Form 10-Q/A
July 15, 2008

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q/A

**x QUARTERLY REPORT UNDER SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF
1934**

For the quarterly period ended: May 31, 2008

OR

o TRANSITION REPORT UNDER SECTION 13 OR 15(D) OF THE EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 0-26057

BIOPHAN TECHNOLOGIES, INC.
(Exact name of registrant as specified in its charter)

Nevada
(State or other jurisdiction of
incorporation or organization)

82-0507874
(I.R.S. Employer Identification No.)

15 Schoen Place
Pittsford, New York 14534
(Address of principal executive offices) (Zip Code)

(585) 267-4800
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" in Rule 12b-2 of the Exchange Act (Check one):

Large Accelerated Filer **Accelerated Filer** **Non-Accelerated Filer** **Smaller Reporting Company**

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date.

Class outstanding as of July 10, 2008 - Common Stock, \$.005 par value: 174,040,411

Explanatory Note:

This 10Q is being amended to include Exhibit 99.1 - Press Release of Biophan Technologies, Inc. dated July 14, 2008, which was inadvertently omitted with the original filing.

INDEX

PART I. FINANCIAL INFORMATION

ITEM 1. Financial Statements

Condensed Consolidated Balance Sheets, May 31, 2008 (Unaudited) and February 29, 2008 1

Condensed Consolidated Statements of Operations, Three Months Ended May 31, 2008 and 2007 (Unaudited), and from August 1, 1968 (Date of Inception) through May 31, 2008 (Unaudited) 2

Condensed Consolidated Statements of Cash Flows, Three Months Ended May 31, 2008 and 2007 (Unaudited), and from August 1, 1968 (Date of Inception) through May 31, 2008 (Unaudited) 3

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2008

INTERIM FINANCIAL STATEMENTS:

The condensed consolidated financial statements as of May 31, 2008 and for the three months ended May 31, 2008 and 2007 are unaudited. However, in the opinion of management of the Company, these financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary to present fairly the financial position and results of operations for such interim periods. The results of operations for the interim periods presented are not necessarily indicative of the results to be obtained for a full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008.

BASIS OF CONSOLIDATION:

The consolidated financial statements include the accounts of Biophan Technologies, Inc. ("Biophan"), its wholly owned subsidiaries, LTR Antisense Technology, Inc. ("Antisense") and Nanolution, LLC, formerly MRIC Drug Delivery Systems, LLC, ("Nanolution"), its majority owned subsidiaries Biophan Europe GmbH ("Biophan Europe"), formerly aMRIs GmbH, TE Bio LLC ("TE Bio"), and Myotech, LLC ("Myotech"), collectively referred to as the "Company". All significant inter-company accounts and transactions have been eliminated in consolidation.

COMPANY HISTORY:

The Company was incorporated under the laws of the State of Idaho on August 1, 1968 and on January 12, 2000, changed its domicile to Nevada by merging into a Nevada corporation, and on July 19, 2001, changed its name to Biophan Technologies, Inc. From the inception of the current line of business on December 1, 2000, the Company has not generated any material revenues and operating profits from its planned principal business activities. Therefore, the Company is in the development stage and will remain so until the realization of significant revenues and operating profits. The Company's ability to continue in business is dependent upon maintaining sufficient financing or attaining future profitable operations.

PRINCIPAL BUSINESS ACTIVITIES:

The Company's primary mission is to develop and commercially exploit technologies for improving the performance of medical devices manufactured by third party companies, including the creation, protection and sale of intellectual property. The Company possesses technologies for enabling biomedical devices, both implantable and those used in diagnostic and interventional procedures, to be safe and image compatible with MRI (magnetic resonance imaging). The Company is also developing and marketing a system for generating power for implantable devices from body heat, and a series of implantable devices including MRI-visible vascular implants such as a vena cava filter, a heart valve and an occluder for the treatment of atrial septal defects, a hole in the wall separating the left and right chambers of the heart. The Company's first licensee for several of these technologies was Boston Scientific (NYSE: BSX). The Company is also a majority owner of Myotech (accounted for as a variable interest entity prior to October 2, 2007) the developer of the Myotech CSS, a circulatory support system that does not contact circulating blood and utilizes technology that the Company believes has the potential to become a standard of care for treating acute heart failure including sudden cardiac arrest.

INCOME TAXES

Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted rates expected to apply when the differences are expected to be realized. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Realization of the deferred income tax asset is dependent on generating sufficient taxable income in future years. The Company has recorded a 100% valuation allowance against net deferred tax assets due to uncertainty of their ultimate realization.

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company adopted FIN 48 effective March 1, 2007. The adoption of FIN48 did not have a material effect on it's consolidated financial position or results of operations as the Company has no unrecognized tax liabilities and has not incurred any interest or penalties in any of its tax jurisdictions. It is the Company policy to charge interest and penalties incurred on the underpayment of income taxes to interest expense and other expense, respectively. The Company has open tax years beginning in fiscal years ended February 28, 2005 through February 29, 2008. The Company is currently being audited by certain state tax authorities for the 2006 tax year.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2008

RECENT ACCOUNTING PRONOUNCEMENTS:

In June 2006, The FASB issued Interpretation No. 48 "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" ("FIN 48"). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes". FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted the provisions of FIN 48 in the first quarter of fiscal 2008.

In September 2006, the FASB issued SFAS No. 157 ("SFAS 157"), "Fair Value Measurements," which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. However, on December 14, 2007, the FASB issued proposed FSP FAS 157-b which would delay the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). This proposed FSP partially defers the effective date of Statement 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of this FSP. The Company is currently evaluating the impact of adoption of FIN 157 on our financial position, result of operations and cash flows.

In December 2006, the FASB issued Staff Position No. EITF 00-19-2. This FSP addresses an issuer's accounting for registration payment arrangements and specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement should be separately recognized and measured in accordance with FASB No. 5. The guidance in this FSP amends FASB Statements 133 and 150 and FASB Interpretation No. 45 to include scope exceptions for registration payment arrangements. This FSP further clarifies that a financial instrument subject to a registration payment arrangement should be accounted for without regard to the contingent obligation to transfer consideration pursuant to the registration payment arrangement. The Company adopted this EITF in the first quarter of 2007 in connection with the issuance of the Senior Secured Convertible Notes and related warrants.

In February 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ("SFAS No. 159"). SFAS No. 159 permits companies to elect to follow fair value accounting for certain financial assets and liabilities in an effort to mitigate volatility in earnings without having to apply complex hedge accounting provisions. The standard also establishes presentation and disclosure requirements designed to facilitate comparison between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company chose not to apply the provisions of SFAS No. 159.

In June 2007, the Financial Accounting Standards Board ratified EITF Issue No. 07-3, which clarifies the method and timing for recognition of nonrefundable advance payments for goods and services to be used or rendered in future research and development activities pursuant to an executory contractual arrangement. In particular, it addresses whether nonrefundable advance payments for goods or services that will be used or rendered for research and development activities should be expensed when the advance payment is made or when the research and development

activity has been performed. The Company adopted the consensus in this Issue on March 1, 2008

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations and SFAS No. 160, Accounting and Reporting of Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51. These new standards will significantly change the accounting for and reporting of business combinations and non-controlling (minority) interests in consolidated financial statements. Statement Nos. 141(R) and 160 are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. SFAS Nos. 141(R) and SFAS 160 will be applied prospectively to business combinations with an acquisition date after the effective date. The adoption of SFAS Nos. 141(R) and 160 are expected to have an impact on the Company's financial statements for current and future subsidiary investments.

Management does not believe that any recently issued, but not yet effective accounting standards, if currently adopted, would have a material effect on the accompanying financial statements.

INVESTMENT IN MYOTECH, LLC:

Effective November 30, 2005, we entered into a Securities Purchase Agreement for the acquisition of an initial 35% interest in Myotech, LLC ("Myotech"), a New York limited liability company, whereby we exchanged 4,923,080 shares of our common stock, par value \$.005, for 3,768,488 Class A (voting) units of Myotech.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2008

Based upon the terms of the Securities Purchase Agreement, we were obligated to purchase for cash consideration of \$2.225 million an additional 811,037 Class A units and could have elected to acquire up to an additional 3,563,097 Class A units for further cash consideration of up to \$9.775 million, over a 24-month period, which would have resulted in the Company owning a majority interest in Myotech. Through October 1, 2007, Biophan provided an aggregate of \$4,636,040 of additional funding in exchange for 1,682,234 newly issued Class A units of Myotech, which raised our ownership percentage to 44.1%.

On October 2, 2007, we entered into a revised Securities Purchase Agreement with Myotech pursuant to which the Company agreed to purchase from Myotech an additional 15,496,547 Class A membership units for an aggregate purchase price of \$3,200,000. Prior to the execution of the Agreement, Biophan owned 5,408,194 Class A membership units. Upon execution of the Agreement, Biophan purchased an additional 9,316,547 Class A membership units upon the payment of an aggregate initial purchase price of \$1,200,000 bringing our ownership percentage as of November 30, 2007 to 68.02%. Thereafter, upon the satisfaction of certain conditions, Biophan will purchase an additional 6,180,000 Class A membership units for a purchase price of \$2,000,000, which will increase our ownership percentage to approximately 75%. The increase in our equity interest for consideration of \$1,200,000 was at a per-unit price that was less than the then book value per unit. This excess of the book value over the cost, or negative goodwill, in the amount of \$4,697,552 was allocated to reduce the stated value of the Myotech intellectual property in consolidation.

On May 1, 2008 Biophan purchased an additional 618,000 units for \$200,000 increasing ownership to 68.9%. Subsequent to the quarter ended May 31, 2008 Biophan purchased an additional 1,236,000 units for \$400,000 increasing ownership to 70.6%.

Prior to our obtaining a majority interest, we determined Myotech was a Variable Interest Entity within the meaning of FIN 46(R) and the Company is the primary beneficiary (as defined in FIN 46(R)). Consequently, the financial statements of Myotech have been consolidated with our consolidated financial statements for all periods ending on or after November 30, 2005, the date of our initial investment in Myotech.

The following is selected financial data for Myotech, LLC for the three months ended:

	May 31,	
	2008	2007
Total current assets	\$ 128,448	\$ 46,594
Intangible assets, net of amortization	21,352,088	22,729,640
Other assets	112,487	178,907
Total assets	\$ 21,593,023	22,955,141
Current liabilities	\$ 153,676	\$ 375,341
Equity	21,439,346	22,579,800
	\$ 21,593,023	\$ 22,955,141
Net loss from operations	\$ (869,438)	\$ (956,632)

LINE OF CREDIT AGREEMENTS:

On May 27, 2005, we entered into a Line of Credit Agreement (LOC #1) with Biomed Solutions, LLC, at the time a related party, whereby Biomed agreed to provide a line of credit facility of up to \$2 million. Upon the resignation of Biophan's former CEO, Michael Weiner, on October 3, 2007 Biomed was no longer deemed a related party. Borrowings under the line bear interest at 8% per annum, are payable on demand and are convertible at Biomed's election into the Company's common stock at 90% of the average closing price for the 20 trading days preceding the date of borrowings under the line. In June 2005, the Company borrowed the entire \$2 million under the line in two separate draws of \$1 million each. In accordance with the agreement, Biomed received warrants to purchase 500,000 shares of the Company's common stock at an exercise price of 110% of the average closing price for the 20 trading days preceding the date of execution of the credit agreement. The Company recorded a discount on the borrowings of \$958,160 due to the beneficial conversion feature of the note as well as for the value of the warrants which was valued utilizing the Black-Scholes Option Pricing Model. The discount was amortized as additional interest expense over the term of the note. In August 2005, Biomed elected to convert \$1 million of the note plus accrued interest into 480,899 shares of common stock at which time the remaining discount related to the \$1 million portion of the loan was fully expensed. On October 7, 2005, we repaid \$500,000 of principal and all accrued interest on the loan. The balance of borrowings on the line was \$500,000 at May 31, 2008 and 2007.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MAY 31, 2008

On January 24, 2006, we entered into an additional Line of Credit Agreement (the "Line of Credit Agreement")(LOC #2) with Biomed Solutions, LLC, pursuant to which Biomed committed to make advances to us, in an aggregate amount of up to \$5,000,000. Amounts borrowed bear interest at the rate of 8% per annum, and principal and interest were convertible into shares of our Common Stock at the rate of \$1.46 per share. Biomed's obligation to lend to us under the Line of Credit Agreement expired on June 30, 2007, on which date the entire amount borrowed by us (and not converted into shares of our Common Stock) became due and payable. In connection with the establishment of the credit facility, we issued to Biomed a warrant to purchase up to 1,198,630 shares of our Common Stock at an exercise price of \$1.89 per share. The Company recorded a discount on the borrowings of \$1,678,425 due to the beneficial conversion feature of the note as well as for the value of the warrant.

On October 11, 2006, in connection with our Securities Purchase Agreement dated October 11, 2006 with Iroquois Master Fund Ltd and other private investors (the "Purchase Agreement"), we amended our January 24, 2006 Line of Credit Agreement (the "Biomed Line of Credit Agreement") with Biomed and the Convertible Promissory Note in the original principal amount of \$5,000,000 issued by us to Biomed on January 24, 2006 pursuant to the Biomed Line of Credit Agreement (the "\$5,000,000 Biomed Note"). The amendment reduced the price at which the \$5,000,000 Biomed Note is convertible into shares of our Common Stock from \$1.46 per share to a conversion price of \$0.67. In connection with the Purchase Agreement, we also entered into a Subordination and Standstill Agreement (the "Subordination Agreement") with Biomed and the investors who are parties to the Purchase Agreement, pursuant to which Biomed agreed (i) to subordinate its rights to payment under the \$5,000,000 Biomed Note and the Convertible Promissory Note in the original principal amount of \$2,000,000 issued by us to Biomed on May 27, 2005 to the rights of the investors under the Notes and (ii) to convert the entire outstanding amount of principal and interest due under the \$5,000,000 Biomed Note in excess of \$700,000 into shares of our common stock upon the effectiveness of an amendment to our Articles of Incorporation to increase the number of our authorized shares which was effective May 9, 2007. On July 19, 2007, Biomed converted \$2,180,000 of principal and \$195,899 of accrued interest into a total of 3,546,118 shares of our common stock leaving a balance outstanding at August 31, 2007 of \$1,750,000. On November 5, 2007, Biophan and Biomed entered into a Settlement Agreement with SBI to settle all claims, causes of action and disputes between and among them. As a result of SBI's forgiveness of Biomed's debt, Biomed forgave \$1,050,000 of the Biophan's Line of Credit leaving a balance outstanding of \$700,000 as of May 31, 2008 and \$3,930,000 at May 31, 2007. This forgiveness of debt by Biomed, a stockholder of the Company at that time, was recorded as a credit to additional paid-in capital in stockholders' equity.

The total balance of borrowings on the lines of credit was \$1,200,000 and \$4,430,000 at May 31, 2008 and 2007, respectively.

The fair value of the notes is not readily determinable as there is a limited market for such related party debt.

SENIOR SECURED CONVERTIBLE NOTES:

On October 11, 2006, we entered into a Securities Purchase Agreement (the "Purchase Agreement") with 10 private investors led by Iroquois Master Fund Ltd ("Iroquois"). Pursuant to the Purchase Agreement, on October 12, 2006 we issued \$7,250,000 of Senior Secured Convertible Notes (the "Notes") to the investors and received proceeds of \$6,219,880 after paying estimated fees and expenses of \$1,030,120 related to the transaction. The holders of the Notes may elect to convert the Notes at any time into shares of our common stock based upon a price of \$0.67 per share (the "Conversion Price"). Interest on the outstanding principal amount under the Notes is payable quarterly at a rate equal

to the six-month London InterBank Overnight Rate plus 500 basis points, with a minimum rate of 10% per annum and a maximum rate of 12% per annum, payable at our option in cash or shares of our common stock registered for resale under the Securities Act of 1933, as amended (the "Securities Act"). If we elect to make principal or interest payments in common stock, the number of shares issuable by us will be based upon the lower of (i) 90% of the 20-day trailing average volume weighted average price per share as reported on Bloomberg LP (the "VWAPS") or (ii) the Conversion Price. Principal on the Notes amortizes and payments are due in 33 equal monthly installments commencing four months following issuance of the Notes, and may be made at our option in cash or shares of our common stock registered for resale under the Securities Act. If we elect to make an interest payment in common stock, the number of shares issuable by us will be based upon the lower of (i) 90% of the 20-day trailing average volume weighted average price per share as reported on Bloomberg LP (the "VWAPS") or (ii) the Conversion Price. Our obligations under the Notes are secured by a first priority security interest in substantially all of our assets pursuant to a Security

Agreement dated as of October 11, 2006 among us, the investors and Iroquois, as agent for the investors (the "Security Agreement"). The scheduled maturity date of the notes is October 2009.

As further consideration to the investors, we issued to the investors one-year warrants to purchase an aggregate of 10,820,896 shares of our common stock at a price of \$0.67 per share. If the investors had elected to exercise these one-year warrants, they would have received additional five-year warrants to purchase the shares of our common stock equal to the number of shares purchased under the one-year warrants, with 50% of the additional warrants having an exercise price of 115% of the per share purchase price, and the remaining 50% of the additional five-year warrants having an exercise price of 125% of the per share purchase price. These one year warrants expired May 7, 2008. We also issued to the investors five-year warrants to purchase an aggregate of 10,820,896 shares of our common stock. The first five-year warrants allowed for the purchase of 5,410,448 shares of our common stock at an exercise price of \$0.81 per share, and the second five-year warrants allowed for the purchase of 5,410,448 shares of our common stock at an exercise price of \$0.89 per share. The warrants contain anti-dilution protection that, should we issue equity or equity-linked securities at a price per common share below the exercise price of the five-year warrants, it will automatically adjust the exercise price of the warrants to the price at which we issue such equity or equity-linked securities. The total fair value of the warrants was \$14,554,105 which was calculated utilizing the Black-Scholes Option Pricing Model. The Company recorded a discount on the Notes of \$7,250,000 for the fair value of the related warrants. The excess of the fair value of the warrants over the carrying value of the notes, which amounted to \$7,304,105, was recognized as additional expense related to warrants in the statement of operations for the year ended February 28, 2007. The discount on the Notes is being amortized over the life of the Notes using the effective interest method. The discount amortization for the year ended February 29, 2008 and February 28, 2007 amounted to \$3,200,692 and \$1,707,066, respectively and is included in interest expense in the accompanying statements of operations.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MAY 31, 2008

On February 21, 2007, we entered into a Forbearance Agreement (the "Forbearance Agreement") with the investors pursuant to which the investors agreed that, during the period commencing on February 16, 2007 and ending on the earlier of (i) March 31, 2007 or (ii) the date on which any Termination Event (as defined in the Forbearance Agreement) first occurs (the "Forbearance Period"), they will forbear from exercising any and all of the rights and remedies which they may have against us or any of our assets under the Notes or the Purchase Agreement or at law or in equity as a result of any default under the Notes or as a result of the occurrence of certain events with respect to the Purchase Agreement. In exchange for entering into the Forbearance Agreement, we issued pro rata to the investors three-year warrants for the purchase of an aggregate of 60,000 shares of our common stock at an exercise price of \$0.51 per share (the "Fee Warrants"). The warrants were valued at \$19,980, utilizing the Black-Scholes Option Pricing Model and charged to expense. In consideration for a payment of \$652,500 on October 9, 2007 all the existing defaults under the Notes or Purchase Agreement were waived.

Upon the issuance of the Fee Warrants, the exercise prices of the five-year warrants issued to the investors pursuant to the Purchase Agreement (the "Original Warrants") for the purchase of an aggregate of 10,820,896 shares of our common stock were automatically adjusted from \$0.81 per share and \$0.89 per share, respectively, to \$0.51 per share, and the number of shares of our common stock issuable upon exercise of the Original Warrants was automatically adjusted, proportionately, to an aggregate of 18,034,830 shares. In the Forbearance Agreement, the investors waived, with respect to the issuance of the Fee Warrants, application of similar anti-dilution adjustments contained in the Notes and in a third series of warrants for the purchase, on or before October 12, 2007, of an aggregate of 10,820,896 additional shares of our common stock at an exercise price of \$0.67 per share (the "One Year Warrants"). Collins Stewart, LLC, formerly known as C.E. Unterberg Towbin, which holds a warrant for the purchase of 865,672 shares of our common stock at an exercise price of \$0.67 per share, issued to it in connection with its services as exclusive placement agent under the Purchase Agreement, separately agreed to waive, with respect to the issuance of the Fee Warrants, application of the anti-dilution provisions set forth in that warrant. Because the anti-dilution adjustment to the Original Warrants is accounted for as a modification of the Original Warrants, we recorded an expense in the amount of \$5,318,064 for this modification in the period ended February 28, 2007.

On October 3, 2007, we entered into Amendment No. 1 to the Securities Purchase Agreement, Senior Secured Convertible Notes, Warrants and Security Agreement with the independent private investors. Pursuant to the Amendment, we agreed to amend the Notes to provide that even if we elect to make a monthly installment payment in cash, the holder will have the right to request payment in common stock of the Company. In addition, the Conversion Price was reduced to \$0.15. As of May 31, 2008 2,440,000 shares have been converted at \$0.15. The Amendment also amended the warrants to reduce the exercise prices of the various warrants to \$0.23. In exchange for the foregoing, the investors released certain intellectual property for the Security Agreement, allowing the Company to transfer and sell such intellectual property. Further, in the Amendment, we agreed to certain spending covenants in connection with the proceeds we received from the sale of the intellectual property under the Intellectual Property Assignment Agreement dated as of August 6, 2007 by and between Biophan and Medtronic, Inc. For accounting purposes, these amendments as they pertain to re-pricing of the convertible debt and warrants, have been treated as an extinguishment of the old debt. Accordingly, during fiscal 2008 the remaining unamortized discount on the old debt of \$3,352,581 was written off, a loss on extinguishment of \$3,189,187 on the old debt was recognized, and a new discount in the amount of \$2,636,612 was recorded. In addition, a beneficial conversion charge to interest expense was recorded in the amount of \$3,021,197.

On February 7, 2008, the Securities Purchase Agreement was amended further to, among other things, allow the Company to withdraw the Registration Statement on Form S-1 (SEC File Number 333-146930) which was filed with the Securities and Exchange Commission on October 25, 2007 on behalf of the Investors, without any liquidated damages or penalties or further obligations to file a registration statement in connection with any securities held by the Investors. While the Registration Statement was pending, in order to continue to satisfy its payment obligations to the Investors under the Agreement, the Company issued 11,869,235 shares of its common stock from November 30, 2007 through February 29, 2008. The shares were issued without registration under the Securities Act of 1933 in reliance on the exemption provided in Section 4(2) of such Act. In exchange, we agreed to change the definition of Market Price if the average for the 20 Trading Days ending immediately prior to the applicable Principal Payment Date is below \$0.15 (the conversion price). Market Price will be calculated on 80% of the arithmetic average of the VWAP for each of the 20 Trading Days ending immediately prior to the applicable Principal Payment Date. The discount from the market price of 20% is recognized as additional interest expense.

The outstanding principal on the senior secured convertible notes was \$3,149,155 and \$7,250,000 at May 31, 2008 and 2007, respectively.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2008

FAIR VALUE OF WARRANT LIABILITY:

In accordance with the guidance provided by EITF 00-19, Accounting for Derivative Financial Instruments Indexed to and Potentially Settled in, a Company's Own Stock, we have recorded a liability for the fair value of the warrants related to the Senior Secured Convertible Notes from time to time in order to provide for the possibility that we would not be able to comply with the registration rights of the lenders as contained in the Securities Purchase Agreement because we did not have sufficient available authorized shares to execute a potential conversion of the Notes and related warrants and thus we would be required to settle the contract in cash. In addition, if we did not have sufficient available authorized shares to execute a potential conversion of other outstanding warrants, if requested to do so by the grantees, we could be required to settle any conversion requests in cash. Therefore, we would be required to reclassify warrants from equity to a warrant liability account and based on the fair value of the warrants at the time, reverse this transaction when the condition no longer exists.

On May 31, 2008 and February 29, 2008, the Company was not required to record a warrant liability as defined by EITF 00-19.

STOCKHOLDERS' EQUITY:

Event	Number of Shares Issued	Common Stock	Additional Paid in Capital
Balance at February 29, 2008	114,205,424	\$ 595,643	\$ 78,015,527
Shares issued for principal and interest on convertible notes	26,138,910	130,694	869,756
Shares issued to directors	900,000	4,500	31,500
Shares issued for services	647,504	3,238	20,306
Stock option expense	-	-	53,414
Balance at May 31, 2008	141,891,838	\$ 734,075	\$ 78,990,503

STOCK-BASED COMPENSATION PLANS:

The Company accounts for stock-based compensation in accordance with SFAS No. 123R, "Share-Based Payment," using the fair value recognition provisions of SFAS No. 123, "Accounting for Stock-Based Compensation." The Company recognized expense under SFAS No. 123R in the amount of \$53,414 for the quarter. The related impact on basic and diluted earnings per share for the quarter ended May 31, 2008 was a reduction of \$0.0004. There was no impact on the Company's cash flow.

The Company's stock incentive plans consist of the Biophan Technologies, Inc. 2001 Stock Option Plan and the Biophan Technologies, Inc. 2006 Incentive Stock Plan (the "Plans") which are shareholder approved. In March 2008, the Board of Directors approved and adopted the 2008 Incentive Stock Plan reserving 10,000,000 which has not yet been approved by stockholders. The Plans provide for the grant of incentive and non-qualified stock options to selected employees, and the grant of non-qualified options and other stock-based awards to selected consultants and to directors and advisory board members. The Plans are administered by the Compensation Committee of the Board and authorizes the grant of options or restricted stock awards for 13,000,000 shares under the 2001 Plan, 7,500,000 shares

under the 2006 Plan and 10,000,000 shares under the 2008 Plan. The Compensation Committee determines which eligible individuals are to receive options or other awards under the Plans, the terms and conditions of those awards, the applicable vesting schedule, the option price and term for any granted options, and all other terms and conditions governing the option grants and other awards made under the Plans. The Company tends to fund exercised options with previously unissued shares. Non-employee directors also receive periodic restricted stock grants pursuant to the automatic grant program in effect for them under the 2008 Plan. Some of the Company's outstanding option agreements contain performance milestones as a condition for vesting. In accordance with Statement of Accounting Standard No. 123(R), "Share Based Payments," the Compensation Committee periodically evaluates the probability these milestones will be met and records compensation expense when it is determined that the condition is probable of being satisfied. During the quarter ended May 31, 2008, none of the criteria for vesting of outstanding performance options were met.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model that uses the assumptions noted in the following table. Expected volatilities are based on historical volatility of the Company's stock, management's estimate of implied volatility of the Company's stock, and other factors. The expected term of options granted is derived from the vesting period of the award, as well as historical exercise behavior, and represents the period of time that options granted are expected to be outstanding. The risk-free rate is calculated using the U.S. Treasury yield curve, and is based on the expected term of the option. The Company uses historical data to estimate forfeitures.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MAY 31, 2008

There were no options granted during the quarter ended May 31, 2008. The Black-Scholes option pricing model was used with the following weighted-average assumptions for options granted during the quarter ended May 31, 2007:

	4.55% -
Risk-free interest rates	4.67%
Expected option lives	8 years
	75.2% -
Expected volatilities	81.4%
Expected dividend yields	0.0%

Further information relating to stock options is as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contract Life (years)
Outstanding options at 2/29/08	15,503,891	\$ 0.63	
Granted	-		
Exercised	-		
Forfeited/expired	-		
Outstanding options at 5/31/08	15,503,891	\$ 0.63	7.12
Exercisable on May 31, 2008	13,302,224	\$ 0.58	7.14

The following table summarizes our non-vested stock option activity for the quarter ended May 31, 2008

Non-vested stock option activity

	No of Shares	Wt'd Avg Grant-Date Fair Value
Non-vested stock options at 2/29/08	1,941,667	\$ 0.73
Granted	-	
Vested	(740,000)	\$ 0.21
Forfeited/expired	-	
Non-vested stock options at 5/31/08	1,201,667	\$ 1.09

As of May 31, 2008 there was approximately \$122,000 of total unrecognized compensation cost related to unvested options. The cost is expected to be recognized over a weighted-average period of .08 years.

The options have contractual terms ranging from five to ten years. The aggregate intrinsic value of shares outstanding and exercisable was \$0 at May 31, 2008 as the market price of the Company's common stock was below the weighted-average exercise price of options. Total intrinsic value of options exercised was \$0 for the quarter ended May 31, 2008 as there were no options exercised.

At May 31, 2008, shares available for future stock option grants to employees and others under our 2001 Stock Option Plan, our 2006 Incentive Stock Plan and 2008 Incentive Stock Plan were 44,480 and 26,566 and 8,452,496, respectively.

EARNINGS PER SHARE:

If the Company had generated earnings during the three-month period ended May 31, 2008, no common stock equivalent shares would have been added to the weighted average shares outstanding as no options have exercise prices below the average fair value of the Company's stock during the period.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2008

CONTINGENCIES:

We are not a party to any material legal proceedings and there are no material legal proceedings pending with respect to our property, except as noted below. We are not aware of any legal proceedings contemplated by any governmental authorities involving either us or our property. None of our directors, officers or affiliates is an adverse party in any legal proceedings involving us or our subsidiaries, or has an interest in any proceeding which is adverse to us or our subsidiaries.

On April 17, 2008, the Company reached an agreement to terminate the Company's forward funding commitments with Biophan Europe GmbH. As a result, it's likely the Company's ownership percentage in Biophan Europe will be reduced and the Company will no longer be required to consolidate this entity. Management believes this will not have a material effect on the Company's condensed consolidated financial statements in future periods. In addition, on May 5, 2008 Biophan Europe settled a dispute with a minority shareholder whereby Biophan Europe paid the shareholder \$80,000 and agreed to issue 150,000 shares of the Company's stock, valued at approximately \$2,250. The settlement will allow Biophan Europe to pursue future funding of its operations without restrictions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This report on Form 10-Q/A contains statements that are considered forward-looking statements. Forward-looking statements give the Company's current expectations and forecasts of future events. All statements other than statements of current or historical fact contained in this annual report, including statements regarding the Company's future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. The words "anticipate," "believe," "continue," "estimate," "expect," "intend," "may," "plan," and similar expressions, as they relate to the Company, are intended to identify forward-looking statements. These statements are based on the Company's current plans, and the Company's actual future activities and results of operations may be materially different from those set forth in the forward-looking statements. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements made. Any or all of the forward-looking statements in this report may turn out to be inaccurate. The Company has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs. The forward-looking statements can be affected by inaccurate assumptions or by known or unknown risks, uncertainties and assumptions. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events occurring after the date hereof. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the cautionary statements contained in this report.

GENERAL

Our primary mission is to develop and commercially exploit novel medical device technologies to improve the delivery of healthcare. We do not currently employ our own manufacturing or distribution channels but rather rely on relationships with sub-contractors and/or partner companies. We develop technology protected by strong intellectual property targeted at specific markets within the medical technology sector.

COMPANY BUSINESS

During the three-month period ended May 31, 2008, we accomplished the following:

- We have continued collaboration with Myotech, LLC on development of the Myotech Circulatory Support System (CSS), a life-saving device that provides benefits and competitive advantages not possible with other circulatory support devices. In the past, first generation prototype versions of this technology (Direct Mechanical Ventricular Actuation) have saved human lives and hold tremendous promise of the treatment of acute heart failure. On April 23, 2008, we announced approval to move to the next stage of development of the Myotech CSS, allowing investment of an additional \$2 million in Myotech for implementation of a plan to be on the market as soon as 24 to 30 months.
- We recognized approximately \$222,000 in revenue from licensing, grants, development payments, MRI testing, and consulting fees.
- Our subsidiary Biophan Europe has continued development of an MRI image compatible stent, capable of being imaged with MRI to detect the presence of restenosis (blood vessel narrowing) and blood clots after implantation. Biophan Europe is also developing an MRI visible heart valve, including the ability to place the valve under MRI guidance, which provides significant advantages over existing imaging procedures. Our technologies to enable stent and heart valve visibility are licensed exclusively to Boston Scientific (NYSE:BSX). Biophan Europe is also continuing development of an MRI image compatible vena cava filter, which allows MR imaging of blood clots that

may be present in the filter to help ensure the safe removal of the device, in addition to an occluder device that can also be imaged and implanted under MRI guidance to treat conditions such as PFO (patent foramen ovale) and atrial septal defects.

· We have continued working under a Cooperative Research and Development Agreement (CRADA) with the FDA's Office of Science and Engineering Laboratories (OSEL) to research and define methods for measuring MRI safety of medical implants by examining the leads of cardiac rhythm management and neurostimulation devices.

We have determined that the technology that we control which is the most proven and most likely to produce revenues within the near term is the Myotech CSS. This technology is our primary areas of focus. Work on MRI visibility is centered in Europe in our Biophan Europe subsidiary.

Biophan's Board approved the purchase of the patent assets of Nanoset LLC that had previously been exclusively licensed for medical applications. The purchase allows Biophan to exploit the technology disclosed in these patents and applications in non-medical markets and eliminates the annual royalty minimum payments. The Nanoset patents cover the compositions of matter, manufacturing methods, and device designs that employ nanomagnetic materials that can potentially be used to shield against unwanted electromagnetic energy, enhance the quality of magnetic resonance images of implanted devices such as stents, or be used as contrast media for MRI procedures.

Other programs, such as the biothermal power supply that we have been developing with NASA, will take longer to develop, and we have decided to fund these projects through either government grants, strategic partners, or other structures that do not divert focus and resources from our short-term goals of capitalizing on our core business. We have aggressively filed grant applications to help fund the development of our early stage technologies.

The work done to date at NASA on the biothermal power supply has indicated that it may require an additional 18 months to determine if we can develop a significant improvement in performance of thermoelectric materials over the current state of the art adequate to generate power from the available heat in the human body. We have secured one SBIR Phase 1 grant from the Department of Homeland Security, and another from the Department of Energy, for the development of the biothermal power supply, and we are pursuing additional grant and matching fund opportunities with other Federal agencies.

On April 17, 2008, the Company reached an agreement to terminate the Company's forward funding commitments with Biophan Europe GmbH. As a result, it's likely the Company's ownership percentage in Biophan Europe will be reduced and the Company will no longer be required to consolidate this entity. Management believes this will not have a material effect on the Company's condensed consolidated financial statements in future periods.

RESULTS OF OPERATIONS

The following comments discuss the significant factors affecting the consolidated operating results, financial condition and liquidity and cash flows of the Company for the three months ended May 31, 2008 as compared to the three months ended May 31, 2007.

COMPARISON OF THE THREE MONTHS ENDED MAY 31, 2008 AND 2007

Revenue

Revenues were approximately \$222,000 for the three months ended May 31, 2008 as compared to \$172,000 for the three months ended May 31, 2007. The increase is due to a transitional services agreement the Company has with Medtronic, Inc. in connection with the sale of intellectual property to Medtronic for \$11,000,000 during fiscal 2008. Pursuant to the agreement the Company receives \$15,000 per month for technical support through September 2008 .

Research and Development.

Research and development expenses decreased by 22%, to approximately \$1,028,000 for the three months ended May 31, 2008 from approximately \$1,320,000 for the three months ended May 31, 2007. This decrease is primarily attributable to decreased salaries of \$153,000, reduced spending on several research and development projects of \$96,000, and reduced non-cash stock option expense of \$68,000. Trends going forward, (i.e. The company anticipates that research and development expenditures will gradually begin to trend upward as the company gets closer to commercialization of its CSS technology. These expenditures will be dependent on the Company's ability to continue to funds these expenses through existing working capital and future capital raises.

General and Administrative

General and administrative expenses decreased by 30% to approximately \$1,033,000 for the three months ended May 31, 2008 from approximately \$1,488,000 for the three months ended May 31, 2007. This decrease is primarily attributable to decreased salaries of \$141,000, decreased spending for travel of \$46,000, professional services of \$38,000, and reduced non-cash stock option expense of \$222,000. These amounts are in addition to general reductions in spending for almost all other categories. The Company continues to monitor and reduce its general and administrative expenses to provide maximum working capital to fund its research and development efforts.

Other Income and Expense

Interest Expense. We incurred interest expense amounting to approximately \$762,000 for the three months ended May 31, 2008 compared to \$1,385,000 for the three months ended May 31, 2007. The reduction pertained primarily to the conversion or repricing of the senior secured convertible notes which will continue until their maturity in October 2009.

Change in Fair Value of Warrant Liability. We have not been required to recognize a fair value derivative liability for the three months ended May 31, 2008. See discussion above regarding "Fair Value of Warrant Liability".

Minority Interest in Subsidiaries. The decrease in this line-item is a direct effect of allocating the decreased losses incurred by Myotech to the interest of the owners of Myotech other than Biophan. This minority interest in the losses of Myotech will continue to decrease as the Company increases its planned equity ownership in Myotech to 75%.

BIOPHAN TECHNOLOGIES, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2008

LIQUIDITY

On October 3, 2007, we entered into Amendment No. 1 to the Securities Purchase Agreement, Senior Secured Convertible Notes, Warrants and Security Agreement with 10 independent private investors led by Iroquois Master Fund Ltd (“Iroquois”). Pursuant to the Amendment and related agreements, certain events of default were cured and the investors released certain intellectual property for the Security Agreement, allowing the Company to transfer and sell certain intellectual property to Medtronic, Inc. Further, in the Amendment, we agreed to certain spending covenants in connection with the proceeds we received from the sale of the intellectual property under the Intellectual Property Assignment Agreement dated as of August 6, 2007 by and between Biophan and Medtronic. On October 5, 2007, we closed the transaction contemplated by the Intellectual Property Assignment Agreement, sold the foregoing intellectual property to Medtronic and received an aggregate of \$11,000,000 as the sale price. At May 31, 2008, we have a cash balance \$5,700,000 and a working capital position of approximately \$2,200,000.

Since October 2007, Biophan instituted a cost reduction program that includes a significant reduction in quarterly recurring operating expenses to a cap of \$600,000 per quarter currently. In addition, Biophan has reduced its investments in several product lines and pursued alternative funding vehicles in support of other projects.

We have also reorganized our efforts on funding the development of the Myotech Cardiac Support System device. On October 2, 2007, we entered into a revised Securities Purchase Agreement with Myotech, LLC in which we hold a 68.9% interest as of May 31, 2008. Pursuant to the Agreement, we agreed to purchase from Myotech an aggregate of 15,496,547 membership units for an aggregate purchase price of \$3,200,000. In accordance with the Agreement, we received an additional 5,000,000 Class A Membership Units and an additional 4,316,547 Class A Membership Units upon the payment of an aggregate initial purchase price of \$1,200,000. Thereafter, upon the satisfaction of certain conditions, Biophan will purchase an additional 6,180,000 Class A Membership Units of Myotech for a purchase price of \$2,000,000. As a result of these investments, our ownership percentage in Myotech will increase to approximately 75%.

We believe the Company has adequate working capital resources for the upcoming twelve to eighteen months of operations.

CAPITAL RESOURCES

Our current strategic plan does not indicate a need for material capital expenditures to conduct planned research and development activities.

We currently employ thirteen full-time individuals, twelve in the U.S. and one in Europe.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not Applicable

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

Management is responsible for establishing and maintaining effective disclosure controls and procedures. As of May 31, 2008, our Chief Executive Officer and Chief Financial Officer participated with our management in evaluating the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the Securities and Exchange Commission ("SEC") reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time period specified by the SEC's rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. In light of the discussion of the material weakness set forth below, these officers have concluded that our disclosure controls and procedures were not effective. To address the material weakness described below, we performed additional analyses and other post-closing procedures to ensure our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Accordingly, management believes that the financial statements included in this Quarterly Report on Form 10-Q/A fairly present, in all material respects, our financial condition, result of operations and cash flows for the periods presented.

Management's Report on Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed by, or under the supervision of, a public company's principal executive and principal financial officers, or persons performing similar functions, and effected by the board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles ("GAAP") including those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the company, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has assessed the effectiveness of our internal control over financial reporting as of February 29, 2008 (the last annual Management's Assessment of Internal Control over Financial Reporting) . In making this assessment, our management used the criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

A material weakness is a control deficiency, or combination of control deficiencies, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. In connection with management's assessment of our internal control over financial reporting described above, management has identified the following material weakness in the Company's internal control over financial reporting as of February 29, 2008:

The Company did not maintain effective controls over accounting for income taxes, specifically the application of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes " (as Amended), which requires management to 1.) identify and evaluate the tax implications of non-routine transactions, including those related to the acquisition of interest in subsidiaries and the senior secured convertible debt, among others, 2.) evaluate net operating loss carryforwards, 3.) prepare the provision for income taxes and income taxes payable (where applicable) including tax reserves, return to provision adjustments, and 4.) reconcile all differences between tax and financial reporting basis of its assets and liabilities, with its deferred income tax assets and liabilities. Company management does not possess the requisite knowledge or experience to adequately address the financial statement risks associated with certain complex transactions and as a consequence relied on the help of outside advisors (other than their independent auditors) to properly state the Company's financial statements.

As a result of the material weaknesses described above, our management concluded that as of February 29, 2008, we did not maintain effective internal control over financial reporting based on the criteria established in *Internal Control — Integrated Framework* issued by the COSO.

The annual report included on Form 10-K referred to above did not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to the temporary rules of the SEC that permit the Company to provide only management's report in the aforementioned annual report on the Company's Form 10-K filed with the SEC on June 13, 2008.

Plan for Remediation of Material Weaknesses.

In response to the identified material weakness, management, with oversight from the Company's audit committee, plans to improve internal controls over accounting for income taxes by formalizing a periodic tax review process that includes the development of formalized policies and procedures, required periodic consultation with qualified outside advisors, documentation standards and workpaper review and approval guidelines. In addition, the Company intends to provide tax training and educational opportunities to Company employees to enhance internal awareness of tax-specific matters.

Notwithstanding the material weaknesses discussed above, management believes that the financial statements included in this report present fairly, in all material respects, our financial position, results of operations, and cash flows for the periods presented in accordance with U.S. generally accepted accounting principles.

Changes in Internal Control Over Financial Reporting.

There were no changes in our internal controls over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 under the Exchange Act during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not a party to any material legal proceedings and there are no material legal proceedings pending with respect to our property, except as noted below. We are not aware of any legal proceedings contemplated by any governmental authorities involving either us or our property. None of our directors, officers or affiliates is an adverse party in any legal proceedings involving us or our subsidiaries, or has an interest in any proceeding which is adverse to us or our subsidiaries.

ITEM 1A. RISK FACTORS

There are no material changes from risk factors as previously disclosed in the Company's Form 10-K for the fiscal year ended February 29, 2008.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not applicable.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

ITEM 5. OTHER INFORMATION

On July 14, 2008, the Company issued a press release announcing the retirement of Robert J. Wood as the Company's Chief Financial Officer effective July 15, 2008, and the appointment of Margaret V. Russell as the Company's new Chief Financial Officer. Ms. Russell also was elected by the Board of Directors as a Vice President and Treasurer of the Company effective July 15, 2008. A copy of the press release is filed herewith as Exhibit 99.1.
