To the Board of Directors and Shareholders

Telecomunicações de São Paulo S.A. - TELESP

São Paulo - SP

We have reviewed the Quarterly Information (ITR) from Parent Company and Consolidated of Telecomunicações de São Paulo S.A. - TELESP and its subsidiaries for the quarter ended June 30, 2008, which comprised the balance sheet, the statement of income, the report on the Company's performance and explanatory notes, prepared under Management's responsibility.

Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Public Accountants - IBRACON, in conjunction with the Federal Accounting Council, mainly comprising: (a) inquiries of and discussions with the officials responsible for the Telecomunicações de São Paulo - TELESP and subsidiaries' accounting, financial and operational areas, as to the main criteria adopted in preparing the quarterly information; and (b) review of information and subsequent events that had or might have had relevant effects on the Telecomunicações de São Paulo - TELESP financial position and operations.

Based on our review, we are not aware of any material modifications that should be made to the above mentioned Quarterly Information, for it to be in conformity with the standards established by the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM), specifically applicable to the preparation of Quarterly Information, including CVM Ruling No. 469/08.

As mentioned in Note 3, on December 28, 2007, Law No. 11,638 was enacted effective from January 1, 2008. This Law amended, revoked and introduced new aspects to Law No. 6,404/76 (Brazil's Corporation Law), and brought changes to the accounting practices adopted in Brazil. Although this Law has become effective, some changes are subject to specific regulation on the part of competent authorities before they can be fully adopted by the legal entities. Accordingly, during this transition phase, CVM, through the CVM Ruling No. 469/08, allowed legal entities not to fully adopt the provisions of Law No. 11,638 in the preparation of their Quarterly Information (ITR). Thus, the accounting information included in the ITR for the quarter ended June 30, 2008 was prepared in accordance with specific CVM instructions and does not reflect all the changes in accounting practices introduced by Law No. 11,638/07. Information referring to prior periods, presented for purposes of comparison, was adjusted to include the changes in accounting practices introduced in 2008.

NOTES TO QUARTERLY INFORMATION

June 30, 2008

(In thousands of reais, unless otherwise stated)

(A free translation of the original report issued in Portuguese)

1. Operations and Background

a) Controlling shareholders

Telecomunicações de São Paulo S.A. - Telesp (hereinafter Telesp or Company), is headquartered at Rua Martiniano de Carvalho, 851, in the capital of the State of São Paulo. Telesp belongs to the Telefónica Group, telecommunications industry leader in Spain and present in several European and Latin American countries. The Company is controlled by Telefónica S.A., which as of June 30, 2008, holds total indirect interest of 87.95% of which 85.57% are common shares and 89.13% are preferred shares.

b) Operations

The Company's basic business purpose is the rendering of fixed wire telephone services in the state of São Paulo mainly in the São Paulo township, the biggest city of Brazil, under Fixed Switch Telephone Service Concession Agreement - STFC granted by the National Communications Agency (ANATEL), which is in charge of regulating the telecommunications sector in Brazil. The Company has also authorizations from ANATEL, directly or through its subsidiaries, to provide other telecommunications services, such as data communication to the business market and broadband internet services under the *Speedy* brand and since the second 2007 half, pay TV services (i) by satellite all over the country (Telefônica TV Digital) and (ii) using MMDS technology in the cities of São Paulo, Rio de Janeiro, Curitiba and Porto Alegre.

The Company is registered with the Brazilian Securities Commission (CVM) as a publicly held company and its shares are traded on the São Paulo Stock Exchange (BOVESPA). The Company is also registered with the US Securities and Exchange Commission (SEC) and its American Depository Shares (ADSs - level II) are traded on the New York Stock Exchange (NYSE).

c) The STFC concession agreement

The Company is a concessionaire of the Fixed Switch Telephone Service (STFC) to render local and domestic long-distance calls originated in Region 3, which comprises the largest part of the State of São Paulo, in Sectors 31, 32 and 34, established in the General Concession Plan (PGO).

1. Operations and Background (Continued)

c) The STFC concession agreement (Continued)

The Concession Agreement's renewal, dated December 22, 2005, in force since January 1, 2006, awarded as an onerous title, will be valid until December 31, 2025.

However, the agreement can be reviewed on December 31, 2010, 2015 and 2020. Such condition allows ANATEL to set up new requirements and goals for universalization and quality of telecommunication services, according to the conditions in force by that moment.

The Concession Agreement establishes that all assets owned by the Company and which are indispensable to the provision of the services described on such agreement are considered reversible assets and are deemed to be part of the concession assets. These assets will be automatically returned to ANATEL upon expiration of the concession agreement, according to the regulation in force by that moment. On June 30, 2008, the net book value of reversible assets is estimated at R\$7,183,807 (R\$7,489,645 on March 31, 2008), comprised mainly of switching and transmission equipment and public use terminals, external network equipment, energy equipment and system and operation support equipment.

Every two years, during the agreement's new 20-year period, public regime companies will have to pay a renewal fee which will correspond to 2% of its prior-year SFTC revenue, net of taxes and social contributions. The first

payment of this biannual fee has occurred on April 30, 2007 by value of R\$224,760 based on the 2006 STFC net revenues. The next payment is schedule to April 30, 2009.

3. Presentation of the Quarterly Information

The individual and consolidated quarterly information as of June 30, 2008 was prepared in accordance with accounting practices adopted in Brazil, with comprise, among others, the rules applicable to concessionaires of public telecommunications services and the accounting standards and procedures established by the Brazilian Securities Commission (CVM), including CVM Ruling No. 469/08. Quarterly information shall be analyzed together with financial statements for the last fiscal year.

Assets and liabilities are classified as "current" when their realization or liquidation will probably occur in the next twelve months. Otherwise, they will be classified as non-current assets and liabilities.

Accounting estimates are considered for the quarterly financial information preparation process. Such estimates are based on objective and subjective factors according to management's judgment for the appropriate amounts to be recorded in the quarterly financial information.

3. Presentation of the Quarterly Information (Continued)

Transactions, which involve estimates mentioned above, may result in amounts different those recorded in the quarterly financial information when realized in subsequent periods due to inaccurate results regarding the estimate process. The Company revises its estimates and assumptions periodically.

The consolidated quarterly financial information includes the accounts and transactions of direct and indirect subsidiaries according to the equity holdings described in the note 1.d.

In consolidation, all assets, liabilities, revenues and expenses resulting from intercompany transactions and equity holdings between the Company and your subsidiaries have been eliminated.

3.1 Changes in Brazil's Corporation Law (6,404/76)

On January 1, 2008, Law No. 11,638 became effective substantially amending the Chapter XV of Law No. 6,404 (Corporation Law), which addresses the Financial Statements.

On May 2, 2008, CVM issued CVM Ruling No. 469 establishing certain definitions for application of the new accounting practices introduced by Law No. 11,638. Among these definitions, it established that the provisions of Law No. 11,638 must be applied to financial statements for 2008, however, application thereof to Quarterly Financial Information (ITR) is optional.

3.2 Changes applied in this Quarterly Financial Information (ITR)

On the terms of CVM Ruling No. 469 and CVM Communication to Market dated 05/12/2008, the changes introduced by Law No. 11638 and applicable to the Company were considered

in the Quarterly Financial Information at June 30, 2008 and March 31, 2008:

3. Presentation of the Quarterly Information (Continued)

3.2 Changes applied in this Quarterly Financial Information (ITR)
(Continued)

a) Present value of certain noncurrent assets and liabilities

Application of the reduction to present value of noncurrent assets generated effect on the Company's consolidated results of R\$(46) and R\$(641) in the periods ended June 30, 2008 and March 31, 2008, respectively. This adjustment was applied to ICMS credits, which may be used within 48 months.

b) Treatment of donations and investment grants

The balance existing at December 31, 2007, in the amount of R\$9,824, is maintained in capital reserve account in shareholders' equity, and may be used in the situations provided for by Law No. 6404/76. As from 2008, additions were provisionally recorded in liabilities as deferred income, whose effect at June 30, 2008 was R\$133 (R\$74 at March 31, 2008).

In addition, the Company applied in this Quarterly Financial Information (ITR) the provisions of CVM Resolution No. 534, which approved CPC Statement 02, which regulates financial statements currency translation. As from 2008, the effects related to exchange variation on shareholders' equity of foreign subsidiary were recognized directly in the Company's shareholders' equity. The amounts

recorded in Equity Valuation Adjustments were R\$(2,245) and R\$3,336 at June 30, 2008 and March 31, 2008, respectively.

Comparative information for the same 2007 period related to item (b) above was adjusted and the recognized effects are mentioned in Notes 26 and 29.

The March 31, 2008 Quarterly Financial Information was adjusted to consider the following effects from CVM Ruling No. 469/08, described in items (a) and (b) above and CVM Resolution No. 534:

3.3 Other changes introduced by Law No. 11,638

The other changes introduced by the Law depend on specific regulation by relevant regulatory agencies for the application thereof. The Company will monitor regulation of these matters during 2008.

We set out below the other changes introduced by the Law, as well as the estimated effects on the Company's consolidated financial position and results at June 30, 2008, as applicable:

- a) Introduction of market or fair value concept in the valuation of certain financial assets and liabilities instruments, including derivatives.

The Company presents financial liabilities from loans and financing for which it has derivatives with the objective of reducing exchange and interest rate risk (Note 33). Using as a reference international standard (IAS 39) that addresses the accounting recognition of financial instruments, there would be effectiveness between asset and liability positions, as such, the debt and its respective derivatives should be recognized at fair value at quarterly financial information date. This would have a net effect on the financial position and result of operations for the period ended June 30, 2008 of R\$9,222 and R\$(9,870), respectively. The effect on the financial position at December 31, 2007 would be of R\$19,092.

- b) Inclusion of Equity Valuation Adjustment in shareholders' equity to consider records of events not going through P&L for the year while not realized, especially adjustment to market value of financial asset instruments

classified as available for sale.

The Company has investments in certain listed companies. 6. Deferred and Recoverable Taxes (Continued)Deferred income and social contribution taxes

Considering the existence of taxable income in the last five fiscal years and the expected generation of future taxable profit discounted to present value based on a technical and feasibility business plan, approved by the Board of Directors on December 10, 2007, as provided for CVM Instruction No. 371/2002, the Company estimates the realization of the deferred taxes as follows:

Year	Parent Company	Consolidated
2008	352,355	386,915
2009	253,496	263,707
2010	95,186	95,712
2011	53,977	54,359
Thereafter	172,479	173,368
Total	927,493	974,061

The recoverable amounts above are based on projections subject to changes in the future.

Merged tax credit

Generated from the acquisition of investment from Figueira Administração e Participações S.A. in 2001, which held telecommunications network operating assets of Banco Itaú S.A. as well as the investments at Galáxia Administrações e Participações S.A., a company that owns the Multimedia Communication Service (SCM) authorization.

6. Deferred and Recoverable Taxes (Continued)Merged tax credit (Continued)

The book entries maintained for Company's corporate and tax purposes were based on specific goodwill and provision accounts (merged), and the corresponding amortization, provision reversal and, the tax credit realization are as follows:

Parent Company/Consolidated

	<u>Jun/2008</u>	<u>Mar/2008</u>
<u>Balance Sheet</u>		
Goodwill, net of accumulated amortization	254,556	275,079
Provision, net of reversals	(168,008)	(181,552)
Net amount of tax credit	86,550	93,527
<u>Income Statement</u>		
	<u>Jun/2008</u>	<u>Jun/2007</u>
Goodwill amortization in the year	(41,043)	(41,043)
Reversal of provision in the year	27,088	27,088
Tax credit in the year	13,955	13,955
Effect on P&L in the year	-	-

As presents above, goodwill amortization, net of provision reversal and of the corresponding tax credit, do not affect the net income of the period.

For presentation purposes, the net amount of R\$86,550 (R\$58,641 under non-current assets and R\$27,909 under current assets), basically represented by merged tax credit, was classified in the balance sheet as deferred and recoverable taxes. Goodwill amortization and provision reversal are recognized in the accounting records as operating income and expenses, and the related tax credit is recognized as provision for income and social contribution taxes.

19. Reserves, Net

The Company, as an entity and also as the successor to the merged companies, and its subsidiaries are involved in labor, tax and civil lawsuits filed with different courts. The Company's management regularly assesses the risk level of each legal claim in order to adopt the adequate accounting treatment. Based on the opinion of its legal advisors, the Company's management establishes provisions for the cases whose unfavorable outcome is deemed probable. The table below shows the breakdown of reserves by nature and activities during the second quarter of 2008:

Other intercompany receivables in current and non-current assets comprise credits from Telefônica Internacional S.A., Telefônica Serviços Empresariais do Brasil Ltda, Telecomunicações do Chile S.A., Vivo S.A., Colômbia Telecom among other related parties, corresponding to services rendered, advisory fees, expenses with salaries and other expenses paid by the Company to be refunded by the related companies.

Trade accounts payable include services provided primarily by Atento Brasil S.A., Vivo S.A. and TIWS Brasil S.A.. We also highlight the rendering of administrative services in the accounting, financial, human resources, property, logistics and IT areas payable to Telefônica Serviços Empresariais do Brasil Ltda.

Revenue from telecommunications services comprises mainly billing to Vivo S.A., Terra Networks Brasil S.A. and Atento Brasil S.A.

The cost of services provided refers mainly to expenses on interconnection and traffic services (mobile terminal) provided by Vivo Group S.A., system maintenance services for internet operation provided by Terra Networks Brasil S.A. and call center management services provided by Atento Brasil S.A.

31. Post-Retirement Benefit Plans

The Company maintains the same post-employment benefit plans disclosed in the latest annual financial statements.

In the first half of 2008, the Company made contributions to the PBS Telesp Plan in the amount of R\$15 (R\$24 in the same period of 2007) and to "Visão" Telesp plan in the amount of R\$9,980 (R\$12,302 in the same period of 2007).

A.Telecom individually sponsors two defined contribution plans: "Visão" Assisted Benefits Plan, similar to that of Telesp, and Visão A.Telecom Benefits Plan, which cover 53% of its employees. The sponsor's basic and additional contributions to Visão A.contributions. A.Telecom contributions to such plans amount to R\$101 (R\$317 in the same period of 2007).

31. Post-Retirement Benefit Plans (Continued)

Telefonica Data S.A. (former Telefonica Empresas S.A.) individually sponsors a defined contribution plan similar to that of the Company, the Visão Telefônica Empresas Benefits Plan. The contributions made to this plan in 2008 amount to R\$321 (R\$408 in the same period of 2007).

The table below shows the actuarial deficit recorded at June 30, 2008 and March 31, 2008 for the following post-employment plans:

Plan	Jun/2008	Mar/2008
CTB	21,827	21,308
PAMA	79,098	76,867
Total parent company and consolidated	100,925	98,175

The other plans sponsored by the Company and its subsidiaries record an actuarial surplus (PBS-A, PBS Telesp, Visão Telesp and Visão Telefônica Empresas) and are not recorded in accounting, with the latest actuarial valuation occurred in December 2007.

32. Insurance (unaudited)

The Company and its subsidiaries' policies as well as that of the Telefónica Group includes the maintenance of insurance coverage for all assets and liabilities involving significant amounts and high risks based on management's judgment and following Telefónica S.A.'s corporate program guidelines. In this context, Telecomunicações de São Paulo S.A. Telesp complies with the Brazilian legislation for contracting insurance coverage.

The major insurances contracted by the Company are shown below:

Type	Insurance coverage
Operational risks (with loss of profits)	US\$10,788,108 mil
Optional civil responsibility - vehicles	R\$1,000
ANATEL guarantee insurance	R\$10,463.8

33. Financial Instruments (Continued)

The principal market risk factors that affect the Company's business are detailed below:

a) Exchange rate risk

As of June 30, 2008, 15.93% (17.92% on March 31, 2008) of the debt was denominated in foreign currency (U.S. dollar and yen); 99.33% (99.30% on March 31, 2008) of this debt was covered by asset positions on currency hedge transactions (swaps for CDI). At June 30, 2008, derivative operations generated consolidated net negative result of R\$41,187. By the fact of being foreign currency hedge transactions, part of the consolidated net negative result of R\$41,187 was offset by the income of exchange variation debts, in the amount of R\$21,238. At June 30, 2008, liability of R\$142,671 was recorded to recognize net derivatives position at that date.

The book and market values of the Company's exposure to the exchange rate risk as of June 30, 2008 and March 31, 2008 are as follows:

Consolidated

	Jun/2008		Mar/2008	
	Book value	Market value	Book value	Market value
Liabilities				
Loans and financing	440,429	436,023	506,992	502,469
Purchase commitments	16,034	16,034	14,052	14,052
Asset position on swaps	437,473	436,030	503,439	502,475
Net exposure	(18,990)	(16,027)	(17, 605)	(14,046)

b) Interest rate risk

To prevent against the exchange risk and variable interest rates on these foreign currency debts (Libor), the Company has hedge transactions in order to peg these debts to local currency, at floating rates indexed to the CDI (Inter-bank Deposit Certificate), in a way that the Company's financial result is affected by the CDI variation. The balance of loans and financing also includes debentures issued in 2004 with interest based on the variation of the CDI of R\$1,513,957 (R\$1,512,342 as of March 31, 2008), as described in Note 15.

33. Financial Instruments (Continued)b) Interest rate risk (Continued)

The Company invests its excess cash with a view to reducing its exposure to local interest rate fluctuations (CDI) in the total amount of R\$451,644 (R\$897,103 as of March 31, 2008), mainly in short-term instruments, based on the CDI variation, which also reduces such risk. The book values of these instruments approximate market values, since they may be redeemed in the short

term.

As of June 30, 2008, the Company had swap transactions \square CDI at fixed rate, to partially hedge against fluctuations in internal interest rates. Hedge operations amounts contracted total R\$50,000 generated a net consolidated positive result of R\$102.8 on the first half of 2008 and this temporary earnings is recorded in income. The Company also contracted swap transactions - CDI + 0.35% of CDI percentage swap with identical flows of those of debentures (Note 15) issued by the Company, which generated net negative result of R\$16.2.

c) Debt acceleration risk

As of June 30, 2008, the Company's loan and financing agreements contain restrictive clauses (covenants), typically applicable to such agreements, relating to cash generation, debt ratios and other restrictions. The Company has fully complied with these restrictive clauses, and such covenants do not restrict its ability to conduct its ordinary course of business.

d) Credit risk

As of June 30, 2008, the Company's customer portfolio had no subscribers whose receivables were individually higher than 1% of the total accounts receivable from services.

The Company is also subject to credit risk related to temporary cash investments and receivables from swap transactions. The Company reduces this exposure by dispersing it among reputable financial institutions.

34. Subsequent Event

On July 2 and 3, 2008, technical problems that affected the Company's data transmission

network generated instabilities and partial or repeated interruptions in services rendered to certain public agencies as well as private companies. Services were fully resumed in the São Paulo State at the end of July 3, 2008.

The Company will provide compensation to all Speedy service subscribers through a discount related to the 36 hours in which the service presented problems, on the terms of applicable regulations. In addition, it will grant a credit equivalent to 84 hours as compensation. As such, Speedy service account will consider a reduction equivalent to 5 days or 120 hours, whose effect on operating revenue for July/08 is estimated at R\$24 million. Conversations with customers and government agencies have already started to define applicable compensation, according to ruling contractual and commercial provisions.

The Company made due communications to insurance companies, whose contracts are established according to the Concession Agreement as well as good market practices.

The above effect has not generated any impact on the June 30, 2008 Quarterly Financial Information (ITR).

Net Income for the Period	1,124.7	1,195.4	(5.9)	(70.7)

- Accumulated net operating revenues to June 2008 was R\$7,727.2 million, an increase of R\$353.2 million or 4.8% over the R\$7,374.0 million reported in the same prior year period. This increase was mainly due to the expansion of Speedy services, to the increase in revenues from national long-distance services, to the pay-TV services, in addition to the performance of other revenues, including IT workstation services and digital network services. These effects were partly offset by the decrease in revenues from local services, public telephone services and subscription fees, the latter resulting

from the decrease in the average plant in service and from the increase in alternative fixed-telephony plans with lower subscription fees.

2. The cost of services provided increased by R\$268.1 or 6.8%, mainly as a result of interconnection expenses, of increased mobile traffic using the □15□ code (Carrier Selection Code), of customer services, advertising and TV content, in addition to the rental of last mile traffic from other carriers, of infrastructure (ruracel and EILD) and of poles and pipes. These effects were partly offset by the decrease in expenses on supplies, as a result of the decrease in telephone card expenses after the change in the inductive cards mix, with increased sales of 40-unit inductive cards over 20-unit cards, as well as the decrease in fuel costs, in the corporate restructuring program (PRO) costs, detecta devices and vehicle and property maintenance.

3. The negative financial result improved by R\$67.5 million, or 17.6%, mainly justified by the elimination of CPMF expenses after its extinguishment in January 2008, and by the decrease in losses on derivative transactions. These effects were partly offset by the payment of interest amounts to BNDES and the decrease in foreign exchange variation expenses driven by lower exchange rates.

A. Net Financial Result	Variation

Net financial result		(316.4)	(383.9)	17.6	67.5

4. Operating income decreased 1.8% as compared to the same prior year period. This is partly due to the increase in operating expenses, especially those relating to fixed-mobile interconnection services carried out with other carriers, rental of infrastructure, last mile from other carriers, telesales, customer service and retention, maintenance of terminals and boards and co-billing; offset by the increase in revenues, mainly from packet data switching services and from Speedy and TV services.

9. Alternative fixed telephony plans (*)

The alternative fixed telephony plans optimize the installed capacity of Telesp, promote customers' loyalty and better serve the different market segments offering more adequate alternatives for access to fixed telephony services. In the second quarter of 2008, the base of alternative plans represented 41% of total lines in operation. The Minute Plans, which offer progressive discounts based on the contractual number of minutes, are available for fixed-fixed, fixed-mobile and intrastate long-distance calls.

Trio Telefônica is the joint offering of pay-TV, broadband and local call services, launched by the Company in August 2007. Offered throughout the Company's concession area, these combo services represent a differentiated market option due to their flexibility in combining TV packages and broadband speeds. Subscribers may choose from mini-packages divided into channel categories, such as knowledge, children-oriented, entertainment, action, world, movies. In October 2007, the Company launched packages including GloboSat's content and established a commercial and operational partnership with TVA, strengthening and expanding even more its integrated pay-TV offering.

IT Workstation - launched in 2007, this service is offered to the corporate segment as a customized IT infrastructure solution. For monthly payments, Telesp offers both medium- and large-sized customers a package combining voice, data, internet access, network management and equipment. The integrated Information Technology and communication service offering is one of the company's strategic pillars in the corporate market segment.

Pay-TV is offered in packages or as a stand-alone product, this service is broadcast via satellite (DTH) and via MMDS (Multichannel Multipoint Distribution Service). Since this product has been launched, the company has grown rapidly, with 346,894 customers in the second quarter of 2008, an increase by 65,210 customers, or 23.2%, over the first quarter of 2008.
