we do business of the efficacy of our products. The Bodisen brand name has become synonymous with proven higher crop yields. The completion of our new factory in early 2005 enabled us to meet the growing demand for all of our products.

Gross profit. The Company achieved a gross profit of \$11,504,229 for the twelve months ended December 31, 2005, an increase of \$4,932,298 or 75.1%, compared to \$6,571,931 for the twelve months ended December 31, 2004. Gross margin, as a percentage of revenues, decreased from 40.5% for the twelve months ended December 31, 2004, to 37.1% for the twelve months ended December 31, 2005. The decrease in gross margin was primarily attributable to increased costs of raw materials, as well as an increase in the costs of shipping our products. The widespread increase in the cost of all raw materials in China lead us to seek the \$5,000,000 short term note payable in December 2005, so that we could lock in raw materials prices at off season levels for 2006.

Operating expenses. The Company incurred operating expenses of \$2,431,753 an increase of \$908,403 or 59.6%, compared to \$1,523,350 for the twelve months ended December 31, 2004. These operating expenses are related to increased sales and marketing costs related to the 90.9% increase in sales for 2005.

Aggregated selling expenses of \$935,444 account for expenses related to costs associated with sales and marketing of the Company's products and with transportation of Company's products. As we continue to grow revenues, we are selling Bodisen products greater distances from our factories, leading to increased shipping costs, most notably on the compound fertilizer product which is sold in 50 kilogram (110 pounds) units. The increase in the cost of fuel experienced in the second, third and fourth quarters of 2005 has also had an effect on operating expenses. Operating expenses include general and administrative expenses of \$1,496,309 for the twelve months ended December 31, 2005 and relate to cost of maintaining the company's facilities, salaries and research and development.

Net Income. Net income increased by 47.6% to \$7,421,112, an increase of \$2,393,709, from \$5,027,403. Earnings per share (EPS) rose to \$0.48 in 2005 from \$0.33 in 2004. The increase was attributed to the growth in the demand for the Company's products as we enter new markets throughout China. This growth occurred as a result of management's discipline with respect to costs and attention to the bottom line despite a decrease in gross margins.

### **Liquidity and Capital Resources**

As of December 31, 2005 Bodisen Biotech, Inc. had \$6,276,897 cash and cash equivalents on hand, compared to \$2,121,811 cash and cash equivalents on hand as of December 31, 2004.

For December 31, 2005 accounts payable was \$49,893, other payables were \$18,773 and short term loans was \$4,396,114, reflecting the \$5,000,000 note issued December 8, 2005 and subsequently paid. Cash outflows for investing activities increased from \$2,778,136 to \$5,768,028 as a result of additions made to construction in progress, acquisitions of property and equipment and the purchase of marketable securities. The Company's accounts receivable for the year ended December 31, 2005, were \$7,478,152. Based on past performance and current expectations, we believe our cash and cash equivalents and cash generated from operations will satisfy our working capital needs, capital expenditures and other liquidity requirements associated with our operations.

On March 16, 2005, we completed a \$3 million convertible debenture private placement through an institutional investor. We issued a one year 9% debenture convertible into shares of common stock by dividing the aggregate principal and accrued interest by a conversion price of \$4.80; and three year warrants to purchase 187,500 shares of common stock at \$4.80 per share, In connection with the placement a three year warrant was issued to purchase

40,000 shares of common stock at \$6.88 per share. During the course of 2005 the note was fully converted to 657,402 shares of common stock. All of the warrants were exercised during December 2005 and January 2006. The net proceeds from this offering were used towards capital contribution of the registration of a wholly-owned Bodisen subsidiary, Yang Ling Bodisen Agricultural Technology Co., Ltd. During December 2005, 1950,500 warrants were exercised, the proceeds from these warrants was \$955,040. In January 2006 a total of 32,000 warrants were exercised, the proceeds were \$220,160. The proceeds from the exercise of the warrants was used for general corporate purposes.

On February 3, 2006, we entered into an agreement to sell 1,643,836 shares of our common stock at 730 pence (approximately \$12.99). These shares are to be traded on the AIM Market of the London Stock Exchange. The resulting proceeds were approximately 12,000,000 British pounds sterling (approximately \$21,360,000). The proceeds are intended for construction of two factories in the Northwest and Northeast of China, allowing us to greatly increase the geographical area in which we can sell our products by overcoming the logistical issues in selling and shipping our products over increasingly greater distances. In addition, proceeds will also be used to purchase raw materials and for general corporate purposes.

On March 15, 2006 we completed a financing of US\$5,322,506 by issuing 380,179 restricted shares of common stock at \$14.00 per share to private institutional investors in a private placement. The proceeds of this financing are to be used to repay the \$5,000,000 short term note plus interest which we entered into on December 2005.

The majority of Bodisen Biotech, Inc. revenues and majority of the expenses in 2005 were denominated primarily in Renminbi ("RMB"), the currency of the People's Republic of China. There is no assurance that exchange rates between the RMB and the U.S. dollar will remain stable. A devaluation of the RMB relative to the U.S. dollar could adversely affect our business, financial condition and results of operations. We do not engage in currency hedging. Inflation has not had a material impact on our business.

## **BUSINESS**

### **Overview of Business**

We were incorporated on January 14, 2000 in Delaware and our principal place of business is based in The People's Republic of China. We are primarily engaged in developing, manufacturing and selling organic fertilizers and pesticides in The People's Republic of China.

### **Business**

Our sole operating subsidiary, Yang Ling, was founded in The People's Republic of China on August 31, 2001 and is headquartered in the Shaanxi Province, People's Republic of China. Yang Ling primarily manufactures and markets organic fertilizers and pesticides to 20 agricultural provinces of China. We produce numerous proprietary product lines, from pesticides to crop specific fertilizer, which are then marketed and sold to farmers. We conduct research and development to further improve existing products and to develop new formulas and products.

### **History**

Prior to March 1, 2004, the Company was called Stratabid.com, Inc. The Company was a startup stage Internet-based commercial mortgage origination business. The Company operated primarily through its wholly-owned subsidiary, Stratabid.com Online (B.C.) Ltd. ("Stratabid.com Online"), which provided services throughout Canada.

Yang Ling was founded in the People's Republic of China on August 31, 2001. Yang Ling, located in Yang Ling Agricultural High-Tech Industries Demonstration Zone, was primarily engaged in developing, manufacturing and selling pesticides and compound organic fertilizers in the People's Republic of China. On November 19, 2003, Yang Ling incorporated Bodisen International, Inc. ("BII"), a Delaware corporation, as a non-operative holding company.

On January 14, 2004, the Company created a wholly-owned subsidiary corporation known as Bodisen Holdings, Inc., a Delaware corporation, ("BHI"), to pursue a merger with BII the parent of Yang Ling. On February 11, 2004, the Company and BHI entered into an Agreement and Plan of Merger with BII and the shareholders of BII, providing for the merger of BII into BHI, with BHI being the surviving entity in the merger. The transactions provided for in the Agreement and Plan of Merger closed on February 24, 2004. In the merger, the Company acquired 100% of BII's

outstanding stock in exchange for the issuance by the Company of 3 million shares of its Common Stock to the holders of BII shares. The Common Stock issued in the merger constituted approximately 66% of the outstanding shares of the Company after the merger. After the merger, the Company paid a 3 for 1 stock dividend and then, by prior agreement, redeemed 3 million post dividend shares held by the Company's former CEO. After these transactions, the shareholders of BII held approximately 79% of the Common Stock outstanding. On February 25, 2004, the Company sold Stratabid.com Online to Derrek Wasson, the Company's former CEO. On March 1, 2004, the Company changed its name from Stratabid.com, Inc. to Bodisen Biotech, Inc.

In March 2005 Bodisen Biotech Inc. formed a wholly-owned subsidiary by the name of “Yang Ling Bodisen Agricultural Technology Co., Ltd. (“Agricultural”). In June 2005, Agricultural completed a transaction with Yang Ling Bodisen Biology Science and Technology Development Company Limited (“Yang Ling”), Bodisen Biotech, Inc.’s operating subsidiary in China, which resulted in Agricultural owning 100% of Yang Ling.

The Group has developed the product line to over 60 items, and, the Directors believe, been successful in building the Bodisen brand name. The central government of The People’s Republic of China has mandated that farmers increase crop yields in order to decrease the nation’s dependence on food imports, as well as the growing emphasis on the need to use “environmentally friendly” fertilizers, has also been a factor in the growth of the business of the Group.

## **Products**

The Group manufactures over 60 package products, which are broken down into 3 product line categories:

### *Organic compound fertilizer*

These products are the Group’s leading product category, accounting for approximately 67% of Group turnover. Plants tend to easily absorb organic fertilizer without the side effects found in synthetic chemical fertilizer products, and this organic process strengthens photosynthesis, which improves the overall health of a plant in resisting drought and disease. The International Organization for Standardization (ISO 9001: 2000) has qualified Bodisen’s organic compound fertilizer products.

Organic fertilizers improve the cation exchange capacity, or “CEC” of soil which is its ability to hold positively charged ions (cations), making them available for uptake by the plant roots. This not only allows for improved uptake of nutrients by the plant but can also reduce leaching, which is of particular concern in sandy soil. Leaching moves nutrients away from the plant roots and into the subsurface water. Principal functions include:

- preserving nitrogen and improving the soil fertility;
- allowing phosphorous and potash fertilizer to gradually dissolve;
- promoting disease resistance; and
- activating and maintaining soil moisture content.

### *Liquid fertilizers*

These products account for approximately 19% of Group turnover. The early application of liquid fertilizers aids absorption of the key elements and nutrients of the fertilizer which may increase the rate of photosynthesis and improves the health of the plant making it more resistant to disease. The liquid fertilizer increases the plant’s yield and shortens the time to harvest whilst heightening the colour and lustre of fruit and vegetables.

The liquid fertilizer is sold to the farmer in a concentrated form and needs to be mixed by the farmer with water before spraying onto the plant. Since the liquid fertilizer is applied directly to the plant it is more easily absorbed by the plant.

### *Pesticides*

These products account for approximately 14% of Group turnover. Bodisen's pesticide products can be applied to all fruit trees and vegetable crops; it will also reduce the numbers of harmful insects that reduce overall crop yields.

### **Market Information**

Organic fertilizers are composed of natural nutritional elements that not only improve the quality and yield of the crops but also improve the soil quality; this in turn improves the yield. Organic compound fertilizer accelerates reproduction of soil microbes to improve soil quality through the decomposition of organic material and the improvement of the soil's retention of nitrogen. Moreover, this application can activate dormant soil by increasing soil nitrates and moisture content that otherwise is not enhanced by traditional chemical fertilizers. This process controls the release of nutritional elements that enhances the quality, quantity and health of crops. To encourage farmers, of which there are 800 million in The People's Republic of China, to remain on their land, the government recently eliminated an agriculture tax, which effectively increased their disposable income by 20%. Although organic compound fertilizers are more expensive than chemical fertilizers, the Directors believe that the extra cost is justified by the increase of quality and yield and, consequently, the increased margin attained at the market.

### **Sales and Marketing**

The Group's products are sold directly to over 150 wholesalers in The People's Republic of China, through written sales contracts.

The Bodisen brand has been marketed and promoted through trade fairs, conventions and the print media, and through television and radio advertising in The People's Republic of China. Since the end-user for its products is the local farmer, educational seminars to promote products and organic fertilizers directly to farmers are extensively used. To capture a share of the market, free samples of the products are distributed to allow a trial period to take place, the results of which are made know to the surrounding area. The cost of this is not material and is often offset by new sales in that test zone.

The primary tasks in respect of sales and marketing are to strengthen the home market in the Shaanxi province and to expand the market outside the Shaanxi province into new districts where the Group's products are not well established.

It is our intention to increase marketing in regions where our products are not well known. In addition, promotion of the products through national newspapers in China explaining the advantages of the high-tech nature of its environmentally friendly product lines will be undertaken. In order to enter the untapped markets of western China, the Company will explore selling exclusive franchise opportunities to new wholesale agents.

### **Raw Materials**

There are numerous suppliers of raw materials in the Shaanxi Province of China. To manufacture the organic compound fertilizer Bodisen uses carbamide, ammonium, potassium chloride and zeolite powder. Carbamide, potassium chloride, bluestone, zinc sulfate, borax, citric acid and bitter salt, together with other materials are used to manufacture liquid fertilizer. Pesticides are manufactured using Mieduowie, zinc sulphur phosphor, emulsification agents, Dimethylbenzene, sulfur powder and Fumeishuang.

The Company has short-term material supplier contracts with its 19 major suppliers. Business with other suppliers is conducted on an order-by-order basis, a practice that is typical throughout the agrochemical industry in The People's Republic of China. The Directors believe that the Group has very good relations with the agricultural supplier community.

## **Research and Development**

The research and development team consists of four professionals, who perform administrative and ministerial functions. Much of the research is done in close cooperation with universities and research laboratories in the Yang Ling and Xian Metropolitan areas with related costs incurred by such universities and research laboratories and not by the Company. In 2005, the Company budgeted to spend U.S.\$130,000 on research and development, the majority of which was dedicated to existing research programs. The following projects were commenced in 2004 and are currently scheduled for completion in 2006:

### *Pesticides projects*

Project Ion is the study of copper, zinc and manganese ions in combination with silver ions to control and remove crop disease brought about by fungi. The objective is to determine whether the combination of these metal ions will prohibit the release of an intrusive enzyme from fungi that kills crops in China.

Project Fly is the development of a protein abstract from a common fly to develop bacteria-based pesticides, which may have a better effect on a plant's resistance to insects. This project seeks to isolate a series of anti-bacteria peptides from the proteins of a common fly. This kind of anti-bacteria peptide could effectively control many pathogens which may prove more effective than the pesticides which are currently available.

### *Fertilizer projects*

Project Amino Acid is a program that was developed to build a new compound fertilizer product, based on a proactive amino acid enzyme.

Project Build utilizes a technique for the manufacturing of organic compound fertilizer, which could enhance the quality of organic fertilizer products.

## **Intellectual property**

The Group owns trademarks in the "Bodisen" name, which is used on all products. Bodisen is also a recognized trade name in the provinces in The People's Republic of China in which the Group conducts business. Bodisen protects its proprietary technology and formulae by keeping such technology and formulae confidential. If such technology or formulae are disclosed to a third party that is not under an obligation of confidentiality or are accidentally disclosed, Bodisen may not be able to protect its technology against being exploited by third parties. The Directors believe this is adequate protection. The Company acquired rights for fluid and compound fertilizer technology from a third party. Most intellectual property was developed in-house or with various universities and research laboratories (which may not be owned by Bodisen). Only certain key executives of the Company have knowledge of such proprietary technology and formulae. The Directors believe that there are adequate systems in place to prevent disclosure of the proprietary technology and formulae. Since the Company does not hold patents for its products, the Company may not be in a position to adequately protect its intellectual property rights. See "Risk Factors" in Part I.

## **Government and Environmental Regulation**

Bodisen's products and services are subject to material regulation by governmental agencies in The People's Republic of China and Shaanxi Province responsible for the agricultural industry. Business and company registrations, along with the products, are certified on a regular basis and must be in compliance with the laws and regulations of the state, local governments and industry agencies, which are controlled and monitored through the issuance of licenses. To date, the Group has been compliant with all registrations and requirements for the issuance and maintenance of all licenses required by the governing bodies. As of the date of this document, all license fees and filings are current.

These licenses obtained by the Group include:

16

---

*National Certificate for Production of Industrial Products*

The National Certificate for Production of Industrial Products for compounded fertilizers was issued by the National Industrial Products Production License Office on February 27, 2004. The National Certificate for Production of Industrial Products will be valid until February 26, 2009.

*Certificate for pesticide registration*

Pesticide registration is required for the production of liquid fertilizer and issued by Ministry of Agriculture, People's Republic of China.

*Production standard*

The Company is registered with Bureau of Quality Controls and Technology, Shaanxi Provincial Government, Xi'an.

The cost of obtaining and maintaining these licenses is not prohibitive, and it is illegal to do business without these licenses. If the Group were to lose any of these licenses, it would only have a limited time to reapply for such licenses and would face possible regulatory fines. The Group is subject to relevant environmental laws and regulations that require the outlay of capital and the obtaining of relevant permits in order to engage in business operations.

**Competition**

The Directors consider that in The People's Republic of China the compound fertilizer industry is largely fragmented with most competitors operating small regional factories, serving local requirements. Most companies in this industry in The People's Republic of China do not promote their products through brand name recognition. Bodisen has not yet identified any competition in the Shaanxi province that operates in all three segments (compound, liquid and pesticide) of the organic fertilizer business. The Directors believe that the Company's most significant Chinese competitor is Tian Bang Shaanxi and that the only international competing company is DuPont.

**FACILITIES**

The Group's principal executive offices are located at North Part of Xinquia Road, Yang Ling Agricultural High-Tech Industries Demonstration Zone Yang Ling, Shaanxi province, People's Republic of China, 712100 and the telephone number is +86-29-87074957. The Company owns two factories, which include three production lines, an office building, one warehouse, and two research laboratories which are located on 10,900 square meters of land. The Group completed a new 609,840 square foot manufacturing facility on March 15, 2005 and in November 2005 the Company broke ground on a new facility, adjacent to the facility completed in March 2005, for production of a new product line. The Directors believe that its property, along with the properties being developed in its current facility expansion plans, will be sufficient for its current and immediately foreseeable operating needs.

**EMPLOYEES**

As of April 7, 2006 we had a total of 889 employees of which approximately 6 are executive and senior managers, 69 are business and accounting staff, 6 are warehouse and purchasing staff, 14 are drivers or secretaries and 794 production workers. We have not experienced any work stoppages and we consider relations with our employees to be good. We are not a party to any collective bargaining agreements.

**LEGAL PROCEEDINGS**

From time to time, we may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. We are not currently aware of any such legal proceedings or claims.

## MANAGEMENT

### Executive Officers and Directors

Below are the names and certain information regarding our executive officers and directors:

Name	Age	Position
Wang Qiong	41	Chairman and Chief Executive Officer
Bo Chen	48	Executive Director and President
Patrick McManus	51	Director
David Gatton	52	Director
Weirui Wan	64	Director
Wang Chunsheng	42	Chief Operating Officer
Yiliang Lai	40	Chief Financial Officer

Officers are elected annually by the Board of Directors, at our annual meeting, to hold such office until an officer's successor has been duly appointed and qualified, unless an officer sooner dies, resigns or is removed by the Board.

### Background of Executive Officers and Directors

**Wang Qiong**, Chairman and Chief Executive Officer of Bodisen and Yang Ling - Mrs. Wang Qiong has served as the Chairman of the Board of Bodisen since the merger of BHI and BII and she has been on the board of Yang Ling since Yang Ling was founded in August 2001. Mrs. Wang Qiong has over 10 years experience in the fertilizer and chemical industry. From 1997 to May 2001, she was the Chief Executive Officer and President of Shaanxi Bodisen Chemical Co., Ltd., which changed its name to Bodisen International, Inc. on August 31, 2001. From May 1996 to December 1997, she was the President of Yang Ling Kangyuan Agricultural Chemical Company, a company dedicated to the research and development of agricultural products. Mrs. Wang Qiong graduated from North-West Agronomy College, with a Bachelor of Science degree in 1986.

**Bo Chen**, Director and President of Bodisen and Yang Ling - Mr. Chen, the President of Bodisen, is one of its original founders and stockholders. From August 1997 to August 2001, Mr. Bo Chen was Chief Operations Officer and Chief Technology Officer of Shaanxi Bodisen Chemical Co., Ltd. From July 1994 to December 1997, he was the Chief Executive Officer and President of Yang Ling Shikanglu Chemurgical Technology Development Co., Ltd. Mr. Chen currently sits on the Board of Directors of China Natural Gas, Inc. as Vice Chairman of the Board. Mr. Chen received his Bachelor of Science degree from Shaanxi Normal College in July 1984.

**Patrick McManus**, Director of Bodisen - Mr. Patrick McManus, CPA, J.D. joined Bodisen's Board of Directors on May 1, 2004 as an independent board member. Mr. McManus brings over 25 years of experience in business, finance and law to Bodisen. He was elected Mayor of the City of Lynn, Massachusetts in 1992 and served in this position until his retirement to the private practice of law and accounting in 2002. While serving the City of Lynn as its Mayor, he was elected a member and trustee of the Executive Committee of the U.S. Conference of Mayors (USCM) with responsibility for developing policy for the USCM. He also served as the Chairman of the USCM Science and Technology Subcommittee, the Urban Water Council, and the USCM Audit Committee. Mayor McManus started his career in business with the General Electric Company in 1979, and was a Professor of Business and Finance at Salem State College in Massachusetts. Mayor McManus is an expert on China. He was instrumental in establishing a close alliance as well as coordinating a regular exchange of visits by members of the U.S. Conference of Mayors and the China Association of Mayors. Mr. McManus has been a Certified Public Accountant since 1985. Mr. McManus received his Juris Doctorate from Boston College Law School and an MBA from Suffolk University

**David Gatton**, Director of Bodisen - Mr. Gatton joined Bodisen's Board of Directors on May 1, 2004 as an independent board member. Since 1985 Mr. Gatton has served as the Chairman and President of Development Initiatives, Inc, a Washington, DC-based government relations firm specializing in urban affairs, business development and marketing, serving a variety of public and private clients. Mr. Gatton advises cities, organizations, and companies on business development strategies, public/private partnerships and marketing initiatives. He has advised various organizations on tax reform, economic development initiatives and a variety of environmental laws, including the reauthorization of the following Acts of the United States: the Clean Water Act, the Safe Drinking Water Act, the Resource Conservation and Recovery Act, Superfund and the Clean Air Act. Some of Mr. Gatton's major accomplishments include: development of U.S. Sino Memorandum of Cooperation between U.S. and China Association of Mayors, development of a national brownfield redevelopment initiative, development of several multifamily low- and moderate-income housing developments, business development strategies for various private firms, and assistance in development of economic development projects for numerous cities. Mr. Gatton holds a B.A. from Cornell College, and a Master's degree from Harvard University.

**Weirui Wan**, Director of Bodisen - Mr. Weirui Wan joined Bodisen's Board of Directors on May 1, 2004 as an independent board member. Mr. Wan has over 40 years of experience in management and leadership positions in the agricultural sector in China. He started his career in 1967 as an agricultural scientist at the Chinese Academy of Water and Soil Preservation, China's leading government agency on soil and agricultural studies. In 1984, Mr. Wan was appointed the position of Deputy Director of the Chinese Academy of Water and Soil Preservation. In 1997, Mr. Wan moved to the city of Yang Ling and was appointed Deputy Governor of the Yang Ling Agricultural High-Tech Industries Demonstration Zone and was in charge of building the zone into the agricultural hub of China. Mr. Wan retired as Deputy Governor in 2001 and is currently on the Advisory Board of Yang Ling Agricultural High-Tech Industries Demonstration Zone. Mr. Wan graduated from Beijing University of Agriculture in 1967 with a Bachelor's degree in Agriculture.

**Wang Chunsheng**, Chief Operating Officer of Bodisen, Executive Vice President and Chief Operating Officer of Yang Ling - Mr. Wang Chunsheng, joined Bodisen in September 2001 as Chief Operations Officer. From September 1999 to August 2001, Mr. Wang Chunsheng was Vice General Manager of the Shaanxi Bodisen Chemical Co. Ltd. responsible for sales and marketing. From January 1997 to July 1999, he held a position as Senior Sales Manager with the Yang Ling Kangyuan Agricultural Chemical Company. Mr. Wang Chunsheng holds agronomist certification.

**Yiliang Lai**, Chief Financial Officer of Bodisen and Yang Ling - On November 1, 2005, the Company promoted Yiliang Lai to the position of Chief Financial Officer. Mr Lai joined the Company as a financial controller in March 2005. Mr Lai has extensive experience in accounting and auditing matters. He started his career as an accountant at China Shipping in 1986 and in 1999 he joined the CPA firm ShenZhen CaiXin as an auditor. In 2001, Mr Lai joined Shaanxi Kaida Limited as head of accounting and in 2002 he joined Xi'an Hongsheng Biotech as Chief Financial Officer. Mr Lai is a Certified Public Accountant in China as well as a Certified Auditor.

## **Board of Directors**

Our Directors are elected by the vote of a plurality in interest of the holders of our voting stock and hold office for a term of one year and until a successor has been elected and qualified.

A majority of the authorized number of directors constitutes a quorum of the Board for the transaction of business. The directors must be present at the meeting to constitute a quorum. However, any action required or permitted to be taken by the Board may be taken without a meeting if all members of the Board individually or collectively consent in writing to the action.

Directors may receive compensation for their services and reimbursement for their expenses as shall be determined from time to time by resolution of the Board.

## **Executive Compensation**

The following table sets forth all compensation paid in respect of our Chief Executive Officer and those individuals who received compensation in excess of \$100,000 per year (collectively, the "Named Executive Officers") for our last three completed fiscal years.

**SUMMARY COMPENSATION TABLE**

Name And Principal Position	Annual Compensation							Long Term Compensation				
	Year	Salary (\$)	Bonus (\$)	Other Annual Compensation (\$)	Restricted Stock Compensation (\$)	Awards		Payouts				
						Securities Under- Lying Options/ SARs (#)	LTIP Payouts (\$)	All Other Compensation (\$)				
Wang Qiong, Chief Executive Officer and Chairman	2005	31,450	-0-	-0-	N/A	N/A	N/A	N/A	N/A			
	2004	23,220	-0-	-0-	N/A	N/A	N/A	N/A	N/A

**EQUITY COMPENSATION PLAN INFORMATION**

There has been no common stock authorized for issuance with respect to any equity compensation plan as of the fiscal year ended December 31, 2005.

**Employment Agreements**

There are currently no employment agreements between the Company and any of its named executive officers.

**Option Grants During 2005 Fiscal Year**

The following table provides information related to options granted to the named executive officers during the 2005 fiscal year. The Company does not have any outstanding stock appreciation rights.

Name	No. of Securities Underlying Options Granted (#)	% of Total Options Granted to Employees in Fiscal Year	Exercise Price (\$/Sh)	Expiration Date
David Gatton	13,000	50%	\$ 6.72	October 4, 2010
Patrick McManus	13,000	50%	\$ 6.72	October 4, 2010

**Aggregated Option Exercises During 2005 Fiscal Year and Fiscal Year-End Option Values**

The following table provides information related to employee options exercised by the named executive officers during the 2005 fiscal year and number and value of such options held at fiscal year-end.

20

---

Name	Shares Acquired on Exercise (#)	Value Realized	Number of Securities Underlying Unexercised Options at Fiscal Year- End (#)		Value of Unexercised In-the-Money Options at Fiscal Year- End (\$) (1)	
			Exercisable	Unexercisable	Exercisable	Unexercisable
David Gatton	N/A	N/A	63,875	4,125	550,235	35,405
Patrick McManus	N/A	N/A	63,875	4,125	550,235	35,405

(1) Based on the closing price of \$14.00, at December 30, 2005.

## SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information, as of March 29, 2006 with respect to the beneficial ownership of the outstanding common stock by (i) any holder of more than five (5%) percent; (ii) each of our named executive officers and directors; and (iii) our directors and executive officers as a group. Except as otherwise indicated, each of the stockholders listed below has sole voting and investment power over the shares beneficially owned.

Name of Beneficial Owner (1)	Number of Shares Beneficially Owned	Percentage of Shares Beneficially Owned (2)
Wang Qiong (3)	3,748,780	20.6%
Bo Chen (4)	3,584,096	19.7%
Patrick McManus	68,000	*
David Gatton	68,000	*
Weirui Wan	0	*
Wang Chunsheng	0	*
Yiliang Lai.	0	*
All officers and directors as a group (7 persons)	7,462,626	40.8%

\* Less than 1%.

(1) Except as otherwise indicated, the address of each beneficial owner is c/o Bodisen Biotech, Inc., North Part of Xinquia Road, Yang Ling AG, High-Tech Industries Demonstration Zone, Yang Ling, China 712100.

(2) Applicable percentage ownership is based on 18,176,917 shares of common stock outstanding as of April 7, 2006, together with securities exercisable or convertible into shares of common stock within 60 days of April 7, 2006 for each stockholder. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of common stock that are currently exercisable or exercisable within 60 days of April 7, 2006 are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person.

(3) Of the shares beneficially owned by Wang Qiong, 3,028,780 are owned by a dependent daughter.

(4) Of the shares beneficially owned by Bo Chen, 2,894,096 are owned by a dependent son.

No Director, executive officer, affiliate or any owner of record or beneficial owner of more than 5% of any class of voting securities of the Company is a party adverse to the Company or has a material interest adverse to the Company.

## DESCRIPTION OF SECURITIES TO BE REGISTERED

### COMMON STOCK

Our authorized capital stock consists of 30,000,000 shares of common stock at a par value of \$0.0001 per share and 5,000,000 shares of preferred stock, par value \$0.0001. As of April 7, 2006, there were 18,176,917 shares of our common stock issued and outstanding and no shares of preferred stock outstanding.

Holders of our common stock are entitled to one vote for each share on all matters submitted to a stockholder vote. Holders of common stock do not have cumulative voting rights. Therefore, holders of a majority of the shares of common stock voting for the election of directors can elect all of the directors. Holders of our common stock representing a majority of the voting power of our capital stock issued, outstanding and entitled to vote, represented in person or by proxy, are necessary to constitute a quorum at any meeting of stockholders. A vote by the holders of a majority of our outstanding shares is required to effectuate certain fundamental corporate changes such as liquidation, merger or an amendment to our articles of incorporation.

Holders of our common stock are entitled to share in all dividends that the board of directors, in its discretion, declares from legally available funds. In the event of liquidation, dissolution or winding up, each outstanding share entitles its holder to participate pro rata in all assets that remain after payment of liabilities and after providing for each class of stock, if any, having preference over the common stock. Our common stock has no pre-emptive rights, no conversion rights and there are no redemption provisions applicable to our common stock.

### **INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Under Delaware law, we may indemnify our directors or officers or other persons who were or are threatened to be made a party to an action, suit or proceeding because the person is or was our director, officer, employee or agent, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by them in connection with the action, suit or proceeding if the person:

- (i) acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and
- (ii) with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful.

Our bylaws include indemnification provisions under which we have agreed to indemnify our directors and officers from and against certain claims arising from or related to future acts or omissions as our directors or officers, except in relation to matters as to which any such director or officer was personally involved in the situation giving rise to the injury or unless such officer or director committed a criminal offense.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of ours in the successful defense of any action, suit or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

### **PLAN OF DISTRIBUTION**

The selling stockholders and any of their respective pledgees, donees, assignees and other successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits the purchaser;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
  - purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;  
privately-negotiated transactions;  
short sales that are not violations of the laws and regulations of any state or the United States;  
broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;  
through the writing of options on the shares;  
a combination of any such methods of sale; and  
any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus. The selling stockholders shall have the sole and absolute discretion not to accept any purchase offer or make any sale of shares if they deem the purchase price to be unsatisfactory at any particular time.

The selling stockholders may also engage in short sales against the box, puts and calls and other transactions in our securities or derivatives of our securities and may sell or deliver shares in connection with these trades.

The selling stockholders or their respective pledgees, donees, transferees or other successors in interest, may also sell the shares directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal or both, which compensation as to a particular broker-dealer might be in excess of customary commissions. Market makers and block purchasers purchasing the shares will do so for their own account and at their own risk. It is possible that a selling stockholder will attempt to sell shares of common stock in block transactions to market makers or other purchasers at a price per share which may be below the then market price. The selling stockholders cannot assure that all or any of the shares offered in this prospectus will be issued to, or sold by, the selling stockholders. The selling stockholders and any brokers, dealers or agents, upon effecting the sale of any of the shares offered in this prospectus, may be deemed to be "underwriters" as that term is defined under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, or the rules and regulations under such acts. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

We are required to pay all fees and expenses incident to the registration of the shares, including fees and disbursements of counsel to the selling stockholders, but excluding brokerage commissions or underwriter discounts.

The selling stockholders, alternatively, may sell all or any part of the shares offered in this prospectus through an underwriter. No selling stockholder has entered into any agreement with a prospective underwriter and there is no assurance that any such agreement will be entered into.

The selling stockholders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling stockholder defaults on a margin loan, the broker may, from time to time, offer and sell the pledged shares. The selling stockholders and any other persons participating in the sale or distribution of the shares will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations under such act, including, without limitation, Regulation M. These provisions may restrict certain activities of, and limit the timing of purchases and sales of any of the shares by, the selling stockholders or any other such person. In the event that the selling stockholders are deemed affiliated purchasers or distribution participants within the meaning of Regulation M, then the selling stockholders will not be permitted to engage in short sales of common stock. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. In regards to short sells, the selling stockholder can only cover its short position with the securities they receive from us upon conversion.

In addition, if such short sale is deemed to be a stabilizing activity, then the selling stockholder will not be permitted to engage in a short sale of our common stock. All of these limitations may affect the marketability of the shares.

We have agreed to indemnify the selling stockholders, or their transferees or assignees, against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the selling stockholders or their respective pledgees, donees, transferees or other successors in interest, may be required to make in respect of such liabilities.

If the selling stockholders notify us that they have a material arrangement with a broker-dealer for the resale of the common stock, then we would be required to amend the registration statement of which this prospectus is a part, and file a prospectus supplement to describe the agreements between the selling stockholders and the broker-dealer.

### SELLING STOCKHOLDERS

The following table sets forth the common stock ownership of the selling stockholders as of April 7, 2006. The selling stockholders acquired their securities through a private placement offering which closed on March 15, 2006.

We will not receive any proceeds from the resale of the common stock by the selling stockholders. Assuming all the shares registered below are sold by the selling stockholders, none of the selling stockholders will continue to own any shares of our common stock. Other than as set forth in the following table, the selling stockholders have not held any position or office or had any other material relationship with us or any of our predecessors or affiliates within the past three years. In addition, except as set forth below, the selling stockholders are not registered broker-dealers.

Name	Total Shares Owned and Issuable Upon Exercise of Warrants Before Offering	Number of Shares Offered for Sale	Number of Shares Owned After Completion of Offering (1)	Percentage of Common Stock Owned After Completion of Offering (2)
Charlemagne Capital (3)	63,047	63,047	0	0%

Amaranth Partners L.L.C. (8)	133,333	133,333	0	0%

\* Less than 1%.

(1) Assumes that all securities registered will be sold.

(2) Applicable percentage ownership is based on 18,176,917 shares of common stock outstanding as of April 7, 2006, together with securities exercisable or convertible into shares of common stock within 60 days of April 7, 2006 for each stockholder. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of common stock that are currently exercisable or exercisable within 60 days of April 7, 2006 are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person.

(3) Sangeeta Uberoi has the voting and dispositive rights over the shares held by Charlemagne Capital.

(4) Jarrod Khan has the voting and dispositive rights over the shares held by Credo Capital plc.

(5) Duncan Byatt has the voting and dispositive rights over the shares held by Eagle & Dominion Euro-American Fund Limited Partnership and Eagle & Dominion Euro-American Fund Limited.

(6) Alex Millett has the voting and dispositive rights over the shares held by Savoy Investment Management.

(7) Russell Winfield has the voting and dispositive rights over the shares held by York Capital Management Limited.

(8) Nicholas M. Maounis has the voting and dispositive rights over the shares held by Amaranth Partners L.L.C.

## **LEGAL MATTERS**

Sichenzia Ross Friedman Ference LLP, New York, New York will issue an opinion with respect to the validity of the shares of common stock being offered hereby.

## **EXPERTS**

Our financial statements as of December 31, 2005 and 2004 and the related consolidated statements of operations, stockholders' equity and cash flows for the period of December 31, 2005 and 2004, appearing in this prospectus and registration statement have been audited by Kabani & Company, Inc., independent registered public accountants, as set forth on their report thereon appearing elsewhere in this prospectus, and are included in reliance upon such report given upon the authority of such firm as experts in accounting and auditing.

## **AVAILABLE INFORMATION**

We have filed with the SEC a registration statement on Form SB-2 to register the securities offered by this prospectus. For future information about us and the securities offered under this prospectus, you may refer to the registration statement and to the exhibits filed as a part of the registration statement.

In addition, after the effective date of this prospectus, we will be required to file annual, quarterly, and current reports, or other information with the SEC as provided by the Securities Exchange Act. You may read and copy any reports, statements or other information we file at the SEC's public reference facility maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You can request copies of these documents, upon payment of a duplicating fee, by writing to the SEC. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference room. Our SEC filings are also available to the public through the SEC Internet site at [http\www.sec.gov](http://www.sec.gov).

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders of  
Bodisen Biotech, Inc.

We have audited the accompanying consolidated balance sheet of Bodisen Biotech, Inc. (a Delaware corporation) and subsidiaries as of December 31, 2005, and the related consolidated statements of income and other comprehensive income, stockholders' equity, and cash flows for the years ended December 31, 2005 and 2004. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Bodisen Biotech, Inc. and Subsidiaries as of December 31, 2005, and the consolidated results of their operations and their consolidated cash flows for the years ended December 31, 2005 and 2004, in conformity with U.S. generally accepted accounting principles.
