PROXY STATEMENT

IONATRON, INC.

**ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD JUNE 21, 2006**

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Ionatron, Inc. ("Ionatron" or the "Company") for use at the Annual Meeting of Stockholders to be held on Wednesday, June 21, 2006 (the "Annual Meeting"), including any adjournment or adjournments thereof, for the purposes set forth in the accompanying Notice of Meeting.

Management intends to mail this proxy statement, the accompanying form of proxy and annual report to stockholders on or about May 22, 2006.

Proxies in the accompanying form, duly executed and returned to the management of the Company and not revoked, will be voted at the Annual Meeting. Any proxy given pursuant to such solicitation may be revoked by the stockholder at any time prior to the voting of the proxy by a subsequently dated proxy, by written notification to the Secretary of the Company, or by personally withdrawing the proxy at the meeting and voting in person.

The address and telephone number of the principal executive offices of the Company are:

3716 East Columbia Street, Suite 120
Tucson, Arizona 85714
Telephone: (520) 628-7415

OUTSTANDING STOCK AND VOTING RIGHTS

Only stockholders of record at the close of business on May 15, 2006 (the "Record Date") are entitled to notice of and to vote at the Annual Meeting. As of the Record Date, there were issued and outstanding 73,255,147 shares of the Company's Common Stock, \$.001 par value per share (the "Common Stock"), the Company's only class of voting securities, and 710 shares of the Company's Series A Redeemable Convertible Preferred Stock (the "Series A Preferred Stock"). Each share of Common Stock entitles the holder thereof to cast one vote on each matter submitted to a vote at the Annual Meeting. The holders of shares of Series A Preferred Stock do not have any vote rights, except as required by law, and, accordingly, are not entitled to vote on the election of directors or the proposed amendment to the Company's Certificate of Incorporation to increase the number of authorized shares of Preferred Stock.

VOTING PROCEDURES

At the Annual Meeting, the two nominees for election as Class II directors who receive the highest number of affirmative votes of shares of person or by proxy will be elected, provided a quorum is present. All other matters to come before the Annual Meeting will be decided by the affirmative vote of a majority of the shares of Common Stock represented at the Annual Meeting and entitled to vote on the matter presented in person or by proxy, provided a quorum is present. A quorum is present if at least a majority of the shares of Common Stock outstanding as of the Record Date are present in person or represented by proxy at the Annual Meeting. It is currently anticipated that votes will be counted and certified by an Inspector of Election who is currently expected to be either an employee of the Company or its transfer agent. In accordance with Delaware law, abstentions and "broker non-votes" (i.e. proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) will be treated as present for purposes of determining the presence of a quorum. For purposes of determining approval of a matter presented at the meeting, abstentions will be deemed present and entitled to vote and will, therefore, have the same legal effect as a vote "against" a matter presented at the meeting. Broker non-votes will be deemed not entitled to vote on the subject matter as to which the non-vote is indicated. Because of the requirement for an absolute majority of the outstanding Common Stock to approve the proposed amendment to the Certificate of Incorporation, broker non-votes will have the same effect as a vote "against" the proposed amendment. Broker non-votes will, however, have no legal effect on the vote on the election of directors or on any other particular matter which requires the affirmative vote of the holders of a majority of the shares of Common Stock represented at the Annual Meeting.

The officers of the Company who, in the aggregate own approximately 29.0% of the outstanding common stock of the Company on the Record Date, have indicated their intent to vote in favor of the nominees for director nominated by the Company and to amend the Certificate of Incorporation to increase the number of authorized shares of Preferred Stock.

The enclosed proxies will be voted in accordance with the instructions thereon. Unless otherwise stated, all shares represented by such proxy will be voted as instructed. Proxies may be revoked as noted above.

The entire cost of soliciting proxies, including the costs of preparing, assembling, printing and mailing this Proxy Statement, the proxy and any additional soliciting material furnished to stockholders, will be borne by the Company. Arrangements will be made with brokerage houses, banks and other custodians, nominees and fiduciaries to send proxies and proxy materials to the beneficial owners of stock, and the Company expects to reimburse such persons for their reasonable out-of-pocket expenses. Proxies may also be solicited by directors, officers or employees of the Company in person or by telephone, telegram or other means. No additional compensation will be paid to such individuals for these services.

ELECTION OF DIRECTORS

The Company's By-Laws provide that the Board of Directors of the Company is divided into three classes (Class I, Class II and Class III). At each Annual Meeting of Stockholders, directors constituting one class are elected for a three-year term. At this year's Annual Meeting of Stockholders, two (2) Class II directors will be elected to hold office for a term expiring at the Annual Meeting of Stockholders to be held in 2009. It is the intention of the Board of Directors to nominate Thomas C. Dearmin and George P. Farley as Class II directors. Each director will be elected to serve until a successor is elected and qualified or until the director's earlier resignation or removal.

At this year's Annual Meeting of Stockholders, the proxies granted by stockholders will be voted individually for the election, as directors of the Company, of the persons listed below, unless a proxy specifies that it is not to be voted in favor of a nominee for director. In the event either or both of the nominees listed below shall be unable to serve, it is intended that the proxy will be voted for such other nominees as are designated by the Board of Directors. Each of the persons named below has indicated to the Board of Directors that he will be available to serve.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE ELECTION OF THE NOMINEES SPECIFIED BELOW.

Compensation Committee Interlocks and Insider Participation

The Company did not have a compensation committee during 2005. The independent members of the board of directors performed this function during 2005. In March 2006, the Board established a Compensation Committee, which is currently comprised of Messrs. Hurley and Harlan.

Report on Executive Compensation

Except as set forth below, compensation of the Company's executive officers for the fiscal year ended December 31, 2005 was determined by the Board of Directors. There is no formal compensation policy for the Company's executive officers.

For 2005, total compensation for executive officers consisted of a combination of salaries, bonuses and stock option awards and was determined by the Board of Directors, based on the recommendation by the majority of "independent directors", as defined under Nasdaq Marketplace Rule 4200. None of the Company's executive officers has entered into an employment agreement with the Company. Following are the factors and criteria considered by the independent directors in 2005.

Base Salary. The independent directors reviewed the salaries of executive officers for reasonableness based on job responsibilities and reviewed compensation practices for comparable positions at corporations which compete with the Company in its business or are of comparable size and scope of operations. The independent directors' recommendations to the Board of Directors were based primarily on informal judgments reasonably believed to be in the best interests of the Company. In determining the base salaries of certain of the Company's executives, the independent directors consider the Company's performance and growth plans.

Bonuses. The independent directors recommended bonuses based on the Company's overall performance, profitability, working capital management and other qualitative and quantitative measurements, including individual performance goals based upon the Company's budget and financial objectives. In determining the amount of bonuses awarded, the independent directors considered the Company's revenues and profitability for the applicable period and each executive's contribution to the success of the Company.

Stock Options and Other Stock-based Awards. Stock option awards and other stock-based awards are intended to attract, retain and motivate personnel by affording them an opportunity to receive additional compensation based upon the performance of the Company's Common Stock. The size, grant and type of actual awards were determined by the Committee on an individual basis, taking into account the individual's role in the Company and standard principals of reward, retention and recognition to which option grants are geared. The independent directors' recommendations as to the size of actual awards to individual executives were subjective, after taking into account the relative responsibilities and contributions of the individual employee.

Following is a description of the Company's stock option plans and stock incentive plan.

In September 1991, the Company adopted a stock option plan (the "1991 Plan") pursuant to which 700,000 shares of Common Stock have been reserved for issuance upon the exercise of options designated as either (i) options intended to constitute incentive stock options ("ISOs") under the Internal Revenue Code of 1986, as amended (the "Code") or (ii) non-qualified options ("NQOs"). ISOs may be granted under the 1991 Plan to the Company's employees and officers. NQOs may be granted to consultants, directors (whether or not they are employees), and to the Company's employees or officers.

The purpose of the 1991 Plan is to encourage stock ownership by certain of the Company's directors, officers and employees and certain other persons instrumental to the Company's success and give them a greater personal interest in the Company's success. The 1991 Plan is administered by the Board of Directors. The Board, within the limitations of the 1991 Plan, determines the persons to whom options will be granted, the number of shares to be covered by each option, whether the options granted are intended to be ISOs, the duration and rate of exercise of each option, the option purchase price per share and the manner of exercise, the time, manner and form of payment upon exercise of an option, and whether restrictions such as repurchase rights in Ionatron Inc. are to be imposed on shares subject to options.

ISOs granted under the 1991 Plan may not be granted at a price less than the fair market value of the common stock on the date of grant (or 110% of fair market value in the case of persons holding 10% or more of the voting stock of Ionatron Inc.). The aggregate fair market value of shares for which ISOs granted to any employee are exercisable for the first time by such employee during any calendar year (under all of the Company's stock option plans and those of any related corporation) may not exceed \$100,000. NQOs granted under the 1991 Plan may not be granted at a price less than the fair market value of the Common Stock on the date of grant. Options granted under the 1991 Plan will expire not more than ten years from the date of grant (five years in the case of ISOs granted to persons holding 10% or more of the Company's voting stock).

The Company has adopted a Non-Employee Director Stock Option Plan (the "Director Plan"). Only non-employee directors of the Company are eligible to receive grants under the Director Plan. The Director Plan provided that eligible directors automatically receive a grant of options to purchase 5,000 shares of common stock at fair market value upon first becoming a director and, thereafter, an annual grant, in January of each year, of 5,000 options at fair market value. Options to purchase an aggregate of up to 100,000 shares of Common Stock are available for automatic grants under the Director Plan. No additional grants shall be made under the Director Plan.

The Company has adopted a 1995 Stock Option Plan ("1995 Plan") which provides for grants of options to purchase up to 1,500,000 shares of common stock. The Board of Directors or the Stock Option committee, as the case may be, will have discretion to determine the number of shares subject to each NQO (subject to the number of shares available for grant under the 1995 Plan and other limitations on grant set forth in the 1995 Plan), the exercise price thereof (provided such price is not less than the par value of the underlying shares of Common Stock), the term thereof (but not in excess of 10 years from the date of grant, subject to earlier termination in certain circumstances), and the manner in which the option becomes exercisable (amounts, intervals and other conditions). Directors who are also employed by the Company will be eligible to be granted ISOs or NQOs under such plan. The Board or committee, as the case may be, also has discretion to determine the number of shares subject to each ISO, the exercise price and other terms and conditions thereof, but their discretion as to the exercise price, the term of each ISO and the number of ISOs that may vest in any calendar year is limited by the same Code provisions applicable to ISOs granted under the 1995 Plan.

The Company has adopted a 1997 Stock Option Plan ("1997 Plan") which provides for grants of options to purchase up to 1,500,000 shares of Common Stock. The Board of Directors or the committee of the 1997 Plan, as the case may be, will have discretion to determine the number of shares subject to each NQO (subject to the number of shares available

for grant under the 1997 Plan and other limitations on grant set forth in the 1997 Plan), the exercise price thereof (provided such price is not less than the par value of the underlying shares of Common Stock), the term thereof (but not in excess of 10 years from the date of grant, subject to earlier termination in certain circumstances), and the manner in which the option becomes exercisable (amounts, intervals and other conditions). Directors who are also employees of the Company will be eligible to be granted ISOs or NQOs under such plan. The Board or committee, as the case may be, also has discretion to determine the number of shares subject to each ISO, the exercise price and other terms and conditions thereof, but their discretion as to the exercise price, the term of each ISO and the number of ISOs that may vest in any calendar year is limited by the same Code provisions applicable to ISOs granted under the 1997 Plan.

The Company has also adopted a 1999 Stock Option Plan (“1999 Plan”) which provides for grants of options to purchase up to 900,000 shares of common stock. The Board of Directors or the committee of the 1999 Plan, as the case may be, will have discretion to determine the number of shares subject to each NQO (subject to the number of shares available for grant under the 1999 Plan and other limitations on grant set forth in the 1999 Plan), the exercise price thereof (provided such price is not less than the fair market value of the underlying shares of Common Stock), the term thereof (but not in excess of 10 years from the date of grant, subject to earlier termination in certain circumstances), and the manner in which the option becomes exercisable (amounts, intervals and other conditions). Directors who are also employees of the Company will be eligible to be granted ISOs or NQOs under such plan. The Board or committee, as the case may be, also has discretion to determine the number of shares subject to each ISO, the exercise price and other terms and conditions thereof, but their discretion as to the exercise price, the term of each ISO and the number of ISOs that may vest in any calendar year is limited by the same Code provisions applicable to ISOs granted under the 1999 Plan.

The Company has adopted a 2004 Stock Incentive Plan (“2004 Plan”), which provides for the grant of any or all of the following types of awards: (1) stock options, which may be either incentive stock options or non-qualified stock options, (2) restricted stock, (3) deferred stock and (4) other stock-based awards. A total of 5,000,000 shares of common stock have been reserved for distribution pursuant to the 2004 Plan. As of December 31, 2005 and 2004, approximately 1,074,000 and 651,000 shares, respectively, of common stock issuable upon exercise of options have been granted under the 2004 Plan.

The Company has, from time to time, also granted non-plan options to certain officers, directors, employees and consultants.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS:

Robert Howard, a significant stockholder and former Chairman of Ionatron, has provided funds from Ionatron’s inception of under a revolving credit arrangement. The maximum amount borrowed was \$5.3 million. After pay down of \$500,000 and contribution of \$2 million of the revolving credit into equity in the first quarter of 2004, the remainder of \$2.8 million was incorporated into a new \$3 million revolving credit arrangement with the same terms as the original revolving credit agreement. The maximum amount outstanding under the revolving credit arrangements during 2005 was \$2.9 million. Interest under the line of credit was approximately \$213,000 for the year ended December 31, 2005. The line of credit was paid in full in November 2005.

The Company leases office, manufacturing and storage space at its Tucson facility at an annual rental of \$330,000 under a non-cancelable operating lease agreement from a company that is partially owned by Messrs. Howard, Dearmin, Hayden, McCahon and Walik. The lease expires in November 2012, contains renewal options and an escalation provision in 2007 that increases the Company’s annual rent by \$49,500. The Company accounts for the escalation provision by straight-lining the rent expense. The Company is also responsible for certain property related costs, including insurance, utilities and property taxes.

PROPOSAL I

PROPOSAL TO AMEND THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF PREFERRED STOCK FROM 1,000,000 SHARES TO 2,000,000 SHARES

The Board of Directors has adopted a resolution unanimously approving and recommending to the Company's shareholders for their approval of an amendment to the Certificate of Incorporation of the Company which would increase the number of authorized shares of preferred stock, par value \$0.01 per share ("Preferred Stock") from 1,000,000 shares to 2,000,000 shares. Of the 1,000,000 shares of Preferred Stock authorized for issuance, 950,000 shares are designated as 6.5% Series A Redeemable Convertible Preferred Stock and 20,100 shares are designated as Series A Junior Participating Preferred Stock. As a result, there are only 29,900 shares of Preferred authorized but undesignated.

Management believes that the availability of additional Preferred Stock may prove useful in connection with financing the capital needs of the Company, possible future acquisitions and mergers, employee incentive or compensation plans, or other purposes. The authorization will enable the Company to act promptly if appropriate circumstances arise which require the issuance of such shares. The Company has historically financed its working capital requirements through cash flow from operations, the issuance of debt and equity securities loans from officers and option exercises. The Company does not currently have any plans to designate or issue any additional services or shares of Preferred Stock.

The proposed amendment would authorize the Board of Directors to provide for the issuance, from time to time, of additional shares of Preferred Stock in one or more series and to fix the terms of each series. Each series of Preferred Stock could, as determined by the Board of Directors at the time of issuance, rank, in respect of dividends and liquidation, senior to the Common Stock.

In establishing the terms of a series of Preferred Stock, the Board of Directors would be authorized to set, among other things, the number of shares, the dividend rate and preferences, the cumulative or non-cumulative nature of dividends, the redemption provisions, the sinking fund provisions, the conversion rights, the amounts payable, and preferences, in the event of the voluntary or involuntary liquidation of the Company, and the voting rights in addition to those required by law. Such terms could include provisions prohibiting the payment of Common Stock dividends or purchases by the Company of Common Stock in the event dividends or sinking fund payments on the Preferred Stock were in arrears. In the event of liquidation, the holders of Preferred Stock of each series might be entitled to receive an amount specified for such series by the Board of Directors before any payment could be made to the holders of Common Stock.

The authorization of new shares of Preferred Stock will not, by itself, have any effect on the rights of the holders of shares of Common Stock. Nonetheless, the issuance of one or more series of Preferred Stock could affect the holders of shares of the Common Stock in a number of respects, including the following: (a) if voting rights are granted to any newly issued series of Preferred Stock, the voting power of the Common Stock will be diluted, (b) the issuance of Preferred Stock may result in a dilution of earnings per share of the Common Stock, (c) dividends payable on any newly issued series of Preferred Stock will reduce the amount of funds available for payment of dividends on the Common Stock, (d) future amendments to the Certificate of Incorporation affecting the Preferred Stock may require approval by the separate vote of the holders of the Preferred Stock or in some cases the holders of shares of one or more series of Preferred Stock (in addition to the approval of the holders of shares of the Common Stock) before action can be taken by the Company, and (e) make more difficult or discourage an attempt to obtain control of the Company by means of a merger, tender offer, proxy consent or otherwise.

The Board of Directors has unanimously determined that the proposed amendment to the Company's Certificate of Incorporation is in the best interest of the Company and its shareholders. The Board of Directors therefore recommends a vote FOR adoption of the proposed amendment to increase the number of authorized shares of Preferred Stock from 1,000,000 shares to 2,000,000 shares. The affirmative vote of the holders of at least a majority of the issued and outstanding shares of the Company's Common Stock entitled to vote at the Special Meeting is required to approve the amendment to the Certificate of Incorporation.

Recommendation

The Board of Directors unanimously recommends that shareholders vote "FOR" this proposal.

Based upon the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.
