BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES (A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS August 31, 2007

INTERIM FINANCIAL STATEMENTS:

The condensed consolidated financial statements as of August 31, 2007 and for the three and six months ended August 31, 2007 and 2006 are unaudited. However, in the opinion of management of the Company, these financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary to present fairly the financial position and results of operations for such interim periods. The results of operations for the interim periods presented are not necessarily indicative of the results to be obtained for a full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2007.

BASIS OF CONSOLIDATION:

The consolidated financial statements include the accounts of Biophan Technologies, Inc. ("Biophan"), its wholly owned subsidiaries, LTR Antisense Technology, Inc.("Antisense") and Nanolution Technologies, Inc., formerly MRIC Drug Delivery Systems, LLC, ("Nanolution"), its majority owned subsidiaries Biophan Europe GmbH ("Biophan Europe"), formerly aMRIs GmbH, and TE Bio LLC ("TE Bio"), and Myotech, LLC ("Myotech"), a variable interest entity, collectively referred to as the "Company". All significant inter-company accounts and transactions have been eliminated in consolidation.

COMPANY HISTORY:

The Company was incorporated under the laws of the State of Idaho on August 1, 1968 and on January 12, 2000, changed its domicile to Nevada by merging into a Nevada corporation, and on July 19, 2001, changed its name to Biophan Technologies, Inc. From the inception of the current line of business on December 1, 2000, the Company has not generated any material revenues and operating profits. Therefore, the Company is in the development stage and will remain so until the realization of significant revenues and operating profits. The Company's ability to continue in business is dependent upon maintaining sufficient financing or attaining future profitable operations.

PRINCIPAL BUSINESS ACTIVITIES:

The primary mission is to develop and commercially exploit technologies for improving the performance, and as a result, the competitiveness of biomedical devices manufactured by third party companies. The Company possesses technologies for enabling biomedical devices, both implantable and those used in diagnostic and interventional procedures, to be safe (do not harm the patient or physician) and image compatible (allow effective imaging of the device and its surrounding tissue) with MRI (magnetic resonance imaging). The Company is also developing and marketing a system for generating power for implantable devices from body heat, and a series of implantable devices including MRI-visible vascular implants such as a vena cava filter, a heart valve and an occluder for the treatment of atrial septal defects, a hole in the wall separating the left and right chambers of the heart. The Company's first licensee for several of these technologies is Boston Scientific (NYSE: BSX). The Company is also an owner of a substantial minority interest, with rights to take a majority interest, in Myotech,(accounted for as a variable interest entity) developer of the Myotech Circulatory Support System, a cardiac assist device that does not contact circulating blood and utilizes technology that has the potential to become a standard of care in the device market for treating multiple types of acute and chronic heart failure including congestive heart failure and sudden cardiac arrest.

DEFERRED TAXES:

Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted rates expected to apply when the differences are expected to be realized. A valuation allowance is recognized if it is anticipated that some or all of the deferred tax asset may not be realized.

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company adopted FIN 48 effective March 1, 2007. The Company does not believe that FIN 48 had a material effect on its consolidated financial position or results of operations as the Company has no unrecognized tax benefits and has not incurred any interest or penalties in any of its tax jurisdictions. Should any such interest or penalties be assessed, they will be charged to interest expense and other expense as incurred. The Company has open tax years beginning in fiscal years ended year February 28, 2004 through 2007. None of the Company's tax returns has been examined by federal or state jurisdictions during these periods.

REGISTRATION RIGHTS AGREEMENT:

In December 2006, the FASB issued Staff Position No. EITF 00-19-2 ("FSP"). This FSP addresses an issuer's accounting for registration payment arrangements and specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement should be separately recognized and measured in accordance with FASB No. 5. The guidance in this FSP amends FASB Statements 133 and 150 and FASB Interpretation No. 45 to include scope exceptions for registration payment arrangements. This FSP further clarifies that a financial instrument subject to a registration payment arrangement should be accounted for without regard to the contingent obligation to transfer consideration pursuant to the registration payment arrangement. This guidance is effective for financial statements issued for fiscal years beginning after December 15, 2006. The Company has adopted this FSP in the current fiscal year as it pertains to the issuance of the Senior Secured Convertible Notes and related warrants as explained in the Note captioned "Senior Secured Convertible Notes".

RECENT ACCOUNTING PRONOUNCEMENTS:

Management does not believe that any recently issued, but not yet effective accounting standards, if currently adopted, would have a material effect on the accompanying financial statements.

INVESTMENT IN MYOTECH, LLC:

Effective November 30, 2005, we entered into a Securities Purchase Agreement for the acquisition of an initial 35% interest in Myotech, LLC ("Myotech"), a New York limited liability company, whereby we exchanged 4,923,080 shares of our common stock, par value \$.005, for 3,768,488 Class A (voting) units of Myotech.

Based upon the terms of the Securities Purchase Agreement, we were obligated to purchase for cash consideration of \$2.225 million an additional 811,037 Class A units. We may elect to acquire up to an additional 3,563,097 Class A units for further cash consideration of up to \$9.775 million, over a 24-month period, which may result in the Company owning a majority interest in Myotech. During the three month period ended February 28, 2006, Biophan provided \$1,185,000 of additional funding for 431,946 newly issued Class A units of Myotech. During the year ended February 28, 2007, Biophan has provided \$1,040,000 of additional funding satisfying the cash consideration of \$2.225 million cited above, for 379,091 newly issued Class A units of Myotech. In addition, Biophan has also provided an additional investment of \$1,994,349 to Myotech against milestone 2 in the year ended February 28, 2007 for 726,963 newly issued Class A units, which increased our ownership to 43.7%. Additional investments of \$395,685 were made during the six months ended August 31, 2007 for 144,232 additional newly issued Class A units, which raised our ownership percentage to 44.1%.

We have determined that Myotech is a Variable Interest Entity within the meaning of FIN 46(R) and that we are the primary beneficiary (as defined in FIN 46(R)). Consequently, the financial statements of Myotech have been consolidated with our consolidated financial statements for all periods ending on or after November 30, 2005, the date of our initial investment in Myotech.

On October 2, 2007, we entered into a revised Securities Purchase Agreement with Myotech pursuant to which the Company agreed to purchase from Myotech an aggregate of 15,496,547 membership units for an aggregate purchase price of \$3,200,000. Prior to the execution of the Agreement Biophan owned 5,408,194 Class A Membership Units of Myotech. In accordance with the Agreement, upon execution of the Agreement Biophan received 5,000,000 Class A Membership Units and was to receive an addition 4,316,547 Class A Membership Units upon the payment of an aggregate initial purchase price of \$1,200,000. Thereafter, upon the satisfaction of certain conditions, Biophan will purchase an additional 6,180,000 Class A Membership Units of Myotech for a purchase price of \$2,000,000. As a result of these investments, our ownership percentage in Myotech will increase to approximately 75%.

The following is selected financial data for Myotech, LLC at August 31, 2007 and 2006 and for the six months then ended August 31:

	2007	2006
Total current assets	11,443	\$ 18,719
Intangible assets, net of amortization	22,385,252	23,762,804

LINE OF CREDIT AGREEMENTS:

On May 27, 2005, we entered into a Line of Credit Agreement with Biomed Solutions, LLC, a related party, whereby Biomed agreed to provide a line of credit facility of up to \$2 million. Borrowings under the line, bear interest at 8% per annum, are payable on demand and are convertible at Biomed's election, into the Company's common stock at 90% of the average closing price for the 20 trading days preceding the date of borrowings under the line. In June 2005, the Company borrowed the entire \$2 million under the line in two separate draws of \$1 million each. In accordance with the agreement, Biomed received warrants to purchase 500,000 shares of the Company's common stock at an exercise price of 110% of the average closing price for the 20 trading days preceding the date of execution of the credit agreement. The Company recorded a discount on the borrowings of \$958,160 due to the beneficial conversion feature of the note as well as for the value of the warrants. The discount was amortized as additional interest expense over the term of the note. In August 2005, Biomed elected to convert \$1 million of the note plus accrued interest into 480,899 shares of common stock at which time, the remaining discount related to the \$1 million portion of the loan was fully expensed. On October 7, 2005, we repaid \$500,000 of principal and all accrued interest on the loan. The balance of borrowings on the line was \$500,000 at August 31, 2007.

On January 24, 2006, we entered into an additional Line of Credit Agreement (the "Line of Credit Agreement") with Biomed Solutions, LLC, pursuant to which Biomed committed to make advances to us, in an aggregate amount of up to \$5,000,000. Under the Line of Credit Agreement, advances may be drawn down in such amounts and at such times as we determine upon 15 days prior notice to Biomed, except that we may not draw down more than \$1,500,000 in any 30-day period. Amounts borrowed bear interest at the rate of 8% per annum and were convertible into shares of our Common Stock at the rate of \$1.46 per share. Biomed's obligation to lend to us under the Line of Credit Agreement expires on June 30, 2007, on which date the entire amount borrowed by us (and not converted into shares of our Common Stock) becomes due and payable. In connection with the establishment of the credit facility, we issued to Biomed a warrant to purchase up to 1,198,630 shares of our Common Stock at an exercise price of \$1.89 per share. The Company recorded a discount on the borrowings of \$1,678,425 due to the beneficial conversion feature of the note as well as for the value of the warrant.

On October 11, 2006, in connection with our Securities Purchase Agreement dated October 11, 2006 with Iroquois Master Fund Ltd and other private investors (the "Purchase Agreement"), we amended our January 24, 2006 Line of Credit Agreement (the "Biomed Line of Credit Agreement") with Biomed and the Convertible Promissory Note in the original principal amount of \$5,000,000 issued by us to Biomed on January 24, 2006 pursuant to the Biomed Line of

Credit Agreement (the "\$5,000,000 Biomed Note"). The amendment reduced the price at which the \$5,000,000 Biomed Note is convertible into shares of our Common Stock from \$1.46 per share to a conversion price of \$0.67. In connection with the Purchase Agreement, we also entered into a Subordination and Standstill Agreement (the "Subordination Agreement") with Biomed and the investors who are parties to the Purchase Agreement, pursuant to which Biomed agreed (i) to subordinate its rights to payment under the \$5,000,000 Biomed Note and the Convertible Promissory Note in the original principal amount of \$2,000,000 issued by us to Biomed on May 27, 2005 to the rights of the investors under the Notes and (ii) to convert the entire outstanding amount of principal and interest due under the \$5,000,000 Biomed Note in excess of \$700,000 into shares of our common stock upon the effectiveness of an amendment to our Articles of Incorporation to increase the number of our authorized shares which was effective May 9, 2007. On July 19, 2007, Biomed converted \$2,180,000 of principal and \$195,899 of accrued interest into a total of 3,546,118 shares of our common stock leaving a balance outstanding at August 31, 2007 of \$1,750,000.

The fair value of the notes is not readily determinable as there is a limited market for such related party debt.

SENIOR SECURED CONVERTIBLE NOTES:

On October 11, 2006, we entered into a Securities Purchase Agreement (the "Purchase Agreement") with 10 private investors led by Iroquois Master Fund Ltd ("Iroquois"). Pursuant to the Purchase Agreement, on October 12, 2006 we issued \$7,250,000 of Senior Secured Convertible Notes (the "Notes") to the investors and received proceeds of \$6,219,880 after paying estimated fees and expenses of \$1,030,120 related to the transaction. The holders of the Notes may elect to convert the Notes at any time into shares of our common stock based upon a price of \$0.67 per share (the "Conversion Price"). Interest on the outstanding principal amount under the Notes is payable quarterly at a rate equal to the six-month London InterBank Overnight Rate plus 500 basis points, with a minimum rate of 10% per annum and a maximum rate of 12% per annum, payable at our option in cash or shares of our common stock registered for resale under the Securities Act of 1933, as amended (the "Securities Act"). If we elect to make an interest payment in common stock, the number of shares issuable by us will be based upon the lower of (i) 90% of the 20-day trailing average volume weighted average price per share as reported on Bloomberg LP (the "VWAPS") or (ii) the Conversion Price. Principal on the Notes amortizes and payments are due in 33 equal monthly installments commencing four months following issuance of the Notes, and may be made at our option in cash or shares of our common stock registered for resale under the Securities Act. If we elect to make a principal payment in common stock, the number of shares issuable by us will be based upon the lower of (i) 87.5% of the 15-day trailing VWAPS prior to the principal payment date or (ii) the Conversion Price. Our obligations under the Notes are secured by a first priority security interest in substantially all of our assets pursuant to a Security Agreement dated as of October 11, 2006 among us, the investors and Iroquois, as agent for the investors (the "Security Agreement").

As further consideration to the investors, we issued to the investors one-year warrants to purchase an aggregate of 10,820,896 shares of our common stock at a price of \$0.67 per share. If the investors elect to exercise these one-vear warrants, they will also receive additional five-year warrants to purchase the shares of our common stock equal to the number of shares purchased under the one-year warrants, with 50% of the additional warrants having an exercise price of 115% of the per share purchase price, and the remaining 50% of the additional five-year warrants having an exercise price of 125% of the per share purchase price. We also issued to the investors five-year warrants to purchase an aggregate of 10,820,896 shares of our common stock. The first five-year warrants allow for the purchase of 5,410,448 shares of our common stock at an exercise price of \$0.81 per share, and the second five-year warrants allow for the purchase of 5,410,448 shares of our common stock at an exercise price of \$0.89 per share. The warrants contain anti-dilution protection that, should we issue equity or equity-linked securities at a price per common share below the exercise price of the five-year warrants, it will automatically adjust the exercise price of the warrants to the price at which we issue such equity or equity-linked securities. The total fair value of the warrants was \$14,554,105. The Company recorded a discount on the Notes of \$7,250,000 for the fair value of the related warrants. The excess of the fair value of the warrants over the carrying value of the notes, which amounted to \$7,304,105, was recognized as additional expense related to warrants in the statement of operations for the year ended February 28, 2007. The discount on the Notes is being amortized over the life of the Notes using the effective interest method. The discount amortization for the three months and six months ended August 31, 2007 amounted to \$905,197 and \$1,910,971_respectively, and is included in interest expense in the accompanying statements of operations.

We further agreed to register for resale under the Securities Act the common stock issuable upon the exercise of the warrants and any shares of common stock we may issue to the holders of the Notes in connection with payments of interest and principal, or which we are obligated to issue upon any conversion of the Notes at the option of the holders. Because we were unable to comply with various provisions of the registration requirements of the Purchase Agreement we incurred liquidated damages amounting to \$652,500 that have been accrued and was charged to operations during the three months ended May 31, 2007.

On February 21, 2007, we entered into a Forbearance Agreement (the "Forbearance Agreement") with the investors pursuant to which the investors agreed that, during the period commencing on February 16, 2007 and ending on the earlier of(i) March 31, 2007 or (ii) the date on which any Termination Event (as defined in the Forbearance

Agreement) first occurs (the "Forbearance Period"), they will forbear from exercising any and all of the rights and remedies which they may have against us or any of our assets under the Notes or the Purchase Agreement or at law or in equity as a result of any default under the Notes or as a result of the occurrence of certain events with respect to the Purchase Agreement. In exchange for entering into the Forbearance Agreement, we issued pro rata to the investors three-year warrants for the purchase of an aggregate of 60,000 shares of our common stock at an exercise price of \$0.51 per share (the "Fee Warrants").

Upon the issuance of the Fee Warrants, the exercise prices of the five-year warrants issued to the investors pursuant to the Purchase Agreement (the "Original Warrants") for the purchase of an aggregate of 10,820,896 shares of our common stock were automatically adjusted from \$0.81 per share and \$0.89 per share, respectively, to \$0.51 per share, and the number of shares of our common stock issuable upon exercise of the Original Warrants was automatically adjusted, proportionately, to an aggregate of 18,034,830 shares. In the Forbearance Agreement, the investors waived, with respect to the issuance of the Fee Warrants, application of similar anti-dilution adjustments contained in the Notes and in a third series of warrants for the purchase, on or before October 12, 2007, of an aggregate of 10,820,896 additional shares of our common stock at an exercise price of \$0.67 per share (the "One Year Warrants"). C.E. Unterberg Towbin, which holds a warrant for the purchase of 865,672 shares of our common stock at an exercise price of \$0.67 per share, issued to it in connection with its services as exclusive placement agent under the Purchase Agreement, separately agreed to waive, with respect to the issuance of the Fee Warrants, application of the anti-dilution provisions set forth in that warrant. Because the anti-dilution adjustment to the Original Warrants is accounted for as a modification of the Original Warrants, we recorded an expense for this modification in the period ended February 28, 2007.

On October 3, 2007, we entered into Amendment No. 1 to the Securities Purchase Agreement, Senior Secured Convertible Notes, Warrants and Security Agreement with the independent private investors. Pursuant to the Amendment, we agreed to amend the Notes to provide that even if the we elect to make a monthly installment payment in cash, the holder will have the right to convert any portion of the Note into common stock of the Company and apply the number of shares the holder would have received had we elected to make payment in common stock. In addition, the Conversion Price was reduced to \$0.15. The Amendment also amended the warrants to reduce the exercise prices of the various warrants to \$0.23. In exchange for the foregoing, the investors released certain intellectual property for the Security Agreement, allowing the Company to transfer and sell such intellectual property. Further, in the Amendment, we agreed to certain spending covenants in connection with the proceeds we will receive from the sale of the intellectual property under the Intellectual Property Assignment Agreement dated as of August 6, 2007 by and between Biophan and Medtronic, Inc.

FAIR VALUE OF WARRANT LIABILITY:

In accordance with the guidance provided by EITF 00-19, Accounting for Derivative Financial Instruments Indexed to and Potentially Settled in, a Company's Own Stock, we recorded a liability of \$10,157,937 for the fair value of the warrants related to the Senior Secured Convertible Notes at February 28, 2007 in order to provide for the possibility that we would not be able to comply with the registration rights of the lenders as contained in the Securities Purchase Agreement because we did not have sufficient available authorized shares to execute a potential conversion of the Notes and related warrants and thus we would be required to settle the contract in cash. In addition, since we did not have sufficient available authorized shares to execute a potential conversion of other outstanding warrants, if requested to do so by the grantees, we could be required to settle any conversion requests in cash. Therefore, we reclassified warrants with an approximate value of \$756,000 from equity to the warrant liability. The fair value of this amount was \$336,069 at February 28, 2007. The Company obtained stockholder approval to increase the authorized shares at a Special Meeting held on May 8, 2007. The total fair value of derivative liability, recorded at \$10,494,006 at February 28, 2007, was adjusted by \$4,339,214 to \$6,154,792 at May 8, 2007 resulting in a net non-cash income adjustment of that amount. The balance of the liability was then reclassified to additional paid-in capital.

STOCKHOLDERS' EQUITY:

The following changes in stockholders equity took place during the six months ended August 31, 2007:

	Number		
	of Shares		Additional Paid-
Event	Issued	Common Stock	in Capital
Balance at February 28, 2007	83,431,699	\$ 417,159	\$ 54,532,204
Fair value of derivative liability			6,154,792
Stock option expense			347,643
Balance at May 31, 2007	83,431,699	417,159	61,034,639
Conversion of Biomed loan principal and	3,546,118	17,730	2,358,169
accrued interest			
Principal and interest payments to investors	10,893,013	54,465	1,734,896
Stock issued for services	504,859	2,524	76,705
Additional equity contribution from other			40,049
Myotech members			
Stock option expense			1,596,986
Balance at August 31, 2007	98,375,689	\$ 491,878	\$ 66,841,444

On May 8, 2007, at a Special Meeting of Stockholders, a proposal to increase the authorized shares of common stock, \$.005 par value, from 125 million to 250 million was approved by the stockholders. As a result, additional paid-in capital was increased by \$6,154,792 due to the elimination of the fair value of warrant liability as of the date of the stockholder approval. In June 2007, principal and interest payments to holders of the Senior Secured Convertible Notes commenced.

SHARE-BASED COMPENSATION PLANS:

The Company has two stock-based compensation plans, entitled Biophan Technologies, Inc. 2001 Stock Option Plan and Biophan Technologies, Inc. 2006 Incentive Stock Plan (the "Plans") which are stockholder approved. The Plans provide for the grant of incentive and non-qualified stock options to selected employees, and the grant of non-qualified options to selected consultants and to directors and advisory board members. In addition, various other types of stock-based awards may be granted. The Plans are administered by the Compensation Committee of the Board and authorizes the grant of options or restricted stock awards for 13,000,000 shares under the 2001 Plan and 7,500,000 shares under the 2006 Plan. The Compensation Committee determines which eligible individuals are to receive options or other awards under the Plans, the terms and conditions of those awards, the applicable vesting schedule, the option price and term for any granted options, and all other terms and conditions governing the option grants and other awards made under the Option Plan. Non-employee directors also receive periodic option grants pursuant to the automatic grant program in effect for them under the 2006 Plan.

Effective March 1, 2006, the Company adopted SFAS No. 123 (revised), "Share-Based Payment" (SFAS 123(R)) utilizing the modified prospective approach. Prior to the adoption of SFAS 123(R), stock option grants to employees and directors were accounted for in accordance with APB Opinion No. 25, "Accounting for Stock Issued to Employees" (the intrinsic value method) and the disclosure-only provisions of SFAS 123, "Accounting for Stock-Based Compensation". Accordingly, employee compensation expense was recognized only to the extent that the fair value of our common stock on the date of grant exceeded the stock option exercise price.

Under the modified prospective approach, SFAS 123(R) applies to new grants and to grants that were outstanding on February 28, 2006 that are subsequently modified, repurchased or cancelled. Under the modified prospective approach, compensation cost recognized beginning in fiscal 2007 includes compensation cost for all share-based payments granted prior to, but not yet vested as of February 28, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123, and compensation cost for all share-based payments granted subsequent to February 28, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). Prior periods were not restated to reflect the impact of adopting the new standard.

We use the Black-Scholes option pricing model to estimate the fair value of stock-based awards with the following assumptions for the indicated periods:

	Three	Three	Six	Six	
	Months	Months			
	Ended Ended		Months Ended	Months Ended	
	August 31,	August 31,	August 31,	August 31,	
	2007	2006	2007	2006	
Expected volatility	78.8	119.7	75.2-81.4	119.7-121.8	
Risk-free interest rate	4.8%	5.35%	4.55%-4.8%	4.6%-5.35%	
Expected life of options 8 years	8 years	8 years	4-8 years		
Expected dividends	-0-	-0-	-0-	-0-	

The assumptions above are based on multiple factors, including historical exercise patterns of employees in relatively homogeneous groups with respect to exercise and post-vesting employment termination behaviors, expected future exercising patterns for these same homogeneous groups and the implied volatility of our stock price.

At August 31, 2007, there was \$722,440 of unrecognized compensation cost related to stock-based payments which is expected to be recognized over a weighted-average period of 1.11 years.

The following table represents stock option activity for the six months ended August 31, 2007:

Edgar Filing: BIOPHAN TECHNOLOGIES INC - Form 10-Q

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contract Life(years)
Outstanding options at 2/28/07	9,428,062	\$.96	
Granted	6,277,331	\$.22	
Exercised	-0-		
Forfeited	(631,500)	\$ 1.49	
Expired	-0-		
Outstanding options at 8/31/07	15,073,893	\$.67	7.72
Outstanding exercisable at 8/31/07	13,718,060	\$.59	7.72

In addition to stock option grants of 6,162,331 during the three months ended August 31, 2007, grants of common stock aggregating 504,859 shares were awarded to certain individuals pursuant to the 2006 Incentive Stock Plan.

At August 31, 2007, shares available for future stock option grants and other stock-based awards to employees and others under our 2001 Stock Option Plan were 1,189,481 and shares available for future stock option grants and other stock-based to employees and others under our 2006 Incentive Stock Plan were 522,833.

At August 31, 2007, the aggregate intrinsic value of shares outstanding was \$20,000, and the aggregate intrinsic value of options exercisable was \$20,000. No options were exercised during the six months ended August 31, 2007.

The following table summarizes our non-vested stock option activity for the six months ended August 31, 2007:

		Weighted-Average		
	Number of	Grant-Date 1	Fair	
	Shares	Value		
Non-vested stock options at				
2/28/07	1,994,583	\$.62	
Granted	6,277,331	\$.22	
Vested	(6,454,831)	\$.26	
Forfeited	(461,250)	\$.50	
Non-vested stock options at				
8/31/07	1,355,833	\$.66	

CONTINGENCIES:

We are not a party to any material legal proceedings and there are no material legal proceedings pending with respect to our property, except as noted below. We are not aware of any legal proceedings contemplated by any governmental authorities involving either us or our property. None of our directors, officers or affiliates is an adverse party in any legal proceedings involving us or our subsidiaries, or has an interest in any proceeding which is adverse to us or our subsidiaries.

The Company is pursuing legal claims against one of its former law firms and certain of its attorneys. Review of the firm's work product and bills revealed questions about the firm's billing practices and other activities. The amount of potential damages has not yet been quantified. Also, the law firm has asserted claims seeking payment of additional legal fees, which claims the Company has denied. The litigation is in an early stage. While, as with any legal proceedings, no assurance can be given as to ultimate outcome, management believes that the outcome of the litigation will not have a material adverse effect upon the Company's financial condition. Accordingly, adjustments, if any that might result from the resolution of this matter have not been reflected in the financial statements.

On April 5, 2007, SBI Brightline LLC and SBI Brightline XI, LLC brought suit against us and Biomed Solutions, LLC in the Superior Court of Orange County, California. The suit alleges, among other things, that in September 2006 we entered into an agreement to terminate the Stock Purchase Agreement dated as of May 27, 2005 and amended on January 8, 2006, between us and SBI Brightline XI, LLC, and seeks unspecified monetary damages and an order by the Court deeming the Stock Purchase Agreement to be terminated. We believe the allegations made by SBI are without basis in fact and in response moved for dismissal of the complaint. The plaintiffs withdrew their complaint following our motion and filed an amended complaint containing nearly identical allegations. We intend to continue to defend the law suit vigorously, including seeking dismissal of the amended complaint. Because of the potential costs of litigation and the anticipated demands that our defense may place on the time and attention of our management our defense of this matter, regardless of the outcome, could have a material adverse effect on our business and operations.

SUBSEQUENT EVENT:

On August 6, 2007, we entered into an Intellectual Property Assignment Agreement with Medtronic, Inc., a Minnesota corporation, pursuant to which we agreed to transfer and sell to Medtronic all of our interest in and to certain intellectual property owned by us for an aggregate purchase price of \$11,000,000, which amount would have been reduced to \$10,500,000 if the closing did not occur within 60 days of the execution of the agreement. On October 5, 2007, we closed the transaction contemplated by the Intellectual Property Assignment Agreement, sold the foregoing intellectual property to Medtronic and received an aggregate of \$11,000,000 as the sale price.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

Our primary mission is to develop and commercially exploit technologies for improving the performance, and the corresponding competitiveness, of biomedical devices manufactured by third party companies. We do not currently employ our own manufacturing or distribution channels but rather rely on relationships with sub-contractors and/or partner companies. We develop technology protected by strong intellectual property targeted at specific markets within the medical technology sector.

COMPANY BUSINESS

During the three-month period ended August 31, 2007, we have accomplished the following:

- · On August 6, we initiated an agreement to sell a subset of our intellectual property portfolio to Medtronic for \$11 million. The portion that was sold is limited to technologies covering MRI safety of implantable devices such as pacemakers and neurostimulators. We received \$500,000 upon execution on August 6, \$500,000 on September 6 and the balance of the \$11 million was paid upon closing on October 5. Under this agreement, we maintain our license with Boston Scientific, including the \$250,000 annual minimum payments, as well as any royalties for vascular implants such as stents, as well as MRI visible devices such as catheters and guidewires.
- · We have continued collaboration with Myotech, LLC on development of the Myotech Circulatory Support System (CSS), a life-saving device that provides benefits and competitive advantages not possible with other circulatory support devices. In the past, first generation prototype versions of this technology (Direct Mechanical Ventricular Actuation) has saved human lives and holds tremendous promise of the treatment of acute heart failure. On October 5, 2007, we announced a new agreement with Myotech putting Biophan in control of Myotech, increasing our ownership to 68 percent, from 44 percent prior to the deal, in exchange for \$1.2 million in funding. Upon achieving certain milestones, Biophan will commit an additional \$2 million in funding in exchange for additional equity.
- · We recognized \$160,018 in revenue from licensing, grants, MRI testing, and consulting fees.
- · We have continued development of an MRI image compatible stent, capable of being imaged with MRI to detect the presence of restenosis (blood vessel narrowing) and blood clots after implantation. We are also developing an MRI visible heart valve, including the ability to place the valve under MRI guidance, which provides significant advantages over existing imaging procedures. Our technologies to enable stent and heart valve visibility are licensed exclusively to Boston Scientific (NYSE:BSX).
- · We have continued development of an MRI image compatible vena cava filter, which allows MR imaging of blood clots that may be present in the filter to help ensure the safe removal of the device. We are also developing a septal occluder device that can also be imaged and implanted under MRI guidance to treat conditions such as PFO (patent foramen ovale) and atrial septal defects, the latter being a hole in the septum between the left and right atria in the heart. This will be the first septal occluder to be visible as well as implantable under MRI.
- · Continued working under a Cooperative Research and Development Agreement (CRADA) with the FDA's Office of Science and Engineering Laboratories (OSEL) to research and define methods for measuring MRI safety of medical implants by examining the leads of cardiac rhythm management and neurostimulation devices.

We have determined that the technology that we control which is the most proven and most likely to produce revenues within the near term is the Myotech CSS. This technology is our primary areas of focus. Work on MRI visibility is

centered in Europe in our Biophan Europe subsidiary.

Other programs, such as the biothermal power supply that we have been developing with NASA, will take longer to develop, and we have decided to fund these projects through either government grants, strategic partners, or other structures that do not divert focus and resources from our short-term goals of capitalizing on our core business field.

The work done to date at NASA on the biothermal power supply has indicated that it may require an additional 18 months to determine if we can develop a significant improvement in performance of thermoelectric materials over the current state of the art, adequate to generate power from the available heat in the human body. We have secured one SBIR Phase 1 grant from the Department of Homeland Security, and another from the Department of Energy, for the development of the biothermal power supply, and we are pursuing additional grant and matching fund opportunities with other Federal agencies.

RESULTS OF OPERATIONS

The following table presents the dollar amount and percentage of changes from period to period of the line-items included in our Condensed Consolidated Statements of Operations:

	Three Mont		Incr.		Six Month Augus		Incr.

The following comments discuss the significant factors affecting the consolidated operating results of the Company comparing the three months ended August 31, 2007 to the three months ended August 31, 2006 and the six months ended August 31, 2007 to the six months ended August 31, 2006.

Comparison of the Three Months Ended August 31, 2007 to the Three Months Ended August 31, 2006.

Revenues:

Revenues were \$160,018 for the three months ended August 31, 2007 as compared to \$310,099 for the three months ended August 31, 2006. The decrease was due principally to the agreed-upon schedule of license fee payments and amortization thereof from Boston Scientific Scimed (\$125,000) and decreased operating revenues from our European

subsidiary, which consisted primarily of MRI-related testing and consulting services to medical device manufacturers (\$50,000).

Research and Development Expenses:

Research and development expenses decreased by 23%, or \$444,000. After factoring out an increase in non-cash charges relating to stock options expense (\$450,000) however, expenses decreased by 894,000, 51%. The decrease is attributable generally to our planned reductions in spending on our research and development projects, due to restructuring. The major areas of decreased expenses were Project Funding (\$580,000), Consulting (\$180,000), and Personnel (\$116,000).

General and Administrative Expenses:

General and administrative expenses increased by 15%, or \$229,000. After factoring out an increase in non-cash charges relating to stock options expense (\$889,000) However, other expenses decreased by \$660,000, or 35%. The decrease is attributable generally to our planned reductions in spending, due to restructuring. The major areas of decreased expenses were Public Relations (\$263,000), Personnel (\$117,000), Travel (\$76,000), Shareholder Expenses (\$74,000), Office Supply and Expense (\$56,000) and Consulting and Outside Services (\$43,000).

Other income (expense):

The major component of this category is interest expense, accounting for \$1,234,622 of a net total of \$1,026,255 for the three months ended August 31, 2007 compared with \$380,934 of a net total of \$329,508 for the three months ended August 31, 2006. Interest expense increased by \$853,688. The major areas attributable to the increase were due to interest (\$180,000), and discount (\$905,000) related to the Senior Secured Convertible Notes and a decrease in interest (\$359,000) related to the reduction of the Biomed Line of Credit.

Minority Interest in Myotech LLC:

The increase in this line-item is a direct effect of allocating the losses incurred by Myotech to the interest of the owners of Myotech other than Biophan.

Comparison of the Six Months Ended August 31, 2007 to the Six Months Ended August 31, 2006

Revenues:

Revenues were \$332,351 for the six months ended August 31, 2007 as compared to \$655,021 for the six months ended August 31, 2006. The decrease was due principally to the agreed-upon schedule of license fee payments and amortization thereof from Boston Scientific Scimed (\$315,500) and decreased operating revenues from our European subsidiary, which consisted primarily of MRI-related testing and consulting services to medical device manufacturers (\$82,000). There was also an increase in Grant revenues (\$75,000).

Research and Development Expenses:

Research and development expenses decreased by 38%, or \$1,712,137. After factoring out an increase in non-cash charges relating to stock options expense (\$267,000) however, expenses decreased by \$2,162,000, 49%. The decrease is attributable generally to our planned reductions in spending on our research and development projects, due to restructuring. The major areas of decreased expenses were Project Funding (\$1,360,000), Consulting (\$432,000), and Personnel (\$127,000).

General and Administrative Expenses:

General and administrative expenses decreased by 10%, or \$369,202. After factoring out an increase in non-cash charges relating to stock options expense (\$889,000) However, other expenses decreased by 1,258,000, or 36%. The decrease is attributable generally to our planned reductions in spending, due to restructuring. The major areas of decreased expenses were Public Relations (\$678,000), Personnel (\$128,000), Travel (\$100,000), Shareholder Expenses (\$70,000), Legal fees (\$142,000), Office Supply and Expense (\$44,000), and Consulting and Outside Services (\$241,000). Also, there was an increase in Accounting fees (\$202,000).

Other income (expense):

The major component of this category is interest expense, accounting for \$1,714,326 of a net other income of \$1,319,175 for the six months ended August 31, 2007 compared with \$684,407 of a net other expense of \$579,100 for the six months ended August 31, 2006. The major areas attributable to the increase were due to interest (\$342,000), discount (\$1,910,000), and a decrease in change in fair value of derivative liability (\$4,339,000) related to the Senior Secured Convertible Notes and a decrease in interest (\$570,000) related to the reduction of the Biomed Line of Credit. Other items attributable to the increase in net other income is the change in the fair value of warrant liability (\$3,434,000) and a decrease due to liquidated damages (\$652,500).

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

As of the date of our previous Quarterly Report on Form 10-Q, we disclosed and discussed certain information pertaining to our ability to continue as a going concern. We have been in the development stage since inception, incurring recurring losses from operations and, as of August 31, 2007, the Company's current liabilities exceeded its current assets by \$6,123,921. In addition, as of August 31, 2007, we were in default of our obligations to make payments of principal, interest and liquidated damages to holders of our Senior Secured Convertible Notes. These factors raise potential doubt about the Company's ability to continue as a going concern.

However, on October 3, 2007, we entered into Amendment No. 1 to the Securities Purchase Agreement, Senior Secured Convertible Notes, Warrants and Security Agreement with the independent private investors. Pursuant to the Amendment and related agreements, the aforementioned defaults were cured. In addition, the investors released certain intellectual property for the Security Agreement, allowing the Company to transfer and sell certain intellectual property to Medtronic, Inc.. Further, in the Amendment, we agreed to certain spending covenants in connection with the proceeds we will received from the sale of the intellectual property under the Intellectual Property Assignment

Agreement dated as of August 6, 2007 by and between Biophan and Medtronic. On October 5, 2007, we closed the transaction contemplated by the Intellectual Property Assignment Agreement, sold the foregoing intellectual property to Medtronic and received an aggregate of \$11,000,000 as the sale price.

In order to further address the current liquidity situation, management has instituted a cost reduction program that includes a reduction in quarterly operating expenses from approximately \$1,950,000 at this time last year to a cap of \$600,000 per quarter currently. In addition, the Company has reduced its investments in several product lines and pursued alternative funding vehicles in support of other projects.

We have also reorganized our efforts on funding the development of the Myotech Cardiac Support System device. On October 2, 2007, we entered into a revised Securities Purchase Agreement with Myotech, LLC in which we hold a 44% interest as of August 31, 2007. Pursuant to the Agreement, we agreed to purchase from Myotech an aggregate of 15,496,547 membership units for an aggregate purchase price of \$3,200,000. In accordance with the Agreement, we received an additional 5,000,000 Class A Membership Units and an additional 4,316,547 Class A Membership Units upon the payment of an aggregate initial purchase price of \$1,200,000. Thereafter, upon the satisfaction of certain conditions, Biophan will purchase an additional 6,180,000 Class A Membership Units of Myotech for a purchase price of \$2,000,000. As a result of these investments, our ownership percentage in Myotech will increase to approximately 75%.

The proceeds from the sale of intellectual property rights to Medtronic, along with the receipt in December 2007 of our third \$250,000 annual minimum payment under our license agreement with Boston Scientific, will provide adequate working capital resources for the funding of the Myotech device development and other operations for an estimated twenty-six months.

Capital Resources

Our current strategic plan does not indicate a need for material capital expenditures in the conduct of research and development activities.

We currently employ fourteen full-time individuals, twelve in the U.S. and two in Europe.

FORWARD LOOKING STATEMENTS

Forward looking statements in this Form 10-Q and in other documents incorporated herein, as well as in oral statements made by the Company, statements that are prefaced with the words "may," "will," "expect," "anticipate," "continue," "estimate," "project," "intend," "designed" and similar expressions, are intended to identify forward-looking statements regarding events, conditions, and financial trends that may affect the Company's future plans of operations, business strategy, results of operations and financial position. These statements are based on the Company's current expectations and estimates as to prospective events and circumstances about which the Company can give no firm assurance. Further, any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update any forward-looking statement to reflect subsequent events or circumstances. Forward-looking statements should not be relied upon as a prediction of actual future financial condition or results. These forward-looking statements, like any forward-looking statements, involve risks and uncertainties that could cause actual results to differ materially from those projected or unanticipated.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Derivative Financial Instruments, Other Financial Instruments, and Derivative Commodity Instruments

As of August 31, 2007, the Company did not participate in any derivative financial instruments, or other financial and commodity instruments for which fair value disclosure would be required under SFAS No. 107.

Primary Market Risk Exposures

The Company's primary market risk exposures are in the areas of interest rate risk and foreign currency exchange rate risk. The Company's investment portfolio of cash equivalents is subject to interest rate fluctuations, but the Company believes this risk is immaterial due to the short-term nature of these investments. For the three and six months ended August 31, 2007, foreign currency translation gains were approximately \$1,594 and \$2,900 respectively, as a result of consolidating the Company's foreign subsidiaries. During the periods, the Company did not engage in any foreign currency hedging activities.

ITEM 4. CONTROLS AND PROCEDURES

Based on their evaluation as of the end of the period covered by this quarterly report on Form 10-Q, our principal executive officer and principal financial officer, with the participation and assistance of our management, concluded that our disclosure controls and procedures, as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, were effective in design and operation. There have been no changes in our system of internal control over financial reporting in connection with the evaluation by our principal executive officer and principal financial officer during our fiscal quarter ended August 31, 2007 that have materially affected, or are reasonably likely to materially

affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Except as noted below, we are not a party to any material legal proceedings and there are no material legal proceedings pending with respect to our property, except as noted below. We are not aware of any legal proceedings contemplated by any governmental authorities involving either us or our property. None of our directors, officers or affiliates is an adverse party in any legal proceedings involving us or our subsidiaries, or has an interest in any proceeding which is adverse to us or our subsidiaries.

The Company is pursuing legal claims against one of its former law firms and certain of its attorneys. Review of the firm's work product and bills revealed questions about the firm's billing practices and other activities. The amount of potential damages has not yet been quantified. Also, the law firm has asserted claims seeking payment of additional legal fees, which claims the Company has denied. The litigation is in an early stage. While, as with any legal proceedings, no assurance can be given as to ultimate outcome, management believes that the outcome of the litigation will not have a material adverse effect upon the Company's financial condition. Accordingly, adjustments, if any that might result from the resolution of this matter have not been reflected in the financial statements.

On April 5, 2007, SBI Brightline LLC and SBI Brightline XI, LLC brought suit against us and Biomed Solutions, LLC in the Superior Court of Orange County, California. The suit alleges, among other things, that in September 2006 we entered into an agreement to terminate the Stock Purchase Agreement dated as of May 27, 2005 and amended on January 8, 2006, between us and SBI Brightline XI, LLC, and seeks unspecified monetary damages and an order by the Court deeming the Stock Purchase Agreement to be terminated. We believe the allegations made by SBI are without basis in fact and in response moved for dismissal of the complaint. The plaintiffs withdrew their complaint following our motion and filed an amended complaint containing nearly identical allegations. We intend to continue to defend the law suit vigorously, including seeking dismissal of the amended complaint. Because of the potential costs of litigation and the anticipated demands that our defense may place on the time and attention of our management our defense of this matter, regardless of the outcome, could have a material adverse effect on our business and operations.

ITEM 1A. RISK FACTORS

There are no material changes from risk factors as previously disclosed in the Company's Form 10-K for the fiscal year ended February 28, 2007, Form S-1, Amendment No. 4, dated May 24, 2007, Form S-8 dated August 9, 2007 and form S-8 dated September 4, 2007.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not applicable.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

In connection with our Securities Purchase Agreement dated October 11, 2006 with Iroquois Master Fund Ltd and other private investors we are required to make scheduled payments of principal and interest. Beginning on December 1, 2006 we were obligated to make quarterly interest payments and monthly payments of \$219,697 principal. During the six months ended August 31, 2007, we made scheduled payments in stock but remained in technical default due to non-payment of past-due principal and liquidated damages of \$652,500. However, on October 3, 2007, we entered into Amendment No. 1 to the Securities Purchase Agreement, Senior Secured Convertible Notes, Warrants and Security Agreement with the independent private investors. Pursuant to the Amendment and related agreements, the aforementioned defaults were cured.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. EXHIBITS

Exhibit No.	Exhibit Description	Location
