SETTLEMENT AGREEMENT BETWEEN THE COMPANY AND TRAFALGAR

The Company entered into a Securities Purchase Agreement (the "Agreement") with on September 25, 2008 for the sale of up to \$2,750,000 in convertible notes (the "Notes"). Pursuant to the terms of the Agreement, the Company and Trafalgar closed on the sale and purchase of \$1,600,000 in Note on September 25, 2008 and on a second financing for \$400,000 in Note on October 28, 2008, with escrow instruction to be closed on October 1, 2008, and October 30 respectively. The Notes bear interest at 8.5% with such interest payable on a monthly basis with the first two payments due at closing. The Notes are due in full in September 2010. In the event of default, the Buyer may elect to convert the interest payable in cash or in shares of common stock at a conversion price using the closing bid price of when the interest is due or paid. The Notes are convertible into our common stock, at the Buyer's option, at a conversion price equal to 85% of the volume weighted average price for the ten days immediately preceding the conversion but in no event below a price of \$2.00 per share. If on the conversion or redemption of the Notes, the Euro to US dollar spot exchange rate (the "Exchange Rate") is higher that the Exchange Rate on the closing date, then the number of shares shall be increased by the same percentage determined by dividing the Exchange Rate on the date of conversion or redemption by the Exchange Rate on the closing date. We are required to redeem the Notes starting on the fourth month in equal installments of \$56,000 with a final payment of \$480,000 with respect to the initial funding of \$1,600,000. We are also required to pay a redemption premium of 7% on the first redemption payment, which will increase 1% per month. We may prepay the Notes in advance, which such prepayment will include a redemption premium of 15%. In the event we close on a funding in excess of \$4,000,000, the Buyer, in its sole election, may require that we redeem the Notes in full. On any principal or interest repayment date, in the event that the Euro to US dollar spot exchange rate is lower than the Euro to US dollar spot exchange rate at closing, then we will be required to pay additional funds to compensate for such adjustment.

On April 14, 2009, the Company filed a complaint in Superior Court of California, County of Los Angeles (Case No. BC 411768) against Trafalgar and its affiliates (which was served on June 5, 2009 via registered mail and on September 10, 2009 in personal service), alleging breach of contract and fraud and alleged damages in the amount of \$30,000,000. On or about August 2008, Trafalgar obtained a default judgment against the Company in a lawsuit brought by Trafalgar (but never served on the Company) in Florida (Case No. 09-60980) for \$2,434,196.06. The Company appealed the Florida judgment, based on non-service and its appeal was granted on April 9, 2010 resulting in the judgment being vacated.

Pursuant to the Settlement Agreement entered between the Company and Trafalgar, the Company is required to exchange the outstanding Convertible Note owed to Trafalgar into \$3,000,000 face value of Series E Convertible Preferred Shares (the "Series E Shares") and all of our directors resigned as members of our board, with such resignation to be effective on the Effective Date. The Series E Shares mature in 30 months, accrue dividends at 7%, may be redeemed by the Company at anytime and are convertible into 600 million shares of common stock of the Company by Trafalgar. Under the terms of the settlement, Trafalgar and its nominated directors, agreed to continue and pursue the core business of the Company – the development of an Asian Pacific Cooperation Zone in Southern California to enhance and enable increased trade between the United States and China.

General Business Summary of Yasheng

Our business plan since 1993 has been identifying, developing and operating companies within emerging industries for the purpose of consolidation and sale if favorable market conditions exist. Although the Company primarily focuses on the operation and development of its core businesses, the Company pursues consolidations and sale opportunities in a variety of different industries, as such opportunities may present themselves, in order to develop its core businesses as well as outside of its core business. The Company may invest in other unidentified industries that the Company deems profitable. If the opportunity presents itself, the Company will consider implementing its consolidation strategy with its subsidiaries and any other business that it enters into a transaction. In January 2009, the Company commenced the business of development of a logistics center.

Our mission is to develop an Asian Pacific Cooperation Zone in Southern California to enhance and enable increased trade between the United States and China. The facility will provide a "Gateway to China" through a centralized location for the marketing, sales, customer service, product completion for "Made in the USA" products and distribution of goods imported from China. It will also promote Joint Ventures and exporting opportunities for US companies. The importing or sourcing materials from China has been the solution for creating significant margins for goods sold in the United States. While many large multi-national companies have been able to navigate and capitalize on the opportunities the Chinese industrial complex has created, most US companies simply do not have the resources to manage the complexities of working with companies in China. Some of the complexities for US companies importing from China include selecting the right manufacturer or vendor for your company, addressing transportation, tax and customs issues and quality control and delivery issues.

Due to the complexities and uncertainties US companies have found trying to import goods and services from China, our goal is to establish a centralized US based trade center. The goal is to create a "Gateway to China" with warehouse and office space. The warehouse will be centrally located in Southern California with easy access to the ports of Long Beach and Los Angeles, and railways. The warehouse will have the ability to handle both 20 and 40 foot containers including wet, dry and cold storage. The office space will be designed to provide US headquarters for the Chinese companies involved. One of the keys to success for the Asian Pacific Cooperation Zone is the ability to leverage a common infrastructure of technology, administration and transportation to sell goods and services in the United States. We anticipate the Cooperative zone will be utilized for distribution, sales, marketing, warehousing, administration, customer service, showroom display, pick and pack services as well as other value added services that prepares products for delivery to customers.

The business model is to facilitate the importing and exporting of goods and services. Revenue will be generated through a number of offerings including the lease of office space, storage space, distribution services, and administration services along with other value added services.

Our successful development of the logistics center includes many risks including raising adequate funds to pay for the lease of the facility and development of the facility of which there is no guarantee that such funds will be available, the general state of the economy in both the United States and China and concerns over whether the recession will continue or even possibly deepen.

Yasheng Group

Logistics Center and Potential Acquisition

During 2009, the Company entered into series of agreements with Yasheng Group, Inc., a California corporation. Yasheng Group is an agriculture conglomerate which has subsidiaries located in the Peoples Republic of China who are engaged in the production and distribution of agricultural, chemical and biotechnological products to the United States, Canada, Australia, Pakistan and various European Union countries as well as in China. Pursuant to these series of agreements Yasheng Group agreed to transfer certain assets and know-how for the development of a logistics center and eco-trade cooperation zone (the "Project") as well as sale to the company control over Yasheng Group.

As part of the Company due diligence and closing procedure, the Company requested that Yasheng-BVI (allegedly Yasheng Group's parent company) provide a current legal opinion from a reputable Chinese law firm attesting to the fact that no further regulatory approval from the Chinese government is required as well as other closing conditions to close the transaction. On November 3, 2009, the Company sent Yasheng Group and Yasheng-BVI a formal letter demanding various closing items. Yasheng Group and Yasheng-BVI did not deliver the requested items and, on November 9, 2009 Yasheng Group and Yasheng-BVI sent a termination notice to the Company advising that the definitive Agreement has been terminated. The Company is presently evaluating its options in moving forward with respect to Group based on various letters of intent and agreements with Group regarding various matters and is presently determining whether it should cease all activities with Group.

As Yasheng Group failed to enter into a definitive agreement with the Company, we may lose a significant source of our potential clients for the logistics center. As such, we would be required to develop additional sources of clients and develop a significant sales force to achieve favorable results.

Real Estate Development and Financial Services Industries

Until December 31, 2007, the Company's primary focus was on the business of real estate development and financial services industries through its wholly-owned subsidiaries in the United States and Europe. In 2008, the Company took the decision to discontinue its real estate operations. During 2008, the Company sold all its real estate properties

Mineral Resources Industry

In 2008, the Company's primary focus shifted from real estate development and financial services industries to the mineral resources industry, specifically within the gas and oil sub-industry. On May 1, 2008, the Company entered into an Agreement and Plan of Exchange (the "DCG Agreement") with Davy Crockett Gas Company, LLC ("DCG") and its members ("DCG Members"). Pursuant to the DCG Agreement, the Company acquired and the DCG Members sold, 100% of the outstanding membership in DCG in exchange for 50,000,000 shares of preferred stock of the Company. The sales price was \$50 million, as calculated by the 50 million shares at an agreed price of \$1.00. On June 30, 2008, the Company formed Vortex Ocean One LLC ("Vortex One") with third party -, an individual ("TI"). In addition, we assigned the four leases in Crockett County, Texas to Vortex One. As a condition precedent to TI contributing the required funding, Vortex One pledged all of its assets to TI including the leases. On October 29, 2008, the Company entered into a settlement arrangement with TI, whereby the Company agreed to transfer the 5,250 common shares previously owned by Vortex One to TI. On November 2009 the Company and TI agreed to dissolve all their joint venture and or partnership agreement, and TI waved any equity interest per conversion of his equity position into a debt holder.

Further, in February 28, 2009, TI, as the secured lender to Vortex One, directed Vortex One to sell the term assignments with 80% of the proceeds being delivered to TI, as secured lender, and 20% of the proceeds being delivered to the Company – as per the original agreement. The transaction closed on February 28, 2009 in consideration of a cash payment in the amount of \$225,000, a 12 month promissory note in the amount of \$600,000 and a 60 month promissory note in the amount of \$1,500,000 (the "Notes"). TI paid \$25,000 fee, and from the net consideration of \$200,000 TI paid the Company its 20% portion of \$40,000 on March 3, 2009. No relationship exists between TI, the assignee of the leases and the Company and/or its affiliates, directors, officers or any associate of an officer or director. As TI agreed with the Company to wave any equity interest, the Company is the beneficiary owner of the Notes.

Due to economic and business issues in the development of the oil and gas project in Crockett County, Texas, the board obtained additional reserve report for the Company's interest in DCG and Vortex One, which report indicated that the DCG properties as being negative in value. As a result of such report, the world and US recessions and the

depressed oil and gas prices, the board of directors elected to dispose of the DCG property and/or desert the project in its entirety. The Buyer of the term assignments is not performing under the Notes, and in essence is in default. As the Notes are secured with encumbrances on the wells, the Company did not make a reserve for doubtful debt. The Company is presently evaluating its options in moving forward with respect to potentially foreclose on the Notes, or negotiate terms with the Buyer, or revive its operation in the Mineral industry.

STOCK OPTION PLAN

2004 Incentive Plan

a) Stock option plans

In 2004, the Board of Directors established the “2004 Incentive Plan” (“the Plan”), with an aggregate of 800,000 shares of common stock authorized for issuance under the Plan. The Plan was approved by the Company’s Annual Meeting of Stockholders in May 2004. In 2005, the Plan was adjusted to increase the number of shares of common stock issuable under such plan from 800,000 shares to 1,200,000 shares. The adjustment was approved at the Company’s Annual Meeting of Stockholders in June 2005. The Plan provides that incentive and nonqualified options may be granted to key employees, officers, directors and consultants of the Company for the purpose of providing an incentive to those persons. The Plan may be administered by either the Board of Directors or a committee of two directors appointed by the Board of Directors (the “Committee”). The Board of Directors or Committee determines, among other things, the persons to whom stock options are granted, the number of shares subject to each option, the date or dates upon which each option may be exercised and the exercise price per share. Options granted under the Plan are generally exercisable for a period of up to ten years from the date of grant. Incentive options granted to stockholders that hold in excess of 10% of the total combined voting power or value of all classes of stock of the Company must have an exercise price of not less than 110% of the fair market value of the underlying stock on the date of the grant. The Company will not grant a nonqualified option with an exercise price less than 85% of the fair market value of the underlying common stock on the date of the grant.

The Company has granted the following options under the Plan:

On April 26, 2004, the Company granted 125,000 options to its Chief Executive Officer, an aggregate of 195,000 options to five employees and an aggregate of 45,000 options to two consultants of the Company (which do not qualify as employees). The stock options granted to the other employees and consultants vest at the rate of 80,000 options on November 1, 2004, October 1, 2005 and October 1, 2006. The exercise price of the options (\$4.78) was equal to the market price on the date of grant. The options granted to the Chief Executive Officer were forfeited/ cancelled in August 2006 due to the termination of his employment. Of the 195,000 options originally granted to employees, 60,000 options were forfeited or cancelled during 2005, while the remaining 135,000 options were forfeited or cancelled in August 2006 due to termination of the five employee contracts. 15,000 options granted to one of the consultants were also forfeited or cancelled in April 2006 due to the termination of the consultant's contract.

Through December 31, 2005, the Company did not recognize compensation expense under APB 25 for the options granted to the Chief Executive Officer and the five employees as the options had a zero intrinsic value at the date of grant. The adoption of SFAS 123R on January 1, 2006 resulted in a compensation charge of \$36,817 and \$21,241 for the years ended December 31, 2007 and 2006, respectively.

In accordance with SFAS 123, as amended by SFAS 123R, and EITF Issue No. 96-18, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services", the Company computed total compensation charges of \$162,000 for the grants made to the two consultants.
