Form 10-Q
November 14, 2011

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10 - Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

000-18122
(Commission File Number)

ARC Wireless Solutions, Inc.
(Exact name of registrant as specified in its charter)

Utah
(State or other jurisdiction of
incorporation)

87-0454148
(IRS Employer Identification Number)

6330 North Washington Street, Suite 13
Denver, Colorado, 80216-1146
(Address of principal executive offices including zip code)

(303) 421-4063
(Registrant's telephone number, including area code)

Not Applicable
(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "small reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 1, 2011, the Registrant had 3,091,350 shares outstanding of its \$.0005 par value common stock.

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2011

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all of the normal recurring adjustments necessary to present fairly the financial position of the Company as of September 30, 2011, the results of its operation and its cash flows for the three months and nine months then ended. For further information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

During the periods presented in the unaudited consolidated condensed financial statements, the Company operated in one business segment which is identified as Manufacturing which offers a wide variety of wireless components and network solutions to service providers, systems integrators, value added resellers, businesses and consumers, primarily in the United States.

Operating results for the three months and nine months ended September 30, 2011 are not necessarily indicative of the results to be expected for the full year or any future period.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of ARC Wireless Solutions, Inc. ("ARC"), and its wholly-owned subsidiary corporations, Starworks Wireless Inc. ("Starworks" or "Kit") and ARC Wireless Hong Kong Limited ("ARCHK"). All material intercompany accounts, transactions, and profits have been eliminated in consolidation. In 2010 management determined ARCHK, our wholly-owned subsidiary, was no longer necessary and operations were terminated. ARCHK primarily managed our own China production operations which was no longer required when we transitioned to utilizing the manufacturing, product sourcing, and outsourcing services of Rainbow Industrial Limited ("RIL") during the third quarter of 2010, as described in Note 5.

Basis of Presentation

The Company has experienced recurring losses and has accumulated a deficit of approximately \$9 million since inception in 1989. There can be no assurance that the Company will achieve the desired result of net income and positive cash flow from operations in future years. Management believes that current working capital will be sufficient to allow the Company to maintain its operations through September 30, 2012 and into the foreseeable future.

Use of Estimates

The preparation of the Company's consolidated condensed financial statements in accordance with generally accepted accounting principles of the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Cash and Cash Equivalents

We consider all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. From time to time we have cash balances in excess of federally insured amounts. We maintain our cash balances with several financial institutions.

Fair Value of Financial Instruments

The Company's short-term financial instruments consist of cash, money market accounts, accounts receivable, accounts payable and accrued expenses. The carrying amounts of these financial instruments approximate fair value because of their short-term maturities. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash and accounts receivable.

The Company does not hold or issue financial instruments for trading purposes nor does it hold or issue interest rate or leveraged derivative financial instruments.

Accounts Receivable

Trade receivables consist of uncollateralized customer obligations due under normal trade terms which normally require payment within 30 days of the invoice date. Management reviews trade receivables periodically and reduces the carrying amount by a valuation allowance that reflects management's best estimate of the amount that may not be collectible. The provision for doubtful accounts was \$0 at December 31, 2010 and \$5 thousand at September 30, 2011. Bad debt expense for the three months and nine months ended September 30, 2011 was \$5 thousand and \$0 for the three months and nine months ended September 30, 2010.

Income Taxes

The Company accounts for income taxes pursuant to Accounting Standards Codification ("ASC") 740, Income Taxes, which utilizes the asset and liability method of computing deferred income taxes. The objective of this method is to establish deferred tax assets and liabilities for any temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. The current and deferred tax provision is allocated among the members of the consolidated group on the separate income tax return basis.

ASC 740 also provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized. During the three months and nine months ended September 30, 2011 and 2010, the Company recognized no adjustments for uncertain tax positions.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. No interest and penalties related to uncertain tax positions were recognized at September 30, 2011 and December 31, 2010. The Company expects no material changes to unrecognized tax positions within the next twelve months.

Reclassifications

Certain balances in the prior year consolidated financial statements have been reclassified in order to conform to the current year presentation. The reclassifications had no effect on financial condition, gross profit, or net loss.

Note 2. Share-Based Compensation

The Company accounts for share-based payments pursuant to ASC 718, Stock Compensation and, accordingly, the Company records compensation expense for share-based awards based upon an assessment of the grant date fair value for stock options and restricted stock awards.

Stock compensation expense for stock options is recognized on a straight-line basis over the vesting period of the award. The Company accounts for stock options as equity awards.

The following table summarizes share-based compensation expense recorded in selling, general and administrative expenses during each period presented (in thousands):

	Three Months Ended		Nine Month Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Stock options	\$ 8	\$ 8	\$ 24	\$ 24
Total share-based compensation expense	\$ 8	\$ 8	\$ 24	\$ 24

Stock option activity was as follows:

	Number of Shares	Weighted Average Exercise Price (\$)
Balance at January 1, 2011	40,000	\$ 5.40
Granted	-	-
Exercised	-	-
Forfeited or expired	(40,000)	\$ (5.40)
Balance at September 30, 2011	-	-

The following table presents information regarding options outstanding and exercisable as of September 30, 2011:

Weighted average contractual remaining term - options outstanding	-
Aggregate intrinsic value - options outstanding	-
Options exercisable	-
Weighted average exercise price – options exercisable	-
Aggregate intrinsic value - options exercisable	-
Weighted average contractual remaining term - options exercisable	-

There were no options granted or exercised during the three months or nine months ended September 30, 2011.

As of September 30, 2011, there was no future compensation costs related to nonvested stock options.

Note 3. Earnings Per Share

Basic earnings (loss) per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share, reflects the potential dilution of securities that could share in the earnings of the entity. For periods where

the Company has incurred a net loss, stock options were not included in the computation of diluted loss per share because their effect was anti-dilutive, therefore, basic and fully diluted loss per share are the same for those periods.

The following table represents a reconciliation of the shares used to calculate basic and diluted earnings (loss) per share for the respective periods indicated (in thousands, except per share amounts):

	For the Three Months Ended September 30,					
	2011			2010		
	Net Loss Attributed to Common Stock	Weighted Average Shares	Per Share Loss	Net Loss Attributed to Common Stock	Weighted Average Shares	Per Share Loss
Basic EPS:						
Net Loss	\$(226)	3,091	\$(.07)	\$(56)	3,091	\$(.02)
Effect of Dilutive Securities						
Employee stock options	-	-	-	-	-	-
Diluted loss per share	\$(226)	3,091	\$(.07)	\$(56)	3,091	\$(.02)

	For the Nine Months Ended September 30,					
	2011			2010		
	Net Loss Attributed to Common Stock	Weighted Average Shares	Per Share Loss	Net Loss Attributed to Common Stock	Weighted Average Shares	Per Share Loss
Basic EPS:						
Net Loss	\$(473)	3,091	\$(.15)	\$(525)	3,091	\$(.17)
Effect of Dilutive Securities						
Employee stock options	-	-	-	-	-	-
Diluted loss per share	\$(473)	3,091	\$(.15)	\$(525)	3,091	\$(.17)

Note 4. Inventory

Commencing January 1, 2011, inventory is valued at the lower of cost or market using first in first out (FIFO) which approximate average cost, due to the rapid turnover of inventory. The Company previously valued its inventory at lower of cost or market using standard cost which approximated average cost, and as such, the change is not considered a change in accounting. Inventories are reviewed periodically and items considered to be slow-moving or obsolete are reduced to estimated net realizable value through an appropriate reserve. At September 30, 2011 and December 31, 2010, the inventory reserve was \$72 and \$64 thousand, respectively. Inventory consists of the following amounts (in thousands):

	September 30, December 31,	
	2011	2010
Raw materials	\$ 52	\$ 58
Work in progress	-	-
Finished goods	548	554
Subtotal	600	612
Inventory reserve	(72)	(64)
Net inventory	\$ 528	\$ 548

Note 5. Related Party Transactions

In 2009, the Company entered into a financial advisory engagement (the "Agreement") with Quadrant Management, Inc. (the "Advisor"). Quadrant Management, Inc. is under common control with Brean Murray Carret Group, Inc. ("Brean"), an entity that, together with a current director of the Company, beneficially owns approximately 1,121,354 shares, or approximately 36.3%, of the Company's common stock at September 30, 2011. The Company's former Chief Executive Officer has been a Managing Director at Quadrant Management, Inc. since 2005. The Company's current Chief Executive Officer is a Managing Director at Quadrant Management, Inc. since January 2008.

Pursuant to the Agreement, the Advisor provides to ARC financial advisory and business consulting services, including restructuring services. In consideration for the restructuring services which have been provided by the Advisor and for the ongoing services to be provided, ARC agreed to pay the following: 1) an initial cash fee of \$250 thousand upon signing the Agreement in January 2009; 2) during 2009 and future years, ARC will pay an annual fee of the greater of (i) \$250 thousand or (ii) 20% of any increase in reported earnings before interest, taxes, depreciation and amortization after adjusting for one-time and non-recurring items ("EBITDA") for the current financial year over preceding year, or (iii) 20% of reported EBITDA for the current financial year, and; 3) all reasonable out-of-pocket expenses incurred by Advisor in performing services under the Agreement. The 2010 annual fee of \$250 thousand is included in accrued liabilities at December 31, 2010. Approximately \$187 thousand of the 2011 annual fee was included in accrued liabilities at September 30, 2011. The Agreement will expire on December 31, 2013.

During the third quarter of 2010, we began utilizing the manufacturing, product sourcing, and outsourcing services of Rainbow Industrial Limited ("RIL") which is based in China. RIL is wholly owned by an affiliate of Quadrant Management, Inc., which is affiliated with us and our Chief Executive Officer. We purchase goods and services from RIL valued at approximately \$200 thousand per month, however the actual dollar amount can vary significantly with normal fluctuations in business activity. At September 30, 2011 we had payables to RIL of approximately \$16 thousand.

Note 6. Recent Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (ASC Topic 820) — Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The amendments in this ASU result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. To improve consistency in application across jurisdictions some changes in wording are necessary to ensure that U.S. GAAP and IFRS fair value measurement and disclosure requirements are described in the same way. The ASU also provides for certain changes in current GAAP disclosure requirements, for example with respect to the measurement of level 3 assets and for measuring the fair value of an instrument classified in a reporting entity's shareholders' equity. The amendments in this ASU are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. The adoption of this guidance is not anticipated to have a material impact on our consolidated financial position, results of operations or cash flows.

In May 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (ASC Topic 220) — Presentation of Comprehensive Income. The amendments from this update will result in more converged guidance on how comprehensive income is presented under both U.S. GAAP and IFRS. With this update to ASC 220, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. The amendments in this update do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income, nor does it affect how earnings per share is calculated or presented. Current U.S. GAAP allows reporting entities three alternatives for presenting other comprehensive income and its components in financial statements. One of those presentation options is to present the components of other comprehensive income as part of the statement of changes in stockholders equity. This update eliminates that option. The amendments in this ASU should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this guidance is not anticipated to have a material impact on our consolidated financial position, results of operations or cash flows.

In September 2011, the FASB issued amendments to the goodwill impairment guidance which provides an option for companies to use a qualitative approach to test goodwill for impairment if certain conditions are met. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 (early adoption is permitted). The implementation of amended accounting guidance is not expected to have a material impact on our consolidated financial position and results of operations.

Note 7. Concentration of Credit Risk

One customer accounted for approximately 30% and 23% of the Company's net sales for the nine months ended September 30, 2011 and 2010, respectively. A reduction, delay or cancellation of orders from this customer or the loss of this customer could significantly reduce the Company's revenues and operating results. We cannot provide assurance that this customer or any of our current customers will continue to place orders, that orders by existing customers will continue at current or historical levels or that we will be able to obtain orders from new customers.

Note 8. Industry Segment Information

ASC 280, Segment Reporting, requires that the Company disclose certain information about its operating segment where operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, financial information is required to be reported on the basis that is used internally for evaluating segment performance and deciding how to allocate resources to segments. The Company has one reportable segment, Manufacturing, which is a separate business unit that offers a variety of wireless components and network solutions to service providers, system integrators, value added resellers, businesses and consumers, primarily in the United States.

Note 9. Subsequent Events

Management has evaluated the impact of events occurring after September 30, 2011 up to the date of the filing of these condensed consolidated financial statements. These statements contain all necessary adjustments and disclosures resulting from that evaluation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to assist you in understanding our business and the results of our operations. It should be read in conjunction with the Consolidated Condensed Financial Statements and the related notes that appear elsewhere in this report as well as our Annual Report on Form 10-K for the year ended December 31, 2010. Certain statements made in our discussion may be forward looking. Forward-looking statements involve risks and uncertainties and a number of factors could cause actual results or outcomes to differ materially from our expectations. These risks, uncertainties, and other factors include, among others, the risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 filed with the Securities and Exchange Commission, as well as other risks described in this Quarterly Report. Unless the context requires otherwise, when we refer to "we," "us" and "our," we are describing ARC Wireless Solutions, Inc. and its consolidated subsidiaries on a consolidated basis.

BUSINESS OVERVIEW

We focus on wireless broadband technology related to propagation and optimization. We design and develop antennas that extend the reach of broadband and other wireless networks and that simplify the implementation of those networks. We supply our products to public and private carriers, wireless infrastructure providers, wireless equipment distributors, value added resellers and other original equipment manufacturers. Our strategy is focused on enhancing value for our stockholders by increasing revenues while at the same time reducing our overhead.

Growth in product revenue is dependent both on gaining further traction with current and new customers for the existing product portfolio as well as further acquisitions to support our wireless initiatives. Revenue growth for antenna products is correlated to overall global wireless market growth and a portion of our growth in this market has slowed due to the increasing use of fully integrated solutions and the current global economic conditions. We continue to focus on keeping our operational and general costs down in order to improve our gross margins until demand rebounds.

Specific growth areas are last mile wireless broadband Internet delivered over standards-based solutions such as Worldwide Interoperability for Microwave Access ("WiMAX"), WiFi or vendor specific proprietary solutions for point-to-point and point-to-multipoint applications, and industrial automation markets; Global Positioning Systems ("GPS") and Mobile SATCOM solutions for network timing, fleet and asset tracking and monitoring; Machine to machine ("M2M") communications for controlling or monitoring data from devices; and cellular base station antennas to build out or optimize carrier networks.

During the third quarter of 2010, we began utilizing the manufacturing, product sourcing, and outsourcing services of Rainbow Industrial Limited ("RIL") which is based in China. RIL is wholly owned by an affiliate of Quadrant Management, Inc., which is affiliated with us and our Chief Executive Officer. We purchase goods and services from RIL valued at approximately \$200 thousand per month; however the actual dollar amount can vary significantly with normal fluctuations in business activity. We use RIL's services because we believe in doing so it may lower our costs and simplify our internal accounting procedures.

Financial Condition

At September 30, 2011, we had approximately \$11.5million in working capital, which represents a decrease of approximately \$400 thousand from working capital at December 31, 2010 of \$11.9 million.

We have seen a decline in orders from customers, both domestically and internationally, as a result of the current economic environment and due to the increasing use of fully integrated solutions rather than the component solutions we offer. While we do not expect this trend to reverse in 2011, we continue our efforts to acquire new customers and update our product portfolio.

Management believes that current working capital will be sufficient to allow us to maintain our operations through September 30, 2012 and into the foreseeable future.

Results of Continuing Operations for the Three Months Ended September 30, 2011 and 2010

Total revenues were approximately \$629 thousand for the three months ended September 30, 2011 and \$968 thousand for the three months ended September 30, 2010. The decrease in revenues during the three months ended September 30, 2011 compared to the three months ended September 30, 2010 is primarily attributable to general decrease in sales across all product lines.

Gross profit margins were 39% and 38% for the three months ended September 30, 2011 and 2010, respectively. The slight increase in gross margin is primarily due to product mix.

Selling, general and administrative expenses (SG&A) increased 9% to \$482 thousand for the three months ended September 30, 2011 as compared to \$441 thousand for the three months ended September 30, 2010. SG&A as a percent of total revenues increased from 46% for the three months ended September 30, 2010 to 77% for the three months ended September 30, 2011. The primary reason for the increase in the % of SG&A compared to revenues is the 35% decrease in revenues comparing the three months ended September 30, 2011 to September 30, 2010. Salaries and wages, remains the largest component of SG&A costs, constituting 26% of the total SG&A costs for the three months ended September 30, 2011 and 2010. The majority of the overall increase in SG&A is related to a increase in research and development costs and salary costs. We are continuing our efforts to streamline our operations and reduce costs in other areas.

Other income decreased during the third quarter 2011 to approximately \$10 thousand as compared to \$12 thousand in the third quarter 2010. The decline is primarily due to decreased interest income as a result of the decline in our cash balances in addition to a decline in interest rates on money market funds where a significant portion of the funds are invested.

There is no provision for income taxes for both the three months ended September 30, 2011 and 2010 due to our net losses for both periods.

Results of Continuing Operations for the Nine Months Ended September 30, 2011 and 2010

Total revenues were approximately \$2.3 million for the nine months ended September 30, 2011 and approximately \$3.1 million for the nine months ended September 30, 2010. The decrease in revenues during the nine months ended September 30, 2011 compared to the nine months ended September 30, 2010 is primarily attributable to general decrease in broadband wireless sales which was partially offset by an increase in our GPS antenna sales.

Gross profit margins were 34% and 33% for the nine months ended September 30, 2011 and 2010, respectively. The slight increase in gross margin is primarily due to product mix.

Selling, general and administrative expenses (SG&A) decreased 18% to approximately \$1.3 million for the nine months ended September 30, 2011 as compared to approximately \$1.58 million for the nine months ended September 30, 2010. SG&A as a percent of total revenues increased from 52% for the nine months ended September 30, 2010 to

56% for the nine months ended September 30, 2011. Salaries and wages, remains the largest component of SG&A costs, constituting 28% of the total SG&A costs for the nine months ended September 30, 2011 and 2010. The majority of the overall decrease in SG&A is related to a decrease in salary costs and decreases in US facility costs. We are continuing our efforts to streamline our operations and reduce costs in other areas.

Other income decreased during the nine months ended September 30, 2011 to approximately \$30 thousand as compared to \$32 thousand in the nine months ended September 30, 2010. The decline is primarily due to decreased interest income as a result of the decline in our cash balances in addition to a decline in interest rates on money market funds where a significant portion of the funds are invested.

There is no provision for income taxes for both the nine months ended September 30, 2011 and 2010 due to our net losses for both periods.

Financial Condition (in thousands of dollars)

	September 30, 2011	December 31, 2010
Current ratio (1)	27.89 to 1	17.72 to 1
Working capital (2)	\$ 11,484	\$ 11,894
Total debt	\$ 427	\$ 711
Total cash less debt	\$ 10,749	\$ 10,932
Stockholders equity	\$ 11,833	\$ 12,282
Total liabilities to equity	.036 to 1	.05 to 1

(1) Current ratio is calculated as current assets divided by current liabilities.

(2) Working capital is the difference between current assets and current liabilities.

We have a cash balance of \$11.176 million at September 30, 2011 and hold no long-term debt outstanding. We believe that we have the ability to provide for operational needs through projected operating cash flow and cash on hand through September 30, 2012.

The net cash used by operating activities was \$339 thousand for the nine months ended September 30, 2011 compared to net cash used by operating activities of \$364 thousand for the nine months ended September 30, 2010. The primary reason for the change is a reduction in the net loss from operations of \$52 thousand comparing the nine months ended September 30, 2011 compared to the nine months ended September 30, 2010.

The net cash used in investing activities was \$99 thousand for the nine months ended September 30, 2011 compared to \$75 thousand for the nine months ended June 30, 2010, primarily the result of capital expenditures for molds and machinery.

Net cash used in financing activities was \$29 thousand for the nine months ended September 30, 2011 and \$0 for the nine months ended September 30, 2010.

Off Balance Sheet Arrangements

The Company does not have any off balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

Pursuant to permissive authority under Regulation S-K, Rule 305, we have omitted Quantitative and Qualitative Disclosures About Market Risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings with the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our chief executive and acting chief financial officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

As of the end of the period covered by this report, and under the supervision and with the participation of our management, including our interim Chief Executive Officer and the person performing the similar function as acting Chief Financial Officer, we evaluated the effectiveness of the design and operation of these disclosure controls and procedures. Based on this evaluation and subject to the foregoing, our interim Chief Executive Officer and acting Chief Financial Officer concluded that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 6. Exhibits

EXHIBIT INDEX

Exhibit Number	Description
3.1	Amended and Restated Articles of Incorporation dated October 11, 2000 (1)
3.2	Bylaws of the Company as amended and restated on March 25, 1998 (2)
