FORM 10-Q

(Mark one)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 1-31219

SUNOCO LOGISTICS PARTNERS L.P.

(Exact name of registrant as specified in its charter)

Delaware 23-3096839
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

3807 West Chester Pike, 19073
Newtown Square, PA
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (866) 248-4344

Former name, former address and former fiscal year, if changed since last report: Not Applicable

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes

No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer," "non-accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Edgar Filing: SUNOCO LOGISTICS PARTNERS L.P. - Form 10-Q

At November 4, 2016, the number of the registrant's Common and Class B Units outstanding were 322,054,475 and 9,416,196, respectively.

SUNOCO LOGISTICS PARTNERS L.P.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Organization and Basis of Presentation

Sunoco Logistics Partners L.P. (the "Partnership" or "SXL") is a publicly traded Delaware limited partnership that owns and operates a logistics business, consisting of geographically diverse portfolio of integrated pipeline, terminalling, and acquisition and marketing assets which are used to facilitate the purchase and sale of crude oil, natural gas liquids ("NGLs") and refined products. The Partnership conducts its business activities in 37 states located throughout the United States.

During the fourth quarter 2015, the Partnership realigned its reporting segments as a result of the continued investment in its organic growth capital program which has served to increase the integration that exists between its assets that service each commodity. This has also resulted in a shift in Management's strategic decision making process, resource allocation methodology, and assessment of the Partnership's financial results. The updated reporting segments are: Crude Oil, Natural Gas Liquids and Refined Products. The new segmentation provides the Partnership's investors with a more meaningful view of its business that is consistent with that of Management. For the purpose of comparability, all prior period segment disclosures have been recast to conform to the current presentation. Such recasts had no impact on previously reported consolidated earnings.

The consolidated financial statements reflect the results of the Partnership and its wholly-owned subsidiaries, including Sunoco Logistics Partners Operations L.P. (the "Operating Partnership"), the proportionate shares of the Partnership's undivided interests in assets, and the accounts of entities in which the Partnership has a controlling financial interest. A controlling financial interest is evidenced by either a voting interest greater than 50 percent or a risk and rewards model that identifies the Partnership or one of its subsidiaries as the primary beneficiary of a variable interest entity. The Partnership currently holds a controlling financial interest in Inland Corporation ("Inland"), Mid-Valley Pipeline Company ("Mid-Valley"), and Price River Terminal, LLC ("PRT"), and as such, these entities are reflected as consolidated subsidiaries of the Partnership. Effective November 1, 2016, SunVit Pipeline LLC ("SunVit") became a wholly-owned subsidiary of the Partnership. The Partnership is not the primary beneficiary of any variable-interest entities ("VIEs"). All significant intercompany accounts and transactions are eliminated in consolidation, and noncontrolling interests in net income and equity are shown separately in the condensed consolidated statements of comprehensive income and equity. Equity ownership interests in corporate joint ventures in which the Partnership does not have a controlling financial interest, but over which the Partnership can exercise significant influence, are accounted for under the equity method of accounting.

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-02, which created Topic 842, Leases, and superseded the leases requirements in Topic 840. The objective of Topic 842 is to establish the principles that lessees and lessors shall apply to report useful information to users of financial statements about the amount, timing, and uncertainty of cash flows arising from a lease. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. The Partnership is currently evaluating the impact that it will have on its consolidated financial statements and related disclosures.

In May 2014, the FASB codified guidance in ASU 2014-09 related to the recognition of revenue from contracts with customers, and released associated clarifying guidance in subsequent periods. The new standards outline the core principle that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration which the entity expects to be entitled in exchange for those goods or services. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those reporting periods, with early adoption permitted. The Partnership is currently assessing the impact, if any, that adoption of new guidance will have on its consolidated financial position and results of operations. In the fourth quarter 2015, the Partnership adjusted its presentation of costs associated with issuances of debt in response to the early adoption of ASU 2015-03. This guidance requires costs incurred to issue certain debt instruments to be reflected as a reduction of the reported long-term debt liability within the consolidated balance sheet, as opposed to being reported as an asset. All prior periods are reported presenting the impact of ASU 2015-03. The adoption did

not impact the Partnership's overall financial position or results of operations.

The Partnership also adjusted its balance sheet presentation of deferred tax assets and liabilities in response to the early adoption of ASU 2015-17. This guidance requires all deferred tax assets and liabilities to be presented as noncurrent within the consolidated balance sheet, and is retrospectively applied to all prior reporting periods presented. This change did not impact the Partnership's financial position or results of operations.

The accompanying condensed consolidated financial statements are presented in accordance with the requirements of Form 10-Q and accounting principles generally accepted in the United States for interim financial reporting. They do not include all disclosures normally made in annual financial statements contained in Form 10-K. The accompanying condensed consolidated balance sheet at December 31, 2015 has been derived from the Partnership's audited financial statements for the year ended December 31, 2015. In management's opinion, all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for the periods shown have been made. All such adjustments are of a normal, recurring nature. The Partnership expects the interim increase in the quantity of its crude oil inventory to decline by year end and therefore has adjusted its interim LIFO calculation to produce a reasonable matching of the most recently incurred costs with current revenues. Results for the three and nine months ended September 30, 2016 are not necessarily indicative of results for the full year 2016. Certain amounts in the prior year condensed consolidated financial statements have been reclassified to conform to the current year presentation.

2. Changes in Business and Other Matters

Bayview Refining Company

In connection with the formation of Bayview Refining Company, LLC ("Bayview") in the second quarter 2014, the joint owners agreed to guarantee the obligations of the entity with respect to certain third-party operating agreements over a ten-year term. The fair value of the liability recognized in connection with the guarantee was not material in relation to the Partnership's financial position at September 30, 2016. The Partnership's note receivable from the joint owner of Bayview is reflected in other assets in the condensed consolidated balance sheet.

Bayou Bridge Pipeline

In July 2015, the Partnership entered into an agreement with ETP and Phillips 66 to participate in the Bayou Bridge Pipeline project. The Partnership obtained a 30 percent economic interest in the project which, combined with ETP's 30 percent interest, will be a consolidated subsidiary of ETP. The project consists of a newly constructed pipeline that will deliver crude oil from Nederland, Texas to refinery markets in Louisiana. Commercial operations from Nederland, Texas to Lake Charles, Louisiana commenced in the second quarter 2016, with continued progress on an extension of the pipeline segment to St. James, Louisiana, which is expected to commence operations in the second half of 2017. The Partnership is the operator of the pipeline and will continue to fund its proportionate share of the cost of the project, which is accounted for as an equity method investment within the Partnership's Crude Oil segment.

Bakken Pipeline

In October 2015, the Partnership finalized its participation in the Bakken Pipeline project with Energy Transfer Partners, L.P. ("ETP") and Phillips 66. The Partnership obtained a 30 percent economic interest in the project which is a consolidated subsidiary of ETP. The project consists of existing and newly constructed pipelines that are expected to provide aggregate takeaway capacity of approximately 450 thousand barrels per day of crude oil from the Bakken/Three Forks production area in North Dakota to key refinery and terminalling hubs in the Midwest and Gulf Coast, including the Partnership's Nederland terminal. The ultimate takeaway capacity target for the project is 570 thousand barrels per day. The Partnership expects to reach agreement to become the operator of the pipeline system, which is expected to begin commercial operations in the first quarter of 2017.

In exchange for its 30 percent economic interest in the project, the Partnership issued 9.4 million Class B units to ETP, representing limited partner interests in the Partnership, and paid \$382 million in cash to cover the Partnership's proportionate share of contributions at the time of closing. Since the interest in the project was acquired from a related party, the Partnership's initial investment was recorded at ETP's historical carrying value. The Partnership's investment in the Bakken Pipeline project is reflected as an equity method investment within the Crude Oil segment. See Note 11 for additional information on the issuance of the Class B units.

In August 2016, the Bakken entities established a \$2.5 billion credit facility which is anticipated to provide substantially all of the remaining capital necessary to complete the project. Borrowings under the credit facility are secured by all assets of the Bakken entities, as well as the ownership interests maintained by the joint partners. Until certain governmental permits required for operation are obtained, the facility is limited to \$1.1 billion in borrowings. At September 30, 2016, \$1.1 billion was outstanding under the Bakken credit facility.

The joint partners agreed to provide the Bakken entities with a short-term loan until the full capacity of the \$2.5 billion credit facility can be utilized. The loan was made by the partners in proportion to their respective ownership interests. The outstanding balance of the note receivable due to the Partnership by the Bakken entities at September 30, 2016 was \$100 million.

In August 2016, the Partnership announced with ETP the signing of an agreement to sell 49 percent of their respective interests in the Bakken Pipeline project for \$2.0 billion to MarEn Bakken Company LLC, an entity jointly owned by Marathon Petroleum Corporation and Enbridge Energy Partners, L.P. The transaction is expected to close in the fourth quarter 2016, subject to certain closing conditions, at which time the Partnership will receive \$800 million. The carrying amount of the Partnership's investment in the Bakken Pipeline project was \$631 million at September 30, 2016. Subsequent to closing, the Partnership's ownership interest in the Bakken Pipeline project will be 15.3 percent.

Permian Express Partners

In November 2016, the Partnership announced its intent to form Permian Express Partners LLC ("PEP"), a strategic joint venture, with ExxonMobil. The Partnership will contribute its Permian Express 1, Permian Express 2 and Permian Longview and Louisiana Access pipelines. ExxonMobil will contribute its Longview to Louisiana and Pegasus pipelines; Hawkins gathering system; an idle pipeline in southern Oklahoma; and its Patoka, Illinois terminal. The closing of PEP will be subject to certain closing conditions, including regulatory approval, and is expected to be completed in the first quarter 2017. Upon closing, the Partnership's ownership percentage is expected to be approximately 85 percent. The Partnership will maintain a controlling financial and voting interest in PEP and will operate all of the assets contributed to the joint venture. As such, PEP will be reflected as a consolidated subsidiary of the Partnership with its operating results included in the Crude Oil segment.

No pro forma information has been presented, as the impact of these investments was not material to the Partnership's consolidated financial position or results of operations.

3. Acquisitions

In January 2015, the Partnership acquired the remaining noncontrolling interest in West Texas Gulf Pipe Line Company ("West Texas Gulf"), from the Southwest Pipeline Holding Company for \$131 million. The acquisition of the remaining ownership interest reduced noncontrolling interest and partners' equity by \$26 and \$105 million, respectively, in the first quarter 2015.

In August 2016, the Partnership purchased an additional 1.7 percent ownership interest in the Explorer Pipeline Company ("Explorer") from EXPL Pipeline Investment LLC for \$17 million. The purchase increased the Partnership's overall ownership in Explorer, which continues to be accounted for as an equity method investment within the Refined Products segment, from 13.3 to 15.0 percent.

In November 2016, the Partnership completed an acquisition from Vitol, Inc. ("Vitol") of an integrated crude oil business in West Texas for \$760 million plus working capital. The acquisition provides the Partnership with an approximately 2 million barrel crude oil terminal in Midland, Texas, a crude oil gathering and mainline pipeline system in the Midland Basin, including a significant acreage dedication from an investment-grade Permian producer, and crude oil inventories related to Vitol's crude oil purchasing and marketing business in West Texas. The acquisition also included the purchase of a 50 percent interest in SunVit, which increased the Partnership's overall ownership of SunVit to 100 percent. SunVit connects the Midland terminal to the Partnership's Permian Express 2 pipeline, a key takeaway to bring Permian crude oil to multiple markets. The acquisition will be included in the Crude Oil segment. The assets and liabilities acquired will be recorded at fair value as of the acquisition date, and the initial fair value measurements are not yet complete.

No pro forma information has been presented, as the impact of the acquisitions was not material in relation to the Partnership's consolidated financial position or results of operations in 2015 and 2016.

4. Related Party Transactions

The Partnership is a consolidated subsidiary of ETP. ETP and one of its affiliates own Sunoco Partners LLC, the Partnership's general partner, and a 23 percent limited partner interest in the Partnership, including the Class B units issued in October 2015. The Partnership has various operating and administrative agreements with ETP and its

affiliates, which include the agreements described below.

8

Administrative Services

The Partnership has no employees. The operations of the Partnership are carried out by employees of the general partner. The Partnership reimburses the general partner and its affiliates for certain costs and direct expenses incurred on the Partnership's behalf. These costs may be increased if the acquisition or construction of new businesses or assets requires an increase in the level of services received by the Partnership.

The Partnership pays ETP and its affiliates an annual administrative fee for expenses incurred by ETP and its affiliates to perform certain centralized corporate functions, such as legal, accounting, information technology, insurance, office space rental, and other corporate services, including the administration of employee benefit plans. This fee does not include the salaries or wages of employees of the general partner, or the cost of employee benefits or shared insurance. The Partnership's share of allocated ETP employee benefit plan expenses, including defined contribution 401(k) plans, employee and retiree medical, dental and life insurance plans, incentive compensation plans and other such benefits are reflected in operating expenses and selling, general and administrative expenses in the condensed consolidated statements of comprehensive income.

Affiliated Revenues and Accounts Receivable, Affiliated Companies

The Partnership is party to various agreements with ETP and its affiliates to supply crude oil, NGLs and refined products, as well as to provide pipeline and terminalling services. The revenues associated with these activities are reflected as affiliated revenues in the condensed consolidated statements of comprehensive income.

Acquisitions

See Note 2 for additional information related to the Partnership's participation in the Bayou Bridge and Bakken pipeline projects.

Capital Contributions

In connection with the acquisition of the Marcus Hook Facility in the second quarter 2013, the Partnership will be reimbursed \$40 million by an affiliate of ETP for certain operating expenses of the facility through March 31, 2017. The reimbursement proceeds are reflected as contributions to equity within the condensed consolidated statements of equity.

Notes Receivable from Affiliated Companies

See Note 2 for additional information related to the note receivable in connection with the Bakken Pipeline project.

5. Net Income Attributable to Sunoco Logistics Partners L.P. per Limited Partner Unit

The general partner's interest in net income attributable to SXL consists of its general partner interest and "incentive distributions," which are increasing percentages of up to 50 percent of quarterly distributions in excess of \$0.0833 per common unit. In September 2016, the Partnership entered into an amendment of its Limited Partnership Agreement to temporarily reduce the incentive distributions received by the general partner over a two-year period, beginning in the third quarter 2016 (see Note 12). The general partner was allocated net income attributable to SXL of \$101 and \$74 million (representing 66 and 132 percent of total net income attributable to SXL) for the three months ended September 30, 2016 and 2015, respectively. The general partner was allocated net income attributable to SXL of \$289 and \$205 million (representing 58 and 56 percent of total net income attributable to SXL) for the nine months ended September 30, 2016 and 2015, respectively. Diluted net income attributable to SXL per limited partner unit is calculated by dividing the limited partners' interest in net income attributable to SXL by the sum of the weighted average number of common and Class B units outstanding and the dilutive effect of unvested incentive unit awards (see Note 13).

For the three and nine months ended September 30, 2016, net income attributable to SXL was reduced by \$3 and \$10 million, respectively, in determining earnings per limited partner unit in accordance with accounting guidance applicable to the Class B units, which are reflected as redeemable limited partner interests.

The following table sets forth the reconciliation of the weighted average number of limited partner and Class B units used to compute basic net income attributable to SXL per limited partner unit to those used to compute diluted net income attributable to SXL per limited partner unit for the three and nine months ended September 30, 2016 and 2015:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	(in millions)			
Weighted average number of units outstanding, basic	307.0	255.0	295.5	244.3
Add effect of dilutive incentive awards ⁽¹⁾	1.1	—	0.8	0.9
Weighted average number of units, diluted	308.1	255.0	296.3	245.2

⁽¹⁾ Unvested incentive unit awards are not included within the calculation of the dilutive weighted average number of units for the three months ended September 30, 2015 since the effect on the net loss attributable to SXL per limited partner unit would have been antidilutive.

6. Inventories

The components of inventories are as follows:

	September 30, 2016		December 31, 2015	
	(in millions)			
Crude oil	\$ 590	\$ 424		
NGLs	113	83		
Refined products	111	83		
Refined products additives	3	3		
Materials, supplies and other	12	14		
Total Inventories	\$ 829	\$ 607		

The Partnership's lower of cost or market ("LCM") reserves totaled \$269 and \$8 million, respectively, on its crude oil and NGLs inventories at September 30, 2016. At December 31, 2015, the LCM reserves totaled \$381, \$37 and \$2 million on the Partnership's crude oil, NGLs and refined products inventories, respectively. See Note 16 for additional information on the LCM adjustments related to the Partnership's LIFO inventory balances, which are reported as impairment charge and other matters within the condensed consolidated statement of comprehensive income.

7. Goodwill and Intangible Assets

Intangible Assets

The components of intangible assets are as follows:

	Weighted Average Amortization Period (in years)	September 30, 2016	December 31, 2015
(in millions)			
Gross			
Customer relationships	18	\$ 836	\$ 836
Technology	10	47	47
Total gross		883	883
Accumulated amortization			
Customer relationships		(184)	(149)
Technology		(19)	(16)
Total accumulated amortization		(203)	(165)
Total Net		\$ 680	\$ 718

Amortization expense was \$13 million for the three months ended September 30, 2016 and 2015, and \$38 and \$39 million for the nine months ended September 30, 2016 and 2015, respectively. The Partnership forecasts annual amortization expense of \$51 million for each year through the year 2020, for its intangible assets.

Intangible assets associated with rights of way are included in properties, plants and equipment in the Partnership's condensed consolidated balance sheets.

Goodwill

Goodwill, which represents the excess of the purchase price in a business combination over the fair value of net assets acquired, is tested for impairment annually in the fourth quarter, or more often if events or changes in circumstances indicate that the carrying value of goodwill may exceed its estimated fair value. The Partnership's goodwill balance was \$1,358 million at September 30, 2016 and December 31, 2015. The Partnership will continue to monitor the volatility in the energy markets and the impact it could have on the estimated fair value of its reporting segments. It is possible that continued negative volatility within these markets could change the Partnership's conclusion regarding whether goodwill is impaired.

8. Income Taxes

The Partnership is not a taxable entity for U.S. federal income tax purposes, or for the majority of states that impose income taxes. Rather, income taxes are generally assessed at the partner level. There are some states in which the Partnership operates where it is subject to state and local income taxes. Substantially all of the income tax amounts reflected in the Partnership's condensed consolidated financial statements are related to the operations of Inland, Mid-Valley and West Texas Gulf, all of which are entities subject to income taxes for federal and state purposes at the corporate level. The effective tax rates for these entities approximate the federal statutory rate of 35 percent.

In taxable jurisdictions, the Partnership records deferred income taxes on all significant temporary differences between the book basis and the tax basis of assets and liabilities. The net deferred tax liabilities reflected in the condensed consolidated balance sheets are derived principally from the differences in the book and tax bases of properties, plants and equipment of Inland, Mid-Valley and West Texas Gulf.

9. Debt

The components of the Partnership's debt balance are as follows:

	September 30, 2016	December 31, 2015
Credit Facilities	(in millions)	
\$2.50 billion Credit Facility, due March 2020 ⁽¹⁾	\$622	\$ 562
Senior Notes		
Senior Notes - 6.125%, matured May 2016 ⁽²⁾	—	175
Senior Notes - 5.50%, due February 2020	250	250
Senior Notes - 4.40%, due April 2021	600	600
Senior Notes - 4.65%, due February 2022	300	300
Senior Notes - 3.45%, due January 2023	350	350
Senior Notes - 4.25% due April 2024	500	500
Senior Notes - 5.95%, due December 2025	400	400
Senior Notes - 3.90%, due July 2026	550	—
Senior Notes - 6.85%, due February 2040	250	250
Senior Notes - 6.10%, due February 2042	300	300
Senior Notes - 4.95%, due January 2043	350	350
Senior Notes - 5.30% due April 2044	700	700
Senior Notes - 5.35% due May 2045	800	800
Unamortized fair value adjustments ⁽³⁾	85	93
Total debt	6,057	5,630
Less:		
Unamortized bond discount and debt issuance costs ⁽⁴⁾	(43)	(39)
Long-term debt	\$6,014	\$ 5,591

(1) Includes \$140 million of commercial paper outstanding at September 30, 2016. There was no commercial paper outstanding at December 31, 2015.

(2) The 6.125 percent Senior Notes were classified as long-term debt at December 31, 2015 as the Partnership repaid these notes in May 2016 with borrowings under its \$2.50 billion Credit Facility, due in 2020.

(3) Represents fair value adjustments on senior notes resulting from the application of push-down accounting in connection with the acquisition of the Partnership's general partner by ETP on October 5, 2012.

(4) In the fourth quarter 2015, the Partnership adopted accounting guidance which requires certain debt issuance costs to be reflected as a reduction in the total long-term debt liability for all periods presented. The net long-term debt balance now includes \$35 and \$32 million of debt issuance costs at September 30, 2016 and December 31, 2015, respectively.

Credit Facilities

In March 2015, the Operating Partnership amended and restated its \$1.50 billion Credit Facility, which was scheduled to mature in November 2018. The amended and restated credit facility is a \$2.50 billion unsecured revolving credit agreement (the "\$2.50 billion Credit Facility"), which matures in March 2020, that will continue to fund the Partnership's working capital requirements, finance acquisitions and capital projects, and be used for general partnership purposes. The \$2.50 billion Credit Facility contains an "accordion" feature, under which the total aggregate commitment may be extended to \$3.25 billion under certain conditions. In June 2015, the \$2.50 billion Credit Facility was amended to create a segregated tranche of borrowings that will be guaranteed by ETP. The amendment did not modify the outstanding borrowings, total capacity or terms of the facility. In September 2015, the Operating Partnership initiated a commercial paper program under the borrowing limits established by its \$2.50 billion Credit Facility. The \$2.50 billion Credit Facility bears interest at LIBOR or the Base Rate (as defined in the facility), each plus an applicable margin. The credit facility may be repaid at any time.

The \$2.50 billion Credit Facility contains various covenants, including limitations on the creation of indebtedness and liens, and related to the operation and conduct of the business of the Partnership and its subsidiaries. The credit facility also limits the Partnership, on a rolling four quarter basis, to a maximum total consolidated debt to consolidated Adjusted EBITDA ratio, as defined in the underlying credit agreement, of 5.0 to 1, which can generally be increased to 5.5 to 1 during an acquisition period. The Partnership's ratio of total consolidated debt, excluding net unamortized fair value adjustments, to consolidated Adjusted EBITDA was 3.6 to 1 at September 30, 2016, as calculated in accordance with the credit agreement.

See Note 2 for additional information on the Bakken Pipeline project-level financing.

Senior Notes

The Operating Partnership had \$175 million of 6.125 percent Senior Notes which matured and were repaid in May 2016, using borrowings under the \$2.50 billion Credit Facility.

In July 2016, the Operating Partnership issued \$550 million of 3.90 percent Senior Notes (the "2026 Senior Notes"), due July 2026, for net proceeds of \$544 million. The terms and conditions of the 2026 Senior Notes are comparable to those of the Operating Partnership's other outstanding senior notes. The net proceeds from this offering were used to repay outstanding credit facility borrowings and for general partnership purposes.

10. Commitments and Contingent Liabilities

The Partnership is subject to numerous federal, state and local laws which regulate the discharge of materials into the environment or otherwise relate to the protection of the environment. These laws and regulations can result in liabilities and loss contingencies for remediation at the Partnership's facilities and at third-party or formerly owned sites. At September 30, 2016 and December 31, 2015, there were accrued liabilities for environmental remediation in the condensed consolidated balance sheets of \$8 and \$6 million, respectively. The accrued liabilities for environmental remediation do not include any amounts attributable to unasserted claims, since there are no unasserted claims that are probable of settlement or are reasonably estimable, nor have any recoveries from insurance been assumed. Charges against income for environmental remediation totaled \$4 and \$2 million for the three months ended September 30, 2016 and 2015, respectively, and \$8 and \$7 million for the nine months ended September 30, 2016 and 2015, respectively. The Partnership maintains insurance programs that cover certain of its existing or potential environmental liabilities. Claims for recovery of environmental liabilities and previous expenditures that are probable of realization were not material in relation to the Partnership's consolidated financial position at September 30, 2016. Total future costs for environmental remediation activities will depend upon, among other things, the identification of any additional sites; the determination of the extent of the contamination at each site; the timing and nature of required remedial actions; the technology available and needed to meet the various existing legal requirements; the nature and extent of future environmental laws, inflation rates and the determination of the Partnership's liability at multi-party sites, if any, in light of uncertainties with respect to joint and several liability; and the number, participation levels and financial viability of other parties. Management believes it is reasonably possible that additional environmental remediation losses will be incurred. At September 30, 2016, the aggregate of the estimated maximum additional reasonably possible losses, which relate to numerous individual sites, totaled \$13 million.

The Partnership is a party to certain pending and threatened claims. Although the ultimate outcome of these claims cannot be ascertained at this time, nor can a range of reasonably possible losses be determined, it is reasonably possible that some portion of them could be resolved unfavorably for the Partnership. Management does not believe that any liabilities which may arise from such claims or the environmental matters discussed above would be material in relation to the Partnership's financial position, results of operations or cash flows at September 30, 2016.

Furthermore, management does not believe that the overall costs for such matters will have a material impact, over an extended period of time, on the Partnership's financial position, results of operations or cash flows.

Sunoco, Inc. ("Sunoco") has indemnified the Partnership for 30 years for environmental and toxic tort liabilities related to the assets contributed to the Partnership that arose from the operation of such assets prior to the closing of the February 2002 initial public offering ("IPO"). Sunoco has also indemnified the Partnership for 100 percent of all losses asserted within the first 21 years after the closing of the IPO. Sunoco's share of the liability for claims asserted thereafter will decrease by 10 percent per year. For example, for a claim asserted during the twenty-third year after the

closing of the IPO, Sunoco would be required to indemnify the Partnership for 80 percent of its loss. There is no monetary cap on the amount of indemnity coverage provided by Sunoco. The Partnership has agreed to indemnify Sunoco for events and conditions associated with the operation of the Partnership's assets that occur on or after the closing of the IPO and for environmental and toxic tort liabilities to the extent that Sunoco is not required to indemnify the Partnership.

Management of the Partnership does not believe that any liabilities which may arise from claims indemnified by Sunoco would be material in relation to the Partnership's financial position, results of operations or cash flows at September 30, 2016. There are certain other pending legal proceedings related to matters arising after the IPO that are not indemnified by Sunoco. Management believes that any liabilities that may arise from these legal proceedings will not be material in relation to the Partnership's financial position, results of operations or cash flows at September 30, 2016.

11. Equity

The changes in the number of common units outstanding from January 1, 2015 through September 30, 2016 are as follows:

	Common Units (in millions)
Balance at January 1, 2015	226.1
Units issued in public offering	15.5
Units issued under ATM program	26.8
Units issued under incentive plans	0.4
Balance at December 31, 2015	268.8
Units issued in public offering	21.0
Units issued under ATM program	29.1
Units issued under incentive plans	—
Balance at September 30, 2016	318.9

The Partnership maintains an at-the-market equity offering program ("ATM" program) which allows it to issue common units directly to the public and raise capital in a timely and efficient manner to finance its growth capital program, while supporting the Partnership's investment grade credit ratings. For the three months ended September 30, 2016 and 2015, the Partnership issued 2.8 and 7.6 million common units under this program, for proceeds of \$77 and \$261 million, net of \$1 and \$2 million in fees and commissions to managers, respectively. For the nine months ended September 30, 2016 and 2015, the Partnership issued 29.1 and 17.2 million common units under this program, for proceeds of \$744 and \$645 million, net of \$8 and \$7 million in fees and commissions to managers, respectively. In September 2016, the Partnership completed a public offering of 21.0 million common units for proceeds of \$560 million, net of \$7 million in fees and commissions to managers. The net proceeds from this offering were used to partially fund the acquisition from Vitol. See Note 3 for further information regarding the acquisition. In October 2016, an additional 3.2 million common units were issued for proceeds of \$84 million, net of fees and commissions to managers of \$1 million, related to the exercise of an option in connection with the September 2016 offering. In March and April 2015, a total of 15.5 million common units were issued in connection with a public offering and related option exercise. Total proceeds of \$629 million were used to repay outstanding borrowings under the Partnership's \$2.50 billion Credit Facility and for general partnership purposes.

In October 2015, the Partnership issued 9.4 million Class B units to ETP in conjunction with the purchase of an ownership interest in the Bakken pipeline. The Class B units represent a new class of limited partner interests in the Partnership which are not entitled to receive quarterly distributions that are made on the Partnership's common units, but are otherwise entitled to share in earnings pro-rata with common units. The Class B units will automatically convert to common units on a one-for-one basis in the third quarter 2017. However, the Partnership can exercise an option to call the Class B units for \$300 million. If not exercised, ETP can exercise a put right during the third quarter 2017, effective prior to the one-for-one conversion date, for the greater of \$313.5 million or the fair market value of the units, as defined in the unitholder agreement. As a result of the available put option, the amount attributable to the Class B units is excluded from total equity and instead reflected as redeemable interests in the Partnership's condensed consolidated balance sheet.

12. Cash Distributions

Within 45 days after the end of each quarter, the Partnership distributes all cash on hand at the end of the quarter, less reserves established by the general partner at its discretion. This is defined as "available cash" in the partnership agreement. The general partner has broad discretion to establish cash reserves that it determines are necessary or appropriate to properly conduct the Partnership's business. The Partnership will make quarterly distributions to the extent there is sufficient cash from operations after the establishment of cash reserves and the payment of fees and expenses, including payments to the general partner.

If cash distributions exceed \$0.0833 per unit in a quarter, the general partner will receive increasing percentages, up to 50 percent, of the cash distributed in excess of that amount. These distributions are referred to as "incentive distributions." The percentage interests for the unitholders and the general partner for the minimum quarterly distribution are also applicable to the quarterly distribution amounts that are less than the minimum quarterly distribution.

The following table shows the target distribution levels and distribution "splits" between the general partner and the holders of the Partnership's common units through September 30, 2016:

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		General Partner	Unitholders
Minimum Quarterly Distribution	\$0.0750	1 %	99 %
First Target Distribution	up to \$0.0833	1 %	99 %
Second Target Distribution	above \$0.0833 up to \$0.0958	14 % ⁽¹⁾	86 %
Third Target Distribution	above \$0.0958 up to \$0.2638	36 % ⁽¹⁾	64 %
Thereafter	above \$0.2638	49 % ⁽¹⁾	51 %

⁽¹⁾ Includes general partner interest.

The distributions paid by the Partnership for the periods presented were as follows:

Cash Distribution Payment Date	Cash Distribution per Limited Partner Unit	Total Cash Distribution to the Limited Partners (in millions)	Total Cash Distribution to the General Partner (in millions)
August 12, 2016	\$ 0.5000	\$ 149	\$ 98
May 13, 2016	\$ 0.4890	\$ 140	\$ 92
February 12, 2016	\$ 0.4790	\$ 131	\$ 85
November 13, 2015	\$ 0.4580	\$ 119	\$ 76
August 14, 2015	\$ 0.4380	\$ 111	\$ 69
May 15, 2015	\$ 0.4190	\$ 103	\$ 62
February 13, 2015	\$ 0.4000	\$ 92	\$ 54

In connection with the acquisition from Vitrol, the Partnership's general partner executed an amendment to the Partnership's Third Amended and Restated Agreement of Limited Partnership in September 2016, which provides for a reduction to the incentive distributions the general partner receives from the Partnership. The reductions will total \$60 million over a two-year period, recognized ratably over eight quarters, beginning with the third quarter 2016 cash distribution.

On October 27, 2016, the Partnership's general partner announced a cash distribution of \$0.51 per common unit (\$2.04 annualized), representing the distribution for the third quarter 2016. The \$266 million distribution, including \$102 million to the general partner for its interests and incentive distribution rights, will be paid on November 14, 2016 to unitholders of record on November 9, 2016.

13. Management Incentive Plan

Sunoco Partners LLC, the general partner of the Partnership, has adopted the Sunoco Partners LLC Long-Term Incentive Plan ("LTIP") for employees and directors of the general partner who perform services for the Partnership. In the fourth quarter 2015, the Partnership's unitholders approved the Sunoco Partners LLC Long-Term Incentive Plan, as amended and restated (the "Restated LTIP"), which was previously approved by the board of directors of Sunoco Partners LLC, the Partnership's general partner. The Restated LTIP authorized an additional 10.0 million common units to be available under the plan; added additional types of awards that can be granted under the plan, such as phantom unit awards, unit appreciation rights, unrestricted unit awards and other unit-based awards ("plan awards"); added a prohibition on repricing of unit options and unit appreciation rights without the approval of the unitholders; provided for termination of the plan at the earliest date it is terminated by the board of directors, the date no more units remain available for grants, and December 1, 2025; and incorporated certain other administrative changes.

The Restated LTIP benefits eligible employees and directors of the general partner and its affiliates who perform services for the Partnership. The Restated LTIP is administered by the independent directors of the Compensation Committee of the general partner's board of directors with respect to employee awards, and by the general partner's board of directors with respect to awards granted to the independent directors. The Restated LTIP currently permits the grant of restricted units and unit options covering an additional 9.7 million common units.

The Partnership issued less than 0.1 and 0.4 million common units under its long-term incentive plan, and recognized share-based compensation expense of \$16 and \$12 million for the nine months ended September 30, 2016 and 2015, respectively. Each of the outstanding restricted unit grants have tandem distribution equivalent rights which are recognized as a reduction to equity when earned.

14. Derivatives and Risk Management

The Partnership is exposed to various risks, including volatility in the prices of the products that the Partnership markets, counterparty credit risk and changes in interest rates.

Price Risk Management

The Partnership is exposed to risks associated with changes in the market price of crude oil, NGLs and refined products. These risks are primarily associated with price volatility related to pre-existing or anticipated purchases, sales and storage. Price changes are often caused by shifts in the supply and demand for these commodities, as well as their locations. In order to manage such exposure, the Partnership's policy is (i) to only purchase crude oil, NGLs and refined products for which sales contracts have been executed or for which ready markets exist, (ii) to structure sales contracts so that price fluctuations do not materially impact the margins earned, and (iii) to not acquire and hold physical inventory, futures contracts or other derivative instruments for the purpose of speculating on commodity price changes. Although the Partnership seeks to maintain a balanced inventory position within its commodity inventories, net unbalances may occur for short periods of time due to production, transportation and delivery variances. When physical inventory builds or draws do occur, the Partnership continuously manages the variance to a balanced position over a period of time.

The physical contracts related to the Partnership's commodity purchase and sale activities that qualify as derivatives have been designated as normal purchases and sales and are accounted for using accrual accounting under the United States' generally accepted accounting principles. The Partnership accounts for derivatives that do not qualify as normal purchases or sales at fair value. The Partnership currently does not utilize derivative instruments to manage its exposure to prices related to crude oil purchase and sale activities. All derivative balances are presented on a gross basis.

Pursuant to the Partnership's approved risk management policy, derivative contracts, such as swaps, futures and other derivative instruments, may be used to hedge or reduce exposure to price risk associated with acquired inventory or forecasted physical transactions. The Partnership utilizes derivative instruments to mitigate the risk associated with market movements in the price of NGLs, refined products, and other commodities as necessary. These derivative contracts act as a hedging mechanism against the volatility of prices by allowing the Partnership to transfer this price risk to counterparties who are able and willing to bear it. The Partnership has not designated any of its derivative

contracts as hedges for accounting purposes, therefore, all realized and unrealized gains and losses from these derivative contracts are recognized in the consolidated statement of comprehensive income in the period in which they occur. All realized gains and losses associated with the Partnership's derivative contracts are recorded in earnings in the same line item associated with the forecasted transaction (either sales and other operating revenue, cost of products sold or operating expenses).

The Partnership had open derivative positions on approximately 15.5 and 9.2 million barrels of refined products and NGLs at September 30, 2016 and December 31, 2015, respectively. The derivatives outstanding as of September 30, 2016 vary in duration but do not extend beyond one year. The Partnership records its derivatives at fair value based on observable market prices (levels 1 and 2). As of September 30, 2016, the fair value of the Partnership's derivative assets and liabilities were approximately \$17 and \$39 million, respectively, compared to \$30 and \$18 million at December 31, 2015. Derivative asset and liability balances are recorded in accounts receivable and accrued liabilities, respectively, in the condensed consolidated balance sheets.

The following table sets forth the impact of derivatives on the Partnership's results of operations for the three and nine months ended September 30, 2016 and 2015:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Location of Gains (Losses) Recognized in Earnings				
Commodity contracts not designated as cash flow hedging instruments:				
Sales and other operating revenue	\$(12)	\$47	\$(29)	\$39
Cost of products sold	(1)	(14)	4	(24)
	\$(13)	\$33	\$(25)	\$15

Credit Risk Management

The Partnership maintains credit policies with regard to its counterparties that management believes minimize the overall credit risk through credit analysis, credit approvals, credit limits and monitoring procedures. The credit positions of the Partnership's customers are analyzed prior to the extension of credit and periodically after credit has been extended. The Partnership's counterparties consist primarily of financial institutions and major integrated oil companies. This concentration of counterparties may impact the Partnership's overall exposure to credit risk, either positively or negatively, as the counterparties may be similarly affected by changes in economic, regulatory or other conditions.

Interest Rate Risk Management

The Partnership has interest rate risk exposure for changes in interest rates related to its outstanding borrowings. The Partnership manages its exposure to changes in interest rates through the use of a combination of fixed-rate and variable-rate debt. At September 30, 2016, the Partnership had \$622 million of consolidated variable-rate borrowings under its revolving credit facility.

15. Fair Value Measurements

The Partnership applies fair value accounting for all assets and liabilities that are required to be measured at fair value under current accounting rules. The assets and liabilities measured at fair value on a recurring basis are comprised primarily of derivative instruments.

The Partnership determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Partnership utilizes valuation techniques that maximize the use of observable inputs (levels 1 and 2) and minimize the use of unobservable inputs (level 3) within the fair value hierarchy established by the FASB. The Partnership generally applies a "market approach" to determine fair value. This method uses pricing and other information generated by market transactions for identical or comparable assets and liabilities. Assets and liabilities are classified within the fair value hierarchy based on the lowest level (least observable) input that is significant to the measurement in its entirety.

The estimated fair value of the Partnership's financial instruments has been determined based on management's assessment of available market information and appropriate valuation methodologies. The Partnership's current assets (other than derivatives and inventories) and current liabilities (other than derivatives) are financial instruments and most of these items are recorded at cost in the condensed consolidated balance sheets. The estimated fair value of these financial instruments approximates their carrying value due to their short-term nature. The Partnership's derivatives are measured and recorded at fair value based on observable market prices (Note 14). The estimated fair value of the Partnership's senior notes is determined using observable market prices, as these notes are actively traded (level 1). The estimated aggregate fair value of the senior notes at September 30, 2016 was \$5.6 billion, compared to the carrying amount of \$5.4 billion. The estimated aggregate fair value of the senior notes at December 31, 2015 was \$4.2 billion, compared to the carrying amount of \$5.1 billion.

For further information regarding the Partnership's fair value measurements, see Note 14.

16. Business Segment Information

During the fourth quarter 2015, the Partnership realigned its reporting segments as a result of the continued investment in its organic growth capital program which has served to increase the integration that exists between its assets that service each commodity. This has also resulted in a shift in Management's strategic decision making process, resource allocation methodology, and assessment of the Partnership's financial results. The updated reporting segments are: Crude Oil, Natural Gas Liquids and Refined Products. The new segmentation provides the Partnership's investors with a more meaningful view of its business that is consistent with that of Management. For the purpose of comparability, all prior year segment disclosures have been recast to conform to the current year presentation. Such recasts had no impact on previously reported consolidated earnings.

The following tables summarize condensed consolidated statements of comprehensive income information for the Partnership's business segments and reconcile total segment Adjusted EBITDA to net income attributable to the Partnership for the three and nine months ended September 30, 2016 and 2015, respectively:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2016	2015	2016	2015
	(in millions)			
Sales and other operating revenue ⁽¹⁾				
Crude Oil	\$1,843	\$2,034	\$5,115	\$7,159
Natural Gas Liquids	148	304	577	833
Refined Products	198	69	542	189
Total sales and other operating revenue	\$2,189	\$2,407	\$6,234	\$8,181
Depreciation and amortization				
Crude Oil	\$60	\$55	\$176	\$157
Natural Gas Liquids	28	20	77	56
Refined Products	24	27	74	65
Total depreciation and amortization	\$112	\$102	\$327	\$278
Impairment charge and other matters				
Crude Oil	\$(15)	\$108	\$(112)	\$71
Natural Gas Liquids	(22)	(5)	(29)	(27)
Refined Products	—	—	(2)	—

⁽¹⁾ Corporate and other assets consist of cash and cash equivalents, properties, plants and equipment and other assets.

17. Supplemental Condensed Consolidating Financial Information

The Partnership serves as guarantor of the senior notes. These guarantees are full and unconditional. For the purposes of this footnote, Sunoco Logistics Partners L.P. is referred to as "Parent Guarantor" and Sunoco Logistics Partners Operations L.P. is referred to as "Subsidiary Issuer." All other consolidated subsidiaries of the Partnership are collectively referred to as "Non-Guarantor Subsidiaries."

The following supplemental condensed consolidating financial information reflects the Parent Guarantor's separate accounts, the Subsidiary Issuer's separate accounts, the combined accounts of the Non-Guarantor Subsidiaries, the combined consolidating adjustments and eliminations, and the Parent Guarantor's consolidated accounts for the dates and periods indicated. For purposes of the following condensed consolidating information, the Parent Guarantor's investments in its subsidiaries and the Subsidiary Issuer's investments in its subsidiaries are accounted for under the equity method of accounting.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

During the fourth quarter 2015, we realigned our reporting segments as a result of the continued investment in our organic growth capital program which has served to increase the integration that exists between our assets that service each commodity. This has also resulted in a shift in Management's strategic decision making process, resource allocation methodology, and assessment of our financial results. The updated reporting segments are: Crude Oil, Natural Gas Liquids and Refined Products. The new segmentation provides our investors with a more meaningful view of our business that is consistent with that of Management. For the purpose of comparability, all prior year segment disclosures have been recast to conform to the current presentation. Such recasts had no impact on previously reported consolidated earnings.

Results of Operations

The following table summarizes our consolidated operating results for the periods presented:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
	(in millions, except per unit data)			
Revenues				
Sales and other operating revenue:				
Unaffiliated customers	\$2,085	\$2,317	\$5,927	\$7,766
Affiliates	104	90	307	415
Total Revenues	2,189	2,407	6,234	8,181
Costs and Expenses				
Cost of products sold ⁽¹⁾	1,855	2,041	5,259	7,196
Operating expenses ⁽¹⁾	41	41	97	120
Selling, general and administrative expenses	27	26	81	76
Depreciation and amortization expense	112	102	327	278
Impairment charge and other matters	(37)	103	(143)	44
Total Costs and Expenses	1,998	2,313	5,621	7,714
Operating Income	191	94	613	467
Interest cost and debt expense, net	(68)	(49)	(198)	(151)
Capitalized interest	28	12	80	54
Other income	12	7	27	19
Income Before Provision for Income Taxes	163	64	522	389
Provision for income taxes	(8)	(7)	(19)	(18)
Net Income	155	57	503	371
Less: Net income attributable to noncontrolling interests	(1)	(1)	(2)	(2)
Less: Net income attributable to redeemable noncontrolling interests	—	—	—	(1)
Net Income Attributable to Sunoco Logistics Partners L.P.	\$154	\$56	\$501	\$368
Net Income Attributable to Sunoco Logistics Partners L.P. per Limited Partner unit:				
Basic	\$0.16	\$(0.07)	\$0.68	\$0.67
Diluted	\$0.16	\$(0.07)	\$0.68	\$0.66

In connection with the change in our reportable segments in the fourth quarter 2015, we adjusted the elimination of certain intercompany transactions to conform to the new segment presentation, which included recasting prior period amounts to conform to the current presentation. These changes did not impact our total expenses or net income.

Non-GAAP Financial Measures

To supplement our financial information presented in accordance with United States generally accepted accounting principles ("GAAP"), management uses additional measures that are known as "non-GAAP financial measures" in its evaluation of past performance and prospects for the future. The primary measures used by management are earnings before interest, taxes, depreciation and amortization expenses and other non-cash items ("Adjusted EBITDA"), and distributable cash flow ("DCF"). Adjusted EBITDA and DCF do not represent and should not be considered alternatives to net income or cash flows from operating activities as determined under GAAP and may not be comparable to similarly titled measures of other businesses.

Our management believes that Adjusted EBITDA and DCF information enhances an investor's understanding of a business's performance, which is a factor in evaluating its ability to generate cash for payment of distributions and other purposes. Adjusted EBITDA calculations are also defined and used as a measure in determining our compliance with certain revolving credit facility covenants. However, despite compliance with our credit facility covenants, there may be contractual, legal, economic or other factors which may prevent us from satisfying principal and interest obligations with respect to indebtedness and may require us to allocate funds for other purposes.

The following table reconciles the differences between net income, as determined under GAAP, and Adjusted EBITDA and DCF.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(in millions)			
Net Income	\$155	\$57	\$503	\$371
Interest expense, net	40	37	118	97
Depreciation and amortization expense	112	102	327	278
Impairment charge and other matters	(37)	103	(143)	44
Provision for income taxes	8	7	19	18
Non-cash compensation expense	5	4	16	12
Unrealized (gains) losses on commodity risk management activities	16	(32)	33	(9)
Amortization of excess investment in joint venture interests	1	1	2	2
Proportionate share of unconsolidated affiliates' interest, depreciation and provision for income taxes	12	10	31	23
Adjusted EBITDA	312	289	906	836
Interest expense, net	(40)	(37)	(118)	(97)
Provision for current income taxes	(7)	(8)	(17)	(22)
Amortization of fair value adjustments on long-term debt	(2)	(4)	(8)	(10)
Proportionate share of unconsolidated affiliates' interest, provision for current income taxes and maintenance capital expenditures ⁽¹⁾	(10)	(12)	(30)	(30)
Maintenance capital expenditures	(13)	(18)	(40)	(49)
Distributable cash flow attributable to noncontrolling interests	(1)	—	(2)	(2)
Contributions attributable to acquisition from affiliate	1	2	5	8
Distributable Cash Flow ⁽¹⁾	\$240	\$212	\$696	\$634

During the first quarter 2016, we changed our definition of distributable cash flow to conform to the presentation ⁽¹⁾ utilized by our general partner. The change did not have a material impact on our distributable cash flow. Prior period amounts have been recast to conform to current presentation.

Analysis of Consolidated Operating Results

Net income attributable to Sunoco Logistics Partners L.P. ("net income attributable to SXL") was \$154 and \$56 million for the three months ended September 30, 2016 and 2015, respectively. The increase was largely attributable to a \$140 million positive variance related to non-cash inventory adjustments resulting from changes in commodity prices compared to the prior year period. Also contributing to the increase was improved operating results from our Refined Products and Natural Gas Liquids segments and higher contributions from our joint venture interests. These positive factors were partially offset by lower operating results from our Crude Oil segment driven largely by acquisition and marketing activities, higher depreciation and amortization expense related to expansion capital projects placed into service in 2015 and 2016, and increased net interest expense.

Net income attributable to SXL was \$501 and \$368 million for the nine months ended September 30, 2016 and 2015, respectively. The increase was largely attributable to a \$187 million positive variance related to non-cash inventory adjustments resulting from changes in commodity prices compared to the prior year period. Also contributing to the increase was higher operating results from pipeline and terminal assets within our Crude Oil and Natural Gas Liquids segments, and improved contributions from our Refined Products segment and joint venture interests. These positive factors were partially offset by lower acquisition and marketing results from our Crude Oil and Natural Gas Liquids segments, higher depreciation and amortization expense related to expansion capital projects placed into service in 2015 and 2016, and higher net interest expense attributable to senior notes issued during both periods.

See "Analysis of Operating Segments" and "Liquidity and Capital Resources" below for additional details on operating results.

Analysis of Operating Segments

We manage our operations through three operating segments: Crude Oil, Natural Gas Liquids and Refined Products. Crude Oil

Our Crude Oil segment utilizes an integrated set of pipeline, terminalling, and acquisition and marketing assets that facilitate the movement of crude oil from producers to end-user markets. The segment includes crude oil trunk and gathering pipelines in the southwest and midwest United States, including those owned by our joint venture interests, terminalling assets in key crude oil markets, and a crude oil trucking fleet that supports the sale of gathered and bulk purchased crude oil. Revenues are generated from tariffs and the associated fees paid by shippers utilizing our pipeline assets with rates for shipments on the crude oil pipelines regulated by the Federal Energy Commission ("FERC") and other state regulatory agencies, as applicable. The Crude Oil segment also generates revenues from fees for terminalling services provided and the marketing of crude oil.

The crude oil acquisition and marketing activities generate substantial revenue and cost of products sold as a result of the significant volumes bought and sold. The absolute price levels of crude oil normally do not bear a relationship to gross profit, although the price levels significantly impact revenue and costs of products sold. As a result, period-to-period variations in revenue and cost of products sold are not generally meaningful in analyzing the variation in gross profit for the segment. The operating results of the Crude Oil segment are affected by overall levels of supply and demand for crude oil and relative fluctuations in market related indices. To the extent there are periods of sustained crude oil price declines, drilling activity could decline impacting the volume of crude oil we transport, store, or buy and sell. Generally, we expect a base level of earnings from our Crude Oil segment that may be optimized and enhanced when there is a high level of market volatility, favorable basis differentials and/or a steep contango or backwardated structure. Our management believes gross profit, which is equal to sales and other operating revenue less cost of products sold and operating expenses, is a key measure of financial performance. Although we implement risk management activities to provide general stability in our margins, these margins are not fixed and will vary from period to period.

The following table summarizes the operating results and key operating measures for our Crude Oil segment for the periods presented:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2016	2015	2016	2015
	(in millions, except for barrel amounts)			
Sales and other operating revenue:				
Unaffiliated customers	\$ 1,834	\$ 2,020	\$ 5,098	\$ 6,972
Affiliates	9	14	17	187
Total sales and other operating revenue	\$ 1,843	\$ 2,034	\$ 5,115	\$ 7,159
Depreciation and amortization expense	\$ 60	\$ 55	\$ 176	\$ 157
Impairment charges and other matters ⁽¹⁾	\$(15)	\$ 108	\$(112)	\$ 71
Adjusted EBITDA	\$ 165	\$ 179	\$ 503	\$ 502
Pipeline throughput (thousands of barrels per day ("bpd")) ⁽²⁾ ⁽³⁾	2,516	2,395	2,380	2,232
Terminal throughput (thousands of bpd)	1,559	1,409	1,524	1,343
Gross profit ⁽⁴⁾	\$ 173	\$ 191	\$ 531	\$ 538

⁽¹⁾ Represents non-cash inventory adjustments related to changes in commodity prices.

⁽²⁾ Excludes amounts attributable to equity ownership interests which are not consolidated.

⁽³⁾ Prior period pipeline throughput amounts have been restated to conform to current presentation.

⁽⁴⁾ Represents total segment sales and other operating revenue less costs of products sold and operating expenses.

Adjusted EBITDA for the Crude Oil segment decreased \$14 million to \$165 million for the three months ended September 30, 2016, as compared to \$179 million for the prior year period. The decrease was largely attributable to lower operating results from our crude oil acquisition and marketing activities (\$38 million), which includes

transportation and storage fees related to our crude oil pipelines and terminal facilities, resulting from lower crude oil differentials compared to the prior year period. This decrease was partially offset by improved results from our crude oil pipelines (\$21 million) which benefited from the Delaware Basin Extension and Permian Longview and Louisiana Extension pipelines that commenced operations in the third quarter 2016. Higher contributions from joint venture interests (\$4 million) also contributed to the offset.

Adjusted EBITDA for the Crude Oil segment increased \$1 million to \$503 million for the nine months ended September 30, 2016, as compared to \$502 million for the prior year period. The slight increase was largely due to improved results from our crude oil pipelines (\$116 million) which benefited from the Permian Express 2 pipeline that commenced operations in third quarter 2015 and the Delaware Basin Extension and Permian Longview and Louisiana Extension pipelines that commenced operations in the third quarter 2016. Higher results from our crude oil terminals (\$20 million), largely related to our Nederland facility, and improved contributions from joint venture interests (\$9 million) also contributed to the increase. These positive factors were largely offset by a decrease in operating results from our crude oil acquisition and marketing activities (\$140 million), which includes transportation and storage fees related to our crude oil pipelines and terminal facilities, due to lower crude oil differentials and decreased volumes.

Natural Gas Liquids

Our Natural Gas Liquids segment transports, stores, and executes acquisition and marketing activities utilizing an integrated network of pipeline assets in the northeast and southwest United States, storage and blending facilities, and strategic off-take locations that provide access to multiple natural gas liquid ("NGL") markets. Revenues are generated from tariffs and the associated fees paid by shippers utilizing our pipeline assets, fees for terminalling services provided, and the marketing of NGLs. Rates for shipments on the NGLs pipelines are regulated by the FERC and other state and Canadian regulatory agencies, as applicable.

The following table summarizes the operating results and key operating measures for our Natural Gas Liquids segment for the periods presented:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2016	2015	2016	2015
	(in millions, except for barrel amounts)			
Sales and other operating revenue:				
Unaffiliated customers	\$106	\$255	\$450	\$678
Affiliates	42	49	127	155
Total sales and other operating revenue	\$148	\$304	\$577	\$833
Depreciation and amortization expense	\$28	\$20	\$77	\$56
Impairment charge and other matters ⁽¹⁾	\$(22)	\$(5)	\$(29)	\$(27)
Adjusted EBITDA	\$77	\$66	\$229	\$223
Pipeline throughput (thousands of bpd)	289	205	268	190
Terminal throughput (thousands of bpd)	252	205	229	174
Gross profit ⁽²⁾	\$68	\$104	\$234	\$250

⁽¹⁾ Represents non-cash inventory adjustments related to changes in commodity prices.

⁽²⁾ Represents total segment sales and other operating revenue less costs of products sold and operating expenses.

Adjusted EBITDA for the Natural Gas Liquids segment increased \$11 million to \$77 million for the three months ended September 30, 2016, as compared to \$66 million for the prior year period. The increase was largely attributable to increased volumes and fees from our Mariner NGLs projects (\$23 million), which includes our NGLs pipelines and Marcus Hook and Nederland facilities. These positive factors were partially offset by lower operating results from our NGLs acquisition and marketing activities (\$11 million).

Adjusted EBITDA for the Natural Gas Liquids segment increased \$6 million to \$229 million for the nine months ended September 30, 2016, as compared to \$223 million for the prior year period. The increase was largely attributable to increased volumes and fees from our Mariner NGLs projects (\$73 million), which includes our NGLs pipelines and Marcus Hook and Nederland facilities. These factors were largely offset by lower operating results from our NGLs acquisition and marketing activities (\$66 million).

Refined Products

Our Refined Products segment provides transportation and terminalling services through the use of refined products pipelines and approximately 40 active refined products marketing terminals. The segment includes our controlling financial interest in Inland Corporation ("Inland"), as well as equity ownership interest in four refined products pipelines. The Refined Products segment utilizes our integrated pipeline and terminalling assets, as well as acquisition and marketing activities, to service refined products markets in the northeast and midwest United States. Revenues are generated from tariffs and the associated fees paid by shippers utilizing our pipeline assets, fees for terminalling services provided, and the marketing of refined products. Rates for shipments on the refined products pipelines are regulated by the FERC and other associated state entities.

The following table summarizes the operating results and key operating measures for our Refined Products segment for the periods presented:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	(in millions, except for barrel amounts)			
Sales and other operating revenue:				
Unaffiliated customers	\$145	\$42	\$379	\$116
Affiliates	53	27	163	73
Total sales and other operating revenue	\$198	\$69	\$542	\$189
Depreciation and amortization expense	\$24	\$27	\$74	\$65
Impairment charge and other matters ⁽¹⁾	\$—	\$—	\$(2)	\$—
Adjusted EBITDA	\$70	\$44	\$174	\$111
Pipeline throughput (thousands of bpd) ^{(2) (3)}	611	522	573	492
Terminal throughput (thousands of bpd)	570	562	554	518
Gross profit ⁽⁴⁾	\$52	\$30	\$113	\$77

⁽¹⁾ Represents non-cash inventory adjustments related to changes in commodity prices.

⁽²⁾ Excludes amounts attributable to equity ownership interests which are not consolidated.

⁽³⁾ Prior period pipeline throughput amounts have been restated to conform to current presentation.

⁽⁴⁾ Represents total segment sales and other operating revenue less costs of products sold and operating expenses.

Adjusted EBITDA for the Refined Products segment increased \$26 million to \$70 million for the three months ended September 30, 2016, as compared to \$44 million for the prior year period. The increase was primarily attributable to improved operating results from our refined products pipelines (\$11 million), which benefited from higher volumes on our Allegheny Access pipeline, and higher results from our refined products acquisition and marketing activities (\$10 million). Improved contributions from joint venture interests (\$3 million) and our refined products terminals (\$2 million) also contributed to the increase.

Adjusted EBITDA for the Refined Products segment increased \$63 million to \$174 million for the nine months ended September 30, 2016, as compared to \$111 million for the prior year period. The increase was driven primarily by improved operating results from our refined products pipelines (\$29 million), which benefited from higher volumes on our Allegheny Access pipeline, and higher results from our refined products acquisition and marketing activities (\$20 million). Higher earnings attributable to our refined products terminals (\$7 million) and improved contributions from joint venture interests (\$7 million) also contributed to the increase.

Liquidity and Capital Resources

Liquidity

Cash generated from operations and borrowings under our \$2.50 billion revolving credit facility are our primary sources of liquidity. At September 30, 2016, we had a net working capital surplus of \$601 million and available borrowing capacity of \$1.9 billion under our revolving credit facility. We supplement our cash flows from operations with proceeds from our at-the-market equity offering program ("ATM" program) and periodically with debt and equity financing activities.

Credit Facilities

We maintain a \$2.50 billion unsecured revolving credit agreement (the "\$2.50 billion Credit Facility"), which matures in March 2020, to fund our working capital requirements, finance acquisitions and capital projects, and for general partnership purposes. The \$2.50 billion Credit Facility contains an "accordion" feature, under which the total aggregate commitment may be extended to \$3.25 billion under certain conditions. In September 2015, we initiated a commercial paper program under the borrowing limits established by our \$2.50 billion Credit Facility. In June 2015, the \$2.50 billion Credit Facility was amended to create a segregated tranche of borrowings that will be guaranteed by ETP. The amendment did not modify the outstanding borrowings, total capacity or terms of the facility. Outstanding borrowings amounted to \$622 and \$562 million at September 30, 2016 and December 31, 2015, respectively. Borrowings under the \$2.50 billion Credit Facility at September 30, 2016 included \$140 million of commercial paper. The \$2.50 billion Credit Facility contains various covenants including limitations on the creation of indebtedness and liens, and related to the operation and conduct of our business. The credit facility also limits us, on a rolling four quarter basis, to a maximum total consolidated debt to consolidated Adjusted EBITDA ratio, as defined in the underlying credit agreement, of 5.0 to 1, which can generally be increased to 5.5 to 1 during an acquisition period. Our ratio of total consolidated debt, excluding net unamortized fair value adjustments, to consolidated Adjusted EBITDA was 3.6 to 1 at September 30, 2016, as calculated in accordance with the credit agreement.

Senior Notes

The Operating Partnership had \$175 million of 6.125 percent Senior Notes which matured and were repaid in May 2016 with borrowings under the \$2.50 billion Credit Facility.

In July 2016, we issued \$550 million of 3.90 percent Senior Notes (the "2026 Senior Notes"), due July 2026, for net proceeds of \$544 million. The terms and conditions of the 2026 Senior Notes are comparable to those of our other outstanding senior notes. The net proceeds from this offering were used to repay outstanding credit facility borrowings and for general partnership purposes.

Equity Offerings

We maintain an ATM program which allows us to issue common units directly to the public and raise capital in a timely and efficient manner to finance our growth capital program, while supporting our investment grade credit ratings. For the three months ended September 30, 2016 and 2015, the Partnership issued 2.8 and 7.6 million common units under this program, for net proceeds of \$77 and \$261 million, respectively. For the nine months ended September 30, 2016 and 2015, the Partnership issued 29.1 and 17.2 million common units under this program, for net proceeds of \$744 and \$645 million, respectively.

In September 2016, we completed a public offering of 21.0 million common units for proceeds of \$560 million, net of \$7 million in fees and commissions to managers. The net proceeds from this offering were used to partially fund the acquisition from Vitol Inc. ("Vitol"), which closed in November 2016. In October 2016, an additional 3.2 million common units were issued for proceeds of \$84 million, net of \$1 million in fees and commissions to managers, related to the exercise of an option in connection with the September 2016 offering.

In March and April 2015, a total of 15.5 million common units were issued in connection with a public offering and related option exercise. Total proceeds of \$629 million were used to repay outstanding borrowings under the \$2.50 billion Credit Facility and for general partnership purposes.

Bakken Project Initiatives

In August 2016, the Bakken entities' established a \$2.5 billion credit facility which is anticipated to provide substantially all of the remaining capital necessary to complete the project. Borrowings under the credit facility are secured by all assets of the Bakken entities, as well as the ownership interests maintained by the joint partners. Until

certain governmental permits required for operation are obtained, the facility is limited to \$1.1 billion in borrowings. At September 30, 2016, \$1.1 billion was outstanding under the Bakken credit facility.

The joint partners agreed to provide the Bakken entities with a short-term loan until the full capacity of the \$2.5 billion credit facility can be utilized. The loan was made by the partners in proportion to their respective ownership interests. The outstanding balance of the note receivable due to us by the Bakken entities at September 30, 2016 was \$100 million.

In August 2016, we also announced with ETP the signing of an agreement to sell 49 percent of our respective interests in the Bakken Pipeline project for \$2.0 billion to MarEn Bakken Company LLC, an entity jointly owned by Marathon Petroleum Corporation and Enbridge Energy Partners, L.P. The transaction is expected to close in the fourth quarter 2016, subject to certain closing conditions, at which time we will receive \$800 million. The carrying amount of our investment in the Bakken Pipeline project was \$631 million at September 30, 2016. Subsequent to closing, our ownership interest in the Bakken Pipeline project will be 15.3 percent.

Cash Flows and Capital Expenditures

Operating Activities

Cash flows from operating activities are primarily driven by earnings, excluding the impact of non-cash items, the timing of cash receipts and disbursements related to accounts receivable and payable, the timing of inventory transactions and changes in other working capital amounts. Non-cash items include depreciation, amortization, and impairment charges and related matters. See the Analysis of Consolidated Operating Results, above, for more information on changes in our consolidated earnings.

Net cash provided by operating activities for the nine months ended September 30, 2016 of \$528 million was primarily related to net income of \$503 million and a non-cash adjustment for depreciation and amortization totaling \$327 million. These sources of cash were partially offset by a \$143 million non-cash inventory adjustment related to changes in commodity prices and a \$150 million increase in working capital largely attributable to an increase in our net receivables position and inventories.

Net cash provided by operating activities for the nine months ended September 30, 2015 of \$297 million was primarily related to net income of \$371 million, adjusted for non-cash charges for depreciation and amortization totaling \$278 million and a \$44 million non-cash inventory adjustment related to changes in commodity prices. These sources of cash were partially offset by a \$405 million increase in working capital largely attributable to a net decrease in payables and an increase in inventories.

Investing Activities

Cash flows used in investing activities relate primarily to our capital expenditures, including maintenance and expansion capital expenditures, and acquisitions. See "Capital Requirements" below for additional details on our investing activities.

Net cash used in investing activities of \$1.6 billion for the nine months ended September 30, 2016 primarily included \$1.4 billion of expansion and maintenance capital expenditures and a \$100 million increase in an affiliated note receivable. The net use of cash was also impacted by the August 2016 acquisition of an additional 1.7 percent ownership interest in the Explorer Pipeline Company ("Explorer") joint venture for \$17 million.

In addition to \$1.7 billion of cash used for expansion and maintenance capital expenditures, net cash used in investing activities for the nine months ended September 30, 2015 included the \$131 million acquisition of the remaining noncontrolling interest in the West Texas Gulf Pipe Line Company ("West Texas Gulf").

Financing Activities

Cash flows from financing activities relate primarily to the payment of distributions to partners; proceeds from overnight equity and ATM offerings; proceeds and repayments related to senior notes; and borrowings and repayments under our credit facility.

Net cash provided by financing activities for the nine months ended September 30, 2016 of \$1.0 billion resulted primarily from \$1.3 billion of net proceeds from the public offering of common units and our ATM program; \$544 million of net proceeds from a senior notes offering; and \$60 million of net borrowings under our credit facility. These sources of cash were partially offset by \$695 million in distributions paid to limited partners and the general partner, and repayment of the \$175 million 6.125 percent Senior Notes in May 2016.

Net cash provided by financing activities for the nine months ended September 30, 2015 of \$1.5 billion resulted primarily from \$1.3 billion of net proceeds from the public equity offering of common units and our ATM program, and the \$694 million of net borrowings under our credit facility. These sources of cash were partially offset by \$491 million in distributions paid to limited partners and the general partner.

Capital Requirements

Our operations are capital intensive, requiring significant investment to maintain, upgrade and enhance existing assets and to comply with environmental and operational regulations. The capital requirements have consisted, and are expected to continue to consist, primarily of:

Expansion capital expenditures to acquire and integrate complementary assets to improve operational efficiencies or reduce costs and to expand existing and construct new facilities, such as projects that increase storage or throughput volume, and joint projects which complement our existing asset base,

Maintenance capital expenditures that extend the usefulness of existing assets, such as those required to maintain equipment reliability, tankage and pipeline integrity and safety, and to address environmental regulations, and

Acquisitions to acquire and integrate complementary assets to grow the business, to improve operational efficiencies or reduce costs.

The following table summarizes our capital expenditures for the periods presented:

	Nine Months Ended September 30, 2016 2015 (in millions)	
Expansion	\$1,392	\$1,467
Maintenance	40	49
Acquisitions	17	131
Total	\$1,449	\$1,647

Expansion capital expenditures for the nine months ended September 30, 2016 included spending to: invest in the announced Mariner NGLs projects; invest in our crude oil infrastructure by increasing our pipeline capabilities through announced expansion capital and joint projects; expand the service capabilities of our acquisition and marketing activities; and upgrade the service capabilities at our bulk marine terminals.

We expect 2016 expansion capital of approximately \$1.0 billion, including the anticipated proceeds from the sale of a portion of our interest in the Bakken pipeline in the fourth quarter 2016 and excluding acquisitions.

Maintenance capital expenditures for both periods presented primarily included recurring expenditures such as pipeline integrity costs; pipeline relocations; repair and upgrade of field instrumentation, including measurement devices; repair and replacement of tank floors and roofs; upgrades of cathodic protection systems, crude trucks and related equipment; and the upgrade of pump stations.

Acquisitions included the purchase of an additional ownership interest in Explorer Pipeline Company in 2016 and the purchase of the remaining noncontrolling interest in West Texas Gulf in 2015.

In November 2016, we completed an acquisition from Vitol for an integrated crude oil business in West Texas for \$760 million plus working capital. The acquisition provides us with an approximately 2 million barrel crude oil terminal in Midland, Texas, a crude oil gathering and mainline pipeline system in the Midland Basin, including a significant acreage dedication from an investment-grade Permian producer, and crude oil inventories related to Vitol's crude oil purchasing and marketing business in West Texas. The acquisition also included the purchase of a 50 percent interest in SunVit Pipeline LLC ("SunVit"), which increased our overall ownership of SunVit to 100 percent. SunVit connects the Midland terminal to our Permian Express 2 pipeline, a key takeaway to bring Permian crude oil to multiple markets.

Our capital expenditures, including any acquisitions, are expected to be primarily funded from cash provided by operations, borrowings under our credit facility, and with proceeds from debt and equity offerings, as necessary.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various risks, including volatility in the interest rates associated with our variable-rate debt and in the prices of the products that we market. In order to manage such exposure, debt levels, interest rates, inventory levels and expectations of future commodity prices are monitored when making decisions with respect to risk management.

Interest Rate Risk

We have interest rate risk exposure for changes in interest rates relating to our outstanding borrowings. We manage our exposure to changing interest rates through the use of a combination of fixed-rate and variable-rate debt. At September 30, 2016, we had \$622 million of variable-rate borrowings under our revolving credit facility. Outstanding borrowings bear interest cost at LIBOR plus an applicable margin. An increase in short-term interest rates will have a negative impact on funds borrowed under variable-rate debt arrangements. Our weighted average interest rate on our variable-rate borrowings was approximately 2 percent at September 30, 2016. A one-percent movement in the weighted average rate would have impacted interest expense by approximately \$8 million for the nine months ended September 30, 2016.

At September 30, 2016, we had \$5.4 billion of fixed-rate borrowings which was comprised of our outstanding senior notes. This amount excludes the \$85 million of unamortized fair value adjustments resulting from the application of push-down accounting in connection with the acquisition of our general partner by ETP. The estimated fair value of our senior notes was \$5.6 billion at September 30, 2016. A hypothetical one-percent movement in interest rates would have impacted the fair value of our fixed-rate borrowings by approximately \$575 million.

Commodity Market Risk

We are exposed to volatility in the prices of the products we market. To manage such exposures, inventory levels and expectations regarding future commodity prices are monitored when making decisions with respect to risk management and inventory carried. Our policy is to purchase only commodity products for which we have a market, and to structure our sales contracts so that price fluctuations for those products do not materially affect the margins we receive. We also seek to maintain a position that is substantially balanced within our various commodity purchase and sale activities. We may experience net unbalanced positions for short periods of time as a result of production, transportation and delivery variances, as well as logistical issues associated with inclement weather conditions. When unscheduled physical inventory builds or draws occur, they are monitored and managed to a balanced position over a reasonable period of time.

We do not use futures or other derivative instruments to speculate on crude oil, natural gas liquids ("NGLs") or refined products prices, as these activities could expose us to significant losses. We do use derivative contracts as economic hedges against price changes related to our forecasted NGLs and refined products purchase and sale activities. These derivatives are intended to have equal and opposite effects of the related physical purchase and sale activities. At September 30, 2016, the fair market value of our open derivative positions resulted in a net liability of \$22 million on 15.5 million barrels of NGLs and refined products. These derivative positions vary in length but do not extend beyond one year.

For additional information concerning our commodity market risk activities, see Note 14 to the condensed consolidated financial statements.

Forward-Looking Statements

Some of the information in this quarterly report on Form 10-Q discusses our goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or states other information relating to us, based on the current beliefs of our management as well as assumptions made by, and information currently available to, our management.

Words such as "may," "anticipates," "believes," "expects," "estimates," "planned," "scheduled" or similar phrases or expressions identify forward-looking statements. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions, any or all of which may ultimately prove to be inaccurate. These statements are subject to numerous assumptions, uncertainties and risks that may cause future results to be materially different from the results projected, forecasted, estimated or budgeted, including, but not limited to the following:

- Our ability to successfully consummate announced acquisitions or expansions and integrate them into our existing business operations;
- Delays related to construction of, or work on, new or existing facilities and the issuance of applicable permits;
- Changes in the supply of, or demand for crude oil, NGLs and refined products that impact demand for our pipeline, terminalling and storage services;
- Changes in the short-term and long-term demand for crude oil, NGLs and refined products we buy and sell;
- An increase in the competition encountered by our terminals, pipelines and acquisition and marketing operations;
- Changes in the financial condition or operating results of joint ventures or other holdings in which we have an equity ownership interest;
- Changes in the general economic conditions in the United States;
- Changes in laws and regulations to which we are subject, including federal, state, and local tax, safety, environmental and employment laws;
- Changes in regulations governing the composition of the products that we transport, terminal and store;
- Improvements in energy efficiency and development of technology resulting in reduced demand for refined petroleum products;
- Our ability to manage growth and/or control costs;
- The effect of changes in accounting principles and tax laws, and interpretations of both;
- Global and domestic economic repercussions, including disruptions in the crude oil, NGLs and refined products markets, from terrorist activities, international hostilities and other events, and the government's response thereto;
- Changes in the level of operating expenses and hazards related to operating our facilities (including equipment malfunction, explosions, fires, spills and the effects of severe weather conditions);
- The occurrence of operational hazards or unforeseen interruptions for which we may not be adequately insured;
- The age of, and changes in the reliability and efficiency of our operating facilities;
- Changes in the expected level of capital, operating, or remediation spending related to environmental matters;
- Changes in insurance markets resulting in increased costs and reductions in the level and types of coverage available;
- Risks related to labor relations and workplace safety;
- Non-performance by or disputes with major customers, suppliers or other business partners;
 - Changes in our tariff rates implemented by federal and/or state government regulators;
- The amount of our debt, which could make us vulnerable to adverse general economic and industry conditions, limit our ability to borrow additional funds, place us at competitive disadvantages compared to competitors that have less debt, or have other adverse consequences;
- Restrictive covenants in our credit agreements;
- Changes in our or our general partner's credit ratings, as assigned by ratings agencies;
- The condition of the debt and equity capital markets in the United States, and our ability to raise capital in a cost-effective way;
- Performance of financial institutions impacting our liquidity, including those supporting our credit facilities;
-

The effectiveness of our risk management activities, including the use of derivative financial instruments to hedge commodity risks;

Changes in interest rates on our outstanding debt, which could increase the costs of borrowing; and

The costs and effects of legal and administrative claims and proceedings against us or any entity in which we have an ownership interest, and changes in the status of, or the initiation of new litigation, claims or proceedings, to which we, or any entity in which we have an ownership interest, are a party.

These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results. We undertake no obligation to update publicly any forward-looking statement, whether as a result of new information or future events.

Item 4. Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the Partnership's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified by the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the Partnership's reports under the Exchange Act is accumulated and communicated to management, including the President and Chief Executive Officer and Chief Financial Officer and Treasurer of Sunoco Partners LLC (the Partnership's general partner), as appropriate, to allow timely decisions regarding required disclosure.

As of September 30, 2016, the Partnership carried out an evaluation, under the supervision and with the participation of management of the general partner (including the President and Chief Executive Officer and the Chief Financial Officer and Treasurer), of the effectiveness of the design and operation of the Partnership's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the general partner's President and Chief Executive Officer and its Chief Financial Officer and Treasurer concluded that the Partnership's disclosure controls and procedures were effective.

No change in the Partnership's internal control over financial reporting has occurred during the fiscal quarter ended September 30, 2016 that has materially affected, or that is reasonably likely to materially affect, the Partnership's internal control over financial reporting.

PART II.

OTHER INFORMATION

Item 1. Legal Proceedings

There are certain proceedings arising prior to the February 2002 initial public offering ("IPO") pending against Sunoco, Inc. ("Sunoco") and us (as successor to certain liabilities of those predecessors). Although the ultimate outcome of these proceedings cannot be ascertained at this time, it is reasonably possible that some of them may be resolved unfavorably. Sunoco has agreed to indemnify the Partnership for 100 percent of all losses from environmental liabilities related to the transferred assets arising prior to, and asserted within 21 years of February 8, 2002. There is no monetary cap on this indemnification from Sunoco. Sunoco's share of liability for claims asserted thereafter will decrease by 10 percent each year through the thirtieth year following the February 8, 2002 date. Any remediation liabilities not covered by this indemnity will be our responsibility. In addition, Sunoco is obligated to indemnify us under certain other agreements executed after the IPO.

In June 2016, the Pipeline Hazardous Material Safety Administration ("PHMSA") issued Notices of Probable Violation ("NOPV") and a proposed compliance order ("PCO") in connection with alleged violations on the Partnership's Texas crude oil pipeline system. The proposed penalties are in excess of \$0.1 million, and the Partnership is currently in discussions with the PHMSA to resolve these matters. The timing or outcome of these matters cannot be reasonably determined at this time, however, the Partnership does not expect there to be a material impact to its results of operations, cash flows, or financial position.

In July 2016, the PHMSA issued a NOPV and PCO in connection with inspection and maintenance activities related to a 2013 incident on the Partnership's crude oil pipeline near Wortham, Texas. The proposed penalties are in excess of \$0.1 million, and the Partnership is currently in discussions with the PHMSA to resolve these matters. The timing or outcome of these matters cannot be reasonably determined at this time, however, the Partnership does not expect there to be a material impact to its results of operations, cash flows, or financial position.

There are certain pending legal proceedings related to matters arising after the IPO that are not indemnified by Sunoco. Our management believes that any liabilities that may arise from these legal proceedings will not be material to our results of operations, financial position or cash flows at September 30, 2016.

For additional information related to these proceedings, refer to the Partnership's Annual Report on Form 10-K for the year ended December 31, 2015, filed on February 26, 2016, and Forms 10-Q for the periods ended March 31, 2016 and June 30, 2016, filed on May 5, 2016 and August 4, 2016, respectively.

Item 1A. Risk Factors

There have been no material changes from the risk factors described previously in Part I, Item 1A. of the Partnership's Annual Report on Form 10-K for the year ended December 31, 2015, filed on February 26, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.
