FORWARD LOOKING STATEMENTS

When used in this Quarterly Report on Form 10-Q, the words "believes", "anticipates", "expects", and similar expressions are intended to identify forward-looking statements. These statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected.

In addition to seasonal fluctuations, our quarterly and annual operating results are affected by a wide variety of other factors that could materially and adversely affect revenues and profitability, including changes in consumer preferences, tastes and eating habits; increases in food, labor and other operating costs; the availability of food acceptable to our quality standards at acceptable prices; the availability of qualified labor; national, regional and local economic and weather conditions; promotional timings and seasonality; demographic trends and traffic patterns; changes in travel and tourism tendencies, particularly in light of world events; competition from other restaurants and food service establishments; availability of third party financing to fund capital or operating activities, if required; and the timing, costs and charges relating to restaurant openings, closings and remodelings. As a result of these and other factors, we may experience material fluctuations in future operating results on a quarterly or annual basis, which could materially and adversely affect its business, financial condition, operating results, and stock price. Furthermore, this document and other documents filed by us with the Securities and Exchange Commission ("SEC") contain certain forward-looking statements with respect to our business and the industry in which we operate. These forward-looking statements are subject to certain risks and uncertainties, including those mentioned above, which may cause results to differ significantly from these forward-looking statements. We undertake no obligation to update these forward looking statements on a regular basis. An investment in our company involves various risks, including those mentioned above and those that are detailed from time-to-time in our other filings with the SEC.

Any forward-looking statements included in this Quarterly Report reflect our beliefs only as of the date of this document. We do not undertake any obligation to publicly release the results of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events.

Non-cash operating and financing activities:

- Financing costs of \$100,800 for the issuance of 224,000 shares of our common stock relating to the extension of the related party line of credit was applied to Common Stock and Paid in Capital in the first quarter of 2007.
- Accruals for bonuses of \$12,862 and \$5,624 offset reductions in depreciation expense in 2007 and 2006, respectively.

See accompanying notes to consolidated financial statements.

SHELLS SEAFOOD RESTAURANTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, these statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for audited financial statements. Our management believes that all disclosures contained herein are sufficient for interim financial reporting purposes and that all material adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

The consolidated financial statements of Shells Seafood Restaurants, Inc. (the “Company”, “we”, “us”, or “our”) should be read in conjunction with the audited consolidated financial statements and notes thereto contained in the Form 10-K, as amended, for the year ended December 31, 2006 filed with the Securities and Exchange Commission. Certain prior year amounts have been reclassified in the accompanying condensed consolidated financial statements to conform to the current year presentation.

NOTE 2. LONG TERM DEBT

In September 2007, we refinanced the note on our Melbourne, Florida joint venture restaurant property, which was to mature in October 2007. The refinancing included the principal balance owed of \$407,000, as well as an additional \$200,000, of which \$100,000 was received prior to September 30, 2007, to cover a significant portion of that restaurant’s remodeling costs. The note matures on September 15, 2012, and has monthly payments based on a 15-year amortization at a fixed interest rate of 7.91%. As a condition of the note, we have agreed to maintain our commercial bank accounts with the lender and to maintain a minimum debt service coverage ratio for the Melbourne joint venture company.

NOTE 3. EARNINGS PER SHARE

The following table represents the computation of basic and diluted earnings per share of common stock as required by Financial Accounting Standards Board (“FASB”) Statement No. 128, “Earnings Per Share”:

13 Week Period Ended	September 30, 2007	October 1, 2006

10

SHELLS SEAFOOD RESTAURANTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Basic and diluted net loss per common share excludes anti-dilutive stock options, warrants and preferred stock of 11,409,000, 20,520,000, 11,430,000 and 20,801,000 for the thirteen weeks ended September 30, 2007 and October 1, 2006, and the thirty-nine weeks ended September 30, 2007 and October 1, 2006, respectively.

NOTE 4. STOCK COMPENSATION PLANS

During November 2005, we entered into a Stock Option Agreement with Leslie J. Christon, President and Chief Executive Officer, concurrent with her then amended and restated employment agreement. The Stock Option Agreement granted options to purchase 903,528 shares of common stock at an exercise price of \$0.85 per share, the market value of our common stock on the date of the grant. The options vested as to 353,844 shares on December 31, 2005 and as to 274,842 shares on September 30, 2007 and vest as to 274,842 shares on September 30, 2008. Additionally, Mrs. Christon was awarded a stock option to purchase 158,007 shares of common stock from the stock compensation plans described below at an exercise price of \$0.85 per share, which vested as to 79,004 shares in July 2007 and will vest as to 79,003 shares in July 2008.

At September 30, 2007, we had one stock-based employee compensation plan, as our two other employee stock option plans, and our stock option plan for Non-Employee Directors had previously expired.

During the first quarter of fiscal 2006, we adopted the fair value recognition provisions of FASB Statement No. 123R, *Share-Based Payment*, effective as of the beginning of the fiscal year. Under the modified prospective method of adoption selected by the Company, stock-based employee compensation cost recognized is the same as that which would have been recognized had the fair value recognition provisions of Statement 123R been applied to all awards granted after October 1, 1995.

Stock option grants were valued based upon the Black Scholes option-pricing model for calculation of a grant date fair-value. The assumptions used were as follows:

Assumptions used in computing fair value of option grants:	September 30, 2007	Quarter Ended		December 31, 2006
		July 1, 2007	April 1, 2007	
Volatility	101.7%	55.4%	26.6%	30.0%
Weighted-average estimated life	3.5 years	3.5 years	3.5 years	3.5 years
Weighted-average risk-free interest rate	4.41%	4.76%	4.68%	4.68%
Dividend yield	0	0	0	0

NOTE 5. NEW ACCOUNTING PRONOUNCEMENTS

In June 2006, the FASB issued Interpretation 48, "Accounting for Uncertainty in Income Taxes." FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, "Accounting for Income Taxes." This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. Clarifications found in FIN 48 did not have a material impact on our consolidated financial statements.

SHELLS SEAFOOD RESTAURANTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In September 2006, the FASB issued SFAS 157, "Fair Value Measurements." SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The application of SFAS 157 is not expected to have a material impact on our consolidated financial statements.

In June 2006, the EITF reached a consensus on EITF Issue No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements" ("EITF 06-4"), which requires the application of the provisions of SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions" to endorsement split-dollar life insurance arrangements. This would require recognition of a liability for the discounted future benefit obligation owed to an insured employee by the insurance carrier. EITF 06-4 is effective for fiscal years beginning after December 15, 2007. Our adoption of EITF 06-4 is not expected to have a material impact on our consolidated financial statements.

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108"). SAB 108 requires companies to evaluate the materiality of identified unadjusted errors on each financial statement and related financial statement disclosure using both the rollover approach and the iron curtain approach, as those terms are defined in SAB 108. The rollover approach quantifies misstatements based on the impact of the misstatement, while the iron curtain approach quantifies misstatements based on the effects of correcting the misstatement existing in the balance sheet at the end of the current year, irrespective of the reversing effect of prior year misstatements on the income statement. Financial statements would require adjustment when either approach results in quantifying a misstatement that is material. Correcting prior year financial statements for immaterial errors would not require previously filed reports to be amended. If a company determines that an adjustment to prior year financial statements is required upon adoption of SAB 108 and does not elect to restate its previous financial statements, then it must recognize the cumulative effect of applying SAB 108 in fiscal 2007 beginning balances of the affected assets and liabilities with a corresponding adjustment to the fiscal 2007 opening balance in retained earnings. SAB 108 is effective for the first fiscal year ending after November 15, 2006. The adoption of SAB 108 did not have a material impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). SFAS 159 provides companies with an option to report selected financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. SFAS 159 is effective for fiscal years beginning after November 15, 2007. Our adoption of SFAS 159 is not expected to have a material impact on our consolidated financial statements.

NOTE 6. INCOME TAXES

There were no provisions for income taxes for the 13 and 39 weeks ended September 30, 2007 and October 1, 2006, due to current operating losses and the anticipated utilization of net operating loss and general business credit carryforwards.

SHELLS SEAFOOD RESTAURANTS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

As of December 31, 2006, we had net operating loss carryforwards for federal income tax purposes of approximately \$10,769,000, which expire between 2007 and 2021. We also had approximately \$3,593,000 of general business credits to carry forward, which expire by 2026. We had an ownership change in each of 2002 and 2005 as defined by Internal Revenue Code Section 382, which limits a portion of the amount of net operating loss and credit carryforwards that may be used against taxable income. This limitation is approximately \$75,000 per year for net operating losses incurred prior to the 2002 ownership change, and \$665,000 per year for net operating losses incurred prior to the 2005 ownership change. Any portion of the annual limitation amount not utilized in any year will carry forward to the following year subject to a 15 to 20 year limitation. Approximately \$7,200,000 of our net operating loss carryforwards and approximately \$3,082,000 of credits are subject to the annual limitation. Assuming maximum utilization in future years, we expect that approximately \$3,300,000 in net operating loss carryforwards and approximately \$2,700,000 in credits will expire without benefit to us.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

In the third quarter of 2007 and through the first 39-weeks of 2007, we continued to experience a significantly challenging operating environment across our Florida markets. Our revenues for the third quarter and the first 39-weeks declined 14.7% and 11.2%, respectively, in comparison to the prior year. We believe these unfavorable trends stem from the effect of a struggling state economy, which continues to greatly influence consumer behavior relative to their general spending patterns and more particularly, their dining out decisions. Additionally, a strong same store sales trend last year and an escalation in price discounting throughout the casual dining sector, also continue to be significant factors in our year-to-year decline in revenues. The sales slowdown appears to be continuing to affect casual dining competitors operating throughout the State of Florida.

To further exacerbate the effect of the slow down in sales, operating costs continue to escalate, particularly in the food products that we serve. Driven by rising energy costs, food commodity costs are increasing, and as such are affecting at various degrees the costs of most products that we serve. As an ongoing cost of doing business in Florida, we also are challenged by the annual increase in the Florida minimum wage and a two year trend of increasing insurance, energy and occupancy costs. We continue to aggressively focus on minimizing our resulting loss in operating leverage through tightened control of operating and overhead costs. We have been modifying our menu to better offset these rising costs, while increasing emphasis on those menu items that provide value to our guests. Through our energy management program, we have more than offset rising utilities costs by reducing energy usage. We also reduced our general and administrative expenses, as well as interest expense from last year. We are also exploring other business models to increase sales and profitability.

Of most importance, our challenge continues to be to build customer traffic, attracting new and lapsed guests to experience the enhancements to the Shells brand that we have implemented over recent years. We believe current consumer trends in Florida will continue through the foreseeable future. Consumer spending patterns are tightening, causing dining out decisions to shift away from the casual dining sector. Given this sustained operating environment, our focus is to create value for our guests by better adapting the menu and promotions, while driving further enhancements in service and cautiously protecting margins. We continue to fine-tune our marketing strategies to target increases in guest trial.

Our management remains committed to the turnaround strategy launched over three years ago. We will continue to take appropriate measures to aggressively drive guest traffic, as well as to address costs pressures, with the full intent of returning the Shells brand to profitability.

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-Q

The following table sets forth, for the periods indicated the percentages that the items in our Consolidated Statements of Operations represent of total revenues or, where indicated, restaurant sales.

	13 Weeks Ended		39 Weeks Ended	
	September 30, 2007	October 1, 2006	September 30, 2007	October 1, 2006
Revenues:				
Restaurant sales	99.7%	99.6%	99.7%	99.7%
Management fees	0.3%	0.4%	0.3%	0.3%

RESULTS OF OPERATIONS**13 weeks ended September 30, 2007 and October 1, 2006 – Third Quarter**

Revenues. Total revenues for the third quarter of 2007 were \$8,979,000 as compared to \$10,529,000 for the third quarter of 2006. The \$1,550,000, or 14.7% decrease in revenues, was primarily a result of a 12.1% decrease in same store sales and the closure and disposition of a restaurant in June 2007. As of the end of the third quarter of 2007, we had 24 restaurants in operation, as compared to 25 at the end of the third quarter of 2006. Comparisons of same store sales include only stores, which were open during the entire periods being compared and, due to the time needed for a restaurant to become established and fully operational, at least six months prior to the beginning of that period.

Food and beverage costs. Food and beverage costs as a percentage of restaurant sales were 32.4% for both of the third quarters of 2007 and 2006. Increases in dairy and other commodity costs were generally offset by operational improvements in cost control. We are continually attempting to anticipate and react to fluctuations in food costs by purchasing seafood directly from numerous suppliers, promoting certain alternative menu selections in response to price and availability of supply and adjusting our menu prices accordingly to help control the cost of revenues.

Labor costs. Labor costs as a percentage of restaurant sales increased to 33.2% during the third quarter of 2007 as compared to 32.0% for the third quarter of 2006. This 1.2% percentage increase primarily was due to the decrease of operating leverage as reflected by the reduction in sales volume and the impact of the annual increase in the Florida minimum wage.

Other restaurant operating expenses. Other restaurant operating expenses, consisting primarily of marketing, utilities, occupancy, and other operating expenses, increased to 30.7% of restaurant sales for the third quarter of 2007 from 29.8% for the third quarter of 2006. This 0.9% percentage increase was mostly due to the decrease in operating

leverage as reflected by the reduction of sales volume. Although utilities expense increased 0.7% of restaurant sales, costs decreased as results from our energy management program more than offset utility rate increases.

Depreciation and amortization. Depreciation and amortization expense decreased to \$412,000, or 4.6% of restaurant sales, for the third quarter of 2007 from \$578,000, or 5.5% of restaurant sales, in the third quarter of 2006. The \$166,000 decrease was due to the impairment of assets in the fourth quarter of 2006 and the second quarter of 2007 as well as the sale of a restaurant property in the fourth quarter of 2006.

General and administrative expenses. General and administrative expenses of \$827,000, or 9.2% of revenues, for the third quarter of 2007 decreased by \$54,000 from \$881,000, or 8.4% of revenues, for the third quarter of 2006. The reduction in overhead dollars was due to decreasing costs in recruiting, training, operations management, and other supportive costs, partly offset by increases in stock option and legal and professional expenses. The 0.8% increase as a percentage of revenues further reflects the reduction in sales leverage.

Interest expense, net. Interest expense, net was \$74,000 in the third quarter of 2007 compared to \$97,000 in the third quarter of 2006. The decrease in interest expense, net was primarily related to the reduction of debt associated with the sale of a property in the fourth quarter of 2006.

Other expense, net. Other expense was \$45,000 for the third quarter of 2007, compared to other expense of \$59,000 for the comparable period in 2006. Included in other expense was minority interest of \$31,000 and \$48,000 for the third quarter of 2007 and 2006, respectively.

Loss from operations and net loss. As a result of the factors discussed above, we had a loss from operations of \$891,000 in the third quarter of 2007, compared to a loss from operations of \$806,000 in the third quarter of 2006. The net loss was \$1,010,000 in the third quarter of 2007, compared to a net loss of \$962,000 in the third quarter of 2006.

39 weeks ended September 30, 2007 and October 1, 2006

Revenues. Total revenues for the 39 weeks ended September 30, 2007 were \$33,895,000 as compared to \$38,170,000 for the 39 weeks ended October 1, 2006. The \$4,275,000, or 11.2% decrease in revenues, was primarily a result of a 9.7% decrease in same store sales and the closure and disposition of an underperforming restaurant in June 2007.

Food and beverage costs. Food and beverage costs as a percentage of restaurant sales increased to 32.5% for the 39 weeks ended September 30, 2007 from 32.2% for the 39 weeks ended October 1, 2006. This 0.3% percentage increase mostly related to the introduction of improved menu offerings in the first quarter of 2007 and increases in dairy and other commodity costs beginning in the latter part of the second quarter of 2007. We are continually attempting to anticipate and react to fluctuations in food costs by purchasing seafood directly from numerous suppliers, promoting certain alternative menu selections in response to price and availability of supply and adjusting our menu prices accordingly to help control the cost of revenues.

Labor costs. Labor costs as a percentage of restaurant sales increased to 30.8% for the 39 weeks ended September 30, 2007 as compared to 30.5% for the 39 weeks ended October 1, 2006, mostly due to a decrease of operating leverage as reflected by the reduction in sales volume and the impact of the annual increase in the Florida minimum wage.

Other restaurant operating expenses. Other restaurant operating expenses, consisting primarily of marketing, utilities, occupancy, and other operating expenses, increased to 28.5% of restaurant sales for the 39 weeks ended September 30, 2007 from 26.2% for the 39 weeks ended October 1, 2006. This 2.3% percentage increase was mostly due to the decrease in operating leverage as reflected by the reduction of sales volume.

Depreciation and amortization. Depreciation and amortization expense decreased to \$1,373,000, or 4.1% of restaurant sales, for the 39 weeks ended September 30, 2007 from \$1,643,000, or 4.3% of restaurant sales, in the 39 weeks ended October 1, 2006. The decrease was due to the impairment of assets in the fourth quarter of 2006 and the second

quarter of 2007, as well as the sale of a restaurant property in the fourth quarter of 2006.

17

Impairment of assets. We recorded a provision in operating expenses in the second quarter of 2007 for the impairment of assets totaling \$610,000, or 1.8% of restaurant sales, relating to the write-down of assets at one restaurant to their estimated fair value in accordance with Financial Accounting Standards Board Statement No. 144. The write-down was necessitated by the then current period operating losses and the projected deficiency of cash flow of the restaurant.

General and administrative expenses. General and administrative expenses of \$2,768,000, or 8.2% of revenues, for the 39 weeks ended September 30, 2007 decreased by \$268,000 from \$3,036,000, or 8.0% of revenues, for the 39 weeks ended October 1, 2006, primarily due to a reduction in overhead expenses, including operations management and other supportive costs, partly offset by an increase in stock option expense. The 0.2% increase as a percentage of revenues further reflects the reduction in sales leverage.

Lease buyout option. In April 2006, we recognized \$212,000 of net cash proceeds in a non-recurring transaction related to the negotiation of an option embedded in the Ocala restaurant lease agreement to a new landlord. There was no similar transaction in the first 39 weeks of 2007.

Interest expense, net. Interest expense, net was \$216,000 in the 39 weeks ended September 30, 2007 compared to \$235,000 in the comparable period in 2006. The decrease in interest expense, net was primarily related the retirement of debt related to the sale of a restaurant property in the fourth quarter of 2006.

Other expense, net. Other expense was \$47,000 for the 39 weeks ended September 30, 2007, compared to \$347,000 for the comparable period in 2006. Included in other expense was minority interest of \$147,000 and \$190,000 for the 39 weeks ended September 30, 2007 and October 1, 2006, respectively. The decrease in total other expense from the prior year primarily was due to non-recurring income in 2007 consisting of proceeds of \$85,000 from the VisaCheck/MasterMoney Antitrust Settlement and a gain on the sale of a restaurant property of \$86,000. Non-recurring expense in 2006 consisted of \$23,000 related to lease termination costs and \$39,000 related to the write-down of fixed assets replaced during remodeling. Exclusive of these non-recurring items, other expense would have been \$218,000 and \$285,000 in the 39 weeks ended September 30, 2007 and October 1, 2006, respectively.

Loss from operations and net loss. As a result of the factors discussed above, we had a loss from operations of \$1,863,000 in the 39 weeks ended September 30, 2007, compared to a loss from operations of \$339,000 in the 39 weeks ended October 1, 2006. Non-recurring items affecting loss from operations consisted of \$610,000 in expense related to the provision for the impairment of assets and \$39,000 in expense related to lease renewal costs in the 39 weeks ended September 30, 2007, and \$152,000 in income related to a refund of workers compensation premiums and an adjustment of reserves for workers compensation expenses in the 39 weeks ended October 1, 2006. The loss from operations exclusive of these non-recurring items was \$1,214,000 in the 39 weeks ended September 30, 2007, compared to a loss from operations of \$491,000 for the 39 weeks ended October 1, 2006. The net loss was \$2,126,000 in the 39 weeks ended September 30, 2007, compared to a net loss of \$709,000 in the 39 weeks ended October 1, 2006. Exclusive of the non-recurring items discussed above, we had net losses of \$1,648,000 and \$1,011,000 in the 39 weeks ended September 30, 2007 and October 1, 2006, respectively.

LIQUIDITY AND CAPITAL RESOURCES

In September 2007, we refinanced the note on our Melbourne, Florida joint venture restaurant property, which was to mature in October 2007. The refinancing included the principal balance owed of \$407,000, as well as an additional \$200,000 to cover a significant portion of that restaurant's remodeling costs.

In June 2007, we sold the leasehold interest to our landlord for \$225,000 and discontinued operations at our restaurant in Coral Springs, Florida.

In March 2005, our investors provided us a \$1,600,000 revolving line of credit, which was originally due to mature on the earlier of March 31, 2006 or the closing of a financing providing us not less than \$1,600,000 of net proceeds. The investors received a fee of \$80,000 for extending the credit line. Amounts drawn under the line of credit bear interest at the rate of 15% per annum, payable 8% monthly in arrears and 7% deferred until the maturity date. Upon completion of a financing in May 2005, the maturity date was extended to May 23, 2007. In October 2005, we utilized \$800,000 of the line of credit to fund the acquisition and opening costs of two new restaurant locations. In June 2006, we utilized an additional \$640,000 of the revolving line of credit to further fund remodeling costs and working capital requirements. On March 30, 2007, the maturity date of the credit line was further extended to May 23, 2008, at a cost to us of \$101,000, payable in shares of our common stock. At that time, the credit line was reduced to the then outstanding balance owed by us of \$1,440,000.

In December 2005, we secured a six-month, \$500,000 bank credit facility for which the full amount was immediately drawn on to fund remodeling. In April 2006, we recognized \$212,000 in net cash proceeds related to the sale of an option embedded in the lease agreement of our restaurant property in Ocala, Florida. In October 2006, we completed a sale and simultaneous leaseback of our restaurant property in New Smyrna Beach, Florida in which we received net cash proceeds of \$885,000. We also simultaneously retired the \$500,000 bank credit facility, as required.

As of September 30, 2007, our current liabilities of \$7,142,000 exceeded our current assets of \$1,763,000, resulting in a working capital deficiency of \$5,379,000. In comparison, as of December 31, 2006, our current liabilities of \$6,141,000 exceeded our current assets of \$1,695,000, resulting in a working capital deficiency of \$4,446,000. Our operating leverage declined, primarily due to the reclassifications of \$1,601,000 in notes and deferred interest payable to related parties to current liabilities, an increase in accrued expenses of \$378,000 and a decrease in cash and inventories of \$196,000 and \$121,000, respectively; partially offset by a decrease in accounts payable of \$867,000 and an increase in other current assets of \$390,000. We may continue to encounter operating pressures from declining sales, increasing food, labor or other operating costs or additional restaurant remodeling and disposition costs. Historically, we have generally operated with negative working capital as a result of investing current assets into non-current property and equipment, as well as the turnover of restaurant inventory relative to more favorable vendor terms in accounts payable.

Edgar Filing: SHELLS SEAFOOD RESTAURANTS INC - Form 10-Q

The following table presents a summary of our cash flows for the 39 weeks ended September 30, 2007 and October 1, 2006 (in thousands):

	39 Weeks Ended	
	September 30, 2007	October 1, 2006
Net cash (used in) provided by operating activities	\$ (447)	\$ 74
Net cash provided by (used in) investing activities	16	(1,505)
Net cash provided by financing activities	235	660
Net decrease in cash	\$ (196)	\$ (771)

20

Cash used in operating activities for the 39 weeks ended September 30, 2007 was \$447,000, compared to cash provided by operating activities of \$74,000 for the comparable period in 2006. The net change in operating activities of \$521,000 primarily related to an increase in net loss of \$914,000, net of a provision for impairment of assets of \$610,000, offset by a net change in current assets and liabilities of \$390,000.

The cash provided by investing activities was \$16,000 for the 39 weeks ended September 30, 2007, compared to cash used in investing activities of \$1,505,000 for the comparable period in 2006. The change in cash from investing activities of \$1,521,000 was due primarily to a \$1,462,000 reduction in capital expenditures, as we were remodeling several restaurants in the first half of 2006.

The cash provided by financing activities was \$235,000 for the 39 weeks ended September 30, 2007, compared to \$660,000 for the comparable period in 2006. The net decrease of \$425,000 primarily related to a net increase in the repayment of debt of \$503,000 and a net increase in proceeds from the issuances of debt of \$61,000.

There are no assurances that our operational strategies will drive improvements in sales and customer traffic needed to meet anticipated cash flow requirements, and, in the event that our plans change, our assumptions prove to be inaccurate, and projected cash flow or third party financing otherwise prove to be insufficient to fund operations, we could be required to seek additional financing from sources not currently anticipated. We may continue to seek alternative sources of financing, including the sale and disposition of additional leasehold interests of marginally or under performing restaurants. We are also exploring other business models to increase sales and profitability. There can be no assurance that such alternative funding or other third party financing will be available to us when needed, on acceptable terms, or at all.

QUARTERLY FLUCTUATION OF FINANCIAL RESULTS

The restaurant industry in general is seasonal, depending on restaurant location and the type of food served. In addition, we have experienced fluctuations in our quarter-to-quarter operating results due, in large measure, to our full concentration of restaurants in Florida. Business in Florida is influenced by seasonality due to various factors, which include but are not limited to weather conditions in Florida relative to other areas of the U.S. and the health of Florida's economy and the effect of world events in general and the tourism industry in particular. In addition, in recent years, our operating results have been significantly affected by hurricanes. Our restaurant sales are generally highest from January through August; the peaks of the Florida tourism season, and generally lower from September through mid-December. Many of our restaurant locations are in coastal cities, where sales are significantly dependent on tourism and its seasonality patterns.

In addition, quarterly results have been substantially affected by the timing of restaurant openings or closings. Because of the seasonality of our business and the impact of restaurant openings or closings, results for any quarter are not generally indicative of the results that may be achieved for a full fiscal year on an annualized basis and cannot be used to indicate financial performance for the entire year.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in interest rates on debt and changes in commodity prices. We currently have no debt or other financial instruments that are based on variable rates of interest, which would increase our exposure to interest rate risk.

Item 4T. Controls and Procedures

We maintain "disclosure controls and procedures," as defined under Securities Exchange Act Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As required by SEC Rule 13a-15(b), we have carried out an evaluation, as of the end of the period covered by this report, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon their evaluation and subject to the foregoing, our management with the participation of the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective (as such term is defined under Securities Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report.

There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

On August 1, 2006, we were advised by our subtenant, Famous Dave's RIBS-U, Inc., that they discontinued operations of the restaurant located in Streamwood, Illinois and have ceased remitting rent payments required by the sublease. The subtenant has requested discussions on settlement for a lease termination. Such restaurant closure is a condition of default under the sublease as well as the master lease between Shells and the ultimate landlord, 948 Barrington Road Partnership. The parties are continuing efforts to seek a suitable tenant replacement. The financial implications to Shells are undetermined at this time. If necessary, we intend to pursue our rights against Famous Dave's, as appropriate to protect our interest.

On March 13, 2007 and on July 16, 2007, summons were served from the circuit court in Kane County, Illinois, naming the Spring Hill Mall, L.L.C., the primary landlord, as defendant. The suit relates to a restaurant lease in Carpentersville, Illinois. Under this lease, we are a sub-tenant to Chi-Chi's, Inc., who filed bankruptcy in 2003 and subsequently rejected the lease. Since 2000, we have been further subleasing this property to Famous Dave's RIBS-U, Inc. Under such terms, we partially subsidize lease payments. We have been negotiating with Spring Hill Mall for a buyout of our obligations under the various subleases. Under the suit, Spring Hill Mall is seeking payment of rent, occupancy, and related charges totaling \$147,000 with the addition of interest and fees related to the suit. We are currently near finalizing the terms of financial settlement, which is to include a full release from further leasehold obligations.

In the ordinary course of business, we are and may be a party to various legal proceedings, the outcomes of which, singly or in the aggregate, are not currently expected to be material to our financial position, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

None

Item 6. Exhibits

31.1 Certification of Chief Executive Officer under Rule 13a-14(a)

31.2 Certification of Chief Financial Officer under Rule 13a-14(a)

32.1 Certification of Chief Executive Officer and Chief Financial Officer under Section 906
