Incorporation by Reference

This Form 6-K is being incorporated by reference into the Registrant's Registration Statement on Form F-3 (No. 333-189650), initially filed with the Securities and Exchange Commission on June 28, 2013 and as amended on August 7, 2013 and September 6, 2013, and declared effective on September 9, 2013.

First Quarter 2016 Results

ReneSola Ltd (“ReneSola” or the “Company”) reported its unaudited financial results for the first quarter ended March 31, 2016.

First Quarter 2016 Highlights

	Q1 2016	Q/Q Change	Y/Y Change
Revenue	\$260.7	-12.0%	-25.3%
Gross Profit	\$44.5	-6.2%	+21.4%
Operating Income	\$12.2	-27.7%	N/A
Net Income	\$5.7	-13.9%	N/A

Revenue of \$260.7 million was in-line with management guidance range of \$260-\$270 million

Gross margin increased to 17.1% from 16.0% in Q4 2015 and 10.5% in Q1 2015

Net Income was \$5.7 million, compared with \$6.7 million in Q4 2015 and net loss of \$18 million in Q1 2015
Total external module shipments were 350.7 MW while module shipments to the Company’s downstream projects were 20.1 MW;

Sold 9.7 MW of projects in Bulgaria; the sales were booked as disposal of assets and contributed to operating income of \$2.5 million;

The Company now has a solar power project pipeline of 785.3 MW at different development stages; and
The Company connected four utility-scale projects to UK grid during the quarter with total capacity of approximately 20 MW

First Quarter 2016 Financial Results

Revenue of \$260.7 million was down 12.0% q/q and 25.3% y/y and in-line with guidance of \$260-\$270 million. The revenue decline reflects lower module ASP and lower module shipments to external customers as the Company continues to scale back its OEM business and shift towards downstream project development.

Gross profit of \$44.5 million was down 6.2% q/q and up 21.4% y/y. Gross margin increased to 17.1% from 16.0% in Q4 of 2015 and 10.5% in Q1 of 2015. The sequential margin improvement in the quarter was due to wafer margin improvement.

Edgar Filing: ReneSola Ltd - Form 6-K

Operating expenses of \$32.3 million were 12.4% of revenue, up from 10.3% in Q4 of 2015 and down from 13.2% in Q1 of 2015.

Operating income was \$12.2 million, compared to operating income of \$16.9 million in Q4 of 2015 and operating loss of \$9.5 million in Q1 of 2015. Operating margin decreased sequentially to 4.7% from 5.7% in Q4 of 2015.

Non-operating expenses of \$6.1 million include net interest expense of \$9.1 million and loss on derivative of \$0.6 million, offset by foreign exchange gains of \$2.9 million.

Net income was \$5.7 million, compared to a net income of \$6.7 million in Q4 of 2015 and a net loss of \$18.0 million in Q1 of 2015. Earnings per ADS were \$0.06, compared to \$0.07 in Q4 of 2015.

Balance Sheet, Liquidity and Capital Resources

The Company had cash and equivalents (including restricted cash) of \$190 million as of March 31, 2016. Total debt was \$737 million, largely in-line with the debt balance as of December 31, 2015. Short-term borrowings increased \$66.8 million in the quarter due to an increase of working capital loans and factoring arrangements, coupled with the fact that \$31 million of the current portion of long-term borrowings were reclassified as short-term borrowings. Total long-term borrowings decreased in the quarter as the long-term loan associated with the Bulgaria projects was transferred to the buyer, and as mentioned above, a portion of the long-term borrowings was reclassified as short-term borrowings. During the quarter, the Company repurchased all of the remaining convertible notes of \$26.1 million.

First Quarter Operating Highlights

Since disclosing its strategic shift to solar power project development at the start of 2015, the Company has focused its efforts on developing, operating and selling high-quality solar power projects. Activity is centered on building a pipeline of distributed generation and utility-scale projects in attractive geographies worldwide.

Project Sales

The Company sold two projects in Bulgaria in the first quarter of 2016, representing a total of 9.7 MW of generating capacity. Because these projects were recognized as long-term assets on the balance sheet since the end of 2013, the sale was booked as disposal of assets and the gain on sale was included in operating income. The purchase included cash payment of \$5.1 million and the assumption of project debt. The structure of the transaction reflects the Company's continued focus to reduce debt and monetize projects assets.

Project Sales	Location	Size (MW)
Nove ECO	Bulgaria	5.0
MG Solar	Bulgaria	4.7

Operating Assets

Edgar Filing: ReneSola Ltd - Form 6-K

After the sale of projects in Bulgaria, the Company currently owns and operates two solar power projects it developed in earlier years. While the Company expects the projects to produce a steady stream of recurring revenue, the Company is holding its operating assets for eventual sale.

IPP Assets	Location	Size (MW)
Lucas EST	Romania	6.0
Ecosfer Energy	Romania	9.4

Project Pipeline

The company currently has 785.3 MW of projects in various stages of development. The geographic distribution of projects is outlined in the table below.

Project Location	Total Pipeline (MW)	Late Stage Projects of Total Pipeline (MW)
USA	121.4	103.3 ¹
UK	180.5	65.3
Japan	31.5	29.6
Canada	32.3	9.0
Poland	140.0	
Turkey	116.0	116.0 ²
Spain	75.0	
Thailand	50.0	
France	38.6	
Total	785.3	323.2

Modules and Wafers

The Company continues to fully utilize its capacity to provide high quality products at lower cost to select customers. The Company considers its competitive advantages to be improving conversion efficiency and supply chain management.

During the first quarter, total external module shipments were 350.7 MW, representing a decrease of 6.0% from Q4 2015. Total wafer shipments were 351.0 MW, up 29.8% q/q and up 79.9% y/y.

LED

During the first quarter, ReneSola's LED business reached revenue of \$6.2 million, up from \$4.9 million in Q4 2015, and achieved a gross margin of over 30%.

The energy efficiency market is a large and growing market, and LED lighting is a critical element. A key strategic focus of the Company is to grow its share in the high-growth LED market by utilizing its world-wide distribution channels.

Safe Harbor Statement

Certain statement in this Current Report on Form 6-K may contain statements that constitute "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. Whenever you read a statement that is not simply a statement of historical fact (such as when the Company describes what it "believes," "expects" or "anticipates" will occur, what "will" or "could" happen, and other similar statements), you must remember that the Company's expectations may not be correct, even though it believes that they are reasonable. The Company does not guarantee that the forward-looking statements will happen as described or that they will happen at all. Further information regarding risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements is included in the Company's filings with the U.S. Securities and Exchange Commission, including the Company's annual report on Form 20-F. The Company undertakes no obligation, beyond that required by law, to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made, even though the Company's situation may change in the future.

¹ On March 25, 2016, the Company entered into a binding settlement term sheet with Pristine and certain of its affiliates to resolve our dispute, dismiss the action that we previously filed against Pristine and transfer 88 MW solar energy projects under development in California, North Carolina, and Minnesota by Pristine and its affiliates to one of our wholly owned subsidiaries in the United States. Upon consummation of the transfer, we will be the 100% owner of the 88 MW portfolio of solar energy projects.

² With the start of operation, the projects will be transferred into a joint venture, of which Renesola will hold 50% of equity interest.
