Report of Independent Registered Public Accounting Firm

To the Trustees of the
Baldwin Technology Profit Sharing and Savings Plan
Shelton, Connecticut

We have audited the accompanying statements of net assets available for benefits of Baldwin Technology Profit Sharing and Savings Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held at end of year and delinquent participant contributions as of and for the year ended December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BALDWIN TECHNOLOGY
PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Baldwin Technology Profit Sharing and

Savings Plan (the "Plan" or the "Baldwin Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended and is available to substantially all domestic employees of Baldwin Technology Company, Inc. (the "Company").

Eligibility
All full time and part time employees of the Company are eligible to participate on his/her first day of employment.

Plan Amendment
Plan sponsors were required to amend their plans to comply with certain provisions of the Pension Protection Act of 2006 ("PPA") prior to the end of the 2009 plan year (December 31, 2009). The Baldwin Plan was amended to comply with the final provisions of the PPA on January 1, 2009. In addition to the PPA, the Plan was also amended to cover certain provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008 ("HEART Act") as well as for other technical corrections, including the elimination of "gap period" earnings on distributed excess deferrals, excess contributions and excess aggregate contributions. Finally, the Plan was also amended effective January 1, 2009 to eliminate the Safe Harbor Matching Contribution and instituted an absolute Discretionary Matching Contribution, which is to be determined by the Plan sponsor.

Contributions
Each participant may elect to defer from 1% to 20% of their compensation, up to the Annual Compensation Limit as defined by the Internal Revenue Code ("IRC"), on both a tax-deferred and taxable basis into one or a combination of funds. Pursuant to the Tax Reform Act of 1986 as amended, the maximum tax-deferred contribution an employee may make for the year ended December 31, 2009 was $16,500. Pursuant to the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"), participants age 50 and over may make an additional tax-deferred catch-up contribution of $5,500 for the year ended December 31, 2009.

Effective January 1, 2009, the Company amended its matching contribution formula from a Safe Harbor Matching Contribution to an absolute Discretionary Matching Contribution. The Company cash contributions are invested for each participant based upon the current election in effect at the time the Company contribution is made.

Upon enrollment into the Plan, a participant may direct employee contributions in 1% increments into any of sixteen investment options. Employer contributions are allocated to the investments based on the participant's investment options at the time of the employer contribution. Participant contributions are remitted each week to the trustee, whereas Employer Discretionary Matching Contributions, if any, are remitted quarterly.

Vesting
Participants will, at all times, be fully vested in the fair value of their contributions. Participants vested 100% immediately in the Company's Safe Harbor Contributions; however, participants become vested in employer Discretionary Contributions based upon their years of vesting service, as shown below:

Full years of Vesting Service	Percent Vested
Less than 2 years	0%
2 but less than 3 years	20%
3 but less than 4 years	40%
4 but less than 5 years	60%
5 but less than 6 years	80%
6 or more years	100%

Employees who are age 55 or older, or who become disabled or die while employed by the Company, are automatically 100% vested in the value of the Company contributions credited to their accounts regardless of their years of service.

Withdrawals and Distributions
Participants may withdraw after-tax contributions from their account balance while working and, in limited cases (as defined by the Plan's provisions), may withdraw before-tax contributions. Distributions from the Plan at termination of employment will be made in the form of a single lump-sum distribution consisting of the cash value of the participant's interest in the fixed income funds, mutual funds and stock funds. The amount of the distribution attributable to the participant's Baldwin Stock Fund account shall be distributed in the form of shares of the Company's Class A Common Stock. Notwithstanding the foregoing, a participant may request to receive benefits in a form other than as above and the Plan Administrator may make available an alternative form of distribution at the Plan Administrator's sole discretion.

Upon a participant's termination of employment by reason of retirement, total and permanent disability or death, the entire balance of the participant's account, as valued on the day coinciding with or following the date of the termination of employment will be paid to the participant, or in the case of death, to the participant's designated beneficiary.

Upon termination of employment for reasons other than those set forth above, if the vested balance is greater than $1,000 but less than $5,000 and the participant has not requested a distribution, the entire vested balance of the participant's account, as valued on the day coinciding with or following the date of termination of employment, shall be paid as a direct rollover to an individual retirement plan designated by the Plan Administrator. If the vested balance is greater than $5,000, the participant has the option not to receive a distribution, and therefore, distributions will not be made until requested by the participant.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum of $50,000 or 50% of their vested account balance, whichever is less, and are subject to applicable Department of Labor and Internal Revenue Service regulations. The loans are collateralized by the balance in the participant's account and bear interest at rates of prime plus 1%, currently ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined periodically by the Plan Administrator.

Forfeitures
Upon a participant's separation from service, amounts which have not vested will be forfeited. Should a participant resume employment within 60 months of

termination, the amount of such forfeiture will be restored to his or her account. Contributions and earnings thereon which have been forfeited will be available to reduce employer contributions. Accumulated forfeitures totaled $4,075 and $9,105 at December 31, 2009 and 2008, respectively. During the plan year ending December 31, 2009, the Company utilized $8,847 in accumulated forfeitures to reduce the Company contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts in common collective trusts, as well as the adjustment for the fully benefit-responsive investment contracts in common collective trusts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for the fully benefit-responsive investment contracts held by common collective trusts.

New Accounting Pronouncements

The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's official source of authoritative U.S. Generally Accepted Accounting Principles (GAAP) applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Accountants (AICPA), the Emerging Issues Task Force (EITF) and other related literature. The FASB also issues Accounting Standards Updates (ASU). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

In 2009, FASB Staff position 157-4, "Disclosure Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP)", was issued and later codified into ASC 820, which expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. The provisions of this guidance are effective for periods ending after June 15, 2009. The adoption of this guidance did not impact the Plan's financial statement.

In September 2009, the FASB issued ASU 2009-12, "Fair Value Measurements and Disclosures (Topic 820) - Investments in Certain Entities that Calculate Net Asset Value per Share (or its equivalent)". This update provides guidance on estimating the fair value of a company's investments in investment companies when the investment entity calculates net asset value per share, but does not have a readily determinable fair value. This guidance also requires additional disclosure of the attributes of these investments such as: (i) the nature of any restrictions on the reporting entity's ability to redeem its investments; (ii) unfunded commitments; and (iii) investment strategies of the investees. The guidance is effective for periods ending after December 15, 2009.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and has no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision for income taxes has been included in the financial statements.

In 2009, The FASB issued ASC 855, "Subsequent Events", which establishes principles and standards related to the accounting for and disclosure of events that occur after the balance sheet date but before financial statement are issued. ASC 855 requires an entity to recognize, in financial statements, subsequent events that provide additional information regarding conditions that existed at the balance sheet date. See note 10 for further information on subsequent events.

New Accounting Standards to Be Adopted

In January 2010, the FASB issued ASU No. 2010-06, "Fair Value Measurement and Disclosures (ASU No. 2010-06)", which amends ASC 820, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact of ASU No. 2010-06 will have on its financial statements.

Investment Valuation and Income Recognition

Investment transactions are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in the fair value of investments reported in the statement of changes in net assets available for benefits includes realized gains and losses on sales during the year and current year changes in unrealized gains or losses based on the fair value of investments held at year end.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

FASB ASC 820, "Fair Value Measurement and Disclosures", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include (i) quoted prices for similar assets or liabilities in active markets; (ii) quoted prices for identical or similar assets or liabilities in inactive markets; (iii) inputs other than quoted prices that are observable for the asset or liability; (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset of liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds - Investments in publicly traded mutual funds are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

The Baldwin Stock Fund is a unitized fund, which invests solely in the Class A Common Stock of Baldwin Technology Company, Inc. The fund retains a certain amount of cash in order to complete a purchase or sale transaction on the same day as the request is received from a participant. Excess cash is held in a short-term money market fund within the Baldwin Stock Fund. Excess cash and cash equivalents at December 31, 2009 and 2008 amounted to $6,251 and $7,646, respectively. Investments in the Baldwin Stock Fund are classified within level 2 of the valuation hierarchy.

Common/Collective Trust - The common/collective trust account is stated at fair value ($1/share) as reported by the Plan's trustee. Units in a common/collective trust account are not traded on securities exchanges but are redeemable only by the issuer. The value of the Plan's investment in common/collective trust represents the value of the Plan's interests in the overall value of the common/collective trust and is classified within level 2 of the valuation hierarchy.

Loans to Participants - Loans to plan participants are valued at amortized cost which approximates fair value and are classified within level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Administration

The Plan is administered by The Advisory Committee (the "Committee"), which is appointed by the Board of Directors of Baldwin Americas Corporation.

Administrative Expenses
All administrative expenses related to the Plan, are paid by the Company except for various asset management fees, which are paid by each particular fund.

Use of Estimates
The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit obligations to participants
Benefits are recorded when paid. Accordingly, benefits payable to terminated employees are not deducted in arriving at net assets available for benefits.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. During the years ended December 31, 2009 and 2008, the fair value of investments appreciated (depreciated) by $1,679,979 and ($4,034,564), respectively, due to market volatility related to economic conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefit.

NOTE 3 - FAIR VALUE MEASUREMENTS

See "Investment Valuation" in Note 2 for discussions of the methodologies and assumptions used to determine the fair value of the Plan's investments. Below are the Plan's financial instruments carried at fair value on a recurring basis, by the fair value hierarchy levels described in Note 2.

9

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 200			
	Level 1	Level 2	Level 3	
MFS Total Return Fund/Common Stock & Bonds	$ 956,278	$ -	$ -	$

Participant loans	-	-	88,111	
Total Assets at fair value	$6,918,732	$2,331,950	$88,111	$

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

Level 3 Assets
Year Ended December 31, 2009

	Participant Loans
Balance, beginning of year	$88,111
Loan repayments	29,951
Loan disbursements	(46,798)

Balance, end of year	$71,264

NOTE 4 - FAIR VALUE OF INVESTMENTS IN CERTAIN ENTITIES THAT CALCULATE NET ASSET VALUE PER SHARE (OR ITS EQUIVALENT)

The following table sets forth additional disclosures of Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2009:

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
MFS Institutional Fixed Fund (a)	$1,818,708	$0	Daily	None
Baldwin Stock Fund (b)	$144,125	$0	Daily	None

(a) see Note 5
(b) see Note 2

NOTE 5 - COMMON/COLLECTIVE TRUSTS

The plan invests in the MFS Institutional Fixed Fund which is a stable value fund that is a common collective trust.

The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant net asset value (NAV) of $1 per unit. Distribution to the Fund's unit holders are declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of $1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

In accordance with ASC 962 "Plan Accounting - Defined Contribution Pension Plans" (formerly FASB Staff Position AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution, Health and Welfare and Pension Plans), the stable value fund is included at fair value in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

All investment contracts and fixed income securities purchased for the pools must satisfy the credit quality standards of MFS and the Plan. The average yields for the MFS Institutional Fixed Fund are as follows:

	2009	2008
Based on annualized earnings (1)	3.49%	3.42%
Based on interest rate credited to participants (2)	1.93%	2.83%

(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the plan year by the fair value of the investments on the same date.
(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the investments on the same date.

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Massachusetts Financial Services ("MFS") which is an affiliate of Sun Life Retirement Services, Inc. ("Sun Life"). Sun Life is the administrative services provider and record keeper, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to MFS during the year ended December 31, 2009 were $634. In addition, the Company pays certain costs on behalf of the Plan.

At December 31, 2009 and 2008, the Plan held 106,072 and 109,189 shares, respectively, of the Baldwin Technology Company, Inc. Class A Common Stock with a fair value of $137,874 and $187,805, respectively.

NOTE 7 - INVESTMENTS

The following investments represented 5 percent or more of the Plan's net assets at either December 31, 2009 or 2008:

	December 31,	
Investments, at fair value:	2009	2008
MFS Institutional Fixed Fund	$1,818,708	$2,136,499
MFS Total Return Fund	956,278	915,953
MFS Massachusetts Investors Trust	1,386,893	1,317,490
MFS Emerging Growth Fund	1,317,431	1,094,123
MFS Global Equity Fund	1,182,595	973,794
Neuberger Berman Genesis Advisor Fund	701,473	583,303
Van Kampen Strategic Growth Fund	661,372	267,937*
Pimco Total Return Fund	1,046,996	870,539

* Represents less than 5% of net assets available for plan benefits as of this date

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought, sold as well as held during the year) appreciated in value by $1,679,979 as follows:

	Year Ended December 31, 2009
Mutual Funds	$ 1,722,829
Baldwin Stock Fund	(42,850)
	$ 1,679,979

NOTE 8 - FEDERAL INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Committee reserves the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event the Plan is terminated, participants will become 100% vested in their accounts, no new funds will be contributed and the Plan's assets will be administered and distributed.

NOTE 10 - SUBSEQUENT EVENT

The Plan has evaluated subsequent events though the date the financial statements were issued.
