Letter to Shareholders

Edgar Filing: WisdomTree Trust - Form N-CSRS

Dear Shareholders:

It is a pleasure to report to you on the progress of the WisdomTree Trust for the six-month period ended September 30, 2007.

WisdomTree is committed to providing investors with viable alternatives to cap-weighted index funds. Two recent launches underscore our intention to serve investors in unique ways. In June, the company launched the first fundamentally weighted international real estate exchange traded fund (DRW). In July, WisdomTree listed the first fundamentally weighted emerging markets ETF (DEM), comprised of dividend-paying companies selected from 19 emerging market nations. When combined with WisdomTree's 14 developed market ETFs and 10 pure non-U.S. sector ETFs, our international offerings stood at 26 as of September 30, 2007, distinguishing WisdomTree's international line-up as one of the most comprehensive in the industry today. As of September 30, 2007, WisdomTree Trust assets totaled \$4.4 billion, with approximately 71% of total assets under management invested in WisdomTree's international product set.

The highest returns over this six-month period were generated outside the U.S. Equity markets in the Pacific region excluding Japan showed the greatest strength relative to other parts of the developed market, while Japanese equity markets continued to lag. WisdomTree's best-performing fund was its Pacific ex-Japan Total Dividend Fund (DND), which returned 24.40% for the six-month period ended September 30, 2007. The WisdomTree Japan High-Yielding Equity Fund (DNL), which lost 5.74% for the period, was WisdomTree's worst performing fund over this time frame. However, WisdomTree's broadest international ETF, the WisdomTree DEFA Fund (DWM), benefited from Japan's relative weakness. DWM, which is underweight Japanese stocks relative to the MSCI EAFE Index, returned 10.63% for the period, surpassing the MSCI EAFE Index by 1.91 percentage points for the six-month period ended September 30, 2007.*

On the domestic front, WisdomTree's fundamentally-weighted ETFs ran into two head winds: weakness in the financial and real estate industries, coupled with the re-emergence of growth stocks. Buffeted by investor concerns over exposure to sub-prime housing loans, financial stocks have been the worst performing sector of the U.S. economy in 2007. The weakness in financials contributed to value stocks, measured by the Russell 3000 Value Index, underperforming growth stocks, measured by the Russell 3000 Growth Index, for first time since 1999. Specific performance information for WisdomTree's funds, relative to their underlying WisdomTree index and a comparable benchmark, is provided in the pages that follow.

Thank you for your continued support.

Best regards,

/s/ Jonathan Steinberg

WisdomTree Total Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The WisdomTree Total Dividend Fund (DTD) returned 5.66% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Industrials contributed most significantly to this performance; the sector comprised on average 10.99% of the Fund and returned 16.55% over the period. General Electric Co. was the top contributor to the performance for the period. Financials was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for

fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.28%.

WisdomTree SmallCap Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree SmallCap Dividend Index.

The WisdomTree SmallCap Dividend Fund (DES) returned -4.04% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Industrials contributed most significantly to this performance; the sector comprised on average 10.61% of the Fund and returned 5.71% over the period. Vector Group Ltd. was the top contributor to the performance for the period. Financials was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.38%.

Performance as of 9/30/07

	Average Annual Total Return			
	Net Asset Value	Market Price	WisdomTree SmallCap Dividend Index	Russell 2000 Index
Six Month*	(4.04)%	(3.81)%	(4.86)%	1.19%
One Year	4.66%	4.59%	2.90%	12.38%
Since Inception(1)	9.30%	9.26%	8.11%	13.80%

* Returns of less than one year are cumulative.

(1) Total returns are calculated based on the commencement of trading on the NYSE on June 16, 2006.

Performance quoted represents past performance and past performance does not guarantee future results. Current performance may be higher or lower than the performance quoted. For the most recent month end performance information visit www.wisdomtree.com. Investment in the Fund poses investment risk including the possible loss of principal. The investment return and principal value of an investment will fluctuate, so that shares, when sold or redeemed, may be worth more or less than their original cost. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period less than one year have not been annualized. Index returns do not reflect expenses paid by the Fund.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2007 to September 30, 2007.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled "Expenses Paid During Period 4/01/07 to 9/30/07" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

WisdomTree Domestic Dividend Funds 53

Notes to Financial Statements (unaudited)

Edgar Filing: WisdomTree Trust - Form N-CSRS

1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2007, the Trust offered 38 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on June 16, 2006, with the exception of the international dividend sector funds, domestic earnings funds, International Real Estate Fund and Emerging Markets High-Yielding Equity Fund that commenced operations on October 13, 2006, February 23, 2007, June 5, 2007 and July 13, 2007, respectively.

These financial statements relate only to the WisdomTree Total Dividend Fund ("Total Dividend Fund"), WisdomTree High-Yielding Equity Fund ("High-Yielding Equity Fund"), WisdomTree LargeCap Dividend Fund ("LargeCap Dividend Fund"), WisdomTree Dividend Top 100 Fund ("Dividend Top 100 Fund"), WisdomTree MidCap Dividend Fund ("MidCap Dividend Fund") and WisdomTree SmallCap Dividend Fund ("SmallCap Dividend Fund") together the "Domestic Dividend Funds".

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index ("Index") developed by WisdomTree Investments, Inc. ("Wisdom Tree Investments"). Each Index consists of dividend paying securities in the market suggested by its name that meet specific criteria developed by WisdomTree Investments. "WisdomTree", "WisdomTree Investments", and "Dividend Top 100" are service marks of WisdomTree Investments licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation - The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

Edgar Filing: WisdomTree Trust - Form N-CSRS

(b) Investment Transactions - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

(c) Investment Income - Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

(d) Expenses/Reimbursements - WisdomTree Asset Management ("WTAM") has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM. Pursuant to a separate contractual arrangement, WTAM has paid the expenses described in (iii), (iv) and (v) through July 31, 2007.

(e) Security Lending - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to

54 WisdomTree Domestic Dividend Funds

Notes to Financial Statements (unaudited) (continued)

102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

(f) Tax Information and Dividends and Distributions to Shareholders - It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time

Edgar Filing: WisdomTree Trust - Form N-CSRS

during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

The Funds adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes. This interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in "Other" expenses on the Statements of Operations. Management has evaluated the application of FIN 48 to the Funds, and has determined that there is no impact resulting from the adoption of this interpretation on the Funds' financial statements.

(g) Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

3. ADVISER FEES AND TRANSACTIONS

Adviser Fees - WTAM provides investment management services to each Fund pursuant to an Investment Advisory Agreement between the Trust and WTAM. As compensation for services rendered, facilities furnished, and expenses borne by WTAM, each Fund pays WTAM a fee, as listed below, which is accrued daily and paid monthly, based on the average daily net assets of the Fund.

Fund	Fee Rate
Total Dividend Fund	0.28%
High-Yielding Equity Fund	0.38%

Edgar Filing: WisdomTree Trust - Form N-CSRS

LargeCap Dividend Fund	0.28%

Dividend Top 100 Fund	0.38%

MidCap Dividend Fund	0.38%

SmallCap Dividend Fund	0.38%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the six months ended September 30, 2007, there were no transactions in affiliated ETFs.

Pursuant to a separate contractual arrangement, effective August 1, 2007, WTAM has arranged for the provision of chief compliance officer ("CCO") services to the Trust, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a fee paid by each Fund of up to 0.0044% of the Fund's average daily net assets.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2007, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind purchases and redemptions and short-term investments) for the six months ended September 30, 2007 were as follows:

Fund	Purchases	Sales

Total Dividend Fund	\$ 3,402,134	\$ 3,638,396

High-Yielding Equity Fund	12,875,916	12,863,048

SmallCap Dividend Fund	35,225,928	13,606,838

56 WisdomTree Domestic Dividend Funds

Notes to Financial Statements (unaudited) (concluded)

Gains and losses on in-kind redemptions are not recognized at the Fund level for tax purposes.

6. FEDERAL INCOME TAXES

At September 30, 2007, the cost of investments (including securities on loan) for Federal income tax purposes was substantially the same as for book purposes, as indicated below:

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Total Dividend Fund	\$ 94,728,550	\$ 9,719,768	\$ (2,789,761)	\$6,930,007
High-Yielding Equity Fund	221,753,884	15,250,733	(9,471,966)	5,778,767

7. NEW ACCOUNTING PRONOUNCEMENTS

On September 15, 2006, the FASB released Statement of Financial Accounting

Edgar Filing: WisdomTree Trust - Form N-CSRS

Standards No. 157, Fair Value Measurements ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management does not believe the adoption of FAS 157 will impact the amounts reported in the financial statements; however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported in the Statements of Operations for the fiscal period.

8. SUBSEQUENT EVENT

Effective October 30, 2007, the Trust launched the WisdomTree Emerging Markets SmallCap Dividend Fund (DGS). The Fund has an expense ratio of 0.63%.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value ("NAV") of each Fund and the market trading price of shares of each Fund. For these purposes, the "market price" is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term "premium" is sometimes used to describe a market price in excess of NAV and the term "discount" is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund's per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

The WisdomTree Funds are exchange traded funds ("ETFs") registered with the United States Securities and Exchange Commission ("SEC") as series of WisdomTree Trust ("Trust"). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds' distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

In addition to the normal risks associated with investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Funds focusing on a single country, sector, and/or funds that emphasize investments in smaller companies may experience greater price volatility. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Transactions in fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the funds only in large amounts of 50,000 shares or more.

Letter to Shareholders

Edgar Filing: WisdomTree Trust - Form N-CSRS

Dear Shareholders:

It is a pleasure to report to you on the progress of the WisdomTree Trust for the six-month period ended September 30, 2007.

WisdomTree is committed to providing investors with viable alternatives to cap-weighted index funds. Two recent launches underscore our intention to serve investors in unique ways. In June, the company launched the first fundamentally weighted international real estate exchange traded fund (DRW). In July, WisdomTree listed the first fundamentally weighted emerging markets ETF (DEM), comprised of dividend-paying companies selected from 19 emerging market nations. When combined with WisdomTree's 14 developed market ETFs and 10 pure non-U.S. sector ETFs, our international offerings stood at 26 as of September 30, 2007, distinguishing WisdomTree's international line-up as one of the most comprehensive in the industry today. As of September 30, 2007, WisdomTree Trust assets totaled \$4.4 billion, with approximately 71% of total assets under management invested in WisdomTree's international product set.

The highest returns over this six-month period were generated outside the U.S. Equity markets in the Pacific region excluding Japan showed the greatest strength relative to other parts of the developed market, while Japanese equity markets continued to lag. WisdomTree's best-performing fund was its Pacific ex-Japan Total Dividend Fund (DND), which returned 24.40% for the six-month period ended September 30, 2007. The WisdomTree Japan High-Yielding Equity Fund (DNL), which lost 5.74% for the period, was WisdomTree's worst performing fund over this time frame. However, WisdomTree's broadest international ETF, the WisdomTree DEFA Fund (DWM), benefited from Japan's relative weakness. DWM, which is underweight Japanese stocks relative to the MSCI EAFE Index, returned 10.63% for the period, surpassing the MSCI EAFE Index by 1.91 percentage points for the six-month period ended September 30, 2007.*

On the domestic front, WisdomTree's fundamentally-weighted ETFs ran into two head winds: weakness in the financial and real estate industries, coupled with the re-emergence of growth stocks. Buffeted by investor concerns over exposure to sub-prime housing loans, financial stocks have been the worst performing sector of the U.S. economy in 2007. The weakness in financials contributed to value stocks, measured by the Russell 3000 Value Index, underperforming growth stocks, measured by the Russell 3000 Growth Index, for first time since 1999. Specific performance information for WisdomTree's funds, relative to their underlying WisdomTree index and a comparable benchmark, is provided in the pages that follow.

Thank you for your continued support.

Best regards,

/s/ Jonathan Steinberg

WisdomTree Total Earnings Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree Earnings Index.

The WisdomTree Total Earnings Fund (EXT) returned 6.95% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Energy contributed most significantly to this performance; the sector comprised on average 15.35% of the Fund and returned 22.28% over the period. Exxon Mobil Corp. was the top contributor to the performance for the period. Financials was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or

that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.28%.

WisdomTree SmallCap Earnings Fund seeks investment results that correspond to the price and yield performance, before fees and expenses, of the WisdomTree SmallCap Earnings Index.

The WisdomTree SmallCap Earnings Fund (EES) returned -3.87% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Technology contributed most significantly to this performance; the sector comprised on average 12.55% of the Fund and returned 9.90% over the period. Plexus Corp. was the top contributor to the performance for the period. Consumer Discretionary was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of

the Fund is 0.38%.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2007 to September 30, 2007.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled "Expenses Paid During Period 4/01/07 to 9/30/07" to estimate the expenses you paid on your account during this period.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

WisdomTree Domestic Earnings Funds 63

Notes to Financial Statements (unaudited)

1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2007, the Trust offered 38 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on June 16, 2006, with the exception of the international dividend sector funds, domestic earnings funds, International Real Estate Fund and Emerging Markets

Edgar Filing: WisdomTree Trust - Form N-CSRS

High-Yielding Equity Fund that commenced operations on October 13, 2006, February 23, 2007, June 5, 2007 and July 13, 2007, respectively.

These financial statements relate only to the WisdomTree Total Earnings Fund ("Total Earnings Fund"), WisdomTree Earnings 500 Fund ("Earnings 500 Fund"), WisdomTree MidCap Earnings Fund ("MidCap Earnings Fund"), WisdomTree SmallCap Earnings Fund ("SmallCap Earnings Fund"), WisdomTree Earnings Top 100 Fund ("Earnings Top 100 Fund") and WisdomTree Low P/E Fund ("Low P/E Fund"), together the "Domestic Earnings Funds".

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index ("Index") developed by WisdomTree Investments, Inc. ("WisdomTree Investments"). Each Index consists of equity securities in the market suggested by its name that meet specific criteria developed by WisdomTree Investments. The securities in each Index are weighted based on earnings or earnings yield. "WisdomTree" and "WisdomTree Investments" are service marks of WisdomTree Investments licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation - The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

(b) Investment Transactions - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

(c) Investment Income - Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Edgar Filing: WisdomTree Trust - Form N-CSRS

(d) Expenses/Reimbursements - WisdomTree Asset Management ("WTAM") has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM. Pursuant to a separate contractual arrangement, WTAM has paid the expenses described in (iii), (iv) and (v) through July 31, 2007.

64 WisdomTree Domestic Earnings Funds

Notes to Financial Statements (unaudited) (continued)

(e) Security Lending - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

(f) Tax Information and Dividends and Distributions to Shareholders - It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit

Edgar Filing: WisdomTree Trust - Form N-CSRS

for tax purposes, are reported as a tax return of capital.

The Funds adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes. This interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in "Other" expenses on the Statements of Operations. Management has evaluated the application of FIN 48 to the Funds, and has determined that there is no impact resulting from the adoption of this interpretation on the Funds' financial statements.

(g) Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

3. ADVISER FEES AND TRANSACTIONS

Adviser Fees - WTAM provides investment management services to each Fund pursuant to an Investment Advisory Agreement between the Trust and WTAM. As compensation for services rendered, facilities furnished, and expenses borne by WTAM, each Fund pays WTAM a fee, as listed below, which is accrued daily and paid monthly, based on the average daily net assets of the Fund.

Fund	Fee Rate
Total Earnings Fund	0.28%
Earnings 500 Fund	0.28%
MidCap Earnings Fund	0.38%
SmallCap Earnings Fund	0.38%
Earnings Top 100 Fund	0.38%
Low P/E Fund	0.38%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the six months ended September 30, 2007, there were no transactions in affiliated ETFs.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Pursuant to a separate contractual arrangement, effective August 1, 2007, WTAM has arranged for the provision of chief compliance officer ("CCO") services to the Trust, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a fee paid by each Fund of up to 0.0044% of the Fund's average daily net assets.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2007, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind purchases and redemptions and short-term investments) for the six months ended September 30, 2007 were as follows:

Fund	Purchases	Sales
Total Earnings Fund	\$ 115,528	\$ 189,664
Earnings 500 Fund	-	131,929
MidCap Earnings Fund	920,907	1,082,867
SmallCap Earnings Fund	1,205,209	1,241,342
Earnings Top 100 Fund	71,504	99,420
Low P/E Fund	135,647	271,873

For the six months ended September 30, 2007, the cost of in-kind purchases and the proceeds from in-kind redemptions were as follows:

Fund	Purchases	Redemptions
Total Earnings Fund	\$ 7,767,184	\$15,563,192
Earnings 500 Fund	20,801,358	-
MidCap Earnings Fund	22,933,745	-
SmallCap Earnings Fund	9,572,585	-
Earnings Top 100 Fund	2,542,818	13,228,232
Low P/E Fund	15,425,764	13,079,904

Edgar Filing: WisdomTree Trust - Form N-CSRS

 Gains and losses on in-kind redemptions are not recognized at the Fund level for tax purposes.

7. NEW ACCOUNTING PRONOUNCEMENTS

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management does not believe the adoption of FAS 157 will impact the amounts reported in the financial statements; however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported in the Statements of Operations for the fiscal period.

8. SUBSEQUENT EVENT

Effective October 30, 2007, the Trust launched the WisdomTree Emerging Markets SmallCap Dividend Fund (DGS). The Fund has an expense ratio of 0.63%.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value ("NAV") of each Fund and the market trading price of shares of each Fund. For these purposes, the "market price" is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term "premium" is sometimes used to describe a market price in excess of NAV and the term "discount" is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund's per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

In addition to the normal risks associated with investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Funds focusing on a single country, sector, and/or funds that emphasize investments in smaller companies may experience greater price volatility. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Transactions in fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the funds only in large amounts of 50,000 shares or more.

Letter to Shareholders

Dear Shareholders:

It is a pleasure to report to you on the progress of the WisdomTree Trust for the six-month period ended September 30, 2007.

WisdomTree is committed to providing investors with viable alternatives to cap-weighted index funds. Two recent launches underscore our intention to serve investors in unique ways. In June, the company launched the first fundamentally weighted international real estate exchange traded fund (DRW). In July, WisdomTree listed the first fundamentally weighted emerging markets ETF (DEM), comprised of dividend-paying companies selected from 19 emerging market nations. When combined with WisdomTree's 14 developed market ETFs and 10 pure non-U.S. sector ETFs, our international offerings stood at 26 as of September 30, 2007, distinguishing WisdomTree's international line-up as one of the most comprehensive in the industry today. As of September 30, 2007, WisdomTree Trust assets totaled \$4.4 billion, with approximately 71% of total assets under management invested in WisdomTree's international product set.

The highest returns over this six-month period were generated outside the U.S. Equity markets in the Pacific region excluding Japan showed the greatest strength relative to other parts of the developed market, while Japanese equity markets continued to lag. WisdomTree's best-performing fund was its Pacific ex-Japan Total Dividend Fund (DND), which returned 24.40% for the six-month period ended September 30, 2007. The WisdomTree Japan High-Yielding Equity Fund (DNL), which lost 5.74% for the period, was WisdomTree's worst performing fund over this time frame. However, WisdomTree's broadest international ETF, the WisdomTree DEFA Fund (DWM), benefited from Japan's relative weakness. DWM, which is underweight Japanese stocks relative to the MSCI EAFE Index, returned 10.63% for the period, surpassing the MSCI EAFE Index by 1.91 percentage points for the six-month period ended September 30, 2007.*

On the domestic front, WisdomTree's fundamentally-weighted ETFs ran into two head winds: weakness in the financial and real estate industries, coupled with the re-emergence of growth stocks. Buffeted by investor concerns over exposure to sub-prime housing loans, financial stocks have been the worst performing sector of the U.S. economy in 2007. The weakness in financials contributed to value stocks, measured by the Russell 3000 Value Index, underperforming growth stocks, measured by the Russell 3000 Growth Index, for first time since 1999. Specific performance information for WisdomTree's funds, relative to their underlying WisdomTree index and a comparable benchmark, is provided in the pages that follow.

Thank you for your continued support.

Best regards,

/s/ Jonathan Steinberg

WisdomTree Dividend Index of Europe, Far East Asia and Australasia (DEFA) Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index of Europe, Far East Asia and Australasia Index (WisdomTree DEFA Index).

The WisdomTree DEFA Fund (DWM) returned 10.63% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Telecommunication Services contributed most significantly to this performance; the industry comprised on average 10.13% of the Fund and returned 27.38% over the period. China Mobile Ltd. was the top contributor to the performance for the period. Health Care was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and

Edgar Filing: WisdomTree Trust - Form N-CSRS

market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.48%.

Performance quoted represents past performance and past performance does not guarantee future results. Current performance may be higher or lower than the performance quoted. For the most recent month end performance information visit www.wisdomtree.com. Investment in the Fund poses investment risk including the possible loss of principal. The investment return and principal value of an investment will fluctuate, so that shares, when sold or redeemed, may be worth more or less than their original cost. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period less than one year have not been annualized. Index returns do not reflect expenses paid by the Fund.

WisdomTree DEFA High-Yielding Equity Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree DEFA High-Yielding Equity Index.

The WisdomTree DEFA High-Yielding Equity Fund (DTH) returned 8.72% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Telecommunication Services contributed most significantly to this performance; the industry comprised on average 11.77% of the Fund and returned 22.46% over the period. Vodafone Group PLC was the top contributor to the performance for the period. Consumer Discretionary was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

Edgar Filing: WisdomTree Trust - Form N-CSRS

return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.58%.

WisdomTree Pacific ex-Japan Total Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Pacific ex-Japan Dividend Index.

The WisdomTree Pacific ex-Japan Total Dividend Fund (DND) returned 24.40% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). Financials contributed most significantly to this performance; the sector comprised on average 41.32% of the Fund and returned 18.72% over the period. China Mobile Ltd. was the top contributor to the performance for the period. Information Technology was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.48%.

The investment return and principal value of an investment will fluctuate, so that shares, when sold or redeemed, may be worth more or less than their original cost. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period less than one year have not been annualized. Index returns do not reflect expenses paid by the Fund.

WisdomTree Emerging Markets High-Yielding Equity Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Emerging Markets High-Yielding Equity Index.

The WisdomTree Emerging Markets High-Yielding Equity Fund (DEM) returned 2.47% from its inception on July 13, 2007 through September 30, 2007 (for more complete performance information, please see below). Materials contributed most significantly to this performance; the sector comprised on average 20.92% of the

Edgar Filing: WisdomTree Trust - Form N-CSRS

Fund and returned 9.26% over the period. China Steel Corp. was the top contributor to the performance for the period. Information Technology was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.63%.

Shareholder Expense Examples (unaudited)

Edgar Filing: WisdomTree Trust - Form N-CSRS

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2007 to September 30, 2007 for all Funds except WisdomTree International Real Estate Fund and WisdomTree Emerging Markets High-Yielding Fund; WisdomTree International Real Estate Fund's period was June 5, 2007 through September 30, 2007 and WisdomTree Emerging Markets High-Yielding Fund was July 13, 2007 through September 30, 2007.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled "Expenses Paid During Period 4/01/07 to 9/30/07" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Notes to Financial Statements (unaudited)

1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2007, the Trust offered 38 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on June 16, 2006, with the exception of the international dividend sector funds, domestic earnings funds, International Real Estate Fund and Emerging Markets High-Yielding Equity Fund that commenced operations on October 13, 2006, February 23, 2007, June 5, 2007 and July 13, 2007, respectively.

These financial statements relate only to the WisdomTree DEFA Fund ("DEFA Fund"), WisdomTree DEFA High-Yielding Equity Fund ("DEFA High-Yielding Equity Fund"), WisdomTree Europe Total Dividend Fund ("Europe Total Dividend Fund"), WisdomTree Europe High-Yielding Equity Fund ("Europe High-Yielding Equity Fund"), WisdomTree Europe SmallCap Dividend Fund ("Europe SmallCap Dividend Fund"), WisdomTree Japan Total Dividend Fund ("Japan Total Dividend Fund"), WisdomTree Japan High-Yielding Equity Fund ("Japan High-Yielding Equity Fund"), WisdomTree Japan SmallCap Dividend Fund ("Japan SmallCap Dividend Fund"), WisdomTree Pacific ex-Japan Total Dividend Fund ("Pacific ex-Japan Total Dividend Fund"), WisdomTree Pacific ex-Japan High-Yielding Equity Fund ("Pacific ex-Japan High-Yielding Equity Fund"), WisdomTree International LargeCap Dividend Fund ("International LargeCap Dividend Fund"), WisdomTree International Dividend Top 100 Fund ("International Dividend Top 100 Fund"), WisdomTree International MidCap Dividend Fund ("International MidCap Dividend Fund"), WisdomTree International SmallCap Dividend Fund ("International SmallCap Dividend Fund"), WisdomTree International Real Estate Fund ("International Real Estate Fund") and WisdomTree Emerging Markets High-Yielding Equity Fund ("Emerging Markets High-Yielding Equity Fund"), together the "International Dividend Funds".

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index ("Index") developed by WisdomTree Investments, Inc. ("WisdomTree Investments"). Each Index consists of dividend paying securities in the market suggested by its name that meet specific criteria developed by WisdomTree Investments. "WisdomTree", "WisdomTree Investments", WisdomTree DEFA", and "International Dividend Top 100" are service marks of WisdomTree Investments licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Edgar Filing: WisdomTree Trust - Form N-CSRS

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation - The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

(b) Investment Transactions - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

(c) Foreign Currency Translation - The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the

110 WisdomTree International Dividend Funds

Notes to Financial Statements (unaudited) (continued)

Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of ordinary income in accordance with U.S. Federal income tax regulations.

(d) Investment Income - Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

(e) Expenses/Reimbursements - WisdomTree Asset Management, Inc. ("WTAM") has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii)

Edgar Filing: WisdomTree Trust - Form N-CSRS

legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM. Pursuant to a separate contractual arrangement, WTAM has paid the expenses described in (iii), (iv) and (v) through July 31, 2007.

(f) Security Lending - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

(g) Tax Information and Dividends and Distributions to Shareholders - It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

The Funds adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes. This interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital

Edgar Filing: WisdomTree Trust - Form N-CSRS

gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in "Other" expenses on the Statements of Operations. Management has evaluated the application of FIN 48 to the Funds, and has determined that there is no impact resulting from the adoption of this interpretation on the Funds' financial statements.

(h) Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and

WisdomTree International Dividend Funds 111

Notes to Financial Statements (unaudited) (continued)

foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

3. ADVISER FEES AND TRANSACTIONS

Adviser Fees - WTAM provides investment management services to each Fund pursuant to an Investment Advisory Agreement between the Trust and WTAM. As compensation for services rendered, facilities furnished, and expenses borne by WTAM, each Fund pays WTAM a fee, as listed below, which is accrued daily and paid monthly, based on the average daily net assets of the Fund.

Fund	Fee Rate
DEFA Fund	0.48%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the period ended September 30, 2007, there were no transactions in affiliated ETFs.

Pursuant to a separate contractual arrangement, effective August 1, 2007, WTAM has arranged for the provision of chief compliance officer ("CCO") services to the Trust, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a fee paid by each Fund of up to 0.0044% of the Fund's average daily net assets.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2007, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consist of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

7. NEW ACCOUNTING PRONOUNCEMENTS

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management does not believe the adoption of FAS 157 will impact the amounts reported in the financial statements; however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported in the Statements of Operations for the fiscal period.

8. SUBSEQUENT EVENT

Effective October 30, 2007, the Trust launched the WisdomTree Emerging Markets SmallCap Dividend Fund (DGS). The Fund has an expense ratio of 0.63%.

Approval of Investment Advisory Agreement and Sub-Advisory Agreement
(unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve the Trust's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the "Investment Advisory Agreements"). In addition, the Trust's Board of Trustees will receive, review and evaluate information concerning the services and personnel of the Investment Adviser and the Sub-Adviser at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees and total expenses, and the Trust's investment performance at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating the Investment Adviser and the Sub-Adviser and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by the Investment Adviser and the Sub-Adviser under the Investment Advisory Agreements will include deliberations at future quarterly meetings.

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement (the "Advisory Agreement"). At meetings held on June 11, 2007 with respect to the Emerging Markets High-Yielding Equity Fund and September 17, 2007 with respect to Emerging Markets SmallCap Dividend Fund, the Board of Trustees, including a majority of the Independent Trustees, approved the Investment Advisory Agreement with WisdomTree Asset Management ("WTAM") with respect to the Funds. In approving the Advisory Agreement with WTAM, the Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) WTAM's personnel and operations; (iii) WTAM's financial condition; (iv) the level and method of computing each Fund's advisory fee; (v) "fall-out" benefits to WTAM and its affiliates (i.e.,

Edgar Filing: WisdomTree Trust - Form N-CSRS

ancillary benefits that may be realized by WTAM or its affiliates from WTAM's relationship with the Funds); (vi) the anticipated effect of growth and size on each Fund's performance and expenses; and (vii) possible conflicts of interest.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' sub-adviser and oversight of the sub-adviser's compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the sub-adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the sub-adviser to the Funds, BNY Investment Advisors ("BNYIA"), using essentially the same criteria it used for WTAM. The Board considered BNYIA's operational capabilities and resources and BNYIA's experience in serving as an adviser to ETFs, noting that BNYIA currently provides investment advisory and management services to other ETFs. The Board also evaluated the performance of comparable funds managed by BNYIA in comparison to a peer group, and the expertise and performance of the BNYIA personnel. The Board also noted that Bank of New York Mellon ("BNY"), an affiliate of BNYIA, was proposed to serve as the Funds' administrator, accountant, custodian and transfer agent and will receive compensation for acting in these capacities and will be responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodial Fund assets. As such, the Board concluded that the benefits accruing to BNYIA and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to BNYIA under the Sub-Advisory Agreement.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and BNYIA, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value ("NAV") of each Fund and the market trading price of shares of each Fund. For these purposes, the "market price" is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term "premium" is sometimes used to describe a

Edgar Filing: WisdomTree Trust - Form N-CSRS

market price in excess of NAV and the term "discount" is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund's per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund's market price but not in its NAV (or vice versa).

Letter to Shareholders

Dear Shareholders:

It is a pleasure to report to you on the progress of the WisdomTree Trust for the six-month period ended September 30, 2007.

WisdomTree is committed to providing investors with viable alternatives to cap-weighted index funds. Two recent launches underscore our intention to serve

Edgar Filing: WisdomTree Trust - Form N-CSRS

investors in unique ways. In June, the company launched the first fundamentally weighted international real estate exchange traded fund (DRW). In July, WisdomTree listed the first fundamentally weighted emerging markets ETF (DEM), comprised of dividend-paying companies selected from 19 emerging market nations. When combined with WisdomTree's 14 developed market ETFs and 10 pure non-U.S. sector ETFs, our international offerings stood at 26 as of September 30, 2007, distinguishing WisdomTree's international line-up as one of the most comprehensive in the industry today. As of September 30, 2007, WisdomTree Trust assets totaled \$4.4 billion, with approximately 71% of total assets under management invested in WisdomTree's international product set.

The highest returns over this six-month period were generated outside the U.S. Equity markets in the Pacific region excluding Japan showed the greatest strength relative to other parts of the developed market, while Japanese equity markets continued to lag. WisdomTree's best-performing fund was its Pacific ex-Japan Total Dividend Fund (DND), which returned 24.40% for the six-month period ended September 30, 2007. The WisdomTree Japan High-Yielding Equity Fund (DNL), which lost 5.74% for the period, was WisdomTree's worst performing fund over this time frame. However, WisdomTree's broadest international ETF, the WisdomTree DEFA Fund (DWM), benefited from Japan's relative weakness. DWM, which is underweight Japanese stocks relative to the MSCI EAFE Index, returned 10.63% for the period, surpassing the MSCI EAFE Index by 1.91 percentage points for the six-month period ended September 30, 2007.*

On the domestic front, WisdomTree's fundamentally-weighted ETFs ran into two head winds: weakness in the financial and real estate industries, coupled with the re-emergence of growth stocks. Buffeted by investor concerns over exposure to sub-prime housing loans, financial stocks have been the worst performing sector of the U.S. economy in 2007. The weakness in financials contributed to value stocks, measured by the Russell 3000 Value Index, underperforming growth stocks, measured by the Russell 3000 Growth Index, for first time since 1999. Specific performance information for WisdomTree's funds, relative to their underlying WisdomTree index and a comparable benchmark, is provided in the pages that follow.

Thank you for your continued support.

Best regards,

/s/ Jonathan Steinberg

WisdomTree International Basic Materials Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Basic Materials Sector Index.

The WisdomTree International Basic Materials Sector Fund (DBN) returned 23.45% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). United Kingdom stocks in the Fund contributed most significantly to this performance; the country comprised on average 22.13% of the Fund and returned 36.43% over the period. BHP Billiton Ltd. was the top contributor to the performance for the period. Norway was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.58%.

WisdomTree International Consumer Cyclical Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Consumer Cyclical Sector Index.

The WisdomTree International Consumer Cyclical Sector Fund (DPC) returned 4.07% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). German stocks in the Fund contributed most significantly to this performance; the country comprised on average 13.52% of the Fund and returned 24.14% over the period. Daimler AG was the top contributor to the performance for the period. The United Kingdom was the biggest detractor to the Fund for the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.58%.

WisdomTree International Utilities Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Utilities Sector Index.

The WisdomTree International Utilities Sector Fund (DBU) returned 10.30% at NAV, for the six month period ending September 30, 2007 (for more complete performance information, please see below). German stocks in the Fund contributed most significantly to this performance; the country comprised on average 13.16% of the Fund and returned 36.01% over the period. E.ON AG was the top contributor to the performance for the period. Japan was the biggest detractor to the Fund for the period.

Edgar Filing: WisdomTree Trust - Form N-CSRS

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for fund shares and investors assessments of the underlying value of a fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. The annual expense ratio of the Fund is 0.58%.

(1) Total returns are calculated based on the commencement of trading on the NYSE on October 13, 2006.

Performance quoted represents past performance and past performance does not guarantee future results. Current performance may be higher or lower than the performance quoted. For the most recent month end performance information visit www.wisdomtree.com. Investment in the Fund poses investment risk including the possible loss of principal. The investment return and principal value of an investment will fluctuate, so that shares, when sold or redeemed, may be worth more or less than their original cost. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period less than one year have not been annualized. Index returns do not reflect expenses paid by the Fund.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1)

Edgar Filing: WisdomTree Trust - Form N-CSRS

transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2007 to September 30, 2007.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled "Expenses Paid During Period 4/01/07 to 9/30/07" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Notes to Financial Statements (unaudited)

1. ORGANIZATION

Edgar Filing: WisdomTree Trust - Form N-CSRS

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2007, the Trust offered 38 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on June 16, 2006, with the exception of the international dividend sector funds, domestic earnings funds, International Real Estate Fund and Emerging Markets High-Yielding Equity Fund that commenced operations on October 13, 2006, February 23, 2007, June 5, 2007 and July 13, 2007, respectively.

These financial statements relate only to the WisdomTree International Basic Materials Sector Fund ("International Basic Materials Sector Fund"), WisdomTree International Communications Sector Fund ("International Communications Sector Fund"), WisdomTree International Consumer Cyclical Sector Fund ("International Consumer Cyclical Sector Fund"), WisdomTree International Consumer Non-Cyclical Sector Fund ("International Consumer Non-Cyclical Sector Fund"), WisdomTree International Energy Sector Fund ("International Energy Sector Fund"), WisdomTree International Financial Sector Fund ("International Financial Sector Fund"), WisdomTree International Health Care Sector Fund ("International Health Care Sector Fund"), WisdomTree International Industrial Sector Fund ("International Industrial Sector Fund"), WisdomTree International Technology Sector Fund ("International Technology Sector Fund") and WisdomTree International Utilities Sector Fund ("International Utilities Sector Fund"), together the "International Dividend Sector Funds."

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index ("Index") developed by WisdomTree Investments, Inc. ("Wisdom Tree Investments"). Each Index consists of dividend paying securities in the market suggested by its name that meet specific criteria developed by WisdomTree Investments. "WisdomTree" and "WisdomTree Investments" are service marks of WisdomTree Investments licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation - The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value

Edgar Filing: WisdomTree Trust - Form N-CSRS

as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

(b) Investment Transactions - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

(c) Foreign Currency Translation - The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

WisdomTree International Dividend Sector Funds 55

Notes to Financial Statements (unaudited) (continued)

(d) Investment Income - Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

(e) Expenses/Reimbursements - WisdomTree Asset Management ("WTAM") has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM. Pursuant to a separate contractual arrangement, WTAM has paid the expenses described in (iii), (iv) and (v) through July 31, 2007.

(f) Security Lending - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same

Edgar Filing: WisdomTree Trust - Form N-CSRS

manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

(g) Tax Information and Dividends and Distributions to Shareholders - It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

The Funds adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes. This interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in "Other" expenses on the Statements of Operations. Management has evaluated the application of FIN 48 to the Funds, and has determined that there is no impact resulting from the adoption of this interpretation on the Funds' financial statements.

(h) Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Edgar Filing: WisdomTree Trust - Form N-CSRS

3. ADVISER FEES AND TRANSACTIONS

Adviser Fees - WTAM provides investment management services to each Fund pursuant to an Investment Advisory Agreement between the Trust and WTAM. As compensation for services rendered, facilities furnished, and expenses borne by WTAM, each Fund pays WTAM a fee, as listed below, which is accrued daily and paid monthly, based on the average daily net assets of the Fund.

Fund	Fee Rate
International Basic Materials Sector Fund	0.58%
International Communications Sector Fund	0.58%
International Consumer Cyclical Sector Fund	0.58%
International Consumer Non-Cyclical Sector Fund	0.58%
International Energy Sector Fund	0.58%
International Financial Sector Fund	0.58%
International Health Care Sector Fund	0.58%
International Industrial Sector Fund	0.58%
International Technology Sector Fund	0.58%
International Utilities Sector Fund	0.58%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the six months ended September 30, 2007, there were no transactions in affiliated ETFs.

Pursuant to a separate contractual arrangement, effective August 1, 2007, WTAM has arranged for the provision of chief compliance officer ("CCO") services to the Trust, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a fee paid by each Fund of up to 0.0044% of the Fund's average daily net assets.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2007, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation

Edgar Filing: WisdomTree Trust - Form N-CSRS

of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

7. NEW ACCOUNTING PRONOUNCEMENTS

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning

after November 15, 2007 and interim periods within those fiscal years. At this time, management does not believe the adoption of FAS 157 will impact the amounts reported in the financial statements; however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported in the Statements of Operations for the fiscal period.

8. SUBSEQUENT EVENT

Effective October 30, 2007, the Trust launched the WisdomTree Emerging Markets SmallCap Dividend Fund (DGS). The Fund has an expense ratio of 0.63%.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value ("NAV") of each Fund and the market trading price of shares of each Fund. For these purposes, the "market price" is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term "premium" is sometimes used to describe a market price in excess of NAV and the term "discount" is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund's per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund's market price but not in its NAV (or vice versa).

The WisdomTree Funds are exchange traded funds ("ETFs") registered with the United States Securities and Exchange Commission ("SEC") as series of WisdomTree Trust ("Trust"). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds' distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

In addition to the normal risks associated with investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Fund focusing on a single country, sector, and/or funds that emphasize investments in smaller companies may experience greater price volatility. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Transactions in fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the funds only in large amounts of 50,000 shares or more.
