EXPLANATORY NOTE

This Amendment No. 1 on Form 10-K/A, or the "Amendment", amends Patient Safety Technologies, Inc.'s Annual Report on Form 10-K for the fiscal year ended December 31, 2008, originally filed on April 16, 2009, or the "Original Filing". The purpose of this Amendment is to include certain information required by Part III of Form 10-K that was omitted from Part III of the Original Filing because it was to be incorporated by reference to our definitive Proxy Statement for the 2008 Annual Meeting of Stockholders. Because our definitive proxy Statement will not become definitive within 120 days after the end of the fiscal year ended December 31, 2008, the information required by Part III of the Annual Report on Form 10-K cannot be incorporated by reference and therefore must be included in the Annual Report. This Amendment contains the information that was previously omitted from Part III of the Original Filing. In addition, in connection with the filing of this Amendment and pursuant to the rules of the Securities and Exchange Commission, our Chief Executive Officer and Interim Chief Financial Officer have reissued their certifications. Accordingly, Item 15 has also been amended to reflect the filing of such certifications.

Except as described above no other changes have been made to the Original Filing. The Original Filing continues to speak as of the dates described in the Original Filing, and we have not updated the disclosures contained therein to reflect any events that occurred subsequent to such dates. Accordingly, the Amendment should be read in conjunction with our filings made with the Securities and Exchange Commission subsequent to the filing of the Original Filing, as information in such filings may update or supersede certain information contained in this Amendment. In this Amendment, unless the context indicates otherwise, the terms "we", "us", and "our" refer to Patient Safety Technologies, Inc. and our subsidiary.

of Directors) of the Company; (2) a director of another entity, one of whose executive officers served on the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire Board of Directors) of the Company; or (3) a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire Board of Directors) of another entity, one of whose executive officers served as a director of the Company. Our Compensation Committee had no meetings in 2008. As a result of this, our Board made all the compensation decisions for 2008 and William Horne and William Adams were both executive officers of the Company.

## COMPENSATION DISCUSSION AND ANALYSIS

For 2009, we have designed the compensation program for our named executive officers to attract, motivate, and retain key executives who drive the Company's success. We seek to employ the best executive talent in our line of business. We want to reward our executives for business achievements and satisfaction of corporate objectives. Additionally, the overall executive compensation program, taken as a whole, should align the interests of the executives with the stockholders' interests. We achieve these objectives through a compensation package that:

- provides competitive total compensation consisting primarily of cash and stock,
- allows our officer's to participate in the benefit programs that we offer to all full-time employees,
  - provides certain officer's to receive additional fringe benefits,
- differentiates rewards based on the officer's contributions to company performance, and
- encourages our named executive officers to act as owners with an equity interest in Patient Safety.

We view, for compensation purposes, our competitors for executive talent as companies in the health care industry.

### Determining Executive Compensation

The independent members of the Board approve the compensation of our named executive officers. The Compensation Committee makes a recommendation to the independent directors for annual compensation (including salary, bonus and stock-based compensation) of our named executive officers. These recommendations are based on:

#### Chief executive officer

- The chief executive officer's historical earnings,
- a market competitive assessment of similar roles at other companies,
- the earnings of other named executive officers, and
- an evaluation of the chief executive officer's performance for the fiscal year.

#### Named executive officers (other than the chief executive officer).

- The executive's historical earnings,

- a market competitive assessment of similar roles at other companies,
- internal comparisons to the compensation of other executives,
- evaluations of performance for the fiscal year, and
- the chief executive officer's recommendations for each named executive officer's base pay, and bonus amounts.

The evaluation is based on the success of the named executive officer in achieving his performance commitments, which include financial, strategic and company culture/leadership goals. The Board approves the named executive officers salary, bonus and stock-based compensation in the first quarter of the fiscal year after the relevant performance information is available.

### The Components of our Executive Compensation Program

Our executive compensation program consists of three elements: base pay; cash bonus and grants of fair market value of either restricted stock or options to purchase shares of our common stock. We use this mix of programs for a variety of reasons:

- As a package, these types of programs are typically offered by the types of companies from which we would seek executive talent.
- As a package, these particular programs provide both a current and a long term incentive for the executive officers, thereby aligning the executives' interests with shareholders.
- These programs, as a package, provide the executives with short and long-term rewards; this serves as a retention, as well as a motivational, device for the executives.

We also provide our named executive officers with a package of fringe benefits on the same basis that is provided to all full-time benefits eligible employees. These benefits include such items as health insurance and group term life insurance. We provide certain executives with an additional benefit of an automobile allowance, which is provided for in their employment contracts.

We believe that the package of executive compensation programs that we offer is competitive; we are able to attract and retain the executive talent that we need to successfully run our business. We currently believe that the long term incentive component of our executive compensation program, which uses fair market value stock options and grants of restricted common stock, provides executives with an incentive as well as putting a portion of their compensation at risk if our share price declines.

We believe that our named executive officers should have formalized employment contracts. The existence of a contract gives the Company, and the named executive officer structure as to the other's expectations from the employment relationship. We also believe that the level of security that an employment contract provides to the executive is an important retention tool; we feel that many of the companies with whom we compete for executive talent offer such agreements and that we would be at a competitive disadvantage if we did not have them. The salient terms of the employment agreements for the named executive officers are discussed in the "Employment Agreements" section.

### Our Process for Setting Executive Pay

The Compensation Committee's focus is to determine the compensation of the chief executive officer and to review the proposals of the chief executive officer regarding the compensation for other named executive officers. In 2009, the Compensation Committee will present recommendations to the entire Board of Directors for their approval.

Our executive compensation process begins with the chief executive officer's submission of each executive's total pay package to the Compensation Committee for its determination. We maintain a pay structure with ranges for each type of compensation (base pay, bonus, equity grant) for the named executive officers. We have developed this structure based on our knowledge of our industry.

Our process for determining the value of each component of executive pay has functioned in the following manner for 2009:

**Base pay:** Base compensation for all of our named executive officers is provided for in their respective employment agreements, and the Company has the ability to make annual increases to the base pay level. Looking at information from other reporting companies, the chief executive officer makes a recommendation for executive base pay increases to the Compensation Committee. The Compensation Committee reviews the information provided by the chief executive officer and its supporting data, and makes a determination of annual base pay increases.

**Annual bonus:** Our annual bonus program for executives is administered in the following manner. Our Compensation Committee determines the amount of bonuses, if any, for each of our named executive officers. To the extent bonuses are made they are on a completely discretionary basis at the reasonable and good faith discretion of the Compensation Committee, based upon the financial performance of the Company.

**Equity grants:** In certain circumstances, the Compensation Committee may award equity grants to named executive officers. The reasons for these grants include:

- an incentive to join the Company, based on compensation that is being forfeited through the termination of previous employment,
  - to encourage retention of critical talent,
- as a strategic investment in someone deemed critical to the Company's leadership, and
  - to reward outstanding performance

The chief executive officer recommends the equity grant, if any, to a named executive officer. At the time an offer of employment is made, the chief executive officer provides the Compensation Committee with a proposal for equity grants as part of the employment contract process. In this case, in 2009, the amount of the grant will be based on the equity grant ranges for the position, which the Company maintains. In 2009, the Compensation Committee will consider the chief executive officer's recommendation and makes a final decision based on the factors listed above. Equity grants that were made to named executive officers during 2008 were in connection with a grant specifically authorized by our Board. All of the options granted in 2008 were valued at fair market value as of the date of grant (as further explained below).

We establish the exercise price for our options in the following manner.

For a new hire, the Compensation Committee approves the grant and establishes the price based on the Company's closing price on the day of Compensation committee approval; however, if the executive has not yet started employment as of the date of Compensation Committee approval, the price is set as the Company's closing price on the executive's first day of work.

For a new contract for a current executive, the Compensation Committee approves the grant and establishes the price based on the Company's closing price on the day of Compensation Committee approval.

We believe that the grant of fair market value stock options, even though there is now a financial statement impact before the options are exercised, continues to provide substantial benefits to the Company and the executive. We benefit because the options align the executive's financial interest with the shareholders' interest:

The executives benefit because:

- They can realize additional income if our shares increase in value, and
- They have no personal income tax impact until they exercise the options

We do not maintain any equity ownership guidelines for our named executive officers. We have adopted a corporate policy which expressly prohibits any named executive officer from trading in derivative securities of our Company, short selling our securities, or purchasing our securities on margin at any time. We do not time the granting of our options with any favorable or unfavorable news relating to our Company. Proximity of any awards to an earnings announcement, market event or other event related to us is purely coincidental.

Because we feel that each of our named executive officers provides unique services to us, we do not use a fixed relationship between base pay, short term bonus and equity awards. When the Compensation Committee makes the final decisions about a named executive officers total compensation package for a year, the three elements (base pay, bonus and equity award) are considered both individually and as a complete package. We do not take into account amounts that a named executive officer may have realized in a year as a result of short term bonus awards or stock

option exercises when we establish pay levels and goals for the current year. Overall, we believe that our total compensation program for executives is reasonable while being competitive with market peers.

In 2008, our Compensation Committee did not meet. Due to the financial position of the Company, with the exception of Richard Bertran, our Board set the base salaries of our named executive officers at the same level as 2007. In the case of Mr. Bertran, our Board increased his base salary because of his increased responsibilities with the Company. Our Board also determined that in order to conserve cash no annual bonuses were granted or paid in 2008 to our named executive officers. Our Board did make several equity awards to our named executive officers based on each individual's performance during 2008. Our Board did not document its analysis for any of these compensation decisions.

The following table sets forth information concerning the annual and long-term compensation earned by or paid to our Chief Executive Officer and to other persons who served as executive officers at and/or during the fiscal year ended December 31, 2008, who earned compensation exceeding \$100,000 during 2008 and (the “named executive officers”), for services as executive officers for the last two fiscal years.

Mr. Bruce will receive an initial annual base salary of \$325,000 and he is eligible to receive an incentive bonus each fiscal year in the amount of not less than 25% of his annual base salary for such year, with the payment of such bonus based on Mr. Bruce's achievement of performance objectives established by the Company's Board of Directors each fiscal year.
