On October 6, 2006 the Company announced that the Securities and Exchange Commission issued a formal order of investigation concerning among other things certain accounting issues regarding the Company. In accordance with the Company's established corporate governance procedures, the Board of Directors has referred this matter to its Audit Committee (the "Audit Committee"). The Audit Committee has commenced an investigation and will determine what action, if any, the Company will take.

No conclusions have been reached by the Audit Committee to date, and the Company cannot predict whether the results of the investigation will have any impact on its financial results for the quarter and nine-month period ended September 30, 2006 or for any other period. As a result of the ongoing investigation, the Company will not be able to file its Quarterly Report on Form 10-Q for the quarter ended September 30, 2006 by the required filing date.

The Company will seek to resolve these issues as quickly as practicable and plans to file its Form 10-Q as soon as possible following the completion of the investigation, however the Company does not believe that the 10-Q will be filed within the 5 day extension period provided.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form NT 10-Q/A

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As previously disclosed in a press release dated October 6, 2006, the Company's Audit Committee has initiated an investigation into the accounting and financial reporting of certain business transactions. In connection therewith, the Board engaged an independent, nationally recognized law firm to conduct an investigation to determine whether or not the documentation and analyses is sufficient to support the initial recording of certain asset acquisition transactions, including Sanswire and HotZone transactions and, whether or not the applicable and consistent accounting treatment for the separate and unrelated transactions occurred.

If it is determined that the initial accounting treatment was correct, then no prior restatement of the previously reported financial statements would be necessary, If is determined that the transactions were incorrectly capitalized as "Intangible assets", the applicable prior reporting period(s) would require restatement. In addition, if it is determined that the assets were recorded properly, then the adequacy of the documentation, the procedures applied and the analyses performed in order to carry those assets at their original cost, must be then reviewed to determine whether or not management correctly concluded that there were no assets impairments prior to and including this period.

If management correctly evaluated whether or not the asset impairment rules were complied with, then the final investigation phase will be the determination as to if and when any impairments occurred, in which management did not record adjustments to the carrying amount of the Intangible Assets.

The Audit Committee will additionally be reviewing the Company's revenue recognition policies to determine if revenues were properly accounted for and reported, with a view towards making any corrections that may be necessary.
