"Company") hereby announces the unaudited operating results of the Company and its subsidiaries (collectively, the "Group") for the six months ended 30 June, 2003.

INTRODUCTION

The Group is one of the largest airlines in the PRC in terms of volume of passenger traffic, number of scheduled flights per week, number of hours flown, route networks and size of aircraft fleet. The Group operates the most extensive route network among all PRC airlines. As at 30 June, 2003, the Group operated a total of 308 routes, of which 253 were domestic, 17 were Hong Kong regional and 38 were international. For the six months ended 30 June, 2003, the Group operated an average of 2,080 scheduled flights per week, serving 89 cities. As at 30 June 2003, the Group operated a fleet of 125 aircraft, of which 103 were Boeing aircraft and 22 were Airbus aircraft. The average age of the fleet was 7.67 years as at 30 June, 2003.

BUSINESS OVERVIEW

For the first half of 2003, the Group encountered unprecedented challenges and difficulties. The outbreak of the Severe Acute Respiratory Syndrome ("SARS") earlier this year severely hit our air passenger business. The Group made warning announcements on 15 April, 2003, 12 May, 2003 and 1 August, 2003 in respect of the impact of SARS on our business. As a result of the outbreak of SARS, the Group recorded a loss of RMB1,232 million for the six months ended 30 June, 2003, as compared with a profit of RMB123 million for the same period last year.

During the period, the PRC aviation industry encountered unprecedented setbacks due to the outbreak of SARS in certain regions of the PRC. From April to June 2003, the Group's passenger volume and passenger load factor dropped substantially, whereas in terms of RPKs, figures for April through June 2003 dropped 40%, 83.5% and 61.5%, respectively, as compared to the same period last year. In order to minimise the negative impact of SARS, the Group implemented various timely measures to adjust its operating capacity, for example by reducing the number of flights and suspending certain routes, in response to the curtailed air traffic demand caused by the negative impact of SARS.

In order to alleviate the financial pressure suffered by the PRC civil aviation industry as a result of the SARS epidemic, the PRC government waived the levies of the CAAC Infrastructure Development Fund, sale tax and related supplementary taxes on passenger revenue payable by the airline companies during the period from 1 May, 2003 to 30 September, 2003.

In June 2003, the SARS epidemic was effectively under control in the PRC. With travel restrictions lifted by the World Health Organisation for all PRC regions, the PRC aviation industry has started to recover.

Besides, the political tension in the Middle East, in particular the Iraq war in March this year, led to a surge in oil prices which in turn caused an increase in the Group's jet fuel cost.

China Southern Air Holding Company ("CSAHC"), the holding company of the Company, and the Group is working together to prepare for the injections of the air transportation business of China Northern Airlines and Xinjiang Airlines into the Group and the preparation work for the reorganisation is progressing as scheduled. From 1 January, 2003 onwards, the domestic flights of the three airline companies have started to share the same flight code CZ. The Company will make further disclosure on the latest development of the reorganisation to its shareholders and investors in an appropriate time in accordance with the relevant rules and regulations.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

For the period under review, the Group's total traffic revenue was RMB6,538 million, a decrease of RMB1,806 million or 21.7%

1

from the same period last year. Meanwhile, the Group's total traffic volume decreased by 14.9% to 1,424 million RTKs. The aggregate utilisation rate of the Group's Boeing and Airbus aircraft was 7.33 hours for the period under review, a decrease of 2.38 hours or 24.5% from the same period last year.

Passenger revenue for the period under review was RMB5,616 million, down 26.3% from the same period last year, representing 85.9% of the Group's total traffic revenue. Passenger traffic volume decreased by 27.8% to 10,098 million RPKs.

Domestic passenger revenue was RMB4,510 million, down 24.8% from the same period last year. Domestic passenger revenue accounted for 80.3% of overall passenger revenue. Passenger capacity, in terms of ASKs, decreased by 18.8% from the same period last year, while passenger traffic volume decreased by 26.2% to 7,919 million RPKs from 10,728 million RPKs during the same period last year. As a result, the passenger load factor decreased by 5.8 percentage points to 58.3%. The passenger yield per RPK increased by 1.8% from RMB 0.56 to RMB 0.57, mainly due to a reduction in fare discounts during the period under review.

On Hong Kong regional routes, the Group recorded passenger revenue of RMB293 million, down 44.8% from the same period last year. Hong Kong regional passenger revenue accounted for 5.2% of total passenger revenue. Passenger capacity, in terms of ASKs, decreased by 32.5% from the same period last year, while passenger traffic volume decreased by 44.1% from 524 million RPKs to 293 million RPKs during the same period. As a result, the passenger load factor decreased by 10.5 percentage points to 50.4%. The passenger yield per RPK decreased slightly by 1.0% to RMB1.00.

Passenger revenue for the Group's international routes amounted to RMB813 million, a decrease of 25.5% from the same period last year. International passenger revenue accounted for 14.5% of total passenger revenue. Passenger capacity, in terms of ASKs, decreased by 17.7% from the same period last year, while passenger traffic volume decreased by 31.0% to 1,886 million RPKs from 2,733 million RPKs during the same period last year. As a result, the passenger load factor decreased by 10.8 percentage points to 56.0%. The passenger yield per RPK increased by 7.5%, mainly due to a reduction in fare discounts during the period under review.

Cargo and mail revenue was RMB922 million, an increase of 27.0% from the same period last year. Cargo and mail revenue accounted for 14.1% of total traffic revenue. Cargo and mail volume grew by 22.8% to 522 million RTKs from 425 million RTKs during the same period, mainly due to the launch of two international cargo routes, Shenzhen - Los Angeles and Shenzhen - Leige (Belgium) during the second half of 2002. The overall yield per cargo and mail tonne kilometre increased by 3.5%, mainly due to an increase in fares resulting from a reduction in supply during the period under review.

The Group's other revenue amounted to RMB195 million, a decrease of 8.8% from the same period last year, primarily due to a fall in aircraft short term lease income.

Total operating expenses increased by 4.8% to RMB8,107 million from the same period last year, primarily due to the combined effect of increases in fuel cost, aircraft repairs and maintenance and depreciation charges.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Flight operations expenses increased by 2.8% to RMB3,517 million from the same period last year. Of these expenses, fuel cost was RMB1,861 million, up 13.6% from the same period last year, mainly as a result of an average increase of 27.1% in fuel prices, despite a decrease in number of flights. Aircraft insurance costs decreased by 3.9% to RMB124 million, primarily due to a decrease in aircraft insurance premiums effective from October 2002. Operating lease payments decreased by 13.8% to RMB820 million, mainly as a result of the discontinuation of wet leases of five Boeing 737-300/37K aircraft from Zhongyuan Airlines and wet leases of two Boeing 747-400 freighters during the period under review. Air catering expenses decreased by 30.2% to RMB215 million, primarily as a result of a reduction in number of passengers carried during the period under review.

As compared with the first half of 2002, maintenance expenses increased by 20.0% to RMB1,218 million, due mainly to increases in

2

aircraft overhaul charges and routine maintenance costs following the expansion of the Group's fleet in recent years.

Aircraft and traffic servicing expenses decreased slightly by 0.4% to RMB1,197 million from the same period last year, reflecting primarily the net effect of a decrease in flight number during the period and an increase in the charge rate of domestic landing and take-off fees effective during the fourth quarter of 2002.

Promotion and sales expenses decreased by 7.8% to RMB674 million as compared with the same period last year, primarily as a result of the reduction in traffic revenue.

As compared with the same period last year, depreciation and amortisation expenses increased by 9.7% to RMB1,017 million, reflecting primarily the effect of aircraft delivered during the second half of 2002 and the period under review.

Loss on sale of fixed assets amounted to RMB23 million, which was mainly resulted from the disposal of a retired Boeing 737-200 aircraft during the period under review.

Interest expense increased by 9.9% to RMB455 million in the period under review, primarily reflecting an increase in the balance of loan borrowings.

The Group recorded a net exchange loss of RMB5 million, a decrease of RMB154 million or 97.0% from the same period last year. The loss recorded in the same period last year was predominantly resulted from the Japanese yen denominated borrowings of the Group following the appreciation of Japanese yen during that period. The exchange rate of Japanese yen was more or less steady during the period under review.

As a result of the aforementioned factors, the Group recorded a loss attributable to shareholders of RMB1,232 million for the six months ended 30 June, 2003, as compared to a profit attributable to shareholders of RMB123 million for the same period last year.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 30 June, 2003, the Group's borrowings totalled RMB18,489 million, a decrease of RMB786 million from RMB19,275 million as at 31 December, 2002. Such borrowings were denominated, to a larger extent, in United States dollars and,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

to a smaller extent, in Japanese yen and Renminbi, with a significant portion being fixed interest rate borrowings. As at 30 June, 2003, cash and cash equivalents of the Group totalled RMB2,281 million, a decrease of RMB1,490 million from RMB3,771 million at 31 December, 2002. Of such balance, 12.9% was denominated in foreign currencies (mainly in United States dollars). Net debts (total borrowings net of cash and cash equivalents) increased by 4.5% to RMB16,208 million from RMB15,504 million at 31 December, 2002.

As at 30 June, 2003, the Group's shareholders' equity amounted to RMB8,381 million, a decrease of RMB1,232 million from RMB9,613 million as at 31 December, 2002, reflecting the net loss recorded for the period under review.

Net debt/equity ratio of the Group as at 30 June, 2003 was 1.93 times, as compared to 1.61 times as at 31 December, 2002.

FINANCIAL RISK MANAGEMENT POLICY

In the normal course of business, the Group is exposed to fluctuations in foreign currencies and jet fuel prices. The Group's exposure to foreign currencies is mainly attributable to its debts denominated in foreign currencies. Depreciation or appreciation of the Renminbi against foreign currencies could affect the Group's results and financial position significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure

3

effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, entering into forward foreign exchange contracts with authorised PRC banks.

The Group is required to procure a majority of its jet fuel consumption domestically at PRC spot market prices. There are currently no effective means available to the Group for managing its exposure associated with the fluctuations in domestic jet fuel prices.

CHARGES ON ASSETS

As at 30 June, 2003, certain aircraft of the Group with an aggregate carrying value of approximately RMB14,376 million (as at 31 December, 2002: RMB14,783 million) were pledged as collateral under certain loan and lease agreements.

CAPITAL AND INVESTING COMMITMENTS

As at 30 June, 2003, the Group had capital commitments of approximately RMB7,125 million. Of such amounts, RMB4,034 million was related to the acquisition of aircraft and related flight equipment and RMB2,608 million was related to the Group's facilities and equipment to be constructed and installed at the Guangzhou new airport. The remaining amount of RMB483 million was related to the Group's other airport and office facilities and equipment, overhaul and maintenance bases and training facilities. The Group's capital expenditures are generally subject to receipt of various approvals of the Chinese Government and may be subject to change depending on the timing of such approvals, prevailing market conditions, the availability of financing and other relevant factors.

As at 30 June, 2003, the Group was committed to making a capital contribution of approximately RMB201 million to an associated company.

CONTINGENT LIABILITIES

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

There have been no material adverse changes in the contingent liabilities of the Group since 31 December, 2002.

RECENT ECONOMIC DEVELOPMENT

With the continued growth in China's economy and the negative impact of the SARS epidemic being subsided, China's aviation transportation market has started to recover. "Blue Sky Rejuvenation Programme" initiated by the Civil Aviation Administration of China for boosting the demand for the aviation market helps to drive up the volume of passenger and cargo transportation. The Company has also started a new promotion plan, the "Sunshine Action" under which a series of promotional and marketing programmes have been launched aiming to turn around the passenger transportation volume and cargo throughput.

With the approval of the China Securities Regulatory Commission ("CSRC"), the Company completed the issuance of 1,000,000,000 A shares at an issuance price of RMB2.70 each from 10 July, 2003 to 17 July, 2003 and successfully raised gross share proceeds of RMB2.7 billion. These A shares are listed on the Shanghai Stock Exchange since 25 July, 2003. With the approval at the shareholders' meeting of the Company, the proceeds from the share issue will be used to purchase Boeing 737-800 aircraft for replacing certain existing aircraft, the operating leases of which will be expired.

The directors of the Company believe that the successful listing of the A shares helps the Company in developing new financing channels, broadening the shareholder base and enhancing the standard of corporate governance. Pursuant to the mandate granted at the Shareholders' meeting of the Company, the directors of the Company have handled and perfected matters relating to the A shares issuance, including the making of corresponding amendments to the Articles of Association of the Company and application to the

4

State Administration for Industry and Commerce for an amended business licence to reflect the changes in shareholding structure and share capital after the issuance of A shares, in accordance with the requirements of China's rules and regulations.

PROSPECTS FOR THE SECOND HALF OF THE YEAR

The continued development of China's economy and the subsiding effect of the SARS epidemic in China will provide an improved market environment for the development of the aviation transportation business during the second half of the year. The business of the Group is expected to improve as a result.

The Closer Economic Partnership Arrangement between Mainland China and Hong Kong will foster the growth of passenger and cargo transportation between China, Hong Kong and the Pearl River delta. The Board believes that the Group will benefit from this new development.

The reorganisation of the aviation transportation operations of CSAHC and the Group will proceed in steady pace as planned.

The Group will continue to implement the marketing strategy based on its "Sunshine Action" with an aim to increase passenger load factor and passenger revenue.

The Group will continue to exercise strict cost-control measures in order to

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

enhance efficiency for the Group as a whole.

USE OF PROCEEDS

As stated in the 2002 annual report of the Group, as at 31 December, 2002, the Group had RMB40 million remaining from the proceeds of the Company's initial public offer.

Consistent with the disclosure in the Prospectus of the Company dated July 1997, the Company intends to use the remaining proceeds of RMB40 million (held as at 30 June, 2003 as short-term deposits with Southern Airlines Group Finance Company Limited, a PRC authorised financial institution and an associated company of the Group) for various projects, including the development of the computerised accounting system.

FLEET PLANNING

As at 30 June, 2003, details of aircraft to be delivered to the Company in the future are as follows:

Year to be delivered	Type of aircraft	Number of aircraft

Save as disclosed above, as at 30 June, 2003, none of the directors, chief executive or supervisors of the Company has interest or short position in the shares, underlying shares and/or debentures (as the case may be) of the Company or its associated corporations (within the meaning of Part XV of the SFO) which were notified to the Company and the Stock Exchange pursuant to SFO (including interest or short positions which are taken or deemed to have under such provisions of the SFO), or recorded in the register maintained by the Company pursuant to Section 352 of the SFO or which were notified to the Company and the Stock Exchange pursuant to the "Model Code for Securities Transactions by Directors of the Listed Companies" in Schedule 10 of the Listing Rules.

PURCHASE, SALE OR REDEMPTION OF SHARES

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any shares of the Company during the first half of 2003.

With the approval of the CSRC, the Company completed the issuance of 1,000,000,000 A shares at an issuance price of RMB2.70 each from 10 July, 2003 to 17 July, 2003 and raised gross share proceeds of RMB2.7 billion. These A shares are listed on the Shanghai Stock Exchange since 25 July, 2003.

COMPREHENSIVE SERVICES AND EMPLOYEE BENEFITS

As at 30 June, 2003, the Group had approximately 17,031 employees, the majority of whom were working in mainland China. The wages of the Group's employees consist of basis salaries and bonuses.

In accordance with a comprehensive services agreement entered into between the Company and CSAHC on 22 May, 1997 (the "Service Agreement"), CSAHC will receive fees for providing or causing to be provided to the Group and its employees certain housing services for a term from 22 May, 1997 to 31 December, 2006. The Service Agreement provides that the CSAHC will sell or rent housing to eligible employees at a price below market price. As the housing is sold or rented below cost, and the construction costs of the leased housing were originally paid by CSAHC, the Company shall pay an annual sum of RMB85 million to CSAHC by quarterly installments in arrears for ten years from 1995 to 2004.

7

DESIGNATED DEPOSITS AND OVERDUE TIME DEPOSITS

As at 30 June, 2003, the Group's deposits placed with financial institutions or other parties did not include any designated deposits or overdue time deposits against which the Group failed to receive repayments.

COMPLIANCE WITH THE CODE OF BEST PRACTICE

The Directors of the Company consider that, in the six months ended 30 June,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

2003, the Group was in compliance with the Code of Best Practice set out in Appendix 14 of the Listing Rules of the Stock Exchange of Hong Kong Limited.

MATERIAL LITIGATION

The notes on pages 18 to 24 form part of this interim financial report.

Notes:

1 BASIS OF PREPARATION

This interim financial report of China Southern Airlines Company Limited (the "Company") and its subsidiaries (the "Group") is unaudited, but has been reviewed by KPMG in accordance with Statement of Auditing Standards 700 "Engagements to review interim financial reports", issued by the Hong Kong Society of Accountants. KPMG's independent review report to the Board of Directors is included on page 25.

The interim financial report has been prepared in accordance with the requirements of the Main Board Listing Rules of The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard 34 "Interim Financial Reporting" adopted by the International Accounting Standards Board.

The financial information relating to the financial year ended 31 December, 2002 included in the interim financial report does not constitute the Group's annual

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

financial statements prepared under International Financial Reporting Standards for that financial year but is derived from those financial statements. The Group's annual financial statements for the year ended 31 December, 2002 are available at the Company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 14 March, 2003.

The accounting policies have been consistently applied by the Group and are consistent with those adopted in the 2002 annual financial statements.

The notes on the unaudited interim financial report include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2002 annual financial statements.

2 TURNOVER

The Group is principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport in the People's Republic of China ("PRC"), which is both the main hub of the Group's route network and the location of its corporate headquarters.

15

Turnover comprises revenues from airline and airline-related businesses and is stated net of sales tax and contributions to the CAAC Infrastructure Development Fund. The contributions to the CAAC Infrastructure Development Fund for the period are payable at 5% and 2%, respectively (2002: 5% and 2%, respectively) of the Group's domestic and international/Hong Kong regional traffic revenue, except for the period from 1 May, 2003 to 30 September, 2003 during which the Group is exempted from contributions to the CAAC Infrastructure Development Fund. The sales tax is payable at 3% (2002: 3%) of the Group's traffic revenue in respect of domestic flights and international/Hong Kong regional outbound flights, except for the period from 1 May, 2003 to 30 September, 2003 during which the Group's passenger revenue is exempted from sales tax.

The Group's turnover and operating (loss)/profit by geographic region are analysed as follows:

	For the six months ended 30 June,		
	Domestic RMB'000	Hong Kong regional RMB'000	International RMB'000

Pursuant to the PRC income tax rules and regulations, the Group is subject to PRC income tax at a rate of 33% (2002: 33%).

In respect of the Group's overseas airline activities, the Group has either obtained exemptions from overseas taxation pursuant to the bilateral aviation agreements between the overseas and PRC governments, or has sustained tax losses in these overseas jurisdictions. Accordingly, no provision for overseas tax has been made for the periods presented.

5 BASIC (LOSS)/EARNINGS PER SHARE

The calculation of basic (loss)/earnings per share is based on the consolidated loss attributable to shareholders of RMB1,231,613,000 (2002: profit of RMB123,229,000) and the weighted average number of shares in issue during the period of 3,374,178,000 (2002: 3,374,178,000).

There were no dilutive potential shares in existence during the six months ended 30 June, 2002 and 2003.

The Board of Directors of the Company does not recommend the payment of an interim dividend for the six months ended 30 June, 2003 (2002: Nil).

7 TRADE RECEIVABLES

Credit terms granted by the Group to sales agents and other customers generally range from one to three months. An ageing analysis of trade receivables, net of provisions for bad and doubtful accounts, is as follows:

Within 1 month	568
More than 1 month but less than 3 months	113
More than 3 months but less than 12 months	8

8 ACCOUNTS PAYABLE

An ageing analysis of accounts payable is as follows:

Due within 1 month or on demand	234
Due after 1 month but within 3 months	268
Due after 3 months but within 6 months	357
	860

9 RESERVES

In 2002, the Group adopted IAS 40 "Investment Property". According to IAS 40, the land use rights which were previously included in fixed assets at revaluation base are now presented as lease prepayments and carried at historical cost base with effect from 1 January, 2002. Accordingly, the unamortised surplus on previous revaluations of the land use rights, net of related deferred tax asset, are reversed to the share premium and retained profits accounts.

No transfer to statutory surplus reserve, statutory public welfare fund and discretionary surplus reserve has been made during the period and the corresponding period. According to the Articles of Association of the Company and certain of its subsidiaries and the PRC Company Law, any such transfer shall be proposed by the respective board of directors and approved by shareholders in the annual general meeting.

10 COMMITMENTS

(a) Capital commitments

As at 30 June, 2003, the Group had capital commitments as follows:

20

demand. As at 30 June, 2003, the advances amounted to RMB700,000,000.

In the past, CSAHC was under the direct control of the Civil Aviation Administration of China ("CAAC"). However, such control has been shifted to the State Assets Administration Committee during late 2002. Consequently, the CAAC and its affiliates are no longer presented as related parties for this interim report.

The Directors of the Company are of the opinion that the above transactions were conducted in the normal course of business and on normal commercial terms or in accordance with the agreements governing such transactions.

12 CONTINGENT LIABILITIES

There have been no material adverse changes in contingent liabilities of the Group subsequent to 31 December, 2002, details of which are disclosed in its 2002 annual financial statements.

13 SUBSEQUENT EVENTS

In July 2003, the Company issued a total of 1,000,000,000 A shares of par value of RMB1.00 each at an issue price of RMB2.70 each with listing on the Shanghai Stock Exchange.

14 CONVENIENCE TRANSLATION

The unaudited consolidated profit and loss account has been prepared in Renminbi ("RMB"), the national currency of the PRC. Translations of amounts from RMB into Hong Kong dollars ("HK\$") and United States dollars ("US\$") solely for the convenience of readers have been made at the rates of HK\$1.00 to RMB1.0606 and

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

US\$1.00 to RMB8.2774, being the average of the buying and selling rates as quoted by the People's Bank of China at the close of business on 30 June, 2003. No representation is made that the RMB amounts could have been or could be converted into HK\$ or US\$ at these rates or at any other certain rates on 30 June, 2003 or on any other date.

INDEPENDENT REVIEW REPORT TO THE BOARD OF DIRECTORS OF
CHINA SOUTHERN AIRLINES COMPANY LIMITED

INTRODUCTION

We have been instructed by the Company to review the interim financial report as set out on pages 13 to 24.

RESPECTIVE responsibilities OF DIRECTORS AND AUDITORS

The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" adopted by the International Accounting Standards Board. The interim financial report is the responsibility of, and has been approved by, the directors.

It is our responsibility to form an independent conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

21

REVIEW WORK PERFORMED

We conducted our review in accordance with Statement of Auditing Standards 700 "Engagements to review interim financial reports" issued by the Hong Kong Society of Accountants. A review consists principally of making enquiries of group management and applying analytical procedures to the interim financial report and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the interim financial report.

REVIEW CONCLUSION

On the basis of our review which does not constitute an audit, we are not aware of any material modifications that should be made to the interim financial report for the six months ended 30 June, 2003.

CONSOLIDATED INCOME STATEMENT AND INCOME APPROPRIATION STATEMENT (UNAUDITED)
For the six months ended 30 June, 2003
(Expressed in Renminbi)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The accounting year of the Group is from 1 January to 31 December.

(b) Basis of consolidation

The Group prepared the consolidated financial statements according to "Accounting Regulations for Business Enterprises" and Cai Kuai Zi [1995] No.11 "Provisional regulations on consolidated financial statements" issued by the Ministry of Finance.

The consolidated financial statements include the financial statements of the Company and all of its principal subsidiaries. Subsidiaries are those entities of which the Company directly or indirectly has more than 50% equity interest or those entities of which the Company has less than 50% equity interest but has effective control. The consolidated income statement of the Company only includes the results of the subsidiaries during the period when the Company has more than 50% equity interest or when the Company has less than 50% equity interest but has effective control. The effect of minority interests on equity and profit/loss attributable to minority interests are separately shown in the consolidated financial statements.

Where the accounting policies adopted by the subsidiaries are different from the policies adopted by the Company, the

25

financial statements of the subsidiaries have been adjusted in accordance with the accounting policies adopted by the Company on consolidation. All significant intercompany balances and transactions, and any unrealised gains arising from inter-company transactions, have been eliminated on consolidation. For those subsidiaries whose assets and results of operation are not significant and have no significant effect on the Group's consolidated financial statements, the Company does not consolidate these subsidiaries, but includes in the long-term equity investments.

For those jointly controlled entities which the Company has joint control with other investors under contractual arrangement, the Company consolidates their assets, liabilities, revenues, costs and expenses based on the proportionate consolidation method according to its percentage of holding of equity interest in those entities in the consolidated financial statements.

(c) Basis of preparation

The financial statements of the Group have been prepared on an accrual basis under the historical costs convention, unless otherwise stated.

(d) Reporting currency and translation of foreign currencies

The Group's financial statements are prepared in Renminbi. Foreign currency transactions during the year are translated into Renminbi at exchange rates quoted by the People's Bank of China ("PBOC rates") prevailing on the transaction dates. Foreign currency monetary assets and liabilities are translated into Renminbi at the PBOC rates at the balance sheet date. Exchange differences, other than those arising from foreign currency loans using to finance the construction of fixed assets before they are ready for their intended use are capitalised,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

are recognised as income or expenses in the income statement.

(e) Cash equivalents

Cash equivalents are short-term and highly liquid investments which are readily convertible into known amounts of cash and are subject to an insignificant risk of change in value, including time deposits with financial institutions with an initial term of less than three months.

(f) Allowance for doubtful accounts

(i) Criteria of bad debt recognition

Receivables which are still not recoverable following realisation of the assets or the inheritance from the debtors if they go bankrupt or are deceased, or receivables which are overdue for more than three years that are certainly unrecoverable.

(ii) Accounting treatment of bad debt losses

Receivables mentioned in (i) above which are certainly unrecoverable is written off as bad debt after being approved to be written off based on pre-approved authority.

(iii) Allowance for doubtful accounts

Doubtful accounts are accounted for based on allowance method which are estimated periodically. Trade accounts

26

receivable showing signs of uncollectibility are identified individually and allowance is then made based on the probability of being uncollectible. In respect of trade accounts receivable showing no sign of uncollectibility, allowance is made with reference to the ageing analysis and management's estimation based on past experience.

Allowances for other receivables are determined based on the nature and corresponding collectibility. Specific approval from management is required for allowances made in respect of significant doubtful receivables.

(g) Inventories

Inventories, which consist primarily of expendable spare parts and supplies, are stated at the lower of cost or net realisable value, and are expensed when used in operations. Cost represents the average unit cost. Net realisable value is determined based on the estimated selling prices subsequent to the balance sheet date in the ordinary course of business or the management's estimation based on the prevailing market conditions. Inventories are recorded by perpetual method.

(h) Long-term equity investments

Long-term equity investments are valued at the lower of the carrying amount and the recoverable amount. A provision for impairment of loss is made when the recoverable amount of individual investment is lower than the carrying amount.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The long-term equity investments and the investment income related to the Group's investments in the associated companies and jointly controlled entities and the Company's investments in subsidiaries, associated companies and jointly controlled entities are accounted for using the equity method. Equity investments difference is the difference between initial investment cost and the share of shareholders' equity of the investee companies, which is amortised on a straight-line basis and recognised in the investment income. The amortisation period is determined according to the investment period as stipulated in the relevant agreement or 10 years if not specified.

An associated company is a company in which the Group holds, for long-term purposes, not less than 20% but not more than 50% of its equity interests and exercises significant influence in its management. A jointly controlled entity is an entity over which the Group can exercise joint control with other ventures.

Long-term investments in entities in which the Group does not hold more than 20% of their equity interests or those in which the Group holds more than 20% of their equity interests but does not exercise significant influence in their management are stated at cost. Investment income is recognized when the Group's right to receive the dividend is established.

Disposals or transfers of long-term equity investments are recognised in the income statement based on the difference between the disposal proceeds and the carrying amount of the investments.

(i) Fixed assets and depreciation

Fixed assets represent the assets held by the Group for rendering services and administrative purpose with useful life over 1 year and comparatively high unit value. Fixed assets are stated in the balance sheet at cost or revalued amount less accumulated depreciation and impairment losses. Valuation is carried out in accordance with the relevant rules and regulations in the PRC and fixed assets are adjusted to the revalued amounts accordingly.

Depreciation is provided to write off the cost of fixed assets over their estimated useful lives on a straight-line basis, after taking into account their estimated residual values. The respective estimated useful lives, residual values and annual

27

depreciation rates on fixed assets are as follows:

	Depreciable life
Owned and finance leased aircraft	8 to 15 years
Other flight equipment:	
Jet engines	8 to 15 years
Others, including rotables	8 to 15 years
Buildings	15 to 40 years

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Machinery and equipment
Vehicles

5 to 10 years
6 years

Land use rights are stated in the balance sheet at cost or revalued amount less accumulated amortisation and impairment losses, and are amortised on a straight line basis over the period of land use rights.

(j) Leased assets

Flight equipment under finance leases is stated at an amount equal to the lower of its original carrying value and the present value of minimum lease payments at inception of the lease. In cases where title to the asset will be acquired by the Group at the end of the lease, the asset is depreciated on a straight line basis over the estimated useful life of the asset to its residual value. Otherwise, the asset is depreciated on a straight line basis over the shorter of the lease term or estimated useful life of the asset to residual value. The difference between the carrying value and the minimum lease payments is recorded as unrecognised finance charges. Amortisation of unrecognised finance charges is provided on an effective interest method over the lease term.

Gains on aircraft sale and leaseback transactions are deferred and amortised over the terms of the related leases.

Operating lease payments are charged to the income statement on a straight line basis over the terms of the related leases.

(k) Construction in progress

Construction in progress represents various infrastructure projects under construction and equipment pending installation, and is stated at cost less impairment losses. Cost comprises direct purchase price of equipment, direct costs of construction as well as borrowing costs, which include foreign exchange gains or losses on specific borrowings for the construction of the fixed assets during the construction period. No depreciation is provided in respect of construction in progress. Construction in progress is transferred to fixed assets when the asset is ready for its intended use.

(l) Long term deferred expenses

Custom duties and other direct costs in relation to modifying, introducing and certifying certain operating leased aircraft are deferred and amortised on a straight line basis over the terms of the related leases.

(m) Maintenance and overhaul costs

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term

for the estimated cost of scheduled overhauls required to be performed on the related aircraft prior to their return to the lessors.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(n) Revenue recognition

Passenger, cargo and mail revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities as sales in advance of carriage. Revenues from airline-related business are recognised when services are rendered.

Interest income is recognised as it accrues unless collectability is in doubt. Dividend income is recognised when the Group's right to receive the dividend is established.

(o) Traffic commissions

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded on the balance sheet as a prepaid expense.

(p) Income tax

Income tax is calculated using the tax effect accounting method. It represents tax expenses relating to the income for the period and is computed based on the income and expenses for the period.

Deferred tax is provided using the liability method, for timing differences between accounting profit before tax and the taxable income arising from the differences in the tax and accounting treatment of income and expenses or loss.

The tax value of losses expected to be available for utilisation against future taxable income is set off against the deferred tax liability within the same legal tax unit and jurisdiction. A valuation allowance is provided for the tax value of losses to reduce the deferred tax asset to the amount that is more likely than not to be realised through future taxable income.

(q) Borrowing costs

Borrowing costs represent interest expenses and foreign exchange difference on loans. Borrowing costs are expensed in the income statement in the period in which they are incurred, except to the extent that they are capitalised as being attributable to the construction of an asset which necessarily takes a period of time to get ready for its intended use.

(r) Retirement benefits

Contributions to retirement schemes and additional retirement benefits paid to retired employees are charged to the income statement as and when incurred.

(s) Frequent flyer award programmes

The Group maintains two frequent flyer award programmes, namely, the China Southern Airlines Sky Pearl Club and the Egret Mileage Plus, which provide travel awards to members based on accumulated mileage. The estimated incremental cost to provide free travel is recognised as an expense and accrued as a current liability as members accumulate mileage. As members redeem awards or their entitlements expire, the incremental cost liability is reduced accordingly to reflect the

acquittal of the outstanding obligations.

Revenue from mileage sales under the frequent flyer award programmes is recognised when the related transportation services are provided.

(t) Impairment loss

The carrying amounts of long-lived assets are reviewed by the Group periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the income statement.

The Group assesses at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. The provision for impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount by which the impairment loss is reduced. The reversed amount is recognised as income in the period in the income statement.

(u) Related party

Parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or entities.
